## Big Game To East Jordan

### Cheboygan Very Much Surprised At Strength of Locals.

Score of brilliant gridiron contest in a game replete with beautiful open field work, fine end running and good line plunging carried one of the best gridiron battles seen in Northern Michigan this year. Cheboygan looked heavier than the local team and were more experienced but the locals seemed to be developing into a real aggregation of football huskies. The end running and forward passing of the locals took their staunchest supporters by surprise. It was whispered before the game that Cheboygan would win 40 to 0. Such a rumor was current for a week or two and for three minutes at the opening of the game it looked as though Cheboygan were going to make the threat good. After some very classy line plunging and a march of about 35 yards something went wrong and when the smoke of battle cleared away, Malpass was seen with the ball deeply tucked under his wing, after intercepting a Cheboygan forward pass and making a 50 yard dash for their goal. A moment later a pass from the same gentleman to Edward Streeter behind Cheboygan's goal, gave us our first touchdown in less than three minutes of play. From that on the tide turned very much in favor of East Jordan and Cheboygan did not recover until near the end of the second quarter when through some very unusual line plunging on the part of Fullback McGinnis, they carried the ball over East Jordan's goal line just as time was up. By the way, East Jordan has played nearly every important town in North Western Michigan and we have not seen the equal of the line plunging and punting of McGinnis of Cheboygan this year. If an all-Northern Michigan team was picked McGinnis should have a place. About the middle of the first half East Jordan started a march to the Cheboygan goal. In fact, it was not a march, it was a sensational dash for the ball was tossed to Russell Johnson at End who ran 50 yards for the second counter of the game. Capt. Malpass drop kicked for the one point. In the second half the same scrappy contest continued. The ball was in the middle of the field for about five minutes when some very good blocking made it possible for Walker, LaClair, Malpass and Streeter to circle Cheboygan. Ends almost at will at some eight to twenty yards. Each of these men carried the ball down the field where on a delayed pass Streeter circled the end for thirty and a touchdown. In the fourth period Cheboygan received the ball and carried it some sixty-five yards down the field for their second counter. In this march, Mr. McGinnis played a very important part. In the fifth quarter the team saw-sawed pretty well in the middle of the field until the final twenty-five seconds. At this juncture, East Jordan received the ball when one of the most brilliant performances carried out on any football field took place. Edward Streeter who is anything but slow on his feet caught the ball on the kickoff on his ten yards, ran and through some beautiful blocking on the part of Russell Duffy, Childs, Calkins, Walker and Malpass, he started on one of the most sensational dashes ever seen on the local field, twisting and turning and running with two very fast Cheboygan men at his heels. He ran 90 yards for East Jordan's fifth touchdown just as the whistle blew for the end of the game. Needless to say, the fans got a thrill that they will not get in perhaps many a day for this does not happen once in three seasons as a rule. It's not taking anything from the rest of the men to say that Streeter was really the star of the game, making four touchdowns, a total of 24 points. However, the feature of the game with Cheboygan was not the sensational dashes and long forward passes and runs but the all around blocking and team work of the East Jordan boys.

The game proved to be the cleanest of any played by the local team this year. Cheboygan showed themselves to be first class sports. They did not have a long string of alibies. They were satisfied with the officiating and we tried to use them right and we certainly look forward to the game with Cheboygan next year as a real pleasure.

The East Jordan lineup was:  
L. E. R. Johnson and R. Stewart  
L. T. E. Childs  
L. G. F. Calkins

## Trena Larson Passes Away

### Young School Teacher Was Ill Only Few Days

Miss Trena S. Larson, daughter of Mr. and Mrs. Fred Larson residing just south-west of East Jordan in South Arm township, passed away suddenly at the home of her parents Saturday evening, Nov. 11th, from acute sugar diabetes.

The young lady was among the East Jordan High School graduates of the Class of 1922 last June. She took a summer course of instruction at the Mt. Pleasant State Normal, and this fall accepted a position as teacher at the Korthase School near Boyne Falls.

It was while teaching there that she became dangerously ill last Friday and was removed to her home here where she passed away the following night.

The young lady was born at East Jordan, June 16th, 1903, and grew to womanhood in our midst. Besides the bereaved parents, she leaves to mourn her untimely death two brothers and two sisters—Ludwig and Alfred, at home here; Mrs. Donald Hott of East Jordan, and Miss Bertha Larson, superintendent of the Stoughton, Wis., hospital.

Short funeral services were held from her late home, Thursday afternoon and then funeral services were held from the Lutheran Church in this city conducted by Rev. J. C. Johnson of Frankfort. Interment at Sunset Hill.

## Michigan Cow Nears World's Record Mark

### Holstein-Friesian Owned by Loeb Farms of Charlevoix County Produces 35,000 Pounds Milk in a Year.

East Lansing, Nov. 14th.—Producing 35,339.5 pounds of milk in one year, a Michigan cow has just broken all previous state records and is said to have taken rank as the second highest producer in the world.

The new record holder is Kolrain Marion Funderne, a Holstein-Friesian owned and developed by the Loeb Farms of Charlevoix County. She was seven years old last September, a month before completing her great record. Marion had already made very creditable figures at an earlier age, the recently announced yearly record mark being the culmination of her outstanding production achievements.

Supervision of the record made by the Charlevoix cow was handled by inspectors under the staff of the dairy division at the Michigan Agricultural College, and the official figures on her record were released this week by M. H. Gardner, of Delavan, Wisconsin, Superintendent of Advanced Registry for the United States.

Fat contained in the 35,339.5 pounds of milk produced in 365 days ending on October 26, 1922, totals 1,022.85 pounds. She freshened at the age of six years, one month, and eight days, at the beginning of the test. Twelve supervisors were employed in the conduct of the test, 275 days of which were "strictly official", with a supervisor constantly in attendance.

The record of Kolrain Marion Funderne ranks her as one of the greatest milk cows of all time, and is considered as a distinct achievement for Michigan dairy interests.

## THANKSGIVING DAY

### A Proclamation by the Governor.

"Enter into His gates with thanksgiving, and into His courts with praise; be thankful unto Him and bless His name."

We have come again to the season of the year when, in accordance with the devout custom established by our fathers more than three centuries ago, we formally set apart a day of thanksgiving and praise to Almighty God for all His mercies and blessings.

We have every reason for thankfulness. Our fields and orchards and vineyards have yielded richly of their products. Our people have been sober, industrious and steadfast. Industry and enterprise have translated the varied and unlimited resources of our commonwealth into wealth and happiness for all who have had the initiative and the capacity to do and achieve. While we face a new day big with many perplexing problems, may our faith in the integrity of American institutions be rededicated to the government which has always symbolized the best that has been achieved since the struggle for representative government began.

Therefore, by virtue of the authority vested in me as Governor of the State of Michigan, I hereby join the President of the United States in designating Thursday, November 30th, 1922, as a day of Thanksgiving and prayer.

Given under my hand and the Great Seal of the State this tenth day of November, in the year of our Lord one thousand nine hundred and twenty-two, and of the Commonwealth the eighty-sixth.

ALEX J. GROESBECK, Governor.

By the Governor:  
Charles J. DeLand, Sec'y of State.

## MICHIGAN GROWERS WIN AT POTATO SHOW

Potato growers of Michigan, exhibiting at the International Potato Show held at Duluth, Minnesota, last week, won unusually high honors, according to word just received from J. W. Weston, potato specialist at the Michigan Agricultural College who attended the

big show. Competing against entries from the leading potato growing sections of the entire continent, Michigan men managed to make a clean sweep of prizes in the Russet Rural class, and to score notable victories in other classes as well.

In the Russet Rural field, Ernest Pettifor of Gaylord, won first place; Brudy Brothers of Wolverine, second; Frank Wyreck of Alanson, third; Lee Sneathen, Charlevoix, fourth; and W. L. Thomas of Afton, fifth. In the Certified Seed exhibits, Brudy Brothers won second place with all varieties competing. Joe Yelle of Sands, ranked tenth in the Green Mountain class, which was the largest and most hotly contested group in the show.

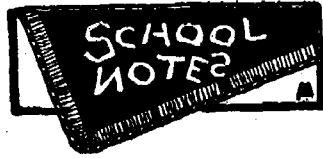

There were 27 exhibits from Michigan, four of which came from the Upper Peninsula, D. B. Jewell, County Agricultural Agent in Cheboygan Co., was in charge of the state exhibits.

## EAST JORDAN PUBLIC SCHOOLS

### Sophomore Entertainment

The Sophomores will give a play entitled "The Wrong Wright" on Wednesday afternoon, November 29th.

This play will be given for the benefit of the school students and their parents. The admission will be five cents for students and ten cents for their parents.

### Start New Books

The Bookkeeping Class have been doing exercises from their books on the loose sheets of ledger and journal paper, and are now ready to start on their sets of books. They will have a test Monday, and then be all ready to start their books on Tuesday.

### Tenth Grade Debate.

The tenth grade had a hot discussion Friday, Nov. 10th, concerning the European War Debt to the United States. It was not decided upon whether the European nations could or could not pay it. Everyone thought that they should pay it, but no way was found how they really might pay it. The discussion will be continued on the next day devoted to current topics.

### The Pep of the Freshies.

This year the freshmen have no men out for football. But last Saturday afternoon at the football game the Freshies showed their pep. They were the leaders, and they really did more than the rest of the high school in the yell. They formed together in a group and showed unity, which means that in the later years they will be leaders in High School. Under their teacher, Mr. Snellenberger, the Freshmen did their part in winning the game.

### In the Hall of Fame

When Ed. Streeter carried the ball 90 yards from kick off through the Cheboygan team for a touch-down last Saturday, he performed one of the rarest and most spectacular feats to be seen on the gridiron. Touch-downs from kick off are few and far between, and such a play, when made in a big college game, often gains the player a place on one of the All-American eleven. However, do not think that Streeter's speed did the whole thing. Excellent interference by his teammates was a big factor in making the play possible.

### Agriculture Club

On Thursday, Nov. 9th, the Agriculture Club voted to receive into active membership the following: Clayton Henning, Kathleen Roy, Bernice Courier, Ed. Childs, and John Chellis. This brings the active membership up to twenty. The membership is limited to twenty-five active members.

### First Agriculture Banquet

Fifty-five students, teachers and parents were present at the first annual banquet of the E. J. H. S. Agriculture Club at the High School last Friday evening. After a sumptuous dinner served by a group of boys and girls in charge of Miss Masselink, Roy Vance, President of the Club, introduced Mr. Nesman, who in turn introduced the speakers of the evening, Supt. Duncanson, B. O. Hagerman and E. N. Clink. Following the banquet, dancing was the order of the evening until 9:30.

Big Play coming in December. The Ancient History class are now doing laboratory work and are studying Asia Minor.

The first High School paper put out by the Junior English Class was a grand success, and the Juniors deserve much credit.

East Jordan showed some real support at the Cheboygan and E. J. Football game Saturday. The team made that game well worth seeing. We certainly appreciate the crowd which enabled us to pay our debts. Our next game is with Charlevoix and in addition to the game is a Cross-Country Run. Let's do as well at the next game as we did at the last one.

### High School Mass Meeting.

A fine mass meeting was held in the E. J. H. S. Auditorium Friday afternoon, and a good talk was given by Rev. Sleigh of Traverse City. This was followed by a number of peppy yells for the team. A speech was made by

Capt. Malpass, and after came a speech made by Sherman White, who graduated from the E. J. H. S. in 1920, and who has taken part in all kinds of athletics while in school. Sherman's speech was followed by two interesting talks by Mr. Gibbs and Mrs. Sebring, the latter introduced Annie Colden, business manager of the E. J. H. S. News. Annie presented twenty dollars to Mr. Duncanson from the Juniors, which was to be used for the Athletic Association, this being the amount cleared after all expenses were paid for the newspaper. After more yells of the peppiest variety the meeting was closed.

## WASTE OF MANURE IS COSTLY.

In a time of narrowing margins between cost of production and prices, economy of production is of prime importance. When endeavoring to cut costs, the first move should be to eliminate wastes from farm operations. A waste of considerable size is the loss occurring to part of our supply of "plant food," the farm manures.

This loss is due mainly to:  
1. Failure to save the liquid excrement.  
2. Burning or fire fanging.  
3. Leaching.

With the coming of winter when the stock is kept in the barn a greater portion of the time, necessitating the handling of this valuable farm by-product, the following few remarks may be well worth considering:

First, use enough litter to absorb all liquid manure. This, with a light floor will prevent the first loss, which is often large, since as a conservative estimate, at least half the nitrogen and potassium is in the liquid excrement. This is a form readily available to plants, and also readily leached away.

It has been found that a concrete floor pays for itself in a few years from the greater value of the manure as shown by crop increases.

When possible, haul the manure directly from the stable to the field, and spread. This is sometimes not practicable, because of weather conditions, nor is it advisable on a hilly farm where much "plant food" may be washed away in the spring while the ground is frozen. The worst possible practice is to pile the manure in small heaps in the field.

If manure cannot be hauled out at short intervals, a place should be provided for storage. This may be a shed with a concrete floor, or simply a concrete pit without a roof. A roof is desirable, however.

Manure piled in the open suffers loss by leaching and fire fanging. In fire fanging, much nitrogen, the most expensive plant food element in manure, escapes into the air as ammonia. To prevent this loss, tramp and pack the manure thoroughly when stored in a pit, and keep moist enough to keep out air, for although the manure pit prevents loss by leaching, manure loosely piled in a pit makes conditions ideal for fire fanging. If the livestock have the run of the pit there is little danger from this.

Various preservatives may be suggested. Flots or rock phosphate is to be recommended for this purpose, since it supplies phosphorus, the element in which all animal manures are deficient, in addition to its preservative action. Scatter it on the manure at the rate of about two pounds daily per animal.

## GROWTH OF PHONE SYSTEM OUTLINED

H. B. THAYER, HEAD OF BELL SYSTEM, ADDRESSES UTILITY COMMISSION AT DETROIT.

### UNIFORM POLICY IS ESSENTIAL

One Corporation Must Exercise General Functions, for Benefit of Various State Corporations.

Detroit, Mich.—H. B. Thayer, President of the American Telephone and Telegraph Company, speaking before the National Association of Railway and Public Utility Commissioners here, presented the telephone business as unique in the national scope of its service. This vision of a national service, as distinguished from a sectional service, was the basis upon which the organization was founded forty years ago.

"This country of ours differs from any other in the world. It covers an immense area and but one language practically free from dialects, is generally spoken. State boundaries are no barriers to commerce. There are no customs frontiers between States. Contrary to the case in most other countries, it is an exception here when a man lives where his father or grandfather lived. Families are separated, so that, more than any other area in the world of similar size, it is one country, one people with far-reaching commercial and domestic relations. It follows that such a nation must have a complete telephone service covering the whole country; a service that has no narrower boundaries than the boundaries of the nation.

"A national service can exist only through an organization which provides for a uniform policy and coordinated action. Uniformity of policy and co-operation comes to the Bell System through contract relations and community of ownership. A national telephone system could not be embraced in one corporation on account of the wide variation in the corporation laws in different States.

That being the case, in structure the Bell System is necessarily an organization of corporations, one of them exercising general functions for the benefit of the others. Its history proves that in the operation of this organization all other considerations have been subordinated to the development and improvement of its public service. Its program has been one of attempted foresight and anticipation of public requirements extending through all the necessary steps—construction and maintenance of a sound financial structure, the first essential to service, continual study as to future requirements and the possibility of meeting them, adequate plant and the maintenance of an adequate personnel.

"We have gone beyond the point of having the purpose to establish a national service. There is a national service. Its maintenance is a responsibility—yours and ours. The responsibility upon us covers extensions into fields wherever population develops.

"The policy of the system is very simple. The fact that we are the servant of the public is fundamental. We must satisfy and please our master. We must give good service. We believe that the public wants the best service we can give, that it is satisfied to pay a fair price for good service and does not want, in the settled communities, anything less than a dependable service at any price.

"There is a development of one telephone to every eight persons in this country so distributed and interconnected that a telephone is practically within reach of every human habitation or place of business in the country for communication with any other, every hour of every day and night. Nowhere else does such a condition exist.

"The purpose, methods and policies I have described have produced the best service, the greatest development, and the best satisfied public in the world. We do not rest on that result. We are looking for something better than the best.

"We believe that the best results for the service and, therefore, for the public will be attained by a relation of confidence between the Commissions and ourselves. We intend to deserve the confidence of the Commissions by the utmost frankness and straightforwardness in our dealings with them and we hope for a time when the Commissions will be kept so well informed as to our necessities that the great expense of occasional investigations may be saved.

"Take the Bell System as a whole. It has an investment of about two billions of dollars, between two and three hundred thousand employees, serves about nine millions of customers directly and is responsible for returns to four or five hundred thousand stock and security holders. That puts us among the largest business enterprises of the world. We cannot afford at the risk of losing any part of public approval to vary a hair from the course toward the objective which we are convinced is the only objective which the public will finally approve. And that is the best and broadest service which can be given at fair rates. Our obligation will not be fulfilled until rates are low enough to impel everyone to have a telephone in his own residence or office who ought to have one for his convenience or the convenience of the country."

## QUAKE AND FLOOD HITS NORTH CHILE

HUNDREDS OF LIVES LOST, AS TIDAL WAVE SWEEPS COAST LINE.

### SURVIVORS PERILED BY HUNGER

Government Sends Naval Ships to Aid in Relief Work; Cable Lines Are Disrupted.

Buenos Aires—New earthquakes, accompanied by electric storms, are adding to the misery of survivors of the Chilean quake and tidal waves that took hundreds of lives and caused millions of dollars damage.

Scores of looters began working in the ruins after the sea receded at Coquimbo, according to advices from that place. During the tidal wave that rushed upon the town, the heaviest locomotives were overturned. One heavy launch was wedged into a hillside.

Santiago, Chile—With partial re-establishment of communications, Chile's earthquake catastrophe is revealed in even greater magnitude than first reports indicated. It is estimated that at least 1,000 are dead, and many thousands are in distress, needing food and shelter.

In addition to heavy casualties of dead and injured at Copiapo and Coquimbo, it was reported that 500 were killed at Valparaiso and the surrounding district. Valparaiso was virtually destroyed, and the survivors are in a critical condition. It seems certain that there have been casualties in other towns and villages around Copiapo, to the south, concerning which no news is yet available. At Chanaal a number were killed by falling houses.

It was earthquake and tidal wave combined that accounted for the vast destruction in the provinces of Antofagasta, Atacama and Coquimbo. The movement of the ocean itself. There must have been such a tearing at the bottom of the sea that immense quantities of water were sucked through, causing a tremendous recession of the waters along the Chilean coast.

Several times the ocean swept outward, and came back in the shape of a great wave, flooding the sea ports and in some instances sweeping away the waterfront.

All types of craft lying in the various harbors were swept on shore, wrecked, or left high and dry, and at scores of small ports wharves and quays were destroyed. Chilean naval vessels in the harbor at Talcahuano, about 300 miles south of Valparaiso, when they felt the force of the waters, slipped their cables and proceeded out to sea.

President Alessandri has ordered the various government departments to take all measures possible for the relief of the sufferers in the stricken districts, those most sorely afflicted lying between Coquimbo and Copiapo. The navy department has sent ships along the coast to aid in the work.

### SELFRIDGE WAREHOUSE RAZED

Soldiers Prevent Fire Spreading to Inflammable Storehouses.

Mt. Clemens—Fire which threatened the entire government quarters in Selfridge field, totally destroyed the quartermaster's warehouse containing food, clothing and other supplies, causing a loss estimated at between \$500,000 and \$1,000,000 Sunday night. Almost superhuman work by the 600 soldiers and fire departments from three cities kept the flames from huge stores of oil and gasoline, stored next to the burned building.

Fully 50 fast racing and bombing aeroplanes, some that had taken part in the recent national races, were dragged out into the field by soldiers when the flames menaced the row of frame hangars. Fifteen automobiles also were moved out of harm's way.

### MUCH OPPOSITION TO SUBSIDY

Doubtful if President Can Secure Passage of Ship Bill.

Washington—Ship subsidy so far as the house is concerned will form the backbone of the legislative program for the extra session of congress called by President Harding for November 20 as the program is being developed in conference here among Republican leaders.

Doubt as to the fate of the ship subsidy bill increased as members returned after the elections. Signs of growing opposition to the measure, especially in the senate, were not lacking. The vote in the house, it was predicted even in Republican quarters, would be close.

### Ford Indorses "Living Wage"

San Francisco—In the opinion of Edsel B. Ford "a living wage" denounced by the United States Railroad Labor Board as fantastic, is not enough. "We believe," said the son of the Detroit manufacturer, here on a tour of inspection of Ford's western plants, "in paying a man enough so that he can maintain his family in proper respect, can give his wife and children the home life they are entitled to, can buy his own home and have a garden with it."

**STATE NEWS  
IN BRIEF**

**Hart**—The proposal to bond Oceana county for \$35,000 to build a new county infirmary was defeated.

**Battle Creek**—Refusal of voters here to authorize a \$100,000 bond issue to carry on sewer construction work means between 40 and 50 men will be workless, Mayor Charles D. Green announced.

**Monroe**—A cash register, containing about \$50 in cash and checks belonging to A. L. Tiffany, a veterinary of this city, reported stolen was found concealed five hours afterwards in the bottom of a waste paper carton in the place.

**Iron Mountain**—A big black bear that weighed 400 pounds has been trapped and shot by Harry Chapman, of Norway. The bear had been making frequent visits to Bert Chapman's farm for a month. Finally it stepped into a trap and was then shot.

**Flint**—Mayor W. H. McKeighan has invited members of the state public utilities commission to visit this city to inspect all railroad grade crossings because many accidents have occurred lately in which a large number of people have been injured and killed.

**St. Ignace**—The Democrats elected George Rapin sheriff over Thomas Taylor, Republican, the only contest for county offices in Mackinac county, by 200 majority. Democrats holding the offices of prosecuting attorney, treasurer and register of deeds were re-elected without opposition.

**Iron Mountain**—About 785,000 tons of iron ore were shipped from the Escanaba docks in October. More than two and a half million tons have been shipped this season up to Nov. 1, which is greater than double the tonnage shipped in 1921, the smallest season ever experienced on the Mesonimie range. The shipments thus far for 1922, are far below normal.

**Fenton**—Fenton's new waterworks plant has been completed and a try-out of the pumping system demonstrated that the centrifugal pump has a capacity of 800 gallons per minute. Operations will soon be shifted from the old plant, which has done service for 25 years, and it is alleged the new plant will result in an inconsiderable saving to the village.

**Lansing**—Silas S. Main, president of the city council and junior alderman from the Eighth Ward, will serve as acting mayor of Lansing as a result of the sudden death of Mayor Jacob W. Ferle, according to John McClellan, city attorney. A mayor will be elected at the regular election next spring. Alderman Main promises to carry out the policies of Mayor Ferle.

**Owosso**—"She had lost her job and I had lost mine." We didn't have anything else to do, so we got married." That is the way William Harding, 40 years old, of Lansing, explained how he and Mrs. Alta Beers, also of Lansing, came to be married in Bancroft last August while Harding had one wife. Harding waived examination and was bound over to Circuit Court on a bigamy charge.

**Flint**—An unidentified woman motorist ran down 7-year-old Albert Eckler, son of Lewis G. Eckler, inflicting injuries which resulted in the lad's death. Police are seeking some clue that may lead to the identity of the driver. The boy was on his way to school and stopped from a bus in which he had been riding at Fenton road and Major streets, where he was knocked to the pavement.

**Kalamazoo**—Orville J. Smith, Jackson, six feet and six inches tall, largest inmate of Kalamazoo State hospital, who escaped by tearing out a heavy screen from a window, was captured at Deatur. A nightwatchman found Smith whittling out a panel of the Bye Clothing store door. Earlier in the night he had broken into and looted the general store at Glenwood of a suit of clothes and articles, officers say.

**Grand Rapids**—Edward Van Yssel-dyke, 17, is held while police investigate a shooting which threw a catechism class of 25 girls and boys into a panic at the Turner Avenue Netherlandisch Reformed church on the west side. Jealousy over a girl is believed to have led to the shooting. According to two members of the class, Cornelius Van Hey and Hartin Byl, seven shots from a rifle were fired through the church door.

**Grand Rapids**—Grant Ide escaped death only by leaping from his coup, just before it was hit by a locomotive. Ide had stopped before the crossing to permit the passing of a train, but his machine was struck in the rear by an automobile driven by John McCormick, and was shunted directly into the path of the engine. The coupe was demolished. McCormick, in police court, pleaded not guilty to a charge of driving his automobile while intoxicated.

**Corunna**—Erwin Eveleth, 80, former postmaster and former mayor of Corunna, died at his home here after a long illness. As a young man, Eveleth was a lumber looker and mining prospector, and is said to have discovered the ore deposits where most of the mines are now located in the upper peninsula. In the late eighties, while he was prospecting in Minnesota, he accidentally discovered an iron deposit, and on that spot now stands Eveleth, Minn., a mining town of 10,000, named for him. He is survived by nine children.

**Muskegon**—Home grown strawberries were being sold on the city market here Nov. 4. The berries were of excellent quality and selling at 20 cents a pint.

**Saginaw**—Farnham Dingman, 13 years old, was playing with a companion on the banks of the Saginaw river. His foot struck loose sand and he fell in the water and was drowned.

**Lansing**—Pending a decision on an appeal, Mrs. Melvin E. Trotter, wife of the Grand Rapids evangelist, was awarded \$150 monthly temporary alimony and \$2,500 for counsel fees and appeal expenses by the state supreme court.

**Pontiac**—Ralph Thomas, 25, of Detroit, is recovering in a hospital here from a lacerated scalp and dislocated shoulder suffered in an attempt to commit suicide by leaping from the second-story window of a hotel here. He landed on a concrete sidewalk.

**Lansing**—Lyman C. Covell, who was reported killed in Des Moines, Ia., by a police ambulance was formerly manager of the Bond & Stock Service Co. in Lansing. Covell was making his headquarters in Davenport, Ia. His wife recently left for California to spend the winter.

**Ann Arbor**—The total registration for the University of Michigan for 1922-1923 is 11,410, according to the preliminary estimate made by Arthur G. Hall, registrar. Estimated net grand totals for last year and for this year as 10,982 and 11,410 respectively, showing a total gain this year of 428 students.

**Ann Arbor**—Harry Spencer, 26 years old, of Milan, was sentenced to life in Marquette prison by Judge George Sample. Spencer had pleaded guilty to a charge made against him by two Milan girls, 12 and 13 years of age. Before passing sentence upon him, Judge Sample flayed Spencer in most severe terms.

**Iron Mountain**—Farmers near here have organized the Dickinson County Cow Testing Association which will be under the direction of the county agricultural agent, Karl Miller. The purpose of the association is to raise better cattle and weed out the non-producers. An expert dairy man will be engaged to inspect the cattle.

**Alpena**—Found upstairs in a room of a vacant building, scarcely a block from her home, after being missing for four days, 16-year-old Viola Udel, refused to explain either to police or to her foster parents why she had left her home or why she had permitted the police to scour the country for 300 miles about in search for her.

**East Lansing**—Secretary H. H. Halladay, of the Michigan Agricultural College, has become a feminist. "With Mrs. Halladay he has taken temporary quarters in the guest room on the first floor of the Women's Building. Mr. and Mrs. Halladay are planning to move into the campus residence formerly occupied by Prof. E. A. Bessey.

**Grand Rapids**—Miss Ada Moore, who sails November 16 to serve as a missionary to Korea, is the fourth Grand Rapids girl to undertake foreign missionary work for local Methodist Episcopal churches during the last five years. Miss Elizabeth Vanfertil and Miss Blanche Loucks went to Nanking, China, and Miss Elizabeth Grennan to Manila, P. I.

**Negaunee**—Steel construction work on two stocking trestles with a capacity of nearly 300,000 tons of ore was begun at the Athens mine of the Cleveland Cliffs Iron company near here. Permanent trestles of the type now building at the Athens mine are to be constructed gradually at other Cleveland Cliffs properties replacing the wooden trestles now in use.

**Kalamazoo**—Because he thought he saw an automobile where there was none, Adrian Benjamin is in the county jail on the charge of driving while intoxicated. Mrs. Jessie O'Mara, riding with Benjamin, is in the hospital suffering from serious injuries. Benjamin drove his car into the ditch at Portage Center, south of this city, in order to avoid a phantom automobile.

**Iron Mountain**—Thirty state trappers during September, killed 118 predatory animals in the Upper Peninsula. Nine of the trappers were employed full time. Eight timber wolves, 62 coyotes, nine bobcats, 49 foxes, five badgers, three weasels, nine woodchucks, 295 porcupines, six crows, 15 hawks and three horned owls were destroyed. Joseph Dorn, of this city, and John Polvi, of Ralph, were placed on the state honor roll of trappers for the month.

**Grand Rapids**—The unit of the naval reserves stationed here and the organizers of the Grand Rapids Sea Scouts will use as headquarters the old steamer Major A. B. Watson, which the Puritane City post No. 253, American Legion, will convert into a club house, on Reeds lake. The reserves expect to obtain cutters which will be placed on the lake, making it desirable they move their headquarters from the National Guard armory in the city to a place on the lake.

**Lansing**—Michigan Tuberculosis Association employees are already handling Christmas mail. The office force has been doubled to take care of the forty million tuberculosis Christmas seals which will go on sale Thanksgiving day. Besides supplying sixty county tuberculosis societies with the seals for local sales nearly five million seals will be sold by mail direct from the state office in counties where there is no local organization. Two thousand letters for the mail sale are prepared daily by the local office.

### Things That Men Like

Here is a decorative bag, of printed cotton chaff 25 inches long and 17 inches wide. A scalloped edge turns up over a straight edge at the bottom and each scallop has a buttonhole, fastening over a glass button. The bag is supported by a coat hanger, faced at the top and bottom with plain chaffie and French knots made of heavy zephyr decorate it. Hung in the closet it makes a handy receptacle for folded collars and handkerchiefs, which are thrust in at the top and fall out at the bottom when the bag is unbuttoned. Men like such conveniences.

### SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. If it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

WOULD ABOLISH SENIORITY RULE

Observers Think Senator McCormick Seeks Senate Leadership.

Washington—The radicals elected to the next senate will not be alone in demanding a reversal from the seniority rule in naming committee chairmen. In a letter to Senator Lodge, Republican floor leader, Senator Medill McCormick, of Illinois, goes on record in favor of discarding the seniority system. The McCormick letter, which was written before the author sailed for Europe, was made public Sunday by his secretary.

Political observers here interpreted the letter as a bid by Senator McCormick for the Republican leadership in the next senate. It has been rumored for the last few days that Senator Lodge will relinquish his position as floor leader. McCormick, it is believed, is trying to throw out a sop to the newly elected radicals. At the same time, he is regarded as "safe" by the regular Republicans.

EXTRA SESSION OF CONGRESS

President Issues Proclamation for Convening Nov. 20.

Washington—Congress has been called by President Harding to meet in extra session November 20, exactly two weeks in advance of the regular session.

The call set forth as usual in the form of a proclamation declared the extra session was made necessary by public interests.

Lodge's Opponent Files Recount.

Boston—Petitions for statewide recount of the vote for United States senator were filed by campaign managers for Colonel William A. Gaston, Democratic opponent of Senator Caleb Lodge. The latter's plurality stands at 8,425 votes in the press returns.

Macomb Elects Democratic Sheriff.

Mt. Clemens—That George Smith, democrat, has been elected sheriff over the Rev. Caleb Rutledge, Republican candidate, is indicated by incomplete returns. Smith's lead is 2,000. The fight on this office was the most intense Macomb county ever has witnessed, the Rev. Rutledge coming out strongly as a "dry" and reform advocate, promising a "cleanup." All other Republican candidates are believed to have been given safe margins.

GIFTS OUT OF THE ORDINARY

Frying-Pan for Queen Victoria—Man Gives Wife Five Pounds to Buy Washstand.

THE king of Slam used to send Queen Victoria a very curious gift every Christmas. It may have been want of imagination, or he may have heard that the frying-pan was the curse of the English cook, and thought they must want constantly renewing. Whatever the reason, her majesty received a silver frying-pan as regularly as Christmas came round. Thomas Carlyle once quite forgot to buy a Christmas gift for his wife. There is nothing unique about this. Other men have done the same. Nor is there anything particularly generous in the way he made up for his neglect to remember the day. He wrote the following letter:

"The prophecy of a washstand to the neatest of all women. Blessings on her bonnie face, and be it ever blithesome as it is dear, blithe or not.—T. Carlyle. December 25, 1850."

The great man did really give his wife five pounds with which to buy the promised washstand, at which he, no doubt, washed quite as often as she did. But that's a man all over.

UNDER THE MISTLETOE SPRIG

Punishment Meted Out by Oxfordshire Maids to Men Who Refused to Obey Commands.

IN SOME places in Oxfordshire, every maid-servant had the privilege and frequently exercised it, of asking a man for ivy to decorate the house. If the man assented, well and good; but if he refused the maid stole a pair of his breeches. The next day they could be seen nailed to the gate of the highway. But a worse punishment than this was sometimes meted out to him; he was deprived of the privilege of the mistletoe.

The first maid to pass under this evergreen on Christmas day was sure to be married within the year, and equally sure of being kissed—for that was the penalty, if it can be called such, to be paid by any man who passed under it. After each offense a berry was plucked, while the privilege was supposed to end with the last berry.

"Christmas Past."

IT WAS indeed a "gracious" time, and as we read of the revels and ceremonies and find foolish beliefs of Christmas Past, we might regret what we have lost in this tamer and less picturesque age. If we did not know that never before in history was Christmas kept so truly and heartily in the spirit of the day as it is now. We have dropped a good many rude and some pretty customs, but we have gained a broadening spirit of almost universal charity, a feeling of real brotherhood, that it is held in check a good deal during the rest of the year.—Charles Dudley Warner.

The Great Giver.

Christmas is the birthday of Jesus, who never gave the world a dollar, and bestowed upon mankind no other material gift. "He carved no statue, painted no picture, wrote no poem, composed no picture, fashioned no piece of jewelry, built no edifice, founded no city, erected no triumphal arch; but He stands in history as the Great Giver." Such as He had He gave: the sympathetic hand, the genial mind, the generous heart, the courageous spirit, which all worked together to build up out of the human the divine. The Father gave us His first universe; then He gave His Son; now He offers His Spirit.—Adapted.

Sweet Sauces.

It is usual in England to serve what American housewives call "soft sauce" with the Christmas plum pudding, but the delicious "hard sauces" which we ourselves affect make a nice change. Soft sauces take the form of a thin hot custard, which will be all the more creamy if a few spoonfuls of condensed milk are stirred in after the custard is made in the ordinary way. Another favorite sauce is made by adding sugar to melted butter.

AS USUAL. "I suppose you've finished your Christmas shopping?" "Yes, and it's finished me."

The Portable Lamp.

The cheapest and most generally useful electrical appliance and at the same time the one most seldom taken advantage of in the ordinary household is the portable lamp. This simply consists of a few yards of flexible insulated wire, at one end of which is fixed an ordinary plug to screw into a wall or chandelier socket and at the other a lamp socket. The cost is very little.

MARKETS

U. S. BUREAU OF MARKETS Washington, D. C.

Grain Market was strong during part of the week on bullish private crop report but uncertainty prevailed later and the close was weaker. Chicago December wheat lost 1-3-8; Chicago December corn up 3-4. Wheat averaged lower on the 9th on decline in Liverpool and absence of important support, but short covering checked break. Later buying of Chicago December and sales of May by seaboard caused firm close. Country offerings not large; cash demand fair; exports in market for Durum government crop report showed larger corn crop than expected and prices declined. Clearing prices in Chicago cash market: No. 2 red winter wheat \$1.25; No. 2 hard winter wheat \$1.15; No. 2 mixed corn \$1.12; yellow corn 72c; No. 3 white oats 42c.

Lovely Ribbon Gifts

Some one you know is hoping to find a new pair of garters or a rich ribbon bag in her Christmas stocking and here are garters and bags that are guaranteed to please. One pair of the garters is made of narrow silver ribbon finished with tiny ribbon roses. Satin ribbon and narrow black lace make the other pair. Black moire ribbon with silver filigree mounting and ring handles serve for the handsome bag lined with rose colored satin. The other bag uses black and silver brocade with a tortoise shell mounting.

Rich Table Scarfs

Very handsome scarfs for the library table are made of black velvet with an applique of wide brocade ribbon down the center. They are a little shorter than the table and have fish-tail ends with a silk tassel pendant from each point.

ENTIRE FAMILY HAD "FLU"

"Keep right on using Foley's Honey and Tar. It will give quick relief," said the doctor, when the entire family had the "flu." Never saw anything so good," writes Mrs. A. B. Griffith, Andrews, Ind. ### ANNOUNCEMENT

Don't fail to attend the Harvest Festival to be held in the Armory on the 21st and 22nd of November.

In the evening the children of St. Joseph School promise to entertain you with an interesting program.

A noted feature of the occasion will be the delicious chicken dinner served on the evening of the 21st from 6 o'clock on, and on the 22nd from 10:30 until 2:00 o'clock. Apron, novelty, and candy booths will be prominent, while the fishing pond will interest both young and old.

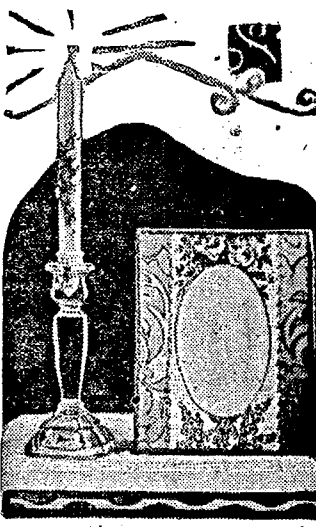

Don't fail to call at the Armory and have an enjoyable time.—(Advertisement.)

### Cardboard Doll Cradle

Little girls get much joy out of dolls' furniture. A Dutch cradle and the pieces that make it are shown here, in heavy cardboard. The tabs on the side pieces (Fig. 2) are perforated and slip through slots in the bottom piece (Fig. 1) and through the head and foot-boards (Fig. 3). Little wood pegs, thrust through the perforations, hold the pieces together. Fig. 1 is 8 1/2 inches long and 4 inches wide. Fig. 2 is 5 1/2 inches wide at top, 3 1/2 inches at bottom, 2 1/2 inches wide at head, 2 1/2 inches at foot. Fig. 3 is 5 1/2 inches high and 5 1/2 inches wide. The rocker measures 6 1/2 inches across. The cradle may be finished with painted decorations.

### For Men or Women

Christmas brings its pretty candles gayly decked out this year with sealing wax flowers, or painted and gilded. They make lovely gifts for men or women, and so will the ribbon or cretonne-covered picture frame, fastened to a glass front and cardboard back with gold braid binding. The cardboard back is cut out to form an easel support.

Some people suffer in silence and others seem to be suffering if they are silent.

**Kill Turkey Buzzard.**

The green fly and the turkey buzzard are two of mankind's worst enemies, because they help spread infantile paralysis germs and other malignant forms of disease. The buzzard was in large measure responsible for the spread of rinderpest in South Africa, cholera in India and the epidemic that killed off the water buffalo in the Philippines. The green fly and the turkey buzzard should be killed on sight.—Thrift Magazine.

**Concerning Compensation.**

"What is this Emersonian compensation we hear so much about?" asked the Inquisitive Person. "That," said the Cynical Philosopher, "is the doctrine that things are never so bad as they seem, because there are always mitigating circumstances. Compensation is the principle, active in the world, whereby you get a ride to the hospital in the ambulance that knocked you down."

**UNSHAKEN TESTIMONY**

Time is the test of truth. And Doan's Kidney Pills have stood the test in East Jordan. No East Jordan resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

Mrs. Wm. Harrington, East Jordan, says: "I was troubled considerably with dull, nagging backaches and distressing pain through my kidneys. My kidneys were very irregular in action. I used Doan's Kidney Pills and they relieved the backache and corrected the action of my kidneys." (Statement given Aug. 3, 1909.)

On April 23, 1920, Mrs. Harrington added: "I haven't had occasion to use a kidney medicine since Doan's cured me years ago. The cure proved to be complete."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Harrington had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

**STATE DEMOCRATS WIN IN RACE FOR U. S. SENATORSHIP**

WOODBRIDGE N. FERRIS GIVEN ABOUT 15,000 MAJORITY BUT REPUBLICANS ELECT STATE TICKET

**UNREST REFLECTED IN VOTE OF VARIOUS STATES**

Republicans Barely Retain Majorities in Senate and House and Progressives Expected to Control Next Session.

Lansing—Virtually complete unofficial returns put Woodbridge N. Ferris' majority against Senator Charles E. Townsend at something over 15,000 votes. Many of the precincts remaining unreported are so isolated that the exact total of votes will not become known for a few days. The total vote cast in the Nov. 7 election was less than 600,000. This is slightly more than half the vote cast in the general election of 1920, when 1,060,000 voted.

The election of Mr. Ferris as United States Senator gives the Democratic Party its first representation in the upper house of congress in nearly seventy years, or since the birth of the Republican Party in the retiring senator's home city, at Jackson in 1853. Senator-elect Ferris will take the oath of office March 4, 1923.

So great was the Democratic lead in Detroit and other large urban centers that the slight advantage given Senator Townsend in the rural districts was more than wiped out. Mr. Ferris had a lead of more than 20,000 in Detroit alone.

Governor Alex J. Groesbeck was given a lead of over 125,000 over his Democratic opponent for the office, Alva M. Cummins of Lansing. Mr. Cummins' greatest strength was shown in his home county of Ingham which he carried by a large majority. The balance of the Republican state ticket was also elected by substantial majorities, less, however, than the vote polled by Governor Groesbeck.

Despite the fact that farm interests themselves proposed the state income tax, the rural majorities against the proposal were as great as those reported by the cities with the result that it lost by a two to one vote. The excess condemnation amendment was also lost but the port district amendment was given a slight majority.

Mr. Ferris described his election as a victory for "political righteousness."

"This election proves that the moral issue in politics, when pushed to a finish, was listened to and acted upon," declared Mr. Ferris. "The moral issues in this election overpowered all economic issues and means victory to the people. It is truly a victory for political righteousness."

In conceding his defeat, Senator Townsend made public the following statement:

"No one, of course, likes to be defeated, but I have no complaint to file against the people of Michigan. I had hoped to continue the work which I had begun in congress, and it was that desire which induced me to stand for re-election and not any wish to gratify my own personal ambition. I have faith in the people and bow gracefully to their decisions. "At the moment I am not able to understand how my defeat by Mr.

Ferris will be beneficial to Michigan, but I sincerely hope it will be. He has my best wishes for success.

"I am profoundly grateful for the splendid friendship which has been demonstrated for me by thousands of friends who have volunteered their assistance to me. I shall carry their memory with me to the end of my life."

**G. O. P. CONTROLS BOTH HOUSES**

225 Republican Representatives, 52 Senators in Next Congress.

New York—The 68th house of representatives will be composed of 225 Republicans, seven more than a majority, 207 Democrats, one Socialist, one Farmer-labor, and one independent.

Latest figures show that the next senate will have 52 Republicans, 42 Democrats and one farmer-labor representative, with results of the senatorial contest in Washington still undecided. Two recounts in senatorial contests depend.

**Farmer-Laborites Elect Senator.**

St. Paul, Minn.—Frank B. Kellogg, Republican junior senator from Minnesota, was defeated by Dr. Henrik Shipstead, Farmer-Laborite, it was shown in unofficial returns available here late Wednesday.

**Kansas Elects Democrat Governor.**

Chicago, Ill.—Kansas will have a Democratic governor for the first time in ten years. This was conceded by the Kansas Republican organization, and Jonathan M. Davis, whose opponent, W. Y. Morgan, Republican, supported the Kansas industrial court act, will be the new governor. With Kansas, the Democrats in the middle west annexed the governorship in three states, the others, Ohio and Nebraska, all having had Republican governors.

**Glass of Salts Cleans Kidneys**

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it is no longer a source of irritation, thus often ending bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.
