Music Memory Contest

Six Weeks Contest To Start Next Monday.

The Music Memory Contest has become an annual event in several hundred cities and is now being made a state-wide activity in the general awakening to the need of more and better music in home, school and community.

The thought of directing the attention of pupils in the schools toward a given number of standard selections of music for an intensive "drive" as it were, originated with Mr. C. M. Tremaine in 1916. It has proved to be a powerful factor in bringing beautiful music into service, and also in raising the standard of appreciation of the world's best music.

Such a "drive" has been planned by the Music Department of East Jordan Schools for the fifth, sixth, seventh and eighth grades to begin Feb'y 2nd, and extend over a period of six weeks. There are twenty numbers for the contest with which the students must become familiar in the next six weeks.

Through cooperation of churches and theatre and through the regular music period in the school there will be ample opportunity given to hear the different compositions. A prize will be awarded to the one in each room who recognizes correctly the largest number of compositions, the composer as well as the title being given.

Each week four numbers will be studied and the sixth week will be spent in review of the entire list. At the end of that time the examination will be held. All twenty numbers will be presented; parts will be sung, played on piano, violin, or by victrola. Each contestant will be provided with paper and pencil and as the numbers are given, write down the name of the composition and its composer, if he has recognized the melody. Success to the listeners.

Further information of interest regarding the contest will appear in this paper from time to time.

We print this week the entire list of compositions in the order in which they will be studied.

Saves \$600,000,000 Annually

Secretary Hoover estimates that the Department of Commerce, through the expenditure of \$100,000 a year, has saved very materially in effecting savings totalling \$600,000,000 a year. This has been done by eliminating waste in industry, following the lines laid down by an Engineering Council in New York, after a lengthy investigation.

The secretary says if it were possible under our government, to seek private aid in carrying out the program it would be easy to raise millions of dollars from the trades affected by the campaign. He emphasizes an important fact, saying that the time is rapidly approaching when a review of the real productive services of the government, a review in the interest of the people themselves, will result in a more liberal treatment of those branches in appropriating government funds.

What could be more depressing than being the wife of a man who has the reputation of being a "good fellow?"

Stage Set For Big Farm Conferences

With meetings arranged for more than 30 of the state's leading farm organizations, with speakers of local and national prominence listed for the general programs, and with exhibits on various phases of agriculture and rural life in place, the stage is set for the annual Farmers Week at the Michigan Agricultural College, Feb. 2 to 6.

Farmers Week has come to be the leading agricultural gathering of the year in Michigan. Activities of past seasons are here summed up, and platforms are adopted for the future. It is an occasion when farm folk gather to talk over their problems and to sound the keynote of a better agriculture.

Among the many prominent speakers who address different sessions of the week are: Dr. Wm. Evans, health editor of the Chicago Tribune; Hon. John C. Ketchum, Michigan congressman and Agricultural authority; S. Parks Cadman, famous orator of New York City; Hnston Thompson, chairman Federal Trade Commission; President Kenyon L. Butterfield, of the Michigan Agricultural College; as well as many other brilliant leaders in this and other states.

Exhibits which will be viewed by the Farmers Week guests include a special dairy show, a horticultural show, a farm crops and potato show, a competitive egg show, and material covering a wide range of other subjects, including engineering, home economics and other divisions of the college work.

Reduced rates on all railroads, giving round trip tickets for one and one-half times the regular one way fare, are expected to swell the Farmers Week crowd. More than 5,000 have attended in recent years, and officials in charge of arrangements at M. A. C. are making plans to entertain another capacity crowd from Feb. 2 to Feb. 6.

Bill Would Aid Young Forests

Sen. Pearson Has Measure To Encourage Re-Foresting.

A reforestation measure, drawn along the lines of the bill introduced two years ago at the request of Herman Lundeen, Lewiston member of the conservation committee, has been prepared by Senator William J. Pearson, Boyne Falls, and will be introduced in the Senate. The bill is now in the hands of the governor who will confer with conservation officials before passing on it finally. Governor Groesbeck vetoed the Lundeen measure two years ago.

The bill to be presented by Senator Pearson will probably provide for a timber land tax of five cents an acre prior to the date of harvest at which time an adequate tax will be collected. During the time the tax exemption beyond five cents an acre is in force, the state may contribute out of its general fund toward making up the tax deficits in counties where there is much exempt growing timber land.

Senator Pearson would have the timber land exemptions made possible only after the commission of agriculture has authorized such lands be set aside and a survey of the property made. Owners of such property may get a release from provisions of the bill only after it has been so listed for a year or more by another application, and a re-survey and taxes paid at the rate of other property in that township.

Lands registered as forest reserve would be eligible for cutting 25 years after date of registry. Such cutting would only be done after proper surveys and determination of current stumpage value by the department of agriculture. Registered lands would be subject to entry for hunting and fishing without trespass.

Penalty for those who would make false statements to evade payment of accrued timberland tax money would be punishable by a fine not to exceed \$10,000 or imprisonment not to exceed five years.

The Nature Faker

Dr. G. E. Reycraft Passes Away

Well-Known Petoskey Physician Dies Unexpectedly.

Dr. George E. Reycraft, one of northern Michigan's most widely known physicians, died very unexpectedly Monday afternoon at Petoskey hospital. He had not been feeling well since Saturday, but was up and dressed and took care of his patients in the hospital.

The physician's health had not been the best for several years, but he had not been seriously ill for some time. The passing of Dr. Reycraft brings regret and sorrow into hundreds of homes where he had been a valued counselor and friend for many years.

Dr. George as he was known to his thousands of friends and acquaintances was born in Highgate, Kent county, Ontario, being a son of the late William Reycraft and Mrs. Reycraft. He secured his early education there and later studied medicine. He came to Mackinaw City about 1894 and later came to Petoskey and established practice with his brother, John J. Reycraft, under the name of Doctors Reycraft and Reycraft.

With his brother and other physicians, he founded Petoskey hospital, on Michigan street, and saw this institution grow until larger quarters were necessary and the hotel building on Lake street was purchased and remodeled into the present hospital building.

Dr. Reycraft took time from his busy practice to become interested in local fraternities and became an active Elk and Mason. He was a past Exalted Ruler of Petoskey lodge No. 629, B. P. O. Elks and a member of Durand lodge No. 344 F. & A. M. and Emmet chapter No. 104 R. A. M. of Petoskey. He served his city as Mayor and was a keen student of municipal affairs.

Surviving him are his brother and fellow physician, Dr. John J. Reycraft, his mother, Mrs. Wm. Reycraft, a brother, William Reycraft and a sister Mrs. Edward Beattie.—Petoskey Evening News.

George Morton Miller Passes

George Morton Miller passed away at the Charlevoix hospital Tuesday morning, January 20th, following an operation for appendicitis, which was performed last Friday.

Mr. Miller was born in Charlevoix, October 18th, 1891, the son of the late Wm. Miller and wife, and has lived here practically all his life. He acquired his early education in the Charlevoix schools and later took a course in the Dairy Department at the M. A. C.

For the past year he was in the employ of the Wilson Packing Company, of Chicago, in the capacity of traveling salesman, and was residing in Jackson, Mich. when his serious illness made it imperative for him to submit to surgical treatment, when he came to Charlevoix on Wednesday last week and visited his sister for two days before entering the hospital.

On October 21st, 1922 Mr. Miller was married to Mrs. Marjorie Boyd, of East Jordan, where he resided for about a year. He is survived by a widow and a sister, Mrs. Luella Korh, of this city.

The funeral service was held from his home—the old family home and place of his birth—808 Bellvedere Avenue, at ten o'clock Thursday forenoon, Rev. H. R. E. Quant officiating. Music was

furnished by three members of the quartette, of which Mr. Miller was a member—Frank Poole, Ney Smith, Ed. Edwards, and the pall-bearers were members of Leslie E. Shapton, Post, American Legion, of which Mr. Miller was a member.

The body was placed in the receiving vault at Brookside cemetery for the present.—Charlevoix Sentinel.

Michigan Boasts 9,000 Lady Farmers

Michigan boasts 9,000 lady farmers, according to data analyzed by the Blue Valley Creamery Institute. Of this number over 6,000 operate farms, 5,500 their own, 20 as managers and not quite 250 as tenants, the data disclosed.

Dairying, poultry and hog raising are some of the branches of agriculture in which the women farmers of the state specialize, the analysis revealed. The land under cultivation by the feminine agriculturists is close to 440,000 acres, of which 286,000 acres are improved. The value of these farms is 32 million dollars. The figures further revealed that women cultivate 2.9 per cent of all farms in the state and 2.3 per cent of the total acreage, the value being 2.3 per cent of the whole. The average value of the land and buildings on farms operated by women was found to be a success of \$5,600.

Commenting on the large percentage of women who go in for dairying and poultry raising, the Institute sees a peculiar adaption of these occupations to the feminine nature. From early times, it says, the average farm woman has had to care for the milk and act as dairymaid, too. And milking cows and selling butterfat with its requirements of close attention to details seems to be a type of work that women naturally take to. The same appears to hold true for poultry raising. For pin money for the thousand and one items needed in the home, the sale of eggs and poultry and cream has ever been known as a sure means. Many a woman in need of money has almost instinctively turned to milking cows and keeping hens.

Wilson Compton

Wilson Compton, lawyer, economist and lumberman, who as manager of the National Lumber Manufacturers association has been a leader in practical forest conservation, is a prime mover in the nation-wide lumber standardization movement, which it is estimated by the United States Department of Commerce will save over a hundred million dollars annually to the American public.

Coolidge Praises The Press

Speaking recently before a society of newspaper editors President Coolidge praised the American newspapers in general. Saying they seemed to be "particularly representative of the idealism of our people," that they "print more real news and more reliable and characteristic news than any other newspapers," that "their editorial opinions are less colored in influence by mere partisanship or selfish interest," and that the press "is more independent, more reliable and less partisan to-day than at any other time in our history."

The words of the president might have some weight with the chroniclers of evil, who think of nothing but a paid subservient press, the agent of nothing so much as sinister propaganda. Certainly Calvin Coolidge has had an opportunity to know. He is probably more highly praised, and more often condemned, than any other man in the world today. His testimony ought to be worth something.

Michigan Loss In Forest Fire

Dry Autumn Made Figures Mount Much Higher.

Michigan suffered loss of \$150,576.14 by forest and grass fires in 1924 according to figures compiled by Charles Peterson, state forest fire warden and announced today by John Baird, director of conservation. The figures include all damage to natural resources by fire over the 38,755,200 acres in the state.

Cost of fire protection was given as \$46,427.14. Nearly 2,000 fires were reported which burned over 179,956 acres. Most of the land was privately owned although 5,873 acres of state property was swept by flames. Standing timber with estimated value of \$115,183.20 was destroyed; other forest products valued at \$18,571.74 were lost; and equipment totalling \$16,611.20 was made worthless.

Draughts in the fall were responsible for an unusually long forest fire season. One conflagration was recorded as late as Nov. 7th.

No lives, human or animal, were lost by outdoor fires during the last year according to the report. The extensive system of protection provided by the state prevented loss of life even in a year when conditions were unfavorable.

The state fire protection department operated 106 observation towers and 175 miles of telephone lines. A large area of the state south of the north boundaries of Mason and Arenac counties was included in the fire zone last year for the first time. The 1923 legislature enacted the measure giving the district protection.

This section, which comprises about half the state, had 397 grass fires with estimated loss of \$24,316. The cost of patrolling the additional area was \$3,987.

BOMB WRECKS HALL OF JUSTICE

San Francisco Police Periled When Blast Rips Hole in Wall

San Francisco—The main entrance of the Hall of Justice here was wrecked last Sunday by a bomb, which exploded as a number of police officials were walking through the corridor.

No one was injured, although the force of the explosion scattered pieces of iron, wood and other missiles around the corridor. Several persons had walked past the place where the bomb was placed, about 25 feet from the door of Police Chief Daniel J. O'Brien's office.

The force of the blast tore a hole through police headquarters, demolished a telephone booth, shattered all glass in the corridor and wrecked a steam radiator.

Michigan Eighth in Export Trade. Washington—New York led all other states in production of goods for export during the nine months ending Oct. 1, the department of commerce has announced. Commodities for shipment abroad originating in New York totaled in value \$651,681,000 composed chiefly of cotton cloth, refined petroleum, refined copper and sugar. Michigan, with exports of \$196,508,000, rated eighth on the list. Automotive products featured Michigan's record.

Naturally the plain truth is seldom beautiful.

Work Started On School Bill

Pearson On Committee To Write Measure For Northern Normal

Another state normal will be drafted next week by a committee appointed at a conference of senators and representatives from the upper half of the lower peninsula, it was learned today. The drafting committee included Representative M. C. Bryan of Traverse City, Representative Nelson Farrier of Yuma, Senator Orvil Atwood, Newaygo, and Senator W. J. Pearson of Boyne Falls.

The conference agreed to leave the choosing of the normal site to the state board of education. It was pointed out at the meeting that the territory to be served has a population of more than 300,000. The drafting committee will refer it back to the conference before the bill is introduced. Some discussion attempt is being had as to the advisability of leaving in the hands of other than the board of education the choosing of the site.

Objects of the American Legion Set Forth

"I'm not quick tempered, but honestly this thing is getting tiresome," said Wm. Murphy Commander of the Robec-Sweet Post of the American Legion. "You know," he continued, "every once in a while a man asks me: 'Well what is the Legion going to do now that it has the bonus?'"

"Some of them put up the question to me as if they had me right up a tree with it. They must be the same man who used to ask the bar-tender what he intended to do now that prohibition had come along.

"In the first place, the bonus was never the Legion's great aim. The bonus was just a piece of legislation, and having gotten into the fight, the Legion went through with it in a manner which opened some fellows' eyes. A lot of politicians who thought they were kidding somebody have another guess coming now. But our real objectives have been care for the wounded and disabled and their children; the upbuilding of patriotic Americanism, which most anyone will admit is needed; and service to our communities and our comrades in general.

"We have six local main objectives and six national ones. If you will let me name them here they are:

"Better care for the disabled ex-service man; decorating the graves of the World War dead; care of helpless orphans of former buddies; teaching the foreign born American citizenship; observance of patriotic holidays and respect for the flag and assistance to needy veterans of all wars.

"The six national objectives are: annual roundup of election day slackers; appointment of an American Legion World Peace commission; support of preparedness program by the annual defense test; support of educational program by child labor and compulsory school attendance laws; a universal draft of all man-power, money and labor, no industrial exemptions, no profiteering, no high cost of living and a reconstruction of immigration and higher requirements for citizenship.

"Ninety per cent of loyal Americans agree with us."

The Commander said that the next meeting will be held Monday evening, February 2nd, at the Club Rooms above the Battery Shop, and that all veterans will be welcome. Assistance will be given in filling out bonus blanks.

NEWS FROM THE STATE CAPITAL

Senate Passes Two-Cent Gas Tax Bill With Only One "Nay" Vote

Lansing—The Senate has passed the Atwood-Baxter 2-cent gasoline tax bill, by a vote of 30 to 1. Senator Joseph Bahorski casting the only negative ballot. The measure has gone to the House where it must lay on the table five days before it can be acted upon.

An immediate effect clause and an amendment designating an appropriation as necessary to meet a deficiency in funds were added when the senate finally passed the measure.

The measure provides for a tax of two cents a gallon on motor fuel, the return of \$2,500,000 to the counties annually to retire the \$5,000,000 owed them on county rewards, payment of not less than \$3,000,000 annually toward interest and sinking fund charges on highway bonds, \$500,000 for non-trunk line bridges and the remainder to go toward new construction.

Weight Tax Bill Passes

The automobile weight tax bill, with a 55 cent per hundred rate for passenger cars and 65 cents to \$1.25 graduated rate on commercial vehicles, has been passed by the house, transmitted to the senate and referred by that body to its taxation committee.

The weight tax bill did not slide through the house with the same speed that marked the passage of the gasoline tax measure in the senate.

Rural representatives were not altogether pleased with the bill as it finally came out of committee. There was objection to a belated reduction by the committee of its recommended maximum rate for commercial cars, from \$1.50 to \$1.25. There also were urgings from rural members for a larger county share of the receipts from the tax for local highway purposes. The present law gives the counties half of the total receipts for local highway purposes.

Seek Blue Sky Revision

The Michigan Securities Commission reorganization bill has been introduced by Representative Milton Palmer of Detroit. He announced that two other measures are in course of preparation. The measure that appeared would create a full time securities commission, consisting of three members at salaries of \$7,500 each. It would replace the present commission which includes the state banking commissioner, the attorney general and H. M. Duff, who was elevated from executive secretary to the position of full time commissioner by the last legislature.

Trespassing Made Illegal

Entering an unoccupied house or factory without permission would be made punishable by a fine not to exceed \$250 or 90 days imprisonment, or both, if a bill introduced by Senator Arthur E. Wood becomes law. Mr. Wood explained that Detroit contractors have reported heavy losses by builders of new houses through people entering and tracking over new varnished floors or doing other damage.

Hurries Re-apportionment

Senator Arthur I. Wood has asked that a meeting of the Senate Reapportionment committee be called as soon as possible. Senator Elizabeth Howarth, Jr. of Royal Oak, is chairman of the committee, and Mr. Wood is a member. The committee has before it Mr. Wood's bill providing for an increase in Wayne County's representation from five senators to 10.

To Increase Bond Limits

Rep. Fred R. Bristow, of Greenfield Township, has introduced a bill in the House to increase the bonding limits of rural and agricultural school districts having a population of more than 15,000 to 15 per cent of the assessed valuation of the district. The limit for districts having a population less than 15,000 is now 15 per cent, but for the more populous divisions, it drops to 8 per cent.

Capital Punishment Advocated

Fred C. McEachron, of Ottawa county, is the author if a bill to make the crime of first degree murder punishable by death. The bill in language is much like the capital punishment bills that appeared before the legislature in 1921 and 1923, and which were defeated by narrow margins. In 1921, only one vote blocked passage.

For Eight-Hour Day

Rep. John Holland, of Bessemer, long the champion of the eight-hour working day, introduced another bill in the House to provide that the employees of mines, quarries, mills and manufacturing plants shall not work more than eight hours in every 24.

Greater Detroit Planned

The Metropolitan area amendment to the constitution, which is designed to provide for the development of Greater Detroit, appeared in the senate in the form of a joint resolution, introduced by Senator George M. Condon of Detroit. The amendment provides that cities, townships, villages or parts thereof, may band together, issue bonds and carry out developments for parks, public utilities, sewage disposal, drainage, water, light, heat, power and transportation, and is to be submitted to the voters.

MARKETS

Paris—Premier Herriot has announced in the chamber of deputies that he has been authorized to declare that King Alfonso of Spain has abandoned his position in France against Vincente Blasco Ibañez, the Spanish author, who has been attacking the king in documents from French territory. The premier added: "I wish to thank Spain for this proof of love of liberty."

Chinese Shell Steamer

Shanghai—The Chinese fort at Woo Sung, on the outskirts of Shanghai, fired on and hit the Chinese passenger steamer Lungta which was loaded with 300 passengers. The steamer was forced to unload and it was then commandeered for the transportation of the Chinese soldiers.

The firing created much excitement since the river was filled with foreign shipping, including American British, and Japanese trans-Pacific liners. None of the passengers was injured.

Brazil Balks at Japanese

Tokio—Considerable feeling has been caused here by the refusal of the Brazilian consul to approve the passports of 600 Japanese citizens scheduled to leave for Brazil. Immigration and steamship officials have taken the matter up with the Brazilian government.

Japanese government officials claim that these 600 are merely part of the quota of 1,800 Brazil agreed to accept last December; but that they were prevented from sailing until now because of the shortage of steamship facilities.

Warren Blocked in Senate

Washington—Charles B. Warren's appointment as attorney general came under fire in the senate when a special subcommittee began an investigation of charges that he engaged in lobbying activities back in 1918 on behalf of the beet sugar interests. Confirmation of the appointment has been held up indefinitely. Emphatic denial has been made by Charles B. Warren that he ever represented a beet sugar company or any other company before a congress committee.

Ambassador Jusserand Quits

Washington—Ambassador Jules Jusserand, of France, has left Washington after 22 years of diplomatic service, with a warm, spontaneous and revolv welling toward him from an unusually large crowd of the capital's residents who had come through the decades to know him as a friend. His schedule calls for a brief stay in New York, a visit to friends in Boston, and then departure from New York for France where he intends to retire to private life.

Beveridge Flays Laws

New York—Americans are more law-ridden than were the Russians under their czar or the Turks under their sultan, said former Senator Beveridge of Indiana, in speaking at a dinner commemorating the 124th anniversary of John Marshall's appointment as chief justice of the United States supreme court. The Lawyers' club and the Association of the Bar of the City of New York gave the dinner at the club's headquarters in Hotel Astor.

Attempts to Fire Jail

Flint, Mich.—Attempts to liberate himself and more than 100 other prisoners by setting fire to the county jail, Henry Crawford, Negro, ignited a torch which he improvised from several newspapers and hurled into a waste paper receptacle. Any attempt to escape by the women and men prisoners was blocked when firemen from Central station put out the fire by means of chemical extinguishers. No one was injured.

Ex-Gov. Davis Held

Topeka, Kan.—Waiving their preliminary hearing, former Governor Jonathan Davis, and his son, Russell, charged jointly with conspiracy and accepting a bribe in connection with granting a pardon to Fred W. Pollman have been bound over to district court on bonds of \$1,000 each. Their trials are set for the April term of court.

Resume Honduran Relations

Washington—Formal relations between the United States and Honduran governments will be resumed February 1, upon the inauguration of the new constitutional authorities in Honduras. Secretary Hughes has announced that he had instructed Lawrence Dennis, charge at Tegucigalpa, to so notify the Honduran authorities.

New Swedish Premier Named

Stockholm—Minister of Commerce Sandgeri was chosen to succeed Branting as premier of Sweden. Branting resigned because of ill health. He will remain in the cabinet without a portfolio.

Earthquakes Kill Hundreds

Moscow—The recent trans-Caucasus earthquakes destroyed 40 to 50 and killed 200 persons, according to reports from that region received here.

Paris—A journeyman baker says he has found a formula for bread dough, the use of which will keep the loaves in an edible condition for months or even years. Recent laboratory experiments have proved that the loaves could be kept, relatively, fresh for 10 months, while the inventor, Jean Matti, says this period will be extended to two years.

Use Radio to Hunt Criminal

Washington—The interior department will use radio in an effort to procure the arrest of an impostor now in Ohio posing as an agent of the bureau of pensions and defrauding old soldiers. The commissioner of pensions has requested radio stations in Cleveland and Cincinnati to broadcast a message giving his description, warning veterans, and asking his detention and arrest.

Railway Claims Settled

Washington—Liquidation of the claims and counter-claims between the Federal government and the railroads growing out of the government's war-time control of the carriers, has been practically completed without litigation in any case, James C. Davis, director general of railroads, announced in his final report to President Coolidge. Two smelters in Colorado, where receiverships had inolved difficulties, had not yet settled.

Do Your Railroads Win This Reward?

Modern Railroad progress in Michigan began March 1, 1920.

On that day, Uncle Sam quit Railroading and returned the roads to their owners, to reorganize and restore.

That date found the 24 steam Railroads of Michigan deficient in almost every essential. Service had fallen to its lowest point of efficiency. In public esteem, the Railroads were on trial.

Your Railroads are not ashamed of their progress since that eventful date.

We have re-equipped our lines with locomotives and cars.

We have restored and improved our roadbeds.

We have made large investments in terminals, and have made every dollar count.

And we are giving you today the best railroad service Michigan has ever had.

Your Railroads gladly acknowledge their appreciation of your spirit of Fair Play. We are making good for you. We will continue to make good with all the means and effort within our power.

There are many improvements still to be made. We will make them as our means permit. For it is our steadfast desire to make you as proud of Michigan's system of steam Railroads as we are of the prosperity of the state we serve.

Your Railroads want to be your Friends. Do we deserve such classification? Write us, frankly and fully.

What My Neighbor Says

Is of Interest to East Jordan Folks.

When one has had the misfortune to suffer from backache, headache, dizziness, urinary disorders and other kidney ills—and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of an East Jordan resident. Who could ask for a better example?

Mrs. Maurice Gorman says: "My back was so weak and lame I found it hard to go on with my work. I often felt depressed and irritable, too. Dizzy spells came over me, and black spots floated before my eyes. My kidneys acted irregularly, too. Three boxes of Doan's Pills rid me of the trouble." (Statement given April 23, 1920.)

On Oct. 11, 1924, Mrs. Gorman said: "I never had any sign of kidney trouble since Doan's Pills cured me."

Rub Backache away with small trial bottle of old "St. Jacobs Oil."
When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.
Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.
Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

Going to Church?

The question is often asked, on a Sunday. There was a time when the question was unnecessary but there are so many modern diversions that even the people of small towns, unable to enjoy various sports and amusements vent their spleen by staying at home, reading, or loafing up-town.

The effect of this growing habit upon the minds of children is the basis of the belief on the part of Dr. Charles F. Baker that it is the duty of every citizen to attend a place of worship every Sunday. By so doing you implant in the youthful inhabitants an idea of the importance which you attach to religion. Surely, no man is so foolish as not to realize that man must have a religion, even one of doubt.

The churches in your community make life worth while. Without them there would be little influence for good living. The average community would degenerate into a pen of greedy men and women, each intent upon securing at whatever cost to others, the greatest possible pleasure. There would be practically no occasion to call us back to higher thinking, to noble ideals and the worth of a life of service.

A man may attend church without necessarily adopting the particular beliefs of the organization. It is conceivable, to our minds that even an atheist would delight in a service where men and women and children gathered, ostensibly at any rate, for the betterment of themselves and others. Certainly nothing can degrade one at such a service regardless of the hypocrisy or the failure attending such avowed purpose.

If you are one of the modern examples, if you have lost interest in the church, and feel able to face eternity on your own, it might be possible for you to receive some assistance by attending a service regularly every Sunday. Surely no man sinks so low that he has no hope of bettering himself, and where there are so many open doors it would seem that you could find time to be present at one.

If the sermon doesn't interest you there will at any rate be an opportunity for religious introspection.

Your Income Tax

If you are single and support in your home one or more persons closely related to you and over whom you exercise family control, you are the head of a family and entitled under the revenue act of 1924 to the same exemption allowed a married person, \$2,500. In addition, a taxpayer is entitled to a credit of \$400 for each person dependent upon him for chief support, if such person is either under 18 years of age or incapable of self-support because mentally or physically defective. Such dependent need not be a member of the taxpayer's household. For example, an unmarried son who supports in his home an aged mother is entitled to an exemption of \$2,500 plus the \$400 credit for a dependent, a total of \$2,900. If from choice the mother lived in another city, the son, although her chief support, would be entitled to the \$1,000 exemption, plus the \$400 credit. The mother not living with him, he is not considered the head of a family.

An exemption as the head of a family can be claimed by only one member of a household. The \$400 credit does not apply to the wife or husband of a taxpayer, though one may be totally dependent upon the other.

It's hard to convince a big brute of a man who is out of a job that "health is wealth."

Anyway they haven't begun to broadcast family troubles by radio. The telephone still serves that purpose well enough.

Fast automobiles, jazz, radio and the movies keep the old family circle whirling round and round.

At least if more murderers were hanged there would be fewer murderers in existence. You can't get around that.

There is a lot of "romance" in the movies that would make people laugh their heads off if it were actually to happen in real life.

Money is going up and here we didn't know it had been down.

If all the grades of gasoline would do what their companies promise there wouldn't be any need of machinery in an automobile except the tank.

Who remembers when the young man with a fast horse and a cream-colored cutter with a gold stripe around the top of it, could have his choice of girls in winter?

BRIEF NEWS OF WORLD EVENTS

Troops Patrol Harris After Four Men Killed in New Klan War.

Harris, Ill.—Khaki-clad troopers patrolled the streets here to bring peace to the hatred-swept center of "Bloody" Williamson county, where Klan and anti-Klan revolutionists spat fire, resulting in four dead and two injured.

The dead from the latest outbreak: S. Glenn Young, dry leader and storm petrel of the Ku Klux Klan ranks; Ed Forbes, Young's lieutenant and body guard; Homer Warner, another Klan lieutenant. Deputy Sheriff Ora Thomas, chief understudy to Sheriff Ed. Galligan, arch foe of the Klan.

The bitter battle was ushered in shortly after night court recessed. Ora Thomas with Ross Lisenby and Judge Bowen strolled from the court room down the main street. A bullet whizzed across from the vicinity of Young's restaurant, just missing the three men, and lodged in a drug store front.

Later Young walked across the street, accompanied by his trusty bodyguards. He went into the cigar store at the European hotel. Soon after, Thomas entered the smoke shop.

Young drew out his two revolvers and advanced toward Thomas. The latter started shooting and dropped mortally wounded as Young's guns spat in answer.

Young also reeled to the floor and Forbes dropped over, wounded, behind the cigar case. Warner staggered against the door and collapsed. There is no explanation of what incident caused the latest outbreak of trouble.

Army Aviator Acquitted

New York—Lieutenant James T. Hutchinson, army aviator, acquitted by a court martial on a charge of insubordination for flying low over New York city, asserted he was humiliated by his arrest on the charge and had been sacrificed to public opinion. Hutchinson has been in the air service eight years, five of which he has spent at Mitchel Field, L. I. Prior to his acquittal he had protested against his arrest and imprisonment for 40 days.

Two Killed in Plane Crash

Pensacola, Fla.—C. F. Linville, aviation pilot, and Harvey Young, aviation rigger, were killed, and A. V. Rowland and A. W. McCall injured when a Laval seaplane crashed in Escambia Bay, six miles from Pensacola. The accident was seen by men in a shrimp boat, which was anchored nearby. The two injured men were rushed to the beach for first aid treatment and later removed to the aviation station.

Approve Trotsky's Removal

Berlin—The dethronement of War Minister Trotsky meets with pronounced approval of the German Communists, whose organ, Rote Fahne, asserts it signals the solidarity of the Communist party and brings to a definite close a phase in the party's historic development in that it removes from its ranks a man who vainly sought to attack or improve the work created by Lenin.

Approve Survey Bill

Washington—Completion of the topographical survey of the United States, with \$950,000 available during the coming year would be provided under a bill passed by the house and sent to the senate. The measure, which has the backing of the interior department and several organizations of engineers, would open up a \$37,200,000 mapping program extending until 1944.

Senate Wants Arms Parley

Washington—Without discussion or a record vote, the senate has accepted an amendment to the naval bill requesting President Coolidge to call another arms conference. The amendment offered by Senator William H. King (Dem.) Utah, was accepted without objection by Chairman Frederick Hale, of the Naval Committee, in charge of the bill.

Dead Hermit Once Rich

Bayshore, N. Y.—A beach comber who shot himself after having lived unknown on Fire Island for seven years, has been identified as Andrew Sherman McMillan, formerly a wealthy contractor living in Pittsburgh. Ill-health and despondency following a divorce were given by the man's brothers as the cause of his hermit like existence.

Ohla Labor Loses Oklahoma

Oklahoma City, Okla.—Ratification of the child labor amendment to the United States constitution was defeated in the House of Representatives of the Oklahoma legislature here by a vote of 30 to 24.

Deficiency Bill Signed

Washington—The president signed the urgent deficiency bill providing for a total appropriation of \$159,000,000, of which \$150,000,000, was for tax refunds.

PRESIDENT MAKES CABINET CHANGES

HUGHES RESIGNS PORTFOLIO OF STATE TO ENGAGE IN LAW PRACTICE

KELLOGG IS NAMED SUCCESSOR

Coolidge Appoints Charles E. Warren As Attorney-General To Fill Legal Vacancy.

Washington—Two changes of major importance in the Cabinet were announced last week at the White House.

Charles Evans Hughes has resigned as Secretary of State and will be succeeded—March 4 by Frank B. Kellogg, of Minnesota, now ambassador to Great Britain.

Charles Beecher Warren, of Detroit, was appointed by President Coolidge to be Attorney-General, to succeed Harlan F. Stone, who was recently appointed an associate justice of the Supreme Court.

Both appointments are subject to confirmation by the Senate. Mr. Hughes' resignation was announced a few hours after he had left Washington for Atlanta, to attend a meeting of the executive committee of the American Bar association of which he is president. He expects to resume the practice of law in New York, in his old firm of Hughes, Rounds, Sherman and Dwight.

Mr. Kellogg, who will succeed him, also is a lawyer of outstanding prominence. Before he became ambassador to Great Britain late in 1923 he was a senator from Minnesota, and in that capacity was one of those Republicans who favored ratification of the League of Nations with reservations less sweeping than the Lodge reservations.

As ambassador Mr. Kellogg has represented the United States in several difficult post-war negotiations. He now is in Paris, acting with Ambassador Herrick for the United States at the conference of Allied finance ministers.

Warren long has been prominent in Republican politics. President Harding appointed him to the ambassadorship at Tokio. Warren filled that post with what administration officials considered tact and ability. As ambassador, Warren had a direct part in the negotiations leading up to the Washington arms conference.

When Japanese-American relations became quiet he asked to be retired. President Coolidge last winter selected him as one of the two commissioners to Mexico which resulted in the restoration of friendly relations between the United States and Mexico.

Material for Buttons

Vegetable Ivory, a material from which buttons are made, is collected chiefly in South America and Africa. From the former comes the corozo nut, the commonest sort of vegetable ivory, while Africa grows a strange apple which in due course hardens to the hardness of ivory. Thousands of these nuts and apples are converted into buttons every year.

STATE NEWS IN BRIEF

Iron Mountain—Henry Scheller, 59 years old, was killed when he fell down a chute in the Chapin mine here.

Jackson—Crased by moonshine liquor, Clell Bottorf, 30 years old, killed his wife, Grace, 24 years old, and then turned a shotgun on himself, blowing off the top of his head.

Port Huron—Citizens of Snover have requested the Detroit United Railroad to take over the defunct D. B. C. & W. Railroad with a view to extending its lines and serving a part of the Thumb district that is now without service.

Muskegon—A 45-mile gale which swept over Lake Michigan piled the Muskegon lake channel with ice, and navigation was at a standstill. The Crosby steamer Missouri, after battling the ice was forced to turn back to Milwaukee with its freight and 25 passengers.

Detroit—A jury in Judge Charles C. Simons's court awarded five-year-old Marion Killackey \$12,000 in compensation for injuries received two years ago when she was struck by a Fourteenth avenue car, which according to her attorneys, will leave her lame the rest of her life.

Lansing—Wayne County paid the State \$3,802,804.52 last year in automobile taxes and received back \$1,951,402.45, according to a tabulation issued by Charles F. Deland, secretary of state. The total state collections were \$11,261,282.29, of which the counties received \$5,629,232.15.

Grand Rapids—Aviators passing over Grand Rapids must fly at a height of not less than 2,500 feet as a result of an ordinance adopted by the city commission. This height will permit the planes to glide nearly four miles in event of mechanical trouble, according to City Manager Fred H. Locke.

Holland—The Ottawa County Farm Bureau elected the following officers at their annual meeting: President, Henry Harrington; vice-president, Gerrit Yntema; secretary and treasurer, A. J. Knight. Resolutions were passed commending the road commission for their work and favoring a state income tax.

Port Huron—Traffic into the Thumb district has been badly disrupted, the result of a driving wind, which filled the cuts through drifts in the north and south roads of Sanilac and Huron Counties, according to reports received here. Snow plows at some points were forced to turn back by the heavy drifts.

St. Joseph—Circuit Judge Charles E. White, of Berrien County, has dismissed the State's receivership suit filed against the House of David colony here in April, 1924. The court gave as his principal reason the explanation that the action, begun by Assistant Attorney General O. L. Smith, was not begun within the 15-year limit prescribed by law and was therefore outlawed.

Saginaw—The amalgamation of the Saginaw Automobile Club and the Bay City Motor Club in a new organization, the Automobile Club of Northern Michigan, which will operate in 23 central and northeastern Michigan counties, has been approved by the members of the two clubs. This territory has been assigned the new organization by the American Automobile Association.

Ypsilanti—The city council has granted Mayor H. E. VonDewalker authority to appoint a committee of five to consider a zoning ordinance which will work with the council in formulating plans for expansion and development of the city. A definite building code will be one of the first considerations of the committee, and it will also make recommendations as to what public improvements should be undertaken each year.

Detroit—All butcher shops in the city, except those selling Kosher meat, are to be closed Sundays under the new city ordinance prohibiting the sale of meat or meat products on that day. Under the Police Department's interpretation of the law, all Kosher markets found open Saturdays are in violation of the law. By this interpretation, all persons whose Sabbath is the seventh day of the week, Saturday, may keep open their shops on Sunday.

Grand Rapids—District Judge Arthur C. Denison has revoked the authority granted the receiver of the Manistee and Northeastern Railroad by the Michigan Public Utilities commission to cease operation of trains on the grounds that the railroad was unsafe. Judge Denison, however, authorized discontinuance of service between Walton and Gaylord and ordered the parties representing the railroad and shippers to arrange for service on the remainder of the road.

Munising—Carlos Rudd, 22 years old, who pleaded guilty in Circuit Court to killing his 7-month-old baby, has been sentenced to serve from three to 15 years in the Jackson State Prison by Judge Louis H. Fead. In a written confession, Rudd said he lost his temper when the baby's cries awakened him late one night. He tried to quiet the child by rocking it, but was not successful. Then he put his hand over the infant's mouth, holding it there several minutes. Unintentionally he shut off the baby's breath and it died.

THE BLUEBIRD PRINCESS

PERHAPS if Prince Arno had been a poor youth he would not have found life such a bore and he might have married as his father the king had often asked him to do, and settle down at home.

But he was a prince, and he did not fall in love with any princess that his father had chosen, and so one day he started off on a journey, telling the king that when he found the girl he could love he would return.

The poor king was very unhappy, for he thought he should never see his son again, because if he could not love any of the beautiful princesses he had chosen for him, he was quite sure he would find none in his travels.

For many months Prince Arno traveled without seeing anyone but peasants working in the fields, and then one day, just as it was growing dark, he spied far in from the road where he was traveling a castle brightly lighted.

Turning his horse into the path, he rode up to the door, but what was his

Out of the Fire There Arose a Beautiful Maiden.

surprise when he reached the castle to see the light suddenly go out and all the windows dark.

But as he was a brave prince he dismounted and boldly walked up to the door and knocked. A bent-over, witchy-looking creature answered his knock, holding a flickering candle in her hand.

"Can I find shelter here for the night?" inquired the prince.

"Enter if you wish," replied the witch. "If you care to remain, you are welcome; but no traveler has stayed here long, I warn you."

She led him to a room, where, by the candle light, Prince Arno saw a broken-down bed in one corner. "This is all I can offer. If you care to remain, you are welcome," she said.

Prince Arno told her he would sleep there that night, after he had made

his horse comfortable under the trees. It did not take the prince long to fall asleep, in spite of his strange surroundings, for he had traveled far that day. How long he slept he did not know, but when he woke the sound of music fell upon his ears.

Softly opening the door, he looked upon a strange sight. A room full of beautiful maidens dressed in blue were dancing and swaying to the music, though where the light came from or the music he could not make out.

Prince Arno knew he must be in an enchanted castle and that some strange spell was upon the place, and he was determined to find out something about it.

"Hold!" he cried, rushing into the midst of the dancing group, and at the same time he caught one of the beautiful maidens by her arm.

In an instant the scene had changed. Not a maiden was there. The light had gone and the music streamed through the windows. Prince Arno saw that he held by one wing a poor, struggling, frightened bluebird.

Just then the door opened, and in came the old witch: "You have rescued our princess," she said. "Now, if you are brave enough you can save her and restore her to her former shape."

"And what am I to do to break the spell that holds her?" inquired the prince.

The old witch touched with her cane the bare fireplace, and instantly there blazed a bright fire. "Throw her into the fire," she said.

"This was not easy for the prince to do, for he was a kind-hearted man and could not bear to give pain to anyone.

"You hesitate?" said the witch. "They all do; no one has been brave enough to cast the bluebird into the flames."

Prince Arno hesitated no longer. If this was the way the spell was to be broken the bird must be sacrificed, and into the flames he threw the bird.

But instead of being burned, out of the fire there arose a beautiful maiden, the most beautiful Prince Arno had ever seen, dressed in a gown the color of the flames, as though they had wrapped themselves about her.

Prince Arno's heart told him he had found the bride he sought, and the old witch explained that she was a princess that had fallen under the spell of a wicked ogre, who had changed her into a bluebird, to remain one until a prince should rescue her in the way he had done.

"I could only break the spell that held her at midnight," said the witch. "And then only for an hour, when all the bluebirds around could be changed into maidens."

The next day Prince Arno took the princess with him to his father and the king gave a grand feast that lasted for a week to celebrate the marriage of his heir.

MUSIC

By THOMAS ARKLE CLARK Dean of Men, University of Illinois.

GRAHAM came to the town in which he is now living a good many years ago without friends and without money. He was honest, hard working, and dependable, and in time he got on in business. He made friends and he married a sensible girl. He started a little greenhouse out on the edge of town, going into debt for the land and for the equipment, but he had a good business and the future looked promising.

He had one recreation—music. He could sing and he could play the violin marvelously well. It was his own talent, and he used it skillfully for his own enjoyment and for the satisfaction of his friends.

Then one unlucky spring day a cyclone struck the town and laid waste a considerable part of the residence district and left Graham's greenhouse a heap of tangled iron and broken glass. His dwelling house, which was adjacent to the greenhouse was torn into fragments by the swirling wind and there was not a piece of glass left in the greenhouse as big as a man's hand.

Graham's wife and his three children were seriously, if not fatally injured, and the whole family was in the hospital, he with a crippled back and a broken arm and a spirit pretty well crushed. He was almost wrecked physically, but a few days after the storm he was driven out from the hospital to see the remnants of what was once home. It was a bizarre sight of broken glass, twisted window frames and withered vegetables that met his gaze. Nothing was left; he had nothing with which to start anew and he was three thousand dollars in debt.

He would have shot himself, he said and ended his troubles at once, if he had had a gun. Then suddenly as he was sitting despondent in the midst of the ruin of his possessions, a robin came and perched upon the broken branch of a fallen maple tree and began to sing riotously and courageously. And then—nearly—he saw a toad—nest, the little birds within it dead. It was another home wrecked. Tears came into his eyes, and courage crept back into his heart, and he pulled himself to gether.

"If that bird can sing," he said to himself, "by God, I can sing too," and he did.

Friends came to his assistance, he made a new start, and today business is flourishing. And still he sings and plays the violin.

Dr. Jordan Receives Peace Award

Twenty-five thousand dollars, as substantial evidence of belief that education is the most promising means of abolishing war, was presented at the University of Southern California to Dr. David Starr Jordan, winner of the peace plan award. In the picture he is seen, at the left, with Raphael Herman, donor of the prize; William Gibbs McAdoo, and Dr. A. O. Thomas, president of the World Federation of Educational Associations.

Cane Juice Clarifying

The sugar cane juice, constituting about 80 per cent of the weight of the cane, says Nature Magazine, is clarified by the addition of lime.

"PERCY" "Percy," a name which has for us a rather sinister association, was the result of quite a blood-thirsty act. Malcolm H. of Scotland, in his invasion of England, demanded from Robert de Mowbray the surrender of Alnwick Castle. Mowbray complied by presenting the keys to the Scotch king on the point of his lance, at the same time gouging out the king's eye. Malcolm, from then on was known as "Pierce-eye," which became the "Percy" of today.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

"What's in a Name?"

By MILDRED MARSHALL

Write about your name; its history; meanings; whence it was derived; its significance; your lucky day; lucky level!

LYDIA

LYDIA is of Latin origin. She is one of the feminine names derived from places. As Della comes from the island of Delos, so Lydia became a proper name in honor of the city of Lydia which played such an important part in early history.

Lydia has a deep and reverent Biblical significance, since the first Lydia was the seller of purple who became converted by St. Paul at Thyatira. Her story is contained in one of the striking passages of the Acts.

Englishwomen, who seem especially given to Scriptural names, adopted Lydia quite early in history. The name flourishes in the pages of English literature, and also has extreme vogue in this country. Curiously enough, it seems to have escaped translation into any other than the English language.

Lydia, a name not in common usage but none the less musical, may possibly be a contraction of Lydia. If such is the case, the name is no doubt the outgrowth of personal feminine preference, and without etymological sanction.

The yellow jacinth is Lydia's talismanic stone. It will guard her from danger and disease, particularly when she is traveling. The wearer of a jacinth need have no fear of lightning, since the stone is said to be proof against that menacing element. According to ancient legend, a jacinth will break as a warning of the approach of evil. Thursday is Lydia's lucky day and 5 her lucky number. Yellow is her color.

By ETHEL R. PEYSER

You stutter? This certainly would seem like wicked laughter. Yet there is no laughter that cannot be put to good uses. Suppose, instead of getting downhearted and shy and unhappy about it, you try and get hold of this infirmity and take means to get rid of it and make yourself more useful. It can be done in many ways and many folk have conquered it, many times just because others have laughed. It isn't easy to conquer anything worth conquering, but you can do it. I know you can.

Tub Frocks Adorned With Quaint Stitchery

"Now is the winter of our discontent" very much cheered up by the arrival of new wash fabrics in the shops, and new frocks for old and young, made of these fabrics. For little folks, who require many tub dresses the small-checked gingham still lead in the choice of materials, followed by plain chambrays and other sturdy cottons and by heavy coarse linens, for dress and knickers to match. Little ladies from two to six will discover fascinating picture-book sketches, done in colored floss, outlined on their spring frocks, in which Simple Simon meets the plemar or the cow jumps over the moon, or little folks and little animals disport themselves. An example of this kind of decoration appears in the picture of dress and knickers to match; it is the newest item in these simple styles.

Graceful Negligees in Cheerful Colors

When corduroy, in the supple, tustrous, lightweight qualities, entered the field of negligees, it filled a long-felt want. It is an ideal material, in every respect, for making these pretty garments (of which so much is required), and it has established itself permanently in the mode.

One of the new corduroy negligees is shown in the picture, in henna color, with a silky sheen. There is quite a range in colors to choose from and corduroy is beautiful in the fashionable rose, purple, brown, blue, red, fuchsia and russet tones. Sometimes these negligees are lined in matching shade of thin silk or mercerized cottons, but often they are unlined. Besides being durable they will stand washing.

The SANDMAN STORY

JIMMY SKUNK'S SPELL

ONE night when Mr. Fox and Mr. Coon and Peter Rabbit were going through the woods on their way to the farm where they intended to get something nice for their breakfast they met Jimmy Skunk.

Now Mr. Fox, and his companions also, were very young and they knew nothing about Jimmy Skunk's peculiar trick of fighting those who annoyed him.

Jimmy was sauntering slowly along as if he were not at all afraid of anything or anybody. "Hello, Jimmy,"

"Can't You Help Us, Jimmy?" Asked Peter Rabbit.

called Mr. Fox. "I suppose if Mr. Dog happened along you would not change your gait."

"Not I," replied Jimmy. "I never hurry for any one, not even Mr. Dog."

"I guess, though, Mr. Man with a gun would hurry you a little," said Mr. Coon.

"Can't you help us, Jimmy?" asked Peter Rabbit.

Jimmy Skunk scratched his head and squinted his eyes. He was thinking, for he had more than once heard Mr. Fox making fun of the lazy manner in which he went about and he knew very well that Mr. Fox must be ignorant of his weapon of defense.

"Well, I might help you if you want to take a chance," he said at last.

"What do you mean by taking a chance?" inquired Mr. Fox, who was

very suspicious. "Is there any trap about your scheme, Jimmy?"

"I mean, my help will last for some time," said Jimmy, "and you may wish to get rid of it. You can't though, until it wears off."

"Oh, I see," said Mr. Fox with a smile. "You throw over us a spell which will keep Mr. Dog and Mr. Man away from us; is that it?"

"Yes, that is it," said Jimmy, glad to be helped out so well without going into details.

"Oh well, I'll take a chance on that, won't you, Mr. Coon?" said Mr. Fox.

Jimmy Skunk did not really wish to throw his spell over Peter or Mr. Coon, but when Peter said he was willing to risk it Jimmy decided if he wanted to trot about with such fellows as Mr. Fox he would have to take the consequences.

"Now, are you all ready?" he asked as the three stood in a row with their eyes closed.

"Ready," they all called and the next thing they knew they felt something softly spraying them and then the most awful odor they ever remembered smelling filled the air.

When they opened their eyes Jimmy Skunk was gone, which showed them he could hurry when he cared to do so.

It was a long time before the three met again and when they did Mr. Fox said: "He told the truth about keeping Mr. Dog away, for he started to come to my house the next day to drive me out when suddenly he gave a howl and turned with his tail dropped and ran for home as if something had hurt him."

"Jimmy's spell may be all right for keeping Mr. Dog away, but everybody else keeps away, too," complained Mr. Coon. "My wife drove me out of the house and I had to sleep on the branch of a tree."

"My family pushed me out of the house, too," said Peter Rabbit, "and I didn't blame them. If I could have run away from myself I would have done so. No, I will take a chance on Mr. Dog getting me rather than have Jimmy Skunk throw a spell over me again."

Martin brothers, Beaver Island fisherman, are reported to have been lost on the ice between the Beavers and Cross Village during a storm, and forced to spend the night on the ice. Carl Left, mail carrier, is reported to have lost his horse in a crack in the ice while hauling mail from St. James.

The city of Cadillac proposes to raise by taxation this year \$3,595 for support of its municipal band. A committee composed of one member of the city council, one member of the Exchange club and one member of the Rotary club, has supervision of the band. New instruments, and uniforms will be secured and new music purchased.

East Jordan and northern Michigan experienced the coldest weather in the past seven years last Monday night. Temperature started dropping at sunset Monday and at 6:00 o'clock Tuesday morning registered some thirty degrees below zero. This low temperature was outdone in January, 1918 when the war-time fuel restrictions were effective.

When she was unable to control two of her boy pupils, Miss Ethel Hillier, of District No. 2 in Forest township, Cheboygan County, had the lads taken into juvenile court. After hearing the case Probate Judge Berry placed the lads on probation for a period of 120 days. Parents are said to have taken the part of the boys.

Eight million Lake Erie cisco eggs are being hatched at Sheboygan, Wis., hatchery, and will be planted along the west side of Lake Michigan. For many years Lake Erie fishermen have had monopoly of cisco fishing, but the federal hatcheries hope soon to have plenty of cisco for Lake Michigan fishermen. The fry will be planted next spring.

According to word from Washington, D. C., Sylvester Fay, captain of the Petoskey high school football team during the 1924 season, has been designated for the Annapolis examinations. Congressman Frank D. Scott has picked the Petoskey boy as candidate from the Eleventh Michigan district and "Cap" Fay, as he is known to his many friends will make a strenuous effort to pass successfully the strict requirements.

The 3rd battalion, 2nd U. S. Infantry stationed at Fort Brady may remain in the Sault this summer instead of going to Camp Custer as has been the case for the past two or three years, it is announced by Maj. Ralph E. Jones commanding that the Corps Area commander is considering the feasibility of having the troops conduct their summer training at Fort Brady and vicinity this summer. If the plan goes through it means, that part of the summer will be spent by the troops at the government rifle range at Rexford and also that a Reserve Officers' training course will be conducted with at least a hundred from the 500 section attending for the fifteen-day course.

Would Pay More To County Roads

County road award appropriations from revenue to be provided by the state two cent gasoline tax bill, will be raised from \$1,000,000 as passed by the senate, to \$2,000,000 or \$2,500,000 by the house taxation committee report to be presented when the legislature re-convenes.

This was officially announced by members of the lower branch committee. Simultaneously senator leaders announced they would pass the 55 cent weight tax bill, sent over by the house last week, without amendment, it is believed however, an attempt will be made to raise the rate to 60 cents a hundred pounds on passenger cars and possibly to reduce the \$1.25 maximum on trucks. The original road award figure in the Atwood-Baxter gas tax bill was \$2,500,000. This was cut to \$1,000,000 in the senate committee. House leaders favor the high appropriation but are willing to compromise on \$2,000,000.

Senator Horatio Karcher, Rose City, who has been active in framing the gas tax bill has prepared an amendment stating a deficiency exists by reason of the \$6,000,000 awards owed counties of the state and making a definite appropriation for this purpose. Karcher said he would make an effort to have the house taxation committee include this provision in amending the gas tax bill.

To Swim English Channel

Miss Helen Walwright, American all-round champion swimmer of 1924 will undertake to swim the English channel, coveted goal of the world's greatest long-distance swimmers, next summer. The decision was reached at a meeting of the governors of the Women's Swimming association, when Miss Charlotte Epstein, chairman of the sports committee, was authorized to make all arrangements for the trial.

Neckwear Tones Up Spring's Plain Frocks

Once again spring blithely presents us with plain and simple frocks and blouses for daytime wear, leaving it to resourceful women to make them interesting somehow. And the feminine world manages very well by means of neckwear, collar and cuff sets, and belt that ring changes on the theme of simple styles.

The picture above shows how plaid and plain taffeta ribbon make colorful neckwear that will add chic to the most unpretentious of gowns. Narrow plain ribbon is set on to wider plaid with a little gold braid, and they are laid in fine plaits. The narrow ribbon is used for binding and for the ties.

Trying to dodge responsibilities is exactly like trying to dodge your shadow.

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Britain To Cut Debts

Paris—Great Britain will ask France and Italy to pay one-fourth of their war debts to her. Winston Churchill, chancellor of the exchequer, so informed Finance Minister Clementel recently. This is conditioned only on the final assent of the British government.

Telephone Gives Alarm

New York—When the telephone operator at the St. James hotel plugged in on a signal from the linen closet, in the basement he heard a roaring noise. Investigation showed a fire in the closet had burned away the legs of a table, on which the telephone stood, causing the instrument to drop and flash its signal. Guests were ordered to the street while firemen extinguished the flames.

Navy Orders Aircraft

Washington—A million dollars worth of seaplanes has been ordered by the bureau of aeronautics of the Navy Department, it is stated, with the granting of a contract to the Glen L. Martin company of Cleveland for 40 machines capable of performing the duties heretofore undertaken by torpedo, bombing and scout planes. Work on the new ships will begin immediately. On their completion the navy will have 75 of this type of craft.

To Motorize Agriculture

Berlin—Under the slogan "Motorization of Agricultural undertakings is the crying need of the hour," the ministry of agriculture has announced that special credits had been made available to small farmers for the purchase of tractors and other motor equipment. This action, it was stated, was prompted by Germany's necessity to stimulate intensified production without increasing the supply of horses and oxen which need pasture and food.

"GIANT DESPAIR"

At one time or another most of us are taken prisoner by Giant Despair. Giant Despair I is described in Bunyan's "Pilgrim's Progress" as the Lord of Doubting Castle. When he discovered Christian and Hopeful sleeping on his grounds he promptly clapped them both into his subdungeon. Only the unwar'y ever trespass on his territory.

Killing Out Bluegrass

Cultivating alfalfa after the second crop is taken off in order to kill bluegrass will be found the most satisfactory practice. At this time the soil is apt to be dry and it is easier to kill the bluegrass. Cultivation comes at a time when it will be a big help in conserving soil moisture. Some farmers cultivate their alfalfa fields early in the spring, using a disk or a harrow, and follow each cutting by a cultivation. Often this is necessary if the bluegrass is not killed out by the spring cultivation.

Taking Out Ink Spots

In order to remove ink spots from a walnut table put a few drops of spirits of niter (nitric acid) in a teaspoonful of water, touch the spot with a feather dipped in the mixture, and as soon as the ink disappears rub immediately with a rag wet in cold water or it will leave a white mark. The spots should then be polished.

"Wave" Ruined

A party of Broadstairs (Eng.) motorists ran their car over the edge of a cliff, narrowly escaping death. Lady Duncan, sitting in the back seat, complained to rescuers that the accident had "spilled her permanent wave."
