EAST JORDAN, MICHIGAN, SATURDAY, SEPTEMBER 16, 1911.

No. 37

## Fair a Hummer

Twenty-Seventh Annual the Best Ever Held.

Officers and Directors Re-elected for Another Term.

The annual exhibit of the Charlevoix County Agricultural Society closed last night and with it closed one of the most successful fairs ever held by this Association.

Perhaps the feature of the Fair that showed most remarkable advancement was the Fruit. The different Granges had remarkably fine exhibits, as well as a number of individual exhibitors.

In the Grange Fruit exhibits Marlon Center Grange took first prize Ironton second, and South Arm third. In vegetables, South Arm Grange took first.

On Thursday, the rain spoiled the track and prevented any of the speed contests being put off. Good races were held both Wednesday and Friday, the track being in fairly good condition. The Flying Bickets gave some good trapeze exhibits every afternoon. East Jordan Military Band furnished good music both on the grounds in the afternoon and on the Main Streets at night.

Fancy Work Department, the delight of all the ladies, contained the best collection of fancy work ever shown at this fair, and was a credit to the handiwork of the gentler sex.

The new exhibition barns of the Society brought in a larger display of live stock than usual, sheep and swine being well represented. Every pen was in use and a few additional ones were added to the rear of the barn.

The election of officers and directors resulted in a re-election all round, as follows:

- President, Horace B. Hipp, East Jordan.
- Vice President, H. L. Olney, East Jordan.
- Secretary, A. B. Nicholas, Jr., East Jordan.
- Treasurer, Martin Ruhling, East Jordan.
- Marshal, H. L. Olney, East Jordan.
- General Supt., E. B. Ward, Charlevoix.
- Directors: Joseph H. Lanway, East Jordan; John A. Newville, Boyne City; Nat Burns, Charlevoix; Herbert Olney, East Jordan.

Mr. and Mrs. Louis Newman of Pellston were fair visitors this week.

Miss Edna Keasy, who is guest of her uncle W. P. Squier, was confined to her bed with illness the past few days.

Watch Lost.—A ladies' gold watch Friday afternoon probably on road to fair grounds. Reward if returned to Charles Johnson.

The state of Maine was carried by the "dry" forces in a strenuous election Monday. The result came as a surprise, the first reports announcing a "wet" victory.

Rev. A. D. Grigsby returned Friday from attending the Presbytery meet at Mackinaw and visiting his son at Cheboygan. The Presbytery will hold its next meeting at Boyne City.

J. W. Rogers returned last evening from a five-weeks outing in Southern Michigan and New York State. He took in the G. A. R. encampment at Rochester. Mrs. Rogers remains at Lapeer for another fortnight's visit.

A Missourian who went to Arizona to buy some "cheap land" wrote back to the Fulton Sun: "I see more cows and less milk, more river and less water and look further and see less than in any country I ever was in."

Lon Belt returned Wednesday night from a hasty trip to Calgary in the Canadian Northwest, and the fact that he comes back to Michigan perfectly satisfied, does not by any means reflect credit on the desolate country up there. On the other hand he is very "much soured" on the Canadian government's manner of handling its settlers and is perfectly contented to remain here and let well enough alone after having seen the conditions personally as they exist there. Fortunately Belt didn't dispose of his holdings in Boyne and is back at his old chair in the "Little Ark" barber-shop of which he is part owner. Lou was away less than three weeks but it did not take him long to make up his mind after he reached Calgary and sized up the situation.—Boyne Citizen

## Michigan Crop Report.

**WHEAT.** The average estimated yield in the State is 17, in the southern and central counties 18, in the northern counties 13 and in the Upper Peninsula 19 bushels per acre. The quality as compared with an average per cent in the State and central counties is 87, in the southern counties 92, in the northern counties 74 and in the Upper Peninsula 90.

The total number of bushels of wheat reported marketed by farmers in August at 107 mills is 356,022 and at 105 elevators and to grain dealers 450,688 or a total of 806,690 bushels.

**OATS.** The estimated average yield in the State is 27, in the southern counties 29, in the central counties 28, in the northern counties 20 and in the Upper Peninsula 35 bushels per acre. The quality as compared with an average per cent in the State is 85, in the southern counties 87, in the central counties 83, in the northern counties 77 and in the Upper Peninsula 97.

**RYE.** The estimated average yield in the State and central counties is 14, in the southern counties 15, in the northern counties 13 and in the Upper Peninsula 10 bushels per acre.

**CORN.** The condition of corn compared with an average per cent in the State is 83, in the southern and northern counties 84, in the central counties 79 and in the Upper Peninsula 89. The condition one year ago was 81 in the State, 75 in the southern counties, 84 in the central counties, 91 in the northern counties and 92 in the Upper Peninsula.

**BEANS.** The probable yield of beans compared with an average per cent in the State is 78, in the southern counties 76, in the central counties 75, in the northern counties 84 and in the Upper Peninsula 85. One year ago the probable yield was 81 in the State, 75 in the southern counties, 83 in the central counties and 71 in the northern counties and Upper Peninsula.

**PEAS.** The estimated average yield in the State is 12' in the southern counties 14, in the central counties 13, in the northern counties and in the Upper Peninsula 17 bushels per acre.

**POTATOES.** The condition of potatoes compared with an average per cent in the State is 62, in the southern and central counties 67, in the northern counties 69 and in the Upper Peninsula 85. The condition one year ago in the State was 69, in the southern counties 65, in the central counties 70, in the northern counties 77 and in the Upper Peninsula 83. The average condition for the past five years is 75 in the State, 76 in the southern and northern counties and Upper Peninsula and 74 in the central counties.

**CLOVER SEED.** The condition of clover seed compared with an average per cent in the State and central counties is 64, in the southern counties 62, in the northern counties 66 and in the Upper Peninsula 88. The condition one year ago was 73 in the State, 70 in the southern counties, 78 in the central counties, 76 in the northern counties and 77 in the Upper Peninsula.

FREDERICK C. MARTINDALE, Secretary of State.

## Presbyterian Church Notes

Rev. A. D. Grigsby, Pastor. Usual services in this church next Sabbath conducted by the pastor. A cordial invitation extended to all visitors in our city to attend these services.

The Walloon lake dam case that has been in litigation for ten years is likely to come to an end. Judge Withey, holding court at Charlevoix last week, adjourned the session to Sept. 18, and advised all parties interested to come to a friendly agreement in the matter as that was the only way it could be settled.

## A Great Advantage to Working Men

J. A. Maple, 125 S. 7th St., Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I had heard about. My backaches left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise."—Hites Drug Store.

## Miss Glenn Died Friday.

Miss Jennie Glenn, who has been ill for a long time past, died at her home in this city, Friday morning. The funeral services were held Saturday morning conducted by Rev. A. D. Grigsby and attended by a number of loving friends and relatives. A quartet composed of Mrs. Charles Mappas, Miss Eva Lewis, R. O. Blisbee and Harry Sloan, accompanied by Miss Gladys Kenny on the piano rendered some appropriate music.

The remains, accompanied by sisters of the deceased Mrs. Severson of Fredonia and Mrs. Emma Dunham of this city, were taken to Fredonia, Kansas, where they will be laid beside those of a brother.

Here is the way a Kansas paper duns its subscribers: "If you have frequent fainting spells, accompanied by chills, cramps, corns, bunions, chilblains, epilepsy and jaundice, it is a sign you are not well, but liable to die any minute. Pay your subscription in advance and thus make yourself solid for a good obituary notice."

## Rugs! Rugs!

We are carrying all sizes of Axminster Rugs 27x54 and 36x72 inches and 9x12 feet. Also we are carrying all sizes of Wool Fiber Rugs; we are offering a 9x12 Rug for \$9.75—Special on these Rugs.—EMPEY BROS.

## Gyroscopes for Aeroplanes.

In France Mons. Girardville has been experimenting with model aeroplanes furnished with gyroscopes to insure greater stability. The principle is the same as in the application of gyroscopes to counteract the rolling ships. In a report to the Paris academy of sciences, Mons. Girardville says that his models, when used as gliders without motors, were free from periodic oscillations, and that they automatically reestablished their equilibrium after being disturbed. The difficulty, of course, is that the gyroscope introduces an extra weight to be carried. With his models Mons. Girardville used gyroscopes weighing about 12 pounds, and rotating at the rate of 6,000 turns a minute.

## "Old Nick" Busy.

A reverend Scotchman was going to hold forth to an open-air meeting. He sat down on a bank in which there was an ant's nest; the insects soon found their way into his "Oh, no, we never mention 'em's," and he said: "Brethren, though I hope I have the word of God in my mouth, I think the devil has got into my breeks."—Exchange.

## Insulting.

"You have five children," said the fortune-teller. "Nothing of the kind," the lady indignantly replied, withdrawing her hand and refusing to submit to further insults. "I want you to understand that I move in one of our most fashionable circles of society."

## Common Colds must be taken Seriously.

For unless cured they sap the vitality and lower the vital resistance to more serious infection. Protect your children and yourself by the prompt use of Foley's Honey and Tar Compound and note its quick and decisive results. For coughs, colds, croup, whooping cough, bronchitis and affected of the throat chest and lungs it is an ever ready and valuable remedy.—Hites Drug Store.

## Involuntary Exclamations.

First Tourist—The health situation is going to give us some annoyance with this cholera scare. Second Ditto—Plague take it!

## Foley's Kidney Remedy (Liquid)

Is a great medicine of proven value for both acute and chronic kidney and bladder ailments. It is especially recommended to elderly people for its wonderful tonic and reconstructive qualities, and the permanent relief and comfort it gives them.—Hites Drug Store.

I have Fruit Lands, Lake Shore Farms, Improved Farms and City property in all parts of Charlevoix County to sell or trade. Also farms and business chances anywhere in United States. JOEL JOHNSON

For Sale—The Greenhouse Property on the West side. For particulars see Mrs. R. Crothers.

DRY CLEAN-O for silks, woolen, or anything liable to be damaged by water. Nothing better.—HITE DRUG CO.

## The Fair is over

And the cough season is now with us.

Both acute and chronic coughs are now in evidence.

Call and see us when that cough troubles you.

FOR THAT CHRONIC COUGH USE VINOL.

We guarantee it.

For that acute cough use our own cough syrup or

Rexall Cherry Juice.

We guarantee them to

benefit you.

W. C. SPRING Drug Co.

## Big Combination.

A story is told of an American who visiting in Dublin, was conducted to the cathedral which had been restored by the Guinness family of brewers, then to the schools which they had built, and lastly to the great brewery. "This is really wonderful," said the Yankee. "You seem to run education, salvation and damnation all in one show."

Why, Bischof clothes keep their shape

They are made right. Every detail in their making is attended to by a master hand. The workmen in the Bischof shops know how.

Every garment into which they sew the Bischof label is a masterpiece.

B. C. Hubbard & Co.

## Hot Water

For cleanliness and comfort hot water is absolutely indispensable. If you already have it in your house, and any of the faucets are leaking and needs fixing, send for us. If you have not a hot-water system in your house, let us put it in. We will do it in the very best manner by skillful workmen and at moderate cost. Let us do it and it will be done right.

MARINE SUPPLIES. GEORGE H. SPENCER.

# DEPENDON

Means Just What It Says.

Dependon stands for perfect reliability in Underwear and Hosiery. Unequivocal goodness. Made in all textures—closely knit and of incomparable fit. Dependon answers the Underwear and Hosiery question for men, women and children. Dependon feels as good as it looks. It is so well made it has to last long. It is, in short, the master product.

Our Dependon stock of Dress Goods, Linens and Draperies, are just being unpacked. It is an excellent combination of quality, style and up-to-dateness. Thoughtful people everywhere are buying for themselves and for their children Dependon merchandise. Every article from this store absolutely guaranteed as represented. The Dependon store.

"QUALITY FIRST OF ALL."

FRED E. BOOSINGER

# Transporting Produce to Market

ON THE WAY TO MARKET IN DIXIE

A PRIMITIVE MODE OF GOING TO MARKET

THE marketing of his produce is obviously one of the chief responsibilities of the American farmer and in the present age, scarcely less than in the days of our grandfathers, is the problem of transporting the produce to market liable to prove something of a problem. To the outsider it might appear simple enough if he does not take into consideration the numerous factors that have bearing in the matter. For one thing, there is the weather, which must always be taken into account in planning a trip to market with produce, even though the journey is to be made over good roads. Then again, the product to be transported may be fragile, such as eggs, or perishable, as, for instance, some forms of berries and fresh fruits. And finally there is the necessity of taking into account probable market conditions at the prospective destination, for presumably produce will sell more readily on "market days" than on "off days."

Despite the complications that seem inevitable there are a surprising number of American farmers who still persist in the practice of marketing their products direct to the consumer. Indeed, in some localities the number seems to actually be increasing rather than diminishing. This is all the more remarkable when we pause to reflect upon the facilities that are now being offered the farmer for marketing his produce at his own door. Agents of commission merchants and "runners" for dealers in the large cities traverse rural routes, regularly, buying for spot cash eggs, vegetables, etc., and to such a point have things progressed that the farmer who prefers may sell his berry crop on the vines and his peaches or pears or apples on the trees leaving to the "other fellow" not only all the worries of transportation, but the bother of picking and packing and, incidentally, the loss from waste.

At the same time there is no certainty that the farmer who elects to market his own products has not the best of the bargain. He is very likely to have if his farm is located near any good-sized town or city and if he is engaged in diversified farming or trucking. Of course the man who is farming on a big scale and devoting himself to a specialty, be it fruit or celery or nuts or grain will not haul his produce to town by the wagonload and dispose of it at first hand to the hungry housewives. All the same it is ten chances to one that he is following the same basic principles that are the wise ones for the farmer desirous of selling to the best advantage the varied products of a small farm.

All the shrewdest men engaged in farming—be they operating on a large or small scale—have learned in recent years that it means added wealth and reduced worries if they can adopt the principle of selling as directly as possible to the ultimate consumer. Obviously, of course, they cut out the middleman's profit and better yet, they are enabled to eliminate many of the losses in perishable products which have caused so much controversy between commission merchants and farmers. Finally, by marketing direct, the tiller of the soil can establish a reputation for the quality of his products and this is a most important asset for the man who expects to continue in the same vocation year after year. Indeed, building on the foundation of quality and prompt delivery he may build up a circle of patrons of his own that will render him independent of everything because they will stand ready year after year to take the entire product of his farm and take it, too, at prices higher than rule for the regular run of similar produce in the open market.

As the advantages of such plans of direct dealing have been brought home to the farmers they have been gradually perfecting their facilities for making the short cut from the farm to the city dinner table. The farmer who is a specialist in fruit or vegetable raising or any other line is likely to have his own sales agent who goes to the city with each consignment of produce and personally superintends its disposition, or if he is not operating on a big enough scale to do this single handed he is likely to join forces with several of his neighbors to engage a representative who will handle their pooled products to the best possible advantage. In any event the quantity of produce to be handled insures to the shipper thus situated the best of freight or express service if, indeed he has not adopted the particularly up-to-date method of transporting his farm products by means of motor trucks.

The small farmer or truck gardener operating on a small scale cannot of course afford the luxury of a sales agent, but on the other hand he is no longer content, if he be wide awake, to divide profits with the commission merchant who insists on clinging to old ideas. So the small farmer, if he belong to a rapidly growing class, makes it a practice to journey to the city two or three times a week and to dispose of his products in the open-air marts which are now a feature of almost all of our large cities. His canvas covered wagon is made to serve as his sales counter and he thus has no expense.

In many instances if the farmer or trucker be too busily engaged upon his farm to spare time

SCENE IN SAN FRANCISCO, CAL. - A CHINESE MARKET

for the selling end of the business in this fashion, this task is delegated to his wife, his son or his daughter. Particularly in the case of the young people do these periodical visits get to fill a large place in their lives. There are hardships to be sure, not the least of them suggested by the fact that usually the trip to market must begin ere daylight in order to reach the city in time to catch the trade of the earliest marketers, but the farmer folk who have acquired the habit of trucking in this way are invariably loath to give it up. Many a romance, too, has had its inception during the progress of the caravans of produce-laden wagons to market or in the exchange of courtesies between the farmer folk whose wagons are ranged so closely side by side in the congested urban market districts.

In the sparsely settled and more isolated sections of the country there are many odd spectacles incident to the transportation of produce to market. In some localities where canals are yet in use the quaint, slow-moving boats are employed to carry the eatables, and in the south one may see donkeys, bullocks and all manner of unconventional steeds pressed into service to move the foodstuffs. Just here it may be noted that the old-fashioned colored folk of the south take as naturally to the conduct of portable market stands as a fish does to water. In a kindly climate such as is theirs most of the staple vege-

tables will grow with very little attention and consequently they are enabled to devote most of their energy to finding a market for nature's bounty. Although, as noted above, the motor truck has made a place for itself in the transportation of farm produce, the major portion of this responsibility yet rests with the good old-fashioned farm wagon drawn by one or two horses. Strength rather than style is a requisite of a produce-carrying vehicle and this same may be said of the horses employed and the harness. The growing preference of

the American people for food commodities in package form is an influence felt indirectly in the transportation of farm products. From time out of mind berries have been sent to market in trays, boxes and crates, but latterly there has been a tendency to provide standard size baskets for apples, peaches, tomatoes, etc. In the old days the consumer who purchased less than a barrel of apples or potatoes did not receive them in an "original package" bearing the grower's statement as to quantity and quality, but all this is being changed owing to prevailing market conditions—aided and abetted by growers who are eager to establish a reputation for their branded products. Eggs are another commodity which will bring increased prices all the year round if furnished direct to discriminating consumers. The stigma of the cold storage egg is such that persons who are keen for really fresh eggs are in many instances willing to pay an advance of 50 to 100 per cent over the prevailing market figure for eggs that can be depended upon. Poultry raisers have not been slow to take advantage of this and instead of the large crates made familiar by cold storage methods we now find the fancy-priced "guaranteed" eggs put up by the dozen in boxes of wood or pasteboard, each box being closed by a seal which insures that its contents have not been tampered with.

## PASTIMES OF THE PAST

It has not been so very long ago—middle aged mothers and fathers of today will recall the happy, happy time—when the game of grace hoops was in fashion. Indeed, was quite the rage, though of that placid epoch it must be said enthusiasm for out-of-door amusements as far as the dear girls were concerned, were as mild as pigeons' milk and never bubbled over the brim of pleasure's modest cup. If there was anything the young lady of that halcyon time dreamed it was the charge of being a Tommy. No, no, she must never lose sight of deportment, and her pretty lips were framed on prisms and pruned to the proper tucker for conversational purposes—that is, for the little conversation that went with the game. So grace hoops were entirely en regle with the best ideas for deportment.

The charm of grace hoops was slowly but surely passing away when Maurice Thompson, who invented "Alice of Old Vincennes," and his brother, Will Thompson, who wrote the thrilling poem, "Pickett's charge at Gettysburg," brought forward the long disused bow and arrow, laid aside for villainous gunpowder, the Indianapolis News says. Maurice wrote a clever little book called "The Witchery of Archery," and in a surprisingly short time young men and maidens joined in archery clubs, were plugging away with blunt arrows at targets as big around as cream cheese boxes of that day. Though these marksmen and women frequently went wide of the target, not so Cupid, who was there with his bow and a full complement of arrows. He shot center nearly every time,

for it was said that the witchery of archery, no matter how poor the score at the cheese box target, was a great helper on of Cupid, and many marriages followed.

The writer has seen the archery game played on several occasions, once on the grounds of the Knickerbocker school, with only girls engaged—what a mortibund affair it was!—and once, on the same grounds, with a detachment of young gentlemen—with what a delightful difference!

But the archery game was not to last. It was at last to join the grace hoops, and for a time its most ardent votaries were fain to solace their grief with the game of croquet and its melancholy dawdling.

When one looks back to that day, with its lady-like amusements, one can but wonder at the astounding progress made by the sex in out-of-door sports. Now they shoot at a target or at live game, either, no more with blunted arrows, but with revolver and rifle; they play golf, swim, paddle canoes, play basketball, even play baseball, after a fashion; ride astride like their brothers—what a horror that would have been in the days of their mothers—and do anything that any proper young man might be permitted to do without the slightest censure and quite as a matter of course.

Yet, there was something in grace hoops that may be fondly cherished in one's memory along with the dear old plush album, to which you contributed your picture and some verses—and there, too, lingering in memory, are the doleful cadences of "Lorena."

## MURDER TRIAL ENDS IN A LIFE SENTENCE

HENWOOD GUILTY OF KILLING, AND WEALTHY WOMAN REVEALED AS CAUSE.

Denver, Colo.—Harold Frank Henwood, slayer of George E. Copeland of Victor, Colo., who was shot accidentally by Henwood when the latter killed Sylvester L. Van Phul, the St. Louis aeronaut, was found guilty of murder in the second degree and sentenced to the penitentiary for life.

Never in the history of local tribunals have the presiding judge and prosecutor been subjected to such an exhortation as that pronounced by Henwood when asked what he had to say "why sentence should not be pronounced." He characterized his treatment by the court and prosecutor as "persecution."

The trial of Henwood was replete with sensational features. Like many other sensational tragedies there was a woman in the case; and while she

## HIS COLOR CHANGED.

Evelyn—But when it comes to love-making Harold is rather green, isn't he?

Myrtle—Not now.

Evelyn—Indeed!

Myrtle—No, he's blue; I rejected him last evening.

## LAWYER CURED OF ECZEMA

"While attending school at Hebanon, Ohio, in 1882, I became afflicted with boils, which lasted for about two years, when the affliction assumed the form of an eczema on my face, the lower part of my face being inflamed most of the time. There would be water-blisters rise up and open, and wherever the water would touch it would burn, and cause another one to rise. After the blister would open, the place would scab over, and would burn and itch so as to be almost unbearable at times. In this way the sores would spread from one place to another, back and forth over the whole of my upper lip and chin, and at times the whole lower part of my face would be a solid sore. This condition continued for four or five years, without getting any better, and in fact got worse all the time, so much so that my wife became alarmed lest it prove fatal.

"During all this time of boils and eczema, I doctored with the best physicians of this part of the country, but to no avail. Finally I decided to try Cuticura Remedies, which I did, taking the Cuticura Resolvent, applying the Cuticura Ointment to the sores, and using the Cuticura Soap for washing. In a very short time I began to notice improvement, and continued to use the Cuticura Remedies until I was well again, and have not had a recurrence of the trouble since, which is over twenty years. I have recommended Cuticura Remedies to others ever since, and have great faith in them as remedies for skin diseases." (Signed) A. C. Brandon, Attorney-at-Law, Greenville, O., Jan. 17, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 23-page book, will be mailed free on application to "Cuticura," Dept. 3, K., Boston.

## Could Take Her Choice.

As the railroad train was stopping, the old lady not accustomed to traveling, hailed the passing conductor and asked:

"Conductor, what door shall I get out by?"

"Either door, ma'am," graciously answered the conductor. "The car stops at both ends."—Galesburg Mail.

## LADIES CAN WEAR SHOES

was on the witness stand in the murder trial her lawyers were in another court asking \$300 a month alimony in a divorce suit instituted by her husband. The suit for divorce was the sequel to the tragedy in the hotel and was won by the husband.

The killing of Copeland was accidental and occurred when Henwood was shooting bullets at Van Phul. Henwood and Van Phul were rivals for the friendship of Mrs. John W. Springer, wife of a wealthy banker and stockman. She had entertained both men in St. Louis, her former home, and at Denver hotel, where the tragedy occurred. It was inevitable under the circumstances that bad feeling should have been engendered between them and this feeling found its logical ending when the men met in the hotel bar-room. There are conflicting reports as to the encounter between them; but there is no dispute as to the fact that Henwood shot and killed Van Phul, and in doing so inflicted a mortal wound on Copeland, a young miner, who had no part at all in their quarrel.

Mrs. Springer's maiden name was Patterson and she was born in St. Louis. Among her schoolmates there was Van Phul. Later in life he was a suitor for her hand, but she married a man named Polk and divorced him shortly afterward. Two years ago she married Springer in St. Louis. They at once came to Denver and Mrs. Springer has been a social leader, though much of her time was spent with friends in St. Louis and at Hot Springs, Ark. The Springers' home in Denver was on Washington street, but they spent much time at their beautiful country place in Arapahoe county, and also had a suite in the hotel where the tragedy took place.

## HINDU IS CREMATED ON PYRE

Countrymen Perform Religious Rites of Race and Scatter Ashes on River.

Tacoma, Wash.—Deder Singh, a Hindu, committed suicide in Lyle, by hanging himself to a rafter in a section house. The body was cremated

Cremating a Hindu.

by his countrymen with the religious rites of their race. A funeral pyre was erected on the banks of the Columbia river. Two cords of wood and ten gallons of kerosene were used. The ashes were scattered on the Columbia.

### Cement Talk No. 2

Portland Cement does not come from Portland, Maine, or Portland, Oregon, and it was not first made at either of these places. It is called *Portland* because it was given this name by the Englishman who first made it. He called it *Portland* because he thought it resembled certain natural deposits on the Isle of Portland in England. *Portland Cement* is the fine powder produced by pulverizing the clinker resulting from the burning together of various materials of proper chemical composition. In the case of *Universal Portland Cement*, these raw materials are blast-furnace slag and pure limestone. There are many brands of *Portland Cement* on the market, produced by different manufacturers. *Universal* is one of the best known and highest grade *Portland Cements*. You can always tell it by the name *Universal* and the blue trade mark printed on each sack. Forty million sacks of *Universal* are made and used yearly in this country. If you have any concrete work to do, you will make no mistake by using *Universal Portland Cement*. *Universal* is for sale by representative dealers everywhere.

ANNUAL OUTPUT 10,000,000 BARRELS

#### A DIFFERENCE.

Mrs. Jinks—My husband is making a collection of stens.  
Mrs. Booze A. Lott—My husband is making a collection of the contents of stens.

Birds of a Feather  
"What's the bill for fixing my motor car?" asked the strange patron.  
"It figures up to \$110, sir," replies the garage man.

"Whew! I'll have to give you a check. I left all my money in my drug store."  
"Why, are you a druggist?"  
"Yes."

"Oh, in that case the bill will be a dollar and a quarter. We fellows ought to stand together."

Surely.  
"Is that bargain really 'cut glass'?"  
"Sure; it was marked down."

No Wonder.  
"What's your husband so angry about?"  
"He's been out of work six weeks."  
"I should think that would suit him first rate."  
"That's it! He's just got a job."

#### GET POWER. The Supply Comes From Food.

If we get power from food why not strive to get all the power we can. That is only possible by use of skillfully selected food that exactly fits the requirements of the body.

Poor fuel makes a poor fire and a poor fire is not a good steam producer. "From not knowing how to select the right food to fit my needs, I suffered grievously for a long time from stomach troubles," writes a lady from a little town in Missouri.

"It seemed as if I would never be able to find out the sort of food that I could eat would stay on my stomach. Every attempt gave me heartburn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton, and in time was compelled to keep to my bed.

A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I have kept-up its use ever since. I was surprised at the ease with which I digested it. It proved to be just what I needed.

"All my unpleasant symptoms, the heartburn, the inflated feeling which gave me so much pain disappeared. My weight gradually increased from 98 to 116 pounds, my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. Grape-Nuts food did it." Name given by Postum Co., Battle Creek, Mich.

A ten days' trial will show anyone some facts about food.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## "Liberty Bell" Shape

Photograph by Hummel, from Underwood & Underwood.

THIS piquant and patriotic article of headwear in both comfortable and becoming. It is the first of the fall fashions to reach these shores from France, where it was especially designed for the "Les Belles Filles Americaines."

The shape of the hat clearly resembles that of the historic liberty bell. The material is a rich brown plush, and the willow plume is white above, shading off into a hue matching that of the body of the hat. It is one of the season's favorites.

#### BAG FOR DRESSES OR HATS

Makes for Comfort in Traveling, and Also Preserves the Articles Enclosed.

A scheme which a girl will find a great comfort in any place where she has insufficient closet space is a bag to hold her hat or her dress. In traveling it is well to take one or more of these bags, and in a camp they are almost indispensable. A girl can very quickly make all she wants of them, and if she wants to economize space they can be made of silkline, which folds up into the "smallest kind of a package, is light in weight and very inexpensive.

For a hat, make a bag three-quarters of a yard deep and half a yard wide, with a drawing string at the top. The bag is hung up by this string and the hat is kept free from dust and out of the way. This measurement is for a hat of ordinary size; if your hat is an unusually large one the bag must be larger.

For a dress the bag should be about five inches longer than the dress itself, the width being a little more than enough to slide the dress in easily. When camping it is best to put one's traveling dress and hat into these bags and leave them there, for they are seldom wanted until one is ready to leave. In making the bags for camping there are some advantages in using cretonne instead of silkline. Being so much thicker, it keeps out the dampness better, and it is often damp enough in a tent to have a rather disastrous effect on a hat.

#### SIMPLE AND ATTRACTIVE

This simple waist is of marquisette or voile trimmed with a beautiful lace or embroidery and fastening at the side with buttons and loops.

The sleeves, cut in one piece with the body of the waist, are trimmed to correspond.

#### To Pull Bastings.

Few persons know that an ordinary orangewood stick, such as is used for the nails, is the best instrument for removing bastings. A scissors when used is very apt to cut or tear the garment. Procure the stick at any drug store.

#### SHOES FOR LONG TRAMPS

Highly important Part of Equipment When a Girl Contemplates "Roughing It."

Girls who have had little experience in outdoor life often do some foolish things when they begin to try this form of enjoyment. One way in which many of them interfere with their own comfort is by going on a tramp with the wrong kind of shoes.

A girl who has played tennis and found the soft, rubber soled shoes comfortable will think that they will surely help her to enjoy a tramp; but they are the last thing to wear for a long walk, as these girls have found to their cost. They come home with their feet aching and the calves of the legs tired out from the lack of the spring that is given by heels. Walking with a flat, heelless shoe on a rough road is extremely trying, and one can feel every stone through the soft rubber soles; and these tired feet and legs will feel even worse the next day.

Quite as bad as the tennis shoes are low shoes with thin soles and high heels. These tire the feet and may sprain the ankles. The only shoes that are really satisfactory for "roughing it" are strong high shoes with thick soles. The strongest ankles need support in rough walking, and it is often wet in the woods. The girl who has once tried the two ways of tramping will never again be persuaded to wear low or thin shoes.

#### Paris Bridesmaid Gowns.

A shepherdess effect was shown in four bridesmaid gowns recently turned out by Paris makers. The underslips were of a thin white silk trimmed with scattered wreaths, about the size of a saucer, of tiny pink roses. Over these fell tunics of pale blue chiffon, which mellowed the flowers until they were the dimmest blush. The broad hats were wreathed with the posies held by a vast butterfly of thin white lace, and there were small knots of the buds on the blue slippers.

#### Suit Coats.

Suit jackets for autumn and winter will remain close fitting about the hips and hold to the straight line form. At present there is no arbitrary decree regarding the length. Models considerably shorter than the 26-inch length, and somewhat longer also, are among the new models. But the length mentioned is a happy medium. The feeling is that with the approach of winter the tendency will be to lengthen the jacket, with perhaps a revision to the short effects again in the spring.

#### Hunter Green.

As the season advances the vogue for emerald green noticeable for some months past appears to be on the decline, hunter green, a softer, more pleasing tone, being substituted. Scarfs of hunter green satin are draped around the crowns of outing hats of Panama and peanut braid and gracefully looped at one side. Scarfs of striped and checked silk, such as may be found at the neckwear shops, are also utilized as drapery for outing hats.

## SOME EDIBLE WEEDS

VALUE OF ROOTS THAT HAVE BEEN THOUGHT USELESS.

Golden Thistle May Be Used Like Salsify—Leek as a "Food Staple"—Milk Weed Has Taste Resembling Asparagus.

The roots of the golden thistle have been found to be good. They are used like salsify. They may be dug in September and kept through the winter. Thus what has heretofore been regarded as a pest by the farmers may now be looked upon as a partial blessing.

Leek is another weed now honored as a food staple. It has wholesome properties and is excellent for flavoring. It can be wintered in a cellar, or if planted in a large pot the leaves may be cut as often as they get too long to support themselves. Then, too, the bulb may be whittled away from the top until it be used up.

The common mallow is another well known weed now being eaten. Its roots deeply, drawing valuable mineral elements to the surface. It has a mild, mellow flavor and those who like lettuce find it palatable. The young leaves are tender and crisp and are prepared like lettuce. It is a valuable tonic which the ancients made use of constantly as a raw food.

The common milkweed, cooked, tastes like asparagus. It should be cut when about a foot high. The stalk is large and succulent. Boiled and served with butter is the usual way of cooking, says the Scrap Book. It is also used as a salad, the tender tips only being utilized. Milkweed is excellent for the kidneys.

Another weed which, when boiled like spinach, makes a nourishing dish, is the commonly called "lamb's quarter." It grows where large quantities of loose earth have been exposed to the sun, as in railway filling or newly made country road. It has a straight stem, from which the leaves grow large and sparse at the bottom and smaller and more thickly toward the top.

The ordinary wild nettle that grows in prickly abundance in every farmyard and fence corner is now being recognized in this country for the first time as a valuable food plant. It is a good substitute for spinach if properly cooked. Of course, it should not be used without cooking.

To use flower bulbs as vegetables seems a strange thing, yet the dahlia is being cultivated for its tubers. They make a wholesome food, having a warm, spicy flavor that is much liked. The single red variety of Dahlia is the one cultivated for its tubers. In good soil it is as productive as the sweet potato. It may be planted from seed in early May, and by the middle or last of July the tubers are large enough to dig. Cut it into cubes, after peeling, and fry in olive oil with a dash of curry powder, or it may be cooked like turnips, beets and carrots.

#### USE FOR THE CHEAPER CUTS

Properly Cooked They Are Not to Be Despised, but Must Have Careful Preparation.

Butchers should endeavor to correct the impression of customers that only the high priced meats are valuable as food. On the contrary, says the National Provisioner, the cheaper cuts are often more highly flavored and fully as nutritious.

The chuck is one of the cheapest portions of the beef, but when cooked slowly in a small amount of water either with or without vegetables for seasoning is a most excellent dish.

In stewing meat if too high a temperature is used it will toughen the fibre. Another mistake is to overcook the meat until it falls to shreds. The skirt steak sells for two or three cents a pound less than the others, but if properly cooked is just as good. Lay the steak on a meat board and score it well with a chopping knife.

Then dredge with flour and put it into a smoking hot frying pan that has been greased enough to keep the meat from sticking to it. When well seared over on both sides pour over it a little boiling water and allow it to simmer slowly for two hours. Season to suit the taste. A bit of carrot or onion or bay leaf and a little vinegar to soften the fibre will add to the flavor of the meat.

All light meats are best stewed and browned just before serving. Mutton or beef is best browned first and then stewed. Cheaper cuts are best cooked in the fireless cooker. When roasting meat it should be quickly seared over to retain the juices and then cooked slowly until done. Usually fifteen minutes to the pound is required.

#### Egg Rolls.

Beat two eggs into one cup of milk, add one tablespoon of melted butter, one cup of flour, one teaspoon of baking powder; mix well, then add enough flour to make the dough stiff enough to roll. Cut into small rounds and bake in a hot oven.

#### Indian Cake.

One egg, one cup of milk or water, one cup of meal, one-half cup of flour, one-half cup of brown sugar, two teaspoons of baking powder and a little salt.

#### Whips.

One quart of cream, one pint of milk, two lemons—the peel of one grated, vanilla to taste, sugar; whip until stiff and fill glasses.

Little Pitcher  
Lady Visitor—I am coming to your mamma's company tomorrow, Tommy.  
Tommy—Well, you won't get a good supper.  
Tommy's Papa—Tommy, what do you mean, talking like that?  
Tommy—Well, you know, pa, you told ma you'd have to get some chicken feed for her old hen party tomorrow.

The Real Thing.  
"Say, mister, if you throw three cents up in the air I kin ketch 'em all before they come down every time."  
"Humph! That is nothing but a catch-penny scheme."

900 DROPS

CHARLEVOIX COUNTY HERALD  
G. A. Lisk, Publisher  
ONE DOLLAR PER YEAR

Entered at the postoffice at East Jordan Michigan, as second class mail matter.

SATURDAY, SEPTEMBER 16, 1911.

**Suburban Mothers' Problems.**  
In discussing "The Suburban Woman and Her Children" in Suburban Life, Margaret Woodward tells of the peculiar problems of the suburban mother and how little of the training of children can be expected from the fathers, who are away at business all day. "My husband rebelled against a habit I had at one time of holding him up before the children as the one who would mete out punishment for their wrong-doings," she writes. "His homecoming meant a sort of tribunal, where the sorry little culprits were lined up before the offended judge and chastisements more or less severe were forthcoming. The order of ceremonies had to be abandoned. The man of the house said that he would not stand it to have his children dread the sight of him and look upon him as a species of ogre. Besides, the effect upon his disposition and that of his children was bad. After the nervous strain of a day's work, the father was in no frame of mind to hear disputes and to administer justice."

## HE FLIRTED WITH HER, TOO.

Mrs. Johnson (at the seaside hotel)—Oh! guess what! I caught your husband flirting today.  
Mrs. Pupper (absently)—That's the way I caught him.

**Telephone Voice.**  
The voice heard over the telephone is a mechanical reproduction of the original voice and differs from that of a speaking tube or megaphone, where the sound waves produced by the speaker at one end are transmitted directly to the other end. In the telephone the diaphragm of the transmitter is caused to vibrate by the sound waves produced by some one talking into the transmitter mouthpiece. This diaphragm is connected with a small receptacle having a flexible front and partially filled with granular carbon. This carbon offers resistance to electric current in proportion to the mechanical pressure brought upon it. The diaphragm, therefore, in vibrating produces a varying pressure against the carbon. The carbon is included in an electric circuit, so that the variation in its resistance will vary the current strength in the circuit.

## THE LEAVINGS.

**A Scary Horse.**  
A man in upper New York state, who was desirous of purchasing a horse for the use of his wife, recently entered into negotiations with a veteran horse dealer. "Now, I'm not so particular about speed," said the prospective purchaser, "but I must have a gentle horse." "Here is one that I'll warrant to be perfectly safe," said the dealer, indicating a sad-looking steed nearby. "Are you sure he is not afraid of anything?" insisted the man. The dealer assumed an air of deep reflection. "Well," he said, "there's one thing he has always appeared to be afraid of ever since I got him. It seems as if he's scared to death for fear some one might say 'whoa!' and he not hear it."—Lippincott's.

**A Gas-Driven Ship.**  
Experiments have been quietly conducted on the Thames recently with a small vessel called the Progress, formerly a vedette boat in the British navy, to determine the effectiveness of gas-engines for marine purposes. The remarkable feature of the machinery of the Progress is the closeness with which it approximates to steam machinery in working and manipulation. The engine is direct-coupled to the shaft, like a steam-engine, and the success of this plan is regarded as promising the possibility of dispensing with intermediate gearing and electrical transmission for large vessels fitted with gas-driven engines.—Youth's Companion.

**A Dangerous Wound.**  
Senator Robert L. ("Fiddling Bob") Taylor tells about a man in the backwoods of Tennessee who applied for a pension for a gunshot wound. An examining surgeon of the medical board stripped and examined him, ejaculating finally, "Old man, we cannot find a single blemish on your hide. Where were you shot during the war?" The old man said, "Well, gentlemen, I was shot in the substitute."—Leslie's Weekly.

**Foley's Honey and Tar Compound**  
Still retain its high place as the best household remedy for all coughs and colds, either for children or grown persons. Prevents serious results from cold. Take only the genuine Foley's Honey and Tar Compound, and refuse substitutes.—Hites Drug Store.

**CHANCERY ORDER.**  
State of Michigan, Thirteenth Judicial Circuit, in Chancery.  
But pending in the Circuit Court for the County of Charlevoix, in Chancery.  
At the City of Charlevoix on the 22nd day of August A. D. 1911, Complainant vs. Wille Bryson, Defendant.  
In this case it appearing that defendant Wille Bryson is not a resident of this state, but is a resident of Rome, Georgia, U. S. A. Therefore on the motion of Dwight H. Fitch, solicitor for Complainant, it is ordered that defendant enter his appearance in said cause on or before four months from the date of this order, and that within twenty days Complainant cause his order to be published in the Charlevoix County Herald said publication to be continued once in each week for six weeks in succession.  
DWAYNE H. FITCH  
Solicitor for Complainant.  
Business Address, East Jordan, Michigan.  
FREDERICK J. MANNING  
Circuit Judge.

## Music Teachers — Students of Music — Music-Loving Homes

GRINNELL BROS.' MUSIC HOUSE, in all departments, is equipped as never before to supply every need in musical goods. Our stock of Pianos was never so great as now—never in the history of Piano manufacturing have case designs of such refinement and beauty been shown; while the Pianos in our line are those which time and service have demonstrated to be the finest produced—STEINWAY, GRINNELL BROS., (our own make), SOHMER, VOSE, WEGMAN, STERLING, SMITH & BARNES, MENDELSSOHN, HUNTINGTON, etc. From the lowest price at which a dependable Piano can be sold to the most magnificent creation of the Piano builder's art, we offer values positively without parallel. We sell on easiest terms. If you already have a Piano we will allow you liberal valuation in exchange, and arrange easy payments on the balance.

**PIANO REPAIRING AND TUNING BY EXPERTS.**  
DOES YOUR PIANO NEED REPAIRING OR TUNING? We are equipped to render prompt and perfect service, and our rates are very reasonable. We will gladly send a man, free of charge, to estimate cost of repairing, or appraise value in exchange. Write or phone us today.

IN OUR SHEET MUSIC DEPARTMENT we carry constantly an immense stock of both American and Foreign classic, standard and popular compositions, as well as the standard Instruction Books and Studies. We sell at the lowest price. Mail orders given prompt attention.

SUPPLY YOUR MUSICAL REQUIREMENTS, whatever they may be, at the House of Grinnell. Best quality, biggest assortment, greatest value and matchless service are unchanging features of this great musical organization. On this basis has our immense business been established—on this basis we solicit your patronage.

Michigan's Leading Music House. **GRINNELL BROS.** Petoskey Store 434 Mitchell St.

**Color in Precious Stones.**  
The color of gem stones, although of greatest importance commercially, is of little or no value in determining their particular identity. Certain stones, show their characteristic shades of color, it is true, but it is only after various tests have been applied that color can be considered at all as evidence of value. All minerals in their pure state are pure white, and the color shown is due to mineral pigment in many cases.

**Composition of Precious Stones.**  
The iridescence of the opal is due to the amount of water in its composition and contraction fissures in the stone, but similar characteristics are found in other stones where films cause diffraction. The opalescence of the moonstone is caused by the enormous number of planes of separation in the stone, light being totally reflected from these planes.

**Essence of Fine Breeding.**  
In families well ordered there is always one firm and sweet temper, which controls without seeming to dictate. The essence of all fine breeding is in the gift of oscillation. A man who possesses every other title to our respect besides that of courtesy, is in danger of forfeiting them all. A rude manner renders its owner always liable to affront. He is never without dignity who avoids wounding the dignity of others.

**The Perfect Man.**  
A perfect man is the one who admits his every fault and not the man who insists he has none.

**Poetical Age of Women.**  
A Philadelphia paper affirms that the poetical age of women is thirty, when they begin to love conscientiously.

**Florida the Pioneer.**  
Culture of the grape in America for wine making began in Florida in 1664.

## EAST JORDAN LUMBER CO.

We are opening up a new line of **MEN'S and BOYS' TROUSERS** the celebrated "Thoroughbred American"

Come in and see for yourself. We have your color, your size, and any style from Fancy Diagonal Weave at \$18.00 per pair, also the All Wool Soo Pants, down to the Work Pants at \$1.00.

Come in and see our line and let us show you one of the best lines of Men's Trousers carried in town. Our stock is now complete in all the departments and we are waiting to show you.

## Briefs of the Week

Emmet County Fair at Petoskey next week.

The Torch Lake postoffice in Antrim County was discontinued Sept. 1st.

H. I. Winters left Monday for Grand Rapids where he took in the West Michigan Fair.

Editor and Mrs. W. D. Harlow of the Bellaire Independent were among our fair visitors, Friday.

Supt. of Poor A. E. Cross met with the board at Charlevoix, Monday, and made their regular semi-annual inspection of the jail.

W. F. Bashaw returned Thursday from Fort Huron where he was Charlevoix county delegate to the K. O. T. M. M. great camp review.

The plant of the Central Lake Lumber Co., known as the stove mill, was totally destroyed by fire early Thursday morning. Loss \$18,000; partially insured.

The jury in the case of Lew Botchman of Petoskey charged with violation of the local option law, brought in a verdict of guilty after being out fifteen minutes.

The store building owned by Anthony Nachazel and occupied by the Hite Drug Co., was sold last week, Miss A. M. Kuesle being the purchaser. Mr. and Mrs. Nachazel and family now reside on the West Side.

John E. Darrach, State Factory Inspector for this part of the State was here this week looking over our various industries. His report on inspection of The Herald plant reads, "The tidest printing office in my district."

Boyne City was in darkness one night last week because a little mouse tried to walk over the connections behind a switchboard where high tension circuits distribute electric fluid. The animal was found lying across the connections, forming a short circuit.

A pretty wedding occurred Tuesday afternoon at 2:30 at the home of Mr. and Mrs. John Ekstrom in Eveline township, when their daughter Miss Ruth was married to Mr. John Kolesky of Horton's Bay. Rev. Perone of Petoskey performed the ceremony. The wedding took place in the presence of about 40 guests. The bridesmaid was Miss Anna Sundquist and the best man Mr. Emanuel Ekstrom.

The East Jordan band boys have early learned the Independent's passion for music. We like the boys and the melody they make just like we do our beloved Bellaire Cornet Band. They all stand along in one admiring row in our affection. The East Jordan boys left with us a most pleasant remembrance last Friday evening at 6 o'clock after the close of the fair by calling and giving a splendid serenade in front of the office. We thank the boys most heartily, everyone.—Bellaire Independent.

M. M. Burnham, secretary of the Petoskey and Emmet County Improvement Association, was unable to attend the East Jordan fair on account of his wife, who has been ill for several days.

George McCabe, secretary of the Emmet County Agricultural Society, Frank Voorhels, superintendent of seed of the same organization, Judge McCabe, Jack Clark and Eugene Rose made up a party which went to East Jordan Thursday morning to take in the fair and secure pointers for the Emmet county fair next week. Mr. Rose has attended every fair at East Jordan, while Mr. Clark and others of the party have nearly as good a record.—Petoskey Independent.

Mrs. A. Stewart was guest of Boyne City friends over Sunday.

Pros. Atty Fitch was at Charlevoix on official business, Monday.

F. N. Tyson of Brutus is guest of his sister Mrs. Ed Bellinger.

Miss Ruby Shepard is home from Detroit guest of her parents.

Miss Della Martinek of Elk Rapids is guest of Miss Gladys Kenny.

George Adair of Alden was an East Jordan business visitor this week.

H. A. Tape of Caledonia was guest at the Wm. Richardson home this week.

Mrs. Lucy Rice of Mancelona was guest of East Jordan friends this week.

Earl Fox of Mancelona was an East Jordan business visitor fore part of the week.

Frank Green was called to Knox, Ind., by the serious illness of a sister, first of the week.

Editor Usher of the Charlevoix Courrier was among the Charlevoix contingent to our fair.

Rev. and Mrs. E. J. Warren of Gladstone, Mich., are visiting at the home of Mr. and Mrs. Wm. Palmiter.

Mrs. Chas. Spencer returned first of the week from Howard City where she has been visiting relatives.

Mrs. Clark Barrie and daughter, Mrs. LeRoy Blair, are home from a visit with Detroit, Caro and Algonac friends.

Rev. T. Porter Bennett is attending the Michigan Conference of the Methodist Episcopal church at Kalamazoo this week.

Mr. and Mrs. E. P. Hubbard returned Tuesday from their outing and business trip to Cincinnati, Louisville, New York and other points.

Mr. and Mrs. A. Danto recently entertained L. H. Glazier of Minot, N. D., Aleck Gerson of Williston, N. D., Charles Danto, Miss Lillie Danto, and Mrs. Mamie Marks of Detroit.

The Ladies Aid Society of the M. E. Church, will hold their next meeting at the home of Mrs. James Howard Wednesday Sept. 20. Visitors always welcome. Members please attend.

After only eight day's work the East Shore Dredging Co., of Muskegon succeeded in floating the steamer RoBERT C. Wente, which sunk near Manistee several weeks ago. The boat was floated by the cofferdam method and the job was carried out in better time than any similar work in this vicinity for some time. The cofferdam was first built of canvas from the deck of the boat and reaching above the surface. Five thousand and square feet of drill was used to make the cofferdam water-tight. Ernest Beauvais, a Muskegon diver did the work. When the pumps were started it took just two minutes to start the boat up and in two hours it was afloat. Four hours later steam was up. The Wente is a well-known Lake Michigan lumber carrier and has made East Jordan for years.

It is reported from Alpena, through The Evening News of that city that the property interests of the place are losing not less than \$15,000 a year through the existence of "blind pigs" and illegal liquor selling joints. The News of Alpena says that the thirty bawdy houses of that place are openly and defiantly selling intoxicating liquors. Alpena county voted last spring to retain the saloons but before the vote was cast a business men's organization persuaded many voters that liquor traffic affairs in that county would hereafter be conducted legally and decently, but liquor affairs in Alpena county are evidently being conducted neither decently or legally. Thirty "blind pigs" in a city so small as Alpena is a fair sample of what the saloon business can do in the way of creating blind pigs and illegal liquor selling resorts when it is given a fair opportunity.

The absolute failure of the licensed saloons to prevent the existence of "blind pigs" and the illegal sale of liquor has recently been shown through police reports from nearly every city and county in Michigan in which saloons are permitted. But in no locality has the influence of the saloon in the way of breeding "blind pigs" been more apparent than in Calhoun county. It was recently shown that the Marshall Game club had rooms where the members provided themselves with whiskey and beer. It was shown through testimony that whiskey was ordered by the barrel and beer by the case, 24 bottles to the case. No license of any kind is possessed by the Marshall Game club. And this illegal liquor traffic has come into existence since the saloons returned to Marshall. And yet we are told by liquor traffic defenders that "blind pig" and the illegal selling of liquor can be prevented through the existence of saloons.

Leave your laundry at Mack's. Dandy line of Wall Paper at Whittington's.

Carbide for sale in bulk at Spencer's Plumbing Shop.

Empy Bros. have just received and they are now on the floor, a large consignment of Solid Oak Leather Rockers they are great values.

### Proceedings of the City Com.

Special meeting of the City Commission held at Hudson's store Monday evening Sept. 11, 1911. Meeting was called to order by Mayor Cleveland. Present, Cleveland, Hudson, and Kenny. Absent none.

Minutes of previous meetings were not read.

Moved by Kenny, supported by Hudson that the bid of the State Bank of East Jordan on Sewer Bonds be accepted. Carried.

Resolution was introduced by Hudson as follows: Whereas, on the 29th day of May, A. D., 1911, there was authorized by the Village Council of the Village of East Jordan; the issuing of sewer bonds to the amount of \$1,032.72, and the village president, village clerk were directed to sign and execute said bonds and.

Whereas, during the interim between the 29th day of May 1911 and the present time, the said Village of East Jordan has been incorporated as the City of East Jordan; therefore be it

Resolved, That the city mayor and city clerk be and are hereby instructed to execute and sign said sewer bonds and deliver same to the State Bank of East Jordan.

Moved by Hudson, supported by Kenny that the above resolution be adopted. Yeas, Hudson, Kenny and Cleveland. Nays none. Carried.

On motion by Kenny, supported by Hudson the following bill was allowed and the clerk instructed to draw an order for same:

A. J. Hammond, extending covenant \$25.00.

Moved by Hudson, supported by Kenny to adjourn. Carried. Oris J. SMITH, City Clerk.

### Notice to Everybody.

You will find at Whittington's Chairs, Dressers, Sideboards, Tables, Couches, in fact everything needed for housekeeping in the Furniture line.

When you are in need of Rugs call at Empey Bros. for they certainly have got the prices.

Go to Mack's for your China—both fancy and plain. Prices reasonable. Laundry basket leaves Mack's every Tuesday noon.

**STATE BANK OF EAST JORDAN**

Capital \$50,000 Surplus \$4000

**4 PER CENT.**

**PAID ON DEPOSITS.**

Officers:  
W. P. Porter, President  
W. L. French, Vice Pres  
Geo. G. Glenn, Cashier

Directors: W. P. Porter, W. L. French, Chas. M. Schaffer, F. M. Severance, M. H. Robertson, Carl Stroebel, Fred Smith, B. E. Waterman, Geo. G. Glenn.

**WE WANT YOUR BUSINESS.**

### A Chance Now.

Some enterprising man in East Jordan can step into a nice business that is bound to grow in your town. We have had so many letters from ladies asking us "why we can not establish a carpet cleaning machine here." If you have a dry line or any business to run in connection write us at once and we will assist you in placing the most modern machine made at a price that will surprise you and your city will amply support such an enterprise. A visit to our plant in Petoskey will convince the most skeptical. Write at once as the fall cleaning will pay for it.

Diverse Causes.  
"Many a man becomes a cynic because he was disappointed in love."  
"Yes," replied Miss Cayenne, "and many others eventually become cynics because they were not."

### First Methodist Episcopal Church

Rev. T. Porter Bennett, Pastor.  
Rev. E. J. Warren of Gladstone, Mich., formerly Superintendent of E. J. Public School will occupy the pulpit at the Methodist Church, Sunday Evening Sept. 17. Subject "The World of Wonder."

Mr. Warner won many friends during his stay in this city and all will be pleased to hear him in his change of vocation. Mrs. Warren will favor with a solo.

### St. Joseph's Church.

Rev. Timothy Kragh.  
Sunday Sept. 17, 8:00 Low Mass and Sermon. The other services at the Bohemian Settlement.

### W. C. T. U. Program.

The next meeting of the W. C. T. U. will be held with Mrs. John H. Williams Friday, Sept. 22, 2:30 p. m. This will be a Musical. Leaders Mrs. Joynt and Mrs. Barrie, Devotionals, Led by Mrs. Grigsby. Roll call, business etc.

Song trio by Mesdames W. and H. Sloan and G. Ruhling. Reading, The Legend of the Bells by Mrs. W. J. Smith. Vocal Duet, Mrs. Fitch and Mrs. Chas. Malpas. Piano Solo, by Ariene Hammond. Vocal Solo, Tessie Reid. Piano Duet, Mesdames W. and H. Sloan. Reading, Woman Suffrage in California, Mrs. Hall. Piano Duet, A Joyous Return, Eunice Carr and Marjorie Lemieux. A Siesta a Trio, Piano and Violins, Misses Eunice Carr, Leonard Kenny and Vera Mc Millan.

Visitors welcome.

### THE BET

WARREN W. LAMPORT.

Jim, he said he'd bet his legs  
He could beat me suckin' eggs;  
An' I said I'd give him mine  
But I'd go him ten to nine.

Bless me! how it all comes back!  
The ol' barn, the big straw-stack,  
An' that hen turned out of nest  
Just a cackalin' her best.  
Seems as if 'twas yesterday  
'Stead o' fifty years away.

Well, I'd got it up to nine  
An' was feelin' pretty fine.  
I was one ahead o' Jim,  
An' I sat there watchin' him  
Lazily a fixin' his  
An' a openin' up his phis.

Just as unconcerned an' ca'm  
As an ol' salt-water clam.  
Innocence an' ease combined  
Jim was when he had a mind.  
But sir, when he'd got it down  
An' begun to look aroun',  
My! you ought to see his eyes  
Just a bulgin' with surprise.

Like as if some ghost out there  
Was a dancin' in the air,  
Or as if the Judgment day  
Was a rollin' round his way.  
'Mother!' That was all he said.  
But he sorter hung his head,  
An' I knew 'thout lookin' back  
What was happenin' round the stack.

We was even, me an' Jim,  
Both my legs belonged to him;  
'Cordin' to the bet, you see,  
Both his legs belonged to me.  
But it wouldn't a mattered then  
If we'd owed each other ten,  
We just picked up what we had  
An' we lit right out, skeddad,  
Fast as e'er we could get  
Thro that hole them sheep had eat.  
An' fer anything I'm knowin'  
We might still have been goin'  
If she hadn't been there too,  
Soon as ever we got thro'

How it was Jim settled his  
I aint sayin'—'Twan't my biz.  
I'm just tellin' of the bet  
An' how many eggs we eat.

Before you reach the Limit  
of physical endurance and while your condition is still curable, take Foley Kidney Pills. Their quick action and positive results will delight you. For backache, nervousness, rheumatism, and all kidney, bladder and urinary troubles.—Hites Drug Store.

Grow Best Walnuts.  
The best walnuts in the world—at least they have that reputation—are those grown around Granoble, France, and a singular fact about them is that at least three-quarters of the entire production are transported across the ocean to be eaten in New York, Boston, Philadelphia, Chicago and other large American cities. The calcareous soil of southeastern France appears to be particularly favorable to the walnut. On the rising land at the base of the French Alps the nut trees offer form veritable cultivated forests. The finest variety, the mayotte, has a light colored shell and a broad, flat base, on which it readily stands upright.

Evidence of Ability.  
"Why did you take such a grouchy fellow on your football team?" "That's why. He's such a kicker."

Since this new comet is classified as a tramp the man in the moon should hand it out a hunk of cheese and tell it to go away.

Girl's Clothing

Dress Has Great Influence on Physical Health

By WELLS ANDREWS, M. D.

DRESS has a great influence on the physical health of girls. The two cardinal points to be here borne in mind with reference to their clothing are, first, that the material should be such as may serve to retain the necessary warmth, and, second, that its form be so arranged as to occasion neither undue abdominal compression nor any interference with muscular action.

The injuries that may be inflicted by the absurd modes prevalent in the dress of girls are shown in the effects of tight lacing on the breathing functions. The results of errors of this kind are most apparent at the period when the young lady exchanges the easy garb of girlhood for that imposed by the requirements of fashionable life.

Were young men to be so laced, so imperfectly exercised, so inadequately clothed, so suffocated, so exposed, their bodily vigor would soon cease.

Defects of clothing, though most signal about the chest and shoulders, are not confined to the upper part of the body. The feet require warmth, which fashion denies. They cannot be compressed except at the cost of suffering, some distortion and the infliction of positive disease.

Highest Wages for Greatest Amount of Work

By G. A. CROSBY Terre Haute, Ind.

as little for your meals as he can.

I have been out harvesting in Nebraska. There I worked only ten to eleven hours a day, with home-cooked food, the best a man ever could get.

I had about nine full weeks of it in the vicinity of Wymore, Neb., and the beauty of it was the fact that now and then you could get a half day's rest while the machine was being moved to the next place.

City boys mustn't think that they are strong enough to get out and work day in and day out for six weeks in the hot broiling sun.

Defense of Scrappy Little English Sparrow

By B. J. GUSTIN Aurora, Ill.

and stay as of old.

The English sparrow increases in number very rapidly and likes the excitement, as can be seen at Elgin. One mile south or west of the hospital you can hardly find a sparrow.

Sparrows are the best of scavengers among all bird kind, and should you find your young vegetables, just sprouting, being picked to pieces, you can bet your last button that it is the insects rather than the plant that the sparrow is after.

Just think how industrious this little fellow is. Like a bantam, he is full of life, ambition and confidence in himself.

Little Facts About Jupiter and Venus

By W. SCHARDT Williams Bay, Wis.

The bright star in the southern sky is the planet Jupiter and the one in the west is Venus. Jupiter is in Libra and Venus is in Leo, while Saturn is in Aries and can be seen early in the morning.

No man will regret the loss of a few winks if he gets up to see him. Jupiter's moons could be seen through a good pair of opera glasses three weeks ago and probably can be now under favorable atmospheric conditions.

As one writer says, all planets travel from west to east around the sun, but owing to the fact that Jupiter is approximately 400,000,000 miles farther from the sun than is the earth, he apparently travels westward while in reality we, being on the "inside track," distance him and leave him behind.

The National Grange

Conducted by Charles M. Gardner, Editor of the National Grange, Westfield, Mass.

STILL HOPEFUL OF VICTORY

Grange Sees Chance That Reciprocity Will Be Defeated by the People of Canada.

Since the successful passage of Canadian reciprocity by the United States senate, the Grange has by no means lost hope of the ultimate defeat of the proposition, inasmuch as a big fight over ratification is on in Canada, with the chances of reciprocity defeat just about as good as for success.

The reciprocity issue is now squarely before the people of Canada, as parliament has been dissolved and a new legislative body is to be elected September 30, very largely upon this very issue of reciprocity.

Meanwhile the reciprocity topic continues a live theme for discussion in many of the Granges throughout the United States, with general tariff questions and problems more or less involved. It is probable that these lines of thought were never before so widely discussed in Grange meetings and a great deal of information is therefore being disseminated among the people of the rural communities relative to national and international affairs.

MAINE FIGHT AGAINST RUM

State Grange Is Giving Vigorous Help to Preserve the Present Prohibition Law.

The State Grange of Maine is putting up a big fight against the rum traffic and is lining up subordinate and Pomona Granges all over the state to lend a hand in the cause.

The executive committee of the Maine State Grange recently held a meeting at Lewiston to outline the campaign in which the Grange is to vigorously engage.

It is proposed to co-operate with the churches, civic league, W. C. T. U., Y. M. C. A. and all other agencies working towards the same end, to organize effectively the entire temperance sentiment of the state.

WARM LANGUAGE FROM OHIO

State Master Scores President Taft for Disregarding Protest of Farmers Against Reciprocity.

It was pretty warm stuff that State Master T. C. Laylin of Ohio gave in a recent address on reciprocity to a big gathering of Patrons of the Erie County Pomona. Among other statements he said:

"The farmers of Erie county, and, in fact, of the entire state of Ohio, are thoroughly aroused, and the reception President Taft gave to the representatives of the farmers of the United States, who made their plea for justice and equality, will be a blot upon the escutcheon of our country where so many farmers' sons have reigned in honor and to the glory of our nation."

POKEWEED USED AS A REMEDY FOR ITCH AND SKIN DISEASES

Poisonous Plant Is Native of United States and Found in Rich, Moist Soils, From Maine and Northern Illinois to Florida and Westward to Texas, Eastern Kansas and Southern Minnesota.

The Pokeweed.

There is a large number of poisonous plants in the United States which, on account of their limited area of growth, and sometimes of the uncertainty of our knowledge concerning their evil effects, are comparatively little known.

Description and Where Found.—A smooth, rank, succulent, perennial, six to nine feet high, with a thick half-woody root, purplish stems, large alternate leaves, and numerous elongated clusters of small greenish-white flowers, which blossom through the summer, and are followed in autumn by shining purple-black berries.

Uses.—The pokeweed has many household uses, but some chemical or mechanical manipulation seems necessary to prevent ill effects when it is eaten. The root and the alcoholic extract of the fruit are quite commonly used as a household remedy for the itch and other skin diseases, and for rheumatism.

The water in which the shoots are first boiled is also rejected on ac-

count of the poisonous substance contained in it. The flesh of the berries is eaten with impunity by some birds, but its use by human beings cannot be recommended.

Poisonous Character.—Most instances of poisoning arise from overdoses when the plant has been used as a medicine, but there are also accidental cases due to the eating of the root, which has been variously mistaken for that of the parsnip, artichoke, and horseradish.

Poke weed is a violent but slow acting emetic, vomiting beginning only after about two hours. It also affects the nerves and muscles, producing retching, spasms, severe purging, and sometimes convulsions.

CALVES DRINK MUCH WATER

Half Barrel Cleaned and Replenished Twice Daily Will Serve Nicely as a Drinking Trough.

Calves, like other farm animals, get thirsty even though milk forms a large part of their ration. Calves three months of age will drink as much as five quarts of water daily, per head.

A half barrel cleaned and replenished twice daily, will serve nicely as a water trough. Another good device is an automatic waterer which may be easily cleaned, situated a little above the floor to keep out the litter.

MEADOW FESCUE FOR STOCK

Meadow fescue is of little value for temporary seeding since it takes about three years for the plants to get well established. On rich soils that do not dry out it gives good results, the plants being relished by all farm stock. It should have a place in all permanent pasture mixtures.

## MICHIGAN'S PROGRESS IN ALFALFA GROWING

By R. J. BALDWIN, Michigan Agricultural College

Alfalfa Growing on Old Gravel Pit.

The alfalfa seeding season, which begins in Michigan in early spring and continues until early summer, has been more extensive than in any previous year. During this time the Agricultural college has sent out 1,823 nitro-inoculating cultures to as many different farms, where fields of from one to twenty acres have been started. Many fields have been sown of which the college has no record. The experiment station has distributed during the year more than 15,000 circulars and bulletins on alfalfa culture, and the extension department has organized sixty-six alfalfa clubs, with a combined membership of 950. These alfalfa clubs are organized wherever ten or more farmers agree to grow one or more acres. The organization of these clubs makes it possible for a representative of the college to hold an evening conference with the alfalfa growers and to go with them to the farms the next day to select suitable fields and give special instructions for planting, etc. These clubs are widely distributed throughout the state, being located in forty-two counties, eleven of which are in the upper peninsula. The alfalfa fields in various parts of the state which were started in previous years are reported as doing well and producing quantities of fodder, which has no equal in point of nutritive value and palatability. Many fields now being cut for the

seventh or eighth year are giving a profitable return. It will be plain from the above statements that alfalfa raising in Michigan is past the experimental stage and should appeal to every Michigan stockman as a serious economic proposition. Late summer and fall is the right time to begin thinking and planning for the alfalfa field of the coming year. It is then we can best decide on location and plan on preparation of the field. Having decided early to grow alfalfa gives one a chance to watch for a good quality of seed and not be dependent on the market at seeding time. Then, too, in thinking about it beforehand it is almost certain that many points of information will be picked up which will be of great advantage when it comes to the actual field operations. The illustration with this article shows this year's first cutting of alfalfa on an old leveled-down gravel pit. No other crop could be induced to grow here, but owing to the depth of root the alfalfa plants have grown and produced a profitable crop of fodder. Circulars giving information on "Alfalfa Culture" have been widely distributed by the experiment station, but there is still a supply, and Circulars 1 and 5 may be secured by writing to Director R. S. Shaw, East Lansing, Mich.

## FALSE BOTTOMS FOR RANGES

Economizes Summer Coal Consumption in Simple and Effective Manner.

Here is an invention which will appeal to housewives from two important standpoints, viz., economy of coal and reduced temperature for summer cooking. The woman who thought out this idea could not see why she should load her kitchen range up with coal every time she wished to prepare a meal, and then have half of the coal left to burn out as waste and heat the house to an uncomfortable degree. Since, however, the live coals must be kept in proximity to the griddles, a thin fire in the deep firebox would not accomplish the purpose. Therefore she developed the false bottom shown in our illustration. As will be

Inside the Empty Fire Box.

seen, this device is placed inside the empty fire box, having four side frames which rest on the regular grate, and the auxiliary grate is suspended several inches below the under side of the stove top. As the bottom is perforated, a sufficient draft is provided, and also ease of access to the fire with the poker for raking out the dead ashes from the bottom. While the fire is necessarily thin and light, it provides plenty of heat for cooking a meal, and soon burns itself out after accomplishing its purpose. Of course, the device is not confined to coal for fuel, but will operate equally as well with wood, charcoal or coke.

## LIME WATER MADE AT HOME

Summer Luxury That Costs Little and Conserves Health of the Family.

A more general use of lime water during hot weather is much to be desired. It can be made at home and costs but little. Lay a lump of quicklime as big as the two fists in a granite pitcher or bowl, pour over it two quarts of cold water, stir with a wooden spoon, and let it stand six hours. Strain the liquid without disturbing the sediment of lime. Put in bottles and cork tight; before using pour off half an inch of the top if it has stood any length of time. Lime water is good to rinse bottles, pitchers, and pans that have held milk.

To sweeten drains and bleach out mark left when stronger alkalies have failed. From a teaspoon to a tablespoonful in a glass of milk will make it acceptable to delicate stomachs, especially where there is acidity. Lime water is good for a mouth wash. Equal parts of lime water and sweet-oil make the very best remedy for burns and scalds and will not be forgotten when once used.—Chicago Tribune.

## Broiled Steak.

While porterhouse or sirloin steaks are the approved cuts for broiling, even a tougher steak can be broiled if treated first in this way: Put 3 tablespoonfuls olive oil and one tablespoonful vinegar in a large flat dish. Lay the steak on the mixture and let it rest for half an hour. Then turn and let it rest another half hour in the same quantity oil and vinegar. Two inches is the approved thickness for a broiled steak. If broiled over coal the fire should be clear and bright. If under gas flame leave the oven door open that the air may circulate freely while the steak is broiling. A steak two inches thick will take about 15 minutes to broil. To tell when meat has cooked sufficiently, press with the back of a knife. If it offers a slight resistance it is rare.

## Preparing Mushrooms.

Fry a quarter of a pound of mushroom caps in three tablespoonfuls of hot butter, season with salt, pepper and a grate of nutmeg; add half a cupful of milk, cover and let simmer for eight minutes. Arrange the mushrooms on a round of bread in a mushroom dish, pour the liquid over them, cover with a glass bell, and bake about thirty minutes in a moderate oven. Send to the table without removing the glass, which confines the delicate flavor and the aroma of the mushroom.

## Dustless Carpet Sweeping.

To give my carpets a thorough sweeping without raising dust, I dip my broom into gasoline (merely moistening it) and sweep in the usual way. This is superior to the ordinary way of using wet salt or cornmeal, the gasoline brightening the carpets as well as absorbing the dust. For my wool carpet, I use a small whisk broom, moistened with gasoline, and sweep the dirt onto a dustpan.—Suburban Life.

## VIRGINIA IN THE CITY

By PHILIP KEAN

(Copyright, 1911, by Associated Literary Press.)

For hours the girl had walked through the city streets, hot, dusty, tired, hungry. She sought work, but could not find it. Everywhere she was turned away. They wanted only those who had held similar positions, and Virginia, fresh from the country, could claim no knowledge which would be of use to her in town. It seemed to her that the tall buildings on each side of the street frowned ominously. As evening came she grew afraid. She hated to go back to the tall tenement where she had paid a week's rent for a room. Dinner was out of the question, and she had had no breakfast or lunch. It was with a gasp of relief, therefore, that she spoke to a boy who stood on the corner under a street lamp.

"Why, Billy Locke," she said, "is it really you?" "It sure is," he said heartily and grasped her hands. "But what on earth are you doing in town, Virginia?" She told him her little story. The aunt with whom she had lived had died, and Virginia was unwilling to be a burden in the homes of outsiders. "But I can't find work, Billy," she said.

He was only twenty-one but he had a man's discernment of a woman's need of protection. "You oughtn't to be running around these streets alone," he said gravely; "you'd better let me take you back to your boarding house right now." "It is not a boarding house," she informed him. "I just have a room there and take my meals out."

"Have you had your dinner?" he demanded. She flushed. "No-o," she stammered. "You come right in and have something to eat," he commanded. She would let Billy order nothing for her but a glass of milk and some crusty rolls. He urged upon her a more elaborate feast, but her inde-

"You Wouldn't Take a Position Here, Would You?"

pendence made it impossible for her to accept too much of the boy who had been only a casual acquaintance in her home town. "What are you doing?" she asked him. He had a fairly good position in the packing department of a big store. "Some day, I want to go back home and have a store of my own," he said. "I don't care much about living in the city."

"It would be lovely here if I only had money," Virginia said, but Billy shook his head. "It ain't any place for people like us. We are better off in small places." Virginia did not dare tell him how homesick she had been. "I have just got to find work," she said desperately. Then her eyes brightened. "I believe you have brought me luck," she exclaimed. "How?" Billy demanded. She pointed to a sign on the wall, "Waitress wanted."

Billy, remembering her refined home surroundings, expostulated. "Oh, you wouldn't take a position here, would you?" But she did take it. There was a head waiter, a young man of somewhat sporty appearance, who passed her on, when she questioned him, to the woman at the desk. Arrangements were made for Virginia to come the next morning, so Billy took her home promising to see her soon.

Every day after that she sat at the table where she served, and every day he begged her to let him write to his people and make arrangements for her to go home. "It makes me sick to see you working here," he said. "It needn't," she told him. "We get good things to eat, and I have a comfortable room, and tomorrow I am going to buy myself a new dress and a hat."

She hoped when she told him that that he would ask her to go out with him to the theater or to some of the restaurants where some of the other girls went. But he did not do anything so dazzling. He blushed and whispered, "Will you walk in the park with me on Sunday?" She consented, wondering if he were stinging. He surely made as much money as the head waiter, who invited

her to go with him on Saturday night to see a play at a near-by theater. This was the kind of invitation she craved, and she accepted gladly.

On their way to the theater they passed Billy Locke. He bowed, and Virginia saw the astonishment in his eyes. "Serves him right for not taking me himself," was her thought as she tossed her head, but all the evening his miserable face haunted her. The head-waiter proved to be poor company. He was not in Virginia's class and his conversation was limited. Virginia, however, made another engagement with him for the following Saturday, and the next day when she went with Billy Locke to the park, she told him of it.

"He's awfully nice, he is so generous," was her statement. "Perhaps he's generous," poor Billy said, "because he hasn't anything ahead of him to save for."

"I should think a man who cared for a girl would want to give her a good time," said Virginia. For a moment Billy was silent. Then he faced her. "Look here, Virginia," he said, "I want to take you back home and put you in a little house of your own, and care for you for the rest of your life. And I can't do it if I spend money on you now. I cannot bear to see you in a place that you don't belong, like that lunchroom. It is not the place for a lady, like you, and that head waiter is not a gentleman. I don't like to see you with him and I don't think you ought to go with him, Virginia."

He spoke with a vehemence that astonished Virginia. She had not dreamed that Billy had it in him. "Why, Billy Locke," she gasped, "I didn't suppose you thought about me that way." "Well I do," said Billy, earnestly. "I love you, and I want to marry you, Virginia, and by fall I shall have enough to take us both back where we want to be. Will you wait till then, Virginia?"

She hesitated. "Oh, I can't say what I will do right now, Billy." She thought it over and the vision of the little home among the lilacs came to her when, on the hot days, she served luncheons to a ravenous populace.

In vain did the head-waiter whisper in her ears dreams of future delights. What had he to offer her that could compare with the dreams Billy had put into her head? Trips down the river, and to amusement resorts—these were things of the moment. But Billy's promises were for a lifetime.

The next Sunday in the park she told the results of her decision to Billy Locke. "It is because you are so good, Billy," she said. "Somehow from the very moment I saw you standing on the corner, I knew that I could trust you." "You bet you can," said Billy, fervently.

## WHERE MARLOWE IS BURIED

Famous Old Church in London Has Innumerable Other Historic Associations.

Mr. C. A. Montague Barlow, M. P.; Mr. E. G. B. Berryman, mayor of Deptford, and Rev. Arthur Hart, vicar of Deptford, write: "May we earnestly commend to your readers the serious condition of the great historic Church of St. Nicholas, Deptford. The church has been condemned as unsafe by the London county council under the dangerous structures act. In consequence the poor have been deprived of their church. We appeal to your readers to help us in the work of restoration, which will cost £5,000.

"The history of the church is unique. It is bound up and identified with the Spanish Armada and its defeat. It was in this parish that Sir John Hawkins lived and devoted his energies to fitting out the ships for war. In this church the admirals of the fleet met to worship before setting out to meet the foe. Here Evelyn and Pepys (the diarists) and Sir Francis Drake were constant worshippers. In this parish Evelyn discovered Grinling Gibbons (the world renowned wood carver), and some of his greatest work is to be seen in the old church, including his magnificent representation of Ezekiel's vision. The Valley of Dry Bones." The church is rich with associations in the making of the British empire. It is the Westminster Abbey of the British navy. Within its walls Peter Pett (the inventor of the frigate, the precursor of the modern cruiser) lies buried.

"Many of the greatest naval heroes and their resting place here. William Hawkins, brother to Sir John Hawkins; Edward Penton, the notable Elizabethan explorer, who commanded the admiral's flagship in the fight with Spain; Frobisher, Sir Francis Hozier, Captain Shelvocke, and many of Devon's naval notabilities, are buried here. Also within its churchyard rests Kit Marlowe, the celebrated dramatist and contemporary of Shakespeare. Under its shadow Peter the Great, the emperor of Russia, learned the art of shipbuilding. The Duke of Wellington often visited the church with the Trinity brethren."—London Daily Telegraph.

When a fool wants to become wicked he must meet a wicked man who is looking for a fool.—Beaumont.

## INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."—Mrs. Wm. Seals 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs. Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

## WAS IT ABSENT-MINDEDNESS?

Mrs. Nelson—My husband is awfully absent-minded.

Mrs. Bilson—In what way? Mrs. Nelson—He went fishing yesterday. When he had finished he threw away the fish and brought home the bait.

The Young Idea. There are two kinds of joints, the hinges and the ball-bearing. Reflex action is the inside eye and ear. Reflex action controls things that we do not have to think about, as talking.

Had we no skin, our clothes would cause us endless agony. The stomach is the trunk of our body. The stomach contains the liver. The stomach is south of the lungs, west of the liver. It has three coats. Without the stomach we should die, therefore God chose the stomach to digest our food.—Woman's Home Companion.

A Thirst for Information. "Say, pa?" "What is it?" "Who made the after-dinner speeches at Belshazzar's feast?"

An Experiment. Nurse—What is the matter? Johnny—The baby is a fake! I threw him on the floor, and he didn't bounce a bit.

A Large Package Of Enjoyment—**Post Toasties** Served with cream, milk or fruit—fresh or cooked. Crisp, golden-brown bits of white corn—delicious and wholesome— A flavour that appeals to young and old. "The Memory Lingers" Sold by Grocers Postum Cereal Company, Ltd. Battle Creek, Mich.

## Level Fields and How to Get Them

By R. J. BALDWIN, Michigan Agricultural College

One of the greatest factors which affect farm crops and farm operations is the form of the surface of the land. An uneven surface not only makes machinery work with greater difficulty, but causes the crop to be spotted, due to uneven supply of moisture and fertility. The little elevations shed the water, which carries with it the readily available plant food. If the surface is more nearly level the manure will stay more evenly distributed and there will be less areas suffer for the want of the moisture which helped to drown out the crop in other parts of the field during the rainy season. Leveling can best be done while fitting the land for wheat, or in the spring when it is best prepared for beans. Any other time will do, as well provided the surface of the field is loose to a depth of several inches and the season is not too busy. Many leveling devices have been successful, and the one illustrated here does good work even where the land is very rough. It is made of stiff

Perspective View of Field Leveler

2x12-inch plank, the sides being 18 to 20 feet long, and the cross pieces 4 feet long. The front faces of the cross pieces, which push the dirt, should be faced with iron, to prevent wear on the cutting edges. Boards should be nailed over the top of the lever to get as braces and afford a place for the driver, to ride and carry other weight if necessary. The free ends of the plank sides should be provided with shoes three feet long and three or four inches wide.

When drawn over uneven ground the middle cross piece will cut and carry when it passes over a rise and will nudge when the two ends are high. The front piece works in the same way, loading and unloading itself automatically. Four horses will handle a leveler of these dimensions, and cover a considerable area per day.

## Fix the Gates.

Keep the gates fixed up. A large gate that sags out of place or drags on the ground wastes a lot of your time during the year.

## Cultivation and Pruning of the Brambles

By O. I. GREGG, Assistant Horticulturist, Michigan Agricultural College

It is a common practice to keep the cultivator going until late in July in corn and beans, but many and in fact most farmers and small fruit growers do not think it necessary to pay much attention to the cultivation of the brambles. The most successful growers, however, cultivate them up to picking time and then cultivate the ground after every picking, thus making and keeping the soil mulch which is so necessary in order to utilize all of the soil water to the very best advantage. Continue this cultivation until about the first of August, then discontinue it, as it is necessary to stop the rapid growth in order for the canes to become well matured before winter so that they will not be so apt to freeze back. Some growers place the rows far enough apart—nine or ten feet—so that a disk harrow can be used with two horses throughout the season.

Pruning of the brambles differs not only with the kind but also with varieties, but generally speaking the new growths of black raspberries and purple cane raspberries should be tipped as soon as they reach a height of two to two and one-half feet, even though it is necessary to do it picking time. This causes the side branches to develop quickly and gives them a longer time to make strong side shoots. The black raspberry should be tipped as soon as it reaches a height of 18 inches to two feet.

The young shoots of the red raspberry should not be touched until the following spring, then all shoots of all branches should be cut back to the point where the shoot begins to curve toward the ground. Many growers put off pruning out the old fruit canes until the spring pruning, but this is a wrong practice. The old canes of all kinds of brambles should be taken out just as soon as the canes have stopped fruiting. In fact some growers have them nearly all removed by the time the pickers are through the last time. These old canes if allowed to remain simply spread disease, take up room and shade the young growths. These old canes harbor insect pests and they are the ones most apt to have Anthracnose, a disease which works on the cane, girdling it or nearly so, causing the fruit to ripen prematurely or dry up on the bushes. It can be kept from spreading to the other new canes to a great extent by cutting out these old canes as soon after harvesting as possible, then burn the prunings, do not leave them in the row for some future time as they are as bad there as they were on the bush. "A stitch in time is worth two in the bush."

## "I am all right now, thanks to Dr. Miles' Heart Remedy."

The same relief is ready for you. Are you sure you do not need it? If Dr. Miles' Heart Remedy helped Charles Holmes, why won't it help you?

"I was troubled with heart disease, and after reading about Dr. Miles' Heart Remedy, I got a bottle. Before I got the Heart Remedy I had to sit up most of the night, and felt very bad at my stomach. Whatever I would eat made me feel worse, and my heart beat very fast. But thanks to Dr. Miles' Heart Remedy, I am all right now. I eat good, sleep good, and feel like a new man, although I am almost 68 years old. I have been a soldier in the late war of the rebellion, and was badly wounded." CHARLES HOLMES, Private Co. B, 54th N. Y. Infantry Volunteers, Walton, Delaware Co., N. Y.

### Dr. Miles' Heart Remedy

is kept in thousands of homes as a friend always to be relied upon in time of need.

Sold by all Druggists. If the first bottle fails to benefit, your money is returned. Ask any Druggist.

MILES MEDICAL CO., Elkhart, Ind.

### Manuring With Mud.

In China and Japan, according to Professor F. H. King, as much labor and time are spent in special fertilization of the soil as in seeding and harvesting the crops. In addition to barnyard and household manure, great quantities of bean, rape seed, cotton-seed and peanut oil cake are used as fertilizers, and an enormous tonnage of canal, reservoir and river mud is also applied. Single dressings of mud sometimes amount to from 70 to 100 tons per acre. The practice of irrigation is very extensive, and all irrigated areas are placed under conditions which practically eliminate surface erosion. Both canal and reservoir mud are fermented in organic matter to be used as fertilizers. The Mongolians practice systematically the culture of legumes as a source of nitrogen. The dense population and increasingly smaller holdings both necessitate and render possible the bestowal of extreme personal care upon the crops.

### Safety Belt for Airmen.

A French airman has devised a safety belt designed to keep airman from being thrown from their machines and to help break the shock of falling with the aeroplane. It consists of a broad leather strap, which covers the whole of the chest and part of the abdomen, to the ends of which are attached powerful elastic straps, which are in turn made fast to the machine by leather straps. Should the aeroplane meet with an accident, the shock is taken up by the belt, and the airman is kept in his seat until parts of the framework or the wing structure have broken the fall for him.

### The Highest Garden.

The highest garden in the world is said to be the Alpine Garden of Botany, which was laid out by the late Canon Chanoux, formerly rector of the Hospice of Little St. Bernard, the London Globe has discovered. It is situated at an elevation of 2,200 meters, or 7,150 feet. Here are to be found almost all species of mountain flowers, not only those common in the Alps, Pyrenees, Carpathians, the Caucasus and the Balkans, but even from far off Himalaya. The canon conceived the idea in 1888, but it was not until 1902 that his project became effective. In the latter year the com-mune of Thulle gave him the land.

### Wanted It Himself.

Our friend Gillson's pastor met our friend Gillson on the street, Monday. After the greetings had been exchanged, the dominie said: "Brother Gillson, I'm sorry to be the bearer of painful news, but it is my duty to impart it. Yesterday—Sunday—I saw your little son going fishing!" "You did, did you?" cried Gillson. "That boy is headed straight for destruction. Went fishing on Sunday, did he? I shall punish him severely. I thought it was funny I couldn't find my fishing rod!"

### Losses Caused by War.

Norman Angell calculated the Franco-Prussian war has cost Germany \$400,000,000 more than she got in indemnities from conquered France. For instance, he says \$150,000,000 was spent by Germany in increasing its peace army to 530,000 men; \$400,000,000 in wages was lost by the Germans killed and wounded. The permanent German war force was enlarged by 100,000 men, and that has been maintained for 40 years, at a total cost of \$1,000,000,000. Then there was the loss of German trade and German foreign markets.

### Ancient Rights.

A Cockney angler, thinking that his Highland boatman was not treating him with the respect due to his station, expostulated thus: "Look here, my good man, you don't seem to grasp quite who I am. Do you know that my family have been entitled to bear arms for the last two hundred years?" "Hoos, that's naething," was the reply. "My ancestors have been entitled to bare legs for the last two thousand years."—London Telegraph.

### Ireland's Loss in Population.

Ireland has 75,000 less inhabitants than it had ten years ago. The birth rate in the Emerald Isle has not declined and births far exceed deaths, but the progressive young Irishmen desert their native island for the United States, Canada and Australia.

### A Social Diplomat.

"How is it that young Clymer has made such a hit with Mrs. Agrett, the society leader?" "He told her he could not understand why, when she was reported to be so up-to-date in all the fashions, that she was hopelessly behind the present style of large feet."

### The Reason.

"The young widow seems sincerely grieved over her old husband's death." "So would you be if you had to go in mourning just when you had imported a brand new wardrobe of the latest styles."

### In Colorado.

Penurious Customer—'I'd like a small glass of beer, bartender.' You'll have to buy a whole potato's worth, sir. I don't take no split spuds.

### The Joy Rider.

"His father laid the foundation of a fortune by burning midnight oil." "Yes, and he is wasting it by exploding midnight gasolins."

## SCOTT'S EMULSION

is now a summer as well as a winter remedy. It has the same invigorating and strength-producing effect in summer as in winter. Try it in a little cold milk or water. ALL DRUGGISTS

### THE REASON

De Quiz—Are you in favor of a safe and sane Fourth of July? De Whiz—No; let the boys have all the giant firecrackers they want. De Quiz—But such things are dangerous. De Whiz—I know it. I haven't any boys.

### TERRIBLE LIAR

Little Rube—Say, ma, Willie Green he come back from New York a awful story-teller. Mamma—What did he say? Little Rube—Why he says the Singer buildin' is higher than our new court-house.

### NOW HE IS WISE.

Mr. Shyboy—Jesse, does your sister like to see me better than she does Mr. Huggard? Jesse (aged nine)—She must, 'cause when he's in the parlor she keeps the gas so low that she can't see him at all.

### A MIDNIGHT ROBBERY.

Brown—I tell you, a man misses a whole lot by being married. Benedict—Right you are. I missed \$4.90 my wife took out of my pocket last night.

### By Exclusion.

"I've advertised for a reliable, careful chauffeur." "Do you expect to get one?" "Yes, indeed. All the reckless daredevils seem to be employed."

### Equity Notes.

At a meeting of the Golden Rod were made on the recent entertainment given by the society and although the receipts were fair the expenses were large owing to the buying and making the costumes for the Tom Thumb Wedding. The costumes will remain the property of the society and the money, \$10 will be the beginning of a fund for the Farmers rest or waiting room. This room can be made a pleasant little home for the farmer's family in town. There they can meet and talk with other farmers or with city friends on business or pleasure. The Society feels that they were fortunate in securing the valuable services of Miss Louisa Loveday to put on the entertainment and in her choice of characters for the different parts which were all well given. 50 children were trained and did their parts well. With a rising vote thanks were extended to each one of the city and country friends and to Miss Loveday for assistance to the L. S. of E.

### Foley Kidney Pills

Will reach your individual case if you have any form of kidney trouble or urinary irregularities. Try them—Hites Drug Store.

### Was Taking No Chances.

"Your case would have been much stronger, Mr. Murphy," said the lawyer whom Mr. Murphy had engaged to defend him, "if you had acted only on the defensive. But you struck first. It seems if you had let him strike first, you would have had the law on your side." "And what good would it do to have the law on my side," answered Mr. Murphy, "after I was dead? What would I care for the law on my side when Gilligan was on my stomach? It's foolish talk ye have!"

### A Gentle Tip.

They were sitting on the bathing beach at the summer resort. He was very bashful, and he had let countless opportunities slip by. "Isn't this sand wonderful?" he said, after a moment's lull in the conversation. "Wonderful!" she replied. "And just think, there is so much here going to waste which so many people need some in their systems!" Then he caught on—and caught up!—Lippincott's.

### His Right to Title.

A French paper says that a New Zealand chief had just taken up his residence upon a piece of land, his right to which was contested: "I have got an undoubted title to the property," he observed, "as I ate the preceding owner."

### A Mean Man.

"Does your husband turn his salary over to you?" "Yes," she sadly replied. "Then why are you so down-hearted?" "Oh, it doesn't do any good. He often makes a few dollars extra which he spends for his own pleasure without letting me know about it."

### Turn About.

"Every husband ought to make his bride a regular allowance from the start," said Senator Dewey at a wedding reception in New York. "This is but just," he continued, "because from the start every bride finds that she must constantly make allowances for her husband."

### Reward of Merit.

It was a rainy Sunday morning, and as Pastor Goodman looked over his congregation he saw there were just seventeen persons present. Pastor Goodman, being a wise man, did not scold them on account of their being so few in number. He gave them the best sermon he had in his barrel.

### Suitable Mental Fare.

"Young Jobbins is so fond of eating, he can't think of anything without it. So what do you suppose he did when the literature teacher told the students to make selections from noted English writers?" "What did he do?" "He selected Hogg and Lamb."

### Work and Worry.

"Worry wears out more people than work does," said the ready made philosopher. "Of course it does," replied Mr. Growcher, "for the simple reason that so many of us would rather put in our time worrying about work than doing it."

### The Obvious Reply.

"Pa," inquired William, "what is burlesque?" "A burlesque, son," replied the father, "is a take-off." "Take off what?" "Henry," interrupted the mother, who had been listening to the conversation, "if you are going to answer that question I will leave the room."—Judge.

### For Tourists' Comfort.

The French national touring office, a government feature established in Paris, is an effort to facilitate the movement of tourists in that country. All information about places of interest and routes is here available.

### He Didn't Count.

She—You say you want to marry me? He—I certainly do. "Well, have you spoken to papa?" "Why, no. It takes only two to make a bargain." "I know; but papa and I are the two."

## WHITE ROSE FLOUR

There is more White Rose sold in Northern Michigan, twice over, than any other one flour.

### WHITE ROSE BRAND

Absolutely pure. Never bleached. Just the best flour possible—White, Strong and Wholesome. Try a sack. Money back if not satisfied.

### Ancestral Pride of the Future.

"One of my forefathers was a signer of the Declaration of Independence." "That is something," replied Mrs. Votey Gumm. "But think of the proud satisfaction with which my great-great-granddaughters will point to the fact that one of their forefathers was a militant suffragette!"

### Something New.

An Irishman just from the sod was eating some old cheese, when he found, to his dismay, that it contained living inhabitants. "Be jabbers," said he, "does your cheese in this country have children?"

### AN OPEN LETTER.

Newberry, Mich., Feb. 12, 1910. Potoskey Rug Mfg. Co., A. T. Washburne, Prop. Potoskey, Mich.

Dear Sirs:—The Rugs came yesterday and are simply superb. If I could see old sinners converted and made over as new as those Rugs are I should think that perfection was reached in transforming men.

How you can do it out of such old carpets is a surprise to me. Your charges are reasonable. Your work is excellent. Your attention to patrons is commendable. And the products of your looms surpassing all our expectations.

With many thanks, we remain, Sincerely, Rev. Levi Bird, Ph. D., Pastor Newberry M. E. Church. P. S.—You are at liberty to use this letter if you care to do so. We have hundreds of such letters as above coming from nearly every state in the Union on file at our office for inspection. A. T. Washburne, Prop.
