## Prisoner Leaps From Train

### John Armstrong Escapes Enroute to Jackson Prison.

John Armstrong, Emmet county prisoner being taken by Sheriff Will S. Purple to Jackson prison to begin serving a term there for burglary, escaped from the train enroute to Jackson Saturday night at about 10:30 by leaping through the window of the car toilet room. The train was about 3 miles south of Grand Rapids when the escape took place.

Sheriff Purple said Monday that he had allowed the prisoner to go to the toilet room alone, something he had never before done while taking prisoners to any state institution. The man smashed the glass in the window and crawled through, dropping to the side of the track from the rapidly moving train and escaping into the woods through which the road passed at that point.

"The fellow appeared to be of a sleepy, rather half-witted sort and I did not suspect him of planning to escape," said the sheriff in discussing the case. "I halted the train immediately and endeavored to locate the man but without success. Sheriff Peter Vierger, Kent county, aided me in the search."

This is the first prisoner to escape from Sheriff Purple while being taken to prison. Armstrong is the man who recently pleaded guilty to the theft of furniture with which to begin house-keeping.

## RUSSIAN BREAKDOWN CREATES RYE MARKET

Agricultural breakdown in Russia has served to materially strengthen the rye market in this country, and Michigan, as the leading rye state is particularly affected.

"The famous Riga district, once the great exporting rye section of Russia, would import rye this year if they could get it," said Professor N. I. Vavilov, of the Bureau of Applied Botany and Plant Breeding, Petrograd, during a recent visit at the Michigan Agricultural College. "Conditions are such in Russia that only a comparatively small acreage was planted, and this has been seriously damaged by drought."

Special interest in Rosen Rye, a Michigan variety which came originally from Russia and which is now in great demand as an export rye, was shown by Prof. Vavilov. Michigan Rosen is being shipped to Denmark, Germany and other countries which originally bought this type of rye from the Riga district of Russia.

There will apparently be a strong demand for American export rye for some years to come, according to Prof. J. F. Cox, of the M. A. C. farm crops department. It is not likely that Russia can make a quick recovery agriculturally, and Michigan farmers can feel fairly certain that the price of rye will continue to be much nearer the price of wheat than it was before the war.

No young girl ever feels complimented when another woman says of her that she has "an intelligent countenance."

## WILL TILLOTSON BADLY INJURED WHILE TEAMING

Will Tillotson, teamster for the Argo Milling Co., received a badly fractured collar bone, a head bruise and other injuries in an accident last Thursday afternoon.

He had just left the Fair Grounds with the team and turned south. As he drove to the side of the road to pass another vehicle the horses jumped, jerking the wagon onto a sand pile. The sudden jolt threw Mr. Tillotson clear of the wagon and into the ditch, landing on his head and shoulders. He was picked up unconscious and for a few minutes it was thought he had been killed. A physician was summoned, during the meantime Mr. Tillotson revived. He was taken to Dr. Park's office, where it was found he had received a bad head bruise and internal injuries. An X-ray photo showed a badly fractured collar bone. An operation was performed, and on Monday he was taken to Lockwood hospital, Petoskey, where a further operation was performed.

## TEACHERS' INSTITUTE FOR CHARLEVOIX COUNTY OCTOBER 18-19

The Annual Teachers' Institute for the teachers of Charlevoix County will be held this year at Charlevoix, October 18 and 19. Prof. H. Z. Wilber of Ypsilanti, Mich. will act as conductor, and Dr. George B. Raudels of Alma, Mich. will be instructor.

This is an important meeting of the teachers of our county. I wish to urge upon every one of them the necessity of being present.

Come and get acquainted with the new commissioner.

A. C. Belding  
Com'r of Schools.

## AT THE TEMPLE THEATRE NEXT WEEK

Sunday, Justine Johnstone, the American Beauty will appear in her latest picture "Sheltered Daughters." She lived in a world of happy dreams, and they thought she was safe because sheltered. But she had dreamed of romance and her groping to find romance in life led her close to danger. Her environment was narrow—so was her escape.

Tuesday, Eva Novak in "The Smart Sex". The story opens with a show girl stranded. A goose, part of the show property, is wanted as a meal by other actors. She claims it. Goes to the next town and in order to get money, takes part in an amateur performance. Wins the prize money. Wealthy young man sees her—takes her to lunch. Happy ending.

Wednesday, Harold Goodwin in "Hearts of Youth". A tale of mystery and vengeance, a romance based on the noted Mrs. Southworth's novel "Ishmael" in which the mystery of a man's birth was solved through a tragedy, a mixup of tangled lives which are untangled by the hand of an assassin.

Thursday, Eugene O'Brien in "Worlds Apart," a beauty picture that carries straight to the heart. Mr. O'Brien is right at home in those loveable parts and has more lady admirers than any other actor on the screen today. "Worlds Apart is one of his best."

Friday, Geraldine Farrar, the most prominent woman opera star on the stage today will be seen in "Woman and the Puppet", a powerful story and picture of the regular Farrar kind.

Saturday, the ever popular Family Night has something to please every member of the family. Hoot Gibson in "Bandits Beware" is one of those good Westerns. Chapter 14 of "The Diamond Queen" will be full of action and thrills. "Snub Pollard in "A Side Splitter" will make the whole house laugh. The News Weekly will round out a good show.

### Going West

J. Leahy, the Optometrist, who will be here Oct. 5 and 6, will leave Oct. 20 to spend the winter on his ranch near Buhl, Idaho.

Another crop that is short, this year, is that of geese that lay golden eggs.

A "rounder" always has a hard time to square himself.

After reading over carefully the advertising sections of the magazines, we are lost in wonder to know how the American pioneers ever did it without the aid of correspondence schools and extension courses.

## \$5,000 BAIL SET FOR ARBUCKLE

County Grand Jury Holds Comedian for Manslaughter.

San Francisco.—A county grand jury indictment charging Roscoe Arbuckle with manslaughter in connection with the death of Virginia Rappe after she had attended a party in his room in the St. Francis hotel, was returned to Presiding Judge Shortall, and bail has been set at \$5,000 cash or \$10,000 bonds and the case assigned to the court of Superior Judge Harold Louderback in the Hall of Justice.

The verdict charged Arbuckle with manslaughter and directed all official sources concerned conduct a full and exhaustive investigation.

District Attorney Brady explained that Arbuckle would not be admitted to bail until two murder charges pending against him had been disposed of.

## CHANGES IN LEAGUE UNLIKELY

Unanimous Vote of Assembly Necessary for Amendment.

Geneva.—All chances for revising the covenant of the league, making it less obnoxious to the United States and thereby influencing America to join, were shattered when the judicial committee decided in a secret report to the council that a unanimous vote by assembly was necessary to make changes in the pact.

It is believed that this decision will effectually prevent alterations in the constitution of the league as it is regarded as impossible to get fifty states' members to vote solidly on a subject of this importance.

### Officers' War Records Delayed.

Washington.—Another year at least must elapse before the war records of Michigan officer and nurse veterans, necessary in issuing the state bonus, will be in the hands of the state adjutant-general, it was learned at the War Department. Because of drastic curtailment of the clerical forces available in the department, the compiling of enlistment records for the adjutant-generals of the states is now proceeding at a very low rate of speed.

The field of opportunity some times appears to be fenced in, but if you examine it closely you will find a hole in the fence.

## Concrete Pronounced Good

### Shows Up Well Under Most Severe Tests

A special report from the structural materials research laboratory of the Lewis Institute of Chicago, to the chairman of the Charlevoix County Good Roads association, says:

"Recently you sent us a specimen of concrete removed from the road between Charlevoix and Petoskey. The examination shows that the concrete was made of well-graded gravel, and well mixed with cement. Upon squaring up the specimen and testing it on our machine, it showed a compression strength averaging 4,100 pounds to the square inch. This is good strength for a concrete road."

This report but further confirms the statements of concrete road advocates as to the durability and wearing quality of this kind of road. Roads built twelve years ago of concrete show but three thirty-seconds of an inch wear. According to this it would take 128 years to wear down an inch. Will any other kind of road stand up in like manner?

It is one inch of concrete road will stand up under a pressure of 4,100 pounds, is there any reason why the concrete laid twelve years ago should wear more than 3-32nds of an inch, and is it not sufficient proof that one inch will last 128 years at the same ratio?

Then why not build all roads of concrete, full sixteen feet in width, or nine feet of concrete and the balance of gravel? Would this not be economy in road building?

### ADVERTISING A SALE

You don't leave your rig in the middle of the road and go to a fencepost to read a sale bill do you? Then don't expect the other fellow to do it.

Put an ad in your home paper, then, regardless of the weather, the fellow you want to reach reads your announcements while seated at his fire-side.

If he is a prospective buyer you'll have him at your sale. One extra buyer often pays the entire expense of the ad, and its a poor ad that won't pull that buyer.

An ad in The Charlevoix County Herald reaches the people you are after.

Hubby's Cake Takes Prize; He'll Do The Baking Now Says Wife.

Topeka, Kan.—The old saying that "woman's place is in the home" was given another figurative slap on the wrist when A. H. Brill of Emporia won the blue ribbon at the fair here for baking the best angel food cake.

Mr. Brill and his wife both entered cakes, and the husband won.

"He'll bake the cake for company hereafter," was Mrs. Brill's remark.

## SHERIFF HELD IN RUM CHARGE

Delta County Officer With Party That Meets Accident.

Marquette.—Frank O'Dess, sheriff of Delta county, William and Alfred Ladue, and Edward Beauchamp, of Escanaba, were arrested, at Gwynn, charged with possession and transportation of moonshine liquor.

The arrest followed an automobile accident in which Anton Weidman, Escanaba, was killed.

The party was on a fishing trip in two cars, one of which belonged to the sheriff. The second machine went off of the road, overturning, killing Weidman.

Beauchamp says he was taking the moonshine to a friend without the knowledge of the others.

## DECISION DELAYED ON INDICTMENTS

JUDGE FLANNIGAN WILL GIVE HIS OPINION LATER IN PRISON AFFAIR.

## ATTORNEY ATTACKS CHARGES

Sherwood Declares Indicted Men Employees, and Not Officials of State Institution.

Marquette—Circuit Judge R. C. Flannigan will not rule at this term of court on the motion to quash indictments against defendants in the Marquette prison case charging unlawful purchase of state property, he announced late last week.

Judge Flannigan announced that he would not be able to take the motion under advisement before 20 days and gave attorneys that length of time to file briefs.

Arguments for and against the motion, to quash most of the indictments brought by the grand jury and on the demand by the defendants' council for bills of particulars explaining the charges against them if the indictments stand, have been heard by Judge Flannigan.

Myron J. Sherwood, attorney for the defendants, declared that indictments charging unlawful purchase of state property are irregular and should be quashed because they apply to officers of the prison, whereas, he contended, the persons indicted are not officers, within the meaning of the general prison law, but employees. As employees, he said, they had a right to purchase goods alleged to have been bought unlawfully.

He argued further that offenses charged in the indictments involving purchase of state property by his clients did not charge felonies or misdemeanors within the meaning of the statute, but instead charged breaches of law which are not indictable.

Answering Mr. Sherwood's arguments, Prosecuting Attorney Kennedy referred to state statutes to combat the claim of the defense that the prison men indicted for alleged unlawful purchases were employed and not officers of the institution, and argued that under the prison law they are indictable for offenses alleged in the indictment.

He denied irregularity in the indictments, arguing that the language of the statutes involved had been used in their construction, and declared that the charges set forth are specific enough to satisfy statute requirements.

Mr. Sherwood stressed his demand that if the indictments stand, the defendants must be furnished with bills of particulars, specifying in detail as to time and place, the offenses charged and giving descriptions and amounts of property alleged to have been unlawfully purchased.

He contended it would be unjust to ask his clients to prepare a defense against charges so general as those put into the indictments.

### Just Folks

By EDGAR A. GUEST

A LONGED-FOR JOY.

I do not envy millionaires  
The many things that they can do,  
Though endless bank accounts are  
theirs.

And nine last week I overdrew.  
I do not sit around and sigh  
And wall in sorrow's gloomy way—  
That they have things I cannot buy—  
I don't want all their joys today.  
I would not look on life as grim  
Because I own no gilt-edged stocks.  
But I confess, I envy him  
Who buys his golf balls by the box.

I would not be a millionaire  
To deck myself with diamond rings  
And have expensive clothes to wear  
And luxuries that money brings.  
I'm satisfied to plod along  
And count the cost of what I get;  
A toiler in the larger throng  
I'm quite content to be, and yet  
Whenever wealthy men I see,  
And at our club they move in flocks,  
One of the few I'd like to be  
Who buy their golf balls by the box.

A new ball, smooth and shining white  
To me is a seventy-five-cent treat;  
When I indulge in such delight  
I must cut down on what I eat,  
And only now and then I dare  
To put a new ball into play,  
But he who is a millionaire  
May start a fresh one every day,  
I'd be a monarch, crowned and  
throned,  
And count myself secure from  
shocks.

If ever coin enough I owned  
To buy my golf balls by the box,

### Age

By GEORGE MATTHEW ADAMS

IT IS only as we recognize the Minute upon Minute, Hour upon Hour, Day upon Day, philosophy of Time that we are able to enter into the serious lesson that Age has for us all. For Age has no philosophy excepting the philosophy of accomplishment, as it matures. Even as you think, you Age. And yet in Aging you are able to realize the full meaning of every breath that you breathe and of every single effort you make.

In the Sunset is reviewed the glory of the day.  
Age is Experience—crystallized. Age is Initiative—worked out. Age is the Dream—come true. Age is the Tree—full grown. Age is the Business Successful—a power in its area. What you are is the sum of your days in Age—Averaged.

In your Success is reflected the product of every one of your hours.  
Age is not the mere piling up of years, for many a man is old at thirty, and many a man is young at eighty. For Youth is as elastic as Age, and Age is as elastic as Youth. Let the Experience of Age ever be a teacher to you. Let it admonish as well as Encourage you.

### Rann-dom Reels

By HOWARD L. RANN

THOMAS A. EDISON

THOMAS A. EDISON is a sleepless genius who invented the short-cut method of measuring electricity, which has made the electric light business in this country more profitable than running a hot tamale booth at an Old Settler's picnic.

Mr. Edison is conceded by both press and public to be one of the best and most fertile inventors the United States has ever produced. He formed the habit in early youth and has never gotten over it. He began life as a train boy, and sold the unexpurgated yellow-backed novel and the plastic gum drop with great success. But he was not satisfied. Something within him, which has been bothering him ever since, impelled him on and led him to become a telegraph operator.

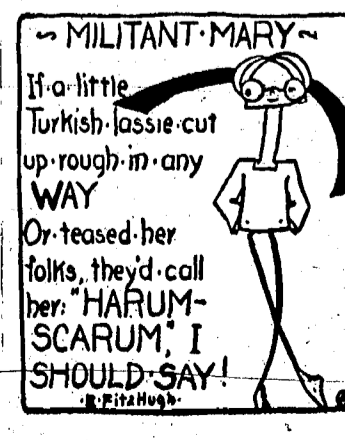

Edison has made the electric light business in this country more profitable than running a hot tamale booth at an Old Settler's picnic.

When he first came in contact with the kind of electricity which produces head-end collisions.  
After Mr. Edison had learned the Morse alphabet so that he could tell a dash from a semi-colon his inventive genius began to break out faster than a fat boy with the measles. Whenever he wanted something that nobody else had thought of, he would go out and invent it and then cry "Eureka," after having it patented in several different languages. Most of Mr. Edison's patents are still doing business at the old stand.

Mr. Edison gives away a great deal of money without advertising for bids and has helped many a young man to get somewhere on his own power. He rises at 4 a. m. and mingles with fuses, retorts, crucibles, spark plugs and other forms of inanimate life until midnight. He is one of the few Americans who have the cross of the Legion of Honor pinned neatly over the pinafore. He sleeps with a pencil over his left ear and a tablet under his pillow, thus making it impossible for any meritorious invention to get away.

### May Get Substitute for ZR-2

London.—Reports that the American and British governments may arrange for transfer of one of Great Britain's remaining airships to American ownership to replace the wrecked ZR-2 have received credence in America. Official circles here, where it is stated the American government, prior to contracting for the ZR-2, considered the desirability of obtaining one of the former German Zeppelins for experimental and instructional purposes.
