LAST RITES PAID TO J. H. GRAFF PROMINENT MUSKEGON MERCHANT

Funeral services for Jacob H. Graff, 58, Muskegon Heights merchant, were held Monday, March 5th, from his residence, and burial took place at Greenwood cemetery under Muskegon Masonic auspices. Mr. Graff, who died Friday at the Battle Creek sanitarium, was for years a prominent resident of East Jordan.

He was born in Ontario, Can., coming to Michigan in 1886, settling near Lansing, moving to East Jordan 38 years ago. He was married to Miss Frances Chaddock in 1887. Mr. Graff was a member of the Knights of Pythias of East Jordan, and East Jordan lodge No. 379, Free and Accepted Masons.

He leaves his widow, two daughters and one son, Mrs. Eva Graff Reid of Muskegon, Mrs. Harriet Graff Reynolds of East Jordan, and Guy W. Graff of Muskegon Heights; six grandchildren; five sisters, Mrs. Lydia Persons of East Jordan, Mrs. Katherine McCaul of Grand Rapids, Mrs. Amanda Seydel of Detroit, Mrs. Mina Lancaster of Petoskey, and Mrs. Paul Nemeo of Traverse City; and a brother, Frank, of Chicago.—Grand Rapids Herald.

Parm C. Gilbert Wins Primary

Nominated for Circuit Judge By Over 2,000 Majority.

Parm C. Gilbert of Traverse City, candidate for Circuit Judge of the Thirteenth Judicial District, was nominated the Republican candidate at the primary Wednesday by upward of 2,000 majority. Judge F. W. Mayne received only a majority in his own County—Charlevoix—it giving him about 450. In the other three counties Gilbert had a landslide. Antrim gave him about 500, Grand Traverse at least 1500. Leelanau went for Gilbert, the exact vote being unknown. East Jordan gave Mayne a majority of about 140; Charlevoix City 107; Boyne City—Gilbert, 58.

Music Contests In Our Public Schools Proving a Success

Which First? "Barcarolle—Offenback" or "I Aint Got Nobody." We wish to take this opportunity to thank the patrons of East Jordan who have loaned us records that we needed to make our music contest a success. We feel that you have helped us raise the standard of music and thereby taking one big step toward helping our children make a better choice for wholesome recreation now and later. We are returning the records to these people with thanks: Hite Drug Co., Mrs. G. Miller, Wm. Kenney, Mrs. Bogart, Mrs. F. Phillips, Mrs. Watson, Mrs. C. Healey, Mrs. A. J. Hite, Mrs. Ross. We also thank the people who played these selections in their homes or elsewhere so that the children might hear them in many different situations. We hope that the clubs and other organizations of this city will remember the program that was printed a short time ago and will choose selections from this for their music numbers in their programs. In the contest which was held Wednesday, February 28, Ellagene Reitzel of the Fourth grade was awarded first place as she made only one mistake. Gerald Voice of the fifth grade was awarded second place who made only 14 mistakes. Both prizes are framed pictures of rated musicians—(1) Handel (2) Beethoven.

PLAN STATE FERRY SERVICE

Bill Provides Funds for Purchase of Suitable Boats and Docks. Lansing—Establishment of a state ferry service, across the straits of Mackinaw, provided for in a bill introduced in the senate by Senator Frank Bohn, of Newberry. The bill provides that \$250,000 be appropriated to buy a suitable vessel for the service, and establish the necessary docking facilities. The service, which is designed to link the highway systems of the upper and lower peninsula, would be administered under the direction of the state highway department. A rate of fare and carrying charge is to be fixed under the terms of the bill, sufficient to make the ferry pay its way. This provides for the cost of operation, interest on the money invested and proper depreciation charges. The general supervision of the ferry line is placed in the hands of the state administrative board.

Lincoln's Telegrapher is Dead. Port Chester, N. Y.—Capt. Robert H. Smith, who sent the first cablegram across the Atlantic, in 1866, for Cyrus W. Field, who laid the cable, died at his home here, at the age of 82. During the Civil War, Capt. Smith, as a military telegraph officer, served for a time as personal telegrapher for President Lincoln. He worked as a boy with Thomas A. Edison, in Boston. For many years Capt. Smith was chief operator for the Western Union.

Within the Law. The farmer was angry at a group of boys who had trespassed on his property. To the youngster who carried a gun, he said, "Don't yer see that sign there? Can't yer read?" and he pointed to a notice which ran: "No 'Huntin' Allowed." "That's all right, mister," replied the boy, glancing at the sign. "We kin read—but this here is an air gun."—Boston Transcript.

RUHR TENSION NEARING BREAK

TROOPS HAVE TAKEN POSSESSION OF HANNHEIM, DARMSTADT AND KARLSRUHE.

FRANCE CONTROLS SHIPPING

Occupation of the Three Cities is a Reprisal for Recent Acts of Sabotage.

Paris—Announcing officially the occupation of parts of Mannheim, Karlsruhe and Darmstadt last week, the French government stated that these far only the Rhine ports of the first two cities and the railroad work shops in the last had been seized. "The occupation is in reprisal for recent acts of sabotage in the Ruhr and Rhineland, the French announced. The entire cities will be occupied, if sabotage continues. The advance of several companies, which seized these cities, puts the French much nearer to Frankfurt, and the Germans fear this city may next be taken. By seizing the harbor section of Mannheim, the French control Rhine shipping and the customs. Posts to put this control immediately into effect were established. The Germans have frequently in correctly reported advances upon these two cities. Last week's occupation was effected swiftly, it was a shock to the inhabitants, who immediately arranged measures of resistance. Railway workers at both Darmstadt and Mannheim quit work when they found the French in their midst. The invaders were active in the Ruhr as well, rounding up officials who are to be deported, arresting and disarming police, while cavalry and tanks occupied and controlled the center of Gelsenkirchen, near, Rotthausen.

Berlin—President Ebert has decreed as espionage any aid rendered, with regard to political or military matters on behalf of any foreign power which has occupied German territory in peace time and also for sheltering or otherwise assisting or harboring persons accused of giving such aid. Those convicted under the decree are liable to sentences of imprisonment ranging from 10 years to life, and to fines not exceeding 500,000,000 marks.

MICHIGAN SHIPPERS SCORE. Zone Transportation Rates Liable To Be Changed—Railroads Object. Washington—Members of the Michigan Public Utilities Commission have left for Lansing after a two days' conference with members of the Interstate Commerce Commission, apparently hopeful that a way will be found for material change in the existing system of zone transportation rates, against which Michigan shippers have protested. The argument of the Pere Marquette and other distinctly Michigan railroads has been that the increased earnings, given them by the zone system are necessary to continuance of operation of the smaller branch lines in the Northern part of the State. The chief question raised by the Federal commission was as to how these small roads are to be taken care of, if zone system is abolished. The principal task, they argued, is to take care of a few small roads, and this they said could be done by giving these roads a larger split on traffic which originates or terminates on their lines.

SIXTY-SEVENTH CONGRESS ENDS

RECORD SITTING OF NATIONAL LEGISLATIVE BODY COME TO CLOSE SUNDAY.

LAST SESSION UNTIL DECEMBER

"Uncle Joe" Cannon; Fordney of Michigan; Volsted, Author of Dry Act And Others Answer Last Roll Call.

Washington—The Sixty-seventh congress, which had spent a greater proportion of its two-year span of life in actual session than any other in the history of the country, adjourned sine die at noon last Sunday. During the last few hours of the session, President Harding, spending part of the time at the capitol, signed the farm credits bill and 98 other measures. No legislation was vetoed. Vice-President Coolidge's gavel fell sharply at noon, after an almost colorless morning senate session of two hours, and the house adjourned at 12:06 p. m., after a concert by a section of the marine band and a chorus of popular songs by members and spectators. The session Sunday was in all likelihood the last until next December, unless some special legislation requires a special session. The last bill to become law was the "better butter" measure changing butter fat standards. An important measure placed on the statute book at the last moment was the one providing for return to enemy alien owners of all seized property worth \$10,000 or less. Farewell eulogies occupied much of the time of the hour and a half the house was in session. Representatives Fordney, of Michigan, Campbell of Kansas, Kitchin of North Carolina, Alice Robertson of Oklahoma, and Mrs. Huck all were given ovations but "Uncle Joe" Cannon received the greatest tribute. After praises of the retiring veteran of 46 years of legislative service had been said by Representative Hicks, Republican, New York, and Sisson, Democrat, Mississippi, Mr. Cannon was escorted down the center aisle by Representative Rodenberg of Illinois while members and spectators stood applauding and cheering. Another of the veteran legislators whose career in congress ended was Andrew J. Volsted, author of the prohibition enforcement measure, who was defeated last November. The outstanding domestic legislation of the sixty-seventh congress was the Fordney-McCumber tariff act. The house ways and means committee got to work on it before the congress assembled and it passed the house July 21, 1921. It was more than a year later or on August 19, that it passed the senate. It took the place of the Democratic Underwood-Simmons law. The soldier bonus bill also passed both houses, but President Harding vetoed it, on the ground that it made no provision for raising money to pay the bonus, and that the treasury was not able to find the money. In the closing days of the congress there was also enacted a bill both domestic and international in its implications. This was the measure approving the refunding of the British war debt of \$4,600,000,000. Because of a filibuster in the senate which will go down as one of the most remarkable in senatorial annals, the "pet measure" of the administration, the merchant marine or ship subsidy bill, failed of passage. The house passed it, but though administration leaders tried in every way to get it through the senate, a group of Democrats and farm bloc Republicans obstructed it to death. A senate filibuster also killed the Dyer anti-tying bill.

BASKET BALL East Jordan vs. Mancelona

Friday, March 2, East Jordan's Basketball team played Mancelona on the home floor. The people who attended this game witnessed one of the best games played here. East Jordan defeated Mancelona 54 to 22. This helps to even up the old score East Jordan owes Mancelona in Athletics. It was a good clean game from start to finish on both sides. From East Jordan Smith made 14 points, Malpass 14 points and Streeter 2 points, making 54 pts. From Mancelona, Embo 4 points, Shell 8 points, Nesset 10 points, making 22 points.

E. J. Sophomores vs. Ellsworth

On the same evening the East Jordan Sophomore team played Ellsworth on the home floor and was defeated 11 to 8. The Sophomores did well with Love, 4 points; Benson 2 and Holstad, 2, to their credit. From Ellsworth Yettaw had 7, Sinclair 2 and Franklin 7 points.

Sophomores Hold Candy Sale

Friday afternoon the aroma of boiling candy escaped from Room 10. The Soph girls were making candy for the sale that was held Friday evening during the basketball games. \$4.76 were cleared, which was used to finance the trip of the Ellsworth boys over here.

The Sophomore English Class are selling tickets for a moving picture show to be given Thursday and Friday March 8th and 9th for the Library fund. The name of the show is "The Child Thou Gavest Me." The library needs new children's books and the Improvement Club are raising a fund to purchase some.

The Sixth graders of the Central Building have had four candy sales this year. They sell Chocolate Bars at five cents a bar. From every fourteen bars they receive 1-3 of the income, as their profit. This gives them about 23c from each sale. From all the sales \$3.77 has been taken in. They are to have more later on.

For the past two weeks the Sophomore English Class have been studying "The Merchant of Venice." They have about finished it now and are setting about to outline it. Monday morning they handed in circle play outlines of the play and are working on triangle outlines for Tuesday. The students like "The Merchant of Venice" very well.

The Ancient History class of this year are coming along fine and are finding plenty of material for their notebooks.

This year's class has a great advantage over last years, owing to the fact that the material is more plentiful. They are giving oral reports and have been real interested in looking up about the tomb of the ancient King Tutankhamen, and other discoveries made in Egypt.

East Jordan Defeat Bellaire

Completely outplaying their opponents, the E. J. H. S. Girl's team won an easy game from Bellaire High School Wednesday night, March 7th. The first quarter ended 3 to 1 in East Jordan's favor, and after the second quarter was over there was no question as to which team would win. The fast footwork and accurate passing of the local centers and guards kept the ball away from Bellaire's basket throughout the game. Bellaire was unable to score a field goal until near the end of the 4th quarter when White shot a beautiful basket from near the free throw line.

When the 2nd half opened East Jordan's forwards evidently got the basket located, and the score began to climb rapidly until the last basket, shot just as the whistle blew, made the score 30 to 6. Our forwards showed the nicest team work and most accurate shooting of any game this year. The Bellaire girls are to be complimented for the fine sportsmanship shown and for the fighting spirit they showed even after the game was hopelessly lost by them.

A practice game in which the High School Boy's team defeated the Sophomore 50-8 was played as a preliminary to the girl's game.

Girl's Basket Ball Game

The Girl's Basket Ball team of our high school played a fast game last Friday night with the Ellsworth girls team. In the first half our girls held the Ellsworth girls 0-0, but in the second half both teams began to make baskets, bringing the score up to 6-6 at the end of the game.

The line-up was: East Jordan Ellsworth J. Ekstrom F. E. Johnson D. Malpass F. E. Ruis A. Anderson J. C. Groenink M. Shedina S. C. S. Kloster E. Sweet G. P. Johnston A. Liskum G. A. Elzinga

Assembly

Last Friday the Basketball girls entertained in assembly. Mr. Snellenberger had charge of the assembly and first lined us up by a few yells for the team and the "yellow jackets" as the girls are called because of their yellow middie.

Lucas Knight showed what the pep of the school was like by playing some real "peppy" songs on his mouth-organ which caused such excitement among the students that he was called back again.

Cleora Smith also added to the entertainment by playing some good snappy pieces on the piano.

The Basketball girls were announced and they snake danced onto the platform, and grouping themselves around the piano sang, "The Fight Song" with much vim. Soon Mr. Snellenberger called them back to the stage again and this time they gave a short dance. Then the Coach, Mr. Snellenberger, gave a short talk to the boys and girls who were to play that night, and then Mr. Nesman told them to fight hard and even up old scores.

The girls were again announced and this time they sang, "Rub-a-Dub-Dub" to the great amusement of the students. The students gave a few more snappy yells and then were dismissed with everybody wanting to some to the games that night.

DOES IT PAY TO WORRY ABOUT APPENDICITIS?

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal antiseptic, Adler-Ika, acts on BOTH upper and lower bowel removing ALL foul decaying matter which might start infection. EXCELLENT for gas on stomach or chronic constipation. It removes matter which you never thought was in your system and which nothing else can dislodge. One man reports it is unbelievable the awful impurities Adler-Ika brought out.—GIDLEY & MAC, Druggists.

Cane-Brake Explosions.
Cane stalks being hollow, having no pith, and being divided inside every few inches into sections, are very combustible when dried in the sun, and the air confined within the hollow sections warmed by the external heat explodes with very considerable force, so that a cane-brake on fire gives the idea of a continued roar of distant musketry.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

EVERYDAY GOOD THINGS.

To keep the family happy with good food, a variety, and (quite important) accomplish this with economy, is the daily task of millions of women in our country. The planning of meals, cooking and marketing, even if enjoyed, becomes at times monotonous. So often the remark is made by the housewife, "does it pay to spend so much time, energy and material on a meal and have it consumed within an hour?" Let us see if it is worth while—that a well-prepared, daintily served meal sent the brain worker out with energy to accomplish a hard task; perhaps it was winning a case, charging the jury, writing a poem or selling goods; whatever his work is he is better equipped in mind and body to win. The same food which does this for the brain or hand worker, builds tissue and bone, making the child sturdy and strong, laying the foundation for good citizenship. There is no inheritance of wealth or the possession of the best education which will take the place in life of robust health and a happy disposition; these are largely in the hands of the mother who plans the meals and feeds her family. So then it seems quite worth while to put time, thought, energy and the money we can afford, into good food, for it goes out in countless ways to energize the world.

A good dish to use any leftover roast of beef is the following:
Spanish Meat Dish.—Into a baking dish put a layer of thinly sliced raw potatoes; over this a layer of cold roast beef cut in thin slices and a little gravy added, then a thin layer of shredded onion and a cupful of cooked tomatoes. Bake after seasoning well for 45 minutes or until the potatoes are tender. Scatter a few teaspoonfuls of cooked green peas over the top just a few minutes before taking from the oven. Other meat or fowl may be used in place of beef.

Nut Patties.—Beat one egg very light, add one cupful of chopped nuts, one-half teaspoonful of salt and drop by spoonfuls on a well-buttered sheet. Bake in a slow oven about fifteen minutes.

Rimrock Trail

By J. Allan Dunn

It takes you into the wild places of the West that still are near a railroad and introduces you to the romance, intrigue and adventure that there abound. Whether in mining camp, town, on a cattle ranch or among the mysteries of desert and the wonders of mountains, it keeps moving at a high rate of speed.

So much happens in a brief space of time that the author has little opportunity for musing. However, aside from telling a stirring tale, he does contrive to get in much humor, character and a tender love story.

Mr. Sandy Bourke, the gentleman with the curly dark brown hair, the broad shoulders and the well-strung frame. "Sandy" refers to his grit. You'll do well to remember that and not provoke him.

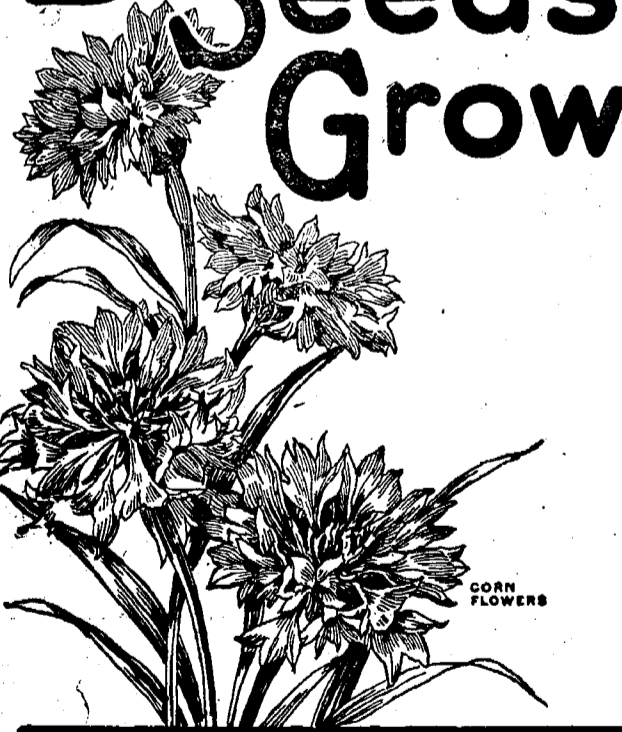

Mr. Soda-Water Sam, his friend with the enormous drooping mustache, suggesting the horns of a Texas steer, inverted. He seems sad, but is only shy—except with a gun. His nickname is satirical.

Mr. Mormon Peters, the gentleman in the chair, now a bit stout for saddle-ride. He's not too high-stomached to be high-spirited. And the ladies are strong for him, as you might gather from his monicker.

LANSING LETTER

(By W. L. Calnon)
LANSING, MICH.

Whether or not there will be a "test of strength" in the legislative halls over some measure, the result of which test will settle the extent of Gov. Groesbeck's influence with the lawmakers of the 1923 session, there is about due some real decision as to how far the governor's plans are to be followed in the making of new laws. Thus far the governor has avoided any steps that might bring on a clash over unsettled matters that are up for decision, but his advice and counsel have been sought by many senators and representatives in proposed compromises on gasoline taxes, road building plans and other big matters. Announcement that the compromise plan on automobile taxes by which there would be a one cent tax on gasoline, along with increased motor vehicle license fees, had finally been agreed to by the governor caused some mutterings of discontent among those unalterably opposed to a gasoline tax. Some of them may attempt later in the house and senate to obtain a test vote by which the governor's strength in the two houses will be shown. General opinion now is that the governor has nothing to fear from such a test. The compromise on the gasoline tax by which it is dropped to one cent a gallon and combined with a weight tax for motor vehicles was caused by the yielding of those working for a two cent straight gas tax to the apparent weight of opposition to their plan. The governor has stated his belief that the compromise plan, if adopted, will equalize the burden of constructing and maintaining the highways on all classes of users, according to the wear and tear of their cars on the roads.

Gas Tax Battle Looms

The prospective battle over road legislation and taxation to cover road building and maintenance, the latter including gasoline tax proposals and increased motor vehicle license proposals, grows in importance the longer it is delayed. Advocates of a straight 2-cent tax on gasoline appear determined to fight for their cause without regard to any combination of a gas tax with a license tax, or any compromise bill whatever. In the house the Evans bill for a 2-cent gas tax has been reported out by itself and in the senate the highway appropriation bill has been reported out without any combination with special tax measures. The Evans bill supporters will stick for their bill without amendments which would bring it in line with the proposed compromise on a one-cent gasoline tax and an increased weight tax on motor cars. Likewise the advocates of the compromise plan will endeavor either to shelve the Evans measure or make it over to their liking. Either way the whole matter now is ready for debate on the open floor. In view of the appropriation being sought for all road work for the next two years, what is needed by the state over and above present motor license receipts to pay for the whole road program, is about five and a half million dollars each of the next two years. The 2-cent gas tax sponsors say their tax will net the state six millions a year and the compromise bill backers figure out the same sum their way.

Highway Program Due for Revision
Systematizing of the state's highway program and a definite fixing of responsibility for it, is to be attempted in this legislature. It now looks as though the general trend of legislation on highway building will include the state assuming responsibility for constructing and maintaining the trunk line roads; the state will be relieved of the payment of road awards; special highway construction orders will be eliminated; future large road projects will be subject to the approval of the state highway commissioner, with his action subject to review by the governor. It is argued that the suspension of state rewards will offset increased maintenance costs. Trunk lines will be defined explicitly. Objections to present Covert act road projects will be overcome under this plan, it is believed by its advocates. All of these phases of the general highway situation are to be worked out in the senate and house committees before the final plans are placed before the two houses.

Bonus Funds to Be Provided.
The house ways and means committee has acted favorably on the Dacey bill to allow the state to continue the payment of soldier bonus money from the general funds of the state, the special \$30,000,000 fund having been exhausted. It is estimated that additional bonus payments may reach a total of \$2,000,000. Nearly 1,000 applications that have been approved by the bonus division are awaiting funds for payment to Michigan soldiers.

An abattoir bill requiring licensing of all slaughter houses and providing for sanitary conditions; and a vinegar bill licensing cider mills and vinegar factories and setting standards of cider vinegar made for commercial purposes, have been introduced by Senator Leland for the state agricultural department.

Insurance company protests against a state rating bureau fixing fire insurance rates, made at a public hearing, have not changed the attitude of Gov. Groesbeck, who is standing with the state insurance department in insisting that the state have the final say on rates.

Rep. Wade, of Allegan, has introduced a bill to exempt from personal property taxes all real property held by banks under 50-year lease which obligates the bank to pay the tax.

Movies Censorship Bill Fizzles

One measure over which a stormy debate was anticipated if it came up in either house appears to be doomed to committee death. It is the moving picture censorship bill. The state affairs committee of the two houses held a joint public hearing on this proposal and after the hearing was over it appeared that only a remote chance was left for the bill being reported out. The theory is that the whole public is the best censor of pictures that get past the national censorship and the police censorship of cities.

Real Grind Has Started

With the coming of March the legislature is down to its real grind and the daily calendars of both house and senate are beginning to take on the size and appearance of the rush period in consideration of proposed laws. Committees are reporting out rapidly the bills they have had in their possession for weeks, sometimes as many as twenty a day in the house and a dozen or more in the senate going on the general orders for floor debate.

Brief Notes of Interest

Financing of state institutions from funds raised through the general property tax, which it is estimated will not exceed \$16,000,000 a year for the next two years, is being worked out by Gov. Groesbeck and the appropriation committee of both houses. This plan would leave about \$8,000,000 each year for all the building programs of the state agricultural college, the University and other state institutions. The total building requests for the two year period is about a half million over \$16,000,000.

The house has sent to third reading the Dykstra bill to permit the issuance of teachers' certificates for 2-year periods to graduates of junior colleges, so that they may teach in schools which now are suffering from a lack of teachers. Attempt to amend this bill so as to confine such teachers to the cities in which they are graduated was defeated in the house committee of the whole, it being held that such amendment would prevent relief from reaching rural districts which need it the most.

The competency of men in charge of reforestation work in the state, under the department of conservation was attacked at a meeting of the legislative conservation committees and the state conservation commission. Senator Pearson declared that the forest work was not being handled on practical lines and insisted that it must be. The department's appropriation bill, introduced shortly after, asks a total of \$1,322,700 for the next two years.

The legislature has been asked by the Michigan Real Estate association, following a session in this city, to enact a law prescribing definite tax rate limits. No lines have been devised whereby the tax limit could be applied to state and local taxation, but the idea was to get the legislature to give thought along the line of obtaining some means of setting a dead line beyond which taxes cannot go.

Rep. Ladd, of Old Mission, has introduced a bill in the house to give the state administrative board power to sell at its discretion lands used by any state institution. It would permit the sale of land outside Lansing purchased for the boys' industrial school. The administrative board now wants to keep the school inside the city.

Rep. Espie, of Clinton, has introduced a bill to give the public utilities commission power to regulate gas companies serving two or more municipalities under separate franchises. Another bill, put in by Rep. Look, of Lowell, would give the utilities commission power to grant re-hearings and to amend or modify findings.

A legislative investigation of the highway department, covering the awarding of road building contracts to see if any state officials or their families have benefited thereby, and whether or not proper construction has been had, has been proposed in a house resolution put in by Rep. Wardell, of Detroit, and referred to the rules committee.

The usual legislative move since the establishment of the state constabulary to wipe out that body by repeal of the law creating it, has been made this session in a bill introduced by Rep. Braman, of Kent county. The constabulary, in an appropriation bill, is asking for \$350,000 for each of the next two years.

Senator Leland has introduced a bill to amend the state seed law by providing for the seizure by the state of seeds suspected to be below standard or sold contrary to the provisions of the law. Under present conditions, it is said, it takes months to penalize violators of the seed laws.

Rep. Bryan, of Charlotte, has introduced a bill to amend the prohibition law so that empty containers of intoxicating liquor may be competent evidence of violation of the prohibition law, where it is not possible to get the actual evidence once contained in the container.

Insurance company protests against a state rating bureau fixing fire insurance rates, made at a public hearing, have not changed the attitude of Gov. Groesbeck, who is standing with the state insurance department in insisting that the state have the final say on rates.

"Living Dead Man" Electrocutted
Columbia, S. C.—Ira Harrison, convicted slayer of J. C. Arnett with two accomplices last May was electrocuted at the South Carolina state penitentiary here. Harrison, who has been in a state of coma for two months, and who had been pronounced a "living dead man" by some examiners, did not speak before he was strapped to the death chair.

Quits Bed, Prevents Wreck
Wilkes-Barre, Pa.—Following a "hunch" that something was wrong on the railroad running near his home, Thomas McKeown, of Parsons, left his bed and went to the tracks to investigate and found a beam so wedged between the rails that it would have wrecked a passenger train due within a few minutes. Unable to remove the beam in time, McKeown picked up a red lantern and stopped the passenger train.

Dentist Identifies Man by Teeth
New York—William Murray, 32, confessed robber who was captured with his partner, George Roberts, after an auto chase and gun battle in upper Broadway erred in showing his teeth when he held up a dentist, Dr. Henry Zasluy, Brooklyn, a few days ago. Murray then revealed an unforgettable array of gold crowns and bridge work which enabled Zasluy to identify him with one professional glance.

Prisoner 22 Years, Is Millionaire
Muskogee, Okla.—After serving 22 years in prison for a murder he did not commit, Charles Tidwell, of Welch, Okla., has returned here a millionaire. Tidwell found it a different world when released. Oklahoma was still the frontier when he was sent to prison. Government allotments, held all these years, now will be paid him and lands taken from him when convicted, will be restored. He owns one farm of 80 acres in a rich oil section.

**STATE NEWS
IN BRIEF**

Ann Arbor—The Southeastern counties Funeral Directors' Association, including Detroit, Pontiac, Flint, and Owosso representatives met here last week for a quarterly conference.

Flint—George Tellford, 72 the "Recluse of Flint," was found dead last week in a shanty he has occupied alone for 30 years, one hand clutching a photograph of his wife, whose death drove him to solitude.

Calumet—James Hoatson, 74 years old, multi-millionaire, died at Hollywood, Cal., last week. He was former mining captain of Calumet and Hecla. He is the third Calumet director to die since the first of the year.

Jackson—Walter T. Hubbard, of Saginaw, entered state prison here last week to remain the balance of his natural life, without the least trace of emotion. He was sentenced to prison for life for the murder of his 11-year-old daughter.

Caro—Seven farmers' clubs, Gleaners, Grangers and Supervisors, of Tuscola county, met in Caro last week. Dr. E. Mumford, of the Michigan Agricultural college, talked on community building and Mrs. A. J. Knapp, of Cass City, on "Our State Institutions."

Lansing—Hospitals that do not accept every patient who applies for treatment and do not care for at least 6 per cent of their patients free of charge would lose the exemption privilege which now makes their property tax free, under bill introduced in the House by Rep. David H. Butler, of Fostoria.

Lansing—Kiwianians from Battle Creek, Jackson, Owosso, Eaton Rapids, St. Johns, Mason and Ionia, were here last week, for a district meeting at the Hotel Kerns. John H. Moss, district governor of Wisconsin and upper Michigan, and Donald D. A. Johnson, district governor for lower Michigan, addressed the club.

Lansing—The Wayne county bonding bill to enable the issuance of \$1,900,000 in bonds, ratified last fall by the voters, has been adopted by the house 69 to 13. The bill will remove technical obstacles in the present bonding laws and clear the way for the issuance of \$900,500 bonds for the Eloise hospital and \$1,000,000 for the home for the feeble-minded.

Detroit—The Cadillac Motor Car Co. through its president, H. H. Rice, presented to the City of Detroit, last week, a memorial tablet, commemorating the memory of Laumet de la Mothe Cadillac, on the 265th anniversary of Cadillac's birth. The tablet was placed on the building on the site of old Fort Pontchartrain. Acting Mayor John C. Lodge accepted the tablet for the City.

Monroe—The county road commission here last week awarded the contract for the construction of the Cone road, four and one-half miles long, for \$90,526.60. The road is to be constructed of two-course macadam, with bituminous treatment, 14 feet wide. It will be finished by November 1. The proposed good road starts at Cease's corners, runs westerly through the hamlet of Cone, and ends at the county line.

Lansing—The constitutional amendment authorizing the establishment of ports and port districts in the state was passed by the senate. This measure, introduced by Representative Vincent Dacey, in the house, now is ready for the governor's approval. When it appeared on the ballot, at the last November election, in company with the income tax amendment and other more or less unpopular constitutional amendments, it was defeated.

Galesburg—Jerome Daniels and his wife were killed instantly and Frank Bates injured, when the automobile in which they were riding to Battle Creek, was hit and wrecked at Death crossing in this village last week. Witnesses said the driver of the machine speeded up as he neared the crossing, evidently trying to beat the passenger train over the crossing. The tragedy brought the total death list at the crossing up to 12 in about 17 months. More than half the county's fatal automobile mishaps have occurred there.

Royal Oak—A 100-acre tract located in Royal Oak township, Oakland County, which the people decided to accept for the establishment of a zoological park at election of last fall, was formally decided to the City of Detroit, last week, by the Detroit Zoological Society. The society of which Edwin Denby, Secretary of the Navy, is president, approved the step, upon condition that the City will expend annually for the period of five years a sum not less than \$190,000 for the maintenance and improvement of the premises as a zoological park.

Muskegon—The Crosby Transportation Co., will start the operation of a new boat line between Detroit and Milwaukee in the next few weeks, it is announced by Edward C. Farmer, vice-president of the company. The new boat line is designed especially to handle the shipment of automobiles from Detroit to Milwaukee, where the automobiles can be driven over land to distributing points in west Detroit automobile manufacturers have urged the establishing of the new line because of the present freight congestion.

Jackson—R. R. Miller, veteran rural mail carrier, of Tekonsha, who sold more War Savings Stamps during the war than any other carrier in the country, died here last week.

East Lansing—Professor Walter E. Barrows, head of the department of zoology, at the Michigan Agricultural college, died suddenly from apoplexy here last week. Professor Barrows was widely known as an arthropodist. He was the author of "Michigan Bird Life."

Flint—Mrs. Emma Carman, who had spent her entire life on the Carman farm, a landmark south of Flint, dropped dead of heart disease while feeding her pet stock, in the barnyard. She was discovered six hours later by a farm attaché, two of her dogs standing guard over her body.

Ann Arbor—Three girls from the architectural college of the University of Michigan, have been honored by election to the "T Square" honorary engineering society for women, at Michigan. To be honored by an election to this organization, a girl must have maintained a scholarship above the average.

Lansing—An appropriation bill for the State Highway Department asking for \$5,394,565 for the fiscal year of 1923-24, and for \$5,406,565 for 1924-25, both exclusive of highway bond interest and sinking fund charges, was introduced in the legislature last night by Senator William M. Connolly, of Spring Lake.

Owosso—Two wrecks occurred last week on the Ann Arbor railroad, within 24 hours. Passenger trains No. 107 was derailed between Ithaca and Alma, when it ran into a broken rail. All of the coaches left the track but none turned over. Several cars of a freight train also were derailed and rolled over by a broken rail.

Pontiac—An order closing most of the affairs of the E. Jossman state bank at Clarkston, which failed several years ago after delinquencies of the cashier were discovered was issued by Judge G. C. Gillespie to Elmer Webster, receiver. Webster was authorized to sell for \$100 about \$7,000 worth of claims, many of them outlawed.

Battle Creek—A thief, evidently an art connoisseur, cut a \$5,000 oil painting from its frame at Post Tavern last week. The painting, "The First Letter," was bought by the late C. W. Post in Europe. The thief evidently worked with gloves, and left no finger-marks. He used a sharp knife and made a clean cut of the ainting, 24x29 inches in size.

Lansing—That strict state examination of all persons in the grocery and meat business as to fitness to handle and sell foods is advocated by the Retail Grocers and General Merchants' association. A resolution, urging enactment of a law to this effect was passed by the association at the closing session of its annual convention here last week.

Portland—The congregation of Orange LeValley church, halfway between here and Ionia, walked out of the building in safety when fire broke out in the basement during the Sunday services. An effort was made to check the blaze with a bucket brigade, after which the Ionia fire department was summoned. The church, half a century old, was a complete loss.

Muskegon—Unsettled weather and increased lake freight traffic have so congested the Muskegon terminals of the Goodrich Transit company and the Crosby Transportation company that freight shipments have been refused. The dock warehouses are filled with freight, and boats cannot keep up the business. Muskegon has become the gateway to the northwest for driveways of new automobiles, from Michigan factories.

Albion—Impetus to the present Methodist educational advance, which seeks \$2,200,000 for Albion college and Methodist work at the tax supported institutions, was given last Sunday with the announcement by Dr. J. W. Hancker, chancellor of the Methodist board of education, that the general education board of New York city, popularly known as the "Rockefeller foundation," had made a conditional gift of \$300,000.

Marshall—Gov. Groesbeck is being called upon to approve or reject a city charter presented for approval or rejection which does not contain unanimous agreements in certain clauses on the part of the nine charter commissioners delegated by the voters to draw it up. State statutes provide that the Governor's signature to the completed instrument is necessary before its presentation to the voters for ratification.

Saginaw—Saginaw valley and its watershed, embracing in all, one-third of the state of Michigan, is facing one of the worst spring floods in its history, according to the government weather bureau here. There is more snow on the uplands than in many years. For miles, the snow is three feet deep on the level, and is drifted, in some places, six and eight feet. The ice in the Saginaw river and its many tributaries, is, in some places, 30 inches thick.

Mt. Pleasant—The body of Claude Kent, 30-year-old cripple, of Weidman, who was lost in a blizzard last week, was found Saturday in a huge snow-drift, about half a mile from the home of his aunt, Mrs. Shook, whom he intended to visit. The man's hand clutched a sumac bough, evidently broken from a nearby tree, with which he had attempted to clear his way. The snow, all around was very deep, reaching in all places to from six to eight feet. A party of more than 100 men had searched for the body.

Lynn, Mass.—In contrast to the majority of landlords, Mrs. Vincent Gregg, a welfare worker known as "Mother" Gregg has announced that she would rent houses, owned by her only to families having at least six children each. "To Rent" placards containing the above proviso were displayed in windows of two of her dwellings. Other houses owned by Mrs. Gregg, already are occupied by families each having six or more children.

**FLOOD OF COLOR
IN NEW FABRICS**

Printed Materials in Winsome Hues, Strong Feature of Present Fashions.

THE NEW SILKS AND COTTONS

Designers Have Provided Great Array of Clothes Made Up in Many Styles for Spring and Summer Wear.

An outburst of color is the most salient feature of fashions at the moment. It is almost impossible, observes a prominent fashion authority, to realize the far-reaching effect of this outburst. It is far-reaching not only in the effect that it has on women's dress in general, but upon the trades and industries of the world.

Methods of making fabrics and of adorning them, hitherto unused or long since idle, are now in full swing. All sorts of printing and dyeing processes are affected by fashions. Fashion is more than an influence; it is a vital and powerful stimulus to many of the world's most important industries. It is unfortunate that fashions are treated in a disparaging way by those who do not understand their full significance.

Fashions are not trifling and frivolous. Few realize that not only hundreds, but thousands, of people are set to work when a new fashion goes over, or a great demand is created for special types of materials.

A type of placing embroidery on a fabric to give the appearance of printing is seen on a model which consists of a smart robe-manteaux of navy blue serge and royal blue crepe mongol, a silk crepe almost as heavy as a wool serge. The dark serge is covered with deep royal blue silk. The pattern is so executed that the royal blue embroidery stands out almost as a background on certain parts of the dress, while in other parts the ornamentation is so light that it seems to be only a slight interweaving of bright blue on the deep navy background.

Every wardrobe must have one. There is no doubt about the fact that many and various printed silks and cottons will be worn, made up in many and various manners. Everybody has gone wild upon the subject; and unless a collection of clothes contains one or more of these printed costumes then it is not to be noticed in the polite society of clothes. The prints are done very simply. There is not the slightest indication of trimming. But there is every evidence of the attention to design which the character of the printing of the silks calls for. As one looks around at the collection of printed silk dresses which has already appeared upon the market, there seems to be not a single violation of the principles of correct design.

Silk is evidently the thing for the spring months, but there are some tweed and homespun suits and skirts which are certainly worthy of some no-

they stand alone as important elements in the popular demands of the fashionable world.

The Wrapping Coats.
Added to these one-piece frocks there are the wrapping coats that are made in three-quarter length. They are full and ample in their proportions with wide sleeves and wrapping skirt portions. They are made to fold about the figure over the one-piece dresses, so that they form an element of style that is entirely in accordance with the popular conceptions of fashion as it is understood by the smart women who are making the styles of the moment, a popular success.

For the South they are wearing not only whole frocks of printed silks and cottons but those that are made up of a combination of a printed and a plain material. This fact is illustrated by a dress that has its lower section, made of a print that runs, in stripes, on to the upper section of the costume. The lower portion is made of a print of blue on a white background and the upper section is made of a plain and heavy quality of dark blue crepe on to which the stripes of the printed material run

Frock of Printed and Plain Silk in Dark Blue and White is One of the Predicted Leaders for Spring.

In a succession of decorative stripes. Outlining the sleeve edges there are facings of white which serve to accentuate the principles of the design of the garment and the whole dress appears as one of the best examples of the art of the American designer as applied to the figure of the American woman.

Around the waist of this frock there is tied a plain and unadorned version of the Deauville scarf. The dress happens to be a combination of dark blue and white and the handkerchief, curiously enough, is made of a square of pure white silk bound with a narrow little edging of dark blue grosgrain ribbon. It serves as just the proper sort of belt for the dress and, at the same time, it happens to be a finish for the dress which is made up of the two colors.

The white, then, is set in at the long armholes, with a slender bit of blue edging to contrast with the finish of the scarf about the lowered waistline and the design of the dress becomes, with that addition, something that is entirely complete in itself, and that is fitted to stand the competition of a whole season with the persistence of a fashionable thing that is destined to outlast the demands of a season, no matter what may be the points that are exhibited to show what that season is up to in the way of style.

Cotton Thread Embroidery.
French dressmakers always have used considerable cotton thread in their embroideries on silk and wool materials. Hence, that clever artist in the details of needlework, uses ordinary white sewing cotton for a very casual appearing embroidery on a silk frock. Other French makers work out what appears to be printed patterns in cotton threads of bright colors, such as blue, rose, green and purple.

Color, as allied to millinery, is important. Several prominent French milliners are continuing this spring the vogue for pink in combination with black, as brought out late last season. This spring, however, the pinks are deeper, nearer the coral tones. Such shades as these are used to face hats of black straw and as trimmings. There is a great demand for ribbon in these shades, both wide and narrow. An unusual use of narrow moire ribbon is seen in upstanding rows which completely cover the brims of hats. Very interesting and daring hats have arrived from Paris in combinations of bright orange and black.

One can predict with more assurance about color than about shapes in spring millinery. In shapes modistes are practically trying out new ideas. At the beginning of each season there is always a varied collection. There is one point in this respect, however, upon which all hat makers appear to agree, and that is the poke bonnet of both medium and small size.

Veils are important for spring. This will be good news to the very feminine type of woman who always finds this little detail of dress particularly becoming. The lace veil that just falls over the brim of the hat is well liked.

**Drink Water
If Back or
Kidneys Hurt**

Begin Taking Salts if You Feel Backache or Have Bladder Weakness

Too much rich food forms acids which excite and overwork the kidneys in their efforts to filter it from the system. Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison, else you may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear.

This famous salt is made from the acid of grape and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive and makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders.

By all means, drink lots of good water every day. Have your physician examine your kidneys at least twice a year.

**COMB SAGE TEA
INTO GRAY HAIR**

Darkens Beautifully and Restores Its Natural Color and Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost, at drug stores, known as "Wyneth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyneth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

**RED PEPPERS
RHEUMATIC PAINS**

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

DOES YOUR BACKACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this East Jordan man's testimony.

Albert Turk says: "Mornings my back felt lame and at times I found it hard to get up. Those jerky pains pulled me back more than once. I was handling lumber at that time and my back got so weak and sore I couldn't stoop over. I couldn't get rested and always felt tired and worn out. When dizzy spells came over me I couldn't see anything. My kidneys were often weak and irregular and I had to get up during the night. The secretions were often badly colored and painful in passage. I used Doan's Kidney Pills and they cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Turk had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SCHOOL DAYS

The Ordinary Things
By DOUGLAS MALLOCH

I've had some rather pleasant times
While living day by day
That echo like remembered chimes
Along life's weary way,
That make my heart again a boy's
And give my spirit wings—
They were the ordinary joys
And ordinary things.

Strange, but the triumphs of an hour.
The victories elate,
Have lost their old, accustomed power
And seem no longer great.
They were but tinsel, were but toys—
The quiet moment brings
A thought of ordinary joys
And ordinary things.

Life's battle is so hard and fierce,
Such passions sweep the soul
As through the foeman's line we pierce
A passage to the goal.
The very triumph often cloys
And, on the throne of kings,
Men long for ordinary joys
And ordinary things.

Whatever else, make sure of these
As through the world you go;
For, after all the victories,
Your heart will want, I know,
Some quiet hour that brings
The peace of ordinary joys
And ordinary things.

Uncommon Sense
By JOHN BLAKE

USE YOUR MIND

YOU never know what your mind can do till you use it. The man who saves his money until he can buy an automobile finds out right away what that automobile can do.

He takes it out on the road, and runs it. He reads about the speed and endurance and gasoline consumption of other cars. And he experiments with his own to find out how it compares with them.

Yet the same man who has a mind that may be of more value than a million cars will, in nine cases out of ten, go through life without ever knowing what that mind can do.

Few of us ever develop more than a quarter of our ability. Few of us discover more than half of the powers that lie in our mind.

The reason for this is chiefly laziness. It is so much easier to work just hard enough to make a living than it is to work hard enough to amount to something big, that we take the former course.

And our minds, lacking exercise, never are made to produce the results that they could produce.

Unfortunately the realization of this comes usually too late. At forty we see other men, who in youth had no better mental equipment than we had, surpassing us.

We see that if we had been as thoughtful and as industrious as they, and had developed our latent powers, we might have done as well.

But mind building is long and hard work. And the time that it can be done is in youth.

Learn to use your mind when you are young. Don't be afraid of overstraining it. Few of us die of love, and still fewer die of brain fog. The distress that comes from failure is far more deadly than that which follows hard mental work.

Get all out of your mind that is in it. You may not be gifted with genius or even talent. But you will never find that out till you bring out every unit of power that is in your brain. And the only way to do that is to use it constantly and intelligently.

Has Anyone Laughed At You Because —

You Are Over-Ambitious? "You work too hard," "you play too little," "you aren't interested in anything but your work," "we miss you at our house," "you never show up any more"—all and more of these things are said to you? Aren't they? Well, maybe you are getting a bit lopsided. This, of course, you have to decide for yourself. Being ambitious never hurt anyone. You can't arrive on any other train, and it isn't a parlor-car train, either; it is the long workman's train and it takes the sacrifice of the things to which your friends say you never appear. When you have a goal you are happiest when you are on "the way"—parties look small and everything else looks insignificant. All well and good. Nothing is so marvelous as the path of the ambitious to the ambitious, but you must never forget that to be too one-sided may block and turn over your car. Getting there is your business and laughter never hurt the really sincere.

Your Get-away here is: To get the best out of your life, you have the right to choose the right things to leave out. It is entirely up to you and no one's affair but yours.

Mother's Cook Book
It is easier to reject a thing than to think about it. It is easier to dislike poetry than to learn to enjoy it. It is easier to scoff at grand opera and call it "up-roar" than it is to cultivate an appreciation for good music.
MORE GOOD THINGS
A NICE little cake which is good to serve with almost anything and at any meal is:
Corn Flake Cookies.
Beat the whites of two eggs until stiff, add gradually one cupful of sugar, one-half teaspoonful of vanilla, one cupful of coconut and two cupfuls of cornflakes. Drop by teaspoonfuls on a buttered baking sheet and bake in a moderate oven. Coarsely chopped nuts may be added instead of the coconut, if that is not liked.
Rice Muffins.
To two cupfuls of boiled rice add one cupful of milk, a tablespoonful of melted butter and the yolks of three eggs. Stir together one pint of flour, one tablespoonful of sugar, one-half teaspoonful of salt and one and one-half teaspoonfuls of baking powder. Add to the rice and beat until smooth. Fold in the beaten whites of the eggs and bake in muffin-pans for fifteen minutes.
Cottage Pudding.
Take four tablespoonfuls of butter, cream well, add one cupful of sugar, one well-beaten egg (two will be better), one-half cupful of milk, one and one-half cupfuls of flour with two teaspoonfuls of baking powder and a little flavoring. Bake in a sheet or in muffin-pans and serve with:
Lemon Sauce.
Mix two tablespoonfuls of flour with one-half cupful of sugar, a pinch of salt, and pour on boiling water to make a thick sauce; cook until the starch is well-cooked in the flour, adding a generous grating of nutmeg and a tablespoonful of butter with the juice of half a lemon, or lacking the lemon, two tablespoonfuls of vinegar. Serve hot, poured over the pudding.
A little sponge cake may be transformed into a dainty dessert. Cut it into rounds, or shapely diamonds, dip in the juice of canned peaches, then put one-half peach on each, filling the cavity with chopped nuts and heap- ing, sweetened and almond-flavored whipped cream over each. Serve cold.

FOLEY'S HONEY AND TAR

23 SERIES STUDEBAKER LIGHT-SIX SEDAN \$1550

Hidden qualities largely determine the value and life of a closed car. Beauty of line and finish and refinements are surface indications and important ones. But your satisfaction with a closed car depends to a great degree upon factors that are unseen—the in-built qualities that come from correct design, use of highest grade materials and careful workmanship.

The 23 Series Studebaker Light-Six Sedan is a quality car. It is built to endure—to give lasting satisfaction.

The Sedan body is substantially built. It will last for years and retain its beauty and comfort. Evidence of its hidden goodness lies in the fact that down under the paint and varnish, the pillars, roof rails and supporting members are made from specially selected ash.

Four wide-opening doors make it easy for all passengers to get in or out without inconvenience to each other. A high-grade heater affords summer warmth on cold, damp days. The wide windows give broad vision in every direction.

Studebaker quality is traditional.

SULPHUR CLEARS A PIMPLY SKIN
Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickly by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist. Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles' Mentho-Sulphur and use it like cold cream.
