EAST JORDAN, MICHIGAN, FRIDAY, OCTOBER 30, 1925.

No. 44

Fatal Accident At Boyne City

Buzz Saw Causes Death And Terrible Injuries.

Elmer (Pat) Peterson was instantly killed and Wm. White terribly injured Monday morning, in the wood yard of the Michigan Iron and Chemical Co. by a circular saw going to pieces. These men were in the employ of Ernest Slaughter a contractor who was buzzing cord wood into short lengths with a tractor woodsaw outfit. Three other men in the crew escaped injury. Elmer Peterson had his head split in two while Wm. White had his scalp, nose and face cut from his head. Mr. Slaughter brought the injured man to Mr. Conkle's office who drove him to the hospital in Petoskey. Coroner Boylan was promptly on the ground and announced that no inquest was necessary. Dr. McGregor was the first physician to appear at the scene of the accident and assumed charge until he was relieved. Elmer Peterson was about 30 years of age unmarried and lived in this city several years. Wm. White is about 50 years of age and has lived in this 30 years and resides in North Boyne.—Boyne Citizen.

M. S. C. Radio School Starts In November

A new radio school, or so-called "school of the air," will be sent out over station WKAR beginning Nov. 2, according to announcement made by extension authorities at the Michigan State College.

Success of a ten-weeks school broadcast from the college station last spring is said to have led to decision to expand the educational radio series. Two separate schools have been announced for this winter. One will run from Nov. 2 until Dec. 18; the second will start early in January, running until early April.

The fall courses will include a wide variety of subject matter, eleven different departments of the state college contributing definite courses of study. These will include: History, English Literature, sociology, botany, marketing, entomology, forestry, soils, agricultural engineering, and zoology.

The school will be held from 7:15 until 8:00 o'clock (eastern time) from Monday through Friday, inclusive, each week. Each department is to have definite lecture periods during the schedule.

The college station, WKAR, is operating on its old-wave length of 286 meters this year, but is now listed as a 1,000 watt station, making it one of the super-power stations of the country.

After the first of January, a 12 weeks school of special interest to farmers will be broadcast. Detailed programs for this school will depend largely on requests received from listeners, it is said.

Lansing—A genuine effort to secure an air unit for the Michigan National guard has been ordered by Governor Alex J. Groesbeck.

Port Huron—James Dunn, builder and contractor, has filed his nomination petition as candidate for mayor. Until Dunn filed his application it was believed that Mayor Mollwain would have no opposition for re-nomination.

Ypsilanti—A \$6,000 printing equipment has been installed in Roosevelt High school, and a course in mechanics of journalism will be given under C. A. Wackman, new member of the faculty. A high school newspaper will be published later in the year.

Owosso—Because the executive committee found hotel facilities here inadequate, the annual convention of the Michigan Dry Cleaners' and Dyers' association, scheduled for Owosso in February, will be held elsewhere, it was announced.

Albion—Announcement was made here by Dr. John L. Seaton, president of Albion college, that Dr. Clarence C. Little, the new president of the University of Michigan, would be the chief speaker at the homecoming celebration here November 7.

Monroe—Fire of undetermined origin, starting in the center of the crushing room at the entrance of the quarry hole, destroyed the stone crushing plant, office and storeroom of the France Stone company here. The damage is estimated at \$250,000.

Sault Ste. Marie—Rail communication between Canada and the Upper Peninsula is at a standstill, following the wrecking of the swing bridge across the ship canal by the steamer W. J. Crosby, of the North Shore Transit company of Port Huron.

John Wm. Murphy Civil War Veteran Passes Away

John William Murphy passed away at his home in Echo township, Antrim County, last Saturday morning, Oct. 24, at the age of 77 years, 1 month 26 days.

Mr. Murphy was born in Johnston, Canada, in 1848. At the age of 14 years (in 1862) he enlisted in Company G, 14th New York Heavy Artillery and served his adopted country for three years during the Civil War strife. He was active in 17 battles and suffered captivity by the rebels at Petersburg, Virginia. At the close of the war he was honorably discharged, and returned to his home in New York.

In 1869 he came to Michigan and homesteaded 80 acres in Echo township, Antrim County.

On Sept. 25, 1877, he was united in marriage to Margaret Ann Hosler. He is survived by the bereaved wife and the following sons and daughters:—Mary Ann Spence of Rigetown, Canada; Ralph Roy Murphy of East Jordan; William Murphy at the parental home; Hattie Towlesley of Charlevoix; May Kicker of Echo township; Sarah Staley of Eveline township; Charlotte Saddle of Alanson; Erwin Murphy of East Jordan Belle Sweet and Raymond Murphy at the parental home. He is also survived by twenty grand-children and one great grand-son.

Funeral services were held from his late home Monday afternoon, Oct. 26th, conducted by Rev. Henry Hiles, pastor of the East Jordan M. E. Church. Interment at the Moorehouse Cemetery.

P. M. Passenger Train Wrecked

The Pere Marquette passenger train, due in Petoskey at 4:30 Friday afternoon was piled up in the swamp between Rapid City and Barker's Creek. The wreck, which was due to a heavy fog, delayed traffic more than 24 hours. None of the crew or passengers was injured.

The company's big wreck clearing outfit, sent north from Grand Rapids to clear the line, had its own difficulty and piled up near Thompsonville late in the evening, Friday.

The wrecker was back on the rails at 10 a. m. Saturday and went on north to do its best to clear the right-of-way Saturday.

There were no passenger trains into Petoskey over this line Friday but the Saturday train came in quite late. The train out on Saturday, also, was late. There were no trains south Saturday from Traverse City.—Petoskey News.

Three U. S. Army Flyers Killed When Plane Crashes

Cape May Courthouse, N. J.—Three United States army aviators fell to their deaths near here when the Martin bombing plane in which they were flying from Mitchell Field, N. Y., to Langley Field, Va., crashed into the meadows after one of the two Liberty motors on the ship apparently went bad. The men killed were: Capt. Robert A. Kinloch, Charleston, S. C.; Lieut. Abbot C. Martin, Reading, Mass., the pilot; Staff Sergeant Joseph Coulston, Norristown, Pa.

Mathewson's Son Made Director of Boston Team

Boston.—The Boston National baseball club paid double tribute to its late president, Christy Mathewson, at its annual meeting. It elected his son, Christopher, Jr., as a director, and adopted resolutions offered by Mayor James M. Curley, a director of the club, which eulogized "Matty" as the "incomparable leader and exemplar of the national game."

Ten Bandits Rob Federal Reserve Bank Messengers

Chicago.—Ten men with revolvers and shotguns and riding in three Cadillac automobiles held up the three Federal Reserve bank messengers at Quincy and LaSalle streets and escaped with two mail pouches of unregistered mail, and a package supposed to contain currency from the American Express company.

Col. Mitchell Ordered Before Court-Martial

Washington.—The War department announced that Col. William Mitchell will be court-martialed "by direction of the President" for imputation of War and Navy department officials in the administration of our air defense.

Looking Forward

Spiritualist Church Is Organized

Rev. H. J. Dryden of Grand Rapids, Missionary at large for the I. S. A., spent five busy days at the Eph Kidder farm and two well attended meetings were held with many friends for Spiritualism, who came from Charlevoix, Boyne City and East Jordan. Through these meetings a Spiritualist Church was formed, to be known as the First Spiritualist Union of Charlevoix County. One evening was spent with friends at Charlevoix and pot luck suppers were given after each meeting. All who attended spoke of a real good time they had and all are looking forward to the return of Rev. Dryden early in December, when a number of meetings will be held. Mrs. Oscar Kidder, Sec'y.

Trained Leaders Necessary

But it is not only among politicians that there are delusions. Our people engaged in industry leave to a few the maintenance of the open shop, the education of the people as to what unionism means, the presentation of the facts concerning industrial and individual liberty, and the opposing of the pernicious unionism. There are so many men engaged in industry who are under the delusion that some one will always fight their battles for them that a serious condition may sometime arise. All men engaged in industry should realize that they must contribute their efforts in the line-up against those who would strangle the liberty of industry in this country. There are those also who feel that leaders will always spring up to take the place of those who pass away. Bryan said that a million men would leap to arms if the United States needed them, but he didn't say anything about the training of these men or their equipment, or their qualifications to fight a trained enemy. So it is with industrial leadership. It is not something that is imbibed from the air. It is the growth and development of years. It represents

Board Ends Busy Session

Adopt Extensive 1926 Road Building Program—Numerous Appropriations Made.

The Charlevoix County Board of Supervisors adjourned their annual October meeting on Saturday, having completed all business at hand. Many important matters were threshed out and the meetings were productive of the usual amount of routine business and some important appropriations and measures, among which are the following:

The Michigan Children's Aid Society of St. Joseph, Michigan, received a gift of \$350.00 to aid in the carrying on of their work. The Hospital School for Crippled Children at Farmington, Michigan, received a like amount. Two hundred dollars was appropriated by the board to carry on the work of eradication of honey bee diseases in the county. The County Farm Bureau presented the necessity of T. B. eradication in the county and the sum of \$1500.00 was appropriated by the board for this purpose.

Hugh J. Gray, secretary of the Western Michigan Tourist and Resort Bureau, came before the board asking for an appropriation to aid in their work of advertising western Michigan resorts. The matter was given over to much discussion pro and con and no definite decision was arrived at the first afternoon. A motion for the appropriation of \$1000.00 was defeated by the board. The second motion for the sum of \$750. carried, and the board voted this amount to the resort bureau for the purpose of advertising Charlevoix Co. as a whole.

The county road commission, in their report to the board, reported the construction of the following pieces of road during the year 1925. 1 mile on Boyne Falls and Deer Lake road, 1 mile on East Jordan and Peninsula road; 1 1/6 miles on Horton Bay north road; 3/4 mile of grade on Wilson road and 1 1/2 miles of class A gravel on Wildwood Harbor road. It was voted to raise a five mill tax, 1 1/2 mills more than has been authorized in previous years, for carrying on the road program for 1926.

The sum of \$59,390.12 will be raised from the five mill tax and will be expended as follows: Marion Center road, \$7000.00; County Line road, \$2,000.00; Boyne Falls east road, \$5,000.00; Ironton south road, \$6000.00; Trunk line 11-46, \$1,500.00; Wildwood Harbor road \$4,000.00; Advance road, \$5,000.00; maintenance, East Jordan district \$6,000.00, the balance to be used for general maintenance and equipment.

It was voted to raise the sum of \$29,695.06 for the county sinking fund to be used in retiring county road bonds and interest thereon, and for no other purpose unless so authorized by the county sinking fund commission.

It was voted by the board to put the county superintendents of the poor on a salary basis, the secretary to receive \$600 and the other two superintendents \$200.00 each.

The Charlevoix County Agricultural Society was given an appropriation of \$1,000.00 by the board and 1-10th of a mill will be raised by taxation and turned over to the society for the payment of premiums at the fair and to defray other expenses. The board considered the work of the society of great educational benefit to the county and it should thus be encouraged.

In the report of the Ironton Ferry committee read to the board it was brought out that the ferry was not of sufficient size to handle the traffic over it; the engine was nearly worn out and the approaches were in a dangerous condition and in need of much repair. It was also set forth it would be inadvisable to rebuild the ferry in its present condition. The ferry has been a source of great expense to the county for many years last year \$1700.00 being spent for gas and oil alone. The county has stood this expense, making no charge for its use. It was decided by the board that it was high time for something to be done to remedy this condition and therefore the following action was taken. The Ironton ferry committee composed of Jay Adams, Frank Wangeman and S. M. Rose were given full power to purchase a new ferry, make necessary repairs to the approaches and adopt a toll system whereby the ferry will become self-supporting.

A petition to the state department of conservation to close Charlevoix Co. to deer hunting for a period of five

Board Ends Busy Session

Adopt Extensive 1926 Road Building Program—Numerous Appropriations Made.

The Charlevoix County Board of Supervisors adjourned their annual October meeting on Saturday, having completed all business at hand. Many important matters were threshed out and the meetings were productive of the usual amount of routine business and some important appropriations and measures, among which are the following:

The Michigan Children's Aid Society of St. Joseph, Michigan, received a gift of \$350.00 to aid in the carrying on of their work. It was voted to raise the sum of \$29,695.06 for the county sinking fund to be used in retiring county road bonds and interest thereon, and for no other purpose unless so authorized by the county sinking fund commission.

It was voted by the board to put the county superintendents of the poor on a salary basis, the secretary to receive \$600 and the other two superintendents \$200.00 each.

The Charlevoix County Agricultural Society was given an appropriation of \$1,000.00 by the board and 1-10th of a mill will be raised by taxation and turned over to the society for the payment of premiums at the fair and to defray other expenses. The board considered the work of the society of great educational benefit to the county and it should thus be encouraged.

In the report of the Ironton Ferry committee read to the board it was brought out that the ferry was not of sufficient size to handle the traffic over it; the engine was nearly worn out and the approaches were in a dangerous condition and in need of much repair. It was also set forth it would be inadvisable to rebuild the ferry in its present condition. The ferry has been a source of great expense to the county for many years last year \$1700.00 being spent for gas and oil alone. The county has stood this expense, making no charge for its use. It was decided by the board that it was high time for something to be done to remedy this condition and therefore the following action was taken. The Ironton ferry committee composed of Jay Adams, Frank Wangeman and S. M. Rose were given full power to purchase a new ferry, make necessary repairs to the approaches and adopt a toll system whereby the ferry will become self-supporting.

A petition to the state department of conservation to close Charlevoix Co. to deer hunting for a period of five

years was another action of the board, as was another petition to the state highway department asking their cooperation and consideration relative to the matter of extending trunk line M-32 from Elmira to Charlevoix by the way of East Jordan, taking in the lower road from Ironton to the Taft farm, and the construction of a gravel road over the route.—Charlevoix Courier.

Tax Blocks More Sales

Ford Says He Could Sell Million More Cars If Tax Reduced

Henry Ford recently declared that he could sell a million more cars if the price could be reduced \$25.00. C. E. Gambrill, president of the National Automobile Dealers' association told the House Ways and Means committee at Washington first of the week in pleading for reduction of the present automobile excise tax. The average automobilist is paying \$30. tax at present and dealers are promising a reduction to consumers if Congress will repeal this tax in the new \$300,000,000 tax reduction bill which is now being framed.

Since the tax was first enacted during the war, the public has paid \$900,000,000 into the government coffers and it has cost the retail dealers \$40,000,000 to make the collection, Gambrill said.

MELLON GIVES NEW INCOME TAX SCHEDULE

Incomes of \$6,000 and Over Affected If Proposal Is Accepted.

Washington.—Normal tax rates would include four brackets instead of three if congress adopts a suggestion submitted to the house ways and means committee by Secretary of the Treasury Mellon.

The rates proposed are 1 per cent on the first \$3,000 of taxable income, 2 per cent on the next \$1,000, 3 per cent on the next \$4,000 and 5 per cent on the amount above \$8,000.

Secretary Mellon, in a letter to the committee said that while he did not wish to be understood as attempting to dictate exact rates, he believed the four-bracket schedule would be more satisfactory than the three-bracket arrangement, which he first submitted.

The loss in revenue, he explained, would be about the same under the new proposal as under the other arrangement—namely: a loss of \$140,000,000 the first year and \$100,000,000 the second year.

Secretary Mellon originally informed the committee that the \$140,000,000 loss estimate was based on normal rates of 1 per cent for the first \$3,000, 3 per cent on the next \$4,000 and 5 per cent above that. Rates in the present law are 2 per cent on the first \$4,000, 4 per cent on the next \$4,000 and 6 per cent thereafter.

In the letter, Secretary Mellon quoted his statement made before the committee on Monday, in which he said that the treasury did not propose definite rates, but gave assurance that the maximum normal and surtax rates could be reduced 25 per cent without endangering future revenues.

The government actuary, he explained, in estimating a loss of \$140,000,000 in a reduction of the combined maximum to 25 per cent had used two alternative schedules which yielded substantially the same revenue. Mr. Mellon said he desired to substitute the four-bracket schedule for the one first submitted.

Procrastination's Cost

There are best times for doing many things, and the man who doesn't do them then usually has to be satisfied with a second best achievement.—F. Langbridge.

It Isn't Your Town, It's You

If you want to live in the kind of town
Like the kind of a town you like,
You needn't slip your clothes in a grip
And start out on a long, long hike.

You'll only find what you left behind,
For there's nothing that's really new;
It's a knock at yourself when you knock your
town;
It isn't your town, it's you.

Real towns are not made by men afraid
Lest somebody else gets ahead;
When everyone works and nobody shirks,
You can raise a town from the dead.

And if while you make a personal stake,
Your neighbor can make one too,
Your town will be what you want to see
It isn't your town, it's you.

(From Rochester, Minn., Booklet.)

STATE NEWS IN BRIEF

Port Huron—Port Huron Junior College has opened night sessions, and 50 students have enrolled in the various courses in addition to the regular day sessions.

Grand Rapids—The Grand lodge of Odd Fellows and the Rebekah assembly, meeting here in their annual convention, selected Kalamazoo as the 1926 convention city.

Flint—Five hundred fifty thousand dollars worth of Genesee County courthouse bonds were purchased by the Industrial Savings Bank, of Flint, at par plus a premium of \$2,500. The bank's offer was \$2,000 higher than any other bid.

Ann Arbor—Students of the University of Michigan will have a holiday November 2, the day of the induction of Dr. Clarence C. Little as president. Deans of the university have reversed their decision to hold classes except during the hours of induction.

Battle Creek—Extensive additions are to be made at United States Veterans' hospital No. 100, Camp Custer, in the immediate future. This announcement follows the visit of Charles E. Isbell, construction engineer for the veterans' bureau. The total cost of the additions has not been estimated.

Lansing—Resolutions protesting against holding the Michigan State Fair on Sundays and against the management of the fair renting the grounds for auto races, games and other commercial enterprises held on the Sabbath were adopted at the state convention of Michigan Baptists at their closing session.

Lansing—The 1926 December tax rate here will be \$16.81, an increase of 20 cents over the figure of last year, it was announced by the city board of assessors. Of this amount \$2.58 is for state, \$3.25 for county and \$9.50 for the school taxes. The school tax is slightly lower than last year, but both state and county taxes are higher.

Saginaw—Fire broke out in the M. Davidson Auto Sales company building in the heart of the east side business district shortly before midnight last Wednesday and within a short time had gutted the building. Many automobiles were destroyed. James Colburn and his brother, sleeping in an adjoining dwelling, were overcome by smoke and taken to a hospital. The loss will reach \$75,000.

Bay City—The Phoenix building, a four-story structure at the corner of Washington and Center avenues, in the heart of the business district, was practically gutted by fire which started here late last Wednesday night. The blaze started in the basement of the building and rapidly ate its way through the intervening floors to the roof. Shortly after midnight the fire was reported under control.

Lansing—A site on Townsend street, next to the Plymouth Congregational church, was purchased for the Y. M. C. A. building soon to be erected. The two lots purchased have a frontage of 115 feet. The property was purchased from R. E. Olds, automobile manufacturer. The building is expected to be ready for occupancy within a year. It is to be five stories high in front and three stories in the rear. Completely furnished it will cost about \$300,000.

Flint—All married women employed in city offices, 11 in all, are to be discharged and single women employed in their places. Mayor Judson L. Transue announced. There are plenty of taxpayers of Flint who have daughters who ought to be provided with a means of earning a living," said the mayor. "I do not think that married women should work when they have husbands to support them and thereby keep single women out of jobs they need."

Iron Mountain—Marquette is still isolated from the rest of the upper peninsula while Michigan Bell Telephone company crews are striving to restore at least temporary service. Western Union communication was established, messages being re-routed through Green Bay, Wis. Reports now coming in show that 14 inches of snow fell at Watersmeet, Mich., where 25 cars became stalled in drifts during the blizzard. Small storm hurries are still prevalent.

Ann Arbor—Two score years separate the ages of the oldest and youngest students of the University of Michigan, a canvass of the information of the registration cards here shows. The youngest student is W. G. Baumgartner, Ann Arbor, who was 15 last April, Lillian J. Butler, Saginaw, also is 15, but is two months older than Baumgartner. Howard R. Chapman, Ann Arbor, is the nestor of the students, the records showing he was 87 shortly before the opening of school this fall.

Grand Rapids—This city, the furniture capital of the nation, will be one of the leading centers of airplane manufacturing in the near future, Prof. F. W. Pawloki, head of the aeronautics department at the University of Michigan, predicted in an address on "The Future of Aeronautics," before the Association of Commerce. He said that a survey of the city's industries convinced him the city's woodworking plants would be essential in the making of planes, especially giant multi-planes which he said would be in use later on.

MICHIGAN BELL ANSWERS ORDER OF COMMISSION

TELEPHONE COMPANY FILES LENGTHY STATEMENT OF "4 1/2 PER CENT" SERVICES

ECONOMIES IN OPERATION LARGE

Millions in Costs Saved Through A. T. & T. Contract, It is Indicated.

Lansing, Mich.—Services rendered the Michigan Bell Telephone company under its so-called four and a half per cent license contract with the American Telephone & Telegraph Co. since 1922, are outlined in a seven volume statement and record filed with the Public Utilities Commission, in accordance with the commission's recent order. The information was ordered by the commission for consideration in the Michigan company's application for a rate increase and in the city of Detroit's appeal for lowered rates.

The statement consists of some 1,500 typed pages, and summarizes several thousand individual services, in addition to research and development and patent work, advisory counsel in regard to financial, accounting and operation matters, the designing of special equipment and other services performed in the promotion of the efficient and economical conduct of the Michigan company's business.

\$6,000,000 Saved in Year

Because of the continuous nature of the services rendered under the license contract, it is indicated, many services are not susceptible of being readily evaluated. As to those items which it is possible to evaluate, it is shown that the license agreement saved more than \$6,000,000 in annual charges and expenses during 1924. It also is shown that only at immensely greater expense, in the organization and maintenance of a costly technical staff of its own, could the Michigan company approximate the continuing service it now receives through the centralized research, development, engineering and patent staff of the American company.

A statement accompanying the exhibit lists, among the material submitted, the following: A broad outline of the work of the centralized staff with a tabular view of license contract services; a statement of the education and experience of certain members of the general staff who either direct the work of the staff or with whom Michigan Bell people have contact; organization diagrams of the departments of development and research and of operation and engineering of the American company; a list of the more than 5,100 U. S. patents issued and more than 3,100 pending which the American company owns or controls or is licensed under; a summary of the value to the Michigan company, since January 1, 1922, of the development work and services of the American company which it is possible to evaluate, expressed in terms of annual savings in fixed charges and operating expenses; a brief description of the equipment and plant and development work completed since January 1, 1922, as a result of work done either in that period or prior thereto, as well as a description of certain other items of plant and equipment upon which work has been done in the past and which are to be made available for the use of the Michigan company in the very near future, and a statement of specific services rendered by the American company to the Michigan company from 1922 to 1925, having to do generally with plant, traffic, commercial and accounting operations, advertising and promotion and miscellaneous services.

Is a Continuing Service

Many of the savings effected in the operation of the telephone service in Michigan under the license contract service to the Michigan company, have been the result of research and development work carried on both prior to January 1, 1922, and since that date, it is stated. The contract service is a continuing one, in other words, and one impossible of separation into its component parts on a time and cost basis for that reason.

For instance, the Michigan company is now putting into service a new type of transmitter developed by the general staff that has the effect of almost doubling the effective transmission range of fine copper wire in cable (24-gauge) and which ultimately will mean enormous savings in wire cost. The development of this transmitter has been the work of years and was started prior to 1922.

The same is true of a new type of drop wire, now coming into use to connect the subscribers' premises with the telephone plant. This new drop wire costs \$1.50 less per thousand feet than the twisted pair type formerly used. To date, the Michigan company has installed 15,000,000 feet of the new type wire at a saving in annual charges, interest, depreciation and taxes of about \$2,200. The 15,000,000 feet of wire cost approximately \$18,000 less than the same amount of the old type wire would have cost. These savings, it is shown, are reflected in the cost of telephone service to the subscriber. In other words, except for the license contract service, telephone rates would be much higher than they are. Similarly, large economies have been effected in other items of equipment and methods adopted since 1922, but which were developed or partially worked out before that year. These include two accounting items, the rotation billing and accounting stub plans.

Other Savings Enormous

The following table shows some of the services enumerated in the telephone company's statement to the commission in which it has been possible to figure the savings in annual charges and operating costs, through the license contract arrangement during 1924:

Fine wire cable	\$528,754
Conduit for fine wire cable	155,531
17-gauge steel-copper wire	29,788
Open wire phantom circuits	481,900
Improved switchboard cords	242,500
Loading inter-office trunks	263,233
Loading toll cables	424,911
Lead antimony cable sheath	38,821
Repeaters	341,535
Duplex cables	41,830
Mechanical locking ring keys	208,890
Prepayment coin box operation	257,730
Toll single ticket method	879,338
Two-number toll method	35,593
A. B. Toll method	118,047
Saving from use of A. T. & T. Co's transmitters, receivers and induction coils	420,587

In the introduction to the exhibit it is stated that it is the duty of the centralized staff not to wait until the Michigan company finds itself hampered and throttled as a result of the expansion of its business to a point where the existing apparatus and methods are no longer adequate to handle it but constantly to look forward in order to anticipate conditions of growth and the new requirements which growth produces. It is added that not infrequently some five to ten years' time of a group of experts is required to produce the desired results in a single important development problem.

Many Other Economies

The statement also is made that the fundamental purpose of the work of the centralized general staff organization is to place the operating companies of the Bell System in a position to render to the public at all times the most efficient, extended and economical telephone service possible. Keeping the efficiency up and the cost down in the future depends on an important extent on the work with which this organization is now busy.

It is shown, further, that the general staff has been able to reach further and further into such subjects as office and building materials, stationery and forms, hand tools and other similar matter which, although at first sight appearing small in themselves, nevertheless offer a fertile field for substantial economies through the use of the best economical appliance for each class of duty and the advantage that comes to this company through simplified practice and the consolidated purchasing of the requirements of the entire system.

The statement is particularly interesting in that part which refers to three alternatives possible to the Michigan company in problems requiring general engineering, research and development. The Michigan company might have undertaken, by itself, through a large additional force of employees and by hiring physicists, chemists, designing engineers and other kinds of scientists and specialists to develop its own methods, to use its own plant as an experimental laboratory to the detriment of service to the telephone user and to invent, develop and design the new apparatus constantly required to meet the increasing and changing needs of its business. No means for co-ordination between operating companies would have existed under that plan. Or the Michigan company might have done nothing in the way of providing for its needs in respect of all these matters, hoping and trusting that there might always be someone, somewhere, who might offer to sell to it something that it could use in some way.

The third way was for the Michigan company to employ the services of a centralized organization, working all the things which could most effectively and efficiently be done for all in common by such a central organization. The plan adopted, to eliminate duplication of work and expense, was the latter one.

Seasonal Changes

One swallow may not make a summer, but a pair of baby-blue eyes can cause a fall.—Wesleyan Wasp.

He Puts 'Em to Sleep

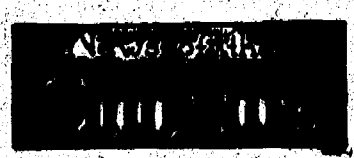

An inventor in Cheshire, England, has produced a machine which is said to be a sure sleep producer. The machine throws a series of 12 different colored light rays across the insomnia victim's face, putting him to sleep in fifteen minutes. The inventor claims.

Wondrous Gold

"Gold is a wonderful theater of the understanding. It dissolves every doubt and scruple in an instant. It accommodates itself to the meanest capacity, silences the loud and pretentious and brings over the most obstinate and inflexible."—Addison.

Works Both Ways

Neil—"Jack Rapido has the reputation of being rather fast, hasn't he?" Belle—"I suppose so, in spite of the fact that he has the reputation of being rather loose."

CENTRAL LAKE
(Edited by Jesse Morse)

Squash and beets are still being marketed at the factory.

C. H. Morse and daughter, Doris, are in Battle Creek.

John Farrel is again on the sick list.

Rev. C. H. Green has been assisting with Sunday school work at Bay View.

Ivan Hill, Orville Thompson, and the Misses Cleora Dunson and Thelma Snyder motored to Big Rapids last week to attend Teacher's Institute.

Mrs. Don H. Duffie is attending the fiftieth wedding anniversary of her father and mother at Nashville, Tenn., this week. Mrs. John McEvan is taking care of the baby during her absence.

The electric light poles are going up rapidly now and current will probably be turned on from the Elk Rapids plant sometime in November. The Traverse Bay Telephone Co. have also been doing some repairing.

NOWLAND HILL
(Edited by Mrs. C. M. Nowland)

James Simmons returned to Detroit Monday after a ten days visit at his home.

Miss Alvira Munger of Vassar arrived Thursday for a visit with relatives.

Devere Scott of Boyne City spent the week end at the home of his grand par-

ents, Mr. and Mrs. A. R. Nowland.
On October 18th Mr. and Mrs. Sam Nowland and son, Conn, visited relatives, Mr. and Mrs. Lewis Trojanek, and Mr. and Mrs. Herman Hunt near Chestonia.

Budman's of Deer Lake baled hay for Charles Shepard, Earl Battersbee, Geo. Jaquays, and Arthur Brittain recently.

Mrs. C. M. Nowland visited Mrs. Frances Davis of Boyne City last Tuesday.

Mrs. Ramsey Wells of Cedar Valley, and Mr. and Mrs. Ray Nowland attended the funeral services of their aunt, Mrs. Alice Lucy Curtis Oct. 17th, a pioneer who lived near Advance.

Carl Ellsworth of East Jordan is working for E. L. Nowland.

THINGS WE HAVE LOST
By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

"Living in London," Radcliffe Hall has written these lines:

The sun comes up and the sun goes down,
But I be living in London town.
They're selling flowers in a London street,
But I have had them around my feet.

They're caging larks in a house close by,
The larks I've watched in a wide, bright sky!

The sun, the flowers, and the birds, they be
The saddest things in the world to me!

He had lost something. Something fine and beautiful that was to him only a memory was gone, like the memory of youth or freedom of care.

The saddest thing in the world to me is to have had something worth while, or prized or beautiful and then to have lost it forever. I've never been sure that the poet was right when he wrote,

Th' better to have loved and lost,
Than never to have loved at all.

The man who has never loved seldom realizes what love means and so does not appreciate all that it would have brought to him.

The Braytons had always lived a hand-to-mouth existence. Sometimes Joe Brayton had a job and sometimes he did not. Occasionally Mrs. Brayton picked up a day's work or two, but more often she sat around in contented idleness and indigence. She had never known any better or more affluent life nor had her husband and children, so they were quite happy when the family finances were at high tide, and more or less indifferent when the tide ebbed.

It was quite different with the Arlingtons. They had for years been the leading family in town with money and a beautiful home and social and business influence. Then George Arlington made one foolish investment after another, and before long they found themselves without a dollar excepting a little house on High street into which they moved after their financial wreck was cleared away.

The girls who had done nothing before and who had been trained to do nothing got jobs in town as clerks or typists, and Mrs. Arlington, who was already an old woman, and who since she was married had servants at her command, busied herself about the firestone details of doing the housework for five people. They were courageous, they never complained, they never sought to hold on to the social position which they had once held, but to me they were the saddest group in town. They had known what wealth and leisure and social position were, and now these had gone out of their lives forever.

I have seen a good deal of poverty and squalor in my life, and these things I feel should be alleviated wherever it is possible; but most people whom I have known in this disagreeable condition have never known any other. They are not half so sad to me as those who have once known the beauty and the comforts and the joys of life and who now know them no more. The flowers and the sunshine and the singing larks that are gone are the saddest of all memories.

(© 1925, Western Newspaper Union.)

A L B A
(Edited by Mrs. A. I. Ashbaugh)

Lud Lowrey left Monday for Kentucky to attend a law suit which involves property belonging to him.

Hazel Anderson and brother Raymond, visited at the home of Mr. and Mrs. Walter Thompson of Cadillac.

Miss Lillian Stevens and Mr. L. Lazelle were callers at the home of J. D. Ashbaugh one day last week.

R. Kitchin and wife were visitors at Cheboygan, and while they were away their home was robbed of all the loose change, amounting to seven dollars, also an attempt was made to get away with a large can of lard.

Mrs. Lud Lowrey and children are visiting relatives at Antrim for a week or two.

J. D. Ashbaugh and family moved the first to Cadillac, where they expect to make their future home.

The W. C. T. U. District meeting was well attended.

The best journalists, unfortunately, are storekeepers, lawyers and politicians.

This is the time of the year that most wives have a hard time getting their husband to paint the old stove.

Where does the woodbine twine, anyway?

The status of education in this country is apparent when most people know only Omar Khayam, the horse.

The greatest need of modern schools is to find some way to make studies interest the pupils. Football will take care of itself.

"Saved" Advertising Money

Charles W. Duncan of San Francisco, recently told a group of editors about Coca Cola, according to The Fourth Estate, a publication with a large circulation among newspaper men.

He said that a group of New York bankers, anxious to make profits for themselves, went to Atlanta and paid Mr. Candler \$25,000,000, for a business whose net assets were \$480,000.00. Then they returned to New York and sold the purchase for \$30,000,000.00. The first year, the dividends were \$11,000,000.00.

The New York bankers, however, were as foolish as they were wise. Hunting for additional profits, they decided to save useless expenditures for advertising and cancelled all contracts. That year they sold 2,500,000 gallons less than the year before and the next year spent twice that much in advertising in order to reestablish the business. They seem to have learned their lesson because the drink is now being persistently advertised.

Creating Beauty

Every citizen who reads this article, including the writer thereof, should resolve to improve and beautify the lot on which he lives. This is apparently an individual matter of small concern, but the transformation that would be effected in our midst if each one of us would undertake a beautification program would be amazing.

We hope that some ladies' organization or some men's club will begin now to urge this matter upon our citizenship. It is not too early to make your plans and to place your order with the nurseries. If you can do nothing more than to set out two or three pieces a year, the quicker you begin, the sooner will your home and your community enjoy the improved appearance. There are attractive yards and gardens here. Take a look at them and contrast their beauty with the surroundings of your own home. Then, get to work.

An Easy Solution

Rear Admiral William S. Sims, retired, always a critic of those running the Navy, says it 'has been controlled for many years by untrained officers who have been assigned to the most important position.'

This suggests to our mind that the solution of all the problems of the navy can be easily solved by appointing the said Rear Admiral Generatissimo of the navy. As the Admiral however, opposes Colonel Mitchell's plan for a Department of National Defense, and it will be necessary to make the Colonel Generatissimo Defense Head, in order to prevent the army from crumbling, we do not know how the fighting units will be able to get along.

Reached Highest Production Peak

The Ford Motor Company reached the highest production peak in the records of the company Friday, when 8,166 cars and trucks went off the assembly lines and domestic branches. Friday's record, however, is expected to be short lived, for production will reach 8,500 daily before the end of the month, making possible a total output of approximately 200,000 for October, the greatest in Ford history.

This information was contained in a statement issued at the company's general office Saturday afternoon, which details the remarkable industrial accomplishment effected in producing the improved Ford cars and which at the same time definitely dispels all fictitious rumors regarding Ford production circulated since the new cars were announced.

"Less than sixty days after discontinuing its former style passenger cars the Ford Motor Company has brought the improved types into normal production in all its assembly plants throughout the United States," it was stated.

"The former type passenger cars went out of production in August during which month 4,618 passenger cars were produced.

"Because of the many changes and improvements made in Ford bodies it was necessary to re-arrange departments in all assembly plants, install considerable equipment, and lengthen paint ovens to permit longer baking and an increase in the number of coats of paint given the cars. This was accomplished and production started in the plants early in September.

Output of the improved cars increased rapidly and for the week ending September 18 the production total showed 22,376 cars and trucks.

Since that time output has been growing steadily. During the last few

weeks the company has been shipping through its branches to dealers more than 7,000 cars and trucks a day, the shipments increasing to the record reached Friday, October 16, when 8,166 cars and trucks were produced. This output will be increased to 8,500 a day before the end of the month. Production for October will run close to 200,000, a new high record.

These figures assure the public that cars will be forthcoming in such large quantities from now on that deliveries can be made to customers without any great delay.

"Preparations for bringing in the new cars, which entailed the changing to all steel bodies, were begun months back, but the actual work of placing cars in production and bringing the output up to the normal average of more than 7,000 a day has all been accomplished within sixty days.

"Aside from the engineering work, the task of producing the improved cars involved in part, the preparation of tools for 8,281 new operations necessitating more than 3 million hours of work by expert toolmakers, complete changes of whole departments, the installation of 1,074 new machines in the Highland Park and River Rouge plants and in other manufacturing units, the designing and making of 903 new and different small tools totalling 75,800 pieces and the educating of thousands of men in making new automobile parts.

"The increase in production together with constantly expanding activities has brought employment in the United States to a new high figure. At present the number of those employed exceeds 178,000."

Gwendolyn Isaman Dies Suddenly

Gwendolyn, eldest daughter of Mr. and Mrs. Lawrence Isaman, died at her home in Ellsworth, Wednesday morning, Oct. 21st. Death being due to paralysis of the heart following severe throat troubles.

The little girl seemed to be on the road to recovery and death came unexpectedly.

The parents, a sister, brother, relatives and many friends mourn the loss of a child who was loved by all. The community extends their sympathy to the bereaved family.—The Ellsworth Tradesman.

Glashaw---Taylor

A pretty home wedding took place Wednesday evening, Oct. 21st at the home of Mr. and Mrs. Charles Glashaw, when their daughter, Doris Celia, became the bride of LaVern Taylor, son of Mr. and Mrs. Joseph Taylor, Boyne City, Route 2. Elder C. H. McKinnon of East Jordan performed the ceremony and Mrs. McKinnon played the wedding march.

The bride was gowned in white satin and carried a corsage of roses. The bride and groom were attended by the bride's uncle, Emmett Ikeus and Edna Gallagher, both of East Jordan.

After the ceremony a wedding dinner was served. Dainty clusters of chrysanthemums decorated the table.

The young couple will leave for Detroit to visit relatives. From there they expect to go to Niagara Falls, New York to spend the winter.—The Boyne Citizen.

In Honor of a Great Event

Birthdays are always important occasions, especially if one is very young or very old. Before long The Youth's Companion will be a hundred years old and the event is going to be made a memorable one for the Companion's many friends. So, although the date is not until April 16, 1927, preparations will begin with 1926.

In honor of its birthday The Companion will come to you next year at the new low price of \$2.00. It will be dressed in its party clothes, with new cover designs, enlarged illustrations, new brilliantly clear type, and over 200 pages more than last year. It will contain 3 book-length serial stories, fascinating mystery stories, tales of adventure on land and sea, the new "Make-It and Do-It" Pages, riddles, games, books, and puzzles, interesting special articles, and the ever-delightful Children's Page. Don't miss this great year of The Youth's Companion; subscribe now and receive:

1. The Youth's Companion—52 issues in 1926, and
 2. The remaining issues of 1925. All for only \$2.00.
 3. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$2.50.
- THE YOUTH'S COMPANION**
S N Dept., Boston, Mass.

SAFE FOR CHILDREN

Made without opiates, and only of the best California honey and purest ingredients, FOLEY'S HONEY & TAR is safe for children. A trial will prove to you why this has been one of the largest selling cough remedies for over 50 years. "Can't recommend FOLEY'S HONEY & TAR high enough," writes Mr. J. R. Dennis, Spiro, Oklahoma. "A sample treatment relieved me of a severe cough and cold." Refuse substitutes.—Hite's Drug Store. adv.

Mellencamp---Bennett

A wedding of unusual interest was solemnized Wednesday evening, Oct. 21st at 5 o'clock at the home of Mr. and Mrs. E. E. Bennett when their daughter, Gladys was united in marriage to Burton C. Mellencamp. The ceremony was performed in the presence of relatives and a very few close friends of the family by the Rev. E. P. Linnell of the Presbyterian Church.

After hearty congratulations and well wishes a delicious wedding supper was served to those present.

Mr. Mellencamp is a young man of sterling character and is very popular among the grangers and those engaged in farming being County Agricultural Agent, a member of the Rotary Club and has made a host of warm friends in Boyne City.

Mrs. Mellencamp possesses a very charming personality and also has a host of friends in Boyne City. She has been reared in Boyne City, receiving her education here and then holding a responsible position as stenographer with the Michigan Tanning and Extract Company.

The newly weds expect to spend some time with the groom's father and mother and other relatives of Grass Lake who were present at the wedding. They will be at home to their many friends after Nov. 1 in the home now occupied by Mr. and Mrs. Barnes. A host of good wishes go with these young people upon life's journey.—The Boyne Citizen.

MILES DISTRICT

(Edited by Mrs. A. Miles.)

Mr. and Mrs. A. Miles and James Holben called on Mr. and Mrs. Supley LaLonde, Saturday afternoon.

James Holben spent the week end in East Jordan at the home of his granddaughter, Mrs. C. L. Strong.

Mr. and Mrs. A. Miles spent Sunday in East Jordan at the home of their daughter, Mrs. C. L. Strong.

Mr. and Mrs. Roy Huston of Detroit motored up Sunday for a visit at the home of her parents, Mr. and Mrs. Detz Evans.

Carl Moblo came home from Muskegon Sunday.

Mrs. Fred Bancroft and Mrs. Ben VanOrman, has been helping to care for Mrs. Donaldson, who has been ill.

Mr. and Mrs. Robert Evans of Ranney Dist., and Mr. and Mrs. Frank Adis and son Jamie, spent Sunday evening at the A. Miles home.

Mrs. Anna LaLonde and daughter, Esther, of East Jordan called on Mr. and Mrs. Supley LaLonde Sunday.

Mr. and Mrs. Herman Lindenau of Boyne City spent Sunday with Mr. and Mrs. Fred Bancroft.

The woods are full of hunters taking advantage of the short hunting season.

PENINSULAR

(Edited by Mrs. E. Hayden)

Phillips Woerful who has been ill with tonsillitis at her home is a good deal better. Dr. McGregor of Boyne City attended her.

Mrs. Mercy Woerful has been very ill at her home, Gravel Hill, but is some better. Dr. Boylton attended her.

S. Archie Hayden returned to Detroit Saturday, after spending a week at Orchard Hill with his mother, Mrs. J. W. Hayden and other relatives.

Neighbors turned out Wednesday and helped A. B. Nicoloy dig potatoes, but were snowed out and went again Friday afternoon and finished.

Mrs. A. B. Nicoloy who has been ill at her home, Sunny Slop Farm, since Aug. 21st has so much improved as to be able to get along without a nurse after this week.

Mr. and Mrs. Elton Jarman motored up Saturday from Traverse City, and spent Saturday night with Mrs. Mercy Woerful, after taking a hunt through the woods they returned Sunday evening.

Mr. and Mrs. B. F. Conyer motored up from Frankfort, Saturday evening, and spent the night with Mrs. Conyer's father, Geo. Jarman at Knoll Crest. They hunted Sunday and returned home Monday.

Mr. and Mrs. T. J. Hitchcock of East Jordan were guests of their daughter and son-in-law, Mr. and Mrs. F. K. Hayden, at Orchard Hill, to a chicken dinner Sunday.

Mrs. Ed. Jacobson, and Miss Andy Holly of Boyne City visited Miss Grace Phillips at the farm Friday.

Kenneth Russell of Ridgeway farm has been suffering from a very badly swollen eye for a week or more.

The Peninsula schools were closed after Tuesday last week to enable the teachers to attend the institute.

Richard Russell of Ridgeway farm and John Looze of Three Bells Dist. plan on going to Detroit, Wednesday, to work.

R. G. Short, the McNeess man was on the Peninsula Wednesday.

Fred Looze motored up from Detroit Saturday and visited his parents, Mr. and Mrs. Will Looze in Three Bells Dist. He plans on returning Wednesday.

The Hunt Supper at the Eveline Gleaner Temple Monday evening was a hilarious affair. About 80 attended and took bountiful game, mostly chicken of domestic brand, cake, coffee, saltides, pickles and every thing else that goes to make a good supper, which because of the crowd was served cafeteria. After supper things were cleared away and those who wished, danced. John Looze at the organ and Richard Russell with the violin. The early part of the evening was spent card playing and visiting.

Almost the whole month has been rainy or snowing, the rain is still with us. Rev. and Mrs. J. B. Pestling of Boyne City called on Mr. and Mrs. E. Loomis at Maple Lawn farm Wednesday.

The Town of East Jordan

By Magdalene Wedderburn
Eighth Grade.

The peaceful town of Jordan!
How beautiful it lies,
Within a little valley
Beneath the sunny skies,
While quietly around it
Through shade and sunny gleam
The Jordan River flows so gently
A calm and pretty stream.

Oh blessed town of Jordan!
Of fair and proud renown
The timberlands and harvest fields
Which cluster around the town,
No land can boast a fairer scene
And none a richer soil,
Than that which yields unto thy sons
The fruits of sturdy toil.

The prosperous town of Jordan!
From foundry, shop and mills,
There comes a sound of working
Which all the air doth fill,
Where brains and hands kept busy,
Shall find with one accord
On their monthly pay day
Their well deserved reward.

The happy town of Jordan!
What music year by year
Arises in its High School
From voices young and clear,
And on a Sunday morning
In sweet and solemn chime,
The church bells fill the quiet air
With harmony sublime.

Oh free fair town of Jordan!
Thy founder named thee well,
In beauty, peace and plenty
Fit home for man to dwell,
Long may thy streets resound with
Joy,
And those whose feet have trod
Within thy bounds, be faithful still
To Country, Home and God.

It is about time to begin thinking up some, New Year Resolutions.

We are all excited! Reaching for our watch, we ran across an unexpected dollar bill.

Thrilling Facts: When the Prince of Wales visited the U. S. he was made acquainted with salted peanuts, and liked them so well that he took some of them back with him.

Young Girls' Frocks Reflect Fall Modes

When the younger schoolgirl casts an appraising eye over the practical cool frocks designed for her winter wear she is going to be pleased. Their fabrics are attractive in color, soft, sturdy and not easily mussed; but what pleases her most are pretty details in trimming or finish, and the use of modes adopted by her elders. One of the new models is shown here. It is made of green, silk-striped flannel and has a vaguely molded body and slightly flaring skirt, with kick-plaits at the front. Long sleeves, round collar and plplings also write the story of autumn modes as reflected in schoolgirls' frocks.

A man in Cuba recently mailed in his check for a year's subscription to this rag of freedom. This shows you how much more sense a man in Cuba has than many people of this country.

Modish Millinery Abounds in Clever Workmanship

Millinery is wonderfully fashioned this season, unique workmanship featuring its every detail. All the handcraft at command of the millinery designer is brought into play, it would seem. It is not so much the materials themselves as the way they are put together. Not only is there a darning of color, but the stitchery involves the most complex art of the needlewoman. It is a very confident milliner who will combine purple with red, but the mode calls for just such a futurist effect. This combination is successfully carried out in the top hat in this group, fuchsia purple being used for the velvet and deep red for the heavy satin crown. The center velvet toque combines leaf brown with orange. The larger felt poke, a shape very fashionable by the way, shows a clever slashing of the crown, which reveals a novelty metal fringed ribbon, the same finishing in a band and bow at the headline.

Tired After Eating? Try This Simple Mixture.

If you feel tired after eating, it is often a sign of gas and undigested matter in your stomach or bowels. Simple buckthorn bark, magnesium sulphate, glycerine, etc., as mixed in Adlerika, helps any case gas on the stomach, unless due to deep-seated causes. The quick action will surprise you. Adlerika is wonderful for constipation—it often works in one hour and never gripes.—GIDLEY & MAC, Drugists. adv.

American troops are again acting as policemen for the Republic of Panama.

HELPED HIS BOY
Henry Duncan, Alpine, Alabama, writes: "My boy had a bad cough and cold. I read about FOLEY'S HONEY & TAR and after giving it to him a few days he was well. He had been having this cough for two years, but FOLEY'S HONEY & TAR stopped it and made him well." Contains no opiates. Good for children and they like it. Get a bottle today from your druggist and it will be on hand to check coughs and colds.—Hite's Drug Store. adv.

BULGARS PROTEST AS GREEKS SEIZE TOWNS

Sofia Appeals to League After Invasion—Athens Halts Advance.

London.—The Bulgarian government has addressed a protest to the secretary of the League of Nations against the Greek army violating Bulgarian territory, says a dispatch from Sofia. It asks that a meeting of the league council be called immediately to consider the matter.

The Greek government has issued strict orders to its forces to cease their advance against the Bulgarians, provided the Bulgars make no further attempts to attack them, according to a dispatch from Athens. The troops, however, will hold the positions they now occupy until Bulgaria has replied to the Greek note. The government announces its determination to adhere to the terms of the note.

The latest advices received from Sofia say that the Greeks advanced rapidly and that their main body penetrated ten miles into Bulgarian territory. The advance was prepared for by heavy artillery fire and airplane bombing.

The Bulgarian border town of Petrich is in flames as a result of the heavy bombardment by Greek artillery, it was reported from Sofia. Greek troops have occupied the town and surrounding coal mines, according to the reports.

Greek troops were rushed to the frontier to invade Bulgaria and occupy Petrich following Greece's 48-hour ultimatum to Bulgaria demanding amendments for the "unwarranted attack on a Greek frontier post near Demikhissar by the Bulgarians on Monday."

Other reports from Sofia told of the capture of three Bulgarian frontier posts by the Greeks, after sharp fighting. Five Bulgarian soldiers were killed before the Bulgarians finally retreated, it was announced.

Inhabitants of Sofia are in a frenzy, demanding that Bulgaria go to war with Greece, even though such a step should be suicidal to the nation. Despite the opening of hostilities, the Sofia government has not yet received a declaration of war from Athens.

London.—The ultimatum sent by the Greek government to Bulgaria demanding an indemnity of \$400,000, an apology and punishment of the guilty in the recent frontier fighting near Demikhissar offers a serious challenge to the League of Nations, in the opinion of observers here.

Former Wife of J. B. Duke Starves to Death in N. Y.

New York.—Mrs. Lillian N. Duke, fifty-six, divorced wife of James B. Duke, the tobacco king, who succumbed recently, died here of starvation. Penniless and alone, the former mistress of the Duke millions died in a little apartment at 125 West Eighty-eighth street, where she had eked a precarious living as a vocal teacher—a few furnished rooms on the fringe of the fashionable Fifth avenue she had once ruled as a social dictator.

Mrs. Duke died happily, after a remarkable vision of the husband who had divorced her twenty years ago—a psychic revelation in which James B. Duke returned from his grave to the bedside of his former wife, and promised to right the wrongs she believed he had wrought.

\$4,827,000,000 in Bills Now in Circulation

Washington.—A total of \$4,827,000,000 in currency is now in circulation in the United States, the greatest of any normal year in history and only exceeded by the \$5,628,000,000 which was in circulation at the peak of the post-war inflation period. It is approximately \$42 for each person in the country. The demand for currency has jumped more than \$43,000,000 in September, according to figures given by the Treasury department. The increase indicates the national prosperity, especially among business establishments.

Bishop Parker Dies of Apoplexy at Church Meet
New Orleans, La.—Rev. Edward Melville Parker, seventy, of Concord, N. H., bishop of New Hampshire, was found dead here on the floor of his hotel bedroom. The death of Bishop Parker was the second in the New Hampshire delegation during the convention. William McElroy, Manchester, N. H., died a victim of pneumonia.

Apoplexy was believed to have caused the death of Bishop Parker.

Gets Fifth Paris Divorce
Paris.—Mrs. Vera McClure Church, youthful daughter of a Texas cattle king, is suffering for home on the Berengaria with her fifth divorce in her spectacular career. Her last divorce is from a well-known tennis player.

"Pussyfoot" Visits Turkey
Constantinople.—William E. "Pussyfoot" Johnson has arrived to confer with leaders of the Green Crescent Turkey's anti-alcohol organization, and to attend their convention.

Two Essentials of Sweet Clover

For Soil-Building Purposes It Supplies Organic Matter and Nitrogen.

When sweet clover is grown solely for soil-building purposes the question often arises as to when one should plow it under. As a fertilizer, sweet clover furnishes two essentials of a good soil—organic matter and nitrogen. The maximum amount of organic matter is undoubtedly obtained from sweet clover the second year when it comes into bloom. Prof. C. J. Willard of the Ohio experiment station, however, says that the maximum amount of nitrogen is obtained about May 1, the second year after seeding. Between that date and the full-bloom stage much of the nitrogen in the roots is transferred to the tops without increasing the total amount in the crop.

Tests for Nitrogen.
"In one experiment," says Professor Willard, "we sowed the clover with the oats on April 6, 1922. The same fall after the oats were harvested we began analyzing the plants—roots and stems—for nitrogen. These tests were repeated throughout the following spring and summer. A study of the resulting figures shows that during the period of greatest top growth there is a rapid transfer of the nitrogen from the roots to the tops. The roots, therefore, serve as a storehouse for the nitrogen during the winter, emptying the nitrogen into the green tops in the early spring. By the first of May there is practically as much nitrogen in the plant as at any time during the second year's growth. To grow 100 bushels of corn requires about 150 pounds of nitrogen for grain and stover." Turning under a good stand of sweet clover during the month of April will add something like 175 pounds of nitrogen, or more than enough to supply this large corn yield.

Tests Worth Remembering.
The above statements, based as they are upon carefully conducted tests, are worth remembering. It is not always convenient to postpone plowing under sweet clover till in the spring, but it should be done wherever possible, first, because, as the above shows, one gets about all the nitrogen possible at that time, and, second, also because one gets about all the organic matter that can be plowed under to advantage and be of use to the corn crop that same year. Third, when biennial sweet clover is plowed under after it has started to grow the second spring it will not bother as a weed. If plowed under in the fall after seeding in the spring it will come up as a weed the following spring.

Harvesting and Storing Navy Beans for Winter

Navy beans should be harvested and threshed as soon as ready and if infested with bugs they may be treated by one of several methods. Fumigation with carbon bisulphide, using the chemical at the rate of about one ounce to the bushel, is very satisfactory. This should be done in a tight container when the temperature is 75 degrees or above. The chemical is inflammable and fires of all kind should be kept away. Heating for an hour in an oven with the temperature from 125 to 130 degrees will also kill the insects. Seed can be safely stored by mixing one part of air-slaked lime with twice the quantity of seed.

Birds Control Insects in Garden and Orchard

Set the birds up to housekeeping and they will work for you—that, in brief is the idea conveyed in a news letter from the United States Department of Agriculture. The letter cites the example of 2,000 nests supplied for birds on the Baron von Berlepsch estate in Germany and the escape of this estate from the leaf-roller when trees on other estates were defoliated. Evidently the birds kept the insects under control. Says the letter of the United States Department of Agriculture: "Experience has shown that those who have increased the number of birds on their property have had cause for satisfaction rather than regret."

Alfalfa Crop Improved by Cutting in the Fall

Alfalfa will stand the winter better and give larger yields of hay the next season, if it is cut in the fall in time to permit a growth of at least one foot high before winter sets in. This growth is necessary for the winter protection afforded and permits the storage of food reserves in the root system so that the next year's crop will start off vigorously and produce a maximum yield of hay. Experience of numerous farmers confirms the recommendation, and, taken with the experimental data, affords the basis for the soundest farm practice in growing and harvesting the crop.

Supply of Manure Limited

While manure is not a balanced plant food, nevertheless it should all be saved and applied economically. Enough manure is not produced to meet the needs of the average farmer. Where the supply is limited it is better to apply four to six tons per acre over the entire field rather than use a heavy application over a smaller area. The efficiency per ton of manure is greater where the small applications are used.

Cleaning Machines Remove Most Weeds

Table Shows High Degree of Purity Found.

The Vermont experiment station points out in a recent bulletin that a farmer might as well expect all-wool garments when he buys a cheap suit as high-class seed when he pays a cheap price.

The certificates of seedsmen as to purity and germination are not exact, for that is an impossibility, but tests show that they usually come very close to the percentage stated, sometimes a decimal under and often a decimal above the guaranty, but they are substantially correct and many states have laws to penalize any misstatements. The weed problem is ever present and some weed seeds, particularly in the fine seeds, cannot be entirely cleaned from the stock. If farmers knew weed seeds as well as they did grain seeds, they would take a look at cheap grade seeds and pass them by. A reading glass would tell the tale readily if the farmer knew the weed seeds.

The cleaning processes of the big seed houses take out the largest percentage of weed seed and leave the seed comparatively clean, remarkably so compared with its original condition.

The following table shows to what a high degree of purity modern seed cleaning methods and machinery have achieved, as proved by a statement compiled after examination of samples from all over the country by the Vermont experiment station:

Seed	Guaranty	Purity Found
Alfalfa	99.85	99.99
Barley	99.11	99.44
Red clover	99.3	99.5
Alfalfa clover	99.3	99.72
Corn	99	99.69
Millet	99.54	100
Oats	99.5	99.99

Trimming Bull's Feet to Prevent Various Evils

Bulls kept in close quarters with little exercise frequently develop long hoofs. This condition is not only unsightly but may become painful, so much so that the bull cannot stand or walk squarely. Then, too, it brings on various other foot troubles, such as foul foot and rot. The hoofs should be trimmed, or they will break off or disfigure the animal's feet. With young animals, this trimming often can be done with a long-handled chisel, while the animal is standing on a hard dirt or plank floor. The sole and the cleft between the claws cannot be gotten at in this way, however, and oftentimes these parts cause the most trouble. In that event it may be necessary to throw and tie the animal.

A pair of pliers, like those used in shoeing horses, comes in handy in clipping off the toe of the hoof, or it can be sawed off with a fine-tooth saw. A shoeing knife can be used to trim out the sole and dead hoof, and then a rasp to smooth down the surface. The dewclaws, which often grow to great length, should also be trimmed off fairly close.—Farmers' Bulletin 1412.

Harvest Soy Beans for Both Seed and Hay Crop

Soy beans are cut for seed when most of the leaves have fallen and the pods are nearly ripe. When the crop is allowed to get this ripe it can ordinarily be harvested with a fair degree of satisfaction with a grain binder. If the crop is cut earlier than this, a grain binder does not work so very well.

Soy beans are cut for hay when the lower leaves have turned yellow and the pods are about half filled. In this case it is best to use a mower and to handle the soy beans in the same way as ordinary hay. Full information along this line can be obtained from the Iowa station at Ames by applying for Bulletin 238, entitled "Soy Beans for Iowa."

Farm Hints

- Seed corn should never be taken from plants that lodge.
- Much of the value of manure is lost by weathering and leaching.
- Out of 107 varieties of common weed seeds buried for twenty years 62 grew when planted.
- The tractor has come to stay, but the draft horse will be here for a long time, because tractors cannot wholly replace him.
- Where legumes cannot be grown, other crops may be grown to prevent waste of plant food and turned into the soil again.
- Every one of us has some buildings that need paint, unless the job has just been done, or unless they have all burned down. The fall days are fine for painting.
- The coarse stems from the soy beans will not be eaten by cows, but may be given to the horses which will eat them readily, according to the experiment of many farmers.
- Ohio farm boys and girls, 24,000 strong, are enrolled in the 12 kinds of farm clubs sponsored by the agricultural college extension service of the Ohio State university in every county in the state.

WANT EVERY MEAL WRIGLEYS

make your food do you more good.

Now how it relieves that stuffy feeling after heavy eating. Sweetens the breath, removes food particles from the teeth, gives new vigor to tired nerves. Comes to you fresh, clean and full-flavored.

Now that the world's series is over the next best excuse for not working is the weekly football games.

CUT THIS OUT—IT IS WORTH MONEY

PROBATE ORDER STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix, in said County, on the 20th day of October A. D. 1925.
Present: Hon. Servetus A. Correll, Judge of Probate.
In the Matter of the Estate of Ella Sutton, Deceased.
Blossom Hays having filed in said court her petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court be admitted to probate, and that the administration of said estate be granted to petitioner or to some other suitable person
It is ordered, that the 12th day of Nov. A. D. 1925, at ten o'clock in the forenoon at said Probate Office, be and is hereby appointed for hearing said petition.
It is Further Ordered, That Public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing in the Charlevoix County Herald a newspaper printed and circulated in said county.
SERVETUS A. CORRELL, Judge of Probate.

MORTGAGE SALE.

WHEREAS, default has been made in the terms and conditions of a certain mortgage made and executed by John Veale and Mary Veale, husband and wife, of Detroit, Wayne County, Michigan, in favor of Charles F. Neitzel and Emma M. Neitzel, husband and wife, of East Jordan, Charlevoix County, Michigan, said mortgage bearing date the 13th day of December, 1924, and being recorded in the office of the Register of Deeds for the County of Charlevoix, in Liber Twenty-three (23) of mortgages on page five hundred twenty two (522), on the 30th day of December, 1924, and which said mortgage was, on the 26th day of May, 1925, duly assigned by said Charles F. Neitzel and Emma M. Neitzel for a valuable consideration to Herbert S. Hadden and Bertha E. Hadden, his wife, of Detroit, Michigan, and which said assignment of mortgage was duly recorded in the office of the Register of Deeds for the County of Charlevoix, Michigan, in Liber Fifty-five (55) of assignments and mortgages on page one hundred sixteen (116) on the 29th day of May, 1925, and.

WHEREAS, by reason of said default, there is now claimed to be due, and is due, upon said mortgage, at the date of this notice, including principal, interest and attorney fee, the sum of Three Thousand One Hundred Seventy-six and no one-hundredths (\$3176.00) Dollars, and no suit or proceedings at law or in equity have been instituted to recover the debt secured by said mortgage or any part thereof.
NOW, THEREFORE, NOTICE IS HEREBY GIVEN that by virtue of the power of sale in said mortgage contained and of the statute of the State of Michigan in such case made and provided, the undersigned will sell at public auction, for cash, on the 21st day of December, 1925, at two o'clock p. m. at the front door of the court house, in the city of Charlevoix and County of Charlevoix, that being the building wherein the Circuit Court for the County of Charlevoix is held, the premises in said mortgage described as follows, to-wit:
"All that certain piece or parcel of land lying and being situate in the Township of Wilson, County of Charlevoix and State of Michigan, and more particularly known and described as follows:
"The South One-half (S¹/₂) of the Northeast one-quarter (NE¹/₄) and the Northwest one-quarter (NW¹/₄) of the Southeast one-quarter (SE¹/₄) of Section Eighteen (18), Town Thirty-two (32) North, Range Six (6) West, Charlevoix County, Michigan, together with the hereditaments and appurtenances thereunto belonging."
Dated September 25th, 1925.
HERBERT S. HADDEN
BERTHA E. HADDEN

Business Address: East Jordan, Mich.

Briefs of the Week

F. R. Bulow was a Muskegon visitor first of the week.

Mrs. Robert Gussolus left Thursday for a visit at Detroit and Ann Arbor.

Mr. and Mrs. Dan Bennett and children are here from Detroit for a visit.

Miss Sophia Olson, who has been in Detroit, returned home the past week.

Born to Mr. and Mrs. Clifford Bolser at Detroit, son—Jack Roland—Oct. 11.

Mrs. Josie Hillman returned Saturday from a week's visit with relatives at Johannesburg.

Mrs. Elmer Matthews and children of Petoskey were here this week visiting her sister, Mrs. G. LaClair.

Born to Mr. and Mrs. Clark Claire Coulter (Dorothy Dunlap) a daughter—Constance Dorothy—on October 17th, at Detroit.

The Pythian Sisters will hold a Rummage Sale at the Reid-Sherman Plumbing Shop next Friday and Saturday, Oct. 30 and 31st. adv. 43-2

Charles Valleau received a message, Tuesday night, stating that his son, Harry, had been seriously injured in an auto accident at Flint, Tuesday. He received scalp wounds from which he later on relapsed into unconsciousness.

The many friends here of W. Asa Loveday will be glad to learn that he is now on the road to recovery at a Rochester, Minn., Sanitarium. Mr. Loveday was taken seriously ill at his summer home in East Jordan some five months ago and since then has been under a physician's care. In a friendly line to The Herald, dated Oct. 23, he says:—"Never felt better in my life than I do now, and have no trouble in getting around without my cane. Expect to get my discharge next week.

The first hunting accident reported this season happened at the home of Mr. Henry McClanathan near Ironton, Sunday. His son Edward had been cleaning the gun in the house and when loaded it went off unexpectedly with the result that the father received some shot in the hand and a daughter was struck in the knee while the son received a somewhat heavier charge above the knee. The patients were all taken to the hospital at Charlevoix where they received medical attention. The father and daughter returned home but the son was detained for further treatment.

Guy Sedgman of Flint is here visiting friends this week.

Wm. Prause left Tuesday for Flint, to seek employment.

Mr. and Mrs. Frank Kiser and family have gone to Onaway for the winter.

Darius Shaw went to Muskegon, Monday, where he will seek employment.

Miss Rosabelle Danto went to Ann Arbor, Wednesday, for a visit with friends.

E. W. Lane of Comstock Park was here the past week on business and visiting friends.

The Lady Maccabees will hold a Masquerade party at their hall Monday evening, Nov. 2nd. All ladies invited. adv.

Regular meeting of Rebec-Sweet Post, American Legion next Monday night, Nov. 2nd, at Legion headquarters.

Miss Dorothy Kitsman, who underwent an operation at the Charlevoix hospital, returned to her home here, Monday.

Mr. and Mrs. C. H. McKinnon entertained Miss Bina Davis of Escanaba and Miss Marie Kimber of Gladstone first of the week.

The Improvement Club will meet at the home of Mrs. Howard Porter next Tuesday, Nov. 3rd, instead of at Mrs. W. H. Parks.

Mr. and Mrs. Herbert Cavanaugh and children came Thursday from St. Ignace, and will make their home with her father, John Ross.

Mr. and Mrs. G. W. Kitsman received a visit last week from their mothers, Mrs. G. H. Kitsman and Mrs. G. B. Hamilton, both of Standish.

Mr. and Mrs. Victor LaCroix are receiving a visit this week from their son and wife, Mr. and Mrs. Leo LaCroix of Detroit, also Mr. and Mrs. Charles Hoy of Detroit.

Saturday Oct. 31st, the last day of big Millinery Sale. It will be a surprise party for those who need Ladies', Misses and Childrens Hats. Mrs. C. Walsh, Over Lite's Drug Store.

The next regular meeting of the East Jordan Study Club will be held in the Home Economics Room of the High School. Miss Bardwell and the club daughters are hostesses.

Mr. and Mrs. J. A. Caulder, who have been here for a visit with the latter's parents, Mr. and Mrs. Wm. Harrington, left Monday for their home at Moose Jaw, Sask. Mr. Caulder states the weather up there is unpropitious as in Michigan. They had 14 inches of snow Sept. 24th and since then the weather has been unfavorable to the gathering of crops.

Charlevoix County ranks 13th in student representation at Central Michigan Normal School. There are 18 students from this county attending the Mt. Pleasant Normal. As usual, Isabella County ranks first, with 214 students. Gratiot county is second with 80 students. Montcalm and Saginaw are tied for third place with 54 students from each county. The names of those from this county are: From East Jordan, Carlton Bowen, Frances Cook, Leatha Cox, Josie Hammond, Emil Heegerberg, Marie MacDonald, Virginia Pray, Jasper Stallard; Bay Shore, Alice Worth; Boyne City, Helen Harris, Lawrence Cross, Caroline House, Vonda Lefter, Katie Rothenberger, Edith Sneathen, Mrs. Cora Willis, Mary Willis, Agnes Peters.

Special Communication of East Jordan Lodge No. 378 F. & A. M. this Saturday night, Oct. 31st at 7:30. Work in the Fellowship degree.

Richard Murray left Saturday for Detroit, where he expects to get work.

Joe Kortanek left Saturday for Detroit, where he will seek employment.

L. C. Barlow and Rocco Demio of Detroit are visiting friends in our city this week.

Mrs. Caroline Swanson, who has been here for the past few months, returned to Detroit, Tuesday.

Ray I. Fox of Spring Lake was in East Jordan latter part of last week renewing former acquaintances.

Mrs. Sylvia Kauffman of Muskegon was here the past two weeks visiting her aunt, Mrs. George Bowen.

Mr. and Mrs. J. M. Warden left first of the week for Adrian, Mich., where they will spend the winter months.

Mr. and Mrs. Wm. Tunison are here from Detroit for a visit at the home of the latter's sister, Mrs. John White.

Mr. and Mrs. Theo Scott were at Grand Rapids the past week, where they attended an L. D. S. Church Convention.

Mr. and Mrs. Leonard Dudley with son, Gerald, who have been at Lansing for the past few months, returned home Monday.

W. James Olson and family left latter part of last week for Miami, Fla., where they will be located at Douglas Rd.-Coralway R. 2

Elder C. H. McKinnon with son, Charles, returned home from Grand Rapids, Monday, where they attended the Young Peoples State Convention of the L. D. S. church.

At the meeting of the Fifth District of the Michigan State Teacher's Association held at Big Rapids last week, it was voted to hold the October, 1926, meeting at Petoskey.

Mrs. Mary Barkmier of San Jose, Ill., who has been here for a visit with her sister, Miss Belle Roy, returned home, Monday. Mrs. Myrtle Paige of Traverse City also visited Miss Roy last week.

Petoskey sportsmen report having seen two large bald eagles flying over the city and surrounding territory during the last few days. It is thought the pair nested somewhere near Round lake this season.

Mrs. Margaret Green with son James, and daughter Miss Agnes, and grand-son, Paul, returned home from a visit at Lansing and Detroit, Wednesday. Her daughter, Miss Alice Green of Detroit returned here with them for a visit.

Pine Lake Lodge No. 122, Knights of Pythias, at Charlevoix have leased for five years the second floor of the new building now being erected by the Charlevoix County bank. It will be remembered that the lodge lost their regalia, furniture and records in a disastrous fire in February, 1923.

A real estate transaction of no little importance to Charlevoix was consummated recently, whereby the Leslie T. Shapton Post No. 226, American Legion acquired the Martha Ayers property on the corner of State street and Hurlbut avenue. The Legion will take possession of the property on November 5th, but will take no action on making the place ready for occupancy before next spring.

E. B. Helms, employed by the General Oil Co., at Boyne City had a very narrow escape from death by asphyxiation. The young man entered one of the large gasoline tank cars to make some adjustment of a draining valve, not realizing the danger. He immediately swooned and was unconscious when pulled from the tank by Harmon Knopp, 17, assisted by two section men. Young Knopp, who is considered to have shown great courage for crawling into the tank after Helms, also was groggy when he reached the open air. Helms was rushed to a drug store where he was resuscitated after several minutes.

The way to keep peace in the world is to beat the stuffing out of the next country starting a war.

The trouble with the foreign debt situation is that European countries have no interest for their principals.

Germany is ready to join the League of Nations; for a dead association its members take it seriously.

Germany and France are beginning to talk peace towards each other; one being willing and the other not be able to help it.

Charlevoix Safe Robbed Of \$99.50

The safe of the Charlevoix Lumber Co. was opened early Tuesday morning, the cash box removed, the checks rifled and cash amounting to \$99.50 taken. The robbery occurred after the night watchman had left. The company was founded by John Nichols 50 years ago and now is controlled by E. J. Hiller.

Card of Thanks.

We desire to express our sincere appreciation of the many acts of kindness extended us by friends during our recent bereavement.

Mrs. Samuel Ramsey
George Ramsey
Mrs. Edith Simmons.

ON LECTURE TOUR

Miss Annie S. Peck, noted mountain climber and traveler, photographed on her arrival in the United States for an extended lecture tour.

U. S. WARSHIPS WILL GUARD YANKS IN SYRIA

American Consul Asks Aid as Revolt Spreads.

Washington.—Two American destroyers have been ordered from Gibraltar to Alexandria, Egypt, to remain in readiness for use in Syrian ports should their presence become necessary for the protection of American lives and property as a result of the revolt by tribesmen in that country.

Instructions were cabled Vice Admiral Roger Wells, commanding the European squadron, after a request for the ships had been received here from Paul Knabenshue, American consul in Beirut, Syria.

Advices concerning the Syrian disturbance show it centers in the vicinity of Damascus.

Admiral Wells' flagship, the Pittsburgh, was en route from Cherbourg to Gibraltar when the instructions were dispatched. The Navy department left to the judgment of Admiral Wells the ships which should be sent to Alexandria.

It is estimated that about 150 Americans are in Damascus or the immediate vicinity. The majority of these as well as of the more than 1,000 American nationals in the Lebanon administrative district, which lies in the mountains between Damascus and the coast, are naturalized Syrians who have been in the United States and returned to their native country and who have registered with the American consulates, insuring themselves of American protection.

Borah Calls World Court

Only Trap to Enmesh U. S.

Chicago.—Pressing the fight he will lead in the senate this winter against America's entry into the existing World court, Senator William E. Borah (Rep. Idaho), chairman of the senate foreign relations committee, made a slashing attack here on the program for taking this country into the League of Nations through a side door.

For that, Mr. Borah said, is what it means if the United States enters the present court of international justice. The Idaho senator, still irreconcilable to anything that smatters of the League of Nations, spoke to a capacity audience at the Auditorium theater under the auspices of the Women's Roosevelt Republican club, headed by Mrs. Joseph T. Bowen.

De Wolf Hopper Weds

Again; Divorced 5 Times

Hartford, Conn.—William De Wolf Hopper, sixty-two, the much married, often divorced actor, slipped down from Boston and was married to his sixth bride by Judge Walter H. Clark of the Probate court.

Hopper's bride, Lillian Glaser, a widow of an Oakland (Cal.) dentist, gave her age as twenty-nine, her occupation as singer, and her residence as Oakland, Cal.

As to his previous marriages, he stated he had been married five times and was divorced.

Robinson Gets Ralston's

Seat in U. S. Senate

Indianapolis.—Arthur R. Robinson, Indianapolis attorney, was appointed United States senator from Indiana to succeed the late Samuel M. Ralston.

Mr. Robinson was named by Gov. Ed Jackson to serve until the state election in November, 1926, when a senator will be elected to serve the remainder of Mr. Ralston's term, which would have expired March 3, 1923. Mr. Robinson is a Republican.

Estonia Seeks U. S. Treaty

Reval, Estonia.—The Estonian minister at Washington has been authorized to conclude a treaty of amity and trade and a consular agreement with the United States.

Tell of Chaos on Ship

New York.—Conflicting stories were told by survivors of the burned Clyde liner Comanche at a hearing here, some owners saying that the crew was drunk and that chaos reigned among

Where Shall I Deposit My Savings?

With competing banks paying the same rate of interest, our choice must be based upon the service and safety offered.

An ever increasing number are satisfactorily solving the problem for themselves by opening savings accounts at this strong Bank.

We shall be glad to issue a book to you.

STATE BANK OF EAST JORDAN

"Strength and Ability Plus the Willingness to Serve."

Deceptive Grades

The Los Angeles chamber of commerce says that the grade at the Magnetic hill near Hollywood is an optical delusion. While it appears that it is an upgrade, it is in reality a 2 per cent down grade. Such cases of deceptive grade are common in mountainous country. Irrigation ditches viewed from a distance sometimes appear to run up hill.

Where "Tabby" Comes From

It may interest your readers to know the derivation of "tabby." It was a name first given to watered silk which came from the town of At Tabbi in Arabia. Tabby cats were so called because of the resemblance of the markings on their coats to the "watering" on the silk.—Letter to the Spectator.

Chinese Civilization

When the people in Europe were going about dressed in skins, and using pieces of stone tied to sticks for tools and weapons, the Chinese were a skillful and highly cultured nation with a literature already well defined.

Inspiration From Prayer

On all my expeditions, prayer made me stronger, morally and mentally, than any of my nonpraying companions. It did not blind my eyes or dull my mind, or close my ears; but, on the contrary, it gave me confidence. It did more: it gave me joy, and pride, in my work, and lifted me hopefully over the 1,500 miles of forest tracks, eager to face the day's perils and fatigues.—Henry M. Stanley.

Largest Snake

So far as we can ascertain, says the Washington Star, the largest snake exhibited in the New York Zoological park was one shown about ten years ago. This was a python from the Malay peninsula, weighing 235 pounds and measuring 24 feet in length. At the present time the Washington zoo is exhibiting a 25-foot python, but weighing less than the one mentioned.

Never Lasting

It takes the public about 10 years to get over a popular delusion; but it always gets over it.

EAST JORDAN LUMBER CO.

We believe in "Preparedness"

We have Wool Underwear, all styles.

Zipper and Buckled Overshoes, which ever fit the best.

Ladies and Childrens COATS, some very Special Prices.

SWEATERS SPECIALS!

Everything for cold weather which is here now.

Men's Dep't.

Zipper Overshoes, both in all Rubber and Cloth Tops.

4 Buckle Artics, heavy and light Rubbers, High-top Shoes.

Soo Pants and Jumpers, good Wool Underwear, Overcoats, Mackinaws, heavy Socks, Sheep skin Coats, in fact everything you will want for comfort this cold weather.

EAST JORDAN LUMBER CO.

Teaching Them Rules of Traffic

In Chicago the number of children killed or maimed by motor vehicles in the course of a year is shocking. The little ones in one kindergarten are being taught the rules of traffic through a "stop and go" game devised by their teacher and thus are better equipped to protect themselves.

Amundsen Lecturing

Capt. Roald Amundsen, Norwegian Arctic and Antarctic explorer, is delivering a series of lectures throughout the United States under the auspices of the American Museum of Natural History, describing the dash by plane which he with Lincoln Ellsworth and four others made toward the North pole last summer.

Father Sage Says:
Th' peepul whut make th' must fun of furniers expect the best of treatment when they go abroad!

The Rough School

In the school of experience you don't get a sheepskin. You grow your own to replace the fragments removed.

Back Lame and Achy?

The Advice of This East Jordan Resident Should Help You to Get Well.

Do you suffer nagging backache? Feel dizzy, nervous and depressed? Are the kidney secretions irregular; breaking your rest? Likely your kidneys are at fault. Weak kidneys give warning. You have backache; rheumatic twinges. You feel weak, tired, all worn out. Heed the warning. Don't delay! Use Doan's Pills—a stimulant diuretic to the kidneys. Here is an East Jordan case. Fred Nelson, prop. shoe repair shop, Bridge St., says: "I had attacks of kidney trouble that had me feeling mighty miserable. My back was lame and sore and when I stooped sharp twinges darted across my kidneys. My kidneys acted irregularly, too. After using Doan's Pills the trouble was driven away." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Nelson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

OPEN NOSTRILS! END A COLD OR CATARRH

How to Get Relief When Head and Nose are Stuffed-Up.
Come fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffing, hawking, mucous discharge, dryness or headache; no struggling for breath at night.
Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

MAE MURRAY

Mae Murray, the brilliant movie star, was born in Portsmouth, Va. She moved to New York when a very small child. At the age of fifteen she made her first appearance on the stage and became one of the most remarkable dancers. At the height of her success on the stage she entered the pictures, and her many successes are well known.

THE WHY of SUPERSTITIONS
By H. IRVING KING

ACORNS AND LOVE

IT MAY surprise many people to know that in current superstitions there survive not only remnants of tree-worship, nature-worship, sun-worship, moon-worship, etc., which have been changed by the ages into formulas the origin and meaning of which those who use them are entirely ignorant, but that also there still remain open and direct appeals to the heathen gods who are invoked directly by name. Of this latter sort is superstition which is circulated largely throughout the country in nearly all those little paper-covered books dealing with dreams and charms which are so extensively consulted by the uneducated and, it must be owned, not infrequently "on the sly" by persons of intelligence and education. The superstition in question is a rite for discovering a young woman's future husband. An odd number of girls not exceeding nine assemble and each strings on a chord as many acorns as there are girls present. Then each girl places her string of acorns in the fire and watches it burn in silence. When the acorns are consumed each girl retires to her bed, saying as she gets between the sheets:

May love and marriage be the theme To visit me in this night's dream; Gentle Venus, be my friend, The image of my lover send.

Then the young man whom she is destined to marry will appear to her in a dream. The use of the acorns is, of course, a remnant of tree-worship; an appeal to the oak, that great and popular tree god of our ancestors. They are offered to him, consumed by fire as upon an altar. The acorn has another ancient significance which cannot be gone into here which makes it an appropriate offering in such cases. So far the charm is a mere survival whose significance is entirely unsuspected by the practitioners of the rite. But then comes the direct appeal by name to Venus, the goddess of love of the old Roman mythology, word for word such as Inquisitive maidens might have used it in the days when Aeneas "brought into Latium his gods."

"What's in a Name?"
By MILDRED MARSHALL
Facts about your name; its history; meaning; whence it was derived; significance; your lucky day, lucky jewel

UNA

THOUGH not in general usage, Una is one of the most interesting of feminine names. It means "luminous," according to etymologists, though the great and only Spenser who brought the name into fashion rejected this interpretation. It is typically an Irish name and since it resembles "Una," Spenser gave the title of Una to his lovely personation of the one truth, the one true undivided church, the guide of the Red Cross Knight.
Una is queen of the fairies in the county of Ormond, in which she appears in one version of the story of the soldier billeted on a miser. The man was amazed at his hospitable reception and entertainment as he thought by the avaricious squire, until morning disclosed the fact that Una had raised the mansion and provided the supper.
Una is much in use today among the Irish peasantry. It is often pronounced Oonagh and has been Anglicized as Winny.
The pearl is Una's talismanic gem. It is the emblem of purity, popularity and affability. She who wears it will have many friends and admirers. Tuesday is her lucky day and 5 her lucky number.

SOMETHING TO THINK ABOUT
By F. A. WALKER

KNOCK AT THE DOOR

YOU cannot hope to gain entrance to friendship except by knocking at her door with the courage and courtesy which invariably insure admittance.
And this is equally true of everything of worth in life, quite regardless of the opinions of those who are prone to think otherwise.

If you would be an intimate terms with Wisdom, you must knock at her golden door every day.

You may rail at the idea, but if you miss a day or two a week you will find when you go to call again that some one more persistent has been ahead of you, and picked the choicest flowers in the front garden.

In all that concerns life, especially the vital things, if you would sit with those who occupy the front pews, wear the best clothes, lock arms with high society, know how to entertain a prince or a pauper without lofty affectation or mongrel condescension, you must first knock at the door and gain proficiency by frequent knockings and regular visits.

You may daub a canvas with color, sail a boat on an unruffled stream, sing a commonplace song which the boys of the street whistle without missing a note, play the piano, do exquisite embroidery work in imitation of the piece before you, but if you wish to excel beyond the mere copyist and become a master in every sense of the word, you must keep knocking.

In matters of art and intellect, there is no other way to improve or advance except by going often to the door of Wisdom and picking up knowledge first hand.

You may be tempted to hint that this requires too much work, too many long hours of studious application to things with which you feel you are already intimately acquainted, but if you will march out your productions on dress parade and line them up side by side with others, you will not be long in discovering defects which may sicken your heart.

But if you are made of the right material, and have within your breast an inflexible determination to go to the top, such comparisons will not be odious.

It is only by hearing superior music, or by seeing a masterpiece in painting or sculpture, that we learn to know the inferior and thus gain an eminence where we find an inexpressible pleasure in imparting our hard-earned knowledge to others.

Mother's Cook Book

Failure is often the turning point, the pivot of circumstance that swings us to a higher level. Life is not really what comes to us, but what we get out of it.—Jordan.

GOOD THINGS TO EAT

WHEN you have exhausted all ways of cooking the delicious Hubbard squash try:

Souffled Squash.
Take a medium-sized squash, remove the seeds and stringy portion, then peel off the rind. Place in a steamer and cook over boiling water until tender, then mash and season to taste with salt, pepper and butter. To two cups of mashed squash add gradually one cupful of cream and when well mixed, the yolks of two well beaten eggs. Mix well, then fold in the whites of the eggs beaten stiff. Pour into a buttered baking dish and bake in a moderate oven until firm. Serve at once.

Bread Sponge Cake.
Take one and one-half cupfuls of sugar, three-fourths of a cupful of lard and butter mixed, two well beaten eggs, one-fourth of a cupful of sweet milk, two cupfuls of bread sponge, three cupfuls of flour and one teaspoonful of soda. Add spices, raisins, and a few nuts, mix well and let rise then bake.

Stuffed Onions.
Parboil large-sized onions, take out the centers, leaving a cavity to hold the filling. Chop the onion removed from the center, mix with cold sausage meat or bacon and crumbs with seasoning. Fill the centers, pour around good beef broth or add butter and water. Bake until the onions are tender, basting occasionally. Cover each with a spoonful of buttered crumbs and brown before serving.

Hamburg Steak.
Buy a piece of beef cut from the round with a little suet or pork. Put through the meat grinder, season with pepper and salt and a bit of clove and form into flat cakes. Broil or pan-broil until well cooked. Serve with baked potatoes and creamed onions.

Golden Fleece.
To one cupful of cream in a frying pan add one-half pound of cheese broken up into bits, adding a dash of cayenne. When smooth break over this mixture five or six eggs, cover two minutes; when the white is set, remove the cover, add salt and beat the mass briskly for a few minutes. Serve on buttered crackers.

Nellie Maxwell

Wintering Calf on Grain Too Costly

Gains Do Not Justify the Additional Expense.

In wintering calves the use of grain in the ration increases the cost of wintering materially and does not sufficiently increase the total gains at the time or subsequently to justify the additional expense, says the United States Department of Agriculture. This conclusion was reached from the results of a series of experiments carried on by the department in co-operation with the West Virginia experiment station in which grade Short-horn, Hereford, and Aberdeen calves were used to determine the effect of different winter rations on gains the following summer.

One lot of calves receiving a ration of mixed hay and a grain mixture of 3 parts corn, 1 part bran, and 1 part linseed meal made a winter gain of 98 pounds each, which was more than twice as much as another lot which was fed corn silage and clover hay. The latter drove, however, made a greater gain the following summer on pasture and lacked only 42 pounds of reaching the same total as the grain-fed calves. The cost of the grain ration through the winter did not justify the extra gains, says the department.

In fact, the experiment was carried until the calves were three years old, in which time the advantage in weight, due to grain feeding the first winter was practically all lost by the time they were three years old.

Soiling Crops or Corn Silage as Supplements

Soiling crops or corn silage are recommended as supplements for drought damaged pastures used for dairy herds. If the dairyman lacks corn silage and is not in position to feed a soiling crop, he should give his cow a grain ration, says O. G. Schaefer of the dairy division, University farm, St. Paul, Minn. For average or low producing cows on pastures badly burned the grain ration should consist of equal parts of corn and oats or equal parts of barley and oats. For cows of more than average production one pound of oil meal should be added to the ration for every five or six pounds of the corn and oats or barley and oats. Where no pasture is left at all the cows should be fed about as in winter.

Save Farm Machinery by Covering and Painting

Now is the time of year to get all the farm machinery under cover and painted.

If the metal is covered with paint, it will not rust. Rust destroys thousands of dollars' worth of farm machinery each year. Not even a wealthy farmer can afford to neglect his machines.

Grease and rust that has accumulated should first be removed. The rust may be removed by means of sandpaper, or a strong steel brush. Grease may be removed with soft, warm water.

A coat of paint over anything is the same as a covering, and protects what it covers from the elements. It is economy to paint.

Keep Late Spring Pigs on Good Growing Ration

Late spring pig litters should be kept on a good growing ration well supplied with either skim milk or tankage. If there is any indication of cheaper corn this fall these late spring pigs might be carried along for growth on a limited corn and tankage ration while on good pasture. Until good pasture does arrive a liberal supply of tankage or skim milk and grain should be provided.

Little is gained by keeping a pig down to half efficiency by a limited ration. Young pigs become stunted on pasture alone. At least two pounds of grain daily on good pasture for 100 pounds of live weight are required for best results.

FARM NOTES

Early plowed kafir stubble makes good oat ground.

Clean hens in clean quarters make for poultry profits.

Fifty ears of corn should be gathered for every acre to be planted next year.

Poison bran mash is an indispensable item on the last banquet menu for grasshoppers.

Corn selected for seed should be stored at once in a dry, well-ventilated place where it will cure quickly and remain dry.

Roughly, soy straw may be regarded as about two-thirds as valuable as clover hay, but this is not an exact figure by any means.

Legumes take from 50 to 100 pounds of nitrogen to the acre from the air annually. An amount sufficient for a 50-bushel corn crop. Seed some alfalfa this fall.

Oats is a good grain to feed colts, but when not available a grain ration consisting of six parts corn, three parts bran, and one part linseed oil meal, is a splendid substitute.

Charlevoix County Good Roads Cross Words Puzzel

This is to certify that Uncle George H. Van Pelt, the pioneer of good concrete road advocates has deposited the sum of twenty dollars with which to pay the prizes won by the contestants for the solution of the cross word puzzle and the best essay on good concrete road around Pine Lake. All essays and solutions must be in the hands of Miss Isabel Mitchell, Charlevoix, the judge, by Thanksgiving Day. Prize money will be promptly sent.
Signed: Robert Bridge, Charlevoix County Bank.

CONDITIONS OF THE CONTEST.

Work the cross-word puzzle. Then write an essay of not more than 500 words on the subject of good reinforced concrete roads. Sign your name (and give your address) to your solution and essay and mail them to the "Contest Editor" of this newspaper.

- First prize.....\$10.00 in cash.
- Second prize.....\$ 5.00 in cash.
- Third prize.....\$ 3.00 in cash.
- Fourth prize.....\$ 1.00 in cash.
- Fifth prize.....\$ 1.00 in cash.

Winners will be determined according to the correctness of their solutions to the cross-word puzzle, and according to the essay submitted on the subject mentioned below.

Contest is open to everyone except editors and owners of the publications carrying it, and their employees.

Solutions and essays must both bear contestant's name and address and must be submitted by Thanksgiving Day.

The winning solutions and essays will be published in this paper.

In judging the essays neatness will be considered.

There are no "catch-words" in the cross-word puzzle, nor any foreign or obsolete words.

Subject:—"Advantages of a Good Concrete Road Around Pine Lake; Its Effect on Increased Valuation of Lake Shore Property as Well as Adjacent Property."

SYNONYMS FOR CROSS-WORD PUZZLE.

Horizontal

- 1—Adjective describing the kind of road we all want to drive over.
- 5—Highways.
- 10—To make rich.
- 12—Name of one of Charlevoix County's lakes.
- 13—More matured.
- 14—The bottom of a river.
- 15—A grain.
- 16—Part of verb "to be."
- 17—Not well.
- 19—Male sheep.
- 21—Sound (plural.)
- 23—Printer's measure
- 25—Chicago Tribune's radio call letters.
- 26—Electrical unit.
- 29—Part of the head.
- 31—Beholds.
- 34—Recent.
- 36—Exclamation expressing triumph.
- 39—Emmett.
- 40—The best road possible.
- 43—Latitude North (abr.)
- 44—Nest of a predatory bird.
- 45—Klise
- 46—Pronoun.
- 47—A number.

Vertical

- 1—First name of a man about Charlevoix County who is an advocate of good reinforced concrete roads.
- 2—Singly.
- 3—Command.
- 4—Expire.
- 6—Open (poet.)
- 7—Assisting.
- 8—Department of navigation (abr)
- 9—Fur-bearing animals.
- 11—Press tightly.
- 14—Wager
- 18—Pertaining to the Lent period.
- 20—Girl's name.
- 22—Large bird (plural.)
- 24—Negative.
- 27—Felled with an axe.
- 28—Your father's brother.
- 30—Uncommon.
- 32—Each (abr.)
- 33—Put away for future use.
- 35—Period of time.
- 37—Possessive pronoun.
- 38—Suffix meaning 'of the kind of'
- 41—Feline.
- 42—Electrical Engineer (abr)
- 45—Forward.

Frogs and the Weather

As long as frogs remain yellow in color nothing but fine weather may be expected. Should, however, their coats begin to assume a brown hue, it is a sign that bad weather will shortly arrive.

Insects Numerous

There are about a half million different sorts of living creatures on earth and more than three-quarters of these are kinds of insects.

IF THEY COULD STOP AND REST

Do you know that your kidneys have worked without ceasing from the hour of your birth? They filter and remove from the blood stream waste matter which if permitted to remain and re-enter the system, may cause serious diseases. If overworked you can help them by taking FOLEY'S PILLS, a diuretic stimulant for the kidneys, which gently flush the kidneys and increase the elimination of waste matter from your system. Try them today. Sold by all good drug stores.—Hite's Drug Store. adv.

Ouch! Lumbago Pain! Rub Backache Away

Instant Relief with a small trial bottle of old "St. Jacobs Oil."

Kidneys cause Backache? No! They have no nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacobs Oil." Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Oil" from your druggist and rub it on. A moment after it is applied you'll wonder what became of the lumbago or lameness! "St. Jacobs Oil" is a natural, powerful, medicinal preparation of herbs and oils, as it is absolutely harmless and doesn't burn the skin.
