## Dora Thorne.

One of the most important announcements of the season in the dramatic field of popular priced amusements, is the dramatization of "Dora Thorne," Bertha M. Clay's novel of international fame. "Dora Thorne" is one of the most successful novels of its kind ever written. Time only increases its value and enhances its popularity, proving more than all else its useful work in the literary world. A story full of humor and pathos, well defined characters, and sincere heart interest, "Dora Thorne" is one of the most successful of the many dramatized novels. There are several versions of this play now before the public, but none of them are like the novel, with the exception of C. S. Sullivan's which follows closely the book, and is the only "Dora Thorne" that is fully protected by copyright. Mr. Sullivan's company is billed to appear in this city at the Loveday Opera House Monday night next, and will include a remarkable cast of players and beautiful scenic equipment every care and attention will be given to make this production praiseworthy in all respects. All who have read the novel, and those who have not, cannot help but feel refreshed and benefited by this wholesome play. Seats now on sale at popular prices.

## Michigan Crop Report.

Lansing, Mich., Dec. 10, 1906. The temperature during November, according to the Michigan State Weather Bureau, was about normal, and the precipitation slightly above the average. This pleasant weather enabled farmers to secure their crops in excellent condition. Sugar beets are about all harvested, but the difficulty in getting cars has delayed delivery to factories in many localities.

### WHEAT.

The condition of wheat as compared with an average percent is 80 in the State and central counties, 85 in the southern counties and 91 in the northern counties. Wheat made a fair growth during the fall, but owing to extreme drought much of the sowing was late, consequently the greater portion of the acreage, while in a healthy condition, goes into the winter with very small top.

### RYE.

The condition of rye as compared with the average percent is 88 in the southern counties, 87 in the central counties, 92 in the northern counties, and 89 in the State.

### LIVE STOCK.

The condition of live stock throughout the State is 96 for horses, sheep and swine, and 95 for cattle. Correspondents report hog cholera in Calhoun, Hillsdale, Jackson, Kent, St. Joseph, Van Buren and Washtenaw counties.

## Freedom That is Bondage.

The anarchist proclaims that he is free; that he acknowledges no ruler, feels no obligation to obey any law. But he is as soon as recognized, driven from one country to another, imprisoned, hanged, thought of everywhere as a menace to society. The man who respects the chosen rulers and obeys the laws of his country goes about freely and unafraid, protected by the power that punishes the peace-disturber and the law-breaker, and is treated as a valued part of his home nation. We are all tragically familiar with men of all ages who decline to give up their freedom to think when and what they please. Our prisons and insane asylums swarm with them. Their boasted liberty is the direst bondage which holds them from success. How many parents, relatives, friends, use their freedom to bind themselves! We have all been in homes where the mother utilized her freedom to scold, upbraid and irritate, and thus to estrange her husband and children, and who lamented bitterly that she was neglected and unappreciated. How often is friendship strangled by the freedom that allows one to dictate and domineer and demand—the freedom that chooses to be bound to arrogance and selfishness rather than by gentleness and generosity.—Lida A. Churchill in the January Delineator.

WANTED:—Gentleman or lady with good reference, to travel by rail or with a rig, for a firm of \$250,000 capital. Salary \$1,072.00 per year and expenses; salary paid weekly and expenses advanced. Address, with stamp, Jos. A. Alexander, East Jordan, Mich.

## Common Council.

Johnson, salary 60.00 A proposition was received from the Board of Trade, relative to the clearing and furnishing "Recreation Park." On motion the Council will act as a committee to consider the proposition. A proposition for fire protection to the Cooperage was accepted.

## Injurers Proved Fatal

Mayor of St. Johns was Burned in Gasoline Explosion.

St. Johns, Dec. 10.—Mayor John McKinley, of this city, who was injured in a gasoline explosion at the rear of his store last Friday night, died Sunday from his injuries.

The store was lighted by gasoline light and the fluid is conveyed from the tank outside through small tubes. These were frozen and the mayor took a blow torch to thaw them out with. The fluid within took fire and was carried in a twinkling to the tank containing twenty gallons of gasoline, which exploded, throwing Mr. McKinley several yards and burning him badly.

His struggle for life was pathetic and had he had nothing but the burns to recover from it is thought he would have lived. The injuries from the force of the explosion proved fatal, however.

Mr. McKinley was born in Ridgetown, Ont., in 1858, and came to this city three years ago. He was engaged in general mercantile business at the time of his death.

## Mr. Dooley's New Observations.

In the language of a friend "Dooley is gittin' gayer and wiser all the time." He has never written so brilliantly as in the new series of Dooley articles, which are now appearing in The Chicago Sunday Record-Herald. His views on "Me Young Frind Count Boney's Love Affairs," "The President's Activities" and other timely observations in the new series are the choicest things the author has ever offered his thousands of admirers, full of witty sayings which will be quoted for years to come. These "Dooley" articles, each complete in itself, will appear in successive Sunday issues of the Record-Herald.

## EIGHTEENTH YEAR Petoskey Normal Business College

WINTER TERM BEGINS JAN. 7, '07. New class in Shorthand. New class in Type-writing. New class in Bookkeeping. New class in Business Arithmetic. New class in Penmanship. New classes in Third Grade Teachers' Studies. New classes in Second Grade Teachers' Studies. New classes in First Grade Teachers' Studies. New class in Latin. New class in German. New class in Algebra. We also offer Civil Service, Engineering, Education and other Special Courses, but these are our leaders. Our work is most thorough, most rapid, most accurate. Ambitious students can accomplish two or three times as much work here in a given time as at other schools. Small classes, Individual Instruction.

M. O. Graves, M. A., (University of Michigan) Principal.

## County Normal Notes.

Tuesday the normal class, accompanied by Miss Himes visited Miss Jarvis and Miss Mason in the Washington school on the north side, for the purpose of observing the work. Thursday afternoon we went to the training room for another observation lesson. We think that these lessons will be very helpful to us. "Bead work" has been introduced in the Normal school this year for work in manual training. We have learned to make for-get-me-not and daisy chains, and now we are making the daisy chain with a vine. It is a very pretty design. We are also doing work with raffia. The normal students are preparing to give a reception to the teachers.

ONE DOLLAR PER YEAR

Entered at the postoffice at East Jordan, Michigan, as second class mail matter.

The increase of more than twenty-three million dollars in the savings deposits of the people of this state during the past year indicates a provision for the future which will go very far in the direction of maintaining for Michigan the satisfactory industrial and commercial conditions which the state as a whole is now enjoying. Savings deposits form a foundation for plans and hopes for the future which in themselves are the best possible assurances as to continued growth and activity. The progress and prosperity of Michigan is in little danger of being disturbed so long as the thrift and care of its people is eloquently attested to through largely increased savings deposits.

It is to be hoped that as little favor as it deserves will be given by Gov. Warner to the effort to secure a pardon for John T. Hoffman, the former coroner of Wayne county, who was convicted of stealing from the state through fraudulent certificates. There was not one extenuating feature connected with Hoffman's crime. He made use of an important and responsible office to rob the people of his city and the state and perjured himself repeatedly during the course of his trial. There are few convicts in any of the prisons of Michigan less deserving of leniency than John T. Hoffman.

It is probable that the subject of providing a system of uniform accounting for the various cities of the state, under state supervision, to be extended if practical, to counties, townships and school districts, will be given more consideration at the coming session of the legislature than it has heretofore received. Many cities and some of the counties are now paying high prices to auditing companies to perform the work which could be better and more economically performed under state auspices, as is true of state banks and state institutions. That a uniform system of public accounting be accompanied by periodical inspection is desirable for the cities and counties of the state is no longer questioned by those who have given most thought and attention to the subject.

**Seldom Wear Out**

Dr. Miles' Anti-Pain Pills relieve pain—not only once, but as many times as it is necessary to take them. Many persons who suffer from chronic ailments find in them a source of great relief from the suffering which they would otherwise be compelled to endure. Their soothing influence upon the nerves strengthens rather than weakens them. For this reason they seldom lose their effectiveness.

"I am 62 years old and have suffered for 42 years from nervous troubles, rheumatism and neuralgia, palpitation of the heart, shortness of breath, sleeplessness, and pain around the heart. The Dr. Miles' Anti-Pain Pills have been a blessing to me. I don't know what I should do without them, and they are the only remedy I have ever used that either did not wear out in less time than I have been using them, or else the injurious results were such that I would be obliged to cease their use."

"Dora Thorne," Bertha M. Clay's celebrated novel dramatized and placed before the public by the well known manager, C. S. Sullivan. The story of "Dora Thorne" has been carefully followed and the production is said to be excellent. The cast includes many names that are familiar in the theatrical world. Almost every reader of fiction has read the novel and more than usual interest is being aroused by the dramatization. "Dora Thorne" will be seen at Loveday Opera House next Monday evening.

MODERN GENESIS: "In the beginning God created the heavens and earth, then the editor and the liberal advertiser—which was all good. The next day it snowed, and he created the man who does not believe in advertising, another who does not take the home paper—then he rested. Then the devil got into the molding room and created the man who takes the paper for several years and fails to pay for it. After he had completed that sorry job and had a few lumps left he created the excuse of a man who settles his subscription by informing the postmaster to mark his paper 'refused.'"—Exchange.

A large assortment of Christmas Gaudies and Nuts.

After a trial that lasted an entire week, the jury in the Maitland murder case went out Saturday evening and returned in fifteen minutes with a verdict of manslaughter. The judge soon after gave him an indeterminate sentence of five to fifteen years in Jackson prison. Deputy Sheriff Enrey left Monday with the prisoner. The crime for which Maitland was convicted was committed last summer. Hamilton and Maitland were neighbors. They quarreled over the alleged trespassing of a cow on Maitland's premises, and in the altercation Maitland hurled a rock at the old man crushing his skull. Maitland has always borne the reputation of being a quarrelsome and vicious man, and the sentence meets with general approval.—Charlevoix Sentinel.

The Honey-Ya Club were given a house party at the home of Mr. and Mrs. E. N. Clink from December 8th to December 10th. On December 8th at 11:30 we partook of cheese straws, fruit cake and cocoa, after which Alice Longworth and Carrie Nation danced the virginia reel. We then retired, but were soon disturbed from our peaceful slumbers by the entrance of two female characters attired in linen dusters and straw hats, each carrying a suit case, they took their departure as soon as they discovered the guest chamber was occupied. During luncheon Marie Correll complained that her napkin ring was too small but at breakfast time found one that she could go through herself. At 2:30 Samantha Allan and Carrie Nation aroused the entire household to tell the good intentions of Alice and Marie they say they might have heard more had they not thought the bed more comfortable than the stair steps. Susan B. Anthony was dreaming sweet dreams when she suddenly awakened and upon opening her eyes found her bed occupied by four extra females however she soon learned that it was not for lack of room, but that it was the cold feet of Carrie Nation that disturbed her peaceful dreams. When summoned to breakfast our hostess gazed in wonder at the elaborate costumes but discovered at once that all had made a trip to the attic before donning their breakfast gowns. Lillian Russell and Francis Willard arrived in time for dinner but their gowns could not compare with those that arrived the night before. At two o'clock we were again summoned to the dining hall where mashed potato, chicken and gravy, olives, bread and butter, cheese, fruit cake, creamed onions, padding and whipped cream, were served. We then spent a very pleasant afternoon in the parlor but at 7:30 found our hostess under the doctor's care so we quietly took our departure all wishing they might stay longer. The next meeting will be at the home of Mrs. Marshall Field on Pike's Peak, Dec. 15th.

From Painting by Hofmann. 1824.

The Lesson of the Christmas Tide

By DR. ROBERT STUART MACARTHUR  
Pastor Calvary Baptist Church, New York.

The Christmas-tide celebrates the birth-festival of our Lord. The incarnation of Christ is the central thought in the history of the world. It is the event around which all other events revolve in smaller or larger circles. All the great facts of history previous to His coming had reference to His advent; all the events since look back to that advent as the beginning of a new era. All lines of previous history converge to the manger and the cross; all lines of history since diverge from these two epochal events. The birth of Christ was the beginning of a new race, and the observance of that birth is still the jubilee of this new race. Angels joined in the advent of Christ with songs and choral songs as He left the bosom of the Father to become the child of Mary in the manger at Bethlehem. This festival is still the most joyous feast of the church. It makes childhood more beautiful and glorious, and it lightens the burdens of age and sorrow with its tender memories and its triumphant prophecies. In the chill of midwinter in northern climes it kindles a fire of hope and joy in every home and heart. It is prophetic of the golden age when Christ shall come again, when evil shall be overthrown, and when the song of a redeemed humanity shall sweep over the universe.

By the gifts which characterize this season we commemorate God's great Gift, the unspeakable gift of His Son to a world lost in sin and wandering in darkness. No one can rightly estimate the blessings which flow every year to all classes and conditions of men from the tender memories and gentle charities called forth by the remembrance of the Holy Child, Jesus. His birth has exalted the poetry, the music and the art of the centuries. It has changed all social customs and religious rituals. It has given a new glory to human life and a new trend to eternity. This is the time when all bitterness should be forgotten, all family feuds reconciled and all life glorified. It is unspeakably sad that in the name of Jesus Christ Russian murderers are slaughtering the Jewish people, the ancient and historic race which gave us the Christ. It is a cause for profound humiliation that superstition, bigotry and virtual idolatry still abound under the shelter of the Christmas name.

"AND A LITTLE CHILD SHALL LEAD THEM"

By REV. JOHN TALBOT SMITH, LL. D.  
President Catholic Summer School of America.

The entire meaning of the festival of Christmas is contained in these words. It is the festival of the children, because on this day God the Son, the Second Person of the Blessed Trinity, took upon Him human nature in the shape of a helpless and beautiful child. Various meanings have been read into the celebration of the nativity of Christ—the humanitarian regards it as the proper placing of the human individual in the economic system; the more materialist looks upon it as the protest of infant right against adult might; the scientist of a certain school regards it as the emphasis of nature upon the necessity of training properly the next generation; the sentimentalist sees in it a noble tribute to the beauty and innocence of the child. It is necessary to remark, however, that if the child had to depend upon these classes for due respect and real training there would be no Christmas, no dedication of innocence and helplessness, and no emphasis upon duties to the next generation. The festival of Christmas is truly the social, economic, political and religious anniversary of the human child, through which he makes his demand upon the world for existence, care, training and love; the right of an immortal soul as well as of a future citizen. The right-minded part of society accepts the responsibility with joy, and its best efforts, in fact all its efforts, are expended on the work of preparation for the coming of the Child. Not only do parents labor, but the legislators make laws, teachers teach, artists create and commerce agonizes for the child—for the next generation.

Therefore the monumental truth of modern civilization is expressed in the text: And a little child shall lead them.

The entire meaning of the festival of Christmas is contained in these words. It is the festival of the children, because on this day God the Son, the Second Person of the Blessed Trinity, took upon Him human nature in the shape of a helpless and beautiful child. Various meanings

A Message of Peace in the Christmas Season

By RT. REV. DAVID HUMMELL GREER  
Coadjutor Bishop of New York.

The Christmas season comes with its message of peace to a world torn and rent with many divisions, a world in which there is much strife. This strife is to be allayed and these divisions healed not by any process of statutory enactment, but by that spirit of brotherly love and kindness which takes possession of the human heart at Christmas.

Just so far as that spirit continues regnant in the hearts of men throughout the year will the Christmas season be prolonged and continue to give its blessings to mankind.

Perhaps one lesson which the Christmas season teaches above all others is that, in order to enter the kingdom of peace and happiness, we must become as a little child. And let that appealing love which the little child inspires become a persisting force in our lives!

I once saw all the traffic in Fifth Avenue stopped by a little child. Its mother was wheeling it across the street in its baby carriage and in the middle of the thoroughfare, crowded with vehicles of all kinds, she became panic-stricken and did not know what to do or which way to turn. But, suddenly, all the drivers reined in their horses, all the chauffeurs stopped their automobiles, and all the teamsters pulled up their trucks—the traffic of the busy avenue had been brought to a standstill by a little child.

So will the noise and the strife and the confusion of the world be arrested and checked by the little Christmas Child.

Both Happy.

He—Which do you think are the happier in the holiday season—the ones who give or the ones who receive?

She—Well, if you are speaking of the things which transpire under the mistletoe, I think it's an even break.—Yonkers Statesman.

Sure Thing.

Mrs. Flatto—I wonder what makes the janitor so pleasant?

Flatto—Christmas is approaching, my dear.—Judge.

Caught at it.

Dunn—Why is it that all the stores reduce prices after Christmas?

Dyer—Because nobody can afford to pay the former prices.—Judge.

THE AUTHOR-MAN'S SURPRISE  
Little Story with a Sequel That is Hard to Guess.

Upon a certain day there was an author-man who needed the money; so he sat down and took up that object which is reputed to be mightier than the sword and wrote a piece. Having finished his article, he went to the post office, purchased some milling stamps and mailed the piece to the editor. Then he waited for the child of his brain to make its way back to his mantel piece, accompanied by a warm note from the editor saying that, owing to a redundancy of similar matter, he was compelled to reject the piece, although this action wrenched his heart strings to such an extent as to almost drag that organ from its moorings. However, this rejection was to be considered as in nowise a condemnation of the merit of the article, etc., etc.

The near-author waited a spell, but the letter that he looked for but dreaded, never came. Now, dear reader, we give you three guesses as to the fate of the manuscript. Nope; all wrong. The piece was accepted. This is it.—Judge.

DOES YOUR BACK ACHE?  
Profit by the Experience of One Who Has Found Relief.

James R. Keeler, retired farmer, of Fenner street, Cazenovia, N. Y., says: "About fifteen years ago I suffered with my back and kidneys. I doctored and used many remedies without getting relief. Beginning with Doan's Kidney Pills, I found relief from the first box, and two boxes restored me to good, sound condition. My wife and many of my friends have used Doan's Kidney Pills with good results and I can earnestly recommend them."

PUT DOWN "EDDICATION" IDEA.  
Farmers' Plea Had Weight Among Brother Agriculturists.

In the early forties, on a certain "town meetin' day" in one of the small farming communities of the Granite state, there was more than the usual interest and excitement. Some audacious-Philistine had secured the insertion in the warrant of an article "To see if the town will appropriate \$500 for a new schoolhouse."

The sturdy yeomanry were out in force to fight down this proposition. The sympathetic moderator didn't "moderate" them worth a cent. The so-called "toneys" advocates, conscious from the start of their numerical weakness, were conciliatory and persuasive, in the hope of thus winning to their standard sufficient of the opposition to carry the day. These hopes were dashed, however, when a veteran farmer, the Nestor of the guild, got the floor, and shouted in foghorn tones:

"What do you want of schoolhouses, anyway? This eddication talk is raisin' the old Harry with the boys on the farm! There's that Danny Webster's likely a young man's 'er raised in these 'ere parts! Got this eddication idee into his head—left the farm—never's heard of afterwar'!"

This was a settler. The "toneys" fled the scene, and the "noes" had it.

If a man has a marble quarry he asks: What can I do with marble? He builds, he seeks other builders. The possession of a power, like the possession of an estate, impels to use, to gain, to service.

NO MEDICINE.  
But Change of Food Gave Final Relief.

Most diseases start in the alimentary canal—stomach and bowels. A great deal of our stomach and bowel troubles come from eating too much starchy and greasy food.

The stomach does not digest any of the starchy food we eat—white bread, pastry, potatoes, oats, etc.—these things are digested in the small intestines, and if we eat too much, as most of us do, the organs that should digest this kind of food are overcome by excess of work, so that fermentation, indigestion, and a long train of ails result.

Too much fat also is hard to digest, and this is changed into acids, sour stomach, belching gas, and a bloaty, heavy feeling.

In these conditions a change from indigestible foods to Grape-Nuts will work wonders in not only relieving the distress but in building up a strong digestion, clear brain and steady nerves. A Wash woman writes:

"About five years ago I suffered with bad stomach—dyspepsia, indigestion, constipation—caused, I know now, from eating starchy and greasy food."

"I doctored for two years without any benefit. The doctor told me there was no cure for me. I could not eat anything without suffering severe pain in my back and sides, and I became discouraged."

"A friend recommended Grape-Nuts and I began to use it. In less than two weeks I began to feel better, and inside of two months I was a well woman and have been ever since."

"I can eat anything I wish with pleasure. We eat Grape-Nuts and cream for breakfast, and are very fond of it." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

May Throw-Light on History. While excitement regarding the Hohenzollern memoirs is still rife in Europe, there is subdued talk in British military circles regarding the forthcoming appearance of a book which will contain some of the late duke of Cambridge's voluminous correspondence. Correct answers to numerous historical enigmas may be expected from such a publication.

## TRAIN WRECK AT OTTER LAKE INJURES TWENTY PASSENGERS.

### BROKEN RAIL CAUSED IT

Escape From Death Was Miraculous, and the Number Injured Lucky to So Escape.

#### The Injured.

The smoking car, cafe car and parlor car of Michigan Central south-bound train No. 206 were thrown into a deep ditch two miles north of Otter Lake at 8:30 o'clock Thursday night by a broken rail, while the train was running at the rate of 40 miles per hour. Over 20 persons in the crowded cars were more or less injured, and it is considered miraculous that many were not killed. A strange feature of the accident is that the heavy engine and tender, the baggage and express car and the mail car passed safely over the break, while the lighter cars were thrown to one side. The injured are: E. H. Lake, Detroit; leg broken; taken to his home.

A. R. Beattie, Detroit; left shoulder badly bruised, face badly lacerated; in- juries feared.

Jacklin, Detroit; back

W. H. Robinson, porter, Detroit; bruised.

George Cook, porter; slightly in- jured.

Bessie Carnegie, Clayton, N. Y.

E. W. Baumgarten, Alliance, O.

Roy Darling, Walter Center, Mich.

J. A. Andrews, Flint, Mich.

Charles Kerr, 113 Fitzgerald street, Bay City, Mich.

A. E. Davis, Bay City, Mich.; prob- ably injured internally.

J. H. Hallers, Chelsea, Mich.; leg bruised.

R. H. Ford, Milford, Mich.; left side injured.

C. H. Johnston, Flint, Mich.; slight wound in left side.

J. H. Andrews, Flint, Mich.; slightly injured in left shoulder.

J. J. Yager, 120 Lake street, Cleve- land; head and shoulder injured.

Mrs. W. L. Barker, Wellsboro, Pa.; shoulder dislocated.

Wm. Hemingway, Otter Lake, Mich.; left side bruised.

W. H. Forsyth, Lapeer; face lacerat- ed.

#### Prison Work.

Attorney General Bird has given an opinion that it is unlawful to teach the trades of cigarmaking, broom mak- ing or granite cutting in the penal institutions of the state. He was guided by a recent decision of the supreme court, holding that the constitution prohibits teaching a mechanical trade in a prison. The largest portion of the product is not manufactured in the state. Work of the kind designated will stop in the prisons as soon as the men who know the trades leave the institutions. Until he has further information regarding the state's chief supply, the attorney general is as yet unable to say whether the making of reed furniture can be continued to be taught in the Jonia reformatory.

#### Mortin Wants the Money.

John Morton, of New York, has gar- nished the \$1,250 held by Assistant prosecuting Attorney Ward, of Grand Rapids, since the notorious water deal. Ward had announced his intention of returning it to Frederick H. Garman. The story of the delivery of the pack- age of money by Garman to "Billy" Leonard in the Livingston hotel in 1901, during the trial of Lant K. Sals- bury for conspiracy in the water deal, is still fresh in the public mind. As no one could be found who gave the money to Leonard, his ownership could not be established, and Garman, who was one of the people's witnesses, turned it over to the prosecuting at- torney, who has held it ever since.

#### Jasnogrodski Case.

Chief of Police Murphy and prose- cutor Orr were denied extradition pa- pers for Naum Jasnogrodski, wanted in Bay City on a charge of getting \$1,400 from Bernard Sempliner, a tailor, on alleged false pretenses. Gov. Hig- gins, of New York, ruled that there was merely an exchange of notes, and that no crime was involved in the al- leged crooked transaction. The local officials are being criticized for taking the junket, as Sempliner has sent an attorney and the presence of the of- ficials is regarded as unnecessary.

#### It is said that Jasnogrodski and the relatives of his bride whom he married will pay up all his indebtedness, about \$2,500, but that Sempliner will be the last to recover.

#### State Highway Commissioner Earle

reports that in 17 months 52 miles of stone road have been built in Michi- gan, besides 33 miles of first-class gravel. The state has paid \$1,000,000 and the working plan will cost \$77,083.

#### Adam G. Strayer, who went to California during the gold craze in 1852

and who settled in Michigan two years later, died at Okemos Saturday morn- ing, aged 94 years. He is survived by his third wife and by several children.

#### The Commercial Savings bank of Grand Rapids

has announced its intention to reduce its capital stock from \$200,000 to \$100,000. This is done, ac- cording to President Kelsey, to save taxes, as the same amount of business can be done on the reduced capital.

#### Judge Wisner has granted a divorce to

av. James Thompson, formerly a minister in Atlas, who is now advanced theological work in Louisville, Ky. Rev. Thompson made moral charges against his wife the bill was filed, but the decree granted on the grounds of cruelty.

#### Mrs. Thompson is said to be residing with her parents in Jackson.

## JAPOPHOBIA.

### Californians Wild Over President's Plain Talk.

President Roosevelt has stirred a storm in California, which is felt from end to end along the Pacific coast, by the statements in his message to the Japanese. Among the masses of the people, and particularly among the labor unions, the most bitter feeling has been aroused, and it is predicted freely that, unless something intervenes to change the sentiment, he has driven California, if not the entire Pacific coast, from the Republican ranks. The newspapers are very bitter in their criticisms, especially so the Chronicle. The president is excoriated for his threat to use troops, and he openly is charged with deliberately mistating the position taken by the authorities of San Francisco and the state.

Hints are openly given that such action would result in attempts to im- peach Mr. Roosevelt. Charges are made that he is unfair, even untruth- ful, in his message statements in refer- ence to the situation in San Francis- co. It is declared by President Allan, of the San Francisco board of educa- tion, that no matter what action is taken in the courts in reference to Cal- ifornia's separate school law, even if it is declared unconstitutional, the board will not recede from its stand in barring Japanese students from white schools.

#### Charges Blackmail.

Jacob L. Hisey, treasurer and gen- eral manager of the Muskegon Milling Co., for whom a warrant was issued charging him with obtaining \$5,000 un- der false pretenses and about whom grave rumors are circulated, concern- ing his handling of the mills, returned to Muskegon Wednesday morning af- ter traveling 12 hours. It is believed he was in Canada. He was arraigned be- fore Justice Oosterbaan, in whose court the warrant was issued. He says it is a blackmailing scheme.

#### In a statement to the press, Hisey said:

"I was informed of this matter at noon Tuesday by telephone and start- ed at once for Muskegon in order to meet the charge of Charles A. Kerr. This man bought the stock referred to, after he had made a careful inspec- tion of the affairs of the company and as late as November 15 he wrote me that he was entirely satisfied.

"When he came to Muskegon I re- fused to take his money for the stock until after he had worked five weeks and had an opportunity to study the situation. If the loss is anything like the amount given out by the other of- ficials of the company, some one has been speculating while I have been away trying to regain my health, which has been undermined by my work at the mill."

Hisey stood mute when arraigned. A plea of not guilty was entered by his attorney and Hisey will be examined December 13. Bonds in the sum of \$2,000 were furnished.

If setting the time for the examina- tion a week away the affairs of the Muskegon Milling Co. will have been thoroughly sifted.

George A. Hume, secretary of the milling company, said that there is a shortage of about \$10,000 and that an investigation of the books by experts will determine just when and where the money was lost.

#### How School Money Goes.

The department of public instruction is getting "after more school district officers who do not comply with the law. The efforts of the department to protect the primary school funds are not sporadic, but are directed to all the districts where there are irregularities.

Chief Clerk A. Hamlin Smith and Attorney General Thomas A. Lawler have visited Lake county, where peculiar conditions have exist- ed. In district No. 2 of Elk township there has been a district quarrel of long standing.

Two sets of officers claimed the right to conduct the affairs of the district and each maintained a school. The old officers had possession of the funds and spent them to hire a teacher. A court finally decided that the new officers had a legal right to control the district and rendered a judgment against the old officers for \$171 which had been spent by them unlawfully.

Although nearly two years have elapsed since the decree of the court the money has not been paid over and the state's officers have obtained the promissory notes of the old officers for the amount due.

In district No. 3 of Dover township, Lake county, certain alleged irregular- ities of the officers were investigated. No action has been taken.

## MICHIGAN BREVITIES.

Keweenaw, the northernmost county of the state, now has its first railroad passenger service, the Keweenaw Cen- tral having put on a train between Me- hanna and Sandan.

Gasoline ignited in the Cosenda dye works, Saginaw, Friday, but the flames were extinguished before the arrival of the fire department by flooding the en- tire building with steam. It was in this plant that an explosion caused the death of five persons last summer.

"Keno cuts into our trade. We want this form of gambling suppressed," is the tenor of a request made by Port Huron butchers to Prosecuting Attorney Alexander Moore. He says that he is prepared to prosecute when a specific complaint is made to him.

Indications of oil and gas have created excitement in Midland and Saginaw counties. Kansas City and Pittsburg men are taking up many leases.

John Hill, prominent Democratic politician, died Tuesday at his home in Orleans township, as a result of be- ing struck by a Pere-Marquette pas- senger train.

The supreme court heard arguments Tuesday on the application of the De- troit National bank for a mandamus to compel Judge Brooke to grant a change of venue in its suit against the Union Trust Co., receiver, involving the validity of one of Frank C. An- drews' certified checks.

The Philippines Also Would Be Easy Game for the Mikado's Little Fight- ers—A Chance for Millions.

#### Prepare for War.

Congressmen from California are ap- pealing to the war department and to their fellow legislators from other states for the defense of San Francis- co, and in general the Pacific coast, against attack in case of possible hos- tilities with Japan.

It has developed that the general staff is working secretly on a compre- hensive plan of improved defense with the result that congress will be strong- ly urged at an early time to take favor- able action upon the report of the Taft board on coast defense, which was submitted to it by them last March.

The principal worry of the officials just now is the total lack of defense of the Philippines, and the ease with which an army could be landed by a formidable power in those islands. There is not a mounted gun or an ar- tilleryman in all of the Pacific insular possessions—the Philippines, Guam or the Hawaiian islands.

The weakest point on the coast is the Puget sound region, the board esti- mating that it would require \$5,000,000 to complete its defense. It recommends the mounting of seven 14-inch guns— guns of entirely new caliber, and the biggest guns ever mounted. Guns of this size are needed, it is held, because of the broadness of the sound.

The board recommends the strength- ening of defenses at San Francisco to the cost of \$3,000,000, and recommended the expenditure of \$1,000,000 on de- fense of the Columbia river.

The artillery officials will recom- mend the right to increase the corps from 14,000 men to 50,000, and a still larger number would be necessary to man all the forts recommended for all the insular possessions, as well as on the gulf and Atlantic coast.

The board recommends that \$25,000,000 be appropriated by congress for defense of the Philippines and other islands in the Pacific and the Panama canal.

#### Ex-Senator Brown Shot.

Arthur Brown, formerly United States Senator from Utah, was shot and very seriously wounded Saturday in his room in the Raleigh hotel by Mrs. Annie M. Bradley, of Salt Lake City. The latter is a woman of attrac- tive appearance and formerly was very prominently connected with the Utah state federation of women's clubs.

The cause of the affair dates back several years and involves one of the most sensational cases the state of Utah has ever known. The principals were Mrs. Bradley and Senator Brown. He was acquitted, but Mrs. Bradley pleaded guilty to a charge of illegal im- punity with Brown. Sentence was sus- pended. Mr. Bradley, husband of the woman, secured a divorce and is now in Nevada.

According to statements made by residents of Salt Lake and by people who know both Brown and Mrs. Brad- ley, their relations have been notori- ous.

Mrs. Bradley said that she has four children, two by her husband and two by Brown. She told the police that she came to Washington expecting to marry Brown. It is evident that he refused to follow this plan and the shooting re- sulted.

#### Dying Out.

The Japanese scare, if it may prop- erly be called that, appears to have dis- appeared. A confident feeling exists in official circles that danger of trouble with the great power of the far east has passed away with the cordial re- ception given by the government, press and people of Japan to the comments in President Roosevelt's annual mes- sage on the subject of discrimination against Japanese subjects in the Uni- ted States. Since the California sena- tors have called on the president they seem to feel better. Speaking of the matter of excluding Japanese children from their schools, Senator Perkins said:

"More fuss has been made about it east than out west. The truth is that there are not very Japanese children of school age in San Francisco, and probably not 100 in the entire state. Therefore, it seems to me that the small number of children should make no objection to attending the schools set aside for them and maintained by taxation of white taxpayers."

Before taking any action on the mat- ter, the administration will await the outcome of the test case to be insti- tuted in the California courts for the purpose of determining whether the exclusion of Japanese from California public schools is a violation of treaty rights. Secretary Root is accredited with having made the suggestion that this test case be instituted, and the administration looks upon it as a solu- tion of the present aspects of the diffi- culty.

While hunting partridges, Edgar Brown, surman of Thunder Bay Island, was badly wounded. His home is in Grandstone City.

Colored people of Grand Rapids have adopted resolutions "censuring Presi- dent Roosevelt for dismissing members of their race from the army as 'un- fair, unjust, undemocratic and altogeth- er inconsistent with his square deal policy.' The resolutions were ordered sent to Washington.

Believing that business is trying to effect an entrance into their homes, Mrs. and Miss Curran, of Buchanan, have kept the neighbors in a state of fright for the past few weeks with their shooting. Physicians who exam- ined the women say they are mentally unbalanced, and they will be taken to the state hospital in Kalamazoo.

## ILLING UP THE CANADIAN WEST.

### The American Settler is Welcomed to Canada.

A number of the leading newspa- pers on this side of the line have been noticing the growth of the Canadian West in recent years, and draw atten- tion to the fact that there seems to be no abatement of the influx of settlers to that great grain-growing country. The Buffalo Express thus refers to the subject:

"Canada West continues to grow. There were 4,174 homesteads entries here in July of this year, as against 3,571 in July, 1905. Canada plumes herself over this fact, with becoming pride. But what appears to make our neighbors happiest is the statement that of these 4,174 homesteaders, 1,212 were from this side of the line. Little is said about the 97 Canadians who recrossed the border to take up homes in Canada West, or of the 308 from Great Britain, or of the 1,236 from non-British countries. It ap- pears that the item in this July report that makes Canada rejoice most is this of the 1,212 American farmers who decided to try their fortunes in Canada West.

"The compliment is deserved. The 1,212 were mostly from Dakota and other farming states, and go into Canada fitted better than any other class of immigrants for developing the new country. They take capital with them, too, say Canadian papers proud- ly. In every way, they are welcome over there."

As the Express well says, the American is welcomed to Canada, and the reasons given are sufficient to in- vite the welcome. The American farmer knows thoroughly the farming conditions that prevail in the Cana- dian prairie provinces, and is aware of every phase of agricultural devel- opment in recent years.

In practical knowledge of what is wanted to get the largest return for labor and investment he is by long odds superior to any European set- tler. He knows what is required to bring success, and he is able and will- ing to do it, and his future courses no apprehension to the successful Cana- dian farmer. The agent of the Cana- dian Government, whose address ap- pears elsewhere, says that the differ- ence between the manners and cus- toms of the farmer from Dakota, Ore- gon or Minnesota and the farmer from Manitoba, Saskatchewan or Alberta is not nearly so marked as that be- tween the farmer of the Maritime provinces and the Ontario tiller of the soil. Hence the welcome to the free homesteaders of the Canadian West, and there are hundreds of thousands of them left, that is extended to the settler from the Western States.

**BIRD TRAVELS WITH GIRAFFE**  
Red Billed Weaver Constant Com- panion of Animal Skyscraper.

The red-billed weaver bird is a con- stant companion of the giraffe, perch- ing itself upon the withers and flying along when its host takes to flight, and immediately alighting again on its back at the first opportunity. The only means of defense or offense by the giraffe is by means of its hoofs, and the blows it can deliver by kick- ing are of tremendous power. The old males during the breeding season fight in this manner a good deal, and the female employs the same means in defending her young against car- nivorous animals.

Giraffes are very swift of foot, and it requires a very fleet horse to run them down. Experienced hunters, however, charge them at full speed, and by this means are often able to run into them, and if the giraffes are fat they will soon become "blown." When running, the tail is twisted in a corkscrew fashion over the back and the hind legs at each step are thrown on the outside of the forelegs, giving a very grotesque straddling appear- ance. The giraffe is mute, but he has a very keen sense of hearing and of smell.

#### Worth Knowing.

That Alcock's Plasters are the highest result of medical science and skill, and in ingredients and method have never been equaled.

That they are the original and genu- ine porous plasters upon whose rep- utation imitators trade.

That Alcock's Plasters never fail to perform their remedial work quickly and effectually.

That for Weak Back, Rheumatism, Colds, Lung Trouble, Strains and all Local Pains they are invaluable.

That when you buy Alcock's Plas- ters you obtain the best plasters made.

#### A Misunderstanding.

Appropos of a misunderstanding on the canteen question, Gen. Frederick D. Grant said at a dinner in Wash- ington:

"It is like the case of my friend Maj. Green. Maj. Green said to his servant one morning:

"James, I have left my mess boots out, I want them soled."

"Yes sir," the servant answered.

"The major, dressing for dinner that night, said again:

"I suppose, James, that you did as I told you about those boots?"

"James laid 35 cents on the bureau."

"Yes, sir," said he, "and this is all I could get for them; though the cor- poral who bought 'em said he'd have given half a dollar if pay day hadn't been so far off."

#### LIMB RAW AS PIECE OF BEEF.

Suffered for Three Years with Itching Humor—Cruiser Newark U. S. N. Man Cured by Cuticura.

"I suffered with humor for about three years off and on. I finally saw a doctor and he gave me remedies that did me no good, so I tried Cuticura when my limb below the knee to the ankle was as raw as a piece of beef. All I used was the Cuticura Soap and the Ointment. I bathed with Cuticura Soap every day, and used about six or seven boxes of Cuticura Ointment. I was thoroughly cured of the humor in three weeks, and haven't been af- fected with it since. I use no other Soap than Cuticura now. H. J. Myers, U. S. N., U. S. S. Newark, New York, July 8, 1905."

#### Scheme Worked Out Badly.

Congressman Sulzer represents a densely populated district on the East side of New York city. It occurred to him some months ago that though there are no gardens in his district some of his constituents might grow plants in boxes placed on window- sills or fire escapes, so he sent an as- sortment of seed to the inmate of a model tenement house owned by one of his friends. The latter met him a few days ago and said: "See here, Sulzer, I want you to cut out that seed business. It's the limit!" "Why, what's the matter?" asked the aston- ished Sulzer, and he explained why he had sent the seeds. "Oh, you meant well, all right," returned the friend, scornfully, "but when I visited the place the other day I found that about ten families were raising cabbage, cu- cumbers and tomatoes in the bath tubs."

#### A New Sleeping Car Story.

Among the railroad visitors in town yesterday was F. A. Miller, general passenger agent of the Chicago, Mil- waukee & St. Paul Railway. He vis- ited all of the general offices in town and at the Hollenden Hotel yesterday told a story of one of the sleeping car porters who was recently found asleep while on duty. This is con- trary to the rules of the St. Paul Road, and the negro man was in trouble when found by the inspector on the Pioneer Limited. He had his wits about him, however, and in re- sponse to the inspector's inquiry as to what he was doing asleep, he said: "I'll tell you how it was, boss. I have only been with the company a short time and before coming here I was working on such and such a railroad. The line was so rough that I could not get any sleep. Since I have been working for the St. Paul Paul the road has been so smooth that I just could not keep awake."

Mr. Miller says that while the ne- gro had violated the rules, he was permitted to keep his job on account of his wit—Cleveland Leader.

## Missed Chance for Fame.

The astronomer, Lalande, harkway escaped being made famous by a dis- covery. He accidentally struck Nep- tune with his glass on May 8, 1785, but supposed it was a star. He put it down in his notebook as a star and recorded its exact situation. Two days later he struck it once more and made a record of it. But when he looked over his notes he found he had it down as being in two different places, and as a star cannot move in 48 hours he supposed he had made a mistake in one of his notes. If he had used his mind a little less me- chanically he easily might have been a Columbus.
