"Queen Esther"

Reigns over Jordan Province next Thursday.

Haman Liable to be Hung the Same Day.

For a number of weeks past a halfhundred of our musically inclined townspeople under direction of Miss Blanche Robertson, have been practicing Bradbury's beautiful cantata-"Queen Esther"-and next Thursday evening at Loveday Opera House our citizens will be offered a musical treat which none should miss. Costumes direct from New York, have been secured. An Excursion will be run over the Detroit & Charlevoix R'y from Frederic to accompdate those of our sister towns who wish to attend. Regular House prices will be charged, viz: 25c, 35c and 50c, box seats 75c; reserved seats at Boosinger Bros. as

Below we give a brief Synopsis of the play and also the cast of characters for that evening.

SYNOPSIS.

Esther was born in Persia 500 years the plot and charges the Queen to Mesdames H. H. Fuller, A. J. Suffern her life, on account of the law that no one shall go unto the King unbidden. The King hears her petition, and Haman is defeated. Haman has prepared a gallows for Mordical. An attendant informs the King of the fact. The King orders Haman to be hanged from it and proclaims Mordecai Premief in his stead. After this the people

Wants "Machine" Him-

Herald......Tom Lalonde

Harbonah..... Bert Sheldon

In the last gubernatorial campaign. W. N. Ferris of Big Rapids, the democratic candidate, toured the state and with his characteristic eloquence, denounced the republican organization, popularly called the "machine."

In a recent interview, Prof. Ferris, in discussing his possible candidacy in the next campaign, emphasized the fact that if the democrats expected any show whatever, it would be absolutely necessary for them to ergan-ize in each district and county to unite against the republican organization. In other words, before Professor Ferris allows himself to be again used interfered with and great losses have by the democrats, he demands that they erganize such a "machine" as he denounced in the last campaign.

Professor Ferris has evidently experienced a change of heart. He has found that in order to become governor it will be necessary for him to maintain a machine, even though he desounced such an institution in his been arrested. The activity of the public utterances. He has evidently present administration is doing things forgotten the iniquities of the repub lican machine in his zeal to reach the create opposition and cause critiscim. governor's chair and is perfectly wil- but only the dying are safe from such ling to use such a concern to further afflictions. his own ambitions.

Successful Entertainm'nt

The School Entertainment at the Loveday Opera House Friday evening, Feb'v-16th, the first in a series for the High School Library and Laboratory, was a complete success in every detail. The songs, "Hunter's Horn' and "Soldier's Chorus" by high school Mrs. H. H. Fuller, directoress, were simply fine and proved what a great advantage a music teacher in the school brings. The Misses Harriet Hoyt and Blanche Robertson's vocal selections were given a hearty applaud. Ladies' quartett, the Misses Porter, Haire, Camp, Barret, (song) "Ping-Pang-Wang" was well executed and they were called back for an encore. The Instrumental Duet, the Misses Nicholas and Porter was highly appreciated. The "Shaking Quakers" in costume, the little Misses Porter. Hoyt, Haire, Bush, French, Jamesen and Master Whittington, was a very pleasing number on the program, the little folks acted their parts well and met with a hearty applause. The reading of "Ben Hur's Charlot Race" by H. H. Fuller needs no comment it fists of the lucre loving shall relax Marquette will sell round trip excurwas so well rendered that he was called back and responded with an encore before Christ. Being an orphan from that also was a gem. "The Merchant infancy she was adopted by her uncle, of Venice' given by members of the Mordecal, whe, recognizing her great high school, three scenes, closing with natural beauty, trained her in the ac- the famous trial scene, is worthy of a complishments of highest womanhood. good deal of praise to both the actors She was chosen by the King of the and the director, H. H. Fuller. The Realm to be his wife and Queen. She costumes, stage settings and the well did not disclose her nationality, trained performers demonstrated that Haman was Premier and favorite of they might be classed with the prothe King. Haman hated Mordecal, responds. The quartett by Mesbecause he would not worship him as dames Haire and Bush and Messrs the King had commanded. What's The Use.

Advised to do Less Grafting in This Life.

Why is man born with the closed fists? Because he wants to grasp everything. And why does he die with palms outstretched? To show that he takes nothing along with him. The Talmud.

The lesson of the Talmud is a great one for this day of ours.

In their money madness men grasp at the very motes in air. They rayage the earth and rob their fellows. For money's sake they sell their souls to the devil.

The marching chorus of the modern money pirates is "Grab, Grab, Grab." And what's the use?

Yet a little while and these grabbers will pass away. Whose then shall these things be. The spoil of ungrateful heirs, or the pay of greedy lawyers, or the food of harpies who fatten on the funds of widews and orphans. Some or all of these are waiting for the day when the closed and the palms be outstretched.

There are no pockets in shrouds. Soon the grabing hand shall forget its ounning and the lying tongue particulars. cleave to the roof of the mouth. What's the use?

THE NATION'S FORESTS.

BRILLIANT ADDRESS AT ANNUAL CONVENTION AMERICAN FOR-ESTRY ASSOCIATION:

Secretary Wilson Sounds Warning Note on Forest Destruction—Million Acres Should Be Tree-planted— Everett Hale in Vigorous S

Secretary Wilson has more than

once manifested a deep interest in the question of American Forestry. Mr. Wilson has, in fact, for some years been elected and re-elected President of the American Forestry Association, a pow-erful organization, composed of public pirited men throughout the country, which has probably done more than any other one influence to awaken national interest in the enormous destruction of the forests and the neces sity for their business-like management and preservation, even to the referest ation of denuded areas and the plant

That the movement in the United States is coming to be considered an important one is to some extent evidenced by the increased recognition of the subject by Congress, which is also due largely to Secretary Wilson's enthusiasm. When Mr. Wilson was appointed Secretary of Agriculture by President McKinley, his forestry division consisted of COC Secretary dispersions as as as a property of the subject by Congress, which is also due largely to Secretary Wilson's enthusiasm. When Mr. Wilson was appointed Secretary of Agriculture by President McKinley, his forestry division consisted of COC Secretary dispersions as as as a property of the should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some reference to the future; in ether words they should be cut with some r vision consisted of one forester, an assistant forester and five clerks and

the United States, 40 years from to-day there will be not an acre left of merchantable timber.

Common Sense Forestry.

"What are we geing to do?" asked Dr. Hale in his deep voice. "We must use both common sense and sentiment in dealing with the forest question. It is a very great question. The individuals interested in American forestry, even though they be millionaires or multi-millionaires, can not accom-plish anything definite and lasting un-less the states and the general government can be awakened to the necessity of giving the cause large and substantial assistance which it merits. Common sense, in forestry, means that the forestry question should be put upon a business basis. In order to make a large, immediate profit forests are de-

An Organization Which Brings Good Cheer into Darkened Hearts.

Among the many societies organized by the generous men and women of to-day for the welfare and happi-ness of others none has quite so inter-esting a history and unique a character as the International Sunshine So-

It is so broad in its scepe that it embraces all the charities, yet is in itself no sense a charity, but an interchange of kindly greeting and the passing on of good cheer, material or otherwise. Sunshiners do not labor under any rules, but there is always the personal touch of sympathy which means so much to the unfortunate man or woman to whom fate has seemed unkind.

A more appropriate name could not have been found for the society, the members of which pledge themselves to sunshine into the lives of others; to do something each day to lighten someone's burden the cheerful word that may bring as

one-half a million dollars. Fully a Opportunities for doing a kindness million acres of forest lands in the are often lost for lack of thought; the eastern part of the United States have members of the Sunshine Society

succeeding "crops" of timber, while are no salaries paid. The president-over 100,000,000 of the acres of gover-ment Forest reserves in the west have ber gives his or her services. Even

its Origin and Growth. The Society was incorporated under

thought expressed by Mrs. Cynthia Westover Alden in the office of the New York Recorder several years ago during the holiday season. Mrs. Alden was the recipient of a number of cards from her co-workers on the paper as well as outside friends. After enjoying the cards, she protested that she would have been better pleased if the donors had not written their names on them. This statement horrified her audience and with one accord every

"What! You wouldn't give our pres-

ents away, would you?"
"Why not?" was 'What do you do with yours?"
A laughing investigation soon devel-

an old uncle who would appreciate it and ferwarded it to him. He, as E thought did enjoy it, and so much so that he immediately recalled an old friend to whom it would appeal with special force. So he copied the poem and sent the card on. This recipient found the card so helpful that she too, felt called upon to pass it on and before the seven days' holiday was over the card had carried its Christmas message to six different pers Of course this is exceptional, but in still an example of the infinite po bilities of a gift accepted in the true spirit and then passed on, giving each one the double delight of receiving and giving."

The cards which had afforded the little sermen were spread out and were

REV. EDWARD EVERETT HALE.

ed into a separate bureau of the Department of Agriculture, employing over 500 men and having an annual appropriation from Congress of upwards of one-half a million dollars. Fully a million acres of formula. eastern part of the United states have members of the Shishine Society been turned over to the Bureau of strive to cultivate the habit of symptometry for management on a practical pathy that will give them a keener cal and scientific basis which will engrapp and a deeper understanding of able the cutting of the forest for lumber and at the same time insuring succeeding "crops" of timber, while are no salaries paid. The president over 100 000 000 of the area of syver also been turned over to the Bureau of Forestry for administration. It is probable that at least another 50,000, 000 acres of public timber land will be placed in federal reserves.

Washington, uttered a clear note of warning against the whole-sale reduction of the woodland area in the The Society is the outgrowth of a country.

"No nation on earth is as successful in the work of destroying its forests as the United States," he declared. "The indiscriminate mutilation of the forests must be stopped; the matter has be come one of national interest which can not much longer be ignored by the people or by our legislators."

After advocating the broadest kind of protective forest policy, he touched on the subject of reforesting certain sections. He thought that every day should be an arbor day, that every year should mark a notable advance in the effort to recover lost ground.

Plant A Million Acres.

"We should plant," he said, "not 10, 000 acres nor stop at the control of the cards received.

trees, and this would be, viewed from of the cards received.

trees, and this would be, viewed from of the cards received.

"Let me give you the history of one which the United States ever made. It pretty tencent card that came to me a year ago," said Mrs. Alden. "It had an exquisite peem on it, and I enjoyed an exquisite peem on it, and I enjoyed appreciate it 000 acres nor stop at 100,000 acres but should plant 1,000,000 acres in creasing with great rapidity, while every one knows the very beneficial effect that has resulted from the planting of wind-breaks in the prairie states."

Another address before the Associa tien by the venerable Edward Everett tien by the venerable Edward Everett Hale, new the Chaplain of the United States Senate, constituted a clean-cut statement of the great necessity of prempt action to protect the forests. Dr. Hale is around eighty years or age; he remembers when the saw and the ax had scarce touched the glant menarchs in Ohio Valley, when the forests of northern Michigan and Minnesota were unbroken wildernesses, and when these unbroken wildernesses, and when these of the far northwest, in that marvelous country "where rolls the Oregon," were a terra incognita. He has seen whole states denuded of their valuable timber and burned over by devastating fires

MADAME BERTHA KALICH... :_

but her art has a mimicry which is sure to bring fame to her. Critics lay great faith in her possibilities as an actress. They believe that after thorough schooling on the American stage the requirements of which are far dif-ferent from those of the Russian, she will become famous, for she comes of a race which has achieved wonders. And when we encounter marked talent in the Hebrew race no one living can predict how many rungs of the ladder of fame may be traversed successfully. The greatest actors, not only of the present age but of the past, have been and are Jews. Of the women we have from Rachel to Berhaardt, and the men range from Dawison to Edwin Booth, while passing reflections may be given to the ability of David Garrick, Mrs. Siddons and a host of others in whose veins were some drops of Oriental

She cannot be classed as beautiful.

Bertha Kalich's appearance in Chicago was greeted with an outburst of enthusiasm which continued throughout the many weeks of her performance there. Such a well-known critic as W. H. Hubbard of the Chicago Tribune in reviewing "Menna Vanna" and is leading actress, said, "Madamo Kalich is carelled in the list of great artists. She is new an actress of peculiar and uncommonly attractive qualities and gives every promise of becoming in a few seasons one of the most notable wemen on the American stage. Watching her during the week has brought conviction that she is the possessor of remarkable talents and that these Calents are susceptible of a developing and shaping which can but place her high in the esteem of a large class of the best theare-geers and add another great artist to the small list of really gifted players that our stage can boast. She has the power indiscipled the stage can boast. sable to any artist who is to endure and whose work is to be of any wide sching influence—the power to at tract the public

So far this is the story of Monna Vanna Indians, or such of them at least as for the American people are not accustomed to the mannerisms and actual many of the Indians trap during the major the Russian plays. ity of them is that they do not know the value of their catch and are likely to sell a \$22 otter pelt for \$4 or \$5, and Madame Bertha Kalich is tall and of the brunette type usual to the Hebrew, with eyes that while most expressive, can hardly be said to be winning. a \$11-mink polt for a dollar, or perhaps a pint of whiskey. The white man is well aware of this fact, and some a-gents make it their business during the winter to do nothing but buy furs of

the Indians, selling them later at a handsome margin of profit. These agents usually travel from re servation to reservation by dog team

or snow shoes. Even the little weasel, scores of which daily leave their tiny tracks in the snow on the outskirts of the towns are worth \$1 each for their pelts. They were valueless three years ago, and two years ago were worth 10 cents each. For a time last winter the pelts brought 50 cents each. The weasel also belongs to the homologue of the American sable together with the marten, mink, fisher and otter. The American sable really is the marten, according to some authorities. It is commonly called the pine marten, and at first glance the only distinguishing feature between it and the mink is a spot of

beautiful orange color on its throat just under the chin. A grizzly bear skin is worth \$40, if in the best condition, but of course grizzly bears are unknown in the Lake Region. Many black bears are Indians and trappers.

Woman's Sweet Will.

On a pillar erected in Canterbury, appears the following: "Where is the man who has the power and skill To stem the torrent of a woman's will; For if she will, she will, and you may depend on't.

And it she won't she won't, and that's the end on't."

Evolution of Woman.

When Eve brought woe to all manking Old Adam called her woman.
But when she woo-ed with love so kind, He then pronounced her woo-man.
But now with folly and with pride,
Their husbands pockets triuming,
The lades are so full of whims
The people call them whim-men.

happiness, which the markings spoiled for passing on. found to possess many possibilities of

Inspired with this idea of sending out remembrances that might be multiplied four-fold a new *set of cards was given to Mrs. Alden by the Recorder's staff and these cards were at once sent out. The thanks received for them were so pretty that an item was made of them in the New York Recorder. This caused further spondence and resulted in a club for the exchange of friendly greetings. The name of "Chat" was at first chosen for the column, but in time the membership grew so large that the mo to "Good-Cheer" was adopted and in 1886 the name of the society was changed to the "Sunshine" Seciety. and its active members were to include all who were desirons of brightening life by word, thought or deed.

The growth of the Seciety has been almost phenomenal. From the parent society branches have spring up until every State in the Union is represent with regularly enrolled presidents and organizers.

When a State has ten branches each consisting of at least ten members, it becomes entitled to a State president. Besides the thousands of members in the United States, there are Rourishing branches in England; Ja pan, India, France and Germany.

The Society Motto.

The competition to furnish the Soplety's motto ran for three months and

PRESIDENT-GENERAL ALDEN.

among the many thousands of versee received the following poem sent in by Mrs. W. H. Chase of Brooklyn was

Good Cheer.

Have you had a kindness shown? Pass it on. Twas not given for you alone-Pass it on.

Let it travel down the years, Let it wipe another's tears. Till in heaven the deed appears— Pass it on.

At the time the verse was selected no one the the author and it was not for several years after the Society had adopted the motto that the writer was discovered to be Rev. Henry Burton, D. D., of Lytham, England. Mr. Burton wrote the poem twenty-five years ago and had almost forgotten it until the Sunshine Society brought it into prominence. Mr. Burton is rector of the Lytham Episcopal Church and has become so interested in the Society that now everybody in his church and Sunday school has become

Though the Society has never solic Ited funds it is estimated that \$100,000 has been given to carry on its work.
From the International headquarters,
96 Fifth Avenue, New York City,
mearly \$60,000 has been expended in the past five years to make others

Newspaper Aid.

The newspapers must be given credit in a large degree for the growth of the Society. Originating in a newspaper office it has everywhere received the endorsement of the press until to day over 200 reposes. day over 200 papers are regularly car rying Sunshine departments.

The Society has a publication of its pwn called the Sunshine Bulletin, of which Mrs. Alden, the founder and president-general, is editor.

Features of Sunshine Work.

Each State division of the Sunshine Beciety endeavors to have some estab-lished feature besides the individual sunshine each member strives to scat-ter. This work takes the form of day nurseries, hemes for crippled children and aged ones, maintaining beds in hespital wards, fresh air and outing settages, Sunshine libraries, lunch rooms for working girls, etc., etc.

The greatest evil the Society has to contend with is the fake sunshine socleties grafters erganize to defraud the public. The public the Seciety and the ready response that every appeal of Sunshine receives has made it possible for those grafters to reas a rich harvest. Readers should remember that the only authentic Sunshine Society has Mrs. Cynthia Westever Alden as its president-general and is called the International Sunshine Society.

THE BEGGAR TRUST

REGULARLY ORGANIZED FOR THE PURPOSE OF MULCTING THE PUBLIC.

Ingenious Make Ups and Cruel Devices Practiced-Arrest Made and the Principals Seet to Prison.—Famous Orient Beggar,

As old as is civilization, so old is the history of the beggar kingdom, for wherever have been found any collection of men, the beggars there played their business despite indifference and the scern of the majority, yet always reaping their harvest from the philanthrepic. The nearer one draws to the warmer countries more and more numerous one finds the professional beggar. Egypt, India and Italy are the worst examples. In countries which boast of their higher civilization begboast of their ligher civilization beg-gary fourishes not through want or privation, but through—a class of peo-ple who make beggary their profes-sion and who have made a fine art of the methods of reaching the soft hearted. And beggars of this class do not seem to stop at criminality. A recent case was noted in press

A recent case was noted in press
dispatches of unusual brutality practiced by a beggar upon three children
in Austria who had been kidnapped
from their parents. The children told
a terrible tale of suffering at the hands
of the beggar who had broken their
legs in two places and then twisted
the limbs out of hape, so that in
knitting together the bones would not
set straight. The man sent the children out to beg for him and their pitiful condition made compassionate people give large sums because of their
apparent misery.

Fake Deformities.

While a number of the heggars found in large wies are really deformed—blind, lame, maimed, crippled, or deaf and dumb, yet it is a known fact to the pelice authorities that there are establishments where idle, worthless and lazy persons are readily manufactured into objects of charity. The theme of one of the best of the Sherlock Holmes' stories is a wonderfully "made-up" beggar who fools the police

HOW TO MAKE SCHOOL GARDENS. By H. D. Hemenway.

This suggestive little book is a practical manual of school gardening for both teacher and pupil, and supplies the first adequate work of the sort in this country. This volume is based on actual experience (the author is an authority and director of the Hartford School of Horticulture).

CONTENTS: Introduction; How to Make a Garden; Twenty-One Lessons in Garden Work—May to September; Bibliography; Lessons in Greenhouse Work; Planting Seed, Potting, etc.; Root Grafting; Lessons in Budding.

Size, 5 x 7; pages, 107; binding, cloth; illustrations, 26.

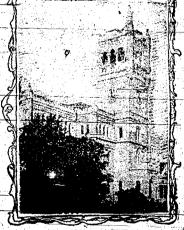

By special arrangement with Doubleday, Page & Co., I am able for the present

SPECIAL OFFER.

The new Garden Magazine, 8 months, and How to Make School Gardens, \$1.00 edition, postpaid, both for \$1.00.

The GARDEN MAGAZINE is finely illustrated, and is the finest magazine of its kind published in America. To take advantage of this special offer, orders should be sent at once to H. D. Hemenway, Hartford, Connecticut.

This offer may be withdrawn at any time.

SCOTT HALL.

awheel and with horse or auto show their appreciation of the beauty of the place. The grounds embrace five hun-dred stores of hilly or gently rolling land and fine vistas of the city and its environs may be had.

environs may be had.

During the year a new administration building has been constructed, and a large addition to the hospital has been made. A new mess hall is projected. The plans for the new hall call for an imposing building of white marsie, rock-faced, to conform in style of architecture with the Scott building.

According to last report of Gen. H.

Mawkins, governor of the Home, there were 1301 permanent inmates on June 30. Some of them were actually in the grounds, some of them receiving out-of-door relief, some being in the gevernment hospital for the insane, some absent on furlough and some in the general hospital at Fort Bayard, New Mexico.

The human hair forms a profitable crep. Five tons are annually imported by the merchants of London. The Parisian harvest is upwards of 200,000 lbs., equal in value to \$400,000 per annum.

Someone whispered nervously to a soda; I meanneighbor. One or two men lifted their heads and drew quick breaths. People glanced from side to side, and a few feet shuffled uneasily. Then a tiny puff of smoke came from the left puff of smoke came from the left a minute ago? He could not remember, wing and travelled as far as the middle What did anything matter now? He of the stage. It was followed by a larger, rolling cloud. The effect was in-

In an instant the huge theatre was a seething, swaying mass; from all sides burst screams, sobs, and oaths. For a few seconds people were pushed in purposeless groups hither and thither. Then suddenly the crowd broke into rocking unwieldly sections, each pushing, fighting, tearing towards the ground, the less smoke, you know."

In the middle of the house, very still, sat a group of three. The Woman was in the middle, the Husband on her right, the Other Man on her left. For the first few seconds it seemed as it they must be swept off their seats. Then with a quick movement, the button on his overcoar round and Other Man wheeled half round on his chair, put one hand on the back of the Woman's seat and the other on the seat before her. The Husband silent—She down stiently, and motioned him to share the coat. Then suddenly she laughed.

"It's queer, isn't it," she said, "that we should think about getting our clothes dusty—now?"

He did not answer. He was twisting round; it—came off in his hand. Suddenly he spoke. "You are very brave." seat before her. The Husband silentboth big. strong men. Their hands she said in a steady grip behind and in front of her. Thus till the rush was aver they formed a human cage for her protection, shunting off by their braced rigid frames, their crowding,

frantic neighbors.
"Thank you," she said quitely, when the middle of the theatre was deserted.
"I couldn't have borne to be touched
by such—animals." She gave a hurried glance at the nearest mass of humanity and then fixed her eyes whimsically on the smoke-clouded stage in front. "What do they remind one of?" she asked as though thinking aloud. It was the Other Man who answered.

Pigs," he said contemptuously; "pigs, when the trough has just been filled,

She half turned her head towards

—" She paused, shuddering . "Only go." she added faintly What did she mean? Did she know what she was saying. Probably not, he decided. What had he said himself

went without a word...
The Other Man stared straight in stantaneous.

"Fire!" shricked a shrill voice, and a weman started up frantically. "Fire! he turned round.

The Other Man started straight in front of him. His face was a mask. For a minute they sat very still. Then he turned round.

Come," he said in an ordinary voice, "it is time to move."

She gave him her hand, and he helped her over chairs and wooden forms till they were at the back of the build-

She sat down silently, and motioned

ie said.

They were silent for an instant. "Hullo!" he said suddenly, "they've rot the curtain down."

The two stood up. Firemen and po licemen were everywhere. "No danger! No danger!"
The words passed from mouth to

mouth, and though they were not strictly true, the effect of the lowered curtain was magical. The crowd was preceptibly thinner, noticeably calmer, but round each exit were gruesome proofs of the violence of the panic. "Elizabeth!"

"Elizabeth!"
They looked at each other. "It's John," she said faintly.
"Yee," he said, and his smile was bitter, "It's John, Good-bye. Forget it all, Elizabeth, Do you know"—he looked at his watch—"it's all happened in less than ten minutes?"
"Really?" she said, "It can't be possible." But her eyes were searching for her husband.

for her husband.

The Other Man noticed it. "Elizabeth!" he said, half shamefacedly.

"Yes," she answered, her eyes search ing the crowd.

"You are going to make up to him somehow for—for saying that to him?"
"Her eyes softened and she held out her hand. "That was nice of you," she said gently. "Yes, I am going to make up to him. I pray God, he will never know what I thought."

know what I thought."

"Elizabeth!" He had found her at last. The Other Man slipped away.

"I've found a way." he exclaimed breathlessly. "Come along."

"Oh," she cried, "you've hurt your hand; it's bleeding."

He held out the other to her. "No. no; it's nothing. I had rather a bother with the doors and windows. That's why I've been so long."

She followed him silently.

When they were in their carriage and on their way home there was an awk-

THE WOMAN IN BRONZE.

Striking Figure of a Woman Who Died of a Broken Heart.

A story of unrequited love is mutely told in cold bronze and marble in one of the cemeteries in the city of Washington, D. C.

The story runs that a beautiful young woman, daughter of rich paryoung woman, daughter of rich parents, fell in love with a poor and struggling artist. The attraction was mutual, but her family aspired to a wealthy alliance. Finally, filial duty won the day and the girl was led to the altar by a rich suitor. They lived together for some time, and the brilliance of the match was the talk of liancy of the match was the talk of

ST. GAUDENS' REALIZATION.

Washington society. The woman's loye, however, still went out to the been informed of the peculiar state of affairs, could do nothing to win his wife's affection. All the gifts that noney could buy were showered upon her, but to no purpose.

To his horror, one day several months after their marriage he found his wife lying dead in a room in their house, the poor girl having died of a broken heart. Although deeply at-tached to his wife, he was struck with admiration by her devotion to his rival, and when she was buried in the family lot in Rock Creek Cemetery, he com-missioned St. Gaudens, the scupitor, to make a bronze statue of heroic size depicting her as she was found, dead and covered with her bathrobe.

The figure of the woman is seated with the bathrobe drawn about her and the work is one of great strength.

The bronze is surrounded by marble beautifully carved. In front of it is a long marble seat, where one may adfright, and I couldn't bear to have you long marble seat, where one may adthought of to get rid of you while I thought of to get rid of you while I got over it; What did I say?—I is a small marble block, about six in a funk about it. I fancied you thought I was surjung, John Riches cleared and he bent and kissed her. His voice was very tender, "Elizabeth, my wife—" he said, "Do you know"—he laughed light-heartgely—"I've been worrying like everything about it. I fancied you thought I was in a funk about myself. I—I thought you meant that."

She stared at him, then burst out have been greatly misundersfood.

journals are replete with information upon the management of incubators, and many books have been published farmers as a very insignificant part of

necessary is a proper regard to the temperature, and to the brooding of the young chicks during the tender period of their existence. The incubator has interested thousands of women and children in the work of chicken raising, and it is not to be said that the returns are less profitable than plowing or short time made the owner as familiar other heavy manual labor.

In the manual fame and to do a dozen of their profits of the lamp trimmed so that it burned a children in the work of chicken raising, clear, white flame and to do a dozen other little things, which in a very short time made the owner as familiar with the incubator as with any other simple piece of farm machinery. simple piece of farm machinery.

The period of incubation is always one of expectancy and when the chicks begin to come forth from the shell there is either keen joy or a wided dampening of ardor, according as to the results of the batch. But don't become discouraged if the first batch d. the purchaser of a good ens. Go right ahead, determined to omit the mistakes of the first trial and aim for 85 or 90 per cent of the next hatching, which you should get if you have a good incubator and handle it properly. After a little practice you come to know your machine, how it is acting and what it will do, as well as you know your driving horse, in fac you can gauge it even more closely for it is a machine and you can contro

There are not air machines and be water machines, there are small machines and big machines machines meet every need and requirement; the only thing is to get a good machine.

An Attractive Side Line.

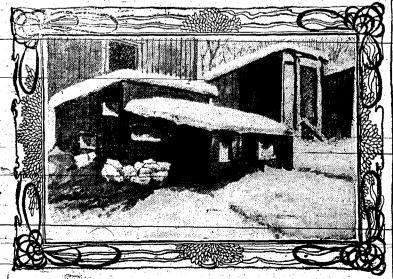

The poultry business on the farm has always been considered largely within the province of the women folks, and the enlargement of the industry by machine—one which will do its work grell—is usually so successful that the situation, except that many others than farmers wives are now raising there, in the neighborhood deickly follow his example. Nevertheless, there is no danger of the poultry business.

being overdone. It is one of the most being overdone. It is one of the most staple and profitable lines of business in the world to-day, for its products are always in increasing demand in avery town and city in the world, and throughout the entire year.

But before going into the incubator business it is necessary to have some good egg producing machinery, that is, good, laying hens and comfortable and cheerful quarters, along with a go d system of feeding, to induce them to lay. The fertility of eggs is also after the sale of an enormous number of our incubators and brooders, and they are making the money out of it. A vast field is still open among the more congod, laying hens and comfortable and cheerful quarters, along with a go d system of feeding, to induce them to lay. The fertility of eggs is also after the sale of an enormous number of our incubators and brooders, and they are making the money out of it. A vast field is still open among the more congod, laying hens and comfortable and specifically of the comparative simplicity to lat the weight find that unaware of the comparative simplicity the artificial hatching of eggs.

mers and farmers' wives do not see these journals or books. However, let the known that the operation of an incubator is easy and simple, and once that almost superstitious dread that some people have of taking up something new and apparently intricate is

We all know that there is big money in poultry. How much there is in it for us, depends entirely upon ourselves and whether or not we are keeping up with the procession in raising the kind of chickens which bring the most cash and in getting them into the market at a time when the demand is greatest.

While there is nothing complex or for a broad breasted Plymouth Rock, or a wyandotte, or a huge light Brahama, or any of a dozen other splendid standard varieties than it does for the standard varieties than it does for the common scrub, and with the low price at which good eggs, or practically pure bred cockerels can be had, it is the easiest thing imaginable to have, after

Standard Kinds of Chickens.

flock.

two or three years of systematic breeding, a flock of chickens producing three times the profit of the original

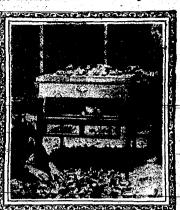

A fascinating little bulletin has been issued by the Department of Agriculture (farmers' bulletin No. 51) which is replete with illustrations of the prin-cipal standard varieties of chickens, the reading of which by any chicken grower, however small, should certain ly stimulate a New Year resolution to make the flock a real money earner. Tris bulletin, while it will prove, probably, a mere stimulant for mo extensive literature on the subject, can be obtained without cost from Senators and Members of Congress, or the Secretary of Agriculture, and the proof of its popularity is apparent in the seven or eight editions which it has been neessary to publish to supply the demand throughout the country.

Caponizing Fowls.

One of the most attractive features of poultry raising is the production of capons. This is a story all by itself. It is an experiment which one can enter into and with a very slight expenditure for a set of instruments, can follow it to any degree desired. It requires some judgment and a little attention but consider to the different control of the know you become almost an expert, and the reward is very considerable. Capons always sell readily and at a good advance in price. The birds become very docile and easily handled and are always money makers. The readiness wit which the new capon recovers from the wound is a revela-

living germs are sold on the street for foed at about one-sixth of a cent each.

each.
After being tested they are kept in
the jars for seven days, being
changed as before. This makes a total changed as solver. This makes a tour of eleven days in the jars. Then they are taken in a bamboo basket and rolled out on a mat on the platform above the jars. Here they remain until hatched. The only heat they receive is from the room, except during cold weather they are covered with a heavy quilt. After they are hatched the chicks are put in shallow baskets for a short time to gain strength and then they are ready for sale. The hatch by the remarka-ble method is from 60 to 70 per cent.

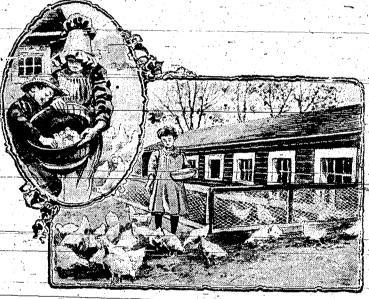

THE AMERICAN INCUBATOR IN TURKEY.

After testing, it is stated that 90 per cent of those remaining will hatch cent of those remaining will hatch.
This style of incubator probably
would not suit American requirements,
but the idea of utilizing the heat-of the
coom during the later stages of incubation is very valuable, as it economizes both heat and space.

POULTRY FEEDING.

An Important Phase of the Chicken Growing Industry.

Poultry feeding is sometimes a most serious problem to those who desire to make this line a specialty. Experi-ence has slown that there are certain low it to any degree desired. It respects the special lines of agricultural operations quires some judgment and a little at with which poultry raising may adtention, but caponizing is not difficult; it is one of those things which, while ing there is usually a large quantity it looks, in the heginning to be a board of skim milk or better and the second of skim milk or bet it is one of those things which, while and the results in the beginning to be a hard of skim milk or butter-milk which proposition, gradually comes to you all may be utilized to furnish a consider of itself, so that the first thing you allow you become almost an expert, and the reward is very considerable. They keep down insect pests and the reward is very considerable, and they may have a free range a capons always sell readily and at a and they may have a free range a greater part of the season without the possibility of doing any damage. Plum growers have found poultry especially useful in obliterating the curculo, and even the apple crop has been considerably benefited. If it is found that

tion as to the splendid physical make-up of a chicken. Any boy or girl who has ever succeeded in skinning and stuffing a bird will take hold of the caponizing idea with avidity; in fact, caponizing is by far the easier job; it is as easy as the skinning of attion, for

Peculiar Facility of Chinese for Artificial Alatching.

If we are to look the beginning of any particular industry, we are usually told that we might find that this particular work was first carried on in China. This applies as well to the artificial hatching of eggs. Throughout China the hatching of eggs by heat is a very large and important Throughout China the hatching of eggs by heat is a very large and important industry and has been practiced since very ancient times. The Oriental who desires to hatch eggs by artificial heat first constructs a building of sundified brick, plastered on the outside with mud. Completely fill g one sake and the other also, except for door space and sufficient room for a man to test the eggs, are round, but rel-like mud brick walls with earthen the mash or cabbages, and beets may man to test the eggs, are round, bar these should be steamed and fed with the mud brick walls with earthen the mash or cabbages, and beets may be fed raw. A catch crop of buckwheat or eight of eight or nine inches, to keep the itemperature more uniform and to avoid sudden changes of temperature to the fertilizer supply. when doors are opened and there is a strong wind. On the top of the ashes is thrown a bit of old mat or similar material to keep the baskets of eggs

After the eggs are put into the bas-ket a slow smoking fire, made with very fine charcoal, is started. After a day the eggs are taken out a manu-ful at a time, and put into a similar basket. This is done from two to four times each day according to the temperature. The Chinese use no thermometer to test the degree of theaf attained in the incubator, the

The beautiful and spacious home of Mr. and Mrs. Joseph Ward Empey. was thrown open Wednesday evening, Feb'y 21st, for the reception of about three hundred guests. The sweet odor of carnations and roses was every where in the reoms. Those in the redelving line were Mr. and Mrs. Empey, Rev. George Allan and wife, and Fletcher Empey. Miss Bessie Warne at the piano, William Webster, violin. rendered sweet music during the receiving hours from eight to ten. In the reception halls Misses Anna Haire and Fuy Nicholas assisted Mrs. F. C Warne, Misses Jennie Glenn and Lelia 'Olink in the dining room. Mr. and Mrs. Empey have been with us but a short time but have made many friends by their genial and happy manner both in business and in the

One of the delightful events of the season's gaiety was a six o'clock dinner at the Sherwood House, Thursday evening, Miss Anna M. Kneale being the hostess. Covers were laid for twenty-four, and a very social and pleasant time it was. This was a strictly feminine affair. The gentlemen being determined to not be outdone and be obliged to eat a cold. supper at home all by their lonesome, had gathered there and were stopping ushered in the dining room. It was a happy meeting although the ladies knew not of their husband's intentions of being present. Remarks sparkling with wit were exchanged. J. W. Empsy, as toastmaster for the delightful gents. gave a very cordial welcome to the ladies. The response of Miss Kneale was graceful and one er the best of the hour. The Proprieservices of the photographer and a flashlight was taken of the group. Altogether it was a very pleusant affair and the ladies were not at all sorry that the gentlemen surprised them. Mrs. G. L. Sherman extended an Invitation to the ladies present at the dinner to a surprise on her sister, Mrs. E. C. Plank, it being her birthday A message was given her that she was wanted at home immediately and thus she excused herself from the folly At the home of the bride's parents, crowd, soon after her arrival home the Mr. and Mrs. John Light, Wednesday rest of the group filed in. > The Masquerade at Loyeday Opera House Thursday evening was quite a successful affair. Many of the costumes were quite handsome. Those winning prizes were: Best Gentleman's costume, Bert Scott, umbrella; best ladies' costume, Mrs. W. E. Lanway, toilet set; comical make-up Amber Muma, necktie. Spectator's prize. Ben Weikel, burnt leather pillow top.

Fifty thousand more children in the public schools of Michigan as the result of recent state legislation, is a result of far more importance than many matters more persistently paraded. The value to the state of such a gain, especially when the source of its greater part is considered, cannot be computed in dollars and cents, but it will be noted by the people of Michigan as a whole, with a degree of satisfaction that could attend very 'ew incidents in state affairs.

At the Methodist Episcopal Church on Sunday next, Feb'y 25th, the Rev. George E. Allan will discourse on the following topics: Morning 10:00. Studies on the life of Jesus. Sermon No. 7. "The Influence of Jesus."

Evening 7 o'clock, "Queen Esther. An Old Time Drama." This is given by special request. These services will be very helpful and interesting

March Delineator.

In the March number The Delineator has fallen under the spell of romance which the recent marrage of the President's daughter has evoked, and presents as its leading feature an article on "The Brides of he White Rouse,"-illustrated with a handsome portrait of Miss Roosevelt never before published. The fiction f the number includes a short story by Mary Stewart Cutting, a clever study of child life by Virginia Woodward Cloud, and the continuation of The President of Quex," Helen M. Winslow's interesting club story. Viola Allen, the popular young actress, who recently married a southern millionaire, writes of Shakespere's reroines from the point of view of one who has personated many of them with great success. Dr. Murray concludes her series on "The Rights of The Child" with a paper on growth and development; and a unique feature beginning in this number is Houses by Correspondence," the first being The Doctor's House. Stories and pastimes are supplied for the amusement of children, and in the ther debartments many topics of interest and value to the home are treated. Fashion of course, plays a large part in this number, and the newest styles are illustrated and described in Borrow Money on your Farm detail.

Governor Warner's, ante-election statement, that he could not be controlled by railroad interests or railroad sympathizers, will probably not be further doubted by even the most extreme of his political opponents, In the controversy with the passenger departments of the railroads, touch the issuing of satisfactory mileage books, and with the railroad attorneys on the tax question, Gouernor Warner has not hesitated to firmly urge the interests of the people, and his urging was not in vain. What more could any democrat, or any "Independent," if the first name is offensive, have even sought to accomplish than Governor Warner has fully accomplish-
