

Charlevoix County Herald.

Vol. 13

EAST JORDAN, MICHIGAN, SATURDAY, JUNE 26, 1909.

No. 26

Fruit Trees for East Jordan

Thousands Planted Every Year In This Locality.

A little while ago—The Herald man started out to compile some data relative to the number of fruit trees planted in this vicinity the past spring, but owing to the numerous small shipments received, it has been almost impossible to give any exact figures. One firm of nurserymen distributed at East Jordan over two thousand apple, peach, pear, and plum trees and over one thousand Strawberry plants—and this is but a small fraction of the total number put out in this vicinity.

All fruit hereabouts is looking fine and promises a bountiful crop.

Fruit Growing

Everyone, whether he expects to devote his time exclusively to fruit or not, wants an orchard and berry patch. Some trees and berry bushes should be set out as soon as the season permits. The former will require several years before yielding returns and other crops must be depended upon in the meantime. When it does come to bearing, however, its products will be a delight to the eye, a pleasure to the taste, and a fattener for the pocket-book. To get these results it needs intelligent treatment and some work, but it is worth it. The berry patch will yield more immediate returns. You have seen the immense quantities of berries growing wild in this district and the cultivated berries thrive from the start.

On this subject of fruit growing the Manistee Daily News recently published an article, which, in turn, bases its statements upon an article written by an eminent agriculturist, L. M. Keating, and included in the annual report of the Michigan State Board of Agriculture. In this he describes that peculiar climatic condition which is responsible for the great MICHIGAN FRUIT BELT.

"WHEN WE COME TO FRUIT," says the News, "PEACHES undoubtedly stand pre-eminent. But peaches deserve special knowledge. The man who plants peaches without full knowledge of local climatic influences and without the will and the knowledge to master the latest scientific aids in respect to insecticides and germicides, is going to be disappointed sooner or later.

"Peach growing is a business of its very own. In the first place there should be air drainage for the orchard. It must be located on a crest of land. Then the frost bogie is eliminated. When the 25 below zero weather embraced southern Michigan a few years ago all the peach orchards in the low lands were ruined. Those on the hills were spared.

"Given intelligent care and peaches will make any man comparatively rich anywhere from the southern part of the state to the Grand Traverse region.

"AND CHERRIES deserve just as much praise. There isn't a finer place in the world to grow cherries than western Michigan. A great deal of money is being made every year by farmers who set out cherry trees.

"PLUMS are about as good. A little more care is needed to ward off insects and bacteria, and the plums are harder to market in good condition. The great secret of raising fine plums is to pick off a good share of the fruit as soon as it forms, so that there will be room on the branches for it to grow to a good size.

Soil Good for Small Fruits

"FOR BLACKBERRIES there is no better soil or climate anywhere than hereabouts. RASPBERRIES also produce heavily, with very little attention.

"TRY these berries on both sand loam and clay. The lighter the soil the less tendency to form branching rootlets which remain near the surface and never do any good except to produce a troublesome top, which cannot be trimmed fast enough to keep in bounds. Raspberries allowed to run wild in the woods on sand soil do better than when cultivated on clay land. The market is never glutted with these fruits.

"STRAWBERRIES, too, produce grandly, but they should be set out after the land has had some manure. The same holds true of cucumbers and muskmelons.

"AS FOR APPLES—well, a volume could easily be written about apples. There are fortunes in store for the

men who have the brains and the persistence to plant and raise apple trees. A northern slope should be chosen, where the stinging rays of the spring sun cannot easily coax the buds to open. If the land is a little heavier than the lightest sand it will be well, but it is now settled that the sand is very favorable to certain kinds of apples, among which are such staples as Baldwins, Wagners and a certain variety of snow apple.

"Peaches can be grown between the apple trees until they are ready to bear, which will be two or three years sooner than on heavy land. The land should be used for no other crop and should be worked regularly, though of course, clover can be raised and turned under.

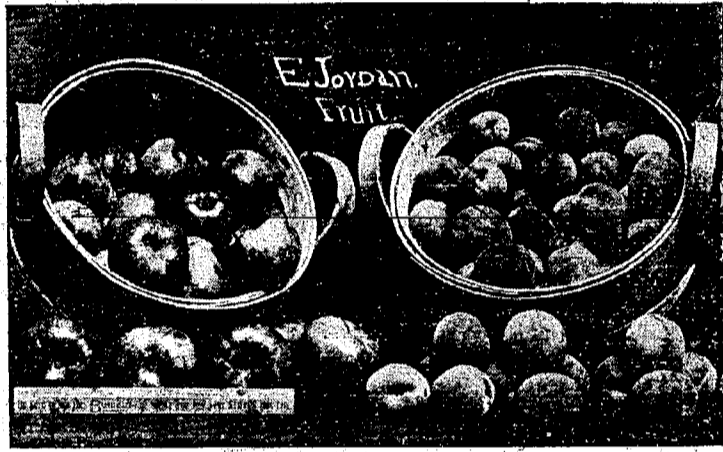

"THE apple business has really never been started, yet in Michigan from the scientific standpoint, as it is pursued in Washington and Oregon. Apples are as good as gold anywhere in the civilized world, and they always will be. Our lake shore climate and responsive soil is not equaled anywhere for apple culture. Just now the costly irrigated lands of certain

east shore of Lake Michigan, a distance back of from twenty to forty miles, that has peculiar climatic conditions. There is nothing like it elsewhere in the United States.

Death of Arthur E. Fitter.

Arthur E. Fitter, professionally known in Vaudeville work as "Billy Howard," who died at the Eriks Hotel in this place Saturday, June 19, was a native of Queensland, Australia, where he was born in 1887. Two years ago he left his native land for England, where he was married in the city of Bristol, to Miss Lulu Bake, and with her came to America. Here he continued his professional career. In making Michigan time he was taken with typhoid fever at Ludington, and was for several days in the hospital there; but anxious to meet his engagements he left prematurely and suffered a relapse. He was fatally ill on arriving at East Jordan and soon sank into unconsciousness and died.

Mr. Howard seems to have been a

valleys look attractive. Great care results there in wonderfully valuable crops of apples. The land, even before the apples have produced their first crop, sells as high as \$1,000 an acre. But in a few years the fruit grower's insect pests will be certain to find these new apple fields, and unless the growers are well posted and persistent their grand investments will fade away.

Apples a Standard Crop

"Given equal knowledge and perseverance, just as much money, probably more, can be made from apples in Michigan as in the West, and the lands cost only \$15 to \$25 an acre now.

"Five acres is better than \$5 a day" is the slogan of the irrigation farmer, and he is right. When one considers how much of useless expense the small farmer eliminates by producing so many of his own necessities at home, so there is no transportation charges, and no middleman's profit, he is a poor farmer indeed who cannot make and save more money on five acres than on a \$5 a day job.

"And five acres set out to apples and scientifically cared for will yield for an average of a long term of years more than any land now being cultivated for crops in this State. The Michigan apple grower can wax rich on just what it costs the Oregon producer to ship to the Chicago market."

Quoting Professor Keating, the News continues:

"Lake Michigan is a buffer to the hot winds that come off the prairies in the summer, for the prevailing winds are from the southwest; also to the cold storms of the prairies in the winter, and the arctic winter winds from the Northwest. When these winds strike this great body of water they absorb a large amount of humidity, so the temperature is also changed by them; and the effect is felt all over this strip of land lying along the east shore.

"In the summer time Lake Michigan is a cooler of the temperature that comes into this section, and cool nights are the result, with more or less fog or dew. In the winter time it is a thrower-off of heat, so that often the temperature is above zero in this section, when forty to sixty miles inland it is to be found 10 to 15 degrees below zero. In fact, as you leave the interior of Michigan and come toward this east shore, the change in the climate is perceptible on the cars as soon as you get within the fruit belt section.

"Except in Africa there is no large continental area of land that has big lakes in it like these Great Lakes of the United States. Here is a strip of land, of drift soil, extending from New Buffalo to Mackinaw along the

young man of exceptionally fine character, free from every form of vice, and an artist in his line of work. The distressing circumstances attending his sickness and death drew forth the universal sympathy of our citizens and everything possible was done to render aid to his wife in her bitter bereavement. The funeral services were held at the Methodist church on Monday afternoon in charge of the pastor, Rev. W. W. Lamport, and the body was laid to rest in Lakeside cemetery. He leaves a father and mother in Australia and also two brothers and two sisters. It will be several weeks before the sad news reaches them that their son and brother lies sleeping among strangers in the far off land of his adoption.

Mrs. Bake, mother of Mrs. Howard, arrived from Chicago on Sunday.

In Memoriam.

A beloved one from us is gone, The voice we loved is stilled, There is a vacant place in our hearts, Which never can be filled.

We want to thank the people of East Jordan for all their great kindness and sympathy in our great sorrow. We wish to thank Mr. Taylor and his wife for the great care and interest they took in our beloved one. We also wish to thank Fred A. Cook, Manager of the Bijou Program at the Loveday Opera House, as he did all in his power to help Mr. Howard in life and death and his great kindness shall never be forgotten by us. Also, we wish to thank the physicians of this city and nurse, Miss Foster, for their great care to Mr. Howard, and who did every thing to save him. We also wish to thank the young men's choir who sang so beautifully at the services. We also wish to thank the beloved pastor who, under one of the greatest difficulties, did his utmost to perform the services over our beloved one. We also wish to thank Miss Helen Stone who was Mrs. Howard's great friend and did all in her power to comfort her in her great grief.

We wish to state that our hearts are with the people of East Jordan and will always remain so, and may their pathways be strewn with roses and their futures always bright.

Mrs. Howard.
Mrs. G. E. Bake.

C. H. Whittington is closing his entire line of last year's Wall Paper at 25 per cent discount.

I have some bargains in farms, city property and business blocks. I also have some farms to trade for city property.—Joel Johnston. 17-52

Publisher's Notice

Owing to freight shipments going wrong The Herald is forced this week to appear in folio instead of quarto form. An order by telegram, to be shipped by express, also failed to reach us.

Choose Fruit for Canning When It is Not Too Ripe.

To insure success in canning, jelly-making and preserving, vegetables and fruit must be used when just right. Fortunately the housekeeper who can pluck from her own garden and fill her store-closet shelves with fruit ripened on its native soil.

Fruit for "doing up" should never be over-ripe. If fresh picked, it should be gathered the night before when dry, for fruit covered with dew or wet with rain will not keep well. Few housewives attempt to can vegetables, but the difference in taste and grocery bills more than repays the trouble. Thorough sterilization of cans, rubbers, covers and the fruit or vegetables in process of cooking are the essentials of success in canning.

Jelly is made from fruit juices and as a pint's a pound, the world around, the same proportion of sugar applies as for most preserves, save when the fruit is sweet, then three-quarters of a pound to a pint of juice is sufficient. One of the secrets of having fruit "jelly" quickly is to have the sugar spread on a platter and heated in the oven before it is added to the boiling juice. Then, if currants or other fruit are at the right stage of ripeness, a few minutes boiling will produce a firm, clear jelly. Underripe and over-ripe fruit will not make good jelly because they do not contain a gelatin-making material found in ripe fruit. The ripeness of a pineapple may be tested by pulling its leaves. If they do not pluck readily the pineapple is not fit to use.

Jelly should not be stirred morphan is necessary to have it clear and prevent granulation of the sugar, but marmalade and preserves, on account of their tendency to settle and burn, must be stirred frequently.—The Dejeuator for July.

WILSON.

Hot and dry. Wild strawberries are very plentiful this year.

The measles patients on the Todd Hill are all convalescing.

O. D. Smith made a business trip to Charlevoix on Wednesday of this week.

Several families from this vicinity spent Saturday and Sunday fishing on Intermediate Lake.

Mrs. Eimer Hayner and children are spending a month visiting relatives in Lapeer Co.

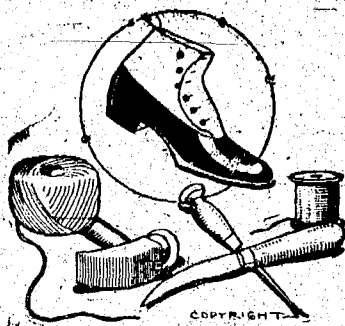

Joe Zoulek has recently purchased the farm in Wilson owned by E. N. Clink of East Jordan.

Mr. and Mrs. George Hayner of East Jordan were guests of Chas. Hudkins on Friday.

Steven Sloan and family are staying on their farm in Wilson a few weeks, but expect to go to East Jordan for the summer.

Harry Batterbee and Miss Celestia Warden of this place were married at the Methodist parsonage in Charlevoix last Thursday evening. Rev. Mr. Wright performing the ceremony. Both parties are well and favorably known here and a host of friends wish them great happiness and prosperity. Their future home will be in East Jordan where the groom has recently built a new house near the Cooperage.

A Lion Tamer's Secret.
The boardwalk growled, and the great yellow lion leaped back in fear. "The lion could kill the hound," the trainer said, "but he doesn't think so. He thinks the hound could easily kill him."
"Why?"
"When the lion was a cub this hound, full grown, lived in the cage with him. The big dog could, of course, lick the little cub, and the cub therefore feared and respected him. Now the cub is grown up, but he still thinks the hound is the better. We rear a cub with a full grown hound in this way for a reason. The hound is a protection to us trainers afterward, when the cub is grown, for then should he become rambunctious one look from the dog will send him, subdued and ashamed, slinking off to the cage's farthest corner."—Philadelphia Bulletin.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better. The reason of the wrong treatment, but probably worse, is a wrong medicine. Dr. Pierce's Favorite Prescription, directed to the cause, would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and herbs, and has in its effects its own condition of the female system. As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorates the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Pain anywhere stopped in 20 minutes sure with one of Dr. Shoop's Pink Pain Tablets. The formula is on the 25c box. Ask your Doctor or Druggist about this formula! Stops womanly pains, headache, pains anywhere. Write Dr. Shoop, Racine, Wis. for free trial to prove value. James Gidley.

Heart Strength

Heart strength, or Heart Weakness, means Nerve strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the aurial, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves. This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpating, suffocating heart distress. Dr. Shoop's Restorative—this peculiar prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strength in those nerves—re-establish them as needed, with

Dr. Shoop's Restorative
JAMES GIDLEY.

Ladies' Equity Notes.

Program of Memorial Day exercises, for the Ladies' Society of Equity, to be held on Sunday, June 27, at the McCrehouse cemetery, Echo township. All Equity members are requested to be present and unite in honoring the memory of our departed members. Farmers and their families should attend.

Exercises begin at 2 p. m. A short program will be given as follows:
March to the cemetery
Singing Hymn—"Shall we gather at the River?"

Sermon Rev. L. S. Matthews
Singing "One by One"
Reading—"Oh Why Should the Spirit of Mortal be Proud?"

Recitation Augusta Schroeder
Decoration of graves of members and their relatives
Singing Hymn—"God be With You 'Till We Meet Again"
March from the cemetery
Members please bring plenty of flowers with you.

BRILLIANT FIRE WORKS DISPLAY

To Be One of the Features of the Coming State Fair.

The management of the Michigan State fair this year has arranged for one of the most gorgeous displays of fireworks that has ever been witnessed at any similar exhibition. The Gregory Fireworks company of Chicago, which is one of the largest concerns of the kind in the world, has been secured to give an exhibition—that for brilliancy and startling effects, has never before been seen.

The fireworks will start Saturday evening, September 4, and continue five nights, September 6, 7, 8 and 9, discontinuing of course on Sunday night, and the last night of the fair.

The horse show, which will also be given in front of the grand stand, will start promptly at 7:30 o'clock and continue until 8:30. Then the fireworks will immediately begin, the display lasting until 9:30, giving everyone ample time to reach home early. The Gregory Fireworks company will prepare a program from high-class material that is something different from that ever seen before. The program will be filled with startling things that thrill from the opening of the program, when a salute of aerial guns are fired, until the close with the goodnight piece.

Among the features will be the grand illumination, when the entire surroundings are brilliantly illuminated with tri-colored Bengal lights, changing from red to white to blue. Two monster fire balloons will follow carrying trails of variegated colored stars. Figure balloons will then ascend showing the star spangled banner in the sky, air ship, flying fish, pigs, elephants, foxy grandpa, etc. Then will be exploded numerous bombs and rockets reaching an altitude of five thousand feet.

The "Merry Acrobat" is a humorous piece of mechanical construction showing in outlines of life, a most realistic production of an acrobat performing many interesting and amusing feats on the horizontal bar. This wonderful creation cannot fail to produce roads of laughter.

The flight of peacock plumed rockets produces a most startling effect, a gorgeous veil of feathery plumes embellished with emerald comets, spreading out through the air.

The "Sultan's Fan" is one of the most novel and bewildering pieces of pyrotechnic displays. When first displayed a beautiful pillar of tri-colored fire is seen, which finally opens into a fan that, when ablaze, has a spread of thirty feet.

The "Golden Sunset" is a mammoth wheel of fire, twenty-five feet in diameter, the acme of twentieth century creation. This piece when ablaze has a circumference of over one hundred feet.

The "Grandela" is another startling effect. This device is manufactured in Europe and especially imported by this concern. After making a long flight and descending nearly to the ground, a second flight is made, resulting in thrilling effects.

Niagara Falls in fire would seem difficult to produce, but is really accomplished by this concern. The piece is forty feet in length and when in operation has all the appearance and sound of the mighty cataract itself. The molten fire, reaching to the ground, rebounds with a splash of silvery mist, creating an inspiring effect.

Added to this great display, there are scores of other beautiful pieces that will add to the general fascination. Rockets and bombs are exploded at the most opportune time to produce startling effects.

These beautiful things in fire are all produced by a skill crew of men, who have been so long in the business that a hitch never occurs to spoil the pleasure of the evening. This exhibition alone will be well worth a trip to Detroit, and is expected to be one of the leading attractions at the big fair.

Mrs. A. B. Nicholas, Jr., left last week for a visit at her old home, Shreveport, La. She was accompanied by her sister, Miss Jessie Dean.

Mrs. Frank Phillips, with son George, returned Wednesday, from Seattle, Wash., where she has been spending the winter. She was accompanied by her mother, Mrs. Bisnett.

Miss Louisa E. Loveday returned Thursday from Chicago to spend the summer. She has been taking a post graduate course in the Columbia School of Expression during the past winter.

Pictures of 1st, 2nd and 6th grade pupils for sale at Hamilton's.

THERE'S a heap of satisfaction in knowing that your EXCELSIOR is not going to shame you when you compare it with any other watch. Every EXCELSIOR is made to run right in its own case before leaving the factory. American-made—\$4.50 to \$11.00. Ask us for the EXCELSIOR WATCH.

FOR SALE BY
C. C. Mack,
Jeweler.

Supt. J. W. Rogers was a county seat visitor, Monday.

Those wanting school pictures can get them at Hamilton's.

A Fine New Line of Ties just received at The Fair Store.

Call and see those guaranteed Springs at Whittington's.

Dr. F. P. Ramsey can test your eyes and properly fit you with glasses.

Harold Lamport left on Monday for Ft. Wayne, Indiana, to spend the summer.

Yes, O. H. Whittington has the finest selection of Wall Paper to be found anywhere.

R. F. Steffes left Tuesday for Chicago where he takes treatment at the West Side Hospital.

We are constantly receiving Fruit and Vegetables of all kinds. The variety is excellent at present.

E. A. Lewis.

Rev. and Mrs. W. W. Lamport, Mrs. M. H. Robertson and Mrs. B. A. Dole were guests on Tuesday of Rev. J. H. Cater and family at the home opposite the island.

Imitation Quarter-Sawn Oak is the latest thing in Iron Bedsteads. They're the "niftiest" thing out and you'll say so if you call at Whittington's Furniture Store and examine them.

"Patronize home institutions," cries the country editor from week to week.

"That is right," says the merchant, "give it to those who go to some other town to buy goods." Then with his heart filled with kindness to the loyal editor, he sends his job work to Kalamazoo, or utilizes a piece of wrapping paper to write an order on, for goods or send a statement to a customer. Funny, isn't it?

We are always glad to get local items, just such as you, reader, would like yourself, and if you have any on hand at any time send them along. Don't sandwich an advertisement in to them, for they belong to the cashier's department, and if they are not worth paying for in a legitimate way they are no good to us. If you have any friends visiting you, or you expect to go away, just say so. The latter clause may gratify your creditors, and the first your friends.

Our gentle marshal, Wm. Johnson, and little daughter Bessie proved themselves royal entertainers on the evening of the 23rd when through their courtesy Mrs. Johnson was besieged with about twenty of her lady friends, occasion being her birthday. The heat Old Sol left when he sank behind the hills was lost in the maze of 500. The most delighted of the guests were Mesdames Newson and Fallas, as they carried away the prizes. The honored lady received from her husband and daughter some very useful and exquisite gifts. The dames left a token as a souvenir of the evening. Refreshments were served by the host. Darkness covered the village ere the festivities came to a close.

SEARCHING FOR A WIFE—Am mining man, 34 years old, never married, good health, character, and some accomplishments. Have accumulated over \$25,000 in Nevada mining and will settle down in beautiful California with the woman of my choice. Desire to know lady 18 to 30 years old, fair looking, possessing good common sense and who would appreciate good home. No objection to widow. All correspondence confidentially received.—John W. Grant, Truckee, California.

The latest invention to hang in the family dining room is the gum board. It is a neat little circular board, plain or decorated, fastened to the wall. The name of each of the family is painted on the circumference, and marks the spot where the gum is left until wanted. This saves carrying the gum to bed and getting it in one's hair or swallowing it in the night. It is obvious that the gum board supplies a long felt want, and he who invented the new fad will have the best wishes of the young ladies.

There can be no greater mistake that a business man can make than to be mean in business. Everybody has heard the proverb of penny wise and pound foolish. A liberal expenditure in the way of business is always sure to be a capital investment. There are people in the world who are shortsighted enough to believe that their interest can be best promoted by grasping and clinging to all they can get and never letting a cent slip through their fingers. As a general thing, it will be found, other things being equal, that he who is most liberal is most successful in business. Of course we do not mean it to be inferred that a man should be prodigal in his expenditures; but that he should show his customers, if he is a trader, or those whom he may be doing any kind of business with, that in all his business transactions, as well as social relations, he acknowledges the everlasting fact that there can be no permanent prosperity or good feeling in a community where benefits are not reciprocal.

D. S. PAYTON,
County Clerk.

Tell some deserving Rheumatic sufferer, that there is yet one simple way to certain relief. Get Dr. Shoop's book on Rheumatism and a free trial test. This book will make it entirely clear how Rheumatic Pains are quickly killed by Dr. Shoop's Rheumatic Kennedy—liquid or tablets. Send no money. The test is free. Surprise some disheartened sufferer by first getting for him the book from Dr. Shoop, Racine, Wis. James Gidley.

Did you ever think what your ad in the newspaper is doing for you? When you close your store in the evening and go home to your family and fireside, not thinking about your business at all, then it is that the paper is being pored over in hundreds of homes—the homes from which your trade is drawn. And there is your ad doing its work silently, but surely, and if you have taken the pains to make it attractive its work will be all the more attractive. This is repeated over and over again, and is no doubt what inspired some writer to call newspaper advertising a "silent drummer."

BE PREPARED FOR BUSINESS

No Room for the Untrained—Advice to Pupils Leaving Our Schools.

Graduates of high schools and pupils who will leave school on completion of the grammar grades should not neglect the opportunity of acquiring a commercial education. In this age of business, trained young men and women are chosen for positions demanding accuracy and involving responsibility. Others are not wanted. The McLachlan Business University, Grand Rapids, Mich., has for its object the fitting of young men and women for success in business occupations. Its long lists of students which it has placed in good-paying office positions is proof of its excellence. Grand Rapids is one of the leading manufacturing cities of the country. In one line—furniture—it stands at the head. The managers of its business concerns are constantly on the lookout for bright, accurate, well-trained office workers. The best fitted are the best paid. At the McLachlan Business University may be acquired a complete knowledge of stenography, accounting, and general business practice. The terms are reasonable. We would advise parents and guardians and all who are their own masters in this regard to send for a copy of the handsome new catalogue descriptive of the courses of instruction. It may be had free by mail, by addressing D. McLachlan & Co., 19-27 S. Division St., Grand Rapids, Mich.

WONDERFUL PROGRESS.

The State Fair Grounds and Buildings Worth Nearly a Half Million Dollars.

The Michigan State Fair was organized sixty years ago and during most of the time until it was established in Detroit its fight for existence has been strenuous. Many times the clouds of failure hovered dangerously near, but owing to the determined efforts of friends it has finally been established on a firm financial basis. Five years ago the fair was permanently located in Detroit, because it was believed that with so large a population to draw attendance from, the chances of success would be much brighter. There were only \$17,000 in the treasury when the fair was first located in Detroit. The 147 acres owned by the society cost \$85,000. Detroit business men at once came to the aid of the society and donated heavily. As a result large, commodious and beautiful buildings were erected, as were also a grand stand with a seating capacity of 7,000, live stock barns, a race track, band stand and many other buildings. The grounds were graded into streets with cinder drives, shrubbery and trees planted, fences erected, and various other improvements made until now the property represents an investment of nearly half a million dollars. Against this half a million dollar plant, there is only an indebtedness of \$160,000. The great portion of which is covered by the original bond issue. Most other State Fairs are owned by the commonwealths in which they are located, but every effort to turn this over to the state has failed. Michigan should support the State Fair and help to uphold it. The Minnesota and Iowa state legislatures have appropriated large sums for new equipment and the state of Michigan should do the same. This fair is purely a state institution and should have the support of every person in both the upper and lower peninsulas.

GREAT RACING AT THE FAIR.

Fastest Animals in the World—Will Meet September 2-10.

No single feature of a State Fair attracts more people on its own accord than the racing, if it is of sufficient merit. That this fact is well known by the powers that have been and those that are in the Michigan Agricultural Society is shown in the completeness of the department. The steel grand stand, the magnificent mile track, the spacious and healthful stables, representing in all an outlay of over \$100,000, show what is thought of the harness horses at the Michigan State Fair. There is no more complete plant down the line of the grand circuit than that just outside of Detroit, where the big fair is held each year. The track was rebuilt last year at a cost of \$10,000 and now presents the composite surface, so successful at Memphis, the pattern after which other tracks are cut.

The fact that at the State Fair of 1908 no less than nine horses beat 2:10 in winning heats on the track and at the blue ribbon meeting that year a number of world's records were demolished shows what a fast track Michigan has. It is the talk of the country among racing men, and is one of the only cases where the same track is used for the State Fair and the grand circuit, affording the fairgoers an opportunity of seeing horses race on the fastest piece of dirt out of doors. The equipments are perfect. Such is the growth of the popularity of the sport of the sulky that each year sees additional demand for stabling, and this summer a new barn with a capacity of fifty has been completed. In all 300 horses can be housed in roomy box-stalls in the speed barns, and because of the general desire to stroll down and take a look at them the directors of the society have had a continuation of the concrete walks, which now run past the cattle, sheep, swine and speed barns—an excellent idea.

In the past the fair has been fortunate in attracting a good class of horses, and there are reasons why there will be an improvement this year. A new fair at Kalamazoo opens on August 30, and in connection with it there will be a big race meeting. The Kalamazoo stakes have attracted an unusual number of horses, and from that city the horses will come to Detroit, where the State Fair race program opens September 6 and continues for five afternoons. The State Fair is a member of the Michigan circuit; other states will contribute, so from all sources it promises to assemble a lot of fast and clever race horses.

In addition to the fifteen races scheduled for the five afternoons there will be a great attraction on September 9. Dan Patch, 1:55, the unbeaten champion of the world, will race against Minor Heir, 1:59 1/2, his most formidable rival. They will go one heat, the idea being to lower the world's record below two minutes, which the trainer of the horses says he will be able to do if the weather and track are right. It will be the most spectacular event ever known to the light harness turf, solitary exhibitions against time fading to a shadow in comparison with this struggle from wire to wire.

The program, with the added attraction, is one of the greatest ever offered by a state fair and will serve to keep Michigan's yearly outing in the forefront. The regular race card for the fair is as follows:
Monday, September 6—2:10 pace; purse \$500; 2:13 trot, \$500; 2:16 pace, \$500.
Tuesday, September 7—2:30 pace, \$500; 2:12 trot, \$500; 2:22 pace, \$500.
Wednesday, September 8—2:21 trot, \$500; free-for-all pace, \$500; 2:30 trot, \$500.
Thursday, September 9—2:24 pace, \$500; 2:16 trot, \$500; 2:13 pace, \$500.
Friday, September 10—Free-for-all trot, \$500; 2:19 pace, \$500; 2:25 trot, \$500.

Village Taxes.

The Village tax roll for the year 1909 is now in my hands for collection.

I will be at C. A. Hudsons Shoe Store on June 12-19-26 and July 5, for the purpose of receiving and accepting for taxes, and at my home on the West Side at other times. A fee of one per cent will be charged on all taxes paid before July 5th; after which the usual fees will attach.

J. H. MILFORD,
Village Treasurer.
East Jordan, Mich.

Burdens Lifted

From Fast Jordan Backs—Relief Proved by Lapse of Time.

Backache is a heavy burden; Nervousness wears one out; Rheumatic pain; urinary ills; All are kidney burdens—Dully effects of kidney weakness. No use to cure the symptoms, Relief is but temporary if the cause remains. Cure the kidneys and you cure the cause. Relief comes quickly—comes to stay. Doan's Kidney Pills cure kidney ills. Cure sick kidneys permanently. Here's proof that you can verify. T. Klinge, tailor, 123 Granite St., Cadillac, Mich., says: "I first used Doan's Kidney Pills about two years ago on the recommendation of my friends and they proved to be the best remedy I had ever taken during the ten years I had suffered from kidney trouble. The severe backache I had seemed to affect my whole system and I could get no relief from the medicines I tried. Doan's Kidney Pills, which I finally used proved to be just what I needed and cured me. I can honestly recommend them to other persons having trouble from their back or kidneys." (Statement made in 1901.)

A LASTING CURE—On Sept. 11, 1906, Mr. Klinge, said: "Since endorsing Doan's Kidney Pills five years ago I have had no reason to change my good opinion of them. My general health is now excellent and I have no backache, or other symptoms of kidney trouble."

For Sale by all Dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York. Sole Agents for the United States. Remember the name—Doan's—and take no other.

Shoe Satisfaction

Can't always be purchased with money. The best of leather worked into shoes and sold at biggest price isn't always satisfactory.

SHOES OF COMFORT are the ones that satisfy. All feet fitted in both high or low cuts at the

Jackson Stewart, the Horse-shoer has returned from Manistique to accept his old position back from Chas. Shedina where he will be at home to horse owners ten hours a day from now on. Yours for good horse shoeing.—J. Stewart.

Any lady reader of this paper will receive on request, a clever "No Drip" Coffee Strainer Coupon privilege, from Dr. Shoop, Racine, Wis. It is silver-plated, very pretty, and positively prevents all dripping of tea or coffee. The Doctor sends it, with his new free book on "Health Coffee" simply to introduce this clever substitute for real coffee. Dr. Shoop's Health Coffee is gaining its great popularity because of: first, its exquisite taste and flavor; second, its absolute healthfulness; third, its economy—14 lbs. 25c; fourth, its convenience. No tedious 20 to 30 minutes boiling. "Made in a minute" says Dr. Shoop. Try it at your grocer's for a pleasant surprise. G. L. Sherman & Son.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a stomach nerve, or it may have given strength and support to the heart or kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the stomach nor to temporarily stimulate the heart or kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by James Gidley.

SECRETS OF RUG MAKING.

You can get Rugs made from Old Carpets in the "ordinary" way most anywhere. We make them out of the "ordinary." SANITARY, STRONG, BEAUTIFUL, SKILLED workmen; GOOD WARP. Clean surroundings is what's making our factory famous. It will pay you to make shipments to us. Our booklet tells why. ay we mail-it?
