## Dicken For State Senator

### East Jordan Man Well-Fitted For That Office.

In printing the announcement of the candidacy of Doctor Hugh W. Dicken for the office of Senator from the 29th Senatorial District, the "Herald" would feel it had neglected a duty if we did not present some of the qualifications of the candidate with a short sketch of his activities in our midst.

"Doc" was born at Romeo, Michigan, fifty years ago, attended and graduated from the Romeo High School 1893, later attending the University of Michigan and graduating from the Department of Medicine and Surgery of the University in the year 1898, having played end on the University football team in the year 1895.

Locating first in Emmet County, where he was united in marriage with Miss Susie G. Dickenson, daughter of the late Colonel Dickenson, who was for many years County Clerk of Emmet County.

Twenty-five years ago the doctor located at East Jordan, where he has enjoyed a lucrative practice and gained an enviable reputation in his profession.

During the world war he offered his services to his country, being two years in the American Army, ten months overseas, returning with the rank of Major, 317-Engineers.

Being interested in the welfare of his comrades, he has been active in American Legion work, and is at present Finance officer of "Rebec-Sweet Post" No. 227 of the American Legion.

His busy professional life has not kept him from doing his share in connection with all civic matters. Now serving his third term as Mayor, and for several years a member of the School Board.

As a friend and neighbor he is unexcelled, in public life he has been progressive and sincere in all things, and his work shows the result of honest, painstaking, conscientious service.

In choosing a successor of Mr. Pearson, the voters of the 29th Senatorial district can make no mistake in supporting Doctor Hugh W. Dicken.

## For State Senator

To the Citizens of the 29th Senatorial District of Michigan.

Having been urged by many to become a candidate for the Senate from this district, and Mr. Pearson having stated to me that if I was candidate he would not seek third term, I have decided to submit my name for your consideration at the coming primaries, on the Republican Ticket, assuring you that, if I am chosen to serve you in such a capacity, I will do my utmost to prove worthy of such confidence bestowed in me.

Sincerely yours,  
HUGH W. DICKEN, M. D.  
East Jordan, Michigan.

## Death By Fireworks

July the fourth, the anniversary of the American Declaration of Independence, will soon be here, making the passage of one hundred and fifty years since that historic event. This day is usually celebrated widely, but, unfortunately, the celebration takes a large toll of the life as a result of carelessness in the handling of fireworks.

111 persons were killed and 1,030 injured by fireworks as a result of the celebrations last year, according to figures of the United States Public Health Service. Of those injured it was reported that 148 would lose the sight of one or both eyes. These casualties were reported from thirty-six states, leaving twelve states without any reports as to similar accidents.

The useless death of so many people is to be deplored. It is not necessary at all for the proper memorial of our national birthday.

## Giant Locusts

In certain parts of Africa the locusts are said by explorers to grow to an extraordinary size. In some places, it is reported, they attain the length of four inches and eat mice as their ordinary food.

## Sad but True

The pastor who was fond of figures of speech was making a funeral oration. He began his address: "Friends, we have here only the shell of the man, the nut is gone."—Good Hardware.

## Green And His Band For Chautauqua

So great has been the demand for return engagements of Green and His Band, the famous musical organization which two years ago delighted Chautauqua audiences on the circuit of which our community is a part, the program builders have arranged for a return tour. We are very fortunate in getting this great band this season. Good music presented in a way which keeps the audience wondering what pleasing surprise is coming next, is but one of the reasons for the popularity of this band. It will be the feature on the third afternoon of our Chautauqua.

The three act dialect comedy "The Bubble" is the attraction for the opening night session. This is a delightful play, presented by an all-star cast, headed by Arthur J. Beriault, veteran character actor. Another dramatic production of quite a different type is the spectacular and factastic play "A Message from Mars." Scenically this is said to be one of the most pretentious presentations ever offered to Chautauqua patrons and it will undoubtedly be a fitting climax to the week's entertainment and enjoyment.

Dr. Harry G. Hill, in a psychology lecture, "An undiscovered World" and Ward B. Flaxington in his challenge lecture "The Patriotism of Peace" and Ethel L. Irwin in an interesting travel lecture on "Mexico" will interest the lecture going and information seeking citizens.

Frye & Co., Magicians and Illusionists, with two musicians in the company, will provide on the second day, programs which will surprise and mystify all, while The Harmony Maids on the fourth day will present a program of songs and beautifully costumed novelty numbers which will appeal to every one.

On the whole, the dates July 11th to 15th promise to bring to this community a program of surpassing interest and one which merits and will undoubtedly draw a greater attendance than any of previous seasons.

East Lansing—The best kind of patriotism is that which estimates other nations not from their points of weakness but from their points of strength, declared Bishop Francis J. McConnell, of Pittsburgh, in his address, "Social Imagination," delivered at the commencement exercises at the Michigan State College. "The greatest failure of the human race up to the present time," he said, "has been the failure of groups of men to live together without fighting."

Lansing—A decided increase in tourist traffic has compelled the state to put the second ferry in service on the Straits of Mackinac run from the Lower to the Upper Peninsula. It is reported by the State Highway Department. The number of cars being transported is estimated as 35 per cent greater than at the same time last year. The first ferry was put in operation several weeks ago. Both craft have been enlarged and their capacity is double what it was in 1925.

Grand Rapids—Grand Rapids seems the probable choice of the executive committee of the National Purchasing Agents' association for the organization's 1927 convention, according to A. T. McFadyen, of Grand Rapids convention bureau, who has returned from the association's 1926 convention at Los Angeles. Kansas City, and Tulsa Okla., bid for the next meeting, but the committee let it be known the convention will be east of the Mississippi.

Detroit—Through an arrangement with the Griswold National Bank, approved by the governors of the Detroit Stock Exchange, a call money market has been established for members of the exchange. The local rate is approximately one-half of one per cent higher than the New York rate. The call money market is employed by banks to place their surplus funds. They loan usually not only for themselves but also for banks at centers where no such facilities are available.

East Lansing—Three hundred and thirteen Michigan State college seniors, the largest graduating class in the history of the college, received degrees at the commencement program at the college June 21. The degrees were conferred by President Kenyon L. Butterfield. Nearly 3,000 spectators witnessed the commencement exercises, which were held for the first time out-of-doors in the forest of Arden. The site was a natural amphitheater shaded by giant oaks, and temporary bleachers were erected for the crowds.

## Stores Close Thursday P. M.

### Most Merchants Have Agreed To Closing That Afternoon.

In accordance with an agreement signed by most of our merchants, the stores of East Jordan will be closed each Thursday afternoon during the month of July and August, with the possible exception of August 20th. Thursday, July 8th will be the first day.

### The Agreement

We the undersigned merchants do agree to close their store each Thursday afternoon during the month of July and August and stay closed until the next morning.

## Notice Of Annual School Meeting

The Annual Meeting of School District No. 4 of the Township of South Arm, Charlevoix County, Mich., for the election of school district officers and for the transaction of such other business as may lawfully come before it, will be held at the High School Building in East Jordan on Monday, the 12th day of July, 1926, at 7:30 o'clock p. m. Standard Time.

Dated this 1st day of July, 1926.  
C. H. RPAY,  
Secretary.

## City Tax Notice

City Taxes for the City of East Jordan for the year 1926 are due and payable at my office over Hite's Drug Store, during the month of July without penalty. Office hours—9:00 to 11:00 a. m. and 1:00 to 5:00 p. m.

G. E. BOSWELL  
City Treasurer.

## Supreme in Size

The largest city in the world is London (Greater) with a population of 7,476,168. The Nile river, in Africa, is 4,000 miles in length; the Amazon, in South America, is 3,900 miles, and the Missouri river, in the United States, connects with the Mississippi 20 miles above St. Louis, and its total length from source to the Gulf of Mexico is 4,221 miles.

## Changing Public Opinion

Public opinion is powerful even when it mistakes. But when it wrongly judges us we should so live that no one will believe what others may say about us. We can, if we will, revise public opinion concerning ourselves.—Grit.

## E. J. Wins In The 9th

### Locals Hammer Out Six Runs, Defeating Grayling.

After Grayling had the base ball game of last Sunday nicely sewed up at the end of the eighth inning by a six to one score, the East Jordan team went on a batting spree, every man up getting a hit. The winning run was put across when Johnson made a wild peg to third allowing a walk home, with only one out. Owing to a lame arm, D. Laurent was in the box for Grayling, and up to the 9th when Johnson essayed to stop the slaughter.

So far this season, the East Jordan team has three wins to its credit without any loss, which is self-evident that the local team is a strong one. Next Sunday and Monday East Jordan plays at Grayling, and on the 11th go to Harbor Springs.

Attendance at last Sunday's game was still far from being good, only 181 paid admissions being received.

## Spiritualist Meetings

The First Spiritual Church here had a real treat in the services of Rev. H. Y. Dryden, who was with us for ten days. Two public services were held in the Latter Day Saints Church with large attendance, and three message circles were held at the farm home of Ephrem Kidder, and one large circle was held at Central Lake at the Lewis home. There was a baby Christening at the last circle.

An added interesting feature of the meetings was the presence of Rev. H. L. Sanger of Muskegon, power to heal. We are sure pleased to have these noted Spiritualist Mediums and Healers with us, and the music and special songs. Selections were furnished by Mrs. Edith Sanger, assisted by Rev. H. Y. Dryden. We look for his return in July.

## Cure Alfalfa Properly Save \$5 to \$10 Per Ton

Attend the "Big Hay Day" on July 6th at 1:00 p. m. slow time at the farm of J. H. Noble, one mile south and west of Advance and see for yourselves this "new" system of handling alfalfa hay, from cutting to cured product and all the operations and make your own conclusions as to merits.

Mr. L. D. Kurtz—Alfalfa expert from M. S. C., will be on the grounds, as well as representatives from various Implement Companies to demonstrate the various makes of hay making machinery.

It is necessary to use a left hand side delivery rake in this new way instead of the right hand and many wonder where it lies the real advantages of these new left hand rakes. The only real way to determine for yourself is to actually see such implements in operation.

The new system will save from \$5 to \$10 per ton in selling value, cuts your labor charge, saves the quality of hay and increases the yield of succeeding crop as a result of the rapid handling and getting the hay off the ground and in the barn in a short time.

This is the last announcement, so make your plans now and be at J. H. Noble's—promptly at 1:00 p. m. slow time, July 6th, and judge for yourself.

B. C. MELLENCAMP,  
Co. Agr'l Agent.

## Demand Grows For Hairy Vetch Seed

Increased demand for Michigan grown hairy vetch seed, as a result of growing popularity of vetch as a winter cover crop in many of the southern states, is expected by C. R. Megee, of the Michigan State College crops department.

The Carolinas, Virginia, and Alabama are reported to be turning to this crop extensively, and Michigan is the only state which has been producing hairy vetch seed in quantity. No seed is harvested when hairy vetch is used as a winter crop, according to Professor Megee, which forces the South onto the market for its seed supplies.

"Considerable hairy vetch seed was imported from Europe last year at fairly low prices," says Megee, "but it is not likely that the supply from there will increase. The carry-over of European seed is also rather small for this year. Recent market quotations indicate that the price of hairy vetch seed is strengthening quite materially.

"In this state vetch is usually sown with rye, and the practice does not tend to reduce the yield of rye. An average yield of vetch seed is from two to three bushels per acre, and this is considered as so much 'velvet' by the producer. Vetch is a leguminous crop and has a beneficial effect upon the soil. It may also be used for green manuring, hay, and pasture.

"Since the climate, and, in many sections, the soils of Michigan are especially favorable to the production of Hairy Vetch, an increased acreage would not be unwise at this time."

Anyone desiring further information concerning this crop should request circular No. 50, Hairy Vetch, from Director R. S. Shaw, Michigan Experiment Station, East Lansing.

Lansing—The city will entertain the posts of the American Legion of Michigan here September 5 to 7, inclusive. Thousands of world war veterans are expected. It will be the eighth annual convention of the organization for the state.

Detroit—Summer schools opened June 28 with an enrollment of 28,300. It was supervised by Frederick L. DeGalen, supervisor of evening and summer schools. Of this number 19,000 are in elementary schools, 4,900 in high schools and the remainder in continuation schools and colleges.

Grand Haven—Revived after nearly three days' fast while their yacht the Mildred II, drifted in a heavy sea on Lake Michigan, the four Chicago youths who comprised the crew waited here while the craft was being repaired and made plans to resume their voyage on Sturgeon Bay. The members of the crew made this port after having been without sleep throughout the exciting three-day trip.

Well, next Sunday is a good time to go to church.

Who can remember when Saturday used to be wash day?

## Commercial License Plates

### State Department Make Ruling Relative to Same.

The following article from Michigan's Department of Public Safety sets at rest some misunderstanding relative to use of commercial plates.

Lansing, June 28, 1926

Charlevoix County Herald  
East Jordan, Mich.

The following is a statement made by our Department concerning the use of commercial license plates. There has been more or less misunderstanding in the rural districts concerning the use of commercial plates and our department would appreciate if you would publish the following communication:

Act 302 of the Public Acts of 1915 as amended by the Legislature in 1925, which defines "commercial vehicle" as all motor vehicles used for the transportation of passengers for hire and those constructed or used for the transportation of goods, wares of merchandise, might be interpreted as prohibiting the use of pleasure cars for hauling small amounts of grain or produce to town or the hauling of sample cases, camp equipment, etc. However this Department does not place that interpretation on the law. We believe that a farmer or any other citizen has the right to use his pleasure car for the hauling of his own produce to town or for the hauling other articles of merchandise for himself, without being compelled to purchase a Commercial License for the car. We believe that the Legislature intended this particular section to apply only to those vehicles used or constructed solely for the purpose of hauling passengers for hire or for hauling freight.

This department will not make any arrests for alleged violations of this section of the law where a pleasure vehicle may be used to haul produce or personal goods by the owner.

Alan G. Straight, Comm'r  
Department of Public Safety.

## Mother To Play At Farm Women's Meet

That the first annual Farm Women's Institute, to be held at the Michigan State College July 24 to 30, will be looked upon as a recreational time by the fact that the event has been nicknamed "Mother's Vacation."

There will be plenty of "serious" side to the program for the week's gathering, but most of the farm women and city housewives who attend will view the meeting as a big vacation from the routine of their daily program at home.

With the opening of the institute still nearly a month away, 105 women had already enrolled this week, with more checking in daily. Rooms in the college dormitories will be reserved for visitors.

In addition to the special recreational features of the program, various definite topics will be up for discussion at the meetings. Poultry, horticulture, home economics and other subject matter will be included in the "school" of the week.

Among the prominent out-of-state speakers listed on the program are: Mrs. Henry Aitken, of Beton, Ontario; Mrs. Charles Schuttler, second vice-president of the American Country Life Association; Miss Bess Rowe, St. Paul, Minnesota; field editor of the Farmer's Wife magazine; Miss Florence Ward, of the United States Department of Agriculture.

The Farm Women's Institute will close on Friday, July 30, which is Farmers Day at M. S. C. this year.

This is a good time of the year to look for old cans and other utensils which might hold water and breed mosquitoes.

## "TIZ" FOR TIRED, PUFFED-UP FEET

The minute you put your feet in a "Tiz" bath you feel pain being drawn out and comfort just soaking in. How good your tired, swollen, burning feet feel. "Tiz" instantly draws out the poisonous exudations that puff up your feet and cause sore, inflamed, sweaty feet. "Tiz," and only "Tiz," takes the pain and soreness out of corns, callouses and bunions. Get a box of "Tiz" at any drug or department store for a few cents. Your feet are never going to bother you any more. A whole year's foot comfort guaranteed.

## LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair. Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

## Remains Of Mrs. A. E. Cross Laid To Rest

Miss Hetty Mudge was born at St. Thomas, Ont., July 18, 1868, her parents being Mr. and Mrs. Elkanah Mudge. She came with her parents when about 11 years old from Canada to Torch Lake, Mich. On May 24, 1887 she was married to A. E. Cross. A few years later they located at Charlevoix, Mich., and in 1907 they came to East Jordan. About eight years ago they left here and located at Fairfield, Wash. Mrs. Cross passed away at Sacred Heart hospital at Spokane, Wash., Monday morning, June 21st, following an operation on Saturday. Funeral services were held at Spokane. The remains, accompanied by the daughter, Mrs. Howard Porter of this city, arrived here Tuesday morning. Funeral services were held at the home of Howard Porter. Rev. Sidebotham conducting same. Interment at Sunset Hill. Deceased is survived by her husband, two sons, Victor Cross of St. Anthony, Idaho, and Bruce Cross of Fairfield, two daughters, Mrs. Lola Benford of Mt. Pleasant and Mrs. Maude Porter of East Jordan. Also her parents, Mr. and Mrs. Elkanah Mudge of Central Lake; two brothers, Grant and Jay Mudge of Detroit; and one sister, Mrs. Olive Hamilton of Grand Rapids.

## TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth. It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles' Mentho-Sulphur from any good druggist and use it like cold cream.

## COOLIDGE FOR FESS PLAN FOR FARM AID

**President Issues Statement Urging Passage of Sound Relief Measures.**

Washington.—President Coolidge has appealed to the American people, over the heads of farm bloc leaders, in behalf of agricultural relief.

His appeal was issued within a few hours after the corn belt senators, at a meeting presided over by Senator Watson of Indiana, had decided to throw all agricultural legislation overboard.

Following is the text of the President's statement:

"One of the perplexing questions before the congress is to determine what will be most helpful in relieving agricultural distress. The congress has already rejected certain definite proposals. But that does not relieve us of the desirability of attempting to secure constructive legislation.

"Since the war the congress and the administration have devoted painstaking efforts to strengthening the agricultural situation. During the post-war slump a great disparity arose between prices of agricultural commodities and those of industrial commodities which the farmer must buy. This is still true in certain sections and certain commodities.

"Much legislation has been enacted and much administrative action has been taken which has already resulted in improving the farm purchasing power. But all the legislations, helpful though they are, are not sufficient to cover all branches of the industry. The farmer has suffered greatly and, no doubt, disproportionately from the effects of deflation. He is entitled to relief if it can possibly be given on a sound basis by the government.

"I know the committees of agriculture and the congress and the President have all given the most careful thought and spent much time in seeking remedies to afford relief. I want the best method adopted which promises relief along these lines. Certainly, no one can charge that the problem has been neglected.

"Constructive action has been repeatedly proposed from various sections of the agricultural community. These proposals provide for the creation of a farm marketing board whose duty is to secure a better adjustment of agricultural production, the larger development and consolidation of farmers' marketing associations under their own control, and embrace the placing of \$100,000,000 of public money for working capital at the disposal of such farmers' controlled marketing associations, through such farm board, for the purpose of better stabilizing their markets, improving their marketing machinery and the eliminating of waste in distribution.

"This form of legislation would support the whole of the agricultural industry—in the North, the South, the East, and the West—both large and small—not any particular section or segment.

"I am in favor of this type of legislation and I am convinced that immediate action along such lines will profoundly assist the farmers. I believe that the farmers should be provided with these advantages. It seems to me that such a proposal is embodied in the bill offered by Senator Fess on June 16, and which he has proposed to offer as an amendment to the pending co-operative bill which has passed the house and is now before the senate."

## Lowden Studies Denmark System to Help Farmers

Copenhagen, Denmark.—Frank O. Lowden, former governor of Illinois, is here trying to find out if it is possible to use Danish agricultural methods to help the American farmer.

Mr. Lowden, accompanied by a leader of the Danish Agricultural association's superior council, left the rural districts to study the different experimental farms established by the Co-operative Agricultural association and supported by the state for the purpose of finding better methods that will be beneficial to Danish farming.

## President Coolidge Has O. K.'d Aviation Measure

Washington.—President Coolidge has signed the naval aviation bill authorizing the construction within five years of 1,600 airplanes, two superdirigibles and one smaller dirigible for experimental purposes at an estimated cost of \$85,000,000. It is estimated that at the end of the five-year period 800 planes will have been discarded as obsolete and the navy will have 1,000 of the most modern type.

## Heads American Nurserymen

Louisville, Ky.—Earl E. May of Shenandoah, Iowa, was elected president of the American Association of Nurserymen here.

## Woman Hanged in England

London.—Mrs. Louise Calvert was hanged in the Strangeway jail in Manchester for strangling her landlady, Mrs. Lilly Waterhouse, to death and robbing her.

## Costa Rica for New League

San Jose, Costa Rica.—The proposal to form a league or union of New World countries, and to employ arbitration in case of international disputes, was approved by the constitutional congress here.

## Earth's Atmosphere

The atmosphere of the earth is about 1-5 by volume oxygen, ¾ nitrogen, 1-250 carbon dioxide, and a variable proportion aqueous vapor. Besides these there are traces of other common gases, as ammonia, ozone, argon, helium, neon, krypton and xenon. The latter are present in minute quantities only, and are isolated by the employment of low temperatures.

## One's Best Is Demanded

We may not be able to do the best, but it is always possible to do our best, and that is all that is required of us. We are not gifted with another's talent any more than we are called upon to bear that other's responsibility.—Exchange.

## Bank of England Notes

The face value of the banknotes produced each week by the Bank of England is approximately \$100,000,000.

**Six Rules For Preventing Fire In The Forests**

1. **Matches**—Be sure your match is out. Break it in two before you throw it away.
2. **Tobacco**—Be sure that pipe ashes and cigar or cigarette stubs are dead before throwing them away. Never throw them into brush, leaves, or needles.
3. **Making Camp**—Before building a fire scrape away all inflammable material from a spot 3 feet in diameter. Dig a hole in the center and in it build your camp fire. Keep your fire small. Never build it against trees or logs or near brush.
4. **Breaking Camp**—Never break camp until your fire is out—dead out.
5. **Brush Burning**—Never burn slash or brush in windy weather or while there is the slightest danger that the fire will get away.
6. **How to Put Out a Camp Fire**—Stir the coals while soaking them with water. Turn small sticks and drench both sides. Wet the ground around the fire. If you can't get water stir in dirt and tread it down—until packed tight over and around the fire. Be sure the last spark is dead.

Michigan is the nation's playground. Last year 2,500,000 vacationists enjoyed Michigan's natural beauty. And summer visitors spent \$200,000,000 last year in Michigan.

For here are giant forests . . . wooded wilderness rich in primitive attraction . . . wild life . . . an ideal vacation land.

It is the duty of each resident of Michigan to preserve this natural beauty. For each resident benefits by Michigan's resources.

Last year forest fires burned over 725,928 acres. These fires in addition destroyed a proportionate amount of property and the cost to suppress them alone amounted to \$125,042.88.

**THE** constituent lines of the Michigan Railroad Association will expend nearly \$25,000,000 this year for additions and betterments to the respective properties. These outlays will provide for greater safe-guards to human life, more comfort for the traveling public, increased facilities and better freight service.

Michigan Railroads may justly claim more than their modest slogan—**We Serve Michigan.** They have contributed to the upbuilding of the industries of the Commonwealth, as perhaps no other group of rail lines in America has done. Two decades of tremendous industrial expansion justified this far-sighted policy of the railroads.

In encouraging industrial up-building, the railroads have also, in a measure, created a Home Market that absorbs the bulk of the products of our farms, orchards, gardens, etc., right at home. So true is this that with increased production, the railroads are annually hauling farm commodities less and less. All of these—except the hay crop—are consumed at home.

**THIS** tremendous Home Market is the ideal market. But the expansion policy means more. It has created an outlet for similar products grown in other states. The track market at Detroit, for instance, handles 40 different perishable commodities from the cars direct to the dealers—a single transfer only. To illustrate: Fresh tomatoes are found at the green grocers for seven months in the year, thanks to expedited service and the refrigerator car. Shipments are made from Old Mexico and five southern states before the Michigan crop has matured. This is so for the entire list of fruits and vegetables.

With our present railroad system the average wage earner of today enjoys a far wider range of delicacies on his table the year round than did the Kings and Nobles of Europe of a century or more ago.

**THE** Michigan Railroad Association, then, takes justifiable pride in announcing its program of improvements and betterments for the current year which will further aid the state's industrial advancement, give even greater importance to the Home Market, and contribute still more towards raising the standard of living of all the people.

STATE OF MICHIGAN, The Probate  
Court for the County of Charlevoix.  
At a session of said Court, held at  
the Probate Office in the City of Char-  
levoix in said County, on the 30th day  
of June A. D. 1926.

Present: Servetus A. Correll, Pro-  
bate Judge.  
In the Matter of the Estate of Louisa  
E. Loveday Since Deceased.  
The above estate having been admit-  
ted to probate and W. Asa Loveday ap-  
pointed administrator thereof.  
It is ordered that four months from  
this date be allowed for creditors to  
present their claims against said estate,  
and that such claims will be heard by  
said court on Tuesday, the 2nd day of  
November A. D. 1926, at ten o'clock in  
the forenoon, at the probate office in  
the City of Charlevoix.  
It is further Ordered; That public  
notice thereof be given by publication  
of this order for three successive weeks  
previous to said day of hearing in the  
Charlevoix County Herald, a newspaper  
printed and circulated in this county.  
SERVETUS A. CORRELL,

**BIG ENOUGH**

By DOUGLAS MALLOCH

THESE WILL come a time, it won't be  
long,  
When things begin to happen wrong:  
When stockings start to disappear,  
And other happenings as queer  
Will make you wonder now and then  
Where all your gloves are gone again.  
You miss a certain undershirt,  
And father's shouting for a shirt.  
Yes, time rolls on, the day it brings  
They're big enough to wear your  
things.

A father knows, if really wise,  
The meaning then of family ties;  
For time rolls on, the time it is  
The family starts wearing his.  
If new and then he misses one,  
He'll likely find it on his son;  
And even daughters have been known  
To wear the ties that fathers own.  
Yes, overboots or dinner rings,  
They're big enough to wear your  
things.

There comes a time when you declare  
That Sonny's old enough to wear  
A dinner coat; and you decide  
To fill him full of joy and pride  
With yours. But, when you go to seek  
The coat, you hunt about a week,  
And wonder where that coat is gone—  
Then find that Sonny has it on.  
They seldom wait till someone brings,  
When big enough to wear your things.

And yet in this you often find  
A comfort of another kind:  
For children old enough to wear  
Your clothes are old enough to share  
A little of your burden, too—  
And how I hope your children do!  
When sois put on a man's attire,  
When daughters wear a woman's  
seyer,  
The man and woman that it brings  
Are big enough to help with things.

**As Told by  
Irvin S. Cobb**

**THERE'D BE AN UPRISING**

THE revivalist was the mouthpiece  
of a new cult, an offshoot of an  
older denomination. In his inter-  
pretations of the Scriptures he saw no  
possible hope for any members of the  
human family who refused to accept  
his particular brand of religion, as  
distinguished from all the other  
brands.

Before an awe-struck congregation  
at a camp meeting he was describing  
what would come to pass with regard  
to those stiff-necked and perverse non-  
believers who were found outside his  
own fold on the day of judgment.

"My brethren," he declared, "there  
is no middle course. By the word  
of the Holy Writ I have proved to you  
that mankind either must take the  
true doctrine as it has been expounded  
here or accept the awful consequences.  
I can close my eyes and see the awful  
picture right now.

"Over there in shining robes stand  
the little group of the elect and the  
saved. And down below in the fiery  
pits of perdition millions of the unre-  
generate are roasting in the undying  
fires through all eternity while the  
missions of the devil heat hot coals  
upon their heads and give them molten  
lead when they beg for water to cool  
their parched tongues. That, my  
brethren, is what will come to pass."

From the body of the house a small  
elderly gentleman rose up.  
"Excuse me for interrupting," he  
said "but there ain't no chance for  
such a thing to happen. Why, the  
people jist natchelly wouldn't stand  
for it."

**THE WHY of  
SUPERSTITIONS**  
By H. IRVING KING

**WANTING TO SNEEZE**

IF YOU want to sneeze and can't  
sneeze, it is a sure sign that some  
one loves you and does not dare to  
tell you so. This universal supersti-  
tion is a clear case of sympathetic  
or imitative magic, combined with that  
idea of the magical sanctity of the  
sneeze held by primitive man from  
the days of him who first told the  
story of Prometheus down. The  
sneeze is a manifestation of the life,  
the intellect. A young man's love for  
a woman is a part of his spiritual  
being and when the bashful lover re-  
presses it within himself instead of  
letting it manifest itself in words to  
his adored one, this repression acts by  
sympathetic magic upon the object  
of his affections and she can't man-  
ifest her vital ego by sneezing—though  
she feels that she would like to, just  
as he feels that he would like awfully  
well to tell his love. The basic idea  
of the superstition is the false psy-  
chologism of primitive magic—things as-  
sociated in thought are associated in  
fact.

**AN  
ABBREVIATED  
STORY**

**ALICIA POTPOURRI**

"WINONA," said Alicia Potpourri,  
"I've come to get your advice.  
Jack Linotype, who hasn't a cent or  
anything except his good looks, but  
whom I love devotedly, and Chees-  
boro Midge, who has a quarter of a  
million dollars in spite of his bald  
head, have both asked me to marry  
them. What shall I do, Winona?—I  
want your candid opinion."

"Follow the dictates of your heart,  
Alicia—you never make a mistake  
when you marry for love," responded  
Winona Tumbler.  
"Thanks, Winona—it's so hard to  
make up one's mind," said Alicia.

And she went to Camisola Stitchem  
and begged for her candid opinion.  
"Marry Jack—marry for love—true  
happiness lies that way only," said  
Camisola.

"It's so hard to know just what to  
do," sighed Alicia. And she appealed  
to Claudine Sipton for her candid  
opinion.  
"Cop the guy with money," coun-  
seled Claudine. "Love's all right in  
its way, but it don't weight like  
money."

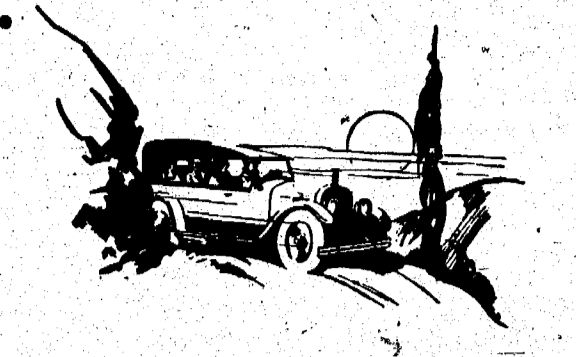

"Claudine, you darling!" cried  
Alicia—"It's so refreshing to get a real  
friend's candid opinion."  
And she accepted Cheesboro Midge  
and seldom regretted it.

**Over the Hills  
and Away!**

In your own car with the carefree spirit of  
youth! Take to the open road—where skies  
are sunny and winds are fresh. Choose your  
way with care or take any road that lures  
you. You will stumble on adventure—romance  
will trip you up—before you've gone many  
miles. For your Middle West is a fascinating  
wonderland of never-ending thrills.

Here's a hint of what it holds!

- 1—The county without a railroad—high, rocky  
picturesque Calhoun County, the greatest  
apple county in Illinois. On a long, ragged  
peninsula between the Illinois and Missis-  
sippi Rivers. Not far from Alton, State  
Highway No. 3.
- 2—Jay Cooke State Park, Minnesota, in the  
valley of the St. Louis River. Rugged coun-  
try and pine forests. Fifteen miles from  
Duluth on State Highway No. 1.
- 3—The Hanging Tree, Versailles, Indiana, for-  
merly used as a gallows for hanging criminals.  
In a vicinity of great historical interest.  
State Highway No. 6 from Indianapolis.
- 4—Valley City, North Dakota, set like a jewel  
on the Cheyenne River with beautiful trees  
and a great viaduct spanning the valley  
high above the river. State Highway No. 9.
- 5—The great dam at Keokuk, Iowa, a mar-  
velous feat of engineering skill. Mississippi  
River Scenic Highway No. 1.
- 6—Deadwood, South Dakota, famous in the  
history of frontier life and still more for  
sunshine, western hospitality and gold pro-  
duction. Graves of "Wild Bill" and "Calam-  
ity Jane" overlook the city. State Highway  
No. 30.
- 7—Lawrence, Kansas, the scene of the famous  
Quantrill Massacre of 1863. Red Star  
Route No. 22.
- 8—Alley Spring State Park, Missouri. The  
spring flows from the bottom of a rocky  
cliff forming a deep, clear blue lake. Typical  
Ozark scenery. Sixteen miles north of Birch  
Tree, Missouri, State Highway No. 16.
- 9—Elk Lake in the heart of Northern Michigan's  
woods, chosen country of hunters and fisher-  
men. State Highway No. 11.
- 10—Monument at Portage, Wisconsin com-  
memorating the famous first portage from  
the Fox to the Wisconsin in 1673 of Louis  
Joliet and Father Jacques Marquette on  
their voyage of discovery toward the Mis-  
sissippi. State Highways No. 10 and No. 33.

**Have Kidneys Examined By Your Doctor**

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers

Flush your kidneys by drinking quart of water each day, also take occasionally, says a noted authority, tells us that too much rich food acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue coated, and when the weather is in, you have rheumatic twinges. The uric gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

**NOTHING TOUCHED IT!**

"Nothing touched that aching spot until I took Foley Pills, a diuretic stimulant for the kidneys. I am so glad I can recommend them to others." Eased of her pain, Mrs. Ellen Reighard of South Fork, Penna., writes this thankfully. Foley Pills have helped many people—a reliable valuable medicine guaranteed to give satisfaction. Constantly in use over 25 years. Ask your druggist for Foley Pills.—Hites Drug Store, adv.

**EUCHARIST CONGRESS ENDS AT MUNDELEIN**

*Procession of Blessed Sacrament Feature of Greatest Catholic Session.*

Chicago.—The twenty-eighth Eucharistic congress of the Roman Catholic church came to a close at Mundelein before a throng estimated at from 700,000 to 1,000,000. The final rites of the congress, a pontifical high mass followed by the procession of the blessed sacrament, borne by John Cardinal Benzano, papal legate, were held on the grounds of St. Mary of the Lake seminary along the shores of Lake St. Mary.

In the midst of the procession a rainstorm of 15 minutes' duration accompanied by hail broke and sent the hundreds of thousands scurrying for shelter. The clerical procession, however, proceeded on its way, completing the journey as prescribed.

The route of the procession, almost three miles long, was packed with humanity, eager for the glimpse of the final and most colorful of all the Eucharistic congress demonstrations. As the end of the procession, with Cardinal Benzano bearing aloft the host, passed, the vast throng of pilgrims dropped to their knees.

In the procession were twelve cardinals, fifty-seven archbishops, three hundred priests, monks, missionaries, acolytes and laymen. At intervals of 1,000 feet along the line of march were choirs.

Completing the colorful procession were delegations from various Roman Catholic fraternal orders and several floats.

At the close of the procession Cardinal Benzano mounted the high altar on the seminary grounds and bestowed the benediction. The sermon was preached by Cardinal Hayes of New York.

Following the ceremonies and the storm, a tremendous rush for early trains began, and for some time police and railroad officials were taxed to bring order out of chaos and start trains moving. It was finally accomplished after heroic efforts, and was considered remarkable in that no serious injury resulted to any of the vast throng assembled.

As to actual figures on the crowds carried to Mundelein, the North Shore line announced that 1,200 cars had been run to the seminary grounds carrying an estimated 145,000. From Lake Bluff—a shuttle line, carried 80,000. Steam roads, it was reported, carried 75,000 more. Thousands of others arrived in motor cars.

**HAS NEW PLANS TO STOP BEER MAKING**

*Rum Off Market by Christmas, Andrews' Program.*

Washington.—Conniving city or state officials, illicit alcohol plants, and cheating brewers are to be especial targets of a new three-phase prohibition enforcement drive with next Christmas as a deadline beyond which real beer and hard liquor will be almost, if not actually, impossible to obtain. It is revealed in the deficiency appropriation bill reported to the house.

The program, outlined to the appropriations committee by Brig. Gen. L. C. Andrews, assistant secretary of the treasury in charge of prohibition enforcement, contemplates the creation of three new headquarters squads—one of 51 "under cover agents" to secure evidence sufficient to indict state or municipal officials winking at violations, or conspiring with violators, of the liquor laws; a second to halt the admittedly gigantic traffic in illicit alcohol, and another of 88 agents assigned to periodical inspections of suspected breweries and cereal beverage plants.

The bill recommends an appropriation of \$2,931,000 for the program, and, if approved by congress, will bring the total cost of prohibition enforcement for the year, including the coast guard activities against rum runners, to \$28,500,000.

On the new plan, he told the appropriations committee, General Andrews counts to make prohibition enforcement not only more effective than it ever has been, but also popular throughout the country and less costly as well.

According to General Andrews' testimony before the committee, it is his plan to assign two or three highly paid investigators to each district administrator to check on the activities of city and state officials in connection with dry law enforcement.

**Kidnaped Evangelist Discovered in Mexico**

Douglas, Ariz.—Almea Semple McPherson, missing Los Angeles evangelist, was brought to a hospital here in an exhausted condition and related a tale of having been kidnaped by two men and a woman at Ocean Park, Calif., May 18, and held captive in Mexico for half a million dollars ransom.

James Anderson, an American, said he found Mrs. McPherson at Agua Prieta, across the border in Mexico.

The evangelist, pastor of Angelus temple in Los Angeles, had been given up for dead by her followers, who believed that she had been drowned in the surf at Ocean Park the day she disappeared. For days and weeks they had watched constantly beside the sea, praying for the return of her body.

Mrs. McPherson said she escaped from a Mexican shack in which she was held while her captors were away.

Aside from a description of the captors, all of whom were Americans, Mrs. McPherson could furnish no clew to their identity. She was later able to leave for Los Angeles.

**JUNIOR CHAUTAUQUA**

Chautauqua Enthusiasm, Rah, Rah, Rah!  
Johnny has it. Susie has it. So has Pa.  
Junior Chautauqua, Rah, Rah, Rah!

Yes sir, Chautauqua things have begun to hum. Everybody's buying tickets for the program under the Big Brown Tent. But the children of the Junior Chautauqua are going to get ahead of the grown-up folks this year for sure, because they're going to have eight days of Chautauqua while the grown-ups will have only five.

The Chautauqua Playleader will arrive four days before the Chautauqua opens, and the very next morning the Junior Chautauqua program will start. Every boy and girl in town can attend the sessions free, meet the Playleader and enjoy the good times during the pre-Chautauqua days. After the tent arrives a ticket will be required; there will be a parade, games, stories, yells, stunts, junior town meetings, music appreciation, children's revue and frolic, and maybe a field meet or a baseball game. Juniors, get ready for eight joy days.

**CHINESE TORTURE CABINET**

On the second day of the Chautauqua we are to have a program of magic and illusions that is very different than the ordinary entertainment of this type. William Eugene Frye, master magician and illusionist, with his assistants, Leah Miles and James Quillet, present a program that has continuity. Each trick or illusion bears a definite relationship to the one that precedes or follows it. This tying together of the various parts of the program has been so masterfully done, that at the close of the entertainment you have the sense of having witnessed a complete performance, rather than a series of independent tricks. Many illusions are presented to musical accompaniment. The company carries nearly a ton of paraphernalia. So elaborate is the equipment that the enlarged Chautauqua stage will not accommodate it and two settings are required.

The program starts in mystery and progresses with increasing bewilderment. It seems almost impossible that three people could accomplish so many marvelous feats in so short a period of time. The floating sphere, the spirit cabinet, the duck and the egg, the wonder screen, cooking by radio, the spirit cabinet, the fish bowl production, the catching of live fish from the laps of the audience, the snoring of doves in mid-air, the vanishing pigeons, the Chinese torture cabinet mystery—these are but a few of the illusions that will mystify the Chautauqua audience.

E. A. Seifridge, Jr. of San Francisco, who for 20 years has been a prominent figure in the lumber industry on the Pacific coast, has been appointed American lumber trade commissioner in the Far East, according to announcement just made by the Department of Commerce. Japan is now the largest foreign market for American lumber, and China is one of the largest buyers. Mr. Seifridge's headquarters will be in Tokyo.

The radio is wonderful—if the static is not.

"You are so good at conundrums. Try this," said the nice young man. "Sure, go ahead," said the girl. "All right, here goes. Take away my first letter, take away my second letter, take away all my letters, and I am still the same. What am I?" "That's easy," said the smart girl, "you are a postman."—Canner's Weekly.

**Tragic Case**  
The street was thronged with thousands of hurrying pedestrians. Suddenly a woman's cry rose shrilly above the noise of the passing throngs. "Give me air," she shrieked. The crowds gasped and stood aside—and a woman triumphantly drove her car, with one flat tire, into the filling station.—University of Washington Columns.
