## Man Drowns at County Park

Whiting Park Scene of Drowning Last Sunday.

[From Boyne Citizen]

Charles Burnett, thirty-five years of age, was drowned Sunday afternoon at about 4:30, while bathing at the Whiting County Park.

Mr. Burnett, his wife and four children; and his sister and her husband, Mr. and Mrs. Long of Jackson, were picnicking in the park. After dinner they decided to bathe in Pine Lake. None of the party could swim.

While the beach at the park is half a mile long, it is not very broad, and after a few rods of shallow water the bank drops abruptly to a considerable depth. Mr. Burnett stepped from this bank and at once went down. His party made frantic efforts to rescue him. Mr. Long waded to the edge of the channel and was within four feet of the drowning man but could not reach him. A scuffling was pushed out, but the doomed man failed to cling to it.

The body was in the water for about three-quarters of an hour before it was recovered. The Boyne City police department was called and went to the scene of the accident with grappling hooks. From the motor boat of Mr. Charles Crane, whose resort property adjoins the park, the body was hooked and brought to the shore. A Charlevoix physician, who chanced to be present, aided by many willing spectators, worked over the body for over an hour, but life was found to be extinct.

Coroner W. M. Boylan of Boyne City viewed the body, after which Undertaker See of Charlevoix took it to the Burnett home near Bay Shore. Mr. Burnett was a prosperous farmer and the son of the merchant who conducts a general mercantile business at Bay Shore.

## HAGENBECK-WALLACE CIRCUS AT PETOSKEY MONDAY AUG. 4TH.

Residents of East Jordan who elect to Petoskey to attend the afternoon or evening performances which the gigantic Carl Hagenbeck Wallace trained wild animal circus will present there on Monday, August 4, this season will witness the most spectacular and sensational performance of jungle beasts in the history of circuses.

The circus will be unable to make this city this season, but it will extend every courtesy possible to out-of-town visitors who come to Petoskey on circus day to see the show itself or just to witness the mile long street parade which will pass down the main thoroughfare of Petoskey at 10:30 a. m. circus day.

While the Hagenbeck-Wallace circus is stressing its wild animal exhibition this year, this does not mean that the simon-pure circus acts have been neglected, agents for the circus point out. The performance is equally divided so that animal acts run one hour and hippodrome, ring and performances an equal length of time.

The trained wild animal acts this season include two spectacular performances in which fifteen Bengal tigers and fifteen Nubian Lions will be seen performing in the same arena. This is the first time that any circus has gathered so many jungle beasts together in one enclosure and taught them to perform.

More than 200 acts will be presented during the course of the two-hour performances and in these acts 450 performers and more than 200 animals, both wild and domestic, will take part. For the benefit of visitors to the circus, who desire to spend some time in the two menageries, the doors will open at 1 p. m. and at 8 p. m. This will give the patrons an hour's time in the zoos where the hundreds of animals are gathered. The performances will commence at 2 p. m. and at 8 p. m.

### "Straw Vote"

There is an old saying, "Straws show which way the wind blows," meaning that a small thing may indicate which way a larger event will turn. A vote, therefore, entirely unofficial and taken by an individual or company, often shows which way an official vote will go.

## VETERANS OF WORLD WAR SHOULD APPLY FOR ADJUSTED COMPENSATION

Veterans of the World War should be prompt in applying for their adjusted compensation insurance certificates, in justice to their dependents. It is just like any other insurance proposition. If a man's application is in, and then if he is killed or dies, the insurance will be paid by the government. In fact, his beneficiaries will actually be better off than if he survived. The bonus law regulations read, substantially, as follows: If a veteran who has applied for a bonus should die before the certificate has been actually issued, the beneficiary will receive the full value of the policy—something which the dependence would not receive if they made the application after the veteran's death. Any veteran, therefore, who fails to apply immediately for his insurance certificate is simply gambling with the ever present possibility that he may be unnecessarily robbing his heirs and dependents. If the application is in, no further steps need be taken at the time of the veteran's death to issue to his dependents their full protection.

East Jordan's post of the American Legion now has at its headquarters a full supply of adjusted compensation blanks, and will be glad of the opportunity of serving comrades who are entitled to their insurance certificates under the law. All applicants should have their honorable discharge papers with them, and should be prepared to answer correctly all questions in regard to the details of their service.

## Bids Wanted For Use of Dining Hall and Dance Hall.

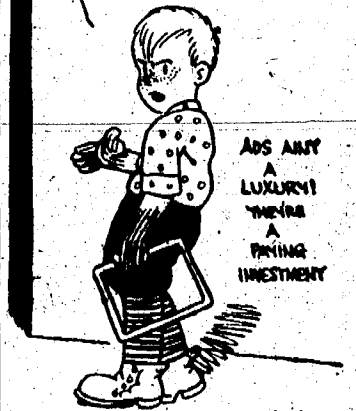

The Charlevoix County Agricultural Society will receive sealed bids until Aug. 20th for the rental of their dining hall, and also for dancing privileges in the Educational Building—on Fair Grounds during week of Fair, Sept. 8-12.

These bids must be sealed and sent to the Secretary, to be opened by the Committee. Reserve right to reject any and all bids.

## War Declared!!!

Detroit—Two children playing in the street in a child's "express wagon" were caught under a heavy truck which overturned and killed, them almost in front of the eyes of their mothers, although the driver of the truck crashed his machine against a telegraph pole in an effort to avert the accident. The truck overturned and fell on them.

Grand Rapids—Miss Helen E. Jones 81 years old, Grand Rapids' oldest native resident, died recently at the home of a brother, Charles W. Jones, after a long illness. She was born in a west-side home across the road from which was a camp of Ottawa Indians. She was the oldest daughter of Mr. and Mrs. Wilson Jones, pioneers of this city.

Lansing—For stealing 28 cents, Charles White and A. J. Crissar, both of Dimondale, must serve two to fifteen years at Ionia reformatory. The men were sentenced in circuit court here after pleading guilty to breaking and entering at night while armed. George and Frank Miller, arrested with them, were ordered released by the court, although both boys had previously pleaded guilty.

Detroit—The Highland Park taxpayers burden during the fiscal year just ended was lightened by nearly \$40,000 collected mainly from speeders and drunks. In the justice court the total number of cases heard was 4,008, an increase of 31 per cent. There were 1,393 cases of speeding and 500 cases of drunkenness. While the budget appropriation for the court for the current year's expenditure is \$13,500, receipts last year amounted to \$41,003.

Lansing—The State Public Utilities Commission has issued an order making effective July 31 a new schedule of switching rates in Detroit, the same as that of the Interstate Commerce Commission. The new rates are \$16 a car for terminal switching, \$12 for inter terminal, and \$7 for reciprocal. The commission says the Michigan Central was not justified in proposing cancellation of rates for intermediate switching to Detroit manufacturers.

Flint—P. S. Sheldon, balloonist at the Flint Amusement Park, and a woman partner named Hastings, had narrow escapes from death when they were forced to make landings in a residential section with their parachutes after a double ascension in the same balloon. The man landed on the roof of a house and was taken to Hurley Hospital, suffering from severe lacerations to his face. The woman landed on electric light wires and dripped several feet to the ground, but escaped injury.

Dowagiac—A heart attack proved fatal to Fred H. Baker, 65 years old, a well known business man and capitalist of Dowagiac, while he was motoring to South Bend recently. Railroad workers noticed an automobile drive into a ditch and stop, and about an hour later found that the driver was dead. Sheriff Earl Sill was called, who recognized the dead man as Mr. Baker. Baker had just attended a directors' meeting of the Dowagiac Manufacturing Co. and apparently was in good health. He is survived by his widow and two sons.

Lansing—The average cost per capita of maintaining inmates of the State hospital institutions is \$135 a day, according to a report. The lowest per capita cost is in the Michigan Home and Training School with 76.8 cents. The cost per inmate in other institutions is: Kalamazoo Hospital, 95.4 cents; Pontiac State Hospital, 97.4; Traverse City State Hospital, 79; Newberry State Hospital, 92.4; Ionia State Hospital, \$1.02; State Psychopathic Hospital, \$3.59; Michigan Farm Colony, \$6.9; State Sanatorium, \$2.48.

## ROTTEN UMPIRING COSTS EAST JORDAN THE PELLSTON GAME

East Jordan was defeated at Pellston last Sunday 4 to 1.

In the first inning Deitrick reached on Prathers error. Ward sacrificed, H. Kamradt and S. Kamradt singled filling the bases. Gunderson hit a sacrifice fly to Duma who dropped the ball, Deitrick scoring. Hank Kamradt slid in at home plate and looked safe but was ruled out by the Pellston umpire.

Pellston tied the score in the third on McRae's home run. In the sixth with two out and Prather on third, DeLoof deflected Miller's grounder and fielded it and threw to first, it looked as if Miller was out but the Pellston umpire said safe. Pellston scored two runs in the seventh on 2 hits 2 base on balls and a sacrifice fly.

East Jordan plays the fast Harbor Springs team here next Sunday. Harbor Springs is now in first place in the Northern Michigan Resort League and if East Jordan wins Sunday the two teams will be tied for first place. Gunderson will pitch for East Jordan. Spink or Tubbs will probably pitch for Harbor Springs.

### Original Water Heater

The first water heater known dates back some two thousand years. This was the "ahenum" of the Romans, a crude bronze kettle with a handle for swinging over an open fire. The "foculus," an apparently later device, was a metal container into which hot stones were put to heat the water surrounding them. This seems to have been the best water heater the early Romans were able to devise.

## Gunderson Wins Shutout Game

DeLoof Sticks Out a Home Run In the Sixth Frame.

East Jordan defeated Cheboygan at the fair grounds Wednesday 3 to 0.

Gunderson pitched another great game, holding the visitors to five hits, striking out nine men and having the game well in hand at all times. Only two Cheboygan baserunners reached third.

With Derr on third and Miller on second and none out in third inning, Gunderson struck out Wagner and Mack and had two strikes on Burnette when Derr (evidently thinking that Burnette had struck out) walked off third and was retired by Milligan's throw to Morgan.

DeLoof hit a home run in the sixth inning driving the ball to the right field fence.

Claud Miller of Pellston pitched for Cheboygan but did not fare as well as he did last Sunday, possibly due to the fact that he did not have his umpire here.

DeLoof made a great stop of Wagner's grounder in the first inning.

Ward was out of the game on account of a sprained ankle so Sam Kamradt played, first base. Sam handled 16 chances without an error and cracked out three hits.

Covey was out of town so Deitrick was on second and DeLoof at shortstop.

East Jordan scored the first run in the fourth. Deitrick waited out a base on balls and took second on DeLoof's sacrifice. H. Kamradt was out on a grounder to Burnette, Deitrick going to third. Sam Kamradt singled scoring Deitrick.

With one out in the sixth DeLoof hit a home run. H. Kamradt was out on a fly to Mack. Sam Kamradt singled, stole second and scored on Gunderson's single.

H. Kamradt drove out a two base hit in the ninth with two out but was left on base when Sam Kamradt hit a grounder to Mack.

Cheboygan had two men on bases in the third but could not score. Derr led off with a two base hit and took third on Miller's single, Miller going to second on the throw to third. Gunderson struck out Wagner and Mack and had two strikes on Burnette when Derr evidently thinking that Burnette had struck out wandered off third and was thrown out by Milligan.

In the eighth with one out Mack and Burnette singled. Lang sent a grounder to Sam Kamradt who touched first and threw to DeLoof retiring Burnette.

The fast Illinois Colored Giants of Chicago will play here Wednesday and Thursday July 30th—31st. The Illinois Colored Giants team is one of the fastest colored teams in Chicago and are now making a tour through Michigan. They defeated the Holland Independents two games out of three and have also defeated the Mecosta Tigers and Crystal Independents. The Illinois Giants play at Ionia, Greenville, Allegan, Alma, Oscoda, Alpena and Traverse City before coming to East Jordan.

## Game Goes 11 Innings

Colored Giants Defeated 2 to 1 In Fastest Game of Season.

In one of the fastest games played here this year East Jordan defeated the Port Huron Colored Giants 2 to 1 in eleven innings last Friday.

Jack Gunderson pitched wonderful ball and baffled the visitors with his fast breaking curves. Only three hits were made off his delivery and fourteen were retired on strikes. Jack had excellent control and did not issue a single base on balls.

The side was retired in order in eight of the eleven innings. Gunderson scored East Jordans first run in the fourth inning.

Deitrick scored the winning run in the eleventh. With one out he tripled to left center and crossed the plate on DeLoof's single.

DeLoof opened the first inning with a double to left and took third while Barnes was throwing out Ward. Hank Kamradt singled off D. Walker's glove, Sam Kamradt hit a grounder to Craig and DeLoof was thrown out at the plate. Gunderson flied to Pryor.

In the second inning Milligan waited out a base on balls and was sacrificed to second by Covey. On Deitrick's grounder to Barnes, Milligan was retired at third. LaLonde hit to Haley and was thrown out at first.

With one out in the fourth Gunderson singled and Milligan was passed. Covey scored Gunderson with a single to center. Deitrick and LaLonde were out on flies.

Hank Kamradt singled in the fifth after two were out, Sam Kamradt waited out a base on balls. Gunderson sent a long fly to Gill.

In the sixth Milligan was out on a fly to Washington, Covey singled, Deitrick sacrificed, LaLonde was out on a grounder to Barnes.

Craig doubled in the eighth for the first hit off Gunderson. He was left on second as Pryor struck out and G. Walker was out on a fly to DeLoof.

The visitors tied the score in the ninth. D. Walker flied to H. Kamradt. Barnes doubled to right, LaLonde made a great running catch of Gills fly. Haley singled scoring Barnes. Bennett struck out.

In the eleventh with one out Deitrick drove a three base hit to left center. Tolles batted for LaLonde and beat out a hit to D. Walker, Deitrick holding third. DeLoof singled to center scoring Deitrick.

#### "LIBRETTO"

The small paper-bound volume which contains the text and words of an opera or extended musical composition is known as the "libretto." This word is a diminutive of the Latin word "liber" which means book. Familiarly with the "libretto" usually adds to the enjoyment of the opera. The pronunciation is "libret-to," with the accent on the second syllable.

# SASKATCHEWAN CITIZENS VOTE WET

DRYS WERE 21,000 BEHIND WHEN OVER HALF OF BALLOTS WERE COUNTED.

## ADOPT GOVERNMENT CONTROL

Provincial Plebiscite Instructs Legislature Licensed Sale Not Wanted.

Regina, Sask.—Opposition to the "bone dry" prohibition act and approval of government sale of spirituous and malt liquor in sealed packages was shown by the voters of Saskatchewan province in a recent plebiscite.

Returns available from more than half the total vote of the province showed a ratio of nearly five to three against continuation of the present "bone dry" act which went into effect February 1, 1921. Licensing of places for the sale of beer was disapproved by the voters, who gave majority to the plan to confine distribution of "all spirituous and malt liquors" to "sale by government vendors in sealed packages."

Three distinct points were submitted to the voters as a guide for the provincial legislature, which is not legally bound to follow the outcome of the plebiscite but heretofore invariably has been governed by these expressions.

First, the voters were asked if they were "in favor of prohibition in Saskatchewan," and in slightly more than one thousand polling places the vote in favor of prohibition was 40,689, and against it 61,301.

Two questions were asked on method of sale of liquor, if its sale was approved, one containing sale to government vendors, and the other, besides the government sale, permitting "also sale of beer in licensed premises."

The voters were divided on the distribution questions, but available returns indicated that the government sale only was approved, as it had a decisive lead in returns reported.

## U. S. NAVY LAUNCH BIG SUB

Undersea Fighter, 341 Feet, First of Fleet of Nine.

Portsmouth, N. H.—A submarine twice as large as any built previously for the United States navy was launched at the navy yard here recently. This big undersea fighter, to be known as the V-1, is the first of a fleet of nine that will be able to accompany the battle fleet at sea in any weather and at any speed of which the fleet itself is capable.

Exact statement as to the radius in which the V-1 can operate was not given out by the naval authorities, but indication that she could cross the Atlantic and return without replenishing fuel or supplies was seen in the statement that "the V-1 can make any voyage of which the fleet as a whole is capable."

The vessel is 341 feet, 6 inches overall, has a maximum breadth of 27 feet, 6 5/8 inches, a surface speed of 21 knots and a speed of 9 knots submerged, and a surface displacement of 2,184 tons. She is so nearly self-sustaining that she will not need the service of a mother ship when in port. She will carry a whaleboat and a motor launch each 24 feet long.

Fresh water will be in ample supply, the heat of exhaust gases from the Diesel engines being used, with a special oil-fired boiler and a number of electric heaters to evaporate water and provide steam.

The ventilation system is described as much more extensive than that fitted on any previous United States submarine, including provision for revitalizing the air by the addition of oxygen.

The V-1 will carry 7 officers and 80 men.

## FATAL BLAST ACCOUNTED FOR

Naval Court Says Poor Pressure Caused Disaster.

Washington—The turret explosion aboard the battleship Mississippi, off the California coast last June 12, in which 44 men and three officers were killed, resulted from insufficient air pressure, used in cleaning the bore of the big gun, according to findings of the naval court of inquiry.

The fire in the upper handling room, the court said, was "caused by the safety doors not being entirely closed" and casualties were increased by the presence of unoffical observers "who crowded the passageways making exits more difficult."

Realtors Back Metropolitan Plan.

Lansing—Efforts of Detroit to obtain legislation permitting establishment of a metropolitan area will receive the support of the Michigan Real Estate association. This was decided when the executive committee of the association in session here adopted a resolution pledging its aid to the project. The executive committee expressed a belief that expansion of other Michigan cities will make necessary the establishment of several metropolitan areas.

## JAPAN ERECTS TARIFF WALL

Diet Adopts Measure Increasing Duties On Imported Luxuries.

Tokio—Both houses of the imperial diet recently passed the government bill raising the tariff on about 250 articles classed as luxuries to an ad valorem duty of 100 per cent.

The date the increase will become effective will be announced in the imperial ordinance promulgating the act. It is understood that the measure will not affect goods already in transit, an arrangement to this effect having resulted from diplomatic representations made by Great Britain and France. The bill was before the diet just 10 days.

The bill is not intended as a revenue-producing measure, according to government spokesmen, but as a means of correcting a national tendency toward consumption of foreign-made articles, to which is attributing in part the mounting of an adverse trade balance. It also is intended to protect domestic industry.

Trade with America is expected to be very slightly affected, owing to the fact that most of Japan's purchases in the United States are of staple articles, such as cotton, iron and machinery.

## DEVALERA AND STACK RELEASED

Liberty Comes After Close Confinement Since Last August.

Dublin—Eamon De Valera and Austin Stack, leaders of the Irish republicans, were released from Arbor Hill barracks recently. Since De Valera's arrest while speaking in an election campaign last August he was kept in strict confinement and until a few days ago was not allowed even a visit from his wife. He was, however, permitted the use of books and writing materials though every precaution was successfully taken against his communication with his colleagues outside the prison.

Manifesto was issued from time to time by his deputy, P. J. Rutledge, a former member of the Dublin parliament, but there is no means of ascertaining how far De Valera is committed by what was said or done in his absence.

## NINE DEAD 20 MISSING IN FIRE

Kansas City Explosion Wrecks Store And Department Building.

Kansas City—Two firemen were fatally injured, several others seriously hurt and seven Negroes are known to have been burned to death in an explosion and fire which wrecked a store and apartment building in a Negro district.

The firemen were pinned beneath a falling wall. They died at a hospital. Six other firemen who were caught under the wall were taken to a hospital.

The bodies of the five Negroes were recovered. Twenty others were missing, and searchers believe more bodies would be found.

The Negroes occupied the second floor of the building.

The fire, it is believed, was started by a gas explosion in a confectionery store on the first floor.

Glass Workers Demand Increase.

Atlantic City, N. J.—The American Flint Glass Workers' Union entered the conference of owners and workers of about 400 glass manufacturing plants in the United States, at Marlborough-Blenheim, and demanded an increase of 25 per cent in the present wage scale. This increase was asked on behalf of all crafts throughout the industry, although the chimney-making branch of the workers have already accepted a cut rather than face a cessation of operations.

## Cat Knocks on Door

An English artist owns a cat which will not enter the house by the back door. It always walks up to the front door, which has a knocker at a convenient height, gives one or two knocks and then waits for the door to be opened. If there is not an immediate answer it knocks again until it gains admittance.

NO SMOKING IN THE COURT ROOM

WHEN a lawyer's mind is wandering towards the cigar case, it's hard to keep it on his client's.

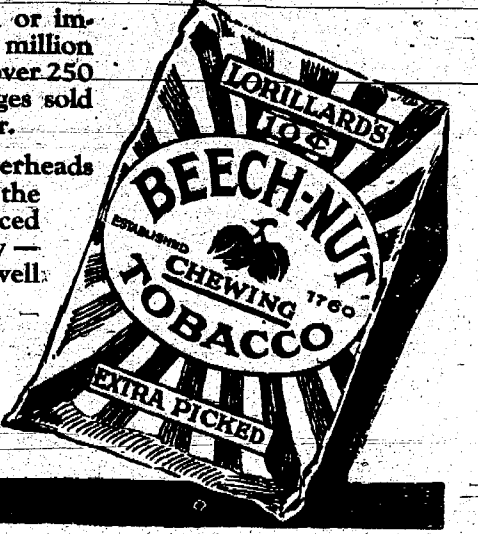

The suave, easy, self-possessed cross-examiner usually holds himself and witness in hand with a helpful little chew of BEECH-NUT—the favorite tobacco of thinker and worker.

Supreme Court justices, outdoor workers, expert craftsmen, athletes and business executives are never without it.

The biggest package of the best tobacco that ever flattered 10c.—a clean, pure chew for keen, sure brains.

Not a stem or impurity in a million packages and over 250 million packages sold in a single year.

Increased overheads haven't raised the price or reduced the quality—Makes 10c. swell with pre-war pride.

**PERSIA SENDS MURDER REGRETS**

PROMISES TO DO ALL POSSIBLE TO PUNISH SLAYER OF MAJOR IMBRIE.

**TAKING PICTURES, MOB ATTACKS**

Influriated Mob Turns On Police and Soldiers When They Attempt to Assist Victims.

Washington—Instructions have been received by the Persian legation from its government to express to the Washington Government its deep regret over the killing of Vice Consul Robert Imbrie by a native mob at Teheran and to state the Persian government will do "all in its power to fulfill its duties in this case."

The Persian government, it was added, is seeking "the guilty persons in the case and will take all possible steps to secure their punishment."

At the same time, the cable dispatch to the legation was said to indicate the attack on Imbrie and his companion, Melin Seymour, was provoked by "their own carelessness in going to a sacred place and persisting in taking pictures." The police and soldiers who went to their assistance, it was added, were attacked by the mob, three policemen being mortally wounded and a soldier dying a few hours later of injuries received.

The instructions were received at the legation while American Government officials were awaiting further advices from Joseph S. Kornfeld, its minister at Teheran, concerning the case. A thorough investigation was being made it was stated.

The National Geographic Society had commissioned Maj. Imbrie to take pictures in Persia and apparently he was attacked. There is no law in Persia against the taking of photographs, except the photographs of women.

Maj. Imbrie was a Yale graduate and drove an ambulance during the war, after representing the State Department in Russia. He also was noted as a hunter of big game and had won distinction for exploits in the Congo.

Seymour was reported to have been a prisoner of the American consulate. Little could be learned of him.

**SLAYERS POSE AS MONSTERS**

Defense Lays Diabolical Schemes to Leopold and Loeb.

Chicago—Stories that Nathan Leopold, Jr., and Richard Loeb, confessed kidnaper-slayers of Robert Franks, first planned to make their fathers, or Loeb's 10-year-old brother, the victim, have been characterized by the prosecution as propaganda designed to further the insanity theory of the defense.

The defense is endeavoring to make the youths appear as diabolical as possible in order to prove that they are crazy, according to Dr. William O. Krohn, alienist, who will testify for the state. The prosecution contends that the boys were normal, healthy and well educated and expects to introduce evidence in support of that contention at their trials scheduled to start August 4.

A plan to radlocast the proceedings of the trial during the progress had been advanced by a Chicago newspaper, which has submitted a referendum on the suggestion to its readers.

**GRAND RAPIDS CAR BARN BURN**

Fireman Killed, Others Injured By Falling Bricks As Wall Falls.

Grand Rapids—One fireman was killed and several hurt in a fire which destroyed the \$500,000 Hall street car barn here.

The fire resulted in the complete disruption of street car service in the southern section of the city.

Percy Acker, a member of Engine Co No. 7, was instantly killed when he was caught under falling bricks when one of the walls of the car barn fell. Verno Lampire, a member of the same company, was seriously injured at the same time.

A few minutes before the entire eastern wall of the big building collapsed and several firemen were reported to have been injured there.

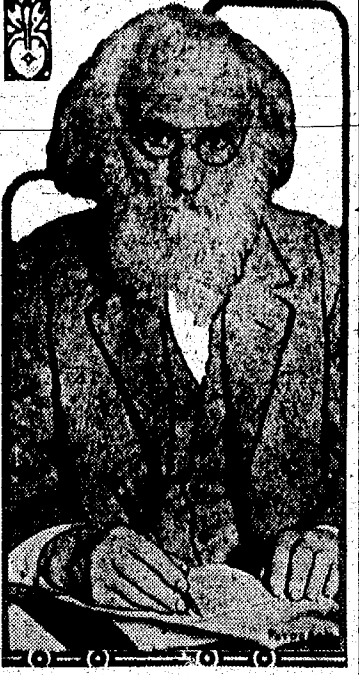

About 50 street cars were in the car barns at the time of the fire. They were all destroyed. These included seven new cars recently purchased by the city.

The fire is believed to have originated in one of the street cars which had been stored in the car barns for the night.

**U. S. to Modernize Spain's Phones.**

Washington—American interests will take over and modernize the telephone system of Spain, the department of commerce has announced. A corporation financed by Spanish capital, but with American technical staff and material will install up-to-date telephone equipment in Madrid and Barcelona. The present system in Spain is antiquated and the service is so poor that a great many offices and practically all private homes do not have telephones installed.

**Exra Meeker**

Exra Meeker, noted pioneer, ninety-four years old, announced that he intended to file petitions as a candidate for representative from the Forty-seventh district in the state legislature of Washington. His purpose in seeking a seat was to support the Naches Pass highway project and oppose attempts to put through an application to build a state highway through Chinook pass. Ezra Meeker was among the first few hundred to cross the continent by ox team, and was actually the last.

**Fashion's Vogue Brings the Ostrich Back Again**

Ostrich has come back into fashion. Not only millinery reflects the revival of the ostrich vogue, but costuming throughout is lavishly garnished with ostrich fringe, tassels and other novelty effects. As a consequence of this favor for ostrich the old-fashioned ostrich boa is now new-fashioned.

Portrait effects through ostrich placements are part of the charm in millinery this season. The little roll-brimmed model in the picture says summer in its straw facing, while it bespeaks autumn in its black silk plush crown; therefore it is an ideal midseason type.

**"Porter House"**  
 In ante-Volstead days the "porter house," where porter and other malt liquors were sold, was quite a place for social gatherings. To offset competition, the proprietor of a certain New York "porter house" made his place a favorite by serving choice beef steaks, cut from behind the best ribs. This particular cut soon came to be known exclusively as "porter-house steak."

**BACK BAD TODAY?**

Then Find the Cause and Correct It As Other East Jordan Folks Have.

There's little rest or peace for the backache sufferer. Days are tired and weary—Night brings no respite. Urinary troubles, headaches, dizziness and nervousness, all tend to prevent rest or sleep. Why continue to be so miserable? Why not use a stimulant diuretic to the kidneys? Use Doan's Pills. Your neighbors recommend Doan's. Read this East Jordan case: Eric Armer, railroad engineer, says: "I had a sore feeling across my back that stayed with me for days. Stitches took me and I wasn't able to move. My back was always lame. Mornings I felt so tired I could hardly get up. Through the night I often had to get up to pass the kidney secretions. Doan's Pills, from Gidley & Mac's Drug Store, fixed me up in good shape."

**WHY WORRY?**

By THOMAS ARKLE CLARK  
 Dean of Men, University of Illinois.

"STRING" slouched into the office a few weeks ago and dropped into the chair in front of my desk a crumpled and despondent heap. He had been exposed to chickenpox, his best girl was going to a dance with a Phil Gum, and his quiz grade in philosophy 7 was 89. He was the picture of gloom and despair.

"I tell you," he said, after a few moments of ominous silence, "I'm worried."

There are few states of mind more useless and harmful than worry. Half the things we worry about never happen, and the other half right them selves if we go along cheerfully and do our work.

I was brought up in an atmosphere of worry—that is, I lived as a child on a farm—and I early got my fill of it and learned its futility. There was the worry of chinch bugs and cut worms, of early frost and hot winds, of drought and wet spells, of low prices and falling crops, of hog cholera and bots and glanders and foot rot, and a thousand and one diseases and disasters which seldom overtook us.

"We are going to have a fine crop of corn this year," I said to a complaining neighbor.

"Yes, but I'm worried for fear we won't get anything for it," was his cheerful reply. "When we have a crop we don't get anything for it, and when prices are high we don't raise anything."

And I never remember a crop failure or a time when things did not turn out pretty satisfactorily, though few ever learned to give up worrying.

There are few things so useless as worrying. It will not win a girl's love or raise the price of potatoes; it will not get a man a job or make him immune from the hives. It helps no situation; it gets one nowhere; it is as gloomy and as uncertain a pleasure as the enjoyment of poor health.

There are few things which so inhibit and discourage progress or success as worry. It corrodes every pleasure; it destroys ambition; it is a foe to content; it robs a man of the will or of the desire to think or to work. When a man worries he must give all of his time to it.

The man who says he can't help worrying resigns himself to emotional slavery too easily. Worry is amenable to the will as is every other form of nervousness or hysteria. We encourage it by courting it and by yielding to it.

"String" told me the other day that he had a letter from his mother, telling him that he had had chickenpox when he was a child, so that there was no danger of contagion at this time; his instructor had misread his grade in philosophy—it was 83; and his best girl had just sent him a beautiful birthday cake with a heart in the center and with candles around it.

**Taking Them in Order**

The elevator boy was green at the job. Two passengers, a man and a woman, got on at the street floor. "Ninth," said the latter once they were fairly started. "Sixth," said the man. The car sped by the sixth floor and stopped at the ninth. On the way back the man said: "Why in thunder didn't you stop at the sixth floor? The sixth is lower than the ninth." "I know that," said the elevator boy, "but the lady said 'Ninth' first."

**Really Not Her Fault**

A lady in great demand socially was duly summoned as a witness in some court proceedings. As she failed to appear, a deputy marshal was sent to act as escort. Then the judge explained to her that she was in contempt of court and asked what she had to say. She was manifestly astonished at all this. "I meant no contempt," stated she. "I would have attended the trial gladly, only I had a previous engagement."

**Red Crown**  
**The High-Grade Gasoline**  
**Means Your Money's Worth of Mileage**

TRUE gasoline economy lies in mileage—providing other good fuel qualities are not sacrificed.

Comparative road tests by users and by manufacturers of automobiles, prove that Red Crown yields more and better mileage than any other gasoline of its kind. In addition to extra mileage, Red Crown gives flexibility and efficient performance at all times.

To quote from a letter recently received—"Red Crown, used by us for the last four years, has given us smooth acceleration, more mileage and power, and does not thin out the oil in the crank-case because it burns up clean. Our carburetors do not have to be adjusted because Red Crown is always uniform in quality, everywhere."

Red Crown effects other economies. It keeps your engine running sweet and clean. It reduces overhauling and cleaning bills, and best of all it provides that dependability of performance which is so agreeable to all motorists.

Use Red Crown this summer. It will give you more for your money and more days of service from your car.

A breakup in the new resort league composed of baseball teams from Cadillac, Manistee, Frankfort, Kalkaska, Ludington and Traverse City is threatened because some of the teams are using hired out-of-town players. It was agreed at the opening of the season that each team would stick to its own home town players and pay no salaries, not even to the pitchers. The players would take a chance on a division of any profits at the close of the season. Ludington, Cadillac and Manistee claim to be sticking to the agreement, with the other three using hired players. Gus Bartley of Lansing is said to be pitching for Frankfort which is alleged to have a team made up largely of players from other cities. Traverse City is blamed for starting the move for hired players.

**Reflections of a Bachelor Girl**

By HELEN ROWLAND

LOVE is not "life's sweetest gift"; it is merely a loan—at an extortionate rate of interest.

Nobody will ever know what Solomon suffered on Blue Mondays, when all seven hundred of his wives probably got a "martyr-complex" at the same time!

The girl who scatters her kisses around promiscuously may get a few more invitations to go motoring; but she is "scabbing" on her own sex, lowering the market price of love, and making the world safe for bachelors.

A man spends the first twenty years of his life waiting for a chance to shave, the next ten waiting for the barber to shave him, and the rest of it waiting for his wife to tell him to shave!

The man who marries once is an idealist; the man who marries twice is an optimist—or a fatalist; but the man who marries three times is a "glutton for punishment."

The saddest thing in life for a woman is to be born with a "perfect 36 soul," emotionally, and to have to carry it through life under a 160 pound figure.

You can read, in any woman's magazine, of 57 different ways to hold a man's love; but, once a woman's heart gets attached to a man, it is supposed to stick forever like a postage stamp. (Copyright by Helen Rowland)

**ROMANCE OF WORDS**

"VAMP"

IMMORTALIZED by Rudyard Kipling and Burne-Jones, the "rag and a bone and a hank of hair" has been popularized of late years by the moving picture screen, the stage and the novelists who appeal primarily to sex interests. The vamp—a contraction, of course, of "vampire"—has become so well known that the verb "to vamp" threatens to carve for itself a permanent niche in the etymological hall of fame, there to take up a place alongside of "mob" and "pluck" and "rap" and other words which, originally, were frowned upon as passing provincialisms.

The folklore of all ages is replete with legends of true vampires—supernatural creatures who lived by sucking the blood of the living and who could be destroyed only by driving a green-wood stake through the dead body from which the evil spirit emanated. Bram Stoker's "Dracula" is probably the best example of this type of vampire, and it was a living woman of somewhat similar tastes whom Kipling had in mind when he composed his famous poem. But the vampire is by no means confined to legend. The real vampires are the bats which suck the blood of animals, though they but rarely attack man. This dangerous species is confined to only a few of the smaller varieties of bats, the large and mis-named "vampire bat" of South America being entirely harmless. Of late years the Kipling-esque vampire has been so prevalent in fiction and in motion pictures that the word "vamp" has taken on a significance entirely different from its accepted meaning with respect to music, and it will be interesting to see how long the vogue of the vampire woman lasts. Traverse City—Martin Hanson, 47 years old, of Milwaukee, wheelsman of the steamer Stewart, was killed at South Fox Island when crushed between two logs he was helping to unload.

Petoskey—Mary Godink, 18-year-old daughter of John Godink, who lives in the northern part of Emmet County, lost her left foot when she stepped in front of the cutting bar of a mowing machine.

Grand Rapids—General Byron R. Pierce, loyal soldier and last Civil war general, was buried a few days ago, when taps had sounded the close of a life 95 years long—a life which played its full part in keeping the nation one.

Detroit—Sales reports from the 34 American branches of the Ford Motor company show that more than 1,000,000 Ford cars and trucks were sold at retail during the first six months of 1924. The actual figure is 1,036,978, which exceeds the total retail sales for the same period in 1923 by 133,095—again averaging 22,182 sales per month.

Holland—Forty-two farmers, armed with pitchforks, recently foiled attempts of deputies to seize farm produce, machinery and other articles on the farm of George Smyers, north of Holland, to satisfy a writ of attachment. When three officers tried to force their way into the premises the halligrent farmers threatened to lynch them, it is said.

Manistee—The Manistee city gas rate of \$1.60 per 1,000 cubic feet has been reduced to \$1.50 by the city commission. This is the second reduction made by the commission in six weeks, the first from \$1.75 to \$1.60 having been ignored by the Consumers Power Co. The action came as a climax to five years of negotiations with the company for a new gas plant.

Lansing—Three hundred and nine automobiles during the month of June were stolen throughout the state, according to the monthly report of the secretary of state's office. One hundred and eighty-five of this number were recovered, according to the report. The largest number of cars stolen, the report shows, were from Detroit. Hamtramck was next, and Ludington, third.

Judson L. Transue, real estate dealer, was recently elected mayor at Flint to succeed Mayor David R. Cuthbertson, who was recalled at an election held June 12. Transue's plurality over Cuthbertson in the city was 1,808. The total vote was: Cuthbertson, 10,034; Transue, 11,842. Homer Vette, former sheriff of Genesee County and former alderman of Flint received a total of only 547 votes in the city.

Lansing—An attempt by an unidentified foreigner to annoy Mrs. Ollie Gibson, police matron, almost cost him his liberty when Mrs. Gibson grabbed him by the coat collar as he

made an insulting remark to her and dragged him toward the police station. She was successful in holding him for two blocks, but as they neared the station the man managed to wrench himself free and disappeared in the darkness. Officers searched the locality immediately, but could find no trace of him.

Lansing—Hearings on the petition of the Michigan Central Railroad for permission to abandon its agent stations in some small Southwestern Michigan points was held before the State Public Utilities Commission recently. The railroad complained that there is insufficient business to warrant maintaining agents. Counsel for the village protested, claiming that agent service is essential and that the railroad has not shown sufficient proof of unprofitable business.

Flint—E. L. Mason, boy scout executive, in a conference with E. W. Viets, manager of the local safety council, recently made known his plans for the coming year. According to Mason, all boy scouts will cooperate in the various campaigns which are sponsored by the Flint Safety Council. The scouts are a medium by which literature and notices may be placed in the hands of the general public without loss of time and the waste which ordinarily arises when other individuals perform this sort of work.

Detroit—Detroit firemen were called upon recently to extinguish a spectacular fire that swept an ice house, Springwells, causing an estimated loss of \$100,000. It was reported more than 50 tons of ice were in the building when the blaze was discovered. When the Detroit firemen arrived the flames were bursting from nearly all parts of the wooden structure which was 650 feet long, 60 feet wide and 70 feet high. The heat soon destroyed a number of railroad tracks. Within a short time clouds of smoke enveloped the neighborhood.

Japan's Holy Mountain

A number of reasons enter into the fact that Fuji San is called "the holy mountain of Japan." Its perfection of beauty, its supposedly miraculous creation and the fact that on its slopes are many shrines cause thousands of pilgrims to hold the mountain in reverence and to visit it annually.

Not So Funny

An insurance salesman is looking for the practical joker who gave him a loaded cigar. The salesman doesn't smoke, so he treasured the cigar. Monday he gave it to a man who was about to sign a \$10,000 policy. The cigar burst like a bomb and the indignant prospective customer ordered the salesman out. He went, with the policy still unsigned.—Detroit News.

Lonesome

Once upon a time I prayed that I might be delivered from all my troubles, but when my prayer was answered I was the loneliest man in the world; there was nobody to sympathize with me!—Atlanta Constitution.
