## The Battle of The Ballots

### Att'y Dwight L. Wilson Elected Mayor of our City.

### Good Roads Amendment Carries and Prohibition Retained.

Probably the biggest surprise in Monday's election was the enormous dry majority rolled up throughout the state. Only three counties out of the eighty-eight swung into the wet column—Wayne, Saginaw and Menominee—and the so-called saloon amendment was snowed under by something like 150,000 majority.

The "good-roads" amendment was also carried by a like majority throughout the state, and already the state officials are planning to go ahead with good roads work. An extra session of the state legislature may be called for this work after May 1st.

Little interest was shown in the state amendment relative to increasing salaries of justices of courts of record during term of office, and this amendment probably was defeated.

The entire State Republican Ticket was elected by big majorities. Thomas E. Johnson of Coldwater, whose name was pasted on the ballots following the death of Fred L. Keeler, republican candidate for superintendent of public instruction, was elected.

May L. Stewart, republican candidate for County Commissioner of Schools, had a clear field and was elected.

### East Jordan's Vote

In the city a total of 630 ballots were cast. Att'y Dwight L. Wilson was elected Mayor by 140 majority over his opponent, Charles H. Whittington. The vote by precincts is as follows:

Whittington	Wilson
First Ward.....48	68
Second Ward.....56	106
Third Ward.....140	212
Total.....244	Total.....386

On the beer and wine amendment East Jordan went dry by 236 the vote being as follows:

YES	No
First Ward.....43	73
Second Ward.....62	101
Third Ward.....91	258
Total.....196	Total.....432

Complete figures on the good roads question for the city are not available. The third ward cast 54 votes against and 268 for the amendment.

### WAR EXHIBIT TRAINS TO TOUR MICHIGAN

The chief feature of the first exhibition train to be sent out under the direction of the Liberty Loan committee of the Seventh Federal Reserve district in connection with the Victory Loan, is a whippet tank. These whippet or "baby" tanks are the first small tanks that were made in the United States and thousands of them were in process of construction when the armistice was signed. They are modeled after the French Renault type of caterpillar "baby" tanks with added improvements. The weight of these tanks is six tons and each is equipped with a sixty-two horse-power motor. The protective covering consists of steel armorplate five-eighths of an inch thick.

In addition to the tank, the exhibition will include anti-aircraft guns, siege guns, the famous French 75's, as well as trench mortars, howitzers, grenades, torpedoes, helmets and breastplates which were taken in battle. The exhibits, which are free to the public, will be in charge of a guard of twenty returned soldiers and sailors. Well-known speakers will deliver addresses at every stop.

The train consisting of three flat cars, a baggage car, in place of the box car used in former exhibition trains, and a Pullman, will leave Chicago, April 7.

The tour of exhibits will extend for four and a half weeks ending May 6th. The Michigan itinerary in so far as it applies to this part of the state, is as follows:

### REV. MAURICE GRIGSBY ACCEPTS CALL TO DETROIT PASTORATE

Rev. A. D. Grigsby Sends The Herald a Friendly Line.

April 7th, 1919.

My dear Lisk:—

Will you kindly note the change in my address and send me the old East Jordan paper that I prize so much. I expect there are at least two weeks' issues that my son in Toledo has failed to forward.

I trust you are well and happy and I believe I know you are well employed. I enclose notice which is good enough to insert for the benefit of my son's many friends. With very kind regards,

Yours very truly,  
A. D. GRIGSBY,  
2026 Gartner Ave.,  
Detroit, Mich.

Rev. Maurice Grigsby's many friends will be interested to learn that he has received a unanimous call to become Pastor of the Memorial Church at Detroit at a salary of \$2,000 to begin his labors there in May. The church has a beautiful structure, Pipe Organ, paid choir and a very sociable and intelligent congregation. Rev. A. D. Grigsby, his father, preached there last Sunday. The latter has left Toledo, and is now staying temporarily in Detroit with his son.

The poorest "company" is the man who is poor company for himself.

You do just enough work to "get by" with your job, some day your job will "get by" without you.

If you have brains enough to do what you are doing it doesn't signify that you have enough to do the things you'd like to do.

If you'd just settle down to the fact that you're never going to be rich, and not worry about it, you'd have more time to do the things that may make you rich.

## Thirty-Second Coming Home

### Expects to Start About the First of May.

Among the good news received here in letters from overseas, is the information that the Thirty-second Division (which includes our Headquarters Company Soldiers) expects to start from Germany on their homeward bound trip about the first of May. Just when the East Jordan contingent will finally reach their home here is problematic, but it will undoubtedly be some time in June.

If they should return in June, then the East Jordan contingent will have seen exactly three years' service. The order for Company I, 33rd M. N. G. to mobilize was received at the Army here on Monday, June 19th, 1916. This was for Mexican border work, and the 33rd was among the few regiments still held in the service when war was declared on Germany—June 6th, 1917.

On Saturday, July 1st, 1916, East Jordan gave these soldiers a farewell demonstration. On that morning thousands of people from our city and surrounding county were at the depot to see them start for Camp Ferris—the first lap of what was destined to be a long, long trail.

Let us start planning now to give these heroes an even better public reception on their homecoming.

### WAITS HUNDRED YEARS TO VOTE

Is Now in Her Hundredth Year and Monday Voted a Straight Republican Ticket and for Drys

Mrs. Eliza Johnston, mother of Mrs. W. S. Mesick, Mrs. Sarah Smith and Miss Amanda Johnston, of this city, and who has resided here for about fifteen years, has at last realized her lifelong wish—to be given equal suffrage and the right to vote. She is in her hundredth year and Monday voted in the general elections, casting her ballot in the First ward. She says she voted a straight republican ticket and for the dry cause.

This widely-known Petoskey woman came to Michigan with her parents when ten years of age and located near Detroit. Later she resided in Elvings-ton county and for fifteen years has made her home on Lake street in this city. She has been visiting her daughter, Mrs. W. S. Mesick, for several weeks.—Petoskey News.

### PREXY SPARES THE ROD

Wonder what would happen if some morning we would pick up the paper and see where President Wilson had said that the first thing to be obtained is peace? A peace which would punish the Hun for every atrocity; a peace which would put aside every thought of leniency to the German people, who gloried in the crimes of their soldiers. We could say with that famous cartoonist, "Aint it a grand and glorious feeling?" Other nations united in an effort to obtain such results can point with pride to their sons who come out unafraid of such arguments. Lloyd George has been a constant advocate of "peace first." In his latest statement he sees grave danger ahead if peace is not obtained first and that quickly. Everyone knows the attitude of France.

The hope of the world is in its young men, but to look at some of them you'd never think it.

### WEST SIDE SCHOOL NOTES

The Kindergarteners are getting ready for Easter. They are making paper chickens, chicken coops and rabbits.

The first and second grades are making animal books. The first graders have made pussy-willow cats.

The third and fourth grades are making Easter baskets.

We have a Bird Calendar in school. The first one that sees a bird has his name of the bird and date put on it. They have seen Bluebirds, Bluejays, Wrens, Killdeer, Goldfinch, Swallows, Meadow Larks and Blackbirds.

The fifth and sixth grades are making Easter and May baskets. They are also making geography maps.

You'd be a lot more popular if you were as anxious to share your good times with others as your troubles.

### U. S. Invents Anti-Rust "Dope"

Incident to the war, the government has faced the problem that has so long proved baffling to commercial concerns of protecting iron and steel from rust. In an attempt to solve this federal specialists have perfected various forms of protective coatings. In this connection it may be pertinent to ask whether commercial uses will not be found also for the so-called "dopes" which the government has invented to be applied to airplane wings and which are possessed of valuable weather-resisting and fireproof qualities.

### Notice of Teachers' Examination

Regular examination for teachers of Charlevoix County will be held according to law April 24-25th at the county seat.

Applicants will begin work at 8:00 unless officially excused by unanimous consent of board of examiners, in County Normal room of Charlevoix Central School. Paper furnished. Certificates of all grades issued. For special information write Com'r of Schools.

Respectfully submitted,  
MAY L. STEWART,  
Com'r of Schools.

### County Normal Notes.

Snyder—Groenick

Miss Thorsen substituted in the third grade the first three days of last week, during the absence of Mrs. Belding.

"We are seven," the eighth bird has taken flight to a more attractive Forest region.

Mr. Kettunen, one of the State Club leaders will present Boy's and Girl's Club work to the Normal Class, April 10th and 11th.

C. C. N. Students are very much interested in their critic room practice teaching and show initiative ability in the development of the sand table and calendar work.

### NEWT THE NONPAREIL

The War Department headed by "the most efficient executive I have ever known," has announced that the last real casualty lists are now being published! NOW BEING PUBLISHED! The armistice was signed more than four months ago. What's the idea? There are plenty of gasoline wasters running around in officers uniforms in Washington who apparently are without work. Why the next thing you know Newt the Pacifist will announce that all casualties occurring with the American forces in Siberia will be printed in the summer of 1921. And he wouldn't be wrong either—from past records.

If you are a cat you'll prove it by your yowls.

Unless you can see with the other man's eyes and hear with the other man's ears, don't assume to speak with the other man's mouth.

## Henry L. Winters Now Major

### East Jordan Soldier Receives Merited Promotion.

Letters received here by friends from our old Company, "F" soldiers indicate that at last our army machinery had decreed that Henry L. Winters, former Captain of Headquarters Company, 125th Inf'y and recently Captain of Company F, same regiment, should be decorated with the gold leaf and endowed with the office and title of Major.

"Better late than never" is an old axiom, but why this promotion was not made long ago is beyond the ken of us stay-at-homes. If ever a man was boiled, stewed, frizzled and fried in all things pertaining to army life its our self-same Henry.

Uncle Sam, you've been a long time getting there, but we thank you just the same.

Gentlemen—Major Winters.

### QUESTIONNAIRE

ANSWERS WHICH WILL SOLVE PERPLEXING PROBLEMS OF THIS RECONSTRUCTION ERA.

Query.—The government has launched an educational campaign to encourage building in order to put more men to work. Would not a similar movement to show how the old structures can be used and most economically repaired and made good as new also help?

Answer.—It is learned that such a plan is in effect and is linked directly with the Washington propaganda.

Industry must be turned back from works of war to the ways of peace. Employment must be found, in the meanwhile, for those whose occupation has been interrupted. There is no real surplus of labor in the United States. Rather there is a shortage, which would be acute if normal conditions were already restored, and one step towards restoring them will come with resumption of repair work.

Government restrictions, imposed by the necessities of the war program, have for many months past retarded or altogether prevented construction, improvement and repairs. These restrictions are now off, and there is scarcely a town, a city, a factory, a dwelling or a farm that does not reveal a crying need for prompt attention. Nothing delays such instant action except the feeling that prices are high for the time being and may be lower.

That is not logical. No matter what it costs to repair, the cost is less than the cost of neglect. No matter what the cost of paint, the wind and the weather will collect a higher bill in deterioration and decay.

Query.—What do you think of paint as an investment, aside from the appearance it lends? Does it really PAY to paint a house regularly, say, every three or four years?

Answer.—Good paint properly applied when needed is the main thing in making a house last long and well. A house worth \$2,500 can be painted at a cost of about \$125. In 60 years that house will need about 15 paintings, the total cost of which will be \$1,875. Left without paint, such a house would fall into complete ruin in 30 years. So taking 60 years as a basis for our figures we find that with paint a home will last that time in good condition and will cost, plus paint, \$4,375. Without paint the house would have to be rebuilt at the end of 30 years and would be ready for another complete renovation when the sixtieth year arrived. Cost, without paint, \$5,000 for a home ready to fall to pieces. Does regular painting pay? As the old Dutch adage says:

### EFFECT OF COLOR UPON THE DURABILITY OF PAINT.

Property owners who may have under consideration the painting of dwellings and other structures should remember that more durable results are obtained when tinted paints are used. Permanent coloring materials, which have been ground by machine into a high grade white paint base have the effect of preventing "chalking" and "checking," two defects which are often observed when white paints are used.

### PRETTY COLOR COMBINATIONS.

Ground Coat	Stipple Coat	Stencil Color
White	Light Rose	Medium Light Gray
White	Light Gray	Dull Blue, Gray-Green
White	Light Warm Yellow	Light Cobalt Blue, Neutral Gray, Gray-Green or Light Cobalt Blue
Light Gray	Same Gray, a little darker	Light Gray, Yellow, Warm Gray, Blue
Light Gray	Light Blue	Gray, Blue or Light Orange
Light Gray	Green	Light Gray, Neutral Drab
Ivory	Olive Green	Ivory or Grayish Light Green
Light Colonial Yellow	Light Blue	Neutral Gray, Ivory
Gold Bronze	Dark Green	Light Warm Gray, Medium Olive, Warm Gray, Cream
Aluminum Bronze	Blue	Delite Blue, Light Ivory, Light Warm Gray
Ivory	Tan	Brown, Burnt Umber, Cream
Ivory	Dark Brown	Light Tan, Cream, Light Gray Drab

### SCOTT SAILS TO FIND LOST YANKS

### Wants Information on Missing Wolverines.

Washington, April 8.—Congressman Frank D. Scott, of Alpena, left for Europe on the steamship Leviathan for the purpose of attempting to get some news of certain Michigan soldiers of whom the war department has lost track. He carries with him a list of about seventy-five soldiers from the state whose authentic information for from thirty days to six months. Congressman Scott will go directly to the headquarters of Gen. Pershing on landing in France and will ask that the cases of these boys be given special and speedy attention.

"I can cite you one typical case to show you why I am making this long trip," said Scott. "The parents of one soldier living in my district heard last August that he was in a hospital suffering from shell shock. This was authentic information from the war department. Since that date they have not been able to get a word as to his condition. They do not know whether he recovered or died. They believe that if he had regained his health he most certainly would have written them. But they have not received so much as a postcard. This suspense, with alternate hope and despair is really worse than the knowledge of his death. I propose to learn the truth about this boy and get the word to his parents as speedily as possible. I had hoped to visit my district before the special session was called, but I doubt whether I can now do so. I consider this work of locating the missing Michigan boys more important. Of course, I also intend to visit the battlefields and gather all the information possible which will be a guide to me in framing legislation and voting on important measures coming up in the next congress."

### DRY ENFORCEMENT ON SANE LINES

### Sleuths To Use Common Sense And Judgment.

Lansing, April 9.—Delighted as he is at the result of Monday's election, State Food and Drug Commissioner Fred L. Woodworth, who has general supervision over the enforcement of the prohibition laws, says the department will continue its crusade against the bootlegger and the commercial liquor dealer. He says that in their enthusiasm over the big majority against the beer and wine amendment, will not encroach upon the rights of the private citizen guaranteed by the constitution and the courts of the state. There will be no wholesale invasion of private homes. Enforcement of the law will be tempered with judgment and common sense in the future.

### SCHOOL COMMISSIONER'S NOTES

May L. Stewart, Commissioner

Although the week was by numerous other public duties, the commissioner made twelve short spring visits during the past week among the rural schools. The immediate purpose of the spring visits this year is assisting the teachers in their work for the township school days. The teachers are almost unanimous in their feeling that the contest is a great incentive for better work, and helps to remove one argument against the rural school—small classes and lack of competition.

Due to the irregular terms and the great amount of sickness in the county this year, the commissioner will not send out term examinations as final tests. Each teacher is urged to give her own final examinations and to plan that the shortage of this year may be finally completely made up in 1919-1920.

Peaine No. 1 school director reports that they will probably have ten months of school next year. This will help greatly in making up for time lost in sickness this year.

From twenty-five schools asking for teachers only four asked for teachers who would accept less than \$90 per month. Those asking for experienced teachers.

April 21-26 is "Be Kind to Animals" week.

In another column of this paper will be found legal notice of teachers' examination April 24-25.

Boyne Valley teachers held second meeting last week.

Attendance was never better than at the present time. Again the Gill school reports no absence for two weeks. Scarcely any absence anywhere except for sickness and very little of that.

Watch the county normal notes next week for report on M. A. C. Extension Work and formation of garden club. Also watch extension work in library helps for rural schools, thru state assistance. We are having practical cooperation these days and using every bit of it.

### WEST SIDE SCHOOL NOTES

The Kindergarteners are getting ready for Easter. They are making paper chickens, chicken coops and rabbits.

The first and second grades are making animal books. The first graders have made pussy-willow cats.

The third and fourth grades are making Easter baskets.

We have a Bird Calendar in school. The first one that sees a bird has his name of the bird and date put on it. They have seen Bluebirds, Bluejays, Wrens, Killdeer, Goldfinch, Swallows, Meadow Larks and Blackbirds.

The fifth and sixth grades are making Easter and May baskets. They are also making geography maps.

You'd be a lot more popular if you were as anxious to share your good times with others as your troubles.

### U. S. Invents Anti-Rust "Dope"

Incident to the war, the government has faced the problem that has so long proved baffling to commercial concerns of protecting iron and steel from rust. In an attempt to solve this federal specialists have perfected various forms of protective coatings. In this connection it may be pertinent to ask whether commercial uses will not be found also for the so-called "dopes" which the government has invented to be applied to airplane wings and which are possessed of valuable weather-resisting and fireproof qualities.

### Notice of Teachers' Examination

Regular examination for teachers of Charlevoix County will be held according to law April 24-25th at the county seat.

Applicants will begin work at 8:00 unless officially excused by unanimous consent of board of examiners, in County Normal room of Charlevoix Central School. Paper furnished. Certificates of all grades issued. For special information write Com'r of Schools.

Respectfully submitted,

### NEWT THE NONPAREIL

The War Department headed by "the most efficient executive I have ever known," has announced that the last real casualty lists are now being published! NOW BEING PUBLISHED! The armistice was signed more than four months ago. What's the idea? There are plenty of gasoline wasters running around in officers uniforms in Washington who apparently are without work. Why the next thing you know Newt the Pacifist will announce that all casualties occurring with the American forces in Siberia will be printed in the summer of 1921. And he wouldn't be wrong either—from past records.

An example of thoughtlessness, selfishness or heathenism is shown in the experience of a worthy minister of this village. During the past six months he has attended three dozen funerals, and in only three cases has he been thanked and not once has he been paid for his services. A minister is expected to preach the funeral sermons for the members of his church, but when he performs this service for outside parties he should be paid for his work.—Mancelona Herald.

# Do YOU want to make \$500 grow into \$20,000, as many others HAVE done?

**H**ERE is an opportunity for you to make a sound, safe investment in a dividend paying Preferred Stock, yielding eight per cent per year. But WITH the preferred stock goes COMMON stock which means a full share in the PROFITS.

These are the securities of an established, very successful and rapidly growing Motor Truck Company whose sales are expanding every week. Its net earnings for LAST year were very considerably more than the amount of the dividend on the Preferred Stock. The NEW BUSINESS now in hand will earn the Preferred Dividend many times over.

By all the rules which govern sound investments your money is SAFE in the Preferred Stock. The Common Stock may do for you what Billy Grove's common stock did for him.

Billy Grove was a clerk in the Downey House, Lansing, Mich. In 1904 he put \$1,000 in the original issue of Reo Motor stock. To-day his fortune is counted at \$119,000. There are many like Billy Grove who enjoy incomes of thousands of dollars every year from the COMMON STOCK of automobile concerns which cost them but a few hundred.

### A Few Examples.

In eight years the investment of \$1,000 in stock of the Chalmers Motor Company grew to \$18,688 stock and earned \$9,297 cash dividends. In six years \$1,000 stock of the State Motor Car Company of Indiana grew to \$2,000 stock and earned \$21,750 in cash dividends. In the Hudson Motor Car Company \$1,000 stock grew to \$20,000 stock in FOUR YEARS and in addition the company paid cash dividends which have not been made public. In the Hup Motor Car Company \$1,000 stock grew in seven years to \$40,000 stock and earned \$48,160 cash dividends.

In the Reo Motor Car Company in thirteen years \$1,000 stock grew to \$12,000 stock and earned \$12,850 cash dividends. In addition the company in 1913 distributed to its stockholders \$800,000 stock in the Reo Motor Truck Company, equal to a 30% dividend, and THEN afterward, paid a 7% cash dividend on the stock of the Truck Company.

Due to the rapid growth of the Motor Industry it has been customary for concerns with large earnings to declare stock dividends to stockholders. Thus a company with 10,000 shares of common stock and net earnings of \$3,000,000 for the year would be able to pay a cash dividend of \$3,000 to each owner of \$1,000 of common stock. But rather than make such an unbalanced payment they would probably—as they frequently do—first increase the capitalization and give each owner of \$1,000 of common stock perhaps \$10,000 MORE common stock and THEN pay a cash dividend of 25%, giving him \$3,000 in cash on the common stock which he then owned. Its MARKET value, or the price a stock paying such dividends should bring in the case the owner wanted to sell it, would probably be about \$44,000. One good year with business conditions prosperous has enabled not a few automobile companies to make net earnings of OVER \$3,000,000. That is how so many comfortable fortunes have grown from very small investments in the MOTOR Industry. That is why it is entirely possible for YOU to place \$500 in the Preferred Stock we offer you, have your money safely and soundly invested with an excellent opportunity to have the COMMON stock which goes with the preferred grow to \$20,000 or more in a time not far distant.

### Motor Truck Profits.

In the Federal Motor Truck Company \$1,000 stock grew in six years to \$30,000 stock and earned \$12,180 cash dividends. What the automobile concerns did in the way of large earnings the successful Motor Truck Companies are JUST BEGINNING TO DO.

The war has revolutionized the use of Motor Trucks and the movement of freight, raw materials and merchandise. Every one knows that Motor Trucks won the war, that their wonderful mobility, strength, lasting qualities and great carrying capacity enabled us to arm, equip and maintain over three million men with unheard-of speed and that the armies and peoples of all Europe learned the need and value of Motor Trucks just as we learned it. What few of the general public know is that the vast, but exactly tabulated, records of war use show that a horse or mule CONSUMES twenty-five per cent as much as it PRODUCES. A standard Motor Truck consumes LESS than ONE PER CENT as much as it produces, and this consumption includes operation, maintenance, repairs and replacements. Moreover, the life of a Motor Truck working at full capacity every day is twice as long as the life of a horse or mule working at full capacity every day. During the war horses working at maximum capacity for ten consecutive days were often killed by the strain of those ten days.

Now that the war is over the whole world has waked up to the imperative need of Motor Trucks. Europe has never learned quantity production of automobiles or trucks. South America, Africa and Asia

are not machinery manufacturing countries. America is the Motor Truck builder for the world.

### Unparalleled Demand.

The demand for trucks for commercial use THIS YEAR is greater than ALL the trucks built in this country for private use in the last FOUR YEARS. Just as the freight carrying business of the railroads entirely dwarfed the passenger carrying business, so the demand for the freight carrying motor truck is beginning to RUN AWAY from the passenger carrying automobiles. It is becoming so that a man CAN have a pleasure car if he feels he can afford it, but he MUST have a FLEET of Motor Trucks in his business or he cannot hope to equal the low costs of his competitors. At the Chicago and New York Motor Truck Shows just concluded the Truck Company whose stock we offer you was besieged by Truck dealers who sought to place orders for more trucks for THIS YEAR than the company has manufactured in the last THREE years, and their output has been large.

You CAN'T turn the clock back ten years and buy the original issue of Reo stock and so run \$1,000 into \$119,000, like Billy Grove did. But you CAN secure stock in this Motor Truck Company which has the opportunity for growth and earnings in the next three years to a volume which should make pleasure car earnings look SMALL.

### Assets.

The Truck Company has a splendid property of 43 acres within 30 miles of New York City. Its fifteen buildings are the last word in modern construction. The assets directly behind the Preferred Stock we offer you are vastly greater than the outstanding preferred. Its facilities, buildings, machinery and equipment are all complete and are ready for an increase of output to FOUR TIMES the present output.

### Management.

Its management consists of men prominent in the Motor Industry since its inception, successful in the extreme and known throughout the nation. They are leaders in the industry and are particularly well known to the best dealers throughout the country, whose confidence they possess through many years of fair dealing and mutual profit.

The department heads are men who have spent their lifetimes in quantity production and the workmen are of a grade so superior that it would be difficult to duplicate this organization.

### Type of Truck.

The company manufactures a one and one-half ton truck, and records show that 76% of ALL merchant users and 90% of ALL farmers require this type of truck. In addition the company manufactures a powerful, sturdy, short coupled chassis which pulls two-wheeled bodies of three and one-half and five ton capacity. Thus it serves EVERY need of industry, which is why the volume of available orders is so great.

### Security.

There are no bonds or other obligations ahead of the stock we offer you. There is directly behind the Preferred Stock assets in property, factory buildings, material, trucks in process of manufacture and completed shipments on the road to dealers far greater than the total Preferred issued or now offered. That is why you can consider your money to be so safely and soundly invested in this Preferred, which has a record of paying 8% dividends.

### Use for the Money.

This offering of Preferred and Common stock is to provide funds to increase production through the purchase of materials. There is a need for OVER a quarter of a million of trucks THIS YEAR in this country and abroad. MANY TIMES more than can possibly be supplied. The orders available to this Truck Company are TWENTY-ONE TIMES its output for last year. If it can supply the needs of the territory served by its BEST dealers it will mean an increase over last year's production of 6,000 trucks and ADDITIONAL earnings of over \$1,200,000, to say NOTHING of the demand from many NEW dealers and for export. Its trucks are in use in fifteen foreign countries NOW and repeat orders for export are increasing every week.

It is a big year for earnings on the Common stock. It may be YOUR chance to do what Billy Grove did.

### How You Get the Common Stock.

Every purchaser of two shares of Preferred stock which is sold at its par value of \$10.00 is entitled to buy one share of Common stock for \$1.00.

Thus \$63.00 buys six shares of Preferred and three shares of Common.

\$105.00 buys ten shares of Preferred and five shares of Common.

\$504.00 buys 48 shares of Preferred and 24 shares of Common.

\$1,008.00 buys 96 shares of Preferred and 48 shares of Common.

You can buy on the Partial Payment Plan if you prefer.

In our opinion there is no security offered in the market to-day which combines to give you the opportunity of sound, sure, safe investment of your money in a high grade 8% Preferred Stock with a record of earnings and dividends behind it, and at the same time the opportunity of making a fortune, as Billy Grove did, from the enormous expansion of an industry due to world changes which never CAN occur again in our lifetime.

### You Can Trade In Other Securities.

Torrey & Company are specialists in Automotive Stocks and Bonds, but we handle other securities as well. Our business in the New York and other markets is large and growing. If you have investments in other Preferred Stocks or Bonds which yield less than 8%, or if they do not give you the very great profit which is offered you by the Common Stock of this Truck Corporation, we shall be glad to quote you the market price on your present securities and, if you desire, sell them for you.

## DIES THREE TIMES RETURNS TO LIFE

CALLS FOR WATER AFTER HIS SECOND DEMISE

Strange Case of 300-Pound Laborer Fatally Injured by Fall From Hay Wagon.

Denver, Col.—Death comes but once to the ordinary man, but to Charles Gallagher, 58 years old, and weighing nearly 300 pounds, it came three times before it decided to remain. Three times in the early morning hours nurses and physicians in the county hospital pronounced their patient dead, only to learn in two of the instances that the evidences of death had been false—that the tests had failed. It was not until rigor mortis stiffened the body following the third death that the authorities felt safe in turning the body over to the coroner.

It was about 1 o'clock on the previous afternoon that some farmhands, employed on the ranch of J. L. Taylor near Arvada, heard screams for help. Hurring in the direction of the shouts, they found that Gallagher, another workman, had fallen from a hay wagon with the result that his back had been broken. They summoned Mr. Taylor, who hurried Gallagher to the county hospital in a motor car, arriving there about 2:30 o'clock.

There it was found that in addition to the broken back, Gallagher also was suffering from a fracture of the skull. Death was almost a certainty. But neither the doctors nor the nurses had even a vision of the multitudinous death to come.

Therefore, when at 1:35 o'clock next morning, Gallagher's pulse, heart and breathing ceased, the physicians applied the usual tests for death and ordered the body and bed of Gallagher into the "dressing room" or "dead room," to be shrouded. The garments of death were wrapped about the body of the man, the eyes were closed, the hands were pinioned that when the rigor of death came they would be in place. Then the door was closed and the "dead" man left for the coroner.

The operation had consumed about fifteen minutes. Five minutes later, Miss Grace Cramor, a nurse, passing the door of the dressing room, paused at a horrible, gurgling, straining sound from within. She turned and opened the door.

With a scream the nurse half-reared, then leaped forward. There on the bed, his face contorted, his wrists purple, his broken frame convulsing and swaying as he struggled against his bonds, Charles Gallagher, pronounced dead twenty minutes before, was seeking to free his hands and to call for help.

Quickly the nurse released his bonds and summoned the physicians. The excited beating of the pulse soothed and became normal again. For fully five minutes there was every evidence of an entire return to life. Then the pulse weakened once more, the eyes glazed again and the stethoscopes denoted that the heart had ceased its beating entirely. From one to another traveled the glances of the physicians.

"There's no doubt about it this time," they said. "But just the same we'll watch."

And there they remained, watching the still form of the man on the bed. A quarter of an hour, a half hour, a life test after test was made. And with every test there came the reply that life was gone. Five minutes more—eight minutes more—and then the cry, "His heart's beating again!"

It was a physician with his ear to a stethoscope. Another doctor listened. The faint beating of the heart became stronger; at the wrists there came evidence of pulse. Life had returned.

But this time life was fainter, feebler. Where the pulse had been strong before, it was weak now. Gallagher, twice dead, turned his head slightly. His lips mumbled something. The nurse bent low.

"What is it?"

"Water—Water," his lips gasped. The nurse turned. She hurried forth and returned. But when she entered the room again the doctors once more were applying the stethoscopes and shaking their heads. For life had departed again. And this time in certainty.

But with two returns to life already recorded, there was not even a chance for certainty now. It was not until three hours later, when the hospital authorities felt sure that life really had departed, that the authorities felt safe in notifying the coroner that the body really was ready for his care.

"Explanation?" exclaimed one of the physicians when questioned about the strange case, "there isn't any explanation. The man just died three times, and that's all there is to it. Every test of death that we knew was applied to him and they all showed that life was negative. The man was dead—to every possible test. Then he came to life again. That is the only explanation that can be given."

Sugar cookies put, piping hot into an earthen jar lined with clean cloth and kept covered, will be much sweeter than if allowed to cool in the air. The cloth inside takes up the steam, which might otherwise make the cookies soggy.

# AFTER SICKNESS THEY GAVE HER VINOL

### And She Soon Got Back Her Strength

New Castle, Ind.—"The measles left me run down, no appetite, could not rest at night, and I took a severe cold which settled on my lungs, so I was unable to keep about my home. My doctor advised me to take Vinol, and six bottles restored my health, so I do all my housework, including washing. Vinol is the best medicine I ever used."—Alice Record, 437 So. 11th St., New Castle, Ind. We guarantee this wonderful liver and iron tonic, Vinol, for weak, run-down, nervous conditions.

## An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast, a glass of hot water, with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs. Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach, others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

## EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like mops of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

## CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely! No sneezing, hawking, snuffling, blowing, headache, dizziness. No straggling for breath at night, nor cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves, soothes instantly.

It's just fine. Don't stay stuffed up with a cold or stuffy nostrils—Relief comes so quick!

## Uncle Sam Sets a Good Example

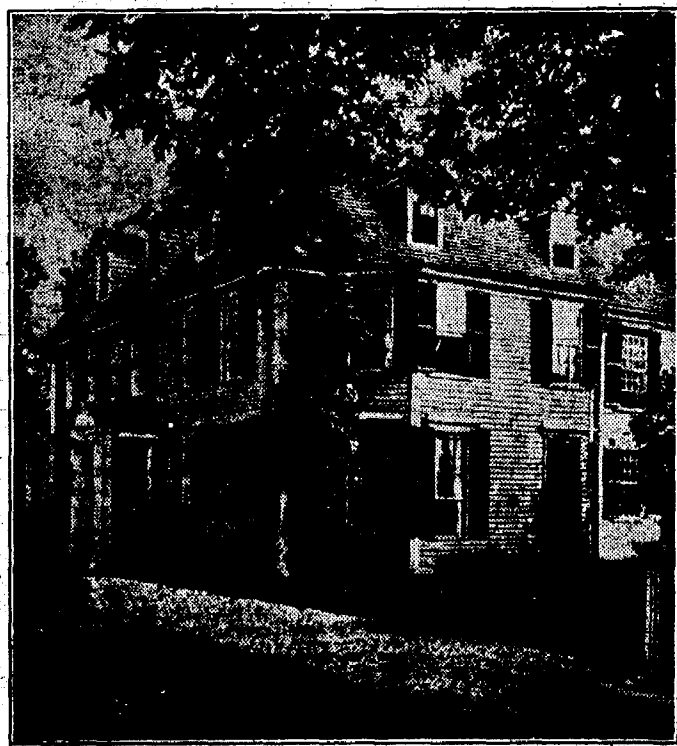

VIEW OF U. S. CAPITOL DURING PAINTING.

The dome of the United States Capitol at Washington is kept in excellent condition by painting it every few years. For this work forty painters are steadily employed for three months' time. Over five thousand gallons of paint are required for one coat. The reason for painting the Capitol dome at regular intervals is to prevent disintegration of metallic surface.

### THE COSMETIC OF THE INANIMATE.

I am the savior of surfaces.  
I am the world-old preserver.  
Noah knew me, for he pitched the ark within and without.  
The Pharaohs sought me as an adornment for their tombs—their mummies endure because I conserve.  
I am the woad of the ancient Britons: their blue battle hue.  
Because of me the treasures of the Sistine Chapel defy effacement.  
I am the keeper of the antique.  
I am the servant of progress.  
Columbus found me bedecking the savages who watched him plant Ferdinand's banner on the shores of New Spain; and the very sails of his caravels resisted the elements of the West through my aid.  
The pioneers westward wending their way daubed the prairie schooners with my protection.  
I am the royal robes of civilization's monarchs, Steel and Lumber.  
The taut wings of the airplane gleam under my protective veneer.  
The sullen dreadnaught and the homing transport plow the seas impervious to corrosion because of me.  
I waterproofed your agents of destruction, the bullet and the shell.  
Then I drew the mercy of my concealing camouflage over your hospitals.  
I glisten on the homes, and on the barns, and on the cement surfaces.  
Where life is, I am alive.  
Where death and decay set in my absence hastens them.  
And my mission is to preserve.  
Saver of Surface, I am PAINT!

THE QUINCY MANSION, QUINCY, MASS., BUILT IN 1685.

America's classic example of a clapboard building preserved for over two hundred years by careful and frequent painting. It has secret panels, chimney staircase and hiding places, said to have been used by smugglers. Later the home of great statesmen and of the famous belle, Dorothy Quincy.

**MORTGAGE SALE.**

By a mortgage dated the 24th day of November A. D. 1918, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan, on the 26th day of November A. D. 1918, in Liber 59 of Mortgages, on Page 230, PETER BLOCK and ELLEN BLOCK, his wife, of the Township of Marion, Charlevoix County, Michigan, did duly mortgage to THE GRANT STATE BANK of Grant Michigan, a Michigan Banking Corporation, the lands, premises and property situated in the Township of Marion, County of Charlevoix and State of Michigan, described as follows, to-wit: The south one-half (S $\frac{1}{2}$ ) of the north-east quarter (NE $\frac{1}{4}$ ), and the southeast quarter (SE $\frac{1}{4}$ ) of Section twenty (20), all in Township thirty-three (33), north, Range eight (8) west, containing 240 acres, more or less, according to Government Survey thereof.

Default having occurred in the conditions of said mortgage by which the power of sale therein contained has become operative, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof:

Notice is hereby given that said mortgage will be foreclosed by a sale of said mortgaged premises, or so much thereof as may be necessary, to pay the amount due on said mortgage with interest at the rate of six and  $\frac{1}{2}$  per cent. (6 $\frac{1}{2}$  per cent.) per annum and all other legal costs, including an attorney fee of Thirty & no-100 Dollars as provided by said mortgage, at public vendue to the highest bidder on the 14th day of July, A. D. 1919, at 10 o'clock in the forenoon of that day, at the outer front door of the Court House in the city of Charlevoix County of Charlevoix and State of Michigan, said Court House being the place of holding the circuit court for said county.

The amount claimed to be due on said mortgage at the date of this notice is the sum of FOUR THOUSAND TWO HUNDRED THIRTY-EIGHT & 42-100 Dollars (\$4238.42).

Dated, March 27th A. D. 1919.

**MORTGAGE SALE.**

Default having been made in the terms and conditions of a certain mortgage bearing date the 31st day of October, 1908, executed by Lemuel Henderson, Jacob Henderson, Cora Henderson and Priscilla Henderson of Wilson Township, County of Charlevoix, Michigan, to George S. Bridge of Chicago, which said mortgage was recorded in the office of the Register of Deeds for the County of Charlevoix, Michigan, in Liber 45 of mortgages on Page 58, on the 2nd day of November A. D. 1908 and was also assigned by said George S. Bridge, the 6th day of February, 1917, and recorded March 1, 1917, in Liber 53 of mortgages on page 402, to the Peoples State-Savings Bank of East Jordan, Michigan, and is now owned by it. On which mortgage there is due at the date hereof, for principal and interest, the sum of Four Hundred Seventy-four and 25-100 (\$474.25) Dollars and an attorney fee of Fifteen and no-100 (\$15.00) Dollars as provided by law and no suit or proceedings at law or in equity having been had to recover said sum or any part thereof.

Now therefore notice is hereby given that by virtue of the power of sale in said mortgage contained and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction or vendue to the highest bidder, at the outer easterly front door of the Court House at the City of Charlevoix, of Charlevoix County and State of Michigan, said Court House being the place of holding the circuit court for said county, on the 7th day of July, A. D. 1919, at ten o'clock in the forenoon, the description of said premises contained in said mortgage is as follows:

All that certain piece or parcel of land situate in the Township of Wilson, in the County of Charlevoix and State of Michigan, and described as follows to-wit: The Southwest quarter (SW $\frac{1}{4}$ ) of the Northeast quarter (NE $\frac{1}{4}$ ) of Section twenty-six (26) in Township thirty-two (32) north, of range six (6) west. Excepting a parcel thereof described as follows: Commencing at a point in the Boyne Falls State Road on the north line of said Section twenty-six (26) Thence West on said line to the  $\frac{1}{2}$  line running north and south through said section; Thence South on said  $\frac{1}{2}$  line to the Boyne Falls and East Jordan State road; Thence North and East along the line of said State Road to place of beginning. Also that part of the Northwest quarter (NW $\frac{1}{4}$ ) of the Southeast quarter (SE $\frac{1}{4}$ ) of Section twenty-six (26) Township thirty-two (32) north, of range six (6) west, lying North of Deer Creek containing Twelve (12) acres more or less.

**HE ESCAPED INFLUENZA**

"Last spring I had a terrible cold and grippe and was afraid I was going to have influenza," writes A. A. McNeese—High Point, Ga. "I took Foley's Honey and Tar. It was a sight to see the phlegm I coughed up. I am convinced Foley's Honey and Tar saved me from influenza." Contains no opiates. Good for children.—Hite's Drug Store.

**Middle Aged Women**

Are Here Told the Best Remedy for Their Troubles.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GODDEN, 925 Napoleon St., Fremont, Ohio.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms."—Mrs. FLORENCE ISABELLA, Box 197, North Haven, Conn.

The wise man makes hay while the sun shines, but the fool sows wild oats by electric light.

Altho the woman behind the broom may not draw a large salary, she raises a lot of dust.

Success never comes to the man who sits on an empty dry goods box and whistles for it.

Some people's idea of knowledge is the art of finding out things they have no business to know.

To accuse her of meaning every word she says is a serious charge to bring against a woman.

A doctor visits the sick, because, like the pitcher, if he went to the well very often he'd get broke.

The man who tries to live beyond his means usually winds up by having to live without his friends.

When an old gentleman proceeds to spoil the icy slide the small boy with a sled doesn't feel like saying peace to his ashes.

It is the rankest kind of folly for a man to expect the world to grow better until he begins to notice improvement in himself.

The man who can count his real enemies on his thumbs and his loyal friends on his fingers is reasonably well equipped for the struggle in life.

Care may have killed the cat, but too much talk kills most people.

You either hold the whip hand in your affairs or you are the horse.

Money isn't everything and it won't get everything, but the things that it isn't and won't get are in the minority.

**GRANDMA NEVER LET HER HAIR GET GRAY**

She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.
