

Charlevoix County Herald.

Vol. 22

EAST JORDAN, MICHIGAN, FRIDAY, NOVEMBER 15, 1918.

No. 46

Gave Life for His Country

Company "I" Soldier Reported Killed In Action.

A telegram from the War Department at Washington, D. C., dated Nov. 11th, reads as follows:

"Mrs. Anthony Rebec, East Jordan, Mich.

Deeply regret to inform you that Private Albert Martin Rebec, Infantry, is officially reported as killed in action October 8th."

Private Rebec is, we believe, the first of our old Company "I" boys now in France who has made the supreme sacrifice. He joined the Company here and was with them in the trip to the Mexican border. Later the Company was made Headquarters Company 125th U. S. Inf'y, and landed in France early in this year.

He was a resident of Jordan township Antrim County, and leaves his parents, Mr. and Mrs. Anthony Rebec, sisters, Mary, Agnes, Sophia, Nettie, and brother, William.

He was born in Jordan township October 21st, 1893.

A memorial service was held at St. John's Catholic Church in the Bohemian Settlement, Friday morning, conducted by the pastor, Rev. Fr. McNeill.

POTATO GRADING.

1. All carlot buyers and shippers of potatoes are required to secure a license from the United States Food Administration.

2. Each licensee shall assort and grade his purchases and shipments of potatoes according to the grades described in Department of Agriculture, Bureau of Markets, Document No. 7, which are U. S. grades Nos. 1 and 2. The mixing of these grades is not permissible.

3. Each potato licensee shall quote, buy and sell potatoes, including sweet potatoes, only by the pound except where the said potatoes are put up and sold in standard barrels, standard boxes or standard hampers.

4. The licensee shall place on every contract, order, acceptance of order, invoice, price list and quotation issued or signed by him relating to food commodities the words: "United States Food Administration License Number," followed by the number of his license.

5. No licensee shall knowingly buy any food commodities or sell any such commodities to or handle any such commodities for any person required to have a license who has not secured such license.

6. Any person, firm, corporation or co-operative association engaged in buying and selling potatoes in a wholesale way must have a government license and any party doing business without such license renders himself liable to penalties provided by the Food Administration, or a violation of these rules by any licensee will be cause for the revocation of the license of such licensee.

7. A licensee will not be considered as fairly grading his purchases if he uses a screen or other method of grading by which more than 5 per cent (by weight) of the potatoes excluded from the No. 1 grade are large enough for the No. 1 grade.

Every youth of eighteen has an ambition to look like the men in the clothing ads. But it can't be done.

WANTED—Women between 21 and 45 years of age to work on Airplane parts. Permanent employment. Experience unnecessary and work not difficult, but applicant must be in good health and willing to learn. Give height, weight and age in your application. Pay \$10.80 per week to start. Work 9 hours a day. Also have permanent places for two cut-off or rip saw men at good wages.—SLIGH FURNITURE COMPANY, Grand Rapids, Michigan.

RESULTS WILL STARTLE EAST JORDAN.

People report quick results from pure Lavoptik eye wash. A girl with weak, strained eyes was helped by ONE application. Her mother could not sew or read because of eye pains. In one week her trouble was gone. A small bottle of Lavoptik is guaranteed to help EVERY CASE weak, strained or inflamed eyes. ONE WASH starts with its quick results. Aluminum eye cup FREE. Gidley & Mac, druggists.

Will Organize Farm Bureau

Mass Meeting at Loeb Farm Next Friday.

A mass meeting of farmers and business men from all over Charlevoix County will be held at the Loeb Dairy Barn on Friday, Nov. 22nd for the purpose of organizing the Charlevoix County Farm Bureau which will direct the work of the County Agent during the coming year. The meeting will be called at 10 o'clock a. m., and will continue throughout the day. Several prominent men from throughout the state will be present and take part in the meeting.

The Loeb farm is located on the Charlevoix-East Jordan road about 2 1/2 miles from Charlevoix and is a sight worth going a long way to see. At present there are about 80 head of purebred Holstein cattle on the farm and the barn is constructed to house over 200. Mr. Sloan who is in charge of the construction work and is general superintendent has very generously offered the use of the barn for the meeting and is ready to extend every possible courtesy to those attending this meeting.

We expect to see every progressive farmer and business man present at this meeting as well as their wives and such members of their families as may care to come. Bring your dinner basket as there will be a pot luck dinner at noon.

WILL MOORE LIKES THE OCTOBER MORNING BATHS

Letter from Private Wm. E. Moore to his sister-in-law, Mrs. James Gidley—

Oct. 15, 1918.

Dear Myrtle, Jim and All—

Haven't had a letter from you since I wrote last, but I have nothing to do but keep awake and am on duty at a radio station at 11 p. m. with an hour to go yet, so write this to keep from falling asleep.

Fritz is overhead dropping bombs and an occasional shell whistles by on its way to some nearby target, but with peace looking as probable as it does now, I am hoping nothing lands in this vicinity. We have been in action a long time, and a number of my acquaintances, and some friends have been done up, but so far I haven't even had a shaking up.

No news except the usual stuff. I am in a dugout and writing by candle light, outside it is raining and the guns are banging away, and I have wet feet, muddy clothes, cooties and hopes for an early peace.

Haven't seen a civilian for six weeks, and most of us haven't had a bath, or clean clothes in that time, but I recently found a ditch, heated some water in a tin can, a large one of course, and got clean, though pretty chilly, for an October morn in France is a colder proposition than September morn in the U. S.

Have recently had letters from father, Maurice and one from the folks in Cadillac in which they told all the news and of your passing through Cadillac. Am very sorry for Jim's sister, for I realize how she must feel. Write when you find time.

WILL MOORE.

Co. A., 108 Field Signal Bn. A. E. F.

There's a wide difference between a busy man and a busy-body.

Love that laughs at locksmiths later weeps to think that the locksmiths hadn't learned their trade better.

It is a common belief that the worst boys in school make the greatest successes in life, but if so where do all the failures come from?

WOOD FOR SALE—The Argo Milling Co. has a quantity of Good Dry Wood now on hand for sale. Call at Mill or phone 126.

With the approach of cold weather you should have your chimney cleaned and put in order for the winter. WILL KOGOMO will do the work for you. Leave orders at Herald office.

PROTECT THE CHILDREN.

Children are as likely to get the grip and influenza as grown-ups. Foley's Honey and Tar gives quick relief from all kinds of coughs, colds, croup, and whooping cough; covers raw, inflamed surfaces with a healing, soothing coating; clears air passages, checks strangling, choking, coughing. Contains no opiates.—Hite's Drug Store.

Our City's Quota of Patriotic Fund

Will Be Raised By Taxation. About \$2.00 per \$1000 Val.

It is proposed to raise the city of East Jordan's quota of the Allied War Fund by including the amount in the city budget—that is by taxation. This method was used in the last Red Cross Fund Drive and was satisfactory to all and no hardship to any one. East Jordan's quota is practically \$4000.00. It is proposed to class those who pay tax as taxpayers. However if they wish to contribute more it will be accepted. It is proposed that all non-taxpayers volunteer next week their subscriptions at either Bank payable by June next.

The heavy taxpayers favor this plan and if any others do not, they should appear before the City Commission at the regular meeting—Monday night, Nov. 18th and present their objections for consideration. It is urged that all non-taxpayers volunteer their subscriptions at once at either Bank so that the amount to be raised by tax can be figured. It is estimated this plan will cost not to exceed 2 1/2 mills—probably about 2 mills—or \$2.00 for each \$1000 assessed valuation. The fund is divided by government direction among seven war relief organizations not including the Red Cross. They are as follows:

Young Men's Christian Association.

Young Woman's Christian Association.

National Catholic War Council—K. of C.

Jewish Welfare Board.

War Camp Community Service.

American Library Association.

Salvation Army.

The boys "over there" need these organizations now more than ever, since they have licked the Kaiser. Let's give it to them cheerfully.

PEOPLE'S STATE BANK RECEIVES RECOGNITION OF LOYAL SUPPORT.

The official certificate of distinguished financial service for subscribing its full quota of United States Treasury Certificates of Indebtedness, issued in anticipation of the Fourth Liberty Loan, was received by the People's State Savings Bank a few days ago.

In June of this year it was decided by the treasury department to issue a certain amount of the certificates every two weeks until the Fourth Liberty Bonds were issued. These certificates to be absorbed by the banks of the country, and individuals who were contemplating large subscriptions to the fourth loan.

The quota of certificates to be taken by each bank was based on a certain percentage of the bank resources. The taking of these certificates in the amount asked by the government was at the cost of a certain amount of sacrifice, and this Honor Certificate is not intended as a reward, but merely as a recognition of the loyal support which has financed the war plan of the government until the proceeds of the Fourth Liberty Loan were available.

It has been the constant aim of the officers and directors of the People's State Savings Bank to have that institution do its full share in complying with every wish or request of the government in financing its war plan. It is a great source of satisfaction to receive the Certificate of Honor for the services rendered at this particular time.

His Good Points.

"See here," snapped the editor of the Winkleshire Spasm to the reporter "you've crammed this obituary notice full of flowery compliments."

"But I thought—"

"This man didn't die in jail, did he?"

"No, sir."

"He was not killed while doing his best to rob a safe?"

"No, sir."

"And he wasn't shot down in a running battle with the police?"

"Of course not, sir."

"Well, when a man dies a natural death in bed, the public takes it for granted that he had his good points!"

FLOWERS GIVE OFF FATAL GAS

Two Men Killed by Carbon Dioxide, Bellef.

Joplin, Mo.—The Rev. Ray Cornell, an itinerant minister, and John Russell were found dead in a greenhouse here. Carbon dioxide thrown off by plants is believed to have caused their deaths.

Victory Sunday Nov. 17th

A Proclamation By Governor Albert E. Sleeper.

The tragic war, which for fifty-one months has rocked the foundations of the earth, is over. One hundred and fifty-five billions of dollars have been spent, forty millions of men have been under arms and more than eight million human lives have been sacrificed. But now peace has come to calm the world, and it is fitting, while we mourn for those who have yielded up their lives in the cause of Democracy, that we should rejoice and give thanks for peace with victory.

Therefore, I, Albert E. Sleeper, Governor of the State of Michigan, do hereby designate and proclaim Sunday November seventeenth next, VICTORY SUNDAY; and I call upon the people of Michigan to gather on that day in their accustomed places of worship, and there by prayer and praise to render thanks to Almighty God for the triumph of our cause and the restoration of peace on earth.

Given under my hand and the Great Seal of the State this twelfth day of November, in the year of our Lord one thousand nine hundred and eighteen, and of the Commonwealth the eighty-second.

ALBERT E. SLEEPER, Governor.

School Notes

All pupils of the Commercial classes show much interest in their work. Their teacher, Miss Stiff, declares she has to drive them home. They are in the room working when the teacher comes in the morning and when she goes home at night. The 10th and 11th grade bookkeeping class are studying the Rules for Journalizing—Debits and Credits. They are working Real Estate and Merchandise problems and are preparing for Loss and Gain Statements.

The Juniors and Seniors have held their class meetings and the following students were elected: Seniors—Reo Bookes, President; Gertrude Hockstad, Vice-President; Dorothy Severance, Treasurer; Julia Ellison, Secretary. Juniors—Sherman White, President; Nettie LaValley, Vice-President; Carl Ellison, Treasurer; Conard Hughes, Secretary.

Friday evening, Nov. 8th, the first High School Get-Together party was held, under the direction of the faculty. The students had previously met in classes and invented yells and songs for the occasion. The evening was spent in interclass contests which aroused a high degree of enthusiasm. The Freshman class came out first. After a lunch, kindly supplied in boxes by the young ladies, the students had a lusty sing and disbanded.

Kindergarten—Mrs. Zoulek has kindly donated some plants for the Kindergarten room. The children are preparing for a Thanksgiving party. There are sixty-two children enrolled. The East Jordan Cabinet Co., very kindly presented them with two large boxes of blocks.

Second Grade—Mrs. John Hawkins presented a very beautiful window garden to the Second Grade. Leo Boyd entered school last week. We are glad to welcome back our children who were ill with the influenza.

Only his heirs love a stingy man and not then until after he's dead.

Notice the man who says he never worries about anything and you'll find also that he never does anything.

Singer Sewing Machines for sale or rent; Repair, clean, or adjust all makes of sewing machines.—E. A. LEWIS. Call phone 67.

The Argo Milling Co's famous old fashioned stone ground buckwheat is now on the market, guaranteed strictly pure buckwheat.—U. S. Food Administration License M4593 G36828.

FULL OF COLD; HAD THE GRIP.

Many will be pleased to read how Lewis Newman, 506 Northrand St., Charleston, W. Va., was restored to health. He writes: "I was down sick and nothing would do me any good. I was full of cold. Had the grip until I got two 50c bottles of Foley's Honey and Tar. It is the best remedy for grip and colds I ever used."—Hite's Drug Store.

Flour Substitute Ban Is Off

War's Ending Brings Further Joy to Mrs. Housewife.

The ban is off. The nondelicious substitute with wheat flour has passed—at least until another food emergency arises—if that time ever comes.

Food Administrator Prescott received a telegram from the national department at Washington, Tuesday, declaring the substitute order had been repealed.

"The order requiring a certain amount of substitutes must be purchased with each allotment of flour taken has been rescinded," the national department telegraphed. "Notify all dealers, order immediately effective."

Mr. Prescott started the state machinery at once, getting out copies of the order, which will be mailed to dealers.

No more joyous news, it is said could come to the housewife, following the close of the great war. For more than one year, in order to conserve the food supply, and especially the wheat product, the government has required that a certain percentage of substitutes be taken with each purchase of flour.

Many learned to prepare the substitutes into delicious dishes. They relished the substitutes. Others gave little heed, except to comply with the order, hoping, wishing for the time when the substitute order would be abolished.

Dealers, it is said, will be relieved of a great deal of labor with the lifting of the substitute ban. Many of the different kinds of substitutes will not have to be kept in stock.

School Commissioner's Notes

May L. Stewart, Commissioner

Teachers wanted! Curfew and Thumb Lake schools want teachers at once. They pay fifty dollars per month. Former teachers may qualify with special test at office of Commissioner of schools. Other applicants must have had the required amount of Normal training in order to qualify under the same conditions. Neither of the above special examination offers apply to teachers already holding certificates in this county.

Eight visits made during the past week. Most of the schools now in session once more. Marion and Norwood townships completed the once over.

Tuesday the 5th, the Com'r visited the Miles school, went on thru Ellsworth to Norwood, visited the school there, and northward to the Hilton school. Things were going splendidly in every place, and in every case the teacher had an entirely new set of books, making the gamut of the approved list from the first grade up. Only one school was found during the week in which the recommended grammars had not been adopted.

Miss Berg at Marion Center is guiding the manufacture of some very interesting food posters. Free hand cutting of pig and turkey, with the free hand cutting of message above pig saying, "Eat us here," and telling us to send the turkeys "over there." The boys and girls seemed happy even in the thought.

Miss Maddaugh of the Johnson school was teaching language very effectively by means of a good food poem and had prepared some very good leaflets, done by third grade pupils entitled "Seven Reasons for Saving."

Mrs. Flagg at Barnard tells us that the Liberty Bond which her school bought as a memorial to Lesley Shapton a former student of the school, is now all paid for but about two dollars. So far as we know this is the only group of students undertaking this alone, and it was a magnificent undertaking. Improvements on the building show up 100 per cent.

Miss Cook of the Knop school called at the office last week for a short visit, and the Com'r was pleased to learn of a long list of splendid books which she had selected for the new library order which the district is making. They will have practically every grade supplied with supplementary language work and will rank close to the top among the rural libraries of the county.

Miles school also is ordering some fine new books and we may look for an

A Message of Congratulation

Our Citizens Send Telegram to Old Company "I."

During the Peace Celebration in our city, our citizens, ever thinking of our boys "Somewhere in France," sent the following message of good cheer:

Headquarters Company 125th U. S. Infantry American Ex. Forces.

"The citizens of East Jordan and vicinity while celebrating your glorious victory extend to you our congratulations and thanks. You are present in our throats while we celebrate. May this find you all well and happy. We are looking forward to your early return bringing with you the Kaiser's goat.

Citizens of East Jordan.

interesting school year for the boys and girls.

Sanitary paper towels are arriving in many districts and the old time germs are suffering death by fire under the direction of the teacher.

Wildwood school has a fine new clock and new books. Two very inexpensive items would now make this a Standard School. Three or four other schools must be nearly there now, that is if memory is playing no tricks, and if the former amount of equipment is well in tack.

Best W. S. S. report for the past week comes from the McGeagh school in which Miss Clara Thorsen is teacher.

A number of our business men have good practical pedagogy in their daily work—that is if we may consider pedagogy applied common sense regardless of the science. A copy of "Gleanings" from the Rough Notes Co. was lately loaned to the Com'r and the following gleanings were noted:

"Any amount of business betterment but not a smoothin for decay."

"Plans well laid on a basis of sufficient knowledge, when properly executed, always win out."

"Look steadily at a bright light for half a minute and then face the darkness—the light still shines ahead of you. So do the blazing fires of the past mark the pathway of the future."

"Tis better not to have too many whys. 'Tis better just to know and do."

"It pays to kick if in so doing you bruise your toe and have to sit down and think."

"The single North Star of purpose has more home runs to its credit than all the stars in the whole Milky Way of Reflected Life."

"Genius is perspiration, not inspiration." Edison.

"Management means getting the most out of the machinery, be it of iron and wood or flesh and bone."

First Methodist Episcopal Church

Rev. Myron E. Hoyt, Pastor.

Sunday, Nov. 17, 1918.

10:30 a. m. Theme, "That Which Costs Me Nothing."

12:00 m.—Sunday School.

3:30 p. m.—Junior League.

6:00 p. m.—Epworth League. Fine meeting and attendance last Sunday evening.

7:00 p. m. Evening service. Theme: "After the War, What?" This will be an evening of thanksgiving over the vindication of right and righteousness.

The pastor of this church leaves for Camp Sherman, Chillicothe, Ohio, on Thursday of the coming week. The Sunday evening service will be a union meeting and will take the nature of a farewell service.

Rev. N. F. Jenkins of Bellaire will supply the pulpit in the absence of the pastor. It is not known definitely whether he will move to East Jordan or not.

Presbyterian Church Notes

Robert S. Sidebotham, Pastor.

Sunday, Nov. 17, 1918.

10:30 a. m.—Morning Worship.

12:00 Noon—Sunday School.

5:00 p. m.—No Vesper Service, but we shall unite in the evening with the friends of the Methodist Church in Mr. Hoyt's farewell service.

Thursday at 7:30 p. m.—Prayer Meeting.

Even a cheerful idiot is better than a cheerless one.

A good many people say they are "sensitive" when they're only ill-natured.

WINS A HUSBAND BY PITCHING HAY

KANSAS STUDENT HER MATE IN HARVEST, PICKS HER FOR HIS MAUD MULLER

UNUSAL ROMANCE TOLD IN COURT

Young Woman Also Wins Suit for Back Pay When She Still Was a Farm Hand

Wichita, Kan.—Maud Muller, according to Whittier raked the meadow sweet with hay, and forgot all about her briar torn gown, and her graceful ankles, bare and brown, as she won the heart of the judge. But Mary L. Bennett, a Kansas Maud Muller, won her sweetheart while wielding a pitchfork and wearing blue denim overalls.

This is the story that Mary told and she has a husband to prove it, and she made her word good enough for a court to order her employers to pay her \$52, which she had earned by making a "hand" in a hayfield.

Mary Bennett, is an orphan, with a sister living in Texas. At the death of her parents she went to live with neighbors, Mr. and Mrs. Peter Jason, in Sedgwick county. She grew to young womanhood in her home, and during the summer she was paid the regular wages of a farm hand. She was strong and young and as good a farm hand as the average man.

For three years Mary Bennett pitched hay alongside the men. Last summer Charles Lee was one of the workers in the field. The girl and the young man worked side by side. He was a college student working to earn money to help pay his way thru school. They got along so well at their haying and in the wheat fields that Lee decided they would be exceptionally good teammates for life.

Lee was graduated early in May and was offered a job at Wichita. He first went to the Jason home and took Mary over to a minister's and they were married. Then he went to work.

When Mary left the Jason household she said the Jasons owed her \$76 in wages which they refused to pay. So the young husband hired a lawyer and suit was brought in Judge Grover Pierpont's court for the money. Mrs. Lee, as a witness told how she had pitched hay 12 hours a day, day in and day out, for three years, and blushing admitted to the court that she and Lee had made love over their pitchforks.

The Jasons maintained that they had helped rear her and had taken care of the girl, when she was ill. Judge Pierpont decided that Mrs. Lee should pay for care during her illness and awarded her \$52 in cash and told Jason he did not want any delay in payment as the young couple needed the cash for furniture.

WOMAN MADE DUMB BY SIGHT OF SNAKE

Among Gifts of Flowers and Fruit She Finds Bottle of Cider—Bang!—Cured.

St. Louis, Mo.—Mary Zubotski, 26, of East St. Louis, is the happiest patient in St. Mary's Hospital. Her voice, which for two months was gone from her has returned. She is no longer "so lonesome," as she says in her broken English.

Two months ago Mary was walking home from work thru Emerson Park. Some boys were playing with a snake and threw it at her. She became so frightened that she could not scream, and from then she was unable to speak a word.

She continued to go to her work daily, but often had nervous spells. Her nerves became worse, and she temporarily lost her hearing. She was taken to St. Mary's Hospital.

Her friends brought her gifts of flowers and fruit, and one brought her a bottle of fresh cider. This cider remained in the room, bottled, and in the night the warmth of the room caused it to ferment, so that the stopper shot off, making an explosive sound so loud that Mary was able to hear it.

The noise frightened her and brought back her voice. She began to talk in the middle of the night and has been able to talk a little more each day.

MINISTER VICTIM OF TRANCES

Cleveland, Ohio.—Rev. Henry Shrader is of the opinion that trances work for good and evil. For it was the result of a trance that he married, and it was the result of a trance that he and his wife separated.

So he testified when seeking a divorce before Judge Pearson of the court of common pleas. Shrader gave his present occupation as a salesman of corn salve and bunion plasters. Before the trances, to which he said his wife was subject, he was a United Brethren minister in churches in Bremen, Norwalk, Baltimore and Cincinnati. He testified his marriage took place after his fiancée told him she had conversed with his widow during a trance.

In another trance she accused him of stealing her watch, and the separation resulted. Mrs. Shrader lives in Albion, Ohio.

BRAZIL SUPPLIES WORLD WITH A MEDICINE

It is Chrysoarobin, Used for Skin Diseases and is Dangerous to Handle. Bahia, Brazil.—The world's supply of araroba, or, powder is said to come entirely from the state of Bahia. It contains the substance known as chrysoarobin, widely used in medicine in the treatment especially of parasitic skin diseases.

The product is found in the form of a pulp or small solid masses in crevices of the heart wood of the tree known as "amargosa do matto" and is said to be a morbid growth. The trees are not cultivated. They are from 80 to 100 feet high, and often attain a diameter of more than three feet.

To extract the powder, the trees which must have attained full growth and development, are felled and split open, in order to reach the deposits of araroba at their center. There is always present a very caustic liquid, which is drained off. The damp pulp and lumps of araroba are then removed, dried and finally powdered.

The pulp yields about 50 per cent of chrysoarobin. It occurs in a microcrystalline, odorless, tasteless powder, very slightly soluble in either water or alcohol. Chrysoarobin gradually oxidizes to chrysoaphanic acid and glucose, and it is in the form of this acid that the drug is generally used. It is administered in the treatment of eczema, psoriasis, and in ringworm and other similar maladies. The yield per tree may be as high as 60 or 65 pounds.

The powder is exceedingly dangerous to handle, for if it enters the eyes it causes blindness, and burns from the caustic liquid produce sores that may incapacitate a person for a long period. Those engaged in the work for any length of time, although protected by gloves and masks with glass eye pieces, invariably lose their hair, eyebrows and eyelashes, and sometimes even become blind.

GYPSIES NOW FLIT ALONG IN TOURING MACHINES

Romany Princesses Ride Thru Kansas In 8-Cylinder Car—Will Go to Paris

Salina, Kan.—The motor car has taken the place of the wagon with a band of gypsies that passed thru Salina, and it was not in any sense such a band as is usually seen on the streets of the Kansas towns. This band was living in style and the long white road with its campfires, fortune telling and nomadic thrills, is a thing of the past.

This band is soon to lose its princess—Princess Mary, who is going to Paris to study. Mary Matrine, or, as she preferred, Princess Mary, is a real princess of Romany and with her parents is on her way to New York, where she will take passage for Paris to improve her education. The mother, father, several sisters and brothers are making the trip from the west overland in a large 8 cylinder car, completely equipped as a Pullman.

"I've been with the wagons since I was a tiny baby," said Princess Mary, who is pretty, with olive complexion, beautiful teeth and bright eyes. "You know my father was king for a while and I have the royal blood in my veins and I want to be educated and live like you Americans; have training in music and the languages. And just think, I am going to get it."

She is now 17 years old and is enthusiastic over her future prospects. She speaks French, German and English and her instructors have been her parents only. And the pretty embroiderer she showed to the visitor reluctantly indicates that she has one of the American girl's habits at least.

HARD BOILED EGG MYSTERY

Where's the Sherlock Who can Figure This Out?

Connellsville, Pa.—John Layton of near Dawson, Pa., avers that he had the prize chicken of the country. Layton works at the Boyd Sand Works. While eating his lunch he broke the shell of an egg, and was about to eat it when he noticed something black in the yolk. Closer investigation showed a needle within the egg. How the needle got into the egg, which was perfectly sound when taken from the nest, is a mystery.

TOWN TO PROVIDE HUSBANDS

Promise Extended to School Teachers at Baxter, Kansas

Baxter Springs, Kan.—This town has undertaken to provide a husband for every unmarried school teacher in the country who desires to wed.

According to an advertisement in the News, published here, over the name of R. C. Wear, president of the Board of Education, "every female school teacher in the country is asked to put in an application for a school in Baxter Springs. A wedding guaranteed."

POOR GANGLIST, GOOD SWIMMER

Man Rescues Bride After Current Capsize Craft

Allentown, Pa.—Unskilled in navigation, Morris Gallino took his bride on the river in a canoe, which capsized in a battle with the current.

Gallino is a better swimmer than canoeist, and after his wife had sunk to the bottom of the river he dived, and got her to the surface. He was exhausted when help arrived. It was with extreme difficulty that the young woman was restored to consciousness.

WOMAN HELD FOR FAKE ARMY PULL

CHARGED IN LONDON WITH COINING AMBITION OF ENGLISH LIQUENTANTS INTO MONEY

HER PROMISES FOUND FANCIFUL

'Undischarged Bankrupt Officer Involved in Case of Impetuous Adventuress'

London.—Hilda Sutherland, otherwise Mrs. Walker James, a tall, attractive woman, said to be the daughter of a colonel, was summoned at Bow street, on a charge of obtaining money by false pretenses from Lieutenants in the army by offering to secure their advancement. She was charged with obtaining \$250 from Lieutenant George Francis Walker Yeats and \$200 from Lieut. Jacob Emil Hubert Zimmerman.

The statement of the prosecution was that Mrs. Sutherland stopped at Morley's Hotel, Charing Cross, posing as Mrs. Walker James and that she left after a month owing \$60. During that period, it was stated, she met Lieuts. Yeats and Zimmerman, who were staying at the hotel.

She was accused of representing to Yeats, a man of some means that two staff appointments were vacant, that her father was engaged at the war office and distantly related to the responsible head. There would be expenses incurred in getting next; she was charged with saying, and mentioned \$250.

Yeats, said the statement for the prosecution, paid this \$250 to a Lieutenant Hartford, with whom the defendant was associated, and there were reports of progress, followed by other payments by Yeats of \$25 and \$50 and then an advance of \$2750 on the security of a second mortgage on Hartford's home. The woman, it was stated, promised to repay out of an expected inheritance of \$7500. Yeats afterward, it was said sent \$500 to Hartford.

Hartford, said the prosecution, was married, with children, and appeared to divide his time between his wife and the defendant.

Later, in order to show Yeats that something was being done, Yeats was introduced through a matrimonial agent, to a retired major general, who took him to the war office with no result. No money was paid to the Major General.

According to the evidence it was declared Mrs. Sutherland was an impetuous adventuress and Lieut. Hartford is an undischarged bankrupt, while her connection with the war office was entirely fanciful. Evidence was heard regarding the case of Zimmerman, who had hoped to obtain a commission in the Royal Naval Air Service, and the hearing was adjourned, with the accused woman on \$500 bail.

GOATS CLEAN UP SASSAFRAS FIELDS

Also They Return Good Profit to Owner While Doing This Useful Work

Hopkinsville, K.—Farmers of this county have found a new and profitable use for goats. They have learned that goats will eradicate sassafras bushes by eating them to such an extent that the bushes are killed.

Furthermore a field well grown thick in sassafras bushes will furnish plenty of forage for a herd of goats during an entire winter. Then when spring comes and it is time to cultivate that ground, it will be found entirely free of sassafras, fertilized and ready for immediate use.

The goats will graze as well on the tender sassafras shoots as on grass. They also eat buds and leaves of the larger bushes and even gnaw the bark off the body of young trees. The constant eating of the buds in the top of the bushes soon causes the plant to die, even the roots dying. The old method of cutting out the bushes with an ax or grubbing hoe, was laborious and productive of even more sprouts the second season.

People who know anything about the baneful effects of sassafras bushes on the farm, and how nearly impossible it is to combat them, will readily appreciate the value of the goats' services.

The first farmer to try the experiment was F. M. Harned. He has a herd of fifty goats and not a sassafras bush in any of the fields where they have grazed. Witnessing this success, neighbors adopted the plan and now there are numerous herds in that section and the demand for goats as an antidote to sassafras is growing rapidly in all sections.

Not only are the goats profitable in that way, but they are money makers. Goats multiply rapidly. There is a ready market for the kids for fresh meat, and now there is a demand largely in excess of the supply for goats to combat the sassafras.

Old Fenian Relics Found
Dublin—While engaged in turf cutting operations in county Roscommon, men unearthed some relics apparently of the Fenian uprising in 1796, in the shape of pikes of crude manufacture, also a number of muskets. The relics were in a fair state of preservation.

TEASED HORSE GETS REVENGE

Teaches Mischievous Youth a Lesson in Retaliation.

Chester, Pa.—Casper Bessinger, a youth of this city, is convinced that a horse has its own way of resenting ill-treatment. Sitting in an automobile the young man had been amusing himself by tickling the horse on the nose with a long stick. The animal showed its irritation, but did nothing until the youth's attention was attracted elsewhere and he had forgotten about the horse.

Unexpectedly the animal reached its head over into the rear of the auto and seized the boy's shirt with its teeth. Lifting him from the auto the horse shook him as a dog would a rat and dropped him into the street scared and bleeding.

The young man's friends hurried him to the drug store for treatment.

MAKES ODD FUNERAL REQUEST

Wealthy Man's Ashes Buried With His Two Wives.

Washington, Pa.—James S. Stocking, 77 years old, former legislator, county clerk of courts, Civil War veteran and one of the wealthiest men of this city, was buried under the provisions of his will, which are extremely unusual. The portion of his will relating to his burial follows:

"I direct that my body shall be cremated, and no religious services shall be held on my body, ashes or grave. I direct that my ashes shall be divided in two parts and placed in two strong and air and water tight urns, one to be buried in my first wife's grave and the other in the grave of my second wife."

The hard tack issued to soldiers is not as hard as the one you discover with your bare foot.

WORKS WITH DISLOCATED NECK

Finishes Day Job, but after Takes to Bed

Birchwood, Wis.—William Morrison, proprietor of the Morrison sawmill on Potato lake, was caught in the machinery and his neck dislocated. He called a mill hand, who twisted his head until the dislocated bones snapped back into their sockets. He worked thru the day, but is now in bed. The doctor says that apparently the spinal cord escaped injury.

BIRD AN EXPERT PICKPOCKET

Railroad Man Finds His Lost Key in Wren's Nest

Mentone, Cal.—W. J. Trench, agent for the Santa Fe, a year ago left his overalls hanging on a peg when he went for a visit. In one pocket was a valuable key, with a string attached to it. The string dangled out of the pocket. When Mr. Trench returned he found his overalls, but no key. He has just found the string and the key when he kicked up a wren's nest while stepping over a bunch of cactus.

PROBATE ORDER

State of Michigan, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 12th day of November A. D. 1918.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Jacob W. Rogers, Deceased, William Harrington having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 3rd day of December A. D. 1918, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.

SERVETUS A. CORRELL, Judge of Probate.

A true copy. Servetus A. Correll, Judge of Probate.

STEADIER HOG MARKETS PLANNED

Hog Producers and Packers Confer With Representatives of the Food Administration and Agricultural Department and Adopt New Plan of Regulation.

In accordance with the policy of the Food Administration since its foundation to consult representative men in the agricultural industry on occasions of importance to special branches of the industry, on October 24 there was convened in Washington a meeting of the Live Stock Subcommittee of the Agricultural Advisory Board and the special members representing the swine industry to consider the situation in the hog market.

The conference lasted for three days, and during this time met with the executive committee of the fifty packing firms participating in foreign orders for pork products and with the members of the Food Administration directing foreign pork purchases.

The conclusions of the conference were as follows:

The entire marketing situation has so changed since the September joint conference as to necessitate an entire alteration in the plans of price stabilization. The current peace talk has alarmed the holders of corn, and there has been a price decline of from 25 cents to 40 cents per bushel. The fact that the accumulations of low priced corn in the Argentine and South Africa would, upon the advent of peace and liberated shipping, become available to the European market has created a great deal of apprehension on the part of corn holders. This decline has spread fear among swine growers that a similar reduction in the prices of hogs would naturally follow. Moreover, the lower range of corn prices would, if incorporated in a 13-to-1 ratio, obviously result in a continuously falling price for live hogs. In view of these changed conditions many swine producers anticipated lower prices and as a result rushed their hogs to market in large numbers, and this overabundance has added to and aggravated the decline.

The information of the Department of Agriculture indicates that the supply of hogs has increased about 8 per cent, while the highest unofficial estimate does not exceed 15 per cent. Increased production over last year. On the other hand, the arrival of hogs during the last three weeks in the seven great markets has been 27 per cent more than last year, during the corresponding period, demonstrating the unusually heavy marketing of the available supply. In the face of the excessive receipts some packers have not maintained the price agreed last month. On the other hand, many of the packers have paid over the price offered to them in an endeavor to maintain the agreed price. The result in any event has been a failure to maintain the October price basis determined upon at the September conference and undertaken by the packers. Another factor contributing to the break in prices during the month has been the influenza epidemic; it has sharply curtailed consumption of pork products and temporarily decreased the labor staff of the packers about 25 per cent.

The exports of 130,000,000 pounds of pork products for October compared with about 120,000,000 pounds in October a year ago, and the export orders placeable by the Food Administration for November, amount to 170,000,000 pounds as contrasted with the lesser exports of 98,000,000 for November, 1917. The increased demands of the allies are continuing, and are in themselves proof of the necessity for the large production for which the Food Administration asked. The increase in export demands appears to be amply sufficient to take up the increase in hog production, but unfavorable market conditions existing in October afford no fair index of the aggregate supply and demand.

It must be evident that the enormous shortage in fats in the Central Empire and neutral countries would immediately upon peace result in additional demands for pork products, which, on top of the heavy shipments to the Allies, would tend materially to increase the American exports, inasmuch as no considerable reservoir of supplies exists outside of the United States. It seems probable that the present prospective supplies would be inadequate to meet this world demand with the return to peace. So far as it is possible to interpret this fact, it appears that there should be even a stronger demand for pork products after the war, and therefore any alarm of hog producers as to the effect of peace is unwarranted by the outlook.

In the light of these circumstances it is the conclusion of the conference that attempts to hold the price of hogs to the price of corn may work out to the disadvantage of pork producers. It is the conclusion that any interpretation of the formula should be a broad gauged policy applied over a long period. It is the opinion of the conference that in substitution of the previous plans of stabilization the Live Stock Subcommittee of the Agricultural Advisory Board, together with the specially invited swine representatives, should accept the invitation of the Food Administration to join with the Administrator and the packers in determining the prices at which controlled export orders are to be placed. This will be regularly done. The influence of these orders will be directed to the maintenance of the common object—namely, the stabilization of the price of live hogs so as to secure as far as it is possible fair returns to the

livestock subcommittee of the Agricultural Advisory Board, together with special swine members and the representatives of the packers, to improve the present unsatisfactory situation, which has unfortunately resulted because of the injection of uncontrollable factors.

We ask the producer to co-operate with us in a most difficult task. The members of the Conference were:

Producers—H. C. Stuart, Elk Garden, Va., Chairman Agricultural Advisory Board; W. M. McFadden, Chicago, Ill.; A. Sykes, Ida Grove, Ia.; John M. Eppard, Ames, Ia.; J. H. Merger, Live Stock Commission for Kansas; J. G. Brown, Monro, Ind.; E. C. Brown, President Chicago Livestock Exchange; N. H. Gentry, Sedalia, Mo.; John Grattan, Broomfield, Colo.; Eugene Funk, Bloomington, Ill.; Isaac Lincoln, Aberdeen, S. D.; C. W. Hunt, Logan, Ia.; C. E. Yancey, W. R. Dodson.

Food Administration—Herbert Hoover, F. S. Snyder, Major E. L. Roy, G. H. Powell.

Department of Agriculture—Louis D. Hall, F. R. Marshall.

The packers present and others sharing in foreign orders were represented by the elected packers' committee. Those represented were:

Packers—Armour & Co., Chicago, Ill.; Cudahy Packing Co., Chicago, Ill.; Morris & Co., Chicago, Ill.; Swift & Co., Chicago, Ill.; Wilson & Co., Chicago, Ill.; John Agar Co., Chicago, Ill.; Armstrong Packing Co., Dallas, Tex.; Boyd Dunham & Co., Chicago, Ill.; Brennan Packing Co., Chicago, Ill.; Cincinnati Abattoir Co., Cincinnati, O.; Cleveland Provisions Co., Cleveland, O.; Cudahy Bros. Co., Cudahy, Wis.; J. Dold Packing Co., Buffalo, N. Y.; Dunley Packing Co., Pittsburg, Pa.; J. E. Decker & Sons, Mason City, Ia.; Evansville Packing Co., Evansville, Ind.; East Side Packing Co., East St. Louis, Ill.; Hammond Standish & Co., Detroit, Mich.; G. A. Hormel & Co., Austin, Minn.; Home Packing & Ice Co., Terre Haute, Ind.; Independent Packing Co., Chicago, Ill.; Indianapolis Abattoir Co., Indianapolis, Ind.; International Provision Co., Brooklyn, N. Y.; Interstate Packing Co., Winona, Minn.; Iowa Packing Co., Des Moines, Ia.; Powers, Begg Co., Jacksonville, Ill.; Kinsan & Co., Indianapolis, Ind.; Krey Packing Co., St. Louis, Mo.; Lake Erie Provision Co., Cleveland, O.; Layton Co., Milwaukee, Wis.; Oscar Mayer & Bro., Sedgwick and Beethoven streets, Chicago, Ill.; J. T. McMillan Co., St. Paul, Minn.; Miller & Hart, Chicago, Ill.; J. Morrell & Co., Ottumwa, Ia.; Nuckolls Packing Co., Pueblo, Colo.; Ogden Packing and Provision Co., Ogden, Utah; Ohio Provision Co., Cleveland, O.; Parker Webb & Co., Detroit, Mich.; Pittsburg Packing and Provision Co., Pittsburg, Pa.; Rahl Packing Co., Waterloo, Ia.; Roberts & Oake, Chicago, Ill.; Rohe & Bros., New York City; W. C. Routh & Co., Logansport, Ind.; St. Louis Ind. Packing Co., St. Louis, Mo.; Sinclair & Co., T. M. Cedar Rapids, Ia.; Sullivan & Co., Detroit, Mich.; Theurer-Norton Provision Co., Cleveland, O.; Wilson Provision Co., Peoria, Ill.; Western Packing and Provision Co., Chicago, Ill.; Charles Wolf Packing Co., Topeka, Kan.

As the result of long negotiations between this body and the Packers' Committee, representing the 45 to 50 packers participating in foreign orders, together with the Allied buyers, all under the Chairmanship of the Food Administration, the following undertaking has been given by the packers:

In view of the undertakings on the part of the Food Administration with regard to the co-ordinated purchases of pork products, covered in the attached, it is agreed that the packers participating in these orders will undertake not to purchase hogs for less than the following agreed minimums for the month of November, that is a daily minimum of \$17.50 per hundred pounds on average of packers' droves, excluding throw-outs. "Throw-outs" to be defined as pigs under 130 pounds, stags, boars, thin sows and skips. Further that no hogs of any kind shall be bought, except throw-outs, at less than \$16.50 per hundred pounds. The average of packers' droves to be construed as the average of the total sales in the market of all hogs for a given day. All the above to be based on Chicago.

We agree that a committee shall be appointed by the Food Administration to check the daily operations in the various markets with a view to supervision and demonstration of the carrying out of the above.

The ability of the packers to carry out this arrangement will depend on there being a normal marketing of hogs based upon the proportionate increase over the receipts of last year. The increase in production appears to be a maximum of about 15 per cent, and we can handle such an increase.

If the producers of hogs should, as they have in the past few weeks, prematurely market hogs in such increasing numbers over the above it is entirely beyond the ability of the packers to maintain these minimums, and therefore we must have the co-operation of the producer himself to maintain these results. It is a physical impossibility for the capacity of the packing houses to handle a similar over-flood of hogs and to find a market for the output. The packers are anxious to co-operate with the producers in maintaining a stabilization of price and to see that producers receive a fair price for their products.

(Signed) THOS. E. WILSON, Chairman Packers' Committee.

The plan embodied above was adopted by the conference.

The Food Administrator has appointed a committee, comprising Mr. Thomas E. Wilson, Chairman of the Packers' Committee; Mr. Everett Brown, president of the Chicago Livestock Exchange; Major Roy of the Food Administration, Mr. Louis D. Hall of the Bureau of Markets, to undertake the supervision of the execution of the plan in the various markets. Commission men are asked to co-operate in carrying out the plan embodied in the packers' agreement. It must be evident that offers by commission men to sell hogs below the minimum established above is not fair, either to the producer or the participating packers. Mr. Brown has undertaken on behalf of the commission men in the United States that they will loyally support the plan.

It is believed by the conference that this new plan, based as it is upon a positive minimum basis, will bring better results to the producer than average prices for the month. It does not limit top prices and should narrow the margins necessary to country buyers in more variable markets. It is believed that the plan should work out close to \$18 average.

Swine producers of the country will contribute to their own interest by not flooding the market, for it must be evident that if an excessive over percentage of hogs is marketed in any one month price stabilization and control cannot succeed, and it is certain that producers themselves can contribute materially to the efforts of the conference if they will do their marketing in as normal a way as possible.

The whole situation as existing at present demands a frank and explicit assurance from the conference represented—namely, that every possible effort will be made to maintain a live hog price commensurate with swine production cost and reasonable selling values in execution of the declared policy of the Food Administration to use every agency in its control to secure justice to the farmer.

The stabilization methods adopted for November represent the best efforts of the conference, concurred in by the Food Administration and the

THAT TERRIBLE BACKACHE.

Mrs. G. Hyde, Homestead, Mich., writes: "I had that terrible backache and tired out feeling, scarcely able to do my work, but find by using Foley Kidney Pills that I soon feel like a new person." Foley Kidney Pills help the kidneys throw out poisons that cause backache, rheumatic pains and aching joints.—Hite's Drug Store.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not irritate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

AUCTION SALE!

On account of sickness I will sell at Public Auction on my farm 3 miles north and 1-2 mile east of Chad-dock school house—Sec. 1 South Arm township, on **THURSDAY, NOV. 21** commencing at 10:00 a. m., the following property:

- | | |
|--|---|
| 1 Red Cow, 9 yrs. old, to fresh in Dec. | 1 Iron Wagon |
| 1 Spotted Cow, 5 yrs. old., fresh in Jan. | 1 Wooden Wagon |
| 1 Jersey Cow, 8 years old, farrow | 1 Bean Puller |
| 1 Red Poll Heifer, 16 months old | 1 Grain Cradle |
| 2 Red Poll Heifers, 6 months old | 1 Potato Scoop |
| 1 Brown Mare, 12 years old, wt. 1200 lbs. | 1 Weeder |
| 1 pair Bay Geldings, 5 and 6 years old, weight 2600 lbs. | 1 three-gallon Potato Sprayer |
| About 60 Chickens | 26 feet of six-inch Belt |
| 4 Shoats—about 100 lbs. each | 22 feet of four-inch Belt |
| 1 Top Buggy (nearly new) | 1 DeLaval Cream Separator No. 4 |
| 1 2½ h. p. Economy Engine | 3 Cream Cans—5, 8 and 10 gallons |
| 1 Wood Sawing Outfit, nearly new | 1 15-gal. Barrel Churn. 1 Ice Box |
| 1 pair Heavy Sleighs | 1 single Buggy Harness |
| 1 pair Light Sleighs | 1 double Work Harness |
| 1 Deering Binder | Eighteen-foot Ensilage |
| 1 Deering Mowing Machine | Four or five tons loose Hay |
| 1 Deering Hay Rake | Four acres Oat Straw |
| 1 Empire Grain Drill | About 100 bushels Oats |
| 1 Riding Cultivator | 1 Bee Hive and Super |
| 1 one-horse Cultivator | 4600 Lath |
| 1 spike-tooth Drag | 1000 feet 6-inch Pine Flooring |
| 1 spring-tooth Harrows | 300 feet of Pine Ceiling |
| 1 Disc Harrow | 5 Inside Doors with Casings |
| 1 Syracuse Plow | 3000 or 4000 feet Joist 2x4 |
| 1 Oliver Plow | 2 Windows with frames |
| 1 Cutting Box | Other small articles too numerous to mention. |
| 1 Chatam Fanning Mill and Bagger | |

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

HISTORIC PRECEDENTS

"Four Thousand years ago, Food Commissioner Joseph, in the land of Egypt commandeered one-fifth of the wheat crop of Egypt each year for seven years and stored it in the cities nearest the wheat fields. His drastic action at that time saved the world from starvation.

"Two thousand five hundred years ago Nebuchadnezzar, King of Babylon instructed that certain men whom he wished to have attached to his court be fed on king's food and wine to give them a well-nourished look. One of these men, named Daniel, persuaded his caterer that himself and friends could be better nourished on pulse and water, and requested that he make a test covering a sufficient length of time; the others to be fed on king's food and wine. The test showed that those who lived on pulse (lentils) and water were better nourished than those fed on king's food (luxurie and wine.)

tory records to miracle of feeding five thousand with a few barley loaves and fishes. The people were commanded to sit in rows of 50 to the row, and the servers passed before each and gave to everyone his portion, so that all were served. It was an instance when a little food went a long way, and the fragments that remained were gathered up so that no food was wasted."—Hotel Monthly.

Clever people always seem to be working so hard to maintain their reputation for cleverness that they don't have much time for real fun.

HOW A SALESMAN SUFFERED.

R. J. Porter, Sterling, Col., writes: "I suffered with a painful, weak back. As a traveling salesman I had to stoop frequently to pick up my grips, and the pain when I straightened up was awful. I was induced to try Foley Kidney Pills. Relief was immediate. Say, they're great." Prompt and tonic. Hite's Drug Store.

Briefs of the Week

Howard Porter was a Chicago business visitor first of the week.

W. R. Stewart was called to Mapleton Tuesday, by the death of a sister.

Chas. A. Brabant was at Grand Rapids and Detroit on business this week.

Miss Ruth Gregory returned to her school duties at Yale, Mich., Saturday.

Mrs. Claude Beals left Wednesday for Fife Lake, where she will visit relatives.

Mrs. F. C. Pillsbury went to Detroit, Monday, for a visit with her son and family.

Miss Sadie Metz left Monday for Big Rapids where she will attend the Ferris Institute.

Mr. H. W. Dicken is receiving a visit from her sister, Mrs. W. B. Smith of Petoskey.

Harrison Ranney has taken A. K. Hill's place as Mail Carrier of Rural Route five.

Mrs. Noah French with children left Tuesday for Jackson, where Mr. French is now located.

Mrs. R. O. Bisbee was at Detroit this week for a visit with her sister, Mrs. Morgan Lewis.

George Hager and family now occupy for the winter the residence of A. K. Hill on Second-St.

Samuel Brigham with sister, Mrs. M. Burns, left Saturday last for the latter's home at Hart, Mich.

Mrs. Almeda Lorraine left Wednesday for a visit with her daughter, Mrs. Jay Trombly, at Flint.

Jerry Deschane, Jr., who has been visiting relatives here, returned to Duluth, Minn., Monday.

Regular meeting of East Jordan Lodge No. 379, F. & A. M., this Saturday night, Nov. 16th. Important business to transact.

Mr. and Mrs. M. C. Eddie, who have been on the farm of James Thompson this summer, returned to their home at Cadillac Wednesday.

Mr. and Mrs. Joseph Zoulek left Thursday for Chicago, where they will spend the winter months with their daughters who are located there.

Leo LaLonde and family now occupy their newly purchased home—the former Tindale residence on Main-st., recently occupied by John Cutler and family.

Mr. and Mrs. James Malpass and daughter, Miss Emily, returned home from Battle Creek, Friday, where they have been visiting their daughter, Mrs. Stanley Risk.

Mr. and Mrs. A. K. Hill left Wednesday for Troy, Oakland County, where they will spend the winter months, returning to East Jordan about the first of May.

Elder Orton of Beaverton will hold special services at the L. D. S. Church in this city every evening the coming week, commencing Sunday Nov. 17th. The Church plans to dedicate their new church building on Sunday Nov. 24th.

D. C. Loveday and daughter, Miss Louise, left Thursday for their winter home at St. Petersburg, Fla. They intend to stop over at Lansing for a visit with their son and brother, W. A. Loveday and family. From there Miss Loveday goes to Atlanta, Ga., where she will devote ten days to Army Camp Work as reader.

The many friends of Rev. A. D. Grigsby, who was Pastor of the Presbyterian Church here for nine years, will be interested to learn that he has resigned as Pastor of the Morrice Presbyterian Church to take effect Dec. 1st, and is disposing of his household goods and he will then go immediately to Toledo, Ohio, where he expects to spend the winter with his son, Allan and family.

C. S. Abbott was here from Detroit this week.

Miss Etta Kiser visited relatives at Traverse City first of the week.

Miss Margaret McGuire of Deward visited friends in the city over Sunday.

Miss Edith Coup of Alanson was guest of Miss Edith McLaughlin over Sunday.

Mr. and Mrs. Verne Richardson and child returned Tuesday from a visit at Mancelona.

Mr. and Mrs. John Cutler left Tuesday for Flint, where they will make their home.

Miss Lucy Brown of Mapleton is guest at the home of Mr. and Mrs. W. R. Stewart.

Mrs. Ernest Higby and child returned Monday from a visit with relatives at Central Lake.

Franklin Heath returned to his work at Kalamazoo, Friday, after a visit with his parents here.

Miss Marie Poulson—who has been employed at Muskegon, came home Thursday for a visit.

Junie Coon went to Grand Rapids, Monday to attend a meeting of the Grand Lodge of the Odd Fellows.

Mrs. Clark Barrie returned Monday from Flint, where she has been visiting her daughter, Mrs. Roy Blair.

Mrs. Albert Kile left first of the week for Muskegon, where she will remain for the winter with her son and daughters.

David Whiteford was home over Sunday from Ann Arbor, where he is attending the Student's Army Training Corps.

Mrs. Henry Westjohn and daughter of Traverse City are visiting at the home of her parents, Mr. and Mrs. Arnold Kiser.

Mrs. Archie Kowalski with daughter, Blanche, left Tuesday for Detroit, where the latter will take treatment at Harper's Hospital.

The Friendship Circle No. 1 will meet at the home of Mrs. Chas. Evans on Empey's Addition, Wednesday, Nov. 20th. Visitors welcome.

Howard Wiekell with daughter, Mrs. F. P. Ramsey returned Monday from a visit with relatives at Detroit. Mrs. Jack Wiekell and son accompanied them here for a visit.

M. E. Ladies Aid will be entertained at the home of Mrs. Roy Webster Wednesday afternoon, Nov. 20th. The postponed annual election of officers will take place at this time. Members please attend.

A farewell party will be tendered Chaplain M. E. Hoyt at the Methodist Church parlors next Tuesday evening. All friends are invited to attend. The Chaplain reports for duty at Camp Sherman, Ohio, latter part of next week.

The farm residence of Don Parmenter, located seven miles south of this city, was destroyed by fire, Tuesday afternoon. Most of the household goods were also destroyed, only a few articles being saved. Partially insured.

Supt. and Mrs. M. R. Keyworth, Rev. R. S. Sidebotham and Com'r May L. Stewart drove through by auto to Cadillac, Monday, returning home Tuesday. The object of the trip was to examine the Cadillac Library for ideas toward equipping East Jordan's new Library now nearing completion.

FOR SALE—Cow, team of Horses, and R. I. Red Roosters—F. C. Pillsbury, Route 1, East Jordan.

COMMUNISTIC CIRCLE

Widow's Suit for Dower Interest Reverts that Poor Wealthy Iowans Held Business in Common.

Des Moines, Ia.—A communistic family circle, believed to be the most unique and the first of its kind, far as court circles have known, has been revealed here by the filing of a suit by the widow of one of the four Fleming brothers, commonly reported to be millionaires.

Mrs. Anna B. Fleming, widow of Charles Fleming, one of the owners of the Fleming building and other valuable properties, has filed suit in the District Court, asking for her dower interest in the large Fleming holdings, thereby throwing light upon the extraordinary family arrangement.

Mrs. Fleming alleged that, on the death of her husband, the three remaining brothers collected his life insurance, which was made payable to them instead of to the wife, and that they have refused to divide with her any share of her husband's property.

In an answer just filed to this petition it is revealed the innermost workings of the Fleming family system. For two generations the Flemings have conducted their business jointly. The present generation has maintained its business in the name of the Fleming brothers—John, Charles, (now dead), Stanhope and Robert J. Fleming. Not once has any of the brothers engaged in any separate or individual enterprise, except in the case of marriage.

The central idea, according to the answer filed by the three brothers, has been that "the Flemings" constituted a family circle and that the producing members of the family were working for the best interests of all, include wives, mother, sisters and children, if any, of the producers. Every business deal has been conducted in the name of the Fleming brothers, with the understanding that it belonged to all of them and that on the death of one member of the family his share of the property should revert to the surviving brothers.

The provisions of this unique arrangement are contained in the last contract drawn up by the brothers in 1911, which contains the following agreements:

1. No one of the Fleming brothers owns any separate or divisible interests in the business.

2. No one of them can acquire any separate interest except with the con-

sent of all others.

3. In the event of the withdrawal of one of the members, he can only take with him as his individual share that which the others set off for him.

4. In the event of the death of one of the members, his entire interest and ownership shall go to the surviving members.

That this arrangement has resulted in great success and uniform happiness for the members of the family is asserted in the answer filed by the brothers. They assert that the four brothers, and not Charles Fleming, have supplied the funds which maintained the home of Mrs. Fleming while her husband was alive and that she still is regarded as a member of the Fleming family and will continue to be maintained on the same plane as any other member of the family. Family pin money and expense have been supplied from the common fund for all of the separate families. If the widow so elects, the petition asserts, she may continue to remain a member of the family and will continue to enjoy the same measure of this world's goods any other member of the family enjoys.

SMOKED 94,380 CIGARETTES IN 10 YEARS, QUILTS, GETS ILL

Man Had to Go to Hospital When He Stopped Smoking, but Will Not Resume.

Detroit, Mich.—James Delaney became ill as a result of his endeavor to quit cigarette smoking and had to go to a hospital, where his bill totaled \$43.50, but he is determined not to return to cigarettes.

Delaney had been smoking cigarettes for more than 10 years. He heard an evangelist preach on man's allegiance to God, in which was emphasized the gospel of putting out of life false idols. The listener began to reason on the full meaning of the sermon, and concluded that worship of nicotine was one of the false idols. He accordingly "hit the trail" and swore off.

Delaney told the secretary of the Y. M. C. A. who took his name that he had smoked approximately 94,380 cigarettes, and gave him a box half filled with them, the supply remaining when he gave up the habit.

"I never knew how many cigarettes I smoked," he said, "until I lay ill in the hospital. To pass the time I got a pencil and some paper and figured it up. I am convinced that the cigarettes would have caused my death in time."

CUT THIS OUT—IT IS WORTH MONEY

DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets.—Hite's Drug Store.

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Not Upheld Simply by Reputation.

There's more back of Ralston Shoes than simply an honorable name. Forty years of expert shoe-making have taught the manufacturers how to make good shoes—and, what's more they are making good shoes.

C. A. HUDSON

He was a conservative who remarked: "There's something remarkably pretty about a good-looking girl."

Worry and wrath put stones in your path.

LATH BOLTS Wanted At Once!

Must be not less than 5 in. diameter and 49 in. length. HEMLOCK, Spruce, Balsam and Cedar. Hemlock Bolts must be separate. Will pay \$4.50 delivered at Mill-B.

East Jordan Lumber Co.

Special Offer to the Readers of This Paper

If you will send us the names of five ladies in your town who you think would like to read the FAMILY STORY PAPER, we will send you and them each a sample copy, and will also send as a reward for your effort your choice of any one of the following: Your choice of 10 High Grade Assorted Breeding Post Cards, Camp Scenes, Sailor Toys, Soldier Boys, Battleships, Hallowsen, Thanksgiving, Christmas, New Year, etc. 1 Silver Plated Souvenir State Tea Spoon. The Ladies Fancy Work Manual for Crocheting and Embroidering. Mystic Oracle and Gypsy Dream Book. The Boy's Book on Toy Making. Enclose 4c stamps to help cover cost and postage. N. L. MUNRO'S PUB. HOUSE 338-340 Pearl St., New York.

This is the Stove Polish YOU Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on aluminum, brass and gold by hardware and export dealers.

All you need is a tin. Use it on your cook stove, range, or on the brass knobs, handles, and other articles in your kitchen. It will give you a beautiful, shining finish on all these articles.

Black Silk Stove Polish Works Everywhere.

Use Black Silk Stove Polish on Brass and Copper. It will give you a beautiful, shining finish on all these articles.

A Shine in Every Drop

CHILD'S PRAYER ANSWERED

Family Cow Restores Her Lost Neck Chain.

Temple, Texas.—Little Ida May Hunt, residing at Nolan Valley, recovered a gold chain and lavalliere lost some weeks ago. The ornament was found by her Sunday morning, twisted around the leg of the family cow and mud-encased.

The child lost the trinket in the river. She prayed that it might be recovered to her. The family cow, seeking water, waded in the river, sinking up to the hocks in ooze, and when she pulled her feet out of the mud the lost article came up, too. When the father went to milk the cow the discovery was made.

Porcupines Spear Auto Tires. Winsted, Conn.—Motorists traveling thru the wilds of Southern Berkshire are continually delayed by porcupines puncturing their tires. A porcupine which held up the car of William Fox near Sandisfield Center paid with its life for killing one of the tires with quills.

WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mrs. ALBERT SULTZ, 603 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "I am so nervous, I cannot sleep," or "it seems as though I should fly." Such women should profit by Mrs. Sultz's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Tonsorial Artist.
When in need of anything in my line call in and see me.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back Hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of swelling, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 30 cent bottle of old, honest, "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

ROMANCE HID IN PROSAC BUREAU

GEOLOGICAL SURVEY MEN OF TEN FIND FORTUNE IN SPECI-MENS SENT THEM

FIND GOLD THAT IS NOT GOLD

Alaskan Miners, Seeking Gold, Find Tin Ore, Formerly Cast Aside.

Washington.—The other day a man out in Colorado found what he took to be a large-sized diamond. The varied mineral resources of his native state were pretty well known to him, and he knew that diamonds are scarce in Colorado outside of rings and scarfpins. So he sent his find, carefully registered, to the United States Geological Survey at Washington, where the mineralogists regretted to inform him that it wasn't a diamond but a lump of quartz.

Diamonds that aren't diamonds are among the things that come often to the geological survey for identification. Many rocks of one sort or another arrive with each day's mail, most of them from people who think they have found great wealth. Commonest of all are specimens of "fool's gold"—iron pyrites, which is a yellow, shiny mineral that comes nearer the popular idea of what gold looks like than does gold itself.

Mica is another strong bidder for first place among the minerals that look more valuable to the uninitiated than they are. Certain micas in the form of very small particles have a yellowish, shiny appearance that leads to their being taken for gold.

The survey is forbidden by law to make elaborate analyses and is effectually restrained from breaking the law by the lack of money appropriated for that purpose. Officials believe that were any good purpose served by making analyses of specimens sent in by all and sundry congress might be persuaded to extend the jurisdiction and the appropriation of the survey to include such work. Such a step, however, might be far from desirable.

Your miner may or may not be an honest and deserving person to help. Men have been known to soil mines with the aid of artistically illustrated prospectuses that were something of a disappointment to the stockholders after work was actually begun. There are mine promoters who only need a little encouragement and they will sell you a radium prospect in the middle of the southern ocean.

The assay is one of the important features of a selling scheme. The assay is supposed to show how many dollars worth of gold is present in the rock in question. It is customary—not so much now as it once was—to make the assay from one, or two or three, fragments of rock. Needless to say, the mine owner with a claim for sale does not hunt through his rock dump for an unusually poor specimen as a sample for assay. He has been known to spend some hours going over the dump for a rich fragment—maybe the only one in sight.

Not long ago there was much excitement over a gold strike in New England. Samples assayed ran as high as \$50 to the ton in gold, which would represent a handsome profit for a company that chose to mill the rock. The geological survey was asked to investigate, however, and found the rock in actual practice would run about 60 cents to the ton.

The modern methods of big companies in sampling a new property furnish a strong contrast. Thirty or forty thousand dollars may be spent in preliminary work, simply to find out whether the property is worth working. Since, in cases like the Michigan copper mines, the investment in plant may run up to a million dollars, it is worth while to be sure you are right before going ahead. One company, in doing its preliminary work recently, took out fifty samples. Each sample weighed two tons—a total of 200,000 pounds of rock in "samples." These samples were thoroughly mixed and the weight was gradually cut down until perhaps fifty pounds of rock remained. That fifty pounds was a fair sample of the 200,000, and the 200,000 pounds was a fair sample of the property.

Up in a certain Alaskan placer gold district the miners washing gold from the gravel were bothered by the presence of a nondescript brown mineral that was exceedingly difficult to separate from the gold. Gold is separated from gravel by taking advantage of its great weight; but this strange mineral was also exceedingly heavy. It made a nuisance of itself. The miners cursed it liberally, for like most practical gold miners a few common ones were the only ones they knew. Finally some of them remembered that a geological survey expert was in the neighborhood and they took the heavy brown mineral to him. It was a valuable ore of tin. And for four years now Alaska has been producing tin at a good profit.

A man isn't necessarily two-faced because he has a double chin.

JAP BABIES BORN HERE TAGGED AND SENT HOME

Five to Fifteen a Month Taken by "Carrier" to be Reared in Native Land.

Tokio, Japan.—Attention is being called here to the growing success of what is known as the "baby carrier" business between the United States and Japan. The essence of the idea is the bringing to Japan of Japanese babies born in the United States in order that they may be brought up in this country and receive their education here.

Over 300 babies, it is estimated, are born every year to Japanese families in California. Many families are anxious to have their children reared in Japan, but are financially unable to bring the baby home. Consequently hundreds of babies are brought here by carriers.

On each trip the carrier—a Japanese man or a Japanese man with his wife—brings from five to fifteen babies and distributes them in all parts of the empire, usually at the homes of the grandparents. Masumi Yoshimi, one of those who conceived the carrier project, says he does not find the work troublesome.

"The only danger," he said, "is mixing up the babies, but I have avoided that by keeping an identification card constantly tied around the neck of each child."

"LOST" GEMS ARE RECOVERED

Package of Valuables Turns Up in St. Paul Postoffice.

St. Paul, Minn.—A few days ago a St. Paul woman gave a Chicago hotel clerk an envelope containing jewels valued at \$1,500, \$200 in currency and a \$50 draft to be placed in the hotel safe over night. The contents of the envelope have now been returned to the woman by Otto Raths, St. Paul postmaster.

When the valuables were called for at the Chicago hotel they could not be found. The clerk to whom they had been given had started on a two-weeks vacation. The woman stormed at the hotel management but didn't get any trace of her valuables. When she asked for her bill she found on it an item for "postage 4 cents."

The clerk had affixed the stamps and the valuables had been sent to St. Paul. The envelope was badly torn on its arrival here and postal clerks puzzled over the strange manner of shipping valuables until the woman appeared, claimed the shipment and explained its cause. Why they were sent here has not been explained.

NO DIVORCE FOR AN ICED TOE

Husband Gets Decree, Despite Wife's Cold Countercharge.

New York.—Ice water dropped by a husband on his wife's big toe is not enough to dissolve a marriage, according to Vice Chancellor Lewis of Jersey City.

Mrs. Julia Steffens of Central avenue and Sherman place, Jersey City, could show the Vice Chancellor no reason for divorce stronger than the ice water, which she says was poured on her while she slept. The decree was refused to her and granted to her husband, William Steffens of 1012 Park avenue, Hoboken, in a counter suit. He explained it was just a teaspoonful of water, anyway, and he was trying to wake her so she would go to church with him.

USES FLAG FOR COAT-LINING

"Prettiest Thing I Could Find," Tailor Told Court.

Boston, Mass.—Pankus Brown, a tailor and a United States citizen for several years, admires the flag so much, he told the South Boston district court, that when he wanted to make a fur coat especially attractive he caused his assistant to use a silk flag for lining.

"I meant no insult to the flag," Brown pleaded, when charged with misuse of the national emblem. "I wanted to make the coat look nice and I used the prettiest thing I could find. That flag cost me a lot of money."

The court ordered him fined \$50.

CLEVELAND—MYSTERY SOLVED

"Muffled Boom" Only Janitor Practicing on Bass Drum.

Cleveland, Ohio.—Dave Vincent, the hardware salesman, was mystified for several days this week by a strange muffled booming in the apartment house in which he lives out Carnegie avenue. Others in the house were also mystified.

Finally it developed that the janitor was learning to play the bass drum, and was getting up early to practice on it.

"I didn't suppose any one would notice it," said the janitor. "I shut myself up in a closet when I practiced, and hit it kind of easy."

POISONED BY NEEDLE IN WASH

Laundress Brings Suit for \$7,500 Damages.

Kansas City, Mo.—A needle in clothing which she washed caused Mrs. Lola Belton, a washerwoman, to file suit in the Circuit Court in Independence for \$7,500 for loss of the use of her left hand. The suit against E. C. Stoker and Mrs. Arvilla Stoker, his wife.

SAD FATE AWAITS BULL FROG FARMER

UNCLE SAM, OFTEN ASKED FOR DATA, CALLS IT MOST DIFFICULT BUSINESS

THREE KINDS IN THE U. S., EDIBLE

Raising Polliwogs to Maturity Just One Trouble After Another.

Washington.—Do you realize that frog legs command fancy prices, and that the American people are the greatest frog eaters in the world? Also that frogs will and do live in almost any pond, marsh, creek or puddle?

If you ever had this large idea, you probably thought it was a singularly brilliant and original one. But it wasn't. The records of the bureau of fisheries show that somebody has it literally every day. For it is seldom a day passes that the experts of that busy government organization do not receive at least one letter asking whether frogs may be raised in captivity, and if so how, and if not, why not.

The bureau of fisheries is now compelled to keep on hand a large supply of mimeographed letters telling all that the government scientists know about the raising of frogs in captivity, and this form is sent to all inquirers.

It does not give a great deal of encouragement, so far as the practicability of frog farming is concerned. It says that about all you can do is to buy or make a suitable puddle, gather a lot of frogs—not too many—and leave the rest to Providence and the polliwogs.

The demand for information about frogs is growing so fast that one of the government experts declared it to be "a run on frogs." And what the American public wants, it always gets.

Easy as it seems to raise frogs, the undertaking is really one of the most difficult imaginable. Of course, the only object in domesticating any wild thing used for food is to produce it in greater numbers relative to the area used.

Unless you can raise more frogs to the acre than that acre would support naturally, you might as well confine yourself to hunting wild frogs in the first place.

Now the frog is a predatory animal. It will touch nothing that is dead. Its food consists of insects, fishes, mollusks and other small creatures that dwell in shallow water or hover about it.

Therefore, before you can increase the per acre production of frogs, you must find some way of producing their natural food in quantities. Various methods have been tried, such as setting brilliant electric lights about the ponds to attract insects, but none of them have been successful.

If you can devise some way of catching insects alive in wholesale quantities, your fortune is made.

Not only is the feeding problem difficult, but when it is not rightly provided for, the frogs take the matter into their own mouths and gayly devour each other. One man who tried to raise frogs for, twenty-five years without ever putting the proposition on a paying basis summarized his experience in these words: "The big frogs ate the little frogs, the little polliwogs ate the little polliwogs, and the birds ate them all."

There are three kinds of frogs in the United States that are edible. The bull frog is the most valuable of these, and also the hardest to raise because he is naturally a solitary creature, and does not get along in crowds. The green frog is also good to eat, but not much better to raise. The little leopard frog is easier to raise because he is a naturally gregarious little chap, with a fondness for singing in chorus.

He is so small, however, that he is not good for much except bass bait. In some regions a lot of money can be made raising him and selling him to sportsmen for just that purpose.

FIND BIG NEW NATURAL SPAN

Bridge Near Utah Town Hitherto Unseen by White Men.

Salt Lake City, Utah.—A natural bridge larger and higher than any other known in Utah has just been discovered in Iron County, that State, according to information received by J. Edward Taylor, State horticultural inspector.

Mr. Taylor was informed that the bridge is 150 feet in height. It is located ten miles east of Cedar City, but so rough is the country in which it is situated that it has stood hitherto unseen by white men.

Why Compare Beef and Coal Profits?

Swift & Company has frequently stated that its profit on beef averages only one-fourth of a cent a pound, and hence has practically no effect on the price.

Comparison has been made by the Federal Trade Commission of this profit with the profit on coal, and it has pointed out that anthracite coal operators are content with a profit of 25 cents a ton, whereas the beef profit of one-fourth of a cent a pound means a profit of \$5.00 a ton.

The comparison does not point out that anthracite coal at the seaboard is worth at wholesale about \$7.00 a ton, whereas a ton of beef of fair quality is worth about \$400.00 wholesale.

To carry the comparison further, the 25 cent profit on coal is 3 1/2 per cent of the \$7.00 value.

The \$5.00 profit on beef is only 1 1/4 per cent of the \$400.00 value.

The profit has little effect on price in either case, but has less effect on the price of beef than on the price of coal.

Coal may be stored in the open air indefinitely; beef must be kept in expensive coolers because it is highly perishable and must be refrigerated.

Coal is handled by the carload or ton; beef is delivered to retailers by the pound or hundred weight.

Methods of handling are vastly different. Coal is handled in open cars; beef must be shipped in refrigerator cars at an even temperature.

Fairness to the public, fairness to Swift & Company, fairness to the packing industry, demands that these indisputable facts be considered. It is impossible to disprove Swift & Company's statement, that its profits on beef are so small as to have practically no effect on prices.

Swift & Company, U. S. A.

Temple Theatre TWO NIGHTS Nov. 21-22

Sergt. Arthur Guy Empey in Vitagraph's master production, "Over the Top."
