Now Leading N. M. League

East Jordan Blanks Boyne City and Garners 14 Runs.

East Jordan defeated Boyne City 14 to 0 last Sunday at Boyne City, and took first place in the Northern Michigan Resort League. Wonderful pitching by Gunderson held Boyne City in check at all times, only one hit being made off his delivery and nine were retired on strikes. Only three balls were batted out of the infield, two flies that Sam Kamradt caught and the one safe hit Boyne City batters completed their time at bat. Gunderson did not allow a single base on balls.

DeLoof made two triples (one with the bases full and one with two on bases) and a single. Ward hit a double and two singles. Sam Kamradt cracked out three singles and made a nice running catch of Cody's fly in the seventh.

With two out in the first inning, H. Kamradt was safe on Melencamp's wild throw, taking second on the play. A passed ball put him on third and he scored on Sam Kamradt's single. Gunderson was passed, Milligan was called out on strikes.

Covey opened the second with a single to right. Ward sacrificed, LaLonde was thrown out by Cody. DeLoof waited out four balls, DeLoof fled to Fleming for the third out.

In the fourth Milligan was passed and took third on Covey's safe punt. Covey was out stealing second, Foster to Zeigler to McNally. Ward cracked out a single sending Milligan across the plate, LaLonde walked and DeLoof was hit filling the bases. DeLoof drove out a three base hit to left scoring Ward, LaLonde and DeLoof. DeLoof scored on Saffron's error of H. Kamradt's grounder.

Milligan doubled to center in the fifth. Covey fled to Cody, Ward singled Milligan going to third, LaLonde fled Zeigler, Milligan and Ward scored on DeLoof's double.

After one was out in the sixth Sam Kamradt singled. Gunderson hit a long drive to center that looked good for a home run but the wind held the ball back and it was caught by Fleming. Milligan was safe on McNally's error. Covey was out on a fly to Fleming.

East Jordan scored four runs in the seventh. Ward led off with a two base hit. LaLonde was called out on strikes, DeLoof was passed. DeLoof hit his second three-bagger scoring Ward and DeLoof. H. Kamradt singled scoring DeLoof. Sam Kamradt singled, Hank Kamradt going to third. On the double steal H. Kamradt scored and Sam Kamradt went to third. Gunderson hit a grounder to Zeigler and Sam Kamradt was thrown out at the plate.

Two more runs crossed the plate in the ninth. DeLoof was hit by a pitched ball and DeLoof singled. H. Kamradt fled to Fleming, DeLoof going to third and DeLoof to second. DeLoof scored on a passed ball, DeLoof going to third. Sam Kamradt hit a long fly to Fleming, scoring DeLoof.

Boyne City had two on bases in the third. Fleming reached first, on Covey's error, DeLoof's error put Saffron on first, Fleming going to second. Melencamp was out on a fly to Gunderson, McNally struck out.

After two were out in the fourth Bradley was hit by a pitched ball but was caught off first by Gunderson. Manglos made the only safe hit off Gunderson when he doubled down the left field foul line in the seventh, Manglos went to third while DeLoof threw out Bradley. Manglos was caught off third and was out Milligan to DeLoof to Milligan.

In the eighth with two out Fleming was hit by a pitched ball, but was left a first when Saffron was out on a grounder to Ward.

Attendance Was Rather Small

About Eighty Present at East Jordan-Detroit Picnic.

The fifth annual East Jordan-Detroit picnic was held at Sugar Island, July 27, with about 80 present, which was somewhat smaller than usual, owing to sickness and vacations.

George Pringle and Robert Mackey being with us from East Jordan.

The ball game between the married and single men was won by singles, 16 to 10.

Old Sol was doing double duty so several people took home some sunburns as souvenirs.

Everyone was happy though tired when the Greyhound landed at 7:30 in Detroit.

Don't forget to be with us next year, the last Sunday in July, same place.

STATE NEWS IN BRIEF

Owosso—The American Legion of Owosso took out a rain insurance policy recently to the amount of \$500, which would have been paid if one-tenth of an inch of rain fell between the hours of 10 a. m. and 2 p. m. on the day when they held their annual picnic and barbecue at Round Lake. Visitors from all over the eighth district attended.

Munising—Will Tormis, a Grand Marais boy, was very seriously injured as the result of a bullet wound inflicted by a companion, Clarence H. Hoen. The boys were chasing a chipmunk around a brush pile when Hoen's rifle was discharged accidentally. The bullet pierced Tormis' right lung and emerged from the right shoulder.

Grand Rapids—Falling overboard unnoticed, from a rowboat in which Earl Fisher, a member of the Carlisle United Brethren Church, was taking eight children of his Sunday school for a ride recently on Green Lake, Earl Fitzgerald, 10 years old, was drowned. His body has been recovered. The children were in attendance at a church picnic.

Detroit—Circuit Judge Arthur Webster has issued a decision restraining the Gas Co. from collecting new rates awarded by a board of arbitration. Judge Webster holds, that a three year agreement, such as was made, is equivalent to a franchise and in order to be valid must be approved by either the electorate or the public utilities commission.

Jackson—Only the engine can be salvaged from a passenger airplane which crashed to earth recently at Hague Park, near Jackson, with pilot and one passenger. Neither pilot, "Galloping Gallop," nor the passenger were injured seriously. The plane was caught in shifting air currents, according to Gallup, and came down only five minutes after taking off.

Detroit—Although it ranks fourth in population, Detroit took third place in the United States for building construction in the first six months of 1924, according to word received recently from Washington. Los Angeles, which had been leading Detroit, dropped back to fourth place. Only New York and Chicago have higher construction programs ahead than has the auto city.

National Defense Test Day Former Senator Townsend Dead

Friday, Sept. 12th. Purposes of the Test Explained.

Heart Disease Suddenly Ends Career While Visiting Friends

Why It Is

In 1920 Congress passed a law for National Safety.

This law provides a Reserve composed of Civilization Volunteers.

In Peace, this Reserve is only a Framework composed mostly of Officers.

If we be attacked, this framework Reserve is filled up by enlisted men procured by Selective Service Boards of Civilians.

To do this plans called Mobilization Plans are necessary.

The War Department is responsible that these plans will work, and, to find out.

It primarily institutes a Mobilization test.

What It Is

It is a Test of the Progress made in our National Policy of Preparedness.

And therefore, a Test of our Preparedness to prevent War.

And therefore, a Test of our Preparedness to insure Peace.

And therefore, a Great National Peace Demonstration.

How It Will Be Done

A State Committee of the Heads of National Patriotic Organizations is formed, and this State Committee.

Forms Local Committees throughout the State, and these Local Committees.

Plan, organize, follow up and carry through the Demonstration for their own locality, which may be

A County, a City, a part of a City, a village, or any other place whatever where the people may meet for the purpose of learning.

What Preparedness means,

Why it is necessary,

By what Authority it exists,

Why it is the exact opposite of a War Measure,

Why it will insure Peace.

What Will Happen

(The Organized Reserve is cited below because its organization and training are less complete than in the Regular Army and National Guard.)

John Smith, a Captain in the Organized Reserve Corps, a Patriotic Citizen, living in Jonesville, is listed at the War Department as Commanding Company A, Blank Regiment of Infantry.

This Regiment in Peace is a paper regiment only. It becomes real only if War should be forced upon us.

If such a misfortune should befall us, then Company A, Blank Regiment, would, by Selective Service, become a company of 200 men, and Captain Smith a trained Civilian, would receive, house, clothes and feed this company from the first man sent by the Local Selective Board to the last man. Captain Smith has been trained how to do this. He has formed plans how to do it.

The Mobilization Test to be held on Defense Test Day, September 12, 1924, next, is a Test of Captain Smith's training in this respect. He will go through the motions that he has been taught, if War should fall upon us, but, having no men in his Peace Company, he will ask Patriotic Citizens between 18 and 45 years of age, living in his locality, to Volunteer to answer their names as Members of his Company for an hour or two on September 12, next.

And then, Captain Smith will ask these Volunteers, and all other Patriotic Citizens who will assemble,

To listen to a carefully prepared Paper, furnished by the War Department, explaining definitely, and in detail, what it is all about.

And there may be Patriotic Speeches by others.

And there may be Parades.

And there may be games, and meets, and contests, to demonstrate the value of the War Department system of physical training.

And there should be a universal display in Home and Shop, of our Country's Flag.

And there should be Prayers for our Public Safety and the Preservation of Peace throughout our Great Republic.

Does This Sound Like War?

It does not. It is what Defense Test Day means though.

WORLD FLIERS REACH ICELAND

Mishap Forces Lieutenant Wade Into Ocean—Rescued By Cruiser.

Hornafjord, Iceland—In the flight from Scotland to Iceland, Lieutenant Leigh Wade through "plane trouble" was forced into the ocean and was later rescued by the U. S. S. Richmond which was cruising northward to join the flyers in Iceland. His plane was reported wrecked.

Lieutenants Eric Nelson and Lowell Smith made the dangerous trip without mishap, and waited here for their companion to arrive.

From Hornafjord the American round-the-world planes are scheduled to fly across Iceland to Reykjavik, capital, 335 miles. The airmen will rest in Reykjavik and then jump 500 miles to Angmagssalik, Greenland, flying across that island to Iqviut, 500 miles, and then to Indian Harbor, Labrador, 572 miles.

The flight from Indian Harbor to the United States is scheduled as follows: Indian Harbor to Cartwright Harbor, Labrador, 40 miles; to Hawkes Bay, N. F., 290 miles; to Pictou Harbor, N. S., 420 miles; to Boston, Mass., 520 miles.

ALLIES AGREE ON REPARATIONS

Program for Payment of Indemnities Now Up to Germany.

London—The interallied conference, with the United States officially represented by Ambassador Kellogg, has reached a full agreement on the program for making the Dawes reparations plan effective. After 18 days, and a good part of many nights, spent at the British foreign office in Downing street, the parleys have terminated successfully so far as their interallied aspect is concerned. The conference now becomes an international one.

With the arrival of German representatives, the interallied formula for launching the new scheme to obtain war compensation from Germany is being viewed and the Berlin emissaries asked to agree to it.

Final adjournment is expected the end of this week.

Gas On Stomach May Cause Appendicitis

Constant gas causes inflammation which may involve the appendix. Simple glycerine, buckthorn bark, etc., as mixed in Adlerika helps any case gas on the stomach in TEN minutes. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gas and poisons. Excellent for obstinate constipation and to guard against appendicitis.—GIDLEY & MAC, Druggists.

To Clean a Watch

To keep the works of a watch clean cut a piece of white paper the size of the cover and, after soaking the paper in petrol, place it within the inner case. The paper should be periodically removed and a fresh piece, also soaked in petrol, substituted. The same plan may be adopted for small and medium-sized clocks.

Wood in Matches

Tons of wood are consumed weekly in Europe and America in the manufacture of matches, which were originated in 1827. One firm alone uses 625 tons of timber a week in its match output. The logs used average about a foot in diameter and ten feet in length. The match sticks are usually immersed in a solution that will prevent their smouldering, as one of the safety requirements.

Ribbon Filet for Youthful Coiffure.

It is a pretty sight to note the cunning ribbon coiffure arrangements which youth is wearing this season. Perhaps the vogue for bobbed hair is responsible for these very charming ribbon bandeaux and filets noted at party and dance. Anyway, with all due respect to the "bob" it is no exception to the "thorn with every rose" adage, which in the case of short tresses is that they have a way of blowing recklessly about at the touch of every breeze. However, necessity being the mother of invention, the cleverest sort of ribbon fantasies are designed to confine curly locks or straight.

So what care we as long as fashion declares in favor of the fanciful ribbon filets! The one in the picture is made of narrow gold ribbon with lots of color in its weave.

If perchance anyone is so courageous as to abandon the bob, why not, while tresses are growing out, artfully conceal the fact with a pretty ribbon conceit such as is shown in the picture.

Has Anyone Laughed At You Because—

You Can't Enjoy a Play From Cheap Seats?
 You are probably told this by your friends who are satisfied to go in cheap seats forever. You probably do enjoy the play in cheap seats but not as much as in expensive seats. It is probably true that the scoffers do, too, but they are too snobbish to admit it. Many folk say when they are poor, "I think the music and the play from the gallery is much more delightful." But upon getting rich—they go like greased lightning not only to the box office for best seats, but open accounts with ticket agencies at big prices! Everyone likes the best seats, but you are truthful, so stick to your opinion—and you'll earn the best seats somehow!

SO
 Your get-away here is: If the expensive seats were less delightful they would be the cheap seats!

Has Anyone Laughed At You Because—

You never buy trolley tickets ahead?
 You probably live on a small allowance and buying in bulk, though best always, is unfeasible for you. Then, too, when you have the tickets you always feel that you must pay the other fellow's fare. This becomes too costly even if it is a great joy to you. So you have wisely not accumulated tickets until you need them. Often, indeed, you have lost your tickets. "The dear little things" are vagrant and easily stray away. On the whole, buy as you ride, unless the saving is great—but do not live in heaven!

SO
 Your get-away here is: Buying, if nothing else, is your own trouble.

BIG BROTHER

By DOUGLAS MALLOCH

MY brother's bigger, lots, than me. I think it's nice, you will agree. Although he's big, the way he plays with me, at least on rainy days. He's eight and I am only five. And he can swim, and almost dive, and do a lot of other things. That I can't do, with water-wings. But he and I we romp and run and have an awful lot of fun. I'm little, but it's all the same as long as he can pick the game.

My brother's bigger, big and strong. And yet we always get along. As long as I will try to do the things that brother wants me to. When there is no one else around to play with, then he digs the ground and builds me castles big and grand. As long as I will bring the sand. And horse is something else we play a lot of times, most every day. He likes to play with me; of course he does if I will be the horse.

Work Wearing You Out?

East Jordan Folks Find a Bad Back a Heavy Handicap.

Is your work wearing you out? Are you tortured with throbbing backache—feel tired, weak and discouraged? Then look to your kidneys! Many occupations tend to weaken the kidneys. Constant backache, headaches, dizziness and rheumatic pains are the result. You suffer annoying bladder irregularities; feel nervous, irritable and worn out. Don't wait! Use Doan's Pills—a stimulant diuretic to the kidneys. Workers everywhere recommend Doan's. Here's an East Jordan case.

Robert Grant, says: "My back played me while at work. I couldn't lie still in bed as my back hurt so. After a hard day's work I couldn't get any rest. Night after night I had to get up and sit in a chair. My hands and feet often swelled, too. My kidneys were disordered and I had to get up many times at night. Doan's Pills, from the Hite Drug Co., cured me."

"A LA CARTE"
 The diner in the better class hotel and restaurant is confronted by two alternatives. He may take a dinner at a fixed charge in which his menu is limited to a choice of two or three articles of each class. He may also get an "a la carte" service by which he consults entirely his appetite or his pocketbook. The phrase is French, meaning, "according to the card," which lists both foods and prices.

Reflections of a Bachelor Girl

By HELEN ROWLAND

If I could write the ten commandments of matrimony, the first nine would be—"Mind Your Own Business!"

Many a man stops loving his wife so gradually that he never finds it out, unless she happens to mention it to him.

Never believe a man when he says he is "through with women, forever"—nor a dentist when he says "it won't hurt."

Every woman prays to be ideally happy, but she can endure being passionately miserable; it's being drably, dully, eternally UNCOMFORTABLE, that makes Reno sound so alluring to the average wife.

An "understanding" is simply that point in a love affair, where the man understands that the girl will marry him, if he can make up his mind to ask her.

Perhaps the reason why the ideas of the rising generation are so inflated is because it is being brought up chiefly on a yeast cake.

Every now and then a man "discovers" something that a woman has known all her life. For instance, the "tear-bomb," for capturing a man (before marriage) and subduing him (after marriage) was probably invented and perfected in the Garden of Eden.

Once a woman has let a man see that she admires him, it is useless for her to tell him that her admiration has cooled. A man's mind is a perfect thermos bottle for keeping flattering impressions of himself at just the right temperature.

It's a clever woman who can keep her husband from ever discovering what a string of "also rans" he won out against.

Much Milk Lost During Summer
Best Plan Is to Reduce Bacterial Count by Carefully Cleaning Cow's Body.

The quantity of milk spoiled through souring during the summer can be reduced by the simple precaution of having the cows clean at milking time, advises F. O. Button, professor of dairy industry, New Jersey state college of agriculture.

The mud, manure, scurf and loose hairs that accumulate on the cow's body all carry a considerable number of bacteria. A single gram (about 1-28 ounce) of fresh cow manure has been found to contain 40,000,000 bacteria. Since this material often constitutes a large proportion of the filth on a cow's body, the importance of cleaning the animal can readily be seen.

Experiments with dirty cows have shown that washing the teats and udders will reduce the bacterial count from 23,000 to about 7,000 per cubic centimeter. When cows are cleaned in addition to having their teats and udders washed, the bacterial count may be reduced to 2,000. This assumes that the utensils in both cases are clean and sterile.

Boards of health are becoming stricter in their requirements of what constitutes clean milk. For the protection of the public they demand that bacterial counts be kept within reasonable limits. This, besides the fact that clean milk does not sour as quickly as bacteria-laden milk, makes it a point of good business for the dairyman to thoroughly groom his cows.

Clipping long hairs from the belly, udder and flanks facilitates proper cleaning. Grooming is best done an hour or so before milking, as this will leave time for the dust to settle.

The best results can be secured only when udder and teats are washed or wiped with a clean, damp cloth, just previous to milking. When udders and teats are soiled with manure or mud, washing with clean water is necessary. Water should be changed frequently, so that a clean supply is always in use. After washing, surplus moisture should be removed by wiping with a dry or slightly damp cloth. Then there will be no surplus water to drip into the milk pail, or to wet the milkster's hands. When milking starts, the udders, teats and flanks should be clean and slightly damp.

Poison Gophers to Save Various Big Money Crops

Any time is gopher killing time, according to A. E. Oman, rodent control specialist of the Kansas Agricultural college. Encouraging reports are coming in from communities that have used poisoned oats. Many farmers report 100 per cent eradication from one treatment. Mr. Oman urges diligent use of the poison method to save potato crops. A few quarts of poisoned oats or of treated carrots will protect a large field. Gophers working in alfalfa fields can be effectively poisoned after the first hay crop is removed.

The zoology department of the college filled orders for 280 quarts of poisoned oats, five ounces of strychnine and 100 pounds of cyanide flakes during the week of May 19 to 24.

The five ounces of strychnine would treat two bushels of oats, enough to kill 2,000 gophers. The 100 ounces of cyanide flakes would treat 1,800 prairie dog holes.

For Success With Bees Furnish Plenty of Room

In order to be successful with bees, swarms must be kept down, and powerful, vigorous colonies built up. One of the secrets of swarm control is to give the pig colonies an additional hive so there will be plenty of room and the queen can keep on laying eggs and not have to loaf until some of the eggs hatch to make room for more.

Bees are industrious. As long as they have work to do and things to work with they are satisfied, but just as soon as the hive is full and they are forced to loaf they become restless and are no longer contented and trouble starts.

Profitable Pig Gains

Pigs full fed on pasture will make more profitable gains when fed tankage in addition to the grain ration. The older the pig the less tankage it needs per 100 pounds of live weight. One-fourth of a pound of tankage per head per day will do the job for hogs of different ages. Skim milk, butter-milk linseed-oil meal or soy-bean meal could be substituted for tankage, but it should be remembered that one pound of tankage is equal to two pounds of linseed-oil meal or soy-bean meal and to two gallons of skim milk or buttermilk.

Care for Work Horses

A few simple precautions will increase tremendously the efficiency of the farm horse during the heavy working season. One of the most important is to take a barrel of water to the field and give the team a drink of water every time you take one. Let them rest and cool off a bit at noon and at night before feeding. Feed one-fourth the day's hay allowance in the morning, one-fourth at noon and one-half at night. Wash the necks each day with cold water to which a small amount of vinegar has been added.

ASYLUM INMATE ADMITS MURDER

CONFESSES KILLING MRS. BURKE; GIVES REVENGE AS MOTIVE FOR BRUTAL CRIME.

IS REMOVED TO NEARBY CITY
 Confronted With Evidence Makes No Effort at Denial; Declares He Planned Attack.

Lapeer, Mich.—Louis Johnson, 21 years old, inmate of the Michigan Home and Training school at Lapeer, recently according to state police and county officers, confessed that he was the slayer of Mrs. Blanche Burke, who was strangled on a lonely road between the institution and her home over a week ago.

Fearing that Johnson might be lynched by citizens of Lapeer, he was spirited out of the county immediately following his confession and rushed in a motor car to a nearby city, where he was lodged in jail.

Johnson told the officers he killed Mrs. Burke out of revenge for things she had said to him during an argument between them in the laundry of the institution where both were working.

The arrest was made after another inmate had told officers that Johnson told him he was the slayer of Mrs. Burke.

When confronted with the evidence against him, Johnson made no attempt to deny his guilt, but readily confessed the crime.

Johnson was arrested after state and county officers who have been working day and night on the case since the discovery of the body had eliminated almost every possible clue and examined a dozen suspects, including several other inmates of the home for the feeble-minded.

Johnson, who is definitely feeble-minded, has been an inmate of the Lapeer home for 14 years, from Coldwater. His parents are dead. He never was considered dangerous by attendants and was employed about the institution at such work as his limited mentality would permit.

The crime was discovered when Mrs. Burke failed to appear at the home of her sister, where she was in the habit of spending the week-end with her two children.

Albey Pearce, her brother-in-law, found her body stripped of its clothing a short distance from the road. The hands and feet were bound and there was a gag in her mouth.

STATES JOIN ANTHRAX FIGHT

Disease Is Reported to Have Taken Toll of 20 Persons and 7000 Cattle.

Memphis, Tenn.—Federal state and county forces have joined hands to check the spread of anthrax in Mississippi, Tennessee and Arkansas, where more than a score of persons, and approximately 7,000 head of cattle are reported to have died of the disease. Reports indicated a serious situation in Mississippi and Arkansas while certain small areas in Tennessee, Louisiana and Missouri were said to be infected.

Gov. Henry L. Whitfield, of Mississippi, said 25 counties in that state had infected herds and that about 16 persons had died. The superintendent at Jackson said however, that only six deaths had been reported officially.

Arkansas reported 20 infected counties, with a death list of six or eight persons.

Five counties in Tennessee are infected, the state veterinarian reported. No deaths had resulted in this state, so far as was known, and the loss of livestock was said to have been small.

PLAN BIG TRIPS FOR SHENANDOAH

Navy Officers Will Send Dirigible Across Sea to Hawaii.

Washington—Officials of the navy department expect the airship Shenandoah to make a flight to Hawaii early in 1925, during the maneuvers of the United States fleet.

The flight, if made, will be without stop between San Diego, Cal., and Honolulu, although the airship tender Patoka will be sent into the Pacific and may be stationed on the line of flight of the big rig.

Future operations of the Shenandoah as a long-range scout with the fleet will depend largely on her performance in the tests soon to be conducted with the scouting fleet off the New England coast. The Patoka, floating base, already has joined the scouting fleet.

Women Students Crowd Out Men.

Manila—Women of the Philippines are crowding out men in courses open to both sexes in the University of the Philippines and other co-educational institutions, according to statistics compiled from reports of the last school year. In the University of the Philippines, 42 of 46 graduates in pharmaceutical chemistry were women. Four of 11 receiving the degree of doctor of medicine were women. Of a total of 488 receiving degrees last year, 110 were women.

Red Crown
The High-Grade Gasoline
Is the Business Gasoline

MANY motorists have put Red Crown in the tanks of their coupes, limousines, touring or other passenger cars, after having proved in their trucks that for service and economy, Red Crown is the business gasoline.

One of the large packing houses writes:

"We find that Red Crown Gasoline gives entire satisfaction in our large fleet of motor trucks—starting easily, accelerating rapidly, and giving excellent mileage.

"In our business every truck must move on time. Dependability is essential in order that exacting schedules may be maintained in the distribution of perishable products.

"Included in our fleet are trucks of various makes and sizes, from 1-ton delivery cars to 15-ton tractor trailers, and they operate efficiently on Red Crown Gasoline."

Summer tourists will find Red Crown everywhere in ten Middle Western States, and everywhere the same. By using Red Crown, they will get more and better mileage; uniformity in quality, thoroughly dependable operation with consequent avoidance of the irritation and delay occasioned by constant carburetor adjustments.

Use Red Crown and enjoy a banner mileage summer.

The Chew to Choose

YEARS of experience have shown you that BEECH-NUT Chewing Tobacco never stoops to conquer.

We don't use factory hash. We don't buy up cigar and pipe scrap. We don't pack dust and sweepings and stems. We don't cheapen BEECH-NUT Chewing Tobacco with indiscriminately purchased crops or bulk it by mixing in bitter, rancid, thick ground leaves.

BEECH-NUT is always a clean, pure, product, especially cut to just the right size and prepared through to sealing without one touch of hum an hands.

That's why it's still the biggest selling brand in the world. The truest friend 10c. ever had.

Sault Ste. Marie—The international bridge between the American and the Canadian Soos was damaged recently and will be out of commission for several days. A government tug was up bound and the operator in swinging the bridge hit the tug, damaging the locking jack of the bridge so that connections with shore pier could not be made. A special railroad wrecking crew was summoned but it was not expected there would be any railroad traffic to or from Canada, for several days. The tug was also seriously damaged.

Charlevoix Here This Friday

The game with Charlevoix which was scheduled for Wednesday, but postponed on account of rain, will be played this Friday afternoon, Aug. 8th.

Sunday, East Jordan plays the fast Onaway team here. Onaway is one of the fastest teams in Northern Michigan and defeated East Jordan last year 4 to 3. East Jordan will try to even the count.

Next week the East Jordan team will play three games in the Upper Peninsula. Escanaba, Aug. 13th, Gladstone Aug. 14th, and Manistique Aug. 15th.

Civil War Costly

The World war, of course, cost by far the greatest sum in human history, but the Civil war in the United States holds second place for expenditures, notwithstanding European wars often have lasted longer. The Civil war's monetary toll was about \$3,000,000,000. The Franco-Prussian war costs were only about half that amount.

Question

The dub golfer had made eight distinct efforts before he succeeded in getting his mangle shot away. Then he looked at the scarred earth and the freshly cut divots lying around him in reckless profusion. "I say, caddie," he remarked pensively, "will it be quicker to replace the turf or to return the place?"—Boston Transcript.

DARROW MAKES PLEA FOR MERCY

Defense Attorney for Loeb and Leopold Asks for Humane Decision.

Chicago—Clarence Darrow, attorney for Nathan Leopold, Jr. and Richard Loeb, the 19-year-old boys, who kidnapped and murdered Robert Franks, 14 years old, in combating the prosecution before Judge John R. Caverly made his principal argument a plea for mercy.

He argued for mercy and common sense judgment for boys everywhere, boys who could be hanged for murder because they were not insane; but boys who should not be hanged, because they were only boys, and not overly bright. He was arguing in the name of humanity, denouncing all the old laws, all the barbarous laws, all the state's attorneys who would hang a boy to make a holiday.

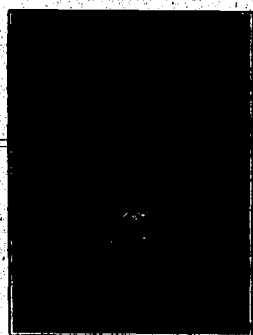

Darrow in simple fashion summed up some other cases where boys and men were charged with murder and the judge, "in mercy and common justice," looked into their minds and refused to put them to death.

The defense does not claim insanity, but argues that the minds of Loeb and Leopold are so constituted that in justice they cannot be held responsible for their deeds.

TAX TOO LOW, WRITES TREASURER

Encloses \$60 More Than He Is Billed for, But City Returns It.

Detroit—Recently City Treasurer Guy L. Ingalls received a complaint from a taxpayer that his taxes were too low.

It was the first complaint of this nature he had ever received, although he has had many people who complained about paying too much taxes.

The taxpayer who complained not only registered a complaint about not being taxed enough, but enclosed a check for \$60 more than the city asked him to pay. He received a bill for \$120.34 for two lots on Webb avenue between Fourteenth and Washburn.

He sent in a check for \$180.51, stating that he should have paid this sum. Now the treasurer says he cannot accept checks for more than the bill calls for, and will have to send the extra \$60 back.

COOLIDGE'S SON TO STAY HOME

To Change Plans for Summer That He May Be With and Cheer Mother

Washington—Plans made by President and Mrs. Coolidge to permit their son, John, to attend the citizens' military training camp this summer at Camp Devens, Massachusetts, have been abandoned and John will remain with his parents at the White House until fall, when he will enter Amherst College.

Philadelphia Schools Get \$20,000,000.

Philadelphia — Philadelphia will spend \$20,000,000 on new school building, the erection of which is to be speeded during the next fiscal year, according to a recent announcement made by William Rowen, president of the Board of Education of that city. The number includes three senior high schools; six junior high schools, one continuation school, one special school, 17 elementary schools, four wings to existing schools and a girls' trade school.

That's the One

"Is Mr. Perkins at home?" inquired the caller. "Which one, sir?—there are brothers living here," said the maid. For a moment the caller looked puzzled, then he had an idea. "The one who has a sister living in St. Louis," he explained.—The Watchman-Examiner.

**To the Republican
Voters**

I hereby submit to your consideration my candidacy for re-nomination. Deeply appreciative of your confidence and trust, I again affirm to you my assurances of fidelity to duty and adherence to the principles of Republicanism. I pledge my unqualified support to the purposes enunciated in the party platform. I am a Republican—not for the election purposes—but by conviction, and, if elected, I shall vote as a Republican and not under the direction of any organization, group, clique, bloc or individual, but in the interest of all the people of this district with special privileges to none. Such has been my attitude throughout. In this last congress the Mellon tax reduction plan and the several other administration policies were defeated by men elected as Republicans, but whose conduct in congress and since, prove that their purpose was to disrupt the Republican party for their own personal political gain.

The district and the whole country is staggering under the burden of high taxes and no substantial relief can possibly come to our people until a complete and scientific tax reduction is brought about. If Mr. Coolidge is elected as President, he should have a Congress which will support him in his effort to reduce this enormous tax burden. I did support him in the last congress and shall do so again if you wish me to continue as your Representative in Congress.

I sincerely ask that you determine whether you wish me to continue as your Congressman on your knowledge of my work and not on the observations, or, panacea promises of ambitious politicians, or the unfair and biased criticism of persons who are disappointed over some postoffice appointment. My participation in these has been a matter of duty—not choice. I have no political pets holding office and if any of the present appointees are not rendering good service, you can have my assistance to effect their removal.

It is humanly impossible to please everyone, but I have tried, faithfully, to reflect the intelligent judgment of this district. This job belongs to you and I have always considered myself as your employee. If my actions have been in accord with your ideas—if my efforts have met with your approval—if you are satisfied with my work on your job.—THEN, I ask that you accord to my candidacy the same just consideration you would expect if you were in my position.

I offer my services to continue in your employ with a deep and genuine gratitude for your generosity and helpful co-operation in the past and with the hope that my service has merited your faith in me and has earned for me your continued confidence.

FEET TO THE EAST

IN MANY old graveyards in this country the graves are so placed that the body lies with its feet to the east. This is a form of orientation and a manner of burying still generally followed in Europe. Of this Elworthy says: "It may well be maintained that all our modern notions included in the general term orientation are but survivals of the once universal sun-worship." He regards "our still observed custom of burying our dead with the feet toward the East" as one which, though originating in heathen times, is not to be regarded as being still "an act of idolatrous sun-worship," but as having been changed into a pious custom of religious significance. He adds: "Among the aboriginal Australians who are still cannibals the graves have a direction from east to west and the foot of the grave is toward the rising sun."

The whole subject of orientation has received much attention from learned writers and there is a considerable literature on the subject. Though all agree that its origin was in sun-worship yet on other points the authorities are not all agreed. For that matter neither, apparently, were the heathen. For awhile the Egyptians built their temples so that they opened toward the east, allowing the beams of the rising sun to enter and gild the statues placed at the west end. Clement of Alexandria says that in general the altars and images of the pagan temples were placed at the east end and the temple opened to the west. And all alike were sun-worshippers.

Baskets for Fishnets

Residents of Princess Anne county, Virginia, found shad so plentiful in the nearby waters that they were able to use ordinary baskets for fishnets and literally scoop up dozens of fish at a time. The fish were caught by the Lake Prince dam during their run.

True Poem

"A poem of any length neither can be, nor ought to be, all poetry. Yet, if a harmonious whole is to be produced, the remaining parts must be preserved in keeping with the poetry."

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day, lucky jewel

MIRIAM

THE exquisite name of Miriam seems to be a predecessor of Mary. It, too, signifies "bitter," and comes from the Hebrew word marah, which has that translation. But Miriam, according to the Scriptures, antedates Mary.

Miriam first named the sister of Moses and Aaron, who led the sons of the Israelites when they saw their enemies dead upon the seashore. It was not repeated until after the captivity when it took the Greek forms of Mariam and Marianne, and became much used by Jewish women. The Amonean princess in whom the brave Maccabean line was extinguished by Herod the Great, was called Miriam. Later it is found designating the poor soul who is cited as having fulfilled the most terrible of all the woes denounced by Moses upon the daughters of Jerusalem.

Miriam was one time the name by which the Blessed Virgin herself was called, and it also named two popular saints: the Magdalen and the Penitent of Egypt. Marianne, the derivative, is sufficiently important to be discussed separately at a later date.

The pearl is Miriam's talismanic gem. Its legacy of tears will be set aside for Miriam, for whom it will bring sweetness, charm and true friendships. Monday is her lucky day and 7 her lucky number.
