

# Celebrate The Fourth At East Jordan, Let's Go!

## Charlevoix County Herald.

Vol. 26

EAST JORDAN, MICHIGAN, FRIDAY, JUNE 30, 1922.

No. 26

### EAST JORDAN TO CELEBRATE THE GLORIOUS FOURTH!

SOMETHING DOING EVERY MINUTE DURING THE DAY AND EVENING OF NEXT TUESDAY.

Under the arrangements made between Boyne City, Charlevoix and East Jordan, three years ago, it is East Jordan's turn to put on the Fourth of July celebration for the county. Elsewhere in this paper the different features of this celebration have been given somewhat in detail. The citizens of East Jordan are planning to take care of your comfort and entertainment to the best of their ability and they wish through the columns of this paper to extend to all the people of Northern Michigan a cordial invitation to spend the Fourth with them and help them to make this the biggest celebration that has ever been had. There will be some form of entertainment every minute of the day and evening on the Fourth. Hotel and restaurant prices will be normal. A number of organizations are planning to serve lunches and meals. The people of East Jordan will furnish coffee and cream and sugar free to all who bring picnic dinners and who eat them at the High School grounds. In addition to this there will be a stand at the High School grounds selling good clean sandwiches and fried chickens so if you desire you can get your lunch at the grounds and the coffee will be there for you. Bring cups as the lunch committee has been unable to get a sufficient quantity of cups for everyone.

#### THE PROGRAM

8:30 A. M. Baseball game at high school athletic field, Masonic—Presbyterians vs Ellsworth; seven innings no admission charges.

10:00 A. M. Big Street Parade.

10:30 A. M. Base ball game at high school athletic field, Methodist vs. K. P.—O. F. Seven innings no admission.

11:00 A. M. to 1:00 P. M. Free coffee, cream and sugar at high school grounds. Eat your picnic lunch there.

1:30 P. M. to 3:00 P. M. Street sports on Main Street and water sports at the city dock.

3:30 P. M. Base ball game at high school athletic field, Charlevoix League team vs. East Jordan League team. Admission \$.25.

5:00 P. M. to 6:00 P. M. Supper.

6:00 P. M. to 8:00 P. M. Band concert by the Grayling and Boyne City bands.

8:00 P. M. Grand fireworks display at high school athletic field. 52 numbers in this display.

All business places will be open. The main business blocks will be roped off. Seats will be placed all along Main Street. Main Street will be decorated with trees as well as flags and bunting and the trees so arranged as to provide shade on Main Street. The pavement will be washed clean. There will be no cars on the roped off blocks. You can bring your children, turn loose and let them have the best time of their life.

### Two Celebrated Bands

O BOY; TWO GOOD BANDS will play all day long and well into the night at the East Jordan Celebration of the Fourth.

The famous Grayling Band of twenty-five pieces will arrive in time for the big parade and will play marches, concert music, in fact every kind of band music all day long. This organization has been brought to East Jordan at a great expense because of its merits. We are expecting the very best of music from this organization as they recently in competition were ranked the fourth best band in the State. We are indeed especially fortunate in being able to bring this band to the East Jordan celebration.

Boyne City Marine Band will also be in attendance. This is the band which furnished such pleasing music to the patrons of the Charlevoix County Fair. It has had an able leader for several years who has certainly developed a band that delivers the goods. This band will also play all day long and in the evening. There will be music at the ball games, while you eat your lunch, during the street and water sports program, during the parade, at night down town and the big concert at the fireworks. Don't miss this treat.

### Parade In Forenoon

Promptly at 10:00 A. M. standard time the East Jordan celebration of the Fourth, the big parade will start. The committee in charge headed by Mayor Dicken promises a parade of unusual merit. Rev. Little is the chairman of the committee on floats and has been busily engaged for sometime, lining up floats. He expects this section of the parade to be composed largely of historical floats, which will represent the more important historical events in the development of the United States. They will follow the gaily decorated autos and everyone owning

a car is urged to decorate it and get in this parade. The callithumpian section of the parade will undoubtedly be a scream. Donald Porter is chairman of this committee and he has able assistants representing each of the industries in East Jordan and each group of men will contribute something funny for this section.

The parade forms at the High School and proceeds from there down Fourth street to Mill street; down Mill street to Main street; up Main street to Division street where it will disburse.

There will be in the parade, at least two bands; one from Grayling and one from Boyne City. It is hinted that a third band will demonstrate their ability to fill the air with music; this band having been recruited from Pumpkin Corners.

A first, second and third prize is offered for the best float in the parade and three prizes are offered for the best comic. This will be a parade unequalled before in this section of the country. Do not miss it.

### Street Sports

Commencing promptly at 1:30 p. m. standard time there will be a program of street sports pulled off on Main Street at the East Jordan celebration. The program includes the dashes; a pie eating contest; catching the greased pig; obstacle races; in fact, all the old-time Fourth of July stunts.

Immediately following the street sports a program of water sports will be put on which will include greased pole over the water; swimming races; canoe races and a number of other water sports, and will wind up with a water fight between members of the East Jordan Fire Department. If you have seen this fun you will want to see it again and if you have yet to witness it be sure to be on hand.

Space does not permit us to print the program for these sports in full. Good prizes are hung up for each event and there are contests for both boys and girls. Ben Reid is the chairman of this committee and will be assisted by R. G. Watson and L. G. Balch. Any boys or girls who want to find out just what events there are on

the program may get the information from either of these gentlemen.

Girls and boys do not be bashful but come prepared to win your Fourth of July money at these games. The boy who can walk the greased pole first far enough to get the prize will find that he has won a \$5.00 bill and the boy or girl who can catch the greased pig and hold, gets it for the prize.

### A Great Display of Fireworks

The very best fireworks display ever shot off in Northern Michigan is that scheduled for Fourth of July night at East Jordan. This display has been secured at a great expense and is a big city display. Among the set pieces that will be shown are the American Legion, in honor of those who went into that channel of death for liberty; Bolshevik wheel, fire frontage twenty feet a sure enough crazy wheel; Huge Red Cross, the emblem of that great order which ministered to wounded; Great Tree of Liberty, fire frontage of solid beauty, 35 x 35 feet; Indian Teepee, all out-lined in colors of fire, it looks like the lost sentinel of an age that is past; Silver Gloria, a beautiful design; Niagara Falls, great clouds of seething, fiery waters pour over the brink and fall in a dazzling sheet of magnificence; Incandescence Corona, fire 30 x 35 feet, lights the entire assemblage of people from great torrents of liquid silver fire; Old Glory, which will conclude the program.

In addition to the set pieces there are forty-six other numbers including all kinds and sizes of Bomb Shell, Sky Rockets, Arenic Displays, Big Mines, Novelties, Comets, Silver Filigree, Diamonds, Roses, Willow Trees, Aerial Gardens, Emeralds, Arctic Brooms, Huge Cascades, Rainbows, Great Battle Mines reports and flashes.

A truly wonderful display which will pay you to come miles to witness, this will be shot off at the High School Athletic field as soon as it becomes dark.

### Fast Baseball Games

Baseball fiends are promised a full program for that sport for the Fourth of July at East Jordan, commencing promptly at eight thirty A. M. standard time at the High School athletic grounds. The Ellsworth team will battle the Masonic team, this will be a fight from start to finish, this game must end at or before NINE FORTY-FIVE O'CLOCK to enable the spectators to see the big parade.

Promptly at Ten-thirty o'clock the K. P.'s will play the Methodists at the same place, this game follows the conclusion of the parade. These teams are third and second in the City League; are evenly matched, and a great game is expected no admission will be charged to either of these games, at the conclusion of the second game you may step over to the High School lawn and eat that Picnic Lunch.

The Big Game of the Day starts promptly at THREE-THIRTY P. M. at the same place. This game is between Charlevoix and East Jordan Northern Michigan League teams, two weeks ago Charlevoix defeated East Jordan in an eleven inning game which was a pitchers battle through. The same batteries will work on the fourth and in addition to the natural incentive to win, the winning team takes the lion's share of the \$150.00 purse. An admission of Twenty-five cents will be charged for this game.

The High School diamond is fast; there is plenty of room to park your; bleachers have been installed to accommodate eight hundred persons. The two teams are evenly matched, are raring to go, and a great ball game is promised.

#### Annual School Meeting.

The Annual Meeting of School District No. 4 of the Township of South Arm, Charlevoix County, Mich., for the election of school district officers and for the transaction of such other business as may lawfully come before it, will be held at the High School Building in East Jordan on Monday, the 10th day of July, 1922, at 7:30 o'clock p. m. Dated this 28th day of June, 1922.

CHARLES H. PRAY, Secretary.

You may be only twenty but if you're living in the past you might as well be ninety.

### Bonding Question up to Voters

Shall We Bond for \$70,000.00 for Municipal Light Plant?

At a meeting of the Common Council of the City of East Jordan, held last week, it was decided to present to the electorate of the City of East Jordan a proposition to bond this municipality in the sum of Seventy Thousand Dollars to own and operate an electric lighting plant and distributing system.

The vote on this will be held on Monday, July 17th, and it is hoped that every voter in the city will, on that date, register his or her affirmative or negative opinion on this proposition.

This question has been agitated for a number of years, and it is gratifying to know that it has finally come to a head.

East Jordan has had for years an electric lighting and power system, under private ownership, second to none in the state.

The crux of the whole proposition lies in the question of whether or not the citizens of our city are being charged an exorbitant rate. In interviewing a number of our citizens, opinion seems to be somewhat divided on the question of bonding.

The Herald publisher has always assumed that this newspaper belongs to the citizens of East Jordan and surrounding territory. To that end, The Herald will welcome any contribution on this subject prior to the election. The only proviso we require is that the writer shall sign his or her name to the article as a guarantee of good faith, and that the article itself shall not be libelous. Get your articles in not later than Wednesday noon to insure publication in current week.

### Bring Your Lunch

Bring your picnic lunch with you to the East Jordan Fourth of July celebration. Ira Bartlett and his committee has made all arrangements to supply you with all the best "home brew" coffee with good cream and sugar that you can use.

The coffee will be ready at 11 o'clock standard time and will flow freely from then until 1 o'clock. A large force of helpers will fill your cups. Don't forget to bring that cup. If you forget it he will have something for you to drink out of.

His committee has made arrangements for tables and chairs. Everything has been arranged for your convenience. For those who forget their lunch or fail to bring a sufficiency, a lunch stand has been arranged at which good sandwiches and fried cakes will be sold at a nominal price.

All this will be found on the beautiful lawn of the High School. If you do not know where this is to be found, ask any of "Doc" Bechtold's Committee. They are the ladies and gentlemen with the information and Welcome badges. Don't hesitate to use these people freely. Their only excuse for being on the street is that they may be of help to you.

Don't forget to bring your lunch and remember to eat it on the High School lawn where the good coffee is served free. And remember that you must do as the lady policemen (those wearing the big gold star) tell you to do or you will get run in.

#### Porridge Makes Scots Sturdy.

Has porridge made Scots sturdy? New light has been thrown upon this subject by the discovery within the last few years that porridge may have a strong effect upon the mysterious pituitary gland—which is a small organ at the base of the brain, determining our size and physical characteristics. If this little chemical factory is too active we are liable to become giants; if it does not work hard enough we may be Tom Thumbs. Some doctors now say that porridge makes the gland work in such a way as to produce the high cheek bones and splendid bodies which are the trademark of the Scot.

#### First Wire Suspension Bridge.

The first wire suspension bridge in the world, built in 1816, was across the Schuylkill river in Philadelphia. Supported by cables of six three-eighth-inch wires, it had a span of 408 feet and was 18 inches wide. Not more than eight people were permitted to walk on it at one time.

#### Hindoo Superstition.

If any evil portent occurs while a Hindoo is out he often returns home, smokes, and proceeds afresh. One of their most curious superstitions is to flip the thumb and middle finger after a sneeze.

### MISS LEANORE KENNY BECOMES BRIDE OF DICKINSON W. DICKEN.

Miss Leanoire Kenny, daughter of Mr. and Mrs. John F. Kenny, and Dickinson William Dicken, son of Mayor and Mrs. Hugh W. Dicken, were united in marriage at the home of the bride's parents on Esterly street, this city, Saturday, June 24th.

The ceremony took place at 5:00 o'clock p. m., Rev. C. W. Sidebotham, pastor of the Presbyterian Church officiating. The double ring service was used in the presence of a number of immediate friends and relatives.

The bride wore a gown of white Canton Crepe and carried a shower bouquet of bridal roses and sweet peas. She was attended by Miss Cecil Gehhart of Hart, Mich., who wore a gown of lavender organdie and carried a bouquet of sweet peas. The groom was attended by Donald Porter of this city.

Miss Marie Kelly of Peoria, Ill., a cousin of the bride, played the Lohengrin wedding march; and little Jean Bechtold, niece of the bride, was ring bearer, carrying the same on a white satin pillow.

The home was daintily decorated with daises and lady-slippers. Following the ceremony, refreshments were served to some thirty guests.

Among those attending the wedding from out-of-town were Mrs. Carrie Smith of Petoskey; Mrs. Frank Garrett of Council Bluffs, Iowa; Mrs. Arthur Rigg of Grand Rapids; Miss Marie Kelly of Peoria, Ill.; and Miss Cecil Gehhart of Hart, Mich.

Many valuable and useful gifts were presented to the happy couple.

The contracting parties were born in East Jordan and grew to manhood and womanhood in our city. The bride is a graduate of the M. A. C. and during the past year taught domestic science in the Petoskey schools. Following school and college courses, the groom has embarked in business and is now manager of the Boyne City branch of the Standard Oil Company.

Following a short automobile trip, Mr. and Mrs. Dicken went to their newly-furnished home in Boyne City.

### E. J. PUBLIC SCHOOL TO GIVE CREDIT FOR BIBLE HISTORY STUDY.

At a recent meeting of East Jordan's Board of Education, a plan that is being used by many of our largest and best schools in the state, and is approved by the State Board of Education—that of giving one-fourth credit for Bible History study—was adopted.

The plan is this:—Any student of the senior High School may, at his or her own option—and out of the school, take up the study of the literary work and history of Bible times, using the Bible as the text book.

The teacher may be one of our local preachers, or one thoroughly reliable and competent.

It must be entirely nonsectarian; a minimum time in study expended; and a rigid examination that is first approved by the Board of Education, passed by the student, to get the required credit.

In this plan no expense is entailed, no time taken in the schools, and no religious teaching in any way entering our school system. We are merely giving credit to such students as desire to enlarge upon their knowledge of literature and history of the Bible and Bible times.

Signed  
Ira D. Bartlett, Pres.

#### Oyster Enlarges Home.

An oyster enlarges its own shell. It spends its infancy in the hole where it lives in its latter days. As it grows it throws out a secretion of animal matter and carbonate of lime, which sticks to the shell, and oozes over the edges surrounding the hollow in which the creature resides. Thus, as time goes on, its home gradually becomes larger and thicker.

#### Port of Entry, Port of Call, Etc.

"Port of entry" is a term from revenue law, meaning a district of designated locality, whether a nautical port or not, where foreign goods may be introduced for import. The "port of debarkation" is the landing place where a ship discharges part or all of her cargo. The "port of call" is a port where vessels customarily stop for coal, repairs, transshipment of cargo, etc.

#### On Cold Reflection.

Sometimes this appears to be a mean old world.—Dallas (Tex.) Morning News

### East Jordan Defeats Pellston

Johnson In Fine Form; Struck-out Twenty.

In the Northern Michigan Base Ball League games of last Sunday, East Jordan defeated the Pellston team on the Pellston grounds by a 7 to 2 score. Johnson, East Jordan's star pitcher, had the Pellston team guessing throughout the game, strike-outs to his credit, Pellston getting only two hits off his delivery.

Following is the dope:—

EAST JORDAN		
AB.	R.	H.
Morgan, ss.....	5	1
Ed. LaLonde, cf.....	5	1
Dan Bennett, lb.....	5	0
H. Kanrad, c.....	5	0

#### SCORE BY INNINGS

1 2 3 4 5 6 7 8 9

East Jordan..... 1 0 0 0 1 0 4-7

Pellston..... 1 1 0 0 0 0 0-2

Struck out by Johnson 20; by Miller 8. Hit by pitcher, Hays by Miller.

Bases on balls, by Miller 2. Wild pitch Johnson 1. Umpire, McBride.

Next Sunday's game will be played on East Jordan's fair grounds, when our local team meets Mancelona for the first time this year. This game will be hotly contested as both teams are tied in league standing for 5th and 6th place.

A large crowd will be present and to care for the congestion at the gate, tickets will be sold in advance at the two drug stores in the city and at Bulow Bros. Get your tickets at these places and avoid the delay.

#### CLUB STANDINGS

Here is the way the various clubs in the league now stand as to games won or lost.

Club	Won	Lost	Pct.
Petoskey	3	0	1.000
Harbor Springs	3	0	1.000
Boyne City	2	1	.667
Charlevoix	2	1	.667
East Jordan	1	2	.333
Mancelona	1	2	.333
Pellston	0	3	.000
Gaylord	0	3	.000

### \$5,000,000 ROAD AID AVAILABLE

Michigan Has Next Sum To Its Credit From Past Years.

Washington—In addition to the \$1,499,888 Michigan will be entitled to draw in the coming fiscal year as federal aid for road building, it has a neat sum to its credit from past years.

Figures secured from the bureau of public roads show that Michigan's entire apportionment of federal aid from 1917 up to the end of May, 1922, was \$20,210,878. Of this \$6,805,228 was applied to roads completed or then under construction, leaving \$13,405,650 still available for new construction.

The amount earned by the state in federal aid by completed road work at the end of last May was \$4,952,912, and of this, \$4,477,186 had actually been paid, the balance of federal aid earned and then due being \$475,726.

There thus would be available by the state in the way of federal contribution for road work more than \$5,000,000.

### START SURVEY OF STATE SOIL

University Experts Begin Inventory of Natural Resources.

Lansing—Officials in charge of the state soil survey, which is being undertaken by several state departments and educational institutions, left Lansing June 28 for Charlevoix, where the inventory of natural resources will start.

Prof. L. J. Young, of the University of Michigan, head of the survey forestry division; Prof. L. R. Schoenmann, of Wisconsin University, directing the basic soils survey, and Dr. A. E. White, of the University of Michigan, chief of the industrial development and peat resources divisions, are in charge of the party that will encamp this summer in the Grand Traverse district.

# Peoples' Wants

## MUNNMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents.

### Wanted

**CHICKENS WANTED**—We are in the market for your young and old CHICKENS throughout the summer months—ARTHUR L. GUILD, one mile south and one-half mile west of Loeb Farms. Address Charlevoix, R. 2. Phone 240-F11 Charlevoix. 25x3

**IF YOUR FARM or Country Home** is for sale, write us. No commission charged. CLOVERLAND FARM AGENCY, Powers, Mich.

### GRAFT INDICTMENT APPEALED

Charles W. Morse and Others Appear For Special Pleading.

Washington—Charles W. Morse, New York banker and shipbuilder, his three sons and eight others indicted for conspiracy to defraud the United States through war contracts, have filed in the District of Columbia supreme court an application for a special appeal from the decision of Justice McCoy, overruling their demurrers. The application was taken under advisement.

### Irish Need Not Take Oath.

London—Members of the Irish Provisional Parliament, which has been summoned for July 1, will not be required to take the oath prescribed by the treaty, Winston Spencer Churchill, secretary for the colonies, announced in the House of Commons, though the ministers of the provisional government will be required to do so under the terms of the treaty. As for the members of the Parliament of the Free State, he explained, they would have to take the oath.

### Worries won't work—workers won't worry.

While you are holding a grudge, the grudge is holding you.

"Money makes the mare go," and automobiles make the money go.

It isn't the size of the population that makes a city—it's their sense.

It isn't good business to talk of bad business.

Ignorance also covers a multitude of sins.

You may not be superstitious and still believe it is unlucky to break a bill.

It may be that poets are born, not made, but it were better if some who think they are poets had never been born.

### Mother's Cook Book

"Our bread fields we plowed, we harrowed and sowed;  
We toiled together in fair and foul weather;  
Our labor was blessed; now sweet is our rest."

### GOOD RECIPES WORTH KEEPING

A GOOD sunshine cake is one which even the lovers of angel food will like.

**Sunshine Cake.**  
Take one cupful of butter, two cupfuls of sugar; cream the butter, adding the sugar a spoonful at a time until all is used. Beat the yolks of eleven eggs until very light and creamy. Beat with them the sugar and butter, adding the egg a spoonful at a time. Sift two and one-half cupfuls of flour with two and one-half teaspoonfuls of baking powder, and the flour a little at a time, alternating it with one cupful of milk, flavor with one teaspoonful of vanilla. Bake in a loaf.

**Filling.**  
Scald one cupful of milk, add two tablespoonfuls of sugar, mixed with one tablespoonful each of cornstarch and flour, a pinch of salt, cook until smooth and thick, then add the juice and rind of a lemon and one tablespoonful of butter—the butter added while hot, the lemon rind and juice when cool.

**Standard Cookies.**  
Take one-half cupful each of lard and sugar, using the light brown; add the yolks of eight eggs well beaten and one-half cupful of milk, four cupfuls of flour and three teaspoonfuls of baking powder. Mix well, add one teaspoonful of lemon juice. Mix and roll thin, sprinkle with sugar and bake in a moderate oven.

**Apple Snow.**  
Steam three large tart apples and rub them through a sieve. Beat the whites of three eggs until stiff, add one-half cupful of sugar and beat again. To this meringue add the apple pulp and beat lightly. Dot with jelly and serve.

## THE SANDMAN STORY

### OLD SUN MAN SCOLDS

THERE had been many sunny days in the early spring, once upon a time, but instead of building their nests and working as they should have done, two chattering young Robins and three Sparrows were quarreling as hard as ever you heard in a big tree in the orchard.  
Ted Squirrel ran over from the big tree at the edge of the woods, and when he heard what it was all about he began to wonder if he did not want that very tree, too, for that was what they were quarreling about, you see.  
It happened that one young Robin came to the tree just as the other had decided he would build there, and such a chattering and fluttering as went on!  
Then along came three Sparrows, and when they found that some one wanted the tree very much they all decided that they wanted it, too, though they were comfortably located

behind the attic blinds of the farmhouse.  
All day they quarreled, and when night came the two young Robins had to sleep in the branches without a nest. They had wasted the time in disputing and no work was done.  
But the first thing the next morning, when the sun came up, they all began quarreling again.

### The Friendly Path

By Walter I. Robinson

"INCURABLES"

"WHILE there's life there's hope." No truer statement ever was made. Every one has heard it and nearly every one believes it. But to judge by the pitiable lives of many one is inclined to believe that a large number fail to put their belief into practice.

There's another old proverb which says in substance that nothing is certain but death. And this is likewise believed by most persons, though at times one finds the handwriting on the wall indicating that certain things are inevitable.

Nevertheless, the latter proverb is just as sound as the old one given at the beginning of this essay. There would, therefore, be much more happiness in the world if many more would live with both thoughts clearly in mind.

There is no sadder institution in the world than those devoted to the treatment and care of persons afflicted with incurable ailments. No one in the world deserves greater sympathy and comfort and aid than those who are suffering from ills which they believe cannot be cured. But there are entirely too many who are declared incurables or decide themselves that nothing can be done to bring them good health. Every community of considerable size has some such residents who make life unhappy for themselves and others, and many thousands of them may be found in the United States. Yet, thanks to the advances of medical science, only a very small proportion of these are actually incurables.

Wonderful would be the increase in the world's happiness if this fact were widely known and understood and believed. It is, therefore, a matter of great importance which should make every one glad that President Harding's personal physician, Brig. Gen. Charles Sawyer, is engaged in planning for the welfare department of the United States government. For Doctor Sawyer has devoted most of his life to seeking "incurables" and curing them, and he believes that the happiness and welfare of thousands of persons depends on teaching them that few are actually incurable and that most of the sick can be made well.

### LENA

LENA or Lina, as it is frequently spelled, is one of the most conflicting of feminine names. Etymologists find it derived from the same source as Helen and also discover it through the evolution of Charlotte. Who shall say which is correct?  
It is not difficult to understand how Lena or Lina came to be a contraction of Helena, but preference is generally given to the theory that Lina is the correct form and that its real course is identical with the great Karl of the Franks who was the forefather of the feminine Charlotte.

Charlotte of Savoy, who married Louis XI, introduced her name to French royalty, whence it traveled quickly to Germany. There it changed form, becoming first Lettchen, then Caroline, and finally Lina. Meanwhile Charlotte d'Albret of France, who was given in marriage into the House of Tremouille, was responsible for the brave Lady Derby carrying it into England. The queen of George III, bringing the name from Germany, established in England the popularity of the diminutive Lina.

The Spanish make Lola from the contracted form of Charlotte or Carolina, as they call her, and the French have an equivalent Lolotte. Caroline, the form from which our own Lina is probably most often derived, was popular in Germany and was brought to England by the wife of George II, who gave it vogue among the nobility.

The lovely mysterious lapis lazuli is the talismanic stone assigned to Lena. It promises her freedom from danger and disease; indeed, it is said to be a cure for fevers. Friday is her lucky day and 5 her lucky number. The morning glory of contentment is her flower.

### PRACTICAL THEMES.

"Our sweet girl graduates are getting practical, eh?"  
"I understand most of the essays this year will be on such subjects as dress reform and the cost of living."

## PENINSULAR

(Edited by Mrs. E. Hayden)

Miss Doris Hayden and a party of girl friends, of East Jordan picniced at Miss Hayden's place at Hayden Point Thursday of last week.

Mr. Vanderbas of Boyne City who purchased the hay on the Wells Wildy farm, finished the job Monday, having a fine lot of gathered in fine condition.

Mr. and Mrs. Sam Hayden and daughter Doris of East Jordan called on the J. W. Hayden family at Orchard Hill Sunday P. M.

The Strawberry shortcake supper at the Peninsular Grange Hall on Saturday evening was a complete success.

Mrs. Geo. Weaver and family of Boyne City are visiting her parents Mr. and Mrs. Ira McKee.

Miss Hazel Swatish of Charlevoix is spending the week at the home of her great uncle, David Gaunt.

Will Gaunt is planting potatoes on his farm in the Star District.

The Geo. Jarman family consisting of Geo. Jarman and son's Elton, Evert and step-son Edward Guerin and daughter Mrs. Mercy Woeful and her two children Phillis and Geo. motored from their home Gravel Hill around South Arm lake touching East Jordan, Charlevoix, and on around Pine Lake to Horton Bay, Boyne City, Advance and around home Sunday P. M. They had a lovely trip.

Mr. and Mrs. Henry Wagoner and family of Charlevoix visited Mrs. Wagoner's sister Mrs. Earnest Loomis at Maple Lawn and the Ray Loomis family two children Phillis and Geo. motored from their home Gravel Hill around South Arm lake touching East Jordan, Charlevoix, and on around Pine Lake to Horton Bay, Boyne City, Advance and around home Sunday P. M. They had a lovely trip.

Mr. and Mrs. Clarence Johnston and family of the Three Bells District were dinner guests Sunday of Mr. and Mrs. Mead Benson on the Charlie Earl place in the Mountain District.

Mrs. Jule Walters is harvesting her cherry crop in her orchard, Shore Acres, on South Arm Lake. She has an abundant crop.

John Sanford was called to Charlevoix Thursday night by the illness of his son, Rex Sanford. Rex is thought to have measles or pneumonia, as the 239 telephone is again cut off from central, I could get no further news.

Miss Jonsson of Boyne City has been hired to teach the Mountain school the coming year.

Mrs. John Seiler and children spent a few days last week with her sister, Mrs. W. Sanderson on South Arm Lake.

Mrs. Frye, one of the regular summer residents of the Peninsular Point is occupying her cottage. The rest are expected the first of July.

Mrs. Laura Stanley and son, Claude, and daughter, Vera of Boyne City are on their farm in the Mountain District. They will do some farming and take care of the hay and fruit.

Elton Jarman is working for Arthur Bradford, who has been laid up for some time with a sprained ankle.

Art Hewitt and son Evert of Boyne City planted potatoes on the Earnest farm this week.

A carload of boys from the Peninsula consisting of Marion and Richard Russell; Sam, Derby and Frank Hayden and Herald Corban, got tired of waiting for Pine Lake to get warm enough to go swimming, so motored to Deer lake Sunday to enjoy the water some went swimming while the rest sat on the shore in their overcoats and watched them.

A white frost Monday morning June 26, did some damage to crops on the low land but none on the high ground.

The Whip-poor-will's have their suits now but can not get a game. They feel pretty bad about it.

The Lorch and Cadwell contractors on the good road complain of a scarcity of men for road work.

Haying is well under way and there are some potatoes not planted yet but farm work is progressing nicely.

Misses Allan Hayden and Marie Bennett motored around Pine Lake Monday afternoon and too supper with Mr. and Mrs. Bert Stanley in Charlevoix.

Mrs. Martin Sanderson and daughter Miss Lavinia of Millwaukee are spending two weeks with the former son Mr. Will Sanderson and family, on South Arm lake.

Edward Guerin who worked for B. F. LaCroix last week is working for Archie Sutton on the Martin Staley place now.

Jack Jardine, who has been connected with the Civil Engineering Dept't at Lansing for several years has resigned his position and is helping his father, Geo. Jardine, who is very much crippled up with rheumatism, with the farm work. The community are glad to welcome him home and hope he may remain.

Mr. Ordén of Boyne City who moved into the Crosby cottage some time ago, to work on the good road near the Three Bells schoolhouse has moved back to Boyne City.

Miss Florence McKee who has just completed her second year as teacher at Ontonagon, U. P. came home a few days ago in a new Ford. She will visit her parents, Mr. and Mrs. Ira McKee in the Star District for some time.

Geo. Staley reports the bumper crop of alfalfa, estimated 63, 100 lb. bunches on one acre. There is likely plenty more just as good but his is the only one reported.

Clarence Johnston delivered a splendid fat beef to Boyne City Monday.

O Dear! If telephone would only stay in repair the items might be more interesting.

When a woman has determined to be a martyr, the only way you can prevent her from being one is to suggest that it injures her looks.

Men conceal their extravagances—women display them.

If you are prepared for the worst it is surprising how often the best will happen.

**WHEN EVERY MOVE HURTS.**

Lame every morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use. Ask your neighbor!

Eric Farmer, railroad engineer, East Jordan, says: "I had a sore feeling across the small of my back that stayed with me for days and I had stitches in my back when I was not able to move at all and my back was always lame. When I stooped I could hardly get up again. Mornings I felt tired. Black specks came before me and blurred my eyes so I couldn't see. Through the night I often had to get up and the secretions were not only painful but always filled with dark sediment. I heard of Doan's Kidney Pills and got a few boxes at Gidley & Mac's Drug Store and they fixed me up in good shape."

**Something to Think About**  
By F. A. WALKER

**THE REASON WHY**

IN EVERYDAY contact with such things as regularly come up for solution in the home or the office, adopt a process of reasoning them out in your own way.

You will find if you steadfastly persist in such a course that you will soon reach a higher stage of thinking, necessary always to a higher state of efficiency.

Accepting some one's say-so without giving serious thought to the answer or inquiring as to the reason why, is an unwise thing to do.

In spite of whatever innate cleverness you may have, if this dependence on some one else is continued, there will never come to you an opportunity to show this ability.

You will form the harmful habit of leaning on others instead of standing alone in your own strength and trusting unreservedly in self.

Those upon whom you rely for advice will keep ahead of you just as long as you court their company and assistance.

By pursuing such a course you admit incompetence and lack of force, which disqualify you for leadership and advertise to your employers that you are a second-grade man or woman, incapable of forming judgment without help from others.

To observe, reflect and apply ought to be the high purpose of every man and woman in the stern battle of life.

Observe as a child and keep observing until you find the reason why.

If you will reflect, sift out the chaff from the wheat, you will in a short time be qualified to judge the good from the worthless and pick out the best every time you are called upon to make a decision.

With this newly acquired ability, you will know unerringly how to choose the right course and follow it with strength and assurance.

Instead of being a weak dependent, wavering, uncertain and timid, you will grow steadily into a strong, bold leader capable of shouldering great responsibilities.

Keep your eyes open, use the mind given you by the Creator, figure the value of everything that has a direct bearing on your work, apply the useful and you will encounter no real difficulties in finding the reason why, or in piercing the bull's eye of success with an arrow of your own making.

**Mother's Cook Book**

As it fell upon a day  
In the merry month of May,  
Sitting in the pleasant shade  
Which a grove of myrtles made.  
—Barnfield.

**SEASONABLE GOOD THINGS**

**SKIM MILK** will prove a boon to many housewives who have forgotten that it may be used in nearly all dishes instead of whole milk, and can be bought in many places for very little. In cream soups, adding a little more butter, the skim milk is especially good.

**Nut Wafers.**

Take three tablespoonfuls of butter, add five tablespoonfuls of pulverized sugar. When the sugar and butter are creamy, add three tablespoonfuls of milk, drop by drop, stirring constantly; then add nine tablespoonfuls of flour and a few drops of vanilla. Brush a pan with fat, drop by spoonfuls and sprinkle each with chopped nuts. Dust with cinnamon and bake in a slow oven.

**Spley Fruit Cake.**

Take one-half cupful of New Orleans molasses, one cupful of brown sugar, cinnamon, ginger and nutmeg to taste, one egg beaten well; add one cupful of sour cream, a teaspoonful of soda and three cupfuls of flour. Mix well and add one-half cupful of nuts with raisins, figs and dates chopped and mixed to make one-half cupful. Bake in a loaf in a slow oven.

**Anise Seed Cookies.**

Take one-half cupful of shortening, one cupful of sugar, two eggs, two tablespoonfuls of milk, four tablespoonfuls of anise seed, five tablespoonfuls of baking powder and three to four cupfuls of flour. Mix and add the seeds. Roll and cut in fancy shapes. Bake in a hot oven.

**Sticky Cinnamon Buns.**

Take one quart of raised dough, add one-half cupful of sugar, two well beaten eggs, two tablespoonfuls of soft butter, one-half cupful of brown sugar; mix well and roll out. Spread with two tablespoonfuls of soft butter; sprinkle with one-half cupful of brown sugar, mixed with two teaspoonfuls of cinnamon, one-half cupful each of currants and seeded raisins. Roll and cut in slices. Brush a deep, heavy sheet-iron pan with fat, sprinkle with brown sugar and set in the buns so that they do not touch. Let rise until light. The buns should be five inches high when baked. Cut the roll in two-and-one-half-inch slices when put to rise. Place an asbestos mat under the pan and be careful not to bake in too hot an oven.

**RADIO**

**THINGS BEGINNERS MUST LEARN FIRST**

**Explanation of Terms Used in Radio and of Its Basic Principles.**

Due to the great interest taken in radio since broadcasting stations have been started, many radio terms are seen and heard that may be unfamiliar to the novice. Some of the most commonly used terms are explained and defined below.

Like light, heat and sound, radio energy is propagated in the form of a wave motion. Every one is familiar with the wave motion set up on the surface of a still body of water by the dropping of a stone into it.

Every time a point on the surface of the waves goes through a complete set of motions and starts to repeat those motions the wave is said to have gone through a cycle.

The number of complete cycles gone through per second is the frequency.

The human ear is responsive to sound frequencies up to a few thousand cycles per second but is not capable of responding to the higher frequencies encountered in radio. Arbitrarily a frequency of less than 10,000 cycles has been called an audible frequency—one which can be heard—and frequencies above 10,000 cycles, radio or inaudible frequencies—because they cannot be heard by the human ear.

The particular type of wave which propagates radio energy is an electromagnetic wave. All of us have seen bits of iron and steel attracted by the little toy magnets made up in the form of horseshoes. This attraction of the magnet for the bits of iron and steel showed the existence of a magnetic

field about the tips of the magnet and this same kind of a field propagates the electro-magnetic force, except that unlike the toy magnet, its power comes off in the form of wavy motions. This electro-magnetic force propagates radio energy in all directions.

The medium that transmits the electro-magnetic waves is the same medium that transmits light—the ether. This medium is supposed to fill all space, even that occupied by fluids and solids. Little is known about its properties.

In radio it is more common to speak of wave length than frequency. The wave length of any wave motion is the distance between any two successive crests in the same direction. The wave length depends upon the frequency. If the frequency is high the wave length is short. On the other hand if the frequency is low the wave length is long. Numerically the wave length is equal to the distance traveled by the wave in one second divided by the frequency. Suppose, for example, that it were desired to know the wave length of an electro-magnetic wave having a frequency of 835,000 cycles. Electro-magnetic waves travel at the same speed as do light waves, that is, 180,000 miles per second. Dividing the 180,000 by 835,000 the wave length would be .223 miles or 395 yards. In radio work it is measured in meters. A meter is equal to approximately 1.1 yards. Converting 395 yards into meters the wave length would be 366 divided by 1.1 or 330 meters. This is the wave length on which KDKA operates. It also means that the electro-magnetic waves sent out from this station have a frequency of 835,000 cycles.

**FUNDAMENTAL PRINCIPLES**

In a radiophone transmitter there are two requirements that must be fulfilled. First, there must be a source of high-frequency current, say, between 15,000 and 1,500,000 cycles so connected to an antenna and ground system that energy in the form of electro-magnetic waves will be radiated. Second, there must be some method of controlling this high-frequency current or modulating it so that the variations in the amplitude of the high-frequency current will be directly proportional to the voice or music to be transmitted.

The high-frequency current is known as the carrier-wave and its function is to radiate into space in the form of electro-magnetic waves and by its variation in amplitude carry with it the variation in the tone at the transmitting station.

It is the frequency of the carrier-wave that determines the wave-length on which a radiophone station is transmitted. By experiment it has been found that electro-magnetic waves travel at the same velocity that light waves travel, that is, 180,000 miles per second. Wave-length is the distance between any two similar points on two successive waves; for example, the distance from crest to crest of any two successive waves in the same direction, measured in meters, a unit of length equal approximately to one and one-tenth yards. Converting 180,000 miles to meters, the equivalent is 300,000,000 meters. The length of an electro-magnetic wave is equal then to 300,000,000 divided by the frequency. Suppose a station was transmitting on a wave-length of 300 meters. The frequency of the carrier-wave would be approximately 835,000 cycles.

Just as a violinist tunes his instrument, that is, makes a certain string emit a note of higher or lower pitch, or, technically speaking, a sound wave of higher or lower frequency, by adjusting the tension on the string, so may the electrical constants of the antenna circuit of a radiophone transmitter be changed in order to have the station emit a carrier-wave of a different frequency.

If a tuning fork having a natural period corresponding to middle C be placed near a violinist who is playing, the fork will vibrate when the musician plays middle C, but all other times it will remain quiescent. This phenomenon of the tuning fork vibrating whenever the musician plays the corresponding note on the violin is known as mechanical resonance. If a radio receiver be adjusted so that electrically its natural period of vibration will be 835,000 cycles (300 meters wave-length) every time a station transmits on a wave-length of 300 meters, current will be set up in the receiver by

Amateur Radio Operators Erecting Aerial on the Roof.

**Tsuru Aoki**

Tsuru Aoki is the charming little wife of Sessue Hayakawa, the movie star. After an absence of many years from the screen she was recently induced to return to play opposite her husband in one of his big productions. She has been deeply interested in Hayakawa's work of translating Shakespeare's plays into the Japanese language.

**THE RIGHT THING at the RIGHT TIME**  
By MARY MARSHALL DUFFEE

**DON'T AIR YOUR ILLS**

REMEMBER that the man who makes a point not to air his bodily ills, and who makes it a matter of principle not to grumble about the ups and downs of his health always has an advantage over the man who keeps his associates posted concerning the way he feels.

Instinctively your associates feel that you are superior when they realize that possibly you too sometimes feel under the weather but that you never grumble about it. The thoroughbred man, like the thoroughbred animal, does not whimper over the slightest discomfort. There is something of the Stoic in all true aristocrats and it is a characteristic of all mean and ill-bred natures to like to reveal the fact of their discomfort even to close associates. This is, of course, absurd—absurd because it actually causes more discomfort to your associates than would an admission of your illness.

Remember that there is only one person in the world to whom you have a right to tell all the bad feelings that you experience, only one person whom you are privileged to burden with your symptoms—and that is your doctor, and the only reason you are privileged to tell him is because you pay him to listen and because by telling him you hope to remove the symptoms.

(Copyright.)

**YOUR HAND** How to Read Your Characteristics and Tendencies—the Capabilities or Weaknesses That Make for Success or Failure as Shown in Your Palm

**THE HAND OF A SOLDIER**

AS MIGHT almost be expected, the hand of a successful soldier must be square and firm. The top phalanx of the thumb must be strong, to indicate will power and ability to command. As the soldier—that is, the officer—must frequently use tact and diplomacy, the second phalanx of the thumb should be well curved. Ambition is indicated by a line running from the line of life to or toward the mount of Jupiter, under the forefinger. A star on the mount of Jupiter reveals distinction gained in the field or elsewhere.

If there is present in the hand what is called a second mount of Mars—that is, a mount lying between the line of life and the mount of Jupiter—11 indicates unusual bravery and daring. A short line running from the line of fate, which runs vertically up the palm of the hand to Saturn, shows a government appointment. The mount of Mars—about the middle of the palm, on the outside—should be strong, to express endurance.

**IF HAIR IS TURNING GRAY, USE SAGE TEA**

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## Wolverine News Brevities

**Benton Harbor**—Sale of the Benton Harbor-St. Joe Railway & Light Co. to the Indiana & Michigan Electric Co. has been completed.

**West Branch**—A team of horses, valued at \$450, owned by Victor Nelson, was struck by lightning and killed in a field on his farm.

**Birmingham**—Fred Alter, of Grosse Pointe, was arrested following the alleged seizure of five cases of beer in his automobile. He was taken to the Pontiac jail.

**Marshall**—At a special meeting, electors of Marshall school district voted to issue \$100,000 bonds to erect a new high school gymnasium and auditorium by 296 to 95.

**Muskegon**—Leaping from the grandstand to quell a threatened fight between Muskegon and Kalamazoo baseball players, Sheriff W. O. Matthews suffered a sprained ankle.

**Grand Rapids**—Henry Ward Beecher, 62 years old, head of a chain of motion picture houses here, and a pioneer businessman, died of appendicitis. He was prominently known as the "newsboys' pal."

**Bay City**—Egbert Sovereign, a pioneer lumberman of Michigan and vice-president of the Aladdin company, of this city, died at his home here. He was 81 years old, and leaves his widow and two sons.

**Sault Ste. Marie**—Oscar Sottergren, arrested in connection with the slaying of Dotofof Norberg, on a farm near Manistique last February, was sentenced to life imprisonment at Marquette by Judge Louis Feald.

**Rochester**—Helen, 14-year-old daughter of C. W. Mellok, manager of D. A. Brown's stock farm, died of Hodgkins disease, a gland disease so rare that but 30 cases were reported in Michigan in 65 years. All were fatal.

**Ypsilanti**—George Kapsouris, arrested in Detroit on a charge of issuing bogus checks, waived an examination in justice court, and was bound over to the circuit court. Bail was fixed at \$1,000 which he was not able to give.

**Fulton**—A homecoming celebration was held here June 21 in observance of the fiftieth anniversary of the village church's dedication. The chief address was made by Dr. Hugh Kennedy, of Detroit, secretary to Bishop Theodore Henderson.

**Charlotte**—Catherine, 4-year-old daughter of Mr. and Mrs. Fred J. Briggs, of Kalamazoo township, died here as the result of amputation of her left arm, made necessary after that member was crushed in a power wringer of a washing machine.

**Port Huron**—Members of the Kiwanis club have started a movement to secure the city manager commission form of government for Port Huron in place of the commission form. Under the new plan a city manager would be placed in charge of all city departments.

**Lansing**—The state's right to collect a fee for approval by the Michigan public utilities commission of bond issues of railroad and utility companies is to be tested in court by the Minneapolis, St. Paul & Soo Railroad Co. The company paid under protest a fee of \$226 for the approval of a \$3,000,000 gold bond issue.

**Bozette**—The new consolidated school district recently formed, has elected the following officers; Herman C. Meyer, B. J. Grohaskie, George Matulski, William Petts and Frank L. Stewart who will engage a superintendent of domestic science and four additional grade teachers. The district will receive \$1,000 state aid.

**Flint**—Rev. W. H. Holden, of Springfield, Ill; former head of the Illinois conference of Seventh Day Adventists, was elected president of the East Michigan conference during the business session held here. R. M. Harrison, of Grand Rapids, was elected secretary and treasurer to succeed Miss Tillie Barr, who leaves as a missionary for China.

**Escanaba**—Dr. William H. Taylor, of Ludington, Mich., was elected state president of the fraternal order of Eagles in the closing session of the Michigan annual convention here. W. P. Vaught, of Boyne City, was chosen vice-president. Robert Graham, of Grand Rapids, secretary and John Richter, of Saginaw, treasurer. The 1922 convention will be held at Boyne City.

**Grand Rapids**—Because his revolver slipped from his holster, Jimmy Lee, paroled convict and a fugitive for several months, was taken without bloodshed when a posse of officers raided an alleged rendezvous of thieves and moonshiners near Ada. Lee nearly made his escape, but stopped when he lost his gun and Deputy Sheriff Frank Linkfield emptied his revolver at him.

**Traverse City**—In increasing numbers, tourists are pouring into the north country for a breath of pine laden air. Every day the hotels add permanent names to their summer register and cars with vari-colored license plates appear on the streets. Cottages at the smaller resorts in the region are rather well filled, and soon all the shutters will be down and the screens up. The state tourist park at the east head of Grand Traverse bay already has had many campers. Many summer people are coming by train this year instead of by automobile.

**St. Joseph**—Four men loaded a 400-pound safe, stolen from the Homer Grant store, at Coloma, into an automobile and escaped. The safe contained \$250.

**Oshkemo**—Charles Campbell, Grango leader, and progressive farmer, of Oshkemo, is making plans for installing an up-to-date cold storage plant on his farm here. It will be the first in this vicinity.

**Albion**—Entering the building through two loose boards in the floor, left after pipes had been repaired, thieves took 1,000 pounds of sugar from the store of Mike Dubina, in the foreign settlement here.

**Ann Arbor**—Professor Jesse S. Reeves, head of the political science department of the University of Michigan, will take part in the institute of politics opening for a month's session at Williamstown, Mass. July 27.

**Adrian**—Four acres of land have been purchased at Weston, Mich., by the Page Dairy company of Toledo, O., and, according to officials of that company, a milk station will be erected there. The location is in the center of Lenawee county's milk producing territory.

**Charlotte**—The board of directors of the Eaton County Agricultural society have authorized a new floral hall to cost \$7,500. The new structure will be ready for the fair this fall. The society is one of the few prosperous county fairs, with a surplus of \$10,000.

**Muskegon**—This city has reduced the assessed valuation on residence property more than \$1,500,000, while a similar increase has been made on factory property. The factory boost is largely due to new buildings erected. The total assessed valuation will be around \$52,000,000.

**Mt. Clemens**—Fourteen pints of beer, recently confiscated by Prospector Lynn Johnston, from the Green Tree canteen, was ordered returned to the owners by Judge Harry J. Dingeman, of Detroit, who held that the search warrant under which the raid was made was irregular and illegal.

**Tecumseh**—A bumble bee which stung the nose of J. D. Cox of Detroit, as he was driving his automobile near here, caused him to lose control of his car which swerved into the ditch and turned turtle. His wife and two sons were in the car, and Mrs. Cox suffered a broken arm.

**Marquette**—"We hope to be able to start work on the new Normal training school building this summer or early in the fall," President James H. B. Kaye, of the Normal school, declared. "At present plans are being modified so as to make the new school one of the finest of its kind anywhere," he said.

**Flint**—Declaring that local justices of the peace are taking too many days off, including fishing and hunting trips, and other vacations, Mayor William H. McKelghan sent Justices Marshall Frisbie and Elwyn Tanner letters notifying them, that, according to law, a justice is entitled to but 14 days' vacation in the year.

**Kalamazoo**—Cliff E. N. Diver, of this city, for meritorious service, the Michigan Central Railroad, for which he worked 40 years, has granted him a pension and a gold medal, entitling him to a life pass on the line. During his 40 years' service on the road, Diver, as baggage master, never met with an accident or was involved in a damage claim.

**Mt. Clemens**—Judge Theodore J. Richter, of the Wayne circuit bench, effected a reconciliation between Mr. and Mrs. Carl A. Hoffman, wealthy Grosse Pointe residents, principals in a divorce case. Hoffman brought the action against the wife, who is mother of 12 children. The two kissed, and marched out of court, hand in hand, with their 12 children following.

**Alpena**—John C. McKay, captain of the fishing tug Falcon, suffered a fracture of the right arm and nearly lost his life when he was carried overboard with the pilot house of his craft when it was struck by a tow line between the barge Helen C. and a tow. With his broken arm, McKay swam 50 feet, then found a life preserver, with which he kept afloat until rescued.

**Grand Haven**—Chief Pipple, of the police and fire department, no longer has to dash away on his bicycle when answering a fire alarm or a burglar alarm. For several years the city has equipped the chief of the two departments with a bicycle and he has pumped his way to the scene of trouble. But now it is changed. A bright red automobile has been purchased for the chief.

**Clare**—The last of the lumber towns of Clare county is doomed. The Pere Marquette started to tear up its tracks to Leota, famous in the lumber-jack days of 40 years ago. Millions of feet of logs have been floated down the Muskegon, past Leota, but only small timber has been marketed the last few years. Inasmuch as the trunk line through the town is also being abandoned, little remains to keep alive a semblance of the town that once thrived there.

**Pontiac**—A pat on the shoulder accompanied by a squeezing of her hand by a married man caused Mrs. Emily Bowhall, 35 years old, of this city, such "great worry and mental suffering" that she is suing George Edgar Sherman, 65, a farmer, for \$15,000 damages, according to the bill of complaint filed here. Mrs. Bowhall charges that Sherman insisted on making love to her, although knowing that she was married. Her husband is a machinist. She says that Sherman once suggested that they go out for a "good feed."

B. O. HAGERMAN  
Co. Agricultural Agent, Boyne City.

### ATTENTION FARMERS!

#### The Grasshoppers are With Us. Precautions Must be Taken to Save Young Seeding.

Reports have been brought in from several sources that the grasshoppers are working quite extensively. And especially so in young alfalfa seeding. Last year the Board of Supervisors made it possible for each and every farmer in Charlevoix County to effectively fight this pest by making an appropriation to defray the greatest proportion of the expenses which is incurred in combating this nuisance. The money appropriated was used in buying white arsenic. (Do not confuse this white arsenic with arsenate of lead.) The method of procedure of last year will again be followed this year. The co-op will handle the white arsenic and will only charge two cents a pound for the same which only covers cost of handling. We don't wish to be an alarmist, but fore-warned is fore-armed, and as the white arsenic is practically given away, I feel that each and every farmer would avail himself of the opportunity and secure a sufficient quantity of this poison so that it will be possible for him to mix up the poison and apply it at the first indications of the grasshoppers becoming a serious menace. Following are three receipts which may be used for this purpose:

#### Criddle Mixture

Criddle-mixture is horse manure mixed with an arsenical, and slightly salted. It is to be distributed about the field in small masses, and is especially useful in combating grasshoppers, as it takes advantage of their well-known love of salt. The proportions are as follows: White arsenic, one pound; salt, two pounds; fresh horse manure, 100 pounds, or five three-gallon pailfuls. The salt is dissolved in a pail of water, the poison stirred in, and the whole mixed with the horse manure in a half barrel.

#### Sawdust—Grasshopper Bait

Into a bushel of fresh hardwood sawdust pour and thoroughly mix a mixture made as follows:—one gallon of water, one pound of white arsenic (not arsenic of lead or calcium), a cup of molasses and one pound of salt. Add an ounce or so of either ethyl acetate or amyl acetate — the former has the odor of bananas, and either one is attractive to grasshoppers. Add enough water to produce a good stiff mash and broadcast. The ethyl acetate and amyl acetate are not absolutely necessary but they do make the bait more attractive.

#### Wheat bran Formula

Wheat bran ..... 25 lbs.  
White arsenic ..... 1 lb.  
Cheap molasses ..... 2 quarts  
Amyl Acetate ..... 3-4 oz.  
Water ..... about 3 1/2 gal.

#### Cow Testing Pays.

Your herd ought to be a better and more profitable herd this year than last. It can be if you would have it so. Do you know your cows? Do you know those giving you the largest returns, and if so, are you rearing heifer calves from those cows? You can't keep the best heifer calves without knowing something of the mother. In short, ask yourself this question? "Am I keeping my cows, or are they keeping me?"

The scales and Babcock test will tell the cow secret you need to know. The more you use these, the more profitable cow milking will be. If possible join a test association. A cow testing association brings home the fact that there is a wide difference in the individual production of dairy cows, and that this variation in production is also largely dependent upon many conditions under the control of the farmer himself.

A cow testing association is organized by a group of about 25 dairymen in a community who hire an experienced dairyman to spend one day each month at their farm. He is called a tester. The tester weighs and tests for butter fat, the milk from each cow; determines the value of food consumed; and is able to show each member the income per cow and the profits from each.

The following is a list of benefits derived by the farmer from a cow testing association: 1st, you know what every cow produces, cost of feed and the profits she makes over the cost of the food. 2nd, you increase profits by disposing of poor cows and feeding your good cows, according to their production and ability to convert food into money. 3rd, the production of your good cows is definitely known and their selling value is greatly increased. 4th, you can get many good suggestions from your "tester" who is a man of practical experience and

who is constantly observing the methods of the most successful members of the association. 5th, you can have the tester skim milk and cream, getting a check on your separator and the cream market. 6th, the association leads to a stronger community spirit essential to the development of all farm communities. 7th, the association leads to the buying of pure bred sires and the numerous advantages occurring therefrom. If 25 dairymen in Charlevoix county want an association, your County Agent with the State Agricultural College will be glad to help you organize. We already have about one half of the required number to complete the organization. The subject is altogether too big and too important to do justice to it in this small space. However, further information on this or any dairy subject that you are interested in will be supplied to you free upon request.

#### CANADA MAY TAX AMERICANS

Income Tax Proposal Submitted to the House of Commons.

Ottawa—Honorable W. S. Fielding, minister of finance, has introduced in the house of commons a bill amending the income tax act whereby Americans working in Canada and living in the United States must pay a tax of eight per cent on all earnings in excess of \$1,000. No exemptions of any kind are allowed. This is the same tax as the United States government recently put into effect upon Canadians working in the United States and living in Canada.

The tax is to become effective by proclamation, which means that all that is needed for its enforcement is the scratch of a pen by the governor-general.

#### President Outlines Subsidy Plans.

Washington — President Harding gave formal approval to plans of Republican leaders in the house to bring the administration ship subsidy bill to a vote at this session soon after the tariff bill has been sent to conference by the house. The president's position was stated in a letter to Representative Mondell, of Wyoming, the Republican leader, which embodied also detailed arguments advanced by Mr. Harding in favor of enactment of the measure at the present session.

"Seeing is believing," but when a man sees his finish he hardly ever believes it.

#### PAIN KEPT HIM AWAKE NIGHTS.

J. W. Peck, Corapolis, Pennsylvania, writes: "I suffered terrible pain, unable to lie down nights. Tried three different doctors. Three weeks ago began taking Foley Kidney Pills, improvement in my condition is really wonderful." Hite's Drug Store. adv.

### How did your neighbor's last bargain tire turn out

**PROBABLY you know at least one car-owner who is always on the look-out for the cheapest tires he can find. He likes to get them by mail or at a sale or at some place where they have big red bargain signs over the door.**

**It would be fine if he could get "the edge" in every tire trade.**

**But the dealer can't afford to let him have it.**

**Even if a man saw any slight percentage in tire shopping at all—it disappeared when the "Usco" brought the price down.**

**A standard product—and the dealer sells it with pride.**

**A good tire. The dealer has no desire to trade you into a larger profit for himself.**

William H. Gallagher of Muskegon, Chaplain of the Grand Lodge F. & A. M. will deliver the St. John's Day sermon at the M. E. Church, Boyne City, at 9:30 a. m., standard next Sunday July 2nd. All Masons and Eastern Stars are cordially invited.—A. K. Hill, Sec'y.

Regular meeting of South Lake Lodge No. 180, K. of P., every Monday evening at 7:30 sharp. All members urged to be present. Visitors welcome

#### CITY TAX NOTICE

City Taxes for the City of East Jordan for the year 1922 are due and payable from July 1st to July 31 inclusive without penalty.  
 On August 1st a collection fee of Two per cent will be added and an additional one per cent on the first day of each succeeding month until taxes are paid.  
 G. E. Boswell, City Treasurer.

#### Water Tax Notice.

Water tax for quarter ending June 30th will be due July 1st and payable at my office during the month of July. After August 30th, if the tax is unpaid, service will be discontinued. No notices will be sent.  
 G. E. BOSWELL.

**Voice Never Permanently Changed.**  
 If the quality of the voice does not change appreciably with the years, neither can it be changed to any great extent by any vocal gymnastics. Numerous are the "methods" and "systems" advertised with this end in view, but they are futile. Great singers are born, not made. Quite true, training may (though often it does not) help to develop volume, suppleness and range of utterance, but the quality changes but little if at all.—New York Medical Journal.

**Architect of His Own Fortune.**  
 The proverb, "Every man is the architect of his own fortune," is found in most modern languages. According to Sallust, Roman historian, the phrase originated with Appius Claudius Cæcilius, who held the office of censor in 312 B. C. A century later Plautus, a Roman dramatist, asserted that "the wise man is the maker of his own fortune, and, unless he is a bungling workman, little can befall him which he would wish to change." Another form is, "His own character is the architect of everyone's fortune."

**Pitcairn Island.**  
 Pitcairn island has an area of about two miles square. The population now is said to be about 220. The natural food resources of the island, chiefly fruits, fishes and wild birds, probably would support a population of five hundred. The island has no intercourse with the outside world, with the exception of an occasional visit from a passing ship.

### BODY OF YOUNG RECTOR FOUND

**DEATH OF DETROITER IN CHARGE OF ONTONAGON CHURCH REMAINS MYSTERY.**

#### MOONSHINERS MAY BE INVOLVED

**Coroner's Jury at Eagle Harbor Does Not, However, Find Evidence of Foul Play.**

Detroit—"The glorious Easter Day once more is near at hand. With its coming, victory over death once more is fully realized."  
 Thus George W. Jerome Dickinson, 20 years old, acting rector of the Episcopal Church in Ontonagon, Mich., wrote to his family at 686 Atkinson avenue, on April 7. It was his last letter. Three days later he disappeared. On June 21 his body was found on Keweenaw Point, on the shore of Lake Superior.  
 Dickinson had intended to begin his studies for ordination next fall. He had been a student at Northern High School, leaving there about three years ago to study pharmacy at the Cass Technical High School. He completed his course there and was a registered pharmacist, for a time in the employ of Grace Hospital.  
 He went to Ontonagon last fall to complete his high school credits. When he arrived, he found that the Church of the Ascension, the only Episcopal church in town, was without a rector. He offered to supply the pulpit and, after conducting several services, the congregation was so greatly impressed that they urged him to take charge of the parish.  
 He took a conspicuous part in the crusade against the liquor traffic. One of the first theories advanced to account for his disappearance was that he had been disposed of by moonshiners. This theory was discounted at the inquest, held in Eagle Harbor, where the coroner's jury found no evidence of foul play.

#### JURY ACQUITS GOVERNOR SMALL

**Case of Illinois Executive Ends After Nine Week's Trial.**

Waukegan, Ill.—The jury trying Governor Len Small found him not guilty in a verdict returned June 24. The jury was out one hour and 35 minutes.  
 Cheers that shook the rafters of the ancient Lake county courthouse greeted the verdict. Friends by scores poured through the gates to the bar enclosure seeking to grasp the governor's hand.  
 Governor Small was indicted about a year ago on an embezzlement charge but this later was changed to a charge of conspiracy to defraud the state of interest money. The case went to trial nine week's ago.

#### JURY BLAMES COAL OPERATORS

**Verdict Declares Officials of Company Responsible for Massacre.**

Herrin—Entire responsibility for the murder of 19 non-union workers and two union miners resulting from the riots and massacre at a strip mine near here last week, was laid upon officials of the Southern Illinois Coal company, mentioned specifically by name, in the verdict rendered by a coroner's jury here Sunday.  
 The jury contained three union miners, of whom one was foreman.

#### GOLD SITE DISCOVERY REPORTED

**23-Foot Vein Uncovered in Hologden Mines, Report.**

Sudbury, Ont.—It is reported that an important discovery has just been made in the West Shining Tree gold area, in the Hologden mines. A vein which measures approximately 23 feet in width has been uncovered on surface, the composition being well-mineralized blue quartz. Negotiations are now under way with a view to equipping the property with a mining plant and carrying out an extensive scheme of operation.

#### YOUTHS ON DRIVE TO ALASKA

**Graduates of Allegan High School Build Car for Trip.**

Allegan, Mich.—In an automobile built out of old parts, with a camping body, Plan Miller and Emil Schmidts, Jr., who graduated this month from the Allegan high school, have set out on a trip to Alaska.  
 The car was made as a part of their manual training work.

#### 24 Injured in Train Wreck.

Leadville, Colo.—Twenty-four persons were injured, four seriously, when the first section of Denver & Rio Grande Western passenger train No. 2, eastbound, was wrecked at Keelard, a small station 10 miles from Leadville. Spreading rails are believed to have caused the accident. Those who suffered sprains, cuts and bruises continued their journey. Three Pullman cars and the diner turned over while another Pullman jumped the track and turned partly over.

### BRITISH MILITARY LEADER ASSASSINATED NEAR HOME

**SIR HENRY HUGHES WILSON**  
 London—Field Marshal Sir Henry Hughes Wilson, former chief of the British imperial general staff and late military adviser to the Ulster government was assassinated June 22 near the door of his home in Eaton Place, London.  
 Two men fired upon the field marshal as he was alighting from an automobile after attending a war memorial unveiling where he delivered a speech. Struck by three bullets, he staggered and fell. He was carried into his home where he died before the arrival of physicians.

Identified.  
 At a children's party Cyril was violently athletic during hide-and-seek. There was an ominous sound of rending cloth and he was hurried away for repairs. "I heard a bang," he explained, "and I wondered what it was. But when I felt myself coming through I knew it was me."—London Tit-Bits.

Notice of Special Election.

Notice is hereby given to the electors of the City of East Jordan, State of Michigan, that a Special Election will be held on the Seventeenth day of July, A. D., 1922, at the places named below and for the purpose hereinafter set forth in a resolution adopted by the Council of the City of East Jordan on the Nineteenth day of June, A. D., 1922.

VOTING PLACES
First Ward, Gum Company Bldg.
Second Ward, Town Hall
Third Ward, Hose House

RESOLUTION

Whereas the council of the city of East Jordan has by resolution duly passed at its meeting held on this 19th day of June, A. D. 1922, declared it is expedient, necessary and desirable for the city of East Jordan to acquire, own, purchase, construct and operate a municipal electric lighting plant and distribution system for the supplying of the city of East Jordan and its residents with electricity for heating, lighting, power and any other use which the same now is or may hereafter become available or desirable and

Whereas the council of the city of East Jordan has caused an estimate of the expense thereof to be made at the sum of Seventy Thousand Dollars.

Now, therefore, be it and it is hereby resolved that the question of raising and borrowing the amount necessary, being the sum of Seventy Thousand Dollars, and issuing the bonds of the city therefor, for the acquiring, owning, purchasing, constructing, and operating of such municipal electric lighting plant shall be submitted to the electors of the city of East Jordan at a special election hereby called for that purpose by the city council of the city of East Jordan on the 17th day of July, A. D. 1922.

And be it further resolved that the polls of said election shall be open from the hour of 7:00 o'clock in the forenoon until 5:00 o'clock in the afternoon of said day and that the form of the ballot to be used at said election shall be as follows:

"For borrowing the sum of Seventy Thousand Dollars for acquiring, owning, purchasing, constructing and operating a municipal electric lighting plant and distribution system for the city of East Jordan, and issuing the bonds of the city therefor."

YES [ ]

"For borrowing the sum of Seventy Thousand Dollars for acquiring, owning, purchasing, constructing and operating a municipal electric lighting plant and distribution system for the city of East Jordan, and issuing the bonds of the city therefor."

NO [ ]

And that a notice of said election, including this resolution, shall be published in the Charlevoix County Herald once each week for three weeks immediately preceding said election and that six copies of said notice to be posted in six public places in the city of East Jordan at least twenty days prior to the date of said election.

Adopted by the council of the City of East Jordan on the nineteenth day of June, 1922, by a yeas and nays as follows:

Yeas: Aldermen Farmer, Proctor, Kowalski, Porter, Whittington, Palminter, Aldrich and Mayor Dickson.
Nays: None.

REGISTRATION

Any qualified elector not already registered, may register at the city clerk's office at any time prior to 8:00 o'clock, standard time, July 8, 1922.
Dated this 23rd day of June A. D., 1922 Otis J. Smith, City Clerk.

Notice to Contractors.

Sealed bids will be received by the Board of Charlevoix County Road Commissioners at their office in the Court House, Charlevoix, Mich., until 1:00 o'clock p. m., July 10, 1922, for laying 8300 Sq. Yds. of Wearing Course Gravel on what is known as the Emmet and Grand Traverse State Road in Marion Township.

Same to be done according to State Specifications including rolling and shaping grade. Work to be completed by Oct. 1, 1922.

The right is reserved to reject any and all bids.
JOS. M. COURIER, Chairman.
RICHARD LEWIS, Clerk.

APPLY SULPHUR TO HEAL UP YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist, apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.
Get a small jar from any good druggist and use it like cold cream.

BREAK INTO JAIL TO FREE 2 GIRLS

FLINT YOUTHS ARRESTED AFTER ANSWERING CAPTIVE'S PLEA TO RELEASE THEM.

FAIL IN ATTEMPT AT GETAWAY

Detected Trying to Steal Autos in Which They Hoped to Elude Flint Officers.

Flint, Mich.—Breaking into the Genesee county juvenile home at midnight and assisting two young girls to freedom, caused the arrest, Sunday, of five young men, now held at the Genesee county jail facing serious charges.

The young men are: William Clark, 18 years old, of 118 Tillinghast place; Charles Lauderbach, 18 years old, of Flint; Cole Campbell, 19 years old, of 2022 Pine street; Ralph Kain, 17 years old, and Everett Bailer, 16 years old, both of Coleman, Mich.

The escape of the girls, Reva Fleming and Mary Reiser, detained until they could be removed to the girls' state reformatory at Adrian, was not discovered until they were captured by the police, six hours after their romantic departure from the home.

About 9 o'clock, Saturday night, the five young men were walking with a group of 20 fellows to the Atherton road sand pit for a swim, when their attraction was drawn toward the detention home, they say, by the calls of a girlish voice.

The lads approached the home and the girls asked them to free them from the prison, they claim. The young men agreed to come back to the home about 11 o'clock, according to a statement in the hands of police, but appeared there about midnight. An unsuccessful attempt was made to remove window barriers with pliers and cutters, and the girls suggested that the men secure skeleton keys and gain entrance through a rear door.

A rear door was successfully opened by means of keys, and while three of the boys stood guard outside, two removed their shoes and walked past the quarters of Mr. and Mrs. Fred Burt, warden of the institution, to the rooms occupied by the girls and, unlocking it, guided the pretty misses outside, without disturbing the custodians of the home.

It was 4:30 Sunday morning that Patrolman A. Smith and Sheriff were directed to capture a band of youths attempting to steal an automobile on St. John street. Bailer and Kain and Miss Reiser were taken by the officers, who were told that three other men and a girl escaped. Officers located the second group at the home of a friend and placed all under arrest.

BERLIN DECLARES MARTIAL LAW

German Capital Uneasy Following the Assassination of Rathenau.

Berlin—Martial law and state of siege were proclaimed in Berlin June 24 following the assassination of Dr. Walter Rathenau, the German foreign minister, that morning.

The murderers who were waiting for Dr. Rathenau at his door followed his automobile in another motor. As the foreign minister's car was passing a crossing they fired eight revolver shots and hurled a hand grenade at their victim. Dr. Rathenau was killed instantly.

The assassins, of whom it is stated there were three, escaped in their automobile.

The report of the crime spread rapidly throughout Berlin, causing a general uproar. Crowds gathered in the streets, discussing the necessity of a general strike which was being prepared by the labor unions.

All the roads to Berlin are being guarded by strong detachments of police who are controlling train and automobile traffic to prevent demonstrations from marching on the capital.

WILLIAM ROCKEFELLER IS DEAD

Brother of Oil King Passes Away Suddenly, Aged 81 Years.

Tarrytown, N. Y.—William Rockefeller, who, with his older brother, John D., built up the family millions in the oil industry, died June 24 of pneumonia, complicated by a recurrence of kidney trouble, at his country estate overlooking the Hudson river from North Tarrytown. He was 81 years old.

To all but relatives and his closest friends, the end was unexpected, for while he lay fighting death behind the guarded gates to his beautiful acres, no hint was given that he even was indisposed.

Says Americans Don't Drink.

New York—The lure of Cuba for American tourists still is the climate and the winter sports—not, as some people suppose, the fact that one can buy drinks there, declared Fernando Andrae, former mayor of Havana, on his arrival here on the steamer Orizaba. "Americans got drunk!" he exclaimed. "No, no, no. That's a slander on the Americans. I have never seen an American drunk in Havana. Many who go there do not touch a drop."

MARKET REPORT

FURNISHED BY U. S. BUREAU OF MARKETS, WASHINGTON, D. C.

(For the week ending June 22, 1922.)

Receipts in excess of demand, especially low grades. Unsold cars of off grade accumulating. Demand only for top grades. Minneapolis reports receipts light, not enough arriving to establish a market.

Quoted June 21 No. 1 Timothy, Boston \$31.50; New York \$30.50, Philadelphia \$21, Pittsburgh \$23, Chicago \$23, Cincinnati \$22.50; Minneapolis \$22.50; No. 1 Prairie Chicago \$17.50, Minneapolis \$18.

Feed

Wheat feed market slightly improved and fairly steady. Offerings limited. Buying light and only for immediate needs. High protein feeds inactive with very light demand.

Quoted June 21 soft winter brn Chgo \$12.00; red winter wheat \$11.15; No. 2 hard winter wheat \$10.75; No. 2 mixed corn \$6c; No. 2 yellow corn \$6c; No. 3 corn \$5.75.

Grain

Grain markets uncertain during the week but prices closed higher. Chicago July wheat up 2c. Reports of hot dry weather, particularly in the central Kansas belt, in Canadian northwest, and removal of embargo against export sales were main factors.

Closing prices in Chicago cash market: No. 2 hard winter wheat \$1.15; No. 2 mixed corn \$6c; No. 2 yellow corn \$6c; No. 3 corn \$5.75.

Notice to Destroy Noxious Weeds

To all Owners, Possessors or Occupiers of Lands, or to any person or persons, firm or corporation having charge of any lands in this State:

Notice is hereby given that all Noxious Weeds growing on any lands anywhere within the City of East Jordan, County of Charlevoix, State of Michigan, or within the limits of any highway passing by or through such lands, must be Cut Down and Destroyed on or before the first day of July, A. D. 1922, in townships South of Range 16 North, and on or before July 15th in townships North of Range 16 North.

Failure to comply with this notice on or before the date mentioned or within ten days thereafter, shall make the parties so failing liable for the costs of cutting and destroying such weeds, to be levied and collected against the property in the same manner as other taxes are levied and collected, and shall be a lien upon the land until paid in full.

If any owner, possessor or occupier of land, or any person or persons, firm or corporation having charge of any lands in this State shall, knowingly, suffer any Canada thistles, milkweed, wild carrots or other noxious weeds to grow thereon or shall suffer the seeds to ripen, so as to cause or endanger the spread thereof, he or they shall on conviction in any court of competent jurisdiction be liable to a fine of ten dollars, together with costs of prosecution, for every such offence and he or they shall pay the cost of cutting and destroying such weeds.

Dated this 20th day of June, A. D. 1922 HENRY W. COOK, Chief of Police.

Notice to Destroy Noxious Weeds

To all Owners, Possessors or Occupiers of Lands, or to any person or persons, firm or corporation having charge of any lands in this State:

Notice is hereby given that all Noxious Weeds growing on any lands anywhere within the Township of South Arm, County of Charlevoix, State of Michigan, or within the limits of any highway passing by or through such lands, must be Cut Down and Destroyed on or before the first day of July, A. D. 1922, in townships South of Range 16 North, and on or before July 15th in townships North of Range 16 North.

Failure to comply with this notice on or before the date mentioned or within ten days thereafter, shall make the parties so failing liable for the costs of cutting and destroying such weeds, to be levied and collected against the property in the same manner as other taxes are levied and collected, and shall be a lien upon the land until paid in full.

If any owner, possessor or occupier of land, or any person or persons, firm or corporation having charge of any lands in this State shall, knowingly, suffer any Canada thistles, milkweed, wild carrots or other noxious weeds to grow thereon or shall suffer the seeds to ripen, so as to cause or endanger the spread thereof, he or they shall, on conviction in any court of competent jurisdiction be liable to a fine of ten dollars, together with costs of prosecution, for every such offence and he or they shall pay the cost of cutting and destroying such weeds.

Dated this 20th day of June, A. D. 1922 ELMER JENSEN, Commissioner of Highways of the Township of South Arm, County of Charlevoix, State of Michigan. 25-3.

Perhaps He Knew What He Meant. The persistent penitent of stupid comments on the margins of the periodicals at the public library occasionally makes us smile in spite of ourselves. Opposite an article in a recent Spectator about the Irish boundary he wrote, "There can be no Irish boundary. Ireland one and indivisible." —Boston Transcript.

PROBATE ORDER.

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 23rd day of June A. D. 1922.

There's a Fisk Tire of extra value in every size, for car, truck or speed wagon

GLASS OF SALTS IF YOUR KIDNEYS HURT
Eat less meat if you feel Backache or have Bladder trouble—Salts fine for Kidneys.

J. F. A. DeJordy
Palmer School Graduate
Chiropractor
Silverstein Bldg.
BOYNE CITY, MICH.
No Drugs No Electricity
No Surgery.
LADY ATTENDANT.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eating of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sores, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.
