EAST JORDAN, MICHIGAN, SATURDAY, NOVEMBER 27, 1909.

No, 47

Second Number Next Monday

Lecture Course Offers Thomas Brooks Fletcher, Lecturer,

The second number of the East Jordan Course of Entertainments will be given negt Monday evening when Thos. Brooks Fletcher will deliver one of his celebrated lectures. Season Tickets for balance of the Course are offered at \$1,20, which is exceptionally low, single tickets are -flered at 35c to this number, the remaining three numbers being 50 cents

The objects of this course, which is under auspices of the Christian Endeavor, is not a money-making scheme. but an opportunity to allow our citizefts to have high-grade entertainments at cost price.

Thos. Brooks Fletcher.

From the Waverly(Iowa) Independent. One of the most brilliant lecturers ou the American platform. He is filled to the brim with physical and. mental energy. He dashes forward upon introduction and plunges eagerly, almost furiously, into his subject. His personality is magnetic. He is master of every phase or dramatic art. A graceful Delsartean one moment, a thunderbolt burling giant, the next; he combines impassioned oratory with the calm reasoning of a judge. He is a master in the use of language whether it be biring sarcasm, scathing condemnation, tender pleading, or strong exhortation. Aud all this power in language and dramatic art is combined for one purpose-to startle, to awaken, and then to burn into the soul of his hearers, moral convictions, in matters political, social, and religions. No one, unless he is a cynic or one who never allows his feelingsany liberty, can listen to Thomas Brooks Fletcher without having a burning desire to go out and annihilate some brute of injustice and to stand erect on both feet with shoulders squared for every phase of civic righteousness. His straight from the shoulder style of dealing with modern conditions, his honest sincerity, his powerful convictions. his contampt for any attempt to sugar coat injustice, wins for him the admiration of "his audience; for the world admires a fighter and passionately loves him if of the tract, but it will be for the edhis cause is just.

any other crop that could have been raised on it. SECOND TRIAL.

Between August 8th and 11th, 1905 I seeded 21 acres to a mixture of mamoth-clover, alsike, timothy, and alfalfa at the rate of six quarts to the acre, The soli yarled from the lightest sand to heavy white clay. There was some muck, some marl, and some gravel.-On the marl and muck spaces the alfalfa soon died except where there was much sand. On the clay and gravel spots. It far outgrew all the other seeds sown with it, showing above all other plants at having time for the other grasses. This continues to date, 1909.

THIRD TRIAL.

From June 1st to 6th, 1906, I seeded 20 acres more to alfalfa 'aloue, sowing twelve quarts, twenty-four pounds, to the acre of inocculated seed, treated with the government culture obtained from Washington according to instructions for its use. Apparently every seed grew and prospered. I had to mow it twice that senson, as I did parcel one in 1902. The soll of this 20 acres, was very variable, containing spaces of red clay, white clay, white sand. sandy loam, clay loam, and gravel. It is still doing well in all parts of the field, except in one small

spot, that is too wet for it. I inspected it recently and do not believe any of it has wluter killed, although some

A NEAR-FATAL ACCIDENT

Jack Cuson Seriously Burned, By Gasoline.

Presence of inind is the only thing that saved Jack Cuson his life Wednesday morning while working at his laundry. In filling a gasoline stove he over-ran the tank and the liquid ran down the pipe-and tghited on the red-hot burner which be had just turned off. He started to pick up the blazing stove and in doing so turned the tank over his head, throwing the burning liquid on his head, shoulders and arms. His body a mass of flames he ran to the water tap where fortunately a wash dish was filled with water and threw the contents over his head, extinguishing the & best line of Christmas fire. - His eyebrows and hair were badly singed and the skip on his face, neck and hands were fearfully blistered. In running to the water he was nearly sufficated by the flames.

Mr. Cuson is back in the grind and duly thankful that he escaped withhis life.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so ? The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dre

Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult. Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N.Y.

Alfalfa in Western Michigan.

The below article, from the pen of our former townsman M. M. Burnham -now at Petoskey-has been pubthe Western Michigan district. It will be of particular interest to farmers hereabouts as the experiments were carried out on the land now owned by the East Jordan Iron Furnace and Chemical Plant].

FIRST YEAR. On May 28th, 1902, I sowed a field of 31 acres to alfalfa alone, at the rate of twelve quarts to the acre without inocculation. The soil was a very light dry sand and had been cleared and croped for fifteen years without manure till in 1901, when I manured a portion of the field and planted the whon to potatues in wide check rows in order to give it thorough cultivation and exterminate all June grass and weeds. In the spring of 1902, I disked the ground and gave it several thorough cultivations in order to kill all weeds. The alfairs made a good even start all over the field and as soon as it began to blossom, I cut It with a mower and let it remain where it fell, When it came on and began d-blossom a second time, I mowed it again as before and left the crop on the ground. In the spring of 1903 after the alfalfa had made a growth of about four inches, I turned onto it. nights a span of horses weighlug 2,900 lbs, which although they worked every week day kept very fat and steel But they could not, however,

of the meadows were in fair condition set officers for 1910 and the land of about average fertility, not in any respect extraordinary for the neighborhood. ...

Much Tax Homestead Lands.

Lansing, Mich., Nov. 25 - The state has approx mately a million and a half acres of lands which are classed a tax homestead lands: Auditor General Fuller is completing the necessary investigation in preparation to the transfer to the land department of 328,265 acres of these lands, and then it is expected the public domain commission will take steps to set apart in each county having tax homestead lands, a tract for reforestation purposes, The state will have charge ucation and benefit of the people of the county.

It is surprising the amount of tax homestead lands that still remains in counties which have been settled for years. The eastern counties have 91,-401 acres, the western about the same, and the upper peninsula about 51,155 acres. There are only 23 counties of lished in a number of newspapers in the 83 which have less than 600 acres, and 22 which have no state lands at all. Ingham has about 160 acres, Eaton has 37, Clinton, Genesee, Jackson and Wayne have none, while Kent has 120, Muskegin 709, and Saginaw 271.acres,

At a meeting of the public domain commission recently it was decided to withdraw from sale the state lands in Luce, Kalkaska, Otsego, Alpena, Presque Isle, Montmorency and Missaukee counties, and certain portions of land

in each of these counties will be reserved to-protect the second growth timber.

The commission will also endeavor to interest all farmers in forestry matters and establish nurseries wherever it is necessary.

An opinion of Attorney General Bird was rendered to the commission in the matter of the tax title lands which were purchased by the old forestry commission, and no deeds of which were ever registered. It showed that the commission had no right to purchase these lands prior to the act of 1897, which means that the money, amounting to several hundred dollars, expended by the old commis-

There has just died at the home of her grandniece, Mrs. William Vianen of New Westminster (herself 76 years of age) the last of the royal line of the Chehalis Indians, in times long past a strong nation occupying the country contiguous to Harrison Lake, Montreal Herald's Victoria' (B. C.) correspondent says. Queen Jeanle was reputedly 132 years old at the time of her death and until quite recently in full possession of all her faculties. She was a young woman 31 years of age and the mother of five when Simon Fraser made his historical expedition in the course of which he discovered the great river to which he gave his name, and Queen Jeanle told with pride of giving the strange white man hospitable entertainment, in recognition of which the Scottish /explorer presented her with several pretty trinkets, which have ever since been preserved as family heirbooms. Queen Jeanie had for years been living in a lowly hut on the Indian reservation at the west end of New Westminster city, forgotten by the busy world and almost forgotten by the scattered remnants of the nation over which in its unity she once ruled. For the last year or more she has been speechless and utterly helpless, waiting for the summons to the happy hunting grounds. Her grandnlece, herself 76, 55 years ago married one of the province's earliest pioneers, William Vianan, better known as "Dutch Bill," the first white fisherman on the Fraser river. His death occurred about three years ago. No. such case of Indian longevity as that of Queen Jeanie has been known in this part of the world,

Hendaye, Frontier Town. Hendaye, the French frontier townwhich has been forwarding much of the Spanish crisis news, and has been the scene of embarrassing demonstrations by Spanish refugees against their own country's government, is the Andaye of Wellington's passage of the Ridasson Gon Hay crossed the channel and a half mile of sands at low tide from the Spanish bank on the morning of October 8, 1813, and captured Hendaye, To-day the traveler by the Sud express crosses the "international" railway bridge between Irun and Hendaye without realizing exactly when he passes the frontier. But the little river is an effective boundary still. One day early this year a correspondent found himself in the main square of Irun asking for the railway station, and only one of seven or eight prosperous-looking Irun citizens had French enough to understand or answer the question-within a few-hundred yards of France!

By MARGARET L. FOLEY

VERY woman wage-earner should belong to a trade organization. It is only through organization that anything is ob-E tained. In every large community of intelligent working people a trade union is as legitimate as a savings bank. Capi--talists combine into corporations and trusts to lower expenses and increase profits and wage-carners combine into unions to reduce the hours of labor and to raise wages.

Join Union

Any person, whether capitalist or wage-carner, who does not protect his business interests by organizing with others

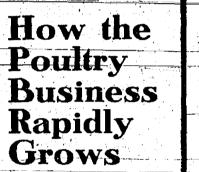

like himself is almost certain to become a loser. The wageearner cannot do without the trade union. It is the only hope that he has of permanently bettering his condition.

Women workers, especially when unorganized, are the most helpless class in the community, with the exception of the child worker, because of their inexperience in business life. They can be a great menace to the community where they work in competition with men, for when unorganized they invariably tend to lower wages.

Women start out in the labor world with the idea that their wagecarning period will be of short duration. They therefore often accept lower wages than would a man without considering that by so doing they are lessening the possibility for that man to marry and support a family according to the American standard.

Again the large number of women working after marriage is indicative of the fact that the competition of organized women with men is so great that the normal family relation cannot be maintained.

Every woman should strive for a . living wage, an eight-hour day and mar Cant of good sanitary conditions, which are al most never found in unorganized trades.

Some one now advócates a muzzle for roosters. There have been muzzles proposed for dogs, for cats and, in fact, for almost everything except for the man who. constantly finds fault with other people's business. Only a few years ago the poultry industry was in its infancy. Look at it now. The city folks are building up some of the finest grades of poultry-to-be found either in América or Europe Most

people think that it was the farmer_who

The Best Food for Workers.

The best food for those who work with hand or brain is never high priced. The best example of this is found in

Quaker Oats. It stands at the top among foods that supply nourishment and vigor, without taxing the digestion, and yet it is the least expensive food one can eat. This great food value and low cost make it an ideal food for familles who want to get the greatest good from

what they eat, Laborers, factory or farm hands, fed plentifully on Quaker Oats will work better and with less fatigue than if fed on almost any other kind of food. All of these facts were proved and very interesting information about human foods were gathered by Professor Fisher of Yale University in 1908. In addition to the regular package Quaker Oats is packed in large sized family packages either with or without china dishes.

SHOWED HIS HERO WORSHIP

Surely Nothing Wrong Could Go Forth from Lips That Were His

Veneration.

Allen has a strong admiration for soldiers. He seldom misses a military parade and his childish fancy has so idealized the boys in blue that he considers them little short of perfec-

tion. Not long ago his mother took him to see an elderly friend of hers-a sweetfaced, silver-haired woman, who is the widow of a veteran of the civil war." Before arriving at the house Mrs. Parker told Allen this bit of her friend's history, and consequently the boy accorded this beautiful woman the most reverent attention.

In discussing a certain current subject of literary interest the two women had a mild difference of opinion, and Allen's regard for brass buttons would not long permit him to listen in silence.

"Mamma," he asked in gently reproachful tones after he had fidgeted a moment in his chair, "don't you think a soldier's wife ought to know?" -From the Housekeeper.

MAJOR OR MINOR.

Oil of Sassafras for Insect Bites. It is not generally known how valuable a preventive against the bites of mosquitoes, fleas, gnats, midges, etc oil of sassafras is. The fact has recently been recorded again by A. T. Girdler. If in a susceptible person the oil is applied at once to the place that has been bitten it almost invariably prevents the poisoning altogether. If applied to the inflamed spot a day or two after the bite it an once stops the irritation.

To those who live in the country and whose life is made a burden by undue susceptibility to insect bites and to those who have not yet return ed from holiday making in regions infested by biting insects, oil of sas safras should be a great boon and it is harmless as an external application. -London Globe.

Electricity Known of Old.

writer in the Elektrotechnische Anzeiger cites many incidents to show that electricity was not unknown to the ancients, and that George Eber's suggestion in a novel that the Egyptians made use of lightning conductors was well founded. Instruments much like the modern heliograph were also used the writer says, by priests, as a means of communication between temples. There can be no doubt, he says, as to the temple having been protected by lightning rods. The Biblical description shows that the roof was provided with metallic points held aloft by columns and that these ending in chains terminated in great water tanks. He adds: "All of which is vouched for in the first book of Kings and the second book of Chronicles."

Lighthouse for Peace Memorial. Would not a lighthouse be a fitting memorial of the peace that has pre-valled on the great lakes since the war of 1812? The neutrality of the great lakes is a triumph of common sense and humane instincts over warlike impulses. It also illustrates the superiority of the unwritten to the written statute.

- Naturally So. There seems to be a great deal-

Sunlight

in the

built up the poultry industry. Not "so. Look through the many poultry shows and you will see that the city folks are ahead of the farmers. The large cities are full of fancy-poultry breeders. People came to our doors simply begging for fresh eggs, especially for the use of invalids and children. The price was no object. Fresh eggs were

needed and not storage eggs." Still we find people who kick about chickens while clamoring for fresh eggs. Why don't they use storage eggs? The coming winter will find these people paying more for eggs than ever. The only way to obtain the real fresh egg is to raise it.

It costs no more to feed blooded stock than the common stock of chicken. Hence the great amount of fancy-poultry found throughout the suburbs of the big cities.

If people do not agree with their neighbors' views and ideas, why don't they move elsewhere? , The unmuzzled howler is found all over the universe, from ocean to ocean. But show me one who adds a penny to industrye

A visit to the poultry and animal shows will convince anybody that the city people are showing the goods, not howling.

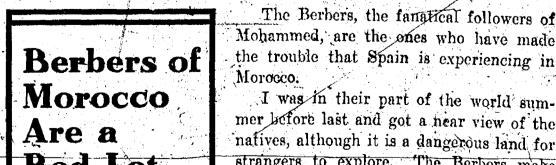

All doctors now agree that the sickroom should be a sunny one, if possible. It has **Benefits of** been remarked in hospitals that patients on the sunny-side get well quicker than those on the dark side. Sunlight gives. vigor and life. Of course the window blinds should be drawn if the patient wish-Sickroom es for a dark room, as people 'do in pain, and in some cases a dark room is necessary. but these are the exceptions. In general a sunny room is a good medicine. By WELLS ANDREWS, M. D.

In all families there should be one who could/perform/the duties of a nurse / To do so requires tact and observation. She

must use her eyes and remember every detail and, if possible, note them down in writing, to tell the doctor all about the patient in/his absence. These are the principal things the nurse should note: First, temperature; second, pulse; third, respiration.

Taking the temperature means ascertaining the exact heat of the body. This cannot be done by mere feeling with the hand. It must be done with a clinical thermometer, which is a very important help in medical practice. These thermometers can be purchased of your druggist and your doctor will instruct as to their use.

The temperature can be taken in various parts of the body, the most asual being in the mouth or armpit. The normal or natural heat of the body is 98.4 degrees.

The story opens with the shipwreck of he steamer on which Miss Genevieve estic, an American heiress, Lord Winthrope, an Englishman, and Tom Blake, thrope, an Englishman, and Tom Blake, a brusque American, were passengers. The three were tossed upon an uninhab-ited island and were the only ones not drowned. Blake, shunned on the boat, because of his roughness, became a hero as preserver of the helpless pair. The Englishman was suing for the hand of Miss Leslie. Winthrope wasted his last match on a cigarette, for which he was scored by Blake. All three constructed hats to shield themselves from the sun. They then feasted on cocoanuts, the only procurable food. Miss Leslie faced an un-pleasant-situation. Blake recovered his pleasant-situation. Blake recovered his surveyor's magnifying glass, thus insur-ing fire. He started a jungle fire, killing a large leopard and smothering several cubs. In the leopard's cavern they built a small home. They gained the cliffs by burning the bottom of a tree until it fell against the heights. The trio secured eggs from the cliffs. Miss Leslie's white skixt was decided upon as a signal. Miss Leslie, made a dress from the leopard kint Overhearing a conversation be-kint Overhearing a conversation be-aveen Blake and Winthrope. Miss Leslie became frightened. Winthrope became ill with fever. Blake was poisoned by a fish and almost died. Jackals attacked mp that night, but were driven off by Genevieve. Blake constructed an ani-mal trap. It killed a hyena. On a tour the trio discovered honey and eysters. Miss Leslie was attacked by a poisonous snake. Blake killed it and saved its pol-son to kill game. For the second time Winthrope was attacked by fever. He and Blake disagreed. The latter made a strong door for the private compartment strong door for the private compartment of Miss Lestie's cave home. A terrible storm raged that night. Winthrope stole into her room, but she managed to swing her door closed in time. Winthrope was badly hurt: He died the following mornflag. The storm tore down their distress flag, so a new one was swung from a bamboo pole. Miss Leslie helped in cov-ering Winthrope's grave with, stones. Genevieve took a strong liking to Blake.

CHAPTER XXIIL-Continued.

Miss Leslie looked away, visibly distressed. She had not been reared after the French method. Young as she was, she had fluttered at will about the borders of the garden of vice, knowing well that the gaudy blossoms were lures to entice one into the pitfall. Yet never before had she caught so clear a glimpse of the slimy depths.

"That's it!" growled Blake. "Throw me down cold just because I'm square enough to tell you straight out. You make me tired! I'm not one of the Work-ox sort, that can chew the cud all the year round and cork the blood humor: "Anyway, they'll have earned | out of their brains. I've got to cut a meal by the time they get me. loose from the infernal grind once in chewed up." a while, and parring a chance now and f then at opera, there's never been any. thing but a spree-"

the beast were indistinct and the Slayer of a Marshal Saves Livan Wins range long. He hesitated, and the opportunity was lost.

Yard by yard they watched the slight swaying of the grass tops which betrayed the cautious advance of the grim stalker. The beast did not roar again. Having failed to flush his game, he was seeking to catch them off their guard, or perhaps was warily taking stock of the strange creatures, whose like he had never-seen. Now and then there was a -pause,

and the grass tops swayed only to the down-puffs of the heightening gale. At such moments the two grew rigid, watching and waiting in breathless suspense. They could see, as distinctly as though there had been no screening grass, the baleful eyes of the huge cat and the shaggy forebody as the beast stood still and glared out at them.

Then the sinuous wave would start on again, around the grass border, and Blake would draw in a deep breath and mutter a word of encouragement to the girl:" "Look, now-the dirty sneak! Trying to give us the creeps, is he? I'll creeps him! 'Fraid to show his pretty mug!" Not until the beast had circled half

around the glade did his purpose flash upon Blake. With the wariness of all savage hunters, the animal had marked out the spur of jungle-on the north side, where he could creep closer to his quarry before leaping from cover.

"The damned sneak!" growled Blake. "You there, Jenny?" She could not speak, but he heard her gasp. "Brace up, little woman! Where's your grit? You're out of this deal. anyway. He'll choke to death swallowing me But say; couldn't you

manage to shin up a palm; 20 feet or vouched for the fact that Killion's so, and hang on for a couple of minbravery had saved the state \$100,000 utes?" and probably some lives. "I-can't move--I am--"

good health, with its blessings, must un derstand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright, Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co, holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of niless, has just left the Kansas prison Figs and Elixir of Senna gives general with a fortane of \$6,500, \$500 of which satisfaction. To get its heneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

NOT SO BAD.

Nervous Lady-Don't your experiments frighten you terribly, professor? I hear that your assistant met with a horrible death by falling four thousand feet from an aeroplane. Bold Aviator-Oh, that report was greatly exaggerated.

Nervous Lady-Exaggerated! How? -Bold Aviator-It wasn't much more than two thousand five hundred feet that he fell.

RASH ALL OVER BOY'S BODY.

Awful, Crusted, Weeping Eczema on Little Sufferer-A Score of Treat ments Prove Dismal Failures.

Cure Achieved by Cuticura

leaving, gave him a letter which "My little boy had an awful rash all over his body and the doctor said it was eczema. It was terrible, and used to water awfully. Any place the water went it would form another sore and it would become crusted. A score or more physicians failed utterly and dismally in their efforts to remove the trouble. Then I was told to use the Cuticura Remedies. I got a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent, and before we had used half the Resolvent I could see a change in* him. In about two months he was entirely well, George F. Lambert, 139 West Course St. Mahanoy City, Pa, Sept. 26 and 28 4, 1907."

ing, Mr. Blake!"

hypocrites, you'll go and marry one of those swell dudes who's made that sort of thing his business, and everybody knows it, but it's all politely undevstood to've been sub rosa, so it's all right, because he knows how to part his name in the middle and-" "Please, please-stop, Mr. Blake! CHAPTER XXIV.

Lion Leads Them.

 \leq the lee of the ridge on a stretch of bare ground. Other than seaward, the open space was

hemmed in by grass jungle, interspersed with clumps of thorn-brush. On the north side a jutting corner of the tall, yellow spear-grass curved out and around, with the point of the hook some 50 yards from the palms. Elsewhere the distance to the jungle was

nearly twice as far. Blake dropped the, bag and his weapons, flung down his hat and started up a paim shaft. The downpointing bristles of his skin trousers aided his grip. Though the lofty crown of the palm was swaying in the wind he reached the top and was down again before Miss Leslie had arranged the contents of the lunch bag.

"Guess you're not extra hungry," he remarked.

She made no response.

"Mad, eh? Well, toss me the little knife. Mine has got too good a meatfor the nuts, and the wind blowing so | Ha'll---" "Mr. Blake, I suppose you know hard up there," she said, as she hat this African coast is particularly handed over the penknife. "I am not

There was a noticeable falling (TO BE CONTINUED.) took quick aim; but the outlines of isn't worth mentioning. off in his mult and list of callers.

"Tom!" She Cried, Struggling to Her Knees,-"Tom!"

"What in--- Another snake?" he demanded, twisting warily about to glare at the ground behind him. -"There-over in the grass!" she "Oh, I don't know. We'll see about whispered. "It looked out at me with

> "errible, savage 'eyes!" "Snake?—that far off?"

"No, no!-a monster-a huge, fierce beast?"

"Beast?" echoed Blake, grasping his bow and arrows. "Where is he? Maybe only one of these African buffaloes. self-sacrifice. It was only the glance How'd he look?-horns?" -"I-I didn't see any. It was all shaggy, and yellow like the grass and terrible eyes-Oh!"

The girl's scream was met by a ferocious, snarling roar, so deep and prolonged that the air quivered and the very ground seemed to shake. "God!-a lion!" cried Blake, the hair on his bare, head bristling like a startled animal's

THe turned squarely about toward the ridge, his bow half drawn. Had the lion shown himself then Blake would have shot on the instant. As it was, the beast remained behind the screening border of grass, where he could watch his intended quarry with-

out being seen in turn. The delay gave Blake time for reflection. He spoke sharply, as it were biting off his words: "Hit out. I'll stop the bluffer."

"I can't, Oh, I'm afraid!" Again the hidden beast gave voice to his mighty rumbling challenge Still he did not appear, and Blake attempted a derisive jeer: "Hey, there, louder! We've not run yet! It's all right, little woman. The skulking sneak is trying to bluff us. 'Fraid to some out if we don't stampede. He'll riake off when he finds we don't scare. Lions never tackle men in the day-"It was very kind of you to climb time. Just keep cool a while.

> "Look!-there to the right!-I saw him again! He's creeping around! See the grass move!"

"That's only the wind. It eddies down-God! he is stalking around. Trying to take us from behind-curse him! He may get me, but I'll get him, too-the dirty sneak!"

The blood had flowed back into Blake's face, and showed on each cheek in a little red patch. His broad chest rose and fell slowly to deep respirations; his eyes glowed like balls of white-hot steel. He drew his bow a little tauter and wheeled slowly to keep the arrow pointed at the slight wave in the grass which marked the stealthy movements of the lion. Miss Leslie, more terrifled with every added moment of suspense, cringed around, that she might keep him be-

"Make a try! It'll give me a run for my money. I'll take the next elevator after you. That'll bring the bluffer out on the hot-foot. I slip a surprise between his ribs and we view the scenery while he's passing in his checks. Come; make a spurt! He's around the turn and getting nearer every step."

"I can't-Tom-there is no heed that both of us-... You climb up-" "He turned about as the meaning of her whisper dawned upon him. Her eyes were shining with the ecstasy of of an instant; then he was again facing the jungle.

"God! You think I'd do that!" She made no reply. There was a pause. Blake-crouched on one knee, tense and alert-waited until the sinister wave was advancing into the point of the incurved jungle. Then he spoke, in a low, even tone: "Feel if my glass is there."

Her hand reached around and pressed against the fob pocket which he had sewn in the belt of his skin trousers.

"Right. Now slip my club up under my elbow-big end. Lick on the nose'll stop a dog or a bull. It's a chance."

She thrust the club under his right elbow and he gripped it against his side. At that moment the lion bounded

from cover, with a roar like a clap of thunder. Blake sprang erect. The beast checked himself in the act of leaping, and crouched with his great naws outstretched, every hooked claw thrust out ready to tear and mangle, In two or three bounds he could have leaped upon Blake and crushed him with a single stroke of his paw." As he rose to repeat his deafening roar, it seemed to Blake that he stood higher than a horse-that his mouth gaped wide as the end of a hogshead. And yet the beast stood hesitating, restrained by brute dread of the un-

known. Never before had any animat that he had hunted reared up to meet his attack in this strange manner "Lie flat!" commanded Blake; flat, and don't move! I'm going to call his bluff. Keep still till the poison gets in its work. I'll keep him busy long as I can. When it's over, hit out for home along the beach. Keep inside the barricade, and watch all you can from the cliffs. Might light a fire up there nights. There's sure to

be a steamer before long-" "Tom!" she cried, struggling to her knees-"Tom!"

But he did not pause or look around. He was beginning to circle slowly to the left across the open ground, in a spiral curve that would bring him to the edge of the jungle within 30 yards of the lion. There was

A few years later Killion had just reached the top of the coal mine when a fire alarm was sounded. He volunteered to redescend and bring out the imprisoned convicts. This he did at

Pain means congestion-blood pressure somewhere. Dr. Shoop's Pink Pain Tablet's check head pains, womanly pains, pain anywhere. Try one and see!-20-for 25c, Sold by James Gidley,

Humor of the Stump. During a warm political campaign an "old timer" took the stump. Whether he gathered many lost sheep into the fold of his party or not, he certainly did not detract from the humor of the situation. On one occasion a crowd of people gathered to hear him speak.

"Fellow citizens," he roared, "our opponents are resorting to every form of vileness, to dishonest and underhand tricks, to inconceivable meanness, to the corruption of voters, but we warn them"-his thunder shook the roof-"we, warn them, fellow citizens, that that is a game that two can play at!"

Courage is a virtue that the young cannot spare; to lose it is to grow old before the time. It is better to make a thousand mistakes and suffer a thousand reverses than run away from battle.-Henry Van Dyke.

to me on the way out last summer," said a cheerful young matron who had just returned from abroad. "I was suffering from one of the most awful spells of seasickness. My little daughter for three days had seen me lying in my berth, while the stewardess from time to time tempted my reluctant appetite. I making dutiful efforts to swallow and retain something-any. thing to sustain life till I could get off that agitated monster called a 'floating palace."

"Mamma,' queried this daughter of mine after she had just witnessed a particularly harrowing scene, 'do you' think you'll ever go back home if you once get on shore again?"

"'Oh, yes!' I groaned in reply. "I. don't believe I would, though, if I didn't have these round trip tickets. Having them, I've simply got to return.'

"'Round trip tickets!' the child repeated musingly; then, after a moment: 'Mamma, I believe that's what must be the matter with your meals. They all seem to have round trip tickets too.'

Too Much For the Frenchman. A story is told of a Frenchman who was very anxious to see an American business man at his home. The first morning when he called at the house the maid replied to his query:

"The master is not down yet," meaning downstairs.

The following morning he called again and was met with: "The master is not up yet," mean-

ing that he had not yet arisen from his bed., The Frenchman, looking at her with

doubtful eye, paused for a few seconds. . . .

"Eet is ver' deef'cult, but eef ze mademoiselle will tell me when ze master will be neither up nor down, but in ze middle, zen I vill call at zat time."-Joe Mitchell Chapple in National Magazine.

A Day at a Time.

An element of weakness in much of our resolving is that we try to grasp too much of life at a time. We think of it as a whole instead of taking the days one by one. Life is a mosaic, and each tiny piece must be cut and set with skill,-Anon.

Why Remarkable?

Isn't it remarkable to find a store where you can ask for anything in the line of Dry Goods, Clothing, Shoes, Rubbers, Hats and Caps and have the salesman say, here it is?

Isn't it remarkable to find a nice stock of new styles?

Isn't it remarkable that you are able to count on one Store for the best possible values?

Lots of other remarkable things about this reliable store.

L.WIESMAN

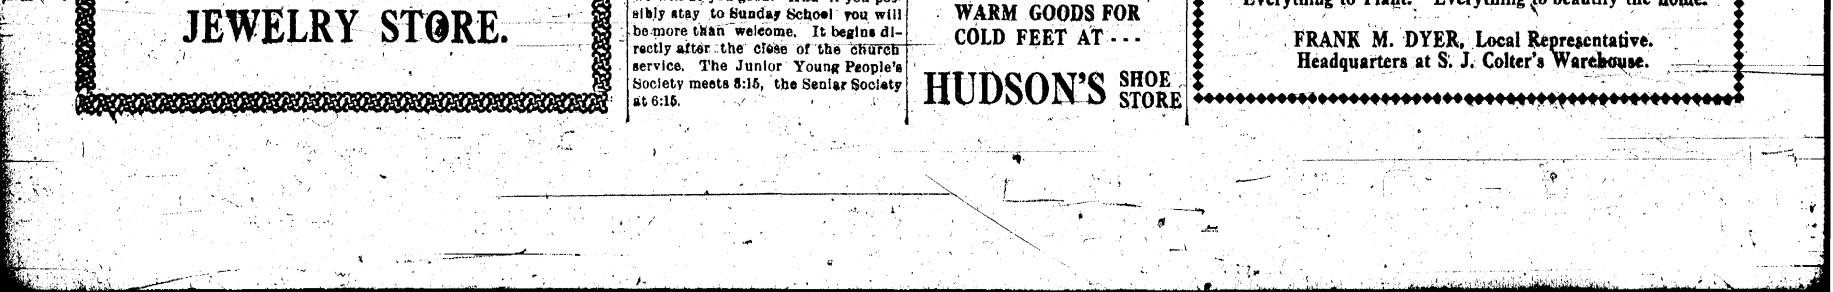

That's the combination you want to look for when you start out to buy Groceries-that is, if you are at all particular to get something which makes a noise like about the best thing on the market-and your appetite.

Here's a stock that is filled with the most reliable stuples. and all the tasty, tempting little niceties and table luxuries as well. From flour and sugar to the finer things, we carry an elaborate selection-in fact, anything you want that's good. Then, you must remember the argument our prices offer.

WILL RICHARDSON

Everything to Plant. Everything to beautify the home.

tige felt it necessary to maintain garrisons on the disputed grounds.

The United States was represented by one company of the old Ninth infantry, commanded by Second Lieut. Michael FitzGerald. Fitz-Gerald was the only American commissioned officer in the field. Not far away from his headquarters were two companies of British regulars with a full complement of officers.

Before FitzGerald and his command were sent to the island, occupied in part by the British, Gen. McDowell, who commanded the division of the Pacific, sent for the second lieutenant for the purpose of impressing upon him the delicate nature of his mission.

"Above all things, Mr. FltzGerald," said the general, "observe the rules of international courtesy."

"I'll do it, general," answered the second lieutenant promptly, "and no war will grow out of my treatment of the red-coats."

The British and American garrisons were only a few miles apart. When Lieut. Fitz-Gerald finally became comfortably fixed in his quarters and was feeling the full weight of being not only company commander but commanding officer of a United States garrison as " well, he was called upon in turn by each of the half-dozen red-coated officers stationed beyond the hill. FrizGerald returned the calls promptly and shortly thereafter he was invited to dine with the six Englishmen as his hosts.

that dinner the American lieutenant was entertained royally. There was nothing in the British garrison that was too good for him, and, as the veterans say to-day, "Fitz-Gerald afterward told his comrades in the states, 'It was a wet night.'

When FitzGorald returned to his quarters and three weeks had passed away he made up

ties as waiters. He picked out of the command five men who had some music in their souls, and provided them with instruments.

When the British officers arrived and preliminary courtesies had been exchanged they were shown into a banquet hall with a table in its center glittering with silver and with cut glass. The red-coats ate of delicacies and of substantials that none of them thought could be found nearer than New York, and they drank wine of the kind that needs no bush.

There were two waiters for every guest and five enlisted men fiddled away, and blew -at their instruments throughout the 20 courses of the dinner. There were toasts and toasts and toasts, and it was not all over until about an hour after the host had excused himself temporarily to attend reveille roll call;

Then came the cold gray light of the week after. The joy of remembrance of the banquet had kept Lieut. FitzGerald's heart up for the week that had passed. -- Then the bills came in from San Francisco. In amount they were \$1,400. Second Lieut. FitzGerald's banquet had cost \$200 a plate.

If the lieutenant should pay the bills the banquet would mean bankruptcy. The commanding, officer of the island post passed a look of relief upon his face. In an hour's time there was ready for transmission to Gen. Mc-Dowell in San Francisco a large official envelope marked in large letters in red ink "International Courtesies."

Inclosed were the bills for pate de foie gras, rare old Burgundy and other things.

which never before had found their way to the northwestern coast. With the inclosures went

> Captain, Bourke saying a few warm things to one of the duty sergeants of his troop. Bourkeleft the sergeant, and Crook, turning to the cavalry captain, said: "Bourke, what on earth" has Sergeant Casey been doing this time?"

> "Doing, general!" exclaimed Bourke wrathfully, "Doing enough; I tried for five years to make a sharpshooter out of Casey, and at the end of the time he couldn't hit the barracks if he was inside with the doors and windows shut.

"And yet, general, that fellow Casey here to-day at a clean 900 yards plugged and killed the only Apache in this whole southwestern country who could have given me the folklore. story I've been after for years.

"I tell you, general, that Cr ey has escaped court-martial only by swearing the shot was a scratch."

It takes only a casual reader of the army orders which are published daily in Washington to make it known that more than one deserter who has been caught succeeds in escaping the punishment due him by sheer force of the pleas, pathetic and otherwise, which. friends make for him. Occasionally there are extenuating circumstances even in the cases night in thought. In the morning there was a of deserters; but desertion is desertion, no matter how it is viewed, and clemency is not looked upon with favor by either regimental or company commanders, and in truth the deserters generally escape punishment, when they do escape, through the soft-heartedness of civilian secretaries of war.

It is said that occasionally deserters write to the wife of the president of the United States_asking that she intercede for them with .

president's wife may sometimes mistake human nature.

CONDENSED COURTESY.

Wise Club Member Wheatcaked German Baron instead of Wineing and Dining Him.

A German baron-he said-blew into New York and got acquainted with some clubmen. He was put up at a club by one of them for the customary two weeks and paid his bills promptly.

There was great surprise when the man who put him up refused to make an application for a renewal of the courtesies of the club for the baron. Club members were indignant about it and one of them had a new card issued.

The baron appreciated the compliment and entertained lavishly. He left without paying his bills and the member who volunteered the second time had to settle.

"Did you lose anything?" he asked the man who had stood sponsor first time.

"No," he said, "I didn't wine and dine him, like you. I took him out one day and wheat. caked him."-Saturday Evening Post.

A BOOKMARK CHURCH.

In Japan, under the guidance of Rev. David S. Spencer as presiding elder, many of the native churches have been engaged in a strong effort toward self-support. The Toyohashi church was built of the proceeds of the sale of silk bookmarks made by the members of the congregation. These silk slips with tassels were sold by friends in other lands. Some of the workers made elegant embroidered silk handkerchiefs, which are also sent for sale among the people of the home land. The Ja-

There was much surprise and no little consternation in the ranks of the Sterling stock company, when it was announced that the star of the cast, Miss Halliday, had been taken suddenly ill and that the part of "Iris" Morrison, who sustained the principal male character of the play, was particularly worried over the unfortunate dimly-lighted stage. The new leading she stepped on the stage she carried lady was not visible and the only the box containing the flowers in her strange face he observed was that of hand. a pretty young girl, who had apparently been brought by some friend in scenes.

stage manager, and Gerald /was surprised to see, when the stage was cleared that the strange young girl remained. He was about to go forbard and warn her that the rehearsal as to begin and that the leading lady would want the stage to herself, when he was amazed to hear her repeat in rather nervous tones, the opening lines assigned to "Irls." The act proceeded and the girl became more nervous as each new character appeared, until when Gerald approached her, she greeted him with trembling voice and tearful eyes, instead of the gay flippancy assigned to the part. This anaroyed him and he spoke his lines in a rough, careless way that made her almost forget hers. She glanced at him appealingly and whispered: "Please forgive me; I'll do better tonight." Gerald left the theater in anything but a pleasant mood. He looked forward to all sorts of unpleasant happenings during the evening

"No, thank you," she answered. indifferently, \

Despite his repulse, Gerald, who by this time was willing to admit to himself that he was really in love with her, continued to seek Margaret's would be given over to the mercies society. performance and when the time.came for his appearance before-the footthat of the debutante.

.s. he-came forward on the stage, but going to see you home." it remained to be seen how she would act. He advanced repeating his lines in a jerky, irresolute fashion and mixing the sentences so that the sue was lost. Much to his surprise and relief, however, Iris saved him from the consequences of his lapse of memory by grobve.

On the following morning the newspapers spoke in highest praise of the stock company in "The World and a Woman." To Gerald Morrison was given the greatest credit for the success of the play, although mention was made of the clever work of Mess Margaret Deane, who, owing to the sudden illness of Miss Halliday, took the leading lady's part of Iris, and rendered an admirable performance, considering her extreme youth and the fact that she had appeared on such short notice. Before Gerald left the eity for a tour in the south he signed contract with the Sterling Stock Company for the next season. When the members of the company assembled to be cast for the play which was to be produced at the opening of the Gerald.

Morrison," he said

"The introduction is scarcely necessary," responded that young lady, in a freezing tone of voice. "I have had fore."

in sight. A light in the window of a house close at hand caught her eye, and she decided to appeal to the inmates for aid. Mounting the steps, she was horrified to hear the rapid an proach of her pursuer's feet close behind her. Desperately she reached for

the bell, and was about to pull it, when a familiar voice said: "Do you wish to see anybody here?

I have a latch key handy." "Gerald! Mr. Morrison," almost screamed Margaret, in surprise and immense/relief. "Is it really you? I

thought it was some awful highwayman following me. Oh, I am so glad!" "So am I," said Gerald, earnestly,

glad because the barriers are broken down between us, even if you were

a little bit frightened. You foolish child, did you imagine that I would allights he had worked himself into a low you to wander through the streets state of nervousness almost_rivaling | alone at this time of night? And, of course, Fate ordained that you should Iris made up very well, he thought, run up here, where I live. Now I am

> Margaret slipped her little hand confidingly through his arm, and they started off together. "I was horrid to you, Gerald," she said, falteringly, 'but I never will be again."

During the following week the announcement was made in theatrical an extempore word or two that circles of the engagement of Margaret brought the play back into its proper, Deane, leading lady of the Sterling Stock Company, to Gerald Morrison:

"Queer," commented the stage manager, "I thought she hated that chap, opening performance of the Sterling but you never can tell. I suppose she was in love with him all the time."

Old Custom Abolished

The British army council has decided to abolish the old custom of "crying down credit." Under the king's regulations, commanding officers, on arriving at a new station, are required to make proclamation warning tradespeople, and others that a soldier's pay cannot be stopped for a private debt, and that those who allow soldiers to contract debts do so at their own risk. The custom in the old days often gave rise to a picturesque ceremony, the commanding officer, accompanied by a detachment of his regiment and the drums, reading the proclamation season, the new manager turned to in the market place. The last joccasion on which the ceremony was per-"I want you to meet Miss Deane, formed was a year or two ago. The who will play apposite to you, Mr. old proclamation is now to be real way. The steward did not think

as you cân." The horses were lashed into a gallop and the wife of the dying man watched at the curb until the carriage was out of sight.

carriage. "Get to the hospital as quick

A few minutes before nine o'clock the vehicle dashed up in front of the hospital, One of Kosharwsky's friends leaped out and ran into the receiving

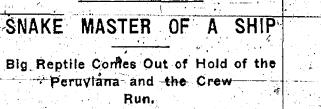

office. He told the clerk that there was a man outside in a carriage who needed an immediate operation. One of the staff of surgeons went out to the vehicle and on examining

the man's pulse found that he was dead.

"The man is dead," exclaimed the doctor. "We had, better notify the police."

Refusing to believe the medical man's word, the carriage with its dead occupant was driven to the Hahnemann Medical college, about a block away. Here Dr. MacLean made an examination and for the second time the man was pronounced dead.

Half an hour later the carriage with the corpse in it stopped in front of the Maxwell street police station, just one block from where Kesharwsky lived. The four men who had ridden with him in the race of 'death went into the station and reported the matter to Sergeant McGeehan. The body was then taken to the home of the decedent.

Philadelphia, Pa.-Where a big snake came from which made its appearance in the pantry of the British steamship Peruviana as the vessel came up the Delaware river puzzled Capt. Jones, master of the Peruviana, and all the others on board. The crew say that hissing sounds had been heard in the vessel's hold all of the way across the Atlantic, but no one could be induced to go below and investigate.

The first tangible evidence 'that there was a menagerie below was secured when the snake appeared in the galley and wanted things his own placed by newspaper, advertisements. there was any reason for having two bosses in the culinary department and killed the snake. The Peruviana came here from Lulea, where snakes are uncommon.

> In Jail for Setting-Bibles. New York.—"It seems to me an injustice to compel me to spend a whole night in a cell for selling the Word of God on the streets," Aaron Koffman of 26 Clinton street, New York, told Recorder Carroll when arraigned in Paterson, N. J., on a charge of peddling without a license. Koffman was disposing of a batch of Old Testaments when arrested. Near Death in the Desert. Nervous Collapse

"I have traveled for thirty years continually. I lost a great deal of sleep, which together with constant worry left me in such a nervous state that finally, after having two collapses of nervous prostration, I was obliged to give up traveling altogether. I doctored continually but with no relief. Dr. Miles' Nervine came to my rescue-I cannot describe the suffering which this Nervine saved me. Whenever I am particularly nervous a few doses relieve/me." A. G. C. LIBBY, Wells, Me.

There are many nervous wrecks. There is nervous prostration of the stomach, of the bowels, and other organs. The brain, the kidneys, the liver, the nerve centers are all exhausted. There is but one thing to do build up the nervous system by the use of Dr. Miles' Restorative Nervine. Its strengthening influence upon the nervous system restores normal action to the organs, and when they all work in harmony, health is assured. Get a bottle-from your druggist. Take it all ac7 cording to directions, and if it does not benefit he will return your money.

its First Letter,

They were playing a game in which some one gives out the initial of some object in the room and the rest, of them try to guess the object. So they tried to get the host's gray haired father into it. But he held off.

"Sure." said he. "I'm a little bad in me spelling, I'd make no hand at such a game:"

pick out some object, tell, us the letter. It begins with and we'll guess it."

So the old man, cajoled, finally yielded. "Well," said he, "then I will. The letter is 'F."

They tried and tried to guess what spelling, his son picked "phonograph." thinking the old gentleman might im- will return. Cures in East Jordan agine it began with an "F." But, no, •he was wrong.

Finally, they all had to give it up and appealed to him to tell the article, He looked wise and said: "Well, since yez all give up what the thing is that begins with an 'F,' I'll tell yez.' It's the fwhatnot."
