## Wanted! Six Aldermen

### Charter Amendment Calls for the Above Number.

Since publishing the article last week under the caption "Wanted Four Aldermen," it has developed that the Charter Amendments adopted last spring by a vote of 206 to 96, is somewhat faulty in that it makes no proper provisions for an equal representation from the three wards on the Council. The purpose of the amendments are clear enough—"All powers conferred on the city" shall be exercised by the mayor and six aldermen.

The chief trouble lies in paragraph 9. The Herald is no supreme court, but we believe the part relative to the 1921 election is merely advisory, and that, if our citizens so desire, the matter of having an equal representation from all three wards during the coming year can be arranged.

One very erroneous impression in some quarters seems to be that the aldermen are to be elected at large. That is not the fact. The aldermen must be residents of, and elected by the voters of a given ward. Even the primary petitions MUST be signed by voters of the ward in which the candidate for alderman resides.

As the "Amendments" are in for a thorough discussion among our citizens, we herewith re-publish them in their entirety.

The Mayor shall be elected for a term of one year and each alderman for a term of two years. At the regular municipal election to be held in 1921 there shall be elected from each ward one alderman, provided that in the ward where the commissioner whose term of office expires in 1921, resides, there shall be elected two aldermen and the candidate for alderman receiving the greatest number of votes, shall be elected for a term of two years and the candidate for the office of alderman receiving the next largest number of votes, shall be elected for a term of one year. At each municipal election held after 1921 there shall be one alderman elected from each ward and a mayor.

10. Section 2 of chapter 6 of the Charter of the City of East Jordan, Michigan, shall be amended to read as follows: The various departments shall be apportioned among committees selected from the council, by the mayor.

13. Compensation for members of registration or election boards or board of review shall be determined by the council.

It is more blessed to give than to receive, especially if it is a licking.

## Infant Narrowly Escapes Death

### In Fire Started by Another Child Playing With Matches.

The cries of an infant child at a crucial moment last Saturday noon saved itself from death by suffocation in a fire started by a four-year-old brother while playing with matches.

Last Saturday noon Fire Chief Adams noticed puffs of smoke coming from the windows of the second floor of the building owned by Miss A. M. Kneale, and in which her millinery store is located; the second floor being occupied by Mr. and Mrs. Carl Ellsey.

On investigating he found the front rooms ablaze and a little four-year-old boy crying in the hallway, who stated that while alone he had been playing with matches which started the blaze.

Chief Adams immediately ordered the chemical wagon brought down and started to close up the rooms to kill the blaze. It was at this time that an infant child, lying on a bed, commenced to cry. A few minutes later and it would have been suffocated as already the rooms were dense with smoke.

The chemical wagon responded promptly and our firemen extinguished the blaze without much financial loss.

### LIVE STOCK SALE LIST TO BE ISSUED AT M. A. C.

A live stock sale list, in which all farmers of Michigan are invited to list their stock without charge, is being compiled by the Extension Division at M. A. C., and will be ready for distribution late in February. Beef and dairy cattle, horses, sheep and hogs—in fact all stock, will be included in the list.

Farmers who list with the sale list are asked to get their copy in to the Extension Division, M. A. C., before Feb. 18, the date on which the list goes to press. Those listing animals should give their name and address, the number of animals for sale, the breed, the age, a short description, and the price. Copies of the sale list may be had free upon application to the Extension Division, M. A. C., East Lansing, Mich. The list now being compiled will be the February issue of a regular Quarterly List gotten out by the College.

"LET'S GO"  
Of all the slogans created during the World War, the chief of the Morale Division has decided, after months of careful study, that "let's go" is the best and most potent of them all.

## E. J. H. S. WINS FIRST BASKETBALL GAME LAST FRIDAY

### Will Play Here This Friday Night With Kalkaska.

Basketball at the East Jordan High School has been revived after several years of inactivity. As soon as the new gymnasium was in condition to begin practice, the boys started to work. The first games were scheduled away from home in order to enable the boys to get some experience on foreign floors before attempting a game at home. The boys developed unusually fast and are now playing a clean, fast game.

Last week at Elk Rapids they defeated the Elk Rapids High School boys by a score of 40 to 11. The East Jordan boys were fast, accurate in shooting baskets, and used excellent team work.

The first game of the season at home and the first game in the new gymnasium will be next Friday night, at which time the Kalkaska High School team appears here. The Kalkaska team defeated the East Jordan team at Kalkaska on the 28th day of January by a small score. The game should be fast and exciting. Coach Speitz is working the team this week particularly for this game, and unless all indications fail, the first game in the new gymnasium will be a victory for East Jordan. A preliminary game will be played by the sophomores and junior teams.

These teams played nearly a tie game just a short time ago and both are predicting victory on Friday night.

Every lover of good sports should be out. Seating facilities are excellent so that every spectator will be able to see every play made. Admission twenty-five and thirty-five cents. First game called at 7:00 sharp.

### EVERYBODY'S DAY

Clean up—look up—stay up!  
It's only a matter of a few weeks when spring cleaning will be with us again.

Let's be ready for it, improve upon the work of past years, and make this town a place of beauty.

Let's make it everybody's day. If everybody leaves it for somebody else to do nothing will be done except in a perfunctory manner, but if we all "go to it" with a determination to excel it will only require a small amount of work on the part of each individual.

The logical way to do a thing is to pitch right in and stick to it until it is done, and then hold it there—don't allow any slipping or sliding back to the old level.

Mediocre results may be good enough for some localities, but they are not satisfactory to the people of this town. We want something better, something out of the ordinary, quite in keeping with the thrift and intelligence of our community.

Why can't we have a general spring cleanup day, when every citizen will get out and put the polish on our town, remove the debris from certain streets, clean up back alleys and unused thorough fares, and place the stamp of cleanliness, sanitation, and beauty upon the whole community?

No one objects to closing the business houses for a day in order to hold a town picnic or other celebration. That is a common occurrence all over the country, and everybody has a gala time.

But who ever heard of a town closing up business in order to take a municipal bath?

It's a good move for this town to inaugurate.

We're for a cleanup holiday, with everybody in action.

Are you? Say "yes"

Herbert Hoover says he can "see no reason why the United States should cancel the war debts of the allies when they are spending more for armament than it would take to pay the principal and interest." Hoover said a mouthful and we pass it along. That ten billion dollars the allies owe us would feed a good many hungry Americans in these days of unemployment. Just because we are a rich nation is no reason why we should sit complacently and watch other countries default in their obligations to us.

One of the first acts of the new congress should be a revision of our immigration laws. With more than three million men now out of employment in this country one begins to wonder how the hundreds of thousands pouring in from Europe are going to earn an honest living. There is nothing to be gained by turning America into an international poor farm.

## Debating Team Defeats Pellston

### Gets Two To One In Spirited Debate.

The local High School Debating Team went to Pellston last Friday night and succeeded in defeating the strong Pellston team, getting a two to one decision.

The Pellston affirmative team had already established an excellent record having defeated both Alpena and Petoskey. They had one speaker, a young man, who was an exceptionally good debater and his wonderful work had been carrying the team to victory. However, the Pellston team was unable to answer the negative argument of the East Jordan team and so failed to establish a case.

This victory is the fourth one in succession for East Jordan and gives East Jordan a total of fifteen out of a possible sixteen points.

The next debate will be held at East Jordan on Friday evening, Feb'y 18th, and will be with Cheboygan. If East Jordan wins this debate it will enable the local school to enter the final elimination contest for the State championship.

### JUST A LITTLE TRUTH.

America is suffering from what might be termed our national ailment—an almost universal desire to obtain something for as near nothing as possible.

The manufacturer is not content with a moderate profit. He hungers for a continuance of the rich dividends that accrued during the war.

The employees themselves aspire to the maximum wage, but are seldom averse to reducing the amount of work performed.

It's the same in every line of business, in every walk of life.

Throw a scrap of meat into the henyard and the spryest of them will grab it and duck for safety. It wants to hog the whole thing.

Human beings are much the same as chickens.

Each one wants to grab as much as possible of everything in sight and let the other fellow be content with what is left.

We are eternally emitting roars of protest over the continued high prices. But we are like nations that advocate disarmament—we wait for the other fellow to step down first.

Everybody admits that something must be done, but nobody feels that he is the one to do it.

We are inconsistent and illogical, but no worse than the rest of the world.

As an illustration of the truth of this statement, how many of you are willing to admit that our remarks are true insofar as other people are concerned, but that you cannot see where they apply to you?

But cheer up—let your virtuous indignation cool off and ooze out. Perhaps the editor is as deep in the mud as you are in the mire, for we frankly own to a hankering for more than we get.

This ailment is not confined to Americans alone. The whole human race is afflicted with it. It began when Adam plucked the forbidden fruit, and has been growing upon us ever since. It will end only when human life ceases to exist.

Everybody knows it, and many admit it.

Truth is stranger than fiction, sometimes, and life is the greatest story of all.

That's what ails us.

It is barely possible that within the next hundred years congress will do something to alleviate the deplorable condition of disabled veterans of the world war. The fact that the vets will all be dead then should be of some slight interest to our dear representatives in Washington. It won't cost so much. There is seldom any individual profit in being a humanitarian, and gratitude appears to be only money deep.

A Chicago paper avers that "given a pickle and a few moments of undisturbed time, a woman can solve any problem on earth." Give 'em a barrel, brother, give 'em a barrel, and elect 'em all to Congress. Just now the country is sorely in need of an army of solvers.

Certain sections of the country are much concerned over why a woman closes her eyes when she is being kissed. But speaking from experience, we are unable to speak.

## RURAL SCHOOL PLAY STORY CONTEST

The rural schools of Charlevoix County entered the State Rural School Play Story Contest conducted by the Athletic Department of the State Department of Public Instruction.

Regulations required that letters be written to the county commissioner of schools in ink, telling of the uses to which the play ground material presented to the school had been put, of the joy the children had received from this equipment, of the desire of both parents and children for a further distribution of such material, and that the letters must indicate that both parents and children knew that the recreational equipment was purchased from the proceeds of the earnings of legalized bowling, and further that it cost neither the county nor the state anything in an increase in taxes.

Papers were to be marked on originality, conciseness, penmanship, and neatness in the order named. All children writing must be attending the rural schools of the state and must be in the fifth grade or above. Five letters are selected in the order of excellence and sent to the state from every county entering the contest. The county sending in the five best letters will receive first prize of \$150 worth of equipment. The county sending in the five second best letters will receive \$100 worth of equipment, and the county sending in the five third best letters will receive third prize of \$50 worth of equipment.

The best letter written by any girl in the county was by Gladys Anderson of District no. 7, Boyne Valley. Gladys will receive her choice of a volley ball, a tennis racket, or an indoor ball and bat. The best letter written by any boy in the county was that written by Clarence Struthers, District no. 6, Hayes. Clarence will have his choice of a regulation baseball and bat, a soccer ball or a football. The five best letters in the county in the order of excellence were as follows: Gladys Anderson of Dist. No. 7, Boyne Valley, Clarence Struthers of Dist. No. 6, Hayes, Perry Dooze of Eveline No. 2, Anna Lou of Eveline No. 2, and Opal Macdonal of Eveline No. 2. The first three above named were eighth graders, but the last two were fifth and sixth graders respectively.

Supt. T. E. Johnson of the state Department of Public Instruction has proclaimed the week beginning February 13, Better School Week. Word comes that material for distribution regarding the same is on the way, but no printed matter of any kind has yet arrived to state the plan of organization or place emphasis. With the United States ninth as an educational nation, surely emphasis of some kind, perhaps every kind is needed.

Mr. Johnson requests the schools be given the co-operation during that week of ladies' clubs, farmers' clubs, lunch clubs, and lodges of all orders. The school should be the topic of every program given during that week, what the school is and what it should be, what the school hopes to be, and how it may attain its ideal. All clergymen in the state of Michigan are urged to speak on Sunday the 13th of educational needs, local, national, optional, and legislative.

Mr. Johnson's circular letter on Better School Week was dated Jan. 31. His printed material is still en route and the time for working up a campaign is very limited. If a noisy campaign does not, therefore materialize, remember that Charlevoix County has Better School Week every week, and that we carry with us throughout the year a "Better School" slogan. Nevertheless we wish to co-operate with the rest of the state and every interested person should use his influence during that week to place educational work in the foreground.

There seems to be a tendency on the part of many people to continually criticize others of their acquaintance. It isn't done with the intention of doing harm to the person criticized—at least not always—but is simply a case of seeing the worst side of human nature when the brighter side could be viewed to so much better advantage. None of us are perfect—not even the critics themselves—but we would all be better citizens if we were to confine ourselves to recognizing and fostering the good in humanity instead of stirring up the bad.

CRITICS OF ARMY FLAYED BY DAWES

FORMER ARMY HEAD SAYS VALUE OF INVESTIGATION SPOILED BY PARTISANSHIP.

DECLARES QUIZ WASTE OF TIME

Reminds Committee of Disgraceful Government Wastes That Could Be Investigated Here.

Washington—Turning sharply upon house war investigating committees as a whole, Charles G. Dawes, former head of army supply procurement service in France, told one of them that the value of their work had been rendered useless through injection of partisan politics.

"I bitterly resent this effort to reflect upon the entire army because some poor devil blundered in Switzerland," he shouted. "You cannot put a blotch on the army. What the hell did we go in for—to steal money? It was not a Republican or a Democratic war. It was an American war and yet as a rule these committees try to bring in partisan politics.

"You could use your time investigating to a better advantage right here trying to save disgraceful government waste. You could save more money for the people. But as to France, you haven't got evidence to make a case if one existed, and I don't believe it does."

Representative Flood, Democrat, Virginia, told General Dawes his idea of investigation was to draw a lesson for the future; if bad administration was shown to say so, and if there was fraud and graft to find it and see that the guilty were punished.

"Yes," General Dawes replied, "but don't let this thing go before the people as a partisan fight. Everybody wants to hear something bad about somebody else. I am not here to make charges that would blacken the name of a soldier who cannot come in to be heard."

Asked about grafters who followed the American army to France, Dawes said:

"Yes, they were there, some of them the most disreputable characters on earth, trying to help the army by selling it things it needed at exorbitant figures. There was one man we caught and deported. What's his name? Oh, what's the use. I am not a muck raker. He was a traitor and I wish we could have shot him."

There were many women at the hearing, but it didn't faze the general, who swore constantly.

Newberry's Plurality of 7,567 Enables Senator to Hold Seat.

Senator Newberry lost 2,969 votes in the recount, while Mr. Ford gained 264.

Mrs. W. H. Thornton, Little Rock, Ark., writes this: "My little boy had a severe attack of croup, but two doses of Foley's Honey and Tar relieved him, and he went back to sleep and was troubled no more. I would not be without it at any price."

Get the Habit of Drinking Hot Water Before Breakfast Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts. There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation. Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

GUY F. ALLEN

Guy F. Allen, who has been in the employ of the treasury department since 1901, has been named by President Wilson to succeed John Burke as treasurer of the United States.

The resignation of Mr. Burke necessitated a count of all cash and securities, and this has been announced as a total of \$13,883,819,826.36.

No shortage was revealed in the count, Mr. Allen said, and a receipt will be given the former treasurer, relieving him of responsibility.

There is much in knowing what not to do, but there's a devil of a lot more in not doing it.

SENATE PASSES NEW AUDIT PLAN

FIRST OF GOVERNOR'S REFORM MEASURES APPROVED; CHANGE IN ADMINISTRATIVE BILL.

INQUIRY OF LOBBYISTS ASKED

Legislators Face Demand for Rigid Economy, Also Biggest Budget in State's History.

Lansing—The bill to change the methods of state accounting, submitted early in the session with the governor's administrative measure, was passed by the senate late last week after its third reading.

This bill brings all claims under control of the auditor general and the administrative board, exception being made only in the case of expenses in the office of the auditor general itself.

Cabinet Plan Near Vote.

The bill to create an administrative board composed of the Governor and elective state officers was reported out following a joint session of the committees on state affairs of both houses, which was attended also by Governor Groesbeck and other officers who will become members of the new body if the measure is passed.

The only amendment of importance was made at this joint meeting, upon the suggestion of Governor Groesbeck himself. The change permits the mobilization of state employees in departments where, due to the season of the year or other causes, the greatest amount of work is to be done.

"It often occurs," said Governor Groesbeck, "that one department will have practically nothing to do at a time when some other department is swamped with work and needs additional help. Why not shift such employees as can be spared from the idle departments to those pressed for help, rather than allow some to sit idle while outside help must be obtained for others?"

Lobbyists Hamper Work.

Investigation of alleged unlawful lobbying is asked in a resolution presented in the house by Rep. Fred E. Dunn, Highland Park. The resolution calls for appointment of a committee of five, with full powers to call witnesses to inquire into the activities of lobbyists and their interest in bills pending before the house.

The resolution was drawn up upon request of Speaker Fred L. Warner, who said the house was becoming congested with lobbyists who interfered with the work of the present session.

Rep. Lennon's bill which would prohibit the use of firearms to aliens was presented last week. It is intended as a game and bird protection measure and provides that an unnaturalized foreign born resident of the state cannot lawfully have in his possession or home a shotgun, rifle or pistol.

More Revenue for U. of M.

Further financial aid for the University is provided in a bill introduced in the house by Rep. Peter B. Lennon, Genesee county. The bill raises the mill tax from three-eighths to five-eighths of a mill, which will mean added revenue to the university of \$1,130,000 annually.

Defendants in criminal actions in appealing their cases to the supreme court must now file a printed copy of the case and Senator Condon, Detroit, has introduced a bill which provides that a certified copy of the record as prepared by the court stenographer may supplant the more expensive record.

Would Ban Cost-Plus.

Cost-plus contracts would be outlawed so far as the state, counties and municipalities are concerned by a bill introduced by Senator Bayard G. Davis, Paw Paw. It provides that all such contracts entered into hereafter for construction of public work shall be null and void.

These contracts are costing the public millions of dollars," said Senator Davis. "They cost my county \$60,000 last year. It is to the interest of persons taking such contracts to make public works as expensive as possible."

Circuit and Justice court witnesses would receive a per diem increase in fees if the bill introduced by Rep. Peter Jensen, Escanaba, passes. It would increase the amount from 7c to \$2 per day in justice court and \$2 and \$3 per day in circuit court.

Senator W. A. Lemire, Escanaba, believes that probate judges in counties of over 30,000 should be licensed attorneys and has introduced a bill to that effect in the senate. It exempts probate judges now in office.

"Road Hog" Bill Presented.

Rep. Francis B. DeWitt's bill, commonly referred to as the "Road Hog" bill, has the distinction of being the first to be favorably reported in the house. It provides a penalty for drivers of trucks who refuse or neglect to turn aside sufficiently to leave passenger cars pass on public highways.

Residence of at least six months in the state would be required before any person could obtain employment at public work, according to a bill introduced by Rep. C. H. Culver, Detroit.

The joint committee of the senate

and house, named to investigate the activities of the Michigan Community council, held its first meeting last week. Senator Herbert Baker has been named as chairman of this committee.

Adjourn for Conventions.

The legislature adjourned on Friday until Tuesday to permit members to attend the county conventions held on Monday throughout the state for the purpose of naming delegates to attend the Republican state convention to be held in Detroit on February 17.

Taxes on terminal docks would be turned over to the municipalities instead of the primary school fund according to a bill introduced by Rep. Jensen, Escanaba. These properties are now classed with transportation properties, all taxes on which go to the school fund.

From all parts of the state, the state's law-makers are being urged to vote only the expenses absolutely necessary in the conduct of the state's affairs. The board of supervisors of Gratiot county adopted and forwarded to the legislature a resolution which represents the general demand.

Tax-Paying Ability Lowered.

The resolution states that, "the prices of farm products have gone down to less than one-half, on an average, of what they were two years ago; a great many factories are closed or running on short time, or with reduced force, and will not again be operated except at greatly reduced wages—all of which greatly lowers the tax-paying ability of the state. We earnestly urge the Legislature to keep the state taxes down at least to the level of two years ago, as we believe that large and steadily increasing taxes give encouragement to those who preach anarchy and disregard for all organized forms of government."

That a difficult task lays before the legislature can easily be understood after a comparison of the budget appropriations for the past two sessions with the proposed expenditures for 1921. In 1919 the appropriations totaled \$34,809,224.08, an increase of \$16,091,844.28 over the 1917 total, while this year the various state departments, boards, institutions and commissions are asking for appropriations totaling \$58,304,103.11.

Real Estate Taxed Heavily.

Because of the favorable business conditions, the large increases of the past two years met with little protest but with the readjustment now taking place, a crying demand for rigid economy has arisen. Rep. Byrum, Ingham county, believes that the income of the average Michigan farmer will be only 60 or 70 per cent of the total of the past four years, while others predict that the general run of producers will have only about half of the average income for the past few years.

Governor Groesbeck in his inaugural message said that with the need of additional revenue to carry on the legitimate requirements of the state, it would be necessary to provide other methods of raising the money. Practically all of the state's revenue is now being raised by taxation on real estate. Information is now being collected on the different methods of taxation in other states.

Wants Work on Home Stopped.

Much time has elapsed since the Legislature appropriated \$615,000 for the erection of the Michigan State Training School, at Okemos, a reformatory for women over 18 years of age who have been convicted of felonies. Only a heating plant and a bridge have been built, so Rep. J. E. Watson, Branch county, has introduced a bill to sell the 121 acres acquired and to terminate all contracts on the best terms possible. Mr. Watson declares that the state can better afford to abandon the project and suffer a \$100,000 loss now than complete the school at a cost of a million and a quarter, for the accommodation of 60 of 70 women prisoners.

It is generally agreed that some provision must be made for the state's women prisoners and consideration will be given to the suggestion to attach the women's training school to either the industrial school for girls at Adrian or the state reformatory at Ionia. This would reduce the cost of operation to a minimum.

Mother's Aid Bill Ready.

Senator G. M. Condon, Detroit, chairman of the judiciary committee, is desirous of giving all interested women of the state a hearing on the McArthur amendment to the present mother's compensation bill, before submitting it to the senate. It calls for payment of not more than \$8, nor less than \$4 a week to a mother with one child, with corresponding increases for additional children, and no objection has yet been raised to the measure although a demand of \$12 a week had been submitted to the Governor by Detroit club women.

A bill providing a tax for so-called "closed" hospitals has been submitted by Senator O. G. Johnson, Fostoria, who is a physician and served in the Medical Corps during the late war. A closed hospital is defined in the bill as an institution for the care or relief of indigent or sick, where only physicians or surgeons on the institution's staff may treat the patients.

Congresswoman Defies Minister.

Muskegon—Miss Alice Robertson, congresswoman-elect, attended a dance given by the American Legion, the first she had attended since 1879, she said. Miss Robertson is the daughter of a pioneer missionary and herself known as a church worker, but she went to the dance "to show a local minister where my heart is," she told legion members. A local minister recently assailed the legion for passing a resolution condemning the Sunday "blue laws."

**Working of Pearl.**

There are two kinds of shells used in the manufacture of small articles, the porcelaneous and the nacreous. The former are extremely hard and can be worked only with the apparatus used by the lapidary. The latter are more generally used and may be sawed, filed and turned with some facility. The pieces should be roughed out on a common grindstone. After turning they should be smoothed with pumice stone and water, and polished with rotten stone with sulphuric acid slightly diluted.

**Starting Slips.**

More house plants are grown from slips than from seeds. To do this take a branch half ripe and cut a slit three inches long. Take off all the leaves except the upper two and root it well in wet sand several inches thick, putting one and one-half inches of the slip under the sand. Keep this thoroughly moist. When the roots begin to grow put your plant, with its sand, into a pot provided with other soil. Some slips, such as oleander and ivy, will root in water.

**High Blood Pressure Curable.**

High blood pressure can be overcome in most cases by exercise, says the Canadian Life. This cause of the many rejections in life insurance is not usually a permanent disorder. It can be cured by exercising, gently at first, and increasing up to a reasonable amount. Clients who have been rejected on this account should be advised to take up some moderate form of exercise, and in the course of a few months they may be acceptable.

**HE WILL TELL ANYBODY**

"I had a severe cold," writes Forest Thomas, R. R. 3, Box 29, O'Fallon, Mo., "I'll tell anybody Foley's Honey and Tar can't be beat for colds and coughs and ought to be kept in the house all the time. It pays to do so." Be sure to get the genuine Foley's. Contains no opiates.—Hite's Drug Store.

**WILSON WILL NOT SETTLE RAIL ROW**

TELLS UNION HEADS DIFFERENCES MAY BE ADJUSTED BEFORE R. R. LABOR BOARD.

**NOT A MATTER FOR CONGRESS**

President Believes That Wage Question Will Be Adjusted to Satisfaction of All Concerned.

Washington.—President Wilson refused the request of the railroad labor union representatives that he investigate "railroad executives' claims before the railroad labor board that the carriers must adjust wages or face bankruptcy. He also declined to submit the matter to congress.

The president set forth his position on the appeals made to him in a telegram addressed jointly to two of the railway labor unions and to the association of railway executives, who also had sent a communication to the White House.

Confidence was expressed by the president that all questions dealing with railroads' labor and management might be left safely to the two bodies entrusted under the transportation act with such matters—the railroad labor board and the interstate-commerce commission. He accordingly informed the labor and carrier representatives that he was submitting copies of telegrams received from them to these two bodies as "the only action deemed necessary."

**IONIA WARDEN RESIGNS POST**

Otis Fuller, Reformatory Head for 27 Years, Quits Under Fire.

Ionia.—Warden Otis Fuller, head of Ionia Reformatory for the last 27 years, forwarded his resignation to Governor Groesbeck Monday. It was believed at the time that his action would influence the members of the board of control to follow suit, in which case a complete reorganization of institution's management would result.

The resignation of Warden Fuller, one of the best known prison officials in the state, followed sensational charges of mismanagement and unsanitary conditions, and the adoption by the legislature of a resolution calling for a complete investigation of the institution by the Reformatory committee of the house.

**ENGINE JUMPS TRACK; 2 HURT**

Fireman and Engineer Seriously Injured But Passengers Unhurt.

Toledo.—G. C. Finley, engineer of Pennsylvania passenger train No. 411, was scalded so badly that he is not expected to recover and his fireman, W. E. Ritter, was injured severely when their locomotive jumped the track at Bloomville, 50 miles east of here, Sunday afternoon.

The locomotive, tender and baggage car turned over into the ditch but the two coaches, with passengers, many of them from Detroit, remained on the tracks. The passengers were unhurt aside from a shaking up.

**OVERRIDE VETO ON ARMY LIMIT**

House Again Votes to Stop Enlistments At 175,000 Men.

Washington.—The joint resolution directing the stopping of enlistments until the regular army is reduced to 175,000 men was passed by the house over President Wilson's veto.

The veto was overridden by a vote of 271 to 16, one member voting present.

The president's veto message was not read to the house until six hours after its formal delivery, but, once read, action was swift.

**ALLY LOAN LEFT FOR HARDING**

Houston Says New Administration Left Free to Settle Claim.

Washington.—The Wilson administration will follow a policy of hands off with regard to America's \$10,000,000 foreign loan for the remainder of its term. It is quite content to leave the task of collecting the principal and interest to the incoming Republican administration.

Information to this effect was conveyed to the senate in a letter from Secretary of the Treasury Houston to Senator Lodge, of Massachusetts.

**Judge Landis Flays Baker.**

Chicago.—Federal Judge Landis made a spirited reply to Secretary Baker because of his statement to the house military affairs committee that the war department opposed building separate institutions to care for soldiers afflicted with nervous disease. Representative King, of Illinois, has introduced a bill to appropriate \$4,000,000 for such hospitals. State, county and municipal hospitals are held to be inadequate to care for these veterans.

**MISS ADELIA M. STEWART**

Miss Adelia M. Stewart, who has won the distinction of being the first woman to be appointed a national bank examiner. Miss Stewart, who has been assistant chief of the examining division of the office of the comptroller of the currency, is a graduate of the Washington College of Law and a member of the District of Columbia bar.

**These Nettles Deal Death.**

Any species of nettles is unpleasant enough to handle roughly, but some of the foreign ones are most formidable plants. Several of the East Indian forms are truly dangerous, for, after the first itching sensation has passed away it is often followed by that of hot irons being rubbed on the flesh, and the pain increases to such an extent that after hours—and sometimes days—the patient is seized with symptoms like those following influenza and lockjaw, while sometimes death results.

**Illumination of Manuscripts.**

The art of painting manuscripts with miniatures and ornaments is an art of the most remote antiquity. The Egyptian papyri containing portions of the Ritual or "Book of the Dead," are ornamented with drawings and colored pictures. The Persians, Hindus and Chinese have illuminated manuscripts with great beauty, none of which compete with those of the western nations in antiquity.

**Preparedness.**

One of our eminent and doubtless reliable statisticians announces that there is only one chance in 29,989 that one's house will ever burn down and yet we suppose lots of girls who would be much more comfortable in out-of-the-house nightgowns are wearing their crepe de chine ones regularly, on the possibility that it might.—Ohio State Journal.

**True Greatness.**

A man's true greatness lies in the consciousness of an honest purpose of life, founded on a just estimate of himself and everything else, and a steady obedience to the rule which he knows to be right.—George Long.

**Bears and Telephone Poles.**

Every telephone and telegraph pole in the remote districts of Norway has to be constantly watched on account of the bears, which have a mania for climbing the poles and sitting on the cross bars, swaying backward and forward until the pole falls.

**TAXI**

**AN ADVENTURE ROMANCE**

by **GEORGE AGNEW CHAMBERLAIN**

COPYRIGHT THE BOBBS-MERRILL COMPANY

**ROMANTIC, clever, ingenious, sprightly and dashing—** a classic of gasoline and speed in which much blithe, some humor is blended with a charming love story.

Mostly about a young man who had too much money and too much time in which to spend it, but otherwise not enough employment. To remedy the deficiency, get a new angle on life and learn some things which he did not know about his beloved New York, he changed places with a taxi driver and learned plenty. Also the experience remodeled his existence, made him a worth-while citizen and brought aid to a number of people, among whom were several young women, who but for the timely intervention of the gasoline Sir Galahad, would have succumbed to the city's perils.

Then there was the case of the lovely girl born with a silver spoon in her mouth who lost it, became a chorus girl, recovered the spoon and—but you must read it—a new serial offering for these columns.

**YOUR LOSS IF YOU MISS IT!**

**With Clean Hands**

"Give us cheaper food," the consumers cry. Farmers have responded, in the face of discouraging difficulties. Yet the consumers still cry out against the high cost of foodstuffs, and against the farmers.

The National Grange demands that the complaint be lodged against those who are truly to blame—against food manipulators and wasteful distributors. *And the distributor is the city man's neighbor; food distribution is the city man's problem.* Not until the consumers clear themselves of responsibility for high prices can they come with clean hands to criticize or even help the producers.

The hands of the Grange are clean. All its acts have been for the benefit of producer and consumer alike. Because it has helped the farmer to do his share in producing, it can fittingly say to the city consumer: "Yours and yours only is the task of remedying food distribution evils."

On the score of its clean record for service the Grange merits your support. And it urges, too, your support for the work of THE COUNTRY GENTLEMAN, which has stood with the farmer in his cleanly-fought fight for a decent living—has thrown light on what happens between the producer and the consumer. It will keep you informed of the newest methods in the management of your farm business and provide wholesome entertainment for your whole family. Experiment with Air.

A man wished to measure the force that drives the sap upward in trees and shrubs. He cut a vine and tied a bladder over its end. In two hours the bladder was greatly distended, and inside of three hours it burst with a pop, so great was the force that drives sap upward.

Preocious Youth.

The teacher asked: "Why do leaves turn red in autumn?" A small boy said: "Because they are blushing to think how green they were in summer?"

To a natural talent he has been fortunate in adding a wealth of experiences gained in the U. It was followed by "Through Stained Glass," "John Bogardus," "Not All the King's Horses" and "White Man." He is best when indulging his gifts in a blend of romance and humor, excellently exemplified in the recently published novelette "Taxi." GOITRE CAUSE OF HORRIBLE DREAMS

Michigan Woman Quickly Relieved by External Home Remedy.

Note: It would be illegal to publish these statements if they were not true.

Mrs. John Gates, Howard City, Mich., says in her own home paper, the Howard City Record: "My goitre of 20 years' standing has been reduced one inch by Sorbol Quadruple in four weeks. It relieved the choking the second day. Dizziness, nervousness, and headaches have disappeared and I can now sleep well. I do not have such horrible dreams like I did. It is with pleasure that I tell goitre sufferers about my experience. I feel it my duty to answer any letter."

Sorbol Quadruple comes in small bottles containing enough for most cases. It will not stain or irritate. Does not interfere with regular work. Leaves parts in healthful, normal condition. Requires 10 minutes daily.

**DON'T RISK NEGLECT**

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. Ask your neighbor! An East Jordan case.

Albert Turk says: "I have used Doan's Kidney Pills with good results. Mornings my back felt lame and at times I found it hard to get up. Those jerky pains pulled me back more than once. I was hating lumber at that time and my back got as weak and sore that I couldn't stoop over. It seemed as though I couldn't get rested and always felt tired and worn out. When dizzy spells came over me I couldn't see anything. My kidneys were often weak and irregular and I had to get up during the night. The secretions were often badly colored and painful in passage. Through a friend's advice I got a few boxes of Doan's Kidney Pills and they cured me in great shape."

**Tides Move Big Building**

The historic Tower of London moves four times daily as the tides of the Thames river ebb and flow. The movement is most pronounced in the part nearest the river. The movement is due to the fact that many tons of water penetrate under the foundations with the rising tide, which movement has the effect of moving upward the whole mass of the tower.

While this conversation was in progress, the woman's husband procured a gun and shot Babbine, who died instantly.

**No "National" in Title**  
There is now only one national bank in the United States which does not have "national" as a part of its name. It is the Bank of North America of Philadelphia. A special act of congress is required to permit a national bank to operate as such without indicating the fact that it is a national bank in its name.

**Real Meaning of Old Saying**  
The Englishman's misuse of the aspirate has twisted an old saying in a peculiar fashion. Our forefathers were wont to declare that a person was "as mad as an utter." This has now become "hatter" and most people imagine it has something to do with a manufacturer of hats. As a matter of fact the original "utter" meant "adder."

**Windfall**  
A windfall is an unexpected legacy or money dropped as it were from the sky. The saying originated when the English nobility were forbidden by the tenure of their estates to fell the timber, all the trees being reserved for the use of the royal navy. Such trees as were blown down, however, were excepted, hence a good wind often proved a veritable Godsend.

**Dangerous Maladies.**  
There are more deaths from measles and whooping cough than from scarlet fever. Greater efforts in school hygiene would seem to be the only way in which this problem can be coped with successfully, combined with the education of parents in the necessity for the observation of quarantine and isolation procedures even for these simple diseases.  
A good way to prevent the spread of colds in the head is to cork up your sneeze until the town duds can be prevailed upon to erect a sneezery.

One of the best forms of life insurance is the use of a tooth brush morning, noon, and night.
