Vol. 26

EAST JORDAN, MICHIGAN, FRIDAY, MAY 26, 1922.

No. 21

Northern Ball League Formed

Seven Cities and Towns Are To Be Represented.

This year the Northern Michigan Amateur Baseball league will be composed of seven northern Michigan cities and towns, these seven being represented at the annual organization meeting held in the Chamber of Commerce offices at Petoskey last Friday evening.

Teams in the field this season will represent Charlevoix, Boyne City, East Jordan, Petoskey, Harbor Springs, Pellston and Mancelona. Dr. G. E. Frank of Harbor Springs, was named president and William P. Voght of Boyne City, secretary and treasurer.

R. L. Lewis of this city, retiring president of the league, in his final talk to the thirty-two delegates, pleaded for closer co-operation among the managers, officers and umpires, cleaner sportsmanship and faster baseball. Charles McCarty, president of the Petoskey club, also stressed the need of better co-operation, cleaner and faster games, and urged that the most valuable player in the team be suitably rewarded for his efforts this year.

In the schedule committee named by President Frank were one man from each team as follows: O. E. Hawkins, Mancelona; E. L. Stevenson, Pellston; Henry Boehm, Petoskey; Leo Powers, Charlevoix; A. E. Wells, Harbor Springs; W. P. Vought, Boyne City, and Glen Bulow of East Jordan. The season is to open June 11.

The umpires were hired for another year as follows: Bert Cryderman, Petoskey and Ralph Walker and Roy Cooper of Levering.

Another meeting was called for Thursday evening to ratify the schedule written by the final schedule committee and make final plans for the opening games of the year.

Charlevoix will be in the game to limit this year. While as yet all members of the team have not been decided, there is no doubt we will have an aggressive, hard hitting bunch of ball players.

SWEET CLOVER SAID VALUABLE HAY CROP

That sweet clover, if it is cut early and cut high, makes a valuable hay crop for Michigan farmers is the statement of Prof. C. R. Megee, of the M. A. C. farm crops department.

"The stage of growth at which sweet clover is cut determines very largely the quality of hay secured," says Megee in discussing the crop. "If the crop is allowed to become too mature before harvesting, farmers will be disappointed in the quality of the hay. It should be cut before the blossom buds appear. If the plants are allowed to come into bloom, the stems become woody, the leaves fall off, and a very poor quality of hay results."

That the height of cutting is also important is indicated by Prof. Megee. Tests conducted at the Michigan Agricultural College experiment station indicate that a height of from six to seven inches is about right when cutting is done just before the blossom buds appear.

"The second year sweet clover does not propagate from a crown as does alfalfa," continues Megee. The clover propagates from buds in the axils of the branches and leaves on the lower portion of the stalk. If the first cutting of the second year is made below the young branches, which bear the leaves, the stand will be destroyed and a second crop will not be secured."

Detailed information on the college sweet clover tests, as well as cultural information on the sweet clover crop for Michigan, is contained in a new bulletin just issued by the M. A. C. experiment station. This bulletin, which is known as Special Bulletin No. 113, may be had by writing to R. S. Shaw, Director Experiment Station, M. A. C., East Lansing, Michigan.

STUDY CLUB ENTERTAINED

The Study Club was entertained Tuesday afternoon at the home of Mr. and Mrs. G. J. Zerwekh. Members with their husbands and sweethearts were present to the number of 54. No need to say that all had a fine time—and the eats—Oh My! Nuff sed. Leave it to the Club and a good Committee.

Spray Rings Save Expense

Charlevoix Co. Farmers May Profit By This Suggestion.

Potato producers on a small scale are each year confronted by a problem in spraying which can only be solved by a high pressure sprayer. The sprayer that will solve this problem, which is adequately controlling leaf hopper and blight, must deliver and maintain a minimum pressure of 100 pounds. A sprayer of this type costs from \$150 to \$350. This price frightens many of our producers who are growing rather comparatively small areas. Although on three acres of potatoes, a sprayer will pay for itself in a few years, the original investment looks large, and is the reason why many men do not have them that would otherwise use them.

To prove the foregoing statement we will use the data obtained from a spraying demonstration held last year in Emmet County. It was found on the Smallstreet Brothers farm near Levering, that over an area of seven acres, sprayed potatoes yielded an increase of 102 bushels to the acre over unsprayed potatoes. With potatoes selling at 50 cents a bushel this would mean an increase of \$50 per acre.

Over a three acre area, which represents a typical area in Charlevoix Co., this would result in an increase of \$150 for the first year. Figures show that with these spraying methods it costs approximately \$11 an acre to spray. This includes original cost of sprayer. Deducting \$33 as the cost of spraying these three acres we have left a net gain of \$117 for the first year as a result of spraying.

The following paragraph may prove interesting. It was taken from a letter from Dr. Nixon of Pennsylvania. Dr. Nixon is the man who bought large quantities of Northern Michigan seed, and has had charge of the potato experiment work in Pennsylvania for the last several years.

"This is the fourth year of potato spraying in Pennsylvania with the type of outfits suggested above. (These outfits were high pressure sprayers). The work has been uniformly successful and very profitable. During this time we have collected data from 3,000 farmers in 55 counties in the state. For the first three years the average increase has been 33 1/3 per cent. This year, the dryest year known since 1876 and the freest from late blight, has given us an average increase of 46.7 per cent, or 74.3 bushels per acre. We consequently are making this statement, and challenge the world to refute it, that proper potato spraying is the most profitable operation in connection with potato culture. The average cost has been \$10.56 per acre, and the average increase 56.7 bushels per acre."

The object of the above figures is to enforce upon our Charlevoix County potato growers the necessity of this latest feature in cultural methods. The problem to overcome is the original investment of \$150 to \$350, according to the size and type of sprayer purchased. Here is the solution: Several Michigan potato producers are closely following the example of Pennsylvania growers in that they are forming what is known as "Spray Rings." There are different types of these rings being organized. The type seemingly to be most adaptable to our conditions is the one in which four or five farmers go in together and purchase a sprayer co-operatively. The other type, which is on a larger scale, is to sign up at least sixty acres of potatoes, and hire a man to spray them. It is calculated that sixty acres, with from five to six sprayings a season will keep one man busy all the time that weather conditions permit. The following figures are obtained on a spray ring of the larger type.

COST OF SPRAY RING OF 60 ACRES	
Sprayer	\$202.50
Copper Sulfate	225.45
Arsenate of Lead	114.80
Lime	40.80
Supplies for Spray	26.78
Express	48.44
Trucking	19.50
Miscellaneous expense	17.62
Telephone and Telegraph	3.99
Labor	170.00
Total	\$838.56
Less supplies sold	16.70
	\$851.90
Inventory at end of season:	
Sprayer	\$150.00
Arsenate of lead and copper	

PROGRAM

TUESDAY, MAY 30, 1922

FORENOON

Firing Squad.....Leaving Legion Hall (Library) at 10:00 o'clock for Bohemian Settlement Cemetery, and on return to Catholic Cemetery.

AFTERNOON

All organizations meet at the High School at 1:00 o'clock sharp. March down Fourth Street to State Street by G. A. R. Hall to be reviewed by G. A. R. and Women's Relief Corp, who after review are to be picked up by autos and parade continues down State Street, north on Main, returning to high school by Williams St., for the exercises in the High School Auditorium. After this will be the usual decorating of the graves at the Cemetery. Flowers will be dropped on the graves by twelve girls, dressed in white, six from the parochial school and six from the public school.

COUNCIL PROCEEDINGS

Adjourned regular meeting of the Common Council of the city of East Jordan, held at the Council Rooms, Monday evening, May 22, 1922. Meeting was called to order by Mayor Dicken. Present: Mayor Dicken and Aldermen Porter, Palmiter, Aldrich, Farmer, Proctor, Kowalske and Whittington. Absent—None.

Minutes of May 1st and 15th meetings were read and approved. The following resolution was offered by Alderman Porter, who moved its adoption; seconded by Alderman Aldrich:

Resolved that the sum of \$5,111.36 be raised by a general tax on the real and personal estate of the City of East Jordan for the payment of bonds and interest; that the sum of \$2,555.68 be raised for street and sewer purposes; that the sum of \$851.89 be raised for library purposes, and that the further sum of \$2555.77 be raised for general purposes for the year A. D. 1922.

Adopted by the Council of the City of East Jordan on the 22nd day of May, 1922 by an aye and nay vote as follows: Ayes: Whittington, Palmiter, Aldrich, Kowalske, Proctor, Porter, Farmer and Dicken.

Nays: None.

Regarding the improvement of Mary and Milton Streets, the street committee, after investigation, reported that no improvement should be done at the present time. The committee on public utilities recommended the placing of a light on Milton street between Division street and Mary street.

Bills were presented for payment as follows:

James Williams, labor on street	\$ 12.50
Delbert Hale, man and team on street	10.00
Mrs. D. McColman, cleaning library	4.00
M. J. Williams, work at library	1.00
John Flannery, man and team on street	27.50
E. R. Kleinhans, digging graves	10.00
Amil Hegerberg, work at library	1.00
E. W. Giles, cleaning streets	42.00
Cemetery labor	97.73
City Treas. paym't of street labor	389.04
D. L. Wilson, drafting ordinance	25.00
Peoples State Sav. Bank, bond of city treasurer	50.00
State Bank of E. J., bond of	

Concrete Road Grows Popular

Eighty-Two Miles Contracted For This Season.

Contracts have been let covering the construction of 209 miles of road so far this year, according to figures made public today by the state highway department. This represents an expenditure of \$2,585,990.

Of the total mileage for which contracts have been let, 82 1/2 miles will be concrete type of pavement. This type of road is receiving Michigan's greatest attention this year, owing to its substantial and more permanent nature, and to the growing demands of traffic.

The 82 1/2 miles will cost approximately \$1,525,082.

Next in importance comes the double course gravel road. This type of road has a thickness of eight inches of closely compacted gravel.

So far this year contracts have been let on about 58 miles of this type amounting to approximately \$540,680.

For approximately \$226,219 contracts have been let on about 33 miles of either stamp sand or course gravel roads. Each of these are constructed 16 feet wide.

To date 19 1/2 miles of macadam roads have been let for about \$230,000. Macadam roads are invariably planned and built in sections of the state where gravel is scarce and traffic is not of sufficient volume to warrant a paver surface. This condition prevails in general in the southeast and southwest corners of the state on the secondary trunk line roads and on the primary trunk lines in the upper peninsula.

Stone-gravel roads are not very popular in Michigan. Only 2 1/2 miles of this type have been built, amounting to \$19,081.

claim before this Board for review and further than this, claimants have the right to ask to appear personally before the Board in the interest of their claim. The general public is at all times welcome to attend any and all sessions of the Appeal Board.

Any communications regarding the appeal of a case should be addressed either to the District Office, 14 E. Congress St., Chicago, or to the nearest Sub-District Office throughout the states of Illinois, Michigan and Wisconsin.

MAKE NEW SURVEY OF FOX ISLANDS.

The government steamer Margaret, lake survey service, has cleared for Charlevoix, where she will resume her survey of waters in the vicinity of the Manitow and Fox islands. These waters have not been charted since 1860. These chartings have been rendered obsolete by the shifting of shoals in Grand Traverse bay region. The boat made a trip to the wreck of the steamer Price, lost in the disastrous blow of Nov. 9, 1913. A sweep of the wreck showed a 28-foot clearance at mean lake level and an actual clearance of 30 feet. The wreck was lighted. The boat also made an unsuccessful search for the Thompson tug Sport, lost in a southeast blow off Lexington in December, 1920. An area of four square miles was swept in a vain effort to find the wreck, the party being guided to the spot by Capt. Arthur Conkey, who was in charge of the tug when it was abandoned.

FORESTRY STUDENTS TO CAMP IN NORTH WOODS.

Studying actual field conditions, and rubbing elbows with the practical life of forest rangers, students of forestry classes at the Michigan Agricultural College will camp in the woods of northern Michigan during the coming summer.

The young foresters will live in a real logging camp, on the grounds of the Antrim Iron Company in Kalkaska County. Here they will put in old fashioned lumber jack hours, learning the business of timber cruising, land surveying, and logging from the ground up.

The camp, which is an annual feature of the college work, will be in charge of Prof. P. L. Buttrick and Prof. A. L. Garratt of the M. A. C. forestry department. Twenty students will be included in the camp roll, all of whom are preparing to enter active service in the forestry profession.

EAST JORDAN PUBLIC SCHOOLS

The Juniors are being complimented far and wide for the successful J Hop they gave on last Saturday night.

Spectators and guests alike unite in praising the beauty of the hall; and the leader of the orchestra said that never had he played for a finer group of young people.

All this is pleasing to the Juniors, whose desire it was to give the famous class of 1922 a fitting send-off.

The Sophomore History class are studying about the Great War. They are especially interested in the Battle of the Marne and the part the United States played.

The Junior Class will entertain at assembly on Friday of next week. They promise something quite "different." Visitors are welcome, and should be on hand at 1:00 p. m.

The freshmen are to entertain at assembly on Friday of next week, with a representation of scenes from Shakespeare. Ambitions for mere Freshmen, do you say? But come along and see the work done by this very promising class. One must prophesy great things for them in the next three years after witnessing their efforts this year.

Two Senior plays will be presented by members of the class of 1922 on Friday June 9, at the High School auditorium. The plays are entitled "My Aunt from California" and "Two Sharps and a Flat."

Honor Roll for April
A Students—Julia Supernaw, Lona Swafford, Virginia Pray, Sena Fraseth, Alma Anderson, Virginia Lehman, Aura McBride.

A and B Students—Lena Ekstrom, Doris Colden, Inez Colden, Sybil Bradford.

Margaret Cook, Annie Colden, Josephine Ekstrom, Anita McDonald, Raymond Swafford, Jasper Stallard, Sadie Murphy, Elizabeth Sweet, A. J. Waageman, Dorothy Kitzman, Dorothea Malpass, Rose McCarty, Marie McDonald.

Freshmen—C
Sophomores—C+
Juniors—C
Seniors—C+

Baseball.

Boyne City defeated East Jordan 6-3 in a hard fought game Tuesday afternoon. East Jordan was leading by three runs until the sixth when the visitors got to Bowen for a base on balls and four hits, which mixed with two errors brought in five runs. A blocked ball declared by Umpire Speltz because it hit the fence back of 3rd base started the scoring. Each team secured 8 hits, and seven men of each team were out on strikes.

STATE HIGH SCHOOLS TO HOLD TRACK MEET.

Nearly a hundred Michigan high schools will enter the sixteenth annual state Interscholastic Track and Field Meet which is to be held at the Michigan Agricultural College on June 3. Three classes of competition: for schools above 500 enrollment, for those under 500 but over 175, and for those under 175, will be provided. This plan gives smaller schools of the state a chance to compete on even terms for championship honors.

Trials in sprints and hurdles will be run on the afternoon of June 2. Cups for winning teams and medals for individual place winners will be presented by the college. The fourteen standard high school events, including a half mile relay race, are included on the program of events.

Peoples' Wants

MUNNIMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents.

Lost and Found

BRACELET FOUND—Ladies bracelet found near residence of Dr. F. F. Fick. Inquire at HERALD OFFICE. 21-1.

Wanted

WASHINGS WANTED—am prepared to do your family washing in a satisfactory manner. Mrs. Frank Habel, phone 166-F4. 21-3.

WANTED—Young man to call on Auto trade. Big profits. A splendid opportunity to make big money. Write for sample. CHAS. BENNETT, 71 Pasadena Ave., Highland Park, Mich. 21x.

WE WILL PAY a cash reward for the address of Mr. Wm. B. Johnson. This party's wife was employed last year by the Telephone Co. in East Jordan. Communicate address to BUCKNER LOAN CO., Crofoot Bldg., Pontiac, Mich., and receive reward. 21x.

A PERMANENT CONNECTION—Ambitious men in any walk of life can build permanent business of their own paying \$50 to \$100 weekly. One of the world's largest wholesale grocery houses (established 1883, capital over One Million Dollars) has openings with protected territory. Goods nationally known. Experience not required, men with proper qualifications will receive full cooperation. Liberal money advanced on goods sold. State age. JOHN SEXTON & CO., Chicago, Ill. 21x.

Help Wanted

MAID WANTED for second work for summer at Charlevoix. Apply, MRS. A. CAMERON, 732 Junior Terrace, Chicago. 21-3.

WANTED—Single man on farm, must be able to handle team. J. L. ZOULEK, Phone 178-F13. 194.

For Sale—Real Estate

EIGHTY ACRE FARM FOR SALE OR RENT—Fifty rods to school, one-half mile to Phelps station. Good buildings. H. M. COLDFREN, Bellaire Mich. 11 F.

EIGHTY-ACRE FARM FOR SALE—The east half of southwest quarter of Sec. 33, South Arm township. Forty acres improved, about 20 acres second growth trees. Small dwelling. —ESTATE HERBERT L. OLNEY, Ada M. Olney, Adm'r, R. 3, East Jordan. 11 F.

FOR SALE OR RENT The E. W. Lane Farm 5 miles north of East Jordan and north of County Farm, 140 acres, about 75 acres cleared, good soil, buildings and orchard; will sell or rent all or part; write E. W. Lane, Comstock Park Mich. I also offer my 12 room house and 2 lots for sale, located in East Jordan. Inquire of E. A. Lewis East Jordan Mich. 19-4.

For Sale—Miscellaneous

FOR SALE or TRADE—Pure Breed JERSEY BULLS. Eligible for registration. Ready for light service. Will trade for good cows. HOMER E. SHEPARD, R. 5, East Jordan. 20 x 3.

FURNISHED ROOMS TO RENT, also a GARAGE. Located Corner Third and Nichols Sts.—MRS. C. WALSH. 20-2.

IF YOUR FARM or Country Home is for sale, write us. No commission charged. CLOVERLAND FARM AGENCY, Powers, Mich.

—FOR SALE—VEGETABLE and FLOWER PLANTS. Tomatoes in variety, Cabbage, early, mid-season and late, Celery, Cauliflower, Egg Plant, Sweet Peppers. Pot grown flower and vine plants. Place orders and have reserved. THE GARDENS OF MOKOTON, Emerson W. Price, Ironton, Mich. 18 F.

PIANO FOR SALE—A Starek piano in first class condition. Reasonably priced. Can be seen at the home of WM. KOGOMO, East Jordan. 20 F.

EGGS FOR HATCHING—For Sale, White Wyandotte Eggs, heavy laying strain.—MRS. WM. D. TAIT, R. 1, Ellsworth, Mich. 15x6.

I have For Sale about \$5 bu. SEED POTATOES (Russets) also one OLIVER 33 PLOW, New Watson POTATO SPRAYER; POTATO DIGGER, and an E. M. F. AUTO TRUCK to haul your crops. If you want a bargain on any or all of the articles listed see —JAMES DAVIS Route 4, East Jordan. 18-1.

It takes the "nerve" out of a good many men to be sentenced, and yet we often hear of the man who has "the courage of his convictions."

Girls no longer faint and fall into men's arms. They can accomplish the same result without going to the trouble of fainting.

Modern writers and speakers take so much pride in "calling a spade a spade," that they are calling a good many things spades that are not.

The man who isn't a hero to his very young son will never be a hero to any one else.

WILSON

(Edited by Mrs. O. D. Smith)
Fine growing weather.

Frank Smith and family made an auto trip to Charlevoix last Friday.

Mrs. E. S. Brintnall spent the weekend with relatives in East Jordan, West Side.

Mr. and Mrs. John Hott entertained their three little grandchildren from Boyne City over Sunday.

Clifford Brown of East Jordan was a caller at O. D. Smiths in Afton last Monday evening.

Miss Mildred Batterbee went to Grand Rapids last Friday, where she was united in marriage to Max Graham formerly of East Jordan, but now employed in Grand Rapids. Their many friends wish them much happiness in their future life.

Mr. and Mrs. Archie Sutton of Boyne City were visitors at J. S. Suttons in this place last Sunday.

Afton ball team played a game of ball with a team near the Gleaner Hall on the Peninsula last Sunday.

A large crowd was present at the Dance at Wilson Grange Hall last Saturday evening. The receipts of the evening were about \$58.00.

Mr. and Mrs. O. D. Smith accompanied by Mr. and Mrs. F. L. Smith of East Jordan made an auto trip to Advance last Sunday morning.

Frank Smith and family have gone up to Brickerville, where Mr. Smith has employment with Sam Bricker during the summer months. Mrs. Smith will also act as housekeeper for the latter gentleman.

Mrs. O. D. Smith received a message this week stating that her aunt, Mrs. Alfred Scofield died at her home in White Springs, Florida, on May 7th, after undergoing an operation for Cancer. Mrs. Scofield was one of the early settlers in Echo, Antrim County. Coming to that place in 1880 with her husband and children from Minnesota, and was also well-known in East Jordan and vicinity. She leaves seven children and several grandchildren, besides many other relatives to mourn her loss.

PENINSULAR

(Edited by Mrs. E. Hayden)
Mrs. F. D. Russell of Ridgeway Farms spent the first of the week in Boyne City.

Beautiful growing weather after the heavy rains of last week, meadows are in fine shape and wheat and rye never looked better.

Farmers are taking advantage of the fine weather and farm work is progressing in fine shape. This week will see a large acreage of corn ground put into shape; some corn is already planted.

There is prospect of a large fruit crop at present. Apples and cherries seem to be very full.

News has been received of the birth of a little daughter to Mr. and Mrs. Walter Faust May 5 at their home in Grand Rapids. Mother and daughter are doing fine.

Mr. and Mrs. Geo. Staley were dinner guests with Mr. and Mrs. Ira McKee Sunday.

A letter from Miss Florence McKee from Ontonagon, U. P. where she is teaching, states she is doing fine and has another month of school after which she expects to visit her parents, Mr. and Mrs. Ira McKee, for a short time and then take a course in summer college in Chicago.

Work on the road near the Three Bells School is progressing nicely.

Eveline Township Day was observed at the Pat O'Bryne Store at Advance Tuesday, May 23, with an attendance of about 200. The exhibit was in the hall over the store. The exhibits were set in the yard and if anybody did not have all they could eat it was no fault of dinner of the waiters as there was such a spread of sandwiches, pies, cakes, pickles and other things topped off with boiling hot coffee and gallons of ice cream and bushels of cake and plenty of water. The exhibits were fine.

Mr. A. A. Metcalf of Boyne City gave the eighth grade class, 15 in number, 12 boys and 3 girls, a fine talk. Comm'r. Belding gave an excellent talk and there were some songs and recitations which were fine, and perfect weather made it a day long to be remembered at least until the next township day.

It seemed like old times to have wool buyers in the country again; one from East Jordan whose name I did not learn and C. H. Tooley of Boyne City were in this section Monday buying wool.

Quite a bunch of fans attended the ball game at Peninsula Grange Sunday and were very sorry to report the Grange got beaten. The Whip-poor-wills expect to play Ironton next Sunday.

Repulsive Birds.

The greatest bird command is the vulture of southeast Europe. Seven vultures can strip the carcass of a horse in half an hour. After such a meal they can fly only a few yards. They stand with puffed-out bodies, drooping wings, and blood-shot eyes, uttering hideous cries.

Man's Demeanor Tells Tale.
Cheerfulness is just as natural to the heart of a man in strong health as color to his cheek; and wherever there is habitual gloom, there must be either bad air, unwholesome food, improperly severe labor or erring habits of life.—Ruskln.

When a Nail Loosens Plaster.
When a nail driven in the wall gets loose and the plaster begins to fall off saturate a bit of cotton with this glue, wrap as much as possible around the nail and push this back into place pressing hard as possible. This will firmly set the nail in place.

AMERICANS PLAN TO STUDY ITALY

Arrangements With Royal University of Rome Designed to Promote Friendly Relations.

TWELVE SCHOLARSHIPS OPEN

Diplomats and College Professors to Address the Classes This Summer—Language, History and Culture Featured.

New York.—A series of courses for Americans, to be given in Rome during the summer of 1922, has been organized by the Associazione Italo-Americana, in collaboration with the academic authorities of the Royal University of Rome and under the patronage of the American ambassador to Italy.

The courses are planned with a view to making better known in the United States the language, history, culture and economic conditions of Italy, so that the mutual understanding and friendly relations of the two countries may be increased and strengthened.

Instruction in the courses, which will extend from July 10 to August 31, will be adapted to the needs of the American student. A large number of the courses in the literary, historical and economical development of Italy will be in Italian, supplemented, when necessary, by the use of English.

Twelve Scholarships.

Twelve scholarships, to be assigned by the universities on the basis of merit among the applicants, are offered by the Associazione Italo-Americana to students in the several American universities. All students enrolled for the summer courses of lectures will be entitled to the daily use of the Library of American Studies in Italy, and various rooms open also in the evening, for social gatherings and for study, situated in the center of the city of Rome, not far from the university. Here many American newspapers and magazines will be available. Students will also be entitled to the use of the university library. Each student will also gain free admission, during the period of the courses, to all the antiquities, monuments, galleries and museums of the Italian government and of the city of Rome.

The offices of the Associazione Italo-Americana in Rome, of the Institute of International Education, 419 West One hundred and seventeenth street, this city, and of the Italy-America society, 23 West Forty-third street, will furnish on request information as to the courses, as well as answer questions and make suggestions concerning living conditions in Rome—hotels, boarding houses, etc.

To Promote Friendly Relations.

The Associazione Italo-Americana was organized in Rome in 1919, under the auspices of persons prominent in governmental, scientific, industrial and financial circles, for the following purposes: "To foster cordial relations between Italy and the United States by means of courses of study, publications, lectures, etc.; to establish cooperation with Italian citizens living in America and Americans living in Italy; to increase economic relations and to assist industrial and commercial organizations of Italians and Americans, under conditions which shall not affect the economic independence of the two countries."

Among the speakers in Rome this year will be Tommaso Pittoni, president of the Italian senate, who visited the United States last fall; Professor Rodolfo Lanciani, authority on ancient Rome, and Professors Pietro Bonfante and Carlo Formichi, both of the Royal University of Rome. The association has undertaken to arrange for the exchange of professors, as well as the establishment of scholarships.

HARVARD U. "CUTUPS" FEWER

Pranks in Disfavor Through Student Council Influence, Doctor Lowell Says.

Cincinnati.—The "cutup" spirit fast is subsiding at Harvard university, according to its president, Dr. A. Lawrence Lowell, at the annual dinner of the Harvard club here. Pranks during classes are taboo also, he said, because students have become imbued with a community spirit under student councils.

"The Harvard enrollment is increasing and the influx from the West, Middle West and the South is far in excess of those coming from New England," said Doctor Lowell.

"The art of life is not solving problems so much as it is in recognizing a problem when it appears," Doctor Lowell added. "While the world has many who are able to untangle a situation, it has few who see clearly great problems."

Big Bird Specimens.

Denver, Colo.—Giant South American condors and other birds and animals of Peru will be exhibited in the Colorado Museum of Natural History as a result of an offer received by Mayor Bailey, Dunne M. Kline, an engineer, formerly of Denver, now employed in South America, has asked the city to accept a pair of condors, two pairs of Tuna birds, giant butterflies with a wing spread of eight and ten inches, and other interesting specimens of animal and bird life of Peru.

CHANCERY ORDER.

STATE OF MICHIGAN, the Circuit Court for the County of Charlevoix, in Chancery.
FRANK ZOULEK and EMMA MONK, Plaintiffs,
vs.
J. CLIFFORD MONK and EMMA MONK, Defendants.

At a session of said court held at the Court House in the City of Charlevoix in said county on the 7th day of April, 1922.

Present: The Honorable Frederick W. Mayne, Circuit Judge.

In this cause, it appearing by affidavit on file that the defendants, J. Clifford Monk and Emma Monk, are not residents of this state, but are residents of the State of Indiana and that subpoenas to appear and answer have been duly issued in this cause but could not be served upon the said J. Clifford Monk and Emma Monk, for the reason that they are not residents of this State but are residents of the State of Indiana, on motion of Clink & Williams, Attorneys for the plaintiffs, it is ordered that the appearance of the said defendants, J. Clifford Monk and Emma Monk, be entered in this cause within three (3) months from the date of this order and in case of their appearance that they cause their answer to the plaintiff's Bill of Complaint to be filed and a copy thereof to be served upon plaintiffs attorneys within fifteen (15) days after service on them of a copy of said bill and notice of this order and that in default thereof that said bill be taken as confessed by said non-resident defendants.

And it is further ordered that within twenty (20) days after date hereof the said plaintiffs cause a notice of this order to be published in the Charlevoix County Herald, a newspaper printed, published and circulated in the said county of Charlevoix and that such publication be continued once in every week for six (6) successive weeks, or that they cause a copy of this order to be served personally on said non-resident defendants at least twenty (20) days before the time above prescribed for their appearance, and it is further ordered that the said plaintiffs cause a copy of this order to be mailed to said defendants at their last known postoffice address, by registered mail and a return receipt demanded at least twenty (20) days before the time herein prescribed for the appearance of the defendants.

Dated April 7, 1922.
FREDERICK W. MAYNE,
Circuit Judge.

CLINK & WILLIAMS,
Attorneys for Plaintiffs.

The stray cat makes no social distinctions.

The road to poverty is paved with poor inventions.

A man's habits may be his own business but unless he lives on a deserted island he will find that others make their business.

What has become of the old bulldog type of employer who scowled and clicked his jaws together whenever he gave an order to an employee?

A good deal of the time it takes a lot of sunshine in the soul to drive away the clouds that hang around the outside.

Who remembers—the bright things he used to say when he was a baby.

Clock With Twenty Dials.

A clock in San Diego, Cal., has 20 dials, and the time of day or night in various parts of the world can be seen at a glance. The dials also show the day of the week and the date. The clock, which is 21 feet high, is encased in plate glass. Four of the dials are each four feet in diameter. It is jeweled with tourmaline, topaz, and jade, is illuminated at night, and winds itself automatically.

Oldest English Clock.

The oldest English-made clock known is in the tower of the palace at Hampton court, where it was placed in 1551. It was so complete that it showed the motions of several of the planets, in addition to measuring the time.

Important Detail.

A lot of people make the serious mistake of forgetting that it is necessary to have done something before it becomes advisable to employ a prescient.

Birds With Good Appetites.

Buzzards and hawks are big eaters. The former, of course, prefers carrion, while the hawk likes to kill and eat his own prey. He has an immense capacity for mice and similar small vermin, and does not hesitate to swoop down on a chicken run when hungry. In one day he eats twice his own weight of food.

Noiseless Bird.

The plumage of the owl is so enveloped in fine and downy filaments; that its flight is noiseless, says the American Forestry Magazine. It takes its victims unawares and therefore is able to overcome animals much larger and heavier than itself.

Wolverine News Brevities

Lapeer—Taxpayers here voted to bond for a new \$200,000 high school.

Muskegon—Miss Jennie Hansen, 18, was held here for Ludington officers on the charge of robbing a pool room.

Traverse City—Edward Westjohn, 21 years old, was drowned in Boardman river, while fishing from a bridge near the downtown section.

Adrian—The sixty-third commencement exercises of Adrian college will open Sunday night June 11, when the baccalaureate sermon will be delivered.

Lansing—Moody Fox, a student at M. A. C. pleaded guilty to impersonating a city health officer when arraigned before Judge Charles B. Collingwood.

Grand Rapids—Seized with cramps while bathing in a pool in Plaster creek, Peter Craft, 36 years old, drowned. His body was discovered by small boys.

Pontiac—The farm home of Benjamin Darcy, near Romeo, was destroyed by fire. Cause of the blaze is unknown. The damage is set at \$10,000 with \$4,000 insurance.

Lansing—Attorney General Wiloy and Auditor General Fuller notified treasurers of 37 counties, delinquent in paying taxes to the state, to send in the money at once.

Iron Mountain—Forty day laborers employed by the Iron River Construction company, refused to work unless they were paid \$3 for a nine-hour day. They were being paid \$3 for a 10-hour day.

Adrian—The Lenawee County Bar association has appointed a committee to arrange for observance by the association of the centennial anniversary of Lenawee's foundation as a separate county, Sept. 10.

Pontiac—Raymond Blass, Ann Arbor, is held here on a charge of forging a check for \$722.50 on Bert Vincent, Milford automobile dealer. Blass says he is a hay merchant. His bonds were placed at \$2,000.

Holland—Miss Nellie Kole, of Fremont, member of the class of 1924 at Hope College, was awarded first place in the Adelalde oratorical contest. She will represent Hope in the woman's department of the state historical contest next March.

Traverse City—Peace resigns again at the city hall following the dropping of impeachment proceedings recently filed against Mayor Swanton and Commissioner Garland. A general re-arrangement of city departments has been ordered by the city commissioners.

Lansing—The state will get this year \$8,674,831 primary school tax from the Michigan utilities, Auditor General O. L. Fuller announced. The big state utilities which include railroads, sleeping car companies, telephone and telegraph companies were assessed \$501,907,950.

Lansing—State utilities commission has authorized the merger of the Citizens Telephone Co. holdings in Grand Rapids with the Michigan State Co. lines, the Citizens stockholders to get American Telegraph and Telephone stock at par for their holdings to the amount of \$3,000,000.

Muskegon—"My child was crying for bread, so I made and sold liquor," Louis Furlilo told Judge Vanderwerp when arraigned for a second offense. The judge said he sympathized with him, but he had already given him a chance, and sentenced him to six months in Michigan Reformatory.

Lansing—The hearing on the petition of the city of Harbor Beach for a resumption in lake service to that port by the Detroit & Cleveland Navigation Co. was set by the Public Utilities Commission for June 8. The company has filed a brief setting up that the commission is without jurisdiction.

Marshall—James W. Mackey, former city attorney, has filed suit in the circuit court here against the Marshall Gas Light company, in the name of the city. The complaint alleges that the company has violated its franchise granted in 1868 for 50 years. For the last six years the company has charged meter rates contrary to the franchise, the complaint sets forth.

Grand Rapids—Frank J. Cook, former cashier of the Farmers & Merchants' bank and former county official, who was taken to prison to begin his seven-year term for forgery, refused to accede to the demand of the county auditors to refund \$466 he collected as his salary as county purchasing agent during his suspension after the forgery charge was preferred against him. He declared he will press a claim for his salary for his full two-year term, which does not end until January 1, 1923.

Mt. Clemens—Ellis Goldberg, dapper stock salesman charged with violating the Michigan blue sky law by selling \$80,000 in worthless film stock to Macomb county people, created a sensation in circuit court by entering a plea of guilty. Judge Richter of Detroit was on the bench. The preponderance of evidence swayed to the prosecution when it was proved by state witnesses that he made illegal sales of stock. On the assurance that Goldberg was entering the plea without undue inducement by outside parties, Judge Richter accepted it.

Grand Rapids—John Hulsman, 25 years old, buzz saw operator, was cut severely when he fell upon a revolving saw.

Bessemer—A special election on the issue of \$130,000 bonds to cover city deficits of the last five years has been set for June 5.

Muskegon—An organization intended to bring about greater enforcement of the prohibition laws has been formed here. S. E. Pringle was named head of the committee.

Saginaw—Frank D. Crisacaden, 62, prominent in Masonic circles here, died from an internal hemorrhage resulting from over-exertion while cranking an automobile.

Grand Haven—Mrs. J. Fuller, aged occupant of a cottage in Spring Lake, was rescued through a window of the building as she was about to collapse when the cottage burned.

Grand Rapids—After riding for one day less than three weeks, Miss Bertha Slaby, of this city, pedaled into New York. She walked and rode her bicycle approximately 1,000 miles on the trip, which she made alone.

Iron Mountain—While his wife looked on, Pierre Trompier, 32, of Spread Eagle, seven miles from here, shot himself in the head with a rifle. His widow says he was despondent because he had no money to pay the taxes.

Iron Mountain—The entire underground force of 30 men at the Bates mine at Iron River, owned by the Florence Mining company went on strike for higher wages. The wage scale paid is the McKinney scale, or \$2.10 for surface men and \$2.85 for miners.

Marshall—The extreme heat a few days ago caused a strip of brick pavement on the Marshall-Albion highway to blow up. The explosion occurred just east of the Frank Clark farm and took out a strip of pavement across the road for a space of about five feet.

Monroe—Pinned under his overturned automobile, John Pasie, 32 years old, printer, of Toledo, was killed and his companion, Carl Maunz, 30 years old, stenographer, also of Toledo, was injured seriously. The car skidded and turned turtle in a five-foot ditch.

Detroit—An eight-story fall, in which his body plunged through a glass and steel canopy to the sidewalk ended the life of William Blum, a window cleaner, a few minutes after he started work on his first big contract. A whim of fate saved Blum's partner, Lewis Murrow, for he fainted and fell inside the building.

Detroit—Detroit not only has the lowest death-rate of any large city in the country, but within the last year actually restored to normal health 97 of the 100 tubercular babies treated in the city tuberculosis institution at Northville, according to a statement made by Dr. Henry F. Vaughan, superintendent of health.

Saginaw—W. H. Martin, president of the Saginaw County Bar association, has received word from Chief Justice William Howard Taft, of the United States supreme court, that he will be unable to attend the annual meeting of the Michigan Bar association in Saginaw June 9 because of his departure for England June 10.

Saginaw—Mrs. Mary E. Fisk, 12 North Harrison street, who recently celebrated her ninety-first birthday, has been a resident of Saginaw 86 years. She came to Saginaw from Detroit when five years old. It required 11 days to make the trip with horses and wagon. At that time there were only five or six families of white people living here.

Muskegon—The state and city joined in paying tribute to the memory of John Q. Ross, for two terms Lieutenant-Governor of the state and one of the leading figures in the industrial and civic life of Muskegon. Business was practically suspended in the city during the funeral services. Street cars halted for two minutes and many of the business places were closed.

Grand Rapids—A verdict of \$400 for the plaintiff has been returned in circuit court in the case of William Collins against former Patrolman Leo W. Rolfs, who was charged with false arrest and imprisonment. Collins says the officer attacked him so severely it was necessary to receive treatment at a hospital before he could be taken to jail and that later a charge of disorderly conduct was dismissed.

Mt. Clemens—Harry J. Meyers, son of Henry Meyers, Detroit, died at a local hospital, the result of a playful accident near the village of New Haven. Meyers, with other companions, motored to a farm near New Haven to visit friends. The young people say he tried to hang by his feet from a cross arm of a pole. His feet slipped and although only a few feet from the ground, two vertebrae in his neck were fractured. Though he remained conscious his body was paralyzed from the neck down.

Detroit—Concluding litigation that has been in progress in the state and federal courts of Detroit and Alpena and Boston, Mass., for nearly half a century, Judge Arthur J. Tuttle in federal court has rendered an informal decision the effect of which will be to give Miss Marlan E. Brown, of Boston, approximately \$360,000 in money. The settlement probably is the last chapter in a legal controversy that began in 1873. The dispute arose over the ownership and division of lands situated in and near the city of Alpena.

MARKET REPORT

FURNISHED BY U. S. BUREAU OF MARKETS, WASHINGTON, D. C.

(For the week ending May 18, 1922.)

Hay
Timothy hay market generally firm for good grades because of light receipts. Clover dull and lower in most markets. Alfalfa and prairie weak. New hay offered in southwest. Stocks generally light but demand limited.

Quoted May 17: No. 1 Timothy, New York \$22.00; Philadelphia and Pittsburgh \$25.00; Cincinnati \$24.00; Chicago \$25.00; Minneapolis \$21.50; Memphis \$21.00; Kansas City \$22.00; Atlanta \$22.00; standard: Memphis \$25.00; No. 1 prairie: Minneapolis \$18.00; Kansas City \$18.00.

Feed
Wheat feeds slightly firmer at the decline. Demand for spot and early shipments slightly improved. Deferred shipments dull. Offerings hominy feed very light and prices firm because of good demand. Cattle unchanged. New alfalfa meal offered Cincinnati 27.50.

Quoted May 17: Spring bran: Minneapolis \$20.00; Philadelphia 27.50; standard middlings same as bran; gluten \$32.35; Chicago \$20.00; No. 1 \$21.00; Cincinnati \$1.00; Louisville \$22.00; Chicago \$23.00; Cottonseed meal \$13.50; Memphis; linseed meal \$27.00; New York, \$49.50; Minneapolis, \$51.50.

Live Stock and Meats
Chicago hog prices ranged 15 to 25 cents higher in cattle. Prices also showed slight increases. Beef steers ranging 10 to 15 cents higher; butchered cows and heifers ranging 15 cents higher and veal calves up 75c.

May 18 Chicago prices: Hogs, top, \$12.00; bottom, \$11.00; medium and good beef steers \$7.75@8.55; butcher cows and heifers, \$1.85@8.50; feeder steers, \$2.25@3.75; light and medium veal calves, \$7.50@10.25. Fat lambs \$10@12.75; spring lambs \$12@14.75; Yearlings \$10.25@10.95; fat cows \$7.25.

Stocks
Stock market generally firm during the week. Important live stock markets during the week: Cattle, calves and yearlings \$16.00@18.00; hogs 10.85; sheep 16.00.

Eastern wholesale fresh meat prices
Cattle, \$11.00@12.00; hogs, \$11.00@12.00; sheep, \$11.00@12.00. May 18 prices good grade meats: Beef \$13@14.50; veal \$13@14; lamb \$21@24; heavy loins \$16@20.

Fruits and Vegetables
Northern potato markets weakened. Northern sacked round white cartot sales down 30c per 100 lbs. in Chicago at \$1.20@1.35. down 30c to 35c Minnesota shipping cartot \$1.20@1.35. Florida Spaulding \$1.20@1.35. In market \$1.50@1.60 per bu. South Carolina Irish cobbler \$1.50@1.60. Most eastern markets ranging \$1.50@1.60. Shipments decreasing. Arrivals new stock heavy New York and Pennsylvania.

Onions
Yellow onions standard crates down 50c in most eastern markets \$1.75 @ 2.00. Florida onions ordinary condition up 75c in New York at \$2.75@3.00. Florida onions extra quality condition slightly weaker at \$1.25@1.50 bushel hampers in New York some low as 50 cents.

Grain
Wheat prices unsettled and lower early in week followed by strength on 16th account of good export demand. Market weakened again on 17th and 18th with lack of support and weakness in wheat markets.

Closing prices in Chicago cash market: No. 2 red winter wheat \$1.42; No. 2 yellow corn 62c; No. 2 white corn 59c.

Chicago farm prices: No. 2 mixed corn in central Iowa 48c. No. 1 dark northern wheat in central North Dakota \$1.40. No. 2 hard winter wheat in central Kansas \$1.25.

For the week Chicago July wheat
down 1 cent to 64 1/4c; Chicago July corn down 1 cent at 64 1/4c; Minneapolis July wheat down 1c at \$1.44 1/2; Kansas City July wheat down 1c at \$1.17 1/4; Winnipeg July wheat down 1 1/4c to \$1.36 1/4.

Butter
Butter markets steady to firm at close, although the tone is very sensitive on account of seasonal influences. Receipts including imported quantities strong grass flavor. Closing prices 32 score: New York 31-1/2; Philadelphia and Boston 31 cents. Chicago 35 cents.

DETOIT QUOTATIONS

Feed and Grain
WHEAT—Cash and May No. 2 red, \$1.42; No. 2 white, \$1.35; mixed, \$1.40. YELLOW CORN—Cash No. 2, 67c; No. 2, 66 1/2c; No. 3, 64c; No. 4, 62 1/2c. WHT. OATS—Cash No. 2, 45 1/2c; No. 3, 43 1/2c; No. 4, 38@41c. RYE—Cash No. 1, \$1.11. BEANS—2 immediate and prompt shipment, \$8 per cwt. SWEETS—Prime red clover, \$13.75; alsike, \$11.50; timothy, \$3.25. Adams Heads Revolution Sons.
Springfield, Mass.—Major W. I. L. Adams, of Montclair, N. J., was elected president of the Sons of the American Revolution at the thirty-third annual congress of that organization.

CASHIER'S MOTHER, BROTHER GUILTY

MRS. LANKENAU SENTENCED TO TWO YEARS, CARL GETS 18 AND EDWARD NINE.

\$60,000 TAKEN IN SIX YEARS

Most Sensational Criminal Trial in the History of Bay City Ends With Convictions.

Bay City—Mrs. Isabel Lankenau and her son, Edward C. Lankenau, were both convicted in Federal Court May 18, on the first charge of the joint indictment which accused them of being accessories, after the fact, to the embezzlement, by Carl J. Lankenau, another son, of \$60,000 from the Bay City Bank.

Edward was also convicted on five charges of receiving embezzled money and in aiding and abetting the embezzlements of his brother. The jury, which was out about four hours, asked to be excused from reporting on the other counts against Mrs. Lankenau.

In the evening the mother and her two sons were sentenced by Judge Arthur J. Tuttle. Carl had been convicted last October and was held here as a witness in the trial of his mother and brother. Carl was sentenced to Atlanta Prison for 18 years, Edward to the same institution for nine years, and Mrs. Lankenau to the Detroit House of Correction for two years. All received their sentences without any show of emotion.

Thus closed the most sensational criminal trial in the history of Bay City. Carl, the eldest son and teller of the Bay City Bank, had confessed to using large sums of the bank's money to cash checks, running into thousands of dollars, which his brother drew on the bank, though the latter never had more than a few dollars on deposit at any one time. He did this, he told the court, because he believed Edward was in need and because Edward was his brother. The defalcations extended over six years.

Mrs. Lankenau is the widow of a former publisher of a German language paper, the Michigan Free Press, in Bay City. She is 62 years old. Carl is 35 and his brother 32. Carl also is married and has one child. All three have been in jail since last fall because of their inability to raise bail.

SPECIAL-SIX

Any well-informed garage mechanic will tell you the Special-Six leads in value from the standpoint of endurance, comfort, power and economy of upkeep. Drive one yourself and you will realize why thousands of owners have found in it those qualities which go to make up motoring satisfaction and pride of ownership.

- unusually comfortable, because of its deep, genuine leather upholstery and long semi-elliptic springs, front and rear.
- endurance and dependability have been built into it by the manufacturer through the use of high-grade materials and workmanship.
- a Studebaker-built L-head motor, 3 1/2 x 5, develops fifty horsepower.
- economy of upkeep with repair shop attention reduced to a minimum.
- refinements such as you might expect only in higher-priced cars: Jeweled eight-day clock on instrument board. Large rectangular plate glass rear window—7 1/4 x 23 in.
- Cowl ventilator controlled from instrument board. Transmission lock reduces cost of theft insurance to owner 15% to 20%.
- Tonneau lamp with extension cord. Parking lights in lower corners of windshield base. One key operates the Yale lock on ignition switch, transmission and tool compartment.
- One-piece rainproof windshield and windshield wiper.

In the Special-Six you get such value and satisfaction as only Studebaker, the world's largest builder of sixes, offers.

The Indian Drum

By William MacHarg and Edwin Balmer

Illustrations by IRWIN MYERS

(Continued)

The impulse which had brought her into his office went from her. She had not seen nor heard from Henry directly since before Alan's telegram had

She Made No Reply but Gazed at Him, Studying Him.

come late yesterday afternoon; she had heard from her father only that he had informed Henry; that was all. "I've no news, Henry," she said. "Have you?" She closed the door behind her, moving closer to him.

"How did you happen to be here, Connie?" he asked.

She made no reply but gazed at him studying him. The agitation which he saved or nearly all; doesn't it, Henry; doesn't it?"

He had read some other significance in it, she thought, or from his greater understanding of conditions in the storm, he had been able to hold no hope from what had been reported.

That was the only way she could explain to herself as he replied to her; that the word meant to him that men were saved and that therefore it was dismaying to him, could not come to her at once. When it came now, it went over her first only in the flash of incredulous question.

The telephone buzzer under his desk sounded; she drew close as he took up his receiver.

"Mantowoc?" he said. "I want to know what you've heard from the Solwerk. . . . You hear me? . . . The men the Solwerk picked up. You have the names yet?"

"The Benton?"

"Oh, I understand! All from the Benton. I see. . . . No; never mind their names. How about Number 25? Nothing more heard from them?"

Constance had caught his shoulder while he was speaking and now clung to it. Release—release of strain was going through him! she could feel it, and she heard it in his tones and saw it in his eyes.

"The steamer Number 25 ramed proved to have been the Benton," he told her. "The men are all from her. They had abandoned her in the small boats, and the Solwerk picked them up before the ferry found her."

He was not asking her to congratulate him upon the relief he felt; he had not so far forgotten himself as that. But it was plain to her that he was congratulating himself; it had been fear that he was feeling before—fear, she was beginning to understand, that those on the ferry had been saved.

Horror and amazement flowed in upon her with her realization of this in the man she had promised to marry. For an instant she stared at him, all her body tense; then, as she turned and went out, he followed her, calling her name. But, seeing the scaman in the larger office, he stopped, and she understood he was not willing to urge himself upon her in their presence.

"I'm willing to go home now, mother, if you wish," she said steadily.

When they had gone down to the street and were in the car, Constance leaned back, closing her eyes; she feared her mother might wish to talk with her.

Toward three o'clock, the office called her, but only to report that they had heard from Mr. Sherrill. He had wired that he was going on from Mantowoc and would cross the straits from St. Ignace; messages from him were to be addressed to Petoskey. There was no other report except that vessels were still continuing the search for survivors, because the Indian Drum, which had been beating, was beating

was trying to conceal was not entirely consequent to her coming in upon him; it had been ruling him before. It had underlain the loudness and abuse of his words which she had overheard. That was no capricious outburst of temper or irritation; it had come from something which had seized and held him in suspense, in dread—in dread; there was no other way to define her impression to herself. When she had opened the door and come in, he had looked up in dread, as though preparing himself for whatever she might announce. Now that the door shut them in alone, he approached her with arms offered. She stepped back, instinctively avoiding his embrace; and he stopped at once, but he had come quite close to her now.

As she stared at him, the clerk's voice came to her suddenly over the partition which separated the office from the larger room where the clerk was receiving some message over the telephone. Henry straightened, listened; as the voice stopped, his great, finely-shaped head sank between his shoulders; he fumbled in his pocket for a cigar, and his big hands shook as he lighted it, without word of excuse to her. A strange feeling came to her that he felt what he dreaded approaching and was no longer conscious of her presence.

She heard footsteps in the larger room coming toward the office door. Henry was in suspense. A rap came at the door. He whitened, and wet his lips.

"Come in," he summoned.

One of the office girls entered, bringing a white page of paper with three or four lines of purple typewriting upon it which Constance recognized must be a transcript of a message just received.

She started forward at sight of it, forgetting everything else; but he took the paper as though he did not know she was there. He merely held it until the girl had gone out; even then he stood folding and unfolding it, and his eyes did not drop to the sheet.

The girl had said nothing at all but, having seen her, Constance was a thrill; the girl had not been a bearer of bad news, that was sure; she brought some sort of good news! Constance, certain of it, moved nearer to Henry to read what he held. He looked down and read.

"What is it, Henry?"

His muscular reaction, as he read, had drawn the sheet away from her; he recovered himself almost instantly and gave the paper to her.

"8:35 a. m., Mantowoc, Wis.," she read. "The schooner Anna S. Solwerk has been sighted making for this port. She is not close enough for communication, but two lifeboats, additional to her own, can be plainly made out. It is believed that she must have picked up survivors of No. 25. She carries no wireless, so is unable to report. Tugs are going to her."

"Two lifeboats!" Constance cried. "That could mean that they all are 'short,' causing the superstitious to be certain that, though some of the men from Number 25 were lost, some yet survived."

Constance thrilled as she heard that. She did not believe in the Drum; at least she had never thought she had really believed in it; she had only stirred to the idea of its being true. But if the Drum was beating, she was glad it was beating short. It was serving, at least, to keep the lake men more alert.

A little later, as Constance stood at the window, gazing out at the snow upon the lake, she drew back suddenly out of sight from the street, as she saw Henry's roaster appear out of the storm and stop before the house.

She waited in the room where she was. The strain he was under had not lessened, she could see; or rather, if she could trust her feeling at sight of him, it had lessened only slightly, and at the same time his power to resist it had been lessening, too.

"I thought you'd want to know, Connie," he said. "So I came straight out. The Richardson's picked up one of the boats of the ferry."

"Uncle Benny and Alan Conrad were not in it," she returned; the triumph she had seen in him had told her that.

"No; it was the first boat put off by the ferry, with the passengers and

anyone could be revived who had been exposed much longer than that; so the Richardson's given up the search, and some of the other ships that were searching have given up too, and gone on their course."

"I see; how many were in the boat?"

"Twelve, Connie."

"Then all the vessels up there won't give up yet?"

"Why not?"

"I was just talking with the office, Henry; they've heard again from the other end of the lake. The people up there say the Drum is beating, but it's beating short still!"

"Short!"

She saw Henry stiffen. "Yes," she said swiftly. "They say the Drum began sounding last night, and that at first it sounded for only two lives; it's kept on beating, but still is beating only for four. There were thirty-nine on the ferry—seven passengers and thirty-two crew. Twelve have been saved now; so until the Drum raises the beats to twenty-seven there is still a chance that someone will be saved."

Constance watched him with wonder at the effect of what she had told. The news of the Drum had shaken him from his triumph over Alan and Uncle Benny and over her. It had shaken him so that, though he remained with her some minutes more, he seemed to have forgotten the purpose of reconciliation with her which had brought him to the house.

She dined, or made pretence of dining, with her mother at seven. Her mother's voice went on and on about trifles, and Constance did not try to pay attention. Her thought was following Henry with ever-sharpening apprehension. She called the office in mid-evening; it would be open, she knew, for messages regarding Uncle Benny and Alan would be expected there. A clerk answered; no other news had been received; she then asked Henry's whereabouts.

"Mr. Spearman went north late this afternoon, Miss Sherrill," the clerk informed her.

"North! Where?"

"We are to communicate with him this evening to Grand Rapids; after that, to Petoskey."

Constance could hear her own heart beat. Why had Henry gone, she wondered; not, certainly, to aid the search. He had gone to—hinder it?

CHAPTER XVIII.

The Watch Upon the Beach.

Constance was throbbing with determination and action, as she found her purse and counted the money in it. She never in her life had gone alone upon an extended journey, much less been alone upon a train overnight. If she spoke of such a thing now, she would be prevented; no occasion for it would be recognized; she would not be allowed to go, even if "properly accompanied." She could not, therefore, risk taking a handbag from the house; so she thrust nightdress and toilet articles into her muff and the roomy pocket of her fur coat. She descended to the side door of the house, gained the street and turned westward at the first corner to a street car which would take her to the railway station.

The manner of buying a railway ticket and of engaging a berth were unknown to her—there had been servants always to do these things—but she watched others and did as they did. She procured a telegram blank and wrote a message to her mother, telling her that she had gone north to join her father. When the train had started, she gave the message to the porter, directing him to send it from the first large town at which they stopped.

Constance could not, as yet, place Henry's part in the strange circumstances which had begun to reveal themselves with Alan's coming to Chicago; but Henry's hope that Uncle Benny and Alan were dead was beginning to make that clearer. She lay without voluntary movement in her berth, but her bosom was shaking with the thoughts which came to her.

Twenty years before, some dreadful event had altered Uncle Benny's life; his wife had known—or had learned—enough of that event so that she had left him. It had seemed to Constance and her father, therefore, that it must have been some intimate and private event.

Uncle Benny had withdrawn himself from men; he had ceased to be active in his business and delegated it to others. This change had been strangely advantageous to Henry. Henry had been hardly more than a common seaman then. He had been a mate—the mate on one of Uncle Benny's ships. Quite suddenly he had become Uncle Benny's partner. Henry had explained this to her by saying that Uncle Benny had not trusted Henry; he had been suspicious of him; he had quarreled with him. How strange, then, that Uncle Benny should have advanced and given way to a man whom he could not trust!

Uncle Benny had come to her and warned her not to marry Henry; then he had sent for Alan. There had been purpose in these acts of Uncle Benny's; had they meant that Uncle Benny had been on the verge of making explanation—that explanation which Henry feared—and that he had been prevented? Her father had thought this; at least, he had thought that Uncle Benny must have left some explanation in his house. He had told Alan that, and had given Alan the key to the house so that he could find it. Alan had gone to the house—

In the house Alan had found someone who had mistaken him for a ghost, a man who had cried out at sight of him something about a ship—about the Miwaka, the ship of whose loss no one had known anything ex-

cept by the soundings of the Drum. What had the man been doing in the house? Had he too been looking for the explanation—the explanation that Henry feared? Alan had described the man to her; that description had not had meaning for her before; but now remembering that description she could think of Henry as the only one who could have been in that house! Henry had fought with Alan there! Afterwards, when Alan had been attacked upon the street, had Henry anything to do with that?

Henry had lied to her about being in Duluth the night he had fought with Alan; he had not told her the true cause of his quarrels with Uncle Benny; he had wished her to believe that Uncle Benny was dead when the wedding ring and watch came to her—the watch which had been Captain Stafford's of the Miwaka! Henry had urged her to marry him at once. Was that because he wished the security that her father—and she—must give her husband when they learned the revelation which Alan or Uncle Benny might bring?

At Petoskey she went from the train directly to the telegraph office. If Henry was in Petoskey, they would know at that office where he could be found; he would be keeping in touch with them.

Mr. Spearman, the operator said, had been at the office early in the day; there had been no message for him; he had left instructions that any which came were to be forwarded to him through the men who, under his direction, were patrolling the shore for twenty miles north of Little Traverse, watching for boats.

Constance crossed the frozen edges of the bay by sledge to Harbor Point. Her distrust now had deepened to terrible dread. She had not been able before this to form any definite idea of how Henry could threaten Alan and Uncle Benny; she had imagined only vague interference and obstruction of the search for them; she had not foreseen that he could so readily assume charge of the search and direct, or misdirect, it.

At the Point she discharged the sledge and went on foot to the house of the caretaker who had charge of the Sherrill cottage during the winter. Getting the keys from him, she let herself into the house. Going to her room, she unpacked a heavy sweater and woolen cap and short fur coat—winter things which were left there against use when they opened the house sometimes out of season—and put them on. Then she went down and found her snowshoes. Stopping at the telephone, she called long distance and asked them to locate Mr. Sherrill, if possible, and instruct him to move south along the shore with whomsoever he had with him. She went out then, and fastened on her snowshoes.

Constance hurried westward and then north, following the bend of the shore. The figure of a man—one of the shore patrols—pacing the ice hummocks of the beach and staring out upon the lake, appeared vaguely in the dusk when she had gone about two miles. She came, three quarters of a mile farther on, to a second man; about an equal distance beyond she found a third, but passed him and went on.

Her legs ached now with the unaccustomed travel upon snowshoes; the cold, which had been only a piercing chill at first, was stopping feeling, almost stopping thought. She was horrified to find that she was growing weak and that her senses were becoming confused. She had come, in all, perhaps eight miles; and she was "playing out." She descended to the beach again and went on; her gaze continued to search the lake, but now, wherever there was a break in the hills, she looked toward the shore as well. At the third of these breaks, the yellow glow of a window appeared, marking a house in a hollow between snow-shrouded hills. She turned eagerly that way; she could go only very slowly now. There was no path; at least, if there was, the snow drifts hid it.

She struggled to the door and

"Who's Here?" She Cried. "Who's Here?"

knocked upon it, and receiving no reply, she beat upon it with both fists. "Who's here?" she cried. "Who's here?"

Life's Handicaps. It's surprising how many banana peelings are scattered over Easy Street.—Atchison Globe.

When the Plaster fell

They had a new ceiling by Evening

BY keeping a package of Cornell Panels handy you are always prepared to make quick alterations or repairs in the home, office, store, factory or on the farm. Without muss or litter, Cornell can be nailed to the joists or studding or over damaged plaster and the moment it is up, you can move right in.

Cornell is considered the most beautiful wallboard made because of its fashionable "Oatmeal Finish"; and it comes already primed for painting ("Mill-Primed").

Made of pure wood fiber by exclusive "Triple-Sizing" process, Cornell has triple the ordinary amount of resistance against moisture, expansion, contraction, sound and change in temperature.

Why buy ordinary wallboard when you can get real Cornell by coming here?

East Jordan Lumber Co

"Think twice and build but once by getting materials that endure"

Golf.
Golf is a game of pool played in a cow pasture instead of on a table. It consists in placing a white pill on an ant hill and then seeing how far one can knock said pill with a club. After having driven the pill a mile, more or less, the next hour is spent in trying to find it. When found, it is dropped in a hole and then the performance is repeated 17 times with 17 or so more pills.—Standard Player Magazine.

Sarcastic Summing Up.
A client of Sydney Bartlett's wanted William M. Everts retained as associate, Bartlett assented, but somewhat ungraciously. The client, after the argument of the case, asked Bartlett how Everts spoke. "Oh, very pleasantly," said Bartlett. "There was a vein of ratiocination running through all that verbiage—attenuated at times, it is true, but never wholly lost."

Pressure Produced Diamonds.
In 1905 Sir Andrew Noble exploded cordite in closed steel cylinders and calculated that he had attained a temperature of over 5,000 degrees Centigrade and a pressure of 50 tons to the square inch. Some of the carbon produced under these conditions was examined by Sir William Crookes, who found it contained minute diamonds.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Mrs. M. A. LeMieux returned to Flint, Wednesday, after a three weeks visit at the home of her daughter, Mrs. C. J. McNamara.

Mr. and Mrs. Fred Vogler and daughter of Frazee, Minnesota, are visiting at the home of her parents, Mr. and Mrs. Maurice M. Gorman.

Mr. and Mrs. M. H. Robertson arrived home this week after spending the winter in St. Petersburg, Florida and also visiting their daughter, at Cleveland, Ohio.

Alabastine will not rub off. adv.

City League Officially Opened

Unlucky Thirteen Proves Lucky Scores for the Winners.

The East Jordan Base Ball League successfully inaugurated their base ball season Wednesday afternoon when before a fair sized crowd on the high school base ball grounds the Mason-Pres. defeated the Holy Name team by a score of 13 to 9 and the Methodist defeated the K. P. - I. O. O. F. team by a score of 13 to 8.

The season was opened with the usual formalities, Mayor Dicken pitching the first ball. It was impossible to tell whether this was an in or out, an up-shoot or a drop—it was possibly a combination of all four. "Hank" Cook, our Chief of Police, was supposed to have received the pitch, but because of his extreme modesty he could not be induced to disport himself behind the bat. After the ceremonies were over, the old boys got into action to the accompaniment of a great creaking of bones. It was apparent that both the hinge and the ball and socket joints were badly in need of lubrication. The old "has-beens" were ready to play base ball only in spirit. The will was there, but the youth was gone until the good May sun loosened up the old muscles and brought to such former base ball stars as Dr. Parks, Sid Sedgman, Enoch Giles, Dr. Bechtold and Watty Watson some of their old-time "pep" and youth. When the smoke had cleared away after the first battle it was found that these old boys had it all over such youngsters as Joe Kenny and his outfit. It was a good game from the spectators standpoint—now and then a brilliant fielding stunt, and then again one not so brilliant was pulled off by the "Has-beens" and "Could-be" base ball players. But for a bunch of men who have been out of the game for so long and having had practically no practice both sides put up an exceptionally good game of base ball.

In the second game the work of the Methodist battery was far superior to that of the K. P. - I. O. O. F. Joe Ekstrom, manager of the Methodist team, has been scouring the bush league for talent and apparently has picked up an exceptionally good pitcher in Davis and has resurrected a good old catcher in Court Hayes. It was very apparent that the Methodist are not going to be the tail-enders in the out-door base ball league. The K. P. - I. O. O. F. had apparently too big a list of eligibles to pick from and lacked in team work. They have some good individual players and undoubtedly before the season is very old this team will demonstrate that it must be respected. The Holy Name has a good bunch of fairly young material and undoubtedly will be "raring" to go in the next game.

There was some misunderstanding as to where the Wednesday games are to be played. All games in this League will be played on the High School Base Ball grounds until further notice. The admission fee is ten cents per person. This includes men, women and half-grown children. It is expected that in the near future bleachers will be provided which will take care of the crowd.

The next games will be played commencing sharply at 1:30 p. m. on the High School grounds next Wednesday, May 31st, and the East Jordan Military Band will make its first appearance.

THE RIGHT THING at the RIGHT TIME

By MARY MARSHALL DUFFEE

WHEN TO READ.

What do you read?—Shakespeare.
A YOUNG bride writes with the following complaint: "My husband's older brother, who is making his home with us, insists on reading his morning paper at the breakfast table. This is annoying to me and I feel that it is an act of discourtesy to me. Although my husband himself does not do it he says it is quite all right for his brother to do so. What do you say about it?"

It is so usual for our busy husbands and fathers and brothers to read the paper over their breakfast, often because they feel that is the only time they have to do so, that it would be unfair to say that they are thereby doing us an act of discourtesy. However, I do agree with you that it is not very good manners. Where one does not have the excuse of reading the paper because it is the only opportunity to do so at breakfast then it is less pardonable than otherwise. If it is quite clear that the reading is simply actuated by curiosity and impatience then there is even less excuse for it. The fact is that with many families meantime is the only opportunity for friendly leisurely intercourse and where one person chooses to put a damper on that spirit he is acting in a decidedly unsocial manner.

If a person breakfasts alone that is another matter. Then he may read the paper for companionship. So in a hotel restaurant when you occupy a table by yourself you are not showing bad manners; to do so though if you must eat at a table with other persons even if they are strangers to you, you are not showing very much politeness if you prop the paper up before you. The practice of paper reading has become so general at breakfast time that there are little metal paper props in the stores for which there is considerable demand, making it possible for one to eat undisturbed and have one's paper held at a convenient angle before him.

There is really no reason why one should not read a paper in the car or train though, of course, the courteous man or woman will contrive to hold the paper or magazine or book so that it does not annoy his neighbors or so that his elbows in holding it do not protrude. It is extremely discourteous to read paper or magazine at a lecture, or any performance. If this does not actually embarrass the performers it is the kind of thing that detracts from the enjoyment of the other members of the audience. And never, never read when some one is talking to you. To be sure, you may be able to attend to what is being said to you and sense what you are reading at the same time, but it is the sort of discourtesy that is almost never excusable.

A LINE O' CHEER

By John Kendrick Bangs.

ALL ABOARD!

YOU Reader of this Rhyme
Are you running well on time?
Do you keep your rails all clear?
For the Special trains of Cheer?
Are your trains of Sympathy
Running through from A to Z
With no side-tracks to delay
Progress or the right of way?
Are the switches wisely set
Lest you detour to Regret?
Do your schedules give good head
To the shadowed Land of Need—
And your Terminals today—
Tell me, Brother, what are they?

Take 'Em Away.

Daughter Willis—Papa, do you call
I take singing lessons?
Papa Willis—Not if you take them
away.—Life.

The Antenna.

The Tuner.

RADIO

HOW AMATEUR CAN BUILD A RECEIVER

Instructions for Setting Up the Antenna and for Assembling the Tuner.

In order to pick up sufficient energy with the simple radio receiving set it is necessary to connect one terminal to an antenna consisting of one or more wires suspended in the air and insulated from all grounded material and the other terminal to a ground, usually the water supply pipe. The height of an antenna used with a small receiver should not be less than 50 feet. As the received energy varies directly as the height of an antenna, the higher the antenna the louder will be the signals or voice produced. The length of an antenna for short wave reception should not be less than 50 feet nor should it be longer than 200 feet. The minimum wave length to which a simple receiver can be adjusted for electrical resonance will be above that used by amateurs if the receiver be connected to an antenna 200 feet or more in length.

A simple radiophone receiver, capable of picking up radiophone stations similar to KDKA at East Pittsburgh, can be assembled by a novice for from \$4 to \$15, depending upon the builder's ability to use his hands. If the builder will construct most of his apparatus he will appreciate it much more and probably will understand more about its operation than if he buys a set already made. However, for those who have not the ability or the time to spend constructing the receiver will not only give the details as to the construction of each component part of a receiver but also what standard ready-made parts can be purchased and used in its stead.

The material can be purchased at any electrical supply store. In erecting a simple antenna for use with the receiver shown in the diagram, the antenna proper and the lead-in are of stranded hard-drawn copper wire, strand No. 22, costing about 1 cent per foot. The two insulators are of molded material and can be purchased for about 25 cents each. The antenna shown is supported between a house and a pole. It may be found more convenient to support it between a tree and a house, two houses or even between two chimneys on the same house. In bringing down the lead-in care should be taken that it is kept as far away from grounded material as possible and when bringing through the wall or under the window into the house it should be brought through some sort of an insulating tube, such as rubber or bakelite.

In making the ground connection the same kind of wire can be used as was purchased for the antenna. You can clean a section of the water pipe thoroughly and solder the ground wire to it.

MAKING THE TUNER

To make a tuner for this receiver, the following raw material will be required:

- Piece of cardboard tubing three inches outside diameter and five inches long, costing about 10 cents.
- 100 feet No. 22 double cotton-covered magnet wire costing 25 cents.
- Standard slider (see sketch) for 1/4 by 1/2 brass rod, 40 cents.
- 1 six-inch length of 1/4 by 1/2 brass rod (square) 20 cents.
- 2 binding posts (see sketch) 20 cents.
- 2 circular blocks of wood whose diameter is just equal to the inside diameter of the piece of cardboard tubing and between 3/8 and 1-2 inch thick.

Some shellac or varnish is also required.

Starting one-half inch from one end of the cardboard tube wind on the No. 22 D. C. wire within one-half inch of the other end of the tube. Fasten one end of the winding to the tube but allow some surplus wire on the other end for making a connection. After the winding is in place give it a coat of shellac or varnish to hold the turns in place. Assemble the circular-cut pieces of wood in the geometrical center of the square blocks and then shellac or varnish them for the appearance's sake.

When thoroughly dry, slip the two end blocks into the wound tube and by means of a few finishing heads driven through the cardboard tube, fasten the end blocks to the wound tube. The slider is to be mounted on top of the coil and should be capable of making contact with any turn of the wire on the tube. In order to remove the insulation from the wire just under the rod where the slider moves back and forth, wrap a piece of sandpaper around a thin piece of wood and using another piece of wood as a guide, sandpaper the insulation from the winding. Drill a hole one-eighth inch in diameter through the slider rod about one-fourth inch in from each end so that the rod can be fastened by screws to the end blocks. After the slider rod is fastened in place see that the contact finger on the bottom of the slider can at all times make good contact with the winding. Mount a binding post on either end of the coil, attaching one by means of a wire to the slider rod and the other to the end of the wire wound on the tube and the tuner is complete. A tuner can be purchased already assembled for about \$3.50 to \$4.00.

LINKING MOVIE AND RADIO

British Scientists Have Some Success in Wireless Transmission of Motion Pictures.

British scientists are reported to have met with more or less success in developing a method of transferring motion pictures by radio. Some months ago a photograph was transferred by wireless from the Copenhagen newspaper, the Politiken, to England, and later from England to a ship in mid Atlantic, so that the possibility of linking the movies with the new art is not remote.

If perfected the new development of the already versatile art will make it possible for one to see on his own receiving instrument things that are happening at a great distance. For instance, a ship is sinking at sea, the transmitting station of the vessel, instead of sending a message of the disaster, sends a picture that anyone with a receiving set will be able to see just as the present broadcasting programs are heard.

That all sounds remote now, but the telephone was considered even more so, and the wireless, even after Marconi's immortal message had bridged the Atlantic, was generally believed to be akin to the idea of perpetual motion.

TIPS TO THE RADIOIST

A crystal detector cannot be satisfactorily amplified. Insulate ends of aerial wires with several small insulators. Wherever possible run aerial wires at right angles to electric light wires. The lead wire should be the size of the combined number of wires in the aerial. Gas piping makes a poor ground, but the cold water pipe ground is excellent. A crystal detector is never as efficient as a vacuum tube detector no matter what instruments are connected to it. Within three to five miles from a broadcasting station indoor one wire aerials about 40 feet long stretched from room to room, are generally satisfactory with crystal detectors.

Something to Think About

By F. A. WALKER

ONE THING AT A TIME

THE successful worker, whose achievements are greatest at the end of the day, is he or she who does but one thing at a time, and refuses to leave it until it is finished.

Such a worker never vacillates between one duty and another. There is no undue confusion in the mind by wavering.

By putting off the seemingly difficult task for the easier.

Everything is taken up as it comes, completed in every detail, ready for the scan of the master at the top.

The worker who flits from pillar to post, starts in one direction and suddenly sets his face in another, never really gets anywhere.

He is lacking of stability, and at the end of the year he is about where he began, with no prospect of advancement and no hope of improvement. Indeed, in spite of his feverish, hurried efforts, he is slipping down grade.

Doing the job in hand and sticking to it until it is done to the very end is the only way to achieve success.

Train yourself to do this. In a little while you will find that you are getting speed with less friction. There will be no more irritability and lassitude at the end of the day.

Instead of going home at night in an ill humor, with every nerve tingling and on edge, you will find that your brain is clear and your thoughts at rest.

This, you will discover later, is because of the orderly method adopted of taking up but one subject at a time and not letting it go until you have no further use for it.

One of the foremost merchants of New York, confronted with thousands of serious questions every day, has formed the habit of returning to his home at night as care-free as a school boy during vacation season.

When he leaves his desk, he leaves his perplexities.

The next morning he comes to bright-eyed, light-hearted, eager to get in the fray.

If by chance the first encounter should happen to be troublesome, he dispenses with it before proceeding to another.

There is no loss of time, no trying of nerve force in fitting from one problem to another.

He drives straight ahead and makes decision after decision without the slightest sign of flurry.

And you, however burdened you may be, can do the same if you hold unwaveringly to the same course.

KIDDIES SIX

By Will M. Maupin

THE BIGGEST BOY

THE "Biggest Boy" is not at home—
He "flew the nest" last night.
I knew the day was bound to come,
And yet tears dim my sight.
The "Biggest Boy" has said goodbye,
And gone to play his part
On life's grim battlefield, and I
Am lone and sad of heart.

The "Biggest Boy" said "Goodbye
Dad!"
And "Dad" said, "Goodbye, son!"
And then the boy with head erect,
Went forth—his work begun.
And over in the corner there
"Dad's" eyes will fall upon
The "Biggest Boy's" now vacant chair,
And miss the boy that's gone.

The "Biggest Boy" gulped back a sob
When on his lips was pressed
The little mother's goodbye kiss,
When mother's hands caressed.
And then he smiled and went his way
To fight and win, or die;
While "Dad" and mother could but
say,
"God bless you, son; goodbye!"

The "Biggest Boy" is in the ranks
Of that great fighting band
That seeks by arts of toil and peace
To uphold this fair land.
And "Dad" and mother fondly hope
As only parents can,
The "Biggest Boy" will do his part,
And do it like a man.

Bird Photography.

Bird photography has the great advantage that it does not destroy, but helps to preserve. Those who have watched a bird for days together from a hiding-tent will never wish to kill the creature whose most life has been displayed before their eyes.—Julian Huxley in "Discovery."

The Gentle Hunter.

"Personally, you know, I am very fond of hunting. But, then, you see, I belong to the society for the protection of animals. However, I found a way out of my difficulty. Whenever I go hunting I use blank cartridges."—La Ballonette.

Daily Thought.

Truly there is a tide in the affairs of men; but there is no Gulf Stream setting forever in one direction.—Lowell.

FOR MEN, WOMEN AND CHILDREN

Young or old, man or woman, all find in Foley's Honey and Tar a pure, pleasant, wholesome, safe and successful remedy for coughs, colds, croup or whooping cough—particularly if taken promptly. Chas. Woods, 2 Gable St., S. S., Pittsburgh, Pa., writes: "I will not be without it in my house." Hite's Drug Store.

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist. This sulphur preparation, because of its germ destroying properties, never fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Mentho-Sulphur is applied like any pleasant cool cream and is perfectly harmless. You can obtain a small jar from any good druggist.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back Hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then set free. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.
