EAST JORDAN, MICHIGAN, FRIDAY, JUNE 16, 1922.

No. 24

EAST JORDAN TO CELEBRATE IN A CELEBRATED STYLE

PLANS BEING MADE FOR BIG "FOURTH OF JULY" OBSERVANCE FOR CHARLEVOIX COUNTY AND THIS REGION.

Plans for the big celebration in East Jordan July 4th are rapidly taking shape. Committees have been appointed and are hard at work on the various details of the celebration.

It is known at this time that there will be a big street parade in the morning followed by a baseball game at the High School grounds. Just who will play this game has not been definitely decided, that there will be a big baseball game at the same place in the afternoon; that two bands will furnish music; that the business section will be roped off and automobiles and vehicles excluded from those portions of the streets; that there will be street and water sports, a big fire works display at night and an especial effort made to look after the comfort of our guests.

East Jordan has not celebrated since it put on the big "Welcome Home" celebration for the soldier boys. That celebration has gone down in history as being the very best from every point of view ever held in the State of Michigan. There may have been bigger celebrations, but never a better one. The people of Northern Michigan, ever since that celebration have had a kindly feeling for the City of East Jordan because of its hospitality and thoughtfulness in looking after their comfort and entertainment.

It is the aim of the American Legion, the business men and the citizens of East Jordan to hold even a bigger celebration this Fourth of July than that was and with that end in view and with the heartiest co-operation from all of our citizens great plans are being made by the various committees in charge and these committees ask of all business men and of all the people of the City of East Jordan that on this Fourth of July and at this celebration they be especially courteous and thoughtful of the comfort of the city's guests.

At this writing the committee on funds are soliciting the various citizens of East Jordan for donations to make this celebration possible. This committee has with them a list on which has been placed the amount that has been assessed to the individual or manufacturing concern. The committee asks for a donation and if it is larger than the amount assessed the donor receives a smile and a Thank You and if it is under the assessment that he is expected to contribute, of course, he then comes across.

Advertising material is rapidly being distributed, but it is expected that the citizens of East Jordan will each one constitute himself or herself an advertising medium and spread the good news to all communities that East Jordan is putting on a real celebration this Fourth of July.

Perhaps you have relatives who were in the World War or friends who were guests at our last celebration and who would be very glad to return for another celebration so that they might meet with as many of their old comrades and friends as possible. If so, write and tell them about this celebration and urge them to come home. Everyone of you make this a personal matter and let us celebrate the old Fourth of July as it never was celebrated before.

A list of committees and further information will be published later.

Codfish as Old as History.

Codfish is said to be the world's most important fish. Few fish are more prolific. It has been asserted that one weighing 75 pounds will contain over 2,000,000 eggs. The cod is practically omnivorous, finding means to supply great schools wherever food of any sort is found. It is found in many parts of the world other than the North American "banks," and it is said that it has been fished for by fishermen of recorded history and, of course, for uncountable centuries before man began to make written records.

The Pillsoll Line.

By the Pillsoll line is meant the spark on a ship, which, by the British merchant shipping act of 1876, forced through parliament by Samuel Pillsoll, must be visible above water, thus preventing overloading.

NORTHERN MICHIGAN B. B. SCHEDULE

The schedule of games in the Northern Michigan baseball league for the season of 1922 is as follows:

June 18
Charlevoix at East Jordan.
Mancelona at Harbor Springs.
Boyer City at Gaylord.
Pellston at Petoskey.

June 25
East Jordan at Pellston.
Petoskey at Mancelona.
Harbor Springs at Boyer City.
Gaylord at Charlevoix.

July 2
Mancelona at East Jordan.
Gaylord at Pellston.
Boyer City at Charlevoix.
Charlevoix at Harbor Springs.

July 9
East Jordan at Gaylord.
Mancelona at Charlevoix.
Petoskey at Harbor Springs.
Pellston at Boyer City.

July 16
Harbor Springs at East Jordan.
Boyer City at Mancelona.
Petoskey at Gaylord.
Pellston at Charlevoix.

July 30
Boyer City at East Jordan.
Mancelona at Gaylord.
Charlevoix at Petoskey.
Pellston at Harbor Springs.

August 6
East Jordan at Charlevoix.
Harbor Springs at Mancelona.
Gaylord at Boyer City.
Petoskey at Pellston.

August 13
Pellston at East Jordan.
Mancelona at Petoskey.
Boyer City at Harbor Springs.
Charlevoix at Gaylord.

August 20
East Jordan at Mancelona.
Pellston at Gaylord.
Petoskey at Boyer City.
Harbor Springs at Charlevoix.

August 27
Gaylord at East Jordan.
Charlevoix at Mancelona.
Harbor Springs at Petoskey.
Boyer City at Pellston.

September 3
East Jordan at Harbor Springs.
Gaylord at Petoskey.
Mancelona at Boyer City.
Charlevoix at Pellston.

September 10
Petoskey at East Jordan.
Pellston at Mancelona.
Boyer City at Charlevoix.
Harbor Springs at Gaylord.

PLAYED
June 11
East Jordan at Boyer City.
Gaylord at Mancelona.
Petoskey at Charlevoix.
Harbor Springs at Pellston.

IONIA MAN HEADS LAWYERS

State Bar Association Elects Officers at Saginaw Meeting.

Saginaw, Mich.—George E. Nichols, of Ionia, was elected president of the Michigan State Bar association, here at the convention. Grand Rapids was awarded the 1923 convention. Other officers chosen are: Vice-president, George W. Cook, Flint; secretary, Professor E. R. Sunderland, Ann Arbor; treasurer, William E. Brown, Lapeer.

Directors at large, C. W. Perry, Clare; Burrett Hamilton, Battle Creek; Claude Carney Kalamazoo; George Clapperton, Grand Rapids; J. O. Murfin, Detroit; W. W. Potter, Lansing.

EX-YANK IS HELD AS SLAYER

British Court Imposes Death Sentence, Then Grants Respite.

London—A respite has been granted in the case of Ronald True, the ex-aviator, once a resident of the United States, who was sentenced to death recently for the murder of Gertrude Yates, found dead in a bathroom of her home last March. This respite followed a medical inquiry. True will be sent to the Broadmoor criminal lunatic asylum.

Opening Game Here Sunday

Charlevoix vs. East Jordan N. M. League Teams.

The opening game to be played on the home grounds for the Northern Michigan League Base Ball will be held at the fair grounds this coming Sunday June 18th. Game called at 2:30. Admission 35 cents.

The East Jordan bunch of players are the making of a strong team. Johnson of Gaylord pitched last Sunday for East Jordan at Boyer City and showed up remarkably good. He will be in the East Jordan line-up Sunday against Charlevoix.

The Boyer City Game

East Jordan lost the opening game of the season to Boyer City last Sunday by a 6 to 1 score. Boyer City only secured six hits off Johnson and had our local team held some batting practice the score would have read different.

Those in the line-up for East Jordan were: F. Bennett, 2b; D. Bennett, 1b; Ed. LaLonde, cf; H. Kamradt, c; R. Davis, lf; Leo Plamondon, 3b; Morgan ss and 3b; Art Kamradt, rf; Johnson, p; Cort Hayes, ss.

FINE MUSICAL TREAT GIVEN BY THE HIGH SCHOOL CHORUS

Music Lovers of East Jordan were given a treat, the evening of the 7th inst. when the high school chorus, under the efficient leadership of their director, Mrs. A. J. Duncanson, presented the three part Cantata "The Mound Builders," by Paul Bliss. The score is founded on tribal melodies, secured by Mr. Bliss during a long period of personal study among the Indians.

When we remember that our school has been without a special music teacher for seven years, we can realize the difficult task of drilling a chorus of seventy untrained voices, very few of which can read music.

The same argument that holds true in athletics—the training for co-operation—is equally true of ensemble singing; whether responding to the signals of an athletic coach or to the sway of a conductor's baton, the result is the same and East Jordan may well be proud of the way her high school chorus responded to the conductor's direction.

Much credit is also due, their accompanist, Miss Emma Lou Hoyt, for the splendid instrumental background she provided for the musical picture they presented and the chorus is indebted to her for her faithful work, during these weeks of practice.

It is to be hoped the patrons of the school will recognize its importance and insist that "Public School Music" be made a regular part of our curriculum, as it is in nearly every school of its size in the State, and at no distant date our children will read a musical score as readily as a page from their reader.

When the State Supt. of Public Instruction of Ohio spoke at our County Fair a few years ago he expressed the greatest amazement when informed that East Jordan had no music teacher in her schools.

No other subject can ever furnish the moral uplift that an understanding of the best type of music supplies and surely the children of East Jordan should not be deprived of its refining, purifying influence.

Musical leaders are viewing with relief the receding wave of immoral "jazz" that has swept over the world since the war (of which it was the inevitable result), and the growing public demands real music in its stead.

In the "Mound Builders" we were given an example of primitive American music, translated by a skilled artist and it is to be hoped it will only prove to be the forerunner of many other Choral works to be given by the High School Chorus under Mrs. Duncanson's splendid leadership.

An Involuntary Knock.
Bazaar announcement: "We hope for a big attendance. If you cannot come yourself, purchase tickets and give away to those less fortunate."—Boston Transcript.

Snapshot of the Sex.
A woman may shut her eyes to the truth about herself, but she never turns a deaf ear to the truth about her neighbors.—New Haven Register.

B. O. HAGERMAN
Co. Agricultural Agent, Boyer City.

BUILD ROGUE'S GALLERY FOR UNADAPTED SEED

To inform Michigan farmers on alfalfa and clover seed coming into the state and to determine the alfalfa best adapted to Michigan conditions, the Farm Crops department of the Michigan Agricultural College is conducting a great series of alfalfa and clover test plots on the college farm. Visitors to the college are invited to inspect the plots. Call on the farm Crops department.

As one of the largest seed distributing agencies in the state and a co-operative institution which believes the best seed is none too good for Michigan agriculture, the State Farm Bureau seed department is co-operating with the College Farm Crops department in these tests by turning over to the College for testing all the Grimm, Cossack and common alfalfa it obtains from the northwest seed growers associations. The sample lots of seeds undergo comparative tests under the careful observation of College specialists. Michigan produces but very little of the vast volume of alfalfa seed she consumes.

The Farm Bureau takes every precaution to see that the seed it buys outside the state is true to name, adapted, pure, of high germination and otherwise meets Michigan conditions. The Bureau deals only with trustworthy associations of growers who stand behind their product. Even so the seed comes from different sections of the northwest country and the production conditions vary somewhat. One question to determine is "What is the best seed for Michigan conditions?"

TESTS TO TELL STORY
To answer the above question and also to demonstrate the unfitness the College has laid out a series of test plots. A sample of every seed shipment the Farm Bureau brings into the state is tested there, ticketed down to the growers name. Side by side with Idaho Grimm, Idaho, South Dakota and Utah common, Hardigan Alfalfa (the new Michigan variety), and Michigan and northwest grown clovers are test plots of Arizona, Turkestan, California, French, Italian, Spanish and Peruvian alfalfas and clovers obtained through the U. S. Department of Agriculture.

The test has been running one year; so only the very weakest strains suffered, for it is the second and third winters that are most trying on alfalfa. May 16 the plots, also the Michigan and northwest grown clover seed plantings were shown high, even, luxuriant and healthy growth. There was almost no winter killing and few foreign plants, such as red clover or sweet clover in the alfalfa.

The Arizona, California, Turkestan, French, Italian and Spanish alfalfas and clovers tell a different story. Even with the mild winter of 1921 they suffered considerable winter killing. Most of the plots were patchy. The California alfalfa looked weak. Weeds were present. The growth was uneven and stunted in spots. Peruvian alfalfa, much of which now finds its way north was almost entirely killed out. Absolutely worthless for Michigan.

ADAPTION IS GUARANTEED.
There is just one way to make sure that one doesn't get any of this questionable seed and that is to buy seed from an organization that guarantees to the full value of the seed that it is Michigan adapted, and northern grown, pure, of high germination test, an organization that can give the name of the grower. Only the Mich. State Farm Bureau seed department makes such a guarantee in Michigan. The bureau seed department is building its business on the distribution of reliable, clean, quality seed to Michigan farm bureau members. You can rely upon the department.

MICHIGAN WOOL PRICES HIGHEST IN TWO YEARS.

Wool is hard to get and the price is still going up.
Many local buyers have not yet heard that Michigan delaine wool is quoted at 51c a pound f. o. b. Lansing and that rejects have been sold by the pool at 33c f. o. b. Lansing.
Wool consumers are still scrambling for wool. South American stocks have

been coming up and comparatively little is coming into this country from overseas. Foreign countries report a tight market situation.

According to the May business conditions report of the Chicago Federal Reserve Bank the price paid many producers is about 100 percent better than in April 1921.

The tariff situation, scarcity of good grade of wool, advancing foreign markets and recent improvements in the woolen industry are factors that are adding strength to the market, the Reserve Bank report said.

Last week Michigan wool was worth as follows, f. o. b. Lansing.
Delaine.....51c 3-8 Clothing...40c
Fine clothing...40c 1/2 Combing...40c
Half staple...45c 1/4 Clothing...35c
3-8 Combing 43.44c 1/4 Low&braided...34c
Rejects...33c

The wool grading date for Charlevoix County will be July 5th at the Charlevoix Co-operative Association building, at Charlevoix. A 40 per cent advance of estimated value will be made that day.

Final settlement on all 1921 checks is expected to be made within the next ten days.

Don't sell your wool at reject prices

Harvesting Sweet Clover for Hay

The stage of growth at which sweet clover is cut determines very largely the quality of the hay secured. SWEET CLOVER SHOULD BE CUT JUST BEFORE THE BLOSSOM BUDS APPEAR. If allowed to come into bloom, the stems become woody, the leaves fall off and a very poor quality of hay results.

THE HEIGHT OF CUTTING IS VERY IMPORTANT. The second or sweet clover does not propagate from a crown as does alfalfa, but propagates from buds in the axils of the branches and leaves on the lower portion of the stalk. If the first cutting of the second year is made below the young branches, which bear the leaves, the stand will be destroyed and the second crop will not be secured. Tests show that the best height is from six to eight inches high.

Curing Sweet Clover Hay.

Sweet clover is more difficult to cure into hay than either alfalfa or red clover. This is largely due to the amount of moisture contained within the plant at the time of cutting, causing the shattering of the leaves from the stems before the stems have cured out.

One of the most successful methods of curing sweet clover hay is to allow the plants to wilt in the wash, then windrow with a side delivery hay rake and a few hours later place in small upright cocks. The hay should be in cocks before the leaves have dried out sufficiently to crumble or shatter. The hay is then left in the cock until cured sufficiently to put into the barn or stack. This may be only two or three days or may be two weeks depending upon weather conditions. The small cocks may be handled with practically no loss of leaf.

WARDENS PINCH 'ADAM AND EVE'

Couple Living Primitive Life Runs Amuck of Game Laws.

Holton, Me.—Mr. and Mrs. Carla Sutter living as "Adam and Eve" were arrested by game wardens, charged with violating game laws. Mr. and Mrs. Sutter entered the Maine woods several weeks ago without clothes, without means of making a fire, or any other civilized implement for the purpose of proving they could subsist as a primitive man and woman.

MAN DROWNS TRYING RESCUE

Jumps in River in Attempt to Save Three Girls.

Wausau, Wis.—Three young women and a man, who went to their rescue, were drowned in the Wisconsin river during a picnic. The dead are Ethel Genrich, Margaret Bradley and Dorothy Hawks, and Martin Hannemann. The girls had ventured into deep water and Hannemann tried to go to their assistance.

Poincare Still Fears Germany.

Paris—Referring to Germany's reply in an otherwise dull debate in the Chamber of Deputies, M. Cachin, Communist, declared that even newspapers supporting the Premier's policy were saying that all danger of a crisis with Germany had been dispelled. "But I do not say so," interrupted Premier Poincare. M. Sembat, Socialist leader, said France was to be congratulated that the eventuality of the irreparable mistake of occupying the Ruhr was no longer to be feared.

EAST JORDAN PUBLIC SCHOOLS

East Jordan in Typing Contest

East Jordan High School sent one representative to the State Typing and Shorthand Contest held at Kalamazoo. The news may be a week late but at the same time it is due the people interested in our commercial department to know that Miss Olga Wagbo got fifth place for first-year shorthand people at Kalamazoo. When you consider that there were three times as many schools at the contest as ever before it shows that our commercial department is on a high plane and that Miss Filkins, head of the department, as well as Miss Wagbo deserve congratulations. By the way Miss Wagbo showed her spirit and determination by paying her own way to this contest. If Miss Wagbo enters the shorthand and typing another year, she perhaps would win greater honors.

A Remarkable Record

Miss Helen Stroebel has attended the East Jordan Public Schools for the last nine years without being absent or tardy once. Seldom, if ever, do you find such a record. The story seemed worth mentioning in the paper and in this way to congratulate Miss Stroebel upon this mark of distinction. I find that many times Miss Stroebel came to school when most people would remain at home. Such a trait in ones makeup cannot help but land her in a place of distinction.

In last week's paper in looking over the list of standings, it was mentioned that six seniors had a mark of 95 per cent or better, but the name of the sixth was inadvertently left out. That person was Miss Virginia Pray who has a mark of 95.4 per cent, and Miss Inez Colden 95.3 per cent. Both of these marks would admit their possessors to valedictories and salutatories in many schools.

Baseball Game at Petoskey

East Jordan will play Traverse City High School Baseball game at Petoskey Tuesday, June 20th at 2 o'clock p. m. Traverse City brings 600 people by boat. We would like to see a large crowd of East Jordan citizens there.

FORMER OFFICIAL IN TAFT CABINET DIED LAST WEEK

RICHARD A. BALLINGER

Seattle, Wash.—Judge Richard A. Ballinger, secretary of the Interior during President Taft's administration, who died, June 6, at his home in this city after an illness of two days. The death of Mr. Ballinger marks the passing of one of Seattle's most prominent citizens.

REFUNDS SHORT-DATED BONDS

About Half Billion of U. S. Victory Notes Are Exchanged.

Washington—Secretary Mellon will this week refund about one-half a billion dollars of the six billion dollar debt.

While the amount of the new three and one-half year four and one-half per cent treasury notes which will be accepted in exchange for four and three-fourths per cent notes has not been determined, it was thought probable that as much as \$500,000,000 of the victory notes would be exchanged.

There are approximately \$2,300,000,000 outstanding of four and three-quarters per cent victory notes which mature in May, 1923.

Peoples' Wants

MUNNIMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents.

Lost and Found

FOUND—License Plate No. 105M, Thursday, owner may have same by calling at Herald Office and paying for this notice. 24 t.f.

Wanted

WASHINGS WANTED—am prepared to do your family washing in a satisfactory manner. Mrs. Frank Habel, phone 106-F4. 21-3

Help Wanted

ACTIVE REPRESENTATIVE—Wanted by large wholesale house of high standing. Unlimited earning possibilities with opportunity to build permanent trade selling complete line of staples in constant use. A connection with a real future. State age and full details. JOHN SEXTON & CO., Chicago, Ill. 24x

WANTED—Single man on farm, must be able to handle team. J. L. ZOULEK, Phone 178-F13. 19t

For Sale—Real Estate

EIGHT-ROOM RESIDENCE for Sale or Rent. Also PIANO for sale at a bargain. Mrs. C. Walsh. 24

EIGHTY ACRE FARM FOR SALE OR RENT.—Fifty rods to school, one-half mile to Phelps station. Good buildings. H. M. COLDREN, Bel- laire Mich. 11 t.f.

EIGHTY-ACRE FARM FOR SALE.—The east half of southwest quarter of Sec. 33, South Arm township. Forty acres improved, about 20 acres second growth trees. Small dwelling.—ESTATE HERBERT L. OLNEY, Ada M. Olney, Adm'r, R. 3, East Jordan. 11 t.f.

For Sale—Miscellaneous

DELAVAL CREAM SEPARATOR for Sale. In good condition—practically new.—FRANK HEJHAL, Route 4, East Jordan. 24x

CABBAGE & TOMATO PLANTS for Sale—Ten Cents per dozen. J. A. NICKLESS. 24 x

For Sale—CANARY BIRDS at \$5.00 each.—Mrs. MAURICE GEE, West Side. 23 x 2

For Sale—CHILD'S BED—Nearly new. Inquire of MRS. GLENN BULOW. 22-tf

PORT HURON 12 h. p. TRACTION Engine; CASE SEPARATOR, 24x42 cylinder; 4 CLOVER HULLERS, concaves. Can thresh timothy or clover seed. Above outfit FOR SALE, complete with attachments for \$350.00, cash or bankable paper. HENRY SUTTON, Route 5, East Jordan. 22-tf

IF YOUR FARM or Country Home is for sale, write No. commission charged. CLOVERLAND FARM AGENCY, Powers, Mich.

—FOR SALE—VEGETABLE and FLOWER PLANTS Tomatoes in variety, Cabbage, early, mid-season and late. Celery, Cauliflower, Egg Plant, Sweet Peppers. Pot grown flower and vine plants. Place orders and have reserved. THE GARDENS OF MOKOTON, Emerson W. Price, Ironton, Mich. 18 t.f.

TWO DOGS ARE FIRE HEROES

New York Canines Give Alarm When Flames Threaten—Woman Loses Life.

New York.—Dogs were the heroes at two fires, one of which resulted in the death of Mrs. Ellen Isaac, eighty-three, who burned to death in the presence of her husband, Mark, eighty-four, who was befeasted and powerless to help her. She staggered into his bedroom after her dress had caught fire from a kitchen stove and collapsed.

Tobey, a neighbor's dog, ran to the apartment of Mrs. Thomas McNamara, his mistress, took the edge of her skirt in his teeth and drew her toward the Isaac apartment. She and her husband wrapped a tablecloth about Mrs. Isaac, extinguishing the flames, but the woman died before a physician could be summoned.

Teddy, a Pomeranian owned by Benjamin Hollan of 363 St. John's place, Brooklyn, aroused his master when a fire started in the house, and Hollan notified a policeman, who turned in an alarm.

Aster Hardy Perennial. The aster is one of the hardiest perennials, and is spread throughout the world. Most of the numerous varieties belong to North America and are found in abundance in the fields. They bloom mostly from the middle of July until the first frost and are a prominent feature of most flower stores. Asters may be sown as early as the middle of March.

As in Football. Life is full of ups and downs and it takes a wise fellow to make his downs help him towards his goal.—Boston Transcript.

PENINSULAR

(Edited by Mrs. E. Hayden)

John Seiler went to Charlevoix last week Wednesday and met his mother, Mrs. Galin Seiler, who has been away 11 months visiting in Chicago, Montana and Iowa. She will spend the summer on the farm.

Mr. Ogden and family of Harrietta, son-in-law of Will Cadwell one of the contractors who are building the Co. road near the Three Bells school, moved into the Crosby tenant house last week so Mr. Ogden can be nearer his work on the road.

Geo. Jarman and sons Elton and Evert motored to Petoskey Sunday to visit Mr. Jarman's step mother, Mrs. Elton Jarman, whom they expected to come home with them for a visit but who was ill and did not come. They were accompanied by Mr. Jarman's sister, Mrs. Laura Stanley of Boyne City.

Mr. and Mrs. David Gaunt and daughter Miss Mamie of Three Bells Dist. and Mr. and Mrs. Ira McKee of Star Dis. motored to west of Ellsworth Sunday in the Gaunt car and enjoyed a fish dinner with Mr. and Mrs. Joe Gaunt and family. They report Mr. Joe Gaunt very much improved in health and able to help with the farm work. They also report the country in fine condition and crops promising and well kept. They had a delightful trip.

The board of review, A. B. Nicloy, F. H. Wangeman and Wm. Bird, at F. H. Wangeman's, supervisor, Monday and continued the meetings Tuesday at Wm. Flander's, the clerks. The state appraiser had been here and demanded the valuation be raised to \$100,000 so there could be bonds issued. The board raised the valuation from \$75,000 to \$100,000 and \$85,000 which they hope to get by with but if the required bonds can not be raised on the amount there will have to be another raise. The raise in valuation will not materially affect the taxes.

School Commissioner Archie C. Belding and family of Charlevoix motored from Charlevoix to Boyne City through Petoskey Monday evening.

Mr. David Spencer and his mother Mrs. Clara Spencer and Mr. and Mrs. A. Cole and family of Boyne City were motoring on the Peninsula Monday evening and made a very pleasant call at Orchard Hill.

Miss Newton of Boyne City, Manual Training teacher was on the Peninsula Monday evening rounding up the students who had not paid for the timber they used. She called on Frank Hayden.

Frank Hayden, who was excused from High School two weeks ago to help with the farm work, is taking the final examination in Boyne City this week.

We had a delightful rain Friday afternoon which continued through the night thoroughly soaking the ground breaking the June drought which had been so slight it was hardly noticed.

Miss Allen Hayden and Dorothy Jarman motored to Petoskey Thursday and each secured a job at the Cushman House. Miss Dorothy commenced work right away but Allen drove the car home and returned Friday evening to begin work Saturday morning.

A letter from Mrs. Ezra Dean states Mr. Dean is steadily gaining in strength and is able to get out of doors under the trees at his home in Denver, Colorado.

Derby Hayden has hired out to Clifford Heller near the Grange Hall to work for a month.

The Whip Poor Will ball team are getting their uniforms made and will soon look quite some.

Mr. and Mrs. Marion Jackson and children of Breezy Point and Mr. and Mrs. Ralph Krooster of Phelps visited Mr. and Mrs. Albert Eicher and family of Cedar Lodge over Sunday.

Thomas Trimble and grand children of the Chaddock District called on Mrs. A. J. Eicher at Cedar Lodge Sunday p. m.

Mrs. Geo. H. Ferris of Detroit arrived Tuesday to spend the summer with her son Mr. George C. Ferris on his farm.

Albert Eicher helped Douglass Tibbitt spray his cherry orchard on the N. L. Fruit farm last week. The trees look fine.

H. B. Russell is helping A. B. Nicloy on the farm.

This week will see the pickles all planted, there is a very small acreage, and all corn planted.

The country never looked nicer. The fruit is sticking good, apples are growing fine and things look as if this part of the country will be able to help the drought which is predicted for Europe.

There seems to be a good demand for boys to work on farms. The wages are \$1.00 per day for any help to \$1.50 per day for those a little more handy. Room and board are furnished.

ALUMINUM CARS MAY BE NEXT

Experts Begin Research to Find Strong Light Material for Motor Cars.

Washington.—At the suggestion of automobile manufacturers and large foundries of the country, the bureau of mines has announced that an investigation of far-reaching importance would shortly be made to determine the cracking tendencies of commercial aluminum alloys. The purpose of the proposed investigation was said to be to determine whether lighter weight motor cars can be manufactured successfully and retain the same stability now found in the larger and more substantial vehicle.

A Linguist. "My oldest son," remarked Mrs. Blunderby, "speaks several languages quite slipantly."

OWE LESS ON HOMES

Ratio of Debt to Value Decreases in Thirty Years.

Bureau of Census Gives Out Some Interesting Figures on Mortgage Debt on Owned Homes and Farms in United States.

Washington.—According to a preliminary report that has just been issued by the Department of Commerce, through the bureau of the census, the total estimated mortgage debt on owned homes and farms in continental United States in 1920 was \$11,001,000,000 and the total estimated value of these mortgaged homes and farms was \$31,708,000,000, the mortgage debt thus representing 34.7 per cent of the total value. It should be noted that the term "owned homes" is used by the bureau to designate those homes which are occupied by their owners, and similarly, "owned farms" is applied to farms operated by their owners, rented homes and tenant farms not being included in these totals.

The total mortgage debt on owned homes and farms in the United States in 1890, the only previous census in which this information was obtained, was reported as \$2,133,000,000 and the total value of these mortgaged homes and farms was reported as \$5,687,000,000, the mortgage debt thus representing 37.5 per cent of the total value. The mortgage debt on owned homes and farms increased 415.8 per cent between 1890 and 1920, and the value of these mortgaged homes and farms increased 457.6 per cent. As a result, the ratio of debt to value has decreased, being 34.7 per cent in 1920 as against 37.5 per cent in 1890.

The total number of homes not on farms in the United States in 1920 was 17,500,000, of which 7,195,000 or 40.9 per cent were mortgaged. Information regarding the value of the home and the amount of mortgage debt was secured from 1,893,000 or 96.3 per cent of these mortgaged homes. The total mortgage debt on the mortgaged homes not on farms in 1920 is estimated at \$4,000,000,000, and the total value of such homes as \$14,000,000,000, the ratio of debt to value being 42.6 per cent.

The total mortgage debt on owned homes not on farms in the United States in 1890 was reported as \$1,047,000,000, and the total value of these mortgaged homes was reported as \$2,632,000,000, the mortgage debt thus representing 39.8 per cent of the total value. The mortgage debt on owned homes increased 473.1 per cent, and the value of such homes 435.6 per cent, between 1890 and 1920. This has resulted in a slight increase in the ratio of debt to value—from 39.8 per cent in 1890 to 42.6 per cent in 1920.

The total estimated mortgage debt on owned farms in the United States in 1920, including the estimated mortgage debt on partly owned farms, was \$5,001,000,000, and the total estimated value of these mortgaged farms was \$17,600,000,000, the ratio of debt to value being 28.4 per cent.

The total estimated mortgage debt on owned farms in 1890 was reported as \$1,080,000,000, and the total value of these farms was reported as \$3,035,000,000, the ratio of debt to value being 35.6 per cent. The mortgage debt on owned farms increased 360.5 per cent, and the value of such farms 476.4 per cent, between 1890 and 1920, the ratio of debt to value decreasing from 35.6 in 1890 to 28.4 in 1920.

CATCHES YOUNG OCTOPUS

This shows John St. John, life guard at Miami Beach, Fla., with his catch—a young octopus with a spread of three feet across the fins. Catching sea animals is St. John's hobby and he has quite a collection.

Three Burned to Death

First Night in New Home

New York.—A mother and two children, who were spending their first night in their new home, were burned to death the other day when fire swept the apartment house. The superintendent was unaware they were in the building and after rousing four other families, believed all were safe. Later, three charred bodies were found in the debris. Mrs. Florence Helms, twenty-three, and her two children, Harold, five, and Florence, three, were the victims.

Consumers of Coal:

If you want Good Lump Coal, - BUY IT NOW!

If you want mine run coal, buy it this fall.

For that is what the are now offering at the mines.

ARGO MILLING Co.

Flies 1,210 Miles in Ten Hours. New York.—Flying at an average speed of 121 miles an hour through three storms, a seaplane carrying a total load of 1,600 pounds made the flight from Palm Beach, Fla., to New York, a distance of 1,210 miles, in 9 hours and 56 minutes.

LADY ATTENDANT.

Merely an Opinion. A controversy has been raised over the question whether "the first hundred years are the longest" or "the first hundred years are the hardest." We hazard the opinion that the first hundred years are the most plausible.

East Jordan Lumber Co

A Little Sample In Arithmetic!

- 1 Bathing Suit, \$2.50 to \$5.50
 - 1 Bathing Cap, .25 to .75
 - 1 pr. " Shoes, .50 to .50
 - 1 Waterproof Bag .00 to .00
- \$3.25 to 6.75**

Add this to a warm day and warm water and the result is fine.

East Jordan Lumber Co

ONE SANDMAN STORY

THE GREEDY SQUIRREL

HE IS sure it all happened, but his mother told him if he had not eaten such a heavy supper he would not have dreamed it—but for all that he has his tail to prove his story.

Grey Squirrel had a very bad habit of getting up after all the family were in bed and getting nuts that were to be served for breakfast, for he was a greedy little fellow and cared little about anyone but himself.

One night as he got out of his bed he saw a light shining, and when he looked out of the window of his home he saw under the bushes across the path a long table spread for a feast.

Around the table sat so many little men in green and red suits that Grey could not count them.

These little men all wore red caps, which they were very careful to make sure were on their heads, for every once in a while Grey noticed that they would feel to see that the red cap was in place.

Then out of the house he carefully crept and was soon on the other side of the path hiding behind some bushes, where he could plainly see all that happened.

Of course, the little men feasting were Goblins and Grey should have known better than to have gone out

of the house while they could be seen, for those little magic people are very jealous of any eyes that look at them other than their own magic folks.

But his greediness soon got him into trouble, for he poked his little head out too far and a Goblin saw him.

Quick as a flash he pointed a long pointed finger at Grey Squirrel and gave a funny little cry of "kool, kool."

Grey Squirrel, of course, expected to dart back from sight and run as he always did; but to his surprise he

found he could not move his head or feet or his tail. Grey tried again to run, but it was no use, he could not move and in another second the funny little men stood in a circle around him. "He is a good nut cracker," said one. "Why not make him a Grey Goblin and have him for our servant? He could crack all our nuts, and to punish him still more for pecking at us tonight we will not let him eat any; only crack them for us."

"Never eat another nut" thought poor Grey. "Why, I'd rather lose my bushy tail than suffer that punishment."

Then, just as if they knew what he was thinking, as quick as a wink another Goblin said. "I know a better way than you have mentioned to punish this pecking creature. We will pull some of the hair out of his bushy tail and make it look so thin he will be ashamed."

All the Goblins began to shout "Enif, enif!" and then at Grey they rushed, and with a tiny finger and thumb each one pulled a hair from his handsome tail, and then with it held over his head each little fellow began to hop and jump, dancing like wild creatures.

But then something happened, for in their wild dance they forgot their red caps, and off they fell on the ground, and right then Grey Squirrel found that he could run, and run he did faster than ever in his life, and when he reached the place where he had come into the Goblin land he was lucky enough to find the door open. The Goblins had forgot to close it.

Out he ran along the path home, and as it was not quite daylight he nestled down into his bed, trembling with fear that the Goblins might find him even there, for he knew that by that time they must have put their caps on, which gave them their magic power.

He gave one look across the patch as he ran into his home, but the table was not there, and when he told all about it the next day everybody laughed and his mother told him he had eaten too much pie for supper. But Grey Squirrel knew it was not a dream, and anyway there was his scraggy-looking tail to prove his story.

He does not run out any more at night, nor does he get up in the night to eat, but he has thought many times about the strange magic words the Goblins used that night and wondered what they meant.

Read them backwards and see if you can tell.

THE RIGHT THING at the RIGHT TIME

By MARY MARSHALL DUFFEE

CONVENTIONS

"DON'T you think it is perfectly splendid the way we are getting away from conventions?" a gushing young married woman asked the other day. "Why, my mother would have thought it was a disgrace to serve dinner without a table cloth and linen napkins, and she would have thought we were going to land in the poor house if we had had breakfast in the kitchen. But we have given up table cloths entirely, laundry is so expensive, and we never use anything but paper napkins. What's more, some of the next aristocratic people I know are having breakfast nooks in their kitchens and don't even intend to have breakfast in the dining room. Isn't it perfectly wonderful?"

And, of course, I agreed that it was well that we could alter our customs to suit the times without actually lowering our standards. And she went on:

"And it is just the same with other things. Tom doesn't in the least mind having me have my men friends, and I suppose he keeps up with the girls he used to know. I go to dances without him if I choose and accept invitations from men to lunch—it is all part of this new disregard for conventions. It's just like paper napkins—mother would have been horrified at the idea of either, but mother wasn't advanced."

And I suppose that there are some other people who have this same hazy notion of the "conventions," but there really is a vast difference between the slight innovation that changes our precise mode of having breakfast or dinner, and another innovation that means a radical change in our notion of married life.

So we may change our manners with regard to shaking hands; we might give up hand shaking entirely, but that would not mean that we might change our basic ideas of friendship and loyalty toward our friends.

If you have the gift of thinking clearly you won't confuse these two sorts of unconventionality.

"What's in a Name?"

By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel.

LOIS

LOIS is really a masculine name. It means "famous war" and comes from the Teutonic nomenclature through the Karling romances. Lois or Loiz, as it is sometimes spelled, is really Louis.

The French king whom the French knew as Louis de Debonnaire, was originally called Liudueus. The Provencal promptly softened the name to Aloys, but so popular did Louis become that no member of the French royal family was christened without it. Finally the soft Aloys gained favor throughout France and the "a" was dropped, producing the musical Loys. The Bretons were already using the name of Loiz, so the "y" in Loys disappeared and Loiz appeared and remained permanent.

Loys was the only form of the innumerable versions of Louis that became applied as a feminine name. Spain's Loiz has never wandered from its masculine interpretation, nor has the Lutz of Portugal. France formed an Heloise from Loiz and Louise might possibly be called an equivalent for Loiz if it were not for that strain of Provencal.

Loiz has been given in baptisms generally as a name of sentiment. It is a trifle difficult to pronounce but is, undoubtedly beautiful and extraordinarily popular in this country.

The talismanic gem assigned to Loiz is the onyx. It should be worn with care as it is inclined to cool affection, provoke discord and separate lovers, but worn by Loiz it prevents these very misfortunes. Monday is her lucky day and 4 her lucky number.

SCHOOL DAYS

Uncommon Sense

By JOHN BLAKE

MARRY "FOR KEEPS"

IF YOU have a capital of a thousand dollars, and only a thousand dollars, you are likely to be a little particular about investing it.

Yet you invest your capital of happiness, which is all you have, and all you ever will have, on the first pretty face you happen to see.

The average youth devotes more care to the selection of a suit of clothes than he does to the selection of a wife.

When his marriage turns out unhappily, he wonders why he happened to have had luck, or cynically observes that you never can trust a woman.

About 90 per cent of the labor and expense of the divorce courts could be avoided if young men and women would expend a little serious thought about the most serious business of their lives, which is getting married.

Neither men nor women can so skillfully disguise their true natures as to deceive anybody who is really in earnest about investing his capital of happiness where it will pay dividends for all time.

Nobody ever falls so head-over-ears-in-love at first sight that he hasn't time to think over the seriousness of picking a wife before he sends for the best man and engages the minister.

There is no source of unhappiness in the world so prolific as marriage, chiefly because nobody ever appears to think that it should be entered in any way save by accident.

If the reformers who cry out against divorce, when it is too late, would spend the same amount of time and energy trying to teach people to find the right kind of mates, there would be less divorce, less scandal and more room in the newspapers for instructive news.

You can't tell a man anything he doesn't know about the mistake of an unhappy marriage if he already has made the mistake. You can tell him a good deal about it before he makes it.

Some day preachers and editors and educators will organize instruction in matrimony; parents will devote a little time to talking to children about it, and as a result there will be about 50 per cent more happiness in the world.

(Copyright.)

WHY?

IS THERE SAND AT THE SEASHORE

THE presence of the sand which makes beaches and drifts into dunes along the edge of the sea dates back originally to the formation of the earth itself. At this time, millions of years ago, the land and rocks which now form what we know as "the crust of the earth," was a molten mass, in which was a large proportion of the element known to science as "silicon."

This silicon was burned and, in conjunction with the oxygen which surrounded everything, produced the substance known as "silica" or "burned silicon." A large portion of this was deposited on the surface of the earth and, when the world cooled, it formed a sort of crust or granular deposit, to which the name of "sandstone" has been applied.

When the oceans were formed, the action of the water in constantly wearing away this sandstone broke it up into tiny particles and formed the sand as we see it today. The reason that this appears in large quantities on the edge of the ocean is because the motion of the waves and the tides constantly swept it up from the bed of the sea and deposited it on the beaches, where it remains silently to testify to events which happened long before the memory of man.

KIDDIES SIX

By Will M. Maupin

WANTED—A NAME

WANTED—A name for the baby; That sweet little mite of a miss, With pink hands and feet, and puckering lips sweet

Held up for a fond parent's kiss, Rosie, or Josie, or Mary; Or Margaret, Lilly, or May; Priscilla or Prue—does any suit you? We've just got to name her today.

Wanted—A name for the baby That's nestling there fast asleep; A precious wee mite on her pillow of white

God gave us to guard and to keep, Annie, or Currie, or Hazel; Or Annabel, Oral of Jo; Annette or Sue—does any suit you? We've just got to name her, you know.

Wanted—A name for the baby, That little pink image of love That came with the year with a message of cheer,

Straight down from the mousies above, Maggie, or Katie or Flora; Or Amethyst, Kittle or Bess; All good, I suppose—but dear goodness knows

We'll just call her "Sister," I guess. (Copyright.)

YOUR HAND

How to Read Your Characteristics and Tendencies—the Capabilities or Weaknesses That Make for Success or Failure as Shown in Your Palm

THE HAND OF A MUSICIAN

IN THE hand of a person who is talented in music, the skin is very smooth and soft. This indicates a refined, sensitive nature, with a great dislike for anything that is coarse or unrefined. As a musician, of either sex, must pay attention to details, the fingers must be long in proportion to the rest of the hand.

In the hands of many musicians, the thumb, at its outer angle or joint, is quite pointed. This is held to show a good idea of time or rhythm. A sense of time is sometimes seen in a point or protuberance on the outside of the thumb, below the joint.

The mount of Venus should be fairly strong and high, to show melody, and this characteristic is seen also in a good mount of Saturn at the base of the middle finger. When there are a good mount of Apollo at the base of the third or ring finger, and a good mount of the moon near the wrist, a decided sense of harmony is shown.

Briefs of the Week

James Malpass returned home Tuesday from a visit at Muskegon.

Born to Mr. and Mrs. Bert Scott, a daughter—Helen Louise—May 31st.

Mrs. Samuel Ramsey left Monday for a visit with her daughter at Milwaukee, Wis.

Hans Hinstad and family left Thursday for Flint, where they will make their future home.

See the beautiful Hats in this Sale, at prices never before offered.—The Ramsey Hat Shop.—adv.

Mr. and Mrs. Carl Bush and children of Holland are visiting her parents, Mr. and Mrs. Peter Hagerberg.

Lowell Baker returned to Frankfort, Wednesday, after a visit at the home of his sister, Mrs. R. G. Watson.

Charlevoix County Board of Supervisors will meet on June 26th to equalize the County assessments and report to the state.

An item in the Petoskey paper states that Joe Kidder of East Jordan underwent a major operation at the Petoskey Hospital, Saturday.

Dr. and Mrs. C. H. Pray returned home first of the week from Independence, Iowa, where they were called by the serious illness and death of Mr. Pray's mother.

Miss Hilda Carlisle of Charlevoix and Ross Alexander of Ironton were quietly married Friday evening June 9th at 6 o'clock at the Congregational parsonage at Charlevoix. Miss Carlisle was a former East Jordan girl.

Robert Kamradt and Henrietta Leu, who reside near East Jordan, were married by Rev. B. H. Succop at the Succop home on Petoskey street. The young people were accompanied here by the bride's sister, Miss Matilda Leu, and the groom's brother, Arthur Kamradt.—Petoskey News.

In the City League base ball games of Wednesday the Holy Name team defeated the Mason-Presbyterian team by a 10 to 8 score. The Methodist team defeated the K. P.-I. O. O. F. team 15 to 8. This makes a tie in games won, the M.-P. and Methodists being tied for first division, and the K. P.-I. O. O. F. and H. N. for second.

Charles West received a broken left leg in an accident at the East Jordan Lumber Co's "big" mill, Tuesday morning. A log was thrown, pinning him beneath, and breaking his left leg below the knee in two different places. He was removed to Dr. Park's office for treatment and then taken to his home in this city.

Large assortment of Fishing Tackle. Stroebel Bros. adv.

John Ackley, who resided just east of Antrim, attempted to commit suicide last Sunday afternoon by cutting his throat with a knife. He hacked it nearly from ear to ear and did sever his windpipe, but did not succeed in his efforts. Dr. Walton was called to attend the man, and by his advice Ackley was sent to the Cadillac hospital Monday for care. He was a single man about 60 years old and lived with a brother.—Mancelona Herald.

Buy a Leonard Cleanable Refrigerator. R. G. Watson. adv.

The fifth annual meeting and picnic of the Northwestern Michigan Shorthorn Breeders' association will be held at the fair grounds Thursday, June 22 at Traverse City. The picnic dinner will be potluck as before. Those attending are requested to bring cups, knives, forks and spoons properly marked. The association will furnish two roast lambs, sugar, cream and plates and dinner will be served at 12 o'clock standard in the dining hall. This will be the big event of the season.

Keen Kutter Safety Razors only \$1.00 adv.

Miss Minnie Hudkins returned Tuesday from a visit at Detroit.

Miss Virginia Ward is visiting friends at Traverse City this week.

Buy a Leonard Cleanable Refrigerator. R. G. Watson. adv.

Mrs. Ernest Higly returned Tuesday from a visit at Central Lake.

Two Good Houses for Rent or for Sale—H. A. Goodman. adv.

Mrs. George H. Ferris of Detroit is visiting at the home of her son, G. C. Ferris.

Mrs. John Davids, (nee Bernice Piggott) is here from Flint visiting friends.

Mrs. E. Edwards of Reed City is visiting at the home of her daughter, Mrs. James Secord.

Miss Iva Dewey, who has been attending Ferris Institute at Big Rapids, came home Wednesday.

Every Hat must be sold within the next ten days regardless of Price.—The Ramsey Hat Shop. adv.

Mr. and Mrs. W. A. Stroebel and children returned home Wednesday from a visit at Detroit and Saginaw.

Mr. and Mrs. A. E. Wells and son, arrived here Saturday from South Bend Ind., and will spend the summer here.

Mrs. Martha Campbell and son, J. L. Campbell were called to Trenton, Mich., Tuesday, by the death of her brother.

Special—30 x 3 1/2 Lee Tires—6 months free vulcanizing service for \$10.00. Henley Tire and Vulcanizing Co. adv.

Mrs. Martin Kadrovich and children left Thursday to join her husband in Muskegon.

The Herald is indebted to Mrs. Robert Webster for a fine bouquet of roses and perennial pinks, received this week.

Mrs. Arthur Jensen returned to Racine Wis., Thursday after a two weeks visit with her parents Mr. and Mrs. Charles Locke.

Lionel Goodman, who has been home for a visit, left Thursday for a visit with his brother in Detroit before returning to Chicago.

Mr. and Mrs. William Anderson returned to Chatham, Ontario, Thursday after a week's visit at the home of his sister, Mrs. Milton McKay.

Mrs. Harvey Scott with two sons, Walter and Leon left Thursday for Muskegon where she will join her husband and make their home for the summer.

Mrs. M. Quinn returned to Ludington, Tuesday after a visit here with her sons, Alfred and Matt Quinn. She was accompanied by her grandson, Casimir Quinn.

If you want something good, go to Umlor's Meat Market. All kinds of fresh and cold meats, and nice home baked goods.—Umlor's Meat Market West Side. adv.

Large stock of Lawn Hose. Stroebel Bros. adv.

Mrs. Wm. Havens and daughter, Mrs. Charles Newkirk, who have been visiting relatives at Charlevoix and Central Lake the past few weeks, returned home Thursday.

Low Bros. House Paints cover more surface. adv.

Regular meeting of South Lake Lodge No. 180, K. of P., every Monday evening at 7:30 sharp. All members urged to be present. Visitors welcome.

John Hockstad is here visiting friends.

Special quality Arsenate of Lead at Stroebel Bros. adv.

Buy a Leonard Cleanable Refrigerator. R. G. Watson. adv.

Mrs. Archie Quick and children visited her mother at Grayling this week.

Buy your Wall Paper early. Our stock is completed.—R. G. Watson. adv.

Two bargains in Second Hand Cream Separators. First come, first served. Stroebel Bros. adv.

Mrs. Arthur Vandembosh of Ann Arbor is visiting at the home of her sister, Mrs. Earl Farmer.

Laundry Basket leaves Bulow Bros. store every Wednesday noon; laundry returned Saturday night. adv.

Mrs. Thomas Crothers, who has spent several months with relatives at Houghton, returned home this Friday.

Mrs. Earl Chapman and children left this Friday to join her husband at Ashley, Mich., where they will make their home.

Mrs. Duncan McColman and children who have been here for a month's visit with relatives, returned to Detroit, Thursday.

Alabastine for the walls. adv.

George Stokes and family, also Mr. and Mrs. Harry Hoover, left this Friday for Bay City, where they will make their future home.

A \$15.00 Bicycle only \$30.00. Stroebel Bros. adv.

Closing of Our Public Schools

Year Ends This Week. Doings In All Grades.

This week marks the closing of one of the most successful years in the development of East Jordan's Public School system. In practically all the grades fitting observance was made. The Baccalaureate of Sunday evening, the Class Day on Wednesday and Commencement Thursday evening are all worthy of more than passing mention.

The Herald's job department has been "swamped" this week with time work, and we are unable to give these events, as well as other important happenings in our city, adequate articles. We hope to be able to publish next week more detailed articles.

The Class of 1922 is the largest in numbers in the history of our schools. Below are the names of

WILSON

(Edited by Mrs. O. D. Smith)

Plenty of rain for haying.

A good sized crowd at Wilson Grange hall last Saturday evening.

Since 164 of East Jordan Central is out of order this week news is scarce.

Frank Smith and family of Brickerville were callers in Afton last Sunday afternoon.

Mr. and Mrs. Clifford Brown of East Jordan were callers at Albert Todd's Tuesday afternoon.

Mr. and Mrs. Spauld of Indiana are here for an extended visit with relatives and friends. Mr. Spauld is helping John Hoti in his haying this week.

Mr. and Mrs. R. E. Pearsall started Monday morning by auto for Muskegon to visit relatives and friends. Their daughter Mrs. Holmes who has been here for a visit accompanied them.

Miss Kate Wilson, Co. school commissioner of Antrim Co. accompanied by her mother Mrs. Cross of Central Lake, spent Sunday at the home of O. D. Smith in Afton.

Luther Brintnall has as fine a piece of wheat as there is in this vicinity. It is a new variety and supposed to be sown 1/2 bu. per acre. He put it in for a large yield and also experimented in the sowing. The field was sown 1-2 and 3 pecks per acre. He will be pleased to show anyone that the two peck seeding is the best. It has been known to raise 27 heads of grain from one kernel, and yield from 25 to 45 bu. per acre.

Mixed Characteristics.

At a political gathering in England an orator waxing indignant said, "To ridicule the idea of this country being invaded is to follow the example of the camel, which buries its head in the sand when an enemy approaches." The rival speaker rose and retorted, "Surely the gentleman in giving utterance to this apothegm, must have meant to refer to the ostrich which, in those circumstances, has a habit of putting its eye through a needle."—Boston Transcript.

Reperte.

Two-year-old was hovering over the basket of narcissus blooms. "Are they fragrant?" asked auntie. "No," retorted the baby, "they is flowers."

TO APPEAL WAGE CUTS TO HARDING

LEADERS OF 1,200,000 RAILWAY WORKERS TO SEND LETTER TO PRESIDENT.

FURTHER REDUCTION FEARED

Unions' Chiefs Say It Is Impossible to Maintain American Standard of Living on New Rates.

Cincinnati, O.—President Harding will be appealed to by the leaders of 1,200,000 railway workers, part of whom have already received wage cuts from the Railroad labor board, due July 1, in an effort to stave off further reductions in their pay envelopes it was decided at a conference of rail union heads Thursday night.

Leaders of the 11 railway employes organizations, which have decided to take a strike vote of their memberships, agreed to outline a letter to the president presenting their argument for higher wages, or at least no further reductions. A committee of union executives was appointed by B. M. Jewell, president of the Railway Employees department of the American Federation of Labor, to draft the letters.

Approximately \$110,000,000 will be lopped from the pay rolls of the 400,000 shop crafts and the 500,000 maintenance way men under orders of the board, July 1.

The new rates of pay will range from 54 cents an hour for mechanics' helpers to 70 cents for mechanics. The maintenance of way men will get from 23 to 35 cents an hour.

These rates were branded as "starvation wages" by the union leaders and it is their intention in the letter to President Harding, to demand whether the country's chief executive thinks these wages sufficient "to maintain an American standard of living and properly sustain a family."

HIGH COURT REVERSES DECISION

Rules Man Hit in Street Was Still a Passenger.

Muskegon—The Muskegon supreme court again has ruled that a person is a passenger on a common carrier until he reaches the sidewalk and revised the ruling in Circuit Court here in the suit brought by Mrs. Agnes Quinn to force the New York Life Insurance Co. to pay double the face value of the \$4,000 policy carried by her husband.

Mr. Quinn alighted from a street car and was struck by a taxicab and killed. The court first directed a verdict for the widow, but later held the extra \$4,000 could not be collected, and the Supreme Court reversed the second finding.

WHY WORRY ABOUT WATERWAY

Dry Navy Delays Punt With Clearance Papers for Cuba.

Detroit—This city as an ocean seaport is an accomplished fact.

A United States government boat encountered a punt in Canadian waters. The punt was about seven feet in length and was propelled by a man sculling in the stern. It was loaded with several cases of whisky.

"What have you got there?" the sculler was asked.

"Whisky," he replied.

"Where bound?"

"Cuba," was the reply, and clearance papers from Canada were shown to prove it.

And he sculled away with his cargo.

CHICAGO SEES WESTERN STUNTS

Monata Rancher Drives Car Thru Park With Cops in Pursuit.

Chicago—John Bray, rancher of Billings, Mont., was arrested after a wild chase by motorcycle policemen through Lincoln park in which he drove his car off the roads, uphill and in and out amidst the trees. "I was just trying to show them how we drive out in Billings," he told the police on being locked up.

AIR SERVICE TO-STATE RESORTS

Airplane Line to Take Chicagoans to Michigan Points.

Chicago—A new hydro-aeroplane line to operate this summer between Chicago and points north to Mackinac, for the benefit of Chicago summer residents of Michigan resorts, has been launched. At present there are three planes in operation, but four more will be added.

Urges Need of Simpler Things.

Mercersburg, Pa.—Vice-President Calvin Coolidge, speaking here at the breaking of ground for Mercersburg Academy's \$400,000 chapel, emphasized the value of the simpler things of life. "We are giving too much attention to what we think are the great things in life, and too little attention to those things that appear small, perhaps insignificant, perhaps unimportant," said Mr. Coolidge. Bishop Charles D. Williams, of Detroit, represented the church at the ceremonies.

SURVEY MT. LE CONTE

Federal Geologists to Seek Exact Height of Mountain.

Want to Settle Dispute as to Which is the Highest Peak in the Appalachian Range—Of Special Scientific Interest.

Knoxville, Tenn.—Mount Le Conte, in the southeastern part of this state, near the North Carolina line, will be a center of scientific interest in the coming months because of a geological survey to be made under federal direction in June, to test the claim that it is the highest peak in the Appalachian range.

Until about a generation ago that distinction was held by Mount Washington, which towers 6,293 feet above sea level. Then a survey fixed a height of 6,711 feet for Mount Mitchell, that measurement standing now as the official altitude mark for uplands east of the Rocky mountains. Measurements of Mount Le Conte, for which accuracy is not claimed, have come within 90 feet of the Mount Mitchell figure. It is believed the coming federal survey will make good that estimate and add several hundred feet to it, thus furnishing the geographers with a new item.

When Washington was officially overtopped by Mitchell, a weather observatory on Washington, functioning continuously, justified its advertisement as the highest point in the eastern United States that was inhabited throughout the year. Roan mountain in the southern range sought that distinction when Gen. John T. Wilder established a hotel estate there known as "Cloudland" at a certified elevation of 6,818 feet and visitors were able, from the hotel porch, to sweep the vision over cloud masses below them, floating, breaking or thundering over lower peaks. "Cloudland" proved too difficult to reach and too expensive to maintain. With its abandonment the advertisement of Mount Washington as the highest inhabited all-year Eastern spot, became freshly asserted. It will probably continue to be true, for the top of Mount Mitchell has not been inhabited all the year. There is no such prospect for Le Conte, even though it may hereafter outrank all the other Appalachian peaks in height.

Did Well With Crude Instruments.

Long before the Christian era instruments were made for the measurement of angles on the principle of the subdivision of the circle. Thus the ancient Egyptians laid out their lands on the banks of the fertilizing Nile. The instruments were crude because "the long result of time" had not yet perfected them, but they answered their purpose well enough to enable Eratosthenes, 250 years B. C., to measure the circumference of the round earth.

British Royal Marriage Rules.

British princes and princesses may not marry before the age of twenty-five without the consent of the king. If over twenty-five they may marry by giving notice 12 months beforehand to the privy council, unless parliament decides against the proposed match.

PROBATE ORDER.

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the city of Charlevoix in said County, on the 2nd day of June A. D. 1922.

Present: Sarvetus A. Correll, Probate Judge.

In the Matter of the Estate of Maximilian Scheffels, Deceased.

The above estate having been admitted to probate and John J. Mikula appointed administrator thereof.

It is ordered that four months from this date be allowed for creditors to present their claims against said estate, and that such claims will be heard by said court on Thursday, the 12th day of October A. D. 1922, at ten o'clock in the forenoon, at the Probate office in the city of Charlevoix.

It is Further Ordered, That public notice thereof be given by publication of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in this county.

SERVETUS A. CORRELL,
Judge of Probate.

CHANCERY ORDER.

STATE OF MICHIGAN, The Circuit Court for the County of Charlevoix, in Chancery.

FRANK ZOULEK and MARY E. ZOULEK, Plaintiffs,
vs.
J. CLIFFORD MONK and EMMA MONK, Defendants.

At a session of said court held at the Court House in the City of Charlevoix in said county on the 7th day of April, 1922.

Present: The Honorable Frederick W. Mayne, Circuit Judge.

In this cause, it appearing by affidavit on file that the defendants, J. Clifford Monk and Emma Monk, are not residents of this state, but are residents of the State of Indiana and that subpoenas to appear and answer have been duly issued in this cause but could not be served upon the said J. Clifford Monk and Emma Monk, for the reason that they are not residents of this State but are residents of the State of Indiana, on motion of Clink & Williams, Attorneys for the plaintiffs, it is ordered that the appearance of the said defendants, J. Clifford Monk and Emma Monk, be entered in this cause within three (3) months from the date of this order and that in default of their appearance that they cause their answer to the plaintiff's Bill of Complaint to be filed and a copy thereof to be served upon plaintiffs attorneys within fifteen (15) days after service on them of a copy of said bill and notice of this order; and that in default thereof that said bill be taken as confessed by said non-resident defendants.

And it is further ordered that within twenty (20) days after date hereof the said plaintiffs cause a notice of this order to be published in the Charlevoix County Herald, a newspaper printed, published and circulated in the said county of Charlevoix and that such publication be continued once in every week for six (6) successive weeks, or that they cause a copy of this order to be served personally on said non-resident defendants at least twenty (20) days before the time above prescribed for their appearance, and it is further ordered that the said plaintiffs cause a copy of this order to be mailed to said defendants at their last known postoffice address, by registered mail and a return receipt demanded at least twenty (20) days before the time herein prescribed for the appearance of the defendants.

Dated April 7, 1922.

FREDERICK W. MAYNE,
Circuit Judge.

CLINK & WILLIAMS,
Attorneys for Plaintiffs.
Business Address, East Jordan, Michigan.

MANY KILLED WHEN GALE HITS GOTHAM

WIND STORM SWEEPS PLEASURE PLACE AND CONTINUES UP EAST COAST.

CROWD CAUGHT IN SMALL BOATS

Frantic Efforts Made to Reach Safety But 38 are Drowned; Ferris Wheel Wrecked.

New York—A violent storm, accompanied by shifting winds that reached a velocity of 88 miles an hour, took the lives of 57 persons, injured more than 100 and caused enormous property loss in the metropolitan section late Sunday.

Five persons were killed and more than 40 hurt when the wind caught a huge Ferris wheel at a Clason Point amusement park and crushed it to the ground.

A woman and her seven-year-old daughter were crushed to death and several other persons injured when an oak tree blown by the wind crashed through the roof to the crowded dining room of the Red Lion Inn, on Boston post road, carrying with it an old fashioned stone chimney.

Miss Edna Smith, 17, walking with a companion along the reservoir road at Ossining, was blown into the water and drowned.

Charles Emerson, New Rochelle clothing manufacturer, was rowing in Echo Bay with his wife and three children when the storm broke. He managed to row to shore, then died from a heart attack.

A tree fell across a party of motorists seeking shelter on the Brookline road, near Locust Valley, Long Island, killing Larry Halleran, of Oyster Bay, and seriously injuring his three male companions.

Concetti Bogiatto and his 10-year-old son, Anthony, of Mount Vernon, were killed when a tree, under which they had found shelter in the Bronx was struck by lightning.

Two men were killed in Newark, N. J., when they came in contact with electric wires, torn down by the wind.

A massive, decayed tree on the New York-Westchester County line at Mt. Vernon fell, crushing to death Mrs. Gessie Cavavallo and her infant son.

Moie Ruskin, one of a party of canoeists in Echo Bay, was drowned. Three other members of the party swam to shore after the canoe capsized.

CONSCIENCE TO GUIDE NO MORE

Chicago Finds It Necessary to Adopt Stringent Beach Rules.

Chicago—Let your conscience be your guide—but not as to bathing suits; for those, read the city ordinance.

This was the dictum of Deputy Commissioner of Public Works Burkhardt, on the eve of the formal opening of bathing beaches.

"We tried the conscience rule once," said the commissioner. "As a result of that experiment the city ordinance this year will govern bathing suits. The conscience of some habitues of the beaches is a trifle too elastic."

GRAIN RUST WAR IS ARRANGED

State To Spend \$350,000 Appropriation for Active Campaign.

East Lansing—Active warfare against the common barberry bush, spreader of black stem rust, will be opened, July 1, by the department of agriculture.

Working under a federal appropriation of \$350,000 and directed by Walter F. Reedy, of East Lansing, state leader of barberry eradication, nine teams of experts, the shock troops of the campaign against the grain farmer's worst enemy, will begin on a larger scale than ever before their farm-to-farm survey of the state.

MAROONED AVIATOR IS RESCUED

Cadet Flights Hunger and Seasts for 40 Hours After Wreck.

Arcadia Fla.—Tired by a panther, devoured by mosquitoes; his clothes torn to tatters by the sawgrass of the Florida swamps; without food for nearly 40 hours—these were among the experiences of Cadet Raymond White, Carlstrom Field aviator, whose plane crashed into the wilds of southeastern Lee county June 8. He was brought back to the flying field June 10 in one of the planes that had been searching the Everglades since his disappearance was reported.

Rum Chaser to Jacksonville, Fla. Baltimore, Md.—The rum chaser Mehelatos, of the "prohibition navy," will be transferred from Norfolk, Va., to Jacksonville, Fla. This vessel, which was the first on duty out of New York, has been operating from Norfolk since her departure from Baltimore several days ago. The Mehelatos is the third of the "navy's" vessels sent to Jacksonville. Attempt of the prohibition forces to end rum-running from the Bahamas is believed the cause of the transfer.

RADIO

INSTRUCTIONS FOR TROUBLE SHOOTING

How to Detect and Remedy the Open Circuit, Short Circuit and Leakage.

Radio circuits are subject to the same ills that the ordinary power circuits are subject to. However, to cure them is not such a difficult task as might be supposed, especially if some logical procedure is used.

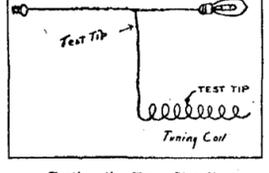

If a receiver is well put together in the first place and all contacts and other parts gone over once in a while, there is no reason why there should be any trouble. But the human being is prone to err, so that for the "once in a while" that is liable to happen, this article will be devoted to the explanation of what might happen to a simple receiver and the best way to fix it.

The usual troubles of the receiver fall under one of the following three headings:

- 1—An open circuit.
- 2—A short circuit.
- 3—Leakage.

An open circuit can most easily be detected by means of a series lamp. Nearly every one has available the ordinary 110 volt lighting circuit. Take an ordinary extension cord and cut one wire at any convenient place and use these two ends as test clips or tips. The extension cord is plugged into the house lighting circuit at any convenient outlet, and when the two cut ends are held together the lamp will light as the circuit is closed. When the tips are held open the circuit is "open" and the light will go out.

Suppose it is desired to test for an open circuit in a tuning coil. Connect one tip to one end of the winding and the other test clip to the slider. As the

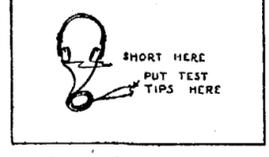

slide is moved back and forth the light should remain lighted. If the light goes out at times there is an open circuit in the coil. If the light goes out when the coil is jarred the slider does not make good contact with the winding.

If a buzzer and battery are available they can be used in testing for an open circuit in the same way that the lamp can be used. Connect the battery and buzzer in series with the test clips or tips and any low resistance circuit can be tested.

The ground connections can be tested with a buzzer and battery, but do not use the house-lighting circuit to test for grounds because one side of the lighting circuit is already grounded and if the other side were connected to the ground a short circuit would exist and an excessive current flow.

If the ground wire is connected to the water pipe, connect one test tip to the ground and the other to the gas pipe, which is also grounded. The buzzer should buzz if one has a good low resistance ground.

Leakage usually exists between the antenna and the ground. An antenna should be well insulated from its support. The lead-in should be brought down to the point where it enters the wall of the station in such a manner that when the wind causes it to swing, it cannot touch any grounded material, and that rain and snow can not cause a path along which the current can ground. In bringing the lead-

To Test Telephone Cords.

In through the wall, insulate it well and inside the station use as short a piece of well-insulated wire as is possible to make good connection with the set.

To test the continuity of the circuit of a pair of telephone receivers, touch the tips of the cord phone to the tongue. If the receivers are in reasonably good condition a slight click will be heard. If the response in one receiver seems to be weaker than that in the other, examine the diaphragm of the receiver giving the weaker response and see if it is bent toward the pole piece. Try tuning the diaphragm over if such is the case. Be careful when the diaphragm of a receiver is removed that the leads of fine wire from the magnet spools to the connection blocks do not become broken in handling.

If the continuity of the circuit of a pair of telephone receivers is checked and no response is heard when the cord tips are touched to the tongue, try checking each receiver of a double head set separately.

The two receivers are connected in

TIPS TO THE RADIOIST

The higher the aerial the stronger the signals. An increase of five to ten feet in the height of the flat top aerial will increase signals.

Addition of a variable condenser to the secondary or to the primary of a loose coupler often helps to tune out the undesired signals.

The sliders on tuning coils often make poor contacts with the slide rod. Thus much of the signal strength is lost. You can overcome this by soldering a flexible wire to the slider.

Increase length of spreaders of two, three or four-wire aerials from six to ten feet for best results. Each wire should be from four to six feet from its neighbor. Two wires one or two feet apart are no better than one wire. Likewise four wires on short spreaders are no better than one wire.

series and to check either one separately, short circuit the tips of the cord leading to the other receiver just outside of the case. Should it appear that there is an open circuit in the cord, short circuit both, receivers where the cord enters the case and with a buzzer or lamp connected to the tips on the end of the cord test for an open circuit.

Care should be exercised by the operator when adjusting a crystal detector to see that his fingers do not touch the surface of the crystal or the contact point of the little spring. The oil secretion that exists in the skin together with the dust that it collects will render a crystal detector inoperative by the insulating film that it will cause to form on the portion of the crystal surface that is touched. Should the surface of the crystal get dirty as evidenced by the receiver signals becoming weaker and weaker, try cleaning the crystal with alcohol and a little brush. Or if this does not seem to remedy the trouble, chip off old surface so that an entirely new surface is presented to the spring.

AMATEURS SHOULD PLAY FAIR

Radio Inspector Schmidt Urges That They Learn the Laws and Regulations.

Nine out of every ten radio fans are good sports, but the tenth is either a fan with poor judgment or a "rotter." It is up to the amateurs to see that restrictions are not imposed upon them, by playing fair, says Radio Inspector L. R. Schmidt of the Ninth district.

This can be done by observing certain cautions and by becoming posted on the radio laws and regulations. A copy of these regulations may be obtained from the superintendent of documents, government printing office, Washington, D. C., for 15 cents. It is worth while to spend 15 cents in order to be a "square shooter" in the radio game.

The great trouble with amateurs is that when they want to send a message around a corner they put on all the power they have with the hope that some one in Texas might pick up their message. The object should be to use the minimum amount of power to get the message to its destination.

"In all circumstances, except in case of signals or radiograms relating to vessels in distress, all stations shall use the minimum amount of energy necessary to carry out any communication desired."

Amateurs should keep their wave length to 200 meters.

They should use a "pure wave" or, as the regulations state, "if the sending apparatus is of such a character that the energy is radiated in two or more wave lengths, more or less sharply defined, as indicated by a sensitive wave meter, the energy in no one of the lesser waves shall exceed 10 per centum of that in the greater."

The wave must be "sharp." As to this the regulations state: "At all stations the logarithmic decrement per complete oscillation in the wave trains emitted by the transmitter shall not exceed two-tenths when sending distress signals or signals and messages relating thereto."

Amateurs frequently are at fault in calling stations too often. The law states that they can call three times, send "d e" once and sign their station call three times; but often the amateurs will send the calls a dozen or more times.

HOW TO GROUND AN AERIAL

If Properly Done It Really Protects the Property From Lightning.

Generally speaking, aerials do not attract lightning, but they do store up atmospheric electricity, and, of course, this condition does create a hazard. However, when the aerial is properly grounded it then acts as a lightning rod and really protects the property from this electrical hazard.

Briefly, the fire underwriters require that the aerial be grounded when not in use by a copper wire no smaller than B. S. Gauge No. 4 or larger, and run said wire as directly as possible to the outside ground.

This means that water, gas or steam pipes inside the property cannot be used for a lightning ground, because if ever this ground was called into service there is a possibility that fire and loss of life may result. So do not use inside grounds for lightning protection.

FISK Tires

Time to Re-tire? (Buy Fisk) Trade Marking, U. S. Pat. Off.

RED-TOP 30 x 3 1/2

Extra Ply of Fabric—Heavy Tread

Price \$17.85

FOR poor roads, for heavy loads, for hard use anywhere the Fisk Red-Top cannot be equaled for small cars. An extra ply of fabric and a heavy tread of extra tough red rubber make a strong tire built to meet exacting conditions.

Time after time one Red-Top has outworn three ordinary tires. Its distinctive looks indicate your selection of a high-grade tire while its extra mileage more than justifies your choice.

There's a Fisk Tire of extra value in every size, for car, truck or speed wagon.

FACT

Local Evidence.

Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ. Here's an East Jordan fact. You can test it.

Robert Grant, East Jordan, says: "At times my back played out while at work and I couldn't lie still in bed my back hurt so. My hands and feet often swelled and I suffered with rheumatic pains. My kidneys were in such an unhealthy condition I had to get up many times during the night. The secretions were highly colored and filled with sediment. A friend recommended Doan's Kidney Pills and I bought a few boxes at the Hite Drug Co., and they cured me."

60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Perfect Alibi. A small boy, who is observant and consequently well informed for his age, was questioned by his mother about a scratch she had just found on one of her pieces of furniture. He replied: "I didn't do that; can't you see it's only a birthmark?"

Peculiar Toothache "Remedy." People of the Middle ages believed the best remedy for an aching tooth, to be an application of serpent's skin steeped in vinegar.

Safe and Sound. "You have been a long time!" "Yes, it took Paul a quarter of an hour to remember where the cloakroom tickets were." "And where were they?" "In my handbag!"—Munich Meggendorfer Blatter.

Paying With Fish Hooks. Some of the Mongol tribes pay their bills with little eels of compressed tea. In Burma one finds cowrie shells used as money. The inhabitants of some of the districts bordering the Persian gulf do their buying and selling with fish hooks.

PROBATE ORDER.

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 10th day of June, A. D. 1922.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of George Simmerman, Deceased.

Lizzie M. Simmerman having filed in said court her petition praying that the administration of said estate be granted to petitioner or to some other suitable person.

It is Ordered, That the 5th day of July, A. D. 1922, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, once each week for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said county.
