

Two Drowned Near Petoskey

One Was Brother of Mrs. Mabel Farmer of this City

A double tragedy occurred at about nine o'clock Sunday morning when Hobart Park, of Petoskey, and Daniel Bonishing, of Cross Village, were drowned in Crooked lake near Petoskey.

Hobart Park, son of Mrs. Catherine Park, of Petoskey, was 27 years of age and a veteran of the world war, during which he received injuries from which he had never recovered. The Indian youth, a son of Mr. and Mrs. Aleck Bonishing, of Cross Village, was 22 years of age and had been employed at the plant of the Petoskey Portland Cement company.

The two young men were on a hunting trip and had secured several ducks when two birds into the water. The two young men found a steel boat and started out. The boat leaked and sank, throwing them into the water. Bonishing, who was a good swimmer, started for shore but seeing that Park was unable to make any headway returned to assist him in his struggle, and succeeded in reaching him. Apparently, however, the struggle was too much for both of them, and before more assistance could be secured, they sank together, too exhausted to continue the battle against death. The spot where the two sank was about 60 rods from shore, where the water is about 50 feet in depth.

Since the accident, efforts have been made to locate the bodies—to date without results.

Park was a brother to Mrs. Mabel Farmer of East Jordan, and a veteran of the World War, serving six months overseas as a machinist. He was gassed and suffered considerable from the effects.

BIG GRAIN SHOW TO DRAW STATE ENTRIES

Michigan Farmers Will Seek to Repeat Big Winnings.

Hundreds of Michigan farmers, representing every section of the state, will enter exhibits in the competitive classes of the International Hay and Grain Show, to be held in Chicago from Dec. 2 to 9 this fall in connection with the International Livestock-Exposition.

For the last two or three years, Wolverine farmers have been winning far more than their share of the International awards, making almost a clean sweep of prizes in certain classes. An effort to keep up this record in competition with other states of the section will be made this fall.

More than 200 entries have already been made, with prospects that the number will run above the 500 mark, according to H. C. Rafter, extension specialist in farm crops at the Michigan Agricultural College and secretary of the Michigan Crop Improvement Ass'n, who is serving as a "clearing house" for international entries. Many of last year's prize winning exhibitors are back again for this fall, while numbers of men who have never entered the International before are preparing exhibits for the coming show.

"Michigan farmers not only find competition at the international inspiring and instructive, but their winnings have been a splendid advertisement for their seeds," says Rafter in discussing the large number of entries from the state. "One oat grower who exhibited at Chicago in 1922 sold over 900 bushels of certified Wolverine oats into one Indiana county, as a result."

Most of the Michigan entries come from varieties which have been developed by the Michigan Agricultural College, seed of which is produced, under inspection, by members of the Michigan Crop Improvement Ass'n.

Entries for the International may be made through H. C. Rafter, Secretary Mich. Crop Improvement Ass'n, East Lansing, before Nov. 7. Rafter will act as Michigan representative at Chicago, looking after exhibiting and returning entries from the state.

WATER TAX NOTICE.

Water tax for six months ending Oct. 31st will be due Nov. 5th and payable during month of November.

No notices will be sent.

G. E. BOSWELL, Treas.

African Speech Changes.

The speech of the aborigines of Africa changes with almost every generation.

HENRY KAMRADT AND MISS LENA MARTIN UNITED IN MARRIAGE.

Miss Lena Martin, daughter of Bert Martin of this city, and Henry Kamradt Jr., also of this city, were united in marriage at the Methodist parsonage, Wednesday afternoon, Oct. 31st, the pastor, Rev. Henry Hulme, officiating. They were attended by Oris Martin—brother of the bride, and Mrs. Rhea Newkirk.

The young couple have a host of friends in our city who extend congratulations.

KNIGHTS OF PYTHIAS HOLD ANNUAL HUNTING CONTEST.

South Lake Lodge No. 180, K. of P., held their annual hunting contest Wednesday of this week.

Owing to the cold weather, high wind and snow flurries, not many hunters cared to get out in the open—only about fifteen men entering the contest.

"The Blues," captained by John E. Gunderson, were easy winners over "The Reds," under Fred Vogel's leadership—the score being Blues 2250, Reds 950.

Points given were:—Partridge 100, chicken 25, Rabbit 50, Bear 1000. As will be seen very few bears were captured.

The "eats" were held at Castle Hall on Thursday evening, catered by the Pythian Sisters. Reports indicate that a pleasant evening was enjoyed by both the victors and those defeated.

VEGETABLE STORAGE GIVES WINTER SUPPLY

Home Garden Can Be Made Year-Around Institution.

The home garden may be made the source of a winter as well as a summer supply of vegetables, if proper storage facilities are made use of.

The following pointers on home garden storage are given by E. P. Lewis, of the horticultural department at the Michigan Agricultural College:

"Cabbage, beets, carrots turnips and parsnips require cool, moist storage conditions. Potatoes demand the same low temperature, but somewhat drier atmosphere. Onions keep best with a low temperature, dry atmosphere and free air circulation. Squashes and sweet potatoes require much higher temperatures with dry atmosphere."

"In selecting vegetables for storage, it should be borne in mind that many organisms, causing decay, enter thru wounds or bruises on the surface. Therefore, only perfectly sound specimens should be selected."

"Three places are ordinarily used for home storage of vegetables: the cellar, the outdoor pit, and a permanent outdoor cellar. The house cellar is probably the most common. Those vegetables demanding cool, moist conditions should have a compartment partitioned off from the furnace room. Often some medium, such as sand, is ideal for the root crops. Cabbage may be wrapped in paper and placed on shelves. Squashes and sweet potatoes keep in an ideal condition in the furnace room."

"A well-drained place should be selected for the outdoor pit. Ordinarily a slight excavation is made and lined with straw. A layer of straw eight inches thick and an equal layer of soil is placed over the conical pile to be stored."

"The permanent outdoor cellar is usually constructed on a hillside and completely covered with earth except at one end, where the entrance is located. Ventilation is supplied by ventilators through the ceiling and cold air intake chambers through the floor."

Escanaba—Students of Escanaba High School have started a campaign to raise funds to buy and equip an athletic field. Hope that money may be raised in time to have the field ready for foot ball next fall is expressed by school officials.

Detroit—Wayne county's budget as approved in final form by the county board of supervisors is \$7,635,512.11. Income to the county treasury from various sources provides approximately \$2,000,000 of the amount required to run the county this year, leaving \$4,774,191.22 to be spread upon the county tax roll. Property in the city of Detroit, which pays 79 per cent of the total county tax will be required to pay \$3,863,744.30 of the total county tax. The county tax rate will be .183 per \$1,000 of valuation this year.

Eff and Dee Store Opens

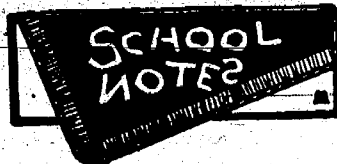

New Variety Store a Fine Addition To Our City.

The new Eff and Dee Variety Store held its formal opening last Saturday, and judging by the large number of people who visited the store that day; its success is already assured.

The building and stock were purchased by Mr. and Mrs. F. A. Creswell of Miss A. M. Kneale some two months ago. Since then, the store has been closed while extensive repairs have been made, and much new stock added. The new owners are making their home on the second floor of the building, which has been remodeled.

Mr. and Mrs. Creswell came up from Toledo early this summer for a visit at the home of the latter's nephew, Mason Clark. Mr. Creswell, who is one of the many hay-fever victims, immediately found relief in this region, and later decided to locate here permanently. Mr. Creswell has for some thirty-five years been in charge of the book and stationary department of large department stores in our larger cities and has a thorough knowledge of both buying and selling.

Miss Kneale has been affiliated with East Jordan's business interests for over twenty years, and her retirement is a matter of regret among her many friends.

EAST JORDAN PUBLIC SCHOOLS

Charles T. Richards Speaks to Soils Class.

Thursday morning the members of the Soils Class were entertained by a very instructive, illustrated lecture given in the Science room by Charles T. Richards, a representative of the Portland Cement Company.

Mr. Richards, in his talk, told why Portland Cement was so named, how it was prepared for use, where it was first used, and the many places it filled in the construction of conveniences and necessities around the home, especially on the farm.

The subject, apparently a "hard one," drew forth much interest comment and information and was especially enjoyed by the pupils from the country.

High School Faculty Entertains.

The high school social season was opened Friday evening by a hallowe'en party given by the faculty.

As the guests arrived they were halted by formidable looking ghosts, who after questioning them, let them pass on into the gymnasium. The gymnasium was beautifully decorated by Mr. Douglas and his assistants with corn stalks, jack-o'-lanterns and crepe paper. After all of the guests had gathered in the auditorium they were entertained by stunts and games put on by students under the direction of Mrs. Sebring. The faculty put on a stunt, acting out the poem, "Lochinvar" About ten o'clock lines formed and the guests passed into the kitchen where Miss West, with her able assistants passed out a lunch which consisted of sandwiches, cider and fried cakes. A party of this kind shows that a great deal of work must be performed by someone and when the teachers put on an entertainment, it shows that they are interested in the school.

Lansing—William F. Steinkohl, local attorney and business man, was named municipal judge by Mayor Alfred H. Dougherty, and the appointment has been confirmed by the council. He succeeds Judge Richard Raudabaugh, who resigned Nov. 1.

Battle Creek—Dr. C. M. Overstreet of Detroit, was elected president of the Michigan State Osteopathic association at its annual business session here. Dr. Overstreet formerly was chairman of the bureau of publicity of the association, where his work won him recognition.

Ann Arbor—Students of the University of Michigan who distinguish themselves academically will be given public recognition through a special "honor convocation," which probably will be held in the spring. Deans of the various schools and colleges have approved the plan.

E. Jordan Loses To Charlevoix

Lack of Spirit and Fight Causes Defeat of Locals

Only the hardest kind of football playing, on the part of the East Jordan High School football team, during the balance of the season can remove from the minds of the fans, the thought that the team laid down in game against Charlevoix last Saturday and suffered a 13-0 defeat.

Perhaps the team did not have the stuff required to beat Charlevoix. That must of course remain a question. It is certain, however, that they should not have been scored on. Had the local team gone out on the field and fought Charlevoix the way that East Jordan teams are expected to scrap and have fought in the past, the Austin coached team would never have won.

During the first quarter of the game, East Jordan men looked almost like a football team, but with the beginning of the second quarter they began to weaken and from then on to the end of the game, it was merely a question of keeping down the score.

The game opened with East Jordan receiving the ball. They were downed on their 20 yard line. Smith kicked on first down and Charlevoix was stopped on the 50 yard line. Charlevoix was forced to punt, after fumbling a pass and being stopped on an end run. East Jordan then pulled their one sensational feature of the game. Smith took the ball for a 40 yard run around left end, but the play was called back, because East Jordan's left end was not in position when the play started. From then on to the end of the game it was down grade run for East Jordan.

In the second half the team seemed to go all pieces, and Charlevoix should have scored at will, however, they seemed to grant East Jordan a bit of courtesy and refrained from rumpling their feelings to badly.

Except for the brilliant work of Walker, who played a wonderful game at end in both the offensive and defensive game and Captain Smith who did some excellent work in the backfield, there was nothing to commend the East Jordan play.

There was a large crowd of East Jordan fans to witness the game and each one was thoroughly disgusted at the performance of the local aggregation. Nearly all of them feel that the team laid down, and it is up to the boys to show that they have the stuff in them and that they did not really throw away the game. Always remember that only poor sport bets on himself.

Score by periods 1 2 3 4
Charlevoix.....0 7 0 6=13
East Jordan.....0 0 0 0=0

Escanaba—Emil Glasser, 83 years old, a justice of the peace here for more than 50 years, died at his home last week. He was a veteran of the Civil war, was wounded at Gettysburg and was one of Lincoln's guard of honor when the Gettysburg national cemetery was dedicated. He organized the first G. A. R. posts in the upper peninsula.

Charlevoix—Joseph, 2-year-old son of Percy W. Wooley, who lives south of Charlevoix, was killed recently by a Pere Marquette train. The boy had wandered away from home and followed his father's two hunting dogs to the railroad tracks. One of the dogs led the brakeman, who had picked up the unknown lifeless form, to the child's home.

Marquette—Inmates of Marquette branch prison have organized two foot ball teams, called the Colored Giants and Corgan's College of Reform. The Giants won the first game, 26-13. Other games are scheduled with Northern State Normal School and Marquette Legion teams. The prison teams are equipped with old uniforms donated by the University of Illinois.

Kalamazoo—After a year's service in the ministry as pastor of the Congregational Church at Mattawan, the Rev. B. F. Townsend has resigned to re-enter the Army. He will be stationed in Kalamazoo and will have charge of a three-year recruiting campaign here with the rank of sergeant. Mr. Townsend entered the Army as a private in 1913.

Grand Haven—Parts of tusks believed to be the remains of a prehistoric mastodon have been unearthed in a swamp in Ottawa County, near Burnips Corner. One piece weighs 23 pounds, and is 23 inches long. The discovery was made by a workman, who was digging a drain. A search has been started to find other parts of the tusks.

FLORENCE EMILYN SPIDEL UNITED IN MARRIAGE TO J. WARNE DAVIS.

Florence Emilyn, daughter of Mr. and Mrs. Wilber Spidel of Maple Ridge Farm, Eveline township, was united in marriage to J. Warne Davis of Detroit, Tuesday noon, Oct. 30th. The ceremony was held at the home of the bride's parents and was attended by some twenty friends and relatives. Rev. J. C. Little was the officiating clergyman.

The couple were attended by Mr. and Mrs. E. A. Geary of Traverse City—relatives of the bride. The bride wore a white Satin dress, trimmed with pearls; the bridesmaid wore an orchid crepe dress.

Following the ceremony, a wedding dinner was served.

The bride grew to womanhood in this vicinity—and has many friends who extend sincere congratulations.

Mr. and Mrs. Davis leave soon for Detroit, where they will make their future home.

A Pellet Sermon

"I never preach morals to young men; I tell 'em to go straight as a matter of self-interest." Coach Yost, campus idol at the University of Michigan for the last 20 years, is speaking. "I tell 'em that when I was a kid I looked this booze game over and saw that it licks you, sooner or later, mentally, physically and financially. So I said to myself—'What's the use of playing a game where you don't stand a chance?' I said to myself—'Give yourself a show; choose a game in which you have some opportunity to win.' So I never drank. And if that was good philosophy for me, it's good for the other fellow. Young men ought to go straight for purely selfish reasons, if for no others. Self-interest ought to keep 'em away from liquor. Self-interest ought to keep 'em honest. Self-interest ought to keep 'em clean."

If Yost ever tires of his athletic responsibilities at "Michigan," there's a real field for him as the evangel of right-living. No man can make a straighter, quicker appeal to the sensibilities of youth than this big, popular collegiate hero—and he knows how to shoot straight to the target's heart. His quiet, vital observations on self-interest are as powerful a sermon as was ever preached. Purinton once said this in a book on efficient living: "The mother of sin is shortsightedness; if a man could always see himself clearly, in relation to God, Nature, the world and himself, he would be ashamed to err because of his noble origin, and afraid to err because of his ignoble end." Yost drives that home in terms which young men understand.

We can do our utmost best to legislate the human race into a finer morality—and in some respects we can make these prohibitions count. But the first conquest must be of man's intelligence. Does not Coach Yost drive at the crux of the argument when he points out that "self-interest" is the greatest of all reasons for decency and honor and continence?—Grand Rapids Herald.

PLEASE RETURN ROLLERS

Will the party who rented ten building-moving rollers of us last spring, kindly return same to us at once as we wish to use them.

adv. 44 ANDREW BERG.

Card of Thanks.

We wish to thank the friends and neighbors for their many acts of kindness in our bereavement and loss of little Harriet.

Chas. and Mary Wolverton and family.

FOR BOWEL AND STOMACH DISORDERS

"I have been troubled the last 4 or 5 years with constipation but could not find any relief until I got Foley Cathartic Tablets, and you can bet they are the pills," writes Robert E. Smith, Ludington, Mich. Foley Cathartic Tablets for constipation, bowel and stomach disorders.—Hite's Drug Store.

Monroe—St. Paul's Methodist Episcopal church, closed since March 21, when it was damaged by fire, has been re-opened. The church was founded more than 112 years ago.

Gaylord—Through the Top-o'-Michigan Potato Show to be held at Gaylord Nov. 7-9, both producers and consumers are expected to gain a clearer understanding of the other's needs.

Doings of the Supervisors

County Solons Accomplish Much Work in Short Time

The annual fall meeting of Charlevoix County's Board of Supervisors was one of the shortest in their history, and it is remarkable considering the amount of business that was handled.

Among the many matters passed upon were the following:—

The tax valuation of South Arm township, as set at the June meeting of this year, was fixed at \$434,620 and the assessment roll of this township is to be adjusted to conform with the valuation fixed by the state tax commission for this township for 1923.

The regular annual report of the County Poor Commission showed that the average cost per inmate for 1923 was \$5.40. An average of sixteen people were cared for at the Poor Farm during the twelve months ending October 1, 1923.

Several members of the Charlevoix Hospital Association appeared before the board and asked an appropriation of \$1,000.00 for hospital work, which includes the construction of an addition to the present hospital. The appropriation was granted.

The sum of \$350 was appropriated for the Michigan Children's Aid Society of St. Joseph, Mich.

The swing bridge cost the county for the year, 1923, \$1,372.22, which is one half of the total expense incurred, the other half being borne by the city.

The sum of \$1,000.00 was appropriated to complete the bridge across the South Arm, at East Jordan.

F. O. Barden was elected president of the Whiting County Park Association and F. H. Wangeman, secretary-treasurer and appointed caretaker of the park for one year without compensation. Four toilets, 5 feet by 12 feet, 20 small tables, 2 large tables and forty benches have been constructed in the park. \$647.63 has been spent so far in the work of improvement, clearing brush, construction etc. \$400 is to be borrowed for immediate improvements and an appropriation \$1,000 made to continue the work.

Beginning November 1st, the sheriff of this county will draw an annual salary of \$2,400 or \$200.00 per month, the old fee system being abolished.

The board voted to raise the sum of \$76,024.91, being the sum of \$6.00 on each \$1000 of assessed valuation in the county by taxing the real and personal property of the county, to be known as the County Tax fund. The additional sum of \$31,677.05—being the sum of \$2.50 on each \$1,000 of assessed valuation and is to be raised by taxation of real and personal taxable property, for the purpose of paying off county road and federal aid bonds and for the payment of the semi-annual interest accumulated on such bonds. This fund is to be known as the County Sinking fund.

The matter of hiring an assistant for Sam Alexander in running the Ironton ferry was referred to a committee with full power to act in the matter, fix the salary, etc.

Some comparative road figures gleaned from the records of the proceedings of the past few days might be interesting. The Advance road 82,000 feet, cost per mile, \$5,042.40; East Jordan and Central Lake road, 7,770 feet, \$4,910.40; Norwood road (except G Rail) 11,200 feet, \$6,943.20; East Jordan and Advance 14,800 feet; \$5,887.20; Wilson road, 5,380 feet, \$4,435.20; East Jordan and Mancelona road, 7,863 feet, \$4,028.64.

The sum of \$1,800 was appropriated for the work of the County Farm Bureau.

IN MEMORIAM

In remembrance of our mother, Mrs. James Evans, who passed away Oct. 24th, 1922.

The rays of early morning one year ago today

Kissed the face of our dear mother, and she silently passed away;

Not knowing the hearts that were broken, and missing the mother love,

With out-stretched hand of the Saviour she entered the rest above.

Mrs. Merritt Ranney,

Manistique, Mich.

Mrs. H. F. Chilson,

Flint, Mich.

Best Way to Do It.

If you feel tempted to procrastinate put it off till tomorrow.—Boston Transcript.

TEAM OF HORSES For Sale at a reasonable price. A good farm team.—NEITZEL'S HDWE., East Jordan. 41-1f.

Gold Coins Lose Weight

In 1892 Great Britain began calling in worn coins and substituting new at the public expense. Since then nearly \$400,000,000 of gold coins have been replaced. The loss by wear in gold coins was nearly five million dollars. This works out at about five cents loss on every coin called in. But in 1919, for instance, the profit on minting new silver equaled five million dollars.

The Difference.

A mountain farmer near Beaufort West, Cape Colony, wanted a telephone. The authorities said a connection would cost him \$500. So he laid the line himself. It was inspected and passed—and he has saved \$450.

Three Men and a Maid

By **P. G. WODEHOUSE**
 Author of "Indiscretions of Archie," "Piccadilly Jim," "A Damsel in Distress," etc.

Such truly light-hearted reading should be welcomed as balm in this over-solemn Gilead. You cannot destroy the hilarious effect of this story even if you read it through blue glasses. Its wizardry will change the color of the light and the color of your thoughts until you are unable to see anything but dancing elves in a flood of glorious sunshine. The maid is a marvel at handling men. Two of them perform like monkeys on a stick, and the third, well—

Wilson and Nowland Hill.

(Edited by C. M. Nowland)

John Dolezel and family moved to East Jordan last week.

Ed. Winkler of Pleasant Valley sold his farm recently. On Oct. 29 he had an auction sale.

Richard Lewis of East Jordan and Joe Lewis of Lapeer Co., called on A. R. Nowland, Sunday.

William Scheffels and family moved to East Jordan last week Wednesday for the winter.

Mr. and Mrs. E. L. Nowland were Sunday guests of Mr. and Mrs. Albert Todd.

Mr. and Mrs. Tom Locke of East Jordan spent Sunday at the home of Ray Nowland and wife.

Born to Mr. and Mrs. G. W. Thompson of Brickerville, a son, Oct. 26th.

Miss Lila Batterbee spent the weekend with her uncle and aunt, Mr. and Mrs. Charles Nowland of East Jordan.

October 16th Mrs. James Simmons with son, Richard, and daughter, Eleanor, returned to their home, after spending the past month or more in Muskegon and Flint.

Henry Sutton and son of Chestonia threshed beans and buckwheat in this vicinity this week.

A Halloween social is to be given by the Afton school at Wilson Grange Hall next Friday evening. A number of Miss McCalmon's pupils she taught at the Burgess school at Bay Shore are expected to attend.

Mrs. Edward Brinault and Miss Esther Shepard were recent visitors of the latter's aunt, Mrs. Minnie Durance at Charlevoix.

Mr. and Mrs. Herbert Holland and child of Traverse City visited his parents, Mr. and Mrs. Fred Holland for a week, returning home Tuesday.

Mr. and Mrs. Clinton Raymond and daughter of Detroit are visiting his parents, Mr. and Mrs. Eugene Raymond

Mr. and Mrs. Floyd Small of Indian River spent the week-end with her cousin, Mrs. James Simmons.

ALBA

(Edited by Mrs. A. I. Ashbaugh)

Joe Anderson came home from Ann Arbor last Tuesday much improved in health.

Mr. A. Meeker who believed himself much better came back from Petoskey where he had been for treatment, but due to a relapse was returned there Sunday in a serious condition.

Alba is to have a Physician at last. Dr. Linden of Hopkins, Mich., will reside here in the near future.

Mrs. Irene Ashbaugh spent the past week with her mother and other relatives near Lake City.

Many hunting licences have been taken out, but we believe Mrs. J. D. Ashbaugh is the first woman here to receive a license.

Mrs. P. Puff is visiting her daughter, Mrs. W. A. Wellman at Grand Rapids. Mrs. Wellman has a young son, born the 24th.

Mrs. C. Campbell went to Cadillac Friday to consult Dr. Wolfe, Cadillac's well-known eye specialist.

PENINSULAR

(Edited by Mrs. E. Hayden)

Word has been received here of the death of little Elizabeth Stoffers, 8 yr. old step-daughter of Mrs. Nettie Nicoly Stoffers at her home in Grand Rapids Oct. 20th from the effects of the Flu several months ago.

Mrs. Peter Karlskin of Advance who is in very poor health is staying with her daughter, Mrs. Chas. Seymore who lives very near. She expects to stay indefinitely.

Mr. and Mrs. Geo. Hanson who formerly occupied the Dr. Chartus residence, the VanPlaten house, in Advance, but who have lived on the Millsap cherry farm for the past year have again moved into the Dr. Chartus house in Advance and will have the grist mill ready to run by the last of the week.

S. G. Rogers is very poorly at his home in Advance.

The first wild geese to be heard going south was Thursday evening, Oct. 25th.

Mr. and Mrs. Geo. Hanson have purchased what is locally known as the Dindot place, but to old settlers is the Charlie Heller Boarding House in Advance and will raise the buildings and build a residence for themselves next summer.

Mrs. Clara Nicoly went to Kalkaska Saturday where she will spend a week visiting relatives, after which she will go to the Southern part of the state to spend the winter dividing the time between Grand Rapids, Greenville and several other points.

A fine 19 lb. boy arrived at the home of Mr. and Mrs. John P. Seiler, Knoll Crest, Tuesday, Oct. 23, but he hasn't been named yet. Both mother and son are doing fine.

Geo. Jarman has rented the J. P. Seiler farm, Knoll-Crest, and will occupy the same in the very near future. The Seiler family will live in East Jordan.

Mrs. Nancy Munson of Ironton is caring for Mrs. J. P. Seiler and the new boy.

Mr. and Mrs. Ray Loomis of Star Dist. attended the Dairy meeting at the Loebe Farm last week and were very much interested in the proposition of selling milk to the cheese factory.

Mr. and Mrs. F. D. Russell of Ridgeway farms attended the Bartholomew auction sale in Antrim Co., south of

East Jordan last week and purchased several head of sheep and young cattle.

Mr. and Mrs. John Oalkins and two sons of Boyne City spent Monday with Mr. and Mrs. A. B. Nicoly at Sunny Slope farm.

Charles Healey is hauling potatoes to Boyne City for Geo. Jarman.

Mr. and Mrs. B. F. Conyer of Kalamazoo who have visited her father, Geo. Jarman at Gravel Hill south side for several weeks, motored to Lansing Friday where they will be located for some time. Mr. Conyer is a plumber.

Marion Russell who came home ill from his job on the road on the west side of the Arm, near Will Birds, returned to work Monday morning.

Mr. and Mrs. A. J. Beers have moved into their new cobblestone cottage on the F. H. Wageman farm and are very cozy. They had resided continuously in one house on what is now the Pine Lake Golf Ground since 1899.

F. H. Wageman and son Lyle have the contract to grind 2,000 bushels of apples at the Loebe Farms. They expect to move their cider mill there this week.

Notice of a public dance has been given out for Saturday evening, Nov. 3rd at Peninsula Grange.

Orval Bennett is getting along very nicely with his broken arm which he sustained some time ago while cranking his car.

Miss Marie Bennett, secretary in Boyne City High School, is stopping with her parents, Mr. and Mrs. Joel Bennett on the farm during institute.

Clare Bogart is stopping with his grand-parents, Mr. and Mrs. Joel Bennett in Star Dist. while his mother, Mrs. Susie Bogart is attending Teacher's Institute.

Word has been received from Derby Hayden of Grand Rapids that he had not a good job in a chair factory.

The item readers may be interested to learn Pete Hawkins, well-known in Boyne City and on the Peninsula, having played base ball with the Whip-poor-Will several times, was operated on for appendicitis in a Hospital in Petoskey a few days ago, while a very sick boy he is expected to recover.

Potato digging is pretty well along. This week if weather keeps good will see most of them taken care of.

Urges Official Milestone

Washington.—An official milestone States is suggested by the American for every city and town in the United Automobile Association, to avoid the confusion arising from the present habit of taking measurements from any one of several points in a city, which themselves may be a mile or several miles apart.

Christmas Trees Banned.

Boston.—Christmas tree shippers in this city have been notified that the Michigan department of agriculture had placed a quarantine on the importation of evergreen trees from any part of New England, effective October 31, because of the danger of a spread of the gypsy and brown tail moths. Several other states have taken similar action.

Lake Morat Turns Red.

Neuchatel—Lake Morat, near Neuchatel, turned red a few days ago. A local legend says that when the "blood of the Burgundians" (36,000 of whom, under Charles the Bold, were defeated in 1476 by 24,000 Swiss near the shores of the lake) returns it is a presage of war in Europe. The cause of the red coloring of the waters is an aquatic plant which blooms at irregular periods. The last time was in June, 1914.

Male Bird "Mothers" Young.

New York.—A group of California valley partridge or "quail" has been added to the collection of birds at the American Museum of Natural History. Scientists pointed out the curious trait of these birds if they nest more than once, in which case the male was said to take charge of the young of the first brood when they are about three weeks old, while the female devotes herself to the task of incubating the second one.

Hard to Reform People. You can't reform anybody unless you care for them. Big general reforms are likely to be full of animosity.

MICKIE SAYS--

"TH' POOR SKINFINT WHO STOPS HIS HOME PAPER BECAUX HE IS 'GETTING MORE PAPERS THAN HE CAN READ' GENERALLY GETS A HEADACHE IN HIS 478 BEAN TRIM 'T READ EVEN ONE!"

E. J. Girls in Fatal Accident

Two Lenosky Sisters Burned at Los Angeles, Calif.

Telegrams received here first of the week by Mr. and Mrs. Frank Lenosky stated that their two daughters, located at 908 West 68th st., Los Angeles, Calif., were the victims of a fire accident. A later message stated that one of the daughters—Mrs. Otto (Agnes) Heinicus—had passed away and that the sister—Miss Emma Lenosky—was dangerously ill.

The parents, Mr. and Mrs. Frank Lenosky, started Tuesday for California. No details of the accident are available here.

Saginaw—Frank Graten, who came from Detroit to resume management of the Grain elevator at Kinde, was beheaded when he slipped in a puddle of grease and fell against the fly-wheel of a gasoline engine used to operate the elevator machinery.

St. Johns—Charles Johnson, of this city, who has been rural carrier for the last 20 years, has been retired by the United States government, having reached the age limit. During his term as carrier he has driven approximately 175,000 miles. Johnson will be placed on the pension list.

Grand Rapids—Nearly 400 representatives from 20 Western Michigan counties and 100 towns met here to plan an advertising development campaign to spread the fame of "The Nation's Summer Playground." The meeting was held under the auspices of the Michigan State Tourist and Resort Association.

Ludington—Heavy windstorms last week worked havoc among Mason County apple growers. Reports indicate that 50 per cent of the unpicked crop was blown to the ground. It is figured the storm caused a loss running into thousands of dollars, because windfalls do not command the price that hand-picked apples do.

Kalamazoo—A scene of merry-making was turned to sorrow, when Rev. O. J. Golden, who was host to the party, collapsed and died within a few minutes. He was stricken while chatting with several of the guests. Rev. Golden was ordained 40 years ago, and since then has been pastor of a score of churches in southwestern Michigan.

Battery Storage FOR WINTER

Call and have your battery tested, a hard frost will ruin your battery if it is dead or very low.

We are equipped to give your battery the best of care this winter.

ALL BATTERIES ARE INSURED

PHONE 24

The Battery Shop L. L. Miles,

Hillsdale — Mrs. Marjorie Kuhn, who was convicted on the charge of slaying Zelon Lake, with whom she lived, was sentenced to life imprisonment in the Detroit House of Correction by Judge G. M. Chester.

Dowagiac—Major John D. Black, who served on the staff of General Nelson Miles in both the Civil and Spanish-American wars, was buried here beside his wife, who died 40 years ago. Major Black died recently in San Diego, Cal.

Grand Rapids—The Michigan Tourist and Resort association has been guaranteed a 1924 budget of \$100,000 and at least as much more for both 1925 and 1926—a total pledge, for development of the "summer playgrounds" assets of \$300,000.

Labels the Arabs. Whoever named a certain type of American youth as "sheiks" played a low trick on the poor Arabs.

Makes No Difference. Jud Tunkins says a man who is always dead sure he is right isn't likely to have enough responsibility for it to make any difference whether he is or not.

COUGHS, COLDS, WHOOPING COUGH Mrs. Will Hall, R. No. 3, Baxley, Ga., states "I am writing to all who suffer from coughs, colds, croup or whooping cough. I cannot recommend Foley's Honey and Tar too much, and I can't keep house without it." Largest selling cough remedy in the World. Hite's Drug Store. adv.

SCHOOL DAYS

FRANCE WILL NOT EVACUATE RUHR

TERRITORY TO BE HELD UNTIL FULL DEBT HAS BEEN PAID.

BAVARIANS DEFY STRESEMANN

Plundering and Violence Prevalent in Occupied Zone—Republics Proclaimed.

Paris—France will remain in the Ruhr valley until she is paid in full by Germany of war damages. This was the answer of Premier Poincare to the suggestions of Secretary of State Hughes and the British government for a conference to settle the reparations condition made in a speech Sunday afternoon at the unveiling of a monument to the war dead at Sampigny. He added that any conference held must be under the direction of the reparations commission. While France is willing to discuss a new schedule of reparations payments, he said, she will not accept the slightest reduction of the Versailles terms.

Berlin—Bavarian insurrectionists will not obey the government ultimatum—it was decided at a meeting of the Bavarian Volks' party in which former Premier Von Knilling participated. Von Knilling gave over his position when Von Kahr assumed the dictatorship.

The meeting agreed that Bavaria cannot drop the Loosow government in compliance with the federal demand. Chancellor Stresemann has said if his demand was not met by Monday extreme steps would be taken. The Volks party leader, Doctor Held, said Bavaria would be unable to meet the demand and that the party would support Von Knilling and Von Kahr.

Dusseldorf—Plundering and violence have become general throughout the Ruhr while mobs have become rampant. Similar instances of lawlessness are reported in almost every town in the Ruhr. French and Belgian troops continue to guard the public buildings in all the towns where separatists are installed. A republic has been proclaimed in the villages of Kirn, Nonsenge and Sonderheim in the Coblenz district.

PLAN TO CUT DOPE TRAFFIC

Closer Co-Operation Between U. S. and Canada.

Buffalo—Closer co-operation between the United States and Canada to suppress illicit traffic in narcotic drugs across the border was agreed on the first international conference of representatives of the two countries. Although Col. William J. Donovan, Federal attorney, who presided at the conference, declined to give out, in detail, what plans were adopted at the meeting, it is understood that the combined narcotic forces of the two countries will take immediate steps to stamp out drug smuggling. Col. Donovan in a statement to the newspapers at the conclusion of the conference said: "It was a very satisfactory meeting. While I am unable to make public what transpired, we agreed to work more closely with Canadian officials. The first interwill lead to more meetings of this national conference was a success and kind."

Problems confronting the two governments in combatting the illicit traffic were discussed and the plans adopted to wage a fight against dope peddlers and smugglers will be included in a report to be forwarded to Washington and Ottawa.

BRITAIN OK'S 12 MILE LIMIT

U. S. Proposal for Searching Ships for Liquor Fully Approved.

London—The British government has accepted in principle the proposal of the American government that vessels in American waters be searched for contraband liquor within twelve miles of the American shore.

The expert committee of the imperial conference, which has been studying the question under the chairmanship of Foreign Secretary Curson, has drawn up plans which are believed to meet the essential points of the American request.

The plans will be submitted next week to the full conference, which is expected to approve them.

Huge Citizen's Army is Ready.

Washington.—With an army of 2,000,000 men waiting the first call to arms in the next great war, America will be ready. But the very fact she has prepared for war, military experts here declare, is the greatest step for peace in the world's history—even greater, they say, than the memorable disarmament conference in which all the larger nations took part. The men will come, when the "bugle" sounds, from the homes of the richest to the humblest.

Worm Causes Heavier Losses Than Cholera

Biggest Part of the Damage Comes From Wasted Feed.

Swine raisers suffer greater loss from round worms than from hog cholera, according to the department of animal husbandry of the New Jersey agricultural experiment station, but they do not attract so much attention because few hogs actually die from worms. The damage comes from the amount of feed wasted in feeding the worms and the loss of vitality of the animals. Many lung diseases, especially pneumonia, occur as the direct result of worms. To combat the round worm successfully its life cycle should be thoroughly understood. Six to eight million eggs a year are laid by the female worm in the hog's intestines. The eggs come out with the manure, infecting every particle of food on the surface of the hog lot. They will survive most conditions for at least a year.

The eggs are swallowed by the pig in feeding and hatch in the intestines. The young worms then work their way through the walls of the intestines, and into the liver and blood stream, by which they are carried to the lungs. While in the lungs they may cause "thumps" or heavy breathing. Here they become active, crawl up the windpipe and cause coughing. Some are expelled from the mouth at this time, but most are swallowed and then remain permanently in the intestines. Several treatments for worms may be followed:

Withhold feed from the hog for 24 hours and give a capsule containing two grains of santonin, three grains of aloin and eight grains of sodium bicarbonate. Do not feed for eight or ten hours after treatment, and then give one to two tablespoonfuls of epsom salts or glauher salts in the feed for every 100 pounds live weight of the hogs. One capsule is sufficient for a pig weighing up to 75 pounds.

If santonin cannot be procured, oil chenopodium, also known as "oil of worm seed" may be used. Four teaspoonfuls mixed with one ounce of castor oil is the usual dosage. The results will be most satisfactory if the oil is given alone rather than with the feed. Each pig should be fasted 24 hours, before treatment. If necessary, repeat the treatment in four to six weeks.

Sell Direct to Consumer, Most Profitable Method

Selling direct to the consumer is generally considered the most profitable method of disposing of high-grade goods, for the charges of middlemen are eliminated. The producer is often so situated that he can build up a retail trade among the families of a neighboring city or village, delivering his goods direct to the customer once or twice a week, or oftener if desirable. In this way he can usually secure a substantial increase over prices paid in the open market. This is especially true in the case of strictly fresh eggs. It is also often possible to secure customers in a city that is within reasonable shipping distance, expressing to them a stated amount of eggs and dressed poultry at regular intervals (once or twice a week). Hotels, restaurants, and clubs are good customers, which can be supplied in this way by contract.

Detroit—Inspector Harry H. Jackson, head of the police traffic division has been selected by Governor Groesbeck as the new head of the state department of public safety, succeeding Col. Roy C. Vandercook, whose resignation became effective October 1.

Lansing—Protests against the recent order limiting auto buses to a speed of 30 miles an hour have begun to come in to the Public Utilities Commission. Companies which operate touring-car lines are the chief objectors, operators of the large buses favor the rule.

GOOD-BY

By GRACE E. HALL

WE MEET and pass and speak one word unheeding, Though any hour may rob us of our friend; The voice that now in merry tones is speeding, With the eternal echoes soon may blend; We clasp today a hand that's warm and living, And gaze in eyes that hold a merry gleam; Tomorrow the farewell look we may be giving, And hear a blithe "good-by" as in a dream.

We hope and plan and play, and part with laughter, Unthinkingly, we use one word always; And give no thought to what may follow after, As though we were assured of endless days; Too oft we part when hearts are sad and aching, And speak in tones that cause a smothered sigh; Oh, let us but remember we are taking What, anytime, may be our last good-by! (© by Dodd, Mead & Company.)

Robbers Were Too Greedy. Burglars who broke into a fat in Vienna, Austria, and stole valuables were traced by the police owing to their having greedily thrust into their bag an ink bottle found on a table. The ink bottle was cracked in the bag and as a result the robbers' homeward track was marked by ink spots on the pavement.

Mother's Cook Book

Again I hear that creaking step, He's rapping at the door— Too well I know the boding sound That ushers in a bore. —John G. Saxo.

SUMMER SOUPS

COLD soups of various kinds are very popular for a beginning at luncheons this season.

Jellied Chicken Bouillon. Take a pint of hot chicken soup well seasoned. Soak one tablespoonful of gelatin in one-fourth of a cupful of cold water and then add to the hot soup. Add a fourth of a cupful of boiling water and when cool add chopped parsley. Chill. Serve slightly with a fork and serve in bouillon cups with wafers.

Cherry Soup. Cook two tablespoonfuls of sago in one cupful of boiling water until tender, adding more water as needed until the sago is perfectly clear. Cook one quart of pitted cherries in one quart of water and one-fourth of a cupful of sugar, one-half a lemon finely sliced and three or four inches of stick cinnamon. Boil fifteen minutes; add the cooked sago and boil up; pour slowly over two well-beaten egg yolks and chill before serving. Any berry may be used for this soup, following the above directions.

A soup that is very popular is **Mushroom Soup.** Put a quart of milk and one cupful of cream in a double boiler, add two bay leaves and a tablespoonful of flour mixed with some of the cold milk. Cook for fifteen minutes or until the flour is well cooked, strain, add a cupful of finely chopped mushrooms that have been cooked in a tablespoonful of butter for five minutes, add two tablespoonfuls of beef extract or bouillon cubes to season, a cupful of hot water, and salt as needed. Serve hot.

Marketing Your Products

October in Michigan railroading is always the month of peak load. Coal is coming in; crops are rolling out. To so handle this additional traffic that it may be carried smoothly and without interruption to the normal year-round flow of raw materials and finished products is a task which finds every employee of Michigan's twenty-four railroads, keyed and ready.

Our personnel is at its highest point of efficiency.

Our rolling stock is in virtually 95% perfect repair condition.

Our road beds are in better shape than at any time since the disaster of Government operation. We have bought 620 miles of new rail this year.

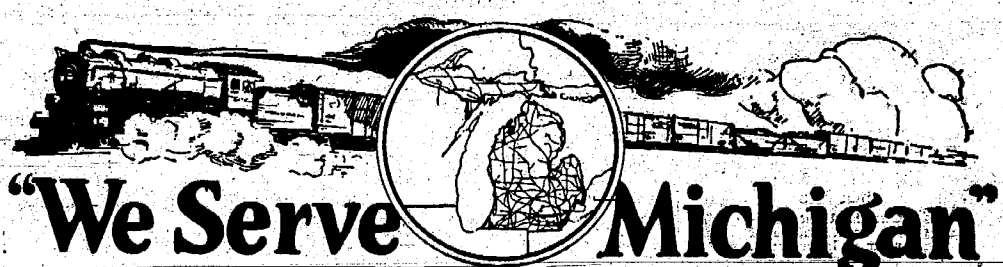

Two seasons of prosperity of Michigan have permitted us to invest this year in new locomotives, cars and other betterments the record breaking sum of \$75,980,881.26.

Despite restrictions such as handicap no other business, Michigan railroads are solving—not their problem—but the problem of transportation that naturally follows the industrial, social and economic expansion of a prosperous state.

Do you notice and experience this improvement in your transportation? Tell us frankly and fully.

Upon the attitude of you people of Michigan towards your railroad system rests much of the future prosperity of your state.

Michigan Railroad Association
Railway Exchange Bldg., Detroit, Mich.

Shades of Rome! A London warehouseman, several of whose watchdogs have been stolen, is now using geese as watchdogs.

Study Abilities of Persons. A Berlin scientist is the inventor of an instrument to measure every protuberance and depression in their heads to study the abilities of persons.

Advice to Cake-Eaters. Never ask your girl if she would like to ride home in a taxicab. You save a lot of breath and money by boarding the first street car that comes along.

Switchmen Needed. —Many a golden opportunity has been wrecked for want of a genius to throw the switch.

World's Coal Output. The output of the principal coal mining nations, lignite and coal being combined, in metric tons: United States, 417,646,000; Germany, 288,411,725; United Kingdom, 255,891,786; France, 81,915,617; Poland, 23,800,000; Belgium, 21,234,170; Russia, 10,000,000; Japan, 26,000,000, and Canada, 13,648,782.

AUCTION SALE!

The Undersigned will sell at his premises located 7 miles southeast of East Jordan in Bohemian Settlement, Jordan township, on

Thursday, November 8,

WHEN EVERY MOVE HURTS

Lame every morning, aky and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use. Ask your neighbor!

Mr. Farmer, railroad engineer, East Jordan, says: "I had a sore feeling across the small of my back that stayed with me for days and I had stitches in my back when I wasn't able to move at all and my back was always lame. When I stooped I could hardly get up again. Mornings I felt tired. Black specks came before me and blurred my eyes so I couldn't see. Through the night I often had to get up and the secretions were not only painful but always filled with dark sediment. I heard of Doan's Kidney Pills and got a few boxes at Gidley & Mac's Drug Store and they fixed me up in good shape."

60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

GIDLEY & MAC, Druggists

Night coughing—

exhausts you so that you are more tired in the morning than when you went to bed. Dr. King's New Discovery stops coughing by gently stimulating the mucous membranes to throw off clogging secretions. It has an agreeable taste. All druggists.

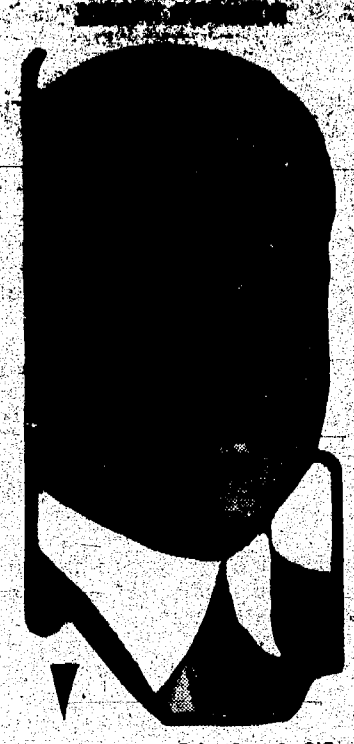

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time. Red Pepper Rub is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out. Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once. The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

Rub Rheumatism or Sore, Aching Joints

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging. Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints and muscles, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and cannot burn the skin. Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

San Francisco, Cal.—Joseph O'Connor of San Francisco, who was executive secretary and manager of the American Legion convention which was held in the Golden Gate City, has had much experience in handling conventions.

"ELECTRIAL WIZARD" IS DEAD

World Has Lost One of Its Greatest Practical Mathematicians.

Schenectady, N. Y.—Death Friday ended the career of Charles P. Steinmetz, the electrical wizard, the man who snatched down lightning from the skies and made the thunder bolts do his bidding. Steinmetz, the hunch-backed little German who became chief consulting engineer of the General Electric company, returned October 13 from a speaking tour which had taken him to all parts of the United States.

As in the case of the late President Harding and of Woodrow Wilson, he had overtaxed his strength endeavoring to see all the people he was called on to see, and to make all the speeches expected of him.

Steinmetz was 58 years of age. For 34 years he had lived and worked in the United States, following his emigration from Germany. He attained his greatest prominence during the last 10 years during part of which and until the time of death, he was chief consulting engineer of the General Electric company.

Dr. Steinmetz's birthplace was Breslau, Germany. He was born April 9, 1865. He came to America 34 years ago.

He studied in common school, high school and university at Breslau, making a specialty of mathematics and astronomy.

Realizing that mathematics did not offer a living for anybody whose political opinions differed from those of the German government, he studied physics, chemistry and electrical engineering.

WAYNE TO O. K. ALIEN COUNT

Elimination of Non-Citizens Would Not Affect Number of Solons.

Detroit—Changing the state constitution to eliminate aliens from consideration in apportioning legislative districts, the proposal urged by Mrs. Dora H. Stockman, of Lansing, member of the state board of agriculture at the state grange meeting, would have practically no effect on Wayne county's quota among the law makers.

United States census figures refute the charge of agricultural interests that Wayne county's population includes a far larger alien population than the state at large.

Actually there are only half of one per cent more aliens in Detroit, in relation to the whole population, than in the state at large.

Out of 2,215,436 persons of voting age in Michigan, 241,189, or 10.8 per cent either are known aliens or of unknown citizenship.

Out of Detroit's 626,515 persons over 21 years of age, the aliens and "unknown" class number 112,504, or 11.3 per cent, just half of one per cent over the state's average.

Eliminating the "unknown," the state has 264,549 adult aliens, 9.3 per cent of the total adult population.

Detroit's total of known aliens is 112,504, or 10.3 per cent of the total adult population.

Detroit has 29,326 adult illiterate, of 4.7 per cent of its total adult population.

Unearths Pre-Glacial Oyster.

Winipeg.—A fossilized oyster, believed by scientists to be a relic of the pre-glacial ages, has been unearthed by A. G. Shearer, plowing the top of a hill at Pope, Manitoba. Dr. R. C. Wallace professor of geology at the University of Manitoba, stated that, in all probability, Shearer struck a rock, carried by the ice of the glacial age and belonging to a period millions of years earlier than the ice age, as there is now neither river nor lake near Pope.

BRITAIN URGES U. S. PROPOSAL

PREMIER BALDWIN BIDS ALLIES TO JOIN IN MOVEMENT TO END CHAOS

GERMANY SAYS SHE "CAN'T PAY"

France Will Hold To Her Program of Complete Enforcement of Versailles Treaty.

London—Prime Minister Stanley Baldwin made his promised speech on the British government policy, at Plymouth. He immediately threw himself on the question of foreign affairs after briefly chiding critics charging him with having no policy. "I tell you we have a definite policy with regard to reparations, debts, and guarantees of security for the allies and the fulfillment by Germany of her obligations," he said. "On policy the cabinet is, absolutely united," he declared. "I am looking for a safe place to land. Europe is drifting in an aeroplane. If Europe does not find a safe place to land Europe will crash."

There was good reason to believe that on giving up the passive resistance negotiations might be resumed, he said.

Premier Poincare represents today practically the whole of France, he said, and he begged him to consider for himself, for his nation, for us and for the world, once, twice, thrice, before he refuses to send the invitation.

Regarding Germany, the British policy all along has been clear—reparations is a just penalty and must be paid. But to do this Germany must be placed in a position to pay.

The amount must be ascertained in light of the present and future position.

Washington—In response to an official inquiry by the British government Secretary Hughes has informed Great Britain that the United States is willing to participate in an advisory economic conference for the purpose of considering Germany's capacity to pay reparations and methods of effecting such payments. This co-operation is guaranteed only on the understanding that France and all other powers directly interested in German reparations concur in the plan and participate in the conference.

Hagen, Germany—"Germany cannot pay the reparation when she cannot dispose of her own property," said Chancellor Stresemann. "So long as the Ruhr is cut off from Germany we shall not pay reparation. We don't beg for mercy. We only demand what is right."

Paris—France will ignore Germany's latest request for resumption of conversations for a settlement of the reparations problem, Premier Poincare told the cabinet Thursday. There will be no weakening in the French attitude of uncompromising firmness toward the German Reich. Despite the grave internal situation in Germany, France will hold to her program of complete enforcement of the treaty of Versailles.

GOV. WALTON LOSES INJUNCTION

Court Upholds Senate By 5 to 4 Vote in Suspending Governor.

Oklahoma City—Lieutenant-Governor M. E. Trapp was declared acting governor of Oklahoma in a decision of the state supreme court late Thursday, making permanent a writ of prohibition against Governor J. C. Walton and District Judge Tom B. Chambers, Sr., which restrains them from interfering with the lieutenant-governor's assumption of the office.

Notified of the court's action, Governor Walton declared that he intended to "continue the fight."

The court announced its decision orally after a brief conference, following an afternoon of argument. The decision, it was explained, made writ effective against J. C. Walton as an individual and not a governor. Judge Chambers was enjoined in his official capacity as judge.

The vote of the court was 5 to 4. The decision sustains a resolution adopted by the state senate suspending Governor Walton during his impeachment trial, and nullifies an injunction obtained by the governor in Judge Chambers' court which would have prevented the lieutenant governor from becoming acting governor.

Typewriting Record Made.

New York.—Establishing a new record for typewriting speed, an average of 147 words a minute for one hour, Albert Targora, of Paterson, N. J., won an official contest at the opening session of the National Business Show, recently. Targora defeated by one point George L. Hoefeld, who eclipsed his own world's record of 145 words a minute made last year. The winner wrote 9,120 words and made 38 errors for a net score of 8,860 words.

Something to Think About
By P. A. WALKER

KEEPING IN TUNE

IF YOU are not willing to sing in tune with the inspiring music of industry ringing and roaring all about you, there will come upon you the bare and beggary days which are set apart by the Fates as a punishment for sluggards. In the strength and buoyancy of youth you may think that you can escape them. There is no fear in your mind, no prompting to be up and doing, no worthy aspiration. To go fluttering and sailing about like a butterfly when the air is soft and filled with the fragrance of flowers, is your one desire.

There is pleasure in the world, and you are going to get your share while you have the capabilities to enjoy it. The years call to you with a voice of idle laughter. In your case, they are not made for noble endeavor of hand or brain.

You proudly proclaim your manly or womanly independence. You assert with emphasis that you will not be subjected to the beck and call of anybody. There is but one that shall say to you "yes" and "no," and that one is your arrogant, foolish self, out of tune with reason, singing false notes so like the confused souls of Babel that they fill the hearts of your parents with a terror unspeakable.

They implore you to sing in tune. Your answer is a cackle and a strut. It is received with sighs and tears. Thousands of pleading fathers and mothers like yours have waited and waited for a dulcet note, folded their hands in disappointment and gone to sleep.

It is a story as old as the tomb of Tut-Ankh-Amen—yet young as the budding twigs of spring; true to the tradition of centuries which affirm and reaffirm that parental love, though constant and solicitous to the last, has often been wounded to death by the jarring behavior of the objects of its affection.

You never speak of the discords you have caused. You continue to proceed on your impetuous way until the clouds lower about you and your path lies dark and forbidding ahead.

Then in a moment your inclinations change and your heart changes with them. You do your utmost to convey to others your new purpose, but your notes still ring untrue, though you may be doing your best to save a rag of honor at the eleventh hour, unsupported by love.

YOU
By GRACE E. HALL

YOU came from the shadowy Somewhere one morn,
To dwell near the gate of my heart;
I felt a delight that was suddenly born,
And strange, tender impulses start.

You gave a new tint to the blossoms that swayed
On the trellis, that morning in Spring;
The pansies in far deeper hues were arrayed,
The birds found a new song to sing.

You came—and the world was a garden of bloom,
Each day was a rose, sweet and red;
You went—and the world is a garden of gloom,
And the roses are withered and dead.
(© Dodd, Mead & Company.)

The Kandy King.
A "candy kid" ought certainly to be sweet, but what could be sweeter than a "kandy king"? And while there may or may not have been a "candy kid," there was a Kandy king who ruled in Kandy, the capital of the Kandy kingdom on the island of Ceylon, Asia. The inhabitants of this little kingdom were known as Kandyans. The last king's reign ended by deposition in 1915. Though the name might lead one to believe it a land of sweets, Kandy produces many useful and necessary articles of food.

LUELLA SAYS—

PAW USED TO SAY THAT HE THOUGHT EVERY WOMAN OUGHT A ALWAYS MAKE A FUSS OVER HER HUSBAND— BUT MAW SEEN, ALTHOUGH IT MIGHT BE NATURAL FOR SOME WOMEN—SHE'D NEVER BEEN ONE OF THE KIND TO MAKE A FUSS OVER NUTHIN!

Items Of Interest In World's News

First Snowfall at Duluth. Duluth, Minn.—A brief snow flurry visited Duluth last week. The temperature was 45 degrees above zero. It was the earliest trace of snow recorded in Duluth.

Rioters Wound Many. Barcelona—Twenty persons were wounded seriously here during a demonstration by Catalonian separatists before the Castanovo monument. Police dispersed the rioters.

Sayre Gets Siam Post. Shanghai—Francis Sayre, son-in-law of former President Woodrow Wilson, has been appointed advisor to the king of Siam, according to an announcement of Eldon R. James, retiring.

Former U. S. Envoy Dies. Asheville, N. C.—Richmond Pearson, 71 years old, former American minister to Persia, Greece and Montenegro, died at his home on Richmond Hill, near here. He also served two terms in congress.

Tidal Wave Destroys Town. Mexico, Lower Cal.—Wireless messages received here report the destruction by a tidal wave of San Jose de Cabo, a small fishing town on the west coast of Lower California, just above Cape San Lucas.

W. G. T. U. Re-elects President. Columbus—Miss Anna A. Gordon, of Evanston, Ill., was re-elected president of the Women's Christian Temperance union at its annual convention here. Miss Gordon, also is president of the World W. C. T. U.

Ex-Emperor Donates To Quake Fund. Peking—The deposed emperor of China has donated \$5,000 and a collection of curios worth \$100,000 for the relief of the earthquake sufferers in Japan. The donation included the famous pearl beads of the empress dowager.

Biographer of T. R. Dies. Cambridge, Mass.—William Hoscoe Thayer, biographer of Theodore Roosevelt and an overseer of Harvard university, died at his home here. He was formerly assistant editor of the Philadelphia Evening Bulletin, and editor of the Harvard Graduates' magazine.

Mexico's Recognition Treaty. Mexico City—The revolutionary claims convention, framed at the pre-recognition conference here, has been signed. It provides for creation of a mixed commission to settle American claims for damages suffered in consequence of the revolution between Nov. 20, 1910, and May 30, 1920.

Lands Big Sturgeon. Wharton, Ont.—One of the largest sturgeon caught in Lake Huron for a long time has been brought into town by the James Pedwell. It was caught by Captain Chapman, off Fitzwilliam Island, in a pound net. It weighed 186 pounds and contained 47 pounds of caviar, which is worth a dollar a pound.

Makes New Altitude Record. Paris—Sadi Lecoq, French aviator, established a new world's altitude record of 10,741 meters (6 miles 118 yards). It was Lecoq's fifteenth attempt. His health has been injured in repeated flights into rarified atmosphere, but he was determined to beat the record of the American, Schroeder, which he now has done by 223 meters.

U. S. Sells Seven Ships. Washington—The United States shipping board announced the sale of seven combination cargo and passenger ships to the Dollar company, of San Francisco. The ships are to be used in a round-the-world service for five years, touching at San Francisco, Japan, China, Philippines, Singapore, India, Egypt, Mediterranean ports, New York City and Panama.

Blows Out 200-ft. Flame With T. N. T. Washington—Puffing out a flame 200 feet high in an oil well fire with T. N. T. sounds spectacular and impossible, but it's just as easy and as practical as blowing out a candle with the human breath, says Dr. Charles E. Munroe, chief explosive chemist of the Bureau of Mines. Dr. Munroe, who suggested the use of T. N. T. to extinguish a big oil well fire recently at Corsicana, Tex., says this scientific method of fire control has been used before with success.

Owlsley Given Decoration. Paris—Commander Alvin M. Owlsley, of the American Legion, was officially informed of the French government's decision to make him a commander of the Legion of Honor. He will receive the decoration at the hands of Gen. Degoutte, French commander in the Ruhr, at Dusseldorf Thursday. Announcement of the honor was made by Deputy Bertrand at a luncheon given in the Eiffel Tower restaurant to Commander Owlsley and the visiting Legion party.

Have Kidneys Examined By Your Doctor

Take Salts to Wash Kidneys If Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

STOP CATARRH OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Briefs of the Week

Born to Mr. and Mrs. Gaius Hammond a son, Nov. 1st.

Cleve Isaman left Saturday on a business trip to Flint.

Frank Nachazel was here Monday from Suttons Bay visiting friends.

You can trade your old Stoye or Range on a new one at C. J. Malpass Hdwe. adv. t.f.

Mrs. Roscoe Mackey returned home Tuesday from spending a few days with her son, Robert, at Deltafield, Wis.

Charles Phillips, son of Mr. and Mrs. Frank Phillips of this city, was united in marriage to Miss Masie Hall at Detroit, Tuesday, Oct. 30th.

Miss Alice Dow of this city has taken a position in the Chemical office of East Jordan. Miss Dow is making her home with Mrs. William Shepard of that city.—Boyer Citizen.

Mr. and Mrs. Glenn Snyder with children returned to their home at Grand Rapids this week after spending a fortnight with the former's parents, Mr. and Mrs. W. S. Snyder.

Mr. and Mrs. C. H. Whittington returned home, Tuesday, from a three-weeks' auto trip in Southern Michigan, where they visited friends and relatives at Pentwater, Hart and Muskegon.

J. E. Secord has leased his farms to William Upton of Springvale, who now occupies same. Mr. and Mrs. Secord and family have moved into their cottage at "Shady Nook," near Monroe Creek.

Charles Danto, son of Mr. and Mrs. A. Danto of this city, was united in marriage to Miss Bernice Worsaw, daughter of Mr. and Mrs. Isaac Worsaw of Grand Rapids, at Chicago, Sunday, Oct. 21st.

A. E. Huntly, of Grand Rapids, Division Superintendent of the Michigan State Telephone Co., and H. J. Johnston of Petoskey, local manager, were East Jordan visitors latter part of last week.

George Louis, the three-weeks-old son of Mr. and Mrs. Irvin Snyder passed away at the home of his parents on the West Side Saturday night. Funeral services were held Tuesday and the remains taken to Traverse City for interment.

The Carnegie Hero Fund Commission, at its meeting held last Friday in Pittsburgh, amongst other medals awarded, authorized one to Harry E. McHugh who resides at 703 South Bridge St., Charlevoix, who saved a school boy from drowning at Charlevoix on February 22, 1919.

Rev. W. W. Lamport, pastor of the local Methodist Church left on Monday for Kalamazoo, where he was expected to undergo a serious operation at one of the City hospitals, Wednesday morning. Mrs. Lamport and grandson, are visiting her daughter at Lake City, during Mr. Lamport's absence.—Central Lake Torch.

H. T. Bancroft is here from Flint for a visit.

Charles Locke and son, Harold, are home from Flint for a visit.

James Davis who was home for a visit, returned to Detroit, Tuesday.

Mrs. N. Holton of Bellaire is visiting her daughter Mrs. Thos. St. Charles.

Mrs. S. J. Laury and daughter of Harbor Springs visited friends here Monday.

Miss Christina Van Deventer visited friends at Grayling and Bay City first of the week.

While they last—Two Pounds of Fresh Fig Bar Cookies for 25c at the A. & P. Tea Co. adv.

Miss Julia Ellison who was home for a visit with her parents, returned to Alliance, Ohio, Tuesday.

You can get the highest cash price for your Used Furniture or Stoves from C. J. Malpass. adv. t.f.

Gus Muma has purchased the Heaton residence on Second Street and with his family will soon occupy same.

Mr. and Mrs. A. J. Hite and son, returned home Thursday from a week's visit with friends at Manistee and Evart.

M. R. Crowell, who was recently transferred to take charge of the A. & P. Co. store at Charlevoix, is once more in charge of the Grayling store.

A meeting of the Women's Christian Temperance Union will be held at the High School Monday, Nov. 5th, at 7:00 o'clock p. m. Visitors welcome.

Mrs. A. B. Skinner and son, left Wednesday for her home at Chelsea, Mich., after spending several weeks with her sister, Mrs. Harold E. Voice.

Mrs. George Walker was at Bellaire latter part of last week, called there by the death of her grandson, Robert, five-months-old son of Mr. and Mrs. Harry White.

Word has been received here that W. P. Squier was unfortunate enough to receive a fractured arm recently. He was working around his home at Dallas, Texas, when he stumbled over a hoe handle.

On Wednesday evening, Rev. and Mrs. Henry Hulme entertained the members of the Epworth League at a Hallowe'en party in the basement of the church. This is the thirteenth Hallowe'en party they have given the young people of their charges.

J. E. Converse, assistant attorney general has been designated to go to Marquette county, get in touch with Thomas Clancy, prosecutor, and with him make a complete investigation of the recent death in forest fires of five employees of the Independent Lumber Co. According to information reaching the attorney general's department, Mr. Clancy was not called to assist the coroner at the inquest into the cause of the death of the men. When Mr. Converse has completed his investigation he will report to the attorney general.

Miss Helen and Florence Stoken of Bay City visited friends here this week.

Mrs. Josephine Vondell returned Thursday from a visit with her daughter at Flint.

Radio sets and parts at the Battery Shop. Phone 24 for demonstration. L. Miles. adv.

Mrs. George Ramsey and children of Cadillac were here first of the week visiting friends.

All kinds of Furniture, Stoves and Ranges, etc., sold on easy payments at C. J. Malpass Hdwe. Co. adv. t.f.

Mrs. Ed. Christensen of Rapid City visited a few days this week at the home of Mr. and Mrs. Julius Johnson.

Call Phone 24 for Expert Storage Battery and Electrical Service.—The Battery Shop, L. Miles. adv. 27th.

Mr. and Mrs. Clifford Hammond returned to Port Huron, Thursday after a visit with his mother, Mrs. E. Hammond and other relatives and friends.

Mrs. M. A. Lemieux who was here for a visit returned to Flint, Thursday. She was accompanied by her daughter Mrs. Chas. J. McNamara and son, who will remain there for a visit.

Miss Frances Rogers entertained over 40 young folks at a Hallowe'en party, Monday night at her home. The house was beautifully decorated for the occasion and the evening was spent in games and music. The guests came masked and a prize was given to the best—Paula Wright, who made a very sweet old lady. After a dainty lunch, the lights were turned out and ghost stories were told by all, seated around the lighted fireplace. The guests departed at a late hour after having enjoyed a delightful evening.

Dictator Orders Potato Crop Split.

Munich, Bavaria.—Dictator van Kahr has ordered the potato growers in the Rhenish section of Bavaria to deliver 30 per cent of their crops to the consumers under the threat of confiscation and money or prison penalties.

Cleveland to Have Manager.

Cleveland.—The first big city to try the City Manager form of government, Cleveland will elect 25 City councilmen Nov. 6. The councilmen will be elected from four districts, will take office Jan. 1, and elect the city manager shortly after.

Norway Purchases Russian Grain

Moscow.—An agreement has been signed between the Russian and Norwegian governments, according to Moscow newspapers, whereby Norway will buy all her grain from Russia this year. The amount is estimated at approximately 200,000 tons.

New Currency Planned in Ruhr.

Dusseldorf.—New currency, backed by public utilities, which will replace the paper marks in general circulation, has been decided upon for the Dusseldorf district by the newly formed economic council of 12 Germans and five French representatives.

Drives Flaming Locomotive.

Bridgeport, Conn.—With the wood-work of the engine cab of a train from Springfield for New York in flames, Engineer Mooney, of Springfield, Mass., stuck to his throttle and brought the train into the station. The engine was uncoupled and live steam used to put out the flames.

Many New Freight Cars in Operation

Washington.—During September, American railroads added 18,519 new freight cars and 380 locomotives to their equipment stocks. This brought the number of new cars installed in service since January 1 to 134,636, and the number of new locomotives added during the same period to 2,936.

Bootlegger's Fine's Finance Town.

Akron, O.—Summitt county bootleggers have contributed so much money to Silver Lake village in the last 19 months that that community has the lowest tax rate for 1924 of any municipality in the county, according to Mayor William R. Lodge, who presides over the village court.

Midget Given College Honor.

Notre Dame, Ind.—"The world's smallest college student" is the distinction claimed for Leo McCauley of Boston, now attending Notre Dame university. McCauley is 4 feet 2 inches tall and tips the scales to 66 pounds. But university authorities say they don't grade a man on his size.

Has First Auto Crash.

Nantucket, Mass.—Nantucket has just had its first automobile accident in which anyone was injured. The victim was George Dabney of Boston, who was badly smashed up when a car in which he was riding collided with another. Until May, 1918, automobiles were barred from the island.

True Disciple of Comus

P. G. WODEHOUSE

The gods must have been having a revel on Mount Olympus, and there was a rainbow in the sky when Pelham Grenville Wodehouse was born. Strangely enough, for he is a humorist, the event occurred in England—

at one of those places with a whole string of names denoting the town, county, road, farm, grove, house, nearby stream and current state of the crops.

After going through the customary boys' schools, colleges, etc., and getting married, he set up in business as a writer in London; but realizing that there was no proper outlet for such effervescent humor as his in staid old England, he came to the United States in 1900. Right away he caught the American style; in fact his brand of fun was just what we had been needing. He has tickled the sides of Americans with more than a dozen novels and innumerable short stories, musical comedy lyrics and plays. One of his most smashing successes is "Three Men and a Cradle," which will be printed serially in this paper and which you must not fail to read.

First Methodist Episcopal Church
Rev. Henry Hulme, Pastor.

Sunday, November 4, 1923.
10:00 a. m.—Public Worship. Subject:—"The Reality in the Christian Life."

LATEST DISCOVERY
YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Witch's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Pigeon Flies 1,200 Miles.

When the liner President Garfield arrived at New York recently she had on board a carrier pigeon which dropped into the lap of a passenger when the ship was 1,200 miles off the English coast. It bore a tag marked "K. 22, Norfolk, England."

Needed for Hogs
 Cholera, White Scour, Pneumonia and Worms Preventable.

If hog raising is to be made profitable, the animals must be kept healthy. To insure this, sanitary quarters and equipment are necessary. Cholera, white scour, pneumonia and worms are some of the afflictions from which hogs suffer, that are directly traceable to insanitary quarters and surroundings. These diseases annually cost the hog raisers of this country almost unbelievable sums of money. All of them are largely preventable if the animals are provided with clean, warm and otherwise comfortable quarters.

Surfaces Easily Cleaned.

From the very nature of concrete, structures built of it do not absorb filth or invite disease germs and vermin to make their homes in and about them. Concrete surfaces are easily cleaned and kept clean. Concrete floors and walls may be kept in sanitary condition by occasionally scrubbing down with water to which antiseptic or germicidal solutions may be added if desired. Concrete is rat proof, rot proof, rust proof, wind proof, free from all the usual maintenance required on other types of construction. It makes the expense-proof permanent improvement.

The skylight hoghouse shown in the illustration, so called because of the rows of skylight sash on the roof, which admit light and sunshine, was originated by the Iowa experiment station. It is generally located so that the long way of the house runs north and south. Morning sun coming through the windows on the east side

Skylight Hoghouse.

of the roof supplies direct sunlight to the west row of pens. In the afternoon the west row of windows enables flooding the east row of pens with sunlight. In this way every portion of the floor is reached at some time during the day by direct sunlight. The little pigs as well as the older ones enjoy the warm spring sun and it helps to make them active and keep them healthy. The well-lighted hoghouse presents a more pleasant, cheerful aspect also for those who must take care of the animals. Likewise there is no greater enemy of disease germs than plenty of sunlight. As the windows are located in the roof instead of in the walls, the sides of the building are kept low. This results in less overhead space, which insures a warmer as well as a less costly building. In some cases, skylight hoghouses are built with the long way running east and west, then windows are placed on the south slope of the roof. The top row furnishes light for the north pens, and the bottom row, the pens along the south wall.

Favored in Many Sections.

The popularity of the half monitor roof type of hoghouse is not confined to any particular part of the United States. Everywhere there are hog raisers who favor it. It is always located so that the long way runs east and west with windows on the south side. The top row of windows lights the north pens while the lower row supplies sunshine to the pens along the south wall. The upper row of windows is placed at such a height that the sun will shine on the floor of the north row of pens at farrowing time. As this time will not be the same for all hog raisers and since the sun's rays have a different slant at different seasons and latitudes, the builder should figure out the height at which to place these windows.

Poison Ivy Eradicated With Waste Motor Oil

A scientist connected with one of the mid-western universities says that poison ivy may be eradicated by saturating the ground at the base of the plants with waste motor-oil from the crank-case. Where a farmer wishes to kill out this pest on a large scale arrangements could be made, no doubt, with automobile service stations for saving the drainings from cars which have their oil supplies replenished. Waste lubricant of this sort has little commercial value and can be obtained without great cost in considerable quantity if arrangements are made for saving it.

To him who hath not the joy of living, let him read this story and acquire it; to him who hath it, let him read and acquire more.

Better than a physician's prescription for any depression that may afflict you; better than a change of air or a course in dieting. Mr. Wodehouse's treatment consists of unlimited doses of mirth. He makes a whole flock of smiles grow where none grew before.

If you take pleasure in your grouch and wish to go on nursing it, do not read this story; for glooms shrivel up and die like microbes on a hot stove, under the bright rays of this author's humor.

Each Serial Installment a Burst of Delight in
The Charlevoix County Herald

Mt. Pleasant—Isabella County farmers have organized a corporation to operate a co-operatively-owned elevator to be located at the county seat. More than 150 stockholders have already subscribed and the directors and officers chosen. W. J. Hazelwood, manager of the local farm bureau, is the secretary-treasurer. The organization will be capitalized at \$50,000.

Detroit—Detroit contributes more to the internal revenue of the United States government than any other city in the country with the exception of New York and Chicago. Collector Fred L. Woodworth reports, Detroit's collections were \$175,142,474 for the year, exceeding those of Philadelphia by nearly \$22,000,000, while Chicago exceeded Detroit by almost the same amount.

Kalamazoo—Under the direction of John C. Hoekje, 37 extension classes have been organized by Western State Normal school in 24 cities of southwestern Michigan. By means of the extension courses teachers can continue their professional work and still pursue their studies in the local school. Courses are being offered in psychology, literature, history, economics and other subjects.

Ann Arbor—In recommendation of the committee on a code of ethics for newspaper practice, the University Press club of Michigan, holding its fifth annual session here, adopted the "Canons of Journalism," established by the American Society of Newspaper Editors, in Washington, D. C., April 23, Michigan being the first state to take such action, which it is believed, will lead toward recognition of a national code of ethics for newspaper publishers.

Making the Right Friendships.

If you have a little fairy in your home or a big one for that matter, that's just the place where a subscription to The Youth's Companion will fit in. When the young folks bring new acquaintances to the house you are mighty careful to find out about them before admitting them to intimacy. In the same way you should make sure whether the mental friends that they make through reading are of a kind to inspire them or to destroy all the ideals that you have been at so much pains to implant. Try the Youth's Companion for a year. See how quickly it becomes an indispensable member of the household, one of unflinching charm and constant stimulus to high endeavor.

- The 52 issues of 1924 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:
1. The Youth's Companion—52 issues in 1924.
 2. All the remaining issues of 1923.
 3. The Companion Home Calendar for 1924. All for \$2.50.
 4. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$3.00.
- THE YOUTH'S COMPANION,
 Commonwealth Ave. & St. Paul St., Boston, Mass.

Kalamazoo—Final figures show Western State Normal registration 200 higher than ever before. The enrollment total is 1,987 students, 621 of whom are men. Twelve states one foreign country and 69 Michigan counties are represented, according to announcement from the office of President D. B. Waldo. Students have come from Florida, Illinois, Indiana, Iowa, Massachusetts, Minnesota, Nebraska, Ohio, Oregon, Pennsylvania, Wisconsin and Wisconsin. One student has been registered from Bulgaria.

All Parts of Country
 's Production Increased in Last Few Years.

Produced by the United States Department of Agriculture

Winter rye is the hardest of all cereals. It can be grown in all parts of the country, says the United States Department of Agriculture, but is most profitable in the northern and eastern states. Its production in the United States has increased rapidly during the past few years, due chiefly to a heavy foreign demand, high-priced labor, low yields of wheat, and the development of improved varieties of rye. It is grown largely as a cash grain crop in the western half of the country, but is used also for pasture, as a green-manure or nurse crop and to smother weeds.

The ordinary time for sowing winter rye in the northern part of North Dakota and Minnesota is about September 1, with later dates in sections south of this. Many farmers will find it profitable to sow winter rye yet this fall, using grain stubble, corn ground, fall-plowed land, or summer fallow, if climatic conditions permit, the department believes. Sowing on grain stubble is often the most profitable because of the cheaper cost of production. The grain should be sown with a drill at the rate of four to six pecks per acre.

In the important rye-producing western states the average acre value of the rye crop is somewhat less than that of wheat. While the yields of rye usually are higher than those of wheat, the price is much less, being largely determined by the foreign markets which use most of our crop. At low prices rye cannot be grown for grain at a profit except under good management and in favored localities, the Department of Agriculture says. While rye makes good hay, green manure, pasture, or a nurse crop for legumes, it is not a suitable concentrated feed for live stock unless mixed with other grains. It is too heavy and sticky and is not very palatable feeding tests show. When fed in mixtures rye has a feeding value lower than corn, but nearly equal to that of barley.

Keeping Extra Team in Slack Seasons Is Costly

Did you ever stop to figure out just how much it was costing you to keep an extra team on hand in slack seasons, or to have them eating out the farm when they were idle during the winter months. The cost of keeping a horse one year in 1921 averaged about \$100, according to figures made up by the Department of Agriculture. Feed and bedding made up about 60 per cent of this figure, not forgetting to figure what the pasture was worth that the horses used.

With this in mind, it is not only easier to see that a farmer can estimate pretty closely whether it is worth something to keep an extra team that is idle most of the time, or to raise colts and dispose of the older horses every year or two. There are a good many progressive farmers who have found that it pays to raise a couple of colts each year, to make the mare pay a little of her cost back. Then they are in position to sell off an extra horse or two if they find there is no real need for keeping him during the slack season.

Hogs Take First Place Among Ohio Live Stock

Hogs and sheep have changed places in the farming scheme of Ohio since 1880. Then, the census showed more than 8,000,000 sheep and 2,000,000 hogs. Now it shows something over 3,000,000 hogs and 2,000,000 sheep. All other forms of live stock have increased during the same 60-year period, although since 1900 horses and mules show a net decrease. The equine population of Ohio in 1920 is reported in the census as 842,313. Poultry shows the greatest increases in numbers, from 8,000,000 to 13,000,000 between 1880 and 1920, and then steadily about 2,000,000 each decade to the present total of 20,232,057.

More Alfalfa, Less Corn, Slogan of Many Farmers

"More alfalfa and less corn" is the slogan of many farmers right now. Hay is getting scarcer, corn is being with numerous ill, and soils are becoming more difficult to handle. Alfalfa builds up soil, instead of wearing it out, and in all dairy districts an acre of alfalfa is worth three times as much as an acre of corn. Ten tons of corn silage contains about 280 pounds digestible protein, while an acre of alfalfa making four tons of hay would contain 682 pounds of protein. One acre of alfalfa making four tons is worth right now about \$100. One acre of corn making 50 bushels is worth now about \$35.

Cabbage and Turnips Do Well in Pit Storage

If the cellar space is limited, cabbage and turnips can be well-cared for by pit storage. Select a high spot where the water drains off quickly. Dig a trench three feet wide and two feet deep. Floor with boards. Put in the vegetables and then lay on a light covering of straw. Put boards over this, providing a small opening at the top for ventilation. Cover with eight to twelve inches of dirt. Apples may be kept in the same way. There is seldom any loss from such a pit.
