## Scott For Congress

Announces His Candidacy For Re-Nomination at Primary

I am now serving my sixth term in the employ of the people of this District as their Congressman. During that time I have served every section of the District with no thought of partisanship or partiality. My duty and obligation has been to the entire District as a whole. I am anxious to continue and trust my services merit your approval of my remaining in your employ.

Those who are opposing my re-nomination have never attacked the character of service or the manner in which I have handled your work. If they wish you to dismiss me they should be fair and honest enough to openly assign their reasons in order that I may have an opportunity to defend my conduct, and you the opportunity to judge as to the contrasted qualifications of those who seek your favorable consideration.

I have very deeply appreciated your kindness in the past and have been faithful to your trust. No living soul can honestly challenge the assertion of my fidelity to this District. The fact that I am the only member of the Michigan Congressional Delegation who is chairman of a major committee in the Congress, and the further fact that I am one of two Michigan Congressmen who have held the chairmanship of a major committee in more than a quarter of a century, is but one indication of my endeavor to honor my constituency and occupy a position in the Congress befitting the importance of our District and the high standard of its citizenship. If my efforts, and the experience I have gained, is of value to the citizens of this District I trust I may not be dismissed from your service in order that one man's personal ambitions may be gratified and political honor, at your expense, added to the accumulated returns of his bank and his varied interests.

My opponent has been campaigning this District for many months, but your work has kept me in Washington. It will be impossible to cover the District in the short time remaining before the primary election. I therefore trust that this announcement of my candidacy will be considered by each citizen as a personal appeal for their approval of my services and the privilege of continuing in their employ.

## DIPPING INTO SCIENCE

### Smallest Church

The original "smallest church in the world" was that at St. Lawrence, Isle of Wight. It is 25 feet long, 11 feet wide, and about 8 feet high. It originally accommodated 12 people. Another small church in England is 80 feet long and 12 feet wide. It has 7 pews, 2 galleries, and accommodates 20 persons. (© 1926, Western Newspaper Union.)

### Necessary to Call Bluff

There are millions of impudent, mischievous men whose bluff should be called; not for the sake of a fight, or for the sake of an argument, but for God's sake; for world betterment. W. W. Howe's Monthly.

## Learn How To Use Dynamite For Ditching

A big ditching demonstration will be held on Aug. 10th, at 1:30 p. m. slow time, on the cheese factory road, four miles south of Charlevoix. This is the first road going west after passing the Marion Center Dairy, or is the cross-road, east of Dr. Armstrong Orchards.

Mr. N. A. Kessler, Explosive Expert from our State College will be in charge and will show how to properly use dynamite for opening ditches.

You will be greatly interested in this particular ditching job, as Mr. Bert Elliott, highway commissioner, states that it is impossible to keep the water from standing on this road and feels that the use of dynamite will be the only salvation.

Mr. Kessler is not a stranger to Charlevoix County, as he gave a demonstration this spring and proved that dynamite was the cheapest means of opening ditches.

It is hoped that all highway commissioners will attend as in all townships there are some places that are in need of ditching in order to keep water from standing the year around. While we do not believe we need to reclaim more land, yet it is sometimes, wise to ditch, the better to work land more efficiently.

It will be a sight well worth going miles to see, so plan to attend on Aug. 10th, at 1:30 slow time and decide for yourself if you can efficiently use dynamite in your farm or road operations.

Co. Agr. Agent.

## George W. Frost Passed Away

George W. Frost passed away at the home of his son, James D. Frost, in this city, Saturday, July 24th, following a long illness from dropsy. Mr. Frost came from Central Lake to the home of his son here two weeks before his death.

Mr. Frost was born in Thomson, County of Geneva, State of Ohio, Aug. 6th, 1850. He was united in marriage to Annie C. Walters February 13, 1872, who preceded him in death in 1923.

To this union were born eight children, two of whom preceded him in death, and those left to mourn his loss are: Mrs. Fred Washburn, Central Lake; John and Manley Frost, who reside at home in Central Lake; Mrs. Lewis Washburn, Lansing; Mrs. John Chilson, Traverse City and James D. Frost, East Jordan. Seventeen grandchildren and one great grandchild.

Mr. Frost has been a resident of Antrim County since 1898.

The remains were taken to Central Lake where funeral services were held from the Free Methodist Church, Monday, July 26th, conducted by Rev. G. W. Kiffer. He was laid to rest beside his wife in the Southern Cemetery.

## Brennan-Davis

A quiet wedding took place at St. Joseph's Rectory in this city Tuesday afternoon, August 3rd, at 4:00 o'clock, when Miss Louise Ann, daughter of Mr. and Mrs. Thomas L. Brennan of East Jordan, was united in marriage to Roy Heathcote Davis of Quantico, Virginia. The pastor, Rev. Fr. D. M. Drinan performed the ceremony, and they were attended by the bride's sister and brother, Miss Marie and Bernard Brennan.

The bride grew to womanhood in East Jordan and for the past 4 years has been employed in the pay roll department of the Detroit Board of Education. The groom is a member of the U. S. Marine Corps and stationed at Quantico, Va.

The newly-weds expect to remain in East Jordan for a few weeks and then will return to their respective works, both being here on a leave of absence.

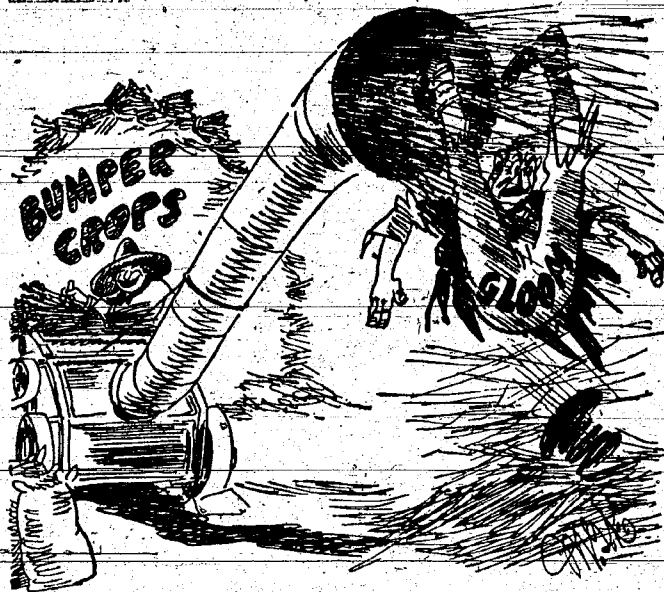

### Card of Thanks

We wish to express our sincere appreciation of the many acts of kindness extended us by neighbors and other friends during the long illness and in our bereavement, and for the floral offerings.

## Thoroughly Threshed

### COUNCIL PROCEEDINGS

Regular meeting of the Common Council of the city of East Jordan held at the council rooms, Monday evening, Aug. 2, 1926.

Meeting was called to order by the mayor. Present: Mayor Dicken and Aldermen Aldrich, Watson, Proctor, Ross and Sedgman. Absent: Alderman Gidley.

Minutes of the last meeting were read and approved.

Kit Carson, having been required to file a maintenance bond with the city clerk before receiving pay for the construction of the curb and gutter on Third Street, owing to the belief that there was some faulty material used in the construction of same, it was moved by Alderman Proctor, supported by Alderman Ross, that these facts be made a part of the minutes of this meeting. Motion carried.

A petition having been presented, signed by William Blaha and two others asking for the extension of the water main from Bowen Street 275 feet east on Ash Street, it was moved by Alderman Proctor, supported by Alderman Ross, that the petition be accepted and the extension made, provided that each of the petitioners make a deposit of \$25.00 with the city treasurer. Motion carried.

The Mayor appointed Ed. Kamradt as night patrolman to supersede Wm. Breakey, and on motion by Alderman Aldrich, supported by Alderman Ross, the appointment was confirmed.

Bills were presented for payment as follows:

  - Joseph Trojasek, cleaning streets..... 42.00
  - Dr. B. J. Beuker, treating A. H. Shepard..... 15.00
- Moved by Alderman Watson, supported by Alderman Sedgman, that the bills be allowed as read excepting the bill of Dr. Beuker, which be held up for further investigation. Motion carried by an aye and nay vote as follows:
- Ayes—Ross, Proctor, Watson, Sedgman, Aldrich and Dicken.
  - Nays—None.
- Moved and supported to adjourn. Motion carried.

OTIS J. SMITH,  
City Clerk.

### Heroism of Women

It is a part of the heroism of women to believe and suffer rather than to reason. Their instinct gives them their view of truth; they make fewer demands upon the conscious reason. It is for the man to analyze, to distinguish, to define; to give a reasoned account of the truths by which he lives.—Contemporary Review.

## Prepared for All Emergencies

## Michigan Resort Property Not Subject to False Boom

Advertising largely by those who knew, Michigan became the premier resort state. Michigan has what only nature can bestow upon any region—a perfect summer and a perfect winter climate; a vast variety of soils, adapted to the growth of almost everything from winter wheat to summer fruits; rolling country, with charming hill-sides, valleys and sometimes broad vistas of terrain of almost billiard-table level; eight thousand inland lakes, scattered throughout the state; a dozen rivers, teeming with fish life; hundreds of trout streams in the northern half of the state; millions of acres of cutover timberland, now the refuge of all kinds of game; one of the few states in the Union in which deer may still be shot in the winter season; unexcelled advantages for all the summer and winter spots; bathing beaches several hundred miles long on Lake Michigan and Huron, as well as thousands of miles of beach on the inland lakes; improved the hard surface roads to every section of the state; good hotels everywhere, under competent management and with reasonable rates to guests.

A state with such wonderful advantages could not remain without fame as a people's playground. Many millions of dollars have been invested in Michigan lands and homesteads by dwellers in other states.

A few years ago the Michigan people joined together to advertise their state. They did this modestly, but with amazing results. Now they have entered upon a larger publicity scheme, and Michigan is taking her place alongside California and Florida in the advertising pages of the newspapers and magazines. Shore lands in Michigan have increased in value by leaps and bounds. At this very moment there is a small boom on in Michigan lands. But Michigan people will keep this boom within bounds, content to let their State grow naturally and deservedly.

## FEAR

Did you ever stop to think and to know that fear is our greatest enemy and enslaver. We fear this and we fear that thing and ninety-nine times out of one hundred we learn that there really was nothing to fear. We often are afraid to go ahead with some plan that we knew was the right and proper thing for us to do, when this thought would present itself, "Well I don't know about that. I'm afraid it might not be just the right thing to do after all." When we get to that point remember that from the beginning to the end of the scriptures the admonition is, "Fear not" and there is no better or higher authority than the Bible. I am not a Bible teacher, but at eighty-five I find myself thinking more about the truth contained in this Book than I did at forty-five. We all look ahead to prepare for all our present as well as our future needs, which is perfectly proper, but some of us do not look ahead far enough.

Now I'd like to see Charlevoix Co. all get to thinking in the right way. If we think right we do right. To do right is to live by and to obey the Golden Rule. We all admit that we want Charlevoix County to prosper. Our business has gone far below the normal, but we have the foundation for another branch which has never been developed on a large scale. The Good Lord furnished that and what He does is done right. Now if we are not loyal and smart enough to accept what He has given us, we surely do not deserve to get anything out of it. I refer to the TOURIST business. We talk and talk in twos and threes, but we do not act. The time is ripe NOW. The only time we have is the Eternal now. We have never had a tomorrow and we never will have one, but we have an enumerable number of yesterdays, and also a great many that we wish we never "had had" of that particular brand, and which we would not have had, had we been "on the square." Do you want to capture the tourist trade, or do you want to let others get it? Remember before you answer the question, that it is a cash trade which will amount to a much larger sum than all the other kinds of business combined in this County. Because Charlevoix County is the best adapted to the tourist busi-

## Game Goes 14 Innings

Petoskey & East Jordan Teams Have a Draw Game.

East Jordan Base Ball Club went to Petoskey Sunday and in a game with a team of that city pulled a tie at the end of the 14th inning—9 to 9—when darkness prevented continuing.

Petoskey secured 13 hits, East Jordan going them one better. Zimmerman was in box for Petoskey. Owing to roughness of the field, errors were plentiful on both sides. The attendance was meagre. Petoskey substituted so many in its line-up that a complete box score is impossible.

ness of any County in the State. Some other places are just as good, but on the whole we've got 'em all "skun."

If you want it, go to it, and I'll help you all I can. If you are like the man who wanted to charge me \$10.00 for a \$5.00 or \$6.00 job, while I was working for him, and not myself, then I know that you do not want a good concrete road all the way around Pine Lake, and that you are satisfied to ride over the sawtooth sides; bumpy bumps. Philanthropic work is not always attended with sweet smiles or thanks for the interest you are taking in the future of our County, but where one fails to receive the amount of credit or assistance in any good work which you may be engaged in you should not be discouraged, because you may be over zealous in their opinion, and they may not place the same value on your scheme that you do. They may appreciate all you are doing, and if you will only give them a little more time to think it over, the day may come when they will be your very best helpers. I cannot begin to tell you how many men have stopped me on the street since I have been here this trip and in fact last trip also. They were more than glad to tell me how delighted they were with the results of my G. C. R. (Good Concrete Roads) work for the past. At first they did not believe in spending the tax payers money for this kind of a road but now they are converted, and they really believe after years of traveling over gravel, and gravel and soft stuff black top roads, seeing that they were no better now than they were years ago, and seeing so much money spent on them which had all gone and been wasted. Now they tell me they will drive ten and twenty miles over ordinary roads, in order to have the pleasure of riding a few miles on a G. C. R. (Good Concrete Road). We all hope that we can have more of them.

Yours truly,  
UNCLE GEORGE.

**EVELINE ORCHARD RESORT**  
(Edited By H. Grimes)

On Monday forenoon, Aug. 2nd, Gordon Sears, grandson of Prof. and Mrs. James Topp of Elmwood cottage, celebrated his fifth anniversary by a birthday party at which Robert Perrin, Robert Staples, Marjorie Sears and Margaret Taft were the guests. The morning was spent in games and dainty refreshments were served at noon.

L. S. Wardwell and family of Lansing are spending a month at the Chapin cottage, Edgewood. Mr. Wardwell is showing his friends a picture of the 5 1/2 pound pike which he caught near the cottage. It surely puts to shame the newspaper pictures of the 3 pound pike caught by President Coolidge and which Governor Al. Smith will have preserved and placed in the New York State Museum. If Cal wishes good fishing, he should come to Eveline Orchards.

Robert W. Latta, of South Bend is visiting his parents, Prof. and Mrs. W. C. Latta. His friend, Chas. A. Hager, also of South Bend is with him. Mr. Hager who is an artist of note, and is on a sketching tour, is enthusiastic regarding the beauty spots around Eveline Orchards and Lake Charlevoix in general.

Mr. C. H. Anderson and wife of East Lansing are visiting their daughter, Miss Clarissa Anderson at Lakeview Camp. He is endeavoring to surpass the record of Mr. Wardwell at fishing.

Miss Mary Latta leaves Friday for Philadelphia on the annual outing of the Hundred Thousand Dollar Club, of which Miss Latta is district agent at South Bend. This Club is made up of Agents of the Peoria Life Insurance Co., who have written one hundred thousand dollars of business since Aug. 1, 1925.

N. A. Kellogg, director of Athletics at Purdue University, and the A. G. Philip family of Lafayette, Ind., who are summering near Bellaire, spent Tuesday with Mrs. G. G. Woodbury and family.

The editor of 'The Drivers' Journal of Chicago, whose name was not furnished, inspected the cherry and apple orchards on Tuesday. He was especially impressed with the rope-like appearance and large size of the fruit on the sweet cherry trees, and the thrifty appearance of the orchards in general.

Contrary to the common impression that Californians never admit the inferiority of their fruit to that grown in other States, a recent visitor from that State admitted that Eveline Orchard's sweet cherries are of better flavor than California grown fruit.

The register of visitors shows names from nearly every State from Texas to Maine and west to the Pacific.

There is a large local demand for canning cherries. Montmorency, the variety best suited for that purpose is now at its prime, although the main crop will not be harvested for the local canning factory until next week.

When you buy at home your money stays close enough for you to get another shot at it.

The president catches a small, pound fish and newspapers all over the country stick it on the front page. In order for the average man to get on the front page he has to catch a whopper, and lie about it.

We may be mistaken but we are convinced that almost every sweet young thing makes up her mind to accept a proposal just before the party of much less importance comes to the conclusion that he ought to propose.

Jack Dempsey will be fighting next month unless a war breaks out and he has to go back to the shipyards.

**MEXICO IN THROES OF RELIGIOUS WAR**

**Rioting in Many Sections as All Catholic Churches Are Closed.**

Paul Smith's, N. Y.—Owing to the strained relations between the Church of Rome and the state in Mexico, President Coolidge has no intention for the present of lifting the United States embargo on the shipment of arms and ammunition to the southern republic. This was made known in an executive order issued from the summer White House.

San Antonio, Texas.—Hundreds of nuns, priests and teachers have crossed the border into the United States, many of the sisters disguised for fear of detention.

Mexico City.—All Catholic churches have been closed in Mexico and all Mexico is in the throes of a religious war, the outcome of which is a worry to the entire world. Rioting is reported in many sections and great loss of life is feared.

Detachments of federal troops are patrolling the streets and roads in the villages and open country of the federal district, ready to give assistance to municipal authorities of the towns and villages when disturbances arise over the religious situation. The troops, traveling in motor cycles and automobiles, have instructions to shoot anyone offering resistance.

These steps have been taken because of reports of intense excitement in the suburbs and outlying villages, especially among the Indians.

Agents of the department of justice closed and sealed church structures, except places of actual worship, under the orders of the attorney general's office. These structures include offices of archbishops and bishops, vestries, sacristies and places where church treasures are kept. Numerous churches at the same time suspended services of their own accord.

Msgr. Tito Crespi, in charge of the apostolic legation in Mexico City since expulsion of Msgr. Caruana, papal nuncio, was ordered expelled.

The order came at the direction of President Calles because the government considered his presence "inconvenient."

Msgr. Crespi was given twenty-four hours to depart, but on intervention of the Italian legation the time was extended to forty hours.

Roman Catholics of all Mexico gave way to a great manifestation of devotion to their religion and grief as the last few hours slipped by before the new governmental regulations became effective.

Vast assemblages swamped the cathedral in Mexico City, the shrine of "Our Lady of Gaudalupe," and other beloved places of worship.

**U. S. Crop Area Is Cut 5 Per Cent in Five Years**

Washington.—Despite a reduction of 19,000,000 acres in the harvested-crops area in the last five years, the crop area in the United States is still sufficient to maintain a large volume of exports, says the United States Department of Agriculture in an analysis of the latest census figures. This is the first time in the history of the United States that a decrease in crop area has been shown in any census period.

Decreases in crop acreage have occurred principally in the eastern cotton belt, in the corn and winter-wheat belts, the eastern and southern portions of the corn belt, the hay and dairy region from Lake Michigan to the Hudson valley and in eastern Washington and California.

Increases, on the other hand, have occurred in the semi-arid western portion of the great plains region, extending from southeastern Texas to Montana and beyond; in the upper portion of the Mississippi river bottoms; central Florida; southwestern Minnesota and in northern Minnesota and Wisconsin.

The reduction in crop area represents a decrease of 5 per cent for the five-year period, the 19,000,000 acres having reverted to pasture or been allowed to lie idle. During the same period, however, the acreage of forest, cut-over land and woodland increased about 8,000,000 acres.

**Radio Manufacturers to Seek Broadcasting Rule**

New York.—Announcement was made here that the radio apparatus section of the Associated Manufacturers of Electrical Supplies has made plans for the formation of a national radio protective committee which will call a convention to take steps to stop wave-length jumping by broadcasting stations. Similar action, it was said, had been planned by the radio manufacturers' association. This, it is believed, marks the first step by the radio industry to put broadcasting on a self-governing basis.

**City Loses Its Police Force**

Warren, Ohio.—Unable to pay salaries to police or firemen, the city council has dismissed Warren's sixteen policemen. Warren has a population of 40,000.

**Detroit Wars on "Jitneys"**

Detroit, Mich.—Police have issued tickets to several hundred "jitney" drivers in continuance of Detroit's campaign in behalf of licensed carriers. The charges are "traffic violation."

**PRIMATE OF MEXICO**

Archbishop Jose Mora y del Rio, primate of Mexico, who is leading the forces of the Catholic church in the critical contest with the government over the new religious laws.

**M'KINLEY FIRM GAVE CASH TO AID SMITH**

**Slush Probe Reveals All Illinois Utilities Helped.**

Chicago.—Col. Frank L. Smith had the financial backing in the Illinois primary of all three major groups of public utilities interests, including the Illinois Power and Light company, of which Senator William B. McKinley is nominal chairman of the board.

Former Congressman Ira C. Copley of Aurora, who developed the \$50,000,000 Western United Gas and Electric company, contributed \$25,000.

Clement Studebaker, who headed the company of financiers who took over the McKinley utilities interests, retaining the senator as chairman of the board, contributed \$20,000.

This makes the total of direct contributions to Colonel Smith's campaign from the utilities group \$209,735.16.

In addition to this Mr. Insull contributed \$10,000 to the Crowe-Barrett Cook county chest, considered as indirect aid to the Smith candidacy, and \$10,000 to the Deneen-West group.

Another item of \$2,500 got into the record, which subsequently may be shown to be a part of the Insull fund handled by Attorney Daniel F. Schuyler for anti-World court propaganda, or may appear as a new item. It was given direct to the Smith fund by Schuyler.

The McKinley total also was boosted by \$1,475, which United States Marshal James A. White of Murphysboro contributed.

The revised ledger account, assuming that the latest \$2,500 from Schuyler is a new item, reads as follows:

For McKinley	\$281,091.73
For Smith	287,252.70
For Deneen county ticket	123,292.19
For Crowe county ticket	171,500.00
For George E. Brennan	20,841.43
Total	\$974,014.95

The public-utility contributions to Colonel Smith's fund, assuming that the Schuyler \$2,500 is a new item, now stand:

By Samuel Insull, direct	\$125,000.00
By propaganda financing	33,735.19
By Colonel Copley	25,000.00
By Clement Studebaker	20,000.00
By Daniel Schuyler	2,500.00
By Insull to Crowe group	10,000.00
Total	\$216,235.19

Insull's total contributions, including the Schuyler \$2,500, acknowledged to date, stand as follows:

To Smith, direct	\$125,000.00
Propaganda for Smith	33,735.19
To Crowe-Barrett committee	10,000.00
To Deneen-West committee	10,000.00
To Smith by Schuyler	2,500.00
To George E. Brennan	15,000.00
Total	\$196,235.19

**Widow Is Arrested in Double Murder Mystery**

New Brunswick, N. J.—Mrs. Frances Stevens Hall, widow of Rev. Edward W. Hall, pastor of the Protestant Episcopal church of St. John the Evangelist, who was shot and killed with Mrs. Eleanor Mills on September 14, 1922, was arrested in her home in New Brunswick, charged with the murder, and locked in the Somerset county jail in Somerville.

The arrest was the result of charges made by Arthur S. Reihl, in a petition for annulment of his marriage to Louise Geist. The girl at the time of the murder was employed as a maid in the Hall household.

Mrs. Hall was released in bail of \$15,000.

**To Clean Aluminum**

A good way to clean aluminum vessels in which has been cooked oatmeal, rice or any food hard to remove, is to use a small corn-cob. The cob should be thoroughly matured and not very large. It will be found just rough enough to catch and take off the particles of food but will not scratch the aluminum as many cleaning preparations do.

Mrs. Brown: "Hello Mrs. White. How is everything?"

Mrs. White: "Everything is fine only the weather is pretty warm don't you think?"

Mrs. Brown: "Yes, these days are pretty warm. Just the kind of weather to wear white and you know white is so much cooler too, than a color."

Mrs. White: "Surely, but who wants to sew when the weather is so hot?"

Mrs. Brown: "You don't have to sew. Go to the East Jordan Lumber Co. store, they have such a good Bungalow apron or dress which ever way you want to wear it, in white for \$1.25, and the 'Hoover' Dress for \$1.50, also white. And these are of good cloth and very well made and easy to launder. White is so good this year and really these are the best dresses I've seen for the price."

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it, healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

U. S. EXPENSES ARE 55 MILLION HIGHER

Aggregate Liabilities of Government Departments Are Ten Million Less.

Washington.—Although expenditures chargeable against ordinary receipts at the close of the fiscal year June 30 were \$25,000,000 greater than for the year ending June 30, 1925, the aggregate expense of government departments was about \$10,000,000 less. This is revealed by figures just made public by the treasury.

Legislative and executive branches of the government, the State, Treasury, Post-Office, Commerce departments, veterans' bureau and the District of Columbia required heavier outlays. Additional expense in this regard was, however, offset by large cuts in the budgets of the Departments of War and Navy, Interior, Agriculture and Labor.

For the fiscal year just closed the ordinary expenditures amounted to \$3,584,967,873 compared with \$3,529,043,446, according to the statistics.

From this total is subtracted appropriations for the retirement of public debts, the expenditures from various miscellaneous funds, refunds of internal revenue taxes and customs duties, payments under the soldiers' bonus act and railroad items, alien property, the shipping board and the Panama canal. This leaves the aggregate for governmental departments at \$1,826,069,970 for 1926, compared with \$1,836,857,359 for the fiscal year of 1925.

Expenditures of the executive department of the government rose from \$411,898 to \$438,708, and the legislative branch expended \$15,770,280 compared with \$18,805,964 in the previous year.

The Navy department heads the list of federal branches showing decreases, its requirements being \$312,748,409 compared with \$349,142,001 in the previous year. The War department's expense account also shows a substantial shrinkage from \$361,887,888 to \$355,072,225. Other departments showing a decline in expense were: The Interior department from \$302,440,838 to \$301,759,049; the Department of Agriculture from \$164,044,283 to \$155,850,482; and the Department of Labor from \$9,677,841 to \$8,544,899.

On the debit side, refunds showed a considerable increase according to the statement. They amounted to \$182,220,053 compared with \$147,777,080 in the fiscal year of 1925.

The Treasury department during 1926 paid to square the deficit in postal receipts the sum of \$39,506,490 compared to \$23,218,788 in the previous year.

Soldiers' bonuses for the year just closed required \$120,132,298 compared with \$99,458,769.

During the year retirements of public debts amounted to \$487,376,050, made up of \$317,091,750 through statutory sinking funds; \$166,280,000 received under debt settlements with foreign countries; \$4,893,500 in purchases of government bonds from foreign repayments; \$567,900 from federal reserve and intermediate credit bank franchise taxes and \$62,900 in forfeitures, gifts and miscellaneous.

All this is added to the surplus of about \$380,000,000 which automatically went toward debt settlement.

Amounts paid in interest on the public debt increased from \$81,806,622 a year ago to \$81,937,700 for the fiscal year just closed.

Grand Jury Gives Up

on Aimee McPherson Case

Los Angeles, Calif.—The puzzling case of Rev. Aimee Semple McPherson, who disappeared wearing a green bathing suit at Ocean Beach, Calif., last May 18, and reappeared in a gray gingham dress walking over the Sonora desert at Agua Prieta on June 29, has become a matter for the individual opinion of the public of Los Angeles.

The Los Angeles grand jury, meeting for its fourth successive session of inquiry into the case, voted against returning indictments for want of evidence against persons who Mrs. McPherson, in her appearance before the grand jury, alleged kidnaped her from the bathing beach and held her captive for \$500,000.

Odd "Beauty Stripes"

The women of Paragony have marks on their faces like army stripes, to indicate rank. The pigment used consists of ashes mixed with blood, white—the instrument is a sharp thorn. If a woman being tattooed cries out with pain she is told that she is a disgrace to her family and unworthy of a husband.

New Scientific Theory

Matter is believed to be continually destroyed in the stars; to be wasting away into space in the form of light and heat. On this surmise, scientists now are speculating on the theory that new matter is likewise being created somewhere out in space. If this is so the universe becomes self-perpetuating.

WHEN I WAS TWENTY-ONE BY JOSEPH KAYE

At Twenty-One—Marietta Holley, Author of the Famous "Samantha" Books, Didn't Help Her Mother as Much as She Should.

AT THE age of twenty-one my position in life was like that of any other young girl in the pleasant north country. I helped my mother in the ordinary work of the household, though not so much as I should have done, for until one has the responsibility of a home, one does not understand the care and labor it means.

"So much for my outward life. As for my inner life, I dreamed of the gleaming, fanciful castles that young girls exhibit both in city and country—glittering castles that, it is needless to say, were never built.

"My ambitions at that time were boundless; and so was my faith. I was going to do some great work that would revolutionize the world and would set all the wrongs to right. Nothing is easier than for youth to make over the world; nothing is easier than for youth to look through the golden haze that hangs about their future and see a world transformed; nothing is easier than for youth to view the world's weaknesses and ailments and stand serenely on a helmsman's conqueror.

"Alas for the dream and ambitions of youth! The long years pass and things move on about the same. And as the shadows lengthen in the west, instead of the high place and the conqueror's dream, one must sit by the common wayside and see the old world go by in the same old way—Marietta Holley ("Josiah Allen's Wife").

Marietta Holley is one of the last surviving members of the old school of writers who used to delight our parents and grandparents. She is the author of the celebrated "Samantha" books—"Samantha Amongst the Brethren," "Samantha at Saratoga," "Samantha Among the Colored Folks," etc., and for an equally popular work of that period, "Around the World With Josiah Allen's Wife." The last "Samantha" book was published in 1913, "Samantha on Women's Rights."

MEAT EXTENDERS A SMALL slice of mutton cut up into serving-sized pieces, browned in butter, or sweet fat, covered with boiling water and a sliced onion with two or three sliced or latticed carrots, cooked slowly for two hours on the back of the stove, will serve more persons than just one slice of mutton.

Regout of Lamb. Take one pound of lamb from the flank, one-half cupful of dried peas, one quart of cold water, two sliced onions, one teaspoonful of salt, three cupfuls of cubed potatoes, one cupful of sliced carrots, three tablespoonfuls of flour, two teaspoonfuls of Worcestershire sauce, two teaspoonfuls of catsup, two teaspoonfuls of chopped parsley, with pepper and paprika to taste. Pick over the peas, soak over night in cold water to cover. Wipe the meat, remove the bones and cover them with the quart of water; add the soaked peas, bring to the boiling point and simmer until the peas are tender; add salt, potato and carrot, cook until the vegetables are soft. Mix the flour with a third of a cupful of cold water, add to the stew and cook for ten minutes. Add two teaspoonfuls of lemon juice and the other seasonings and serve at once.

Roast Beef With Mexican Sauce. Reheat rare roast beef cut into thin slices in the following sauce: Cook one onion finely chopped in two tablespoonfuls of butter five minutes. Add one red and one green pepper, one clove of garlic, all finely chopped, two tomatoes peeled and cut into pieces. Cook 15 minutes, add one teaspoonful of Worcestershire sauce, one-fourth teaspoonful of celery salt and salt to taste.

Nut Tarts. Beat the whites of two eggs stiff, add a cupful of sugar and fold in one cupful of chopped nuts and one cupful of cornflakes. Drop cakes on baking sheet and bake in a moderate oven.

How It Started By JEAN NEWTON

DOG DAYS

Muzzled that dog! The idea of letting a dog go about that way in these dog days! And it was a "dog day."

Why do we call very hot days dog days? To be sure, in the summer, dogs are dangerous, and when people were not compelled to be as careful as they must be now, to incapacitate them for doing harm, the hot days witnessed enough horrible accidents to earn the appellation. But that isn't how it started.

Grand Rapids—The Grand Rapids, Holland & Chicago Railway property, valued at approximately \$2,000,000, will be sold at auction Aug. 19, the Federal Court here decided. The railway, organized in 1900, recently went into the hands of receivers. Its lines extend from Grand Rapids to Bangor, Mich.

Iron River—A herd of elk and moose will be placed on the Triangle Ranch, 16 miles north of here, by the State Department of Conservation. John Baird, director, promised during a visit to this city. The herd will be protected for several years, but later it will be turned loose in adjacent forests and hunters will be allowed to shoot them at certain seasons.

Pontiac—Contractors on the excavating job for the great new Pontiac Motor company plant here have begun the moving of dirt with a steam shovel. By the end of the week scores of the big machines will be engaged in removing the 350,000 yards of dirt to make way for the foundations and basement. The plant will cost several million dollars.

Marshall—Frederick E. King, who is retiring as superintendent of schools after 47 years' service, says he believes he can beat any superintendent in Michigan playing golf or sawing wood. He declined re-election here for three years and will be succeeded by E. H. Vandenberg, of Bad Axe. King plans to write text books and give educational talks. He was superintendent here for 7 years and at Escanaba nine years and for 31 years in Iowa.

Detroit—Michigan was the only State of the five principal ones in the Middle West to show an increase in building construction volume for the first six months of 1926 as against the same period a year ago, according to statistics compiled by S. W. Straus & Co., of Chicago, which were made public recently. The building volume for the larger Michigan cities, the compilation shows, was \$119,710,571.

Ludington—Permanent, modern warehouse and docks are seen as a necessity for Ludington as a result of continuous growth in freight shipments through this city and via seven car ferries to Milwaukee, Manitowoc and Kewaunee. W. H. Wallace, of Saginaw, superintendent of the Toledo-Ludington division, pointed to the continued increase in freight shipments through Ludington. He said the Ludington terminal is becoming obsolete.

Ann Arbor—Death, which claimed Prof. Edward D. Campbell, noted blind professor of the University of Michigan, less than a year ago, has entered the family circle again to take Mrs. Campbell. The unexpected death occurred at Hartford, Conn., where Mrs. Campbell was visiting a daughter. Mrs. Campbell was the constant companion and in many ways the eyes of Prof. Campbell in his years of work following loss of sight in an accident.

East Lansing—Alice Lipp, 14 years old, of Riga, Lenawee County, is the health champion of 30 Michigan counties. Miss Lipp won this distinction when she was adjudged the most physically perfect of the county champions who competed at the annual Boys' and Girls' Club week at the Michigan State College. She will compete for the State championship at the Michigan State Fair in Detroit in September. Miss Lipp weighs 115 pounds. She is 51 1/2 inches tall.

Adrian—An increase in the activities of the New York Central repair shops in this city is expected in the near future and the present force of 150 men probably will be increased to 220, which is practically the normal force. The movement of grain in the western states is making a demand for repairs to grain cars, of which a shortage now exists. Orders also have been placed for about \$20,000 worth of machinery for the new wood mill which was finished in January.

Bay City—Another link in the Michigan Grand Boulevard—a planned highway which will be a unique traffic way—was assured when the Iosco County Road Commission was instructed to obtain the right-of-way between East Tawas and the Alcona County line. The Michigan Grand boulevard will start at Toledo and grade the shore of the Lower Peninsula of Michigan, ending at Chicago. The boulevard, when completed, will be built of concrete and will be 40 feet in width.

Marshall—When William Vincent, of Tekonsha village, died more than three years ago, his relatives did not know that he left any property of value. His family knew he had some land near St. Andrew's Bay, Florida, where he had planned to plant an orange grove, but which falling health prevented him. Advice from Florida now indicates that the property there is very valuable. Relatives have just discovered the deeds in a safety deposit box in a Coldwater bank, the key to which had been lost.

Lansing—Lewis Ray Emmons, 15 year-old son of Mr. and Mrs. Arthur Emmons, died recently following an illness of several months at his home on West Barnes avenue. The young man was an accomplished cornetist and frequently his selections were broadcast over WREO, Beo Motor Car radio station. One of the numbers which he particularly liked to play for the listening public was "The Hawthorne Polka," which was the last selection broadcast by him from WREO. This favorite was played at his funeral.

CAN'T BEAT "TIZ" WHEN FEET HURT. Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath—Your toes will wriggle with joy—they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath. When your feet feel like lumps of lead—all tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions. There's nothing like "Tiz." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. A few cents buy a box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.

Lansing—Mrs. Cora Reynolds Anderson, of L'Anse, the only woman member of the Legislature, has qualified as a candidate for the Republican nomination for State Representative from the L'Anse district.

Romeo—A contract for the erection of a new building has been let by the Romeo Savings bank. The building, which will be built by a Chicago firm, is to cost \$85,000. It will occupy the site of the present bank building.

Jackson—Myron W. Tarbox, veteran editor and publisher, who since 1874 has been identified with newspapers in Michigan, died in Mercy hospital the morning of July 27, following a stroke of apoplexy suffered a few hours before. He was 76 years old.

Pontiac—Oakland county's \$165,000 contagious disease hospital in Waterford township, was recently opened for inspection. The hospital will be in charge of James C. O'Connor as superintendent. There will be 80 adult beds at first, and 20 for juvenile patients.

Adrian—U. G. Armstrong, of Niles, was elected president of the Michigan Rural Letter Carriers Association at the concluding session of the twenty-fourth annual convention of that organization here, and Ludington won over Holland in a contest over the 1927 meeting.

Lansing—A village or city may issue as many mortgage bonds as needed for a public utility, the state supreme court held recently, in declaring unconstitutional part of a law passed by the 1926 legislature which limits the bonded indebtedness of a village for the construction of a utility.

Grand Rapids—The pitchfork with which John Cave, 8 years old, of Royal Oak, was playing in the loft of the barn upon the farm of his grandfather, Lafayette Edison, struck a match and ignited the hay. The blaze destroyed the structure and a portion of its contents, with a loss of \$6,000.

Saginaw—Authorization for the organization of a unit of the United States Marine corps has been received by Chester L. Fordney, commander of the Phillips-Elliott-Hodges post of the American Legion. Fordney is a captain in the marine corps reserve. Four-year enlistments for all recruits will be made he said.

Menominee—David E. Crawford, 51 years old, of Marinette, Wis., once one of the biggest land and timber owners in this part of the country, is on trial in the Menominee County Circuit Court on charges of having burned the village of Cedar River, Mich., on June 6, 1925, to collect \$138,000 insurance he carried on the once thriving lumber town.

Port Huron—Hugh E. Stricker, chief of police, has announced that 100 special police officers will be recruited from the ranks of the Rotary, Kiwanis, Lions and Exchange Clubs to assist in enforcing the traffic regulations of the city. The special officers will not receive compensation but will be supplied with badges and empowered to make arrests of traffic violators.

Traverse City—Traverse City has decided to be a spotless town. Every morning the business streets are washed. But merchants have been sweeping the dirt into the street, letting it remain there until the following morning when the streets are given their daily bath. Now the Traverse City Council has adopted an ordinance forbidding merchants to sweep dirt on the streets.

Grand Haven—The government is making a study of the methods used in Ottawa county in reforestation of sand dunes. A. J. Pieters, of the bureau of plant industry, United States Department of Agriculture, visited the dunes here recently. Ottawa County, under County Farm Agent Milham, has had marked success in reforestation projects. The reforestation of the dunes stops sand blows.

#### Sending Fruit to Sleep

By the use of a simple new apparatus fruit imported into England can be "sent to sleep." Instead of being put in cold storage; such fruit keeps much better and loses less of its quality.

"Easy as Pie"

This expression is supposed to be etiological, the complete expression being "as easy as eating pie." It probably refers to the fact that most of us, especially in our younger days, find little trouble in eating pies made by mother.

## CONFIDENCE

THE MAN who has money, who knows where he can get it, has confidence in himself. He is not afraid of the present or the future, and the confidence which he has in himself inspires confidence in others. His peace of mind enables him to seize an opportunity if it comes, for he not the slave of the dollar earned each day, and does not live in dread of tomorrow's needs. Save Now. Save Regularly. Save Here.

**150 LOST IN STORM;  
8-MILLION DAMAGE**

**Two Hundred Vessels Are  
Missing After Gale Hits  
Bahama Islands.**

San Juan, Porto Rico.—Towns and villages of Porto Rico are still cut off from communication with the capital, but, according to Secretary of Agriculture Chardon, more than 100 persons were killed and about 400 injured in the recent hurricane. Thousands are homeless and the total damage is estimated at \$8,000,000.

Tokyo, Japan.—The toll of dead and missing in the floods which have ravaged Niigata prefecture, on the west coast of the main island of Japan, was placed at 400 and the damage to property at 10,000,000 yen (\$5,000,000), as numerous corps of relief workers entered the stricken district.

Nassau, New Providence Island, Bahamas.—Ravaged by wind and wave with more than 150 persons missing, the Bahama Islands were virtually isolated from communication with the outside world while anxious residents took further count of the toll of destruction from the worst hurricane in the recorded history of the islands.

The majority of those missing are believed to have been drowned with the sponge fishing fleet which set sail a few days before the West Indian hurricane struck the islands. Several weeks must elapse before the official toll of death and shipping and property damage is known. While conservative estimates place the damage at \$5,000,000, reports have not been received from several islands of the group and communication with them may not be established for days.

Nassau, the beautiful capital of the Bahamas group, with a population of more than 12,000, presented a picture of desolation. Debris from uprooted trees, wrecked houses and splintered boats washed up by the waves cluttered the stately driveways of the ancient city, where virtually all business has been suspended. Abandoning efforts to repair her ruin, Nassau turned first to search for missing fleets and to ascertain the conditions on other islands under her administration. The outer islands of the group are known to have suffered greatly, but inside the far-flung line of islands and banks and toward the coast of Florida the chief damage was at Nassau and the Isle of Gun Key, 40 miles from Miami.

Only three fishing smacks were left in Nassau harbor from 90 craft which were moored there. Between 150 and 200 sloops are missing with the sponge fleet. Harbor officials estimate that at least 75 vessels were destroyed at Nassau and other islands, not counting the sponge boats, some of which possibly found shelter on isolated banks or near uninhabited islands.

Nassau had meager warning of the advance of the hurricane. The tropical radio station near Miami radioed weather reports when brisk winds and a rapidly falling barometer indicated the approach of a storm. The wind steadily increased in velocity and becoming a gale, lashed the island, tearing houses from their foundations and uprooting trees. Wires were blown down and the public utility plants damaged to such an extent that the city was plunged into darkness. The government record showed the wind reached its velocity peak at 180 miles an hour.

Churning the harbor into a seething mass of waves, the hurricane piled waters high over the wharves into Bay street, a block into the city. Soon a gale swept down from the northwest, meeting the onrush from the Caribbean, and ships were lifted high from their moorings and sent on to the wharves. Several were blown to sea.

In Florida, the greatest damage seems to have been done in Palm Beach and West Palm Beach, with the total running to above \$1,000,000.

**WASHINGTON BRIEFS**

According to figures made public by the Department of Commerce, finished manufactured products continued to lead the exports of the United States during June.

A small army of workers has been busy both inside and outside the White House effecting the repairs and improvements authorized by congress at its last session.

The shipping board has rescinded a regulation prohibiting privately owned American ships from furnishing free transportation to the clergy. The prohibition, however, still applies to government-owned vessels.

Profits received by real estate dealers from the sale of land are subject to income tax, according to a ruling made by A. W. Gregg, counsel of the internal revenue bureau.

**Freed in Shame Suicide Case**  
Tia Juana, Mex.—Zenaido Llanos, former police chief, and three others, charged with offenses against Clyde and Audrey Peetee, American girls, here last February, were acquitted by a jury in the court of first instance here.

**For Protective Sugar Tariff**  
Honolulu, T. H.—The territorial Democratic convention here adopted a platform favoring a protective tariff on sugar.

**F**OR the first time in an automobile of economical production, these Studebaker Custom Sedans duplicate the master creations of custom design!

Swung low in the body—close-hauled in the coachwork—fleet and flowing in their lines—resplendent with the lacquered loveliness of duotone color schemes—and replete with every detail of correct custom treatment, from broad-lace trim, Butler finish hardware and Chase Mohair interiors to the silvered figure of Atalanta poised on the radiator.

These Custom Sedans combine the lines that appeal to a woman with the stamina that appeals to a man—add custom refinements to the ruggedness of Studebaker perform-

ance—offer disc wheels and four-wheel brakes—reaffirm the inflexible standards of Studebaker quality—and invoke anew the great Studebaker tradition of making good with the public by continually making better in the plant!

They are the latest examples of the Studebaker policy of progressive betterments. To the smoothness and power of the quiet Studebaker L-Head motor is added the custom symmetry of line and treatment that would be absolutely impossible, at the Studebaker price, without Studebaker One-Profit facilities.

These Studebaker Custom Sedans are now on view at our display rooms. You are invited to come in and see them.

**COMB SAGE TEA  
INTO GRAY HAIR**

Darkens Beautifully and Restores Its Natural Color and Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur-sage at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Ypsilanti—After a separation of 65 years, Mrs. J. W. Smith, of this city and her sister, Mrs. David Guldfoos, of Moravia, N. Y., met recently at Mrs. Smith's home, where her sister had come to help celebrate Mrs. Smith's eightieth birthday.

Grand Rapids—A 300-pound safe, containing narcotics valued at more than \$1,000 was stolen from the pharmacy of the Blodgett Memorial Hospital July 14. Tracks in the soft earth indicated that the robbers had carried the safe away in an automobile.

Ypsilanti—The 10 miles of pavement between here and Saline will be completed by Aug. 1, according to a recent statement by highway authorities here, and the road will be open to traffic about Aug. 25. The road has been under construction for 18 months.

**Praying at the Parson**  
Scene—Westey chapel, Oscoda.—The prayer meeting after the first evening service conducted by the new minister. Extract from the prayer of Brother Smith: "Lord, we do not know whether our new minister can take a hint, but this knowest that our last minister was not much of a visitor."—Methodist Recorder.

**WHEN OLD BACK ACHES!**

Just how hard it is for a man (or a woman, either) with an aching back to nerve himself up to his task, no one but the sufferer can tell. "When my back hurts and irregular secretions warn me of coming trouble, I take Foley Pills, a diuretic stimulant for the kidneys. They give me quick results." Ask Wm. F. Lisle, Anderson, Ind., 402 W. 21st St., about Foley Pills. They are a reliable valuable medicine, guaranteed to give satisfaction. Cost little. Sold everywhere.—Hite's Drug Store, adv.

**Iron Made More Lasting**

Malleable iron is cast iron that has been rendered tough and malleable by long-continued high heating while imbedded in powdered hematite, ferric oxide, or some other decarbonizing material, and allowed to cool slowly.

**Derivation of Hangar**

Hangar is an old French word, applied in country districts to the barn-like structures with a roof and open sides, used as rough shelter for stacks, carts and the like. It was in France that the problem of aircraft was first taken up generally, and so when airship sheds first began to be built they were naturally named after the nearest thing they resembled—the "hangars" of the French farmyards.—Pearson's Weekly.
