

Charlevoix County Herald.

Vol. 28

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 1, 1924.

No. 5

Michigan Bell Telephone Co. Reconstructing Lines In City

WORK WILL PROBABLY BE COMPLETED IN SIX TO EIGHT WEEKS.

The Michigan Bell Telephone Company have had a crew of men at work in East Jordan for several weeks past doing the preparatory work of removing the poles and wires from the main streets of our business district in accordance with the terms of an agreement entered into by the City of East Jordan and the Telephone Company.

Work of the Telephone Co. covers the removal of the present construction on five blocks on Main Street and two blocks on Bridge Street, and the placing of new cables and poles in the side streets.

All telephones in the business section are to be rewired. The present office entrance for cables will be abandoned, and a new office entrance will be made in the rear of the Postoffice Block.

In addition, the Telephone Company are placing 1250 feet of cable on East Jordan's West Side to eliminate the present open-wire construction.

When this work is completed, East Jordan's main-business section will be free from unsightly poles and wires.

Last fall the East Jordan Electric Light & Power Co. fulfilled their part of the contract by removing poles and over-head wires from this section of the City and installing a boulevard lighting system.

TIPS FOR TAXPAYERS

In the making of his 1923 incometax return the business man, professional man, and farmer may deduct from gross income all items properly attributable to business expenses. In the case of a storekeeper they include amounts spent for rent of his place of business, advertising premiums for insurance against fire or other losses, the cost of water light and heat used in his place of business, drayage and freight bills, the cost of repairs and maintenance to delivery wagons and trucks, and a reasonable allowance for salaries of employees. A professional man, lawyer, doctor, or dentist may deduct the cost of supplies used in his profession, expenses paid in the operation and repair of an automobile used in making professional calls, dues to professional societies, subscriptions to professional journals, office rent, cost of light heat, and water used in his office, and the hire of office assistants. The farmer may deduct amounts paid in the production and harvesting of his crops, cost of seed and fertilizer used, cost of minor repairs to farm buildings (other than the dwelling), and cost of small tools used up in the course of a year or two.

OBITUARY—

CLARENCE MOORE

Clarence Moore, aged nine years, passed away at the home of his parents Mr. and Mrs. Jos. Moore, at Flint, Mich., Wednesday, January 23rd. The cause of his death was pneumonia. The remains, accompanied by the bereaved parents and brother, Walter, were brought to East Jordan, Thursday, Jan. 24th. Funeral services were held from the home of Fred Moore in South Arm Township, Friday last, conducted by Rev. Salisbury of Central Lake. Interment at the Jones cemetery.

Detroit—Five Michigan men are included in recent list of acceptors of commissions in the officers' reserve corps, as announced by the war department. They are Samuel C. Crow, Detroit; captain medical corps; Floyd R. Clark, Grand Rapids, second lieutenant infantry; Roy B. Wolfe, Detroit, first lieutenant, sanitary corps; Nelson H. Mosher, Mount Pleasant, second lieutenant infantry; and William A. Bergin, Ypsilanti, captain, signal corps.

Lansing—The highway committee of the State Administrative Board has tentatively agreed to go through with plans for paving M-16 from Detroit to Grand Rapids, and will probably give considerable mileage to the West Michigan Pike. Further than that the condition of the State's finances will govern. The Administrative Board authorized the issuance of \$3,000,000 in highway bonds, bringing the total issue to \$13,000,000. This leaves \$11,000,000 in the potential \$50,000,000 fund, to be spent this year.

JORDAN RIVER LODGE NO. 360 I. O. O. F. INSTALL OFFICERS

At a meeting of Jordan River Lodge No. 360 I. O. O. F. held at their hall last Friday evening the following officers were installed for ensuing year:—

N. G.—J. K. Bader,
V. G.—Earl Shay,
R. S.—E. L. Ikens,
F. S.—R. Atkinson,
Treas.—N. Jones,
W.—A. Gognon,
C.—V. Clark,
Chaplain—B. Scott,
R. S. to N. G.—F. Wright,
L. S. to N. G.—B. Arnston,
R. S. to V. G.—P. Anderson,
L. S. to V. G.—H. Sweet,
R. S. S.—Wm. Caplin,
L. S. S.—F. Vermilion
I. G.—T. Scott,
O. G.—G. Sturjel,
P. G.—Henry Westjohn,

Muskegon—The 1st show in Michigan to be designated a gold medal show by the National Poultry Association opened here with 1,000 entries. Birds from all over Western Michigan were entered, while 300 rabbits also were on exhibit.

Benton Harbor—Mrs. Henrietta Avery, one of Benton Harbor's pioneers, has paved the way for modern Y. M. C. A. and Y. W. C. A. buildings in the twin cities of Benton Harbor and St. Joseph, by donating a building site and \$200,000 in cash.

Sturgis—The old Detroit-Chicago turnpike, known as M-23, has put forth its claim to being one of the famous roads of the world. It claims to be the longest continuous road in the world. From Detroit to Chicago, for 300 miles, this road winds but never turns.

Lansing—The state expects to spend about \$75,000 to mark highways with direction signs this year, according to G. C. Pilling, deputy highway commissioner. At a recent conference of highway engineers, it was decided to placard the roads so thoroughly that no motorist can "get lost."

Lansing—A complete tabulation showing the collection of state taxes for the year 1922 and the number and amount of delinquents by various counties has just been prepared by the auditor general's office. It shows that there still is \$1,362,912.41 in taxes to be collected by the state from the counties.

Saginaw—Park Commissioner George Phoenix has announced his decision to place \$100,000 in his budget for the equipment of a first-class tourist camp in Saginaw. A section of Rust park has been set aside and the Saginaw Automobile club, sponsor of the plan, is co-operating with Commissioner Phoenix.

Lansing—Eight thousand five hundred men and women were inscribed on the list of Michigan notaries public with the close of 1923, a review of the notarial commissions for the year shows. That number does not represent all new commissions. Michigan today has an army of notaries that runs far into the five figures.

Iron Mountain—James J. Corcoran, of Escanaba, the oldest employee in point of continuous service, on the Peninsular division of the Northwestern railway, has been placed on the company's pension list after more than a half-century of service. He became a locomotive engineer in 1879, and was the first man to operate a coal-burning locomotive on the Peninsular division.

Ann Arbor—Dean Maximo Kalaw, of the University of the Philippines, Manila, will teach in the political science department of the University of Michigan beginning next semester. President M. L. Burton announced recently. Dean Kalaw comes to Ann Arbor on the exchange professorship plan. Professor J. R. Hayden, of the political science department, having lectured in the Philippines last year.

Washington—Three railroad lines in Michigan will be equipped with devices which will automatically bring trains to a stop, or within a speed subject to cut off when they enter blocks where danger is positive and even when the trains are not being properly controlled by the engineers. This work is to be done in compliance with an order issued by the Interstate Commerce Commission.

Grouchiness is next to ungodliness.

BUICK EMPLOYEE DIES AT WORK OF APOPLEXY

Below article is taken from a recent copy of a Flint (Mich.) newspaper. The clipping was sent by Friends here the past week with no date attached.

Joseph A. Bennett, 62 years old, died suddenly of apoplexy this morning at Buick factory No. 11. He reported for work at the usual time and death occurred about 8 o'clock. He was born in Lakeport, Mich., May 3, 1861, the son of Mr. and Mrs. Joseph Bennett. He lived in Flint the last seven years, coming here from East Jordan, where he resided 14 years. Previous to that time he lived in Boyne City. On May 23, 1894, he was married to Sarah Knapp, at Petoskey.

He leaves his wife, two sons, Ralph of Boston; John at home; two daughters Mrs. H. D. Fisher of Clio; Mrs. Nathan Britting of Otisville; three sisters, Mrs. Jonathan Kitson of British Columbia; Mrs. E. A. Annabel of Grand Rapids; Mrs. Clara B. Noyes of Flint; three brothers, Edward of Alpena; Homer of East Jordan and Gordon of Bonifass, Mich.

By B. O. Hagerman

WHERE IS POVERTY?

The writer was engaged recently in a conversation with one of our rural supervisors of the county, which was naturally along agricultural lines or plainly speaking, "farmin'."

During the course of the interview our talk drifted towards the finances of farming. It was and is generally conceded that the farmers as a whole are financially inadequately remunerated for their agricultural labors. In other words they are under-paid. The writer admits this. But nevertheless let us stop and glance around and see if the agriculturalist is the only one in financial difficulties.

The question was brought up as to most aid from the county, families on the farm or those in town. Here are the figures that were given in reply to this question. From the amount between two and three thousand dollars paid in bills to the poor not ten percent of it went to people on farms, but instead the majority of this amount was paid to families in town.

Farmers may not have a large savings accounts but they are sure of at least a living and fuel to burn to keep them warm with.

In the January 12 issue of the Country Gentlemen in an article entitled, "The Country Woman", This article explains why great men, men who are leaders in thought and action come from the country. This article is not exactly along the line of farm finances, but it again reminds us of a few of the advantages of the farm that do not exist in the City.

Contentment cannot be purchased with money, and it is the writer's belief that there are more chances of contentment on the farm than in the city.

FREIGHT ZONE CHANGES MEANS MONEY

The recent order from the Interstate Commerce Commission to the railroads to re-arrange their freight rates is going to mean much to the shippers of Michigan of Agricultural Products. It is estimated that the entire amount saved will be over a Million and a half dollars in the lower peninsula alone.

Instead of the previous five zones there are now only four.

Shippers north of Montcalm and Gratiot Counties, will not be affected as favorably as those below those below those counties. However, the savings in the immense shipments of potatoes out of Michigan will be considerable although amounting to only a few dollars a car. It is estimated that on this commodity alone that a saving of \$40,000.00 to \$50,000.00 will be made the shipper.

On a car load of potatoes from Petoskey to Toledo a saving of approximately \$4.00 will be made. Other points vary.

This is another instance where organization has paid. The Michigan State Farm Bureau took a very active part in this case and all over the entire state credit is given that Farmers' Organization for putting this huge piece of work across.

The average family judges whether the country is prosperous by whether father is able to buy a new car this year.

Newspapers Go As First Class

Postmaster General New Issues Far Reaching Order.

As a result of several months of investigation and study by experts of the Post Office Department, Postmaster General New today issued the first definite, concise and complete program that has ever been put out by the Department for the mailing, transmission and delivery of newspapers.

This order is most important. It is far reaching. It gives the same expedition to newspapers as is accorded to first class mail.

The order is the result of painstaking effort on the part of the Post Office inspectors, under the direction of First Assistant Postmaster General Bartlett. Carefully worded and minute instructions have been issued to all employees engaged in handling the mails, so that there will be no possibility of misunderstanding the importance of getting newspapers to the reader with a minimum of delay.

The essence of the order is that newspapers shall not be mixed with parcels post at any point in their dispatch from the publishers' offices until their delivery to the addresses. Papers shall be handled by themselves, and kept in constant transit, not being sent to railway terminals to be reworked. In other words, they are to be handled in the same manner as first class mail.

An important feature of the order is that no publication shall be given any less efficient or less expeditious treatment than at present. That means that publications other than newspapers will not suffer one iota from this progressive innovation, made by the Post Office Department.

Another striking feature of the order is the elimination of sacks of mail which are known to the business world as "mixed mail." Sacks of mixed mail some times contain letters, papers and parcels post, and often times the entire contents were treated as parcels post. This order will prevent a recurrence of that condition.

Another important feature of the order is that postmasters are required to notify publishers in each instance when they do not hit the dispatch which they advertise to hit; also to notify publishers when they are sending to wrong addresses and to the addresses of deceased persons. Publishers will also be notified when they are putting up their mail in an incorrect manner.

Under the new system, newspapers will be made up in separate sacks plainly labeled with the word "NEWS-PAPERS." If there are only a few copies of newspapers at the point of dispatch, they will be placed in pouches with first class mail or in separate sacks, even though the sacks are only partially filled.

This order means much to the American public. It is one of the most important and far reaching steps in post office history. It is for the benefit of those who desire to have their newspapers placed before them at an early a moment as possible. This should keep both the city and rural population in closer and quicker touch with their several fields of activities.

Monroe—Fire of undetermined origin caused damage estimated at \$15,000 to the rear of St. Michael's Catholic school building here last week.

East Lansing—Members of the Michigan Press association will hold their regular annual meeting here during Farmers' week at M. A. C., February 5, 6 and 7.

Marcellus—John D. Bent, a farmer living near this village, was blinded in one eye recently when a chip from the wood he was splitting flew up and struck him in the face.

Owosso—For more than a half century H. W. Martin, pioneer business man, now retired, has lived on the same plot of ground in Owosso, settling here 60 years ago.

Grosse Pointe—After an illness of two weeks, State Senator Walter J. Hayes, president of the American State Bank of Detroit, died at his home in Grosse Pointe last week.

Ecorse—Mrs. Harriet Sans Souci, 88 years old, mother of one of Michigan's oldest families, mother of 11 living children and 108 living grandchildren and great grandchildren, died in her residence in Ecorse last week after a short illness.

One who watches his step will always have a step to watch.

MICHIGAN TO FURNISH ROAD MAP EACH MONTH.

A new service for touring motorists that will be warmly received is the new monthly "road" map idea created by H. J. Gray, Secretary-Manager of the Michigan Tourist and Resort Ass'n, Grand Rapids, Michigan, who announced that this service will be installed this Spring.

It is Mr. Gray's idea to revise the official road map of his organization monthly, showing exactly the road conditions on all of the Michigan roads that will prevail during the months for which the map is issued.

If you get a new line map of Michigan with the intentions of doing your touring in that section during that month you will have an absolutely accurate index to conditions of every road detour and a clear definition of where construction is going on and how far it has progressed, etc.

The idea is an outgrowth of complaints on the part of tourists that road maps which they have purchased are out of date by the time they have use for them. The Michigan Tourist & Resort Association will issue this monthly road map to all inquirers without charge and it is expected that it will eliminate any possible complaint as Pathfinders, Michigan Highway Commission and other sources of information known to be absolutely accurate will be used in compiling the monthly map, and it is expected that tourists will find conditions everywhere exactly as pictured on the map, even to the progress of road construction.

The owners of The Battery Shop are experienced radio men and are well fitted to take care of the new comers in radio enthusiasm as well as the dyed in the wool fans.

THE BATTERY SHOP NOW HAS THE DeFOREST AGENCY

Radio fans who like to brag about the distance they can get will be interested to know that the DeForest Radio Tel. & Tel. Co. of Jersey City, N. J. has entered into a contract with the Battery Shop, whereby the latter becomes an E. Jordan agent for the complete DeForest line.

To possess a DeForest agency nowadays in the radio field is as valuable as to possess an agency in the older established manufacturing industries.

Radio is sweeping the world in its enthusiasm and it is predicted that it will occupy as important and necessary a place in every day life as does the telephone.

What all fans seek is a receiving set that enables them to get long distance, dependable selectivity and supreme audibility.

All these The Battery Shop is prepared to guarantee, because the DeForest receiving sets for which they hold the agency have a record for the clearest reception in existence and an easy capability for 3000 miles and more. The Battery Shop also handles DeForest parts for those fans who want to "build their own."

ROAD PROGRAM IS ANNOUNCED

Governor Plans Concrete Highways To Cost 15 Millions.

Lansing—Five hundred miles of concrete roads and such additional gravel roads as the State can pay for with funds derived from license tax receipts and the sale of road bonds, will be built by the State Highway Department in 1924. Gov. Alex. J. Grosbeck announced following a preliminary study of the "tentative road program" drafted by Frank F. Rogers, state highway commissioner, and submitted to the State Administrative Board last week.

Of those 500 miles, the Highway Department engineers say fully 100 miles can be built by the prison laborers already organized for road work.

The remaining mileage must be constructed by contractors employing free labor at an estimated cost of between \$30,000 and \$35,000 a mile, unless the prison camp crews are enlarged and provided with additional equipment.

The Governor's 500-mile program consequently would be in the neighborhood of \$15,000,000, as against \$2,844,513, the estimated cost of the 1,122 miles included in Mr. Rogers' proposal.

He may be cocky at the office but he's as likely as anybody else to be benched at home.

Last Number Lyceum Course

Skibinsky-Reed Duo Next Monday Night, Feb'y 4th.

TO PLAN NEXT COURSE

Matter Will Be Discussed Prior To Evening's Entertainment.

[By Supt. A. J. Duncanson]

A real event of the Musical season will be the appearance at the High School, Monday, Feb'y 4th, at 7:30, of the Skibinsky-Reed Duo.

Alexander Skibinsky is one of the leading pupils of Eugene Ysaye, world famous violin virtuoso and is a musician and composer of note, recognized for the past several years as a most brilliant artist. He appears in concert with Myra Reed and he is an object lesson of accomplishment.

Anyone can realize what an important factor the left hand of a violinist is, and can imagine what it would mean to such an artist to have that member mutilated. This is what happened to Mr. Skibinsky. The hand was saved with but the loss of one finger, the first, and the story of his triumph over this deformity reads like a fairy tale.

Myra Reed has the distinction of being the most remarkable artist ever turned out by the Cincinnati Conservatory. She is a pianist of rare ability and also possesses a fine soprano voice. She has attracted attention in both of these talents which are ordinarily reached. Miss Reed appeared as soloist with leading Symphony orchestras and has given many solo recitals in the musical centers of this country. Her voice has a remarkable range, almost covering contralto register and reaching G above high C.

These two artists give a program of the highest type of music. It is presented in such a manner that it is received and enjoyed equally by the music student and the layman. Duet numbers are given with the greatest sympathy, which is as it should be, for in private life they are Mr. and Mrs. Alexander Skibinsky.

This is the final number of the High School Lyceum Course and one it seems that no East Jordan music lover could really afford to miss.

It has been a real problem to the local committee to know just how to conduct the Lyceum Course so that it will reach all classes, giving them high class artists and at the same time make the Course pay out. This is a serious question in the writer's mind. I have made very definite inquiries, wondering if we could not reduce the price to \$1.50, possibly having a large attendance and even taking in more at the door than the present price, but some of the best citizens have informed me that there are only so many that will attend this type of entertainment and that we would be just that much in the hole at the end of the season. The writer invites suggestions. I think the matter will be taken up just before the Skibinsky concert for a five minute discussion so that we will know a little more about how to buy next year's course.

Will the patrons kindly come on time and help decide this rather important matter for it seems too bad to have many younger people and older people as well, who would get a great deal of good from the Lyceum Course, miss it when there are perfectly good seats for them and, at the same time, feel that four or five dollars is too great a sum to spend for this entertainment. The idea is to have the Course reach a great number of East Jordan citizens. Kindly think the matter over.

Card of Thanks.

We wish to thank the many friends for their kindness and sympathy during our recent bereavement.

Mr. and Mrs. Joe Moore and Family.

An automobile nowadays is nearly fool proof, but drivers are not.

Question: If Mexico is having a "civil" war, what would an uncivil one be like?

FOLEY PILLS BROUGHT RELIEF
John R. Gordan, Danville, Ill., writes "I suffered with kidney trouble; could not sleep and was always tired. I got some FOLEY PILLS and after a few treatments I felt better." FOLEY PILLS are a diuretic stimulant for the kidneys; aid in flushing and keeping them active.—Hite's Drug Store, adv.

Briefs of the Week

Henry Clark is at Grand Rapids, Lansing and other points this week.

Born to Mr. and Mrs. Glenn Burton, a son—William Ashland—Saturday, Jan. 19th.

Mr. and Mrs. O. T. Johnson of Torch Lake are visiting her parents, Mr. and Mrs. James Murray.

Mr. and Mrs. Herman Goodman returned home Tuesday from a visit at Chicago and Detroit.

Special admission price for the last number of the Lyceum Course next Monday. Adults 50c; Pupils 25c.

Mrs. George Eldwell and children of Traverse City came Monday to join her husband, who is employed here.

H. W. Miller returned to Cadillac Wednesday, after a two weeks visit at the home of Mr. and Mrs. Horace Hipp.

Wanted—Four Foot Fuel Wood delivered to yards.—Michigan Iron and Chemical Co., Phone 38, East Jordan. adv. 3-3.

Mr. and Mrs. Louis Bathke of Petoskey were here first of the week for a visit with her parents, Mr. and Mrs. Andrew Olson.

Mrs. Pearl McHale fell on an icy hill near the E. J. & S. R. R. depot, Wednesday, tearing the ligaments of her left ankle quite badly.

Ed. Stallard received a badly wrenched back last Friday morning. He was working at the Chemical Plant and fell into a six foot sewer that was covered with snow.

The Woman's Relief Corps will entertain in honor of the boys of '61 at their hall Saturday, Feb'y 2nd at noon. A Chicken dinner with all the trimmings will be served. All old soldiers welcome.

Miss Marjorie King, daughter of Mr. and Mrs. Guy King of this city, and Kenneth Usher, son of Editor and Mrs. A. J. Usher of Charlevoix, were united in marriage at Grand Rapids, Thursday, Jan'y 24th. They will make their home in Grand Rapids, where Mr. Usher is employed.

Presbyterian Ladies Aid will meet at the church parlors, Friday Feb'y 8. In the evening will be the regular church supper. Plans for an apron sale are being made. Bring any patterns you may have and also goods. Hostesses for the afternoon, Mesdames Brabant and Gidley, for the evening, W. P. Porters S. S. class.

Russell Duffey left Thursday for Chicago.

Charles Nachazel came home Wednesday from Muskegon.

F. R. Bulow left Thursday for a visit with friends at Muskegon.

Mrs. Walter Davis returned home Tuesday from a visit at Flint.

Mrs. Rachael Webster now has a position at the Peoples Store.

Miss Luella Woods of Charlevoix is visiting her sister, Mrs. Mose Zess.

Miss Elsie West returned home Tuesday from a visit at Grand Rapids.

Mr. and Mrs. Wm. Gleason returned home Thursday from Mishawaka, Ind.

Mrs. Alice Sedgman returned home Monday from a visit with relatives at Flint.

Clyde Bigelow underwent an operation at the Reyorraft Hospital, Petoskey this week.

It will cost you only 50 cents to enjoy the Skibinsky-Reed Duo at School Auditorium next Monday night.

R. P. Maddock was at Charlevoix on business Wednesday. His wife accompanied him and visited friends at Phelps.

The Women's Christian Temperance Union will meet Friday, Feb'y 8th, at 2 o'clock p. m. in the Library building. Visitors welcome.

Wanted—Teams to haul wood at East Jordan Michigan Iron & Chemical Co. Inquire of S. G. Sedgman, Wood Supt., Phone 216. adv. 4-3.

Mr. and Mrs. Jos. Moore, with son, Walter, who brought the remains of their son, Clarence, here for burial last week, returned to their home at Flint, Monday.

Dr. J. D. Munson, Superintendent of the Traverse City State Hospital for the last 38 years and nationally prominent in medical research circles, has announced he will resign from the Superintendency there July 1. Dr. E. H. Campbell, head of the Newberry State Hospital will succeed him on that date. It was largely through the efforts of Dr. Munson that the appropriation was obtained from the State for the construction of the new hospital at Traverse City, which will take the place of the general hospital and, in recognition of this service, the new institution will be called the James Decker Munson Hospital.

Misses Yolan left Monday for Grand Rapids to visit her mother.

Call Phone 24 for Expert Storage Battery and Electrical Service.—The Battery Shop, L. Miller. adv. 2715.

All kinds of Furniture, Stoves and Ranges, etc., sold on easy payments at C. J. Malpass Hdqrs. Co. adv. 1-1.

Wanted—Four Foot Fuel Wood delivered to yards.—Michigan Iron and Chemical Co., Phone 38, East Jordan. adv. 3-3.

Last Friday evening the Epworth League of the M. E. Church put on a Hard Time Social. The program consisted of games, followed by a hard time supper. Although it was a bad stormy evening, a large number were present, dressed in the old rags that their fathers and mothers used to wear.

One of the features of the program was a session of Court, where those who wore anything of value were brought before a judge and jury, convicted and fined. Among those who were fined, were Roy Webster, Rev. Henry Hulme and many others. It sure was a night of fun.

The following officers of Jassamine Rebekah Lodge No. 365 were installed Wednesday, Jan. 30th by D. D. P., Lillian Chew.

N. G.—Mary Hitchcock

V. G.—Abigail Locke.

R. S.—Nina Bowen

Fin. S.—Etta Jones

Treas.—Effie Alexander

R. S. to N. G.—Anna Smith

S. S. to N. G.—Nellie Ribble

Warden—Ada Streeter

Con.—Adela Dean

O. G.—Iva Montroy

I. G.—Bertha Heath

Chaplain—Edna Archer

R. S. to V. G.—Nellie Blair

S. S. to V. G.—Ida Bashaw.

FUNERAL OF MRS. JOSEPH ZOULEK THIS FRIDAY P. M.

The remains of Mrs. Joseph Zoulek, passed away at Chicago, Monday night, were brought to her home here, Thursday afternoon.

Funeral services will be held from the home this Friday afternoon at 2:00 o'clock conducted by Rev. Sidebotham. Mrs. Zoulek was a resident of East Jordan for upward a quarter of a century and was esteemed by all who knew her.

Holland—Congressman Mapes, of Grand Rapids, has introduced in the house a bill calling for a survey by the secretary of war of Black lake, with a view to widening and deepening the channel for purposes of navigation between the docks at Holland and the present channel in Black lake from Lake Michigan.

Lansing—Dog licenses put \$210,000 in the state treasury, figures compiled by the auditor general's office here show. As only \$54,000 had to be paid out by counties to refund for damage to stock and property done by dogs, it is estimated that licensing of the genus canis proved profitable to the extent of 474 per cent.

Lansing—A definite policy regarding pensions for aged state employees is to be adopted soon, the state administrative board indicated, having referred a request for a \$50 a month pension for a retired employe to a committee with instructions to submit a complete list of old employes and recommendations regarding pensions.

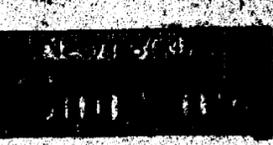

Escanaba—His dog and a radio wire recently saved Julius Flath from a fire, which destroyed his home here with a loss of \$7,000. The dog awakened Flath, whose wife and children were visiting in Minneapolis, and the former escaped from his bedroom on the third floor by letting himself down the radio wire, carrying the dog with him.

Grand Rapids—Eugene A. McCarthy, Robert Bogz and John Szydlowski, all of Grand Rapids; William Flannery, of Saginaw, and Edward Benkecker, of Beal City, students at Cincinnati seminaries, and Cestaus Lipinski, of Cheboygan, attending a seminary at Montreal, will be ordained into the Catholic priesthood in Grand Rapids early in February.

East Lansing—H. W. Gowdy, of Union Pier, took his place as a member of the state board of agriculture at its January meeting here. Gowdy, who was named member of the board last April, succeeds Jason Woodman, of Hawthorne. The new member is a fruit grower of Berrien county and was a member of the Michigan House in the 1919-21 session.

Ann Arbor—Detroiters will have an opportunity to study astronomy under tutelage of a University of Michigan professor, starting in February. It has been announced here. Professor Ralph H. Curtis, assistant director of the university observatory, will offer a course in elementary astronomy at Detroit Central High school. This is the first time the extension division of the university has included astronomy on its list of subjects.

Lansing—The Ingham county road commission has approved the relocation of M-16, a Grand River road, on the line planned by the state highway commission survey. The highway, passes through Okemos, but the new route will take it north of the village, eliminating sharp turns and shortening the road about 800 feet. There was opposition against the change, but the measure has been passed by a two to one vote.

St. Joseph's Church.

D. M. Drinan Pastor.

During Feb'y, March and April.

FIRST SUNDAY OF MONTH Masses 8:00 and 10:30 at East Jordan.

SECOND SUNDAY Mass 8:00 a. m. at East Jordan. Mass 10:30 a. m. at Bohemian Settlement.

THIRD SUNDAY Mass 8:00 and 10:30 a. m. at East Jordan.

FOURTH SUNDAY Mass 8:00 a. m. Bohemian Settlement. Mass 10:30 a. m. at East Jordan.

Fifth Sunday, devotions as announced.

Presbyterian Church Notes

Rev. C. W. Sidebotham, Pastor.

"A Church for Folks."

Sunday, Feb'y 3, 1924.

10:00 a. m.—Morning Worship.

11:15 a. m. Sunday School.

2:30 p. m.—Junior Endeavor.

6:00 p. m.—Christian Endeavor

7:00 p. m.—Evening Service.

The monthly Church night pot luck supper will be held in the basement next Friday (instead of Thursday) at 5:30 o'clock. After supper the play that was given at the joint meeting of the Improvement and Study Clubs Tuesday night will be repeated. All the friends of the church are invited.

First Methodist Episcopal Church

Rev. Henry Hulme, Pastor.

Sunday, Feb'y 3, 1924.

10:00 a. m.—Public Worship. Subject—"Nature's Worship."

11:15 a. m.—Sunday School.

6:00 p. m.—Epworth League. Leader Miss Merle Springstead.

7:00 p. m.—Gospel Service. Subject—"Bargaining With God." The music will be led by Epworth Choir and Orchestra.

6:15 p. m., Tuesday—Men's Fellowship Club Supper.

6:00 p. m. Thursday—Epworth Choir practice.

Thursday 7:00 p. m.—Prayer Meeting and Bible Study.

If you are without a place of worship on Sunday, we invite you to come. We want you, you want us and God wants us all.

Church of God.

Charles T. Clifton, Pastor.

Hours of services: (Eastern Standard Time)

Sunday School—11:00 a. m.

Morning Services—12:00 a. m.

Evening Services—7:30 p. m.

Wed.—Prayer Meeting—8:00 p. m.

The public is cordially invited to attend these services.

Every Friday night—Cottage Prayer Meeting.

All are cordially invited to attend.

Cows Need Minerals for

Best Production of Milk

That the average ration fed dairy cows is deficient in mineral matter, especially lime and phosphorus, is shown in recent feeding tests at the Ohio experiment station.

To overcome this it is well to feed all the leguminous matter—clover, alfalfa or soy-bean hay that the cow will eat. Or the addition of one pound of finely ground limestone and two pounds of bonemeal to every 100 pounds of grain fed is another method of supplying the needed minerals. The limestone carries much calcium and the bonemeal is composed of both calcium and phosphorus. Wheat bran in the grain mixture will also supply mineral matter.

A high producer always gives off more calcium in her milk than she can receive daily in her feed. For this reason it is well to feed the cow liberally of feeds rich in minerals while she is dry, so that she may store a surplus in her body to meet the demands of milk production after freshening.

Ann Arbor—Robert Bridges, poet laureate of England, will sail for America March 22 on the steamer Celtic, according to information to Dr. Marlon LeRoy Burton, president of the university, to make his residence at the University Center for three months. Mr. Bridges is coming to Ann Arbor on the same visiting fellowship that was held for two years by Robert Frost, New England poet. A change of plans had necessitated the delay in his coming, from December until the late winter.

WARSHIPS END TAMPICO STAY

REBELS YIELD TO WASHINGTON'S DEMANDS BY LIFTING BLOCKADE

CLAIMS CONVENTION RATIFIED

American War Craft Ready to Return If Compact is Violated—Cable Communication Restored.

Washington—Mexican revolutionists have yielded to the demands of this government all along the line, according to a state department announcement issued here.

As a result of assurances which the ultimatum forced from General De La Huerta, the Washington authorities have withdrawn the American men of war which were ordered into Mexican waters to protect American interest at Vera Cruz and Tampico. If the revolutionists break faith with this government, however, resorting again to a blockade or to the mining of Mexican ports or threatening the lives and property of Americans, the American warships will be close enough at hand to put back into Mexican waters within a few hours.

According to the state department's announcement, the revolutionists have met the American demands in these particulars:

1. The blockade of Tampico is abandoned and the port will remain open to all foreign commerce.
 2. All mines and other obstructions to shipping in the harbors of Vera Cruz, Frontera and Puerto Mexico will be removed.
 3. Cable communication with Vera Cruz, which has been closed or interrupted for days, has been restored.
 4. Orders have been issued to the revolutionary forces to afford all possible protection to the lives and properties of Americans.
 5. All oil companies in the Tampico region have been informed that they may, with safety, resume operations.
- Despite the disturbed conditions in Mexico resulting from the revolution, political recognition of the Obregon government by the United States has been fully completed when the senate ratified the two claims conventions, upon which the resumption of diplomatic relations were predicated.

PAYS OVER HALF OF AUTO TAXES

Federal Collector Shows City Paid \$78,958,377 of Total.

Detroit—Detroit pays more than half the total sum collected by the United States as taxes on automobile trucks, passenger cars and accessories.

According to figures issued here by Fred L. Woodworth, collector of internal revenue, the total amount collected on these items during the last fiscal year was \$144,280,490 throughout the whole United States. Detroit's contribution was \$78,958,377, as against \$50,120,448 the previous year.

The largest item was that of passenger cars which netted \$92,736,000 in round numbers of which there was paid through the office of collector of internal revenue for Detroit, \$66,961,000, as compared with \$38,327,000 for the previous year.

In the matter of tires and accessories Detroit makes a poorer figure, contributing only \$7,588,000 out of a total of \$48,875,000. This is a trifle less than in 1922, when Detroit's part was \$8,891,000.

ISLANDERS ASK STATE RIGHTS

Porto Ricans Claim to Be Capable of Governing Themselves.

Washington—Modification of the organic act which serves as a constitution for Porto Rico has been asked by members of a Porto Rican delegation in conferences with President Coolidge and members of senate and house committees. The delegates declared "the time has come when we, American citizens that we are, may, with entire safety, assume full responsibility in the management of our own affairs."

Among specific changes in the organic act asked in a joint resolution presented to Congress are:

- Power to legislate without restriction on all local matters.
- Right to elect the governor of Porto Rico, now appointed by the president of the United States, and the president "shall hereafter be made by the governor of Porto Rico, with the advice and consent of the insular senate."
- Right to legislate on all financial matters and agricultural problems and to levy taxes.

Ireland to Establish Radio.

Dublin—Ireland is as yet without established radio broadcasting, and all listening is done against the prohibition of the government. But this condition soon will be changed, for the postmaster-general has decided upon a method of broadcasting control and a group of Irish firms have agreed to work the scheme together. There will be a main station at Dublin. Radio sets will be imported and manufactured locally. The license for an amateur will cost \$5.00.

Picric Acid Big Help to Farmer

Surplus War Explosive Used to Remove Stumps—Sodato Now Available.

(Prepared by the United States Department of Agriculture.)

Some 45,000 farmers in 28 states have used picric acid, a surplus war explosive, says the bureau of public roads, United States Department of Agriculture, which has had charge of the distribution. These farmers have used 7,500,000 pounds of the explosive to clear 250,000 acres of land and to remove stumps from about 65,000 acres in cultivation. It is estimated that the actual saving to the farmers over the cost of commercial explosives has amounted to \$750,000, but the actual benefits have been more far reaching, as thousands of small farms have had the acreage of cultivatable land increased.

The government has also delivered some 4,000,000 pounds of picric acid for road construction by state and federal agencies.

Sodato Now Obtainable.
The last of the picric acid was disposed of a short time ago, but farmers may obtain sodato, an explosive which has recently become available and which many farmers say is even better for stumping than picric acid. The only charge to be made is for carting and preparing for shipment and transportation cost which in general amounts to about one-third the cost of an equivalent amount of dynamite.

In most states arrangements have been made with some agency, usually the state agricultural college, for distributing sodato. Information as to what agency is handling the distribution in any state can be obtained from county agricultural agents or from the state agricultural college.

Picric Acid Shipped.

The total amount of picric acid shipped to the various states is as follows:

Alabama	100 lbs.
Alaska	5,500 lbs.
Arizona	1,100 lbs.
California	30,400 lbs.
Connecticut	87,200 lbs.
Georgia	77,800 lbs.
Idaho	135,100 lbs.
Indiana	24,000 lbs.
Iowa	178,400 lbs.
Kansas	16,100 lbs.
Kentucky	33,000 lbs.
Louisiana	37,200 lbs.
Maryland	500 lbs.
Michigan	1,108,000 lbs.
Minnesota	1,810,400 lbs.
Mississippi	41,000 lbs.
Missouri	90,100 lbs.
Montana	35,200 lbs.
Nebraska	67,200 lbs.
New York	100 lbs.
North Carolina	225,650 lbs.
Ohio	62,000 lbs.
Oklahoma	400 lbs.
South Carolina	33,800 lbs.
Tennessee	81,100 lbs.
Vermont	3,200 lbs.
Washington	72,600 lbs.
Wisconsin	3,412,300 lbs.
Total	7,679,550 lbs.

Many Old Apple Trees Carrying Too Much Wood

Prune, brother, prune with care. This paraphrase of Mark Twain's famous phrase might be taken as a motto by the orchard men, say the pomologists at the Ithaca State Agricultural college, who declare that many old apple trees are carrying too much wood. They warn, however, against cutting out the large branches, since this is likely to injure the tree rather than benefit it.

The proper way to make this thinning is to cut out a number of small branches about the size of the finger, or possibly up to an inch or an-inch and a half in diameter, throughout the tree. This practice avoids water sprout growths and rejuvenates the remaining fruit spurs.

The college has studied enough orchards where this practice has been followed to know that it usually results in a better set of fruit of larger size. Trees handled in this way, further, are more effectively sprayed, the color of the fruit is improved and its market value increased.

Use Lights on Poultry Very Early in Morning

It is better to increase the chickens' day early in the morning rather than in the evening, according to experiments conducted at the New Hampshire Agricultural college. The hens come off the roosts quite early in the morning to get their feed. In the evening many of them go to roost regardless of the light.

With pullets the amount of light should be increased gradually, beginning with eleven hours of total light about the first of November. This may be increased to fourteen hours by the first of February. After April the artificial light should be gradually reduced at the rate of about thirty minutes per week. With old hens the artificial illumination should begin in the fall when egg production is on the increase.

Ohio Poultrymen Favor Feeding Wheat to Hens

Because of the present low price of wheat, Ohio poultrymen have changed the old, standard, Ohio dry mash formula from equal parts of bran, middlings, cornmeal, ground oats and meat scrap to two parts ground, whole wheat and one part each of cornmeal, ground oats and meat scrap.

Whole wheat increases the feeding value of the mash, it is claimed, and saves buying bran and middlings. With middlings at \$40 a ton, wheat is estimated to have a value of around \$1.50 a bushel when thus fed.

WHEN I SHALL DIE

By GRACE E. HALL

OH, MAKE me not an ugly thing in death! Let me be beautiful in that last sleep; Place 'round my head red roses, that their breath May give perfume; and let my firm lips keep Their color, though a stranger's hand apply The carmine—and I'll bless him for the lie.

Oh, make me not an ugly thing that day, For I have worshiped beauty, and have wept In silence, many a time, along life's way When beauty's spell has swiftly o'er me swept: A baby's dimpled hand—a curl of hair— A woman's face—a sunset in the West—

The lithe form of a man—a painting rare— Each woke a keen response within my breast; Flowers—and stars—and dawn—and river's flow— Music—and e'en old age that was benign— All—all—have yielded joy and warmth and glow, And made impressions on this soul of mine.

God, let me not remain to fade and die, A withered, ugly thing among the flowers, But catch my breath away, in passing by, And halt me ere I lose my splendid powers; And you who wait, bring roses for my hair, And let sweet music banish every tear, For I have worshiped beauty everywhere, And I would have it present at my bier. (© Dodd, Mead & Company.)

THE ROMANCE OF WORDS

"MISTER"

AT A time when men were generally called by their Christian names or surnames only, the word "Mister" was applied as a sort of title to those who had learned a trade or "mystery"—persons who were looked upon as being of a higher rank than common laborers or farmhands. As time passed, the necessity for the male equivalent of "mistress" was more and more recognized—at first by the use of the word "master," and later, by the growing popularity of "Mister."

Then, by one of those strange quirks which frequently occur in the growths of languages, "Mister" caused "Mistress" to be corrupted or elided into "Missis" and finally, the two of them were shortened to the recognized abbreviations "Mr." and "Mrs." Incidentally, the feminine form of "Mister" is one of the curiosities of the English language, since, as Walker says, "to pronounce it as it is written in full—'Mistress'—or even as it has been contracted into 'Missis' appears quaint and pedantic. One has to slur it and inject a 's' sound." (© by Wheeler Syndicate, Inc.)

YOUR HAND

How to read your characteristics and tendencies—the capabilities or weaknesses that make for success or failure as shown in your palm.

CARRIAGE AND MOTIONS OF THE HANDS

WHEN you encounter a person who enters the room with his arms hanging at his sides, but with the fists tightly closed, you have the person of determination, either natural or stimulated by temporary excitement. In the latter case the fist will be firmly clenched with the nails pressing into the palm.

Sometimes you will observe a person who carries the left arm gracefully at the side, with the right forearm vertically held, the wrist in a graceful curve, and the fingers of the right hand held thus: The fingers of Saturn and Apollo, the two middle fingers, close together and curved, the fingers of Jupiter and Mercury apart from the others. You may discern in such the artistic temperament and qualities. This pose of the hand is found not often in men, but frequently in women. It occurs most frequently among persons of education and refined taste. (© by Wheeler Syndicate, Inc.)

Two Rugs Valued at \$50,000 Stolen. Two silk Oriental rugs valued at \$50,000 were stolen from the home of Frank B. Carpenter of Cleveland while the family was spending the week-end out of the city. Silverware and other valuables were not taken by the thieves.

THIS CONCERNS YOU

It Will Pay You To Investigate Health Talk No. 2

We chiropractors work with the subtle substance of the soul. We release the prisoned impulses, the tiny rivulet of force that emanates from the mind and flows over the nerves to the cells and stirs them into life. We deal with the magic power that transforms common food into living, loving, thinking clay; that robes the earth with beauty, and hues scents the flowers with the glory of the air.

In the dim, dark, distant long ago, when the sun first bowed to the morning star, this power spoke and there was life; it quickened the slime of the sea and the dust of the earth and drove the cells to union with its fellows in countless living forms. Through aeons of time it finned the fish, winged the bird and fanged the beast. Endlessly it worked, evolving its form until it produced the crowning glory of them all.

With tireless energy it blows the bubble of individual life and then silently, relentlessly dissolves the form, and absorbs the spirit into itself again.

And yet you ask, "Can chiropractic get me well?" Have you more faith in a knife and a spoonful of medicine than in the power that animates the living world?

If you are prejudiced against Chiropractic, it is because you don't know anything about it. Don't say you don't believe in a thing before you have given the matter a thought and looked into the merits of it. Knowledge never made anyone poor and and it is certain the more knowledge you secure of Chiropractic the better it will be for you in more ways than one. If the question arises in your mind that Chiropractic cannot be right, figure for yourself the reason why the science has progressed so rapidly in the few years of its existence. Common sense will tell you that Chiropractic did not get results on the sick, it would have died a natural death years ago.

I would like to have you come in and have a heart-to-heart talk on my health service, I will show you the way to health and happiness.

J. W. ELLISON, Chiropractor

OFFICE HOURS:—10:00 to 12:00 a. m., 2:00 to 5:00 p. m., 7:00 to 8:00 p. m.

Palmer School Graduate

Over Bennett's Store

The bird known as the "thunder pumper" makes nearly as much noise as a lion, although it is only a few inches long. Many people are like that.

There wouldn't be so many unhappy marriages if there were not so many girls who fear being called "old maids". It's getting so that a man is not judged by the company he keeps as by the car he keeps.

Even though this is leap year, girls would do well to look before they leap.

Making other people's business your business may be the reason you haven't more business.

If you had as much money as you think you ought to have, somebody else would not have as much money as you know he ought to have.

If you are agitated over small things, you haven't the capacity to think through big things.

Horses are still useful for dragging automobiles out of ditches and trimming shade trees.

NO MORE FOOLING

NOWHERE did Abraham Lincoln show his shrewdness of judgement to better effect than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and buy advertised merchandise.

be done.—Kansas City Star.

**TURN HAIR DARK
WITH SAGE TEA**
If Mixed with Sulphur it Darkens
So Naturally Nobody
Can Tell

The old-time mixture of Sage Tea
and Sulphur for darkening gray,
streaked and faded hair is grandmother's
recipe, and folks are again using it
to keep their hair a good, even color,
which is quite sensible, as we are liv-
ing in an age when a youthful appear-
ance is of the greatest advantage.

Nowadays, though, we don't have the
troublesome task of gathering the sage
and the mussy mixing at home. All
drug stores sell the ready-to-use prod-
uct, improved by the addition of other
ingredients, called "Wyeth's Sage and
Sulphur Compound." It is very popu-
lar because nobody can discover it has
been applied. Simply moisten your
comb or a soft brush with it and draw
this through your hair, taking one small
strand at a time; by morning the gray
hair disappears, but what delights the
ladies with Wyeth's Sage and Sulphur
Compound, is that, besides beautifully
darkening the hair after a few applica-
tions, it also produces that soft lustre
and appearance of abundance which is
so attractive.

THE WICKED WITCH

ONCE upon a time there was a
wicked witch who lived in a cave
in the forest because she did not like
anyone and wanted to be all by her-
self.

She did not like the birds, she dis-
liked the animals, and if anything or
anybody ventured near her cave she
promptly changed them into stones.
After a while the cave was surrounded
by little piles of stones.

One day into the forest there wan-
dered a little girl. When she saw
this strange stony looking place in
the midst of the great green trees she
wondered who could live in such deso-
lation; and, being curious, she went
to the cave and looked in.

"Ha, ha!" said the old witch. "So
you have dared to come to my cave!
You shall pay for this. A black kit-
ten you shall be." And before the little
girl could run away the old witch
had chanted her song of enchantment
and a little black kitten ran under
the table.

The very wicked witch had long
wanted a black cat, but only a pretty
girl could be used on which to work

"A Little Black Kitten You Shall Be,"
the spell, and as none had come to
the forest before the old witch had
been catless until now.

The poor little black kitten learned
many strange things about the magic
arts in the time she lived with the
wicked witch, but she had never
found the way to break the spell that
held her in the form of a cat.

One day while she was wandering
about near the cave the black kitten
heard the sound of a horse's feet and
the next thing she heard was a cherry
voice saying, "Hello, Kitty. How did
you wander into this place?"

Now at the time the very wicked
witch changed the girl into a kitten
she forgot to throw over her a spell
to make her forget how to talk, and

when the black kitten looked up and
saw the handsome man and heard
his kind words she thought of what
would happen when the witch saw
him.

"Go back!" she said, but she had
hardly spoken when she saw the old
witch coming through the forest.

"It is too late," said the black kit-
ten. "But don't let her know I can
speak. If I can I will save you."

There was no time to say any more,
for by now the wicked witch was
chanting her magic song and in an
other minute the handsome man and
his horse had become a pile of stones.

The poor little black kitten was
now in deeper trouble than ever, for
she had fallen in love with the man
—who had spoken the first kind words
she had heard in many a long day—
and she wanted to save him.

That night when the old witch held
her wild witch dance she took her ket-
tle and the black cat to the place
where she had changed the man and
horse into a pile of stones, instead of
dancing by the door of her cave as she
nightly did.

When all was ready and the fire
was burning under her kettle the
wicked witch began to sing and the
black kitten, creeping close to her,
listened harder than ever to what she
said.

When the wild dance was over she
seemed to have forgotten the kitten
and, standing before the pile of stones
she had newly made, she said in a
high pitched voice:

A prince you never shall appear,
Until these magic words you hear.

Then the black kitten heard the
witch saying softly to herself, "Al-
debaron, Maldebaron, change" and
again she began her wild dance.

But the black kitten held the key
to the magic art the witch had guard-
ed and she began to chant the song
that changed the poor victims into
stone and slower and slower the witch
danced until she fell a heap of stones
upon the ground.

Then, running to the stones that
had been the horse and rider, the
black kitten very softly whispered the
magic words she had heard the wicked
witch repeat and up from the ground
sprang the handsome man and the
horse, while beside them no longer
stood the black kitten but a pretty
blushing girl.

Before she went away with the
prince the pretty girl had given to all
the victims of the wicked witch their
forms again. Before they had ridden
to the edge of the forest the prince
had made her promise to be his wife
and told her she should be so happy
she would soon forget the wicked old
witch and all that happened in the
forest.

**The Why
of
Superstitions**
By H. IRVING KING

BABY AND THE LOOKING-GLASS

THAT it is bad luck to allow a
child to look into a mirror before
it is a year old is a superstition com-
mon all over the country. In some
sections it is believed that it will
cause the child's death before it com-
pletes its first year and in other sec-
tions the evils which will follow range
all the way from severe illness to
trouble in teething.

This superstition is based on the same
idea as the many others which
exist with regard to mirrors—the con-
ception of primitive man of the re-
flection of a person as something par-
taking of his own physical and spiri-
tual personality; a sort of exterior soul
and "astral body" combined. The
conditions which surrounded the life
of primitive man must have rendered
infant mortality extremely high. Ob-
serving that fact and ignorant of the
real cause thereof primitive man con-
cluded that the infant's soul was but
loosely fixed in the body which it had
so recently come to occupy. Also the
general helplessness of infants with
respect to physical things led to the
conclusion that the young child was
equally helpless in ghostly mat-
ters—an easy prey to malign spir-
its. The many hundreds of current
superstitions with regard to children
which survive today from a remote
past all prove this. Therefore a ten-
der infant looking into a mirror runs
the risk of having his "external soul
or astral body" stolen from it or of
losing it through lack of power to
draw it back into himself, or at least
of having it "hoodooed" by some evil
spirit.

To Pipe Ore to Mill.
A Montana mining company is
building a pipeline to the top of a
mountain in which it plans to bring
down copper and silver ore to the
mill.

Better Than Before.
Landlady—You'll have to pay your
bill or leave.
Lodger—Thanks! My last landlady
made me do both.

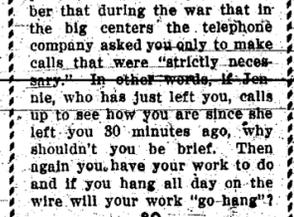

**Has Anyone Laughed
At You
Because—**

You Are Short Over
the Phone?
Now short can mean two
things. Short can mean that
you are curt and cross or
that you are rapid and brief. If
the latter you have a good deal
of right on your side. There is
a tremendous amount of time
wasted talking over nothing on
the phone. If the former—you
never have a right to be impo-
lite. Probably if the phone com-
pany didn't have so much
nothingness talked over its
wires the service would be 100
per cent better. Do you remem-
ber that during the war that in
the big centers the telephone
company asked you only to make
calls that were "strictly neces-
sary"? In other words, if Jen-
nie, who has just left you, calls
up to see how you are since she
left you 30 minutes ago, why
shouldn't you be brief. Then
again you have your work to do
and if you hang all day on the
wire will your work "go hang"?
SO

Your get-away here is:
Briefness over the phone
saves time for you and the other
party and if they know you to
be brief always, even if they
laugh, they will not call you up
for foolish reasons.

Kentucky Had Seashore.

In the geological past there was
once a seashore where there are now
mountains in eastern Kentucky.

Fix Up Wire Fences and
Avoid Trouble From Cows
How are the fences? There is plenty
of time to tighten the wires, restaple
them where necessary, replace posts
that have rotted off, and get the fences
in good shape. The cows always find
the hole in the fence when every one
is busy putting up hay or cutting
wheat. Fix the fence now and avoid
trouble of this kind next summer.

**Protect Young Alfalfa
With Good Top Dressing**

Young alfalfa that has not made
sufficient growth to withstand severe
winter weather can be protected dur-
ing the winter by a top dressing of
barnyard manure. The manure should
be spread evenly, preferably with a
manure spreader, at the rate of eight
to twelve tons to the acre.

**Spring Planning
to Avoid Frosts**
Dates Given by Weather
Bureau on Which Crops
Can Be Saved.

(Prepared by the United States Department
of Agriculture.)
Ordinary spring crops can largely be
saved from frost damage by postponing
planting until the frost risk becomes
small. Information as to average
dates of the last killing frost in any
locality may be obtained from any
office of the weather bureau of the Uni-
ted States Department of Agriculture.
Early cabbage, radishes, onions, early
peas and potatoes, and turnips may be
planted about two weeks before the
average date of last killing frost.
Beets, carrots, lettuce, spinach, caul-
iflower, celery and sweet corn should
be planted about the last frost date.
Two weeks after that date, snap beans,
okra and tomato plants may be put
out, but it is usually better not to
plant lima beans, pepper and egg
plants, cucumbers, melons and sweet
potatoes until the ground is well
warmed up, after another two weeks.

Frost in South.
There are some years in which kill-
ing frost does not occur at all in the
southern portion of the Florida penin-
sula, and also along the west Gulf
coast. It does not often occur after
March 1 in northern Florida, southern
Alabama, Mississippi and Louisiana,
and south of Austin, Tex. The line
based on March 15, as an average for
the last killing frost has receded north-
ward to south-central Georgia, to the
latitude of Montgomery, Ala., south-
central Mississippi, central Louisiana
and central Texas. Two weeks later it
has advanced to central North Caro-
lina, north-central Arkansas and cen-
tral Oklahoma.

Average Date in North.
By the middle of April killing frost
does not occur in half the years south
of east-central Maryland, north-central
Virginia, northern Kentucky, extreme
southern Illinois, north-central Missou-
ri and southern Kansas. It may be
expected during about half the
years as late as May 1 in central Ohio,
north-central Indiana, extreme north-
western Illinois, central Iowa and south-
eastern Nebraska. The average date
in the central portions of the lower
peninsula of Michigan, central Wiscon-
sin, north-central Minnesota and most
of the more northern portion of South
Dakota is as late as May 15, while in
a few localities in extreme northern
Michigan and Minnesota it may be ex-
pected in slightly more than half the
years as late as June 1.

**Raising Dairy Heifers
Most Economical Scheme**

In view of the fact that it is be-
coming more difficult each year to se-
cure the right kind of dairy stock the
most economical way for farmers to
build up a good herd is to raise the
heifers from the best cows, being care-
ful to have the calves sired by a pure
bred dairy bull, according to the Ken-
tucky College of Agriculture. The
problem of feeding may be considered
from two standpoints; first, when
whole milk is sold from the farm and
skim milk is therefore not available;
and second, when cream is sold and
skim milk is available for feeding to
the young animals.

Three plans may be followed by the
farmer who has a market for whole
milk. The first is to give the calves a
good start on whole milk and at the
end of two months put them on a hay
and grain ration. The second plan is
to give the calves whole milk for two
weeks and then change to a ration of
calf grain or milk substitute; the third
is to give the calves the least amount
of milk required to promote normal
growth.

**Bulletin Tells How to
Grow Many Bush Fruits**

F. P. Daniels of the division of
horticulture, University of Minnesota,
who has written a bulletin on "Modern
Bush Fruit Growing," says a notice-
able increase in both acreage and
yield of raspberries, blackberries, cur-
rants and gooseberries has taken place
the last decade in Minnesota. He pre-
dicts that under the stimulus of pres-
ent improved methods of culture and
of pest control, the increase will con-
tinue for some time. The bulletin gives
full information concerning planting,
cultivating, pruning, harvesting and
insect and disease control. It is issued
by the agricultural extension division
of the university and can be obtained
without charge by addressing the Of-
fice of Publications, University Farm,
St. Paul, Minn.

General Farm Notes

Make the farm buildings as ratproof
as possible.

Plan the places where the manure
will be applied this winter.

Provide a box stall and special feed
and care for every cow at freshening
time.

If crimson clover is to be grown on
land for the first time the seed should
be inoculated.

The county agent's hardest task in
serving the man who "don't want no-
body to tell him nothin'."

Make plans for remodeling your
dairy barn so as to make it an effi-
cient, healthful stable at least ex-
pense.

Loyalty to a co-operative association
is a real test of the farmer's charac-
ter and of his pride in the farming
business.

Increase the grain fed to each cow
slightly and watch record sheets to
see if there is a profitable increase
in milk flow.

Study fertilizer needs for next year
and the prices and analyses of ferti-
lizer materials. You can save money
by doing this.

The "one-year" system of farming
—no thought for soil or woodland up-
building—is probably more hurtful
than the so-called "one-day" system.

Drag on Pocketbook
There Are Still Many Farm-
ers Who Use Scrub Sires.

(Prepared by the United States Department
of Agriculture.)
The desire of practical live stock
owners as well as agricultural workers
to take an active part in spreading
the message of "Better Sires—Better
Stock" is evident from frequent letters
received by the United States Depart-
ment of Agriculture.

"I am in the cattle business," a
Montana stockman writes, "and use
pure bred sires, but there are still a
good many people using scrub bulls in
this part of the country. I would
gladly work in conjunction with some-
one in getting the people interested
and show them the great results from
using pure bred sires, and for all time
do away with the scrub animal which
is such a drag on the pocketbook."

This live stock owner asked how
better sires work is conducted in other
places and was given that informa-
tion. A Nebraska farmer, who also de-
sired to participate in the work reported
that he was disposing of his last
grade bull.

The manager of a large live stock
farm in Indiana recently notified the
department that he had sold his scrub
boar, which is to be replaced by a
pure bred, and henceforth all his live
stock breeding operations will be on a
strictly pure bred sire basis. Eastern
states are similarly active.

**Universal Panaceas Are
Likely to Be Worthless**

No "stock food" can be made which
will cure all the ills that animals are
heir to any more than an unfailing
panacea for human ills can be put up
in bottles and sold for so much per
pound.

The specialist in live stock sanitation
at the New York State College of
Agriculture at Ithaca points out that
the use of these stock foods is not dis-
couraged so much because there is
necessarily anything harmful in them,
as because they are likely to be quite
worthless.

These "stock foods," he declares,
are of much less value than is the food
that the farmer raises himself for his
stock. It is significant, he says, that
almost invariably the directions ac-
companying these remedies and foods
say that careful attention to sanitation
and feeding conditions must be ob-
served during treatment.

Most stock foods and tonics upon
analysis are found to contain a large
percentage of common salt; a laxative
such as epsom salts, glauber salts, or
the like; sulphur; charcoal or other
form of carbon; sulphate of iron as a
tonic vermifuge; and usually a filler
by way of mill-feeds, oatmeal, screen-
ings, grass seeds, peanut shells, sand
or tankage. Usually a very small
quantity of a mild drug, like gentian,
fenugreek, ginger or pepper, is found,
also.

**Big Value of Genetics
to the Animal Breeder**

"The chief value of genetics to the
animal breeder lies in the elimination
of false ideas and myths concerning
breeding facts and results," declares
R. A. Brink of the genetics depart-
ment at the Wisconsin College of Agri-
culture.

"In the plant-breeding field, it is
possible to apply genetic knowledge
more extensively than in the breeding
of the higher types of animals because
of the ease and economy with which
plants may be grown.

"The fur-bearing animal breeder
can very profitably use a knowledge
of genetics in securing crosses which
result in the best colors, markings and
length of hair. In all cases, genetics
promotes clearer thinking on the part
of the breeder," Brink declares.

**STOP CATARRH! OPEN
NOSTRILS AND HEAD**

Says Cream Applied in Nostrils
Relieves Head-Colds at Once.

If your nostrils are clogged and your
head is stuffed and you can't breathe
freely because of a cold or catarrh, just
get a small bottle of Ely's Cream Balm
at any drug store. Apply a little of
this fragrant, antiseptic cream into
your nostrils and let it penetrate
through every air passage of your head,
soothing and healing the inflamed, swollen
mucous membrane and you get in-
stant relief.

Ah! how good it feels. Your nos-
trils are open, your head is clear, no
more hawking, snuffing, blowing; no
more headache, dryness or struggling
for breath. Ely's Cream Balm is just
what sufferers from head colds and ca-
tarrh need. It's a delight.

**Drink Water to
Help Wash Out
Kidney Poison**

If Your Back Hurts or Bladder
Bothers You, Begin
Taking Salts

When your kidneys hurt and your
back feels sore don't get scared and pro-
ceed to load your stomach with a lot of
drugs that excite the kidneys and irritate
the entire urinary tract. Keep your
kidneys clean like you keep your
bowels clean, by flushing them with a
mild, harmless salt which helps to re-
move the body's urinous waste and stim-
ulates them to their normal activity.
The function of the kidneys is to filter
the blood. In 24 hours they strain from
it 500 grains of acid waste, so we can
readily understand the vital impor-
tance of keeping the kidneys active.

Drink lots of good water—you can't
drink too much; also get from your ph-
ysicist about four ounces of Jad Salts;
take a tablespoonful in a glass of water
before breakfast each morning for a
few days and your kidneys may then
act fine. This famous salt is made
from the acid of grapes and lemon
juice, combined with lithia, and has been
used for years to help clean and stimu-
late clogged kidneys; also to neutralize
the acids in the system so they are no
longer a source of irritation, thus often
relieving bladder weakness.

Jad Salts is inexpensive; can not in-
jure; makes a delightful effervescent
lithia water drink, which everyone
should take now and then to help keep
their kidneys clean and active. Try
this; also keep up the water drinking,
and no doubt you will wonder what
became of your kidney trouble and back-
ache. By all means have your phys-
ician examine your kidneys at least twice
a year.

**UP
SULPHUR**

Any breaking out of the skin, even
sore, itching eczema, can be quickly
overcome by applying a little Mentho-
Sulphur, says a noted skin specialist.
Because of its germ destroying prop-
erties, this sulphur preparation steadily
brings ease from skin irritation, soothes
and heals the eczema right up and
leaves the skin clear and smooth.

If scabies fails to relieve the torment
and discomfort, sufferers from skin
trouble should get a little jar of Rowles
Mentho-Sulphur from any good drug-
gist and use it like a cold cream.

**RED PEPPER FOR
RHEUMATIC PAIN**

Red Pepper Rub takes the "ouch"
from sore, stiff, aching joints. It can-
not hurt you, and it certainly stops that
old rheumatism torture at once.

When you are suffering so you can
hardly get around, just try Red Pepper
Rub and you will have the quickest re-
lief known. Nothing has such concen-
trated, penetrating heat as red peppers.
Just as soon as you apply Red Pepper
Rub you will feel the tingling heat. In
three minutes it warms the sore spot
through and through. Pain and sore-
ness are gone.

Ask any good druggist for a jar of
Rowles Red Pepper Rub. Be sure to
get the genuine, with the name Rowles
on each package.

**Rub Rheumatic Pain
From Aching Joints**

Rub Pain right out with small
trial bottle of old
"St. Jacobs Oil."

Stop "dosing" Rheumatism.
It's pain only; not one case in fifty
requires internal treatment. Rub
soothing, penetrating "St. Jacobs Oil"
right on the "tender spot," and by the
time you say Jack Robinson—out
comes the rheumatic pain and distress.
"St. Jacobs Oil" is a harmless rheu-
matism liniment which never disap-
points and doesn't burn the skin. It
takes pain, soreness and stiffness from
aching joints, muscles and bones;
stops sciatica, lumbago, backache and
neuralgia.

Lumber up! Get a small trial bottle
of old-time, honest "St. Jacobs Oil"
from any drug store, and in a mo-
ment, you'll be free from pains, aches
and stiffness. Don't suffer! Rub
rheumatism away.

**STOP CATARRH! OPEN
NOSTRILS AND HEAD**

Says Cream Applied in Nostrils
Relieves Head-Colds at Once.

If your nostrils are clogged and your
head is stuffed and you can't breathe
freely because of a cold or catarrh, just
get a small bottle of Ely's Cream Balm
at any drug store. Apply a little of
this fragrant, antiseptic cream into
your nostrils and let it penetrate
through every air passage of your head,
soothing and healing the inflamed, swollen
mucous membrane and you get in-
stant relief.

Ah! how good it feels. Your nos-
trils are open, your head is clear, no
more hawking, snuffing, blowing; no
more headache, dryness or struggling
for breath. Ely's Cream Balm is just
what sufferers from head colds and ca-
tarrh need. It's a delight.

Agricultural Census in 1925 of Big Value

Figures May Be Used in Planning Future Growth.

(Prepared by the United States Department of Agriculture.)

The value of the proposed agricultural census in 1925 as an aid in developing national agricultural policies is emphasized by Dr. H. C. Taylor, chief of the bureau of agricultural economics, United States Department of Agriculture.

"In working out the details of a properly balanced system of national agriculture under normal conditions, the basic agricultural statistics collected in 1920 are inadequate," Doctor Taylor says. "At that time American agriculture was still in a period of readjustment from war conditions, and the statistics reflect the transitory effects of the war rather than to provide data from which national agricultural policies may be developed."

"The various branches of American agriculture are now gradually working toward a more normal basis, and by 1925 will yield figures that may safely be used in planning the future healthy growth of the industry as a whole. The plan to make agricultural enumerations in other than population census years is also merited in that the results can be made available nearer the date that the agricultural census is taken."

Doctor Taylor says that basic agricultural statistics compiled by the census bureau are continually used in connection with the department's forecasts and estimates of crops and live stock, in measuring the financial status of farms and farmers, and in gauging shifts in farm population. Every plan for agricultural progress is necessarily based upon this information, he says. The figures also provide business men with the information needed to plan sales campaigns and general industrial activity, particularly in commodities purchased by farmers.

Plenty of Exercise Is Essential for Horses

WANTED

MUNNIMAKERS
 Wanted of Lost, Wanted, For Sale, For Rent, etc., in this column is 25 cents for one insertion for 15 words or less. Special count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents.

Successful Year for Boy and Girl Growers

Youthful Arkansas Farmers Make Money on Crop.

(Prepared by the United States Department of Agriculture.)
 The Junior Potato Growers' Association of Garland County, Ark., is composed of 90 farm boys and eight farm girls, ranging in age from about fourteen to eighteen years. They are all members of the boys' and girls' potato clubs in which, under the guidance of the county agricultural extension agent, they are learning to practice the best-known methods of growing potatoes and preparing them for market.
 These young farmers organized their own growers' association, according to reports to the United States Department of Agriculture, elected officers, appointed committees, including a buying and a marketing committee, and selected one variety of potato which all members agreed to grow.
 They finished harvesting their 1923 crop and on October 16 rendered a businesslike account of their year's accomplishments to the Hot Springs Lions' club, which has given the association support.
 The members grew, the report states, 786 bushels of No. 1 grade potatoes and over 500 bushels of No. 2's, producing altogether 1,300 bushels. They marketed their crop co-operatively, receiving \$1,644 for it. The cost of production was \$358; the net profit \$986, about 74 cents per bushel. The member making the highest yield harvested 27.5 bushels from one-eighth acre plot.
 A number of the members, according to the report, have started bank accounts with their earnings and practically all expect to continue the work next year.
 The report, signed by the president and secretary, is written on the printed letterheads of the association, which bears the names of the boys and girls who are officers and members of the buying and marketing committees.

"Well-heeled" is well shod.
 Uneasy lies the head that lies.

PENINSULAR

(Edited by Mrs. E. Hayden)
 (January 21st)

The worst storm of the season is with us. It began to blow Saturday afternoon and to snow in the evening and has not abated at all at this writing.

In spite of the blizzard Sunday, Mr. and Mrs. Clarence and family of the Jones District, East of Boyne City came to visit their daughter Mrs. Geo. Staley and the little grand-daughter who arrived Jan. 15th, and nurse Viva Fallett, daughter of Mrs. Jones who is taking care of Mrs. Staley and the baby. They returned home in the evening.

Some of the Three Bells School pupils made a surprise party at the David Gaunt home Saturday evening and had jolly good time; but found it not so pleasant getting home.

There continues to be reports of fine catches of Lake Trout at Ironton among those reported are Bob Myers, 9, Friday, and Geo. Holland of Ironton and Art Staley of Charlevoix are also very successful.

F. H. Wangeman braved the blizzard Monday and took his son A. J. to East Jordan where he attends high school and brought out the mail for the Peninsula. He was 5 hours making 14 miles and only stopped long enough to get the mail.

0-4 Sunday and 0-7 Monday all day is some record even for the Peninsula.

Bacon and Ralston of Boyne City, have completed their log job on section 23.

There will be no school in Star District until the storm lets up as Miss Mable Zoulek, the teacher went to her home in Chaddock District, Friday evening and can't get back.

A. Reich of Bunker Hill South Side expects to go to Detroit Wednesday, where he will be employed.

Pat did not bring us our mail Monday and no one blames him he would have been foolish to start.

Peninsularites were shocked last Wednesday to hear of the death of James McClure at Gull Lake in an automobile accident Jan. 15, no particulars are available. Mr. and Mrs. James McClure lived on the Maple Row farm Bunker Hill North Side, which is now occupied by the James Arnold family, for some sixteen years or more and have a host of friends here.

A substantial purse was made up by the friends of James McClure to send flowers for the funeral which was held Saturday afternoon January 19.

Douglas Tibbit of Cherry Hill has had to suspend trimming his apple orchard because of the blizzard.

A letter recently received from Mrs. Edith Tibbit states she and her grand-daughter Miss Alberta Tibbit have arrived at Wilts, La., and both are well.

The blizzard which commenced Saturday afternoon, is still with us but there is a decided rise in temperature Tuesday evening.

There has been no mail since Saturday and there is absolutely no travel on the roads.

(January 28th)

Mr. and Mrs. Fred Wurn were called to Traverse City, January 20th by the death of Mrs. Wurn's father, Mr. Milton Bellow which occurred Monday, Jan. twentieth at the home of an other daughter, Mrs. Charles Corey following a stroke on Friday before. Mr. Bellow has often visited at Mrs. Wurn's home, and made many friends here. Had he lived until April he would have been 84 years old. The funeral was Wednesday at Traverse City, Mr. and Mrs. Wurn also visited a brother, Mr. Willie Bellow and returned Thursday just missing the big storm.

Nurse Viva Follett of the Jones district who has been caring for her step-sister Mrs. Geo. Staley and little Miss Vera Elizabeth since January 15, returned to her home Monday January 28th.

The family of Will Howe of Overlook Farm have all been ill with tonsillitis but are better now.

Geo. Jarman of Knoll Krest has been confined to the house several days with lumbago.

Edward Guerien is among the successful fishermen having caught more than 30 lbs. in a few days.

Mr. and Mrs. Ray Loomis and daughter Pauline of Gravel Hill North Side, Mrs. Earnest Loomis of Maple Lawn Farm, Miss Mable Zoulek of Chaddock District and Richard and Kenneth Russell of Ridgeway Farm, were guests to a fish dinner at the Geo. Jarman home Knoll Krest, Sunday.

A. J. Wangeman and Opal McDonald of Three Bells District who attend High School in East Jordan came home Thursday afternoon having stood so well in their work they were not required to take the semester examinations. Mr. Wangeman took them back Sunday and brought out the mail.

Mr. and Mrs. Clarence Johnson and Mr. and Mrs. David Gaunt drove to East Jordan, Monday, and brought out the mail for the Peninsula.

Star school opened Thursday, after being closed the fore part of the week because Miss Mable Zoulek was storm bound at her home in the Chaddock District.

We have not had our mail regular for more than two weeks have got it never-the-less.

This January 28, is the first day since Christmas eve without some storm.

It is to be hoped the bad places will be cleared as the most of the roads are not bad.

Mr. and Mrs. David Gaunt and family and Mr. and Mrs. Clarence Johnson and family and Robert Myers were guests to an oyster dinner at the Will Gaunt home in East Jordan, Monday, all had a jolly time.

Will Gaunt who is employed on the

WILSON

(Edited by Mrs. O. D. Smith)
 Mrs. Roy Nowland spent last week with relatives in East Jordan.

Log hauling began again Wednesday morning after a few days rest, owing to the storm.

Ed. Sandel is driving Chas. Hayner's team and hauling logs for E. J. Lumber Co.

Deer Lake Grange held a special meeting on the evening of Jan. 12, and installed their officers for 1924.

Miss McCalmon spent the week end at her home near Rock Elm, returning to Afton on Sunday afternoon.

Robt. Barnett, Jr., of East Jordan is cutting logs with his uncle, O. D. Smith on R. Barnett's forty in this place.

Mrs. Lydia Brown of Jordan twp. is spending the winter months with her daughter, Mrs. Albert Todd in this place.

A small attendance at Pomona Grange that was held with Wilson Grange last Saturday. Only part of the officers were present, and no business of importance was transacted. Wilson Grange installed their officers for 1924 during the evening session.

NOWLAND HILL

(Edited by C. M. Nowland)
 Conn Nowland who attends Boyne City High School has not been absent nor tardy since school started in Sept.

Afton school serves a hot lunch dish for dinner each day. Lila Batterbee was absent Thursday and Friday with hard cold.

Richard Simmons went to Flint Saturday Jan. 19th, where he has employment.

Lou Maul of Boyne City is driving a well for Arthur Brintnall.

Billy Dunsen returned home from Bellaire with his mother, Mrs. George Jaquays two weeks ago.

Mrs. Florence Doyle and children of East Jordan visited her parents, Mr. and Mrs. Tom Shepard of Afton recently.

January 19 was the date for Charlevoix Pomona Grange to meet with Wilson Grange. On account of the cold and bad roads there was no Pomona meeting. In the evening a sleigh load of Grangers from Deer Lake and one from Boyne City came and Harlow Wilson the installing officer assisted by John Newville installed the officers of Wilson Grange. A program was given by all Granges. There was no grange meeting on the regular date January 26, as there was no roads broke and very stormy.

Anson Hull returned from Kalamazoo last Thursday very much improved in health.

Mrs. Roy Nowland spent a week with her parents Mr. and Mrs. Gilbert LaClare of East Jordan.

E. L. Nowland came home from the East Jordan Lumber Co. Camp 35, last week, sick with a bad cold.

Snowshoeing is the mode of travel here while the roads are nearly impassible.

ALBA

(Edited by Mrs. A. I. Ashbaugh)
 Mr. and Mrs. Roy Lather of Traverse City are visiting the latter's parents and sisters spending Sunday at Ed. Blaine's.

Stanley and Leon Kelly left Monday for Freeport where they were called by the death of their uncle, Glen Kelly.

Mrs. Charlie Gates was called to Sand Lake by the death of her father.

Mrs. Ostrom left Monday for Grand Rapids.

Reatha Coon left Monday for Kalkaska to visit her sister, Mrs. Harry Glidden.

Gerald Wolcott spent the week end with Merrill Stott formerly of this place.

Mrs. Lee acted as substitute teacher for Miss Shaaf who has been ill.

The B. B. boys lost to Grayling after braving one of the worst storms of the season to reach Gaylord.

CUT THIS OUT—IT IS WORTH MONEY.
 Send this ad and ten cents to Foley & Co., 2635 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a ten cent bottle of FOLEY'S HONEY AND TAR COMPOUND for Coughs and Colds, and free sample packages of FOLEY PILLS and FOLEY CATHARTIC TABLETS. Try these wonderful remedies.—Hite's Drug Store. adv.

Eradication of Lice and Mites Is Not Difficult

Lice and mites are a sign of carelessness, as they are rather easily controlled. Lice live upon the bird's body at all times and can be eradicated by dusting the bird with finely powdered sodium fluoride, a chemical which can be obtained at most drug stores and is low in cost. The red mites live in the cracks and crevices of the roosts and nests and attach the bird's body only at night, getting their food supply by sucking blood through the bird's skin. Painting the roosts with an oily substance such as gas tar or a commercial perch paint, will keep the mites from getting on the perches and the birds.

TRIUMPH FOR STAHL

John E. Stahl, who made "The Wanters" the speaking comedy drama woven around the romantic experiences of a lady's maid whose love affair with a millionaire places her in a most remarkable situation and which is to be shown at the Temple Theatre, Sunday and Monday is known as the director who has never produced a failure.

He is adding materially to this reputation with the record-breaking success of his new picture in all of the big first run theatres of the country.

"The Wanters" is considered by many to be Mr. Stahl's best picture to date—a comparison that takes in such artistic triumphs as "The Dangerous Age," "One Clear Call," "The Child Thou Gavest Me" and "The Woman in His House."

Featured in the cast are such capable stars as Marie Prevost, Huntley Gordon, Gertrude Astor, Robert Ellis, Norma Shearer and little Richard Headrick.

STATE NEWS IN BRIEF

Lansing—The American Legion has been given an appropriation of \$25,000 by the state administrative board to complete its billet at Otter Lake.

Alpena—Alpena has been made the headquarters of the latest grouping by the State Highway Department. The Alpena group to include the counties of Alpena, Presque Isle, Montmorency, Oscoda and Alcona.

Traverse City—Dr. E. H. Campbell, of the Newberry State Hospital, will succeed Dr. James D. Munson who he tendered his resignation, effective July 1, as superintendent of the Traverse City State Hospital where he has served 38 years.

Grand Rapids—Mrs. Robert Morris, 101 years old, Grand Rapids' oldest resident, died here last week. She was born in Birmingham England in 1822 and until a short time ago had been able to read, walk and tell stories about her childhood.

Plainwell—Funeral services were held last week for Dr. Peter Onontiyoh, veteran Indian doctor, of Allegan, who died suddenly at his home here. Dr. Onontiyoh was descended from a line of Mohawk Indian chiefs and was educated as a physician in Toronto, coming to Plainwell 35 years ago.

NOTED RUSSIAN VIOLINIST COMPOSER WILL BE HEARD HERE IN RECITAL

The Skibinsky-Reed Duo is an artistic group in every sense of the word. Mr. Alexander Skibinsky is a noted Russian violinist and composer, and a leading pupil of Yeaye. His assisting artist, Myra Reed Skibinsky, is a graduate of the Cincinnati Conservatory, a coloratura soprano of remarkable attainment. Mr. Skibinsky is a brilliant player, who, during the past seven years has given over 2,000 concerts in America, with steadily growing success.

When the reckless driver meets a reckless pedestrian then comes the damage suit.

If you keep your mind on your business, it won't be long until you won't have to worry about your business.

About everybody curses "big business" and wishes he were in it.

Many a "good old scout" seems unable to find the trail to home.

INTEGRITY SERVICE

The 1924 Model Studebaker Special-Six Five-Passenger Sedan \$1985 f. o. b. factory

The reason for the remarkable value of the Special-Six can be summed up in the statement that it would be impossible to offer it at its present low price were it not built complete in Studebaker factories.

In performance, in appearance, in riding comfort, in economy of operation—from every angle from which you may judge motor car values, the Special-Six Sedan stands out strikingly as an unusual car at an unusually low price.

And when you are weighing motor car values in your mind—when you are comparing the Studebaker with any other car—just consider the simple, uncolored story of Studebaker's sales success, as shown by automobile license figures throughout the country, and ask yourself, "Why?"

POWER & COMFORT

Children are not naturally bad, but some of them are supernaturally that way.

Love, of course, is the greatest thing in the world, but you can't buy a new car with it.

Travelers once were entranced by beautiful scenery; now they become that way over good roads.

RELIEVED COLDS OF FATHER AND SON

Mr. G. E. Kuhler, 1464 Mulberry St., Louisville, Ky., writes: "I, and my son also, used FOLEY'S HONEY and TAR COMPOUND for severe colds and must credit the relief to FOLEY'S HONEY and TAR COMPOUND." Excellent for the relief of coughs, colds, and hoarseness.—Hite's Drug Store. adv.

MORTGAGE FORECLOSURE

Default having been made in the conditions of a certain mortgage made and executed by Frank Kiser and wife Nina Kiser, jointly, both of the township of South Arm, County of Charlevoix and State of Michigan to the State Bank of East Jordan, a corporation organized, existing and doing business under and by virtue of the laws of the State of Michigan and having its principal office in the City of East Jordan, Michigan, which said mortgage bears date the 24th day of October, 1914 and was recorded on the 26th day of October, 1914 in Liber 47 or Mortgages, on page 567 in the office of the Register of Deeds in and for the County of Charlevoix, Michigan.

By reason of said default there is now claimed to be due and is due upon said mortgage at the date of this notice, including principal, interest, taxes and attorney fee, the sum of Ten Hundred Fifty-six and 71/100 (\$1056.71) Dollars, and that no suit or proceedings at law or in equity have been instituted to recover the debt secured by said mortgage or any part thereof.

Now, therefore, notice is hereby given that by virtue of the power of sale in said mortgage contained and of the statute of the State of Michigan in such case made and provided, the undersigned will sell at public auction for cash to the highest bidder on the 10th day of March A. D. 1924 at 10:00 o'clock in the forenoon of said day at the front door of the Court House in the City of Charlevoix, County of Charlevoix, State of Michigan, that being the building wherein the Circuit Court for the County of Charlevoix is held.

The premises described in said mortgage are as follows to-wit:

"The Northwest Quarter (NW 1/4) of the Twenty-eighth (28) Township Thirty-two (32) North Range Seven (7) West, containing Forty (40) acres of land more or less, according to the United States Survey thereof," together with the hereditaments and appurtenances thereunto belonging or so much thereof as may be necessary to satisfy the debt, cost and taxes aforesaid.

COAL WORKINGS IN TWO STATES ARE SCENES OF GREAT DISASTER.

WATER-RETARDS RESCUE WORK

Relatives of Dead Wait in Bitter Cold for News of Loved Ones—Gas Explosion Causes.

Shanktown, Pa.—The bodies of 31 men who lost their lives in an explosion of gas in the Lancashire mine of the Barnes and Tucker Coal company here, have been recovered. The bodies of five other miners have been located by rescue crews and four more men are believed entombed.

Rescue workers who explored the main heading to the face of the mine experienced considerable trouble in reaching the bodies of the victims because of water in the mine.

The women and children stood in the bitter cold and blinding snow, waiting vainly for some news from the workings of the fate of their husbands or fathers. Red Cross nurses and the Salvation Army workers, under Colonel Arthur Hopkins, general secretary for western Pennsylvania hastened here from Johnstown when news of the tragedy reached that city.

Johnson City, Ill.—Thirty-seven are dead, six were seriously injured and eight others badly burned about the head and body as a result of an explosion in the McIntock mine of the Crerar Clinch Coal company here.

The disaster occurred on the mine's main working level, 250 feet below the ground. At the time, 390 miners were engaged in work in a section of the level which was not affected.

The clothing of 15 of them was all torn off and their hair singed but they were not seriously hurt.

The men near the entrances escaped easily but entries number 9, 10, 11 and 12, locked in the depths of the colliery where the actual explosion took place, were farthest from a means of escape and the men there suffered the full terror of the terrific blast.

ITALIAN ARMY CUT PLANNED

Premier Mussolini's Reduction of Forces Due to Neutrality Pact.

Rome—Premier Benito Mussolini has decided to reduce the Italian army.

The deficit of 2,500,000,000 lira, which prevailed when the Fascists came into power, is rapidly disappearing under the economies originated by Mussolini.

Mussolini told the Fascist conference that the neutrality pact with Jugoslavia and the probable agreement with Greece for neutralization of the Dodecanese islands to Greece will make the eastern frontier of Italy safe from attack.

The northern border is protected by Swiss neutrality. The French frontier is the only one open to attack. The safety of the other borders makes it possible to cut down the army and save military expenses.

The premier is prepared to announce that he intends to use the voluntary militia for garrison forces, making this organization national instead of a Fascist force.

EUROPE GETS BULK OF EXPORTS

Only Eighty Per Cent Sent to Other Countries From U. S.

Washington—The department of commerce has made public preliminary figures in its investigation of marketing of United States agricultural exports, showing that upwards of 80 per cent of the exports go to Europe and 10 per cent of the balance to North American countries, leaving only 10 per cent to be distributed to the rest of the world.

The figures also showed that 80 per cent of the American exports to Europe are made up of farm products and barely 20 per cent consist of manufactures, forest and mineral products.

Cotton ranks first in exports, being normally 50 per cent of the totals. Animal products are next and grains constitute 15 per cent of the total.

Viewing the future, the report indicated that northwestern Europe would remain a great food-importing area, with a prospect that Asia would enter the markets.

Canada for years to come, the report said, would have a large cereal surplus to export.

British Air Line to Span Empire

Melbourne—Progress is being made toward the establishment of a gigantic air service which will connect Great Britain, Egypt, India and Australia. Details of the plan have been discussed in Melbourne with the postmaster general and the minister of defense, and it is expected that it will be carried out. At present the journey from Australia to London occupies usually a month. The proposed air service would cut this to a few days.

Luxemburg Ex-Ruler Dies

Munich, Bavaria—Former Grand Duchess Marie of Luxembourg died recently in Hohenburg castle, Langgries, Bavaria. She was the reigning duchess of Luxembourg at the outbreak of the war.

Vienna Has Third of Population

Vienna—Thirty-eight per cent of Austria's population lives in cities of 30,000 or more, according to the new census. One-third of the total population of the present republic resides in Vienna.

U. S. Auditor at Manila Realigns

Manila—Edward M. Fullington, insular auditor, has cabled his resignation to President Coolidge. It has been announced here. Illness was given as the reason. Fullington is from Columbus, O.

Paper Ruble Had Predicted

Moscow—Before the middle of 1924 paper rubles promise to be a thing of the past in Soviet Russia. The silver coins now being minted are to be put into circulation in the spring, according to Commissioner for Finance Sokolnikoff.

Many German Soldiers Kill Selves

Berlin—Official war records of Germany show that 6,106 German soldiers killed themselves during the World War. Nineteen soldiers, convicted by court martial of low crimes were executed and 249 men were reported slain by comrades.

South Honors Gen. Lee's Memory

Atlanta, Ga.—A host of visitors, including governors of five states and other prominent persons gathered here to attend the unveiling of the head of General Robert E. Lee as part of the Stone Mountain Memorial to the Confederate army.

World's Altitude Record Broken

Buenos Aires—The German aviator Otto Ballod broke the world's record for altitude, carrying a weight equivalent to 11 persons, the Aero Club asserted in a statement issued here. Ballod reached a height of 6,485 meters in 1 hour and 50 minutes.

Niece of Poet Longfellow Dies

San Francisco—Marion Longfellow, 75 years old, author and translator and a niece of the poet, died at the home of her son, Henry W. Morris, at Chinese Camp, an old mining town in the Sierra Nevada mountains, according to advices received here recently.

Carnegie Hero Awards Made

Pittsburg—The Carnegie Hero Fund commission, at its twentieth annual meeting here, recognized 25 acts of heroism by awarding one gold, three silver and 21 bronze medals in addition to \$3,990 a year in pensions to the dependents of 12 of the heroes who lost their lives.

Cost of Living Soars in England

London—The cost of living in Great Britain continues to rise. On Dec. 1 the average level of retail prices was approximately 77 per cent above that of July, 1914. Last July the level was 60 per cent above July, 1914. These figures have been compiled by the ministry of labor.

Oldest Woman in U. S. Dead

Segundo, Colo.—Mrs. Roberta Marez, recognized as the oldest woman in the United States, is dead at her home here at the age of 135. Mrs. Marez was born in Mexico in 1789, according to family records. Three grandchildren, all past 40 years of age, and a number of great grand children survive her.

Attention Island is Grazing Ground

Seattle, Wash.—A herd of 2,000 sheep, which landed in the fall on Umak Island, one of the larger of the Aleutian Islands at the northern end of the Pacific Ocean, will be increased by additional shipments to 30,000 next year, according to Aman Moore of this city. Mr. Moore is one of the promoters of a project to make the island a sheep range rivaling the Falkland Islands off the coast of South America.

Man Receives Many Volts, Lives

Schenectady—Although a current of 50,000 volts of electricity passed through his body, stopping breathing and heart action for several minutes, Archie Branahl, an electrician employed by the General Electric company here, is still alive. When repairing an electrifying set today, the current in some unexplained manner was turned on. Robert McCadden, a fellow workman, saw what happened, turned off the current and applied first aid methods. Branahl will recover.

Ford
THE UNIVERSAL CAR

Forecasting A Tremendous Spring Demand

739,626

more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

Ford Motor Company
Detroit, Michigan

A small deposit down, with easy payments of the balance arranged, or your enrollment under the Ford Weekly Purchase Plan, will put your order on the preferred list for spring delivery.

Find one who boasts that he is not a "party man" and you will find one who seldom votes but is always "ag" in the government."

A RELIABLE COUGH REMEDY

Why experiment with unknown remedies for that cough or cold when you can secure FOLEY'S HONEY and TAR COMPOUND; a safe and reliable remedy for the relief of coughs, colds, hoarseness. It is made up of only the purest ingredients and is pleasant and easy to take.—Hite's Drug Store. adv.

Railroading in Winter

Especially in Michigan, Railroad transportation is subject to sudden periods of extreme cold and heavy snow. Such weather lowers the efficiency of steam-driven machinery, imposes severe hardships on men, and makes necessary abnormal expenditures for fuel, wages and special equipment.

To vanquish these obstacles—to accept and deliver freight and passengers in the teeth of a midwinter blizzard, when necessary—is an annual battle for each of Michigan's 24 steam Railroads.

Even in a comparatively open winter, the Railroads must always be equipped and ready. On certain northern runs, a snow plow precedes every train throughout the winter, regardless of weather.

Winter railroading in Michigan is seldom possible at a profit. Often it can be accomplished only by large financial loss. Yet, despite the handicaps of climate, the cars move, and Michigan continues warm, well fed and prosperous.

Do you appreciate the foresight, determination and fortitude which, year in and year out, make Railroad transportation so sound a reliance. The Railroads will be pleased and helped to know that you do.
