EAST JORDAN, MICHIGAN, FRIDAY, JANUARY 23, 1920.

No. 4

## Last Year In Probate Court

### JUDGE CORRELL MAKES HIS YEARLY REPORT.

#### Forty-three Estates Probated in This Judicial Branch During Year of 1919.

The chief business of the Probate courts, originally, was the settlement of estates, and matters incidental thereto. By virtue of various statutory enactments the jurisdiction of these courts has been greatly extended, until at the present time it reaches the various activities of the community life in many ways, and as a result, the people are more or less interested in knowing what it does. Out of this desire, to know on their part, has come the custom of an annual report of its work.

During the year nineteen hundred and nineteen, the probating of forty-three estates was begun in Charlevoix County; five were testate estates and thirty-eight intestate. Thirteen of the thirty-eight were by the short method, by determination of heirs.

Guardians have been appointed for nineteen minors, and two for feeble minded persons.

Six children have been adopted by residents of this county, and one proceeding had for the change of the name of an adult person.

Two adult afflicted persons sent to the University hospital, at Ann Arbor for treatment, at the expense of the county, and five afflicted children sent to the same hospital for treatment at the expense of the State of Michigan.

One person sent to the State hospital at Traverse City for treatment for the excessive use of drugs.

There have been eight hearings or investigations as to the sanity of persons, with the following results: Five have been found insane and admitted to the State hospitals for treatment, and in three cases the petitions were dismissed, there being no evidence of insanity. The lowest number of commitments for any of the six years immediately preceding the year 1919 is ten, and in that same period, the longest time without a commitment for insanity was two consecutive months. Whereas during the past year the last commitment for insanity was on July seventh, making an interval of nearly six months.

Dr. Blue of the National Health Department is authority for the statement that there is a marked decrease in the death rate for the year 1919, which he attributes to the fact that the people have been relieved of the war strain.

I have been thinking that the decrease in insanity was due to that cause. But there comes to my attention the following article:

Baltimore, Dec. 24th, 1919.

"War increases lunacy, asylum head reports." Dr. J. Percy Wade, Superintendent of the State hospital for the insane, explains an increase in the number of patients admitted to the State hospital during the past year as the result of war strain.

If that explanation is to be accepted, it would look as though the decrease in Charlevoix county might be the result of some other cause. Our prohibition friends might claim that it was the logical result of the abolishing of intoxicants. I leave the reader to draw his own conclusion; but the fact remains that there have been less commitments insanity from Charlevoix county during the past year, than in any previous year for a long time.

In the Juvenile division of the Probate court, thirty-five children have appeared during the year. Twenty cases of dependent children and fifteen delinquents. In seventeen of the dependents relief was furnished or conditions remedied by the court or local authorities. Three children sent to the State Public School at Coldwater, Michigan. Out of the fifteen cases of delinquency, three boys were committed to the State Industrial School at Lansing, Michigan, and the others placed on probation or the matter adjusted by the court. To the credit of the girls of Charlevoix county it is to be said that none have been before the court for delinquency during the year past.

The charges of delinquency in the past year have been of less serious nature than in previous years, and would indicate that the churches, schools and homes, the three great factors, that are largely responsible for the life and character of the child, are doing better work than formerly. I

hope this is true and the good work may continue.

The amount paid on probate orders is as follows:

Expenses in insane cases \$229.89  
Board and lodging of juveniles. 26.50  
Transportation of adults to hospitals 14.00  
Transportation of children 16.80

Total \$287.19  
The last item, \$16.80 for the children will be refunded to the county, which will make the total expense to the county on probate court orders \$260.39.

I have before me the report of the court for the year A. D. 1919. The amount paid on court orders for the year is \$337.74, and the total amount for the year was \$373.76.

In these days of ever increasing expenses and being confronted with the H. C. L. on every hand, it may be a surprise to the taxpayers of the county to know that one department of public affairs is costing less than formerly.

## Auxiliary To Organize

### Will Hold Pot-luck Supper, Monday, Feb. 2nd.

The Rebec-Sweet Post is well under way. But, we need some help. There is one variety of help that always is better than any other. That, is the help we receive from our women.

In Hunland, women are nothing but underlings. In America, such is not the case. They are supreme.

So, we invite every ex-service man, to bring his wife, if he has one, daughters, if any, mother and sisters to the Army on the night of February 2nd, when at 6:30 a pot-luck supper will commence.

Nothing will help the boys in the Legion more, than to have a good, loyal auxiliary, formed of their relations behind them.

All bring your supper and come. Mrs. H. W. Dicken will gladly give any desired information on arrangements

## PROFESSOR HENDERSON GIVES SPLENDID LECTURE

Professor W. D. Henderson, extension lecturer of the University of Michigan, gave one of the finest addresses heard in East Jordan in a long time, last Thursday evening, at the high school.

Professor Henderson's subject was "The Re-discovery of America." His unusual ability as an orator combined with a brilliant mind made this lecture inspiring and instructive.

Professor Henderson is one of the greatest lecturers on the platform today and those who failed to hear him missed a rare treat.

Professor Henderson was on an extended lecture tour through this part of the state, speaking at Petoskey, Pellston, Charlevoix and Traverse City, in addition to East Jordan.

## NOTICE.

To the School Officers of Charlevoix County:

A meeting of all school officers of Charlevoix County is called by order of State Department of Public Instruction for February 4th. Meeting will be held in Boyne City, Library Assembly Hall at 9 a. m. Assistant State Superintendent, W. L. Coffey, Legal Advisor will have charge of the meeting. The new law makes it the duty of all school officers to be present at this meeting, with all necessary travelling expense paid from the general fund of the district.

Respectfully submitted,  
MAY L. STEWART,  
Com'r. of Schools.

## WORDS OF WISE MEN

When two fall out, the third wins.—General Proverb.  
False in one thing, false in all.—Legal Maxim.

To invent false charges is never difficult.  
A goodly apple rotten at the heart.

O what a goodly outside falsehood hath.

—Shakespeare.  
Every clown can find fault, though it would puzzle him to do better.—German Proverb.

It is with feelings as with waters: The shallow murmur, but the deep are dumb.—Raleigh.

## Do Men Know What to Eat?

There Ought to Be a College Course to Teach Them, Domestic Science Specialist Declares

There should be a college course to instruct young men in the art of selecting what to eat, an instructor in domestic science at the Kansas State Agricultural college said recently. Not only are many men required to select their own food at public eating houses, and by such selection unwittingly impair their efficiency, but they absolutely refuse to eat the carefully thought out meals prepared for them by their wives. They clamor for meat three times each day when the domestic science experts whom they marry know they should not have it, she added.

"What will it avail carefully to instruct our young women in the art of planning a carefully balanced meal admirably fitted to meet all the requirements of the body if the husbands, for whom they cook, will not co-operate with them in their efforts to promote health and efficiency by the formation of right food habits?" she argued.

"To meet this problem in a certain degree the young men seniors of the college are urged to accept the invitations of the dinner work girls and try out in this way the effect of scientifically planned meals. By this means these men will have their attention directed toward balanced rations and may be favorably enough impressed that the wives of the future will not find the correct feeding of their husbands such a difficult matter."

## U. S. IMPORTERS ARE WAXING FAT

Slump in Money Value Brings Big Profits.

## ALL EUROPE IS AFFECTED.

American Changes His Good U. S. Money Into British, French or Italian Currency, Then Buys Goods Which He Ships to the United States, Where, Because of Inflation of American Dollar, He Reaps Big Profit.

American Importers now purchasing goods in England, France and Italy for shipment to the United States, are waxing fat as a result of the depreciation of the pound sterling, the franc and lira, according to stories now going the rounds of the New York wholesale district.

The only "fly in the ointment" for the American buyers abroad is the fact that, by a presidential order several weeks ago, United States consuls are required to keep tabs on big purchases, ascertain the selling price and cable these facts to the United States customs authorities. Then, by figuring the rate of exchange on the date of purchase, the government is enabled to set a proper value upon the goods for the collection of import duties. A court of claims passes upon what are alleged to be unfair appraisals.

How it is Done.  
The situation is said to be somewhat like this:

An American buying pound sterling say, on December 12, needed to pay in American money only \$3.08 for British currency normally worth about \$4.87. Now he goes to a factory in Nottingham, England, to buy laces, and there, although prices of course are higher than before the war, he pays for them in this depreciated money and makes a "handsome" profit. Then he ships the laces to the United States, where by reason of the inflation of the American dollar, they are retailed for from 100 to 150 per cent above prewar prices.

The same importer, on the same date, we will say, goes to France. In Paris he has exchanged his American dollars for francs. Normally there are 5.18 francs to the dollar, but now he finds one Yankee "stomolon" will buy 11.52 francs, about 60 per cent more than before the war. The price of silks has gone up; but he goes to Lyons, and there, with his depreciated French money, he buys more than he has ever bought before at "bargain" prices. The silks reach New York, where they are sold to the consumer at double their former retail price.

Next this importer visits Italy, where he finds the lira, 5.18% of which, like the franc, could be bought for one American dollar, now at a vast discount. In fact, he receives 13.47 lira for one American dollar and, well financed, he goes to Naples, where he negotiates the purchase of tapestries costing, of course, more than in 1914, but in reality cheaper when purchased with the present Italian currency.

The same financial conditions exist all over Europe, and in the former central empires, of course, they are reported much worse. In the allied

countries, however, where there is national stability and greater ability to pay, the depreciated money is effecting some strange changes. A dinner which, before the war, in Paris could be had for a nominal sum, now costs from 20 to 50 francs.

American manufacturers, meanwhile, who desire to sell their products abroad, are demanding payment in American dollars at par. Recently the Belgian government, it is said, bought 20 American locomotives, for which payment, instead of being in Belgian money, was demanded in American dollars, thus adding from 15 to 20 per cent to the manufacturer's normal profit. Naturally this discourages foreign buying.

Cancels Big Orders.  
On the other hand, a big American locomotive concern, apprehensive of the turn of political affairs abroad, due to delay over the peace treaty, is reported practically to have canceled all foreign advance orders. Such orders, calling for delivery in three, six or nine months, are said to be practically non-existent in the locomotive trade. Similar conditions exist in other industries. That is why American manufacturers have been saying: "If the peace treaty is not soon signed it will mean the complete loss of our foreign trade."

There are committees of the most prominent United States bankers and business men, representing the American Bankers' association, the United States Chamber of Commerce and the international trade conference, who have been at work on this problem of foreign exchange for months, and who will be ready to remedy the present situation as soon as the peace treaty becomes a fact for the American nation.

## Girl's Prayer Answered.

Kenosha, Wis.—Gladys Roemer, eight, cannot run and play as other children do, because she is crippled. When she goes long distances she uses her "Irish Mail," a little handcar affair which she can operate herself, and on that she went to St. Thomas' church with her mother. After the services the little girl returned to the church steps and the machine was gone. A youngster, not aware of the consequences of his act, had raced down the street on it, and Gladys was forced to stay from school. Officer John Breit discovered a boy riding on the cart. The boy admitted he had taken it from the church and hid it in a barn near his home.

The "Irish Mail" was returned to the little girl. "It came in answer to my prayers," she said.

## Bird In Jail.

Bath, Me.—Cramped quarters were furnished in the Bath jail recently for the oddest prisoner ever harbored there. The inmate had been arrested in the neighboring town of Woolwich and turned over to the Bath police for safe keeping. He was not a tippler, but a crippled crane, and measured from ten to twelve feet from tip to tip of the wings. After being on exhibition for 24 hours the bird was liberated, all fines being remitted on condition of good behavior.

## Shin Bone For Her Spine.

Watertown, N. Y.—With a portion of her shinbone replacing what had previously been a disensed section of her spine, Miss Irene Houghton, eighteen years old, of Alexandria, Bay, is on the road to recovery in the Sisters' hospital here.

## C.H. Whittington Sells Out Store

### Bamber & Watson of Alma the New Proprietors.

The long-established Furniture and Undertaking business of C. H. Whittington was sold by him last week to Messrs Vern Bamber and R. G. Watson of Alma, Mich., who have taken possession and will be glad to greet both old and new customers and become acquainted.

Mr. Whittington started in business in East Jordan nearly thirty-five years ago, and by square business dealing has built up a most enviable trade. The name of Whittington is a household word throughout this territory. The 35 years have been years of labor and Mr. Whittington wishes to relax for awhile. It is a source of gratification to know that he and his estimable wife will continue to make this city their home.

The new proprietors are business men of experience, and will continue the successful operation of this old-established business.

## Vast Quantities of Coal Remain in the Mines in an Unminable Condition

Mining is still conducted with serious loss of life and a waste of material amounting to \$1,000,000 a day. A government estimate shows that of 6,000,000 tons of coal mined in one year (1914-1915), 3,000,000 was left underground in unminable condition, says Boys' Life. It is believed that more than one-half of this loss is preventable; \$50,000,000 worth of petroleum is wasted annually and \$75,000,000 in coking coal. In 1914, 2,454 persons were killed in coal mines.

To study and remedy such conditions the government established in 1910 a bureau of mines with headquarters at Washington, an experiment station at Pittsburgh, and an office for the study of smelter problems at San Francisco. This bureau investigates mine explosions and safety conditions, studies mining methods with a view to preventing waste and inefficiency, and instructs miners in first-aid and rescue work.

## England Eats Larger Part of Europe's Cheese Output

Statisticians have figured out that England eats the larger part of Europe's output of cheese. Europe's output amounts to 340,000,000 kilograms. England alone consumes 180,000,000 kilograms of this amount. Next comes Holland, which takes 56,000,000; Switzerland takes 43,000,000; France, 31,000,000, and Germany 20,000,000 kilograms. The only people on earth who eat no cheese are the Chinese.

## Chile's Claim to Distinction.

Chile claims that the island of Chilo, off its west coast, is the original home of the potato and that it has been cultivated there since early in the fifteenth century.

## HAPPY CORNERS.

(Rock Elm School Dist. 2.)

(Edited by Miss Violet Gilbert.)

A fine time took place Thursday at school. The snow didn't prevent some of our patriotic parents and people who are interested in our school work. Those present were Mrs. James Myers, Miss Adella Myers, Mrs. Ben Smatts and Miss Cora Metz. They brought their lunch and the Hot Lunch Club served hot mashed potatoes. Miss Hutty and Mr. Turner were unable to get here on account of the storm.

The game contest started by Miss Stewart last fall is getting a better foot hold.

A patriotic program will be given at the Grange Hall. A shadow social with pot luck supper instead of boxes will be held for the benefit of the Victrola fund. You are cordially invited to attend.

## Card of Thanks.

We wish to express our heartfelt thanks to our kind friends and neighbors who so lovingly extended to us their sympathy and help at the death and burial of our beloved husband and brother.

Mrs. F. H. Steele  
Mr. and Mrs. Robert Price  
and family.

## Be A True American

### Americanism Program, Jan. 23 to Feb. 22nd.

At the semi-monthly meeting of the Rebec-Sweet Post of the American Legion, plans were discussed for our part in the National Americanism Campaign to commence January 23d and continue through to February 22nd.

Patriotic exercises are to be urged in our schools, for ten minutes every day. Every public meeting is requested to be graced by the American Flag.

We realize Americanism does not promote itself. It was born of the effort and sacrifice of our revolutionary fathers. It lives by the efforts and sacrifices of the generations that followed. It requires constant vitalization. This campaign is to be no forced process, but an appeal to the hearts and conscience of our own people no less than those of alien men and women. It is an appeal for this generation to give to America that which is America's. To arouse our people anew to give one country the last full measure of devotion. To prove our good citizenship by daily lives of industry, thrift, integrity and loyalty.

## Commission Proceedings.

Regular meeting of the City Commission held at the commission rooms, Monday evening, Jan. 19, 1920.

Meeting was called to order by Mayor Wilson. Present—Wilson, Gidley and Crowell. Absent—None.

Minutes of the last meeting were read and approved.

Bills were presented for payment as follows:  
Mrs. St. Charles, cleaning library \$ 2.50  
People's Bank, ins. on library 65.65  
Monroe & Hughes, on paving job 1000.00  
Frank Crowell, refund on water tax 7.57  
Chas. Coykendall, fire team 50.00

On motion by Gidley, the bills as listed above, were allowed by an aye and nay vote as follows:  
Ayes—Wilson, Gidley and Crowell.  
Nays—None.

The petition to amend the city charter, having been properly verified, it was moved by Gidley, and supported by Crowell, that the same be accepted and laid on the table for thirty days. Motion was carried by the following aye and nay vote:  
Ayes—Wilson, Gidley and Crowell.  
Nays—None.

The Mayor appointed Wm. F. Bashaw as city assessor, and on motion by Gidley, the appointment was confirmed by the following aye and nay vote:  
Ayes—Wilson, Gidley and Crowell.  
Nays—None.

On motion by Crowell, meeting was adjourned.

OTIS J. SMITH, City Clerk.

## AFTON SCHOOL NOTES.

Although we have had some pretty bad weather, the following pupils in our school has not been absent or tardy for first half of term: Annie Shepard, Ellen Nowland, Frankie Bryzich, Sophia Guzinjah, Zella Smith and Marguerite Chorpeneing. Others who have not been absent are Ivan Nowland, Harry Chorpeneing, Conn Nowland and Alice Nowland.

The eighth graders have finished their Agricultural books and now are beginning their Civil Government study.

The sixth grade has done splendid mapping of continents on meridian and parallel nets.

The sixth grade has begun their study in new reading books and they find them to be very interesting.

The 3rd grade has weaved some very pretty maps. The maps show good color combination.

Little Ruth Hardy has been absent for the last week due to weak eyes.

The little people have a fine collection of pictures for their hygiene or health booklets which they will soon complete.

Helen Hardy has not been in school the pass week due to illness.

## YOU CAN'T FOOL THE MOTHERS.

No one remedy would stand as a lead for so many years as has Foley's Honey and Tar if it could not be depended upon to relieve coughs, colds and croup. It heals and soothes, eases hoarseness, stops that coughing that strains the whole body and breaks colds and coughs. Children like it. Contains no opiates.—Hite's Drug Store.

## MAYFLOWER TO SAIL IN 1920

New One Will Cross Atlantic in the England-Holland-United States Celebration.

### SHIP'S 300TH ANNIVERSARY

Plans Announced for Celebration in Honor of Pilgrim Fathers—Main American Events Will Be in Boston and Plymouth.

New York.—The three hundredth anniversary of the Pilgrim Fathers, tentative plans of which have just been announced here, will include celebrations in England, Holland and the United States, and will continue from May to December, 1920.

A four-day program in Leyden, Amsterdam and Rotterdam, whence the pilgrims sailed three centuries ago to the American wilderness, where they might find "freedom to worship God," will start on August 30, when committees from the United States and England will be received at the University of Leyden.

Scholars Will Deliver Addresses. Addresses commemorative of the occasion will be delivered by scholars from the three countries, including the rector of the university, Dr. Rendel Harris of Manchester, England; Viscount Bryce, and a famous American who has not yet been designated.

The next day, August 31, the birthday of the queen of the Netherlands, will include, besides a congress in the town hall, a religious memorial service in the Pieterskerk, in which Rev. John Robinson, who led the separatists from the Church of England (the Pilgrims) to Holland in 1609, was buried.

One of the features of the holiday at Amsterdam, September 1, will be a setting in the Rijksmuseum, the unveiling of a memorial window in the gijnekerk and a reception. The next day there will be an aquatic pageant in Rotterdam, the visitors traveling in the morning from Leyden to Delftshaven if possible by boat along the way the pilgrims went.

Then there will be trips to the religious havens of Rotterdam, a memorial service in the church at Delftshaven, and at 7 p. m. the English and American contingents will depart for Southampton.

The celebration in England will start in May, 1920, with meetings in Scrooby, the home of Robinson; Austerfield, Boston and Sheffield.

New Mayflower to Sail. From August 4 to September 20 there will be ceremonies in Cambridge, London, Southampton and other places, culminating in the sailing of the new Mayflower, which will carry the returning American committee and British delegations who are to participate in the program on this side of the Atlantic.

Main events of the American celebration will be in Plymouth, Mass., and Boston, where historical pageants will be held, followed by a big reception in New York. Vice President Marshall is honorary chairman of the committee having the local program in charge. The foreign visitors will then be taken on a tour of the United States. On November 24, 1920, there will be a universal observance of Thanksgiving day in England, Holland and the United States.

### 68,000 GIRLS MISSING IN YEAR

That United States Record Leads Travelers' Aid Society to Take Action.

New York.—Approximately 68,000 girls have disappeared or run away from their homes in the United States during the last year, according to a statement issued by the Travelers' Aid society.

A special meeting of the society has been called to devise plans to meet demands made by the great increase in runaways and helpless travelers. The meeting will be attended by officials of the transatlantic lines and representatives of Protestant, Catholic and Jewish social agencies.

### Chimney Is Found Choked With Honey

Orland, Cal.—A chimney of the W. E. Spence residence here, idle during the summer months, was found to be choked with honey when an attempt was made to start the first winter fire. Bees had chosen the spot as their home and had completely sealed the chimney top after storing pounds of honey.

### Snow-White Deer Found.

Rosenburg, Ore.—A snow-white deer, a freak of the animal kingdom seldom seen in this vicinity, has been observed by a number of hunters in the Yellow Creek mountain region. Three Southern Pacific employees, while hunting, obtained a good glimpse of the deer, which they described as being a big buck, and all three took shots at him, but failed to score a hit. A white deer was killed several years ago by V. Bounds in Cow Creek canyon, and his skin was placed on display.

### Beavers' Most Marvelous Accomplishment, Building of Dams to Retain Water

"And now we come to the most marvelous of the beaver's accomplishments—the feat of building a dam, and we shall understand a point which has possibly puzzled many of us, and that is the reason for building this dam," says Raymond L. Williams in Boys' Life, in the course of an article on "Animal Engineers."

"Work on the dam is now in order, and this means additional clearings, as a great amount of timber is necessary. The banks of the stream begin to show quite an open character, as the saplings fall, are cut up and the sections towed to the site of the dam."

"During this work another interesting characteristic of the beaver is displayed, the animal's thrift and elimination of waste. Its favorite food is green bark and this is easily obtained. Many branches are stripped by the broad incisor teeth and for a time these lie in confusion along the banks—but not for long. The foundation of the dam rises in much the same fashion as that of the beaver's house of tooth-hewn timber and once the outline is established there is a general cleanup on shore. Sticks that have been gnawed free of bark are simply carted to the water and turned loose as is much other debris in the shape of fine, loose brush, left over from the larger cutting. This material floats down-stream and lodges against the framework of the dam, where it is worked into the crevices, and is followed by water-soaked materials, much mud and wet leaves from the stream bottom. The dam is soon effective and the stream begins to rise. The beavers now work at the base of the dam, making it broader by packing it with mud and producing the same foundation of generous breadth at the bottom with an inward curve toward the top that we note in the most approved feats of human engineering in retaining and raising bodies of water."

"The hand that rocks the cradle," but there is no such hand. It is bad to rock the baby, they would have us understand. So the cradle's but a relic of the former foolish days. When they jounced them, and they bounced them, those poor dwarfs of long ago. The Washingtons and Jeffersons and Adamses, you know. They warn us that the baby will possess a muddled brain. If we dandle him or rock him; we must carefully refrain; He must lie in one position, never swayed or never swung. Or his chance to grow to greatness will be blasted while he's young.

### WHAT MIGHT HAVE BEEN

Ah, to think how they were ruined by their mothers long ago. The Franklins and the Putnams and the Hamiltons, you know. We must feed the baby only by the schedule that is made. And the food that he is given must be measured out and weighed. He may bellow to inform us that he isn't satisfied. But he couldn't grow to greatness if his wants were all supplied. Think how foolish nursing stunted those poor weaklings long ago. The Shakespeares and the Luthers and the Bonapartes, you know.

We are given a great mission, we are here, today on earth. To bring forth a race of giants and to guard them from their birth. To insist upon their freedom from the rocking that was bad. For our parents and their parents, scrambling all the brains they had. Ah! had they been fed by schedule, would they have been stunted so? The Websters and the Lincolns and the Grants and Lees, you know? F. A. W. in Indianapolis News.

### Physician Declares Colors Have Influence on Nerves

A New York physician who gives more credit to nature than he takes for himself in the cures he has wrought is a great believer in the effect of colors on the human race. Nature, he says, is the best teacher in these things. You will find in your surroundings in the country no black and very little red. Blue and yellow are combined in the restful, reviving green. There is no doubt, the doctor contends, that the wearing of black has an evil effect on both health and spirits. It is the color of Saturn, the planet of gloom, misfortune, fatality and other evil things. If one wishes to be happy and brilliant, blue is the color to wear. The doctor says that the spirit of evil hates blue intensely and flies at the sight of it. Blue also calms the nerves and therefore it is a good color for room decorations.

### Great Musicians of India Care Not for Worldly Things

To the Hindu, music, like sculpture and painting, is a sacred art. Music originated from Siva, one of the Hindu Trinity, and Saraswati is the goddess of music and of learning in general. As people look upon music as something sacred, so it has become a highly specialized art. Amateur musicians are not much encouraged. The public seem to say, "Do it well or don't do it at all; don't play false with music; it is too sacred for light treatment." The great musicians of India are generally ascetics. They care not for name, fame or wealth. They live a life of comparative poverty. The Hindu is of the opinion that a voluptuous or a luxury-loving person cannot be a great musician.

### MRS. IRA MILES PASSES AWAY

Ellen E. Miles was born April 9th, 1841, in Lennox township, Wayne county, Mich., and died at the home of her mother, Mrs. Elva Barrie, Jan. 17th, 1920. When she was about eight years of age her parents moved to Port Hope, Huron county. At the close of the Civil War she was married to Ira M. Miles of Port Hope, Mr. Miles having served all through the war. To them were born five children:—John, James, Lyman, Edmund and Elva—Edmund passing away about 18 years ago, Mr. Miles dying about three years ago. About 20 years ago they moved to East Jordan and have made their home here ever since. Mrs. Miles has been a member of the Methodist church a great many years, being one of the oldest members of the church. Funeral services conducted from the home Tuesday afternoon in charge of Rev. Myron E. Hoyt. Interment at East Jordan cemetery.

### DEATH OF MICHAEL SCOTT

Michael Scott was born in Bradford, Steuben Co., N. Y., Jan. 13, 1849, and passed away in Echo township, Antrim Co., Mich., Jan. 20, 1920, aged 71 years, 7 days. He was the only son of Thomas R. and Catherine D. Scott of Bradford, N. Y. He spent his early life with his parents until they both passed away, he and his sisters Nancy and Lucy having the care of them in their last days. They continued to live on the old homestead until about 20 years ago when Michael and his two sisters came to Michigan making their home with their sister, Phoebe Wolverton, until last June when Lucy passed away. Michael has divided his time during the last 20 years between Michigan and New York, having made several trips to his old home in Bradford. The deceased had nine sisters, only two of whom survive him—Phoebe Wolverton and Nancy Scott of Echo township. His sister, Nancy Bartholomew, passed away less than two weeks ago. He has made his home with his nephew, Scott Bartholomew, since last summer, and has been in poor health all fall but was confined to his bed less than a week. Besides his two sisters, he leaves four nephews and one niece—Thomas and Scott Bartholomew and Charles Wolverton of Echo township, G. W. Switzer and Mrs. Ida Tabor of New York. Funeral services were held at the home of Scott Bartholomew, Thursday, at 1:00 p. m., conducted by Rev. M. E. Hoyt.

### Presbyterian Church Notes

Sunday, Jan. 25, 1920. 10:30 a. m.—Morning Worship. Services conducted by Rev. A. D. Grigsby. 12 Noon—Sunday School.

### First Methodist Episcopal Church

Rev. M. E. Hoyt, Pastor. Sunday, Jan. 25, 1920. 10:30 a. m.—Morning Service. 12:00 m.—Sunday School. 7:00 p. m.—Evening Service.

### MONEY CANNOT BUY ANY BETTER.

E. D. Grappe, a leading merchant of St. Maurice, La., writes: "For a catholic I especially recommend Foley Cathartic Tablets, knowing as I do that money cannot buy any better." They act promptly, without pain or nausea. They clear the bowels, sweeten the stomach and tone up the liver. No habit forming.—Hite's Drug Store.

### Attention

Did you ever stop to think that your eyes are the cause of all those headaches. Give your eyes the care you would other parts of your body before it is too late. Forty per cent of the people are using only one eye, because they did not have them attended to. These evils can be avoided by proper fitted glasses.

**C. Hunsberger**  
Optician and Jeweler

### Great Musicians of India Care Not for Worldly Things

To the Hindu, music, like sculpture and painting, is a sacred art. Music originated from Siva, one of the Hindu Trinity, and Saraswati is the goddess of music and of learning in general. As people look upon music as something sacred, so it has become a highly specialized art. Amateur musicians are not much encouraged. The public seem to say, "Do it well or don't do it at all; don't play false with music; it is too sacred for light treatment." The great musicians of India are generally ascetics. They care not for name, fame or wealth. They live a life of comparative poverty. The Hindu is of the opinion that a voluptuous or a luxury-loving person cannot be a great musician.

### TNT COW BLASTS \$60 OUT OF CONGRESS

Ate \$40 in Explosive and Left Her Owner to Collect From Government.

The cow that burned up Chicago, the cow that jumped over the moon, the cow that raised the fattest calf and the cow that died on the tune—they will have to recognize an addition to their celebrated quartet now.

She's the cow that ate up \$60 worth of government dynamite out in Willard, Wash., and made the wheels of congress go around until her owner got \$60.

The house paused in its consideration of weightier subjects long enough to pass the necessary bill. Contributory negligence on the part of the government road builders who left the sticks of dynamite where Bossy could eat them was the verdict.

Strangely enough, it didn't blow up the cow; it only poisoned her, but it nearly blew up the house of representatives.

The house evidently enjoyed its little excursion into the field of humor and switched from cows to false teeth.

It passed a bill to pay Michael McGarvey \$35 for a set he lost while working at the quartermaster's depot, Governor's Island, last July. The government compensation commission had refused his claim, but the house was in a compassionate mood and thought otherwise.

## An Appreciation!

Having sold my Furniture and Undertaking business to Messrs Bamber & Watson of Alma, Mich., I wish to thank the people of East Jordan and surrounding country for the very liberal patronage you have accorded me, and wish to bespeak for my successors the same liberal patronage I have enjoyed. Please call at the old stand and get acquainted with the new proprietors—you will find them always ready and willing to accommodate.

Yours Truly,  
**C. H. WHITTINGTON.**

SUPPLEMENT TO THE  
EAST JORDAN, MICH., FRIDAY, JANUARY 23, 1920

## Annual Tax Sale.

STATE OF MICHIGAN  
County of Charlevoix.  
The Circuit Court for the County of Charlevoix in Chancery.  
In the matter of the petition of ORAMEL B. FULLER, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the February term of this Court, to be held at the Court House in Charlevoix in the County of Charlevoix, State of Michigan, on the Second day of February A. D. 1920, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes interest and charges, or any part thereof, shall appear in said court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Charlevoix State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee-simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or before the close of the sale, be reoffered, and if, on such second offer, or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Frederick W. Mayne, Circuit Judge, and the seal of said Circuit Court of Charlevoix County this 6th day of December A. D. 1919.

FREDERICK W. MAYNE,  
Circuit Judge.

(Seal)  
Countersigned,  
RICHARD LEWIS, Clerk.

### STATE OF MICHIGAN.

To the Circuit Court for the County of Charlevoix in Chancery:

The petition of ORAMEL B. FULLER, Auditor General of the State of Michigan, for and in behalf of said State, respectfully shows that the list of lands hereinafter set forth and marked "Schedule A," contains a description of all the lands in said County of Charlevoix upon which taxes were assessed for the years mentioned therein, and which were returned as delinquent for non-payment of taxes, and which taxes have not been paid; together with the total amount of such taxes, with interest computed thereon to the time fixed for sale, and collection fee and expenses, as provided by law, extended against each of said parcels of land.

Your petitioner further shows to the Court that said lands were returned to the Auditor General under the provisions of Act 206 of the Public Acts of 1893, as delinquent for non-payment of said taxes for said years respectively, and that said taxes remain unpaid; except that lands included in said "Schedule A" for taxes of 1890 or prior years were returned to the Auditor General as delinquent for said taxes under the provision of the general tax laws in force prior to the passage of Act 200 of the Public Acts of 1891, and which taxes remain unpaid.

Your petitioner further shows that in all cases where lands are included in "Schedule A" as aforesaid for taxes of 1890 or of any prior year, said lands have not been sold for said taxes or have been heretofore sold for said delinquent taxes and the sale or sales so made have been set aside by a court of competent jurisdiction, or have been cancelled as provided by law.

Your petitioner further shows and avers that the taxes, interest, collection fee and expenses, as set forth in said "Schedule A," are a valid lien on the several parcels of land described in said schedule.

Your petitioner further shows that the said taxes on the said described lands have remained unpaid for more than one year after they were returned as delinquent; and the said taxes not having been paid, and the same being now due and remaining unpaid as above set forth, your petitioner prays a decree in favor of the State of Michigan against each parcel of said lands, for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land contained therein, and in default of payment of the said several sums computed and extended against said lands, that each of said parcels of land may be sold for the amounts due thereon, as provided by law, to pay the lien aforesaid.

And your petitioner will ever pray, etc.

Dated December 1, 1919.  
ORAMEL B. FULLER,  
Auditor General of the State of Michigan,  
for and in behalf of said State.

**Neglected Cold**  
KILL THE COLD!

**HILL'S**  
**CASCARA** **QUININE**  
**BROMIDE**

Standard cold remedy for 20 years  
in tablet form—safe, sure, no  
opiates—breaks up a cold in 24  
hours—relieves grip in 3 days.  
Necessary to attend to internal  
sanitation of the drainage system of the  
human body as it is to the drains of the  
house.

At All Drug Stores

**DRINK A GLASS**  
**OF REAL HOT WATER**  
**BEFORE BREAKFAST.**

Says we will both look and feel  
clean, sweet and fresh  
and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headaches, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

**ASPIRIN FOR COLDS**

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost 10 cents. Aspirin is trade mark of Bayer Manufacture of Monoacetic-acid of Salicylic acid.

**DRINK HOT TEA**  
**FOR A BAD COLD**

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion, loosens the bowels, thus driving a nail from the system.

Try it the next time you suffer from cold or the grip. It is inexpensive, entirely vegetable, therefore safe, harmless.

**JB BACKACHE AND LUMBAGO RIGHT OUT**

Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has stiffened you, don't suffer! Get a small bottle of old, honest "St. Jacobs Liniment" at any drug store or a little in your hand and rub it into the pain or ache, and by the time you count fifty, the soreness and stiffness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless. It doesn't burn the skin.

Nothing else stops lumbago, sciatica or lame back misery so promptly!

**AID FIGHT ON FOREST FIRES**

Wireless Telephone Proves to Be Great Help.

**IS TRIED OUT IN MONTANA**

Equipment is Now Made Part of the Service in Western States—United States Signal Corps Standard Sets Were Used in Experiment—Real Test Comes in Destructive Fire in Clearwater Forest.

The wireless telephone, as a result of a season's tryout, during which the handicaps of "packing" instruments over a 30-mile mountainous trail, the perils of passing through a forest fire, and numerous other tests were applied, has been pronounced a success for forest service work by officials of the service according to an announcement from district headquarters at Missoula, Mont.

Hereafter, the announcement says, wireless telephone instruments are to be a part of the standard equipment of the forest service.

At the direction of Chief Forester William S. Graves, tests of this plan of communication were initiated in this district last season by R. B. Adams, telephone engineer, who was assisted by Everett Cutting, United States signal corps standard sets were selected for the experiment, and one was placed in position, after almost insurmountable difficulties, at the Mud Creek ranger station, near the Lola Hot Springs, Mont., and another at Beaver Ridge, Idaho.

Thirty Miles by Trail.

While the air-line distance between the two stations is but 12 miles, the distance by trail is 30 miles, much of it almost impassable even with pack animals. At last, however, after mishaps that included pack horses of the trail, packs displaced and rolling down mountainsides, and batteries and equipment all but lost, the antennae were hung high on convenient pines.

"The sets were used during the fire season of 1919 in reporting fires and otherwise in the carrying on of the fire campaign with eminently satisfactory results," says the forest service statement.

Hurried to a Raft.

The real test came during the destructive forest fires in the Clearwater forest in northern Idaho.

"Over 90 miles of ordinary telephone line was destroyed," the statement says. "The trees from which the wire was suspended were burned. Telephone communication was thus ended and the efficiency of the fire-fighting organization correspondingly reduced. It took over a week to restore this communication."

In marked contrast was the effect of fires sweeping near wireless stations. With the flames dangerously near the Beaver Ridge station the operator promptly transferred the entire equipment to a hastily constructed log raft which he had put afloat on a near-by lake, navigated to a safe distance from shore and awaited the passing of the fire. After the front had passed he returned to shore, set up his equipment and within an hour was making a report of the cause of the interruption to communication.

**FAITHFUL MAID GETS \$250,000**

Domestic Who Cared for Aged Invalid Woman Given Fortune for Services.

The faithfulness and kindness with which Miss Agness Jane McNevin cared for Mrs. Mary C. Knight during the many years she served her as maid were rewarded when Miss McNevin was given the Knight home in Boston, its furnishings and funds; the total value of which were estimated at \$250,000.

The will of Mrs. Knight, who died at the age of 78 years, names as the beneficiaries of the \$800,000 estate, besides Miss McNevin, many public institutions.

**MUCH FOOD GOES TO ROT**

Fifty Million Dollars' Worth Lost Each Year in United States.

Enough food rots in the port of New York each year to feed the population of the city for one month, according to E. L. Goodsell, a prominent fruit dealer of the metropolis.

At a recent food conference, Goodsell estimated the total loss from food decay in this country at \$50,000,000 annually, 90 per cent of which, he said, could be conserved by proper distribution facilities.

Bolesheviki Shot 14,000 in Three Months

Fourteen thousand persons were shot by the bolesheviki in Russia during the first three months of 1919 by order of the extraordinary committee at Moscow, according to Paris dispatches.

Ejected From Church, Gets \$8,000.

Bringing suit on the charge that she suffered severe injuries when she was forcibly ejected from a church in Independence, Wis., Mrs. Adam Ogizewski, of that place, was awarded \$8,000 damages in court.

Prohibition Improving Health.

Prohibition is responsible for improved health conditions in the United States during the past year, according to a report of Surgeon General Clegg, head of the public health service.

**LUCK BIG FACTOR IN DIAMOND HUNT**

Gems "Grow" in Mud, but Big Finds Are So'dom Made by Workers.

Diamonds "grow" in blue mud. They're like raisins in a cake—sometimes far apart.

Spectacular finds have been made, but the chance of a lucky find averages down to a heart-breaking minimum, says Edward M. Thierry in the Chicago Post, writing from Kimberly, South Africa.

A native boy in September, 1917, got a job on the blue ground "dump" in the Du Toits Pan mine. Four hours after he started work he found a diamond of 44 1/2 karats, worth \$300,000.

Superintendent Austin Knight has spent 25 years walking over the great "drying floors," vast fields where 5,000,000 short tons (8,000,000,000 pounds) of blue ground are spread for disintegration purposes—and he has found exactly three diamonds!

Native boys who find big stones are paid bonuses, \$1.25 a karat and 2 1/2 per cent of the diamond's valuation above ten karats.

Many boys have worked two weeks and made \$500 in bonuses. There is a maximum, however, on big finds. The boy who found the 44 1/2-karat stone was given \$500, a saddle, a suit of clothes and immediate release from his four months' working contract.

This is the largest and finest quality diamond ever found in the DeBeers Trust's mines in the Kimberly district. The largest was of 503 karats, in June, 1896, but it was an imperfect stone.

The record find was the Cullinan, Jan. 26, 1905. It weighed 3,024 1/2 karats, 4 inches high, 2 1/2 long and 1 1/2 wide, and was presented to King Edward VII in 1907.

River draggings also have produced huge gems, the largest being the Bob Gove diamond, of 337 karats. It sold in 1909 for \$19,000, and now is worth \$60,000.

**ANIMATED SKELETON**

Scientist Thus Shows Life Action of the Spinal Column.

The life action of the spinal column illustrated by a skeleton was the unusual demonstration presented before the members of the State Osteopathic association at Toledo, O., by Dr. H. Virgil Halladay of Kirksville, Mo.

By means of an embalming fluid, the process of which he discovered a year ago, Doctor Halladay claims to be able to retain the elasticity of the vertebrae as in life. The action of death and embalming fluids ordinarily brings rigidity to the human frame, so that this demonstration has heretofore been impossible.

Doctor Halladay's experiment was one of the features of the recent national convention of osteopaths at Chicago.

**STRIP MINE TO STOP FIRE**

Gigantic Operation Will Be Attempted to Extinguish Blaze.

The fire which for more than 20 years has burned in the upper levels of the United Verde copper mine at Jerome, Ariz., is about to be eliminated by a drastic process of lowering the entire surface of the property to a 400-foot level. All attempts to extinguish it have failed.

The process of suppressing the fire involves the removal of 14,000,000 cubic yards of material. The area to be excavated is roughly estimated at 400 by 800 feet. Monster steam shovels are to be employed in the work.

It is expected that the task of removing the entire top of the mine, and to extinguish the fire, will occupy several years.

**WOMAN HEADS BANDIT GANG**

Stylishly-Gowned Female Directs Operations of Bold Murder Gang.

A murder ring ruled by a young, handsome and stylishly-gowned woman and having as members several other young women, as well as a number of men, is declared by the police to exist in New York city.

These sensational disclosures followed the murder at Passaic of Mrs. Morris Goldstein, wife of a merchant. While three men entered the store, bound and gagged Goldstein and then shot his wife dead, the woman leader of this gang waited outside in a big limousine.

Other similar crimes indicate a perfectly organized criminal band.

**TOOK 1,725 BRITISH BRIDES**

American Soldiers and Sailors Have Brought All but 17 to This Country.

Statistics obtained in London show that 1,725 British girls married American soldiers. Of these only 17 remain to be sent to join their husbands in the United States.

The Powhatan, a transport leaving England, carried 33 wives of soldiers and three children and 17 wives of sailors.

These war brides are journeying in charge of the American Red Cross, which has advanced them the money.

Liquor Tax Last Year, \$483,050,854.47.

Fermented and distilled liquor taxes collected by the government in 1919 were \$483,050,854.47, according to a report by the internal revenue bureau. The total revenue collected was given as \$3,850,150,078.56, as compared with \$809,398,640.44 in 1917.

**FINDS COOK KNIGHT OF LEGION OF HONOR**

French General Gets Surprise When He Objects to Overdone Roast.

Strange and puzzling complications have arisen in the relations of the people of France as a result of the world war.

Sometimes persons wearing proudest decorations are found engaged in rather humble occupations, and the fact that they have been honored by their country would probably never become known if on some occasions attention was not called to it.

"You are wrong to speak so severely, my general. I am a knight of the Legion of Honor."

The general was Gen. Gassouin, who controlled the Paris railroad systems when they were taken over by the army, and the knight was his new cook, who had overdone the roast.

The general could not believe his ears. He made an investigation and found the new cook had lost her husband early in the war. She became a nurse at the front, where she showed such bravery that the red ribbon decoration was awarded her.

When the war was over she accepted dismissal from the army medical service without complaint, and, having to earn her living, became a cook, wearing her decorations only on Sundays.

"When the general learned the truth he embraced the cook," says the Echo de Paris, which vouches for the story, "and since has not allowed himself to make remarks when any dish has failed to be a perfect success."

**SWINDLED AT WAR FRONT**

Relatives of Dead Soldiers Are Being Victimized.

Relatives of soldiers who fell at the battle front are being victimized by cab drivers, hotel men, dealers in coffins and grave-diggers, according to Paris L'Information.

The newspaper says this "odious exploitation of grief is such that it cannot be passed over in silence."

It is charged the worst cases of imposition occur in the Champagne and Somme regions, where unhappy pilgrims are charged from 60 to 65 francs (\$13) for a six-mile drive. It is said the carriage drivers, in agreement with innkeepers, invariably manage to miss the last train out of these regions so that the mourners are compelled to stay overnight.

Coffins of the cheapest grade, it is said, are sold at from 300 to 400 francs (\$60), while soldiers who open graves charge 60 francs for bringing the coffin to the grave, and in addition ask relatives to pay 40 francs (\$8) for 20 minutes' work in exhuming the body of a soldier. L'Information calls upon the authorities to repress energetically the activities of those "preying on the public."

**FIRST LOOTERS PUNISHED**

German Steel Kings Get Heavy Sentences From French Court.

An allied court martial has sentenced the German officer, Robert Roekling, administrator of mines at Karlsruhe, to ten years' confinement, 15 years of exile and a fine of \$2,000,000 upon his conviction of a charge of organizing the pillage of factories in eastern France. It was testified at his trial that he collected machinery and other material from the factories and blew it up in November, 1918.

A brother officer, Herman Ludwig, received a similar sentence by default. The Roekling brothers are known as the German "steel kings."

The evidence presented by the prosecution was to show that the brothers had systematically destroyed the French metal working plants at Briey, Micheville, Longwy and other places, transporting within two years' time millions of tons of material to their factory at Karlsruhe, including quantities of undamaged materials, so as to make the operation of what remained of the French plants next to impossible.

**SMALL PAY IN CANDY WORK**

Average Wage of 53,658 Workers Less Than \$500 a Year.

All is not sweet in the candy business, according to a report issued by Miss Mary Anderson, director of the woman's bureau of the United States department of labor. The average wage, for instance, is less than \$500 a year.

With the advent of national prohibition there will be a large increase in the consumption of candy, the report states. In 1914 the value of the candy output in the United States was estimated at \$170,000,000, of which the total payroll was \$25,500,000, for 53,658 wage earners, in 2,391 factories.

Baby, Born at Sea, Gets \$2,301 Purse.

On the voyage of the big steamship Mauretania from Cherbourg, France, to New York a baby girl, Frances Astley, was born to Mrs. William F. Astley, who came to America from Scotland with her husband. A purse of \$2,301 was given the baby by the passengers.

Much U. S. Food Shipped to Poland.

More than 250,000 tons of foodstuffs and raw cotton have been shipped from the United States to Poland since last February. For a time these supplies were arriving in Poland at the rate of 5,000 tons daily.

For rosy cheeks, happy smiles, white teeth, good appetites and digestions:

**FORMER SLAVE DIED AT 128**

Negro Had Record of Serving Same Family Through Six Generations.

William Peyton, a negro, one of the oldest men in the United States, is dead at Little Hocking, O., near Parkersburg, W. Va., at the age of 128 years.

In his youth Peyton was a slave of a Virginia family by the name of Creel, which later moved into West Virginia. As a slave and as a freed man he served this family through six generations, it is said. Peyton was in full possession of his faculties until within a few weeks of his death.

**HEIR KEEPS JOB AS COOK**

Regards Weekly Pay as More Sure Than \$100,000 Estate.

Fred L. Toerring lost none of his deftness in turning out "stacks of wheats" in his capacity of cook in a quick-lunch restaurant in St. Louis, when he was notified by the police that he had become heir to an estate of \$100,000 through the death of an almost forgotten aunt in Davenport, Ia. Toerring decided to stick to his job, as he feels his weekly wage is sure.

**SAGE TEA BEAUTIFIES AND DARKENS HAIR**

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old-fashioned Sage-Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folk aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

**Customers' Co-operation**

The equipment of all public service enterprises in Europe, whether publicly or privately operated, disintegrated terribly during the Great War.

There were not funds sufficient to keep them up to standard.

As a result the service of public utilities was greatly impaired and much time and money will be required for their restoration.

In the meantime the public is inconvenienced.

America has been more fortunate. Her wire using companies have been excellently well maintained. This has been due to untiring effort and vigilance upon the part of operating officials and the public's willingness to pay liberal rates. The Telephone Company must continue to charge rates sufficient to maintain good service, since every element entering into that service costs more than it did six months ago, and costs are still advancing.

The successful telephone company must have the cordial co-operation of its patrons, particularly with respect to the payment of fair rates.

# DE LAVAL

## SERVICE DAY

For the benefit of our many customers and users of De Laval Cream Separators we have established a De Laval Service Day.

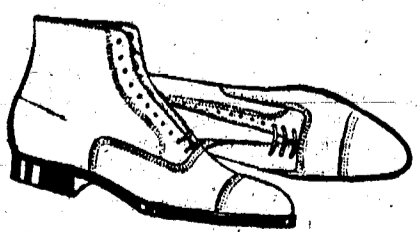

On this day we shall be glad to have any De Laval user bring his complete separator to our store for a thorough and careful inspection and adjustment, which will be made free of charge. Should any parts, due to unusual wear or accident, need to be replaced, this will be done, the only charge being for the price of the new parts used. No charge will be made for the service.

Both a De Laval Service expert and a representative will be with us to assist with this work. Bring in your De Laval Separator that day and receive the benefit of their advice on the care and operation of the machine, as well as the free service. It is our wish, and that of the De Laval Company, that every user of a De Laval Separator get the maximum of service at the minimum of cost, and we therefore urge you to avail yourself of this free and useful service.

## OFFICERS CHECK BURIAL RECORDS

Few Yanks Will Lie Unidentified in France.

### NEARLY 70,000 U. S. GRAVES

Every Grave Record is Checked Against the Army's Casualty List—38 Cemeteries or 300 or More Graves Cared for by Discharged Soldiers—Officers Make Periodical Inspections of All Cemeteries.

American army officers believe very few unidentified bodies will be among America's soldier dead in France when the army graves registration service completes a thorough checking of records now in progress. Every grave record is being checked against the army's casualty list. Each little white cross—or six-pointed star over the Jews—is having an embossed aluminum strip placed on the back, duplicating the name, rank and organization already painted on the marker. This is being done as a precaution against the possibility of winter weather wearing away the stenciled information.

### Nearly 70,000 U. S. Graves

Nearly 70,000 American boys are buried in the 11 districts of France, the Belgian battlefields and the Duchy of Luxembourg. There are 38 cemeteries of 300 or more graves, cared for by discharged soldiers. The largest of these is Romagne, north of Verdun, where lie 23,000 of our men. The next in size is that of Thiaucourt, with 4,500 graves. Many of those who fell in battle are sleeping in British and French military cemeteries. A few were left where first put in the ground, as in the Vosges mountains.

All graves are under the care of the commanding graves officers in the 11 districts and a caretaker watches over them. Officers make periodical inspection. Where practical, grass has been sown on the battle burying grounds, and in the spring this work, previously hampered by the task of grouping the bodies, will be carried on. When the present grave service administration took over headquarters in Paris in August the records were found to contain a list of 12,000 names of men buried, but without giving the exact location of the grave. The present check includes the compilation of a complete directory of every American grave. In the first 18,000 graves recorded a fourth of these unlocated ones were found and properly marked.

Inspection has been slow. Inspection of battle field burying grounds has been the slowest, but the American officers said they expected the work when finished would leave few of those tragic wounds wherein would lie an American soldier "name unknown."

Many of these are expected to be identified later when the description of the body, marks in the clothing, and sometimes a letter from home to "Dear Jim," sent back to the war department, are seen by those who have been grieving over their boy listed among the "missing."

None of the bodies may be returned to the families yet, but mothers and fathers have been journeying over to France to look at the graves of their boys. Welfare organizations have organized services to facilitate these visits, and at several of the American cemeteries the Young Men's Christian association has provided restrooms.

### TO ADOPT PELICAN WALK

England's New Women to Drop Warlike Stride.

"The walk of the pelican—mincing but graceful, deliberate yet dainty, and always alluringly feminine." That will be the new walk of England's new women, as decreed by the long and snug skirts which are now the fashion. The words are those of a fashionable modiste, who knows. The ex-government misses who have worn pants and the war economizers who have reveled in short skirts will find some initial difficulty in restricting their manlike war stride to the mincing pace, but they'll have to do it. Fashionable modistes say so, and fashion itself so decrees.

### BEARS HOLD UP SCHOOL

Johnsburg Teacher Dashes Past Bears to Obtain Help.

Marooned in a country schoolhouse at Bear Creek, Pa., by two huge black bears, a score of school children were rescued by hunters who had been summoned by the teacher, Miss Emma Schaffer of Hallsport, who dashed out the door and past the watching animals. The children had been at recess when the bears came up. They dashed into the building, and Miss Schaffer closed the door and barricaded it. The bears fled upon the appearance of the hunters.

### Million Asked to Fight Cattle Disease

Tuberculosis among cattle can be eradicated in many states within the next ten years through continued federal cooperation. John R. Mohler, chief of the bureau of animal industry, told the house agricultural committee. Owners of 800,000 cattle have asked the bureau to test their stock, but funds are lacking, he said. An appropriation of \$1,500,000 is asked.

## REVIVE OLD SWINDLE

Many Americans Said to Have Fallen Victims.

Madrid Police on Trail of Gang That Operates "Dying Prisoner" Scheme.

Madrid.—The "Spanish swindle" has shown its head again. America has been inundated with letters from "a dying prisoner, persecuted by political enemies, only able to communicate with the outside world through the kindness of a prison chaplain." The writer of the letter claims relationship with the person addressed and explains that a value containing valuables has been concealed outside of Spain, the contents to be left to an only daughter and the American relative.

Should the American reply, he later receives a letter from "the chaplain," stating that the prisoner is dead and that a certain sum is required to release the prisoner's baggage, including the mysterious valise. Fortunately when the correspondent reaches this point the "American relative" usually becomes curious and as a result the embassy in Madrid and the consulates throughout Spain have a flood of correspondence on the subject.

In other cases the victim takes the bait without question and parts with his money or even worse still, goes to the expense of traveling to Spain to pay the required sum to release the valise and claim his share of the contents.

In the latter case the swindler is generally brought to book, for the Spanish police are on the lookout and the presence of a stranger looking for lost relatives arouses their suspicions.

Recently an American arrived in Madrid with a certified check to claim his share of a prisoner's estate. The Spanish police put him in prison until he could be convinced that he had been the victim of a clever swindler. It took all the eloquence of an American consul to do this and induce the man to return home.

### MEXICAN WOMEN WAKING UP

Organized Movement May Bring Better Understanding With United States.

Mexico, City, Mex.—Mexican women are preparing to take a hand in public affairs. They intend first to attack social and industrial evils and later to make a fight for political equality. This is the program of the Mexican feminist council, a national organization with headquarters in Mexico City. The council does not believe that the mass of Mexican women are at present prepared for complete suffrage but hopes eventually to make them a vital political force. The present Mexican government looks with favor upon their efforts, according to Senorita Elena Torres, general secretary of the council.

The feminist council has organized groups to teach Mexican women how their conditions may be improved industrially and socially. The next step, said Senorita Torres, will be organization of woman workers in industry. The council intends to bring the movement in contact with similar organizations in other countries and to work with the women of the world for peace and disarmament. Senorita Torres predicts that Mexican women will create a new era of amicable relations and a more complete understanding between Mexico and the United States.

### 250,000 Orphans Roam Homeless in Armenia

Geneva.—Besides the massing of 1,500,000 Armenians during the war, this people is being still further reduced by demobilized Turkish troops, who are killing them and robbing them of what is left of their possessions, says Dr. Kuzler, a Swiss pastor, who was in Armenia throughout the war. He made this statement in an address at Zurich. He said 250,000 homeless orphans are wandering about the country.

### Rips Off Skirt, Saves Boy

New York.—Among the crowd that gathered when five-year-old Leonard Hopewell of 501 West One Hundred and Forty-seventh street, was run over by a trolley car at One Hundred and Forty-seventh street and Amsterdam avenue, was a woman who tore off her undershirt and fashioned a tourniquet, which she bound around the boy's right ankle.

Surgeons at St. Lawrence hospital, who amputated his mangled foot, said the woman's action saved his life. She slipped away without revealing her identity.

### Infant in Red Cross

Seattle, Wash.—May Rogavich entered the world at 2:21 o'clock one afternoon, gazed on tilings in Providence hospital a little time and at 6:11 o'clock in the evening joined the Red Cross. May Rogavich is the daughter of Mr. and Mrs. John Rogavich, 110 West Crockett street, and weighed, when born, seven pounds and one ounce. The Red Cross has offered \$10 to be paid during the present roll call drive to the youngest member enrolled. "Beat that," chuckled Mr. Rogavich when his daughter had been given the white-and-red button of membership.

## DEATH HAZARD IN MILLS IS GREAT

Bureau of Labor Statistics Makes Study at Fall River, Mass.

### WOMEN ARE BIGGER RISK

Mortality Among Cotton-Mill Workers Much Higher Than Among Those Following Other Pursuits—Tuberculosis Takes Many.

Washington, D. C.—From an industrial standpoint, death, at less than old age, means a fixed and definite loss; the worker has at each age a certain expectancy of life, varying according to certain factors, but still definitely calculable, which makes his death, the loss of so much potential industrial activity.

In bulletin No. 251 entitled "Preventable Death in the Cotton Manufacturing Industry," just issued by the bureau of labor statistics of the United States department of labor, is shown the real death hazard by age groups for those engaged in the several processes of cotton cloth manufacture and also what factors have been especially active in cutting on the lives of wage earners during age periods which are normally of greatest productive activity.

In this report, which is supplementary to an earlier report upon the subject, the death hazard, by age, sex and race of the entire operative population of Fall River, the leading cotton manufacturing city in the United States, is contrasted with the corresponding hazard of the nonmill operatives of the city for the five years, 1908 to 1912, inclusive, and a study is made of the death rates of workers in the different rooms within the cotton mill.

Women Have Higher Death Rate.—By a comparison of death rates by sex of the whole Fall River population, aged 15 to 44, it is shown that females have appreciably the higher death hazard. From tuberculosis their death rate exceeds that of the males by 12 per cent, from nontuberculosis causes by 5 per cent and from all causes combined by 8 per cent. Yet while this is true of the population as a whole, it is untrue of that portion of it (61 per cent) which does not work in the cotton mills, for among these three-fifths the male death rate exceeds the female by 14 per cent.

The total death hazard of the native born exceeds that of the foreign born by 9 per cent, though the native born are less liable than the foreign born to die of tuberculosis, the difference between the death rates being slight, however—less than 1 per cent. The Irish and French Canadians show the highest death rates, among the different racial groups.

In Fall River married females between the ages of 15 and 44 are much more liable to die, both from tuberculosis and from all nontuberculosis causes than the single, while among the males the single are almost invariably far more liable to die early than are the married of the same age.

Hazard Greater in Mills.—Fall River cotton operatives between the ages of 15 and 44 are about one-half (46 per cent) more liable to die, from all causes combined, than are nonmill operatives of the same age, their hazard from tuberculosis being 100 per cent and from all nontuberculosis causes of death, 20 per cent greater than the hazard of all other persons. As to workroom hazard it appears that the spinning and weave rooms are the two workrooms showing the greatest peril for male workers, the death rates, both of single and married men, from all causes being greater than the corresponding rates of nonmill operatives. For both single and married females the spinning room is the room of greatest peril, a fact which is important because the spinning room females are a youthful group, 70 per cent being under 25.

Within industrial groups tuberculosis is by far the commonest single cause of death, the tuberculous deaths being 45 per cent of the total deaths, both of male and of female operatives aged 15 to 44.

### Follow a Coin Flip

Hood River, Ore.—The toss of a coin is directing Mr. and Mrs. C. W. Northrup, who left Chehalis, Wash., last fall on a motor tour of the country. They tossed a 50-cent piece to decide between a visit to Hood River or to Yakima, Wash. Hood River represented by tails, won, and the couple came here and spent the harvest season picking apples. "Shall we go north or south?" Mr. Northrup asked his wife when their work here was finished. The flip of a coin again decided. Southern California won, and the two have left for the sunny South, where they say they will participate in the citrus fruit harvest.

### Baby Named "Armistice"

New Bedford, Mass.—If the baby daughter of Mr. and Mrs. Walter Kuzewski had arrived on any other day but November 11 she might have a different name. As it is, she will go through life with the name of Armistice.

### Girl Catches Shark

Cornwall, Eng.—With an ordinary hook and line Miss Daisy M. Jewell, aged seventeen, caught a shark six feet long.

Think the Shiny Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

## Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the same lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers. All you do is rub it on your stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Buy Black Silk Stove Polish. Made in highest quality.

Black Silk Stove Polish Works Sterling, Illinois

**PUT CREAM IN NOSE AND STOP CATARRH**

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, sneezing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

## SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back Hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## Briefs of the Week

Born to Mr. and Mrs. Burdette Paine a son, Jan. 19th.

Born to Mr. and Mrs. Harry Sloop, a son—Robert Donald—Jan. 17th.

Born to Mr. and Mrs. Elmer Alexander, a daughter—Helen Louise—Jan. 19th.

Mr. and Mrs. Ransom Jones, Jr., left Wednesday for Grand Rapids, where Mr. Jones will take treatment.

Mrs. Wm. Cary returned to her home at Central Lake, Tuesday, after a visit with her mother, Mrs. Cora Ingalls.

The Public Library will be open Saturday afternoons from 1:00 to 5:00 o'clock. Last issues of magazines may be taken from the Library as books from 8:00 p. m., Saturdays to 5:00 p. m., Mondays.

The East Jordan Dancing Club which was discontinued a few years ago owing to war work, was re-organized the past week with the following officers: President, Atty D. L. Wilson, Vice Pres., Dr. W. H. Parks; Secretary, Supt. M. R. Keyworth; Treasurer, John J. Mikula. The membership will be limited to fifty. Plans are made for the first dancing party on Friday evening, Jan. 30th, and East Jordan's new musical organization—the New Metropole Orchestra—have been engaged for the series of dances.

## Temple Theatre

WHERE EVERYBODY GOES.

# SOAP BUBBLES INTACT A YEAR

Scientific Society Gives Information on Sir James Dewar's Test.

## ALWAYS MYSTERY TO SCIENCE

When Bubble Becomes Very Old It Offers Only Possible Example of the Molecule Visible to the Naked Eye.

Philadelphia, Pa.—Facts about the prodigious strength of soap bubbles, proved by experiments in which bubbles were kept intact for more than a year and subjected to all sorts of weight strains, were made public here for the first time by the Franklin Institute, one of the oldest scientific societies in the United States.

Coming on the heels of the announcement of Einstein's discoveries of the gravitational bending of light, the exploitation of the soap bubble is on the other end of the scale as to size, yet, according to scientists, is of tremendous importance to chemists, physicists and research workers in the strength of materials and essential elements. The man who made the experiment is universally recognized as one of the leading scientists in the world. He is Sir James Dewar, LL. D., D. Sc., F. R. S., Fullerton Professor of Chemistry, Royal Institution of Great Britain, and an honorary member of the Franklin Institute.

The soap bubble is a simple thing, yet it has always been more or less a mystery to scientists. They consider it perhaps the best phenomenon existing for the study of the habits and idiosyncrasies of the molecule. Scientists now claim, on the strength of the experiment made by Sir James Dewar, that when a soap bubble becomes very old, say in three or four days, it offers the only possible example of the molecule visible to the naked eye. Most parts of the bubble are estimated to consist of about one hundred layers of molecules. But by various methods of treatment the bubble is induced to perform "stunts" until in black spots which appear it represents only a single layer of molecules.

Remarkable Strength. This layer is so thin that Sir James estimates it would take one and one-third million like it, superimposed, to make an inch. Yet, when the soap bubble is permitted to mature in air that has been freed of its natural enemies, it is so strong that it will support drops of water many times its own weight before breaking. Sometimes a bubble is torn from its supporting ring by the weight before the molecules release their bulldog grip.

## INDIAN PAINTINGS ON CLIFFS

Owner Offers Them to State or National Authorities to Include in Park.

Austin, Tex.—The most remarkable Indian paintings or photographs in the Southwest have been offered to state or national authorities, provided the cliffs upon which they are drawn are enclosed in a park and adequately guarded, according to J. E. Pearce, associate professor of anthropology of the University of Texas.

These paintings, which are owned by E. D. Sims of Paint Rock are located along the banks of the Concho river near Paint Rock, upon every available surface for a half-mile. They are in deep red, with an occasional black figure or character.

All phrases of the early tribes are represented, Mr. Pearce declares, and so much valuable historical material is included in these paintings that Mr. Pearce will have them copied in scale for a report to the Smithsonian institution, for which he is doing research work.

## Old Letter Settles Case.

Wilmington, Del.—An age-worn, tattered letter and three words in the codicil of Jesse Chandler settled a long-pending case in the court of chancery recently when Chancellor Curtis issued an order that Samuel M. Harvey of West Chester, Pa., be paid \$14,500 from the estate. Harvey's wife, one of the 38 legatees he was suing, lost the suit, but will have a half share in the money awarded. Harvey had agreed with Jesse Chandler to buy 168 acres of farmland in Christiana Hundred for \$20,000. When Chandler died before the deal was completed he stipulated in his will that the farm should be sold for that amount to Harvey. Meanwhile the farm had been sold for \$34,500, and while the legatees contended that the entire amount should be divided, Harvey claimed that only \$20,000, or his agreed purchase price, should be divided. The court upheld his contention.

## Peculiar Bird.

Stanford, Ky.—Mrs. Roberts, who lives just beyond Rowland, caught the other day a peculiar member of the bird or fowl species, known as a grebe. It has something of the appearance of a duck, but can neither walk nor fly. It is carried from one place to another on land by heavy wind and is much more at home on water than on land. It was brought to town and exhibited by N. W. Fowle, and was later purchased by Sam Gentry.

# Dromedaries Succeed Where Other Transports Fail in Manchurian Desert

Photograph shows supplies being carried across the Manchurian desert by means of dromedaries. These "ships of the desert" succeeded where motor and other vehicles failed.

## OF INTEREST TO POULTRY GROWERS

The grower who expects to realize a nice profit from his poultry, will keep purebred stock. Any of the standard breeds of poultry have years of intelligent breeding back of them and they can be depended on to give satisfaction. Cross-breeding is a step backward. Most breeders who practice cross-breeding, mate one of the larger breeds, with one of the smaller, as Plymouth Rock and Leghorn. The idea in cross-breeding is to produce a fowl that will not only lay well, but one that will also make a good table fowl. The result of such crossing is always disappointing and results in a flock that is little better than mongrels.

The advantages of keeping purebred stock are numerous: One can market a uniform product in eggs and stock. The value of uniformity in products cannot be over-estimated. A case of eggs all of a color and size, or a coop of hens that run uniform in size and color, will usually sell better than a mixed lot of eggs or a coop of mongrels.

When purebred poultry is kept one can often sell eggs for hatching or mature stock, at prices that one could not expect to realize for market eggs or scrub stock. And then the satisfaction and pride of caring for a flock of purebred chickens is a point that ought to be considered.

## SAYINGS OF WISE MEN

There stalks discord with her town mantle.—Virgil. Little discourse is gold, too much is dirt.—German Proverb. That only is a disgrace to a man which he has deserved to suffer.—Phaedrus. Discontents arise from our desires oftener than from our wants. A dram of discretion is worth a pound of wisdom.—German Proverb. A clear bargain, a dear friend.—Italian Proverb.

## Fashion in Reading as in Dress, Which Lasts Only for Season, Notes Writer

I cannot understand the rage manifested by the greater part of the world for reading new books. If the public had read all those that have gone before, I can conceive how they should not wish to read the same work twice over; but when I consider the countless volumes that lie unopened, unregarded, unread, and unthought of, I cannot enter into the pathetic complaints that I hear made that Sir Walter writes no more—that the press is idle. . . . If I have not read a book before, it is, to all intents and purposes new to me, whether it was printed yesterday or three hundred years ago. If it is urged that it has no modern, passing incidents, and is out of date and old-fashioned, then it is so much the newer; it is farther removed from other works that I have lately read, from the familiar routine of ordinary life, and makes so much more addition to my knowledge. But many people would as soon think of putting on old armor as of taking up a book not published within the last month, or year at the utmost. There is a fashion in reading as well as in dress, which lasts only for the season.—From "Sketches and Essays," by William Hazlitt.

## Keeping the Leaves Clean.

Glossy leaved plants such as palms, rubber plants and callas, should have the leaves sponged with clear water once every week, with an occasional spraying at the sink. Rough leaved plants, such as the begonia, gloxinias, etc., should not be sprinkled over the foliage. The under side of the foliage needs attention also.

## Form Habit of Giving Cheer and Encouragement to Others

Cultivate sunny-heartedness, and you will have a priceless charm for brightening existence and hushing troubled waters into happy peace. Form the habit of giving cheer and encouragement to others, never uttering needlessly a disheartening word. Don't quench hope, or throw cold water on reasonable enthusiasm, or chill ardor, or create an atmosphere of censure and fault-finding, but make folks tingle to the fingertips with the heartiness and spontaneity of your presence and greeting. Make others happy and you cannot help being benefited. Don't let the black-plumaged raven's croak down the skylark's note. Always look on the bright side.—Rev. Philip Greer.

## Plants Should Be Watered Thoroughly When Very Dry

Water pot plants only when they need it, then water them thoroughly. When the soil begins to get dry and powdery on the surface, or when the pot is tapped with the fingers and it emits a ringing sound, the plant requires water. Then give sufficient water so that it runs out through the bottom of the pot; withhold water until needed again. Giving a little water every day, or at any stated interval, is not the way to water plants. Use tepid rain water or water that has been exposed to air and sun if possible for a day or two. The water should be just lukewarm, about 50 degrees or 60 degrees. Never use ice cold spring water for plants in winter. Warm water may be used to mix with the cold to bring about the temperature named.

## YOUR LAUGH

Used to Postponements.

"Then you like working for a judge?"  
"You bet."  
"Doesn't he kick when you put things off?"  
"Now, he puts off half his own work every day."

## Times Had Changed.

"Strange Edith should invite that horrid grass widow to her wedding; she has such a disagreeable past."  
"Yes, my dear; but she's rich enough to furnish a very agreeable present."  
Not So Chummy.  
"I s'pose husband and wife can be very chummy in a chummy roadster?"  
"Yes, but it's a bad place to quarrel in."

## No Need to Worry.

Harold Hollownut—I dread old age with its wrinkled brow.  
Polly Pickles—Don't worry. There isn't room enough on your brow for more than one thin wrinkle.

## Measured by Millinery.

Patience—Is that her husband with her?  
Patrice—Yes.  
"How long has she known him?"  
"Not long. Only three hats!"

## Strategy.

Subeditor—Nothing doing in the news line today.  
Editor—All right. Put a pair of trousers on the office cat, photograph him, and we'll run a special on the oldest living man in the town.  
Short but Sharp.  
"Why aren't you speaking to Mrs. Gadder?"  
"We had words."  
"Indeed!"  
"Yes—one apiece. She called me 'upstart' and I called her 'cat.'"

# MINES MENACE SHIPS

Germans Have Not Finished Sweeping Their Area

American Field Swept as Completely as Possible, Says Admiral Knapp.

London.—Until the Germans complete the sweeping of mine fields they laid in the North Sea there will be considerable danger to shipping in waters adjacent to the British Isles, say British and American naval authorities. Even after that work has ended, which will not be before next summer, there will be some danger which, they predict, will gradually diminish. "The American barrage is swept as completely as is humanly possible," Admiral Harry S. Knapp, of the American navy, said to the Associated Press correspondent. "After our area had been pronounced one hundred per cent clear we reswep 800 miles of it and found only four more mines. These were at a buoyed spot where the sweepers believed they had missed some."

"The greatest menace now," said Lieutenant Commander Benson, of the international mine destroying committee, "is the unswept German area. Until that field has been cleared there will be many drifting mines about. Afterward there will be some danger, but it will rapidly diminish as the elements destroy the effectiveness of the mines."

He said the committee accounted for mines on the basis that five per cent explode when laid, five per cent are defective, ten per cent soon become useless through leakage and fifty per cent of the total number laid are destroyed by the different systems of sweeping employed by the British and Americans.

Committee members believe that a great many of the other thirty per cent will be carried by the natural northward currents of the North Sea into Arctic ice packs and destroyed; others will go ashore on the Norwegian coast, as have many already; a great number will become harmless through remaining in the water and a certain number will be destroyed by patrols which the British navy still is maintaining.

Also the British navy has just armed all merchantmen, except those calling at Irish ports, with high velocity rifles with which to destroy any mines sighted.

## CHAMPAGNE THING OF PAST

Soil of District Where Produced Said to Be Permanently Destroyed.

Paris.—Champagne soon will be a thing of the past. The original shallow top soil of the Champagne district is reported to be permanently destroyed by the ravages of war and re-fertilization is deemed impracticable because of the chalky character of the subsoil.

No attempt is to be made to rebuild the Cathedral of Rheims, which is likely to remain as a war monument. The present inhabitants of the city are mostly speculators who are investing millions in buying destroyed or damaged property at a big discount, hoping to recover from the government the original cost plus war inflation. The city is still without light, water or heat, hotels, restaurants or tramways, and operators or taxicabs are reaping huge profits. The sanitary conditions are appalling, the drainage system being unrepaid.

## Man Quits 47-Year Job; Never Missed Day's Work

Dan Mahoney has completed forty-seven years' service in the employ of the Boston and Maine railroad as a gate tender at Milford, N. H. He has never missed a day at his work. Mahoney has never ridden in an automobile, or attended a moving picture show or theater. He has never been to a dance. He says he always retires at 7 o'clock and rises at 4, summer and winter.

## Couldn't Digest China Egg.

Smith Center, Kan.—Two months ago, while Mrs. Ellen Chitwood was gathering eggs her hand came in contact with a big bullsnake in one of the nests. Mrs. Chitwood took what eggs were left, and in their stead left one made of china. To her surprise, next day this one also was gone. She thought no more of the matter until a day or so ago, when she met his snake-ship again. This time she mustered courage to kill it with a club. Noticing an enlargement in the middle of the snake's body, she performed a post-mortem examination and found the missing china egg.

## Women Dog Catchers.

Denver, Colo.—"The only woman dog catcher in the world" is the title applied to Mrs. Laura Dietrich, deputy poundmistress at the dog pound here. Mrs. Dietrich is highly efficient in the unusual role, according to William C. Fox, superintendent, who declares that he had misgivings at first as to the advisability of securing a woman for the position, as he thought it would be too difficult. "However, I soon discovered that dogs resist a woman much less than a man," he said. "They are handled by Mrs. Dietrich with much less trouble than a man."

## CHANCERY ORDER

State of Michigan. The Circuit Court for the County of Charlevoix.—In Chancery. Herman Behling, Plaintiff, vs. John Divish, Bessie Divish Holmes, Joseph Divish, Irene Margaret Holmes, and their unknown heirs, devisees, legatees and assigns, Defendants.

At a session of the said Court held at the Court House in the City of Charlevoix in said County, on the 11th day of December, 1919. Present, Hon. Frederick W. Mayne, Circuit Judge.

On this cause it appearing to the satisfaction of the Court from the Bill of Complaint in file in said cause, that John Divish and Bessie Divish Holmes are deceased and it further appearing that they are necessary and proper parties to the above entitled cause and it further appearing that it is unknown whether they or any of them have heirs, devisees, legatees or assigns;

On motion of Dwight L. Wilson, Attorney for the plaintiff, it is ordered that the appearance of the unknown heirs, devisees, legatees and assigns of the said John Divish and the said Bessie Divish Holmes or either of them, be entered in this cause within three months from the date of this order and that in case of their appearance or the appearance of any of them, they respectively cause their answer or answers or the answer or answers of such of them as have appeared, to be filed and a copy thereof to be served on the plaintiff's attorney within fifteen days after service on them, or such of them as have appeared, of a copy of the Bill of Complaint and notice of this order, and that in default thereof the said bill be taken as confessed by them, the said defendants before named.

And it is further ordered that within twenty days the said plaintiff cause a copy of this order to be published in the Charlevoix County Herald, a newspaper printed, published and circulating in said County of Charlevoix, and that such publication be continued once in each week, for six successive weeks, or that a copy of this order be personally served upon each of the said defendants at least twenty days before the time above prescribed for their appearances.

FREDERICK W. MAYNE, Circuit Judge. DWIGHT L. WILSON, Attorney for Plaintiff, Business Address, East Jordan, Michigan. Countersigned: RICHARD LEWIS, County Clerk.

The foregoing action is brought to quiet the title to the following described realty, viz: The northeast quarter (ne 1/4) of the northwest quarter (nw 1/4) of section sixteen (16), township thirty-two (32) north of range six (6) west, Charlevoix County, Michigan. DWIGHT L. WILSON, Attorney for Plaintiff, Business Address, East Jordan, Michigan.

## HE FEELS LIKE A NEW MAN

Rheumatic pains, backache, pain in sides, sore muscles, stiff joints or an "always tired" feeling are usually symptoms of disordered kidneys. W. W. Wells, Toquim, Mich., writes: "I am on my feet most of the time and get tired. But after taking Foley Kidney Pills I feel like a new man." Prompt in action.—Hite's Drug Store.

## GRASS SEED

FREE SAMPLES Wonderful Value Highest Quality. Don't fail to investigate these bargains. Reclaimed Tested Timothy \$3.00 per bushel. Sweet Clover \$3.00 per bushel. Alsike Clover and Timothy \$3.00 per bushel. Sudan Grass \$3.00 per bushel. Other Grass & Field Seeds at low prices. All sold subject to State or Government Test under an absolute money-back guarantee. We are specialists in grass and field seeds, and we are located so as to save you money and give quick service. Send today for our money-saving Seed Guide with full explanation. We expect higher prices—Buy now and save big money. American Mutual Seed Co., Dept. 675 Chicago, Ill.

## "Hello" Purely American Expression, but Originated With French Wolf Hunters

You should try to learn the old wolf hunter's call, because you know the wolf is a scout, and that should be the scout call, writes Dan Beard in Boy's Life. This call was used in France first and afterwards in England, but there are no wolves in England now and the bugle call has been forgotten in both countries, therefore we "paint it green and call it our own." Even though William Tell and Robin Hood bugled the same calls before America was discovered, we can make it American the same as we have made the old French wolf hunter's cry American. French was spoken in English court circles so the titled wolf hunters used the French cry "hau-tou" or "ah-lou-lou-lou," being pronounced loo, the cry being a lu loo; the English put on the H, and made it halloo, and we made it hello, which is an American expression, as all the telephone girls know.

## Cooksu, Korean Delicacy and Great National Dish

The great national dish of Korea is cooksu. Sumner R. Vinton writes in Travel. To make it, you plunge a large lump of ice into a bowl partly filled with steaming vermicelli of the endless variety. Over this you pour a portion of hot beef stew. The ice congeals the beef fat into little islands of grease, and you never know whether the portion dangling from the end of your chopsticks will be icy cold or burning hot. The vermicelli, which is very tough, is to be lifted to the mouth with the chopsticks. Keeping a firm hold on it with lips and teeth, you slip the chopsticks down to lift again and take up the slack by sucking.

## SOFT DRINK TAX IS HEAVY

Government, Which Expected \$52,000,000, is Getting \$70,000,000. Returns from taxes on soft drinks have so far surpassed estimates of government statisticians that no accurate check as to whether the government is getting the full amount due is possible, according to the internal revenue bureau. Original estimates were that \$52,000,000 would be derived from the tax, but the actual figures show that the amount paid will aggregate between \$75,000,000 and \$80,000,000. Were all returns accurate, the bureau estimates that the total soft drink tax would aggregate \$100,000,000. Hundreds of convictions of dealers failing to pay the tax have been made. Outlaw Wolf Slain After Long Hunt. With a record of having killed at least 100 sheep, "King," a large gray wolf sought by farmers of Rock county, Wisconsin, for seven years is dead. He was shot by Burr Jones and his partner, of Evansville, Wis., after he had been run down in the deep snow.
