EAST JORDAN, MICHIGAN, FRIDAY, MAY 2, 1919.

No. 18

## Clean-Up Week May 12-19

### Proclamation Issued By State Fire Marshal.

TO THE PEOPLE OF MICHIGAN:

Each spring we enjoy a Clean-Up Week in our State, a week which is designated by the State Fire Marshal as one which the people of Michigan shall observe by a general cleaning up of their premises.

CARELESSNESS is the principal cause for a large part of the fire waste of this country, and the cost of insurance is increased, naturally, by the heavy fire losses.

Let all our people observe Clean-Up Week May 12-19, by a thorough cleaning up and removing all rubbish, and inflammable material from their premises, and by carefully inspecting the chimneys and heating plants.

All factories, theatres, public and private institutions should be thoroughly looked over, and all necessary changes made immediately that will prevent fires, and insure the lives and safety of the occupants.

Let the local authorities give special attention to better building regulations, fire prevention, and where necessary, immediately install additional fire apparatus for fighting fires.

Cause fire drills to be held in all public and private institutions, factories and schools, and let teachers instruct their pupils by short talks on Fire Prevention.

During the year 1918 there were 1441 fires in Michigan from unknown and incendiary causes; defective heating plants and chimneys caused 3072 fires; gasoline and kerosene were the cause of 849 fires; careless use of matches and smokers, 1133; spontaneous combustion and rubbish, 265; and hundreds of other causes, making a total of 10,618 fires, with a total loss of over \$10,000,000.

By the co-operation of our citizens, greater results among fire prevention lines can be obtained, and I, therefore urge most earnestly that everything possible be done to minimize the danger of fire, lessen fire hazards and thus reduce the fire loss in Michigan.

### A FEW SUGGESTIONS FOR THE PREVENTION OF FIRES AND LOSS OF LIFE:

Ashes should be kept in metal receptacles, and never in wooden barrels or boxes.

Oily Rags or Waste should be kept in standard metal waste cans, and contents removed and burned each night. Rubbish should never be allowed to accumulate, in or near buildings.

Gasoline should not be kept in buildings, and should be used only with extreme care.

Gas Brackets should have rigid fixtures; where necessary to use swing brackets, all exposed woodwork should be protected with sheet metal, leaving an air space. Metal bells should be placed over gas jets on low ceilings.

Steam Pipes should be kept clear from all wood and combustible material. Electricity, where improperly installed, is dangerous. Lamp cords should not be hung on nails, or wrapped around any pipes. Paper shades should never be used. Confer with your city electrician where changes are contemplated. Do not allow employees to tamper with electrical installations.

Stovepipes should be securely riveted and run direct to brick chimneys, and never through floors or partitions. Protect floors under and around stoves, with brick, cement or sheet metal.

Stairways should be kept closed and clear at all times; never pile stock in front of windows, or against the doors, as it handicaps the firemen in case of fire. Fire doors and shutters should be closed every night, and stock should never be placed so as to hinder the ready closing of these fire stops. Better to use metal frames and sash with wire glass.

See That All Fire Extinguishing Apparatus is in good working order.

Slack and Pulverized Coal will spontaneously ignite, as will charcoal, when wet.

Use Safety Matches.

Requiring All Doors to Swing Outward, in public buildings, schools, theatres, etc., may prevent the loss of many lives. All buildings two stories or over, should be provided with fire escapes.

Let Every Day Be Fire Prevention Day For The Year 1919.

FRANK H. ELLSWORTH,  
Commissioner of Insurance,  
Ex-Officio State Fire Marshal.

## FUNERAL OF MISS HAGER HELD AT PETOSKEY LAST SATURDAY

The funeral of Miss Ethel Hager, who died Wednesday, April 23rd, at Petoskey was held Saturday forenoon from Henika's chapel. Burial in Greenwood. Rev. J. W. Leonard had charge of the services.

Miss Hager was well known in this city where she nursed for some time. She graduated from Petoskey hospital about four years ago. She was born in southern Michigan thirty-two years ago.

She was a sister of Elmer Hager, of West Mitchell street, Petoskey, and a daughter of Mr. and Mrs. George L. Hager, of East Jordan. She also leaves two sisters, Mrs. L. Dubber, of Detroit, and Mrs. R. Gokee, who resides near Clarion. Two other brothers also survive her, Harvey Hager, of Detroit, and Earl Hager, of the Soo.

She was a member of the Baptist church and attended church and Sunday school there during her residence in Petoskey.

## W. B. CHASE GETS TERM IN PEN.

### Sentenced for Whiskey Running In Michigan.

Milwaukee, April 25.—William B. Chase, former star detective for the Michigan state food and drug department, was sentenced by Federal Judge Gerger here Thursday to serve one year and six months in the federal penitentiary at Leavenworth, Kan., following his plea of guilty to several charges concerning an alleged plot to ship liquor by wholesale from Milwaukee to Michigan.

Chase was arrested in Milwaukee some weeks ago by federal officials upon information provided by Grand Rapids government agents.

Chase himself some months prior to his arrest had been engaged in running down bootleggers. Therefore his arrest came as a great surprise and was extremely sensational.

There were several counts in the case against the former young detective. He was charged with violation of the internal revenue laws, which included failure to make the proper returns to the government. He also was charged with attempting to engage in the wholesale liquor business under an assumed name.

## LATE SPRING WHEAT REPORTED A GAMBLE

East Lansing, Mich., Apr. 28.—Many farmers of the state are faced with serious planting problems because of the fact that frequent rains have kept them from seeding spring grains at an early date, according to Prof. J. F. Cox of the M. A. C. Farm Crops Department. Oats and barley may still be planted in proper season, but large acreages of grain are certain to be planted late.

"Those who plant spring wheat in late April or after the first of May do so at a great risk," declares Prof. Cox. Only wheat plantings made at an early date and on ground which retains moisture are certain to give successful crops. Either barley or oats may be counted on to give comparatively better yields when planted after the first of May.

Barley is a better crop than oats for seeding during the latter part of the planting season (say about May 12) because it does not suffer as greatly as oats from the hot, dry spells which occur in early summer. Both crops do best when planted fairly early in the spring, although barley is a little more susceptible to frost.

At this late date, disking will in most cases prove a better method of preparing the ground than plowing. Both oats and barley start off best on a firm seed bed. Because late planted crops do not stool out as rapidly as earlier ones, it is a good practice to seed at least a half bushel more per acre of either oats or barley when planting late. Acid phosphate and fertilizers high in phosphate are also strongly recommended, both to increase yield and to hasten maturity.

If you were half as bright as all your big talk would make people believe, you wouldn't be where you are.

Most persons fail of good work because of lack of inspiration in their surroundings, but if you are really big you can rise above them long enough to get into better ones. The trouble with us all is that we're small and don't know it and raise a terrible howl if anybody suggests it.

## LOADS OF PEP IN COUNTY FAIR SIGNS OF THE TIMES

Signs of the times? A dance at the D'Ooge Barn on Wednesday, May 14th, a social at Deer Lake on Friday, May 1st, and other socials of recent date at Tainter, Pine River, Marion Center and so many plans everywhere, and the fact that every one of these good time events was for a serious purpose, and further more that every event was for the same purpose.

People are so used to turning their good times to serious thought, and so used to DOING with common aim in view, that they still demand a purpose and rejoice when that purpose is an immediate and worthy one. The public was happy to learn that as one of the first steps in reconstruction and that as one of the first and foremost of the many needed improvements on the fairgrounds, the executive committee decided "Education First." The biggest lesson that has been taught us is that there are bigger lessons in the future. These can be solved only by correct educational guidance. This can not be accomplished without an assembly and community hall and without a model school room near at hand.

With long and suffering patience the schools have displayed their work under crowded and unfavorable conditions. Only two out of three city schools could be well accommodated and there was practically no room left for the rural schools' wall display. There has been no space for athletic drills, for indoor games, and when the junior orators contested last fall, they had to stand in the gangway and run competition with the merry-go-round. Only a few of the many who wished to hear Pattengill could crowd into the hall way, and then there was standing room only. There has been no space for a rest room, to say nothing about providing the chairs.

In the state fair grounds there was erected last year a model school room to serve as a demonstration center for club work, a meeting place for boy scout activities, and for oratorical contests, not needing the larger assembly hall. It has answered in one moment what several books might tell about construction, form, and equipment, and tells at the moment "Why." No school building is complete without a community especially on the fair grounds. Social life is never complete where the community is ignored and space must be given for the get-together element of the patrons of the fair. Is the building to equal the state fair educational hall, and is it to surpass all other county fair school buildings? If Charlevoix County is to maintain her record this should be the case.

Well, Contractor Henry Clark estimates the cost at 1900 with an additional 300 for equipment. But the spirit is just right. The County Fair Association started the fund off with 500 (that you already know) and every one of the committee agreed to assume the chairmanship for gaining contributions from his territory. That means that E. B. Ward and Frank Bird are the chairmen for Charlevoix and vicinity; that Horace Hipp and D. L. Wilson are chairmen for East Jordan and vicinity; and that Frank Wangeman and Terry Barber are chairmen for Boyne City and vicinity. Mr. Ward agreed also to take the matter up with the different granges of the county for he was sure that they would wish to help. The committee appointed Miss Stewart to take the situation to the schools of the county and get all possible aid from both city and rural schools. Mr. Henry Clark was also made a member of the committee and to begin with he agreed to accept the contract for the building free of cost to the association, putting it up by day labor only so that all improvements may be made as far as the money raised will go. Mr. R. F. Sloan spoke for the Loeb estate when he said "Now you are saying something that interests us. How would you like to have us buy steel seats for the building just like we shall have in our new model school?" and then "we'll help you on the building too—a hundred dollars." And everybody is getting in the game as the reader notes in the dances, the socials, and the jolly good will of all who back the schools and the county fair.

A woman will forgive most anything for another woman who is a neat housekeeper and will believe almost any gossip about one who is not.

Millionaires are reputed to be generally unhappy, but the few we've seen always seemed able to disguise their feelings.

## THE LAWS AND THE VERITIES

Washington, April 30.—The Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr., today gave out the following statement from its Washington Headquarters:

"Every ancient maxim contains a wealth of truth. If it had not contained truth it would not have survived long enough to become either a maxim or ancient. Here, for instance, is the old saying that 'one man can lead a horse to water but ten men can't make him drink.' In those words we have a statement of truth that should be hung upon the walls of bureaucracy's offices in Washington, where officialdom has gone mad with the desire to tell all creation how to live and move and have its being. Just now we have in mind the visionary schemes to put returned soldiers on farms. Officialdom can lead a million soldiers up to the land, but it can't make them farm. Canada has tried it and failed. If Uncle Sam also tries it, he will also fail. This is not saying that none of the returned soldiers will go to the farm. A great many of them will. But they will go there of their own accord and not through the leadership of an official who is careful to keep away from the soil himself.

"The trouble with the present automatic administration is that it tells the returning soldiers to go to the farms and then does everything possible to keep them away. Hours of labor and wages are made as attractive as possible in cities or on railroads, while conditions remain practically unchanged in the country. In fact, conditions are less attractive for the farmer who must hire some help, for he finds increasing difficulty in persuading men to leave the city to work on a farm.

"The whole policy of this administration has been one of attempted overthrow of economic law—an effort to prevent water seeking its level, an effort to dislocate the center of gravity, an effort to remake human nature by law or executive edict. Price-fixing, government operation, artificial and inequitable wage scales, are illustrations of the determination of self-constituted omnipotents to perform modern miracles. The performances have taken place—their miraculous character has not become apparent for the reason that the eternal law of compensation is still in operation and the country is paying in one form or another for the attempt to set aside natural law.

"Whenever the governmental 'back-to-the-farm' bureaus find themselves embarrassed by a flood of resignations from employees who are quitting government jobs to go on the farms, we may expect to find soldiers flocking to agricultural occupations. Until then, soldiers will go to the farms when they feel so disposed, just as a horse will drink when he's thirsty."

## RURAL SCHOOL GROUNDS WILL BE BEAUTIFIED.

East Lansing, Mich., April 28.—As a step in furthering the state-wide movement to improve and beautify the rural school grounds, a bulletin giving plans and rules for planting trees, shrubs and plants, together with a complete list of varieties which are adapted for the purpose, has just been published by the department of horticulture at M. A. C. The use of native plants is urged, and directions for digging and transferring to the school grounds are given. The work should be done as early in the spring as possible.

The planting of home grounds is considered in other bulletins, which may be obtained from the Director of the Experiment Station, East Lansing.

There is never any need of hunting trouble. Just stand quiet and it'll hunt you.

Everybody knows people that had no business being born, but it's too late to help that, now.

You're only as old as the old woman who remembers when you were born says you are.

If you are wise you are wise enough to know you don't possess all wisdom—not even if you are an assessor.

## SHE FINDS HERSELF MUCH BETTER

Lame back, rheumatic pains, stiffness and soreness in muscles and joints can be quickly relieved. Mrs. L. Wavue, 2726 3rd St., Ocean Park, Cal., writes: "I used to have pains in my right hip. I could hardly turn in bed. Now I find I am much better by using Foley Kidney Pills. Likewise, pains in my back left.—Hites Drug Store.

## BANK DISCARDS PASS BOOK SYSTEM; GIVES MACHINE STATEMENTS

### Mechanical Bookkeeping Enables Local Institution to Give Improved Service.

There will be no more night work by bookkeepers, balancing accounts of customers at the People's State Savings Bank. No longer will they have to plough their way through an avalanche of pass books requiring balancing at the first of each month. By addition of a bookkeeping machine to its equipment, the bank is able to discard the inconvenience of the pass-book system and to substitute the plan of handing neat-printed statements to depositors on the first of each month.

The same system is now in use in a great many of the big banking institutions of the country. The mechanical bookkeeper is a Burroughs Adding-Subtracting model, which automatically solves problems in addition and subtraction and simultaneously prints a neat and complete record of each transaction.

Annoying delays to customers at the close of each month while their pass books were being balanced are now eliminated. The machine-made statements are always ready on time. Heretofore, if a depositor wanted a statement of his account in the middle of the month, he was compelled to wait while bookkeepers waded through the great mass of figures in the ledger for each day of the month and then computed his new balance.

With the Burroughs, depositors' accounts are kept always in balance. Mistakes in figuring are impossible for the machine calculator. Each day the statements are taken from the binder and run through the machine. Checks are listed and subtracted, deposits listed and added, and the new balance automatically figured by the machine.

The Burroughs prints dates, adds deposits, subtracts checks, gives old and new balances and automatically detects and records overdrafts, listing them on the statement with a red "OD" sign. Entering of the proper amounts into the machine by the depression of the figure keys on the keyboard is all that is required of the operator. Mental efforts in balancing accounts is entirely done away with.

The Burroughs machine, which has revolutionized accounting and bookkeeping methods all over the world, is now in daily operation at the People's State Savings Bank.

## HARVEY SHOWS UP AL

Col. George Harvey declares that it is erroneous to suppose that Mr. Burleson is not a practical business man, merely because he has held political office all his life. Col. Harvey has unearthed a contract entered into between Mr. Burleson and his brother-in-law on one side and the State of Texas on the other. Under its terms the State furnishes the Burleson plantation with 125 convicts to work it on the share system—the state receiving sixty per cent of the profits and the brothers-in-law forty per cent.

The guards who have charge of the gang of convicts see to it that they do a full day's work. One of the overseers testified that he worked the men from daylight to dark, and if there was any sign of laziness "eighteen licks" was the penalty. Detailed statements of the profits derived by the Burlesons from the exploitation of the Texas criminals are lacking, but the fact that the contract provides that "The parties of the first part shall pay the parties of the second part the sum of twenty-five dollars per month for the flogs," indicates that no possible source of revenue was overlooked by our enterprising Postmaster General.

Col. Harvey feels that this Texas contract is sufficient proof that Mr. Burleson is possessed of keen business acumen, and many are inclined to agree with him. However, it is the opinion that the Post Office Department, and the country generally would benefit were Mr. Burleson to retire from public life to his Texas ranch and supervise the spanking of his convicts.

## TAKES HOLD AND HELPS

Marie Heisler, Freeport, Ill., writes: "I had more or less of a cough for 10 years and I have taken quite a number of medicines. None of them takes hold and helps like Foley's Money and Tar." This old, reliable cough syrup promptly helps coughs, colds, croup and whooping cough. Contains no opiates.—Hites Drug Store.

## School Commissioner's Notes

May L. Stewart, Commissioner

Schools visited during the past week were Hilton, Norwood, McGeah, Burgess, Maple Grove, Hopyard, Bay shore and Murray.

Libraries in Marion Center, Barward, and Hilton, were inspected on Friday thru the kindness of the state traveling librarian who was giving a series of lectures to the county normal class and expressed to the commissioner a desire to get out in the country to see just what the rural school libraries were like. The trip was arranged and many helpful suggestions were made to the teachers. Knowing local conditions, also, Miss Allen, the librarian, will be able to give much more help to the normal class.

The following wrote on the teachers' examination held in Charlevoix at Court House on the 24-26th: Mrs. Lizzie DeNice, Mrs. Cora Willis, Miss Thelma Spees, Miss Sylvia Jensen, R. Verne Woodworth. Board of Examiners will meet on Saturday, May 3rd, to vote and issue certificates according to law.

In another column of this paper see notice of eighth grade examination.

The following teachers have completed their terms of school for this year: Olive Underhill, Orabella Porter, Georgia Scroggie, Muriel Kerry, Eva Latham, Mary Doyle, Josephine Graham—Vivia Keller, Eileen Gunsolus. Miss Orabella Porter will complete the term of school left unfinished by Mrs. Leah Peters.

Only one new teacher available according to the outlook from the examination. There are seven in the county normal class. Six have already been offered positions. Of our present teaching force it seems that three are undecided as to their work for next year, four will go to school, six will change their professions entering into clerical or other office work, and fourteen will be married. This reduces our present corps by twenty-seven and we have a class of eight inexperienced girls to replace them. We may estimate our shortage at about twenty teachers. If it were difficult to teach last year, it will be doubly so the coming year, even more so, because the school directors are doing everything in their power to pay wages that are just and right.

Note the splendid list of supplementary readers in the Burgess School library, purchased this year thru active interest of the teacher, Miss R. L. Caniff: Little Kingdom Primer, Children's Classic in Dramatic Form, Riverside Primer, Art Literature Primer, Play-time, Elson's Primer, Free and Treadwell Primer, Cyr's Primer, Aldine's First Reader, Heath's Primer, Aldine's Second Reader, Folk Lore Reader 1 & 2, Children's Classic in Dramatic Form Book 11, Art Literature Book 11, Free & Treadwell Book 11, Sunbonnet Babies in Holland, Sunbonnets in Overall, Overall Boys in Switzerland, 20 Hiawatha and several others.

(The latest ruling allows school boards to use the library fund for supplementary readers. There is nothing to prevent the use of the general fund for any or all library purposes.)

Miss Effie Cook will return to Knop school with fine raise in salary. Mrs. Cora Willis has been asked to return to Maple Grove. No further arrangements are known beyond those already published.

## Notice of Eighth Grade Examination for Charlevoix County.

Annual examination for eighth grade students will be held May 8-9th, Thursday and Friday, beginning at 8:30 a.m. in the following places in the county:

Boysie City-Central School Building in Room X.

Charlevoix in the Court Room. (Note change to Court House.)

East Jordan in Central School Building Room 5.

St. James in High School Room.

This is a State Examination under charge of county board of examiners. Paper furnished. Seventh grade students wishing to write, may take physiology and geography tests, holding marks over for the following year. All eighth grade students over 17 to write or at present under quarantine may apply to Commissioner for permission to write at later date, when the State will furnish different set of questions.

MAY L. STEWART,  
Com'r of Schools.

ONE DOLLAR PER YEAR

Entered at the postoffice at East Jordan Michigan, second class mail matter.

Woman's inconsistency is the greatest of her charms.

In the game of life a good deal depends on a good deal.

Even a straight-faced man has been known to go crooked.

A woman can hold her age better than any other secret.

The less a man says the more guessing his wife has to do.

The average man has more than one kick coming—to him.

Even the prude isn't averse to sitting in the lap of luxury.

Holidays are more pleasant in contemplation than in fact.

Don't attempt to swindle a mule; he is apt to get back at you.

One of the worst things under the sun is a shady reputation.

Flattery is harmless to the woman who doesn't flatter herself.

Women seldom or never admire the life work of Father Time.

Some people are saddest when they sing and there's a reason why.

Things you try to keep dark will come to light sooner or later.

One-half the world doesn't let his better half know how he lives.

If a poor man has the sand he may win a rich girl with the rocks.

It's love that makes the postman go around with a lot of silly letters.

Openings sometimes come to men and oysters when least expected.

When a fellow tells you all his troubles he becomes one of yours.

It doesn't pay to bunko a woman whose only asset is a gift of gab.

Run for office and read the opposition newspapers if you would see you.

He who hasn't time to be happy today will find that it is too late tomorrow.

The more sunshine there is in some men's lives the less they make.

Man claims to be woman's intellectual superior, yet records show few woman bigamists.

Take things as they come, but remember there are some things it will pay you to go after.

Gladys, the twenty-foot python in Lincoln park, Chicago, received her semi-annual meal recently. Twelve keepers, with the aid of a sausage-stuffing machine and a five-foot pole, treated her to thirty pounds of ground beef, followed by a twelve-pound piece of beef.

Instead of the old-fashioned "pound" party, the Rev. and Mrs. C. L. Eaton were entertained at a "pint" party at their home in St. Johnsbury, Vt., recently. There were pints of canned fruits and vegetables, one pint of coal, several pints of sugar and two pints of cents given them.

A London tailor, awed by the dangers accompanying one of his raids, built himself a dugout in the basement of his store with bales of cloth. A war office official inspected it and declared it absolutely bomb proof.

The total population of the Philippine islands is estimated by Professor H. Otley Beyer, of the University of the Philippines, at "about 9,503,271," of whom 9,427,905 are native born. The number of Christians is about 8,413,347; of Mohammedans, 315,950, and of pagans, 618,637.

Texas reports the making of a delicious table syrup from mesquite beans. Millions of acres of land in that state are covered with the low-growing mesquite tree yielding two crops of beans yearly. The beans grow in long pods, fifty to seventy-five bushels an acre. They contain a large amount of high grade molasses at low cost by a simple process of boiling the juice.

If a man refuses to set an example he is foolish if he expects the world to have a good opinion of him.

When a man is recovering consciousness he usually collects his senses on the installment plan.

The man who is living his life on the square need not worry if a few professed friends do desert him.

## Clifford Hosler Killed in Action

Met Death In the Verdun Drive on October 9th.

Clifford Hosler, son of Mr. and Mrs. John Hosler, Sr., of this city is among the East Jordan heroes who paid the supreme sacrifice on the battlefields of France. He was reported as missing in action in a telegram received here last November and since then both relatives and friends have been hoping that he was still with the living. The below telegram, received last Monday, dispels that hope:—

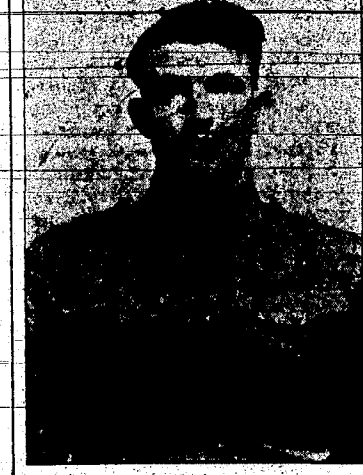

Washington, April 28th

Mrs. Kate Hosler,

East Jordan, Mich.

Private Clifford Hosler, infantry, previously reported missing in action since Oct. 11th, 1918, now reported killed in action Oct. 9th, 1918.

Harris, Adjutant General.

PRIVATE CLIFFORD HOSLER

Private Hosler was a member of Company H, 125th Infantry, going overseas in February, 1918.

East Jordan may well have cause to remember the action west of Verdun in October, for it was in this drive that three of her soldiers paid the supreme sacrifice—Private Harold L. Sweet, Corporal Albert M. Rebec and Private Clifford Hosler.

That the world grows better is just as sure and just as natural as the fact that the oak grows larger.

Some men think they have to "blow-up" every once in a while or their employees will not respect them.

While in the long run, people can only help themselves, yet there are a lot of fellows who need pullin' out of a rut.

Marriage may be a failure or it may not be. In either case there is a lot of indisputable evidence to the contrary.

The most painful climbing of fortune's ladder is done by people who have been at the top and are compelled to climb down.

A lot of salesmen, when they come in to the house, seem to know more about the merit of the competitors' goods than of their own.

In the last analysis, according to Ed Howe, modern efficiency is nothing but a revised version of the old-fashioned "Work hard, young Man!"

The inference to be drawn from current newspaper advertisements is that the brand of gum one chews has a great deal to do with success in life.

A London tailor, awed by the dangers accompanying one of his raids, built himself a dugout in the basement of his store with bales of cloth. A war office official inspected it and declared it absolutely bomb proof.

The total population of the Philippine islands is estimated by Professor H. Otley Beyer, of the University of the Philippines, at "about 9,503,271," of whom 9,427,905 are native born. The number of Christians is about 8,413,347; of Mohammedans, 315,950, and of pagans, 618,637.

## E. J. H. S. Wins First Ball Game

Trim Central Lake 9 to 7 in Close But Exciting Game.

Last Wednesday afternoon East Jordan High School baseball team went over to Central Lake and surprised themselves as well as the opposing team by coming out on the long end of a nine to seven score. Just on the Saturday previous the Central Lake team had gone over to Charlevoix and won ten to five so the local boys naturally expected a drubbing especially as the game was to be played at Central Lake. All the practice the boys have had has been on the school house grounds which are too small and too rough to accomplish much. The game was arranged more than anything else as a practice game whereby our boys could get a real taste of baseball on a good diamond, for Central Lake has a good diamond which is adjacent to the school. The fact that our boys won goes to show that they possess enough natural ability to form a very strong high school baseball team and with the proper amount of practice will develop into a team that will prove a credit to East Jordan. John Gunderson pitched the game for East Jordan and although he was handicapped by having the large finger of his pitching hand cut nearly off only ten days ago, nevertheless he struck out twenty men and allowed but four safe hits. Barring accidents he should develop into a most effective high school pitcher. Considering the fact that baseball was practically new to most of the boys they did remarkably well and their errors were mostly of omission rather than commission. Not only did they win the game but they also learned many things about the game of baseball which will be of great value in contests that are to follow soon. Now that the war is over baseball is just as much fun as it ever was and East Jordan is fortunate in having the nucleus of a winning baseball team.

Few persons take the chronic fault-finder as seriously as he does himself.

True happiness consists in getting something you wanted but didn't expect.

Religion is a good thing that does not cut a very wide swath in a horse trade.

When speaking of amusement circles it is proper to include circus rings.

The love that dwells in a cottage could never thrive off terrapin and champagne.

Some husbands would do almost anything to render their wives unspeakably happy.

The difference between repartee and impudence is the size of the man who says it.

Does a doctor intend it as a pleasantry when he says he hopes you will be well soon?

Fruit is considered wholesome, but a banana peel will upset most any man's stomach.

You can please any man by calling him a gentleman even if he knows you do not mean it.

Very often the man who asks time to "think it over" could give you his answer at once.

More men would refrain from fraud if they did not think they were too smart to be caught.

Persons who follow the line of least resistance hardly ever become strong in their community.

Cupid is not always a good shot; sometimes his dart strikes the liver instead of the heart.

One of the hardest things for most persons is to have opinions without becoming opinionated.

There must be something wrong with a man when he can not make his relatives also his friends.

The great difficulty in trying to rid a man of wrong ideas is that he is certain that he is right.

There are few persons who seem to determine their age by their interest in life instead of years.

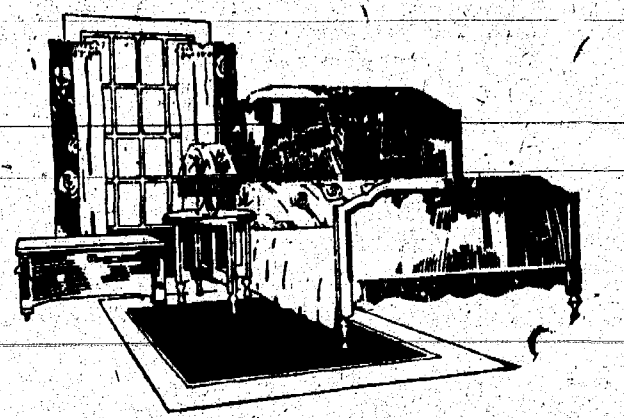

The person who applies himself to work finds it easier when it becomes necessary to apply for work.

A New Bunch of **HATS** ALL COLORS \$2.00, \$2.50, \$3.00 and \$4.00

ALSO A GOOD VARIETY OF Men's Pajamas and Night Shirts, Work and Dress Shirts, Ties, Collars, Hose (In Plain and Fancy Patterns) Caps, Gloves, etc.

**East Jordan Lumber Co.**

**IF**  
All thought alike, there would be no horse-trading.

We think we have the **BEST BARGAINS** obtainable in **Horse and Poultry FEEDS**. We will endeavor to please. Give us a trial.

**CITY FEED STORE**

The girl with a prominent wishbone always thinks summer styles immodest.

**WHAT ONE MOTHER DOES**

Mrs. P. Bennett, 7 Wawayanda Place, Middletown, N. Y., writes: "I have given Foley's Honey and Tar to my little boy, and cannot recommend it too highly as I think it is the only medicine for coughs and colds." Fine for croup and whooping cough, as well as coughs and colds. Contains no opiates.—Hite's Drug Store.

It is usually a mistaken kindness to allow a man to do all the talking he would like to do.

Don't get too self-important; the world will move on just the same after you are gone.

One man who never did things by halves has been arrested for making counterfeit dollars.

Sometimes the popularity of a fad depends on the amount of foolishness there is back of it.

A politician thinks he is entitled to as many kinds of opinions as he may need in his business.

It has been observed that the average man is never so happy as when he is posing as a critic.

Many marriages are due to the fact that the contracting parties fail to understand each other.

Some married women are so weak that they allow their husband to keep part of their salaries.

When a girl gets hold of a young man's heart-strings she proceeds to tie them in a beau knot.

If a man is unable to say nothing and saw wood he should at least try to do one or the other.

Always listen to an honest opinion—if for no other reason than it is different from your own.

The man who really values his business policy will adhere to it by keeping the premiums paid up.

There will always be weak men who will go several blocks out of their way to fall into temptation.

Many a great man's reputation for wit is due to his having been interviewed by a bright reporter.

It takes a lot of common sense to get a man out of the trouble that a little nonsense got him into.

People sometimes stir up a lot of trouble by telling the truth when it would be policy to say nothing.

Love must be hopelessly blind when it considers a woman who looks like 20 cents worth her weight in gold.

Many a married man goes to the near by saloon for a "smile" because he gets nothing but frowns at home.

Even the man who has placed a wager on a sure thing does not feel as certain about it as he would like.

The child who is not given reasonable discipline may have a real grievance against his parents in later years.

No higher compliment can be paid to a person than to have others be willing to trust him to do the right thing.

Honest criticism is worth much more to a person than half-hearted commendation that is poorly deserved.

After reading the advertisements in a current number of a farming magazine we think we can explain the food shortage—all the farmers are automobiling.

**METHODISTS BEGIN BIG DRIVE MAY 18**

THOUSANDS ARE READY IN THIS STATE FOR \$105,000,000 CAMPAIGN.

**PLAN OF C. S. WARD ADOPTED**

Director of Vast Organization Has Record of Raising More Money For Charity Than any Man in World.

On May 18 Methodism of the world will open its campaign for \$105,000,000 in seven days. Thousands upon thousands of Methodist ministers and laymen have been mobilized and will jump into the fight at the "zero" hour. Ten thousand recruits will go "over the top" in Michigan and an intensive financial campaign, such as has never been known in the history of the church, will be waged from the shores of Lake Superior to the Ohio and Indiana boundary lines.

The Detroit area, which includes the entire state, has been given an annual quota of \$1,150,540 for the ensuing five years. This money is to be used in the greatest program of a religion of service the world has ever known. It will be used in meeting the challenge

CHARLES S. WARD

which church leaders say has been laid at the door of Methodism.

A nationwide special campaign organization has been built up under the direction of Charles S. Ward, the man who originated the "Ward plan" of raising money by carefully organized campaigns, now called "drives." Mr. Ward is recognized as the man who has raised more money for charity than any individual in the world.

This wizard of financial campaigns was born in Vermont, 60 years ago. He has been a Y. M. C. A. worker since he graduated from Dartmouth in 1881. Mr. Ward is of particular interest to Michigan, as a few years ago he was in charge of the Y. M. C. A. at Grand Rapids and still retains his membership in the First Methodist church of that city.

C. M. Dreshman, a Harrisburg, Pa., man who has been associated with Mr. Ward in most of his great drives, has been sent to Detroit, by the national campaign manager, to take charge of the intensive financial drive in this area.

**TROUSSEAU FINERY AID TO CENTENARY**

Strange Contributions Are Made To Swell Methodist Fund.

Many strange tales are coming from every corner of the globe relating the unique and extraordinary methods being used by Methodists to obtain money for the Centenary fund of \$105,000,000 to be raised the week of May 18. That the spirit of this greatest of Christian movements known to the world, is gripping the hearts of men and women of every land cannot be doubted.

Many women are giving the rings from their ears, fingers and toes. From the jungles of Africa, rice, beads, palm nuts, strange birds and beasts are being sent out to the coasts to be turned into money for the Centenary.

A woman of Korea took all of her wedding finery and native jewelry, which Korean women treasure a lifetime, to the nearest mission as an offering.

A farmer in the "Thumb" district of Michigan is trapping skunks and selling their pelts to make up his "quota."

Three Roman Catholics in New York state have contributed to date \$675 and have announced they are going to do more.

The owner of Marie of Sarnia, prize imported Guernsey cow of a Wisconsin dairy farm has dedicated the ribbon winning animal's milk. It means a net donation of \$200 a year which Marie of Sarnia will give.

**ANTIQUITY OF DECORATIVE ART**

Strange Sources From Which Pigments Used by Modern Painters Are Derived.

**PRESERVATION OF SURFACES.**

Crude but Effective Processes Employed by the Egyptians and Greeks of Pliny's Day—Noah Prudently Waterproofed the Ark.

Whether paint was invented in answer to a need for a preservative or to meet a desire for beauty is a question fully as knotty as the ancient one about the relative time of arrival of the chicken or the egg. It was invented, though, and it serves both purposes equally; so whether it is an offspring of mother necessity or an adopted son of beauty remains forever a disputed question.

The first man, cowering under the fierce and glaring suns of the biblical countries, constructed rude huts of wood to shelter them. The perishable nature of these structures caused rapid decay, and it is probable that the occupants, seeking some artificial means of preservation, hit upon the pigments of the earth in their search. It is perhaps natural to suppose that it was the instinct of preservation that led men to the search, although the glories of the sunsets and the beauties of the rainbow may have created a desire to imitate those wonders in their own dwellings.

The earliest record of the application of a preservative to a wooden structure dates from the ark, which was, according to the Bible, "pitched within and without." The pitch was a triumph of preservation whatever it lacked as a thing of beauty.

Decoration applied to buildings first comes to light with ancient Babylon, whose walls were covered with representations of hunting scenes and of combat. These were done in red and the method followed was to paint the scene on the bricks at the time of manufacture, assuring permanence by baking. Strictly speaking, this was not painting so much as it was the earliest manifestation of our own familiar kalsomining.

The first Hebrew to mention painting is Moses. In the thirty-third chapter of the book of Numbers he instructs the Israelites, "When ye have passed over the Jordan into the land of Canaan, then shall ye drive out all the inhabitants of the land from before you and destroy all their pictures."

At later periods the Jews adopted many customs of the peoples who successively obtained power over them and in the apocryphal book of the Maccabees is found this allusion to the art of decorating, "For as the master builder of a new house must care for the whole building, but he that undertaketh to set it out and paint it, must seek out things for the adorning thereof."

Although Homer gives credit to a Greek for the discovery of paint, the allusions to it in the books of Moses, the painted mummy cases of the Egyptians and the decorated walls of Babylon and Thebes fix its origin at a period long antecedent to the Grecian era. The walls of Thebes were painted 1,900 years before the coming of Christ and 998 years before "Omer smote his bloomin' lyre."

The Greeks recognized the value of paint as a preservative and made use of something akin to it on their ships. Pliny writes of the mode of boiling wax and painting ships with it. After which, he continues, "neither the sea, nor the wind, nor the sun can destroy the wood thus protected."

The Romans, being essentially a warlike people, never brought the decoration of buildings to the high plane it had reached with the Greeks. For all that the ruins of Pompeii show many structures whose mural decorations are in fair shape today. The colors used were glaring. A black background was the usual one and the combinations worked thereon red, yellow and blue.

In the early Christian era the use of mosaics for churches somewhat supplanted mural painting. Still, during the reign of Justinian the Church of Saint Sophia was built at Constantinople and its walls were adorned with paintings.

In modern times the uses of paint have come to be as numerous as its myriad shades and tints. Paint is unique in that its name has no synonym and for it there is no substitute material. Bread is the staff of life, but paint is the life of the staff.

No one thinks of the exterior of a wooden building now except in terms of paint coated. Interiors, too, from painted walls and stained furniture down to the lowliest kitchen utensil, all receive their protective covering. Steel, so often associated with cement re-enforcing, is painted before it goes to give solidity to the manufactured stone. The huge girders of the skyscrapers are daubed an ugly but efficient red underneath the surface coat of black. Perhaps the best example of the value of paint on steel is found in the venerable Brooklyn bridge, on which a gang of painters is kept going continually. It is scarce possible to think of a single manufactured article which does not meet paint somewhere in the course of its construction. So has paint grown into the very marrow of our lives.

**MARINE TO GUIDE STATE S. A. DRIVE**

MAJOR EDWIN DENBY, U. S. M. C. ACCEPTS GOVERNOR'S APPOINTMENT AS STATE CHAIRMAN FOR MICHIGAN.

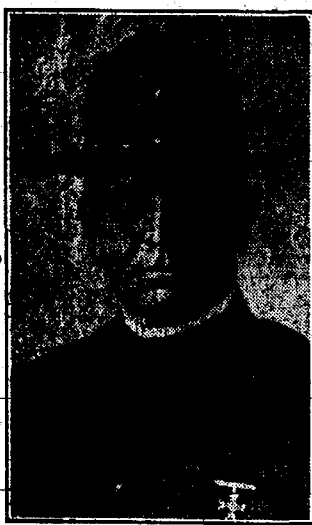

**DRIVE TO BE HELD MAY 19-26**

Funds Needed For Salvation Army's Home Service Work—General Pershing, Pays Tribute.

Michigan State Chairman Salvation Army Home Service Fund Campaign. Detroit, April 28.—If you were planning most any kind of drive to go "Over the Top" and you figured on telling your desire to the marines, isn't this just the type of a "devil dog" you'd condescend to?

Whether or not Governor Sleeper had that in mind in selecting a State Chairman to head Michigan's campaign during the week of May 19 to 26 to raise its quota of the \$13,000,000 for the Salvation Army Home Service Fund, is a matter of conjecture. At any rate he selected Major Edwin Denby, Detroit lawyer-businessman-soldier, and former Michigan State Legislator and Congressman, for the job. And the major has accepted.

What the Salvation Army means to Michigan's sons—and mothers and wives and sisters and sweethearts—needn't be told; it's a story of cheery "lassies" overseas with their doughnuts and coffee and handy needles and motherly-sisterly smiles, and its mightily fresh in the hearts of Michigan folks. Pretty good evidence, by

MAJOR EDWIN DENBY, U. S. M. C. A. E. F.

the way, that the Wolverine state is bound to repeat its Victory Loan record in being the first over the top in the "Army" drive. Funds are needed to meet the many obligations that humanity, the great war and its aftermath have pressed upon it—and that's enough said, in Michigan's opinion.

The appointment of Major Denby as State Chairman, the selection of Governor Sleeper and Henry M. Leland, president of the Lincoln Motors company, as the State's representatives on the National Campaign Committee, and the opening of headquarters for the "Army" province of Michigan-Indiana at 74 Shelby street, Detroit, are the initial steps in the State organization program.

Major Denby who served as an observer in France expressed his sincere approval of the "Army" and its work, overseas and at home. In his letter to Governor Sleeper accepting the State Chairmanship. The Major wrote:

"Needless to say that every man who wears, or has worn, the uniform of the United States will always have the kindest feeling toward the Salvation Army and will welcome the opportunity to say a word for it and its works."

Which by the way elicited a letter of sincere appreciation on behalf of the Salvation Army from Colonel A. E. Kimball, of Detroit, Michigan-Indiana provincial officer.

But Major Denby's approving voice is only one of great, real chorus that rings across the Atlantic. This, for example was wired to Commander Evangelina Booth, the greatest overseas Crusader of them all:

"I wish to express to you my sincere appreciation and that of all members of the American expeditionary forces for the splendid service rendered by the Salvation Army," said the message.

The outstanding features of the work of the Salvation Army have been its disposition to push to the front and the trained and experienced character of its workers, whose one thought was the well being of the soldiers they came to serve. While the maintenance of these standards necessarily has kept your work within narrow bounds as compared to some of the other welfare agencies, it has resulted in a degree of excellence and self-sacrifice in the work performed has been second to none.

"It has endeared your organization and its individual men and women workers to all those divisions and other units to which they have been attached and has spread their good name to every part of the American expeditionary forces."

"Please accept this as a personal message to each of your workers."

**OVERWORKED, TIRED WOMAN TOOK VINOL**

Now She is Strong and Hearty

Philadelphia, Pa.—"I was overworked, run down, nervous, could not eat or sleep. I felt like crying all the time. I tried different remedies without benefit. The doctor said it was a wonder I was alive, and when Vinol was given me I began to improve. I have taken eight bottles and am now strong and perfectly healthy in every respect, and have gained in weight. I can not praise Vinol enough."—Mrs. Sarah A. Jones, 1025 Nevada St., Philadelphia, Pa.

We guarantee Vinol to make overworked, weak women strong or return your money. Formula on every bottle. This is your protection.

HITE DRUG CO., East Jordan and Druggists Everywhere.

Every musician dislikes overdue notes.

Whoever started the war, we have a hunch about who is going to pay for it. —Somehow wives who have "no business sense," always seem to get along pretty well as widows.

It makes a man furious to have a woman use her intuition on him instead of her reason, because he knows she's right and has no business to be.

**'SPRING FEVER' AND COMMON SENSE**

Instead of giving up and saying you have "spring fever," it is more sensible to take a good, wholesome physic. Biliousness, sick headache, sour stomach, bloating, coated tongue, all are banished by Foley Cathartic Tablets. B. B. Haward, Unadilla, Ga., writes: "Foley Cathartic Tablets give quick relief."—Hite's Drug Store.

American Owned, Entirely.

20-cent package—Larger sizes also.

**SAGE AND SULPHUR DARKENS GRAY HAIR**

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

**Jump from Bed in Morning and Drink Hot Water**

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of haggard, anaemic-looking souls with pasty, muddied complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

**NOSE CLOGGED FROM A COLD OR CATARRH**

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heat the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

# LAYMAN STARTS CENTENARY PLAN

WORLD MOVEMENT IS CON-  
CEIVED AT MEETING OF  
WORKERS.

DR. S. EARL TAYLOR ORIGINATOR

Methodist Centenary's Executive Sec-  
retary Says Church is Awakening to  
Full Realization of Its Great  
Great Mission.

One hundred laymen of the Meth-  
odist Episcopal Church met about a  
year ago at Niagara Falls. One of  
their number, Dr. S. Earl Taylor, of  
New York, repeated a speech he had  
made four years ago. The first time  
he was politely "set upon." When the  
other 99 had heard him at Niagara  
Falls he was acclaimed as the man  
who would change the religious sys-  
tem of the world.

As a result of this speech hundreds  
of thousands of persons in every part

DR. S. EARL TAYLOR

of the entire world are at work now  
preparing for the \$105,000,000 financial  
campaign of the Methodist Missionary  
Centenary which is to be conducted  
during the week of May 18. Dr. Tay-  
lor is the father of the Centenary  
movement which is hailed as the great  
force by which the world is to be re-  
built physically and morally.

Dr. Taylor, while a graduate from  
a divinity school, is not a minister. He  
refused ordination. He wanted to be-  
come a lay missionary but, owing to  
illness in his family, he could not go  
abroad and he has been spending his  
time working for the church in Amer-  
ica for years.

"I have always believed in the great  
mission of the Christian Church," said  
Dr. Taylor, when he was asked to tell  
what prompted him to suggest the  
Centenary. "That mission is to bring  
the whole world to a knowledge of  
Jesus. So far, it must be admitted,  
the church has not carried out its mis-  
sion. But today we have more reason  
than ever to have faith in the church.  
The church is awakening. It is be-  
ginning to realize its mission.

Dr. Taylor is the executive secretary  
of the Joint Centenary Committee. It  
was he who organized the world sur-  
vey by which it was determined \$105-  
000,000 must be spent by Methodism  
in the next five years to carry out the  
world-wide Centenary program.

## STATE TO BENEFIT BY CENTENARY FUND

Rural Michigan and Upper Peninsula  
Will Be Given Great Social  
Service By Methodists.

In the Methodist Centenary fund  
of \$105,000,000 to be raised by the  
church during the week of May 18, the  
Detroit area, which includes Michi-  
gan, will be one of the big benefac-  
tors. Hundreds of projects are pro-  
vided for in the Centenary program of  
home missions and church extension,  
in this state. Forty million dollars of  
the total fund will be spent in the  
United States to further the service of  
the church.

This extensive program includes  
projects from Calumet to the south-  
ern boundary of the state. An extra-  
ordinary program has been laid out  
for work among the polyglot commu-  
nities in the mining and lumbering sec-  
tions of the northern peninsula. The  
survey taken by the church to ascer-  
tain the field which must be covered,  
shows there is a tremendous work in  
these localities which logically be-  
longs to the Methodist church.

Rural Michigan will see the institu-  
tion of innumerable improvements in  
the equipment of the country churches.  
This phase of the Centenary is one of  
its great features. The survey shows  
that the churches in many of the rural  
communities of this state, have not  
been able to perform their duty be-  
cause of inadequate facilities.

Improvements throughout the state,  
which will require an expenditure of  
approximately \$2,500,000, are included  
in the program.

Talk that is far fetched usually has  
become stale on the way.

An agriculturist is a farmer who  
fertilizes the soil with brains.

Better keep both eyes on the man  
who speaks disparagingly of his wife.

Virtue is its own reward, but many  
persons are trying to put it on the  
payroll.

A man may have a bad character  
and still be able to bolster up his rep-  
utation.

Unless a man is having his faith  
tested, how can he be certain that he  
has any?

The ability of some persons to carry  
on a conversation is hardly worth en-  
couraging.

Few persons are willing to admit  
that they are prejudiced in politics  
and religion.

A common mistake of some men is  
to think they can be mean without  
being found out.

It is easy for a man to be ashamed  
of his actions without being sorry be-  
cause of them.

The successful employer is the one  
who is as prompt to commend as he is  
quick to criticize.

You can not lose the friendship of  
a doctor by overworking him so long  
as you pay him.

A lazy man has no trouble in ex-  
periencing ailments which the doctors  
are unable to find.

There would be lots more activity of  
a variety of kinds if every man would  
live up to his talk.

A man's age depends considerably  
on what he is doing with time he  
should be sleeping.

There may be vanity in riches, but  
most persons naturally want to try it  
out for themselves.

Lots of persons are willing to let  
their enemies alone, but they draw the  
line on loving them.

The man who has a steady job need  
not envy the man who boasts that he  
is living by his wits.

A considerable measure of one's  
happiness depends on not knowing too  
much about other persons.

Many persons appear to be making  
contentment depend on a great many  
things not worth the having.

In the anxiety of some persons to  
do for themselves they are disposed to  
do others as often as possible.

Perhaps if other folks were a little  
more sincere one's good opinion of  
himself might receive some jolts.

The man who gives less in labor  
than he is paid for sometimes finds  
fault with a dishonest tradesman.

The appearance of a woman's pic-  
ture depends altogether on the frame  
of mind she is in when it is taken.

Too many parents have the idea that  
children should follow instructions,  
instead of being guided by example.

The opinion of a man will not be  
taken at a very high value unless he  
is interested in putting value in it.

Many a man would succeed if he  
used the same energy in his work  
that is required to tell why he failed.

Make friends by listening to a wom-  
an when she tells about her baby and  
a man when he brags about his dog.

A man may be a good citizen and  
not be a Christian, but he can not be  
a Christian and not be a good citi-  
zen.

A backless waistcoat is designed for  
dancing men. It is said to be more  
comfortable and cooler than the old  
style.

One feels that he is not getting as  
much out of life as he would like when  
he has to spend all his money for his  
needs.

The shores of time are strewn with  
the wrecks of persons who were sure  
they could quit when they wanted to  
do so.

The barber's idea of an economical  
man is one who would rather carry  
nicks on his face than pay the price of  
a shave.

If a man wants to stir up a lot of  
criticism of himself, all he needs to  
do is to get in earnest about fighting  
the devil.

Plenty of churches would die of in-  
action if it were not for the members  
who have the reputation of being re-  
ligious cranks.

Would you call it charity to give  
away a lot of things you do not want  
to keep and which no person cares  
particularly to receive?

Of twenty-eight samples of butter  
taken from nineteen Auburn, Me.,  
dealers and representing the output  
of twenty-six butter makers, only eleven  
complied with the state law, which  
requires 82.5 per cent of butter fat.

## WOMEN WILL RECEIVE MANY VICTORY LOAN MEDALS

As in Former Liberty Loans, Women  
of District Will Do Great Work in  
"Carrying On" to Success the  
Victory Liberty Loan.

Ten thousand medals made from  
captured German cannon are to be  
distributed to women Victory Loan  
workers throughout the states of Illi-  
nois, Iowa, Michigan, Indiana, and  
Wisconsin at the close of the coming  
campaign.

The United States treasury depart-  
ment has taken this means of show-  
ing its appreciation of the work done  
by thousands of volunteer workers in  
Liberty Loan drives. The medals are  
to be made from German cannon cap-  
tured by American troops at Chateau  
Thierry. These cannon have been  
melted, and the metal rolled into  
sheets, from which the medals are  
made.

This badge will be the first of its  
kind to be distributed in the United  
States since the war. It will be about  
the size of a half dollar, and will  
contain on one side a reproduction of  
the United States treasury building,  
with the words, "Victory Liberty  
Loan," and on the other side the cer-  
tification of the work done in the Vic-  
tory Loan campaign with a blank  
space in which the name of the re-  
cipient will be engraved.

Women all over the country have  
shouldered a large share of the work

in preceding loan campaigns, and the  
roll of honor undoubtedly will be just  
as large in the coming Victory Loan.  
In the last drive more than \$3,000,000  
was subscribed in amounts of \$1,000 or  
less, much of which the women's com-  
mittees were responsible for.

Victory Liberty Loan workers will  
include many prominent women from  
this as well as from other districts.  
Mrs. G. Edgar Allen of Detroit has  
been appointed state chairman for  
Michigan. Other state chairmen work-  
ing under the leadership of Miss Grace  
Dixon, woman's director for the Sev-  
enth Federal Reserve district, are:  
Mrs. Howard T. Willson, chairman for  
Illinois; Mrs. James Mariner, Wiscon-  
sin; Mrs. F. H. McCulloch, Indiana,  
and Mrs. W. W. Marsh, Iowa.

These are only a few of the many  
women who will lay aside social and  
business responsibility for patriotic  
service during the Victory Liberty  
Loan campaign, and who will be among  
the thousands of recipients of the  
Victory Liberty Loan medals.

—HELP "FINISH THE JOB."

A centipede doesn't mind a little  
thing like having one foot in the  
grave.

Health makes wealth for some, but  
not for the physician and the under-  
taker.

Talkative people seldom say much,  
but as long as they think they do they  
are happy.

## FAMILIES OF SOLDIERS AND SAILORS.

Are you worried because your allot-  
ments do not come, or your letters do  
not arrive, or for any reason connected  
with your boy's service to his country?  
Let the Red Cross Civilian Relief De-  
partment help you. Call or phone the  
following committee:

J. J. Porter, phone 1.  
Mrs. W. E. Palmiter, phone 185.  
Roscoe Mackey, phone 89-F2.  
The service is yours, free.  
Returned Soldiers and Sailors: Keep  
up your Government Insurance. We  
have some late dope on this. Ask us.

It may be perfectly safe to 'play with  
fire' if you are expert in the playing.  
It's the amateurs that get into trouble.

"A man in his life has many lives,"  
said somebody or other, who forgot to  
add, "and every one of them leads him  
into new trouble."

### HE DOES HEAVY WORK

"I do heavy work, and that is a strain  
on a man's kidneys," writes Bert Daw-  
son, Canton, Ill. "My trouble started  
with severe, sharp pains over my back.  
I bought a bottle of Foley Kidney Pills,  
and before it was gone, my pains had  
entirely left me." They banish rheu-  
matic pains, backache, soreness, stiff-  
ness.—Hite's Drug Store.

## URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts  
or Bladder bothers you—Drink  
more water.

If you must have your meat every day,  
eat it, but flush your kidneys with salts  
occasionally, says a noted authority who  
tells us that meat forms uric acid which  
almost paralyzes the kidneys in their ef-  
forts to expel it from the blood. They  
become sluggish and weaken, then you  
suffer with a dull misery in the kidney  
region, sharp pains in the back or sick  
headache, dizziness, watery stomach sour,  
tongue is coated and when the weather  
is bad you have rheumatic twinges. The  
urine gets cloudy, full of sediment, the  
channels often get sore and irritated,  
obliging you to seek relief two or three  
times during the night.

To neutralize these irritating acids, to  
cleanse the kidneys and flush off the  
body's urinous waste get four ounces of  
Jad Salts from any pharmacy here; take  
a tablespoonful in a glass of  
water before breakfast for a few days  
and your kidneys will then act fine. This  
famous salts is made from the acid of  
grapes and lemon juice, combined with  
lithia, and has been used for generations  
to flush and stimulate sluggish kidneys,  
also to neutralize the acids in urine,  
so it no longer irritates, thus ending  
bladder weakness.

Jad Salts is inexpensive; cannot in-  
jure, and makes a delightful effervescent  
lithia-water drink.

Thursday, Friday May 8th - 9th - 10th  
and Saturday

# THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. Binzer, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binzer that has made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass.

The dog that is feared is the one that has learned that too much barking is weakness rather than strength.

Statistics show that the sooner a man allows his wife to have the last word the sooner the controversy ends.

The more a woman knows to the discredit of her husband the madder it makes her when other women find it out.

The average doctor would die of starvation if his patients had no more confidence in him than he has in himself.

Nearly every young man is being watched by some one whose good opinion he will probably find valuable some day.

Children who are obedient to their parents in right living may lose some excitement, but they are traveling a safer road.

# BISHOP HENDERSON HEADS WAR RELIEF

DETROIT PRELATE TO LEAD IN EUROPEAN RECONSTRUCTION WORK.

## OUTLINES AGGRESSIVE PROGRAM

Methodist Centenary European Plans Are Increased Five-Fold After Commission Studies Dire Need of Battle-Wrecked People.

Bishop Theodore S. Henderson, head of the Detroit area of the Methodist church, is in charge of the great reconstruction program of the Methodist Centenary in Europe. As executive chairman of this department of the Centenary Commission he spent three months in Europe investigating conditions in the devastated districts. Upon his return to America, the Bishop declared that Methodism has a titanic duty to perform towards Pro-

BISHOP THEODORE S. HENDERSON

testantism of Europe. It has another gigantic duty towards humanity in helping to relieve the widows and orphans who have been victims of the war and the ravages of the Huns. "Methodism must answer this call," he said. "The future of European Protestantism rests with the answer we make to its call for aid. In nearly every country of Europe the Methodist church has the chief responsibility for it is the leader in the work at this time and has the organization. We must not fall the pioneers who are blazing the trail for the Protestant Church and we cannot turn a deaf ear to the pitiful cries for help from those little orphans and grief-stricken widows."

Original plans of the Centenary provided for an expenditure of \$6,000,000 in Europe, but a survey made by a commission, of which the Bishop was a member, revealed such a stupendous task that the budget was increased five-fold and \$25,000,000 will be needed to carry out the five year program. Even at the present time relief work of the Methodists is being carried on for they are operating orphanages in France and Italy and supplying food and medicine to war sufferers. Clinics, dispensaries, hospitals, orphanages, schools and churches will be established in many parts of Europe. This work, while inaugurated as a war emergency, is of a permanent nature and will be carried on after the immediate relief is accomplished.

## BUSINESS MEN JOIN IN METHODIST DRIVE

Many Give Up Commercial Activities To Assist Centenary Campaign.

One hundred thousand minute men of the Methodist church have awakened America to the knowledge that the Methodist Centenary is the greatest church movement the world has ever known. They have talked before millions of people during the past four months telling of the magnitude of the program the church has outlined in its movement for a religion of service.

Thousands of the country's most famous business men have temporarily abandoned their commercial activities to take up this work of reconstruction facing the church. They are traveling the country day and night telling of the plans which have been formulated for the expenditure of the \$105,000,000 Centenary fund to be raised the week of May 18.

A Detroit business man has been one of the leaders of this army. A. L. Parker has set aside his business interests to become a dollar-a-year man with the church. He accepted the position as national secretary of the Minute Men movement and for the past six months he has been spending every minute traveling from coast to coast cementing this organization together.

Talk that is far beyond usually has become stale on the way.

An agriculturalist is a farmer who fertilizes the soil with brains.

Better keep both eyes on the man who speaks disparagingly of his wife.

Virtue is its own reward, but many persons are trying to put it on the payroll.

A man may have a bad character and still be able to bolster up his reputation.

Unless a man is having his faith tested, how can he be certain that he has any?

The ability of some persons to carry on a conversation is hardly worth encouraging.

Few persons are willing to admit that they are prejudiced in politics and religion.

A common mistake of some men is to think they can be mean without being found out.

It is easy for a man to be ashamed of his actions without being sorry because of them.

The successful employer is the one who is as prompt to commend as he is quick to criticize.

You can not loose the friendship of a doctor by overworking him so long as you pay him.

A lazy man has no trouble in experiencing ailments which the doctors are unable to find.

There would be lots more activity of a variety of kinds if every man would live up to his talk.

A man's age depends considerably on what he is doing with time he should be sleeping.

There may be vanity in riches, but most persons naturally want to try it out for themselves.

Lots of persons are willing to let their enemies alone, but they draw the line on loving them.

The man who has a steady job need not envy the man who boasts that he is living by his wits.

A considerable measure of one's happiness depends on not knowing too much about other persons.

Many persons appear to be making contentment depend on a great many things—not worth the having.

In the anxiety of some persons to do for themselves they are disposed to do others as often as possible.

Perhaps if other folks were a little more sincere one's good opinion of himself might receive some jolts.

The man who gives less in labor than he is paid for sometimes finds fault with a dishonest tradesman.

The appearance of a woman's picture depends altogether on the frame of mind she is in when it is taken.

Too many parents have the idea that children should follow instructions, instead of being guided by example.

The opinion of a man will not be taken at a very high value unless he is interested in putting value in it.

Many a man would succeed if he used the same energy in his work that is required to tell why he failed.

Make friends by listening to a woman when she tells about her baby and a man when he brags about his dog.

A man may be a good citizen and not be a Christian, but he can not be a Christian and not be a good citizen.

A backless walstcoat is designed for dancing men. It is said to be more comfortable and cooler than the old style.

One feels that he is not getting as much out of life as he would like when he has to spend all his money for his needs.

The shores of time are strewn with the wrecks of persons who were sure they could quit when they wanted to do so.

The barber's idea of an economical man is one who would rather carry nicks on his face than pay the price of a shave.

If a man wants to stir up a lot of criticism of himself, all he needs to do is to get in earnest about fighting the devil.

Plenty of charades would die of inaction if it were not for the members who have the reputation of being religious cranks.

Would you end it charity to give away a lot of things you do not want to keep and which no person cares particularly to receive?

Of straight samples of butter taken from a Lincoln, Auburn, Mo., dealer and representing the output of twenty-six butter makers, only eleven complied with the state law, which requires 82.5 per cent of butter fat.

## MORTGAGE SALE.

By a mortgage dated the 24th day of November A. D. 1918, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan, on the 28th day of November A. D. 1918, in Liber 50 of Mortgages on A. D. 228, PETER BLOCK and ELLEN BLOCK, his wife, of the Township of Marlon, Charlevoix County, Michigan, did duly mortgage to THE GRANT STATE BANK, of Grant, Michigan, a Michigan Banking Corporation, the lands, premises and property situated in the Township of Marlon, County of Charlevoix and State of Michigan, described as follows, to-wit: The south one-half (S 1/2) of the north-east quarter (NE 1/4) and the southeast quarter (SE 1/4) of Section twenty (20), all in Township thirty-three (33) north, Range eight (8) west, containing 240 acres, more or less, according to Government Survey thereof by

Default having occurred in the conditions of said mortgage by which the power of sale therein contained has become operative, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof:

Notice is hereby given that said mortgage will be foreclosed by a sale of said mortgaged premises, or so much thereof as may be necessary, to pay the amount due on said mortgage with interest at the rate of six and 1/2 per cent (6 1/2 per cent) per annum and all other legal costs, including an attorney fee of Thirty and no 100 Dollars as provided by said mortgage, at public vendue to the highest bidder on the 14th day of July, A. D. 1919, at 10 o'clock in the forenoon of that day, at the outer front door of the Court House in the city of Charlevoix County of Charlevoix at State of Michigan, said Court House being the place of holding the circuit court for said county.

The amount claimed to be due on said mortgage at the date of this notice is the sum of FOUR THOUSAND TWO HUNDRED THIRTY-EIGHT & 42/100 Dollars (\$4238.42).  
Dated, March 27th A. D. 1919.

## MORTGAGE SALE.

Default having been made in the terms and conditions of a certain mortgage bearing date the 31st day of October, 1908, executed by Lemuel Henderson, Jacob Henderson, Cora Henderson and Priscilla Henderson of Wilson Township, County of Charlevoix, Michigan, to George S. Bridge of Chicago, which said mortgage was recorded in the office of the Register of Deeds for the County of Charlevoix, Michigan, in Liber 45 of mortgages on page 58, on the 2nd day of November A. D. 1908 and was also assigned by said George S. Bridge, the 5th day of February, 1917, in Liber 53 of mortgages on page 402, to the Peoples State Savings Bank of East Jordan, Michigan, and is now owned by it. On which mortgage there is due at the date hereof, for principal and interest, the sum of Four Hundred Seventy-four and 25/100 (\$474.25) Dollars and an attorney fee of Fifteen and no 100 (\$15.00) Dollars as provided by law and no suit or proceedings at law or in equity having been had to recover said sum or any part thereof.

Now therefore notice is hereby given that by virtue of the power of sale in said mortgage contained and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction or vendue to the highest bidder, at the outer easterly front door of the Court House at the City of Charlevoix, of Charlevoix County and State of Michigan, said Court House being the place of holding the circuit court for said county, on the 7th day of July A. D. 1919, at ten o'clock in the forenoon; the description of said premises contained in said mortgage is as follows:

All that certain piece or parcel of land situate in the Township of Wilson, in the County of Charlevoix and State of Michigan, and described as follows to-wit: The Southwest quarter (SW 1/4) of the Northeast quarter (NE 1/4) of Section twenty-six (26) in Township thirty-two (32) north, of range six (6) west. Excepting a parcel thereof described as follows: Commencing at a point in the Boyne Falls State Road on the north line of said Section twenty-six (26) Thence West on said line to through said section; Thence South on said line to the Boyne Falls and East Jordan State road; Thence North and East along the line of said State Road to place of beginning. Also that part of the Northwest quarter (NW 1/4) of the Southeast quarter (SE 1/4) of Section twenty-six (26) Township thirty-two (32) north, of range six (6) west, lying North of Deer Creek containing Twelve (12) acres more or less.  
Dated April 11, 1919.
