EAST JORDAN, MICHIGAN, SATURDAY, FEBRUARY 15, 1913.

No. 7

Good Attendance

And Much Interest Shown in Teachers' Institute.

The Teachers' Institute which was held in Charlevoix February 10-11 was one of the best meetings of its kind that has ever been held in the county. The meeting was called to order promptly at 10:00 Monday morning with Dr. Fess and Prof. Laird and about ninety teachers on hand and ready for action and from that time until the meeting closed to allow the instructors to catch their train there was something doing every minute.

Prof Laird took up a line of discussion in which he reviewed the life of a child from a mental, moral and physiological condition.

He gave an exhaustive review of the cause and effect of the many attitudes of the child and the effect and proffered excuse for many of the mistakes made by the teachers in the development of the child.

He was master of the situation at all times and the teachers listened with intense interest to this great man who has made a life study of this subject and his talks certainly paved the way to a better understanding of many of the perplexing problems of the teachers of the county in the managing of the developing child in his various stages and varying moods.

Dr. Fess took up a line of historical discussion that was certainly unique and he convinced his hearers that in the matter of history he has few equals. He proved the fallacy of the old fashioned method of memory teaching of this subject and the practical value of teaching a series of related facts in regard to historical truths. His illustration of the value of the method was entertaining as well as convincing.

He first gave a list of ten words in no way related and asked the teachers to name them and said that he was not surprised that they were unable to do so. He later gave a list of fifty words each in two related to and calculated to call the next one to mind such as, boy, kite, wind, storm, etc. The list in its turn covering many subjects, each in its turn related to the other and after giving the list, took up a discussion of the subject of Government. At the end of a half hour discussion he again turned to the list of words given and the teachers were able to give the entire list of words and to their own surprise could begin at either end of the list and give them.

His character study, using incidents in the life of Horace Mann was well worth the effort made by any teacher in attending the meeting.

The evening session was in the form of a banquet in the parlors of the Congregational church where a delightful supper was served to the teachers and citizens.

Prof. Laird and Dr. Fess each gave an excellent address. Prof. Laird taking for his theme, "The Other Side." Dr. Fess following with an address which might have been styled "What is Success," though he named no definite title. No one who listened to these stirring addresses could help feeling a new interest in their fellowmen.

A pleasing incident took place during the time that the Commissioner took to urge upon the teachers the necessity that the teachers co-operate in the matter of securing an educational building on the fair grounds.

The Commissioner asked the question, "How many of the schools are taking interest in this matter?" Ernest Pessien of the Three Bells School in Evette Twp. arose and said, "Our school is taking an interest in this matter and we are here to deliver the goods." He stepped forward and handed the Commissioner a note which read as follows:

East Jordan, Mich., Feb. 10, '13
The Three Bells School, Evette agrees to pay the Charlevoix Co. Fair Association the sum of Ten Dollars, same to be used in the erection of an Educational and Fifth Arts Building. This note shall be due and payable on Sept. 1, 1913. It is understood that if said building is not at that time completed, this note shall become void. Signed,
BEVYL McDONALD, Sec'y of School
ERNEST PESSIEN, Teacher
F. H. WANSERMAN, Director
DAVID GAUNT, Moderator.

Teachers from all parts of the county are taking an interest in this

RECITAL, TUESDAY

To Be Given for Sweet Charity's Sake.

At the Temple Theatre next Tuesday evening Miss Louise E. Loveday will present the poetic drama—"The Piper"—by Josephine Peabody, donating her services—as will also the Metropole Orchestra—for the benefit of Charity. The proceeds will be distributed through the medium of the Presbyterian and Methodist Ladies Aid Societies.

Regarding the play, Sir Edward Russell in the Liverpool Post says:—"Scarcely any praise can be too high for it, there has been no such beautiful child play for many years. Perhaps there never was one so beautiful."

General Admission 25 cents; children under 12 years, 15 cents. First twelve rows reserved 10 cents extra. Seats on sale at Mack's. Curtain rises at 8:15 p. m.

matter and we are assured that the building will be built.

The teachers were united in the opinion that this was one of the most valuable meetings that has been held in the county.

Supt. Northon of East Jordan, Miss Himes of Charlevoix, and Mrs. Madon of Boyne City acted as a committee on resolutions and submitted the following report which was adopted:

Whereas the National Educational Association and the Mich. State Teacher's Association have endorsed equal suffrage for men and women, and

Whereas, the work of instructing the youth of our land in the duties of citizenship devolves largely upon women teachers, therefore, be it resolved That we favor the early re-submission of the amendment to the constitution granting suffrage to women.

Resolved further that we favor a compulsory free text book law and are opposed to legislation leading to State Uniformity of text books.

Resolved that a copy of these resolutions be transmitted to our Senator and Representative at Lansing and that they be published in the newspapers of the county.

The Teachers' Pension Bill stirred up considerable discussion and it was decided that the best thing to do would be to become thoroughly acquainted with the provisions of the present pending bill and to acquaint our representatives as to the wishes of the teachers of the county.

To this end a resolution was passed that if possible the Commissioner secure and mail to the teachers a copy of the bill.

J. H. MILFORD, Commissioner.

John Levi Palmer.

John Levi Palmer was born in Northport, Mich. June 1st 1894, and departed this life at East Jordan, Mich. February 7th, 1913, being past 18 years of age. He was the son of Mr. and Mrs. Jerry Palmer who with three sisters Evelyn, Tillie, and Annie and three brothers Ralph, Julius, and Clarence, and many friends are left to mourn his loss. He was a great home boy and had been in poor health for some time. He was a member of the Norwegian Lutheran Church.

The funeral took place on Tuesday morning and was conducted at the Methodist Episcopal Church by the pastor, Rev. T. Porter Bennett. Interment at East Jordan.

Many a man neglects his own chances while figuring out what he would do if he had another.

KELLY'S COLORED CARNIVAL

Day after day we read of this or that company going to the wall for lack of patronage the answer is, the manager of those companies is not a show man. Give the public what they want and they will pay to see it, is the motto of Thos. P. Kelly, manager of that funny Colored Carnival and Genuine Georgia Minstrel Show that comes to the Temple Theatre, for just one jolly night Friday, February 21st. In speaking of this company the Springfield Daily Journal of September 6th says:—"From the moment the curtain went up on the big handsome, beautifully dressed first quart till the finale of the spenzy roaring comedy 'The United order of possum catchers,' there was not a gap in the bill. The comedians, the end men, the handsome southern creoles, the splendid solo singers, the champion buck and wing dancers, the light stepping fancy cakewalkers, the marvelous European novelty acts, the grand concert orchestra all worked in perfect unison and gave a show that made two dollar shows look cheap." For a real night's fun see Kelly's Colored Carnival. Buy your seats early at Mack's. Don't forget the date next Friday February 21st.

Beaver Island which is in the northern end of Lake Michigan, and is part of Charlevoix county, is being developed as a fruit section. The island is about as large as two government townships. The southern two-thirds of the island has a soil that is rich in available plant food, and this fertile land is being taken over for orchard purposes. In 1912 seven thousand fruit trees were set out and the coming year fully twice that number will be set. These trees are apples, peaches, cherries and pears. Eventually the greater part of the island will be the big orchard. The average temperature on the island is several degrees above that for the mainland for winter and several degrees below for summer, which fact is important for fruit growing.

A BIG ORCHARD STARTED.

When you are offered anything free look for the strings.
It's a poor law that won't work five or six ways in the hands of a skillful lawyer.
Even a whispered call to duty can be heard by a deaf man if the salary is sufficient.

To the Electors of East Jordan.

I hereby announce my candidacy for the nomination of Mayor of East Jordan, subject to the approval of the voters at the City primary, to be held March 24, 1913, and if nominated and elected will give my best endeavors to perform the duties with care, and in a manner satisfactory to the people.
A. E. CROSS.
Dated, Jan. 28, 1913.

Special Assessment Notice.

The second installment of taxes on Sewer District number one is now due and should be paid at this office at once.
C. C. MACK,
City Treasurer.

Making Seed Contracts.

The Everett B. Clark Seed Co. are contracting for growing of beans for the coming season. Full contract price paid for every bushel of merchantable beans, nothing deducted from price for handpicking. Your seed is charged up at the contract price, not at the market price. Call at their office on address.
A. E. CROSS, SUP'T.
East Jordan, Mich.

Cucumber Acreage Wanted

The Williams Bros. Co. are now ready to make contracts for growing cucumbers. If interested call at STROEBEL BROS. or address JOHN HARTT, East Jordan, Mich.

J. Leahy Coming.

Tuesday, February 25th is the date when J. Leahy, the Optometrist, will be at the Russell House one day only. Headache cured, crossed eyes straightened. Fitting children's eyes a specialty. Glasses guaranteed to fit.

New Supply of REXALL Remedies

We have just received a new shipment of Rexall Remedies and can now supply your wants.

A FEW OF THE LEADERS:

- Rexall Orderlies, 10, 25 and 50 cent sizes.
- Rexall Liver Salts, 25c, 50c
- Rexall Dyspepsia Tablets
- Rexall "93" Hair Tonic
- Rexall Catarrh Jelly
- Rexall Grippe Pills
- Rexall Cold Tablets
- Rexall Cherry Bark Cough Syrup

The Above are only a few of these valuable remedies. Remember, we guarantee every remedy.

Ask our customers who have used them.

W. C. SPRING DRUG CO.

When Burton Holmes recently gave his celebrated travelogue on "Panama" at Orchestra Hall, Chicago, he was seriously interrupted by continual coughing of the audience. No one annoys willingly and if people with coughs, colds, hoarseness and tickling in throat would use Foley's Honey & Tar Compound, they could quickly cure their coughs and colds and avoid this annoyance. HITES DRUG STORE

THE SEASON FOR BUCKWHEAT CAKES IS HERE AGAIN. This year's crop is of fine quality and we are making the same old-fashioned Stone Ground Absolutely Pure Flour. It's Got the Flavor. Don't let your dealer substitute any of the mixed compounds that the Pure Food Law still allows; insist on the PURE STONE GROUND—it is cheaper in the end. Made by The ARGO MILLING CO. At Mill B, East Jordan.

East Jordan Planing Mills Co., B. E. WATERMAN, Manager. Custom Planing Mill. Manufacturers and Dealers in Doors, Windows and Glass, Siding, Ceiling and Flooring Mouldings, Turned Work, and Scroll Sawing. FINISHED LUMBER, FRAMES, CASINGS

Burpee, Philadelphia, is sufficient for the front of a post card. If you will write your own address plainly on the other side we shall be pleased to send THE LEADING AMERICAN SEED CATALOG—an elegant book of 160 pages, which should be read by all who would have the best garden possible and who are willing to pay a fair price for seeds of the Burpee-Quality

Some New Things in HATS

The Kind That Are Going To Be Worn This Season.

Introducing Model N. P.

YOU who have closely followed development in the trade in recent seasons realize that it was our Model DeLuxe which revolutionised cap fashions; last season our Model H was the leader and this spring it will be our Model N. P. which will be the vogue for caps. You know we speak with authority—get in touch with us.

We are sole agents for the well-known Rathoff Caps, 50c, 75c, \$1.00 Royal Hats, \$2.50 and \$3.00 Majestic, \$1.50 to \$2.25.

"QUALITY FIRST OF ALL."
FRED E. BOOSINGER

RULES OF LONGEVITY.

Several veterans of note have recently given advice as to the mode of living that insures longevity. Nothing new has been added to the familiar set of rules. Simplicity, moderation, fresh air, exercise, healthful occupation for body and mind, avoidance of worry—these are the things usually and properly recommended. How much sleep one needs, whether tobacco should be wholly eschewed, are among the open questions, but it is surprising how few questions are really open in connection with the subject of longevity. According to recent German statistics, Europe has about 7,000 persons who have passed the one hundredth year. They are distributed as follows: Bulgaria, about 4,000 centenarians; Roumania, over 1,000; Serbia, 513; Spain, 410; France, 213; Italy, 197; England, 92; Germany, 76, etc. The meaning of these figures is clear. The simpler and more natural the life of a nation the more centenarians it is likely to have. It is worry, artificiality, excess, congestion and the disease of such a condition to which the shortening of life is to be attributed. We cannot all go back to nature; we cannot all live on land and by land; but we can all profit by the moral of the figures above given, to some extent at any rate. Simpler living, hygienic living, and the cultivation of a patient and a hopeful spirit are possible to most of us. The very poor and submerged present a problem everywhere, but it is true that worry is more fatal than extreme poverty.

In an effort to cut down the cost of litigation, prevent swollen records, avoid duplications and bring about reform in the matter of delays, new rules of practice have been formulated by the United States Supreme court, some of them being taken almost bodily from England. It is fifty years since revision was attempted, and some of the rules "imported" are described as revolutionary. Hereafter, testimony may be printed in narrative form instead of by question and answer, and counsel will run the risk of being fined for cumbering the records in equity proceedings. Other innovations of equal moment are provided for, and that the work has been thoroughly done is altogether likely, seeing that Chief Justice White and two of his associates have been active as a revision committee for more than a year. They were confronted by a thick growth of cobwebs. The spider may object, but the fly will not.

"Has the old man a right to live?" A medical research society in St. Louis recently discussed the question. The principal speaker stated that old men were being poisoned with a long administered course of indifference, neglect and filial disrespect. He believed that the man who does not honor his father and mother cares little for his moral obligations to them, but he does fear that some day his friends will find out and that he will be put in the class in which he belongs. This man never wishes his friends to know that the old man who wears shabby clothes and sleeps in the garret is his father. When a man makes a debt the laws of the land enforce its payment. But no law makes the man with money in the bank pay the debt he owes his old and needy father. The son should do his duty willingly. If he will not, there should be a law to compel him.

According to Professor Cambourgon of Athens the tune of "God Save the King" is one of the oldest we have. Six years ago the professor discovered among the manuscripts in the National library of Greece, the words and music of an anthem composed in 1457 in honor of Emperor Constantine Paleologos, says the London Chronicle. The anthem opens with the line, "Long may our sovereign reign," repeated three times. The musical notation is of an obsolete type and had to be transcribed by an expert in ancient music. It was then found that the tune of the fifteenth century anthem is almost identical with that of "God Save the King."

Spinners in Massachusetts are reported to have organized a club to induce eligible bachelors to call on them—object not necessary to state. Yet such is the contrary of poor human nature that if it were announced to be a club to drive them away, it would be more likely to bring them there in crowds.

The discovery of dictum that 1,000 volts of electricity is equal in food value to a porterhouse steak omits the crucial point of information, how much it costs per volt. And is not a thousand volts at once a slightly indigestible meal?

Deep-sea explorers have found the link that binds Australia to the Antarctic continent. Now if some daring discoverer could only bring to light the link that tied New York into the United States!

WINTER WORK TO ERADICATE INJURIOUS SAN JOSE SCALE AND OTHER TREE PESTS

Lime-Sulphur, Kerosene Emulsion and Whale Oil Soap Is Recommended by Entomologist of Oregon Agricultural College—Any Time From November to March Will Be Satisfactory.

Searching for Harmful Insects.

Farmers and fruit growers troubled by scale are advised by A. L. Lovett, assistant entomologist at the Oregon Agricultural college, to spray with lime-sulphur, kerosene emulsion and whale oil soap, as follows: For scale insects of such a type as the San Jose, use the lime-sulphate spray of winter strength. For the soft scales, such as occur on the blackberry, prune and plum, use the kerosene emulsion or whale oil soap. Kerosene emulsion is prepared as follows: Heat a gallon of water (soft, if possible) to boiling; shave half a pound of soap into it (whale oil is preferred) and stir till the soap is dissolved. Remove from the fire and add two gallons of kerosene. Agitate vigorously till it is creamed, which is best done with a hand pump, forcing the solution through the hose and back into the container. For use in the dormant season this should be diluted with seven gallons of water, but for summer spraying, at the time the young emerge, with eleven gallons of water. A pound of whale oil soap to four gallons of water may be used as a summer spray for soft scale.

For plant lice on roses and garden truck crops any of the tobacco solutions may be used. For plants having a slick foliage, or where the aphids are especially bad, there should be added a pound of fish-oil soap dissolved in a gallon of hot water to each eight gallons of the spray. On fruit trees, as the apple and peach, the spray used in early spring when the buds are starting should be a combination of winter-strength lime-sulphur and "Black leaf 40," using one part of the Black leaf to

800 of solution. If applied ordinarily by scale are not become especially bad. Where the trouble is severe the tobacco solution should be used.

As the San Jose scale is an armored insect protected by a waxy covering, very caustic material must be used in its control. In order not to injure the tree this material must be applied while the trees are dormant. Hence all spraying for the scale must be done during the winter months. Any time when the weather permits from November to March will be satisfactory.

The commercial lime sulphur should be diluted at the rate of one gallon to nine of water and the home made solution diluted at the rate of one gallon to six of water. Both spray solutions will then test about 4.5 degrees Baume on the hydrometer.

As the lime-sulphur solution is a contact insecticide, every portion of the tree should be coated. If the scales are to be killed they must be struck with the spray solution. Great care should be exercised in the application of the material, as those scales not killed can reinfest the whole tree in one season.

Contrary to popular belief, the San Jose scale is not the hardest pest to control which infests the orchard. Proper material applied at the proper time and in the proper way will kill 90 per cent of the insects. Either purchase a good brand of commercial lime-sulphur or carefully make your own and then apply it conscientiously and you will be able to save your home-orchards from destruction by the pestiferous and injurious San Jose scale.

LABOR SAVER IN PULLING A POST

Strong and Inexpensive Implementation Can Be Made From Discarded Tongue.

(By G. F. PARRISH.) A good post puller can be made of a strong tongue from some discarded farm machine. A strap of five-eighths iron is made into a heavy claw at one end and bolted on the tongue so that the claw projects beyond the end of the tongue. A heavy ring with a stout chain attached is also a part of the outfit. The ring is put over the post down to the ground. The claws are

caught under a link of the chain and a block put under the pole as a fulcrum. This leverage will raise the post with very little effort. Every farm ought to have such a lifter. The parts should be solid and strong, for the strain is tremendous.

Good Grass Mixture. Orchard grass makes a better mixture with clover than timothy does.

DISASTER SEEN IN SINGLE-CROP IDEA

Fruit Specialist Would Find It More Profitable to Keep Some Live Stock.

(By R. G. WEATHERSTONE.) Single crop farming is disastrous in the long run, as we have seen in the case of wheat, tobacco, peanuts and cotton. Fruit is no exception to the rule. I believe there is a tendency to specialize too highly in fruit growing, and that in many cases the fruit specialist would find it more profitable to grow a certain amount of other crops or keep some live stock. He should make fruit growing his main business, but select such other interests as will most affectively fill in the gaps that appear in all kinds of specialized farming. Even though the crops he selects may not in themselves be nearly as profitable as fruit, yet the total profit from the farm for a series of years may be greater, since labor and equipment are kept in use. Some lines of live stock farming are preferable to others because of the fertility the manure brings. Certain lines of stock husbandry in which the animals are fed in winter and pastured in summer are practicable in some cases.

A Bare Field. A bare field in winter is like money in the bank that isn't drawing interest.

Social Forms and Entertainments

A Conundrum Luncheon. I am anxious to entertain for a school teacher who is coming to the city for a week's vacation. Can you suggest something to do at the table, something like "nuts to crack," only I do not want to do the questions up in walnut shells.—Rowena.

I should think this conundrum luncheon would be just what you want. For the centerpiece have a large interrogation point of small flowers—a tinsmith will make the form, which may be filled with sand and the flowers have the appearance of growing. The name cards should also be question marks cut from cardboard. Any color that you select should be carried out in the place cards and the covers of the little booklets which contain the conundrums. For ornamentation draw the figure of an owl sitting on the branch of a tree and a large interrogation point.

Specimens of the questions are given below, but, of course, you may have others you wish to add:

When is it easy to read in the woods? When autumn turns the leaves.

Why are the western prairies flat? Because the sun sets on them every night.

Which is the largest room in the world? Room for improvement.

When is a cup like a cat? When your teasin' it.

Why is it dangerous to walk abroad in the springtime? Because the grass is putting forth blades, every flower has a pistil, the trees are shooting and the bullrushes are out.

Why is a washerwoman the greatest traveler on record? Because she crosses the line and goes from pole to pole.

If you throw a stone that is white into the Red sea, what will it become? Wet.

What is the difference between a duck that has one wing and one that has two? Merely a difference of a pinion.

Why is a schoolboy being flogged like your eye? Because he's a pupil under the lash.

Why doesn't Sweden send her cattle abroad? Because she keeps her Stockholm.

What is the difference between a clock and a partnership? When a clock is wound up it goes; when a firm is wound up it stops.

What belongs to yourself and is used by your friends more than yourself? Your name.

What is the center of gravity? The letter V.

Pretty Party Gown. Will you please suggest some inexpensive material for an evening dress, something to wear to the concert, the theater and such like? Would a fine quality of cotton crepe made up daintily be all right? I do not have occasion very often to wear such a dress, but when I do I need it. Would it be asking too much to ask you to suggest also some dainty way of making such a dress for a seventeen-year-old girl? I will watch the Sunday paper for your reply.—Nellie.

Instead of the cotton crepe I would suggest a marquisette of white over a white or colored silk slip made after any girlish pattern to be found in an up-to-date, reliable fashion magazine. You will find this very serviceable. Trim with lace and a dainty sash. I hope I am not too late. It was impossible to reply before.

Watch the Department. I am much interested in your column in the Sunday paper and am coming to you for advice. Please print as soon as possible some games to be used at an evening party of young men and women. Are "charades" popular? Thanking you in advance.—Kitten.

If you will send me a self-addressed, stamped envelope in care of this paper I think I can put you in line to get some party amusement ideas. Charades are always good fun, either impromptu or planned beforehand. Glad you enjoy the column.

Acknowledging Reception Invitations. Is an answer necessary when you are invited to a reception?—F. S.

The latest books on etiquette say that a card sent to arrive on the day of the reception should act as a "regret" and if you go no acceptance is required beforehand. I think, however, that it does no harm to send an acceptance or if you see the hostess tell her you expect to be there.

Placing the Wedding Ring. Upon which finger should the wedding ring be placed?—Country Lass.

The finger next to the little one on the left hand is the one from time immemorial called the "wedding ring finger."

MADAME MERRI.

BEST FOR THE HAIR PREPARING FOR THE WORK OF 1913

Simple Shampoo Mixtures That Can Do No Harm.

Soap Jelly Mixed With Eggs Is Always the Staple—Blonde Tresses Frequently Require Special Treatment.

There are almost as many formulas printed for shampoo mixtures as for face creams. Some of these are excellent, and others possess no special cleansing properties, while some are positively injurious and should never be experimented with. Here are a few formulas selected from a long list, and we can select from them according to our special needs.

Three eggs lightly beaten with three tablespoons of warm water. Rub the mixture into the hair and on the scalp, taking pains to cleanse quite as thoroughly as though you were using a soap shampoo. More eggs can be used if necessary, but the proportion of water should be a tablespoon to each egg. If the odor of the eggs is unpleasant to you, a little toilet water can be put in a half pint of cold water and poured over the hair after the last rinsing.

An egg shampoo with soap jelly is sometimes more satisfactory than eggs alone, and the general rule is to use one teaspoonful of soap jelly to each egg, mixing them well; then fill a basin with two quarts of hot water, hold the head over it and suds the hair well with the egg mixture, using the water from the basin to assist in the cleansing; rinse in several waters—and dry in the sun.

For blonde hair the following is advised: The whites of two eggs, four ounces of rose water, a half ounce alcohol and a level teaspoonful of powdered borax. Rub into the hair as you would any other shampoo, cleansing both hair and scalp, and rinse well in several waters.

A simple shampoo consists of a half cup of olive oil soap, a level teaspoonful of baking soda and a generous pint of hot water. Let stand till cold when it will be a soft jelly. Wet the hair first with warm water, and shampoo with the jelly.

For very oily, dirty hair, take a tablespoon of green soap and dissolve it in one pint of hot water by constant stirring. Add a half ounce of glycerine and an ounce of alcohol. This is excellent where there is thick dandruff, as it is very cleansing to the scalp.

White hair is said to be greatly benefited by a shampoo composed of a small cup of shaved white soap in one and a half pints of boiling water, and when dissolved add a half pint of bay rum, a teaspoonful powdered borax and 20 grains bisulphate of quinine. Keep in a glass jar. A few drops of laundry bluing in the last rinse water will help to prevent the yellow streaks which spoil many an otherwise snowy "crown of glory."

No matter which shampoo mixture you select, remember that the secret of successful shampooing consists of thoroughness in the washing and in the rinsing also. Three times for the sudsing are none too many, and the last rinsing should be very moderate. If the washing and rinsing are properly done, the hair will be soft, glossy and quickly dried. Carelessness in the cleansing process is responsible when the hair is sticky, hard to dry and hard to comb.

Artificial heat should not be used to dry the hair. Sunshine and fresh air are best and the hair will retain its health and vitality much longer if dried in the sun. A few moments' brisk brushing is good, but the hair should never be pulled or the scalp irritated.

Hannah.—Probably the fault with your figure is due to the fact that you do not keep your chest up in position. When the chest is held well up the shoulders remain in their natural position and a rounded back is not possible. Try lifting your chest up as if you were trying to bring it up to your chin, and do this whenever you think about it. Take a half dozen deep breaths also, several times a day, and you will be able to gradually overcome the tendency to drooping shoulders.

Jennie W. L.—A good, nourishing cream is necessary for the massage. Not only for its beneficial effect on the skin, but also to aid the fingers in their work, as the constant friction would be likely to cause irritation. Only the best cream should be used, and an excellent method is to follow the massage with a cloth dipped in quite cold water and held against the face for a few minutes, after which the skin should be gently patted dry.

New Reader.—Shampooing the hair cannot cause the least harm to either hair or scalp, no matter how frequently it is indulged in, provided the proper ingredients are used in the shampoo preparation. Once a week is not too often, if the hair gets very dirty and the scalp needs cleansing. A preparation which is strong enough to dry out the natural oil and make the hair dry and harsh should not be used even once a year. You are welcome to the formula for a good shampoo mixture.

Sophia.—Have you tried the quick cold sponge bath in the morning to help overcome the feeling of lassitude you complain of? I believe it will prove of immediate benefit. Ten minutes is sufficient time for the entire bath, with the brisk rubbing afterward, and I am sure you will find it just what you need. (Copyright, 1912, by Universal Press Syndicate.)

CITY BUILDING, RAILWAY BUILDING AND FARM OPERATIONS IN WESTERN CANADA, BIGGEST EVER.

The machinery, the money and the men for carrying on the big works in Western Canada in 1913 are already provided for. The splendid harvest which was successfully garnered, and by this time mostly marketed, responded to the big hopes that were had for it, early in the season, and inspired capitalists and "railroads" to further investment and building. From lake ports to mountain base there will be carried on the biggest operations in city building and railway construction that has ever taken place in that country. The Canadian Pacific railway has everything in waiting to continue their great work of double tracking the system and by the time the Panama Canal is open to traffic there will be a double line of steel from Lake Superior to the Pacific coast. The cost will exceed thirty million dollars. The Grand Trunk Pacific plan of building a first-class trunk line and then feeders at various points will be carried forward with all the force that great company can put into the work. The Canadian Northern is prepared to put into motion all the energy that young giant of finance and railroad building can put into various enterprises of providing and creating transportation facilities.

Building operations in the several cities, that have already marked themselves a place in the list of successful and growing cities, will be carried on more largely than ever. Schools, public buildings, parliament buildings, colleges, business blocks, apartments, private residences, banks, street and other municipal improvements have their appropriation ready, and the record of 1913 will be something wonderful. Other places which are towns today will make the rapid strides that are expected and will become cities. There will be other Edmonton, Calgary, Regina, and Saskatoon, other places that may in their activity help to convince the outer world of the solidity and permanency of the Canadian West. The country is large and wide and broad and the ends of its great width and length are but the limits of its agricultural area. Its people are progressive, they are strong, there is no emigration there. The country teems with this life, this ambition, this fondness to create and to use the forces that await the settler. If they come from the South, and hundreds of thousands of them have, they are now the dominant men of the North, and they have imbibed of the spirit of the North. Therefore it is fair to say that no portion of the continent will show such wonderful results as Western Canada, and the year 1913 will be but the beginning of a wonderful and great future. And in this future the 200,000 Americans who made it their home, and those who preceded them, will be a considerable portion of the machinery that will be used in bringing about the results predicted.

The development of 1913 will not be confined to the prairie provinces. Railway-building and city building in British Columbia will be supplemented by the farm, the ranch and the orchard building of that province. Vancouver will make great strides in building, and Victoria, the staid old lady of so many years, has already shown signs of modern ways; and if the progress made in 1912 may be accepted as anything like what it will be in 1913, there will be wonderful developments there. During last year the permits went over the ten million dollar mark and much more is promised for the year now entered upon.—Advertisement.

Collecting Antiquities. Slopy received a card on which was engraved: "Professor Bruce, Antiquarian."

He knew no such person, so his curiosity led him to receive him.

"What is your business, professor?" he asked politely.

"I am a collector of antiquities," answered the old man.

"So I imagined. And how can I serve you?"

"By paying a deposit on this little bill you have owed for more than three years."

Took Load Off Mother's Mind. Six-year-old Dora returned unusually early from school the other day. She rang the door bell. There was no answer. She rang again, a little longer. Still there was no response. A third time she pushed the button, long and hard. Nobody came to the door. Then she pressed her nose against the window screen and in a shrill voice, which carried to the ears of every neighbor on the block, called: "It's all right, mamma. I ain't the installment man!"

Spoiled Her Secret. "My first husband and I kept our marriage a secret for nearly a year." "Didn't you find it rather difficult?" "Oh, no, not at all. We could have gone on for a much longer time if the horrible reporters hadn't been snooping around when I applied for my divorce."

Wizard of Finance. "Would you stick to your husband if he stole a million dollars?" "If he succeeded in keeping it."

Briefs of the Week

The Retail Dealers' Ass'n at a meeting last of the week, decided to affiliate with the State organization.

The local parcels post handled a unique package one day this week—the package containing a live alligator.

All taxes are now past due and must be paid at the City Treasurer's office on or before the last day of this month.

Business at the postoffice is booming. Thursday night's late train brought twenty-six sacks of mail for the local office.

Horace B. Hipp of this city and G. D. Hammond of Charlevoix have filed petitions for the republican nomination for county road commissioner.

The Herald is in receipt of a pleasant line from Dr. J. A. Macgregor formerly of this city and now located at Dwight, Ill., where he is Superintendent of the Keeley Institute at that place.

At the meeting of our Board of Trade, held first of the week, E. A. Brintnall was elected secretary and Geo. G. Glenn, treasurer. Several matters of importance were gone over by the board.

Joseph Votruba died at the County Farm on Tuesday morning. He was eighty four years old. He leaves a son and daughter residing near this city. Funeral took place from the church in the Bohemian Settlement.

The many East Jordan friends of Miss Louise E. Loveday will be glad of the opportunity of hearing her in recital again. At the Temple Theatre next Tuesday evening she will give an interpretation of Josephine Peabody's "The Piper," for the benefit of local charity.

Acting upon the appeal of several of his friends, E. A. Hoyt has decided to become a candidate for Mayor of our city at the spring primary. This gives our city two able candidates for the office—A. E. Cross previously announcing himself—and our citizens cannot go wrong on selecting either of them for the office.

That the New Educational and Fine Arts Building of the Charlevoix County Fair Association is meeting with hearty approval was evinced at the County Teachers' Institute held at Charlevoix first of the week. The Three Bells School presented a promise note for ten dollars, to be used in the erection of above building and signed by the officers and teacher of that school.

What promised to be a bad fire was nipped in the bud Friday morning when the roof of the West Side school house ignited from a flying spark. The fire department responded promptly to the alarm and had considerable trouble extinguishing the blaze which had worked under the roof. However the damage, a small and school sessions will be resumed in the building next Monday morning.

Andrew Johnson, a man about sixty years of age, was killed by a D. & C. R. E. freight near Alba, Wednesday afternoon. He was walking on the track east of Alba near the gravel pit when one of the log trains approached him. Both the whistle and bell on the locomotive were used to warn him, but he evidently did not hear until the train was nearly upon him when he tried to get out of the way. His skull was fractured and he died at once. The remains were taken to Alba where considerable difficulty was experienced in identifying him. His home was in Grand Rapids.

R. O. Blabe is a Saginaw business visitor this week.

Mrs. W. G. Fortune is convalescing from her recent severe illness.

Miss Flora Simmons is assisting at W. P. Squire's office as stenographer.

Dr. C. H. Pray and family are guests of Manganese friends over Sunday.

Mrs. Harry Stone of Minneapolis is guest of Mrs. W. A. Stone and family for a short time.

Mr. and Mrs. O. P. Scott are visiting relatives and friends at Crystal, Mich., for a short time.

Miss Emelle Bliss, a cousin of the late Mrs. Madison, is guest at the home of L. C. Madison.

Mrs. J. S. Junget is here from Shelton, Conn., guest of her parents, Mr. and Mrs. L. A. Hoyt.

Mrs. A. E. Cross returned home Tuesday from Mt. Pleasant where she has been visiting her daughter.

Mrs. E. Gleason was called to Lapeer by the death of her father last week. She returned home Thursday.

Supt. of Poor A. E. Cross was at Charlevoix Friday, attending the monthly meeting of the Superintendents.

Mrs. E. N. Clink left Thursday for California where she will be guest of her son Archie and family for several months.

District Manager E. J. Hollihan of the Michigan State Telephone Co., was an East Jordan business visitor, Thursday.

The Ladies Improvement Club met with Mrs. F. E. Boosinger, Tuesday afternoon. An excellent program was enjoyed.

Mrs. Charles Bedell of Manitowoc, Wis., returned to her home first of the week accompanied by her father Albert Steele.

Mr. and Mrs. George Lavalley, Sr., were called to Traverse City last Saturday by the serious illness of the latter's brother.

Mr. and Mrs. Chas. A. Hudson returned home from Grand Rapids Wednesday evening. Mr. Hudson is much improved in health.

Social Dancing Club held another of their enjoyable parties Thursday night. Horst's Orchestra of Traverse City furnished the music.

Paul E. Schnelle returned home from South Bend, Ind., the past week where he has been on a combined business and pleasure trip.

"We do not ever remember to have seen anything upon the stage in this country or the continent so deserving of preservation as "The Piper," London Academy.

Miss Marie Supernant was home from Provemont over Sunday. Her father, Wm. Supernant, accompanied her on Monday to Traverse City where he visited friends.

A flying piece of barrel heading struck Roy Bayliss in one of his eyes, Friday morning, while employed at the Cooperage plant. The wound necessitated treatment by a physician.

Presbyterian Missionary Society elected the following officers at their meeting Friday afternoon:—President Mrs. Jamison; vice-president, Mrs. F. E. Boosinger; secretary, Mrs. D. H. Fitch; ass't secretary, Mrs. R. Supernant; treasurer, Mrs. Frank Breitz; literature secretary, Mrs. A. D. Grigsby.

On Thursday afternoon a quiet wedding took place at the home of Mr. and Mrs. Benj. St. John when the latter's sister, Miss Sibly Eliecy, was united in marriage to Thomas Thompson. Rev. T. Porter Bennett, Methodist minister performed the ceremony. The young people will make their residence at East Jordan.

A recent issue of the Christian Science Monitor contains a fine half-tone view of East Jordan, (east side) with the following comment: "EAST JORDAN, MICH.—Beautifully situated at head of south arm of Pine Lake, with streets paralleling shore on natural terraces giving residents views of lake and valleys. In Charlevoix county, western Michigan. Population, 3000. Commission form of government. Shipping facilities over three railroads and deep water. Seventeen manufacturing industries, water works, electric lighting, cement works, paved business streets, two banks, Rich valley produces excellent fruits, vegetables, grass and grain." As the above publication is of international fame and has a circulation equal if not greater than any of the big dailies the article is of considerable value to our city.

Born to Mr. and Mrs. Ed. Moore a daughter, Feb. 1st.

Archie Mengies will spend Sunday with relatives at Gaylord.

Joe Lalonde was a Boyne City business visitor this week.

Mrs. H. Swafford is slowly recovering from her serious illness.

Pros. Atty Fitch is at Charlevoix on legal business this week.

F. B. Kowalske is able to be about again after his serious illness.

Born to Mr. and Mrs. Howard Reynolds a son, Friday, February 7th.

Archie Kowalske is now express and baggage man on the D. & C. R. E.

Henry Richard of Bellaire was an East Jordan business visitor, Tuesday.

Mrs. F. P. Ramsey was a Central Lake business visitor, Wednesday.

Born to Mr. and Mrs. Samuel Richardson a daughter, Friday, February 7th.

Lawrence Lemieux is now employed in the freight office of the D. & C. R. E.

L. M. McLoch of Boyne City was an East Jordan business visitor Wednesday.

Harley Gilman left first of the week for Goldsboro, Md., where he has a position.

Henry Hall of Boyne City was an East Jordan business visitor last of the week.

Mrs. Fanule Knudson of near Ironton was guest of her brother, Robert, this week.

The Pythian Sisters gave a Masquerade party last evening at the Pythian Hall.

Mrs. Mosley of Mt. Pleasant is guest of Mr. and Mrs. D. P. Mc Guirk for a short time.

Atty E. N. Clink was a Traverse City business visitor Thursday, and at Charlevoix, Friday.

Miss Marjorie Lemieux is assisting at E. N. Clink's law office during her spare hours from school.

Mrs. A. K. Ostrander, who has been at a Detroit hospital, returned home Friday much improved in health.

Mrs. H. Rosenthal with son left Wednesday for Chicago where she will visit her parents for a month.

Mrs. Harry Sloan was here from Deward this week guest of her parents, Mr. and Mrs. W. G. Fortune.

A. Danto left Tuesday for Chicago where he visits friends and makes his spring and summer stock purchases.

Miss Emma Severance who has been visiting friends in Lansing and Detroit, returned home, Thursday.

Misses Mae Stuhlman and Ethel Brintnall attended the Teachers' Institute at Charlevoix, first of the week.

All taxes are now past due and must be paid at the City Treasurer's office on or before the last day of this month.

Special business and initiation of the Rebecah Lodge next Wednesday evening, Feb. 19. All members please attend. Sec'y.

Miss Agnes Senecal, who has been guest of her sister Miss Genevieve, and Mrs. Bert Wilhelm, returned home to Calumet Tuesday, going by way of Ste Marie where she visits friends.

Methodist Ladies Aid will hold their next meeting Wednesday, Feb. 19th at the home of Mrs. Wright Carr, on upper Main St. Mrs. Edna Blair will assist. Every member attend. Visitors welcome.

Edward Fortune and wife of Ludington and William Fortune and family of Onaway were called here last Saturday by the serious illness of Mrs. W. G. Fortune. They returned to their homes, Tuesday.

Mrs. E. N. Clink was pleasantly surprised Saturday evening by the Pythian Sisters. All enjoyed the pot-luck lunch and the "make yourself at home" feeling always enjoyed at the home of the hostess.

Selden P. Detaney, Dean of All Saints' Cathedral, Milwaukee, says of Miss Loveday's work:—I am glad to testify to the ability of Miss Louise Loveday as a public reader. She gave several readings here two years ago and gave much satisfaction. She is a conscientious worker and deserves success."

The W. C. T. U. will hold its next regular meeting, Friday February 21st at 2:30 P. M. with Mrs. Wm. Howard. Leaders, Mesdames Grigsby and Bennett. Devotional, led by Rev. T. P. Bennett; roll call, minutes, business, etc. Reading, Selected, Mrs. Joynt; Vocal Solo, Mrs. A. E. Kowalske, Recitation, Grade Howard; Vocal Solo, Oscar Bennett. A ten-cent tea will be served by the hostess. Visitors welcome; members are expected to be present.

Bert Reid was an Alba business visitor, Thursday.

H. Frazer is a Detroit business visitor this week.

Joe Lavally is guest of Detroit friends this week.

Fritz Bauman is guest of Chicago friends this week.

Bert Wilhelm was a Boyne City business visitor this week.

Charles Burch and wife are guest of Bellaire friends this week.

Mrs. Harry Moffat and son were Deward visitors over Sunday.

V. G. Holbeck is a Detroit and Lansing business visitor this week.

Mrs. Chris Huggard is confined to her home with the grippe this week.

Mrs. W. M. Spence from Echo was guest of her son, R. N. and wife, this week.

Mrs. C. Bulow is among those confined to her home with illness this week.

Mrs. R. N. Spence, who has been on the sick list, is able to be out again.

Mrs. Jesse Allen entertained the Electa Club Thursday afternoon at her home on Estery St.

Mesdames Elias Bowman and Ed. Price were guests at the Martin Ruhling home Wednesday.

Mrs. Roy Webster entertained a number of young friends to a Valentine party Friday evening.

Miss Beattie Johnson entertained some of her young friends to a Valentine party Friday evening.

Guy Graff returned home, Wednesday from St. Petersburg, Fla., where he had a plumbing contract.

Mr. and Mrs. John Lalonde entertained about twenty of their friends Monday evening. Cards and refreshments were served.

Mrs. O. Hurlbert leaves for her home at Everett, Wash., next Monday, after an extended visit with relatives and friends here.

Lee Howland's little son, Franklin underwent an operation for appendicitis at Charlevoix, the past week, and is recovering slowly.

Atty F. E. Boosinger was at Charlevoix, Monday, attending the Democratic Co. Convention. He was elected delegate to the S's a Convention.

W. A. Simpson of Saginaw, Lansing and Detroit visitor this week. At the latter place he attends the annual State Hardware Merchants' Ass'n.

Mrs. G. A. Bell, assisted by Mrs. Carl Stroebel, entertained the members of the Whist Club, with their husbands, at the home of the former, Wednesday evening.

JOHN G. CARLSON, Chiropractor, office at the corner of Main and Garfield Streets. Office hours, 10:00 to 12:00 A. M. and 2:00 to 5:00 and 7:00 to 9:30 P. M. Phone 36. Consultation free.

SPECIAL SALE AT EMPEY BROS.

Not a one fourth off Sale—but will put their entire Stock of COMFORTERS and BLANKETS AT ACTUAL COST for 30 days, beginning February 19. They are also giving a ten per cent cut on all their FURNITURE, including BUGS.

There is no reserve made, beginning February 19, 1913.

First comes, first served.

EMPEY BROS.

For Dyspepsia

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved, and that Rexall Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Cascinative and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ills as Rexall Dyspepsia Tablets that we guarantee you to try them at our risk. Three size bottles, 25 cents, 50 cents, and \$1.00.

You can buy Rexall Dyspepsia Tablets in this community only at our store:

W. C. SPRING DRUG CO.

East Jordan, Michigan

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Store for nearly every primary business. It is immediately demanded for the particular ill which it is recommended.

The Rexall Stores are America's Greatest Drug Stores.

GREAT BARGAIN SHOE SALE

We are headquarters for the Pictorial Review patterns and magazines. **FASHION BOOK** ILLUSTRATING PICTORIAL REVIEW PATTERNS

The March number has many new features and colored plates that will assist the home dressmaker. Your subscription solicited. Call at our store or phone No. 37.

M. E. ASHLEY & CO.
"Everything for Ladies' Wear—Hats to Hosiery."

PULPWOOD WANTED. You can get a lot of things for nothing that nobody wants. Bring in all the HIDES, FURS and PELTS to KLING BROS. They pay the highest prices. \$3.00 for No. 1 horse hides. 0-18 (adv.)

All Skin Remedies Fail?

Have you tried all the advertised skin remedies without success? Have you sought medical treatment in vain? And you still suffer from that irritating, itchy, that horrible, unsightly skin disease?

Do not despair. Come to our store and we will GUARANTEE YOU INSTANT RELIEF. We will let you have a full size bottle of the D.D.D. Prescription for Eczema, a simple, antiseptic wash, on our positive guarantee that unless it stops the itch AT ONCE it will cost you not a cent. You owe it to yourself to take advantage of this offer. We are confident it will succeed or we could not afford to make the offer.

D.D.D. is a penetrating liquid that kills and washes away disease germs, leaving the skin smooth and healthy. A 50c bottle is enough to start the cure of the most obstinate cases of Eczema, Psoriasis and allied diseases. D.D.D. soap is a valuable aid. Ask us about it.

W. C. SPRING DRUG CO.

Quality Groceries
Is our Motto.

We assure you that if you favor us with an order you will be more than satisfied with the quality, the service and the price.

It is our aim at all times to give you your money's worth, and would ask that you give us an order today, so that we can demonstrate that you can make money by trading at this up-to-date store.

WE WANT YOUR BUSINESS.

EUROPE to AMERICA by AEROPLANE in 30 HOURS

CLAUDE GRAHAME-WHITE

ILL cross the Atlantic in thirty hours," said Claude Grahame-White, the aviator, and named next summer as the time when he would make good his promise.

He might have said: "I will tempt all the terrors of the unknown. I will accomplish what has never been tried. I will risk my skill against the elements and win. I will take to myself the swiftness of the meteor and the sureness of the seagull. I will defy time, the wind, the weather, the trackless wastes of the sky and the ocean. I will make real the dream of the dreamer."

But Grahame-White is a true Briton and as such has a hearty dislike for the grandiloquent. He is quite content with: "I'll cross the Atlantic in thirty hours"—as if the feat were the most matter-of-fact performance in the world—and the chances are that he regards it a good deal in that light.

At first hearing, it sounds like an idle boast, but those who have followed the career of this eminently shrewd, clear-headed and capable aviator know that he is neither a boaster nor a visionary. If he says he will do a thing it is certain that he believes firmly that he can—and believes it because he has studied his facts and tested his theories.

It is but a short look back to the beginnings of the aeroplane and in the brief time that that wonderful machine has been in the hands of men it has performed the very things that skeptics have declared impossible. It seems almost certain that at a time not remote someone will make the perilous trip overseas. And why not Grahame-White?

To the average earth-man who is satisfied never to rise above the top stories of an office building the attempt, even under the best of conditions, appears reckless to the point of foolhardiness. Not so to the aviator. "Give me the kind of a machine I'm thinking of," he remarks, "and the transatlantic trip would be just so much duration flying—plain sailing."

Just there lies the nub of the question of air navigation from Europe to America—in the machines. They must first of all have speed, great speed; they must have a lifting capacity enough to carry the required amount of fuel, they must have motors capable of standing the strain of terrific and stupendous distances, they must have instruments that will locate the course with accuracy.

All these elements must have been considered long and carefully by Grahame-White before he made his recent announcement. He must be satisfied that he has an aeroplane that fulfills all the conditions. So far, little detail has leaked out as to the manner of equipment he will use. It is known only that he is building a machine which will carry four engines, arranged in independent pairs and each rated at 250 horsepower. He has said that he is convinced that he can show enough lifting capacity to carry the required fuel and enough speed to rush him to those shores in thirty hours.

That may seem simple to the unthinking, but consider. Roughly speaking, it is 3,000 miles from coast to coast and at Grahame-White's reckoning of thirty hours that means that he has a machine which he trusts for at least one hundred miles an hour, minute after minute without interruption.

What course he will choose has not yet developed. He has the whole great ocean to choose from. It has been hinted that the steamship lanes are the natural path for the adventurer to give some measure of protection in case of accidents. If he chooses that from Queenstown to Sandy Hook lightship he must traverse 2,800 miles; if from Plymouth to Sandy Hook, 2,962 miles; if from Southampton to Sandy Hook, 3,100; if from Havre to Sandy Hook, 3,170 miles; and if from Cherbourg, 3,644. The Mauretania has made the passage in four days ten hours and forty-one minutes. The aviator proposes to clip at one swoop 6,341 minutes from that record.

To be sure there are other roads which are said to be safer. There is that which leads from the Azores to the Bermudas, one that allows for two relatively short hops and a long one from mainland to mainland. Then there is that other one favored by those who have planned out the course not for an aeroplane but for a power dirigible.

This second course is practically the same over which Columbus was waded across by the kindly trade winds centuries ago. From a meteorological standpoint it is said to be the best. It lies from Cadiz to Tenerife, a distance of 807 miles; from Tenerife to Porto Rico, a distance of 3,219 miles; from Porto Rico to Havana, distance of 1,124 miles; and thence to the mainland. The course lies in a zone varying little from twenty degrees north latitude and in the winter and spring offers fair weather and a wind with a velocity of fourteen to sixteen miles an hour.

The matter of wind, however, seems to have troubled Grahame-White little. It is probable that he will select one of the northerly courses and it is probable that he may fly even as far north as Labrador. By choosing that as a point of landing and Ireland as point of starting, he might reduce his distance by hundreds of miles.

Whatever his course, however, he must have speed. Even at his own estimate of thirty hours, the nervous strain of guiding an aeroplane for that length of time without sleep would be terrific and would increase immensely with every added hour.

Grahame-White has always been a believer in the speed possibilities of his air crafts. Some time ago he held that 100 miles an hour was no

very remarkable rate. "Friends of mine," he said, "who are experts on the scientific aspects of airmanship, predict that eventually speeds of 200 miles and 300 miles an hour will be possible. At this, one's imagination is apt to reel, but this much is certain: If the flying machine is to become of real importance, and not remain always a sporting toy, it must be speedier than any method of transit on land."

Perhaps he is convinced that his new four-motor arrangement will give him 100 miles continuously. He must have that to make his journey in the time he has set. Jules Verne has flown at the rate of a trifle better than 105 miles an hour and George Fourny holds a record of fifteen hours of continuous flight. Nothing like a union of the two records has yet been known and if Grahame-White succeeds according to his promise he will have approached one and bettered the other.

It may seem strange, but to the aviator the matter of swiftness is a secondary consideration in the problem. To him the lifting power is the thing that counts. The prominent aviator figured the other day that on such a trip as Grahame-White plans he would under known conditions have to carry fuel amounting in weight to more than 4,000 pounds.

It is estimated that an average aeroplane motor with a speed capacity of sixty miles an hour will use on an average five gallons of gasoline an hour and one gallon of lubricating oil. Both these weigh approximately six pounds a gallon. Grahame-White is to have four motors and stay in the air thirty hours. The result is simple figuring.

The main difficulty, then, will be in producing an aeroplane which has the power to make a tremendous lift without materially reducing its speed. It is generally conceded that the type of airship used will be necessarily a biplane as the dainty monoplane is not a weight carrier. Even the biplane has not yet shown power of moving the tremendous weight which it is estimated the cross-seas adventurer must carry.

In France there is a record of a machine of this sort lifting thirteen people from the ground. That, however, was a mere hop and not a sustained flight. At best only 1,950 pounds of human freight was thus carried, if each person is allowed 150 pounds.

Whatever improvements Grahame-White may have in his new machine it is certain that he must have unusual lifting power even if he has discovered some means of cutting his oil and gasoline requirements. He will have to have a tremendous drive to overcome the drag of the weight in his storage tanks.

To achieve what he has set out to do he will have to secure a machine of a type superior to anything that has been so far seen in motor equipment, in strength, steadiness, and speed. His motors will have to better the continuous flight record by half, equal the speed record and beat the lifting record by long odds.

Granted, however, that he will have at his command a machine equal to all emergencies he will still have the ocean to cross. That in the estimation of the aviator is the least of his troubles. Philip W. Page, aviator, expert in the management of hydroplanes, and one of the foremost cross-water flyers, expressed the views of many of his fellow aviators in discussing this phase of the proposed flight the other afternoon.

"Of course," he said, "there is a possibility of making a flight from continent to continent. Such a flight, however, presupposes an aeroplane theoretically perfect for the purpose. With such a machine the journey would be by no means as terrifying as most people imagine. If the aviator were sure of staying in the air and making the required speed, the rest, under normal conditions would be one of the simplest kinds of flying—straightaway over an unimpeded course."

"Contrary to the general belief, he would have conditions better than those on land. The winds in the summer should be steady and never very strong. He would encounter no buildings, trees or abrupt currents in the face of the country to split his air currents. Almost any aviator will tell you that he prefers a forty-mile steady to a fifteen-mile puffy wind.

The air-hole theory has come to be a good deal of a myth, but there are still troublesome up and down trends of the atmosphere which lend no little difficulty to land flying. These are caused in a large measure from sudden obstruction to air currents and from radiation.

"The atmosphere over the ocean is not subject to these obstructions nor is it affected by

any such radiation as we meet with over land on a hot day. I should say that his difficulty would not lie primarily with atmospheric conditions, provided he had reasonably settled weather, or, but rather with the possible unsteadiness of his aeroplane, possible trouble with his motor and the intricacies of navigation."

Given fair weather and a machine which will make the speed he hopes, the actual physical demand upon Grahame-White would not be a severe one. The control of a machine running in steady currents would not be a trying one. Plain flying even at a great speed does not call for any very large amount of exertion.

On the other hand the nervous strain would be tremendous. It is hard to imagine the state of mind of a man hurled into the unknown with only a slender fabric of metal, wood and cloth between him and death. It is equally difficult to conceive of what thirty hours or more of catapulting across mile after mile of ocean at 100 miles an hour would mean. At the least it would necessitate a tension the like of which few men have ever experienced.

PENALTIES FOR TOMMY ATKINS.

How British Soldier is Punished for Offenses in Time of War.

When a soldier proceeds on active service he has to mind his "p's" and "q's," for offenses which in peace time would be lightly punished may in the field render him liable to death, says London Tit-Bits. In time of peace, if Tommy Atkins, being on sentry go, sleeps or is drunk on his post or quits it without being properly relieved, he will probably get off with a short dose of imprisonment or perhaps of "detention" only. On active service the penalty for these offenses is death.

It would not usually be enforced nowadays, except for a repeated offense or where, owing to the prevalence of misbehavior among sentries, it is necessary to "make an example," but still the liability to death is there.

In peace the maximum penalty for desertion is two years' imprisonment, with or without hard labor, but in practice a first offense will get a short term of imprisonment. On active service the deserter takes the risk of death if recaptured and if the offense is committed actually in face of the enemy he will probably be shot.

Similarly, acts of insubordination which in the ordinary way would be comparatively venial offenses become punishable by death on active service. In passing it may be mentioned that even in peace an insubordinate soldier may be sentenced to death if convicted by a general court-martial on one or another of the following charges: Striking or using or offering any violence to his superior officer, being in the execution of his office; or disobeying, in such manner as to show a willful defiance of authority, any lawful command given personally by his superior officer in the execution of his office whether the same is given orally or in writing or by signal or otherwise.

In peace, however, the maximum penalty has not been inflicted for these offenses for many years.

Active service brings into being offenses which practically do not exist in peace. One of the most serious of crimes peculiar to active service is "forcing a safeguard." The commander of an invading army will often detach parties of his own men to protect the persons and property of civilian inhabitants from violence by his own side. To force such a safeguard almost invariably means death.

Breaking into a house or any other place in search of plunder may also mean death, even when there is no safeguard; but as a rule a lesser penalty would be inflicted. It depends a good deal on the commander. Some generals wink at looting; others—Lord Roberts, for one—are very severe on it.

During the Boer war more than one of our men was executed for the sake of a fowl or bottle of "square-face." On one occasion only the readiness of an Irish "Tommy" saved him from the firing party or the gawwos. He was caught with a couple of fowls under his coat and by no less a personage than "Bobs" himself, out riding with his staff.

Asked for an explanation, he instantly replied that he had caught the fowls running loose on the veldt and that, hearing the commander in chief was on short rations, he was on his way to ask his lordship to accept them, as a present. The fowls and the explanation were accepted.

It is possible for a soldier to show cowardice in time of peace. In such a case he would probably be charged with an act or conduct "to the prejudice of good order and military discipline," sentenced to a stiff dose of imprisonment and to be "discharged with ignominy."

On active service any act of cowardice is punishable by death, while a soldier who, "in action or previously to going into action, uses words calculated to create unnecessary alarm or despondency," is liable to penal servitude.

Who carries out a sentence of death on active service? This is the duty of the provost-marshal, who, with a large force, is an officer of fairly high rank. He is responsible for making all arrangements for the execution and, if necessary, he must himself act as executioner. In the Boer war one provost-marshal was Major (now Colonel) R. M. Moore, the famous Hampshire cricketer.

A Natural Mistake.
"What do you suppose the financial editor has done?"
"What?"
"He has put the article called Stock Phrases under the head of Market Quotations."

SHE KNEW.

"Big men are the best lovers."
"How do you figure that?"
"Why, they're so demonstrative in their love-making."
"Never judge a lover by his signs."

Important to Mothers.
Examining carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletcherson*. In Use For Over 30 Years. Children Cry for Fletcher's Castoria.

Mind Reader.
First Straphanger—Look out! You're treading on my feet!
Second Straphanger—Beg pardon! I also prefer to ride in a cab.—Judge.

To Mothers in This Town.
Children who are delicate, feverish and cross will get immediate relief from Mother Gray's Sweet Powders for Children. They cleanse the stomach, act on the liver and are recommended for complaining children. A pleasant remedy for worms. Used by Mothers for 22 years. At all Druggists. 25c. Sample FREE. Address, A. S. Quinist, Le Roy, N. Y. Adv.

Question.
"Now a big Chicago firm complains that its girls will not stay single."
"Well, will they stay married?"

Early Training.
Willis—Is that new young preacher you hired fresh from college up to date?
Gillis—You bet. He called out the Easter choir squad last Sunday, and has ordered practice behind closed doors.—Puck.

A woman always seems to think a man can make over his silk hat as easily as she can make a new bonnet out of the one she wore last year.

Water in bluing is adulteration. Glass and water makes liquid blue costly. Buy Red Cross Ball Blue, makes clothes whiter than snow. Adv.

His Guess.
"Wot's inflated currency, Bill?"
"Dunno! 'less it's money wot's been 'blown in.'—Boston Transcript.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle. Adv.

And a baby would rather go to sleep than listen to a lullaby.

No Money, No Marriage.
"A fortune teller told me that you are going to marry me," said the young man with the prominent socks.
"Did she also tell you that you are going to inherit a very large fortune?" inquired the girl with the matted hair.
"She didn't say anything about a fortune."
"Then she is not much of a fortune-teller, and you had better not place any reliance in anything she says."—Washington Herald.

Words of the Aviator.
"So you took a flyer in the stock market?"
"Yes," answered the regretful-looking man, "and hit an air pocket."

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels and cure constipation. Adv.

Once in a great while a man comes home as early as his wife thinks he ought to, or the postman brings her a letter that she expects.

Don't buy water for bluing. Liquid blue is almost all water. Buy Red Cross Ball Blue, the blue that's all blue. Adv.

It takes a good pugilist or a poor minister to put his man to sleep.

BUY FOLEY'S HONEY AND TAR COMPOUND Stops Coughs - Cures Colds

Resinol stops skin troubles

If you have eczema, ring-worm, or other itching, burning, unsightly skin or scalp eruption, try Resinol Ointment and Resinol Soap, and see how quickly the itching stops and the trouble disappears, even in severe and stubborn cases.

Pimples, blackheads and red, sore, chapped faces and hands speedily yield to Resinol.

Resinol Ointment and Resinol Soap heal skin humors, sores, boils, burns, scalds, cold-sores, chafings and ulcers. Prescribed by physicians for over 17 years. All druggists sell Resinol Soap (25c) and Resinol Ointment (50c and \$1). For sample of each write to Dept. 1672, Resinol Chemical Co., Baltimore, Md.

Women Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

These Two Women Prove Our Claim.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired morning that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost

all my own work for a family of four. I shall always feel that I owe my good health to your medicine."
—Mrs. HAWKINS SOWERS, Cary, Me.

Charlotte, N. C.—"I was in bad health for two years, with pains in both sides and was very nervous. If I even lifted a chair it would cause a hemorrhage. I had a growth which the doctor said was a tumor and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health and am the mother of a nice baby girl. You can use this letter to help other suffering women."
—Mrs. ROSA SIMS, 16 Wyona St., Charlotte, N. C.

Now answer this question if you can. Why should a woman submit to a surgical operation without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

A HIDDEN DANGER

It is a duty of the kidneys to rid the blood of uric acid, an irritating poison that is constantly forming inside.

When the kidneys fail, uric acid causes rheumatic attacks, headaches, dizziness, gravel, urinary troubles, weak eyes, dropsy or heart disease.

Doan's Kidney Pills help the kidneys, fight off uric acid—bringing new strength to weak kidneys and relief from backache and urinary ills.

An Indiana Case

Mrs. George Harrington, Crawfordsville, Ind., says: "My limbs ached and my body was so bloated I could hardly breathe. I had awful pains in my back and terrible headaches. I spent weeks in a hospital, but came out worse than ever. I had given up hope when I began using Doan's Kidney Pills. They cured me completely, and I have had no trouble since."

W. N. U., DETROIT, NO. 3-1913.

HAD ALL THE BEST OF IT

Wise Girl Selected for Husband Man Who Had Both Seasons for Garning Wealth.

"Daughter," said the anxious father to the eldest daughter of a brood of seven, "your mother tells me that you have had a proposal."

"Yes, father, I have," demurely replied the young woman. "In fact, I have received several."

"I hear the ice man proposed to you?"

"He did."

"And you accepted him, of course?"

"I did not."

"Unwise child! Think of the money he coins every summer!"

"The plumber also proposed."

"Ah! That is better. A man of untold wealth garnered every winter. Beyond doubt you told him 'yes!'"

"No, father."

"Wha-a-t? Do you mean to tell me you let so golden an opportunity slip by ungrasped?"

"Yes, father. You see, I accepted a man who sells ice in summer and is a plumber in winter."

"Ah, daughter! Fly to my arms! You make me weep with pride!"

False Alarms.

"They say that Wombat is a genius."

"Nothing to that story. It's a canard. I loaned him a dollar once and he paid me back all right enough."

Short of Breath.

Patience—What sort of a dog is that?

Patience—A knickerbocker poodle.

Patience—A knickerbocker poodle?

Patience—Yes; don't you notice his short pants?

Great Effects.

"What is that terrible noise?" asked the pedestrian.

"That," replied the policeman, "is caused by an ordinary one-cent safety pin sticking into a \$3,000,000 baby."

DREADED TO EAT.

A Quaker Couple's Experience.

How many persons dread to eat their meals, although actually hungry nearly all the time?

Nature never intended this should be so, for we are given a thing called appetite that should guide us as to what the system needs at any time and can digest.

But we get in a hurry, swallow our food very much as we shovel coal into the furnace, and our sense of appetite becomes unnatural and perverted. Then we eat the wrong kind of food or eat too much, and there you are—indigestion and its accompanying miseries.

A Phila. lady said:

"My husband and I have been sick and nervous for 15 or 20 years from drinking coffee—feverish, indigestion, totally unfit, a good part of the time, for work or pleasure. We actually dreaded to eat our meals. (Tea is just as injurious, because it contains caffeine, the same drug found in coffee.)"

"We tried doctors and patent medicines that counted up into hundreds of dollars, with little if any benefit."

"Accidentally, a small package of Postum came into my hands. I made some according to directions, with surprising results. We both liked it and have not used any coffee since."

"The dull feeling after meals has left us and we feel better every way. We are so well satisfied with Postum that we recommend it to our friends who have been made sick and nervous and miserable by coffee." Name given upon request. Read the little book, "The Road to Wellville," in pkgs.

Postum now comes in concentrated, powder form, called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavor is always uniform. Sold by grocers—50-cup tin 30 cts., 100-cup tin 50 cts.

A 5-cup trial tin mailed for grocers' name and 2-cent stamp for postage. Postum Cereal Co., Ltd., Battle Creek, Mich. Adv.

WENT to Cliveden, that stupendous natural rock, wood and prospect, of the duke of Buckingham's building—of extraordinary expense. The grots in the chalky rock are pretty—it is a romantic object, and the place altogether answers the most poetical description that can be made of solitude, precipice, prospect or whatever can contribute to a thing so very like their imaginations. The stand is something like Frascati as to its front, and on the platform is a circular view to the utmost verge of the horizon, which, with the serpentine of the Thames, is admirable. The staircase is for its materials—singular, and the cloisters, descents, gardens and avenue through the wood august and stately, but the land all about barren and producing nothing but ferns. Indeed, as I told his majesty that evening (asking me how I liked Cliveden) without flattery, that it did not please me so well as Windsor for the prospect and park, there being but only one opening, and that narrow, which led one to any variety."

John Evelyn made this entry in his diary more than two centuries ago, but the impression made on the modern visitor is no less rich and striking. Nothing of the duke's house remains except the great under-building of the magnificent terrace, 400 feet long and 25 feet wide, but even this has been much altered, especially in the disposition of the stairways. The gardens have been changed and the prospect of the neighboring country is no longer bare, but cultivated and smiling.

Checked History.

Although Evelyn was right in claiming for the royal castle a great and unconfined outlook, the view from the terrace at Windsor overlooking Eton college and the meadows scarcely surpasses the splendid picture which meets the eye from the terrace at Cliveden, with the Thames winding like a silver thread through the gaps in a foreground of trees. The house has had an unusually checked history. There does not seem to have been any building on the site until it was bought by George Villiers, second duke of Buckingham, some time after the restoration. The architect was Captain Wynne, or Winge, a native of Holland, and a pupil of Sir Baltazar Gerbier. He was a man of considerable ability, and is, perhaps, best remembered now for his design of Newcastle house, Lincoln's Inn Fields, which remains, though somewhat altered. Very little is known of Wynne. He must have been a friend of Samuel Pepys, for he received a twenty-shilling mourning ring at his funeral in 1703, but there is no mention of him in the diary. We have no space here to attempt a sketch of so vivid and contradictory a character as George Villiers. Like Charles II., he dabbled in the arts and sciences, and as Bryan Fairfax wrote of him, spent much on building. "In that sort of architecture which Cicero calls insanae substructiones." Unfortunately, Fairfax, the author of the only contemporary biography of the duke, gives no details of his architectural employments. The work at Cliveden was begun about 1666, and among the state papers there is a significant warrant dated June 21, 1677. The duke was then a prisoner in the tower and had permission to go to Cliveden, "attended by Sir John Robinson, to take order about carrying on some buildings of his there, and to remain till the 23d and then return to the tower."

In 1735 more building was done at Cliveden. Giacomo Leoni, the Italian, who was architect of Clarendon park, designed the small octagonal temple which stands southwest of the main building.

Stately Structure.

The year 1795 proved disastrous for Cliveden, for on May 20 it was almost wholly consumed by fire, with the exception, we may well suppose, of the "insane substructiones." In 1824 the estate was bought by Sir George Warrinder, who rebuilt the house. In 1849 it again changed hands, and became the property of the duke of Sutherland. Within six months it was again burnt down, but straightway rebuilt in the form in which we see it

HERE'S CHAMPION FISH STORY

Nova Scotia Comes to the Front With Tale That Bears the Marks of Real Genius.

Not all the fish prevaricators live in the United States, according to the Mariner's Advocate. An editor recently received the following letter:

"I have read an interesting account of singing fish in your paper. It recalled to me the memory of a rather remarkable fish we have in Nova Scotia. It is known as the 'Frost Fish,' because it may be frozen like a lump of ice, but, if placed in water in that condition, it soon thraws out and swims around as vigorously as ever. The natives make use of this property to make ice cream. The fish is caught, frozen, and placed in the cream. In thawing out, it freezes the cream, and its movements at the same time beat the mixture, making it smooth."

Taking them by and large, from Moosehead lake to Puget Sound and from the upper Mississippi to the gulf, we have some very capable and industrious fish lars in this country. But we hand the reel and rod over to Nova Scotia. We have talent in this country; but Nova Scotia is the abode of genius.

Australia Gets Wireless.

The chain of wireless stations around Australasia will in a very few months be an accomplished fact, it is said, and Australia, New Zealand, and the islands will be in constant touch day and night. The station at Awanui Bay, North Auckland, is practically in operation already, although not yet officially taken over by the government. The installation, a thirty kilowatt one, compares very favorably with that at Pennant Hills, Sydney, and with the high power station at Fremantle, will enable Auckland to "speak" to Sydney or Fiji at any time. A similar installation is now in course of erection at The Bluff in the south of New Zealand, and there are three supplementary stations in the dominion.

Puzzled Childish Mind.

Pauline and her papa and mamma were boarding.

The landlady had a little daughter who was taking cooking lessons at school, and each time she baked anything, she would bring it home in a little pail and give it to Pauline.

Sometimes the biscuits or cakes were somewhat hard, and one day Pauline said:

"Mamma, why is it that everything Ruth makes is frozen?"

HOW TO CURE RHEUMATISM

Prominent Doctor's Best Prescription Easily Mixed at Home.

This simple and harmless formula has worked wonders for all who have tried it quickly curing chronic and acute rheumatism and backache. "From severe rheumatism—one ounce of Toris compound (in original sealed package) and one ounce of syrup of Sarsaparilla compound. Take these two ingredients home and put them in a half pint of good whiskey. Shake the bottle and take a tablespoonful before each meal and at bed-time." Good results come after the first few doses. If your druggist does not have Toris compound in stock he will get it for you in a few hours from his wholesale house. Don't be influenced to take a patent medicine instead of this. Insist on having the genuine Toris compound in the original one-ounce, sealed, yellow package. This was published here last winter and hundreds of the worst cases were cured by it in a short time. Published by the Globe Pharmaceutical Laboratories of Chicago.

Suffer From Plague of Rats.

A "pied piper of Hamelin" is needed at Santa Paula, Cal. Thousands of rats, and all big wood rats, have invaded the place, and the situation is such that women are afraid to go to church. The rats seem to have a preference for churches and on several occasions have forced the feminine attendance at services to take to the high benches. The city authorities are seeking means to abate the pest. The rats are believed to have been driven out of the woods by recent fires in the forests.

The Infant Terrible.

"Mr. Lilsbeau, is it true that you haven't got sense enough to come in out of the rain?"

"Yes, Miss Kitty; you must always believe what papa tells you."

Proper Rescue.

"How did you come out of the tilt you had with the beauty doctor?"

"Well, I managed to save my face."

JUVENILE LOGIC.

"Do you belong to a brass band, Mrs. Blow?"

"No, dear. What put that idea into your head?"

"Well, mamma said you were always blowing your own horn, so I thought you must belong to a brass band."

The Right Lead.

Fond Mamma (praising absent daughter)—And I've always affirmed that Sylvia's arms are so well shaped because I have made her do a great deal of sweeping.

Bashful Young Man (striving wildly to keep up his end of the conversation)—Er—does she walk much, Mrs. Jones?—Puck.

Turn on the back-biter and say it to his face.

A bird in the hand falls to catch the early worm.

Invalid Men and Women

I will give you FREE a sample of Dr. Pierce's Pleasant Pellets that have brought health and happiness to thousands—also a book on any chronic disease requested.

During many years of practice I have used numerous combinations of curative medicines for liver ills. I have kept a record of the result in case after case, so that my staff of physicians and surgeons, at the Invalids' Hotel, Buffalo, N. Y., are able to diagnose and treat cases at a distance with uniform good results.

But for the permanent relief of blood disorders and impurities, I can recommend my "Golden Medical Discovery," a blood medicine without alcohol or other injurious ingredients.

R. V. PIERCE, M.D., Buffalo, N. Y.

Nature's Way Is The Best

Buried deep in our American forest we find bloodroot, queen's root, mandrake and stone root, golden seal, Oregon grape root and cherry bark. Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "GOLDEN MEDICAL DISCOVERY." This "Discovery" purifies the blood and tones up the stomach and the entire system. It is Nature's own way. It's just the tissue builder and tonic you require.

Dr. Pierce's Golden Medical Discovery

has the endorsement of many thousands that it has cured them of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Sold in tablet or liquid form by all principal dealers in medicines, or send fifty one-cent stamps for trial package of tablets.

To find out more about the above mentioned diseases and all about the body in health and disease, get the Common Sense Medical Adviser—the People's Schoolmaster in Medicine—revised and up-to-date book of 1,008 pages. Cloth-bound, sent post-paid on receipt of 31 cents in one-cent stamps to pay cost of wrapping and mailing only. Address: Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Personal Privilege.

"You sometimes contradict yourself in your speeches."

"I know it," replied the positive candidate. "And I want you to understand that I am the only man in our party who dares attempt such a thing."

RASH ALMOST COVERED FACE

Warrenville, O.—"I have felt the effects of blood poisoning for eighteen years. I was never without some eruptions on my body. The terrible itching caused me much suffering and discomfort, while the rubbing and scratching made it worse. Last spring I had a terrible breaking out of blistering sores on my arms and limbs. My face and arms were almost covered with rash. I could not sleep and lost nineteen pounds in five weeks. My face was terribly red and sore, and felt as if my skin was on fire. At last I tried a sample of Cuticura Soap and Cuticura Ointment and I found them so cool, soothing and healing, that I got some Cuticura Soap, Cuticura Ointment and Resolvent. I bathed with hot water and Cuticura Soap, then I applied the Cuticura Ointment every night for two months, and I am cured of all skin eruptions." (Signed) Mrs. Kathryn Kraft, Nov. 28, 1911.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

These Gridiron Days.

Miss Culshaw—Do you like the "Missing of Arthur?"

Mr. Chump—I'm not up on football players. What team is he on?

If you want a man to deliver the goods, employ one who doesn't talk.

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them:

"Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is excellent and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection.

The rich chocolate flavor and absence of other taste, make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist. A box of 25 doses costs only 25 cents. Never sold in bulk.

TO HOLD CONVENTION

Sixth Semi-Annual Gathering of Rural Mail Carriers.

On Washington's birthday, Saturday, Feb. 22nd, the Rural Letter Carriers' Association of Antrim, Kalamazoo, Charlevoix and adjoining counties, will hold their sixth semi-annual convention at the Odd Fellows' hall in Boyne City.

The morning hours will be given over to a business meeting. At noon a farmers' basket picnic will be enjoyed in the dining hall. The balance of the afternoon will be spent in various forms of entertainment which will consist principally of addresses, recitations and music. An address will be made by Postmaster R. E. Newville, Rev. Duffey, Rev. Gleason, and Rev. Glass, and secretary of the Association, F. A. Butler.

Presbyterian Church Notes Rev. A. D. Grigsby, Pastor.

A very hearty invitation is extended to all whether church members or not, to attend services at the Presbyterian Church next Sunday morning at 10:30 and evening at 7:00. The pastor will preach and his message both times will be practical and helpful. His morning theme will be "One of Life's Problems."

Last Sunday evenings hour of worship was varied by choice selections of music. Mrs. Juiget, choir director for some time past of a church in Connecticut singing with effect Miss Jenkins sang sweetly in the anthem, and a large choir carried the anthem and hymns. Mr. Webster who is always listened to with great pleasure, played a violin solo to the organ accompaniment.

Reader you will be welcomed to the meeting of the young people next Sunday evening at 6:15.

The Sunday School was well attended last Sunday but room may still be found for other children, young people and adults.

The pastor and Supt. Northon conducted bible classes with a view to intelligent study of the scriptures.

St. Joseph's Church Rev. Timothy Kroboth.

Sunday February 16th.
8:00 A. M. Low mass. Communion for Ladies Altar Society.
Monday 17th.
7:30 P. M. Meeting of Ladies Altar Society.
Friday 21st.
7:30 P. M. Stations of the cross.

One of the most noteworthy defeats ever encountered by the liquor interests of the United States was recorded on Saturday, last, when the Webb bill prohibiting the interstate shipment of liquor into dry states was passed by a vote of 240 to 65. The opponents of the saloon and liquor interests had never dared to hope for such a large majority. Every Michigan congressman who was present when the vote was taken voted for the bill. The votes for the bill included Dodds, Deramus, Hamilton, Loud, McLaughlin, McMoran, J. M. C. Smith, Sweet and Young. This sweeping victory in the house of representatives for the Webb bill makes it quite certain that the senate will also vote in opposition to the shipment of liquor into dry states and dry districts and that very desirable legislation will soon take its place upon the statute books of our nation to mark another and a most important step in the forward movement against the liquor interests and the liquor traffic.

The average man dies before reaching the age of discretion.

Some people boast in order to keep others from doing so.

The height of a girl's ambition is seldom less than 5 feet 6.

Conductor S. L. Miller, Norfolk, Neb., on Bonesteel Division of C. & N. W. Ry. Co., recommends Foley Kidney Pills and says: "I have used Foley Kidney Pills with very satisfactory results and endorse their use for any one afflicted with kidney trouble. They are all right." HITES DRUG STORE.

A man should never settle down until after he has settled up.

A wise man compliments a woman before asking a favor of her.

When a man is down and out his friends are soon up and away.

F. E. Walling, a farmer living near Yukon, Mo., strongly recommends Foley's Honey & Tar Compound and says "I have been advised by my family doctor to use Foley's Honey & Tar Compound for my children when there was a cough medicine needed. It always gives the best of satisfaction and I recommend it to others."

RUN-DOWN PEOPLE

Made Strong by Vinol.

Run-down conditions are caused by overwork, worry, too close confinement, a chronic cough or cold which it is difficult to cure.

We want to say to every person in this condition—you need Vinol, our delicious cod liver and iron tonic without oil, the "great strength creator." It will supply iron to the blood in the most easily assimilated form, create a good, healthy appetite, strengthen your digestive organs and make you eat better, sleep better and feel better.

A case has just come to our attention from West-Scranton, Pa., Mrs. Chas. Propert says: "For three years I was all run down, weak and had no appetite, and after all that time I am glad to say Vinol has brought back my health and strength, which is just what I was told it would do." We are confident that Vinol is the best body-builder and strength-creator we have ever sold.

Try a bottle on our guarantee to refund your money if it fails to benefit you.
F. S. Eczema Sufferers! We guarantee our new skin remedy, Saxo, W. O. SPRING DRUG CO.

Owing to the widespread and increasing demand on the part of business men and others that the saloon shall be put out of existence as soon as possible, the Iron Ore of Ishpeming, one of the leading newspapers of the upper peninsula, says: Men who have never taken any part in cleansing the country of the evils of the traffic are now getting into the list of those who honestly want to better conditions. The high cost of living can here be lowered as in no other way. The high cost of crime can also be reduced, and the high cost of human suffering can be greatly mitigated by the correction of the many evils of this traffic. The world is waking up to the enormity of the liquor burden. The verdict of many states is already against the liquor business, and many more will join. The movement will be irresistible and it will be sane.

For Loss of Hair

We will pay for what you use if Rexall "93" Hair Tonic does not promote the growth of your hair.

In all our experience with hair tonics the one that has done most to gain our confidence is Rexall "93" Hair Tonic. We have such well-founded faith in it that we want you to try it at our risk. If it does not satisfy you in every particular, we will pay for what you use to the extent of a 30 day treatment.

If Rexall "93" Hair Tonic does not remove dandruff, relieve scalp irritation, stop the hair from falling and promote a new growth of hair, come back to us and ask us to return the money you paid for it, and we will promptly hand it back to you. You don't sign anything, promise anything, bring anything back, or in any way obligate yourself. Isn't that fair?

Doesn't it stand to reason that we would not make such a liberal offer if we did not truly believe that Rexall "93" Hair Tonic will do all we claim for it—that it will do all and more than any other remedy? We have everything there is a demand for, and are able to judge the merits of the things we sell. Customers tell us of their success. There are more satisfied users of Rexall "93" Hair Tonic than any similar preparation we sell.

Start a treatment of Rexall "93" Hair Tonic today. If you do, we believe you will thank us for this advice. Two size bottles, 50c and \$1. You can buy Rexall "93" Hair Tonic in this community only at our store:

Occasionally a man marries a girl in order to get her off his mind.

Frank Phillips Tonsorial Artist.

When in need of anything in my line call in and see me.

"AM I TICKLED?"

"Well, I guess I am." Did you see the fruit hanging from the trees in my Orchard? After buying soap, trace for years, someone told me to buy McCormick's at Monroe, Mich. I did so and the tree and fruit speak for themselves.

Don't be pessimistic, plant McCormick's trees and have a good income in your old age.

McCormick's Trees are the result of years of experience, high-grade soil and modern methods. Get their Free Catalog and "Tree Talk." Trees, Shrubs, Plants, Vines, Roses, etc.

Exclusive Shoe Dealer.

THE FINEST IN THE STATE

Is the big modern plant recently purchased from the Booth Fisheries Co. by A. T. Washburne and located at foot of "Midway" on the bay above, as a permanent home for the constantly increasing business in this manufacturing of "Sanitary Rugs from Old Carpets" trade mark established 1898 in which line a trade has been successfully established all over the United States on the excellence of products. This also gives much needed room to the Carpet Cleaning and Refitting department, which includes large sterilizing abattoir for purifying rugs and carpets. The cleaning department is fully equipped with all modern and time saving machinery devices, run by electricity. Two of the largest rotary renovating machines for general cleaning and a powerful Vacuum machine 100 per cent times more powerful and efficient than the portable ones this line is for New York and elsewhere. The plant is also equipped with three machines for the sewing of carpets of all kinds in the most approved manner with the elastic seams. Thus with largest facilities, most up-to-date equipment, highest grade of workmanship, lowest possible prices, and prompt service, bespeaks a busy future for the Petokey Rug Co. of which A. T. Washburne is proprietor and to which address all orders and correspondence should be addressed—NO AGENTS.—Petokey Evening News, April 14, 1911.—Make your order as early as possible.
