

Charlevoix County Herald.

Vol. 28

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 22, 1924.

No. 8

OUR PUBLIC SCHOOLS TO HAVE "OPEN HOUSE" IN ALL THE GRADES

ALL PARENTS URGED TO ATTEND THIS EVENT—NEXT WEDNESDAY NIGHT AT 7:00 O'CLOCK.

This will be a golden opportunity for the parents interested in their children to see just what they are doing. At first, it was thought that only the Junior and Senior High School would have open house but, because of a great deal of interest shown in the proposition throughout the grades, there will be school from the Kindergarten through the High School.

Most of the fathers of the children work during the day and they practically never have a chance to visit the room their child spends a good deal of his life in, or meet the teachers that are largely responsible for his future, so the fathers have a very urgent invitation to come along with the mothers and see what is being done.

You will notice we are going on regular school time. The children will be out Wednesday afternoon, partly to study their lessons and partly to get a little rest so that they will be able to do ordinary work in the evening. It would be impossible for us to urge too strongly for your attendance and there will be refreshments prepared by the regular Domestic Science classes for the parents, at least sherbet, ice cream, cake and cocoa or coffee. We are going to ask the regular fee asked of the students at noon and all those who care to enjoy the girls' refreshments, must sign up upon entering the High School building. A paper will be provided near the Domestic Science door for this purpose. By the way, the refreshments are for parents only. They will be served the last half hour of the session and immediately after dismissal.

School starts at 7:00 o'clock fast time and will continue for three regular recitation periods of forty-five minutes each, making school out at 9:15, which, without counting the study periods, makes it equivalent to one-half days school.

Remember the event and the date!

TO CONTINUE SWINE TON LITTER CONTEST

Michigan Breeders Aim At New Records During Coming Year.

Michigan swine breeders will hold another "ton litter" contest during the coming season, according to announcement made here this week by Verne A. Freeman, leader of the state ton litter club and extension specialist in animal husbandry at the Michigan Agricultural College.

Success of a similar contest held last year, which was won by a litter which reached a total of 2,840 pounds at the end of its allotted 180 days, led to the decision to repeat the event. Great educational and demonstrational value accompanies the contest, it is said, breeders learn many ways of improving the handling and feeding of the swine. Most of the men who entered the contest a year ago plan to enroll again, according to reports.

"Any Michigan farmer is eligible to enroll in this contest says Mr. Freeman. It costs nothing to get in and nothing to get out. Farmers should enroll at once, though, as they are likely to be too late if they wait until after the pigs are farrowed. The latest date at which a person can enroll is April 1, and he must be enrolled in time so that any litter he may wish to enter can be marked and reported within seven days of birth.

"In counties where there is no agricultural agent, it will be necessary for several breeders to get together and form some sort of organization to cooperate with the state leader of the ton litter club. At all events, Michigan swine breeders should send in their names at once and enroll."

Various cash prizes and medals go to the litters, which reach the required ton of weight within the 180 days allowed after birth.

The way of a maid with a man and the way of a serpent upon a rock are as nothing compared to the way of an automobile salesman with a prospect.

A man sometimes buries his past thinking it is dead, only to awaken some morning to find it sitting on the bedpost grinning at him.

Honor Students

Many Students Have Chance for Scholarship Honor Medals.

It was carefully announced some months ago and no doubt is generally known that the School Board presents a medal to each student in the Senior High School who has an average of 95 per cent or better for his year's work.

The presenting of the medals will take place in June at the annual Commencement. This short article is to call the students' attention to the fact that we have a real race for honors and, at the same time, make the parents aware of this fact also. From this on at the end of each month a check will be made on who the highest percentage students are. In fact, it is possible for any one of fifteen or eighteen students to get this distinct honor.

The Freshman student that gets 95 per cent or better for the regular subjects in the High School for the year 1923-24 will get a bronze medal, the Sophomore a silver medal, the Junior a gold-filled medal and the Senior a solid gold medal. It will only be a short time before these medals will be on display at one of the down town windows. It will say something like this, according to designs already received, "E. J. Honor Student," perhaps the initials "E. J." at the top and H. S. at the bottom, with "Honor Student" in larger letters in the center.

Very few students realize what a distinct honor it would be to win one of these medals. To be able to display a medal of this nature, signifying 95 per cent work in school would be a greater argument for a worth while position or entrance at college than all the written recommendations he could procure. Therefore it behooves not only the students but the parents to take this matter seriously and cooperate with the school so that there son or daughter may win such an honor.

The following is the list of students who have 90 per cent or better for the first semester. They are given in the order of their rank.

HONOR STUDENTS

Name	Average
Eva McBride	96.8
Lucile Bartlett	96.8
Elizabeth Sidebotham	96.2
Sadie Murphy	95.8
R. B. Baldwin	95.5
Marie McDonald	95.3
Dorothy Walton	95.1
Aurá McBride	95
Rose McCurry	94.7
Minnie Cincush	94
Marjorie Mackey	94
Josephine Ekstrom	94
Carlton Bowen	93.6
Fern Gidley	93.5
A. J. Wangeman	93.3
Norman Bartlett	93
Jasper Staliard	93
Anna Leu	93
Letha Cox	93
Annie Colden	92.3
Muriel Walton	91.3
Raymond Swafford	91.2

Ionia—It cost Leonard P. Gemuend, of this city, the sum of 1,060,000,000,000 marks to furnish information to the interior department through the bureau of pensions concerning the date of his birth. Gemuend recently filed a claim for a pension based on the fact that he had attained the age of 68 years and had served in Company I, Thirty-fourth Michigan Infantry, during the Spanish-American war. He declared he was born March 8, 1854.

Lansing—A new bureau of the State Department of Health whose relationship to men sentenced to State penal institutions will be much the same as the relationship of the psychopathic clinic and probation department of Recorder's Court to prisoners convicted in Detroit, is in the process of formation. It will be the function of this bureau to determine whether prisoners shall be sent to the hardened criminal class at Marquette to the State Prison at Jackson, or to the reformatory and proposed school at Ionia.

The irritating thing about a fanatic is not that he is one but that he hasn't sense enough to know it.

OFFICIAL CALL FOR THE REPUBLICAN COUNTY CONVENTION

To the Republican Voters of Charlevoix County: The Republican County Committee directs that a County Convention of the delegated representatives of the Republican Party of Charlevoix County be held in the City of Boyne City, County of Charlevoix, State of Michigan, on Wednesday, the 23rd day of April, 1924 at ten o'clock, central standard time, in the forenoon, for the purpose of electing six delegates and six alternates to the Republican State Convention to be held in Grand Rapids, Michigan on Wednesday, May 7th, 1924 and for the transaction of such other business as may properly come before the convention.

By order of the Republican County Committee for Charlevoix County. Dated Feb'y 15th, 1924.

LISLE SHANAHAN, Chairman
W. H. WHITE, Secretary.

Potato Grade Exhibit

At East Jordan Next Friday and Saturday, Feb'y 29th, Mar. 1st.

A Potato Grade Exhibit is scheduled for next Friday and Saturday, Feb'y 29th, March 1st, at the East Jordan Co-operative Ass'n Warehouse on State Street. This exhibit is being put on in a few of the most important potato growing sections through the cooperation of the Farm Crops Department of the Michigan Agr'l College and the Bureau of Markets of the State Dept. of Agriculture.

The above Exhibit is being staged in an effort to familiarize the grower with the new standard compulsory grades as recently adopted by the State Dept. of Agriculture. Also it is presumed that a portion of the time and space will be spent and used in an attempt to show that there must be a better quality of potatoes put on the market as Michigan Table Stock to regain its lost prestige.

New proposed containers will be upon exhibit and the advisability of using these packs will be discussed.

Another feature will be the actual specimens of potatoes showing the various diseases prevalent in this territory. Their effect upon the growing crop as well as on the table stock.

A potato specialist from the Farm Crop Dept. of the Michigan Agricultural College will accompany the exhibit and will thoroughly explain all matters in detail as well as discuss all questions that may arise.

Remember the dates, Friday, Feb'y 29th and Saturday, March 1st, at the East Jordan Co-operative Ass'n Bldg.

Battle Creek—Although yeggs blew three safes in the heart of the village of Bellevue, 14 miles north of here, recently, the sleep of the residents was undisturbed and the robberies were not discovered until next morning. So much nitroglycerine was used in blowing the safes in the Ford garage and the Bellevue co-operative saw that sheriff's officers had difficulty in finding pieces of the safes.

Ann Arbor—Professor Edward R. Turner, of the history department of the University of Michigan, has accepted a call to teach at Yale university next year, it was learned here. Professor Turner, who has been connected with the history department here since 1911 is considered an authority in the field of English and European history and has written numerous articles and textbooks on the subject.

Lawton—Grape growers of Van Buren county are looking forward to a heavy crop in 1924 to offset the comparatively light crop of the 1923 season. Growers say they can expect but one heavy crop in two years, the alternating season being light in production. The sub-zero weather experienced in January has not damaged the prospects in any way, they say, and except for heavy frosts late in the spring, or early in the fall, there is little to be feared from cold.

Detroit—Although Michigan is not among the leading producers of lime in the United States, its gain in production is so rapid that it is passing its nearer rivals and by continuing its pace will soon catch its leaders. The geological survey figures for 1923, just published, show that the state's 1923 production of lime was 80,800 tons, which was a gain of 27,165 tons for the year or at the rate of 61 per cent increase. No other state approached this percentage of gain, Indiana with 12 per cent, being the next in order.

Postmaster Is Appointed

W. A. Stroebel East Jordan's Postmaster For Four Years.

The triangular contest for Postmaster honors for East Jordan was ended the first of this month when the appointment of W. A. Stroebel, to succeed himself as temporary postmaster, was confirmed by the Postoffice Department.

Mr. Stroebel's commission is dated Feb'y 6th and extends for four years. The date of the notification is that of Feb'y 14th, which makes a fine Valentine present.

The selection of Mr. Stroebel as Postmaster of East Jordan meets with the hearty approval of our citizens in general. He has been connected with East Jordan's business interests for many years, and, since his induction into the office as temporary postmaster has proven himself well qualified to carry on the work.

Flint—Mrs. R. C. Durant, mother of W. C. Durant, the automobile manufacturer, died here recently at the age of 91 years. She was a daughter of the late Henry H. Crapp, former Governor of Michigan.

Ecorse—While walking along the tracks watching a group of boys engaged in a snowball fight, John O'Dell, 40 years old, 4427 Third street, Ecorse, was instantly killed when struck by a passenger train on the Michigan Central tracks here.

Ionia—The Stevens Thomson Mason chapter of the Daughters of the American Revolution celebrated its fiftieth anniversary, recently, with Mrs. Victor L. Seydel, of Grand Rapids, grand regent, as the guest of honor and speaker.

Asalia—Harold B. Noble, a teacher in the public schools at South Ecorse, who was killed by a New York Central passenger train at Monroe, while attempting to cross the tracks in an automobile, was buried from his home here last week.

Len Mountain—The proposal of the village of Kingsford, adjoining the Ford plant here, to build a combined grade, junior and senior high school at a cost of \$225,000, has met with an offer from Henry Ford to donate nine acres of his land for the school site.

Grand Rapids—The annual meeting of the Michigan League of Home Dairies was held here recently. Three speakers from Chicago addressed the convention, John Alexander, on "Merchandising," R. B. Harrison, in "The News Print Outlook," and B. A. Adams on "Composition."

East Lansing—At the annual meeting of the Michigan Association of Nurserymen, held at the State Agricultural college, East Lansing, B. J. Manahan, of Detroit, was elected association president. Other officers are: Vice president, William Ilegren, Monroe, secretary-treasurer, C. Krill, Kalamazoo.

Lansing—The state administrative board referred to a committee claims from counties for back counties on noxious animals and birds amounting at about \$99,000. The claims date back as far as 1918, and there is no appropriation for their payment. The board probably will make a definite ruling regarding them.

Attica—Attica's town hall and the grain elevator were destroyed recently by a fire. The damage to the elevator was \$12,000, of which \$4,000 was covered by insurance. The damage to the town hall was \$2,000, some of which will be reduced by insurance. Attica, with a 400 population, has no fire apparatus.

Grand Rapids—James P. Carnody, pioneer Grand Rapids township resident, whose work with the Michigan Agricultural college in development of dairy products made him prominent in agricultural circles, died here recently. In his work with the college he aided materially in obtaining information and in the fixing of standards.

Grand Rapids—Frank Vansteenberg, 84 years old, for 37 years a member of the fire department here in which he rose to the rank of captain, died recently of apoplexy. He was wide acquaintance with the children keeping at his engine house an apparently inexhaustible supply of hoops and kites which he distributed to the youngsters.

Hartford—The new Methodist Episcopal church in this village was recently dedicated with special services in charge of Bishop Theodore S. Henderson, of Detroit. Rev. J. W. Willis, of Niles, district superintendent, and Rev. Clark Wheeler, pastor of the First Methodist Episcopal church, of St. Joseph, taking part in the ceremonies.

EAST JORDAN BOYS WIN '15-13 FROM TRAVERSE CATHOLIC HIGH

Locals defeat Traverse City Catholic High in fast thrilling exhibition of basket ball. The teams were evenly matched, both in weight and ability. The game was close from start to finish the home quintette holding a lead of one or two points throughout the game. The visitors were lucky on long shots and made a large percentage of their baskets from the middle of the floor. The "boys" earned every point and knew they had a real game. The Fans saw a lot of excitement and thrills and received their money's worth. Come out and see the teams in action this Friday, Feb'y 22nd. Boyne City boys and Mancelona girls are coming to meet their doom.

Flint—That Mexico cannot attain normality until the United States intervenes and establishes a protectorate, was the opinion expressed here by the Rev. Joseph Munoc, a Spanish priest, who has lived in Mexico for the past ten years and who is in Flint conducting a mission for Mexican Catholics.

St. Joseph—Mrs. Mary L. Ewald, for 66 years a resident of this city, died at her home last week. She was 80 years old and the daughter of Rev. W. E. and Willamina Grimm, who with a little band of fisherfolk, crossed Lake Michigan in a sailboat from Milwaukee and established the first Baptist church here in 1860.

Lansing—The bovine anti-tuberculosis war that the state began in 1921 will be carried to nine new counties during the remainder of 1924, and will be continued with complete "area" inspections in five counties where the cattle already have been tested once, as well as in Gogebic County, where stall-to-stall inspection has been made twice.

Menominee—The Menominee Sugar Co. last week sent checks aggregating \$175,000 to farmers who raised sugar beets for the plant last year. This was in addition to the \$6.50 a ton paid at the time the beets were delivered. The total paid the farmers was \$9.28 a ton. The Menominee plant cut about 600,000 tons of beets last year.

Battle Creek—Whether Battle Creek will adopt uniform eastern time the year around will be decided by the voters here at the spring election, according to a decision reached by the city commission. The decision followed the reading of a petition signed by 200 persons requesting the commission to adopt the eastern time schedule here.

Freemont—A more satisfactory enforcement of the spraying law was sought at the horticultural school held here recently by the County Farm Bureau and the Michigan Agricultural College. There is said to have been considerable dissatisfaction among apple growers in regard to the lack of attention to diseases in many orchards, resulting in the spreading of the ills.

Mary Miles Minter in the Paramount Picture "The Trail of the Lonesome Pine"

COMES INTO ITS OWN

The horse stage of pioneer days comes into its own in the Paramount picture, "The Trail of the Lonesome Pine," starring Mary Miles Minter, and coming to the Temple Theatre for a two days' run next Sunday and Monday. The scene is of the Cumberland mountains of Kentucky and is one of the most beautiful ever screened. Antonio Moreno and Ernest Torrence are in featured roles. Others in a strong supporting cast are Edwin Brady, Frances Warner, J. S. Stenbridge and Cullen Tate.

East Jordan Outfit Runs Wild

Although Some of East Jordan Regulars Were Unable to Make The Trip, Traverse City Proved Weak

Captain Covey and his East Jordan Ball Hawks did not find any more opposition than expected at Traverse City last Friday night.

Notwithstanding, the Traverse City Sports Writer made the remark in the Record Eagle for Feb. 14, that "Captain Bundy Brief has lined up a far stronger aggregation than could be assembled for the trip to East Jordan. The League contests so far have developed some talent Traverse City didn't know it had." However, as our Sports Writer in Traverse is nearly always wrong, these remarks were a good omen.

The facts of the case are Traverse did not put up as good a game as they did at East Jordan, for two or three of East Jordan's men could not make the trip and perhaps they were not as strong as formerly, and, as Traverse City secured quite a number of bases on foul balls, some of the scores were accounted for this way, and, further, the East Jordan men have not had a ball in their hands since Traverse was here a month ago.

It is said that Traverse made a good many errors but from information carried back to East Jordan, some of these balls were hit unmercifully hard. This may account for Traverse's thirteen errors. However, East Jordan enjoyed the game at Traverse and found that they were good sports. At the same time, we enjoy rubbing it in to our friend from the metropolis. The villagers started to hammer the ball unmercifully from the very first inning as the score would indicate, five in the first, three in the second, eight in the third, and four in the fifth inning, making the count 20 to 0 before Traverse got a run. From this on the Jordanites worried very little about the results and played a more listless article of ball.

The pitching of McKinnon and the catching of LaLonde were features of the game, besides the terrific hitting of the whole East Jordan team. As usual Bundy Brief played a good game. We are always willing to take off our hats to Bundy for he is a real sport.

A large crowd was on hand to see the game between Bundy Brief's stars and the villagers, for if we were to judge by the reports in the Traverse paper they expected to see a real ball game and, even thought perhaps to see the boys from the Pine humbled on the large gym floor.

Williams started the twirling for Traverse and began by striking out three men in the first inning, by some good healthy swatting and an error of two allowed visitors to score five runs. They kept the good work up in the second, putting across three more. In the third at one time it looked as though Traverse City would have to call on the Fire Department to put them out. Things went along like this to the fifth inning when the total amounted to 20, to 0 for the boys from the metropolis. About this time, Van Epps, perhaps Traverse City's best bet, took up the burden for Mr. Williams and did a creditable job for the rest of the game.

Lineups—East Jordan: Parks, 3rd; Bachtold, 1st; Covey, 2nd; Kamradt, f; E. LaLonde, c; L. LaLonde, p; Vogle, f; B. Whiteford, f; McKinnon, p; Traverse City: Halberg, s; Minnie, f; Brief, 2nd; Schewe, 1st; Lyman, f; Schulgen, 3rd; Wares, c; Wilbur and Farrer, f; Williams and Van Epps, p.

The final score was 24 to 10, East Jordan up.

SCORE BY INNINGS

	1	2	3	4	5	6	7	8	9
East Jordan	5	3	8	0	4	1	0	1	2—24
Traverse City	0	0	0	0	1	0	6	0	3—10

South Arm Tax Notice.

They Have Their Place in Life.
Big, strong, broad-shouldered men are to be admired but if there were no little men, who would sing bass in the male quartets?—Altoona (Kan.) Tribune.

Gas On Stomach May Cause Appendicitis.

Constant gas causes inflammation which may involve the appendix. Simple glycerine, buckthorn bark, etc., as mixed in Adlerika helps any case gas on the stomach in TEN minutes. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gas and poisons. Excellent for obstinate constipation and to guard against appendicitis.—GIDLEY & MAC, Druggists.

EAST JORDAN REGION LEADS IN COWS OF QUALITY

January Report of Charlevoix County Co-operative Cow Testing Association Gives Rock Elm The Pennant.

The herd of Grade Holsteins owned by Art Shepard (of Rock Elm) have attained the position of High herd in the Charlevoix County Cow Testing Association for the month of January.

The herd of 9 cows has an average production in milk of 1,390 lbs and 149.2 lbs. in butter fat for the month of January which is the highest average production for any one herd for any one month since the Association has been organized. The two highest cows, for butter fat production, in that month are also found in this herd. The highest cow being "Mullie" a Gr. Holstein, with 64.85 lbs. of butter fat to her credit. She is closely followed by "Snope" another Gr. Holstein, with 64.81 lbs. of butter fat.

The good records made by Mr. Shepard's herd are due largely to the feeding and care they received. Mr. Shepard is a firm believer in good feeding and his return above cost of feed has also been very good.

The following table gives the names and records of the cows in the Charlevoix County Co-operative Cow Testing Association which have produced more than 50 pounds of butterfat during the period of 31 days ending Jan'y 31, 1924.

OWNER OF COW	Name of Cow	Breed of Cow	When Fresh	Pounds Milk	Per Cent of Fat	Pounds Butterfat
Art Shepard, East Jordan	Mullie	Gr. Holstein	Dec. 17	1853	3.5	64.85
Art Shepard, East Jordan	Snope	Gr. Holstein	Dec. 8	1649	3.9	64.81
Orchard Bay Farm, Charlevoix	Silvain Marie	P. B. Holstein	Oct. 22	1422	4.3	61.14
Art Shepard,	Tootsey	Gr. Holstein	Oct. 11	1584	3.8	57.02
Frank A. W. Behling, Boyne City	Lady Paul of Netherland 3	P. B. Holstein		1606	3.6	57.80
Art Shepard,	Blackie	Gr. Holstein	Oct. 27	1418	3.8	53.90
Frank A. W. Behling,	Model Annie Segis of Rush Court	P. B. Holstein	Nov. 10	1534	3.3	50.57
Frank Shepard, East Jordan	No. 5	Gr. Holstein	Sept. 29	914	5.8	52.78
Geo. Meggison, Charlevoix	Princess	P. B. Jersey	Nov. 10	368	6.0	51.48
Breezy Point Farm, Ironton	Gypsy Belle	P. B. Holstein	Nov. 29	1689	3.	50.87
	De Kol			14325		564.82
Total						1,432.5
Average						56.48

CLARENCE C. MULLETT, Official Tester.

Items of Interest in World's News

One Armed Soldier Does Mele in One London—J. S. Martin, of the Indian Hill Golf Club, near Chicago, a one-armed player, did the seventh hole of the difficult Stokeboges course in one, during play here recently.

To Give Mrs. Wilson Frank's Rights—Washington—Woodrow Wilson's widow would be granted free use of the malls under a resolution introduced by Chairman W. W. Geist, of the House Post Office Committee. This privilege was recently extended to Mrs. Florence Kling Harding.

Long-Haired Girls Make Best Grades—Fairfax, Okla.—Long-haired girls have greater intelligence than their bobbed sisters if the results of a recent test given the high school students here is any criterion. The ones without shorn locks averaged five points higher than the bobbed haired ones.

White Ants Chose Church—St. Louis, Mo.—As a result of depredations of termites, the so-called "white ants," St. Boniface's Catholic Church in Edwardsville has been closed and pillars and beams supporting the roof will be rebuilt. The structure is of brick, and was built in 1869.

Silver Nugget Weighs 1 1/2 Tons—Cobalt, Ont.—The most spectacular nugget brought to town in many years arrived here recently. The nugget weighs approximately 3,200 pounds, is estimated to run fully 75 per cent silver, and is worth over \$20,000, according to the estimate of the owner, Angel Clemens, a New Liskeard carpenter.

Nature Adds Isle to British Empire—London—By a caprice of nature, Great Britain has become the possessor of a new island. The steamer Chakdina, recently returned from Rangoon, reports the sudden appearance of a volcanic island 2,000-feet long, 1,000 feet wide, and 30 feet above water, in the bay of Bengal, between Akyab and Rangoon.

Australia Wants Cotton Growers—New York—Queen and Australia, wants experienced cotton farmers from the United States to cultivate 1,000,000 acres of cotton land. Premier Edward Granville Theodore, here on his way to London to arrange for refunding of 25,000,000 pounds sterling in government loans, told of the plans for cotton development.

Learn to Fatten Hogs by Movie—Koenigsberg, Germany—Young pigs, handled scientifically, can be made to take on weight at the rate of two pounds a day, according to government experts. A film showing how this is done, as well as illustrating the best methods of feeding stock and poultry, has been shown this winter to the farmers of East Prussia.

Mouse Derails Locomotive—Terre Haute, Ind.—A field mouse found frozen to death in the mechanism box of a signal system, caused a 350,000 pound locomotive of the Chicago, Milwaukee & St. Paul Railroad to be derailed. The mouse's body caused a short circuit, and the electric signal failed to operate properly, the signal arm showing a clear way.

Japan Awards Decorations—Tokio—Imperial decorations have been awarded including the Order of the Sacred Treasure, third class, to the Rev. David Bowman Schneider, Pennsylvania; same, fourth class, to the Rt. Rev. John McKim, bishop of the Protestant Episcopal church, Tokio, and same fifth class, to Dr. Rudolf Bolling Teusler, formerly of Richmond, Va.

To Map Alaska's Tip—Washington—In its latest search for valuable mineral wealth, the Government is sending a party of expert geologists and topographic engineers on a mid-winter expedition to the tip of Alaska on the Arctic, to survey some 35,000 square miles of uncharted wilderness, rugged mountain chains and large stretches of undulating treeless plains.

Truck and Driver Vanish—Cherryvale, Kan.—Harry Perceval, of Independence, was killed when a motor truck load of nitroglycerine was blown up near Altoona. No trace of driver or truck could be found. The explosion caused buildings to rock in Coffeyville, Mound Valley, Parsons and Neodesha, which led to belief there had been an earthquake. Parsons is 41 miles from the scene of the explosion.

Ducal Palace Becomes Art Museum—Weimar, Thuringia—The grand ducal palace in this city has been converted into a museum, under the direction of Dr. Wilhelm Koehler of the Weimar museum. He has transferred part of the art collection of the grand dukes to the ducal castle, and has restored them to the position they formerly occupied when the dukes were living in the old castle. Grand Duke Kari August, of Saxe-Weimar, was the intimate friend and associate of Goethe.

NOWLAND HILL

(Edited by C. M. Nowland)

Mrs. Omar Scott and Mrs. Ray Nowland visited their sister, Mrs. Emerson Collins of East Jordan, Monday. On Tuesday visited Mrs. Cameron McNally of Boyne City.

A. R. Nowland, Sam Nowland, Mrs. Edd. Nowland and Percy Batterbee visited the former's sister, Mrs. Lewis Bashaw of South Arm Feb'y 12th, Mrs. Bashaw's birthday. She is confined to the house by illness.

Anson Hull visited his uncle and cousin, George Bailey and Mrs. Earl Barber of Deer Lake a few days last week.

Richard Simmons arrived Friday from Flint where he had been nearly three weeks seeking employment.

The Boyne City Lumber Co. finished up their jobs of hauling logs from Geo. Jaquays, Roy Nowlands and from Deer Lake last Thursday.

Afton school gave a Valentine Party Thursday Feb. 14th with dinner served to a number of the parents and visitors. In the spelling down contest, Mrs. Arthur Brintnal was the winner.

PENINSULAR

(Edited by Mrs. E. Hayden)

Frank Hayden of Orchard Hill is the first one to try the water in Pine Lake this year. While attempting to draw a cake of ice out of the water with his team last Tuesday, Feb'y 12th, he stepped backwards into the hole, the lines kept him from going deeper than his shoulders and the team pulled him out. He says, "come on in the water is fine." He is none the worse for his ducking.

The Boyne City Lumber Co. sent the caterpillar tractor with the snow plough all the way from Boyne City to the Ira McKee place Friday, which makes this "neck of the woods" seem quite modern.

Several teams are hauling logs from Section 23 for the Boyne City Lumber Co. to Boyne City.

C. H. Tooley of Boyne City is skidding logs on A. B. Nicoly's place.

Mrs. Orval Bennett went to Boyne City Wednesday to visit her parents, Mr. and Mrs. Geo. Papineau.

Little Miss Pauline Loomis of Gravel Hill, north side, has been ill since Friday with the measles.

Rev. Mead of Boyne City helped Douglas Tibbitt of Cherry Hill put up ice several days last week.

The Misses Edith Papineau and Winifred Allen of Boyne City visited at the Joel Bennett home in Star Dist. over the week end.

Wilfred Arnot of Maple Row, Bunker Hill, north side was tendered a surprise party at his home Saturday evening.

ALBA

(Edited by Mrs. A. I. Ashbaugh)

Mrs. Nellie Johnson left Tuesday for Grayling where she expects to keep house for her sister and take care of four little nieces and nephews. Her sister is ill in a hospital.

Wm. Thomas was called to Kalkaska Sunday by the serious illness of his mother, who has since died.

Harry Glidden of Kalkaska spent Sunday with his parents, returning Monday.

Irving Thompson who is working in Cadillac was home over Sunday.

A little boy came to make his home with A. Moran and wife the 14th, and another to the home of Mr. and Mrs. Lud Lowry. Mothers and sons doing fine.

The debating team won with Central Lake. They have not lost a debate thus far.

George Poff who has been out of school on account of sickness is again back on the job.

Mrs. Bocooc had the misfortune Saturday to lose a purse containing about \$80.00 in cash and some checks.

LABOR CABINET FACES CRISIS

WALKOUT OF DOCK HANDS SHUTS OFF ALL FOREIGN TRADE—FOOD STOCK LOW.

PEACE CONFERENCE FAILS

Workers Reject Compromise Wage Boost, Precipitating National Struggle.

London—Nearly 200,000 men engaged in handling British foreign trade here struck and tied up every port in Great Britain. This labor blockade of the entire country may possibly result in disaster to the socialist government. Foodstuffs worth \$6,500,000 are unloaded daily from ships. Should the strike continue, in two weeks a shortage of food will compel the government to use non-union labor to get at the stores in the stranded shipping or see that the British people get rations.

Of the men who walked out 60 per cent were dock workers and the others stevedores, warehouse men, granary workers and smaller groups in kindred employment. Many thousands of others will be forced into idleness because there is no work for them.

Both the dock workers and the employers have held separate meetings, met with the minister of labor, but no agreement has been reached.

The dock workers are demanding two shillings a day more pay and the guarantee of a full week's work. The employers offered an increase of one shilling and the appointment of a joint committee to consider the problem of casual labor. This was refused.

A survey of the imported foodstuffs on hand shows that there is only two weeks' supply of chilled meat as compared with a normal surplus of four weeks. An official of one of the leading cold storage companies asserted that it would soon be necessary to ration meat, unless the ships could be unloaded.

Stocks of wheat and flour also are low, especially in Liverpool, the buyers having held back owing to the rise in prices. Most of the smaller mills will close down within a week.

If you don't know what trouble is, buy a second-hand car.

The Gardener's Gardener

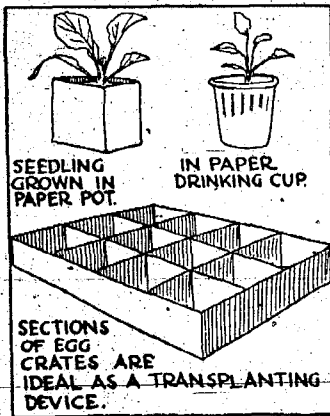

The Gardener Who Really Cares, and Who is Depending Upon His Own Past Experience to Gain the Best Results—the First Vegetables and Flowers of the Season—Must Have a Good Coldframe to Harden Off His Plants.

Indoor Gardening in Pots and Boxes

Small Containers Will Supply Ample Space for All Plants Needed.

Now is the time to begin looking around for seed boxes to start seeds for the earliest crops if you have not already provided them. The most convenient boxes are known as "flats," usually made by cutting an ordinary soap box in half and placing a bottom on the top half. These flats should be from three to four inches deep, with holes bored in the bottom at six-inch intervals to provide drainage. These holes should be covered with broken crockery or flower pots, so that the soil will not leak through.

For seed raising in the ordinary window of a living room or warm kitchen, these flats may be too wide. In this case the cigar box is a very

convenient seed box. Empty cigar boxes usually can be secured for the asking at retail tobacco dealers. It is a good plan to reinforce the fastening of the sides and bottom with a few fine tacks of sufficient length to penetrate, as they are likely to warp after the seeds have been planted. This may also be checked by binding three or four strands of wire tightly about the box before the seeds are planted.

Four holes should be bored in the bottom of the box for drainage, as in the flats. While a cigar box does not hold as much seed as the flat, it will grow a comparatively large number of plants, often all the average gardener will want, especially tomatoes, peppers or eggplants.

Where only a few plants are desired a flower pot is ideal, being built for drainage and for economy of space. Also it does not dry out quickly. The ten-inch pots will hold eight plants of large growing plants like castor beans, cucumbers or melons, and the plants may be allowed to remain until ready to transplant into the open provided the seeds are spaced in the pot when planted so they will not crowd for some time after germination.

Pieces of glass to cover flats, cigar boxes and pots are recommended, although not essential. The glass prevents too rapid evaporation and controls the danger of the seeds drying out. Paper cut to fit or cloths which may be kept moistened may be used to cover the seed boxes, watching carefully until germination begins, when they should be removed at once. The seed boxes need not be exposed to the light until the seedlings begin to prick through.—National Garden Bureau.

FOR EARLY FLOWERING

Annual flowers that can be started to advantage in hotbeds and coldframes for early flowering, whether they are to be used for bedding purposes or for cut flowers, include ageratum, China aster, calliopsis, castorbean, calendula, cockscomb, chrysanthemum, godetia, lobelia, marigold, petunia, Spanish pink, scarlet sage, spiderflower and verbena.

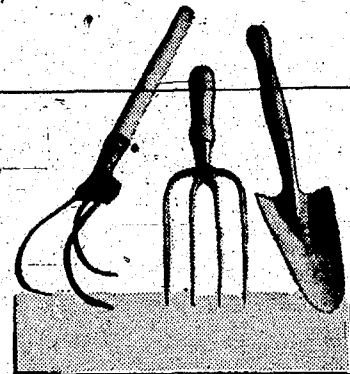

Grow Your Plants in Box or Hotbed

Gardeners Find It Pays to Have Supply for Their Own Use.

Prices of vegetables on the market are always higher in the spring of the year while certain of the most sought-after kinds are still scarce. This is especially true of the crops classed as greens and salads, because everybody seems to need more of this kind of food in the spring, and, therefore, these vegetables find ready sale. The home gardener can save this much by having his own crops coming on early. To do this it may be necessary to start some of the plants in a window box in the house and to have a small coldframe along the south side of the garage or in some other well-protected place where both the early crops and the early plants for setting in the garden may be grown.

Lettuce, radishes and beets can be grown right in the frame while plants like tomatoes, peppers and eggplant, are being prepared for setting in the open. Very little can be gained by starting beet plants in the hotbed or coldframe; however, some gardeners make a fair success of growing early beet plants in the hotbed then transplanting them to the open ground. In the opinion of the United States Department of Agriculture, the important point, however, in having an early garden is to have thoroughly prepared the soil in the fall so that it will dry out quickly in the spring and be in shape for planting just as soon as the frost is out of the ground.

Among the crops that can be planted extremely early in the open ground are potatoes, peas, radishes, beets, onions, spinach and the so-called frostproof cabbage plants, which after all, are nothing more than ordinary cabbage plants that have been grown in the open and well hardened to withstand the cold blasts of early springtime. In some places lettuce, spinach and onions can be properly planted in the fall and will mature very quickly when the first warm days of spring appear. It is really not safe to plant beans and other of the more tender crops until the soil is thoroughly warm and

Tools for Use in Hotbed.

all danger of frost is past and yet a small packet of seed costs very little and it is worth the hazard of planting them early.

Every garden of any size should have in it a patch of asparagus as the tender shoots of this permanent vegetable are among the first of the green growth that appears in the spring. In addition, the asparagus bed does not have to be planted but once in 10 or 15 years, if given the proper care and treatment.

Early crops in the garden pay best, because they yield a supply of fresh vegetables when most needed, and when they cost most in the grocery.

FRAMES FOR VINES

Frames or trellises for flowering vines not only add beauty to the home surroundings, but give the vines a better chance to get the air and sun, thus producing more flowers.

Imported Clover Seed

Experiments Show Many Plants Winter-Killed.

Warning against the sowing of imported red clover seed in Minnesota is being given by Minnesota experiment station men. Their attitude is based on the results of experiments started at University farm in 1922 when seedlings were made with red clover, furnished by the bureau of plant industry, from leading seed-producing states in this country and from all the foreign countries from which seed is imported. The following winter was mild, but despite that fact from 24.6 to 98.8 per cent of the plants grown from seed from Finland, Poland, Bohemia, northern Germany, Holland, Hungary, Australia, France, Wales, Chile and Italy were winter-killed. The plots from seed produced in Minnesota, Wisconsin, Michigan, Idaho and Saskatchewan showed only 8.8 per cent winter-killing.

"The stands on the plots where seed from Wales, France, Chile and Italy was sown averaged less than 20 per cent in every instance, and no cuttings of hay were made," says A. C. Arny, who is in charge of farm crops at the Minnesota station. "Where the winter-killing averaged from 40 to 60 per cent, cuttings of hay were made, but the yields were small. Where the winter-killing was 20 to 30 per cent the yields were reduced materially."

Because of the shortage of red clover seed in the United States, the supply being only about 45 per cent of the normal, the importation of large quantities of seed from Chile, France and Italy is forecast. "None of this imported seed should come into the northern tier of states," says Mr. Arny. "And, further, farmers and seedsmen in these northern states should see that none of the seed produced at home is shipped out until it is definitely known that all home needs have been taken care of."

Water Gardeners' Work in

Big Relief in Spring

If the work that may be done in winter is taken care of, the work in the spring when we are rushed will trouble us much less. Trunk and odd stalks of tomatoes and potatoes should be gathered and buried or made into a compost heap. Manure should be spread, and the earlier the better if it is at all fresh, though rotted manure is better spread nearer time when the plowing is to be done in the spring. Then when soil is dry enough and frost is out of the ground any time after New Year the ground may be plowed and it will settle enough to be just right for planting. Seeds will germinate much more certainly and grow off better in a fairly firm soil, and plowed soil will dry out after spring rains and may be worked without loss of this vital time when seeds must be planted for early garden. If all this work is out of the way, the garden tools bright and well sharpened, trellis material all ready to put in place, stakes for things needing them, and poles for the beans and peas all handy, things will move smoothly and we will avoid the discomfort of having the work behind and crowding us, while weeds shout for joy, and crusts form to dissipate the moisture.

Feed Plenty of Corn

Before Cow Freshens

The old saying that a bushel of corn before a cow freshens is worth two bushels after freshening is true. A milk cow, given a rest of from six weeks to eight weeks before freshening and fed during this time so that she will calve in good condition, will produce from 20 to 40 pounds more butterfat than a cow not having a rest.

Rats Are Numerous.

Rodents comprise more than one-third of all living species of mammals and exceed any other mammalian order in the number of individuals.

RELIEVED COLDS OF FATHER AND SON
Mr. G. E. Kuhler, 1104 Mulberry St., Louisville, Ky., writes: "I, and my son also, used FOLEY'S HONEY and TAR COMPOUND for severe colds and must credit the relief to FOLEY'S HONEY and TAR COMPOUND." Excellent for the relief of coughs, colds, and hoarseness.—Hite's Drug Store. adv.

A Business Story

Rich in meaning to every motor car buyer

How Studebaker reached the heights

THE story of Studebaker has been told by many men in many ways. Now let us tell it to you.

Studebaker growth has in late years been Motordom's sensation. Sales have mounted until last year 145,000 buyers of quality cars selected Studebakers. They paid over \$200,000,000 for them.

All must realize that a new situation has arisen in high-grade cars. You who are interested should now analyze the reasons.

What others say—not what you say—determines your place in the long run. In every field of endeavor one must accept that fact.

We had the money, the plants, the prestige. We had the incentive of Studebaker traditions. In time we secured the men.

We told those men to build for us the utmost in fine motor cars, regardless of all costs. We pledged them, our good faith and our resources.

15% to conform to those standards exactly.

We invested \$8,000,000 in a drop forge plant to make all our own drop forgings. \$10,000,000 in body plants, to build all bodies to our standards.

We employed 1,200 skilled inspectors to see that all standards were fulfilled. There are 30,000 inspections on Studebaker cars during manufacture, before they go out from the factory.

72-year traditions

The Studebaker principles have become traditions in their 72 years of existence. They have never wavered. In all changing conditions they have brought new luster to that name.

The cost was \$50,000,000

We built new factories—modern plants. We fitted them with new equipment—12,500 up-to-date ma-

That's the whole story.

That's about the whole story. We simply followed the never-changing Studebaker principles. We gave to our buyers the utmost—values they could not match. Then they turned by tens of thousands to Studebaker cars.

Find Out Why

People paid over \$200,000,000 last year for Studebaker cars.

The result is now a demand for 150,000 per year.

Over \$50,000,000 in modern plants and equipment to build the finest of fine cars.

One of these cars, built in 1918, has run 475,000 miles. That means 80 years of ordinary service. In December this car made the trip from coast to coast.

Over 750,000 of those cars have gone out. Their performance has developed a demand for 150,000 per year.

Every increase in sales brought a lowered cost, which we promptly gave our buyers. Today these fine cars are offering values which no rival can approach. They have made us the world's largest builders of quality cars.

Men come and go, but a name like this becomes a heritage to foster and enhance. That's what we've done—we who have that name in keeping for a time.

We established a Department of Methods and Standards, to fix for every Studebaker detail the maximum of quality.

We created a Bureau of Research and Experiment, employing 125 skilled men. They make 500,000 tests per year to maintain our supremacy.

They fixed countless standards, including 35 separate formulas for steels. Then on the most important steels we offered makers a bonus of

We deserve a hearing

Now we deserve a hearing. All who consider a car at \$1,000 or over should learn what Studebaker offers. That in fairness to yourself and us. Check one by one the advantages we offer. You'll find them by the score.

Studebaker has always been a leader. For two generations it led in horse-drawn vehicles, now products of the past.

Most of you remember Studebaker carriages—queens of their time. They were used by multitudes of people who loved quality and style.

When motor cars succeeded them, Studebaker became the logical leader in that field. Any other place would have been an anomaly.

The only way to the top

A concern of this age has one fact ingrafted in its fiber. The only way to leadership is through super-service.

The leader must excel in all you seek—in quality, in beauty and in value. There is no other way to the top. Every stretch of the road is strewn with wrecks of those who tried another.

Remember that 145,000 who did that last year chose a Studebaker car. There are nine chances in ten that you'll do it.

Consider our record, our accomplishments, our policies and principles. Consider that we have \$90,000,000 at stake on satisfying men like you. Don't buy a car in this high-grade class without seeing what we give.

THE WORLD'S LARGEST PRODUCER OF QUALITY AUTOMOBILES

Briefs of the Week

S. E. Rogers was at Cadillac on business this week.

Milton Merideth went to Detroit, Monday.

L. C. Monroe and A. G. Rogers left Monday for Muskegon.

High School Play, at Auditorium, Tuesday, March 11th. adv.

D. E. Goodman left Monday for Grand Rapids and other points.

Xelle Miles is at Kalamazoo and other points on business this week.

Lyle Keller left Monday for Battle Creek where he will seek employment.

Melvin Donaldson who has been here for a visit, returned to Jackson, Monday.

Mrs. Emma Holliday of Traverse City was here this week visiting Mrs. Mae Ward.

Mrs. Bert Scott with children are visiting her daughter, at Bay Shore this week.

Mrs. Wm. Howard left Monday for a visit with her daughters at Chicago and Detroit.

Ted Parks of Augusta, a brother of Dr. W. H. Parks of this city, has a position at Hite's Drug Store.

All kinds of Furniture, Stoves and Ranges, etc., sold on easy payments at C. J. Malpass Hdwe. Co. adv. t.f.

Mrs. E. R. Richards of Bellaire was here first of the week visiting at the home of Mr. and Mrs. J. W. Foster.

Mr. and Mrs. Verne Pierson and son, Robert, and the former's mother, Mrs. Alice Pierson left Tuesday for Wixom, where they will make their home.

Sherman Dale, infant son of Mr. and Mrs. Wm. Sherman Conway, passed away at an early hour Wednesday morning, Feb'y 20th. The child was born Dec. 9th last. Funeral services were held from the home Thursday afternoon, conducted by Rev. Hulme. Interment at Sunset Hill.

Rebec-Sweet Post of the American Legion cordially invites all Ex-Service Men of this region to be their guests at a Supper and Smoker to be given at the K. P. Hall, East Jordan, Monday evening, Feb'y 25th, commencing at 7:00 o'clock standard. This is a get-together rally of all Ex-Service Men of this region, and there are no charges. Will you be with us, Buddy?

Don't fail to see "The Jonah," High School Auditorium, March 11th.

Mrs. Louis Bashaw is reported quite ill at her home.

J. E. Chew was at Charlevoix on business, Monday.

H. H. Cummings was a Traverse City visitor over Sunday.

Miss Adele Gorman went to Grayling, Saturday, to visit relatives.

Mrs. A. Dean and Mrs. Edna Archer were at Traverse City this week.

Mrs. Clayton Kent and children are visiting relatives at Traverse City.

Mrs. R. D. Grissinger left Saturday, for a visit with relatives at Pontiac.

Faith may move mountains, but it won't budge the income tax collector.

You can't help but enjoy yourself at the High School Play March 11th. adv

Miss Vivian Kaiser visited her sister at Traverse City from Friday to Monday.

Misses Iola Gaunt and Helen Cole of Boyne City spent the week end with Miss Mary Chew.

Mrs. Frank Rydlewicz of Charlevoix was here first of the week visiting Mrs. Wm. White.

Fun and frolic, tragedy and comedy, a real play at High School Auditorium March 11th. adv.

Thomas McCary, who has been home for a visit, returned to his work at Muskegon, Monday.

Mrs. Wm. F. Roberts of Central Lake was here last week visiting Mr. and Mrs. W. A. Stroebel.

Mrs. John McKinnon and daughter, Eunice, are visiting relatives at Traverse City this week.

Alfalfa and Timothy mixed Hay \$19.00 per ton delivered. C. J. Malpass Hdwe. Co. adv.

Mrs. Chas. Murphy was called to Grand Rapids, Monday, by the death of her father, Thomas Russell.

Mrs. Chasles Sandeen of Alden was here over Sunday visiting at the home of Mr. and Mrs. Chas. Beebe.

The East Jordan Study Club will meet at the home of Mrs. Frank Bretz next Tuesday evening, Feb'y 26.

Call Phone 24 for Expert Storage Battery and Electrical Service.—The Battery Shop, L. Miles. adv. 27tf.

Contractor H. C. Clark left Monday for Algonac, Mich., where he will start erection of the new high school building there.

Mrs. Mary Amberg returned to Winchester, Ky., Monday, after a two months' visit at the home of her son, Wiley Amberg and other relatives.

The Presbyterian Missionary Society will serve Supper at the Church parlors Friday evening, Feb'y 29th from 5:30 to 7:00 standard. Price 40 cents. All are welcome.

You can lose your money and make more, you can lose your love and find another, you can lose your good name and restore it, but if you lose your sense of humor you are ruined forever.

Edmund Bogart, Newton Jones and Kenneth Hathaway of this city, George Jacquays of Wilson township and Earl Danforth of South Arm township left Wednesday to serve as Circuit Court Jurors at Charlevoix.

Bring your whole family to that High School Play, March 11th. adv.

To Whom It May Concern.

On and after this date, I will not be responsible for any debts contracted by my wife, Lottie Behlke.

ALEX BEHLKE

East Jordan, Mich., Feb'y 13, 1923.

Where Hot Air is Deadly.

In Mesopotamia the "poison wind" or "sam" is a whirlwind of superheated air, which literally deals death to those it strikes. It travels almost with the directness and narrow path of a bullet, singling out perhaps a single individual. The person struck by it collapses almost immediately and may die if stimulants are not soon applied. It has the effect of causing heat apoplexy.

Daylight and Darkness.

The part of the earth's surface from which the sun is entirely invisible at any time comprises 4227 of the total area. In obtaining this result it is assumed that the sun's semidiameter is 16 minutes and the horizontal refraction 34 minutes. So daylight covers the greater portion of the earth's surface.

If You Want Him to Know.

Treat a stranger with kindness and politeness and he will take pains to find out who you are.

Calamity Howler.

The optimist cheers, but the pessimist saves his breath for the purpose of letting out a calamity howl later on.

CUT THIS OUT—IT IS WORTH MONEY.

Send this ad and ten cents to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a ten cent bottle of FOLEY'S HONEY AND TAR COMPOUND for Coughs and Colds, and free sample packages of FOLEY PILLS and FOLEY CATHARTIC TABLETS. Try these wonderful remedies.—Hite's Drug Store. adv.

Ludington—Ludington's new \$100,000 Masonic temple has been formally opened. The temple is a handsome three story structure of Bedford stone and pressed brick and is furnished with the most modern of lodge equipment.

Detroit—The 24th anniversary of the sinking of the Maine in Cuban waters, which precipitated the war with Spain, was celebrated by memorial services at the headquarters, department of Michigan, Veterans of Foreign Wars, here last week.

Detroit—A Civil War veteran, 78 years old, obtained naturalization papers and became a citizen last week in Circuit Court here. He is John Thomas Scarrow, Wayne, Mich., who served with Co. C in the 30th Michigan Infantry.

Flint—There will be little danger of an ice shortage in Michigan cities next summer. Ice cuts on lakes in central and northern Michigan exceed that of any previous year by several thousand tons, according to statements issued here.

Whitehall—The first summer resort here has arrived at White Lake, near here. He is William Jarvis, Chicago attorney, who came for a vacation at his summer home. Mr. Jarvis made the trip from Whitehall to his summer home by bob-sleigh.

Lansing—Following charges that misinformation regarding state expenditures have been given to the public by O. B. Fuller, auditor-general the state administrative board has ordered the publication of a financial statement once a month in the daily papers.

Starring the original players of this world famous play 9 years on Broadway, 5 years in London, 3 years in Berlin and Petrograd

IT'S ALL A LAUGH

Work Wearing You Out?

East Jordan Folks Find a Bad Book a Heavy Handicap.

Is your work wearing you out? Are you bothered with throbbing backache—feet tired, weak and discouraged? Then look to your kidneys! Many occupations tend to weaken the kidneys. Constant backache, headaches, dizziness and rheumatic pains are the result. You suffer annoying bladder irregularities; feel nervous, irritable and worn out. Don't wait! Use Doan's Pills—a stimulant diuretic to the kidneys. Workers everywhere recommend Doan's. Here's an East Jordan case.

Robert Grant, says: "My back played out while at work. I couldn't lie still in bed as my back hurt so. After a hard day's work I couldn't get any rest. Night after night I had to get up and sit in a chair. My hands and feet often swelled, too. My kidneys were disordered and I had to get up many times at night. Doan's Pills, from the Hite Drug Co., cured me." See at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Examples Proving Value of Silo on Dairy Farms

There are so many thousands of examples which prove the value of the silo that it is difficult to select. However, here is one which should be considered by dairy farmers. Some fourteen years ago a cow-testing association was started in a county in a middle-western state. It was a new and unheard-of work to most of the farmers, but they bravely went into the enterprise and a systematic report was kept of some 21 herds. At the end of the year a complete report was made and in it a table was given showing the profit from herds where silage was fed and from those that did not receive silage. The monthly profit per cow in the silage group was \$5.22 and in the non-silage group was \$2.95. This would make a difference of \$2.04 for the silage cow above the non-silage cow, or for a herd of twenty cows the increased profit in feeding silage would be \$580.80. This saving was made at a time when dairy products were much cheaper than they are today. The saving refers only to the milking herd, and silage was fed to dry cows, heifers, calves, bulls and horses.

Moldy Sweet Clover Hay Proves Fatal to Cattle

Some deaths from feeding sweet clover hay have been reported from the northwest states. Professor Walker of North Dakota states that in every case investigated it was found that the cattle had been fed moldy hay. Lesions similar to those found in anthrax accompany poisoning with moldy sweet clover hay. He says there is no danger when the hay is free from mold.

Alma Bennett

Charming Alma Bennett, the "movie star," was born in Seattle, Wash., in April, 1905. She was educated in San Francisco. Miss Bennett is 5.4 feet tall; weighs 118 pounds. She has dark brown hair and brown eyes. Her favorite recreations are swimming, dancing, golf. She plays the violin.

Have You This Habit?

By Margaret Morison

A SPEAKING VOICE

"OTHER things being equal," said the great doctor that evening at dinner, "a good speaking voice is the greatest asset a man or a woman can have. When I want to engage a secretary, I always try to have my first interview over the telephone. The secretary I have now I picked out from five other young women who applied, all of them capable, mainly because she speaks clearly and isn't nasal."

"Can a pleasing voice be acquired, doctor?" asked his host, "or is it just a golden spoon that some people are born with and others not?"

"Good voice production," answered the eminent specialist, "putting down his fork and speaking emphatically, "good voice production is a habit and can be acquired. I once had a young assistant," he went on, "who purely by imitation and association with the group he was running with fell gradually into a sloppy way of talking that was very difficult to understand and very unattractive. I finally had it out with him; he saw my point—he was a fine fellow—and though it was a struggle he began to stand up straight, open his mouth, shape his words, get his voice forward. You'd be surprised if I were to tell you his name; everyone knows it these days."

The next morning at church the doctor's host heard a sermon that stayed in his memory for many days. The message of that sermon was fine, but he had heard the same thoughts many times before without consciously carrying them about with him afterward. The difference in the impression made lay in the voice of the speaker which, with no visible effort, carried clearly and quietly. He was quite undramatic. He was telling his own beliefs in unstrained, rightly placed tones that pronounced slowly and distinctly, not garbled sounds, but well-rounded English words.

It is of the universal habit of running our words and sentences together into one confused jumble, or squeezing our throats until our voices must come forth through our noses, of hissing and spluttering our sounds, of bawling and distorting our faces that we must be aware.

Men You May Marry

By E. R. PEYSER

Has a man like this proposed to you?

Symptoms: Looks dull, but brightens at your interest in him. Tells you, "You're the first person to understand me; my boss doesn't, never had one who does; my mother, dear little woman, always petted my brothers, and never did get me. All the girls I know jilt me for more successful chaps." Wants his own way in little things. Never thinks anything he does is wrong. "Nobody does it right. Why don't they let me?" Always talking about the fellows in the office who go ahead of him on the job. He's often late at his desk. He stalks around the office like an underdog.

IN FACT

He is dogged.

Prescription for his bride: Prepare for a real bully in the home.

Take spine exercises for your backbone.

Absorb This: SUPPRESSION IS THE FATHER OF OPPRESSION.

Chiropractic Appealed to Dr. M. E. King of Louisville, Ky.

HEALTH TALK NO. 5

When Doctor King was asked, why did he give up the practice of medicine for that of Chiropractic? this was his reply:

"I am well aware the medical profession as a whole does not accept the Chiropractic idea, but in almost every instance it is due either to prejudice or a lack of investigation. There was a time when I looked at the Chiropractor through a pair of bifocal lenses—upper, prejudice; lower, lack of investigation.

My wife being an invalid and medicine, with all its adjuncts, had failed to reach her complicated ailments, I, like a drowning man, grasped for anything in sight. I went to a Chiropractic school and, to my surprise, they were actually getting results on cases that were hopelessly incurable from the standpoint of medicine. The teaching of this science which places the nervous system (brain and nerves) fully in control of the body, that makes the human body dependent upon the normal delivery of nerve energy to each organ, as the vital power that operates them, opened up a new field of thought to me, which had never been presented through the study of medicine.

"I at once took my wife to the Palmer School of Chiropractic. I noted the only examination made was of the spine, which revealed a lateral curvature, plus several subluxated (slightly displaced) vertebrae. They proceeded to correct these by a series of adjustments, performed by the bare hands only, and today she is in a good state of health.

"Seeing the possibilities of this science for the relief of suffering humanity, I started into the work in earnest, and now, after three years of experience and clinical observation, I no longer wonder why it is that so many patients who have failed to get relief from medicine have strolled off to a Chiropractor and have gotten the health they so much desired.

"When I was attending the Chiropractic School I was surprised at the excellent and thorough training these students were getting and any one who takes the graduates of a good school of Chiropractic like the Palmer School, which is located in Davenport, Iowa, for a lot of ignoramuses, may have occasion to change their minds."

We are rapidly being ushered into a new era. Let us forget the past and accept new truths as we find them, all for the benefit of suffering humanity.

Are you like Doctor King, willing to lay aside prejudice; to investigate and to be convinced? If you are, call and see

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix. At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 30th day of January A. D. 1924. Present: Servetus A. Correll, Probate Judge.

In the Matter of the Estate of Joseph Maddock, Deceased. The above estate having been admitted to probate and Roland P. Maddock appointed administrator thereof.

It is ordered that four months from this date be allowed for creditors to present their claims against said estate, and that such claims will be heard by said court on Tuesday, the 10th day of June A. D. 1924, at ten o'clock in the forenoon at the probate office in the city of Charlevoix.

It is further ordered That public notice thereof be given by publication of this order for three successive weeks previous to said day of hearing in the Charlevoix County Herald a newspaper printed and circulated in this county.

SERVETUS A. CORRELL, Judge of Probate.

MORTGAGE FORECLOSURE

Default having been made in the conditions of a certain mortgage made and executed by Frank Kiser and wife Nina Kiser, jointly, both of the township of South Arm, County of Charlevoix and State of Michigan to the State Bank of East Jordan, a corporation organized, existing and doing business under and by virtue of the laws of the State of Michigan and having its principal office in the City of East Jordan, Michigan, which said mortgage bears date the 24th day of October, 1914 and was recorded on the 26th day of October, 1914 in Liber 47 of Mortgages, on page 557 in the office of the Register of Deeds in and for the County of Charlevoix, Michigan.

By reason of said default there is now claimed to be due and is due upon said mortgage at the date of this notice, including principal, interest, taxes and attorney fee, the sum of Ten Hundred Fifty-six and 71/100 (\$1056.71) Dollars, and that no suit or proceedings at law or in equity have been instituted to recover the debt secured by said mortgage or any part thereof.

Now, therefore, notice is hereby given that by virtue of the power of sale in said mortgage contained and of the statute of the State of Michigan in such case made and provided, the undersigned will sell at public auction for cash to the highest bidder on the 10th day of March A. D. 1924 at 10:00 o'clock in the forenoon of said day at the front door of the Court House in the City of Charlevoix, County of Charlevoix, State of Michigan, that being the building wherein the Circuit Court for the County of Charlevoix is held.

The premises described in said mortgage are as follows, to-wit: "The Northwest Quarter (NW 1/4) of the Northwest Quarter (NW 1/4) of Section Twenty-seven (27), Township Thirty-two (32)-North, Range Seven (7) West, containing Forty (40) acres of land more or less, according to the United States Survey thereof," together with the hereditaments and appurtenances thereto belonging or so much thereof as may be necessary to satisfy the debt, cost and taxes aforesaid.

Quick Relief
Coughs Resulting From
Whooping
Cough
with
FOLEY'S
HONEY AND TAR
ESTABLISHED 1875
HITE'S DRUG STORE

Ouch! Rub Backache,
Stiffness, Lumbago
Rub Pain from back with small trial bottle of old "St. Jacobs Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes away soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin. Lumber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

OPEN NOSTRILS! END A COLD OR CATARRH
How To Get Relief When Head and Nose are Stuffed Up.
Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffing, hawking, mucous discharge, dryness or headache; no struggling for breath at night. Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic balm in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.

LAND GRANT PROBE IS ASKED

Northern Pacific's Right To Acquire Acreage Questioned.

Washington—Congress has been asked by Secretaries Work and Wallace to investigate the right of the Northern Pacific Railway company to acquire approximately 3,000,000 acres of government land in Idaho, Montana and Washington under the terms of old land grant.

The cabinet officers desire the inquiry for the purpose of considering legislation to meet the respective rights of the railway company and the government. Their request was addressed to the chairman of the senate and house public lands committees.

The land in question is mainly located within national forest areas, and the railway company is asserting its claims under the provisions of grants made by congress July 2, 1864, and May 31, 1870, known as the Northern Pacific land grants, for the purpose of aiding the railway company in the construction of its lines from Wisconsin to the Pacific coast.

Secretary Wallace, under whose direction all national forests are administered, contends that congress has authority to save most, if not all, of this national forest acreage to the government.

ROAD ABANDONS UPSTATE LINE

Fifteen Mile Branch in Benzie County to Suspend Operation.

Washington, D. C.—Acting on an application by the Michigan Trust company as receiver of the Manistee and Northwestern railroad, the interstate commerce commission has issued a certificate authorizing abandonment of a branch line of that railroad extending from the main line at Platte River to Empire Junction.

The line to be abandoned is 15.5 miles long, and located entirely in Benzie county. The Michigan public utilities commission previously had held public hearings on the application and its chairman advises the federal commission that he can see no reason why the application should not be granted.

On the facts presented the federal commission finds that public convenience and necessity permit abandonment of the tracks.

Girl Saved in Air Leap.

Houston, Texas—Rosalie Gordon, Houston chorus girl, was saved from death when an attempted parachute leap from an airplane failed. The drop was to have been one of a series of aerial acrobatics staged before 5,000 spectators at Ellington Flying Field here recently. In making the jump from the plane, Miss Gordon's parachute became entangled on the plane and held her suspended 20 feet below the plane, which was more than a mile from the earth.

A new broom sweeps out the stuff that is back there next day.

Help Kidneys By Drinking More Water

Take Salts to Flush Kidneys and Help Neutralize Irritating Acids.

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

Red Pepper Rub is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once. The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.
