## Night Fairs To Be Feature

Of the Charlevoix County Fair at East Jordan This Fall.

The executive committee of the Charlevoix County Agricultural Society met at the Secretary's office in East Jordan on Monday, May 13th, and decided to have the grounds and buildings wired for electricity, wiring to be finished in time for use at the 1918 fair. The committee also decided to hold a night fair on the nights of Sept. 18-19-20th.

The need for electricity on the grounds has been felt for some time as there are manufacturers of machinery run by electricity who have desired to exhibit their machines and have been unable to do so in the past and then there have been days during fairs of the past which have been so dark that it was practically impossible to see some of the exhibits in the buildings.

The night fair is a new departure in the fairs of Northern Michigan but has been tried with great success in other sections of the country. Early indications are that the 1918 Charlevoix County Fair will be a hummer.

The secretary has secured for free attractions Bee Ho Gray's Great Wild West Show and has contracted for one large tent show, two small tent shows, one automatic baseball game, one high-striker, one shooting gallery, one ball throwing game, one large electric show and an excellent Merry-go-Round. With these as a starter, the management is assured good midway attractions, a feature in which the fairs of the past two years have been lacking.

In addition to these features there will be good horse racing each day, band concerts and with the help of the county agent very good exhibits in all departments. It is expected that the exhibits in the cattle department will be unusually fine as a number of owners of thoroughbred cattle in this and adjoining counties have signified their intention to exhibit their best stock.

Work on the new poultry shed will be started in the near future and it is hoped that owners of good poultry will fill this new building with their best birds.

The fireworks for the night fair are being purchased from the Martin's Fireworks Co., of Fort Dodge, Iowa and are displays of unusual merit.

The association asks that all farmers and stock breeders bear the Charlevoix County Fair in mind and that they will at this time make their plans for exhibiting their best products at the 1918 Fair.

Don't, if you are a man, deliberately kiss a poor, little, helpless girl baby.

Wipe up and take something your own.

## Major Cressy Here Sunday

SPEAKS AT MASS MEETING IN THE AFTERNOON.

Will Also Speak at Union Church Services at M. E. Church in the Morning.

Major W. H. Cressy, a Grand Rapids physician, who recently returned from four years' service in the Serbian army has been secured by the Charlevoix County branch of the Michigan War Preparedness board for a lecture at the Temple Theatre Sunday afternoon at 3:30. He will also speak at a union church service at Methodist church in the morning. At the afternoon meeting no one under eighteen years of age will be admitted.

Major Cressy comes in the interests of the great Red Cross mercy fund drive and also in the interests of the Franco-Serbian hospital fund to better hospital conditions in Serbia.

Major Cressy is the man who advocates the shooting of all German spies, in order to break up the Hun propaganda in this country, which extends even to Michigan.

The major declared in a recent speech that if he was provost marshal he would see that all Germans who have been in the United States only fifteen years were put on farms and made to produce something for the country or starve.

The afternoon lecture will be illustrated with a series of Serbian war pictures taken during the major's campaigns in Serbia, Russia and France.

## FR. JAMES A. GOLDEN AT TEMPLE THEATRE MONDAY NIGHT NEXT.

Fr. Golden of Big Rapids, who is conducting a mission at St. Joseph's Catholic Church this week, has kindly consented to deliver an address at the Temple Theatre next Monday evening, May 20th, the proceeds of the evening to be for benefit of the Red Cross.

Fr. Golden is well-known as an able orator by East Jordan citizens and his message Monday night—"Our Great Work" will be among his best efforts. In addition to the address several musical numbers will be given by local talent.

The evening program starts at 8:00 o'clock. Admission 25 cents. Proceeds for benefit of Red Cross work.

## GOOD FOR THE WHOLE FAMILY.

Every family requires a safe and reliable cough and cold remedy. Mrs. John Potter, 20 Shupe St., Mt. Pleasant, Pa., writes: "I have used Foley's Honey and Tar for colds for years and highly recommend it to all families." Contains no opiates. Checks bronchial and grip coughs, croup and whooping cough.—Hite's Drug Store.

## Special Thrift Stamp Day

A PROCLAMATION BY THE MAYOR.

I do hereby designate and proclaim **MONDAY, MAY 20TH, 1918**, as **Thrift Stamp Day** and ask that each and every person loyally respond when you are solicited by a Committee from the Schools of our City to purchase Thrift Stamps and War Savings Certificates and that every family endeavor to make our City One Hundred Per Cent which we can do by every member in each family purchasing one or more Thrift Stamps, or a War Savings Certificate. Let us "Go Over the Top" in this as we have in every other campaign that has been launched for this noble cause.

ALDEN E. CROSS, Mayor  
City of East Jordan, Mich.

Dated May 16th, 1918.

## From Our Boys "Over There"

HEADQUARTERS COMPANY, 125th INF.

A. E. F.  
April 13, 1918.

THE POST COMMANDER,  
STEVENS POST NO. 66, G. A. R.  
EAST JORDAN, MICH.

SIR:

Accept the thanks of each East Jordan boy in the Headquarters Company, 125th Infantry, A. E. F., for the kind greeting sent by your organization and the Woman's Relief Corps of East Jordan.

The cablegram was read to the Company just before Mess this evening and occasioned a ringing cheer from the East Jordan boys and other soldiers in the hall from other parts of Michigan. On this side, any news from "Our Country" is received with interest, particularly so when it is from one's own home town.

We are, each of us, about to do our share in advancing the interests of Civilization and Democracy and only hope that we will show the same fortitude and courage as shown by the Americans of your generation.

H. L. WINTERS,  
CAPTAIN, 125th INFANTRY,  
COMDG. HQ. CO.

## THE CHEAPEST THING ON EARTH TODAY

is human life. Germany is sacrificing many thousands of men daily simply to satisfy the greed of the vilest being who has ever lived. Nero was quite a decent gentleman as compared with Kaiser Bill.

The next cheapest is honor. Many men sacrifice their honor for a few paltry dollars. During the Civil War, President Abraham Lincoln, "by a stroke of the pen" freed the negro slaves in the United States. These slaves were sold by their owners for an average price of one thousand dollars each, for both men and women, and when we compare the price of these negro slaves with the price of white men, who sell themselves into slavery, it shows a great decrease in the price of slaves.

The old negro slave was an ignorant man, who could work hard, but who could neither read nor write. The slaves of today are white in color, and in many cases, finely educated, but being possessed with the demon rum, gambling, licentiousness, dishonesty and lack of honor, cause them to sell themselves for a "mess of pottage," some for five dollars, some for one hundred dollars and others for larger sums according to the value they place on their old past carcass minus honor as well as the value or price for the disgrace and suffering, placed upon their families.

This great war for democracy and honor that comes with, and belongs to it, has already brought about a new world and we are all in it and it is up to you and me to help make it better. The price on white men slaves certainly ought to advance so that the very lowest any one of them would sell himself for would be equal at least to what the black slaves used to sell for. A man who cannot behave himself and has to be paid for doing it is not really

a salesman to tie to. In the Scriptures you will find the following: "Ye ask and receive not because ye ask amiss that ye may consume it upon your lusts."  
VAN PELL  
Joliet, Illinois, May 7, 1918.

## Red Cross Notes

Friendship Circle No. 1 have given less and raised \$5.00 for the Red Cross. Rock Elm Orange donated \$5.00 to the Red Cross.

A large quota for surgical dressings has been received by the committee. The ladies of Astor have asked to be organized into a Red Cross Auxiliary. Mrs. Maude Porter and Mrs. Redmon will organize Thursday afternoon at the Orange Hall.

Er. Jas. A. Golden will give a lecture next Monday evening at Temple Theatre for benefit of Red Cross. Admission 25 cents.

The Knitting Bee will be entertained at the home of Mrs. Maddaugh Monday afternoon, May 20th. Everybody welcome.

Harley Hammond, an East Jordan boy, who has returned to the Red Cross for Comfort Kit received. He said he had the honor of being among the first in his Company of 200 to receive one from his home town. He is in training for Uncle Sam at Harrison's Tech. College at Chicago.

Don't get too self-important. You may become tomorrow's enemy.

THE WIDOW WAS HELPER.  
Mrs. A. Wadsworth, 405 Glen Ave., Fresno, Cal., writes: "I had a fever and it left me with a cough every winter. Foley's Honey and Tar helps me every time. I am a widow 66 years old." Nothing better for bronchial, grip and similar coughs and colds than Foley's. Just fine for croup and whooping cough.—Hite's Drug Store.

## Sunday Is Patriotic Day

Parade, Flag Dedications and Addresses By Able Orators.

Sunday next, May 19th, will be a day of patriotism as far as East Jordan is concerned.

The City Liberty Loan Honor Flag will be appropriately dedicated in the afternoon. A parade will be formed at the G. A. R. hall at 2:00 o'clock, consisting of our Band, all our Fraternal Orders, the G. A. R. and W. R. C. and the Red Cross. They will march to the City Flag pole where appropriate dedication services will be held.

At 3:30, Temple Theatre, Major Cressy will deliver his message to the people of this region.

He will also speak at the Methodist church in the forenoon.

In the evening at St. Joseph's Catholic church a service flag will be appropriately dedicated. Rev. Fr. Golden of Big Rapids will give the dedication address.

The people of our surrounding territory, as well as our own people, are invited to participate in these patriotic events.

## BARING FLYERS AVENGE LONDON

For Every Bomb Dropped in England 999 Are Sent Down in Germany.

## SILENCE MANY BATTERIES

Feature of the Air Combat is the Continuous Gallantry and Audacity of the Pilots—Difference in Strategy.

London.—Captain M., one of the British Flying corps, ambled watchfully behind a great bank of rolling clouds; speed in a rift below a German patrol of six machines. The combat was short, sharp and unequal. Immediately his gun barked off. A German dived headlong for the earth. His leader swept out of formation to meet the daring Britisher and followed with. Enraged, the four others dashed for our man simultaneously, firing as they came. For the latter only one course was optional. Sweeping low from the sky until he almost skimmed the treetops and the roofs of the houses he reached home in safety.

Which is to relate a recent by-the-way air raid incident in that thrilling and most audacious factor of up-to-date warfare, aerial activity. When the day is clear and bright or when the hunter's moon illuminates the night the pilots and observers of the Royal Flying corps work overtime, and then some. From dawn to dawn, without intermission, until the rain clouds gather or the fresh wind grows too unruly, they are hard at it, fighting high up among the clouds or bombing railways, ammunition dumps, aerodromes and billets in back villages.

Nine Hundred and Ninety-Nine for One. For every bomb on London or a German raid there have been 999 dropped by our men on plants and posts behind their lines. In this new warfare of give and take while the Boches are busy over England the English are buster over Bocheland. In a single day as the result of aerial observation 127 hostile batteries were silenced, 28 gun pits were destroyed, 80 men were bombed and over 60 explosions were caused in ammunition dumps.

In two short months 12,600 bombs, aggregating a weight of 238 tons, were placed at the disposal of troops, intrenchments and batteries in the enemy lines. The R. F. C. in the period from Saturday, February 16, to Wednesday, February 20, accounted for 70 German airplanes with a loss of 12. The naval airmen bagged a further eight without loss and the French were responsible for 26.

The German airmen are not lacking in courage, but the policy of their commanders appears to be to maneuver them in large formations, 15 and 20 at a time. Six is a common party. The "up and run" strategy of their bombers is only of advantage at night. From a great altitude they "lay their eggs" indiscriminately and then make off at a breakneck speed for their base. The larger types of machines, such as the triplane, are greatly favored. And more than anything they are lacking in that case of their own.

## Drug Stores Consolidated

"Gidley & Mac" is Name of the New Firm.

The East Jordan Drug Company and Druggist James Gidley, who have conducted drug stores on opposite ends of the same block for a number of years, have pooled their interests and will operate the store, occupied by the East Jordan Drug Co.

Charles J. McNamara and James Gidley are the proprietors and they will conduct the one store under the firm name of "Gidley & Mac." At present both gentlemen are busy moving the stock and fixtures from the old Gidley store, corner Main and State Sts., to the location corner Main and Esterly streets. It will probably be several weeks before they are finally adjusted to the new order of things.

Mr. Gidley has conducted a drug store at the old site for some fifteen years. The matter of securing competent help is becoming a serious question and by combining the stores Messrs Gidley & McNamara will be better able to care for the patronage.

The British navy and so admirably developed by the airman.

Audacity of Pilots. The outstanding feature of the air combat is the continuous gallantry and audacity of the British pilots. One youthful veteran, attacked by a fighting formation of Boches, fired into one machine, which turned over on its back and spun down out of control. Then he turned his attention to another and fired 200 rounds into it. Suddenly it went into a spin and crashed.

Out with a battle flight of our own the following day he added another German to his bag. Then, to make full measure that day, he spun lower and fired an observation balloon. In the afternoon he finished the aggregate of four enemy airplanes and a balloon in three days.

Two British machines photography-bound ran up against half a dozen of the enemy's. Strictly speaking, theirs was a noncombatant craft, but, annoyed at the interruption, they laid about the enemy with their machine gun to such effect that in a short time they had knocked out two of their attackers. The rest then flew away and the Britons returned in peace to their picture making.

Recently our bombers achieved a direct hit on a German army cinema with results which, according to a prisoner's story, were disastrous. Immediately the Germans retaliated by bombing our hospitals and stretcher bearers behind the lines.

## FARMERS OBJECT TO AIRMEN

Say Airplanes Scare Mules and Distract Attention of Negroes From Their Work.

Memphis, Tenn.—Contending that airplanes flying overhead and landing in the vicinity would scare mules, smash down growing crops and cause negro laborers to leave their work to watch the birdmen, farmers of Arkansas, across the Mississippi river from Memphis, refused to lease land to the government to be used as a landing place for military aviators, training at Park Field. Eight landing places were secured in the immediate vicinity of Memphis.

**EAT CEREALS TO REDUCE FOOD COSTS**

The most practical means of reducing table expenses without decreasing the wholesomeness and adequacy of the diet lies in increased use of cereal foods, especially boiled grains, mushes and breads made of corn meal and cereals other than wheat.  
Cereals contain most of the important food elements which the body needs and yet are comparatively inexpensive. They are primarily a source of starch, needed by the body to yield energy. They furnish also considerable quantities of protein, one of the most important and usually one of the most expensive food elements, needed to build the body and keep it in repair. In addition, cereals furnish mineral matter, fats, fibre and, especially if part of the bran is left in, little-known substances which regulate body activities.  
Cereals, therefore, may be used as the relatively inexpensive basis for meals. It then becomes necessary only to eat with them comparatively small quantities of higher-priced foods to make up the proper balance among the needed elements.  
With animal foods or other nitrogenous foods, fruits, and vegetables also are used in the diet, the various grains may be interchanged freely as availability, cost or preference dictates. The starch of all the cereals is practically the same. Protein, fat, and mineral matter vary somewhat in the different kinds, but so slightly that the difference need not be considered in the ordinary mixed diet. In such a diet, therefore, corn or oatmeal, for example, may be satisfactorily substituted for wheat when the latter is scarce.  
The most common form in which cereal food is consumed is bread. The food value of bread, however, comes from the cereal of which it is made, and it makes little difference whether we get our cereal ration in baked or bolted form. If cereals are to be made a more important feature of the diet, mushes and boiled grains, as well as baked doughs, should be eaten in greater quantity. Practically any of the cereals may be used in making some type of bread. Wheat has been most used because its gluten makes possible the raising of the dough with yeast. Flours and meals of the other grains, however, may be made into baking-powder breads and many of them can be substituted for some of the wheat flour in making yeast breads.  
Breakfast foods should be chosen carefully if economy is desired, since the form in which the food is purchased largely determines the cost. Meals from which mushes may be made may be obtained for a few cents a pound, while specially prepared grains may cost up to 48 cents or even more per pound. Bulk breakfast cereals, such as oatmeal, commonly may be purchased at lower prices than the same kinds put up in cartons.  
One way to lessen the cost of breakfast foods is to buy whole grains from a feed store and grind them coarsely in a coffee or other hand mill. The cracked grains, when salted properly, boiled thoroughly, and served with butter or sugar and cream or milk, make wholesome and palatable foods. These home-ground grains, used alone or with flour, also may be used satisfactorily in bread making. Boiled grains, such as rice, barley, corn meal or hominy, may be used in the same way, or any of these may be combined in dishes with cheese, eggs or meal, which add both flavor and nitrogenous food elements.

**Recipes.**  
**BOILED SALSIFY**—Wash the root of salsify, or vegetable oyster as it is also called, to remove loose dirt, then scrape thoroughly, throwing in to water as quickly as scraped that the white roots may not become discolored. Cut into inch lengths, place in a saucepan, cover with boiling water, add a little salt, and boil until tender when tested with a fork. Drain and the salsify is ready to be finished in any way.  
**BEANPOT ROAST**—One and one-half pounds of clear stew meat, cut into two-inch bits. Put into beanpot and cover. Set in oven two hours and bake slowly. Do not add anything but one-half teaspoon salt. It will be rich, with lots of nice gravy, if cooked slowly. When nearly done take out of oven and put into a good-sized shallow dish, put a thick layer of mashed potatoes on evenly all over. Set back in oven to brown slowly.  
**BREAD AND PARSLEY OMELET**—Soak six tablespoonfuls of grated bread crumbs in six tablespoonfuls of cold milk for ten minutes and season with one-half teaspoonful of salt, and one-eighth of a saltspoonful of paprika. Separate the whites and yolks of three eggs and beat until light. Add the crumbs and milk to the yolks with two tablespoonfuls of chopped parsley and fold in the stiffly whipped egg whites. Heat in an omelet pan two tablespoonfuls of butter; turn in the omelet mixture and cook over a moderate heat until well risen. Loosen the sides of the omelet from the pan with a cake turner, turn over into a neat half-circle, brown for a couple of minutes on the under side and serve inverted on a hot platter. Garnish with crisp greens and slices of broiled tomatoes.

Ink stains can be removed from goods by covering the spot with milk; squeeze lemon juice over this, and let dry in the hottest sunshine.

**GOAT SAVOURS FLAG; LOOKED UP AS SPY**

Animal Gives Battle When Women Try to Drive It Away.  
Los Angeles, Cal. — A spy suspect, lurking around the home of Mrs. W. C. Burke of Halldale avenue, is still imprisoned in Mrs. Burke's garage.  
The subject is a stray goat that appeared at the Burke residence and, after attempting to demolish the garden, attacked and ate two American flags.  
Mrs. Burke became aware of the goat first when she heard a loud commotion on the front porch. It proved to be the goat lurching on a young peach tree at the edge of the porch.  
Mrs. Burke endeavored to coax it away. As a protest it tore around the garden till it spied the two American flags on the garage. Without hesitation it began to eat the flags.  
The daughter made a dash to rescue the Stars and Stripes and it was then that the goat became a spy suspect. For at her appearance it charged in and finally butted her so far away from the garage that it managed to swallow the last bit of flag before she could counter-charge.  
Finally, however, with the aid of neighbors, the goat was driven into the garage and firmly tied. But Mrs. Burke and her daughter hope the allies of the goat will come and get it.

**ALL BRIDES GET BONUS; IN ONE KANSAS TOWN**

Real Housekeeping Articles Handed Out With License.  
Wichita, Kan.—This city claims the prize in trade boosting experiments. It is offering a bonus to every bride who gets married within the city limits.  
It matters not to the merchants of the city whether the bride or groom live or have ever lived in Wichita. They may come from any place on earth, but if they get a marriage license at the office of the Probate Court and have a justice or a preacher marry them, the bride will have a little package presented to her as a wedding gift from the merchants of the city.  
The bonuses are not stingy little advertising novelties, either. They are real housekeeping articles. They are a good sized sack of real flour, shoes, jewelry, ribbons, tea, knives, bric-a-brac, and many other articles that any girl will need when she starts housekeeping.

**BIRD BUILDS NEST UPON COW'S BACK**

Cow Being Unable to Stand, Barn Sparrow Clings to Its Horns and Lays Eggs.  
Bennetts, N. Y.—One day last week Abner Snowden had a cow which mired in the swamp. At 5 o'clock when the cow did not come to the barn with the other animals Mr. Snowden and his hired man went to the swamp and found her.  
The cow was dug out and it was found that the left hind leg was so badly sprained that she could not step on it. The cow was loaded on a stoneboat and drawn to the barnyard.  
A veterinary was called, examined the leg, and as he found no broken bones it was decided not to kill the animal. The leg was bandaged and the cow has not stood on her feet since.  
The next morning when Snowden fed the animal he observed a sparrow perched upon her back, but when he approached the bird flew away. That evening, when he went to care for the cow he was surprised to find that the bird had built a nest on the cow's back and had laid an egg in the nest.  
Since then the bird has laid four eggs in the nest and is now sitting on the eggs. The bird does not leave the nest when Snowden or his helper feeds the cow.

**HUSBAND DRAGS WOMAN OUT OF CHURCH BY HAIR**

Omaha Man Knocks Down Two Neighbors Seeking to Aid Wife Then is Arrested.  
Omaha, Neb.—Lon E. Fryor, 2632 Chicago Street, objected to his wife attending religious services.  
When he came home the other night and found his better half out, he went to the Pentecostal Mission, 1723 Cumming street, and disrupted services by dragging her out, witnesses said, by her hair.  
All the way home, witnesses said, he abused her and threatened a number of the congregation who followed them, if they interfered.  
When L. Morris, a neighbor, rushed in to the Fryor household in answer to shrieks of "help" and "murder" from Mrs. Fryor, he was knocked down and forced to retreat.  
Undaunted, Francis McGovern, another neighbor, entered the house. He received a cracked lip.  
The whole neighborhood was aroused and police were summoned.  
Before officers arrived, Fryor escaped. Shortly before the officers left he returned, took down an army rifle and threatened his wife with instant death. The officers were called again and Fryor was arrested before he could carry out his intention.  
Mrs. Fryor said her husband always objected to her going to services, but he insisted that she say grace at meals.

HUSBAND GONE—SONS GONE—  
HOME AND RELATIVES GONE

A Fact Story Telling Just What the Red Cross Did for Mme. Pellier.

By an Eye Witness  
MAUDE RADFORD WARREN

This is the picture I saw last January in France, and you have mercifully changed it! Color enough there was—above, the eternal blue; in the background, fields of living green, which the German shells could not prevent from creeping back; in the middle foreground, a long village street so battered and burned that it was merely a canyon of cream-colored ruins. In front of one little broken house were four figures in black—an old woman, poking among the fallen stones in a vain search for something that could be used; a younger woman, seated on what had once been a doorstep, with her face hidden in her arms; and a little boy and girl, who stared, half frightened, half curious, at the desolation about them. The little boy held in his thin hand a Red Cross flag. All four were pale and gaunt; the faces and bodies of the children showed none of the round curves that make the beauty of a child.

This is their history: When the war broke out, Mme. Pellier, her mother and her four younger children were visiting her husband's mother in the north of France. Her husband and two elder sons were at home in Lorraine taking care of the summer crops. Then the war broke and the mother-in-law of Mme. Pellier was ill and could not be left. Her old mother was afraid to travel to Lorraine with the full care of the four children. Before they could all start together the Germans invaded. Bad news is allowed to come into northern France, and so as the months passed Mme. Pellier learned that her village home had been bombed and that her husband and two sons had been killed. Except for the Belgian Relief Commission, which operates in northern France also, she and her little ones would have starved outright. At the best they were undernourished. Then the great push began, and hopes for France grew high. But as the French soldiers advanced they had to bombard the northern towns. Mme. Pellier begged the Germans to let her go away with her children—even into Germany. This was refused. She tried to seek safety in some cellar whenever there was a bombardment. Nevertheless a shell killed two of her children.

Found Her Home Gone.

Home gone; husband gone; brave soldier-sons gone; little, tender boys torn into shreds! That woman's face would have shown you what she had suffered—her face against the battered ruins the Germans had made. At last she and her mother and her two remaining children were repatriated. They knew the infinite relief of cross-

ing into Switzerland and then into Haute-Savoie. From there they went to Lorraine. Mme. Pellier hoped that, even though her village had been bombed, her home might have escaped. She found nothing except her bare fields.

You changed that picture, you Americans, who can never be bombed, who can never lose through war five out of the seven dearest to you. It was not your husband and children who died; not your wife who was widowed; not your little ones who came back, bony and tubercular, to a home that had vanished. Not yours, but only the grace of accident saved you; not yours, but it might have been and so you changed the picture. You could not build up with your own hands that heap of stones into a home, nor till the fields, nor bring Mme. Pellier back to hope and the children back to health. But through the Red Cross you saved the remnants of that family that had suffered as you might have suffered.

Things the Red Cross Did.

You took the mother of Mme. Pellier to a Red Cross hospital to be treated for anaemia. You took the little girl, who was in the first stages of tuberculosis, to a Red Cross sanitarium. You found a place which could be made habitable for Mme. Pellier, near her fields which she was anxious to till. You gave her clothes and furniture; you got her seeds; you lent her implements. You sent a visiting doctor to watch over her health and that of her little boy. You sent nurses, who achieved the mighty victory of making her and the child take baths. Later you persuaded her to let him go to a refuge not far away where he might attend school and where she could often visit him. Through the help of your Red Cross hope and courage and ambition have come back to that woman, and she is rebuilding her family life. The biggest thing one human being can do for another you, if you are a helper of the Red Cross, have done for that mother.

Red Cross! I saw it work everywhere in France—in fields and in blasted villages; in hospitals and schools and clinics; in refuges and vestries for widows and orphans and for the sick children of soldiers fighting to keep you safe from the enemy.

This symbol of help has a double meaning now for Americans, who have always taken for granted the blessing of safety. It stands for your willingness to pay the price of exemption, of pity, of sympathy. A bitter, black road this road of war, but across it, like a beacon of hope, you have hung the Red Cross.

HE GAVE HIS SHIRT OFF HIS BACK

How an Italian Officer Traveling on Train Helped a New Born Baby.

One of the ways to say that a man is good hearted is to descend to expressive Americanese slang and say "he'd give you his shirt."

A young Italian officer did exactly that—gave the shirt off his back to a baby just born. It was during a flight of the Italian refugees just after the Italian army had been tricked by the Austrians.

Here's the story: An Italian officer, who had been a volunteer worker at the station when the crush came through, walked into the American Red Cross office at Bologna, Italy, and told of a poor young woman who had given birth to a baby on the train in which he was riding a few nights previously. They had been riding for over 16 hours, and the

wretchedly poor and disheartened mother had been jammed in with the hundreds of other frightened Italians on the same train. Hungry, tired and miserable and in a frightfully weakened condition, she had scarcely sufficient clothes for herself, not to speak of properly caring for a newborn babe. The young officer stripped himself of his shirt, and there among this frightened, half starved, forlorn crowd the poor Italian infant was wrapped in its first body covering.

Mother and babe were afterwards nursed back to health, clothed and looked after by the American Red Cross. And this is only one small, isolated incident among thousands that come under the working of the Red Cross.

FULL MAN-SIZED  
HAM SANDWICH

What Ten Minutes for Refreshments Means in Modern War.

Think of what refreshments mean "over there." Think of the Sammie or the Polli coming out of the trenches with a thirty-six hour leave of absence, getting aboard the train or motor on the L. O. C.—the Line of Communication between the front and the rear. Think of these tired fellows

stopping ten minutes for refreshments at a Red Cross Canteen.

Think of a big cup of hot coffee and a wealth of man-sized ham sandwiches served by the Red Cross—women with the joy of service in their eyes. Think of ten minutes for refreshments within sound of the guns—such refreshments served by such women. Did ever a weary lad have such refreshments? Did ever a cup of coffee and a sandwich taste so good?

It is service like this, the supplying of "food that's got a homey taste" at a time when a man's spirits are likely to be at lowest ebb, that moved a Commanding General of the American Forces to write on December 30: "The extent of the work of the Red Cross is only limited by the number of members it has and the amount of funds available for its use."

VINOL MAKES  
CHILDREN STRONG

And Invigorates Old People

Any doctor will tell you that the ingredients of Vinol as printed below contain the elements needed to improve the health of delicate children and restore strength to old people.

By Cod Liver and Best Potatoes, Iron and Manganese, Peppermint, Iron and Ammonium Citrate, Lime and Soda Glycerophosphates, Cascaria.

Those who have puny, ailing or run-down children or aged parents may prove this at our expense.

Besides the good it does children and the aged there is nothing like Vinol to restore strength and vitality to weak, nervous women and over-worked, run-down men.

Try it. If you are not entirely satisfied we will return your money without question; that proves our fairness and your protection. Millions of people have been convinced this way.

HITE DRUG CO., East Jordan

WANTS TO HELP OTHER MEN.

M. W. Taylor, Calvert, Ala., writes: "To Whom It May Concern: I recommend Foley Kidney Pills, the best I ever used. I tried different remedies, but none gave me relief like Foley's." They restore regular action of kidneys and bladder and relieve backache, rheumatic pains, stiff joints, sore muscles.—Hite's Drug Store.

Perhaps some people ask us foolish questions because they think they are the only kind we can answer.

HELPS TO KEEP FIT.

When the digestion is out of order, it throws the whole physical being out of gear. B. B. Hayward, Unadilla, Ga., writes: "Foley Cathartic Tablets give me quicker relief than anything I have ever tried." They relieve biliousness, bad breath, bloating, gas, indigestion and constipation. No griping or nausea. Hite's Drug Store.

URIC ACID IN MEAT  
CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and, weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Get the Habit of  
Drinking Hot Water  
Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowels absorb them.

**Michigan's War Activities**

By Hon. Albert E. Sleeper, Governor of Michigan.

(In the American Review of Reviews for April 1918.)

One of the effective and patriotic executives who direct the emergency work of our State in the war period is Governor Sleeper, of Michigan. What he tells our readers herewith of the efforts of that great commonwealth is most encouraging. Michigan's automobile industry and her many other manufacturing plants, as well as her agriculture, are going to make a great record for the year 1918.—The Editor.

Hon. Albert E. Sleeper (Governor of Michigan)

Michigan factories are turning out huge supplies for the Government. Motor trucks are being built by the thousand, and Henry Ford is planning to construct U-boat chasers on a colossal scale. In fact the whole of the immense manufacturing power of the State is at the disposal of the President and his advisors.

Last April the Michigan State Legislature appropriated the sum of \$5,000,000 for war purposes. The State War Board, consisting of the elected State officers with the Governor as chairman, is charged with the administration of this fund; and while we have been careful in the use of our money, while we have tried to avoid useless or wasteful expenditure, we have used money, and used it freely, wherever we have felt we could help the cause of the nation by so doing.

We have contracted for the purchase of a thousand farm tractors and an equal number of tractor plows, and if more are needed they will be forthcoming. These tractors will be re-sold to individual farmers, under a guarantee from each purchaser that he will keep his machine constantly at work. Not only will he do his own plowing but he will take care of his neighbor. This arrangement will help to minimize the inevitable shortage of farm labor from which the State will suffer this coming season. The State, too, is making further arrangements to solve the farm labor problem.

We have also purchased a supply of seed corn and spring wheat which will be distributed through the various sections where the need is greatest. We have, too, a large surplus of potatoes from last year's crop which have not been marketed, and, realizing that the growers would suffer heavy loss unless something could be done to bring relief, we have undertaken an experiment in dehydration, which, if successful—and we have little doubt about that—will take care of part of the big crop now on hand and next season will enable us to handle the whole crop.

Some months ago the War Board authorized the State Board of Health to deal with the subject of venereal disease not only in relation to the soldier but among the civilian population as well. This was done under the direction of Dr. R. M. Olin, Secretary of the Board of Health; and the Michigan plan has so commended itself to the War Department that they have recommended it for adoption in all the States of the Union.

The War Board, through the State Highway Department, has expended approximately \$300,000, in the construction and maintenance of military highways.

Last summer the "I. W. W.'s" started in to make trouble in the Iron Country, but the despatch of a detachment of our mounted State Constabulary to the scene nipped the trouble in the bud, and we are assured by those in closest touch with the situation that our prompt action in this matter avoided serious disturbance in the mining region of the State. As it is, everything has been quiet there and our men are still on guard. The Constabulary was organized since our entry into the war, and the general feeling seems to be that the service rendered in this part of the State alone has furnished ample justification for their establishment as a branch of the State Military organization. They have also done effective work in other parts of the State, guarding munitions plants, elevators, docks and the like.

We have been endeavoring also to take care of the boys who have gone to the training camps. We arranged to loan a maximum sum of \$400 to each young officer in need of financial assistance for the purchase of his equipment. We take their personal notes, and all these loans will be paid back, unless, and we do not like to think of that, the boys do not come back to us. We have been taking care of the dependents of our soldiers too, the wives and the babies and the mothers of both enlisted and drafted men. We have been paying from \$10 to \$50 a month to hundreds of families where the bread-winner has gone to war or into training. The national government has been necessarily slow in getting money to the many thousands of women and children dependent on the men who have been called into the service. In the meantime we have done what we could to tide over the period of financial stringency. We are determined to do our best for the comfort of the boys themselves and of the dear ones they have left behind. I might say in passing that we also purchased 16,000 pairs of rubbers for the boys in Camp Custer.

In each of our eighty-three counties we have established a County War Board. The County Boards in turn have recommended a Township or Ward Board in each township and ward in the State. These boards have been chosen with great care. We have done our best to secure the men who do things, and we believe we have an effective organization covering every corner of the State. It will be the business of these men to take the lead in all patriotic endeavors in their several communities.

In this connection mention should be made of the splendid work which has been done by the women of Michigan. They have risen nobly to the occasion and their efforts have been most effective. They are now preparing or a State-wide registration of women for war service.

I am glad to be able to say that our State is united in its determination to do its full share toward winning the war. We realize the serious nature of the situation. We know that there is not only hard work ahead of us but suffering and sacrifice; but we have put our hand to the plow and we shall not look back.

(Permission to use Governor Sleeper's article granted the U. S. Food Administration, Michigan Division, by the Review of Reviews Co., Albert Shaw, President.)

**IF YOU ARE A PATRIOT YOU ARE OBSERVING THIS SCHEDULE OF FLOUR RATIONS IN YOUR OWN HOME.**

Flour rations for families doing their own baking; and those purchasing Victory bread from bakers, based on a maximum allowance of one and one-half pounds of flour per person per week:

Flour Rations Per Person Per Week.	Number in Family.				
	2	3	4	5	6
For families doing their own baking and using flour for all miscellaneous purposes; including crackers, macaroni, etc.	\$ 1 lb.	4 1/2 lbs.	6 lbs.	7 1/2 lbs.	9 lbs.
Families not doing their own baking but buying Victory bread from bakers:					
BREAD	3 1/2 lbs.	5 1/2 lbs.	7 lbs.	8 1/2 lbs.	10 1/2 lbs.
Flour ration for all other purposes, including crackers, macaroni, etc.	1 lb.	1 1/2 lbs.	2 lbs.	2 1/2 lbs.	3 lbs.

In explanation of the seeming disparity between flour rations permitted families doing their own baking and those purchasing Victory bread, it is pointed out, that households depending on bakeries and buying Victory bread under the one and one-half pound flour ration are permitted to use one and three-quarters pounds of Victory bread per person per week, plus one-half pound flour for miscellaneous uses, such as macaroni, crackers, etc. This is the equivalent of one and one-half pounds of flour per person per week where the family does its own baking, for the reason that bakers' bread takes on 10 per cent of moisture content, and also contains 20 per cent of substitutes under the present baking rules. Therefore, one and three-quarters pounds of Victory bread contains one pound of wheat flour. This leaves one-half pound of wheat flour for all other uses, such as crackers, macaroni, etc.

**If Swift & Company Made No Profit**

The cattle raiser would receive only 1/8 cent a pound more for his cattle

So small is Swift & Company's profit on any single transaction that if it were turned over to the cattle raisers of the country, they would receive only 1/8 cent a pound more for cattle than they receive now.

Swift & Company pays for live cattle about 90% of the amount received for dressed meat and by-products. The remaining 10% pays for packing-house expense, freight to market, operation of distributing houses and profit. Swift & Company's actual figures per head for 1917 on over two million cattle were as follows:

**SAGE AND SULPHUR DARKENS GRAY HAIR**

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

We learn with regret that the Rev. John J. Maakestad has resigned his charge in the First Lutheran Church at Suttons Bay which he has held upwards of a quarter of a century. During the sojourn of the Reverend gentleman in Suttons Bay he has seen the town grow from a mere hamlet in a forest to a thriving and prosperous village of several hundred inhabitants. He has delivered thousands of sermons, has seen a congregation grow from a mere handful to one filling the church from portal to altar, has seen the tiny infant baptised and grow to the years of manhood and womanhood, has spoken words of comfort to thousands who have passed beyond the vale, was at all times a wise and willing counselor in things civic and religious, for many years a member of the school board with studied advice, friendly when a friend was needed, to the county a true citizen, to the church a true pastor. We are informed that he has received a call from a congregation in Virginia and will leave in June. The recent union of the two Lutheran churches this year has necessitated the change. Rev. Maakestad and family are highly respected by all and have the best wishes of the people of Suttons Bay.—Empire Journal.
