VOLUME 31

EAST JORDAN, MICHIGAN, FRIDAY, JULY 15, 1927.

NUMBER 28

Winter Sports For Michigan

Plans Discussed by Association at Potoskey, Monday.

The Michigan Winter Sports Association met at Potoskey Monday, July 11th at the Cushman House. Representatives were present from Grand Haven, Manistee, Traverse City, Charlevoix, Potoskey, Harbor Springs, Cadillac, Topinabee, Gaylord, Grayling, East Jordan, Boyne City. Letters were read from Muskegon and Cheboygan.

William McManus, President of the Association opened the meeting at 11:00 a. m., and the Mayor, Hon. W. G. McCune, gave a short talk of welcome. Don T. McHugh, Secretary of the Chamber of Commerce of Charlevoix gave an interesting talk about his investigation of the winter sports at Lake Placid, N. Y., and Montreal, Quebec. The manner in which the sports are conducted. The visitors cared for and the business advertised, how the business has been built up in the past seven years.—Mr. Hanson of Grayling gave an interesting talk about the work done at that place to make winter sports available for their own citizens.

The whole question of the various activities was gone over by the men present, and the men present were instructed in the manner in which each community could and should work to interest his town in preparing for a concerted effort of all the towns in making winter sports attractive and available to people in the middle west, the physical and mental good of the visitors and profit to the communities.

Mayor H. W. Dicken and Fr. D. M. Drinan represented the East Jordan Business Men's Club at this meeting, and will make a report at next week's meeting of the Club.

East Lansing—Between 700 and 800 members of the Michigan state farm bureau will assemble at Michigan State College for the state-wide rally day program, July 18. It was announced here.

Traverse City—Northern Michigan's fight against the common barberry has been renewed by the United States department of agriculture, to destroy the plant for the black stem rust which causes damage to wheat, oats, barley and rye.

Port Huron—George H. Bogart, 12 years old, of Imlay City, son of Otis H. Bogart, is in the Port Huron City Hospital and will lose the sight of his left eye as the result of the premature explosion of a fire cracker. His right eye also is affected, but may be saved.

Elsie—Vic. Baka, 9 years old, son of John Baka, a Mexican farmer living north of Bannister, will recover from injuries received when the team he was driving on a mower ran away throwing the boy in front of the knives of the machine. The knives cut off one of his legs just below the knee.

Litchfield—Fire departments of Albion, Hillsdale, Jonesville, Coldwater and Allen were called here to check a blaze that destroyed the Parsons' bakery, the Staddard and Anderson meat market, and a part of an old hotel building. Vern Cook, volunteer fireman of Litchfield, was overcome by the heat while fighting the flames. The loss is estimated at \$10,000.

Mt. Clemens—Construction of five new barrack buildings at Selfridge Field, at a cost of \$536,500, will be under way soon, it was announced here by Martin K. Gratzann, Detroit, builders, who received the award of the Government for the work. The Detroit firm was lowest of 14 bidders. The builders agree to have the work completed within 180 days and plan to employ between 300 and 400 men on the job.

Grayling—J. H. Lamb, of Bay City, a Michigan Central Railroad engineer, received painful injuries when he fell out of his engine cab when he was overcome by heat. Lamb was engulfed on train No. 206, southbound, and when near Vanderbuilt, he suddenly fell over and pitched out of the cab while the train was running at a rate of about 33 miles an hour. The train crew picked him up and brought him to a Grayling hospital.

Detroit—Michigan's exports in 1926 were valued at \$282,594,215, an advance of \$15,883,491 over the figure for 1925, according to the latest report of the United States department of commerce. They advanced the state from sixth to fifth place among exporting states, the report showed. In 1925, when Michigan's exports amounted to \$247,710,727, the state ranked sixth. In 1924 she ranked eighth, with exports valued at \$177,976,454.

New Fire Tower For Jordan Twp.

A new fire tower arrived and was unloaded at Boyne City Monday. It weighs 4 1/2 tons, is 85 feet high and will be set up in Jordan township, Antrim County in the near future. Another zone of our beautiful forests will be protected by this fire tower which is unusually high and has a steel room at the top where the keeper may safely stand at this great height and keep guard over the surrounding country.—Boyne Citizen.

New Beginners Band Organized

Twelve Girls Are Included in The Twenty-one Students.

The 1927 Beginners class of the East Jordan High School Band is organized with a membership of 21.

The girls, who have tried to get in for a long time, were given the chance this year, with the results that 12 girls joined, besides 9 boys.

Following is the list of the members:

Cornets—Vera Montroy, Mable Addis, Henry Alexander, Junior Sherman.
Clarinets—Marie Flannery, Anita Ruhling, Rea Healey, Lois Healey.
Piccolo—David Pray.
Saxophones—Minnie Webster, Cathola Lorraine, Moreen Bulow, Martin Ruhling.
Alto—Robert Joynt, Honarine Blair.

Trombones—Marvel Rogers, Marian Maddock.

Bass—Howard Baker.
Drums—Dale Kiser, Bubby Busse-ler, Dale Clark.

Lansing—Michigan's gasoline tax earned more than that of any other state in the union during the calendar year 1926, according to figures on state revenues compiled by the census bureau at Washington. The bureau gives Michigan's revenue from this source as \$9,812,000. New York and Pennsylvania ran a close second and third with gas tax collections of about \$8,000,000 each. North Carolina collected \$7,161,000.

Cheesaning—Forest Daly, 24 years old, of Montrose, was drowned in the Shiawassee river near here while attending a picnic with his bride of 10 days and several other young couples. Daly, unable to swim, was wading in the stream at Mahoney's woods, five miles from here, and ventured into a spot where the water was over his head. His body was recovered 15 minutes later but resuscitation efforts were futile.

Fenton—The largest fish of the season so far in this vicinity was taken recently by John Stiner, while fishing in Holsington lake. The fish, a pike, weighed 18 pounds, and measured 42 inches in length. Stiner was casting with a six-ounce reel when the catch was taken, and a lively battle ensued for nearly half an hour before a landing net could be brought into play. The fish will be mounted by Guerin.

Lansing—Fred Johnson who served under three administrations as secretary of the state department of labor and industry, has been dismissed. A reduced appropriation was given as the reason. Johnson was succeeded as secretary by Herbert F. Baker, ex-state senator and former candidate for governor and United States senator. When Baker took the secretaryship, Johnson was reduced to the position of office manager.

North Branch—Lowell Whiting, 13, and Donald Kalbfleisch, also 13, while looking about the Kalbfleisch farm saw a coon run under an old stump. The two boys immediately followed and peering under saw the animal within easy reach, so young Whiting reached in and grabbed the coon by the neck, pulling it out. Three baby coons shortly followed the mother. The boys immediately "adopted" the entire family and will try to make pets of them.

Monroe—Thomas Partyn, 17 years old was killed almost instantly when he was struck by a bolt of lightning during a heavy rainstorm. The bolt struck the back of Partyn's head, came out of the heel of his right shoe and burned the grass where he was thrown. Partyn accompanied by his brother, Mathew, who was stunned and burned about his right hand and nose. The two brothers were trying to reach a house across the street to get under cover from the rain storm when hit.

Anybody can thump a typewriter, but it takes a magician to make them talk.

West to East

Still Plugging For Good Roads

"UNCLE" GEO. SAYS YOU GET ONLY WHAT YOU GO AFTER.

And This Same Principle Applies to Good Roads as Well as Any Business.

Uncle George Van Pelt writes another letter to the four newspapers which have done so much towards educating the people of Charlevoix County on good roads, for without these newspapers it could not have been done.

"Building concrete roads is like building a good business, you have to advertise in the home papers to get it. If you advertise good roads, you get them. If you don't advertise, you don't get either. That's what the newspapers are for, so why don't you use them?"

Any person who has made a study of any question for over twenty-five years, should know more about it than one who has given it no attention, or one who possibly has been influenced to be prejudiced against it for various reasons.

You know that I could not write a letter without saying something about concrete roads, and you all would be disappointed if I did not. I say this advisedly, because I receive so many letters from people who have ridden over the concrete roads and who have read my cards and letters. Probably there is no other thing that is causing so much earnest cussing and disgust as has the pouring of that dirty, black, oily substance on our streets and roads.

It would be impossible to compute the vast amount of loss and depreciation done to cars and tires, due to driving them over this soft, oily, black stuff; but it is safe to say that it would run into a huge amount in the course of a year. If the money that is spent for gravel and dirt roads with this stuff put on them, was spent for building good concrete roads, the County which did it would be hundreds of thousands of dollars ahead every year.

Now what are you going to do about it? That's the question.

While at the annual dinner at Fisherman's Paradise on June 12, no less than twenty or twenty-five drivers told their stories, and in no mild manner, and since then at Hallett's Inn, I hear it daily, and as I meet my old friends on the street they ask, what can be done to stop it; all claiming great damage to their cars, which of course we all know is true. "They all say that they would rather take the dust than to get their cars so covered with the d—n, mushy, oily stuff."

Education is useless without common sense, which applies particularly to roads and road building, and no matter how much you have, you've got to have education to put it into effect. I think it is safe to say that every one of us have a desire to "get increased wisdom and understanding in more ways than one, and this increase can only come through constant study of the subject in question; be it farming, trucking or good roads."

P. S.—Do you want a good concrete road around Lake Charlevoix? If you do, work for it. So far as I personally am concerned it will make no difference to me, but of one thing you can rest assured, and that is this: That such a road would pay for itself in less time than you know it, just the same as it has on the Dixie Highway.

Uncle George says: This may be my last letter, but I hope to finish my 14 years getting the balance of the Dixie Highway covered with concrete—as well as the road around Lake Charlevoix.

Sincerely,
Uncle George H. Van Pelt.

Shepard---Young

Mr. and Mrs. Thomas Shepard announce the marriage of their daughter, Miss Annie, to Mr. Nelson Young of Springville, Tennessee. The ceremony took place at Muskegon, Mich., Friday evening, July 1st and was performed by Rev. S. R. McCurdy. Mr. and Mrs. Young left immediately for Tennessee to visit Mr. Young's parents.

All subscribers who have not declared their independence of our business office can do so in the month of July without penalty.

They Are Still Selling Them

Despite the bobbed hair craze, hair nets are still being sold in large quantities. According to the Department of Commerce, in Washington, the shipment of human hair from Canton, China, to the United States has been doubled since the first of the year. Miss Blanche M. Mayer, of the textile division, is shown in the photograph looking over some samples of hair and hair nets.

Final Standings In State Band Contest

Director, John Ter Wee of East Jordan School Band recently received a report from Carl R. Kuhlman on the standings of the contestants in Class B at the State School Band Contest held at East Lansing in May. Following are the official figures:—

1—Lansing Vocational	88.4
2—Lincoln Consolidated	85.0
(Ypsilanti)	85.0
3—East Jordan	84.2
4—St. Joseph	83.9
5—Wyandotte	83.1
6—Niles	82.8
7—Three Rivers	82.0
8—Paw Paw	81.5
9—Big Rapids	77.8
10—Ionia	77.1

Aid Withheld Oil Drillers

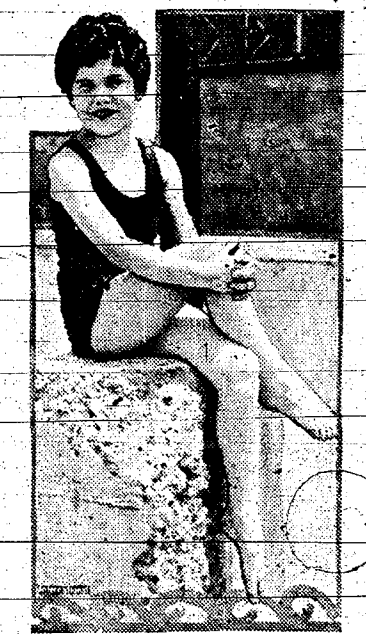

STATE WANTS TO BE SURE BOYNE CITY OUTFIT HAS NEEDED MONEY.

When L. L. Linton and F. D. Barton, both of Saginaw, convince Director Leigh J. Young of the State Conservation Department at Lansing that they are financially able, the conservation department will grant them permission to sink a wildcat oil well north of Boyne City on State land.

Linton and Barton petitioned the department for permission to lease 18,500 acres of land in Charlevoix County. The commission decided to give the director permission to give an option for a lease on only 2,750 acres, however.

The State geologist estimated that one well would cost \$10,000, and recommended that a bond of \$2,500 be posted to guarantee beginning of work. According to the petition the two prospectors already have paraphernalia for drilling on the ground. Potoskey News.

Five-Year-Old Champion

High and fancy diving is the fo. of five-year-old Mary Campbell Taylor of Venice, Calif., who is the champion high diver of her class. The little mermald does a 34-foot high dive one that would make many an adult hesitate at.

DIP! NG INTO SCIENCE

Why Salt Melts Snow

When any salt is added to snow or ice, the union of the molecules forms a solution which has a lower freezing point than the snow or ice. This solution naturally becomes weaker as the salt is dissolved and eventually the process ceases to operate, but the solution is still of sufficient strength to remain below the freezing point of pure water. (© 1927, Western Newspaper Union.)

It is a good thing the campaign doesn't occur during the training period of the principals of a big fight. The candidates wouldn't get a fair amount of publicity in some journals. A prominent church man sees the welfare of the world dependent on Christian unity. According to our notion, the individual practice of Christian principles is far more important.

Resume Fight On Barberry

Clean-Up Squad Located at East Jordan For Short Time.

The fight against the common barberry will be continued in Charlevoix County this year. The campaign will be carried on by the U. S. Department of Agriculture in co-operation with the Michigan State Department of Agriculture and Michigan State College. Last year the progress made in this County was very satisfactory, the City of Charlevoix and all of the surrounding country being scouted. Included in this scouted area was one of the largest growths of the common barberry found in Michigan.

The common barberry against which the campaign is being staged is the host plant for the black stem rust of wheat, oats, barley, rye and other grains and grasses. This black stem rust should not be confused with the leaf rust which is so very prevalent at the present time. The eradication of the common barberry will not do away with the leaf rust which fortunately is not as devastating as the black stem rust.

At the present time the squad located in this County are making their headquarters in East Jordan, but expect to move to Boyne City sometime next week. The squad consists of Walter Kidman, Squad Leader, Hunter, Griffith, Larsen and Bry-fogle.

Dr. Humphrey, head of rust investigational work for the U. S. Dept. of Agriculture, accompanied by Mr. Powell, Commissioner of Agriculture of this State, E. J. Baldwin, head of the Extension Department at Michigan State College and W. F. Reddy, state leader of the barberry eradication campaign, will visit Charlevoix County on Thursday of this week.

This party is making a tour of the counties in which the campaign for the eradication of the common barberry is being carried on. They are checking up on the work which was done last year and looking over the new territory to be covered. Charlevoix County is of particular interest to them as some of the most heavily infested areas in the United States were found here last year.

New Bank For Mackinaw City

East Jordan Men Interested in New State Institution.

The organization of the Mackinaw City State Savings Bank has just been completed and Mackinaw is soon to have a Bank of its own. The new organization is expected to open for business next week and will occupy the old bank building there, formerly occupied by the private bank of Smith & Company.

The new bank has been capitalized at \$20,000, already paid in, and has been approved by the State Banking Department. The charter is expected this week.

Stockholders include Roscoe Mackey, East Jordan; Leon G. Balch, East Jordan; William H. Parks, Potoskey; Ward J. Waller, Cheboygan; William Childs, Cheboygan; William J. Ryan, Mackinaw City; Louis H. Liebeck, Mackinaw City; Joseph Fitzpatrick, Mackinaw City; Richard G. Hayes, Carp Lake; Arthur N. Buhler, Mackinaw City; O. F. Miller, Mackinaw City; William Vanhellen, Mackinaw City; M. J. Burns, Carp Lake; William J. Lawery, Mackinaw City; John L. Hilliker, Mackinaw City; Wellington D. Smith, Mackinaw City; Clark V. Trumbull, Mackinaw City and Ferdinand Paquin.

The Officers are:—President, Roscoe Mackey, East Jordan; Vice-President, William J. Ryan, Mackinaw City; Cashier, Guy C. Eccleston, Potoskey. Directors, in addition to Messrs Mackey and Ryan, include Louis H. Liebeck, Joseph Fitzpatrick, Leon G. Balch, William H. Parks, Ward J. Waller, William Childs, Clark V. Trumbull and Richard G. Hayes.

EASES LIFE FOR THE WIFE

Foley Pills diuretic have accomplished one great aim—they do make life easier for tired, nervous, run-down women, giving back to them health, strength and enjoyment. Hear Mrs. Black of Petersburg, Va.: "Before I took Foley Pills diuretic I could scarcely get about—could not stoop over nor rise up without great pain. Now, I have none." Easy to take, cost little, in constant use over 25 years. Satisfaction guaranteed. Ask for Foley Pills diuretic and accept no substitute.—Hite's Drug Store. adv.

Peoples' Wants

MUNNIMAKERS
 Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

REPAIRS—You can get Repairs for any Stove, Range, Engines, Cars, Sewing Machines, Cream Separator, Plow, or any Farm Machinery at C. J. MALPASS HDWE. CO. 10-t.f.

Fish Advocates Sale of Beer in Grocery Stores!—headline. It seems to be a fish story.

It is said that industry is employing fewer men than in 1923. Our work, however, keeps up.

Two naval officers helped to develop the air-cooled motor, which made possible the trans-Atlantic flights. The moral is, do you know their names?

WEED NOTICE.

To owners, occupiers or possessors of lands, or any person or persons, firm or corporation having charge of lands in this State:

Notice is hereby given that it shall be the duty of every owner, possessor or occupier of land or of every person or persons, firm or corporation having charge of any lands in this State to cut or cause to be cut down and destroyed all Canada thistles, milk weeds (esclepica cornutus), wild carrots, ox-eye daisies, or other noxious weeds growing thereon, at least once each year, before the 15th day of July, 1927, and as much oftener as may be necessary to prevent them going to seed, and if any owner, possessor or occupier of land, or any person or persons, firm or corporation having charge of any lands in this State shall, knowingly, suffer any Canada thistles, milk weeds, wild carrots or other noxious weeds to grow thereon or shall suffer the seeds to ripen, so as to cause or endanger the spread thereof, he or they shall, on conviction in any court of competent jurisdiction be liable to a fine of ten dollars, together with costs of prosecution for every such offense and he or they shall pay the cost of cutting and destroying such weeds.

Failure to comply with notice on or before the date mentioned or within ten days thereafter shall make the parties so failing liable for the costs of cutting same to be levied and collected against the property in the same manner as other taxes are levied and collected.

Dated this 11th day of July, 1927. IRVING CRAWFORD, Commissioner of Highways of the Township of South Arm, County of Charlevoix, State of Michigan. adv. 26-1.

CHARLEVOIX CO. HERALD

G. A. LISK, Publisher.

Subscription Rate—\$1.50 per year. Entered at the Postoffice at East Jordan, Michigan, as second class mail matter.

NOWLAND HILL

(Edited by Mrs. C. M. Nowland)

Mrs. Max Graham and little son, Paul, returned to Detroit, July 2nd, after a week's visit with her grandparents, Mr. and Mrs. Edd Nowland, also brother and sister, Percy and Lila Batterbee, and other relatives in East Jordan and Rock Elm.

Mr. and Mrs. Andrew Nowland started on their return trip to Milwaukee, July 6th by way of Chicago, after a few days' visit at the home of his parents, Mr. and Mrs. Sam Nowland.

Miss Anna Shepard returned to Muskegon July 2nd, after a few weeks visit at the home of her parents, Mr. and Mrs. Thos. Shepard and other relatives.

Ivan Nowland of Flint spent the week end of the 4th with relatives and friends.

Mr. Marvin, the Rawleigh man was through here first of the week.

Terry Barber was badly injured Saturday, while haying.

John Parker of Deer Lake started haying this week on the old Hudkins homestead.

Mr. and Mrs. E. G. Kurchinski and Mr. and Mrs. R. E. Nowland drove to Charlevoix Sunday evening to see the Convict Ship "Success."

Mr. and Mrs. Darius Shaw, near East Jordan were Sunday visitors of her parents, Mr. and Mrs. A. R. Nowland.

Miss Alice Nowland visited Miss Helen and Ruby Hardy, Sunday.

Only 8 people came out to the annual school meeting at Afton schoolhouse, July 11th. E. L. Nowland was re-elected for Director. O. D. Smith sold the District 30 cords of wood.

Mr. and Mrs. Emrey Fuller and 4 children of near Saginaw spent the 4th week end in Boyne City and with his father, Lou Fuller of Mud Lake.

Mr. and Mrs. Omar Scott of Boyne City, Mr. and Mrs. Arthur Brintnall and children, and Mr. and Mrs. Chester Shepard of East Jordan, Mrs. A. R. Nowland, Gene Kurchinski family, Mr. and Mrs. S. R. Nowland and Mr. and Mrs. A. J. Nowland were callers at the Ray Nowland home the past week.

Clair Brooks of Boyne City has his hay all up in cocks on his farm on the Hill. His wife has finished picking their strawberries, the dry weather cut the crop short.

Mrs. Clifford Brown and daughter, Thelma of Boyne City are spending a few days with her father, E. S. Brintnall of south Wilson, who is quite ill.

MILES DISTRICT

(Edited by Mrs. A. Miles)

Mr. and Mrs. Elmer Reed and children of the West Side spent Sunday afternoon with her parents, Mr. and Mrs. Jerry Moble.

James Holben and Mrs. J. E. Erbacher and daughter, Orene, and Mrs. A. Miles called on Mr. and Mrs. B. Madill in Ellsworth Friday afternoon.

Frank Addis and Lawrence Addis attended the "Hay Day" at the Will Shepard farm one day last week.

Mr. and Mrs. Louis Zoulek of Chadock Dist. spent Saturday evening at the home of their daughter, Mr. and Mrs. Lawrence Addis.

Mr. and Mrs. Frank Addis and son, Jamie, Mr. and Mrs. Lawrence Addis and son motored to Charlevoix Sunday and had a picnic dinner in the Park.

Mrs. Art Farmer and children of East Jordan spent Monday at the A. Miles home.

Mrs. J. E. Erbacher and daughter, Orene are visiting at the Art Farmer home in East Jordan.

Mr. and Mrs. Xelle Miles and children, Mr. and Mrs. E. Miles, Mr. and Mrs. A. Miles, Mr. and Mrs. C. L. Strong and Mrs. J. E. Erbacher and daughter, Orene, motored to Deer Lake Sunday. There they met Mr. and Mrs. Norman Wilson and children from South Lyon, and Mr. and Mrs. Henshel and daughter from Elmira, where they all enjoyed the picnic dinner and the swimming, also the readings by Mr. Wilson.

Harry Kowalske of East Jordan and Rudy Kowalske and daughter, Carmen of Detroit were supper guests at the home of Mr. and Mrs. Dett Evans Tuesday.

Dick Farmer and Joe Kraemer of East Jordan called Thursday evening at the A. Miles home.

Mr. and Mrs. Dett Evans were shocked Saturday evening when they received the sad news that their relatives that had motored from New York and had got as far as Evert, Mich., had all been killed by a train. At this writing they have not heard full particulars.

Actions Decide Worth

Not alone to know, but to act according to the knowledge. Is thy destination, proclaims the voice of my inmost soul, wrote Fichte, German philosopher. Not for indolent contemplation and study of thyself, nor for brooding over emotions of piety, no, for action was existence given thee; thy actions and thy actions alone, determine thy worth.

PENINSULA

(Edited by Mrs. E. Hayden)

Alfreda, Daniel and Ellen Reich of Lone Ash farm, Eula Arnott of Maple Row farm, Earl Stollard of Pleasant View farm and Frances Russell of Ridgeway farm put in applications for high school tuition to the Star Dist.

Mrs. Ed. Spence of Plainwell, Ont., and her son, John and wife of Detroit and Miss Orva Sadler of Alanson spent a very pleasant week with Mrs. Spence's sister, Mrs. Albert Staley in Mountain Dist. They returned to their respective homes, Saturday.

Because of the disabled telephone, this item was missed last week. Mr. and Mrs. Dan Arnott and H. E. Russell of Flint spent Sunday with Mr. and Mrs. James Arnott and family at Maple Row farm.

Mr. and Mrs. Frank Swaine and Johnny Uptegrove and Mrs. Geo. McMillen and 2 children and Wilfred Arnott of Muskegon arrived Saturday night and visited Mr. and Mrs. James Arnott and family until Monday.

Bob Arnott of Sena, Mich., arrived Monday for a visit with his brother, James Arnott and family at Maple Row farm.

Miss Pauline Loomis of Gravel Hill went to the Ingall's Dairy farm, near Charlevoix Saturday to spend the week with her grandmother, Mrs. Ernest Loomis who is employed there.

Ernest Loomis, who is spending the summer with his son, Ray Loomis and family at Gravel Hill, expects his friends, Mr. and Mrs. Guy Fuller of Grand Rapids, Friday, for a visit.

Mr. and Mrs. Lew Lawrey of near Boyne City visited Mr. and Mrs. Geo. Staley at Gleaner Corner, Sunday.

Mr. and Mrs. Geo. Weaver and family of East Jordan visited her parents, Mr. and Mrs. Ira Weaver in Star Dist., Sunday.

Mrs. Florence Novotney of Charlevoix has been engaged to teach the Star school the coming year.

Miss Ruth Featherly of the M. S. C. met with the Canning Club Friday at the H. Gould home in Mountain Dist. The next meeting will be in 2 weeks at the F. H. Wageman home, when they will can greens, and go swimming.

A crew of men with the Co. screen and crusher, who have been taking gravel-out of the Hayden pit for repair work, finished Monday.

The McFaden Co. on Lansing had a truck on the Peninsula last week cleaning the Chemical toilets in the schoolhouses.

The annual school meeting at Star school Monday evening was attended by only 12 voters. All business was left to the School Board. Mrs. Emma Arnott of Maple Row farm was re-elected by acclamation for the third term for Treasurer.

Aeroplanes are quite common again this summer, one went over north, Saturday, and two at the same time went south, Monday.

The beautiful refreshing showers of the past week greatly retarded haying hay of which many acres are bunched.

Crops are doing fine and a great deal of cultivating is being done.

Gofers made quite extensive raids on pickle seed at planting time. It is the first time anything like that has happened in this section.

Charles Johnson and lady friend, Mr. Forge and Mrs. Bessie Newson of Petoskey made a tour of the Peninsula Sunday afternoon and called at Orchard Hill.

Mrs. Omar Scott with son, Devere, and daughter, Aida of Boyne City came out to the tent at the Whiting Park Fire Tower, Saturday, to live the rest of the school vacation.

R. T. McDonald and family of East Jordan, and his brother of Calif., and Roy Webster and family of East Jordan, returned home Tuesday, after camping a week at the C. H. Dewey flowing well, on the South Arm of Lake Charlevoix.

Wm. Looze was re-elected Treas. of Three Bells Dist. to succeed himself at the annual school meeting Monday evening.

Miss Opal McDonald has gone to the Olds cottage, near Charlevoix, to work for the summer.

Miss Helen Kroll has gone near Charlevoix to work for the summer.

Mrs. Josephine Ross and 3 children who have visited her sister, Mrs. D. Gaunt and family for some weeks, returned to her home in Bay City, Saturday.

There were 29 in attendance at the Star-of-Hope Sunday School, July 10. There was a very instructive session.

PLEASANT HILL

(Edited by Anson Hayward)

Farmers are busy cutting hay at present.

School meeting was held Monday. Vernon Vance was elected Moderator. Mrs. Hayward's mother is visiting at the A. Hayward home this week.

Ben Schroeder is cutting hay on his farm this week.

Bennett's Sunday School was well attended last Sunday.

There will be baptismal services in East Jordan somewhere near the Tourist's Park, on July 17th.

Charitable Nursery

Creche is a nursery generally supported by charitable funds, where parents working from home by the day may leave their infant children to be cared for, at a small charge, until their return in the evening. There are many such useful institutions in the industrial portions of our large cities.

WILSON

(Edited by Mrs. O. D. Smith)

Good growing weather. Mrs. David Shepard is stopping at her old home on the Big Hill this summer.

Ivan Nowland of Flint spent a few days recently at his home on Nowland Hill.

Mrs. George Jaquay's two little boys are spending a few weeks with her mother at Lake City, Mich.

Mr. McSaubia and family moved to Boyne City last week, where he is working in an automobile repair shop.

While unloading hay with hay slings a few days ago, Terry Barber of Deer Lake was injured quite badly by the sling breaking loose and falling with its weight of hay on his head and shoulders. He is confined to his bed at the present writing.

Mr. Cuzon, a Honey Salesman of Detroit spent last week at the home of Geo. Jaquays in this place.

A small crowd out to Afton school meeting last Monday evening. E. S. Nowland was re-elected Director for the ensuing 3 years.

Wm. Sutton and family of Jackson and Mr. and Mrs. Claude Sutton of Ionia spent the Fourth with their parents, Mr. and Mrs. J. L. Sutton in this place.

A bounteous rain visited us Tuesday night, which rejoiced the hearts of the farmers, though tons of hay in the fields suffered by its coming.

Elmer Hayner of Pontiac spent his 4th of July vacation at his home in Wilson. His mother returned with him and is now visiting relatives in Pontiac and vicinity.

Richard Shepard of Grand Rapids has been spending his 10-day vacation by helping his father with the haying on his farm in this place. Mrs. Shepard has been visiting in East Jordan and vicinity. They returned home last Monday.

Grand Rapids—When Emmett D. Fairchild, an electrician, fired a shotgun into a cherry tree in his yard as part of a celebration, two boys perched in the branches and another boy and a man, sitting on a nearby porch, were struck by the shot. None was seriously hurt.

Port Huron—Eva Jarnac, of Detroit, who lost \$400 at the Lighthouse Park Tourist camp during the recent holiday, left for her home with a good impression of her temporary visiting place. The purse, containing the money, was found on the grounds and returned to her.

Manistee—More than 300,000 trout have been planted in the streams of Manistee county according to Deputy Game Warden Ray R. Wolters. Among the streams restocked are Boswell, Podunk, Chicken, Little and Big Beaver, Big and Little Bear, Bower, Farris, Claybank, Cedar and Pine Creeks.

Coldwater—Ernest, the son of E. E. Boyer, of Coldwater, may lose his right hand following the explosion of a giant firecracker. H. Wilford Good, an auto-mechanic, used a toy cannon to celebrate. The cannon, which he believed was not loaded, contained a shell, and both of Good's hands were badly burned when the cannon exploded while he was carrying it to a friend's home.

Lansing—Control of the state accounting division has been shifted from the administrative board to Auditor-General O. B. Fuller by Governor Fred W. Green. The announcement follows a decision made some time ago, on the part of the chief executive to keep the accounting work under the board despite his campaign promises to give complete control to the auditor-general.

Our extra slice of pie for this week is awarded to the man who never tells a dirty joke.

WEED NOTICE.

To owners, occupiers or possessors of lands, or any person or persons, firm or corporation having charge of lands in this State:

Notice is hereby given that it shall be the duty of every owner, possessor or occupier of land or of every person or persons, firm or corporation having charge of any lands in this State to cut or cause to be cut down and destroyed all Canada thistles, milk weeds (esclepica cornutus), wild carrots, ox-eye daisies, or other noxious weeds growing thereon, at least once each year, before the 15th day of July, 1927, and as much oftener as may be necessary to prevent them going to seed, and if any owner, possessor or occupier of land, or any person or persons, firm or corporation having charge of any lands in this State shall, knowingly, suffer any Canada thistles, milk weeds, wild carrots or other noxious weeds to grow thereon or shall suffer the seeds to ripen, so as to cause or endanger the spread thereof, he or they shall, on conviction in any court of competent jurisdiction be liable to a fine of ten dollars, together with costs of prosecution for every such offense and he or they shall pay the cost of cutting and destroying such weeds.

Failure to comply with notice on or before the date mentioned or within ten days thereafter shall make the parties so failing liable for the costs of cutting same to be levied and collected against the property in the same manner as other taxes are levied and collected.

Dated this 11th day of July, 1927. HENRY W. COOK, Chief of Police.

East Jordan, Michigan. adv. 28-1.

REPORT OF THE CONDITION OF State Bank at Boyne Falls

at Boyne Falls, Michigan, at the close of business June 30, 1927, as called for by the Commissioner of the Banking Department.

RESOURCES		Commercial	Savings
LOANS AND DISCOUNTS, viz.:			
Secured by collateral	\$ 32,620.02		
Unsecured	17,080.50		
Totals	\$ 49,700.52		\$ 49,700.52

Goos Back to Old Rome
Vitruvius was an architect of Rome, engaged in the practice of his profession a few years before the beginning of the Christian era. He published the book which bears his name about B. C. 25. Vitruvius mentions that floors of oak were nailed with iron nails. Oak floors today are nailed with steel cut or wire cut nails—through the side tongue—known as blind nailing.

PROBATE ORDER
STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.
At a session of said Court, held at the Probate Office in the city of Charlevoix in said County, on the 12th day of July A. D. 1927.
Present: Hon. Servetus A. Correll, Judge of Probate.
In the Matter of the Estate of Belle Roy, Deceased.
Fitch R. Williams having filed in said court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 5th day of August A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted; It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.
SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER
STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.
At a session of said Court, held at the Probate Office in the city of Charlevoix, in said County, on the 1st day of July, A. D. 1927.
Present: Hon. Servetus A. Correll, Judge of Probate.
In the Matter of the Estate of John Cameron, Deceased.
John J. Mikula having filed in said court his final administration account, and his petitions praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 28th day of July, A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition; It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.
SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER
STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.
At a session of said Court, held at the Probate office in the City of Charlevoix, in said County, on the 25th day of June A. D. 1927.
Present: Hon. Servetus A. Correll, Judge of Probate.
In the Matter of the Estate of Leander Nyquist, Deceased.
William Anderson having filed in said court his petition praying that the administration of said estate be granted to Robert A. Campbell or to some other suitable person.

It is Ordered, That the 21st day of July, A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition; It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.
SERVETUS A. CORRELL, Judge of Probate.

It is Ordered, That the 21st day of July, A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition; It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.
SERVETUS A. CORRELL, Judge of Probate.

COMPLETE IT!

By EVELYN GAGE BROWNE
THIS what we finish—not what we begin,
By which we rise;
To try is good, but not enough where-by
To gain the prize.
We win by what we do—not by the thing
We meant to do;
'Tis where we stand—not where we ought to be,
That makes our view.

For power is given every one to be
The man he would;
A mere intent will count for naught,
though it
Be fine and good;
But effort must be followed up by work
Accomplished, done;
For only by completed tasks is life's
Great victory won.

WHEN I WAS TWENTY-ONE

BY JOSEPH KAYE
At 21—Ex-Senator Sherman Was a Detective Force Unto Himself.
AT THE age of twenty-one I was a college student. Not long after I began practicing as a country lawyer in Illinois. I remember I had no detective force to help me in my cases. I had to be my own detective. I had to go after my own witnesses. I had to penetrate the mask of delinquent character in the interest of public morals by examining, divining, analyzing human motive. In this way, the habit of tracing the personal elements of private ambition, of revenge or power in the minds of others became a legal asset.—Lawrence Y. Sherman.
TODAY—Mr. Sherman has retired from official politics and has resumed his law practice. He has had a distinguished political career. At the age of twenty-eight he was made county judge and some years later elected to the Illinois house of representatives, becoming speaker of that body. The lieutenant governorship followed and then he was elected to the United States senate.

The Sandman Story
Martha Martin

ABOUT THE BIRDS

"OF COURSE," Billie Brownie said, "I am not nearly so fond of a museum as I am of a zoo or menagerie where there are live animals."
"In a museum they have stuffed animals and old, old things. They have old, old rocks and stones and they have models of old Indian villages and such places."
"What are models?" asked one of the other Brownies.
"A model of an Indian village is a small imitation of a real one. There

"There Was the Rhinoceros Hornbill to See."

"He wears black feathers and they make their nest out of little sticks which are broken up into small pieces."
"Then I saw the weaver bird. There are many kinds of these birds in Africa. They like the hottest parts of that country, too. Also some are to be found in large flocks and the nests, which are of grass, are woven neatly and often take up a whole tree."
"This bird is black and something like a sparrow. He wears yellow feathers on his head."
"He likes to spread over a great deal of tree space just as some folks like to have more room than others."
"Ah, yes, there are many different things to be seen in a museum and I learn a lot every time I take a trip to one."
"There was the rhinoceros hornbill to see, from the Malay peninsula. He is black and yellow underneath. His beak is yellow, too."
"The horn is on top of his beak."
"These birds nest in hollow trees. While they are nesting Mrs. Hornbill is kept inside by Mr. Hornbill. He seals up the entrance to the nest with mud and other soft substances."
"He leaves only a small opening, through which Mrs. Hornbill can put her beak, and he feeds her."
"He wants to make sure, and so does she, that the eggs will hatch out quite safely."
"On account of their weight they like to get on heavy branches and they're fond of fruit; oh, yes, they're very fond of fruit."
"So you see," Billie Brownie continued, "I saw different kinds of birds and learned what they did and of the kinds of nests they built and of some of their ways."
"And there were many children visiting the museum this time, too. They did not see me, of course, because I wore my invisible brown suit, but I enjoyed seeing them."
"One part of the museum, or rather, one of the buildings, was entirely for children and everything was arranged so that one didn't have to be so very tall to see perfectly."
"In fact it was better, much better, not to be too tall."
"It's fun to travel," said Billie Brownie, after he had paused for a moment and looked about him, "but it's nice to stay at home, too."
"In fact I haven't made up my mind whether it was more fun to see new sights or the old familiar loved ones."
"And I'm not sure," he went on, "whether I will ever make up my mind about this question!"
"I don't believe I ever will," he ended laughingly.

THE WHY of SUPERSTITIONS
By H. IRVING KING

BABY'S FIST

If a baby generally keeps its hands open it is a sign that it will grow up to be a generous man; but if it has a habit of closing its fist it is a sign that it will grow up to be avaricious and a money-getter. This is a common superstition, all over the country. It arises, of course, from a natural association of ideas. We open our hand to give money but we close our fist to grasp and retain. Our expressions of "open-handedness" and "close-fistedness" are examples of how natural is the association in the mind between these manual gestures and the mental characteristics with which we connect them. The association, being natural, is also primitive in conception, and while we only use the expressions of open-handedness and closefistedness in a metaphorical way, to the ancients they were more than metaphor. For with them what was associated in thought was associated in reality. We say in a vague way that, "In the child is the future man," but to the ancients in the child was the future man in a very literal sense, and, applying their doctrine of cause and effect, their idea that what was associated in thought was connected in reality, when the baby doubled up his little fist because of the pangs of wind colic they saw a prognostic of his future—he would be an avaricious man. And that is what many thousands of people of otherwise ordinary intelligence see today in the same gesture.

Control Disease of Cucumbers

Eliminate Agencies by Which Destructive Ailment Is Wintered.

(Prepared by the United States Department of Agriculture.)
The most effective means of controlling the mosaic disease of cucumbers, according to the United States Department of Agriculture, consists in the elimination of the agencies by which this destructive disease is carried over the winter.
The cause of the disease is unknown, but diseased plants contain a form of infection which may be transmitted to healthy plants by such insects as the melon aphid and the striped cucumber beetle. The disease does not live in the soil and is not carried in the seed of the cultivated cucurbits, but is known to live from year to year in certain wild plants, some of which occur in most of the cucumber-growing sections.
Wild Plants Carry Disease.
The known wild plants which carry the disease are the wild cucumber, milkweed, pokeweed, two species of wild ground cherry, and catnip. The disease is carried over winter in the roots of these plants, except in the case of the wild cucumber which carries the infection in the seed. Insects feeding on these infected wild plants and on the cucumbers in the field spread the mosaic disease. In a number of fields where the average mosaic infection had been approximately 40 per cent, eradication of the wild host plants in and near the fields reduced it to 3 per cent.

Before planting, the field itself and all land within 75 yards should be carefully inspected and all wild host plants, whether healthy or diseased, should be pulled out. If the cucumber field can be surrounded by other cultivated crops, the work of eradication will be simplified and insects are likely to be less prevalent.
Plants Are Dwarfed.
Mosaic cucumber plants are dwarfed, the younger leaves are mottled with green and yellow, and the fruits are mottled and misshapen; the darker areas forming warty projections on the surface. When such plants appear early in the season they should be removed immediately to prevent further spread of the infection by insects. It is also advisable to use insecticides to reduce the number of insects. Where several fields are adjacent to one another it is essential that all growers co-operate in removing the wild host plants about their fields.

Dusting for Insects Is Popular and Effective

Dusting insects has become so popular, and the dust guns so easy to use and effective, that dust is taking the place of liquid sprays. For ordinary garden use a coarse cloth sack tied to the end of a stout stick is a very effective duster for leaf eaters, but for some of the sucking insects that require a contact poison like nicotine a blower is best, for it will force the dust up under the leaves as well. You can get almost any kind of insecticide now in the powder form. The best time to use is very early in the morning before the dew dries off, or it will be needful to sprinkle or spray the foliage with water to make the dust stick. There are combination dusts that will serve for both eating and sucking pests, and most gardeners will be wise to use them and use them freely.

For Meditation
By LEONARD A. BARRETT

WORRY!

HUMAN nature is a strange mixture. We refuse to live in the present. The tendency to cross bridges before reaching them is a universal habit. When nothing else can be found to worry about we worry about the weather. Worry is an American disease created for the most part by our speed and artificial life. It is a serious matter. Specialists inform us that worry never killed anybody but that worry has slain thousands. Worry is like iron filings. When it gets into the machinery of daily toil it blocks the wheels of progress. No man can be his normal and best self when exposed to the ravaging results caused by worry. Worry plays havoc with the nerve centers, creates high blood pressure, and impedes activity of the brain.
Most of the things people worry about never happen. We overestimate the value of an issue and our relation to it. He is a very wise man who has learned early in life that no person's work is so important but that some one else can doubtless do it much faster and more efficiently. When we find ourselves indispensable to any task, it is time to quit. The hill in the distance seems almost unsurmountable from the spot where you are driving your automobile. As you near the base of the hill it seems less difficult to climb, and when you reach it, it is almost imperceptible. You are over it before you know it—that is, if you have a good car. Issues when met face to face lose half of their seriousness. They seem unsurmountable only from a distance.
If worry is a disease it calls for a diagnosis. The cause for it seems to be in one's point of view. The dominating objectives in life, purposes, ambitions, etc., control and shape the point of view. If crass materialism is the directing philosophy of life, worry is inevitable. John Howard Payne saw beauty in the world and wrote "Home Sweet Home." Schopenhauer saw only the ugly and wrote his philosophy of pessimism. What you want to see determines your point of view.

Danger Spots in Roads

Are Now Clearly Marked

Danger signs in the Minnesota system of yellow-and-black markings on trunk highways, have general meanings conveyed by their shapes in addition to the specific warnings they give.
Diamond-shaped signs warn of actual dangers on the road, such as a sharp turn. When the careful driver sees one ahead he always slows the speed of his car.
Square signs mark dangers near the road but not part of it, such as schools. They put good drivers on the alert the instant they are sighted.
Octagonal and round signs always require a full stop. The eight-edged signs are posted in most instances at intersections of arterial routes to avoid collisions. Round signs of the same import but in a class by themselves, are used to mark railroad crossings, all of which are always dangerous.

Fresh Straw Is Liable to Stunt Plant Growth

Fresh straw plowed under sometimes stunts the growth of the following crops, according to soil specialists of the New Jersey agricultural experiment station. The straw acts as a medium for certain kinds of bacteria which multiply rapidly and which feed on the nitrogen that would ordinarily go to the crop. This explanation is borne out by the fact that when nitrogen is added with the straw, the harmful effects are prevented.
In very sandy soils, injury appears before a shortage of nitrogen can make itself felt. Apparently, the straw also introduces poisons which affect the tender seedlings.
The soil specialists of the station are now endeavoring to find methods of treating the straw so that both forms of injury will be prevented.

Florence Vidor

Charming Florence Vidor, the motion picture star, in her film, "Afraid to Love," wears attractive gowns and jewels of special design. This is a late picture of Miss Vidor.

How It Started

By JEAN NEWTON

"TO SMELL A RAT"

THIS admittedly inelegant phrase, which is frequently heard nevertheless, in everyday speech, had its origin in a circumstance which, fortunately, is very rare in this day of enlightenment and official regulation of sanitation and home-building.

The expression is a product of olden times; when the dog known as a ratter was an adjunct of almost every household, so infested were contemporary homes with rats. And to "smell a rat" was by no means the unusual and horrifying experience that it would be today.

It is easily comprehensible, then, that the phrase should have come into use in the figurative significance of sensing something wrong or having one's suspicions aroused. An early use of the words in this sense is found in Samuel Butler's "Hudibras," published first in 1603.

Do You Know

That: ...??

"A POUND of flesh" is a phrase used in "The Merchant of Venice." The allusion is to Shylock, the Jew, who bargained with Antonio for a "pound of flesh." He was rolled in his suit by Portia, who said the bond was expressly a pound of flesh, and therefore the Jew must carry out the expressed terms of the agreement. He must cut the exact quantity, neither more nor less than a just pound; and in so doing he must not shed a drop of blood.

"A Pound of flesh" has now come to mean the exact terms of an agreement, the whole bargain, the bond just as expressed.—Anna S. Turnquist. (© 1927, Western Newspaper Union.)

Indian Peace Sign

When used to mean "friend," the Indian sign of the pipe or of smoking is made as follows: (1) Tips of the two first fingers of the right hand placed against, or at right angles to, the mouth; (2) suddenly elevated upward and outward to imitate smoke expelled. A ceremonial sign for peace or friendship is the extended fingers, separated, interlocked in front of the breast, hands horizontal, backs outward. When the idea conveyed is peace or friendship with the whites, the handshaking of the latter is adopted.

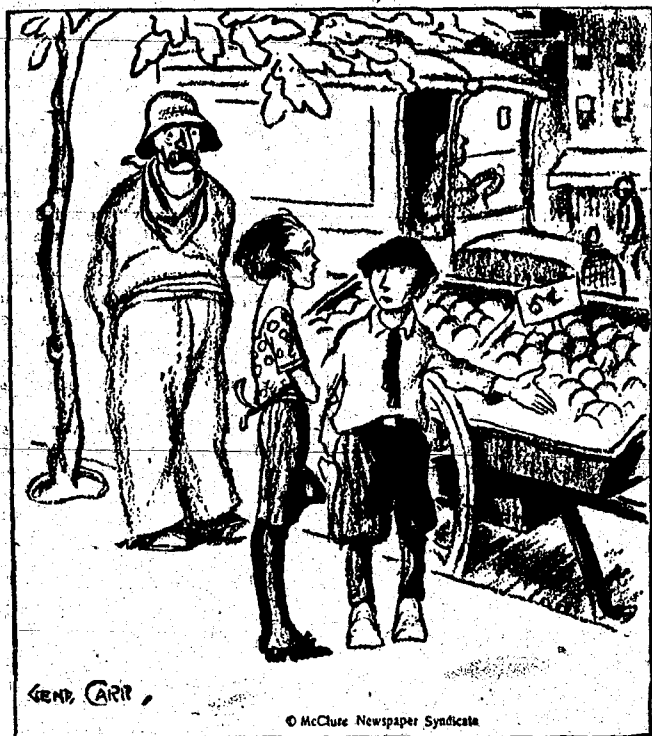

GIRLIGAGS

"When a girl has her hair bobbed she expects to have bangs," says Frivolous Flo, "and it doesn't surprise her at all if she gets a few knocks." (Copyright.)

JUST HUMANS

"GO ON, SADIE, GO AS FAR AS YOU LIKE, HAVE TWO OF 'EM!"

SOMETHING TO THINK ABOUT

By F. A. WALKER

FIGHTING — RETREATING

A GOOD many battles have been lost because the commanding general in learning how to fight, neglected to learn how to retreat.

In the battle of life it is quite as necessary to know how to extricate yourself from a difficulty as it is to know the principles of getting ahead.

The man who continues to attempt what has proved impossible of accomplishment may have admirable courage but very poor judgment.

The one thing that a good general does when he is retreating is to KEEP FIGHTING.

If you keep fighting hard enough the retreat itself may be the means of eventual victory.

A young man who has chosen the wrong occupation, who has undertaken a job for which he is not fitted, will gain in the end if he retreats and gets into a new and better position.

Most of us are best fitted for one thing.

If we try to be more than that or other than that we sacrifice results, and results are the only things that count.

There are very few Michaelangelos who can be equal successes as sculptors and painters and architects.

It is only once in ages that there is a man like Leonardo Da Vinci, who was perhaps the wisest man that ever lived. He attained eminence as an artist whose masterpieces "The Last Supper" and "Mona Lisa," have been reproduced more than any other two pictures ever painted.

He was a great engineer, a wonderful inventor, a musician of merit, a botanist, a chemist, an astronomer, a geologist, an explorer and geographer and on all of these subjects he was a voluminous and entertaining writer.

He was one general in a million—he never had occasion to retreat.

Conduct your retreat in an orderly manner.

Cyrus the Great, who won many victories to have his head cut off by the woman, Queen Tomyris, to whom he lost the last battle he fought, said of retreating: "When an army must retreat, let the retreat be managed in the safest manner and not in the quickest."

Don't be in a hurry about changing your work.

Don't be impetuous and throwing down your tools, or your books or whatever you work with, walk out with a "to h—l with that job."

Conduct your retreat in a safe, sane way, fighting as you go, fighting to find the right thing and the right place where you will be worth-most to yourself and therefore most to everybody else.

The one thing is to be sure you are doing something. Either go ahead or retreat.

Don't try to be a stand-still soldier. There is often quoted a truism that a rolling stone gathers no moss. But moss is not a very valuable asset and nobody need count himself a great failure if he dies without ever having possessed any.

A well-polished diamond is the most valuable of the mineral family, and the value comes to that only after a good deal of rough contact with things harder than itself which shape and brighten it.

Go ahead all the time if you can. But if you cannot go any further ahead on the line you have chosen don't be afraid to "back up" and try another road to success.

The Pity of It

"My objection to real life," says the heroine of a Scotch novel, "is that it isn't true to the moving pictures."

Mother's Cook Book

If you were busy being glad, And cheering people who are bad, Although your heart might ache a bit You'd soon forget to notice it. —Rebecca Foresman.

THE IMPORTANT GARNISH

IT WAS a little New York city school girl who raised her hand in the cooking class when the teacher asked, "What is a garnish?" and all the rest of the class looked dumbfounded. "I know, teacher," piped Yetta. "It's parsley."

There are a good many women like Yetta, who think that parsley is all there is to the entire subject of garnishing foods to make them more attractive.

Parsley and lemon are the housewife's stand-bys for garnishes, because they are always obtainable, twelve months out of the twelve. The housewife who has not access to large markets can grow her own parsley in a pot on the kitchen window sill. Of course, lemons are always to be found in every well-stocked kitchen, and there is scarcely a day when it is not needed for something. Fish, whether canned or fresh, is one meat which seems to demand a few drops of lemon juice to bring out its flavor, and for such garnishes the lemon should be cut into sections lengthwise, six sections from one lemon. These long sections are much easier to use than slices are, though slices are decorative.

Cold meats look very tempting when carefully arranged on a large platter garnished not only with parsley, but with other decorative foods as well, such as slices of firm red tomato, each with a slice of olive in its center, disks of carrot or cucumber, rings of sweet green pepper or onion, or tiny disks of sliced sweet gerkins. Tiny red radishes, either plain or cut into buds, and whole olives are always good looking, either on a platter of cold meats or decorating a salad.

In garnishing salads and desserts, nut meats and candied or maraschino cherries are a pretty garnish. Slim jelly may be cut into tiny cubes with a sharp knife, or scooped into balls with a vegetable scoop. This little, too is very useful, in making balls of apple, banana, watermelon, beet, etc., to rim up various dishes. Capers and tiny pickled onions are also piquant as well as attractive garnishes.

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says the man who first said variety is the spice of life didn't know his philosophy would be applied to matrimony. (© by McClure Newspaper-Syndicate.)

Determine Hay Grade by Time of Cutting

Some Common Hays Are Allowed to Stand Too Long.

Late cutting and improper curing are the most common cause of low grades and low prices of hay, says Prof. L. A. Dalton of the department of agronomy at the New York State College of Agriculture at Ithaca. The usual difference between No. 2 and No. 3 hay is that No. 3 was allowed to become over-ripe or was cured in such a way that it lost its color and aroma. The time when the common hays should be cut are as follows, according to Professor Dalton:

Timothy should be cut when it is in full bloom. If allowed to stand longer the leaves and stems turn brown. If allowed to stand too long many of the leaves turn brown and fall and the stems become woody.

Mixtures of clover and timothy should be cut when the clover has reached full bloom. Red clover usually blooms ten days to two weeks earlier than timothy, but if the cutting is delayed until the timothy is in bloom the clover will be over-ripe.

Alfalfa should be cut when one-tenth to one-fifth of the crop is in full bloom. If allowed to stand longer the plants that flowered first lose many leaves and become hard and woody.

Hay should be raked into windrows while it is still sappy so that its moisture will evaporate without the excessive loss of green color, which occurs when all the hay is exposed to the sunlight in the swath.

Silage More Palatable Than Fodder for Cows

An acre of corn has a much higher feeding value when fed to dairy cows as silage than it has when cured and fed as fodder. The superior value of silage over fodder is attributed largely to the smaller waste in the handling, curing, storing and feeding of silage and to its greater palatability. Principally because silage is much more palatable than cord fodder, more of it is consumed, thus making more nutrients available for milk production.

These facts are borne out by an experiment made by the Iowa Agricultural experiment station in which corn silage was compared to cord fodder in well-balanced rations fed to dairy cows. By giving corn silage a feeding value of \$4.50 a ton, or \$36.00 for an acre yield of eight tons, the relative value of corn fodder was found to be \$17.17 for a production of 3.4 tons per acre. However, as there is about 5 per cent greater additional loss resulting from curing fodder than there is from curing silage, the acre valuation of the fodder is reduced to \$16.21. An acre of corn fodder in these trials, therefore, was given but 45 per cent the value of any acre of silage for feeding to dairy cows.

Handling Soy Beans for Both Hay and for Seed

Soy beans should be cut for hay soon after the seed pods have been formed, and before the seeds have been fully developed, about the time the lower leaves begin to turn yellow and drop.

For seed soys should be allowed to become fully matured before harvesting. At this time the leaves will have largely dropped off. If they stand up well it is more satisfactory to cut and bind and shock them and let them stand in the shocks until dry enough to thresh. They may be cut with a mower and shocked until ready to thresh, but more of the seed will shatter and be lost and they will be harder to thresh.

In making hay of soys they should be allowed to become well wilted in the swath before raking and shocking, but should not be allowed to become dry enough to shatter off the leaves. The shocks will shed water better if put up when the hay is a little green.

Agricultural Notes

Well-bred cows leave profits—mongrels pay no rent.

Even if low-grade truck doesn't spoil on the market it spoils the market.

A good cow well fed will do her best—a poor cow poorly fed will do her worst.

While they are small, carrots should be thinned so they stand three or four inches apart in the row.

Growing chickens and laying hens need green feed the year round to grow best, keep in good health or to lay eggs.

Keep after the weeds. It has been a rainy spring and ideal weather for them. If it is too wet to hoe, pull them by hand.

Lime for the soil appears to be one of the best-paying propositions for farmers, for records from 17 states show an average return of 188 per cent on the investment.

All animals like fresh fruit. It is a good succulent for them and should be used. Last year thousands of bushels of peaches were fed to hogs; this got rid of the fruit and helped the hogs.

MICHIGAN BELL TELEPHONE CO.

Long Distance Telephone Service Speeds Business for SPARTON

THE SPARKS-WASHINGTON COMPANY
Sparton, Michigan
April 20, 1927

Michigan Bell Telephone Company, Jackson, Mich.
Attention Mr. Charles Miller.

Gentlemen:

It seems unnecessary to tell you, because undoubtedly your records will show, that we are using long distance service more than we have ever before in our existence.

We find this service, especially helpful in giving instructions and passing information to our district managers located in various parts of the country, where we will save from forty-eight to sixty hours.

We also want to congratulate you on the great improvement in service during the past year, and feel sure our use of the long distance will be even greater in the future.

Yours very truly,
THE SPARKS-WASHINGTON COMPANY
President, Sparks-Washington Company

We find this service especially helpful... where mail takes from forty-eight to sixty hours.

Frock of Karma Crepe for the Young Debutante

A charming, as well as smart, frock which the young and discriminating debutante will find becoming for the warm season. It is of karma crepe.

WHEN AN ACHING BACK TORMENTS.

Watch your kidneys—when they are affected, elimination is not normal—too scanty and burning—or too frequent and troublesome. Men and women everywhere are using and recommending Foley Pills diuretic to regulate kidney elimination, and to free the system of lurking poisons that cause backaches, rheumatic pains stiff and swollen joints, tormenting lumbago. The medicinal qualities of Foley Pills diuretic are valued so highly that they are guaranteed to give satisfaction. Ask for them—Hite's Drug Store. adv.

Briefs of the Week

Inadore Kling left Tuesday for a visit at Cincinnati, Ohio.

Floyd Walker returned to Detroit, Tuesday, after a ten days' visit here.

Misses Celia Burbanks and Leone Smith are visiting friends at Flint this week.

Repairs for all kinds of Mowers, Binders and Hay Rakes at C. J. Malpass Hdwe. Co. adv.

Mr. and Mrs. C. J. Hoyt of Chicago are here for a visit at the home of the former's brother, L. A. Hoyt.

Misses Florence Wylie and Mildred Toebly of Shelby, Mich., are here for a visit with relatives and friends.

Mrs. Andrew Owens, nee Maude Carpenter, with children are here from Saginaw for a visit with friends.

Mr. and Mrs. Ralph Pollitt and children of Newport, Mich., are visiting at the home of her sister, Mrs. Merle Thompson.

Elder O. Holley of the Church of God wishes to announce that he has discontinued holding services at Afton Grange Hall.

Mr. and Mrs. A. E. Wells and son, arrived here the past week from Iola, Kansas, for a visit with her parents, Mr. and Mrs. L. A. Hoyt.

Mrs. Ernest Howell and children of Detroit are here visiting her parents, Mr. and Mrs. Wm. Streeter, also her sister, Mrs. M. Lintner.

Mrs. Robert McBride and daughter, Miss Aura, left first of the week for Kingsville, Ont., called there by the serious illness of the former's brother.

Mrs. Alice Joynt with daughter, Miss Dorothy, and son, Thomas, left the past week to spend the summer months at Chippewa Trail Camp, Rapid City.

Mrs. E. A. Ashley with daughter, Miss Florence, of Ontario, Calif., are guests at the home of Dr. and Mrs. H. W. Dicken, and renewing former East Jordan acquaintances.

W. G. Gordon and family of Ohio have purchased the Roy Bradshaw farm in South Arm township, and now occupy same. The deal was made through the H. A. Goodman Real Estate Agency.

Mr. and Mrs. Joseph Steinport were here recently from Grand Rapids for a visit with her parents, Mr. and Mrs. Julius Meier. Mrs. Meier accompanied them home for a visit. Mr. Meier motored to Grand Rapids first of this week, and his wife accompanied him home, Wednesday.

Mr. and Mrs. Archie D. Clink with daughter, Miss Alice, of Eugene, Oregon, were here the past ten days for a visit with the former's parents, Atty and Mrs. E. N. Clink. They left last Friday by auto for their home. Mr. and Mrs. E. N. Clink accompanied them as far as Manistique.

Good rebuilt Deering Mower for \$15.00 and 8 ft. Rake for \$12.50 at C. J. Malpass Hdwe. Co. adv.

To sell your Poultry, call 90.

Warning to Users of City Water

Hours for sprinkling are from 6:00 to 8:00 a. m. and p. m., standard time.

All persons violating this ordinance are subject to penalty. Henry W. Cook Chief of Police.

HEROIC SCOUT

George Teames, thirteen-year-old boy scout of Inglewood, Calif., who is to be recommended for the gold life saving medal, the highest honor scouting can give, by the Santa Fe railway, for stopping a train which would have been wrecked by debris placed on the tracks by young men if he had not seen it. He kept his deed to himself for three weeks, until railway detectives finally located him.

Roy Nowland was at Detroit on business first of the week.

All kinds of Sprayers and Poisons at C. J. Malpass Hdwe. Co. at low prices. adv.

Miss Lillian and Oscar Crowley of Muskegon are here for a visit with relatives and friends.

Mr. and Mrs. Don Chew of Potoskey visited at the home of their nephew, J. E. Chew, Sunday.

Mrs. G. A. Lisk with son, Paul, left Tuesday for an extended visit with relatives at Rochester, Mich., and Pontiac.

Mr. and Mrs. Emmett Isaman and family of Gadsby, Alberta are visiting at the home of Mr. and Mrs. Jas. Isaman.

Mrs. Lula Martin of Detroit and Miss Kathola King of Flint are guests at the homes of Leo and Lawrence LaLonde.

Mr. and Mrs. Sidmore of Three Rivers and F. W. Fincher and family of Grand Rapids were callers at the C. H. Whittington home, Monday.

Mr. and Mrs. Rex Carter with son, and Mr. and Mrs. John Corneil of Lansing were guests at the home of Mr. and Mrs. Earl Gould last week.

Frank Whittington and family of Kalamazoo were guests at the home of his parents, Mr. and Mrs. C. H. Whittington, from Friday to Monday.

Mrs. James Colden returned home last Saturday from Brown City, Mich. where she has been the past nine weeks caring for her sister, who was ill.

E. A. Lewis is here from Saginaw to spend the summer at his home in this city. His daughters, Miss Agnes of Saginaw, and Miss Pearl of Grand Rapids are here with him.

Mrs. Russell Barnett is at Grand Rapids, called there by the illness and death of her 2 1/2 year old niece, daughter of Mrs. Ethel Cary-Anderson. The child was unconscious for 15 days with brain fever.

The Base Ball game between Charlevoix and East Jordan at the Fair Grounds here last Sunday was a one-sided affair. East Jordan winning by a 20 to 2 score. East Jordan goes to Charlevoix next Sunday.

The infant son of Mr. and Mrs. Harry Sloop passed away, Thursday. Funeral services were held from the residence, Friday, conducted by Rev. Roy L. Harris, of the Church of God. Interment at Sunset Hill.

Mr. and Mrs. W. A. Stroebel left Thursday for a short visit at Saginaw and other places. They were accompanied by Mrs. Carl Stroebel of Fordson, and Carl Andrews, Jr., of Detroit, who have been visiting friends here.

Spiritualist Camp Meeting at Whiting Park, Sunday, July 24th. Services at 10:30 a. m. and 2:30 p. m. Rev. John Parent of Saginaw, Rev. Casterline of Grand Rapids and May Randall of Detroit will be the main speakers. Trumpet and Messages. Everybody welcome.

Mrs. Martha Campbell and Mr. and Mrs. Wm. Breakey with son, Thomas, of Pontiac arrived here last week for a visit with friends. Mr. and Mrs. Breakey returned home, Sunday. Mrs. Campbell with grandson, Thomas Breakey, remained here for an extended visit at the home of her daughter, Mrs. Percy Rines.

Mrs. Nelson Lafreniere of Detroit, with son, Henry Lafreniere and wife of Frankfort arrived here last Friday for a visit at the home of the former's daughter, Mrs. Marshall Griffin. They left this week for a visit with her son, Nels Lafreniere at Beaver Island, expecting to return to East Jordan for a more extended visit.

Mrs. (Myrtle) Gurmar Nelson of Melbourne, Florida, recently wrote her mother, Mrs. Alice Joynt of East Jordan, that their little son, Bobbie Nelson, less than a year old, was awarded a silver cup for being the most beautiful baby on the Board Walk in a contest held July 4th. The age of the babies in his group were from 6 to 18 months.

Pythian Sisters extend a cordial invitation to all ye Knights and ladies and the kiddies to join with them in a union picnic at the Tourist Park grounds on Friday, July 22nd. Bring your lunch, cup, spoon and fork. The coffee with its trimmings will be furnished by the Sisters, also the plates. Lunch at 5:30 or later. By order of Committee.

Steel Ranges from \$10.00 up, on easy payments at C. J. Malpass Hdwe. Co. adv.

Terry Barber was badly injured in an accident at his farm home in Wilson township last Saturday. He was assisting in unloading hay, when the ropes on the sling became tangled. While reaching up to adjust the ropes they suddenly gave way burying Mr. Barber under some 800 pounds of hay. His back was badly wrenched and he has since been confined to his bed.

To sell your Poultry, call 90.

Presbyterian Missionary Society will meet with Miss Agnes Porter, Friday, July 22nd.

Mr. and Mrs. J. W. Foster with son were here this week from Grand Rapids for a visit with friends.

Henry G. Galster of Potoskey and Atty Clark C. Coulter of Detroit were East Jordan business visitors, Wednesday.

To sell your Poultry, call 90.

Addison Stewart Dies Suddenly

Addison Stewart of Flint passed away at the home of his wife's parents, Mr. and Mrs. George Pringle in this city, Thursday forenoon, July 14th.

Mr. Stewart has been ailing for some time past, and he came to East Jordan last Friday in hopes of recuperating. He had been confined to his bed only a day or so.

At this writing funeral arrangements have not been made, but the remains will probably be taken to Flint for interment.

Mrs. Frank Carpenter Passes Away

Mrs. Bertha Carpenter passed away at her home in this city, Sunday afternoon, July 10th, from endo carditis.

Deceased was born in Kentucky, Jan'y 8th, 1904, being 23 years of age. She is survived by the husband, and one child. Also her parents, Mr. and Mrs. James Smith of this city and a number of brothers and sisters. Funeral services were held from her late home Wednesday-afternoon, conducted by Rev. Roy L. Harris, pastor of the Church of God. Interment at Sunset Hill.

Grand Rapids—Ross W. Judson, president of the Continental Motors corporation; his daughter, Miss Jane Judson, and five others were hurt recently at the municipal air port when the three-motored Fokker-Continental plane, in which they were passengers overturned while making a forced landing. Judson suffered bruises and was able to proceed to Detroit by automobile. The others, none of whom were seriously hurt, were treated at a hospital.

Lansing—Charging that the reassessment of timber lands in Gogebic county is illegal, although approved by Attorney-General W. W. Potter, George Lord, chairman of the state tax commission advised the General Motors corporation and the Oliver Iron Mining company to refuse to pay their 1927 taxes on land in that county. The two firms complained to Lord that their assessments in Gogebic were increased from 15 to 40 per cent and asked relief.

Lansing—The department of commerce at Washington announces that there were 39,788 marriages performed in Michigan during the year 1926, as compared with 46,276 in 1925, representing a decrease of 6,488 or 14 per cent. This decrease is mainly due to the enactment in 1925 of a law requiring application for a marriage license five days in advance of the date on which the license is to be issued. During the year 1926 there were 9,648 divorces granted as compared with 9,541 in 1925.

Battle Creek—A \$15,000 fire alarm system purchased by the city 10 years ago and stored in the basement of the city hall since will be installed in the near future, according to a decision reached by the city commission. The apparatus was purchased in 1917 by former Mayor Charles W. Ryan but was never installed, due to a controversy over the location of the alarm room. An agreement has been reached now, however, and the city commission has voted to appropriate \$10,000 to cover the installation costs.

Lansing—In an answer filed in the supreme court the Osceola board of supervisors insists an election last spring, when it was voted to move the county seat from Hersey to Reed City, was legal. The jail at Hersey has been condemned, hotel accommodations there are inadequate and the removal would be in harmony with the demand of numerous persons in the county, the answer avers. A petition for a writ to prohibit the removal of the county seat to Reed City, on the ground the election was illegal, was filed recently.

Mt. Clemens—A farm valued at \$42,000 and \$178.70 in cash which constitutes the estate left by William Shield, Warren township farmer, who died recently, will go to the State of Michigan if relatives cannot be located. Probate Judge Charles H. Hummrich, went to the Shield home and made a search of the man's personal effects. He says as far as he can learn the man had no near living relatives. An administrator of the estate will be appointed and if relatives are not found the money will be turned over to the state.

City Tax Notice

City Taxes for the City of East Jordan for the year 1927 are due and payable at my office over Hite's Drug Store during the month of July without penalty. Office hours—9:00 to 11:00 a. m., and 1:00 to 5:00 p. m. G. E. BOSWELL, City Treasurer.

Presbyterian Church
C. W. Sidebotham, Pastor.
C. R. Harper, Foreign Pastor.

"A Church for Folks."

Sunday, July 17, 1927.

10:00 a. m.—Morning Worship.
Dr. Wm. Lampe of St. Louis, Mo., will preach. Miss Edith Thompson will sing, and Prof. Thompson is expected to play the organ.

11:15 a. m.—Sunday School.
George Geck will give a report of the General Assembly to the adult classes.

The annual picnic will be held next Thursday, July 21st, and the place will be at Young's State Park. Cars will leave the church at 9:30. Leon G. Balch and Mrs. Walter Davis are on the Transportation committee, and those who can take additional ones in their cars are asked to notify one of them. It will be a pot luck picnic.

First M. E. Church
Victor J. Hufton, Pastor.

Fast Time

11:00 a. m.—Sunday School.
8:00 p. m.—General Service.
8:00 p. m., Friday night—Prayer Meeting.

The public is cordially invited to attend these services.

Farm leaders, it is said, intend to press President Coolidge for a definite statement. Whenever the executive gets ready to talk, he will; otherwise, it is a waste of time.

Some of these days, when we retire, or are retired, we hope to travel around the world. The only drawback, as far as we can foresee, is to acquire a method of walking on the water.

Service At A Loss.

You wouldn't expect your butcher, your baker or your candle-stick maker to serve you at a loss, would you? For you realize that if he continued to lose through his service to you, he couldn't exist,—his business would fail.

And why, we wonder, is the banker sometimes expected to serve at a loss? Probably because most people never thought of it in just that way, but the fact remains that when a checking account balance falls below a certain figure, let us say \$50.00 it means an actual loss to the banker who is handling it.

We realize, as you do, that a checking account is a great convenience, a great time saver, a great trouble saver, and we are glad to extend this courtesy to anyone and everyone but we feel that in view of its great convenience, it should be made a source of loss to you, and we are confident that all clear-thinking people will readily and, in all fairness, come to the conclusion that what they get out of it more than justifies a reasonable balance or a charge that will at least repay the banker for his trouble.

Think it over. We'd like to discuss it with you.

STATE BANK OF EAST JORDAN

PEOPLES STATE SAVINGS BANK

EAST JORDAN, MICHIGAN.

Methods Used to Control Yellows

Disease of Cabbage Is Caused by a Fungus Which Persists in Soil.

(Prepared by the United States Department of Agriculture.)

Yellows of cabbage, through injury to the fibrous root system, stunts the plants, giving them a lifeless, yellowish green color. It may usually be noticed in two to four weeks after transplanting, but may appear in the seed bed. Yellows is caused by a fungus which persists in the soil for many years. The disease greatly retards the growth of the plants, death resulting in the worse cases, within two weeks or so after transplanting. Most of the plants, however, continue a sickly existence for a month or more, and a few live through the summer, heading imperfectly.

Only Safety Plan.
While various methods are employed to control the yellows, the only safety lies either in planting the crop on disease-free land or in using only yellows-resistant varieties. The Volga and Honser are the most resistant of the older domestic varieties. The Wisconsin Hollander is a disease-resistant selection from the standard winter variety Hollander, or Danish Ballhead, and should be planted wherever the late crop is grown on "yellows-sick" soil. All Seasons and Brunswick, two of the leading mid-season varieties used for sauerkraut, are now known in the trade as Wisconsin All Seasons and Wisconsin Brunswick, respectively.

Disinfection of Seed.
Disinfection of the seed reduces the danger of spreading the disease to new districts. Put the seed in a sack of a thin woven material, such as coarse cheesecloth, large enough to allow thorough agitation of the seed. Soak for 30 minutes in a solution composed of corrosive sublimate (mercuric chloride and water in the proportion of 1 to 1,000. This chemical can be obtained from drug stores in tablet form, the package containing directions for making up the solution. After soaking, thoroughly rinse in clean water, then split the sack and spread out seed in a thin layer to dry, stirring as necessary. Corrosive sublimate is a deadly poison, and both tablets and solution must be kept out of reach of children and farm animals.

Check Depredations of Different Garden Pests

Some insects are not fussy about their diet. They will devour almost any of the vegetables. Of this type are cutworms, plant lice, flea beetles. But the leaf hopper dines chiefly upon potatoes, tomatoes, strawberries and beans. A nicotine sulphate or dust will control this pest, and also plant lice.

Favorite foods of the flea beetle are radishes, cabbages, turnips, tomatoes, potatoes and eggplants. This pest usually feeds on the underside of the leaves, and can best be destroyed with nicotine dust or bordeaux mixture. About the only way to check the depredations of those bandits, the cutworm and the grasshopper, is with a poisoned bran mash.

Asparagus has a beetle of its own. Spraying from both sides with lead arsenate will put a quietus upon this red, black and yellow feeder; also upon the Colorado potato beetle, the tortoise beetle, which attacks the sweet potato; the horn worm and fruit worm, which are the tomato's chief foes, and the worst enemies of the pebeban but necessary cabbage—the cabbage worm and cabbage looper.

Sudan Grass Is Favored for Live-Stock Pasture

Sudan grass has proved to be the most satisfactory summer pasture for all classes of live stock in Kansas, according to the report of L. E. Cull, dean of the division of agriculture at the Kansas State Agricultural college and director of the Kansas experiment station. It retains its succulence in dry weather and withstands drought better than any other pasture crop under observation by the experiment station.

Sweet clover is less valuable for hogs than alfalfa but is satisfactory for cattle and sheep.

Orchard grass has proved to be one of the most satisfactory permanent pasture grasses. It is easy to start, stands grazing well, and all classes of live stock relish it throughout the entire grazing season.

Agricultural Facts

Forcing yields up forces costs down.

Honey bees seldom live more than six weeks.

Every farmer who does not keep his soil built up should be run down for robbery.

Labor-saving equipment is the broom that helps to sweep drudgery out of farm homes.

Farmers have equally as good scientists doing research work for them as does industry. The point wherein the farmers or agriculturists fall short is that it does not have the executive power with which to put into effect the results of experimental work.

Inoculation Needed for Soy Bean Crop

Furnishes Bacteria Nodules on Roots of the Plant.

One of the greatest values of the soy bean crop will be missed if those who plant soy beans fail to inoculate the seed, says K. G. Harman of the Missouri College of Agriculture. Inoculation furnishes the bacteria that form nodules on the roots of the soy bean and take nitrogen out of the air. This is important because it furnishes a nitrogen supply for the plant and also makes it possible for the soy bean to grow without drawing so heavily on the soil for this element.

Soy beans require an average of 60 pounds of nitrogen for each ton of growth. When they are not inoculated all this must come from the soil—the same as it does in case of a corn or wheat crop. When they are inoculated and nodules form in abundance on the roots 40 pounds of this 60 is taken from the air and 20 from the soil. Nitrogen sells on the fertilizer market at 30 cents a pound. Inoculation then saves the soil \$12 worth of nitrogen for each ton of growth.

Another advantage of using inoculation is that on poor soils the soy beans will make much better growth where there is a good formation of nodules on the roots.

Inoculation may be secured from the soils department of the Missouri College of Agriculture at Columbia at 25 cents for enough inoculation to treat one bushel of seed. This supplies the seed for one to three acres, according to the method of planting. When one realizes what it saves the soil in fertility and how it improves the chances for better growth of soy beans this makes the expenditure of 25 cents a very profitable one.

Use Production Records to Boost Sale of Cows

Putting dairy cows in a dairy herd improvement, or cow testing, association and getting definite records on them as milk butterfat producers may add as much as \$15 a head to their value. This is the opinion of at least one of the many members of dairy herd improvement associations in Illinois. He is a member of the association in Knox county and recently when he held a sale of dairy cattle the record of each cow was announced as she was led into the ring. He declared afterwards that the average selling price of the cows was increased at least \$15 a head by announcing the records.

In another case, records on the performance of the cows were credited with having added \$50 to a sale average. Cows in this sale brought an average of \$125 a head. After the sale, some of the remarks heard around the ring were: "Herd improvement association records sure helped those cows." "If it hadn't been for those records, those cows wouldn't have averaged more than \$75." "He made enough on one cow to pay all his dairy herd improvement association costs." The owner himself said, "My cows certainly sold good and the records helped a lot."

Higher prices for surplus cows at the time they are sold is but one of the several ways in which dairy herd improvement association members cash in on the value of testing, according to J. E. Brock, assistant in dairy extension at the college of agriculture, University of Illinois, where the work of the Illinois associations is supervised.

Farm Manure Is Subject to Tremendous Losses

Farm manure is subject to tremendous losses from leaching and fermentation if it is improperly handled. If piled in loose heaps where it is exposed to the rain, a large part of the nitrogen and more than half of the potash will leach away. Also, under such conditions, the manure ferments rapidly, with the result that still more of the nitrogen escapes in the form of ammonia. If the manure cannot be hauled directly to the fields as produced, it should be kept under shelter, and in a moist compact condition. An excellent plan is to have a manure shed where the manure is placed when it is taken out of the stable. Calves and other stock should be allowed access to this shed, and in this way the manure is kept thoroughly packed. The least loss will occur when the manure is kept moist, compact, and under shelter.

In Planting Young Trees Firm the Soil Tightly

Firming the soil tightly around the roots of young forest seedlings when they are planted is the most important single item in assuring a good start and healthy growth the first year. After the seedling's roots are covered with earth, the person doing the planting should tamp it in place by a downward thrust of his heel.

When seedlings are planted on soils that have a heavy sod that produces a rank growth each year, it is often necessary to remove some of the sod so the grass will not smother or choke the little tree; a ten-inch square is usually enough and the tree should be planted in the center of the space. On this, wornout soils such as old pastures, however, it is necessary only to make a slit in the sod with a grub hoe and insert the roots of the seedling.

Grain Combines Reducing Costs

New Machine Materially Lowers Expense of Cutting and Threshing.

(Prepared by the United States Department of Agriculture.)

Harvesting costs are reduced so materially by the use of the combined harvester-thresher, that this machine is rapidly replacing other harvesting machinery in the Great plains east of the Rocky mountains, according to a study just completed by the United States Department of Agriculture in co-operation with the Texas, Oklahoma, Nebraska and Montana agricultural colleges. The advantages of this machine are in the lower cost of cutting and threshing grain, reduction in labor requirements and in shortening the harvesting and threshing periods.

East of the Rocky mountains a type of combine is in use which is considerably smaller than the kind formerly seen in California and in the Northwest states. Most of the new machines have a 15 or 16-foot cut, having auxiliary engines, and are drawn by tractors.

Reduces Amount of Labor.
Eight-foot combines harvested 275 acres of grain on the average, and 16-foot machines averaged 682 acres last season. Except where the grain was very heavy, the yield per acre had no appreciable effect on the rate of cutting. The minimum crew for a 15-foot or 16-foot combine is two men, not including grain haulers. Similar machines having a power drive from the tractor are sometimes operated by one man. It is estimated that a combine reduces the amount of labor necessary for harvesting and threshing in the Great plains from about 3.6 man hours per acre for cutting with the binder and threshing with a stationary machine to about 0.75 man hours per acre.

Operators of combines estimate the life of the machine to be about eight years. Their first cost ranges from about \$1,000 for small machines to \$2,500 for the larger sizes. Extended use of the machine during the harvesting season is essential to a low harvesting cost per acre. When the farmer has only a small acreage to cut, the investment and replacement charges of a combine may be too high.

To Make Combine Profitable.
In order to make the combine a profitable harvesting implement, the acreage to be cut must be greater than ordinarily cut with one binder. Harvesting with the combine, says the department, is not cheaper than with the binder and thresher, unless 100 or more acres are available for cutting. There must be 150 or more acres available for cutting before costs with the combine fall below costs with a header and stationary thresher. This reckoning takes into account only the direct cash expenses ordinarily paid by the farmer, and the necessary replacement charges for the machines. The minimum acreage for more economical harvesting depends somewhat on the size of combine used.

Farmers in the Great plains allow grain to stand for five or seven days after it is ripe enough for binding before they begin harvesting with a combine. This unavoidable delay increases the risk from weather and shattering. Few farmers, however, consider the losses from shattering or bleaching to be serious in this area. Harvesting losses attributable to the machine itself are generally less with the combine than with other machines. Tests made show that properly adjusted combines separate grain as efficiently as many stationary threshers. Losses due to heads left on the ground in fields on which observations were made averaged 2.6 per cent of the total yield for the combine, 3.3 per cent for the header, and 6.1 per cent for the binder. A condensed report of the survey is contained in a preliminary report which may be obtained upon application to the United States Department of Agriculture, Washington, D. C.

Agricultural Notes

The best milk is that which is kept clean, cool, and covered.

To keep the loiter hens from eating up the profits, why not eat up the loiter hens?

Speaking of efficiency on the farm, consider the sheep as a triple-product machine—wool, lamb, soil fertility.

The farmer who grows his food and food at home doesn't need to gamble quite so much on a questionable cash crop.

The value of the vegetables produced on 1/20th of an acre, which is the size of a small family garden, is about \$50, according to a Cornell bulletin on gardening.

Buck lambs are now penalized so drastically on all the larger markets that one cannot afford to raise them, while tails on sheep went out of fashion when wet pastures came in.

Horses have tender mouths, which are sometimes made sore enough by coarse stiff hay to keep them from eating freely. When such hay is cut pretty fine it is much less apt to cause this trouble.

RESTRAINT

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois

THERE is nothing which reveals the strength of an emotion more than the control of it. Emotion uncontrolled seems weak and shallow, and arouses our pity rather than our respect.

A widely advertised reader came to town not so long ago. She was to read Epoch Arden, and she did it very well. Her voice was musical, her intonation clear, and her tones sympathetic. Her performance touched me very much and I could, with difficulty, keep back the tears. When she came to the part where Enoch comes home and looking through the window of his own house sees his wife sitting happy and comfortable, she herself broke into tears and could scarcely go on.

I became alarmed really. I felt that if she were going to break down that I should have to play the man. We couldn't have everyone bursting into tears. I sat up and looked solemn and felt sorry for her. I wanted to step upon the stage and take the book out of her hand and try the reading myself. As long as she controlled her emotion she was fine; when she let it get control of her she was little less than a failure.

Judson was nineteen and was in love, or thought he was. He was trying a college course, but his emotion possessed him. He could think of nothing else but the girl. When he sat down to study, mathematical formulae and French verbs and designs in mechanical drawing blurred before his eyes, and all he could see was the face of a girl staring at him from the printed page. "He had her picture before him on his desk, but that was quite inadequate. He ran home every week-end in order that he might be with her, and his work suffered badly in consequence. There was no hope for him. He was in the thralls of an emotion which he could not control. They ran away one week-end and were married, and Judson's college career was ended. For father had found it difficult enough to support one person in college; he declined to take on two, and the boy quite unprepared for life is trying to support a family, and he is little more than a day laborer. Marriage could have come to him in time and he might have been much better prepared for it, and much more able to enjoy it, but he had no restraint. His emotions got the upper hand of him. Just yesterday as I was riding down the street I saw a young man and young woman sitting in a car parked at the curb. Crowds of people were passing up and down the walk but the young people were quite oblivious of these. They had their arms about each other's necks. They were in this public place yielding to unrestrained emotion. It is a not uncommon sight in these days to come upon young people at the roadside or in some dark corner at a social function wrapped in each other's arms. Love is a tender emotion; it should in fact be a sacred one which is not exhibited on street corners. When un-restrained it seems cheap and common and unspeakably vulgar.

Embroidery Ancient Art

Embroidery was an established industry in China centuries before the visit of Marco Polo. The earliest extant specimen is assigned to the eighth century, but it is certain that this art was followed at a very much earlier date.

Ancient Utensils

The tyg and piggin, spoken of in old books, were examples of early Staffordshire pottery. A tyg was a tall cup with many handles; the piggin was a shallow vessel with a handle at one side for the purpose of ladling out the liquor brewed in the tyg.

Explains Everything

Now In Charlevoix

The Ancient, Famous and Infamous Australian

CONVICT SHIP

"SUCCESS"—THE OLDEST SHIP AFLOAT

THIS WONDERFUL VESSEL HAS MADE HISTORY THROUGH THREE CENTURIES

She marked the beginning and the end of England's monstrous penal system.

She has held lurid horror and dreadful iniquities beside which even the terrible stories of the Black Hole of Calcutta and the Spanish Inquisition pale into insignificance.

She is the oldest ship in the world and the only convict ship left afloat out of that dreadful "Fleet of Ocean Hells" which sailed the Seven Seas in 1790 A. D.

She is unchanged after all these years, nothing being omitted but her human freight and their sufferings from the cruelties and barbarities practiced upon them.

Abroad her are now shown, in their original state, all the airless dungeons and condemned cells, the whipping post, the manacles, the branding irons, the punishment balls, the leaden tipped cat-o'-nine tails, the coffin bath and the other fiendish inventions of man's brutality to his fellow-man.

From keel to topmast she cries aloud the greatest lesson the world has ever known in the history of human progress.

The Convict Ship "Success" is the greatest and most extraordinary exhibition that ever visited America. It is a theme for the pen of a Dante. When you walk her decks, grooved with the chains of her miserable victims, the past will speak to you its sad and mournful lesson, but you will leave feeling better because you live in a better age.

Open Daily, Including Sunday, 10 a. m. to 11 p. m.
Electrically lighted throughout. Guides explain everything.
Admission—50c. Children under 10, half price.
Sunday, July 17th—Last Day in Charlevoix.
