AFTER EVERY MEAL

The slave population of Nepal is 250 for the freedom of 51,782. The American people will recognize this as economy.

The next heavyweight fight will take place in the City of Brotherly Love.

Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of **Doan's Pills**, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. *Ask your neighbor!*

**STATE NEWS
IN BRIEF**

Bay City—The Saginaw Valley Baptist association will hold its next session at Breckenridge on September 14 and 15, according to announcement received by the pastors of the local Baptist church. The local men will have a prominent part in the program.

Grand Haven—The Nicholson Steamship Co. is establishing an automobile-carrying boat line between Grand Haven and Milwaukee. A. R. Nichols, of Detroit, a representative of the company, was here recently to complete arrangements. It is planned to operate a boat, with a capacity of 100 cars a day, on a round trip to Milwaukee.

Ann Arbor—A new theatre with 1,700 seating capacity and with both motion pictures and vaudeville acts as its attraction will be begun immediately near the University of Michigan campus, according to an announcement from the directors. It is expected that the building will be roofed before winter and completed a few months later.

Grand Rapids—Mrs. Fannie A. Monroe, 76 years old, a great-granddaughter of Benjamin Franklin, and the widow of Colonel Alexander Adams Monroe, a Civil War veteran, is dead at the home of a daughter, Mrs. Eva Harris, where she had resided for four years. Mrs. Monroe was a native of New York state, but came to Michigan 40 years ago.

Lansing—George Lord, state tax commissioner, has issued a statement explaining how the \$17,800,000 tax levy and the \$2.31 tax rate fixed by the State Administrative Board would affect the various counties in the state: The rate is 13 cents less than that of last year, while the valuation of property in the state was increased approximately \$345,000,000. The \$17,800,000 levy is the same as last year.

Owosso—A joint municipal airplane landing field and municipal golf links will be among the projects to be taken up this fall by the Owosso chamber of commerce. There are several sites available. Numerous planes are owned here now, and there is one of the best golf courses in the state at the Owosso Country club. Many here have been bitten by the golf bug, but are unable to afford belonging to the Country club.

Escanaba—New Federal radio control legislation, now in the making, will be written from the standpoint of the listener, not the broadcaster

or manufacturer, Rep. Frank D. Scott, chairman of the House Merchant Marine Committee to which radio legislation is referred, told a radio audience from station WRAK here recently. Mr. Scott also declared that there is no possibility that the Government will license radio receivers.

Jackson—An epidemic of jail breaking current in southern Michigan almost took an acute form in the county battle here when Sheriff Warren C. Stoddard found two bars sawed in two in a cell block on the second floor and two other bars to a window that led to the outside almost severed. As a result eight men are held in solitary confinement while an investigation is being made of the attempted wholesale delivery.

Oscoda—Blinded by a swarm of bees which at a distance he mistook for a fog, but which came through the open windshield, of his automobile, George Colbath, a local commercial fisherman, lost control of his car and it crashed into a cement culvert on M-10, near here. Colbath and a companion became unconscious after the crash, but were revived when the bees began to sting them. Each was seriously cut by broken glass.

Climax—The death of these three men will not have been entirely in vain if this inquest can bring to the public attention the fact that no government or state law demands qualification of a pilot carrying passengers or inspection of aircraft. Dr. R. G. Cook, coroner of Kalamazoo County, said at the inquest into the deaths of Victor Arnold, of Battle Creek, pilot, and William Burnham and Claire Blodgett, of Climax, passengers, who were killed in a fall here recently.

Lansing—Reduction in telephone rates on certain classes of calls have been announced by the Michigan public utilities commission, the most important change being the advancement of the time of beginning of the evening rate to seven o'clock. It has been effective in the past after 8:30 p. m. The new rates become effective October 1. The order also makes provision for the reversal of charges on station to station calls where the amount of the charge is more than 25 cents.

Ann Arbor—Bank directors are considering changing the student checking account system to a method similar to that of travelers' checks. The change is being agitated by the retail merchants. If this system is adopted, it is explained, students will purchase checks from the bank and will not be able to use the regular checks as in the ordinary checking accounts. The petition says that this method would assure the merchants that money had been deposited for the checks they accept.

**PLEDGE TO THE PUBLIC
ON USED CAR SALES**

1 All used cars offered to the public shall be honestly represented.

If a car is suitable only for a mechanic who can rebuild it, or for someone who expects only a few months' rough usage on a camping trip, it must be sold on that basis. Each car must be sold for just what it is.

2 All Studebaker automobiles which are sold as CERTIFIED CARS have been properly reconditioned, and carry a 30-day guarantee for replacement of defective parts and free service on adjustments.

This is possible because tremendous reserve mileage has been built into every Studebaker, which it is impossible to exhaust in years.

3 Every used car is conspicuously marked with its price in plain figures, and that price, just as the price of our new cars, is rigidly maintained.

The public can deal in confidence and safety only with the dealer whose policy is "one price only—the one price to all." For, to sell cars on this basis, every one of them must be honestly priced to begin with.

4 Every purchaser of a used car may drive it for five days, and then, if not satisfied for any reason, turn it back and apply the money paid as a credit on the purchase of any other car in stock—new or used.

It is assumed, of course, that the car has not been smashed up by collision or other accident in the meantime.

To the Public: We pledge adherence to the above policy in selling used cars.
