## Band Concerts Under Way

Each Wednesday Evening In The New Band Stand.

The open air Band Concert given last Wednesday evening by the East Jordan High School Band, under direction of John Ter Wee, drew a large crowd both from among the residents of our City and the adjoining region. The program was well arranged and the various numbers drew hearty applause from the many in attendance.

The new band stand, erected on the corner of Main and Esterly streets, was used for the first time. This structure is work of art, and, when finally completed, will convert a corner on our main thoroughfare from the eye-sore that it has been for years, into a thing of beauty.

Concerts will be given each Wednesday evening from 7:00 to 8:30 standard time, and the people of East Jordan and surrounding territory are cordially invited to come and enjoy these programs. These free concerts are sponsored by our City.

East Jordan High School Band, Director John Ter Wee, has developed into a strong organization during the past year, and its reputation for musical ability is receiving recognition throughout this part of the state.

In the concert last Wednesday, the recently purchased Sousa-phone bass horn was used and proved most valuable in the music ensemble. This instrument was purchased by our City and presented to the High School Band as an appreciation of the organization's rendering possible these Wednesday night open air concerts.

## U. S. Weather Bureau Establishes A Station

If you do not like the weather on a certain day just call the Weather Bureau.

The U. S. Dept. has just established a weather reporting station in East Jordan, and time only, will tell whether or not this will assert us any during a spell of bad weather.

The instruments consist of two registering thermometers, one each for maximum and minimum, a rain gauge, and a barometer. Reading is taken each day and records kept. So if you want to know how hot it was on a certain day or how cold a certain night, or how much it rains during a severe storm, whether the sun shown, or from what direction the wind blew a week ago the 29th of February—call the weather bureau.

For instance it rained 1.55 inches last Sunday night and Monday A. M. and only .25 inch Thursday A. M. this week. The instruments are in charge of E. N. Clark, North Main Street, phone 211.

## Condition of Winter

### Wheat Is Favorable

New York.—Winter wheat condition on the average is placed at 74.4 per cent of normal in Indiana, Illinois, Kansas, Oklahoma, Oregon, Pennsylvania and Washington, in the report of the New York Journal of Commerce. This figure compares with 68.8 per cent a month ago and with 61.8 per cent a year ago.

## Democratic Party's Debt

Washington.—Unpaid obligations of the Democratic national committee on June 1 amounted to \$281,000, a report filed with congress shows. The report states that \$100,000 in debts have been paid in the last month.

## Millions for University

Los Angeles, Calif.—William Clark, Jr., son of the late United States senator, has given nearly \$5,000,000 to the University of Southern California, it was announced here.

Lansing.—The department of state has placed an order for 1,100,000 automobile plates for 1927. The plates next year will have an orange background and black letters and numerals. Michigan will be spelled out instead of abbreviated. The plates will be manufactured at Jackson prison and delivery will be made November 15.

Wayne.—Immediate start on the \$303,000 paving program which will result in the improvement this year of practically every street in the corporate limits, has been announced by the village commission. The final action necessary to clear the way for the paving project was taken when the sale of the bond issue was placed with a Detroit concern.

## Fair Will Open September 14

Wednesday The Big Day For School Children.

Plans for the 1926 Charlevoix County Fair are well under way and an effort is being made to surpass if possible the big success of 1925.

It is sometimes thought that the promoting of a fair like the Charlevoix County Fair is a matter of a couple weeks' work. Attempts have been made in some places to run fairs that way and as a result have been so far in the hole that exhibitors often could not collect premiums and the fair died a natural death.

Officers of the Charlevoix County Fair association, however, believe in keeping on the job the year round always looking for features which they believe would be in the best interests of the local fair. Throughout the winter and spring months, right up until fair time, farm produce, school and community exhibits, are being lined up, the best attractions are races being booked and every effort being put forth to give the county a real fair.

This year bids fair to be the biggest success yet. Practically all space in the floral hall has been taken for exhibits. Free attractions such as Marvelous Daro, Betty's Pets, dogs and ponies, a good display of fireworks, the merry-go-round, Ferris wheel, four bands, two playing each day, will entertain the visitors. And there will be the usual exhibitions of the Boys' and Girls' Club, which in itself draws hundreds to the grounds.

Wednesday will be the big day for all school kids in Charlevoix county, and the school exhibition building will be crowded to capacity. Over a thousand free tickets to school children have been given to those attaining the prescribed average standings in their studies the past school year.

Other attractions will add to the gaiety of the occasion and those who attend the fair this year will be more pleased than ever with the work of the fair officials. A change has been made this year in the number of days of the fair. Instead of four days, the fair will run only three, starting with Tuesday, September 14, and ending Thursday, September 16.—Charlevoix Courier.

Owosso.—Police here are noising w. l. Gillman, 38 years old, no home, who insists he is a human radio receiving set. He said in the morning he gets stations in Europe and in the afternoon he gets them all over the world. He will be "hooked up," he told officers, June 8. He also claimed to be a mind reader, but fell down when asked to read the mind of Judge R. S. Day. No charge has been made against him.

Ann Arbor.—Dormitories to house hundreds of University of Michigan students are a crying need of the university in the opinion of Dr. Clarence C. Little, president. A communication recently released from his office stresses the need for such housing. Figures from the office of the registrar show that nearly 5,000 of the 9,400 students in the university live in rooming houses about the city, only one-third being in fraternities.

Bay City.—A demand for an accounting and repayment of upwards of \$1,000,000 alleged to have been obtained by misrepresentation in the financing of the Fallon Coal Mines Co., is made in a suit filed here by 166 plaintiffs against the promoters of the coal company. The plaintiffs chiefly are farmers and business men of Bay City, Saginaw, Tuscola and Midland counties with a few scattered through sections of the State. Several live in Detroit.

Pontiac.—After once affirming the murdered man, in whose pockets were cards and other articles identified as those of Joseph Lafata, Detroit, was not their kin, four brothers of Lafata returned to Pontiac and buried the body in Oak Hill cemetery. They say they are now satisfied that the dismembered body found in gunny sacks alongside a ditch on the John R road was that of their brother missing since last August. Oakland county deputies still are investigating the case.

Monroe.—A meeting of about 50 of the descendants of the Navarre family was held here May 30. Colonel Francis Navarre was the first settler along the banks of the River Raisin having been born at Detroit in 1787. In 1780 he bargained with the Pottawatomie Indians, for a great portion of the property now in the city of Monroe south of the river, which was called Namet Oyl. The Navarre families are to take an important part in the pageant here June 23 and 24 and will provide a special exhibit of old relics.

## Speeding the Parting Guest

## NEW YORK WELCOMES VISITING PRELATES

### Cardinal Bonzano and Associates Get Enthusiastic Reception.

New York.—In one of the greatest religious demonstrations in New York's history, thousands of Catholics, led by Cardinal Hayes, welcomed Cardinal Bonzano, papal legate to the twenty-eighth Eucharistic congress in Chicago, and four other cardinals on their arrival on the Aquitania.

A flotilla of yachts, one carrying Cardinal Hayes, took the reception party to quarantine to meet the Aquitania. Two huge parades formed to march behind the visiting dignitaries up Fifth avenue.

With Cardinal Bonzano were Cardinal Dubois, primate of France; Cardinal Piffi, primate of Austria; Cardinal Reig, primate of Spain, and Cardinal Czernoch, primate of Hungary.

Also arriving on the President Roosevelt was Cardinal O'Donnell, primate of Ireland. He also was accorded an impressive welcome.

In leaving his residence to welcome the papal legate Cardinal Hayes violated a tradition of the church which says that a visiting cardinal is received at the palace of the residing cardinals.

The departure from custom is a tribute to the high office of Cardinal Bonzano, who has only one superior, the pope.

Three bishops, respectively of American, Spanish and French birth, arrived from Central American ports as delegates to the Eucharistic congress. They were Rt. Rev. William Francis O'Hare, S. J., bishop of Jamaica; Bishop Atanasio de Saler of the diocese of Rio Hacha, Colombia, and Bishop Jose Guio, head of the diocese of Los Annos de San Martin, Colombia.

## Lutherans Authorize College Separation

Philadelphia.—After adopting a resolution authorizing the separation of Augustana college and seminary at Rock Island, Ill., delegates to the sixty-seventh annual convention of the Augustana Lutheran synod marched to Independence hall, where, assem-

died in the old declaration chamber, they renewed their pledges of loyalty to the principles of Americanism. The synod is composed of Lutherans of Scandinavian origin.

## Polish Troops Shoot Down Unruly Strikers

Warsaw.—More than 3,000 workers from the iron and munition factories of Ostrowiec went on strike and demonstrated in the streets for higher wages, sweeping aside the police who were trying to check them.

Troops were ordered rushed to the rescue and within an hour of their arrival they had killed three strikers, wounded a score, and restored order.

## Increase in Methodist World Service Fund

Chicago.—An increase of \$220,294 of distributable receipts for the second world service year of the Methodist Episcopal church, ending May 31, is announced by Dr. E. J. Wade, executive secretary, and Dr. O. W. Auman, treasurer.

The total receipts for the Methodist fiscal year for world service ending May 31 were \$8,119,589.

## Stribling Easy Mark for Paul Berlenbach

New York.—Paul Berlenbach, world's light heavyweight champion, successfully defended his title in a fifteen-round bout with Young Stribling of Georgia. The fight was uninteresting except in spots, owing to Stribling's inability to stand up and fight in the open against the champion.

## Coolidge Favors Fund for Inland Waterways

Columbia, Mo.—President Coolidge has approved a proposal by Secretary Dwight Davis of the War department, that appropriations of at least \$50,000,000 a year be asked of congress for inland waterway development for the remainder of the Coolidge administration, if the financial situation permits.

You can get out of the Sunday traffic jam by going to church.

Our extra slice of pie for this week is respectively awarded to the kind relatives who have invited us to spend the vacation with them.

## Meeting Of Deer Lake Grange

Deer Lake Grange met in its regular session at their hall last Saturday evening with a good attendance present.

During the business session several committees were appointed to make arrangements for Pomona Grange, which meets with them June 17th. Four applications for membership were presented and referred to committees.

The business session was followed by a program, after which sister T. S. Barber gave each one present, a surprise packet which proved to be an all-day sucker. These caused no end of fun among the members.

After the closing song another surprise was awaiting the Brothers. The Sisters planned a marshmallow roast, this was pulled off in the grove back of the hall, with the head lights of two or three cars turned on the scene. This was enjoyed by both young and old, also the Sisters.

The Sisters are now wondering what the Brothers have up their sleeve.

## Thumbs Down

The American Federation of Labor flatly notified the motion picture industry this week that it is opposed to the production of "movies" with "notorious personages" as the stars. Hugh Frayne, national organizer for the Federation, made this declaration in New York at a luncheon honoring Will Hays, the "movie" czar. The Federation thus voices the opinion of 99 per cent of the American people, including most of our "movie" exhibitors themselves. The bald capitalization of notoriety, which has nothing to offer but the morbid appeal of some reminiscent transgression, in an insult to stage or screen. An acquitted murderer may know "acting" of a sort, but her immediately sequent exhibitions are solely in the role of murderer. An itinerant adulteress, crashing our imagination gates, leaps for the calcium solely in anticipation of bawdy dividends. A "bath tub girl," who was not a "star" before she undressed, does not become one, in reality, by the process of vulgarly. When the country turns down on such exploitations, whether on stage or screen, it is not so much an effort at protecting mass morals as it is a refusal to put a premium on the business of wrongdoing. The American Federation has spoken for decent America—and, happily, for most of our showmen as well.—Grand Rapids Herald.

## Announcement

To the Electors of this Senatorial District:

"In accordance with the wishes expressed to me by many of the good citizens of this and other countries in this Senatorial District, I am announcing my candidacy for the nomination of the Republican Ticket for State Senator.

"I am a thorough believer in northern Michigan and will support every worthy measure that tends to its development and good. The splendid road and transportation program in upper Michigan of the present administration should receive the backing of every citizen of this district and I shall support as well every other measure of Governor Groesbeck for progress whose untiring energies for the state's benefit I heartily commend.

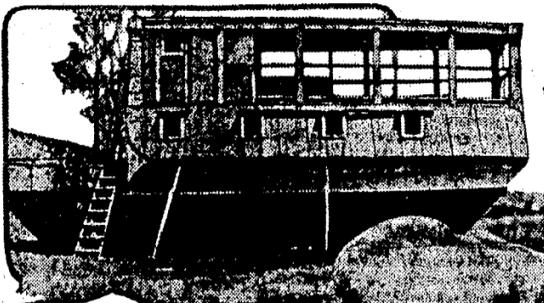

"It will be my earnest endeavor, if nominated and elected, to represent the entire district and every citizen in it; to work for unity and harmony in the district, for our interests are all common; and to promote and advance the welfare of northern Michigan and its people. We have a wonderful country here and it will do the rest of the people of this state good to know just how good our northern country is.

C. A. CAMPBELL.

## Simple Mixture Makes Stomach Feel Fine

Simple buckthorn-bark, glycerine, etc., as mixed in Adlerika, often helps stomach trouble in TEN minutes by removing GAS. Brings out a surprising amount of old waste matter you never thought was in your system. Stops that full, bloated feeling and makes you happy and cheerful. Excellent for chronic constipation. Adlerika works QUICK and delightfully easy. GIDLEY & MAC, Druggists. adv.

## May Cross Ocean in Strange Craft

To cross the Atlantic in this strange craft, a Catamaran launch-houseboat, is the dream of C. F. Wilmer, seventy-nine, of Kansas City, Mo., who left the sea when nineteen. Ships of all sorts have been his hobby for years, and the new craft was evolved, a houseboat with dual hulls. Two gasoline engines drive the paddle wheel. The craft can accommodate eight persons, is 45 feet long and 15 feet in the beam. At the right is Mr. Wilmer.

## Hay Making Demonstration

Will Demonstrate New System Of Curing Alfalfa.

Plans are rapidly being made for the big hay making demonstration to be conducted by experts of M. S. C. on July 6th. The farm of J. H. Noble, one mile south and west of Advance on the East Jordan road has been selected as being central for the entire County as possible and as having the proper set-up for this big event.

The hay crop is the most valuable crop grown in Michigan, and at the same time one of the most neglected. During the last ten years, the average value of this crop exceeded that of any other. V. H. Church, State Crops Statistician, reports that the hay crop was worth \$57,969,000 per year to the State of Michigan; this exceeded its nearest rival, corn, which is valued at \$52,855,000.

## Save \$5.00 to \$10.00 Per Ton

Michigan's hay crops are highly perishable goods and must be handled with some degree of judgment if one is to obtain the best results. Improper curing and handling methods are responsible for a large portion of the poor quality hay that is produced. This means a direct loss to the grower, not only in a lower grade hay if he desires to sell on the commercial market, which often results in his securing \$5 to \$10 a ton less than market price for good hay, but also an actual loss in the feeding value of the hay.

In these northern states, the hay crops are one of the most basic crops grown on the farm. Without such a crop upon which to base rations for livestock, much of the profits from such an industry would be erased. Crops unusually high in that much desired food factor, protein, need to be handled so that very little, if any, of this material is lost.

The character of alfalfa, having a comparatively small leaf surface with large succulent stems, makes it one of the hardest crops to handle without loss of its valuable properties.

## Quality of Hay

Quality of alfalfa hay is the same as in any hay, but the retention of its green color and of its leaf surface are two vital factors in feeding value of this legume. Alfalfa hay must be thoroughly cured so that the stems are dry, otherwise one secures such results commonly called "Mow Burning" with which alfalfa growers are altogether too familiar.

New Methods of curing hay may have been developed which take into consideration these factors that do make up "quality" hay. This system is especially effective in handling alfalfa, since it is a little harder a crop to handle successfully than those grown more commonly. Hay making demonstrations by the Farm Crops Department of the Michigan State College take each step in the handling of alfalfa, from cutting until the hay is cured. These "Hay Days" have been unusually successful in creating interest in better quality hay. It also gives anyone an unusually opportunity of seeing the different hay tools from several prominent implement companies working side by side.

It is expected that the date set for this Hay Making Demonstration will be about right for this year's conditions, but there is a bare possibility that a change in dates will be necessary, so watch the papers for further announcements and make your plans to be there.

## Spiritualist Meetings

First Spiritualist Church of East Jordan will hold services in the Saints Church on the West Side, Friday evening at 7:30. Rev. H. L. Sauger of Muskegon, the Divine Healer, will be present. Music in charge of Mrs. Edith Sauger, Lecture and Messages by Rev. Rev. Dryden of Grand Rapids. You are cordially invited to attend. Services will be held at same place Sunday afternoon 2:30 standard time, same speaker at both services. Come and join us in a happy time.

Clara Kidder, Sec'y.

Most any parent will go to the commencement exercises to see young Willie show up the neighbor's children. We have often wondered why the belligerent men become jellyfish when some smooth talker begins to pat them on the back.

## STATE NEWS IN BRIEF

Lansing—Atty. Gen. Andrew B. Dougherty ruled recently that when automobile drivers' licenses are revoked for recklessness or driving while intoxicated, they must remain invalid for the period designated by the trial judge. Neither the court nor the Secretary of State has the power to reinstate the license prior to the expiration of the term, he held.

Monroe—The fortieth reunion of the famous Seventh Michigan Volunteer infantry, formed here in 1861, is to be held here during the historic pageant, June 22-24, according to a letter received here from President Major Robert C. Knaggs, permanent president, Evanston, Ill. Burton S. Knapp, general chairman of the pageant, has invited the veterans to participate in the parade.

Detroit—A load of experimental cattle, which were fed at the Michigan State College during the past winter, were sold recently at the top figure of \$11 per hundred pounds. These cattle weighed over the scales at an average of 837 pounds, and were classed as prime baby beef. Their average weight at the beginning of the experiment in November was 406 pounds and the cost in the lots \$8.50 per 100 pounds.

Lansing—The Michigan Education association is working out plans for selection and distribution of reading circle books for schools of the state this fall and winter. At a recent meeting of the executive committee action was taken to bring about the service. Distribution of the books will be handled through a special reading circle board which will maintain an approval list of books, from which each school may make its selection.

Northville—Miss Avis M. Brown, daughter of E. E. Brown, editor and publisher of the Northville Record, will act as valedictorian of the class of 1926 of the Northville high school at its graduation exercises. She has the highest average attained thus far by any graduate of the school, her standing for the school year being 97.52. Miss Brown is editor-in-chief of the school's annual paper, the Palladium, and the accompanist for the glee club.

Ann Arbor—Jazz music has failed to justify its existence in the opinion of Dr. Clarence Cook Little, president of the University of Michigan, who delivered the principal address at the thirty-first annual commencement of the University School of Music. Dr. Little declared that modern music, like modern painting, "lacks beauty" and owes its origin to the efforts of producers seeking to satisfy a pleasure-mad and novelty-hungry public.

Grand Rapids—Increased competition among Grand Rapids milk dealers has forced the price down to the point that some of the smaller dealers are offering raw milk at eight cents a quart. It is said that there were never so many dealers in Grand Rapids as at the present time. A plentiful supply of milk, a good demand for the product and the competition has so upset the market that the retail prices range from 12 cents per quart to the new low figure.

Lansing—Failure of several bus companies to enforce compliance with speed laws for motor vehicles may result in license revocations, Sherman T. Handy, chairman of the Public Utilities Commission states. Letters advising operators of the 30-mile per hour limit were mailed to all companies some time ago. Since then, flagrant violations and disregard of the warning which have often resulted in serious accidents, have been reported to the commission.

Lansing—Possibility that unforeseen difficulties may arise in state highway plans is seen in an injunction granted by the Michigan Supreme Court to Charles A. Hendershott of Jackson county, to enjoin the state highway commissioner from completing work on land condemned for highway purposes. Hendershott sought an injunction under the contention that land can be condemned only for highway purposes by a jury of freeholders, and then only in the case of necessity.

Ypsilanti—Construction work on the railroad which is to connect the main line of the Michigan Central with the proposed new Ford textile plant three miles southeast of here, is expected to begin at once. The Ford Motor Co recently advertised for men to work on the railroad. It is proposed to erect a \$8,000,000 plant near here for the weaving of upholstery cloth for enclosed cars. It is to be operated by power furnished by a hydro-electric plant on the Huron River south of Ypsilanti.

Clare—The State Association of Farm Mutual Insurance companies held a two day session here, June 9 and 10. It was largely attended by delegates representing the companies in every section of the state, insuring \$2,000 farms carrying \$1,000,000 insurance. The attendance was larger than any previous meeting of the association. Efforts, extending over a period of nine years, to adopt a standard form policy, were successful after a full afternoon session by a 70 per cent vote of delegates present.

## Art in Millinery Is Again in Demand

No, no, dear lady, you cannot put on a plain little cap-like head covering—and consider yourself properly hatted, these days. It just isn't done. If you are of any importance, then your hat is important. Madam La Mode has waked up to the fact that of all things, hats are the least negligible, and the milliner's art is again in demand.

Here are three examples of beautiful and interesting millinery, such as discriminating women are wearing—three smart versions of the trimmed hat. They are guaranteed to lend something of their charms of line and color to their wearers—to enhance the loveliness of beautiful faces and to flatter plainer ones, thus fulfilling the mission of hats.

## A L B A

Mr. and Mrs. Carroll of Central Lake were Alba visitors Saturday.

Dr. and Mrs. Leighton left Tuesday for their home in Hopkins.

Mrs. Childs and her nephew, Rastus Bush, visited at the home of Mr. and Mrs. Bolard at Mancelona Sunday.

Miss Miller of Detroit visited at the homes of C. Diamond and A. Ashbaugh on her way to her father's farm, where she and her father will spend the summer months.

Geo. Fuller has a new car, and C. E. Osterout also.

A fire was started in the blacksmith shop Friday night, but fortunately was discovered in time to prevent a great loss. This is the second attempt to destroy the shop. The first attempt was successful but Mr. Ehle rebuilt a year ago. The suspected parties are lodged in jail.

Most people will take a chance on a sure thing.

Big words do not always mean big thoughts.

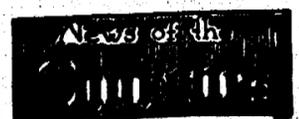

## Drink Water to Help Wash Out Kidney Poison

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink; which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

## First Methodist Episcopal Church

Rev. Henry Hiles, Pastor.  
"The Friendly Church."  
Thought for the week:

The Sunday School rally with Jordan River Sunday school last Sunday was one of the best held in the country for a long time. It is estimated that more than a hundred and fifty people attended this meeting. A fine program was given by Green River and Jordan River Sunday schools in the forenoon. Songs by Mr. and Mrs. Burkholder, and Mr. and Mrs. Wijafoog of Green River and by Miss Caukin's pupils of Rockery school was rendered. In the afternoon Rev. G. A. Weaver gave a talk on Sunday school work, and Rev. Mills of Mancelona preached a very inspiring sermon. Much credit is due for the success of the meeting to Mrs. Carl Brown, Mrs. Claude Sweet and others who helped in preparing the program and refreshments. This was a day to be remembered by Sunday school workers of Jordan Sunday school and it is hoped the good work will continue.

On the Fourth of July all the Sunday Schools will rally at Twin Bridges.

Brother Moore and Brother Vance's people were also present and aided in the exercises.

**FOR A HEALTHY, HONORABLE, NATURAL OLD AGE**

Keeping the body in good physical repair is the best possible insurance for a healthy, enjoyable, natural old age. Kidney ailments are especially to be avoided, not only for the pain, distress and weakness suffered, but because the lurking poisons left in the system by impaired kidney and bladder action are a frequent cause of other painful disorders. Foley Pills, a diuretic stimulant for the kidneys, are a reliable, valuable medicine, that promote healthy normal action of kidneys and bladder. Satisfaction guaranteed.—Hite's Drug Store.

**On that fishing-trip remember the family Use long distance**

Long Distance will prove an added convenience on your fishing trip—especially in calling your family. In a few minutes you can have your wife on the telephone. You hear her voice. You talk with her. You know immediately how everything is. There is no waiting for a reply. It's almost as good as being there for those few minutes.

Long Distance rates are remarkably low. And on "Anyone" calls, after 8:30 at night they are approximately half the day rate.

Call "Anyone" call is a call on which you will talk with anyone who answers the telephone.

**Motor Trails Are Calling You**

A car of your own—a wonderful country to explore—you can travel with the carefree joy of a gypsy! Near you—wherever you may live—are thrilling pleasure places. The Middle West is full of romance, wonder and beauty—waiting for you at every turn of the road.

Fill the tank with Red Crown, get a road map, and start tomorrow. This list is a mere suggestion of the joy ahead—on the highways of the Middle West.

- 1—Harney's Peak, South Dakota, the highest point between the Atlantic Coast and the Rocky Mountains with the "Cathedral Spires" down its sides. State Highways No. 36 and No. 85.
- 2—Fort Riley, Kansas, the largest cavalry school in the United States. Union Pacific Highway No. 10.
- 3—The north woods of Michigan, at the lower tip of the upper peninsula, the home of deer and other game. Use the picturesque Mackinaw Trail. State Highway No. 11.
- 4—A huge bowl of solid rock, thirty feet deep—the novel Round Spring of Missouri. Water flows from this spring to join Current River, one of the swift, clear streams of the Ozarks. Round Spring State Park, twelve miles north of Eminence on Highway No. 19.
- 5—The Pembina State Park, North Dakota, at the junction of the Red and Pembina Rivers. Includes the site of the first trading post in the state built by Chabotz in 1797. State Highway No. 1.
- 6—Elsah, Illinois, a little medieval town, narrow streets, houses abutting the walks—a picture of peasant Europe. Near East Newbern which is on State Highway No. 3.
- 7—Little Wall Lake, Hamilton County, Iowa. Wonderful pond lilies—the rare red shield lily (Brasenia). Near Jewell, State Highway No. 15.
- 8—The Mississippi Headwaters District of Minnesota. Hundreds of lakes of all sizes. Finest fishing. Wild rugged country where the pine forests begin and wild life is abundant. Grand Rapids on State Highway No. 8, Walker on State Highway No. 19.
- 9—Clam and pearl fisheries about Prairie du Chien, Wisconsin. State Highway No. 35.
- 10—Marengo Cave, Crawford County, Indiana, most beautiful limestone cave in the United States, but not commonly known except to scientists. State Highway No. 22 from Indianapolis.

Motoring is sheer delight on the smooth highways of the Middle West. You can penetrate to the most remote corner of the country in your car, for you will find good roads and Red Crown Gasoline everywhere, throughout the entire Middle West. The Standard Oil Company (Indiana) has established Service Stations for your convenience along all the roads of this great section.

Perfect motoring facilities are for you to enjoy. Heed the call of the wanderlust—there's joy ahead.

take to shift the treasure Cap'n Murray had ye bury on the Dead Man's Chest? Moira's nose remained in air. "If ye were not afraid of the hard work it would maybe take ye as much as the half of a watch," she answered. He addressed me with equal respect, requiring confirmation of what she had said. I gave it, as did Peter. "And is it far from the shore?" he asked her then. "Some would say yes, and some might call it over near," she flashed. At that Bones slid off his barrel. "Tamin' is what I said ye needed, and tamin' is what ye'll get, my girl."

CAN'T BEAT "TIZ" WHEN FEET HURT Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath. When your feet feel like lumps of lead—all tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions. There's nothing like "Tiz." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. A few cents buy a box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.

### Roman Hard Roads

Hard roads of the Roman empire were constructed chiefly between the Second and Fourth centuries after Christ. They varied in width from eight to fifteen feet. Soldiers, slaves and criminals did the work. Some of the roads withstood traffic for 2,000 years without material injury. Twenty-four roads converging at the Roman forum had a total Roman mileage of 52,904. (© 1926, Western Newspaper Union.)

**PRIMARY COST PUT AT OVER \$2,000,000**

*Record Sums Are Shown to Have Been Expended in Pennsylvania.*

Washington.—Revelations to the senate committee which is making an investigation into the political slush fund, brought the total expenditures in the recent Pennsylvania senatorial primary struggle thus far disclosed up to over one and a third million dollars. The total, as read into the record by Senator LaFollette was \$1,891,000, and the end had not been reached.

The total expenditures thus far brought out for the Pepper-Fisher ticket in themselves soared above \$1,000,000. They are computed at \$1,048,000. Adding to these \$195,000 for Pinchot and \$71,000 for Vore's personal contribution and \$79,000 expended for him in Allegheny county, makes the total of \$1,891,000.

It is now generally expected that it will be shown the total expenditures in the recent primary exceeded \$2,000,000, the largest ever brought to the attention of a committee of congress.

The possibility that Mr. Vore, if elected senator, will be subjected to a senatorial committee investigation before he is assured of holding his seat, is being discussed.

**WASHINGTON BRIEFS**

Announcement is made by the State department that the United States will not recognize as the government of Nicaragua the regime now headed by General Chamorro.

Secretary Willbur announced selection of Admiral C. F. Hughes, now commanding the battle fleet, to be commander in chief of the United States fleet, succeeding Admiral S. S. Robison September 4.

The house has been asked to grant an appropriation of \$375,000, all but \$25,000 of which is to be used in constructing a new roof, attic and ceiling for the second floor of the White House. The \$25,000 is to be placed at the disposal of the President to pay rent on temporary quarters.

Gen. John J. Pershing has sailed to France for an inspection trip in connection with his work as head of the battlefields monuments commission.

Plans have been made by the women's bureau of the Department of Labor for an investigation of the effect of special laws regulating employment of women in industry.

**Drys Win by Narrow Margin in Committee**

Washington.—By a margin of a single vote, President Coolidge's ukase authorizing 10,000 state and local police to become members of the national dry army was saved from repudiation by the house judiciary committee.

The committee voted 8 to 7 against the resolution of Representative Britten, Republican, of Illinois, which would forbid state and local employees from accepting any federal jobs.

**Republicans of Iowa Plump for Brookhart**

Des Moines, Iowa.—Returns from 2,488 precincts out of 2,447 in Iowa for United States senator (Rep.) in the recent primary give: Brookhart, 207,218; Clark, 68,032; Cummins, 185,855; Eickelberg, 5,030; Reardon, 7,100.

Returns from 2,238 precincts out of 2,447 for United States senator (Dem.) give: Files, 11,865; Finch, 7,504; Murtugh, 12,274; Porter, 25,870.

**Water Levels to Be Discussed by Board**

Ottawa, Ont.—An agreement has been reached between the Canadian and United States governments for an investigation of the continued recession of the escarpment of Niagara falls and also to study the possibilities of further water diversion for power development purposes on both sides of the boundary. The two nations have agreed upon a board of four members.

**Sanford B. Dole Dead; Once Ruler of Hawaii**

Honolulu.—Sanford B. Dole, president of the republic of Hawaii at the time of its annexation by the United States, died here.

He served as the first and only president of the republic of Hawaii, whose existence lasted from 1894 to 1900, which was later forgotten.

Mr. Dole was the son of Daniel and Emily Ballard Dole, American missionaries.

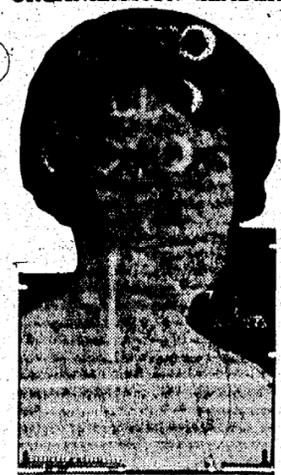

**How at Disarmament**

Geneva.—France reiterated the stand previously taken at disarmament discussions, that land, naval and air armaments cannot be treated separately if effective measures for disarmament are to be enacted.

**Michigan Man Honored**

Philadelphia.—Wilbert Hamilton Barrett, Adrian, Mich., was elected president general of the Sons of the American Revolution at the thirty-seventh annual meeting.

**ORGANIZATION LEADER**

Mrs. Frances Buell-Holmes Olson of St. Paul, Minn., national president of the Degree of Honor Protective association; presided over the sessions of the organization in Chicago. Representatives of more than a thousand lodges with 100,000 members were present.

**BROOKHART GOES TO URGE FARM RELIEF**

*Victor in Iowa Primaries States His Position.*

Washington, Iowa.—Col. Smith W. Brookhart, nominated over Senator Albert B. Cummins in the senatorial primary on a platform that included farm relief as its principal plank, has accepted the voters' mandate on that issue, he announced, and left for Washington in an effort to obtain farm legislation during the present session of congress.

"And I mean real legislation that will take care of the farm problem, not a makeshift," he added.

Brookhart will work with the committee, which still is represented at the national capital, in an effort to bring the differing factions in the house and senate together on an agricultural bill. He favors the principle of the Haugen measure, although before he was unseated two months ago he introduced a measure proposing a large agricultural loan.

**Revise Constitution, Victor Berger Urges**

Washington.—Representative Victor Berger (Soc., Wis.) introduced a resolution in the house proposing revision of the Constitution by a constitutional convention.

Mr. Berger asserted that the United States has outgrown the Constitution which was adopted when a great part of the nation was then primeval forest. Changes which Mr. Berger would make include the elimination of the Eighteenth amendment, the placing of more teeth in the first amendment, the Fourteenth amendment, the Fifteenth amendment and a change which would make it impossible for the Supreme court to pass upon the constitutionality of acts of congress.

**Report Heavy Damage by Floods in Rumania**

Berlin.—Hundreds of persons are reported to have been drowned, the harvest annihilated and railroad and wire communications wrecked, as a result of the flood catastrophe which has inundated Rumania and spread to neighboring countries as far as southeastern Germany.

Troops have been mobilized in Rumania, Germany and Saxony to rescue the imperiled populations.

A large section of Rumania has been devastated. Villages have been swept away and bridges destroyed.

**Sale of Vessels Cuts Down Board's Expenses**

Washington.—President Coolidge has been told by Chairman T. V. O'Connor that the United States shipping board will save \$5,000,000 out of its appropriation of \$24,000,000 for the fiscal year ending June 30. Operating costs have been so cut through the sale of government ships to private owners that the board will be able to carry on easily under the \$18,000,000 allowed next year.

**National Farm School Seeks Big Endowment**

New York.—The National farm school conference brought its eight-day convention to a close after the 250 delegates had decided to inaugurate a nation-wide campaign to raise a \$15,000,000 endowment fund for the National farm school at Doylestown, Pa. A campaign organization will be set up at once, it was announced, with units in every state.

**Labor Leader Seeks Toga**

Denver, Colo.—Frank J. Haynes, former president of the United Mine Workers of America, announced that he is in the field for the Democratic nomination as a United States senatorial candidate.

**More Money for Veterans**

Washington.—The bill passed by the house appropriating \$7,587,000 for additional compensation for disabled World war veterans was approved by the senate finance committee.

**\$100,000,000 NAVY AIR BILL GETS O. K.**

*Measure Has Passed House; Goes to Conference for Final Action.*

Washington.—Naval aviation received a tremendous boost when the senate passed the navy air expansion bill authorizing the expenditure of close to \$100,000,000 in the purchase of aircraft during the next five years. The measure with certain changes has already passed the house and will now go to conference.

Senate approval of the navy measure marks the passage of the last of the three air expansion measures introduced this year. The civil air bill has already been signed by President Coolidge; an army air expansion bill authorizing the construction of 1,800 airplanes was passed by the senate after receiving house approval. It was sent to conference.

The navy bill provides for the construction of two 6,000,000 cubic feet capacity airships and the building up of the seaplane strength of the navy to 1,600 planes. It also provides for the purchase of a small metal-clad airship for experimental purposes.

The purpose of the bill is to establish an aircraft program for the navy, to fix the number of available useful planes, and to provide a five-year building program to furnish these planes.

Secretary of the Navy Willbur has stated that his department will be able to finance the construction of the additional planes without asking for more funds next year than were appropriated for the uses of the navy this year.

To meet the program laid down, the number of aircraft on hand will be increased from 638 to 1,600 planes and maintained at that figure.

The plans outlined call for the construction of 235 airplanes at a cost of \$12,285,000 before June 30, 1927; 313 planes at a cost of \$18,223,750 before June 30, 1928; 355 planes at a cost of \$17,582,500 before June 30, 1929; 357 planes at a cost of \$18,941,250 before June 30, 1929, and 374 planes at a cost of \$20,048,250 before June 30, 1931. Thereafter 333 planes are to be constructed annually at a cost not to exceed \$17,470,250.

It is estimated the five-year program for airplanes alone will cost around \$85,000,000.

**WASHINGTON BRIEFS**

The house veteran's committee has reported the Thatcher bill to authorize an appropriation of \$1,125,000 for the erection of a veterans' bureau hospital in Kentucky with accommodations for 250 patients.

Thomas B. Brown, forty-six-year-old Washington real-estate operator, was arrested, charged with murder, following the fatal shooting of Miss Frances Voegele, thirty-five-year-old treasury department clerk.

Purchase of the Brödle barge line by the Inland Waterways corporation for service on the upper Mississippi river between St. Louis and Minneapolis and St. Paul has been approved by Secretary of War Davis.

Conditions in the Amazon valley are suitable for the growing of enough rubber to supply the world, provided proper measures are taken to protect the crop against diseases, says James R. Weir, pathologist of the Department of Agriculture.

Totally blind for many years, but carried on the pension roll as merely disabled, Benjamin Garnett, seventy-nine-year-old Civil war veteran of Salem, Ky., has just been awarded back-pension money amounting to \$7,485.

**French Debt Now Up to Senate for Action**

Washington.—The \$6,847,874,000 French debt funding agreement is now up to the senate, with a bitter fight against ratification in prospect.

Without waiting for action by the French parliament, the house approved the settlement by a vote of 236 to 112. Previously it had refused, 202 to 40, to send it back to the ways and means committee pending action at Paris.

As in the house, the opponents are expected to base their objections on the liberality of the terms, which spreads the payments over 62 years in annual installments graduating upward from \$30,000,000 until the full amount, which includes interest, is paid.

**Finger-Print Expert Dies**

Washington.—Walter S. Kaye, chief clerk of the identity section of the War department and one of the greatest finger-print experts in the country, is dead at his home in Occoquan, Va.

**Woman 117 Dies**

Lexington, Ky.—Mrs. Oella Carter, believed to be the oldest white woman in Kentucky, is dead at Ringos Mill, Fleming county, 50 miles north of here, aged 117, according to relatives. She was a native of West Virginia.

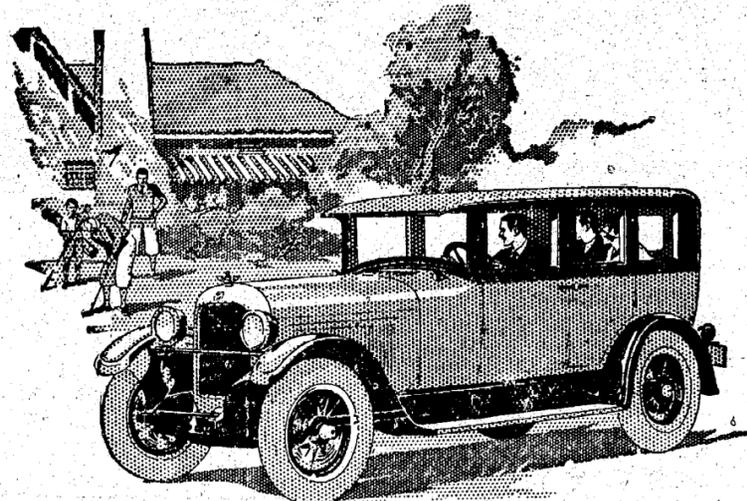

**Five Sent Back to Cells**

Atholton, Kan.—Five of six prisoners who escaped from the disciplinary barracks at Fort Leavenworth have been captured and returned to authorities at the fort.

**For \$1295**

**Four wide doors**—a real sedan in every sense of the word, with surprising interior roominess and luxury.

**Full-size balloon tires**—with specially designed steering gear. Steering and driving qualities unsurpassed.

**Finer body construction**—first grade northern white ash and hard maple are used in the body frames. Body joints are mortised, tenoned, glued or screwed.

**Costly alloy steels**—we pay a premium to secure steels of extra quality. This insures greater dependability with longer life and lower upkeep costs. In 1925, sales of repair parts for all Studebaker cars averaged only \$10 per car.

**Completely machined crankshaft**—a feature of the most expensive cars. This insures perfect engine balance and reduces vibration to a minimum.

**Safety lighting control**—conveniently located on the steering wheel, instead of obsolete spark lever.

**Automatic spark**—regulated by speed of engine. Longer engine life, smoother operation are the results.

**Coincidental lock**—to ignition and steering gear. A single key operates this lock as well as the locks on the door and the spare-tire carrier.

**Gasoline gauge on dash**—speedometer, oil-pressure gauge and ammeter in oval group. Instrument board backed by wood to eliminate rattles.

**Complete equipment**—includes automatic windshield cleaner, rear-view mirror, dome light, attractive cowl lights, stop light, natural wood wheels.

**Form-fit upholstery**—utmost riding comfort provided by an advanced feature of seat back and cushion design, found elsewhere only in high-priced cars.

**Durable finish**—a rich Studebaker finish, with ivory striping, assures permanent beauty and lasting lustre.

**Oil filter, gas strainer and air cleaner** seal the engine against foreign matter, thus assuring longer life.

**Water-proof ignition**—even the spark plugs are protected from moisture by rubber shields.

**Oil drain valve** is conveniently located under the hood. Oil may be drained without getting under the car.

Our new slogan: God save the pedestrian.

Bragging is often synonymous with lying.

The summer garden is now growing, and the most favorable things are being heard. But, there'll come a time.

Let all citizens keep their premises clean and attractive; this will make East Jordan impress strangers within the gates.

**It's as Far as We Get**

Progress consists of swapping old troubles for new.—Columbia Record.

Whadye-mean, farm relief? Politics are beginning to warm up; there seems to be a scarcity of good jobs.

We can remember the time when nobody objected to a few flies on the table.

This is the time of year to imitate the man with the hoe.

The women who complain about the money thrown away on tobacco, probably think that styles have never caused women to buy new clothes.

Competition in the oil and gas business works this way: One company increases the price a cent a gallon, and all others meet the competition by meeting the raise.
