

Charlevoix County Herald.

Vol. 26

EAST JORDAN, MICHIGAN, FRIDAY, JULY 21, 1922.

No. 29

Carried By a Big Majority

Bonding Proposition Carried by Over 8 to 1 Vote.

The special election held last Monday to present to East Jordan's electorate a proposition to bond the City of East Jordan in the sum of Seventy Thousand Dollars for an electric light plant was carried by what is probably the largest majority ever cast in our municipality. The total vote of the three wards was 343 for and 42 against, averaging over an eight to one vote.

Below is the result of the election by wards:

	YES	NO
First Ward.....	79	5
Second Ward.....	85	9
Third Ward.....	179	28

Total 343 42
While East Jordan has over one thousand qualified electors, the total vote cast last Monday—385—averages with the total of recent previous elections.

The question as voted upon is as follows:—"For borrowing the sum of Seventy Thousand Dollars for acquiring, owning, purchasing, constructing and operating a municipal electric lighting plant and distribution system for the city of East Jordan, and issuing the bonds of the city therefor."

On Thursday evening of this week the Common Council meets to canvass the vote.

REPUBLICAN CONVENTIONS

Official call for the Republican State Convention has been called to convene at Mukegon on Wednesday, Sept. 27th, 1922. According to the call, Charlevoix County is entitled to six delegates, Antrim four, Emmet six.

DOG TAX.

Nineteen twenty-two Dog Tax is past due. The County Treasurer will accept dog tax until the first of August but not later. Owing to the fact that there were forty-two arrests made last year I am making this statement that you may have due and timely notice.

Yours truly,
CHARLES H. EMREY,
County Treasurer.

Lester B. Jersey for County Treasurer.

I hereby announce my candidacy for the Republican nomination of County Treasurer at September Primaries. Believing that my past experience with the First National Bank of Boyne City fully qualifies me for the duties of this office, and soliciting your support I am

Respectfully yours,
LESTER B. JERSEY.

VAUGHAN FOR SHERIFF.

I desire to announce to the voters of Charlevoix County that I will be a candidate for the office of Sheriff, on the Republican county ticket, at the primaries to be held Sept. 12, 1922. I will greatly appreciate the support of voters and taxpayers in this county and will do my best to merit the help they give me.

Respectfully yours,
DAVE VAUGHAN.

Charles H. Emrey for County Clerk.

I hereby announce my candidacy for the Republican nomination for the office of County Clerk at the Sept. 12, 1922 Primaries.

I firmly believe that my strict attention to business as your County Treasurer the past two terms will merit your further consideration and I ask your support on this basis.

Respectfully submitted,
CHARLES H. EMREY

Same with wives as with automobiles it's not the original cost, but the upkeep.

Headaches may be acquired by over-eating, but not often by overthinking. Did you ever know a broker who was really broke?

His wife will tell you that a humorist has to be humored as much as anybody else.

It is perfectly proper to say that some men "belong" to their lodges. They certainly don't belong to their homes.

COUNCIL PROCEEDINGS

Regular meeting of the Common Council of the city of East Jordan, held at the Council Rooms, Monday evening, July 17, 1922.

Meeting was called to order by Mayor Dicken. Present: Mayor Dicken and Aldermen Aldrich, Palmer, Porter, Proctor, Kowalske, and Farmer. Absent: Alderman Whittington.

Minutes of June 19th and July 3rd meetings were read and approved.

Bills were presented for payment as follows:

Wm. Breakey, special police.....	\$ 10.00
J. J. Mikula, fireworks.....	200.00
E. W. Giles, cleaning streets.....	42.00
City Treasurer, paym't St. labor	60.63
Clyde Bigelow, work at cemetery	8.10
Peoples State Sav. Bank, bal. on	
comp. insurance.....	81.60
The J. H. Shults Co., election	
outfits.....	9.76
East Jordan Cabinet Co., street	
benches.....	4.26
N. Y. Belting & Packing Co., gas	
masks.....	20.14
G. A. Lisk, printing.....	72.55
E. J. Hose Co., T. J. Wood fire	
Enoch Giles, lunches for firemen	3.90
Jno. F. Kenny, freight & draying	13.83
E. R. Kleinbans, digging grave	5.00
Stroebel Bros., mdse.....	83.15
Mich. State Tel. Co. rentals & toll	4.15
Anchor Packing Co., mdse.....	69.19

On motion by Alderman Proctor, the bills were allowed by an aye and nay vote as follows:

Ayes: Farmer, Kowalske, Proctor, Porter, Palmer, Aldrich and Dicken.

Nays: None.

On motion by Alderman Aldrich, meeting was adjourned until Thursday evening, July 20, 1922.

OTIS J. SMITH, City Clerk.

To the Voters of Charlevoix County, Mich.

I desire to announce that I will be a Candidate for the office of County Treasurer on the Republican Ticket at the Primaries 12th of Sept. 1922. I have resided in the County since 1879, and served my Township of Bay as Supervisor for over 20 years. Am a member of the present Board of Supervisors. If nominated and elected to the office of County Treasurer will conduct the affairs of the office to the best of my ability.

I will appreciate your support during the campaign and your vote at the Election.

Yours Respectfully,
EZEKIEL C. CHEW
adv. 27-3.

For Register of Deeds.

To the Electors of the County of Charlevoix:

This is to announce that I will be a candidate on the Republican Ballot for the office of Register of Deeds at the Primary Election Sept. 12th, 1922.

If my work in this office in the past has your approval I would appreciate your support at this time, as I have decided that if nominated and elected this year to retire from competition for this office in the future.

Thanking you for all past favors shown me I am yours respectfully,
MALCOLM A. McDONALD.

STATE PHONE RATES SLASHED

Utilities Commission Orders Reduction of 12 Percent in Charges.

Lansing—Detroit telephone rates are reduced an average of 12 per cent, effective August 1, by an order of the Michigan Public Utilities Commission.

It is estimated by the commission's statistics that this reduction, together with that made last January, will cut the Detroit Telephone Co.'s annual revenue \$1,450,000.

Reductions in rates of several exchanges in the state are made by the order. It is estimated that the company's revenue for exchanges outside of Detroit will be reduced \$124,331.

The Michigan State Co. sought to have rates outside of Detroit increased sufficiently to obtain a 24 per cent increase in revenue, or \$708,000.

American Girl Made "Angel."

Podgoritz, Montenegro—Miss Margaret N. Robins, an American girl, has been made an "angel" by the Turkish population of this city. Miss Robins, who comes from Philadelphia, has been doing Red Cross work among the poor of "Turkey Town," the Moslem quarter of Podgoritz, where she has come to be worshipped as "the American angel." She has saved the lives of many women and children and natives look upon her with the reverence and adoration of a patron saint.

Home Team Drops Game

Loses to Harbor Springs In Ten Inning Contest

To have a baseball game all nicely sewed up and then to lose it was the hard lot of the East Jordan N. M. League team in the game of last Sunday on the home grounds. At the end of the seventh frame the home team lead the Harbor boys by a 7 to 2 score. Then came the fatal seventh and before the smoke of battle was cleared, the visitors had tied the score. In the tenth Harbor Springs got another man across winning the game.

Express Rate Inquiry To Be Started.

Washington—Notice has been given by the Interstate Commerce Commission that an investigation would be instituted immediately into the reasonableness of existing express rates in all parts of the country. Hearings will be arranged later, the order said, and a plan of procedure outlined. Though freight rates were reduced July 1, generally 10 per cent from the highest levels reached during the war, express rates have been unchanged since 1920.

A Tip to the Wise.

It was the beginning of the second semester, and we were to have a new instructor in the English department. I rushed into the classroom and, seeing a supposed fellow student in one of the seats, said: "Well, I guess we'll have to give the old girl a good welcome this morning, but be rather dumb so she won't expect too much." In a moment the young woman began calling the roll, pointing to be the instructor herself.—Chicago Tribune.

Soft Music Aids the Girls.

Music store clerks say that grandma and grandpa keep up to date with the jazz and the syncopated stuff. It is the sixteen-year-old granddaughter who plays "When You and I Were Young, Maggie," on the phonograph for her beau, and gazes soulfully into his eyes as the music weeps forth. The music store people declare that the old tunes bring the beau to the speaking point as the saxophones never do.—Milwaukee Journal.

If a stingy man succeeds, he is thrifty; if he fails, he is a tightwad.

There were flappers in grandmother's day, but they called them "tom-boys."

To tame a wild driver, hit him in the head with a brick.

Hold your tongue almost everywhere, but not in praise.

A lion in business is often a bear at home.

The man with the biggest mind can make it up the most quickly.

Marriage sometimes is spoken of as a great leveler, but often it is also a great finisher.

Miners' Reject Harding's Plan

Proposal For Men To Arbitrate Meets With Refusal.

Washington—President Harding's plan for arbitration of the nationwide mine strike was rejected unanimously by the United Mine Workers here.

The policy committee of the organization, after a long and stormy session, decided it would be impossible for the miners to accept President Harding's proposal unless it was modified greatly.

There is an air of tenseness and concern in official circles here and the trend of developments seems to be toward a crisis in which the president would be forced to take his threatened drastic action of seizing and operating the mines and the railroads.

Federal troops still are being held in readiness for instant dispatch to mine or rail centers when violence cannot be controlled by local or state authorities breaks out.

The president, in a statement Saturday night on the miners' refusal to arbitrate, indicated that his next move would be announced early this week, after the reply of the bituminous operators to his proposal is received. His plan has been accepted in principle by the anthracite operators.

Railroads Use Strikebreakers.

Chicago—With peace negotiations instituted by Ben W. Hooper, chairman of the United States railroad labor board, virtually at a standstill, the carriers have made no effort to conceal the fact they are now out to break the strike—to break it in regulation fashion, with strikebreakers.

Meanwhile, both railway officials and strike leaders eagerly awaited any indication as to which way the 400,000 maintenance of way men will jump. This anxiety grew out of reports that, in defiance of the peace program to which their international brotherhood officers are committed, the trackmen would join the strike.

ELOPING PASTOR TO BE TRIED

Rev. W. W. Culp Faces Charge of Abandoning Wife and 9 Children.

Port Huron, Mich.—Miss Esther Hughes, 19-year-old affinity of Rev. Walter W. Culp, preacher, truck driver, paper hanger and cabinet maker, of Spring Valley, O., was taken home by her mother Sunday.

Shortly after Rev. Walter W. Culp was taken from his cell by Joseph E. Watts, probation officer of Greens county, Ohio, with a warrant charging the minister with abandoning his family.

Culp and Miss Hughes eloped a month ago. The minister left his wife and nine children at Spring Valley, Ohio. Miss Hughes was the organist of his church there.

THIRTY SUMMER HOMES BURNED

Overturned Oil Stove is Cause of \$200,000 Damage.

Holland, Mich.—Thirty cottages at Maentawa park were destroyed by fire Sunday morning with a loss of approximately \$200,000.

Although all of the cottages were occupied, none was injured. Little of the contents of the buildings, some of which were among the best along the Blake lake and Lake Michigan, were saved.

An overturned oil heater in the cottage of Mrs. A. R. Weston, of Grand Rapids, started the fire and within an hour the flames had licked up the cottages and the fire was under control.

MUSCLE SHOALS UP TO SENATE

Committee Fails to Agree on Either Ford or Norris Plan.

Washington—The senate agricultural committee was unable to agree last week on a majority report on any offer for development of the Muscle Shoals power project.

The Ford offer was rejected, 9 to 7, and the Norris plan for government development was voted down, 9 to 5.

This action will leave allocation of the development contract entirely to the senate body.

"The man convinced against his will," goes around and tells his friends how he beat you in the argument.

The biggest lie: There once was a girl who thought she was neither beautiful nor attractive.

Co. Agricultural Agent, Boyne City.

HAVE WE OVER-PRODUCTION?

The following clipping from a recent copy of Hoards Dairyman, aims directly at a point in dairying which is deserving careful consideration in Charlevoix County to-day.

HAVE WE OVER PRODUCTION?
One of our subscribers in Connecticut writes as follows: "The present conditions in marketing milk at wholesale

do not seem to me to justify your continual praises of the advantage of keeping cows as a source of income from the farm, if keeping cows only means a continual round of toll 365 days a year. I am informed that about Cleveland, Ohio, the price of milk to producers is 3 cents per quart. In this section we a price that at least is sufficient to pay cost of production."

As near as can be calculated, about one-third of the cows kept for dairy purposes yield a profit, one third pay the cost of feed consumed, and the other third are kept at a loss. If the milk producers in sections where there is an over production of milk, were students of their business, they would not be keeping so many unprofitable cows and in many instances they would not be devoting their entire efforts to milk production. We have tried in various ways to interest our readers to the necessity of knowing the cost of production, for we appreciate that when a farmer takes sufficient interest in his business to know what it costs him to produce 100 pounds of milk, the poor cow will find her way to the slaughter house and there will not be an over production of milk. In many cases in communities there is really no over production of milk at the present time, but rather an under production, because people do not know the food value of milk and that it is the cheapest animal food offered to the consumer.

Dairymen have two objects to accomplish. They need to get rid of the poor cow and teach the consumer the value of milk, so that he will pay a reasonable price for it and its products. It might be said that we need a better distribution of cows, for there are sections of country that do not have a sufficient number of cows. During the years of high prices of grain, cows in many sections were disposed of. We find the farmers of these communities coming to dairy sections for the purpose of replenishing their herds.

Alfalfa hay in certain western states is selling in the stack as low as \$3.00 per ton, while in the dairy sections it has brought from \$20.00 to \$25.00 per ton. Cheap corn in the middle west has prompted more dairy activity, for not withstanding the present price of milk and butter, the cow furnished a better market for the feed grown on the farm than could be found elsewhere. The farmer who marketed his products through the cow received a larger return from his farm than the man that had no cow to market his products. The good dairy cow has always been a splendid market for farm products and we do not believe there is any danger of getting to many good dairy cows on our farms. The losses and so-called surplus are produced by the unprofitable dairy cow and to avoid this, she should be eliminated.—From Hoards Dairyman.

Our observations on this matter are that "Over Production" is seldom what the expression implies. Over Production is usually the production of an over supply of poor stuff. Sometimes what appears to be over production is really under production.

Our cherry growers last year had no wholesale market for their cherries and many spoiled because of no outlet. This year's crop is much larger and yet they are all finding a ready market which has every prospect of continuing, and by increasing our acreage and production we may have a cannery located in our own city.

Over production, the is either caused by producing crops which are poor in quality and which no one wants, or not producing them in quantities large enough to attract buyers or give sufficient volume to co-operative organizations to keep them alive.

A cow testing Association in Charlevoix County would eliminate many costly cows and give encouragement to the dairyman in it because they would be ridding themselves of their poor cows and building their future

herds from high production profitable individuals.

Let us quit talking over production until we produce efficiently and in quantities, and to this add some time and energy to finding markets.

In this Counties Dairying the only present over production is in the number of boarder cows kept at a real loss. Cow testing associations have proven this where ever they have been organized.

FARMER'S PICNIC CONSIDERED SUCCESS.

If enthusiasm and spirit is any criterion, the Charlevoix County Farmer's Picnic held last Friday at Horton Bay was a success.

Due to weather the fore part of the week, Friday was an ideal day for the belated hay farmers to harvest the crop which has been so seriously menaced by rain for the past week or ten days, still with this as a limiting factor in the farm, if keeping cows only means a continual round of toll 365 days a year. I am informed that about Cleveland, Ohio, the price of milk to producers is 3 cents per quart. In this section we a price that at least is sufficient to pay cost of production."

MORE RAIL SHOP MEN JOIN STRIKE

STATIONARY ENGINEERS, OILERS AND FIREMEN CALLED OUT THIS WEEK.

RIOT BREAKS OUT AT SAGINAW

Non-Union Workers Seized by Strikers and Ordered to Leave Town—State Troops To Keep Order.

Chicago—A strike call to the 8,000 stationary engineers, firemen and oilers employed on railroads throughout the United States was issued last Friday by Timothy Healy, international president of the organization. The strike was to become effective Monday, July 17. The call was made in compliance with the recent referendum which favored a walkout, Mr. Healy said.

Fresh outbreaks of violence, notably in Texas, Oklahoma and Missouri; President Harding's determined steps to keep the mails moving, and informal negotiations for a settlement of the shopmen's strike on 17 roads in the Northwest were among other important developments of the last week.

Pressure by many of his general chairmen upon E. F. Grable, president of the Maintenance of Way Employees pushed the common labor problem to the front again. Mr. Grable's action in withholding strike orders after the men voted to join the walkout, did not please many of the organization's general chairmen, who passed on to their chief the persistent demands of the rank and file for concerted action.

Strikers Storm Saginaw Shops.

Saginaw—The most serious outbreak in the rail strike occurred in Saginaw last week when a mob of 4,000 surrounded the Pere Marquette round house, and demanded admittance.

Strikebreakers, it is reported, were brought into the city earlier in the week and the report that they were repairing engines in the local roundhouse brought on a demonstration. Two men were injured in the melee, one seriously.

The mob, after threatening, obtained permission from the city police and guards to enter the roundhouse. Strikebreakers at work there were seized and marched down the street to union headquarters, where strikers were reported to be planning to send them away as soon as possible. The union was to provide their railway fares, the report said.

State Troops to Maintain Order.

Lansing—Order must be maintained and no violence will be tolerated in communities affected by the railroad shopmen's strike or other labor trouble, Governor Groesbeck said today, when he directed Major Robert Marsh, deputy commissioner of the state safety department, to provide as many state troopers as may be necessary to prevent riots or other disorders at Saginaw.

SEEK TO CURB STANDARD OIL

Federal Trade Commission Charges Unfair Practices.

Washington—Urging congress to enact new legislation to destroy an alleged Standard Oil monopoly in the gasoline trade, the federal trade commission charged the corporation was "perpetuating the very monopolistic control which the United States supreme court sought to terminate."

The commission, in a sensational report to congress, declared retailers in the Rocky Mountain regions were making from five to 10 cents a gallon clear profit on gasoline. This condition, the commission charged, was due to the fact that the oil trade is practically monopolized by Standard Oil interests.

Conditions in other sections of the country were the same as in the Rocky Mountain region, the commission said.

HAGUE PARLEY IS NEARING END

Russia's Refusal to Restore Foreign Property Splits Conference.

The Hague—The non-Russian sub-commission on private property, of the conference on Russian affairs, unanimously adopted a resolution last week declaring that in the light of the views expressed by the Russians concerning the restitution of foreigners' property in Russia it would "serve no useful purpose to continue the meetings with the Russian commission."

This resolution was regarded as the first of the formal steps for the conclusion of the conference.

Chicago Police Use Radios.

Chicago—Experiments in the use of radio for the transmission of police messages have proved successful, George E. Carlson, city commissioner of electricity, said in requesting an appropriation of \$68,000 for radio equipment and personnel. If the appropriation is granted, autos used by the detective bureau will be equipped with both sending and receiving sets. He said he is also experimenting with a plan to extend the use of radio to every policeman.

YELLOW WARBLER

THERE were many children who lived in the same badly kept tenement house with Tim, but Tim seemed to be the only one who did not like the crowded doorsteps and noisy crowds of children.

He did not delight in stoning poor stray pussies either or teasing children younger than himself as he was often teased by the older boys.

The schoolroom was Tim's delight, for Miss Carter, his teacher, told the children of cool, green fields, birds and flowers and apples enough on the ground for everyone to have all they wanted.

One afternoon Tim stayed later than the other children and walked timidly

the day did come when he left the noisy city far behind and, with Miss Carter, rode on the train to the country he could hardly believe was real.

The first night in the sweet white bed Tim slept but little for fear it was all a dream, but it wasn't and there were weeks of happiness ahead.

Tim's cheeks grew round and rosy, his eyes bright and such walks and talks as he had with Miss Carter and he met all of her animal friends, and best of all was a pretty yellow warbler that built a nest in the fork of the apple tree.

Tim watched this yellow fellow flying back and forth into the tree and one day he asked: "Miss Carter, what does that bird carry in his mouth and what does he do with it?"

"If you will promise never to touch bird nests, Tim, or take their eggs, I will show you something very pretty," said Miss Carter.

And when the yellow warbler had flown away again, Miss Carter and Tim placed a ladder by the tree and carefully climbed up.

Tim's eyes were wide with wonder for he had no idea what he was to see and when Miss Carter whispered "Look!" and showed him a nest with four little birds in it, their mouths wide open for food, he was not able to even ask a question.

When they were on the ground again Miss Carter told him how Mrs. Warbler made the nest from bits of straw and horsehair, with which it was lined, and this was brought to her by her good husband, Mr. Warbler.

"And didn't you help them at all?" asked Tim, for he could not believe that anything so wonderful could have been made by anything but hands.

And then Miss Carter told Tim how wicked it was for anyone to take a nest or the eggs and harm the baby birds when the little mother and father birds had worked so hard to make their home and loved their children just as little boys and girls were loved by their parents.

When it was time to return to the city Tim was made happy by being told that the next summer he could go to the farm when school was over and again meet the Yellow Warbler and all the other friends he had made while there.

"How Far Is It to the Apple Orchard?"

up to Miss Carter's desk. "Please, Miss Carter, how far is it to the apple orchard you told us about today?" he asked.

"It is pretty far to that particular one," was the reply, as she looked into the eager little face beside her. "I used to live there, Tim, and every year after school closes I go back, and see all my animal friends as well as the orchard."

As Miss Carter looked at Tim a sudden thought came to her. "How would you like to go home with me this summer and see my friends and pick up the apples I have told you about?"

How Tim lived through the next few weeks he could never have told, but

THE RIGHT THING
at the
RIGHT TIME
By MARY MARSHALL DUFFEE

PARENTS FORGET

THERE is a rule of good form that tells us that we should never reprove a servant or other employee in the presence of outsiders. A waitress perhaps breaks a dish at dinner and the confused hostess exclaims hastily that she should not be so awkward or that she has been very careless. Now, the perfectly well-bred hostess does not do this. She does her best at the time to draw her guests' attention from the mishap and, if she feels that any reproof is necessary, she waits until she is alone with the servant.

Now, if we are as considerate as this to servants, ought we not to be as considerate to our children? Yet, truly, I know plenty of persons who would not think of reproving servants in my presence, especially nowadays, when servants are so independent and hard to get, who would not think if anything amiss to scold their children in my presence.

Sometimes the scolding is delivered in a half-teasing, jesting manner. "John, will you be careful?" exclaims the mother to her ten-year-old son, when he is trying to bring her some article that she has sent for. "You are the most awkward creature in the world. Your feet are so big it's no wonder you trip over them." And then, to her guest: "Just imagine, John wears shoes that are larger than mine already. I suppose he is going to have enormous feet like his father."

It may be that John is sensitive. He was doubtless trying to do the errand gracefully and carefully, and it hurts him to be reproved for his failure to do so. Moreover, he feels sensitive about those big feet. He knows that the only reason his parents tease him about them is because he cannot come back at them and make teasing remarks about their infirmities.

Now, really, does it seem fair? If you want to reprove John and humble him—perhaps you are justified, but you ought at least to be as considerate to him as you would be to a servant—and do it when there is no third person present.

BOTH FIRST
He says "You're the first woman I ever loved."
She says "And you're about the first man I haven't ever loved."

The Friendly Path
By Walker I. Robinson

YOUR OWN DOORSTEP

SWEEP your own doorstep! It always is easier to find fault with others than with oneself. And it is just as true that when one goes around looking for trouble, he's likely to miss more serious difficulties of his own making.

Neglect is never excusable. If one is fair to his fellows, as well as himself, he will always have his own house in order before he starts out to make others clean house. If one wishes to find fault with the treatment accorded him by his fellows, he should survey his own record of actions toward his fellowmen.

Many persons are constantly making their own lives miserable and adding to the sorrow of the world by complaining that "the world is going to the bow-wow," and contending that nothing short of another deluge will bring sinfulness to an end. They overlook entirely all the many good things and good deeds which are constantly being brought about by self-sacrificing individuals. Because people spend so much time discussing the sordid side of life, they come to think little of the better side.

With all the disappointing evidences of lawlessness and disregard for moral laws and modesty, it is still a fact that the vast majority are clean-minded, hard-working, law-abiding, God-fearing men and women. If they were not, there would be nothing new in the wicked pathways about which we hear so much. If the majority were following the wrong trail the story of sin and misery and missteps would attract but passing attention. The exception, as usual, proves the rule.

If all those who are worried about the "tendencies" of the age would keep their own course straight and would try to encourage others by their cheerful examples, there would be less sin in the world. For there are few who intentionally take the wrong path.

One always will make his own life happier and the world more cheerful if he keeps his thoughts and words focussed on the better side.

It never pays to play with fire or to occupy one's time reading trash.

And So They Parted.
She flushed embarrassedly as she caught sight of him at a party.
"Harold Moonleigh!" she murmured.
"Poor fellow. How broken up he was over my refusal of him."
Moonleigh wrinkled his forehead as he caught her looking at him.
"Now where the devil have I seen that woman before?" he asked himself irritably. —American Legion Weekly.

Mt. Clemens—Women will be selected on the jury panel for the next term of the circuit court in Macomb county. Grand Rapids—Margaret Springer, 59 years old, of Rockford, is dead, due to mistaking Paris green for medicine. Ann Arbor—Owing to the coal shortage, night tourist service for summer resorters has been curtailed on the Ann Arbor railroad. Beaverton—The Beaverton Chamber of Commerce has completed arrangements for a co-operative stock shippers' association. Rochester—Spontaneous combustion caused a \$14,000 fire on the farm of Willard Brown, north of Rochester. The residence, barn and contents were burned. Grand Rapids—Gerbert A. Huntley, 60, motorman on the Grand Rapids railway, was instantly killed when he fractured his skull, the result of a fall from the roof of his car. Muskegon—Nine lives have been saved by Miss Gladys McCarty, pretty Ypsilanti normal college student, who is a guard at the board of education municipal bathing beach here. Muskegon—Muskegon was selected as the city of the Republican state convention by the state central committee meeting in Grand Rapids. The convention is to be held September 27. Hudson—Joseph Rooney, 11 years old, died as the result of injuries received during a severe windstorm, when he was struck by a limb falling from a tree. His skull, collarbone and one arm were fractured. Newaygo—Arthur Noble, 45 years old, of this village, was killed instantly when a motorbus went into a ditch, and fell on him as he was trying to escape. The driver and another passenger were but slightly bruised. Pontiac—Pontiac firemen, policemen and electrical department employees have circulated petitions addressed to the city commission, asking that a 10 per cent cut in salaries set for August 1 be not put into effect. Mt. Clemens—The city of Mt. Clemens is facing damage suits aggregating several thousand dollars as the result of oil used on city streets being allowed to run into the river, causing damage to engines of motorboats. Mt. Clemens—The Edison company here has announced a reduction in rates. The residence rate has been reduced from 14 cents a kilowatt hour to 12 cents. The standard power contract has been reduced from \$4.50 a kilowatt to \$3.50, and the remainder of the demand charge to \$2.50. Three Rivers—Boyd Geark, 7, died as a result of having been shot by his five-year-old brother Don. The two Geark boys had found a revolver in an automobile standing along a curb. They had taken the weapon and were playing with it when the gun discharged, the shot penetrating Boyd's abdomen. Big Rapids—The explosion of an oil stove in a small dwelling, near the downtown district, threw 300 telephones out of service. Mrs. Fern Kuhn was cooking when the upheaval came, and she and her young daughter, Neva, has just time to flee for their lives. The house and contents were wrecked. Charlotte—Paul, 12-year-old son of Mr. and Mrs. Merrill Gilman, was accidentally killed by Lyle Thompson, 10 years old. The Gilman had noticed an old gun in the Thompson home, and while the lads were playing with it, pulled the trigger. The 22-caliber bullet hit just above the heart, killing the lad instantly. Detroit—After driving all the way from Quincy, Michigan, with a truck load of fresh eggs, 45 cases, worth about \$400, L. C. Wilcox, of Quincy, stopped at a store at Ripelle and Division streets to try and dispose of his cargo. While he was in the store, someone drove away with the truck and the eggs, Wilcox reported to the police. Lansing—The state military board authorized by the state administrative board to receive bids on three proposed new armories. They will be located at Port Huron, South Haven and Ypsilanti. Plans for the armories are now being prepared, and indications are that the board will approve the necessary expenditures when bids are received. Houghton—At a special election in the village of Lake Linden, Houghton county, the president and members of the council of the village were recalled by a majority of 88. Over 500 votes were cast. It was alleged in the petition that the president and council had conspired to bring about the appointment of certain men to the offices of president and marshal. Mt. Clemens—A decree has been entered in the circuit court here dissolving the Romeo Farm bureau and appointing a receiver. Assets are listed at \$39,000 and liabilities at \$59,000. The organization, composed of nearly 200 farmers of Macomb county, was formed two years ago in a co-operative marketing plan. The organization has been unable to make a profit for some time, and the dissolution suit was brought by the directors. Judson A. Jewell, a director, has been appointed receiver by Judge William B. Perkins.

Battle Creek—Charles R. Dye, 72 years old, for years a resident of this city, dropped dead in his bedroom while dressing for breakfast. Albion—New gas mains with a length of nearly one mile have been built in the foreign section of the city within the past few weeks. Benton Harbor—Plans are being formulated by citizens of Benton Harbor and St. Joseph to build one of the finest country clubs in the United States. Lapeer—The auto in which they were riding out in two by a speeding motor truck, Volmz Simmons, 9 years old, and Jimmie Simmons, 7 years old, were killed instantly. Charlevoix—Both forearms were fractured by Mrs. Joseph Soltes, mother of four, the youngest being only four months old, when she fell from a load of hay while assisting her husband. Muskegon—Mrs. Carl Hanson, married just one week, appeared in police court to prefer a charge of wife-beating against her recently acquired husband. Hanson was found guilty and paid \$25 fine. Detroit—Homeward bound after an eight days' honeymoon trip through New York state, William Lomerio, 28, of 7638 Churchhill avenue, fell from the upper deck of a Hudson river excursion boat and was drowned. Adrian—When the driver dropped asleep while traveling along a road near Blissfield, the auto carrying the Grove family of Bucyrus, O., turned turtle and pinned eight people beneath it. All suffered severe hurts. Flint—Station WEEA, radio broadcasting station for Flint operated by the Flint Daily Journal and Frank Fallain and Thomas Lathrop, officials of the Flint Radio Association, has been opened. The station has a radius of 60 miles. Detroit—Five tons of steel crushed Hugo Nelson to death at the plant of the Mansfield Steel Corporation. Employees said Nelson was working under a crane, which was loaded with five tons of bar steel. A chain slipped and the entire load fell on Nelson. Dowagiac—To Miss Geneva Jenkins, of Dowagiac, graduate of Oberlin college, goes the honor of having caught the largest pickerel of the season in this section of the state: Miss Jenkins, while fishing for bass on Indian Lake, caught a 14 1/4 pound pickerel. A frog bat was used. Lansing—Protests against the \$63,300,000 appraisal put on Pere Marquette property by the engineer of the Interstate Commerce commission have been made by the Michigan public utilities commission. The state commission seeks a lower appraisal with the view of cutting state railroad rates. Flint—A confession clearing up burglaries which have been police puzzles here for seven years, police say, has been secured from Lawrence Waller, held on a charge of burglary. Waller, it is said, admitted robbing every large drug store in the city since 1915, the main loot he obtained being whisky. Cadillac—Campers on the huckleberry plains of Wexford county have equipped themselves with canning outfits and are canning their daily pick of the berries. The berry crop is unusually heavy but prices are high, due to the big demand from cities out of the state. Few berries are offered on the local markets. Port Huron—The board of supervisors has voted unanimously to instruct the county's representatives to the state legislature to work for enactment of a law that would regulate motor vehicles using the state highways for commercial purposes, and to compel operators of truck lines and motor busses to pay a part of the expense of maintaining the roads. Plainwell—Before a large audience at the Baptist church, Rev. John Fletcher last Sunday repeated the same sermon which he delivered, in the same pulpit 46 years ago at the centennial of American Independence. He is 90 years old and is still pastor emeritus of the church. He is a Civil War veteran, having been a chaplain in General U. S. Grant's army. Detroit—Voters at the primary election on Sept. 12 will have an opportunity to vote on acquiring a tract of 100 acres of land for zoological purposes. More than 12,000 signatures have been obtained to petitions favoring the park-zoo plan, according to Richard E. Follett, secretary of the Detroit Zoological society. The society offers the city 100 acres at the Ten-mile road and Woodward avenue. Pontiac—Mrs. Margaret Waken has filed four suits in circuit court here for \$50,000 damages each against the Standard Oil Co., of Indiana. Mrs. Waken is the widow of Victor Waken, who, with his four children and three other children, was burned to death Dec. 13 last when the Waken home, 10-mile road, was destroyed by fire. The fire was caused by the explosion of kerosene that had been mixed with gasoline by a Royal Oak employe of the company. Iron Mountain—While shocking oats on his farm four years ago, Rudolph Schultz lost his silver watch. A few days ago, while working in a potato patch, his foot struck an object covered with dirt, which proved to be the watch. Every year when Schultz plowed this field he has been on the lookout for the watch. The case was black when he found it, having been subjected to four years of snow, flood, plowing, dragging and cultivating, but the works were in good condition. Schultz wound the watch and it resumed ticking.

MARKET REPORT FURNISHED BY U. S. BUREAU OF MARKETS, WASHINGTON, D. C.

(For the week ending July 15, 1922.) Fruits and Vegetables. Potato prices lower during the week. Virginia eastern shore cobbler down 60¢ to \$2 per bu. In eastern markets, down to \$1.50 per bu. Norfolk section stock down \$1.25 in consuming centers. New Jersey sacked cobbler went in low. California cobbler slow and weak. California Salmon Tints, down 50¢ to \$1.50 per bu. In most of the market, the month of Virginia green meats down 75¢ in Boston and New York. North Carolina stock down 75¢. Much market steady to firm for Georgia early varieties and Iberian in consuming centers and at distributing points. Live Stock and Meats. Chicago high prices ranged from 10¢ to 12¢ higher during the week, the decline occurring in the lower end of the range. Beef steer prices 15¢ to 45¢ up, better grades showing the greatest advance. Butcher cows and heifers steady to 25¢ higher; veal calves 75¢ net higher while feeder steers remained unchanged. Fat hogs steady to 25¢ higher; feeding lambs 40¢ to 50¢ higher; fat ewes 40¢ to 75¢ higher and yearlings steady. July 13 Chicago prices: Hogs, top, \$11.50; bulk of sales, \$8.75@9.50; medium and good beef steers, \$8.40@9.10; butcher cows and heifers, \$1.10@9; feeder steers, \$5.50@7.75; light and medium weight calves, \$10.00@11.00; fat lambs, \$12.75@13.75; feeding lambs, \$12@13; yearlings, \$9@12; fat cows, \$2.25@9.80. The advices early again featured the week's trading in eastern wholesale fresh meat prices. The market for beef was firm to 50¢ higher; veal, 25¢ to 75¢ higher; pork, 25¢ to 50¢ higher; light pork loin firm to 25¢ higher and lamb \$1 to \$3 higher. On September 12, 1922, the market was steady to 25¢ lower and lamb steady to \$1 lower. July 13 prices good to choice: fat hogs, \$10.00@11.00; 19; lamb, \$25@28; mutton, \$16@20; light pork loins \$22@24; heavy loins, \$14@13. Grain. Wheat and corn prices lower early in week account good weather and break in continental exchange. The rail and coal in the west were firm to 25¢ higher. The remainder of week. For the week Chicago September wheat down 3-4¢; Chicago wheat, \$1.07 1/2; corn, \$1.12 1/2. On the 13th wheat and corn prices advanced influenced by strike conditions and apprehensions of a cut in demand in wheat territory. Cash market strong with good demand from elevators; millers and exporters firm. Closing prices in Chicago cash market: No. 2 red winter wheat \$1.18; No. 2 hard winter wheat \$1.15; No. 2 white winter wheat \$1.12; No. 2 yellow corn 55¢; No. 3 white oats 35¢; average farm prices: No. 2 hard winter wheat \$1.15; No. 2 white winter wheat \$1.12; No. 2 yellow corn \$1.12; No. 2 hard winter wheat in central Illinois \$1.10; No. 2 hard winter wheat in North Dakota \$1.22. Closing future prices: Chicago September wheat \$1.18; No. 2 hard winter wheat \$1.15; No. 2 white winter wheat \$1.12; No. 2 yellow corn \$1.12; No. 2 hard winter wheat in central Illinois \$1.10; No. 2 hard winter wheat in North Dakota \$1.22. Dairies. Butter market continued firm during the week especially on fancy butter of 22 score or higher. Undercurrents in limited demand, prices outside receipts continue heavy. Storage stocks steadily increasing. Closing prices 22 score butter: New York \$7-1-2¢; Boston \$7-1-2¢; Philadelphia 35¢; Chicago 25-1-2¢. Hay. Markets quiet. Arrivals continue small. Top grades holding up in price. Foreign grades slow sale. Itains in Kansas check movement and restrict demand. Old timothy hay commanding premium of from \$1.00 over new hay. Fully good demand for new winter in Chicago. Storage demand less active in that market, buyers waiting for new straw. New clover hay, good to choice, \$7.50@8.00 per ton. Quoted July 12: No. 1 timothy, old \$25; new \$21 Chicago; \$14 Kansas City; \$21 Cincinnati; \$18 St. Louis; \$18 Pittsburgh; \$18 Minneapolis; \$12.50 New York. No. 2 timothy, old \$21, new \$18 Chicago; \$17 Philadelphia; \$17 Minneapolis. No. 1 Upland hay \$18 Chicago. No. 1 alfalfa \$16 Kansas City; No. 1 prairie, \$15.50 Kansas City; \$15.50 Minneapolis. No. 2 prairie \$16 Minneapolis. East Buffalo Live Stock. East Buffalo—Cattle, steady; heavy, \$11.25; Yorkers and pigs, \$11.85@12. Sheep: Receipts, 1 car; steady; top lambs \$14.75; yearlings, \$16@17; wethers, \$7.50@8; ewes, \$6@7. Calfves, \$12. DETROIT QUOTATIONS. Grain and Feed. WHEAT—Cash No. 2 red, \$1.19; September, \$1.18; No. 2 mixed, \$1.17; No. 2 white, \$1.17. CORN—Cash No. 2, 78¢; No. 3, 88¢; No. 4, 67¢; No. 5, 66¢. WHITE OATS—Cash No. 2, 42¢; No. 3, 40¢; No. 4, 36¢@38¢. BEANS—Immediate and prompt shipment, \$9 per cwt. RED BEANS—Prime red clover, \$18; alsike, \$11.50; timothy, \$3.25. HAY—No. 1 timothy, \$20@21; standard, \$19@20; light mixed, \$18@19; No. 2 timothy, \$18@19; No. 1 clover, \$15@16; eye straw, \$14@14.50; wheat and oat straw, \$12@14 per ton in car lots. FEED—Bran, \$25; standard middlings, \$23; fine middlings, \$20; cracked corn, \$14; coarse cornmeal, \$20; corn, \$24 per ton in 100-lb. sacks. FLOUR—Fancy spring wheat patents, \$8.50@9; winter wheat patents, \$7.50@8; second winter wheat, patents, \$6.50@7; winter wheat straight, \$6.25@7; 2-5's, Kansas patents, \$7.75@8 per bu. AIRPLANE SERVICE IS INAUGURATED BETWEEN DETROIT AND CLEVELAND. Twice daily airplane passenger service between Detroit and Cleveland was formally begun Friday morning, July 14. Governor Alex J. Groesbeck, newspapermen and other prominent Detroit citizens were guests of the Aeromarine Airways, sponsors of the service, on the first trip to Cleveland, where the party was greeted by Harry L. Davis, governor of Ohio; Newton D. Baker, former secretary of war, and other Cleveland notables. The company plans flights at 9 A. M. and 5 P. M. from each city daily. The trips will be completed in 90 minutes. The seaplanes to be used in this service are those formerly used by the company between Key West and Havana and Miami, Miami and Nassau, Fla.

DEAD SHELL KILLS 8 CHILDREN. 'Dud' Explodes Without Warning—Cause Remains a Mystery. Watertown, N. Y.—Eight children, ranging in age from 11 to 16 years, were blown to pieces last week by the explosion of a 75 millimeter shell on the back porch of a house occupied by Edward G. Workman and William L. Salisbury. The shell, which was owned by Mr. Workman, was one which he had kept as a souvenir and used on the rear porch to hold the door from closing. It was believed to be "dead." The children were playing croquet in the backyard. The shell is believed to have either been set off by the hot sun or to have been struck by one of the victims with a croquet mallet. The bodies of the children were found apparently at places near where they had been standing in their croquet game. Near them lay fragments

of the croquet mallets. Several of the balls used in the game were blown to bits and the wickets were torn from the ground.

The shall apparently let go without warning. Two carpenters working on a house next door to the Workman home said that a second before the detonation they had heard the voices of the children laughing at play. The two men were the first to reach the scene.

MAY ARBITRATE COAL STRIKE. Operators Express Willingness to Abide by Federal Verdict. Washington—The first break in the deadlocked coal conference came last week with the acceptance by the anthracite operators of the proposal of President Harding to submit their quarrel with the United Mine Workers to federal arbitration. The operators asserted they had two ends in view during their heretofore fruitless negotiations with the miners to bring an end to the tie-up in the anthracite fields of Pennsylvania. These were: First, an agreement on a wage scale which, while adequate, should at the same time afford the steady employment which the anthracite mine workers have enjoyed in the past and which only regular demand for the product can assure. Second, that any agreement reached should be durable and at the same time provide reasonable means of wage adjustment from time to time to meet the changing economic conditions of the country. The operators told the president they were willing to "abide with reservation or qualification by the findings of the commission" appointed by the president to adjust the present dispute.

One Among Many. The throwing of rice at weddings is denounced as a dangerous custom. But surely one additional danger at a wedding is hardly worth considering. —London Opinion.

Studebaker BIG-SIX SPEEDSTER. THE new Studebaker Four-Passenger Speedster is mounted on the Big-Six chassis with the same dependable 60 horse-power motor that made enthusiasts of thousands of owners during the most critical buying period in history. Every item of its complete equipment and finished detail suggests ultra style and riding comfort. The front seat is tilted at the correct angle for comfortable riding. An upholstered armrest divides the tonneau into two individual seats which provide the comfort of an overstuffed armchair. The touring trunk at the rear, with tray and suitcase compartments, is easy of access, because the two spare disc wheels are mounted on each front fender. These disc wheels, complete with cord tires and tubes, are furnished without extra cost. This latest Studebaker creation reflects Studebaker's seventy-year-old reputation for building fine vehicles. In addition there is a handsome set of nickel-plated bumpers front and rear; a courtesy light on the driver's side, a built-in, thief-proof transmission lock which is operated by the same key that locks the ignition switch and tool compartment in the left front door. Ask for the Studebaker "Yardstick," a measure of the greater value that Studebaker offers.

THIS IS A STUDEBAKER YEAR

Something to Think About
By F. A. WALKER

FORWARD, BACKWARD

EVERYTHING in nature is moving toward a great purpose. There is no inactivity in the atoms or in the spheres; no turning backward, no indecision, but a constant movement in a forward direction, carrying us away from the yesterdays to new dawnings and new days.

The winds, the tides, the spinning of the earth in its prescribed orbit, the rising and the setting of the sun, the coming and the going of the seasons, the blooming and the fading of verdure and flowers, all bear evidence of progress, and eternal life.

Being a minute part of nature, performing your little role in the great scheme of creation, reciting your lines, do you ever pause to ask yourself whether you are moving forward or backward?

In spite of any thought you may entertain in the matter, you are going ahead or drifting behind, just as surely as the roses bloom in summer and the snows blanket the ground in winter.

You are better equipped for your life-work today than you were yesterday, or less efficient.

Your mental and physical forces have undergone an imperceptible change and you have changed with them.

You are a trifle more dexterous in your work or slightly more clumsy.

In the last 24 hours you have not remained in a quiescent state, for the laws of motion have been silently at work, carrying you a step or two forward or backward, setting you down at the threshold of a new day a slightly changed being for better or worse, which you may or may not observe as you take hold of today's duties.

Before night, however, you may become conscious of a new-born power, or a lack of it, and wonder what the transformation means.

Its significance is clear. You are going forward or backward, keeping in accord with the eternal motion of things of which you are a part.

If you would move forward, keep step with the men and women who are laboring and achieving in the great purpose, you must watch your every thought, impulse and act, and ask yourself at the beginning of each day whether you are pressing toward victory or turning toward defeat.

"Forward or backward?" ought to be your initial question at dawn, and your final query at night. Let this self-examination become a habit, and in a little while you will be glad that you acquired it.

Mother's Cook Book

"A house is never perfectly furnished for enjoyment unless there is a child rising three years old and a kitten rising three weeks."

MORE GOOD THINGS

AS STALE bread will accumulate, a little care is needed to keep ahead of the growth. If dry bread is put through the meat chopper it may be used for croquettes, meat balls and any number of dishes. Keep the crumbs in a glass jar, sealed from the air.

Tip-Top Omelet.

Boil one-half cupful of milk, add one tablespoonful of butter and one cupful of bread crumbs, seasoning to taste. Beat the yolks of three eggs and add them, then stir in the stiffly beaten whites. Pour into a buttered omelet pan and cook until well browned.

Ham Patties.

Take two cupfuls of ham chopped fine, three cupfuls of bread crumbs, three eggs and enough sweet milk to make a soft batter. Mix well, drop into gem pans, drop a piece of butter in each and bake until brown.

Brown Bread.

Take two cupfuls of stale bread crumbs, one and one-half pints of cold water, mix and soak over night, then rub through a sieve one and one-fourth cupfuls of molasses, one and one-half cupfuls each of graham flour, cornmeal and rye meal, two teaspoonfuls of salt, three and one-half teaspoonfuls of soda and one and three-fourths cupfuls of cold water. Mix well and steam three hours.

Stuffed Apples for Tea.

Take five large apples, core and fill with one-half cupful each of bread crumbs and chopped roast beef, one tablespoonful of melted butter, one teaspoonful of onion juice, one-quarter teaspoonful of celery salt, half teaspoonful of parsley chopped and a dash of red pepper. Mix well and press into the apples. Bake in a little hot water from half to three-quarters of an hour.

Fruit Betty.

Put a layer of crumbs in a well buttered baking dish, cover with blueberries, canned or fresh, then add another layer of bread with a bit of butter and sugar if needed. Bake until well heated through. Serve with cream and sugar.

SCHOOL DAYS

Uncommon Sense
By JOHN BLAKE

WHAT A WOMAN DID

IT SEEMS probable that cancer, one of the most deadly of the enemies of mankind, will soon be conquered by the use of radium.

Since the beginning of time this element has existed in nature. For the last score or more of years the presence of some unseen but powerful force has been suspected. Scientists sought to discover what it was, but sought in vain, till a quiet little Polish woman, after years of laborious experiment, discovered it.

That a woman should have made this discovery—one of the most notable in all history—is highly important.

It disproves forever the old contention that there is any difference between the brain of a man and that of a woman.

The highest concentration, the greatest reasoning power, the most indomitable determination were required for the years of work which had to be done before this discovery could be made.

A man stumbles on a gold mine or a diamond deposit by accident. But to find a metal which exists in the most minute quantities, and which must be extracted by infinite pains from the surrounding elements, has to be located first, and laboriously separated afterward.

Countless experiments entered into Mme. Curie's work, and only a remarkable human being could have brought it to a successful conclusion.

Much is yet to be done before the power of radium over cancer can be thoroughly tested.

But this can be left to others, as the consolidation of a captured position in war can be left to subordinates after a brilliant general has won an engagement.

Mme. Curie has set an example, not only for her own sex, but for all the searchers for truth in the world.

Her achievement is an inspiration, and probably to the end of time, will be an inspiration to the whole world.

WHY?

DOES A HEN CACKLE AFTER LAYING AN EGG?

THE statement that there is a direct connection between the cackling of a hen and the laughter of a person who is pleased may sound strange, but it is nevertheless true. The human animal—man—gives vent to a series of sounds originating in his throat when something causes him pleasure. These sounds we characterize as "laughter." Very much the same process takes place when a hen lays an egg. The presence of the egg in the body of the hen causes the bird some discomfort. When this is relieved, she is naturally pleased and announces her pleasure to the world by a species of laughter of joy which we have termed "cackling."

If we remember that many persons "chuckle" when they are pleased the relationship between the laughter of human beings and the cackling of hens becomes even more apparent and it should be borne in mind that every living thing expresses its pleasure in some animate and usually vocal manner. Cats purr, dogs bark, monkeys chatter, birds chirp, sing, children jump up and down or cry out with joy, adults laugh or chuckle, hens cackle. It's simply the application of different terms to the expression of the same emotion.

Green, White and Black. Two men passed each other in Washington street.

"Hello, Green," said one. "How are you, White?" said the other. And they both are black.

KIDDIES SIX
By Will M. Maupin

BRACE UP

WHEN you're feeling rather blue And the slodding's hard for you; When your schemes go up the spout And you're feeling down and out; When you've shot and scored a miss—Brace up and remember this: Those who win are those who try. So brace up and don't say die.

Swell your chest and try again; Grit your teeth and smile at pain. Tackle trouble with a laugh And you'll cut the dose in half. Look the world square in the eye; Back the line and don't say die. Laying down is all the shame—Sit straight up and play the game.

Don't dodge trouble—if you do It will doubly trouble you. Meet each task with grit and vim, Do the square thing, sink or swim. If you see hard luck draw nigh Laugh again and don't say die. Keep your face turned to the light, Do your best and you're all right.

(Copyright.)

THE ROMANCE OF WORDS

"BRICK"

LIKE many other expressions which, at first glance, appear to belong to the slang of a very recent period, "He's a brick" dates back to the days of ancient history, Plutarch being authority for the statement that Lycurgus used it in connection with the defense of Sparta.

The story goes that Lycurgus, being a man of few words, was asked whether Sparta should be inclosed with walls, and replied: "That city is well fortified which has a wall of men instead of brick."

Another historical allusion of the same nature was made when an ambassador from Epirus, on a diplomatic mission, was shown by the king of Sparta over his capital. The ambassador was amazed to see that the city was apparently unfortified and remarked about the matter.

"Indeed," replied the king. "Thou canst not have looked carefully. Come with me tomorrow and I will show you the walls of Sparta."

On the following morning the king led his guest out upon the plains, where his army was drawn up in full battle force. There, pointing proudly to the soft battalions of armed men, he exclaimed: "Thou beholdest the walls of Sparta—every man of them a brick!"

The antiquity of the expression in English may be gathered from the fact that the Ingoltsby Legends contain the following comment:

"In brief, I don't stick to declare Father Dick, So they called him for short, was a regular brick."

THE CHEERFUL CHERUB

I like to take my pen And sit and dream alone, And grab a little thought From out the Great Unknown.

RADIO

THIRD ELEMENT IN THE VACUUM TUBE

Grid Added to Fleming Valve by Dr. Lee DeForest Was a Big Improvement.

Any device which will pass electricity in one direction and will wholly or partially obstruct the flow in the opposite direction is termed a rectifier, because when connected in the path of an alternating current it will suppress one-half of each cycle and therefore the circuit will be traversed by pulsating direct current. A rectifier also is said to possess unidirectional conductivity, meaning, of course, that it will conduct electricity in one di-

rection of the grid circuit I-J-K-L. The battery in the grid circuit is called the "C" battery.

As a start let us suppose that "C" battery voltage is zero. The operation of the three-electrode tube would then be exactly like that of a two-electrode tube, just as though there were no grid. Like a two-electrode tube, when the filament C-D is brought to incandescence by the "A" battery a steady stream of electrons will be given off, which will be drawn over to the plate E. Plate E is maintained at a positive potential with respect to the filament by the "B" battery.

Now if the grid is made positive with respect to the filament, it is possible to accelerate the flow of the electron stream from the filament to the plate; if the grid is made negative with respect to the filament, the flow of the electron stream from the filament to the plate will be retarded. Or in other words, by making the grid positive or negative with respect to the filament, it is possible to increase or counteract the space charge. The third electrode or grid thus offers a means of controlling the current in the

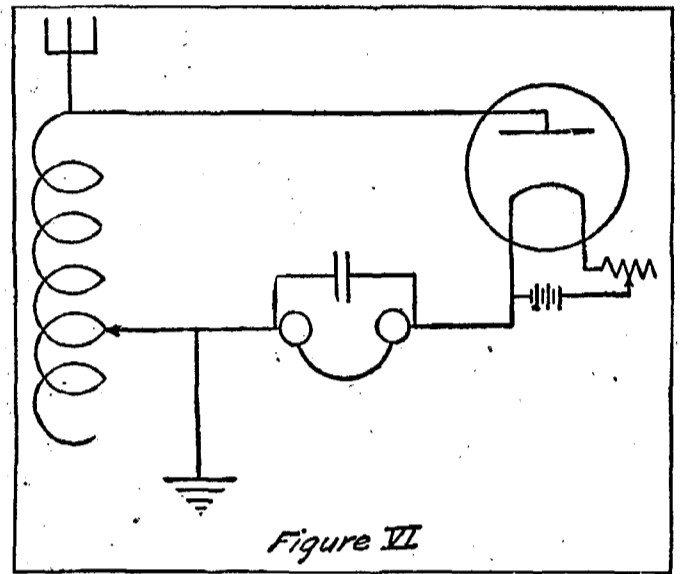

Figure VI

rection only. Its ability to rectify currents of extremely high frequency determines its application in radio.

Due to its ability to rectify high frequency alternating currents the three-electrode vacuum tube is used in a radio receiver as a detector.

Fig. VI is a simple radio receiving circuit employing this type of two-element vacuum tube in place of a crystal detector.

Dr. J. A. Fleming of London, England, was the first to use a two-element tube of the type just described as a medium of rectifying high frequency radio currents. Fleming called his product a valve because it would let current flow in one direction but not in the other direction. The Fleming valve as a forerunner of the vacu-

plate circuit without changing the plate potential or the filament temperature.

The characteristic curve of a three electrode vacuum tube is shown in Fig. VIII. This diagram shows the relation of grid potential to plate current, assuming that the filament temperature and plate voltage remain constant.

It can be seen from the curve that by applying a negative potential of value E to the grid, the plate current can be reduced to zero. The negative charge on the grid will have the effect of a negative potential E with respect to the filament, making the negative charge so strong around the filament that the electrons cannot leave it. On the other hand, if a positive potential of value F be applied

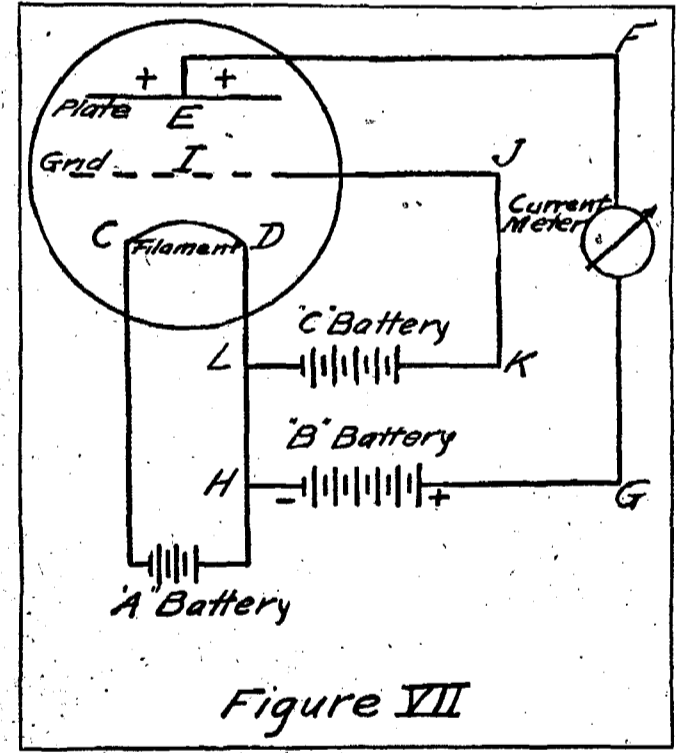

Figure VII

um tube of today marked a very important step in the progress of the radio art. The Fleming valve, however, in its original form was not much better than other forms of rectifiers then in use and, owing to the greater ruggedness and ease of manipulation of the latter, did not come into general use as a detector.

Dr. Lee DeForest, an American, greatly improved the Fleming valve by adding a third electrode called the grid, which served the function of a control element and thus made it possible to utilize the feeble incoming signal currents to control more powerful local currents. The three-electrode vacuum tube of DeForest is the tube used so extensively today.

The third element which is called a grid and from which the three-electrode vacuum tube derives its name was placed by DeForest between the filament and the plate in the path of the electrons. The grid is a perforated plate or mesh of fine wire through the openings of which the electrons must pass in their journey from the filament to the plate.

Fig. VII is a diagrammatical sketch of the circuits of a three-electrode vacuum tube and is identical the same as the sketch in Fig. III for a two-element vacuum tube with the ad-

dition of the grid with respect to the filament, the maximum or saturation current will flow in the plate circuit. Applying a greater positive potential than F to the grid with respect to the filament will not cause an increase in the

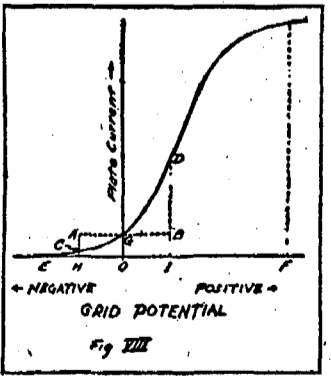

Fig. VIII

plate current because the electrons given off are being attracted to the plate and grid.

When the grid is maintained positive with respect to the filament a small current will flow in the grid circuit. Because of its being positive it will attract the electrons and have a charge given up to it by them.

THAT MORNING LAMENESS

If you are lame every morning and suffer urinary ills, there must be a cause. Often it's weak kidneys. To strengthen the weakened kidneys and avert more serious troubles, use Doan's Kidney Pills. You can rely on East Jordan testimony.

Mrs. Henry Ribble, Bridge St., says: "I wasn't in condition to do anything on account of a weak, sore back. When I straightened up from a stooping position terrible knife-like pains caught me in my back. For a time I didn't rest at all and was tired out. I became nervous and depressed and was often irritable. Black specks often appeared before me and I suffered from headaches. I saw in the paper how well Doan's Kidney Pills were liked, so I purchased a few boxes at Gidley & Mac's Drug Store and they cured me."

60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SAYS IT ACTED LIKE A CHARM

Summer coughs and colds are usually persistent and obstinate. All the more reason for using a reliable remedy. Mrs. Margaret Smale, Bishop, Calif., writes: "Foley's Honey and Tar is a good remedy. Suffered from a cold last week, used it, and it acted like a charm." Hite's Drug Store. adv.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if kidneys feel like lead or bladder bothers you—Meat forms uric acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound" which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

IF SKIN BREAKS OUT, BURNS AND ITCHES APPLY THIS SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness. You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.

Briefs of the Week

Miss Mabel Maddock visited friends at Bellaire this week.

Mrs. Robert Biglow and son are visiting friends at Cadillac.

Buy a Leonard Cleanable Refrigerator. R. G. Watson. adv.

C. A. Brabant is at Detroit and other points on business this week.

Alex Bashaw returned home Wednesday from a visit in York State.

Misses Mary and Sarah Green of Detroit are home for a visit this week.

Mr. and Mrs. Roy Gregory and children of Turner, are here visiting friends.

Mrs. Louis Johnson and children of Grayling were here this week for a visit.

Born to Mr. and Mrs. Walter Woodcock, a daughter—Eldeva Louise—July 14th.

Miss Olga Wagbo left Thursday for a visit with friends at Traverse City and Suttons Bay.

Two bargains in Second Hand Cream Separators. First come, first served. Stroebel Bros. adv.

Mrs. Thos. Locke left Thursday for Muskegon to join her husband, who has employment there.

Mrs. Oscar Franzen and daughter, of Chicago are visiting at the home of Mr. and Mrs. D. E. Goodman.

Miss Margaret and William Loader of Detroit are visiting at the home of Mr. and Mrs. Wesley Simmerman.

Mr. and Mrs. Charles Buckman and children of Chicago are visiting at the home of her sister, Mrs. George Kake.

Mrs. Arthur Allen and children returned to Detroit, Thursday, after a two weeks visit with her sister, Mrs. Frank Habel.

Mrs. Thomas Wetzel and daughter, Mrs. Jacob Roberts and children left Monday for Port Huron, called there by the death of the former's brother.

Mr. and Mrs. Henry Lafreniere and son, of Frankfort, left Saturday for a visit at South Haven, after a visit here with Mr. and Mrs. Nelson Lafreniere.

Mr. and Mrs. A. J. Suffern returned home Wednesday from a fortnight's trip through southern Michigan and through to Chicago, where they visited their daughter, Mrs. F. H. Kruger.

Owing to the coal strike the P. M. R. R. on Thursday discontinued two passenger trains on their Petoskey division, which affects East Jordan. The trains cancelled are the north-bound No. 3 which left Bellaire at 6:02 a. m., and the south-bound No. 8, leaving Bellaire at 3:11 p. m. No south-bound passengers can connect at Bellaire in the afternoon, and mail from the East Jordan postoffice for southern points, posted after 10:00 a. m. will have to be routed north over the P. M. system.

A \$45.00 Bicycle only \$36.00. Stroebel Bros. adv.

Mrs. Bessie Bundy left Tuesday for Detroit.

Special quality Arsenate of Lead at Stroebel Bros. adv.

Miss Mildred Best returned Tuesday from a visit at Bellaire.

Mrs. Bertha Hockstad returned Monday from a visit at Bangor.

Buy a Leonard Cleanable Refrigerator. R. G. Watson. adv.

Misses Ruth Gregory and Doris Hayden are visiting friends at Green Lake.

Don't be without a Car when you can get one for \$50.00 and up. See Wells. adv.

Arthur Blair, who has been home for a visit returned to Iron Mountain, Monday.

James M. Howard left Monday for a visit at Rome, Georgia, and Birmingham, Alabama.

Mrs. Charles Smith of Lima, Ohio, was guest of Mrs. M. H. Robertson first of the week.

Mrs. Allen King of Port Huron is visiting at the home of her daughter, Mrs. Andrew Snell.

Mrs. M. McHugh of Grand Rapids, who has been guest of Mrs. C. Walsh, left Tuesday for a visit at Evanston, Ill.

Mrs. W. S. Myers with children, and daughter, Mrs. Frank Clark and son, went to Traverse City, Tuesday, for a visit.

Mr. and Mrs. Arthur Cadwell of Grand Rapids were East Jordan visitors recently, guest of relatives and friends.

Mrs. John Davids (nee Bernice Piggott) went to the Reycraft hospital at Petoskey Monday where she underwent an operation.

Alex Deshane, who has been here visiting his parents, Mr. and Mrs. Jerry Deshane, left Thursday for his home at Kensal, North Dakota.

Mr. and Mrs. Charles Lovett with daughter, Margaret, are here from Rhineland, Wis., for a visit with old-time friends. Mr. Lovett was an East Jordan resident some 25 years ago, at that time being a lumber inspector.

Attorney D. L. Wilson was at Marquette latter part of last week to meet Mrs. Wilson, who has been there for a visit with her sister, Mrs. Stanford. They returned home Sunday evening.

Large stock of Lawn Hose. Stroebel Bros. adv.

A carload of soft coal shipped last fall to a Petoskey dealer who refused to accept it and which lay for about seven months on the Pennsylvania tracks, was sold at public auction this morning to the Michigan Tanning and Extract company. A peculiar feature of the company was that the accumulated demurrage far exceeded the value of coal.—Petoskey News.

Large assortment of Fishing Tackle. Stroebel Bros. adv.

Buy a Leonard Cleanable Refrigerator. R. G. Watson. adv.

Miss Blossom Hayes of Detroit is visiting Mrs. John Sutton.

John Courier went to Alma, Monday, where he has employment.

Harold Nachazel is in the city on business and visiting friends.

Mrs. John Turner of Mason, Mich., is visiting her sister, Mrs. Dan Parrott.

Miss Audrey St. John returned to St. Clair, Monday, after a week's visit here.

Miss Josephine Gunsolus left Monday for Revenna, where she has a position.

Miss Edith Hollingshead left Wednesday for a visit with relatives at Muskegon.

Mr. and Mrs. Harve Seaton of Altona are visiting her parents, Mr. and Mrs. Jerry Deshane.

Will Donaldson and Merle Jones went to Muskegon, Monday, where they have employment.

Mrs. Thomas Marshall and children, who have been visiting at Vassar, returned home Wednesday.

Laundry Basket leaves Bulow Bros. store every Wednesday noon; laundry returned Saturday night. adv.

We are sacrificing all our cars. If you haven't a car see us. Prices and terms to suit your needs. R. Mackey. adv.

Mrs. M. J. Lisk, with granddaughter, Miss Irene Green, is here from Pontiac for a visit at the home of her son, G. A. Lisk.

Mr. and Mrs. Fred Kowalske of Peoria, Ill., are guests at the home of Mrs. Addie Richardson and other relatives in our city. They drove up by auto.

All members of the Improvement Club are urged to be present at the County Federation of Women's Clubs which will meet at Charlevoix, Tuesday, July 25th.

Mr. and Mrs. B. Schwab with daughter, Maxine, of Stewartville, Minn., drove through by auto and are visiting at the home of their daughter, Mrs. B. L. Lorraine.

East Jordan's N. M. League baseball team is scheduled to play the Bay View Resort team on Aug. 5th. A return game with the Resorters will be played here, Thursday, Aug. 10th.

A line with subscription renewal from George Hamilton, indicates that Mr. and Mrs. Hamilton, former East Jordan residents, have recently moved from Alabama to St. Paul, Minn.—1031 Selby Ave.

In the City League games held Wednesday, the Holy Name defeated the M. E. by a three to two score in a 9-inning contest. The K. P. O. F. defeated the Mason-Prs. with a six to two score. The result of Wednesday's games puts all four teams in the City League within one game of each other in their standings.

Rev. and Mrs. M. E. Hoyt of Hastings, are expected to arrive in East Jordan Friday evening to spend Sunday with friends here. Rev. Hoyt was a former pastor of the M. E. Church. A picnic luck supper in their honor has been arranged to be held at Monroe Creek at 6:30 this Friday evening. All friends of Rev. and Mrs. Hoyt are invited.

Keen Kutter Safety Razors only \$1.00 adv.

Local industries are feeling the effect of the labor disturbance in the coal fields. The Michigan Tanning & Extract Co. have commenced to conserve their fuel by using slabs from Boyne City Mill. There is a rumor abroad that a boat load of coal for the tannery will soon arrive. The B. C. G. & A. R. R. purchased a thousand tons in May but it fails to arrive owing the larger roads making use of the coal as fast as it reaches their yards. Any coal that is now purchased is secured by paying a premium to the owner and obtaining assurances from the railroad officials that they will not confiscate the coal so purchased. The surplus coal, we are told, is rapidly diminishing and the price is advancing almost daily.—Boyer Citizen.

Alabastine for the walls. adv.

Leroy Foley and Tom Connors, held in jail at Gaylord charged with having burglarized stores at Elmire and Vanderbilt the first of May, and who recently escaped jail only to be recaptured a few hours later face trial at the term of circuit court which opened Monday. The men face a joint charge of burglary and are separately charged with the same crime: They worked for a week cutting a hole through the jail wall, piling the debris on top of the cell block and were undetected at their work. For hours they were free in a patch of woods and were only captured when they feared they would be shot by some member of the posse searching for them. Miss Mildred Kramer, who witnessed the men crawl through the hole in the jail wall, was too frightened to give the alarm until the men had passed through the yard of her home and escaped into the woods.

Lowe Bros. House Paints cover more surface. adv.

Mrs. G. W. Kitsman and children are visiting her parents at Standish this week.

Miss Minnie Hudkins returned Monday from a visit at Bay City and other points.

Mr. and Mrs. W. H. Sloan and son, James, returned home Monday from Detroit.

Mrs. Rex Hickox returned home Saturday from a visit with her parents at Bellaire.

Rev. C. W. Sidebotham is spending a few days with his brother, Rev. R. S. Sidebotham at Manistique.

Mrs. Russell Harrington and children of Flint are visiting her parents, Mr. and Mrs. Jos. Cummins.

Mr. and Mrs. Louis Harnden and daughter left Monday by auto for a trip to Muskegon and other points.

Mrs. Fred Trumbull of Detroit was called here Monday, by the serious illness of her aunt, Mrs. Frank Smith.

Mr. and Mrs. Glenn Stiff drove through from Detroit and are spending the week with Mr. and Mrs. J. A. Nickless.

Mrs. George Ramsey and children went to Mackinaw City, Tuesday, where she will join her husband, who has employment there.

Attention—All Pythian Sisters who are on the drill staff are requested to be present at their regular meeting night—next Tuesday evening—not later than 8:30 o'clock.

Mr. and Mrs. W. W. Ritchie of San Francisco, Calif., are visiting at the home of Mr. and Mrs. G. J. Zerwekh at Cherryvale. Mrs. Ritchie is Mrs. Zerwekh's granddaughter, and was well-known here as a violinist. She was formerly Miss Frances Wells.

First Methodist Episcopal Church
Rev. Thos. Marshall, Pastor.

"A Homelike Church."
Sunday, June 23, 1922.
10:00 a. m.—Services Sunday morning only. The Pastor will preach.
11:00 a. m.—Sunday School
Evening service discontinued during July and August.

Presbyterian Church Notes
Rev. C. W. Sidebotham, Pastor.

"A Church for Folks."
Sunday, July 23, 1922.
10:00 a. m.—Morning Worship and Sunday School will be held at the High School Auditorium. Dr. S. J. Vance, of Pittsburg, Penn., who is summer resorting in this vicinity will deliver the sermon.
11:00 a. m.—Sunday School. Older classes will meet in H. S. room. Primary Dept. will meet in Kindergarten room.
No evening service during July and August.

St. Joseph's Church.
D. M. Drinan Pastor.

Masses on 1st and 3rd Sunday of each month at 8:00 and High Mass at 10:00.
Mass on 2nd Sunday of each month at 8:00 o'clock.
High Mass on 4th Sunday of each month at 10:00.
On 5th Sundays Masses at 8:00 and 10:00.
Masses on Holy days and Devotions will be announced.

St. John's Church.
Bohemian Settlement.

High Mass on 2nd Sunday of each month at 10:00.
High Mass on 4th Sunday of each month at 8:00 o'clock.

Latter Day Saints Church.

7:00 p. m.—Fresching.
Wednesday—
7:00 p. m.—Prayer Meeting.

Church of God.

Hours of services:
(Eastern Standard Time)
Sunday School—11:30 a. m.
Bible Study—12:00 a. m.
Bible Study—7:30 p. m.
Wed. Prayer Meeting—8:00 p. m.
The public is cordially invited to attend these services.

Mentioned in the Bible.
Biblical mention is made of nineteen different precious stones, six metals, one hundred and four trees and plants, thirty-five animals, thirty-nine birds, six fishes, eleven reptiles, twenty insects and other smaller creatures.

"Middle One's" Hard Lot.
Jane, who has one brother older than herself and one younger, explained why a middle child has a hard lot. "The middle one doesn't get to go places," she said, "because the oldest one is always big enough to take and the youngest one is always too little to leave."

Danger of Being Too Tall.
According to Dr. I. C. Rahbek, the great Danish specialist in tuberculosis, children who are abnormally tall for their age are peculiarly predisposed to tuberculosis.

FUN FOR EVERYONE!

First Known Use of Ink.
The bureau of standards says that the earliest use of liquid which can be described as ink is found in the remnants of ancient Egyptian civilizations, and the date was probably about 2500 B. C. Chinese or Indian ink is known to have been in existence about this time. These inks were black and their base was carbon. Probably gum, oil or varnish was mixed with it.

Story of Our Flag.
From 1776 to 1783 our flag had 13 stars. In 1812 it bore 15, in the Mexican war 20, in the Civil war 34, in the Spanish war 45 and at the present time 48.

Forever Lost.
A man who was attending a vaudeville show in Denver recently laughed so hard at one of the jokes that he became hysterical, fainted and had to be carried out of the theater. Unfortunately he was unable, when he recovered his reason, to remember what the joke was.

Have it Shine With Good Deeds.
Since life is brief, let us try to make it bright.—Boston Transcript.

Wrong Belief Concerning Hebrew.
Less than two centuries ago even men of learning believed that Hebrew was the original language, and that all other languages were offshoots from it. It has since been discovered that Hebrew was a dead language in the time of Jesus, and that no modern language has been derived from it, not even Yiddish.

Quite the Reverse.
"A man isn't so apt to fib about his age as a woman, but he even up the score when telling about his salary," remarks an exchange. True, but he rarely understates his salary as a woman does her age.—Boston Transcript.

SAYS IT ACTED LIKE A CHARM
Summer coughs and colds are usually persistent and obstinate. All the more reason for using a reliable remedy. Mrs. Margaret Smale, Bishop, Calif., writes: "Foley's Honey and Tar is a good remedy. Suffered from a cold last week, used it, and it acted like a charm."—Boston Transcript.

SATURDAY JULY 22nd

We Will Sell With each purchase of \$2.00 or over, FOR CASH ONLY. Sugar excepted.

10 Bars P. & G. Soap for 40c

Celebrated "Black Cross" Japan Tea

1-2 lb. 35c. 1 lb. 65c.
