## Welcome Home Celebration For Soldiers and Sailors

### EAST JORDAN TO CELEBRATE THE RETURN OF SOLDIERS AND SAILORS OF THIS REGION.

#### Date Not Set Yet. Will Be Held In Near Future.

Every returned Soldier and Sailor in Charlevoix County and adjoining territory is invited to become the guest of the City of East Jordan at a big Welcome Home Celebration which will be held in their honor in the near future. East Jordan citizens wish to express, in a public way, their sincere appreciation of the work of the Soldiers and Sailors, and are putting forth every effort to make this occasion one long to be remembered.

A definite date will be announced as soon as it can be ascertained when our Soldiers with Headquarters Company will be home. If the boys return in a body from Camp Custer—where they are to be demobilized—then an impromptu celebration will be held at the train and later on the big affair held in honor of all.

For the Celebration at least two Bands will be engaged to furnish music throughout the day and evening. A Free Show will be given at Temple Theatre throughout the day and evening. Two blocks on Main Street will be closed to traffic on that day and the space devoted to serving a Free Dinner to All and for Dancing. Booths will be erected and Tobacco and Refreshments served free to All Soldiers. The Decorating Committee are planning on additional lighting of the street for the evenings fun and all business houses will be decorated and open to their guests.

During the day it is planned to have a big parade of all our returned soldiers and sailors, and other features will be on the day's program.

Welcome Home Day will be without doubt the biggest Holiday ever staged in East Jordan. We're all indeed glad the Soldiers are getting home again and this region wants to lay aside its work for one day and pay honor to the soldiers and sailors for what they did and dared for us.

#### The Committees

Below are the various committees, appointed by our Board of Trade, upon whom rests the success or failure of the Welcome Home Celebration. Every man on these committees should do everything in his power to make this Celebration the Biggest event ever staged in East Jordan.

## Meguzee Ass'n Hold Big Rally

### Met In This City Wednesday and Thursday.

Meguzee Association, O. E. S., held their annual convention at East Jordan May 14-15th. The meetings were held at the Army with Miss Louise Irene Getty, Grand Associate Conductress, presiding. She was assisted by Grand Martha of the Grand Chapter of Michigan, Mrs. Miller of Charlevoix. Two past Grand officers were present—Mrs. A. Soules of Traverse City and Mrs. Rowan of Petoskey.

Wm. H. Sloan gave the address of welcome in a very pleasing manner, and was responded to by W. D. Wright of Harbor Springs.

The afternoon work consisted of reports and the Memorial work put on by the Charlevoix Chapter. This work was done in a very impressive manner. In the evening four candidates were installed by a picked team from the various chapters, and the Floral degree was given by the Mancelona chapter. Both were impressive and beautiful. Punch and waters were served following the evening session.

On Thursday the meeting was opened by the president and the business of the Association was transacted. The following officers were elected for the ensuing year:—

President—Effie Marshall of Charlevoix.

First Vice Pres.—Mrs. McNeil of Boyne City.

Second Vice Pres.—E. B. Gill of Central Lake.

Secretary—Esther Frank of Bellaire. Treasurer—Emma Hobler of Pellston. Chaplain—Mrs. G. E. Stone of Harbor Springs.

Marshal—Mrs. Grace Risk of East Jordan.

Executive Committee—Wm. H. Sloan of East Jordan, Glendora Williams of Mancelona, Louise Gix of Petoskey.

The next annual meeting of the Association will be held at Central Lake.

The Eastern Star Chapter wishes to thank the merchants of East Jordan for the decorations and for their courtesies to our guests, also to the gentlemen who so kindly donated their cars. To the Pythian Sisters they also express appreciation for their assistance in decorating and the people of the city who helped entertain the delegates. Also to the High School Orchestra who favored with music during the six o'clock dinner.

The M. E. Ladies Aid served three meals and from the comments which were heard, they were a decided success.

Between two and three hundred delegates were in attendance and it was voted a most enjoyable Convention.

## WOULD SHOOT BRITISH GENERAL

In declining to speak on the same platform with a British General who had declared during the war that conditions at the front had been misrepresented to the British people, Admiral Sims is quoted as saying, "What we military men can't understand is why he wasn't shot when he wrote that letter affecting the morale of the allied forces and civilians." We do not recall just what the British General said in his letter about misrepresentation of conditions. If, however, representations from British official sources were as inaccurate as from American sources the General was probably justified in what he wrote, in view of American experience in that regard, the remark of Admiral Sims that "what we military men can't understand is why he wasn't shot," is likely to intensify the determination of the American people not to give military men domination over the Republic. We wouldn't like to have a man shot for telling the truth.

## INDEPENDENCE FIRST

The Topeka Capital says that reduction in cost of government will be the main plank in the platform of the new Congress. Hardly. Preservation of American independence will be the first plank. Cost of government is of some importance but it is insignificant compared with the question whether we shall be free or shall take our instructions from a council controlled by European nations.

If you can't speak well of those about you, at least be able to prove the if you tell of them.

## THOUSANDS OF CHICKS LOST IN STATE YEARLY

### Faulty Brooding Practices Held Responsible by M. A. C.

East Lansing, Mich., May 12th.—Thousands of chicks are lost annually in Michigan through faulty brooding methods, declares Prof. C. H. Burgess, of the poultry department at M. A. C. When artificial heat is applied there is danger of high mortality among the young chicks unless special precautions are taken. Careful management eliminates practically all of the loss, however.

The following hints and suggestions for the poultry raiser are based upon tests made in the college flock at East Lansing:

1. A temperature of 92 to 96 degrees—two inches above the floor at the edge of hover, is the correct initial temperature.
2. Thoroughly disinfect the colony house before introducing the young chicks.
3. Have a surplus of heat on wet, stormy days.
4. Don't cramp a coal burning brooder stove into a small building. Allow at least eight feet square for such a stove.
5. Confine the heat to the deflector of the stove, during the spring months, by the use of a curtain around the heat deflector. A cool outside temperature promotes early feathering.
6. Clean, dry, sand on the floor, during the first week, gives ideal conditions. After the first week use plenty of cut straw and practice deep litter feeding. This prevents leg weakness and makes chicks husky.
7. Get chicks outside on ground as early as possible. They grow faster and by so doing, toe picking, cannibalism and other brooder evils are eliminated.
8. Select the early feathering and early crowing cockerels.
9. Reduce the heat as chicks grow older and eliminate it when they are fully feathered.
10. Provide plenty of ventilation.
11. Supply roosts in ladder formation. Once the chicks are taught to roost, mortality is almost entirely eliminated.

## GREAT INCREASE IN SPELTZ ACREAGE SHOWN

### Crop Reported Adapted to Adverse Conditions.

East Lansing, Mich., May 12th.—Nearly 10,000 acres of speltz were grown in Michigan last year, according to figures given out by the farm crops department at M. A. C., which indicates a tremendous increase in the use of the crop. The popularity of the cereal is thought by Prof. J. F. Cox of the college to be due to its ability to produce a profitable yield under unfavorable conditions. The term "speltz" is used for both true speltz and for emmer, most of the grain called speltz in Michigan being white emmer, in fact.

Speltz has proved to be better adapted than oats, barley or wheat for production under adverse conditions. On light, infertile or poorly prepared soils, or under conditions where preparation of the land for seeding has been delayed, speltz is the more profitable crop. On soils in condition to produce average or good crops of oats, barley or wheat, speltz is of little value, however.

While speltz should usually be planted in April or early May, being handled as oats are handled, it is possible to plant in late May with assurance of a crop. Two bushels of seed to the acre is advised. Clover may be planted along with speltz, as in the case of oats or barley. The seed should be treated for smut as oats or wheat is treated.

The average yield in the state last year was 27.25 bushels, while large yields of 60 to 80 bushels are frequently reported.

Freedom of the seas seems to be another question left for self-determination.

Well there's one good thing, from a Democratic standpoint about these attacks on Burlington. They give Newt Baker a much needed rest.

It is to be hoped that President Wilson's message to the Italian people will have a more fortunate ultimate effect than his message to the American people last October.

It is reported that Austria and Hungary have broken off diplomatic relations, which is the first of us knew that there was anything left in the two countries worth breaking off.

## 125th Infantry In Michigan

### East Jordan Men Included In The List.

New York, May 12.—The Wolverines of the 125th Infantry, who landed in New York, come to Michigan Thursday. Among the officers returning were Captain William C. Spring, East Jordan; Lieut. Roy H. Davis, Sebawaing; Lieut. Carl Mullenhagen, Petoskey; Lieut. Joseph F. Cummins, East Jordan.

Officers of the 125th who lost their lives in France include Capt. C. McLachlan, Sault Ste Marie; Lieut. Dana C. Post, Benton Harbor; Major Charles D. Matthews, Sault Ste Marie; Lieut. William Weine, Alpena, and Capt. Francis H. Barlow, Cheboygan.

#### HEADQUARTERS COMPANY.

Upstate men in the headquarters company and first battalion:

From East Jordan—Lieut. Joseph F. Cummins, Frank P. Akins, Clyde L. Strong, Mortimer F. Orvis, Vernon C. Shepard, Lionel Goodman, Charles L. Newkirk and Xelle A. Miles.

From Boyne City—George M. Bailey, William A. Wicker, Joseph Bayliss, Arthur F. Wood, Clarence T. Anderson and Irven Miner.

Lawrence Laporte, Cheboygan; Adolphus M. Allard, Charlevoix; Leonard Herrington, Charlevoix; Chas. Allard, Charlevoix; Dewey L. Pope, Oden; James M. Burley, Alanson; Jas. E. Niles, Petoskey.

## BULLETINS ON SMALL FRUIT GROWING READY AT M. A. C.

East Lansing, Mich., May 12th.—Bulletins giving full information on the culture in Michigan of raspberries, currants, and gooseberries have just been gotten out by the Horticultural Department at the Michigan Agricultural College. Facts regarding varieties, soil conditions, planting, and general care are given. The adaptability of small fruits to Michigan conditions is pointed out, and greater plantings in both the commercial and the home garden are advised.

A bulletin on muskmelon growing has also been issued and is ready for distribution. The above bulletins may be obtained by writing to the Experiment Station, M. A. C., East Lansing.

## School Commissioner's Notes

May L. Stewart, Commissioner

County eighth grade examination held last Thursday and Friday as previously announced. One hundred seven eighth graders wrote the entire examination. Eighty-three seventh graders wrote the tests in physiology and geography.

Township school work contests and commencement exercises have been arranged as follows:

May 19th, Eveline at Ironton, Goldie Schneider, Chairman.

May 20th, Boyne Valley and Hudson at Boyne Falls, Eunice Liskum, Chairman.

May 21st, Chandler at Springvale, Loretta O'Donnell, Chairman.

May 26th, Evangeline at Wildwood, Eva Latham, Chairman.

May 27th, Hayes and Bay at Undine, Georgia Redfield, Chairman.

May 28th, South Arm at Rock Elm, Ethel Brintnall, Chairman.

May 29th, Melrose at Walloon, Mabel Thayer, Chairman.

June 2nd, Norwood at Hilton, Florence Meggison, Chairman.

June 3rd, Wilton at Afton, Effie Cook, Chairman.

June 4th, Marion at Barnard, C. H. Dewey, Chairman.

June 6th, Beavers at St. James, Mabel McDonald, Chairman.

The board of examiners is doing double work in the earnest endeavor to have report of examination ready for schools previous to May 19th. The work has in past years always required from two to six weeks but as this would make the commencement exercises so late, and because the exercises are of such great value, every member of the board is working faithfully to have the returns ready within the week.

Two candidates who could not write the first examination have obtained permission to write the second test May 28-29 at commissioner's office in East Jordan.

## FARM BUREAU NOTES

The United States Secretary of Agriculture says: "We should not only have the best possible organization and co-operation of the Department of Agriculture, the Agricultural Colleges, the State Department of Agriculture and the farmers associations, but we should especially strengthen the local Farm Bureaus, which support and effectively the Extension Forces, and assist them in their activities."

Mr. J. W. Nicholson, State Extension Specialist in Farm Crops, will be in our County May 20th. He is especially interested in seeing what we have in vetch, sweet clover and red clover. We would be very much pleased if those who have an acreage of these crops would notify the County Agent before the above date.

The beekeepers of the county will be pleased to know that the State Beekeepers Convention will be held in Boyne City, July 22 and 23.

Answers to the circular letters show that we have a good supply of home grown seed corn. If you are in need of seed corn please call the County Agent's office and you can get a list of names of those who have seed corn for sale.

We have a call from Illinois for vetch seed. If you have any for sale, let us know the amount and the price you are asking for it.

From the inquiries we have received it looks as if the boys are certainly interested in the pure bred registered calf proposition. Let's make it. A pure bred calf for every pure bred boy."  
C. W. WING, County Agent, Boyne City, Mich.

## METHODS FOR POTATO SEED TREATMENT.

### A.—CORROSIVE SUBIMATE. Deadly poison

Dissolve 4 ounces of the crystals in a little hot water in a glass or earthen dish.

Pour this solution into 20 gallons of water in a barrel.

Soak uncut potatoes 30 minutes. It is dangerous to soak seed tubers longer than 1½ to 2 hours.

The solution gets weaker with use. Add 1 ounce of crystals (dissolved) after each lot of tubers is dipped.

Cut and plant at once. If weather interferes, spread out to dry. This treatment controls black leg, scab and black scurf.

### B.—FORMALDEHYDE. Irritating, not so poisonous

Pour 1 pint of Formaldehyde 40 percent into 30 gallons of water.

Soak uncut potatoes 15 minutes. It is dangerous to soak tubers longer than 1½ to 2 hours. The solution does not get weaker with use. It can be used over and over.

Cut and plant at once. If weather interferes, ripse in water, then spread out to dry.

This treatment controls black leg and scab. Potatoes with black scurf must be sorted out.

This bulletin was prepared by Dr. G. H. Coons, of the Botany Department, Michigan Agricultural College, East Lansing, Mich. For further information, write directly to him, or to the County Agent.

## PRACTICALLY UNCHANGED

The league of nations, after being undergone further revisions, shows no change worthy of the name. None of the faults uncovered by the patriotic critics of the original constitution have been eliminated in the document now before us. Like its predecessor, the new constitution makes automatic the declaration of war. It disregards the mandates of the American Constitution by denying to Congress the right to raise armies and navies to declare war, to regulate foreign commerce, to provide for the common defense and to regulate immigration. It takes from the Senate the Constitutional power now possessed by that body to ratify finally our treaties. In spite of the fact that the words "League of Nations" appear in the document, the American principle is abandoned so far as any protection given to the people is concerned. Under the new international sovereignty, as provided quite as thoroughly as under the original text. In short, while there have been some minor changes in the verbiage, all of the objectionable features of the first document are preserved in the articles as they have been passed.

**CURES BY WIRELESS**

**United States Navy Surgeon Has Unique Experience.**

But It Is Eclipsed When Six Doctors, Miles Apart, "Attend" Conference at Sea.

New York—Diagnosing and successfully treating a case of illness on a ship 100 miles away without seeing his patient was the unique experience of Lieut. Commander A. E. Younie of Portland, Ore., senior surgeon of the transport Sierra, which docked here recently.

A few days later, however, this episode in naval surgery was eclipsed when six doctors, evenly divided between the transports Sierra and the Powhatan, "attended" a conference regarding an outbreak of influenza on board the latter vessel, though they were separated by fifteen miles of water. In the first instance the wireless telegraph was used; in the second, the wireless telephone.

While the Sierra was in midocean it received a radio from the captain of the British ship Pollac, saying that a member of his crew had been suddenly taken ill and that he was in a critical condition. The advice of surgeons in the Sierra was asked. Though the Sierra was 100 miles away from the Pollac, Commander Younie took the case.

By wireless all symptoms of the sailor's malady were reported and by wireless Commander Younie prescribed treatment. Reports of the sick man's condition were sent by radio hourly for two days thereafter. At the end of that time he showed marked improvement, and when last heard from was recovering rapidly.

**MISS GOULD AS A DANCER**

Miss Gloria J. Gould, youngest daughter of Mr. and Mrs. George J. Gould, displayed great talent as a solo interpretative dancer at a dance recital given in New York for the benefit of the Belgian children made orphans by the war.

**GRANDMA USED SAGE  
TEA TO DARKEN HAIR**

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe, improved by the addition of other ingredients.

While wispy, gray, faded hair is not what we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so easily. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

**MORTGAGE SALE.**

By a mortgage dated the 24th day of November A. D. 1916, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan, on the 28th day of November A. D. 1916, in Liber 50 of Mortgages, on Page 230, PETER BLOCK and ELLEN BLOCK, his wife, of the Township of Marion, Charlevoix County, Michigan, did duly mortgage to THE GRANT STATE BANK of Grant, Michigan, a Michigan Banking Corporation, the lands, premises and property situated in the Township of Marion, County of Charlevoix and State of Michigan, described as follows, to-wit: The south one-half (1/2) of the north-east quarter (NE 1/4) and the southeast quarter (SE 1/4) of Section twenty (20), all in Township thirty-three (33) north, Range eight (8) west, containing 240 acres, more or less, according to Government Survey thereof.

Default having occurred in the conditions of said mortgage by which the power of sale therein contained has become operative, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof:

Notice is hereby given that said mortgage will be foreclosed by a sale of said mortgaged premises, or such thereof as may be necessary, to pay the amount due on said mortgage, with interest at the rate of six and 1/2 per cent. (6 1/2 per cent.) per annum and all other legal costs, including an attorney fee of Thirty & no-100 Dollars as provided by said mortgage, at public vendue to the highest bidder on the 14th day of July, A. D. 1919, at 10 o'clock in the forenoon of that day, at the outer front door of the Court House in the city of Charlevoix County of Charlevoix and State of Michigan, said Court House being the place of holding the circuit court for said county.

The amount claimed to be due on said mortgage at the date of this notice is the sum of FOUR THOUSAND TWO HUNDRED THIRTY-EIGHT & 42-100 Dollars (\$4238.42).

**MORTGAGE SALE.**

Default having been made in the terms and conditions of a certain mortgage bearing date the 31st day of October, 1908, executed by Lemuel Henderson, Jacob Henderson, Cora Henderson and Priscilla Henderson of Wilson Township, County of Charlevoix, Michigan, to George S. Bridge of Chicago, which said mortgage was recorded in the office of the Register of Deeds for the County of Charlevoix, Michigan, in liber 45 of mortgages on page 56, on the 2nd day of November A. D. 1908 and was also assigned by said George S. Bridge, the 5th day of February, 1917, and recorded March 1, 1917, in liber 53 of mortgages on page 402, to the Peoples State Savings Bank of East Jordan, Michigan, and is now owned by it. On which mortgage there is due at the date hereof, for principal and interest, the sum of Four Hundred Seventy-four and 25-100 (\$474.25) Dollars and an attorney fee of Fifteen and no-100 (\$15.00) Dollars as provided by law and no suit or proceedings at law or in equity having been had to recover said sum or any part thereof.

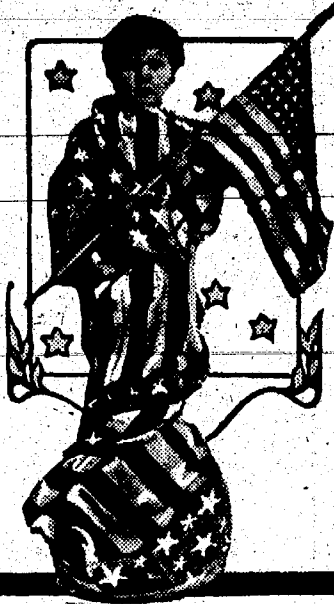

Now the for notice is hereby given that by virtue of the power sale in said mortgage contained and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction or vendue to the highest bidder, at the outer easterly front door of the Court House at the City of Charlevoix, of Charlevoix County and State of Michigan, said Court House being the place of holding the circuit court for said county, on the 7th day of July A. D. 1919, at ten o'clock in the forenoon, the description of said premises contained in said mortgage is as follows:

All that certain piece or parcel of land situate in the Township of Wilson, in the County of Charlevoix and State of Michigan and described as follows to-wit: The Southwest quarter (SW 1/4) of the Northeast quarter (NE 1/4) of Section twenty-six (26) in Township thirty-two (32) north, of range six (6) west. Excepting a parcel thereof described as follows: Commencing at a point in the Boyne Falls State Road on the north line of said Section twenty-six (26) Thence West on said line to the 1/2 line running north and south through said section; Thence South on said 1/2 line to the Boyne Falls and East Jordan State road; Thence North and East along the line of said State Road to place of beginning. **In Splendor Wrapped**

**COUNTRY DOES NOT FORGET**

Observances of Memorial Day Prove That All Republics Have Not Been Found Ungrateful.

Memorial day is the answer to the charge that "republics are ungrateful." Our country does not forget its soldiers. In marble and bronze their resting places are marked. The resources of our speech have been taxed in commemorating their deeds. On the 30th of May the sweetest of flowers are laid upon their grave mounds in token of a patriotic devotion and of immortality. The most striking part of this annual remembrance of our dead is the dramatic spectacle of the old soldiers—the thin blue line moving with tottering step toward the sacred dust of their comrades. The old flags, torn with shot and stained with powder, recall without bitterness the past and revive recollections without rancor.

On sea and land fall flowers of a tender and patriotic affection for the men of the navy and army.

It is well to remember what these heroes did. We honor principles when we respect men, for principles are men in the abstract. A dispassionate interpretation of the causes and consequences of the war will be a tribute to the dead, and a contribution to the living. The men who made up the rank and file of our armies, the military leaders and the statesmen who directed the movement through the fogs and smoke of war are recalled in the solemn memories of the day.

# Consider This!

WAY BACK in the year 1600 a sheep could be purchased for slightly more than a shilling—one shilling to be exact. But times have changed, and a sheep of the same size, same amount of wool, same number of parts—in fact, we are sometimes led to believe when eating mutton chops, the SAME sheep, today, brings twenty dollars.

However—the twenty dollars paid for a sheep today is earned in the same amount of time that the shilling, which bought that sheep 320 years ago, was earned.

Which goes to show that values have not increased.

## BELGRADE AGAIN IN HAPPY MOOD

Conditions Are Bad, But Every-body Wears Flush of Triumph.

### PEOPLE RANT THEIR TROUBLES

City Left in Shockingly Dirty Condition by the Bulgars—Few Young Men in Place—Tuberculosis Sweeps Land.

Belgrade—In Belgrade, capital of the new kingdom of the Serbs, Croats and Slovenes, everybody is flushed with triumph, confident of the future, and regards present troubles only as temporary inconveniences.

But Belgrade was left in a shockingly dirty condition by the Bulgars. The courtyards of the houses are filled with refuse. There is no collection of garbage because there are no conveyances in which to collect it. The shortage of water emphasizes the danger. All the doctors, sanitary authorities and officials are holding their breath, fearing an epidemic of some sort.

If the Danube freezes (and it nearly always does freeze) the communication of Belgrade with the outside world will be still further enormously decreased. The possibility of bringing food and wood up the river will be removed, and the present very moderate resources further enormously depleted.

### Run One Train Daily.

There will remain practically only the one line of railway, that to Fiume, through what was Austria but is now a part of the new kingdom of the Serbs, Croats and Slovenes. On account of lack of fuel one train a day is operating on this line.

Belgrade is practically cut off from the interior of Serbia because of destruction of the railways and the shocking condition of the roads. There are practically no young men in the city. Those who were within two or three years of the military age left with the army in the winter of 1915-16.

They set out to make the retreat down through Serbia and, as it proved, over the mountains into Albania and thence to Corfu. Something like one in seven survived the trip.

There are practically no children under three in Belgrade or elsewhere in Serbia, for that matter. Midwives have been in the unemployed class for the last three years and will be for a year to come, for the Serbian army, what remains of it, is now in the occupied part of what was Austria-Hungary.

Tuberculosis Sweeps Land. For no obvious reason, tuberculosis is the king of terrors in Belgrade. A tuberculosis death rate of 250 per 100,000 is very exceptionally high in America. Before the war the tuberculosis death rate in Belgrade reached 712, and during the Austrian occupation it reached the unheard-of figure of 1,453.

Before the war Belgrade approached a hundred thousand in population. When the Austrians took it, there were 20,000. Another 30,000 soon came back. At the present time perhaps its population may be 60,000 or 65,000. Some of the shops are open, but nobody seems to be buying anything except where food is sold.

The only autos going about the streets are those of the military and a few of the high government officials. These are used very sparingly, for gasoline is almost unobtainable. The water supply comes from wells and has to be distributed by a pumping station.

There are practically no autos, no gasoline, and no horses, so everybody walks. The electric current is turned on late in the afternoon and turned off at 10 o'clock.

### An Anolent Record.

Winchester, Ky.—County Clerk H. Clay Skinner received from Ohio recently a request for copies of the wills of Isaac John and Joshua Baker. The will of Isaac Baker was found to be the oldest official record in Clark county, being dated 1792, and that of John Baker was probated in 1804. The will of Joshua Baker was not found.

### HUGE GUNS IN GOTHAM GARDENS TO REPEL HUN

New York.—Huge mortars, standing on concrete emplacements and abundantly supplied with half-ton projectiles, were erected during the war among the flowers and shrubbery of private gardens in New York city and elsewhere along the Atlantic coast, ready to repel the attacks of German naval or air ships, Maximilian Toch, one of the first American camoufleurs, told the New York section of the American Chemical society here.

Mr. Toch, who directed several of the navy's important camoufage projects, spoke with the consent of Secretary Daniels. He described how honey-suckle, morning glory and ivy, as well as paints, had been employed to conceal or lower the visibility of coast fortifications.

## TO TUNNEL CHANNEL

Will Take Five Years and Cost \$100,000,000.

Engineers Also Considering Boring Under Bosphorus and Strait of Gibraltar.

London—Five years would be required to complete the proposed tunnel under the English channel from England to France, according to an authoritative estimate. It is said that in ordinary times the cost of the work would be about \$80,000,000, but in view of the increased cost of labor and materials, the expense involved would, under present conditions, be nearly \$100,000,000.

The Daily Mail claims to have definite information that the British and French governments have agreed to the construction of the tunnel, and that the details now are being discussed by a special commission in Paris, which also is considering the building of tunnels under the Bosphorus and the Strait of Gibraltar.

The engineering plans for the channel, according to the Daily Mail, are so far advanced that work could be begun immediately.

"It is proposed," says the Daily Mail, "to start the tunnel some distance inside both countries instead of near the coast as was originally intended, so as to avoid the risks of a fall of the cliffs, such as already has occurred on the British side near the point where the work would have been begun."

"In addition to tracks, the tunnel will carry telephone and telegraph wires, superseding the present sea-bed cables, and also pneumatic tubes for carrying letters and parcels. The French and British railroads concerned are willing to finance the scheme, but the two governments wish to exercise control of some sort of joint state finance.

### NOW PLAN EMPLOYMENT FLAG

Clevelanders Begin Movement in Behalf of the Returned Idle Soldiers.

Cleveland, O.—A movement has been started among employment managers for adoption of a uniform soldier employment flag showing the number of men reinstated in their positions. The managers have asked their national association to indorse the movement, which is expected to encourage employment of soldiers.

Several large concerns have worked out their own flag designs, while others are awaiting adoption of a uniform emblem.

"Cleveland now is a poor place for an outsider to come seeking work," said a member of the chamber of commerce committee investigating unemployment here. C. F. Arndt, United States employment commissioner, said possibly half of the soldiers unable to find work here were not employed in Cleveland before entering military service.

Estimates of unemployment here run from 20,000 to 70,000. Cleveland manufacturers are reported to be trying to lower the production cost through labor saving machinery and other means rather than by a reduction of wages.

## DOCTOR SAYS VINOL IS THE BEST TONIC

Honest Opinion Doctor Gives His Patient

Bedford, Ohio.—"I was in a condition weak, nervous, and run down so I could not do my household duties. I had doctored for years, and tried everything under the sun. A friend told me about Vinol. I consulted a doctor about it, and he said that certainly is the best medicine that could be had today. I couldn't give you any better. I took it, and today I am as well and strong as any man could wish to be, and it was Vinol that saved me."—Mrs. Frank A. Morkey, Ash St., Bedford, Ohio.

## DRINK HOT WATER BEFORE BREAKFAST

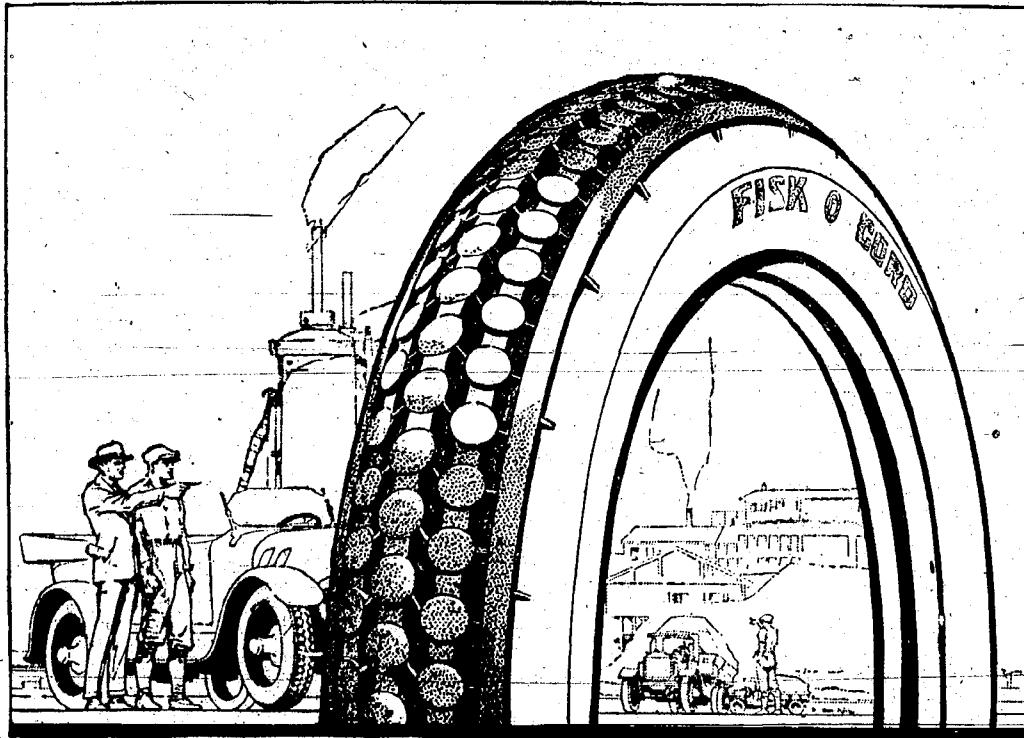

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, bad breath, a dull, dizzy headache, or if your meals sour and turn into gas and acids, you have a real surprising remedy for you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of Epsom's phosphate in it. This is the first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headache, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of Epsom's phosphate from the drug store and begin enjoying this morning's side-bath. It is said that many women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people know it. Just as hot water and soap wash, purify and freshen the skin, so hot water and a teaspoonful of Epsom's phosphate act on the stomach, liver, kidneys and bowels. Epsom's phosphate is an inexpensive, reliable and safe remedy.

# WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winnipeg, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mrs. ALBERT SULTZE, 603 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "I am so nervous, I cannot sleep," or "it seems as though I should fly." Such women should profit by Mrs. Sultze's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

# MISS BOOTH, IN RAGS, AIDED LONDON POOR

Salvation Army Commander, Disguised, Roamed Through Slums to Study Intimate Problems of East End Unfortunates.

Miss Evangeline Booth, daughter of the late General William Booth, founder of the Salvation Army, has given her life to the service of the poor and the unfortunate. Few persons, if any, know she went about in

Evangeline Booth, Commander of the Salvation Army in the United States.

the East End of London disguised in rags that she might help the unfortunate. When her father stood erect amid a storm of abuse and even physical violence she stood beside him. She knows how the poor suffer because she has suffered with them. She knows there still remains in the wreck of a dissolute man a spark of manhood that will kindle a redeeming flame, because she has fanned many flickering sparks until her patient has regained his feet. She now heads the Salvation Army in the United States at the great moment of its career. The old time slurs and doubts have been banished. During the week of May 19-26 the Salvation Army will appeal to the people of the United States for thirteen million dollars to carry out its after-the-war program. Contribute to the Salvation Army Home Service Fund Campaign. Remember, to the Salvation Army "A Man May Be Down, but He's Never Out."

**WILSON ENDORSES SALVATION ARMY.**  
President Wilson, burdened as he is, found time to cable his endorsement of the Salvation Army Home Service Fund Campaign, which will be conducted during the week of May 19-26. The cablegram: "Commander Miss E. Booth, Personal, Salvation Army, 120 West Fourteenth street, New York: I am very much interested to know that the Salvation Army is about to enter into a campaign for a sustaining fund. I feel that the Salvation Army needs no commendation from me. The love and gratitude it has elicited from the troops is a sufficient evidence of the work it has done, and I feel that I should not so much commend it as to congratulate it. Cordially and sincerely yours, WOODROW WILSON."

# THE \$13,000,000 SALVATION ARMY POSTER

"A man may be down, but he's never out," the Salvation Army slogan, furnished the theme for the official Home Service Fund Campaign poster designed by Frederick Duncan, the noted artist. From this he has evolved a striking artistic creation, typifying the hand of the Salvation Army reaching out to rescue those who are enshrouded in the clouds of poverty and vice. A Salvation Army lass is the principal figure, and the scarlet lining of her cloak, thrown back as she enfolds those who are falling out to her in distress, furnishes the poster with its one spot of brilliant color. The background is of blacks, grays and greens, indicative of the storm clouds of misery and want.

## SALVATION ARMY NEEDS

Annual Budget Shows Reasons for \$13,000,000 Drive.

Vast Activities Conducted by 1,000 Corps in United States—Future Plans.

New York. (Special)—The annual budget of the Salvation Army, containing a detailed and comprehensive statement of the cost of maintaining its varied activities throughout the United States, has been issued from National Headquarters, 122 West Fourteenth street. The statistics show why it is necessary for the Salvation Army to go before the American people in the week of May 19 to 26 and ask them to contribute \$13,000,000 to its Home Service Fund.

There are 939 corps and outposts of the Salvation Army in the United States. The cost of maintaining these is \$2,985,000. The maximum income which these corps may expect from collections in meetings, contributions of members and other outside contributions is \$715,000, making the net total cost of supporting the corps \$1,970,000.

The cost of maintaining divisional and provincial headquarters, which supervise the work of the local corps, will be, according to the budget, \$530,000.

Besides the work of supervising the local headquarters, the provincial and divisional headquarters are in charge of several of the Salvation Army's largest activities, including the operation of fresh air camps for children, relief and employment bureaus and the provincial bands.

## EVANGELINE BOOTH TELLS HOME SERVICE FUND'S NEEDS.

Evangeline Booth, commander of the Salvation Army in the United States, explaining the purpose of the campaign for \$13,000,000 which will be conducted from May 19 to May 26 for the Salvation Army Home Service Fund, said:

"The Salvation Army has been toiling on the upward trend for more than half a century, doing just what it did in France, all in the same spirit and manner, but you did not happen to hear of it, perhaps. "The war depleted our forces and our finances at home. There must be not only a rehabilitation now, but we must rise to the new high tide mark and equip ourselves to maintain here in the United States the contracts we were privileged to make on both sides of the sea because of the war."

The Salvation Army Home Service Fund campaign for \$13,000,000 will be conducted during the week of May 19-26. Its success will enable the Salvation Army to practically double its efforts among the poor.

The Salvation Army returns from the trenches of France to take up its half century old battle in the trenches of poverty in the United States. Remember the Salvation Army Home Service Fund campaign for \$13,000,000 May 19-26.

I was there to make a sketch of her. Luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I laid quietly into a party seat, were "National Biscuit," calling attention to my own taste. "I like her," I thought, "comfortably as she is sitting with cream and sarsaparilla. My pen was quoting "the world a bit of pause when she seems waiting listening for the children's hour. I've given that to babies. First I had to get them to toddle, I tried to get me in my own mind. No one else was there. Children's hour. "I've and pure served. ## SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush Kidneys and neutralize irritating acids—Splendid for system.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; and, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

## STOP CATARRH OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffing, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

One of the Greenville potato dealers has just accepted an order for twenty carloads of potatoes for July 1 delivery. The present indications are that there will be a shortage of this year's crop of Michigan potatoes. The small quantities left the farmers and dealers compared with other years and the fact that the new crop of southern potatoes is small due to weather conditions, causes belief here that the city market will be active before another regular crop. The fact that big markets are buying large quantities for July 1 delivery shows, it is said, that buyers are expecting a big advance in price and a scarcity of potatoes at the finish of this season.

Adjourned regular meeting of the City Commission held at the commission rooms, Thursday evening, May 15, 1919.

Meeting was called to order by Mayor Wilson. Present—Wilson, Gidley and Crowell. Absent—none. Minutes of the last meeting were not read.

The following resolution was offered by Commissioner Gidley, who moved its adoption; seconded by Commissioner Crowell:

Resolved that this Commission deems the paving of Esterly Street, from the east end of the present pavement to the east line of Fourth street, of William Street, from the east line of Main Street to the east line of Third Street and of Second Street, from the north line of Garfield Street to the north line of Mill Street, all as shown by the plans—plans, diagrams and specifications and an estimate of costs, now on file with the City Clerk of the City of East Jordan, Michigan, to be a necessary public improvement.

Further resolved that this Commission intends to establish a special assessment district comprised of the lots, lands and premises abutting upon said proposed improvement all as shown by said plans, plats, diagrams and specifications for the purpose of assessing upon the said lands, lots and premises, comprising said special assessment district, fifty percent (50 per cent) of the costs of said proposed improvement according to frontage; that this Commission intends that the City of East Jordan be assessed at large and pay fifty percent (50 per cent) of the costs of said proposed improvement together with the costs of intersections of streets and alleys and public parks and public places.

Further resolved that the City Commission meet on the 31st day of May A. D. 1919 at the hour of eight o'clock in the evening, at the usual place of meeting, in the Assembly room of the library building, on Main Street, in said city for the purpose of hearing and considering any objection to the said proposed improvement or the establishment of said special assessment district for the several amounts to be paid.

Further resolved that the City Clerk give notice of said meeting and that the plans, plats, diagrams and specifications and an estimate of the cost of said improvement are now on file with the City Clerk in his office for public examination, by the publication of said notice for two successive weeks in the "Charlevoix County Herald," a newspaper published and circulated in the said City.

**THE FAILURE OF GOVERNMENT OPERATION**

Washington, May 12th.—The Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr., today gave out the following statement from its Washington Headquarters:

"The failure of government operation of railroads, telephone and telegraph lines, or any other public utilities, might easily have been foreseen by anyone who would take the trouble to consider the elemental influences inevitably determining the outcome. It is certainly axiomatic that centralized power in an individual or commission can only produce results commensurate with the integrity, ability, experience and unselfishness of the individual or the members of the commission. It is impossible that government operation would place in control men of greater ability and experience than were the men who built up the enterprises under private management. Neither is there any reason to believe that government operators will be more honest or less selfish than private operators. Private operation had the advantage of the incentive constantly offered by the hope of the rewards of success. In government operation this incentive was practically lost.

"Government operation necessitates all the acts incident to government regulation, and more. If, then, government regulation be a failure, nothing better can be expected from government operation. If government regulation be a success, there is no need for government operation. Private operation under government regulation retains the advantage of individual initiative and the stimulus of competition in efficiency, while these are wanting in government operation. By no line of reasoning can one justify the expectation that government operation will attain the degree of success achieved by private operation under proper government regulation.

"Government operation has not only been more costly and less efficient but it has brought complaints of discrimination and injustice—establishment of inequitable rates and injury to business. It has brought strikes and threats of strikes, discontent among employees, antagonism toward the government, wastefulness, depreciation, retrogression and disorganization. All of which was foreseen by men who know that an appointment to government office does not carry with it extraordinary ability, intelligence, experience or integrity."
