EAST JORDAN, MICHIGAN, FRIDAY, JULY 8, 1921.

No. 27

## Ball Team Is Reorganized

### Prospects That It Will Enter North Michigan League.

The East Jordan Independent Base Ball Team is being reorganized and, if results being sought can be accomplished, East Jordan will have one of the strongest teams it has had in years.

One of the towns now represented in the Northern Michigan Amateurs League is, we understand, about to drop out of the running, and if our citizens give the local base ball players sufficient encouragement there is no reason why East Jordan should not be represented in the league.

As soon as the local players are organized a public meeting for those interested in baseball should be called and an effort made to get into the league schedule.

Next Sunday afternoon, July 10th, East Jordan plays the Gaylord team at the fair grounds near here, the game being called at 2:30 o'clock.

## HENDERSON STOCK CO.

### COMING

Starting Monday, July 11, the old reliable Henderson Stock Co. will open their annual East Jordan engagement at the Temple Theatre. Mr. Henderson has been bringing his company to East Jordan a good many years, he comes this year all new and up to date with all new plays, all new faces, all new scenery. Mr. Henderson has selected for his opening play the sensational comedy drama in 4 acts "The Master Criminal" a play that never fails to please. Ask your merchants for tickets.

## IMPROPER DIETS

### HANDICAP CHILD

Who rules "the great American home"? "The child, in too many instances," insists Dr. R. M. Olin, commissioner of health, in speaking of the findings of the traveling clinic of the state department of health, which in recent months, has held clinics in 25 counties in both the Lower and Upper Peninsulas and examined 5,211 children.

Of the 5,211 children examined 3,442, or 65 per cent, were found to be underweight on an average of seven pounds and six ounces—enough Dr. Olin says, "to seriously handicap the children, since this amount represents about 10 per cent of each child's weight".

"Undernourishment is not due to lack of food in the homes, in the majority of cases," states the commissioner, "but rather to the fanciful appetites of the children acquired through lack of discipline exercised over their diets, and to misunderstanding on the parents' part as to what constitutes a proper diet. On a conservative estimate 25 per cent of all Michigan children are seriously undernourished. It's a case of the child dictating to his parents what he shall eat and when he shall eat it.

"Thousands of families in rural districts where milk is cheap and easily obtained use but very little. The mere fact that the child may consider milk 'a baby food' is enough to keep it off the table".

To bring the children's weight up to normal, in order that they may develop properly and gain a normal resistance to sickness and disease, Dr. Olin urges parents to adopt a diet of milk, cereals, fresh vegetables and fruits for their children, and compel them to eat at regular hours.

## MRS. JOHN WILLIAMS LAID TO REST LAST FRIDAY

The funeral of Mrs. John Williams, who passed away Wednesday, June 29th was held from her late home on the West Side Friday afternoon. Rev. Marshall conducted the services and the remains were laid to rest in Sunset Hill cemetery.

Sarah Ida Baker was born April 6th 1867, at Killeby, Kene County, Ont., her parents being William and Maria Ann Baker. When but two years of age she came with her parents to this region when she continued to make her home until death. On March 16th 1888, she was united in marriage to Henry B. Stohman. Two daughters were born to this union—Mrs. May Heinzelman of Midland and Miss Blanche Stohman of this city. Mr. Stohman passed away Nov. 9th, 1894, and on Oct. 21st, 1896 she was united in marriage to John Williams.

Deceased is survived by the husband and her two daughters previously mentioned, also by one sister, Mrs. E. S. Brintnall, and one brother, Wellington Baker, both residing near East Jordan as well as a number of more distant relatives.

Mrs. Williams' death came as a shock to her many friends. Leaving a fortnight previous to her death for a visit with her daughter, Mrs. Heinzelman at Midland. She was in good health up to the morning of her death when she suffered a stroke of apoplexy passing away in a few hours. The remains were brought to her late home here Thursday.

## Card of Thanks

We wish to express our sincere thanks for the many kind acts extended us during our recent bereavement, also for the beautiful flowers. The Williams Family.

## NAMED AS CHIEF JUSTICE OF U. S. SUPREME COURT

WILLIAM HOWARD TAFT.

Washington—President Harding's appointment of former President William Howard Taft as chief justice of the U. S. supreme court was confirmed last week by the senate. Mr. Taft succeeds the late Chief Justice Edward D. White, who he had appointed in 1910.

## LABOR DEPARTMENT FUNCTIONS

Governor Appoints James A. Kennedy Chairman of Commission.

Lansing—Governor Groesbeck has announced the appointment of James A. Kennedy, Sault Ste. Marie; Thomas B. Gloster, of Detroit, and Carl Young, of Muskegon, as commissioners of the state department of labor and industry. The department became operative July 1. Kennedy and Gloster are members of the state industrial accident board, which will be absorbed by the labor and industry department. Young was formerly president of the Michigan Federation of Labor. Kennedy will be chairman of the commission.

## Advice From James J. Hill.

If a young fellow doggedly bucks the world and circumstances without sense or reason all the time, he is liable to get nothing more than a sore head. He must know how to take advantage of opportunities, to use his brains; in short a young man who has no brains ought at least to have enough animal sense to find it out and learn to depend upon and get what benefit he can from people that have got brains.—James J. Hill.

## G. and S. S. vs. Concrete

### Uncle George's Views of Good Roads in County.

Every mile of gravel road built in Charlevoix immediately becomes a mortgage on the county, which grows larger and larger each year, because it will have to be repaired all of the time and rebuilt every two or three years. Now, when the difference in the cost between a gravel road and a good concrete road is so small why not build concrete? Note the concrete on Dixon avenue which has already been down 6 years, and the same as Main street, East Jordan.

Accept my Christmas greetings for the year 1917.

Yours truly,  
George H. VanPelt,  
President Charlevoix County Good Roads Association.

To the Board of Supervisors and the Taxpayers of Charlevoix County, Michigan:

Inasmuch as heretofore in 1916 and 1917 we all worked together so harmoniously, I ask you to read carefully my 1917 Christmas card regarding gravel roads. At that time I was your President of the County Goods Roads Association. When you have digested it take a ride over the entire system of the G. and S. S. (Gravel and Soft Stuff) road and then take a ride over the concrete roads which are now eleven or twelve years old and by actual measurement show only a scant 1/4 of an inch wear in all this time. Now note the cost of the upkeep, only fourteen dollars for eleven years, and this for filling the cracks with tar. One dollar and twenty-seven cents (\$1.27) per mile per year. Then find out (if you can) how much or how many hundreds of thousands of dollars we taxpayers have paid out for the G. and S. S. (Gravel and Soft Stuff) roads since the beginning of our highway system. I estimate it at between five and six hundred thousand dollars. The concrete roads in 1917 cost us eleven thousand dollars built by John Monroe the gravel between five and six thousand. We bonded in 1917 so we could have built the 18 miles on the Dixie Highway during the year 1918 for about the same price, but to be sure and make a safe estimate, the engineer, Mr. Sloan, and myself allowed fourteen thousand.

I blame the city of Charlevoix for not having had this built but they were asleep and no one so far as I can learn lifted a finger to pat it through. In 1919 a bid was made you to build the six miles from Greensky hill to the Emmet county line for \$26,500.00 per mile. Had this contract been let the road would have been all finished during the summer of the same year. But the bid was turned down as I understand it by the Board of Supervisors and given to the same parties who built our G. and S. S. because they could build it for less than \$19,000 per mile.

You know the rest, and that instead of the Potosky road being out of commission only one year, we are now in the third year and the road is not finished. As I have been told on the street there is no money left with which to build a concrete road from Charlevoix to the Antrim county line, but they talk of building a G. and S. S. I have never been able to learn what the 3 or 4 miles of concrete road cost. Nobody seems to know. Is this good business for our beautiful county to continue building roads this way? If I am wrong in any of these statements I wish to be corrected, because it is the earnest desire on my part to do no one an injustice and it is for the good of the county that I bring this before you.

Yours truly,  
Uncle George VanPelt,  
Charlevoix, Michigan, June 30, 1921.

### Rome.

The traditional date for the founding of Rome is 753 B. C. Rome has been described as a city-state. It was at one-time recognized as the capital of the ancient world. Since 1871 it has been the capital of modern Italy. The city is distinguished for its vast ruins, its many historical gates and its monuments, both ancient and modern. Rome is inclosed within a circle of forts 90 miles in extent.

## TRADING PLAN TO PLACE GOOD SIRES

Pure bred bulls of high class will be owned in greater numbers than ever before on Michigan farms if the four-fold plan for exchange, proposed for the Dairy Demonstration Tour to be made over many counties of the state in August, is carried out.

In every county visited one pure bred sire will be traded for a scrub, animal for animal. Details of this portion of the plan are not yet fully worked out, but it is preferred to have a group of men bring in the scrub and own the pure bred co-operatively.

According to the second proposed method all scrub and grade bulls of breeding age brought to the "better sire train" will be received at a one cent premium per pound over prevailing Detroit market prices. In return the farmer will be provided with a registered Holstein bull from six to twelve months old, the selling price of the scrub to apply on the pure bred and the farmer to pay the difference in cash. A special low price will be placed on these registered animals.

Another suggestion is that the local Chamber of Commerce or similar interested group buy the pure bred sire, then dispose of it to some suitable farmer by means of tickets numbered and given out by merchants. The period for which the bull is to be retained by the lucky farmer may be limited to two years.

The fourth plan proposed and the one most favored by dairy leaders at M. A. C. and elsewhere in the state is the formation of bull associations. These may be organized through the aid of county agents so that a number of individuals will benefit with no great expense to any of them.

Itinerary for the tour, which is to be conducted jointly by M. A. C., New York Central & Pennsylvania railroads of the state, and the Michigan Holstein-Friesian Association, is now being arranged by J. A. Waldron, dairy extension specialist at the college.

## BONUS BOND CHANGE DELAYED

### Fight to Issue Bonds in Serial Form Again Taken Up.

Lansing—After the senate, meeting in the second extra session, had rushed through within an hour the governor's bill removing the obstacles to the sale of the bonds, the house by a vote of 39 to 35, adopted Representative Franklin Moore's motion to adjourn until the next day, with the prospect that the fight to have the bonds issued in serial form would be taken up at that time. This would mean several days' delay before all the necessary changes could be made.

## TARIFF SCHEDULE SUBMITTED

### Measure Reported Out to Senate by Representative Fordney.

Washington—Representative Joseph W. Fordney, chairman of the ways and means committee of the senate, has introduced his bill providing for new tariff schedules to replace the Underwood law. Sharply conflicting views as to the tax burden to be imposed on the American people were expressed by Republican and Democratic leaders, and this would indicate that it will be some time before the measure is adopted.

## STATE TO GUARD LIQUOR SUPPLY

### Administrative Board Orders Building for Storing Purposes.

Lansing—The long disputed question of what is to be done with the state's excess liquor supply has been settled by the state administrative board. A reinforced concrete stronghold will be constructed at the state police post in East Lansing. Liquor will be stored there. Not more than \$5,000 will be spent on the building, which will be guarded.

## Jews in Civil War.

The records show that more than 8,000 Jews served in the American Civil war. The list included nine Jewish generals and 18 who attained the rank of colonel. Over 4,000 saw active service in the Spanish-American war.

## Another Ancient Civilization.

Ruins recently discovered in the vicinity of El Perote, State of Vera Cruz, reveal the existence of an ancient civilization hitherto unknown. Idols discovered are neither of stone or clay, but of a curious bright substance, heavy and looking like tin.

### WITH THE COUNTY AGENT

The first section of the Boyne City Tuberculosis Eradication campaign closed June 11th. One thousand five hundred and ninety-five head of cattle were tested, tagged and charts were made out for each of these animals and the proper records made out for Lansing and Washington offices. The percentage of reactors found was less than one and one-half per cent, which comparing with the records of other sections, showed that our cattle are remarkably free from the disease. Dr. High is now working in Antrim county but we expect him back for more work during the month of August. Those who have not as yet signed up should see that their application is sent to the County Agent's office in the very near future. We have a number of herds all ready signed up, which was impossible to get to during the first campaign.

Wool receiving days have been scheduled as follows: Boyne City, July 18th; Charlevoix, July 19th. The State Farm Bureau wool graders will be on hand on the above dates to weigh and grade all wool brought in. This will enable the grower to know what kind of wool he is growing and the comparative value of the same. It will also enable him to more intelligently select and breed sheep.

Charlevoix County is to have one stop of the Dairy Demonstration train, which has been scheduled through cooperation of the Michigan Agricultural College, Michigan Holstein Friesian Association and the Michigan Central and Pennsylvania Railroads. This train will be well equipped containing in all some five cars. We anticipate a large crowd when it pulls in sometime the latter part of the second week in August.

Through re-organization of the Emmet County Cow Testing Association, six Charlevoix County Dairy men have been taken into the Association and the name changed to the Emmet-Charlevoix County Testing Association. Two of these men will do semi-official work and we anticipate some very good records being made, which will be a decided credit to the county. Mr. Wilcox, the tester, has been in the county for the last ten days and informs us the work is proving quite a surprise to most of the dairy men. The record shows in dollars and cents what a cow is worth to his owner every month.

C. W. WING,  
County Agricultural Agent.

## Garden Notes

(By M. A. C. Horticultural Dept.)

Mildew on Rambler roses may be controlled by dusting the plants every few days with finely powdered sulphur.

Better cut out and destroy all old canes of raspberries and blackberries soon after the fruit is all harvested. This aids in controlling insects and diseases and gives one an opportunity to thin out the new shoots so they make a better growth and bear more fruit the next year.

When renewing the old strawberry bed the tops should be moved and burned as soon as possible after the crop is harvested. When the plants are grown in hills it is important after cutting the tops to draw a little fresh soil over and around the plants to induce the formation of new roots above the old ones. Matted row plants should be thinned by plowing or deep cultivation on each side of the rows leaving only a narrow row of plants. The remaining plants should then be thinned by hoeing to stand several inches apart in order to leave fresh soil for the new runner plants to develop.

When setting late cabbage and celery plants clip off about one-half of the tops to prevent wilting and loss of plants.

### To Remove Tar or Grease.

A very sure and safe way to remove tar or any such grease stains from colored gingham is to rub well into the spots fresh lard. Let it lie several hours, then wash in warm soapuds. All spots will come out easily.

## TENOR SOLOIST RECOMMENDS FOLEY'S

John F. West, 272 Morris Ave. Trenton, N. J., well-known tenor soloist, writes: "I had a severe cough and tickling in my throat. I tried Foley's Honey and Tar and was relieved at once. I can highly recommend Foley's Honey and Tar." Good for coughs, colds, croup, hay fever, asthma.—Hite's Drug Store.

**Squeaking Shoes.**  
The annoying "squeak" that some shoes have is caused by layers or pieces of leather rubbing together. Some shoemakers open the side and insert a bit of felt; or a peg or two, or a number of pegs driven into the sole from the outside stops the sound.

Mr. and Mrs. Clarence Johnston gave a dinner Sunday to about 20 relatives at their home.

Mr. and Mrs. Will Gaunt and daughter, Eloise, motored to Atwood Sunday to visit Joseph Gaunt and family. Joseph Gaunt is very poorly with eczema and is unable to work.

Quite a number of neighbors and relatives spent the 4th at the David Gaunt farm with a picnic dinner on the lawn. All had a delightful time and motored to Boyne City in the evening to see the fire works.

Geo. Jarman spent the 4th of July his 54th birthday, planting potatoes for J. P. Seiler. The thermometer registered past ninety till quitting time being the warmest day for the longest hours yet this season.

Miss Nellie Bennett, who is employed in Flint came up Saturday evening for a two week's visit with her parents Mr. and Mrs. Joel Bennett.

A. B. Nicloy is again without help as most young men seem to prefer idleness to a steady job on the farm.

F. H. Wangerman attended the board of Supervisors meeting at Charlevoix last week.

Mr. and Mrs. Phillips and family of Boyne City motored thru from Traverse City where they had spent the 4th with their daughter, Mrs. W. J. Herring and family Tuesday morning by way of East Jordan making the trip in 4 hours.

The weather man keeps promising rain but does not keep his promise.

Crops are beginning to show the effects of the dry hot weather. We have had only light showers since June 17 and unusually hot weather.

Mr. Hawkins of Boyne City cradled grain for L. E. Phillips Tuesday.

Miss Dorothy Jarman went to Petoskey Friday where she has a job until school starts. She hopes to attend high school in Boyne City next term.

Mr. and Mrs. Clark Hair of the Boyne Cityzen with their three children and nine grandchildren made a tour of Peninsula Sunday afternoon. Mr. Hair made a very pleasant call on the Peninsular correspondent.

Mr. and Mrs. A. Reich and two youngest children and Mrs. J. W. Hayden and Robert attended the funeral of Harold Cole in Boyne City Sat. p. m.

Travelers will be glad to hear the Advance bridge is completed and will

be ready for use when the cement hardens.

The strip of road between the Whiting house and Sid Hayden's place which the County Com. graveled this spring and never rolled is a great deal worse than it ever was. Cars are obliged to run the whole 1-2 mile before they can turn around and it is impossible to pass without getting into sand hub deep.

The Free Methodist Sunday school of Boyne City held a picnic at Hayden Point Monday the 4th and had an immense time.

There were never so many flies, swarms and swarms everywhere and on everything.

The grasshoppers are getting quite thick in places again.

There was a meat buyer from Charlevoix through this section, Tuesday.

Pat Foot, our mail carrier, had the misfortune to break his car while pleasure riding Sunday by getting into a ditch. It took all of Tuesday forenoon to get fixed up so we did not get our mail until 3 p. m.

Willfred Arnot was very ill with a sick headache July 4 and was taken to a doctor Tuesday. He is better.

Misses Byrel and Dorothy McDonald accompanied their aunt, Mrs. Sam Pepper to her home in Lansing Tuesday where they will spend the summer visiting. The trip was made in the Pepper car.

**THE RIGHT THING AT THE RIGHT TIME**  
By MARY MARSHALL DUFFEE

Powerful indeed is the empire of habit.—Publius Syrus.

**STATION ETIQUETTE**

TO SAY that the well-bred person is on time when he takes a train might be unfair. But it is a fact the well-bred person shows his consideration for others in his actions, and the person who comes into the station behind time, rushes by other people, runs into them with his traveling bag, summons a porter curtly and tries to push ahead of others at the ticket window, is acting in an inconsiderate manner. He is also making himself conspicuous, and the well-bred person does not attract undue attention to himself in public places.

It is nothing to be ashamed of if one has traveled, but little, and some excellent folk have perhaps never been in a railroad train more than once or twice in their lives. Still it is but natural that we should all want to appear to be at ease when we travel, and not to proclaim by our manners that we have never been about before. Your conduct in the railroad station should therefore be composed and unruffled. If you have time to idle away before train time it is quite all right to go to the newsstand and purchase a paper or magazine and read it; but there is no reason why you should have to invest in chewing gum, salted nuts and gum drops, weigh yourself, and have your fortune told by one of the penny-in-the-slot machines, pace back and forth in the station, delve in your traveling bag to see whether you remembered to bring your slippers, or ask the station attendants innumerable unnecessary questions about why the train is late. If you have been unable to get any lunch and really feel the need of nourishment, then you may be excused for eating a little milk chocolate while you wait, but remember that well-bred people do not eat in any public places save restaurants and other places, especially intended for that.

And the consensus of opinion seems to be that the very well-bred people do not kiss in the station. At any rate, they do it without attracting any undue attention, and save such signs of devotion till they have reached home. To be sure, when we travel in continental Europe we see much kissing and embracing in the railroad stations—fathers embracing their grown sons and brothers with tears in their eyes kissing brothers, though they may not have been separated for many weeks. But we Anglo-Saxons avoid such over-demonstrativeness and the American way as well as the British way is to reveal as little as possible of our own personal affairs to others in the railway station. We can excuse the woman who weeps audibly in the station when she sees her dear ones departing if she is old and very much overwrought, but the young woman should do her utmost to avoid such demonstration of her feelings in the station. It makes it very much harder for those who leave her, and sometimes is painfully embarrassing.

**Items Of Interest in World's News**

**Navy Radio for Press Dispatches.**

Washington.—Transmission of press dispatches by navy radio without hindrance or interruption until June 30, 1922, would be authorized by a resolution passed by the house and sent to the senate.

**Get \$10,000 From Bank Runner.**

Philadelphia.—Four masked men in an automobile held up Frederick Myers, a runner for the Mutual Trust company, and seized a bag containing \$10,000. The runner fled after the fleeing men who escaped with the money.

**Shoots Man Who Wronged Her.**

Chicago.—Guy Depeso, 48 years old, was shot and killed by Lucy Rosatti, a 15-year-old girl, who claimed that Depeso had wronged her. She waited for him in a doorway a block from his home and shot him twice as he passed.

**Waikes Into Auto; Fined \$7.40.**

Waukegan, Ill.—H. C. Reimer, a pedestrian, was arrested and fined \$7.40 because he started to cross the street and bumped into an automobile. He was arraigned in police court after his injured head was bandaged at a hospital.

**Assistant Postmaster Resigned.**

Washington.—Resignation of John C. Koons, special assistant to the postmaster general, has been announced. Koons was in the postal service for 15 years, and for the last five years has been first assistant postmaster general.

**Noted Film Director Called.**

Los Angeles, Cal.—George Loane Tucker, noted film director and whose creation, "The Miracle Man," was hailed as one of the most successful photoplays ever made, died here. He had been ill for many months, suffering from kidney trouble.

**"Standing Buffalo" Dies at 75.**

Regina, Sask.—The death of "Standing Buffalo," 75, chief of the Indian band located on the Stoupe reserve at Fort Qu'Appelle, was reported here. "Standing Buffalo" participated in the Custer massacre, after ward fleeing to Canada.

**Maxim Invents Noiseless Trolley.**

Cambridge, Mass.—Hiram Percy Maxim, speaking at a reunion of his classmates at Massachusetts Institute of Technology, said he had invented a "noiseless trolley car," which would combine the qualities of noiselessness, cleanliness, speed and safety.

**Arrest Kidnapper of Nurse.**

Carbondale, Pa.—Thomas McMynn, of this city, was arrested here charged with kidnaping and assaulting Mary Murphy, a 20 year old nurse, whom he is alleged to have held a prisoner in the woods, near here, for nearly 24 hours. McMynn is 20 years old and a rejected suitor of the young woman.

**Looks for Trade Opportunities.**

New York.—American capital will soon find an opportunity in a new industrial Italy and in the establishment of a permanent flow of ships between the ports of the two countries. Richard Washburn Child, newly appointed ambassador to Italy, gave this view at a luncheon of the Italy-America society.

**Mysterious Disappearance of Ship.**

Washington.—Three good-sized, American freight steamers which recently disappeared in a puzzling fashion while off the mid-Atlantic coast now are believed to have been taken over by their crews and run into soviet Russian ports, according to information reaching Secretary of Commerce Hoover.

**Dawes Named Budget Director.**

Washington.—Charles G. Dawes, the Chicago banker, has been selected by President Harding for director of the budget under the budget law recently enacted by congress. Mr. Dawes will take office July 1, the date fixed in the law for inauguration of the new fiscal system. Senate action on his appointment is unnecessary.

**Protest Export Tax On Oil.**

Washington.—Strong protests were registered with Secretary of State Hughes by a committee representing the American Oil Producers' association against the decree recently issued by President Obregon increasing by 25 per cent the export tax on Mexican oil. The decree was attacked on several grounds as being "confiscatory."

**Robbers Leave Their Dollar.**

Elgin, Ill.—Three robbers, who raided the Farmers bank of Schaumburg, near here, not only obtained no loot, but left one dollar of their own money. The robbers were felled by H. W. Freise, president, who, although shot by one of the robbers, set off the burglar alarm. The robbers, who had given Freise a dollar to change, and then commanded him to hold up his hands when he turned his back, ran from the bank when the alarm sounded.

**"Son of a Gun."**

The phrase, "son of a gun," is sometimes explained as "Son of the Wind-pot or Flagon." There is a word "goan" which is a dialectal variety of "gawn"—gallon. Another view is that the expression was originally applied to boys born on board ship. One admiral said that he had been cradled under the breast of a gun-carriage. It occurs in this sense in Smyth's "Sailor's Word-Book" (1867). It is usually used in a deprecatory sense.

**Japanese Marriage Laws.**

The legal restrictions on the age at which a person can marry are different between men and women, according to the civil code of Japan. Men must be above 17 and women 15 years. There can be no marriage without the voluntary agreement of the man and woman when a marriage is to be contracted. If they have parents living they must obtain their consent, unless the man has completed his thirtieth year and the woman her twenty-fifth.

**Remarkable Physical Strength.**

While the average woman possesses only about two-thirds of the physical strength of the average man, there are plenty of exceptions, and there have been women who could rival almost every feat of the strongest man. One of the most wonderful of them all was Miss Kate Roberts, the daughter of a Welch preacher. Though there was nothing in the least massive about this young woman, she could lift a full-grown man above her head with one arm.

**Campaign Emblems.**

As far as known, the first campaign emblem was a finger ring of copper. It was worn by the adherents of John Quincy Adams in 1824, when he ran for President, and was inscribed "John Quincy Adams, 1825." Tintypes and medallions were among the insignia of the 1860 campaign when Lincoln was elected.

**Ax Displaced by Electric Planer.**

The ax is probably among the oldest of metal implements, but its work is now being done by an electric planer which performs the task much easier and with less expenditure of time. It is designed for heavy work, such as has been done by the ax about shipyards and similar establishments. It is driven by compressed air and works on the turbine principle with a two-bladed cutter.

**Put it Up to the Teacher.**

It was Jimmy's first day in school and he appeared to be very much interested and was very attentive to everything the teacher said. In one class the teacher asked Jimmy how many fingers he had. The little fellow stuck out his fingers and said to the teacher: "There they are; count 'em."

**First United States Coins.**

The first United States coins were issued in 1793. The Constitution conferred upon congress the power to coin money and regulate its value. A mint was established in Philadelphia in 1792, and the following year the first coins were struck.

**Saltwater Rain.**

Saltwater rain has frequently been reported during the prevalence of tropical cyclones. This is explained by the fact that the spray from the great waves which the storm generates is often carried many miles inland by the wind.

**City Was Impregnable.**

The ancient city of Nineveh was eight miles wide and fourteen miles long was surrounded by a wall 100 feet in height and so wide three chariots could be driven abreast on its top.

**Progress of Society.**

There are no fixed and permanent social conditions, because society is slowly moving toward a noble ordering of its duties and its rights.—Hamilton Wright Mable.

**Woodchuck Living Room.**

The burrow of a woodchuck at first descends obliquely into the earth; it then passes nearly horizontally for several feet, rises moderately for the last half of its length, to terminate in quite a spacious and round chamber which constitutes the "living-room" of the entire family, says the American Forestry Magazine. Such a burrow may be at least thirty feet in length—so long that one never dreams of digging a hole.

**Woman Started First Daily Paper.**

The first daily paper in the world is said to have been established by a woman, Miss Elizabeth Mallet, in London, March, 1702. She polished and edited the Daily Courant, which she founded "for the purpose of doing greater justice to women in general through the elimination of imperfections which the ordinary papers contain."

**Daisies Mistaken for Sheep.**

In New Zealand there is to be found a member of the daisy family which is so large that it is often mistaken for a sheep in the distance. It grows in exposed places and the branches of the plant are covered with small leaves which greatly resemble the wool of sheep. The shape of the plant and the flowers add to the deception. It is sometimes called the vegetable sheep.

**Various Storm Warnings.**

Flowers, trees, and low-growing plants send out storm warnings. Certain plants and flowers close up tightly on the approach of rain. They give ample warning. The common dandelion does this, and also the leaves of the white clover. The silver leaf poplar gives fair warning of rain by tossing the silver under side of its leaves upward continuously.

**Sugar an Ancient Food.**

Sugar is an old food in the Orient. Herodotus tells that the Hindus "obtained honey from reeds or bamboo." There is a wealth of classic lore on bees and honey. In ancient days honey was extensively used in the practice of medicine and our Egyptians' ancestors so used it. Even as late as two centuries ago they claimed medical virtue for honey, and many interesting recipes are stored away in faded books on medicine.

## THE GUINEA HENS

IT WAS four days since the Guinea Hens had been placed in the barnyard and the animals were still puzzling over their queer looks.

"Who ever heard of hens with faces like those?" said old Brown Hen. "So white and those fiery red ears. I think they look frightful."

Just then Red Rooster came strutting across the yard as fast as his dignity would allow. "I have some news for you," he said, pausing for breath.

"There is a circus down the road," he said, "and I heard the farmer's boy

no hen in this barnyard will have anything to do with them."

That night when the hens went to bed it was very dark, and those that had little ones cuddled them close under their wings.

The new hens—they were Guinea Hens, which, of course, you have guessed before this—went to bed away up in the branches of the nearby trees as they always do, and if anything disturbs them they quickly cry with a loud squawk something that sounds like "Go back! Go back!"

Bob Dog, the collie, was asleep, and he did not hear a sound, but the Guinea did, and in the middle of the night came their loud cry of "Go back! Go back!"

"Don't you know any better than to make that silly noise in the middle of the night?" scolded Brown Hen. "You are rightly named clowns, but I am sorry you are hens as well."

Bob Dog awoke, too, and with a bound out of his house he came barking with all his might, and in a minute he had by the leg a man who had come creeping toward the henhouse to carry off the hens in a bag.

After the excitement was over Bob Dog told the hens what had happened and how the new hens had given the warning or he might never have caught the robber.

"If it wasn't for that awful cry they make," said old Yellow Hen, after a call on the Guinea, "they would be very nice companions, and they are very genteel, I am sure."

"But it was the cry that saved us last night," said Mrs. Brown Hen. "I shall never again judge any one from appearances."

## "What's in a Name?"

By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel.

## MAGGIE.

ALTHOUGH Scottish in itself, the name Maggie is originally derived from the Persian, being of the same root as the name Margaret. To the lucky bearer of this name, the pearl is the jewel assigned. The delightful notion that the oyster, rising to the surface of the ocean at night and opening its shell in adoration, received in its mouth a drop of dew congealed by the moonbeams, is responsible for this delicate fantasy of the pearl.

The name was brought to Scotland by Margaret Eithering, wife of Malcolm Ceanndae, where it became the national Scottish feminine name. Because a pearl of price is associated with the pearly-gates-of-the-celestial-regions, the name of Maggie—or, more usually, its original, Margaret, has been given to innumerable saints.

By wearing her natal stone, the pearl, the bearer of the name Margaret will fulfill the promise of the gods, which gives her purity, charm and affability. Her lucky day is set as Monday, and seven is her fortunate number. For her to dream of pearls signifies faithful friends.

## How It Started

FIREWORKS.

WE ARE indebted to the Chinese for the Fourth of July firecracker and other more or less deadly weapons of celebration. They used these articles, shortly after their discovery of gunpowder, to scare away any evil spirits that might be in the vicinity. Fireworks were manufactured in Italy as early as 1540, and were used in France to celebrate events of National import in 1606. The industry now centers in the United States.

## Something to Think About

By F. A. WALKER

## HUMAN NATURE

THERE is one boast that is pretty nearly universal. You probably never met a man or a woman who, if occasion gave opportunity, would not say with considerable show of pride, "Well, I know human nature."

They mean when they say it that they think they can solve the causes of human action, that they can accurately point out the whys and wherefores that influence our relations one with another, our acts and our attitudes.

Frequently these readers of human nature will ascribe a questionable motive for any kind of an act, good, bad or indifferent. They would have you think that the chief force at work in the world is evil, the commanding passion selfishness.

It isn't true. There is a good deal of good in the world. The great majority of people are animated and influenced by high motives and splendid desires.

The really bad man or woman is the exception.

Human nature as a whole is of a kind that really makes life worth living.

Ellihu Burritt, the learned blacksmith, wrote down this wisdom: "No human being can come into this world without increasing or diminishing the sum total of human happiness."

After all, the most of our lives and the most of our endeavors are to help in the general scheme of things.

The corner grocer may be cross and surly sometimes, but if you only knew it he sent a basket filled with things good to eat to the woman down the street whose husband is sick in the hospital. Human nature in his case is dominated by good.

And as it is with the grocer so it is with the butcher, the baker and the candle-stick maker, with the minister and the sinner, with everybody.

It is a splendid thing, a helpful thing, to seek the good side of people, to find out their better qualities and encourage them.

There is some bad in the best of us. There is a lot of good in the worst of us.

Human nature is very much like a garden. In it we plant seeds.

Some sprout and grow into splendid flowering plants that give everybody pleasure. Some come up useless weeds.

If we plant kindness and charity and love, the garden will be worth-while.

If we plant envy and greed and malice and hatred and jealousy, it will not prove a source of much joy to anybody.

Nobody can plant or tend the garden

but you. Nobody can take from you the credit for the flowers and you cannot shift to another the blame for the growths that are worthless.

Try to know the good side of human nature. Try to cultivate it and encourage it.

If a motive is in question give it the benefit of the doubt and believe it was good until it is proven to be bad.

It says in the book of Genesis that when the Creator considered his work He pronounced that "it was good."

Unless there is a greater power than the Creator it must have remained good.

Anyhow, it is sort of satisfying to believe that Good is more powerful than Evil and unless we have to change, let us keep on thinking so.

## WOOD BACKER ASKS FOR REFUND

Colonel Procter Claims \$745,433 Due from Campaign Cost.

Chicago.—William Cooper Procter, of Cincinnati, former chairman of the Leonard Wood national campaign committee, has filed a bill in superior court here, asking an accounting and money decree to compel eight other organizers of the committee to reimburse him \$745,433 as their share in the \$813,200 expenses in promoting General Wood for Republican candidate for president.

## HEALTH ENDANGERED AT RESORT

State Board of Health Seeks Injunction in West State Case.

Holland, Mich.—Injunction proceedings have been started by the state board of health against the Macatawa Resort association, alleging that the sewage disposal system at the noted resort is such that the lives of the thousands of resorters are imperiled every summer.

Swan Miller, president of the association, will fight the proceedings.

## Colonel's Barn Carried Away.

New Orleans.—Col. George McClellan Derby of the United States Army Engineers is a hardened veteran. But when he glanced into his back yard the other morning and saw his stable had vanished, even he gasped.

Derby and the police hit the trail. The stable, neatly stacked, was found in front of the residence of Edward and Herman Beldor, who confessed to taking the stable to use the lumber. Now Col. Derby has his stable again. But he must rebuild it.

## Jud Tunkins.

Jud Tunkins says a successful orator is a man who can attract as big a crowd as goes to see a ball game and who can say something that will get as much applause as a home run.

## ANGELL INAUGURATED AS 14TH PRESIDENT OF YALE

JAMES R. ANGELL

New Haven, Conn.—James Rowland Angell was inaugurated as fourteenth president of Yale June 21.

The gathering in Woolsey hall included official representatives from sister universities in the United States, Canada, Great Britain and continental Europe, of learned societies at home and abroad, and of state municipal and civil bodies.

The inauguration was made a part of the 220th commencement exercises, when 769 degrees were conferred.

Thought the Clouds Mellow. Every child today knows that the clouds are composed of tiny globules of water carried in the air and having some affinity to enable them to hold together. Formerly it was thought that clouds were hollow like soap bubbles, for otherwise they would not be able to float.

## World's Greatest Runners.

For speed and stamina, we do not believe there are any runners in the world capable of beating the Tarahumare Indians, of whom about 15,000 survive in Mexico. They are in great demand as government couriers, for they are said to be able to cover 170 miles a day on foot, and have been known to run 600 miles in five days.

## The Fourth Dimension.

The fourth dimension is merely a mathematical speculation. It is assumed to be the property of matter that should be to solids as solids are to planes. Mathematical investigations are made on the assumption of an indefinite number of dimensions.

## Canada's Big Game.

Throughout Canada from 1,000 to 1,500 moose are killed annually, but the game are protected and are hunted under certain restrictions that are rigidly enforced, so that there is no fear of their extinction.

## CALLING CARDS

Nothing is so difficult but that it may be found out by seeking.—Terrence.

A WRITER on social usage has called attention to the fact that in the countries of Europe the etiquette of the calling card is clearly laid down by social law; in this country it is left in the air.

If there were but a congress of custom where some one could go and introduce a law setting forth the occasions on which the calling card can with propriety be used and the occasions on which it cannot be used how much confusion could be avoided! As this cannot be done, we can only do our best with our calling cards, and trust to luck and instinctive good taste that we will not break such laws as there are.

In some sections of the country it is customary for newcomers to make the first call, and as cards are the emblems of calls the rules regulating them can be grouped with those regulating card usage. In most sections it is customary for the old resident to make the first call. In still other places it is usual for a newcomer to send out at-home cards to such persons as she chances to meet and desires to become acquainted with.

It is usual, however, in most places, for the old resident to make the first call. It is essential for the person called on to return this first call or else run the risk of being called rude. The newcomer who waits for others to call on her, no matter where she is, will do better than the newcomer who makes first calls where this is not customary.

Here are a few hints which should be observed in the etiquette of card usage:

Always call or leave cards within ten days after a dinner, reception or dance invitation, whether it is accepted or declined.

Call or leave cards after teas, also, unless you are sure that custom of the neighborhood exempts you from this duty. In some of the big cities, among many groups, cards are not required after teas. But an unnecessary call or card can never be objected to.

Send cards when it is impossible to attend a tea for which cards have been sent.

Leave cards or call at the home of the mother of a bride whose wedding or reception at the house you have attended.

Married women leave a card of their own for each woman of the household, a card of their husband for each married woman and another for her husband. Young men or bachelors of any age leave cards for the daughter of the household and for her mother.

Here are five "don'ts" about cards: Never regret an invitation on a card. An invitation sent on a card, if it demands an answer, should be answered by note.

Never leave a card without making a call on any one's day at home.

Do not return first calls by card alone unless the hostess is not home when you call. In that case a card may be left.

Never have anything put on the card but the name, address and, if wanted, the day at home.

## "What's in a Name?"

By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel.

## ANITA

THE lovely Spanish favorite Anna has won almost as prominent a place among the feminine names of our country as the equally exotic Juanita which followed the song of that title. Anita, however, is much more redolent of North America than its prototype. For Anita, signifying grace, has an origin parallel with Anne.

About the time that the mother of Samuel was recorded in Biblical chronicles as the original Hannah, the etymological way was being paved for the entrance of Anita through the gateway of Spain. Byzantium, that kingdom of royal splendor, paid homage to a St. Anna who is thought to be a flare-back to the great Roman deity.

The daughter of Emperor Basil, calling herself Anna, married Grand Prince of Muscovy and carried the name into Russia, where it was subjected to the Slavic influence and issued forth in various forms of diminutives and endearments, one being the pretty Amar, which still has vogue there. The susceptibility of the name to the influence of all tongues probably brought it to the attention of soft-syllabled Spain, who adopted it, cut off the "r" and changed the "m" to "n" for euphony's sake, making the charming Ana, which has great popularity there. But Spain no sooner adopts a name than it must have a diminutive, after the Latin fashion—hence Anita.

Italy took Anita and called her Ninetta, which was later subjected to a diminutive process and issued forth as Nanna.

Anita's talismanic gem is the cat's eye, which has greater mystic qualities than those of any other jewel. It has the power of hypnotism and is said to be a charm against evil spirits. It is a sacred stone in India where its dazzling white light shot with brilliant green imbues it with uncanny powers. Thursday is Anita's lucky day and 5 her lucky number. The pansetta is her flower.

## Chinese Silk Rewoven.

In ancient times silk was for many centuries imported in the woven material from China, where the raising and weaving of silk seems to have been known for 2,000 years and more before the Christian era. So costly were they in the early days that the closely woven silks of China were often unraveled by Phoenician weavers and re-woven in a looser texture and with a mixture of linen.

## Line the Linoleum.

When purchasing linoleum for the floor it is a good idea to order a lining of felt. This precaution will probably prolong the use of the linoleum. It also deadens sound and makes the floor warmer in winter. It prevents the linoleum from expanding or contracting and it gives a softer tread, all advantages worth considering.

### Michigan News Tersely Told

**Monroe**—The 1922 conference of the Michigan District of the Lutheran Missouri Synod will be held in Grand Rapids beginning June 21.

**Flint**—Louis Karpit, Genesee farmer, who pleaded guilty to manufacturing whisky, was fined \$500 and six months in the Ionia reformatory by Judge Fred W. Brennan.

**Birmingham**—Mrs. Eva Trego, acting as the "next friend" to her daughter, Margaret Trego, 16, has begun suit for \$10,000 against Harry Adams of this place. Ill treatment is alleged.

**Holland**—The Michigan State Christian Endeavor convention at its closing session here adopted a resolution calling on Congress to take action to put a stop to Turkish atrocities in Armenia.

**Monroe**—Orlando and Hollie Trabbic and Owen Keller pleaded guilty to stealing 120 bushels of wheat valued at \$180 from Elmer Kinsey, Erie farmer, and were remanded until Oct. 10 for sentence.

**Ypsilanti**—C. P. Steimle, secretary of the State Normal college, stated that 2,027 students were enrolled for the summer term. This is the largest enrollment in the history of the school. The previous highest enrollment was 1,938 students.

**St. Johns**—F. A. Rehnart, of Dundee, Mich., the "monkey man" and human fly who gives exhibitions of climbing the sides of buildings, fell two stories from the Carten building here, but was saved from serious injury by landing on an awning.

**Mt. Pleasant**—Peter F. Dodds, former judge of the Twenty-fourth judicial circuit, died in Spokane, Wash. He held the judgeship in the circuit 24 years, retiring four years ago. He leaves a widow and son, Fabian E. Dodds, an attorney in Spokane.

**Grand Rapids**—National secretaries of six religious denominations will conduct a Sunday School institute in Grand Rapids next fall under the auspices of the Kent county Sunday School association. The institute will open October 3, continuing for five days.

**Algonac**—Blame for the accident in which Ralph Blauvelt was killed several weeks ago when his truck was struck by a Michigan Rapid railway car, was placed on the motorman by a coroner's jury. Blauvelt was backing his truck across the tracks when the car rammed into him.

**Pontiac**—Settlement has been reached in a dispute lasting several months between city and county as to payment of delinquent taxes on city property. A check for \$2,124 has been given the city treasurer, which included an auditing fee of \$400 spent by the city to determine what was due.

**Kalamazoo**—Governor Groesbeck and Attorney General Wiley have given their official approval to the new proposed charter for the city of Kalamazoo, which has just been drafted by a charter commission in this city. Kalamazoo will vote upon this new charter on October 4 at a special election.

**Kalamazoo**—In an effort to impress upon its members the responsibilities and privileges of citizenship, the Kalamazoo Rotary Club has set up a permanent rule in regard to voting. The rule imposes a penalty of \$1 upon every member who fails to vote at any city, county, state, national or school election.

**Pontiac**—J. D. McElderry, 38, died here of heart disease while a doctor was engaged in removing his tonsils. The physician had removed the first tonsil and started to work on the second when it was discovered that McElderry was dead. Mrs. McElderry, became hysterical when told of his death. She had been waiting in the anteroom during the operation.

**Flint**—With elections of officers, the Michigan G. A. R. and affiliated organizations closed the 43d. annual encampment. Officers elected by the G. A. R. were: Department commander, John J. Holmes, Eaton Rapids; senior vice commander, J. A. Jennings, Flint; junior vice commander, George A. Freeman, Detroit; department medical director, Dr. Robert Le Baron, Detroit; chaplain, Rev. Horace Palmer, Adrian.

**Flint**—August Gilford, 37, is jailed, charged with assault with intent to kill his landlady, Elizabeth White. It is alleged Gilford attacked Mrs. White, because she refused to bandage his foot, which, he claims, was injured by a bullet. The woman ran into the house and locked herself in the bathroom when he forced in the door with an iron bar. She dove through a window to the ground, sustaining a laceration on one of her arms.

**Holland**—The drowning of Bernice Clemens, 14, and Vivian Lambie, 16, Chicago high school students, has cast a gloom over the Lolla Roohk cottage at Saugatuck, which is occupied by cottage is in charge of teachers of the Pullman Manual Training school of Chicago. Marjorie Owen, 16, also of the same party, was resuscitated after doctors had worked over her for five hours with a pulmotor. Guards at Saugatuck beach are at a loss for an explanation of the drowning, which occurred in about three feet of water.

**Adrian**—Riot guns for the protection of officers of the Lenawee sheriff's force have been ordered purchased by the board of supervisors.

**Cadillac**—Serum rushed to Cadillac failed to save the life of Herman Cook, 12, of Manton, who died of what doctors diagnosed as botulinus poisoning, the first case to appear in this section.

**Battle Creek**—Except for Lieut. Canfield all soldiers removed from Camp Custer going to Columbus barracks, Ohio. There are 300 men here. Canfield remains to check camp equipment.

**Flint**—The 5-cent street car fare was re-established here July 1. Since June 1, a 6-cent fare had been in effect and the return to the nickel rate was voluntarily returned to by the Detroit United railway.

**Howell**—Mrs. Arthur Woodruff, 32, was instantly killed and her 2-year-old daughter seriously injured at Benjamin Corners, near Brighton, while riding to this city. Mr. Woodruff, driving the car, was uninjured.

**Adrian**—Richard H. Scott, of Lansing, was elected chairman of the newly created corrections commission at its first meeting held at the State Industrial Home for Girls here. Mrs. Craig C. Miller, of Marshall, was elected secretary.

**Port Huron**—Rollo A. Moore of Jackson was elected president of the Michigan Typothetae Federation at the closing session here. Walter Ford of Brooklyn was chosen vice president and Edwin Peters of Saginaw, secretary-treasurer.

**Howell**—Arrangements are being made to celebrate here Aug. 22 the fiftieth anniversary of the arrival of the first train in Howell. General officers of the Pere Marquette and Ann Arbor railroads will be asked to take part in the celebration.

**Lansing**—Mrs. Edwin Grove, of Lansing, was killed and three others were injured, one perhaps fatally, when an automobile driven by Edwin Crowe overturned in a ditch near here. The injured were Crowe, and Mr. and Mrs. Stephen Dunning, all of Lansing.

**Flint**—Deciding that the \$75,000 addition to the Genesee county jail for which bonds were voted is not needed at this time and that its construction would add to the burden of taxation, Genesee supervisors voted unanimously not to have the addition built.

**Albion**—Dr. J. W. Laird, new president of Albion college, has named Morris Martin of this city his secretary. Charles F. Delmar, Baltimore, Md., a banker, is the one who gave \$25,000 for endowments at Albion college, and also \$25,000 for a new home for the president.

**Flint**—Speeding up his car J. M. Hoffman, Saginaw, Mich., outraced three robbers in another automobile, when they attempted to hold him up. The trio attempted to stop the Hoffman car near Pine Run, but he out-distanced them and they gave up the chase near Mount Morris.

**Mr. Clemens**—Macomb county board of supervisors has gone on record in favor of the proposed tri-county zoo park to be located near the state fair grounds and maintained by the counties of Wayne, Oakland and Macomb. The county board has signified its intention to give \$40,000.

**Pontiac**—Damages of \$50,000 are sought by Mrs. Mary A. Pollman for death of her husband in a suit against the Michigan Central and New York Central railway. Pollman was killed a year ago when a freight car left the track in the Detroit yards and plinned him against a motor truck.

**Ann Arbor**—The resignation of Professor Henry Carter Adams, professor of political economy and finance, and since 1887 head of the department of political economy in the University of Michigan, was announced by President M. L. Burton. Ill health, Professor Adams said, caused his resignation.

**Pontiac**—Earl S. Johnson, of Orion, is suing the D. U. R. for \$20,000 for injuries received when his automobile was struck by an interurban car near Oxford and for the death of his wife. His daughter-in-law, Mrs. Susie Johnson, who was injured, is demanding \$12,000. Two other suits are expected to result from the accident.

**Grand Rapids**—John Popp, Charles McCarthy and Fred Cole of Ludington were sentenced to serve four years at Leavenworth penitentiary by District Judge Sessions. They pleaded guilty to stealing 2,200 pounds of sugar from a freight car. Fred Stodman was sentenced to serve three and one-half years on the same charge.

**Lansing**—State Highway Commissioner Rogers told the state administrative board that because of the rapid progress being made in highway construction, he would like to advertise \$10,000,000 worth of highway bonds for sale as early in July as possible. Because of the unfavorable money market and the possibility that the sale of road bonds might conflict with the sale of the soldier bonus bonds, he suggested that the bonds be dated later in the year and money for immediate needs be raised on short term notes.

### BASE REPORTS ON INVENTORY

Corporations Not Required to Make Mid-Year Appraisal.

**Lansing**—The state administrative board in an informal decision has decided that enactment of the Vandenberg corporation law, requiring corporations to make returns as of a fiscal year ending June 30, will not necessitate a mid-year inventory. The board held that corporations may file their financial statements based on the last regular inventory.

### Japan Pleased With Envoy.

**Tokio**—Great interest has been evinced here by news of the nomination of Charles B. Warren of Detroit as the new American ambassador. The Chugal Shogyo Shimpo, leading organ of the business world, interprets the delay in appointing the new ambassador as being due to the pains taken to make the proper selection. The newspaper emphasizes the importance of the task of Mr. Warren in view of the numerous pending problems.

### Too Much "Kick" For Cows.

**Hot Springs, Ark.**—Weird antics of milk cows on their way home from pasture and the subsequent death of several of them led dairymen near here to start an investigation which disclosed that they had been eating mash from which moonshine whiskey was made. An analysis of the mash showed concentrated lye had been mixed with the grain, apparently to hasten fermentation. A former location of the still was found, but it had recently been moved.
