VOLUME 31

EAST JORDAN, MICHIGAN, FRIDAY, JULY 22, 1927.

NUMBER 29

Will Dedicate M. E. Church

RE-BUILT CHURCH STRUCTURE TO BE DEDICATED NEXT SUNDAY, JULY 24.

The Dedication Services for the East Jordan Methodist Episcopal Church will be held on Sunday, July 24th and will continue all day Sunday and be followed by a public banquet supper Monday evening, July 25.

At seven o'clock Sunday morning a Young People's service will be addressed by Rev. C. E. Pollock, M. A. of Charlevoix.

At ten o'clock Dr. L. R. Eckardt, Professor of Philosophy at De Pauw University, Greencastle, Ind., will preach.

Was Early Pioneer of Northern Mich.

John M. C. Runyan died at the home of his daughter, Mrs. J. E. Chew of South Arm township, Saturday, July 16th.

Mr. Runyan was born in Butler County, Pa., Sept. 11th, 1835, being past 91 years of age at the time of his death. He left two daughters and one son—Mrs. J. E. Chew of East Jordan, Mrs. John King of Cheboygan, and James Runyan of Norwood. His wife passed away some twenty years ago.

Mr. Runyan left Pennsylvania when 17 years of age; he spent three years in the south-west; then located at the Manitow Islands and Suttons Bay. Directly after the Civil War he homesteaded in Banks township, Antrim County, where he resided until 1888. He then took up his residence in Norwood, where he has since made his home with the exception of some four years spent with his daughter, Mrs. Chew, who cared for him in his declining years.

Deceased was a veteran of the Civil War, being a member of Co. E, 10th Michigan Cavalry. With several companions he walked to Elk Rapids where he enlisted.

Funeral services were held Monday from the J. E. Chew home, conducted by Rev. V. J. Hufton of the Methodist Church. Interment at the Banks township cemetery in Antrim County.

Daughter Lost 16 Years, To Join Mother

The following article is taken from the Los Angeles, Calif., Examiner of recent date. Mrs. Reinke is a sister of Gilbert LaClair of East Jordan and has been here various times visiting. Mrs. Lena McRoberts of Los Angeles, who assisted in the search is a sister of Mrs. LaClair.

Before Mrs. Minnie Reinke dies, she will experience the happiest moment of her life.

Sixteen years ago her baby daughter was kidnaped. Through all the years, she never knew what happened to her only child.

Several days ago, when it became known that Mrs. Reinke was dying with a broken heart in Traverse City, Mich., a friend in Los Angeles asked the police to search for the daughter.

Detective Lieutenant Allen learned that a 19-year-old girl, Beatrice Dakin, had married Dana M. Johnson in San Diego last year.

By publishing the story in The Examiner and broadcasting an appeal over the radio, the officer located the daughter in the southern city.

"I never knew my mother," the girl sobbed when she rushed into the Los Angeles police station yesterday. "My father always told me she was dead. Oh, what I would give to live those years over again and make her happy!"

Although the trip East will bring the mother and daughter together again, it also is expected to separate them forever.

Detroit-East Jordan Annual Picnic

The Annual Detroit-East Jordan Picnic will be held on Sunday, July 31st, commencing at 10:00 a. m. Picnic this year will be held at Elizabeth Park, near Trenton. Take bus at Detroit D. U. R. Interurban Station. Bring your dinner. All former East Jordan residents are invited to participate in this annual event.

Rebekah Lodge Install Officers

On Tuesday evening, July 12th, Jassamine Rebekah Lodge No. 365 installed the following officers for ensuing year:

N. G.—Hilda Cook
V. G.—Rena Clark
P. G.—Nina Bowen
R. S.—Reta Bader
Treas.—Iva Montroy
I. G.—Jessie Kleinhans
O. G.—Ada Bashaw
L. S. N. G.—Adela Dean
R. S. N. G.—Anna Carr
R. S. V. G.—Rose Bartholomew
L. S. V. G.—Ida Pinney
Con.—Nellie Blair
Warden—Ola Streeter
Chap.—Rittie Sackett

Body of Missing Lad Is Located

DOUGLAS HOLMES DROWNED AND DRIFTS OUT INTO GRAND TRAVERSE BAY.

The body of Douglas Holmes, the six-year-old Elk Rapids lad who has been missing for the last nine days, was found Sunday afternoon at 5:00 o'clock partly imbedded in the sand on the shores of Grand Traverse Bay, three miles from Elk Rapids.

Ed. Anderson, an old Indian who had patrolled the shore for the last three days, discovered the body. Nearby was a little wooden raft.

For a time it was feared the lad had been kidnaped, stolen by gypsies or had been run down by a passing autoist and his body hidden away to cover up the crime.

It is believed the little fellow fell from an old bridge across the river below the power dam at Elk Rapids and that the water carried the body out into the bay before the boy had been missed. He had been with his mother on a fishing trip and had started uptown to spend an hour or two with his father, a garage worker.

The inquest was held Monday. No marks of violence were found on the boy.

The funeral was held Monday with burial at Maple Grove cemetery, near Elk Rapids.

News of the boy was broadcast all over this part of the country and police kept a watch for him. Money was raised for a reward for locating him and the State police were called in to aid.

Council Proceedings

Regular meeting of the common council of the city of East Jordan held at the council rooms, Monday evening, July 18th, 1927.

Meeting was called to order by the Mayor. Present: Mayor Dicken, and Aldermen Ross, Gidley, Taylor, Watson, Sedgman and Williams. Absent—None.

Minutes of the last meeting were read and approved.

Moved by Alderman Williams, supported by Alderman Taylor, that Frank Gorman be given half pay for one week on account of injuries received while employed by the city. Motion carried.

Bills were presented for payment as follows:—
City Treas. paym't of labor—\$348.34
Francis Kleinhans, mowing lawns 12.75
Chris Taylor, labor at park 2.20

E. J. & S. R. R. Co., freight on stone 46.82
Standard Oil Co., gas and oil 43.74
Wm. Prouse, cleaning streets 34.50
John Whiteford, work at cem. 44.00
John Ter Wee, salary 50.00
Reid & Sherman, labor and material 62.71
West Mich. Dev. League advertising 100.00
Ole Hegerberg, material used 13.62
Delbert Hale, on salary 50.00
E. J. Lbr. Co., team work 31.50
State Bank of E. J., Insurance 16.80
W. S. Darley & Co., house numbers 69.92
Northern Service Co., labor and material 10.25
Mich. Bell Tel. Co., rentals 4.00
E. J. Rose Co., dock fire 3.00
Bert Lorraine, printing 8.50
Lorenzo Bingham, sal. as fire chief 50.00
Northern Auto Co., repairs on roller 19.78
Joseph Mayville, rebate 6.87

On motion by Alderman Gidley, the bills were allowed by an aye and may vote as follows:—
Ayes—Ross, Gidley, Taylor, Sedgman, Watson, Williams and Dicken.
Nays—None.

On motion by Alderman Watson, meeting was adjourned.

OTIS J. SMITH, City Clerk.

Dairymen To Picnic

AT WHITING PARK NEXT FRIDAY, JULY 29TH.

This year's annual Dairyman's Picnic will be held on Friday, July 29th at Whiting Park. Mr. A. C. Baltzer, Specialist in Dairying from M. S. C., will be the principal speaker and will discuss the latest problems that are constantly confronting the dairymen.

The program will start promptly at 1:30 p. m. fast time and will consist of the main talk by Mr. A. C. Baltzer. Several short talks will be given by some of our leading dairymen of the County, a discussion by one of our leading bankers, "Why Banks Think Dairying our Best Bet," and best of all there will be a hotly-contested game of base ball, between two teams of selected talent. Think farmers can't play professional base ball—just come and see.

Bring your well filled lunch basket. Have a real outing. Remember the haying season will be over and you deserve a real vacation. Learn how our leading dairymen are making real profits. A cordial invitation is extended to the entire public to be present. Don't forget to mark Friday, July 29th, down on the calendar now.

B. C. MELLENCAMP,
Co. Agr'l Agent.

Help Prevent Forest Fires

WILD LIFE AND BEAUTY IS FIRST TOLL WHEN FIRE KING RAGES.

When riding along trunk lines north of a line from Bay City to Muskegon, the tourist will notice posters every few miles calling his attention to the fact that he is in the forest-fire zone and to help prevent fires. Other signs will remind him to be careful about throwing away lighted tobacco; to leave his camp fires safe and that fire lines will ruin good game cover.

If he is observant, he will note that the kind, quantity and quality of the forest or brush growth varies considerably from place to place. These variations in quality and quantity of forest cover are due largely to how much or how little forest fires have gone over the country.

Those open, barren stretches with nothing but pine stumps, old snags, sweet fern and grass have been burned repeatedly. The areas of poplar, oak and jack pine may have had one, two or even more fires since the land was first lumbered. The good stands of second growth hardwood and pine have probably had but little or no fire.

Mr. Tourist has only to decide whether or not he prefers the open, barren stretches of idle waste land or the thick stands of second growth and usually, after making his decision, he is a convert to the cause of forest-fire protection. The only tangible evidence of the State's forest-fire prevention and suppression activities which he will notice in his travels will be the forest fire lookout towers and fire lines running through the wild land. Whenever he sees the American flag flying from the lookout tower, he will know that the lookout man is on duty and that the fire wardens are either at the telephone awaiting calls or out on fire.

Chest Clinic for Charlevoix Co.

WILL BE HELD JULY 22-26 AT CHARLEVOIX & BEAVER ISLAND

The Michigan Tuberculosis Association will hold two Christmas seal Chest Clinics in Charlevoix County. On Friday, July 22—the Association will conduct a clinic on Beaver Island, St. James, and on July 25 and 26 a Chest Clinic will be held at Charlevoix.

These chest clinics which are made possible by the sale of Christmas seals are held to give the people of Charlevoix County an opportunity to avail themselves of a free chest examination. Dr. J. W. Toan, staff examiner for the Michigan Tuberculosis Ass'n, will conduct the examinations.

At the clinic held in Charlevoix County last summer 24 positive and suspicious cases of tuberculosis were discovered. Ninety-five persons were examined at the clinic at that time. County show that seven people died from this disease during the year.

Because of the contagious nature of tuberculosis direct contact with tuberculous persons is dangerous. For this reason persons who have come in contact with a case of tuberculosis are particularly urged to attend the clinic. The symptoms of tuberculosis are, a persistent cough, a continued tired feeling, loss of weight and an afternoon fever. All of these symptoms are not necessarily present in the incipient cases and the presence of any one of them warrants a chest examination.

As soon as local arrangements have been completed the place where the clinic is to be held will be announced. Watch the store window clinic posters for this information.

There are some wonderful views of northern Michigan from these lookout towers for those who care to risk the climb. The Department of Conservation assumes no responsibility for harm which may come to any party climbing the towers.

If the traveller drives off the main trunk line and gets back into the wilder areas, he may run on to the fire lines built by the Department of Conservation. They can easily be mistaken for roads and many of them are used as roads.

If all the travellers and tourists will remember that they, too, are a part of the forest-fire protection and suppression organization, in that, if they use care with their camp fire, matches and tobacco, they can keep fires from starting; the program of making Michigan a more beautiful State for travel will be aided materially.

CARD OF THANKS

We wish to thank the many kind friends and neighbors for their loving sympathy to us during the illness and death of our husband and father, Addison Stewart.

Mrs. Minnie Stewart
and son, Donald.

CARD OF THANKS.

In the sad bereavement of our father, we are very thankful to the many friends for the beautiful flowers and acts of kindness.

MR. AND MRS. J. E. CHEW
and Family.

He's Done His Part

NOW WITH A LITTLE CO-OPERATION FROM ABOVE, EVERYTHING WILL BE ALL RIGHT

Circuit Court Jurors August Term

Following is the list of the Petit Jurors drawn to serve at the August Term of Circuit Court, Charlevoix County:

Roy Cadwell, 1st Ward, Boyne City.
Al Goodrich, 2nd Ward, Boyne City.
F. O. Barden Jr., 3rd W., Boyne City.
W. P. Vought, 4th Ward, Boyne City.
Joe Foster, 1st Ward, Charlevoix.
Charles Emrey, 2nd Ward, Charlevoix.
Richard O'Neil, 3rd Ward, Charlevoix.
H. A. Goodman, 1st W., East Jordan.
Leonard Duffie, 2nd W., East Jordan.
Ora Holley, 3rd Ward, East Jordan.
Andy Witherall, Bay Township.

Alvin Durance, Charlevoix Twp.
Elzy Kennedy, Chandler Twp.
Cash Brooks, Evangeline Twp.
William Walker, Eveline Twp.
Lee Sneathen, Hayes Twp.
Tony Kuzmik, Hudson Twp.
Louie Griener, Marlon Twp.
Walter Fineout, Melrose Twp.
Howard Cornell, Norwood Twp.
Hugh D. Gallagher, Peaine Twp.
Jerry Palmer, St. James Twp.
James Murray, South Arm Twp.

Spear Is Relic of Barbarism

NOTED AUTHOR MAKES PLEA FOR CONSERVATION OF MICHIGAN FISH.

By James Oliver Curwood

That there is a percentage of people in Michigan who still demand the privilege of employing the spear in the killing of fish is one of the greatest proofs of human selfishness in the manner of the conservation of our natural resources. In this day of

Editor's Note:—This is the first of a series of articles on the conservation of Michigan wild life by Mr. Curwood, who is Chairman of the Fish, Game and Wild Life Committee of the Conservation Commission of Michigan. You will find this a most interesting discussion from the pen of a man who has spent the greater part of recent years in the very heart of nature. Other articles will follow from time to time.

diminishing wild life the man who will go after fish with a spear is either totally ignorant of the devastating history of that barbed destroyer, or he is willing to rob and diminish basic supply that his own personal greed may be satisfied—the type of man who fought against and still fights against the one-buck law; the kind of a man who would use his bird dog on the last grouse; the type of man who loves to have his picture taken loaded down with dead things, and who is against every movement which tends to place an obstacle in the way of his personal whims and pleasures.

There is no "half way" point in the use of the spear. The spear is an outlaw from the tip of the barb to the end of the shaft. As long ago as 1878 it had brought destruction among the seven thousand lakes of New York State. Forty-five years ago it had created such havoc in Pennsylvania's magnificent river systems that it was banned forever. State after State has added its verdict to the general condemnation. Willard Parsons, Director of Conservation for the State of Maine, writes me that "it is hard to find a spear now anywhere in Maine," and "Michigan will be taking a long step downward if it allows the use of that murderer of fish life." Linus Leavens, Director for Vermont, writes, "The spear is an outlaw. Good results have followed its elimination everywhere." George N. Mannefeld, Supt. of Fisheries for Indiana, writes me "It is unlawful to take fish with a spear or to possess a spear anywhere in this State, even for use in a private pond. We hope you keep spears out of Michigan." W. H. Fell, of New Jersey, says, "When the spear was used we found it terribly destructive to game fish life, even when only suckers and carp could be speared legally. No spear is permitted in our State." James F. Gould, Director for Minnesota, writes, "Every true sportsman in Minnesota hates the spear and we are fighting to rid ourselves of the small hold which it still has on this State." From New Hampshire comes the word, "You are taking the right step in outlawing the spear entirely," and the same opinion comes from State after State.

In times past hundreds of Michigan's lakes and streams were made barren by the spear. In the lumbering days Houghton Lake was depopulated, by it, almost before it knew what a fishline was. Only a few

years ago the tragedy occurred again and the legislature was asked to intervene. Over a period of ten years we have been fighting the spear, and the time has now come when we should outlaw it absolutely. For every person who wants to use the spear there are a hundred real sportsmen who do not. Yet it is the exception, the one man who wants to slaughter, who is raising a stir at Lansing, who is getting in petitions. It is time for the other hundred to act, to express their voices, to demand that the fish life of Michigan be kept for all the people and not be handed over to a comparatively few fish murderers who have no thought for future generations. These despoilers make the most commotion, both in the State Legislature and in the matter of petitions. It is because the hundred are inactive while the one who is hunting for personal pleasure puts all the force he can gather behind his propaganda. The Conservation Department of the State of Michigan wants to hear from those who think a great deal but whose habit has been to remain silent. Let every organization, social and civic, as well as sportsman, give us the value and co-operation of its written opinion. Only in this way can the Conservation Department serve the people of the State as it wants to serve them.

Without this co-operation it is not fair to say that it is responsible for what may appear to be its shortcomings. The present Conservation Commission is not a political organization and there is not a politician in its personnel. It has no favors or prejudices. It wants to serve the men and women of the commonwealth to the best of its ability, and in order to do this it must have closer contact with them. Isaac Walton Chapter and Sportsmen's Associations work with us continually, giving us their advice, their recommendations, their help. Why not Rotary Clubs, Kiwanis Clubs, Exchange Clubs, Women's Clubs, Schools, Church organizations? Why should the most vital of all questions, that of conservation, be of active interest only to those who use the rod and gun?

May we have your help—and your resolutions and opinions as they refer to the work which is ahead of us.

Motor Derby & Flying Circus

WILL BE HELD ON THE FAIR GROUNDS HERE NEXT SUNDAY AFTERNOON.

Motorcycle racing and flying stunt fans may expect to get their fill on the Fair Grounds here next Sunday afternoon, July 24th, when C. W. Hinck's original motor derby will give exciting and breath-taking performances. The derby begins at 2:30 o'clock, and the program is made up of auto polo, push ball, daredevil motorcycle races and flying stunts. C. W. Hinck, the leader, is a former flyer of the United States Army. He has been entertaining people in many parts of the country, and all have found the performances of a high class.

The program is such as to thrill young as well as old. World famous drivers, polo players, pushball experts and flying aces will entertain the crowds on the Fair Grounds next Sunday afternoon. One of the features will be the death defying motorcycle races, in which five of the world's leading racers will attempt to lower the records. This race, because of the trained steel nerves and experience necessary, is open only to professional drivers, who are willing to risk their lives for the thrill and money of the game.

Auto polo, which will be played by specially built automobiles, is another feature of the derby. The Minnesota Yellow Jackets are scheduled to play the Wisconsin Red Birds, and many hearts will jump as the cars collide, causing many amusing although tense moments.

Auto pushball, played with four specially built cars to handle the large air-inflated ball which is six feet in diameter and weighs 107 lbs., will be as thrilling as any of the stunts on the program.

The flying circus, which will be with the derby, will include stunt flying, wing walking, standing loop, rope ladder acrobatics, and other daredevil stunts.

Obregon, former president of Mexico, is a candidate again. His platform denounces Rome and Wall St. His opponents denounce him. When in the course of human events your checks outrun your deposits you are apt to get a politely worded notice, "your account appears to be overdrawn."

RANNEY DISTRICT
(Edited by Mrs. R. Evans.)

Emmett Isaman and family have arrived from Alberta to visit James Isaman and other relatives and friends.

Mr. and Mrs. R. Evans called at the Nathan Liskum home Tuesday evening.

Mr. and Mrs. James Canda called on the latter's sister, Mrs. Louis Zoulek, Sunday.

Clifford Evans and Mr. and Mrs. H. F. Chilson motored over from Flint Sunday, bringing their father, James Evans home, who has been visiting them the last two weeks.

Mrs. Fred Martin was taken to the Charlevoix hospital Sunday afternoon, where she underwent an operation Monday morning for goitre.

Mrs. R. Evans made a business trip to Charlevoix, Tuesday.

Dalton Gay and Mr. Muma are haying on the R. Jones farm.

Mr. and Mrs. Barkley and family called on Pete Lanway, Sunday.

Miss Ursula Crawford returned to Belding, Tuesday, after a visit here with friends and relatives.

Azalia Liskum and Dorothy Withers of Charlevoix called on the former's parents, Mr. and Mrs. Nathan Liskum, Tuesday.

Mr. and Mrs. Geo. Hosler and daughter, Ruby, called on Nathan Liskum and family, Sunday.

Doris Nice returned to Detroit last Friday, after a two weeks' visit with her parents, Mr. and Mrs. Jas. Nice.

Anna Murphy is home for her summer vacation.

Mr. and Mrs. Chas. Murphy and daughter, Anna were Sunday callers at the Liskum home.

South Arm Grangers are to have a picnic Friday at Whiting Park. Everyone try and come.

Walter Moore and family of Flint visited at the home of his parents, Mr. and Mrs. Joe Moore, returning the last of the week.

Peoples' Wants

MUNNIMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

MILES DISTRICT
(Edited by Mrs. A. Miles)

Mr. and Mrs. Harrega and daughters, Dorothy and Mrs. John Timmer, and Mr. Madill of Ellsworth were callers at the A. Miles home Saturday evening.

Mr. and Mrs. Fred Bancroft motored to Charlevoix, Sunday.

Dr. Benker of East Jordan was called to the Vandenberg home Monday afternoon. Mrs. Vandenberg being ill.

Mr. and Mrs. Emmet Isaman and children who recently motored here from Gadsby, Alberta, and Mrs. Jas. Isaman of Ranney Dist. called at the A. Miles home Monday afternoon.

Mr. and Mrs. John Ter Wee and Mr. and Mrs. Dick Ter Wee of East Jordan and G. Steenhagen and family motored to the John Weiland home near Ellsworth Sunday afternoon and in the evening all motored to Charlevoix.

Mrs. Lynn Evans and son, Lester of the West Side spent Sunday afternoon at the Det. Evans home.

Bert Mullen of Traverse City was a caller at the Frank Addis home Friday afternoon.

Mr. and Mrs. Xelle Miles and children, Mr. and Mrs. Eugene Miles and Roe Peterson were supper guests at the home of Mr. and Mrs. L. O. Isaman in Ellsworth last Friday.

Mr. and Mrs. Clifford LaClair of East Jordan spent Sunday evening at the Jerry Moblo home.

The Lemieux Bros. are cutting hay on the Clarence Lalonde farm.

Frank Akins is helping Gene Miles with his haying.

Mr. and Mrs. Xelle Miles and children and Roe Peterson returned to their homes, after a two weeks' vacation at the Miles home.

The rain Saturday night did lots of good, even if it did wet down the hay.

Miss Jentena Steenhagen from Grand Rapids came Saturday for a visit with her parents, Mr. and Mrs. G. Steenhagen.

Mr. and Mrs. Frank Addis and son, Jamie visited Sunday at Walnut Hill Farm in Rock Elm Dist.

Mrs. Mary Clark left for Grand Rapids and Munica to visit her brothers, Bass and Sam Dell.

Mr. and Mrs. Lawrence Addis and son, spent Sunday at the home of her parents, Mr. and Mrs. Louis Zoulek in Chaddock Dist.

Mrs. James Richards and daughter, Vivian, and Mr. and Mrs. A. W. Carr of Bellaire and Mrs. Norman Wilson and her sister from South Lyon were callers at the A. Miles home Thursday afternoon.

Mrs. J. E. Erbacher and daughter, Orene and James Holben and Mrs. A. Miles motored to Charlevoix and spent the day.

Mr. and Mrs. Elmer Reed and children of the West Side spent Sunday with her parents, Mr. and Mrs. Jerry Moblo.

Mr. and Mrs. Carl Moblo called on her mother, Mrs. Myrtle Roberts on the West Side Friday evening.

Mrs. J. E. Erbacher and daughter, Orene accompanied Mr. and Mrs. Art Farmer on a motor trip to Mackinaw City Sunday and crossed on the boat to Mackinac Island.

PENINSULA
(Edited by Mrs. E. Hayden)

Mr. Rams of Muskegon was on the Peninsula Wednesday, writing Gleaner Insurance.

Harry Goblentz of Ironton was on the Peninsula Wednesday in the interest of the Spiritualist society.

Mr. and Mrs. Geo. Wurn and daughter, June, and a friend and his wife from Detroit, who have been spending a few days with Mr. Wurn's parents, Mr. and Mrs. Fred Wurn, returned to Detroit, Monday.

Taking advantage of the rainy day, Mr. and Mrs. Omar Scott and son, Devere, and daughter, Alda, of Whiting Park Fire Tower, motored to Charlevoix Wednesday and went through the Convict Ship, "Success."

They were accompanied by Mrs. Scott's parents, Mr. and Mrs. Ab. Nowland of Nowland Hill.

Mr. and Mrs. Fred Wurn and their guests from Detroit, and Mr. and Mrs. Ellwood Cyr and Mr. and Mrs. Walter Wurn of Boyne City had a delightful picnic at Whiting Park Friday evening.

Four carloads of Tourists, 3 with Arizona license and one with Indiana license came to Whiting Park Friday to spend a week.

Miss Gertrude Looze of Three Bells Dist. is visiting in Charlevoix.

Miss Audrey Orvis of Charlevoix visited at the F. D. Russell home at Ridgeway farm from Friday to Sunday.

Mrs. Ernest Loomis, who is employed at the Ingalls Dairy farm near Charlevoix, came Friday to the home of her son, Ray Loomis, Gravel Hill, north side, to visit friends from Grand Rapids. She returned to the Ingalls farm, Sunday.

At the telephone meeting held at the Mountain schoolhouse, Wednesday evening, it was voted to have the lines repaired at once, and Will Scott and G. C. Ferris begun work on them Monday morning.

A large delegation from this section attended the annual meeting of the Boyne City Co-Op., Wednesday evening. Mr. Patch, the State Organizer, and Mr. Houston, the State Auditor were there, and both gave interesting talks.

Oats are headed nicely and wheat is beginning to turn. Farm work is in good shape generally.

A bunch from Peninsula played Base Ball with a bunch from Boyne City in Boyne City, Sunday. Boyne won by a score of 12 to 10.

Mr. and Mrs. Mose LaLonde of Chaddock Dist. with Francis and Alice Russell of Ridgeway farm, motored to Traverse City Sunday morning and returned Sunday evening.

Mrs. F. J. Brown, formerly Carrie Denny, also Mrs. Geo. Johnston and daughter, Mrs. Henry Elderkin, nee Nora Johnston, old residents of this section, but now of Yakima, Wash., took advantage of the 30-day excursion to visit here. They visited Mr. and Mrs. Clarence Johnston from Friday to Tuesday, going from there to Ellsworth to visit Mrs. Brown's parents, Mr. and Mrs. David Denny.

George Newson, who has spent two very pleasant weeks at Orchard Hill, the guest of Robert Hayden, returned to his home in Petoskey, Sunday.

Mr. and Mrs. S. A. Hayden of Detroit, who have spent several weeks at Orchard Hill, returned by motor to Detroit, Tuesday, July 19th.

Charles Arnott of Maple Row farm joined the Eveline Arbor of Gleaners last week.

Mr. and Mrs. Fred Wurn and their guests from Detroit took a motor trip to Cross Village by the old Indian Trail, Sunday, and across to Cheboygan and other places, making 160 miles.

A great deal of hay was taken care of last week, but a large amount was also out in the Saturday night's storm.

The hardest storm, lightning, wind and rain, for a long time, struck this section Saturday night, considerable damage was done by washing out of crops and roads.

Lyle Waugaman, our very efficient ferryman, drove his motorcycle to Charlevoix by way of East Jordan, Friday evening and got Miss Doty Nice and together they drove to Charlevoix and went through the Convict Ship, "Success."

Mrs. Wells Wildy of Boyne City spent Friday at their farm in Star Dist. Mr. Wildy is doing considerable farming this year, driving back and forth to Boyne City every day.

Miss Sprig, a Missionary from China was at the Star of Hope Sunday School July 17th and gave a very interesting talk.

Mr. and Mrs. S. A. Hayden of Detroit, who have spent some weeks at Orchard Hill, took a motor trip to Harbor Springs and Oden, Sunday.

Several families, including Mr. and Mrs. A. Nowland and Mr. and Mrs. Ray Nowland and family of Nowland Hill, and the Crossett and Erber families of Boyne City, picnicked with Mr. and Mrs. Omar Scott at Whiting Park Fire Tower, Sunday.

Ox-Wagon Fortress
Laagar is a term that was first applied by the Boers of South Africa to a defensive camp improvised out of ox-wagons. The wagons are arranged in a circle close together, with the baggage piled up between the wheels so as to form a contiguous rampart.

Mining "Pinches"
The miners' term, pinch, is a term used in connection with mineral deposits to indicate a marked narrowing of the vein or bed. Pinches may be caused by movements in the rocks or by irregularities of deposition.

DEER CREEK DISTRICT
(Edited by Mrs. Tom Kiser)

Mrs. Andrew Owens and children of Saginaw, who spent last week with Mrs. Dalton Gay and family, returned home Sunday.

Mr. and Mrs. Geo. Etcher, Mr. and Mrs. Wright Carr and Ray Williams and family took Sunday dinner with Mr. and Mrs. Joe Etcher of Boyne City.

Mr. and Mrs. Frank Kiser and children and Mrs. Lou Harnden and daughter, Hazel, spent Sunday afternoon with Tom Kiser and family.

Ray Williams oiled the outside of Kit Carson's log cottage last week.

Mr. and Mrs. Geo. Etcher called on Mrs. Joe Martinek, Saturday.

Mr. and Mrs. James Murray and daughter, Isabel called on Mrs. Ike VanDeventer, Sunday. Mrs. VanDeventer is very ill at the present writing.

Mrs. Alvin Barkley called on Mrs. Peter Lanway, Monday.

Mrs. Richard Murray has been ill for the last two or three days.

Mr. and Mrs. Ore Johnson of Torch Lake called on James Murray, and family, Sunday.

Misses Marguerite Carney and Ellen Murray were home for a while Saturday night from the Torch Lake resort.

P. Ulvund is cutting hay on Lewis Bashaw's farm, across from the Jas. Murray farm.

Mrs. McKinley Ostrander and children of Boyne City are spending a few days with Mrs. Joe Martinek.

Andrew Fransen sold a beef to Mr. Saxe of Boyne City, Monday.

Mrs. Orville Howe (formerly Rosabelle Fricke) and children, and Josie Cihak, all of Detroit, called on Tom Kiser and family, Sunday afternoon.

Mr. Lindset (brother of Mrs. Edd. Thorsen) and family of Philadelphia, Pa., were visitors at the Thorsen home last week.

PLEASANT HILL
(Edited by Anson Hayward)

Quite a number of people attended the baptismal services Sunday here. There were 8 baptised, 3 Menonites, 1 Methodist, 4 Pilgrim Holiness. There were two preachers worked together. There were quite a few attended from Pleasant Valley.

Anson Hayward's sister and her husband and their daughter, Dorothy, were up from Detroit the past week for a visit at A. Haywards. They motored through from Detroit with a Reo car.

Pleasant Valley had a Missionary who gave a good talk on Missionary work done in China. She said the children were smart to do their work.

Henry VanDeventer of Dundee,

Motor Derby!
Fair Grounds East Jordan
Sunday, July 24
Commencing 2:30 P. M.

MOTOR CYCLE RACES
AUTO POLO
AUTO PUSH BALL
FLYING CIRCUS

With Modern Airplanes; featuring wing walking, rope ladder acrobatics, standing loop and parachute jump.

Admission—50c and 25c
Children under ten, free with parents. Autos free.

also Clarence and Dewey VanDeventer of Detroit and Dundee were here visiting friends and relatives. Henry VanDeventer called on Rev. H. VanDeventer one day last week.

Nobody can blame Tex Richard for putting on two million dollar boxing bouts this summer.

The average editor knows of few matters as important as the opinions of his rag of freedom.

City Tax Notice

City Taxes for the City of East Jordan for the year 1927 are due and payable at my office over Hite's Drug Store during the month of July without penalty. Office hours—9:00 to 11:00 a. m., and 1:00 to 5:00 p. m. G. E. BOSWELL, City Treasurer.

Bridegrooms Pick Types
A helpful German philosopher has made it easier for a man to decide what sort of a wife he ought to have. All he has to do is to find out whether he is a hyomaptic cyclothymous type or an autistic schizoid. As soon as he knows this the rest is easy, says Capper's Weekly.

All Termed Kanakas
Kanakas are the natives of the Hawaiian Islands, but the name is especially applied to the natives of the New Hebrides and other South-Sea islands who were formerly employed on the sugar plantations of Queensland, Australia.

On Hard Work
The man who has the best time during his idle hours is the man who worked the hardest during his working hours. Hard work is a wonderful thing.—Atchison Globe.

COMING!
UNITED
CHAUTAQUA

AT HIGH SCHOOL AUDITORIUM
East Jordan, July 29-30-31, Aug. 1

- 7 BIG ENTERTAINMENTS 7
- FRIDAY, July 29, 8:00 p. m.—Pamahasika's Society Circus. The greatest animal performance in the world.
- SATURDAY, July 30, 2:30 p. m.—Tooléy Opera Company in DeLuxe Musical Program.
- SATURDAY, July 30, 8:00 p. m.—"The Whole Town's Talking." The play that is now breaking all attendance records in New York City.
- SUNDAY, July 31, 2:30 p. m.—Six Royal Holland Bellringers. U. G. Lacey, Lecture, "Atmosphere and Life."
- SUNDAY, July 31, 8:00 p. m.—Six Royal Holland Bellringers. U. G. Lacey, Lecture, "Making Dreams Come True."
- MONDAY, August 1, 2:30 p. m.—Entertainment by Sunny South Entertainers. P. E. Foreman, Lecturer, "Getting the Most Out of Life."
- MONDAY, August 1, 8:00 p. m.—"Daddy Long-Legs." A merry and charming three act comedy drama.

Season Tickets are on sale by the local committee at a reduced price of \$1.00.

Owing to the extremely low price of season tickets there will be no seat reservations. A season ticket admits one person whether child or adult.

Single Admission, Adult 40c. Single Admission, Children 25c

The Green Cloak
By Yorke Davis

Who was the mysterious recluse who lived in the old house? Why was he killed and what strange method was employed to bring about his death? In what manner did the green cloak figure in the crime?

These and other interesting matters are unraveled in Mr. Davis' fascinating story.

NEW SERIAL STARTING IN

Charlevoix Co. Herald

Report of Annual School Meeting

East Jordan, Michigan, July 11th, 1927.
 Minutes of Annual School Meeting of Dist. No. 4, South Arm Township for school year ending June 30, 1927 were read and approved.
 Annual Financial Statement and Estimated Expenditures of 1927-1928 were read and approved.
 Moved that the school year be 9 1/2 months. Carried.
 The terms of W. P. Porter and Roy E. Webster having expired, W. P. Porter and Roy E. Webster being nominated. It was moved that votes be suspended and the Secretary be instructed to cast unanimous vote for W. P. Porter and Roy E. Webster. Carried.
 Motion to adjourn. Carried.
 C. H. PRAY, Secretary of Board of Education.

ANNUAL FINANCIAL STATEMENT of School Dist. No. 4, Frl., SOUTH ARM TOWNSHIP For year ending June 30, 1927.

Keep Talking!
 Clever things are said mainly by those who are always gabbling; occasionally they hit upon a good thing. -W. W. Howe's Monthly.

Money in Writing
 There is money in writing, states an article. It all depends on how generous are those to whom you write. -Wall Street Journal.

GREAT RIVER WILL ATTEMPT COMEBACK

St. Paul-New Orleans Barge Line Planned.

Moline, Ill.—In the Mississippi river to stage a comeback? With the assured operation of a barge line on a six-day schedule between St. Louis and Minneapolis, following the great success of the federal barge line for several years past between St. Louis and New Orleans, there appears to be a new and brighter day dawning for the "Father of Waters," at least from a freight standpoint.
 An agreement, reached after a series of conferences between Minneapolis and St. Paul business men and Secretary of War Davis and Gen. T. Q. Ashburn of the Inland Waterways corporation, means that the government will supplement the \$600,000 subscribed by the upper river cities to the extent necessary to provide adequate transportation service above St. Louis.
 At the outset the equipment will include three boats of 600 horsepower each, 182 feet in length, 32 feet beam and a mean draft with fuel of 3 feet 6 inches. There will also be fifteen steel barges of 400 to 500 tons capacity each.
 This fleet will insure sailings six days of the week, connecting at St. Louis with the Mississippi-Warrior service.
 Bids will be opened in time to permit construction during the coming year and starting of the service with the opening of navigation in the spring of 1927.

Channel to Be Deepened.
 Some improvements of the river are planned. Forty-one miles of the channel between Moline and St. Louis will be deepened. In the Moline district of 658 miles, about 450 miles have a minimum depth of six feet at low water. It is the purpose to deepen the remainder by either dredging or scouring before the new barge service opens.
 There was a time when this artery of commerce was big with importance, both for the transportation of passengers and freight. A trip on the river was regarded as a treat. The cuisine of the lordly steamers was world-renowned. And to add to the lure there was always the chance of a test of speed, sporting events of no mean importance.
 Perhaps the most treasured memory of the veterans was the great race between the Natchez and the Robert E. Lee in 1870. These boats ranked with the largest and fastest craft on the river. The Natchez was built at Cincinnati and was commanded by Capt. T. P. Leathers. The Robert E. Lee was launched at New Albany just after the Civil war, John W. Cannon being in command.
 There was the greatest rivalry between the two companies, owning these boats and it was finally decided to arrange a race, purely for the purpose of determining speed superiority.
 Captain Cannon stripped the Lee for the race, removing all the upper works and rigging that could be dispensed with. He refused all business of any kind, and no passengers were carried.
 The race was to be upstream from New Orleans. On the afternoon of June 30 the Lee backed out from the levee and five minutes later the Natchez followed.
 The Lee wins handily.
 The entire nation watched the race with breathless interest. The telegraph reported the progress and the relative positions of the two craft at every point. At the principal cities of Natchez, Vicksburg, Helena and Memphis thousands assembled on the river banks to watch the fight of the river leviathans.
 The Natchez lost, due to some ill luck in running into a fog bank north of Cairo, which caused a delay of six hours. Captain Cannon reached St. Louis with the Robert E. Lee an easy winner, his time being 3 days, 18 hours and 30 minutes.
 With the passing of the river steamers also went the gamblers. The spirit of adventure was rampant in those romantic days. Large sums of money were carried by the planters. The betting spirit was rife, and the card sharks found rich pickings.

Time Lost by Finest Official U. S. Clock

Washington.—America's most timely clock ticks off the fleeting moments with a variation of only one-hundredth of a second a day.
 Enclosed in an air-tight chamber, especially constructed to keep outside influences away from the government's master timekeeper, the standard clock at the bureau of standards, which has this small variation in time, is used as a yardstick for measuring time intervals at the bureau. The clock is electrically wound twice a minute.
 Its time is checked each day by comparison with the noon signal from the naval observatory, which uses solar observations to set the nation's time.

Stage Fright

Rumford, Maine.—A timid young swain and his girl are missing and the city's home exhibition is minus its big feature. Arthur Trenworthy and Alice Russell were to have been married at the show and to have received many gifts. The police scoured the town in vain when they failed to show up. They had stage fright, presumably.

POLE SOUGHT IN 1897 BY SWEDISH AIRMEN

Fate of Balloonists Still Remains Mystery.

New York.—Which ever of the flying men bound for unknown polar regions this summer is the first to reach the pole, he probably never will be certain that he actually was the first man to fly there.
 Twenty-nine years ago, with far cruder equipment than any of the adventurers this summer are taking, three Viking airmen tried to sail through the sky to the end of the earth. There is some evidence that they passed over the pole, or very near it, although what finally happened must be relegated to Eskimo legend.
 The leader of the party was Prof. Salomon August Andree, a Swedish scientist and civil engineer interested in ballooning. His companions were two other Swedes, Nils Strindberg and Knut Hjalmar Ferdinand Fraenkel. Professor Andree was convinced there were trade winds blowing through the upper atmosphere from Spitzbergen, across the pole to North America, which would carry his balloon in safety over the polar ice cap.
 He carried the last word in scientific apparatus for his day—only a generation ago. In place of radio apparatus he carried a large quantity of bottles that he could drop overboard with messages and a few carrier pigeons. Professor Andree's balloon measured 97 feet from top to bottom, the bag alone being 75 feet from summit to opening. It consisted of three thicknesses of silk glued together and covered with five coats of varnish.
 On July 6, 1897, the party left Trondhjem, Norway. On July 8 it passed the North cape, and on Sunday, July 11, at 2:30 in the afternoon, it took off from Dane's Island, Spitzbergen, with the pole 600 miles to the north. The day was clear and a strong wind was blowing. As the balloon started it narrowly escaped striking a rock in the Sverdrup sound. As it rose out of the varying undercurrents of air it swung about like a carrier pigeon—getting its bearings, and then, meeting the upper currents which Professor Andree predicted, it started away at the rate of about 22 miles an hour.
 For an hour the balloon could be seen from shore. It was equipped to stay in the air 50 days and carried provisions for four months.
 One carrier pigeon returned a few days later with this message:
 "July 13, 12:30 p. m.—S22 degrees north latitude, 15.5 degrees east longitude. Good progress toward the north. All goes well on board. This message is the third by carrier pigeon."
 "ANDREE."
 In September, 1899, a buoy which Professor Andree was to have dropped overboard when he passed over the pole was picked up on the shore of King Charles island and identified by the inscription, "Andree Polar Expedition."

Found Year Later.

A year later a bottle containing note No. 143 was found near Vardoe, in the most northeasterly part of Norway.
 That was all. Years went by without another trace of the expedition. Liberal rewards were offered by the king of Sweden for genuine relics of the expedition. Many parties were organized and spent thousands of dollars searching the Arctic regions for remains.
 At last, in December, 1909, a friendly Catholic priest, who had won the confidence of the Eskimo tribes near Reindeer lake, 900 miles north of Prince Albert, in the province of Saskatchewan, Canada, brought back an uncertain tale. Bishop Pascal of the diocese of Prince Albert saw an Eskimo carrying a revolver and noticed that other members of the tribe seemed to have an unusual quantity of rope.
 When he inquired they told him that a great "white house" had come down from the sky, that the men in it had starved to death and that the rope had come from the house top.
 A month later Father Furquattle, another priest, brought back additional news. The Eskimos admitted, he said, that the white men had hunted game. This angered them and they killed the white men.
 One other subsequent report with the stamp of authenticity was made. Christian Leder, a Norwegian explorer, said Eskimos told they saw the balloon come from the sky and saw smoke and thunder come from strange sticks which "two devils" carried. One of the "devils" they killed with their arrows, but when the other made signs that he was not hostile, that he was hunting birds only, the tribesmen realized that they had killed a human being and fled in fear. They saw no more of the other man.

Likes Mustard

New York.—The new shah of Persia is fond of mustard, but so far as having been a bon vivant is concerned, is not the stuff he has been painted, says Arthur Upham Pope, commissioner from Persia to the Philadelphia exposition.

Claims Record

Campbell, Mo.—This town claims the record for church attendance. Ninety-five per cent of the population of 1,804 persons went last Sunday.

SANDLESS GLASS IS DISCOVERED

Evolved From Rare Elements by Scientist.

Ithaca, N. Y.—Sandless glass is being made in the chemistry laboratory at Cornell university.
 The substitute for sand in the process of manufacture is the dioxide of germanium, a rare, mysterious and costly element which Prof. L. M. Dennis, head of the department of chemistry, is now able to produce in quantity after years of experimentation.
 Whether the new glass has properties that will make it of great value for optical purposes is still undetermined, but the results thus far obtained indicate that it has unusual refractive qualities.
 Chemists still are puzzled by germanium. They frankly admit that until it was put to work making glass they had not known what to do with it. Even now they are confident it has other and more important uses to which science some day will apply it.
 At present Professor Dennis is studying its compounds with a view to determining whether the element has medicinal properties that will make it of inestimable value to mankind.
 Germanium is extracted from crude zinc oxide. In crystalline form it is a glossy, flaky substance resembling zinc, hard and extremely brittle.
 It is worth many dollars a gram, and Cornell exhibits the largest mass of the element ever assembled—a round piece, beautifully crystalline, about the size of a silver dollar and weighing 104 grams.
 It has been learned that crude zinc oxide can be heated with strong acid under such conditions that a volatile compound of germanium of high purity distills over. This is decomposed by water so as to produce pure germanium oxide, a white powder. Professor Dennis further discovered that lumps of the pure metal could be obtained by fusion of the powder under ordinary salt.
 Laboratory tests disclosed that a gram of germanium could be extracted from a pound of zinc, and the production has proceeded on this basis.

Actor Has Silent Role in Play 15 Years

Los Angeles, Cal.—There is a man at San Gabriel who for 15 long years has sat silently amidst one of the greatest dramas of the past, his long white hair gleaming in the sunlight—who has watched the tides of passion ebb and flow; has seen the land in the heyday of its glory, has watched it crumble and fade—and yet, despite the fact that he is a very vital part of it all—he has said no word, made no complaint for 15 years.
 He is not dumb, yet he never talks. He is Frank Cuellar, one of the Mission Play performers, who has no lines to say, and who has no ambition to be other than he is—a silent patriarch.
 He is said to be the only actor known who has been content to remain a silent performer.
 He has been with John Steven McCroarty since the Mission play's beginning and he is happy to remain right there, for he is a native of old California and he loves the play.

Chef Draws Notables of France to Lake Hotel

Geneva.—When M. Briand of France, and M. Quiñones de Leon, the Spanish representative on the council of the League of Nations, come to Geneva, they never fail to take lunch at the Chalet Russe, which is seven miles outside Geneva on the shore of Lake Lemane.
 For many years Aime Lavanchy, chef of the Chalet Russe, was chef at the Spanish embassy at St. Petersburg, during the period when Marquis de Camposagrado was ambassador. M. Quiñones de Leon is the nephew of the Spanish marquis, and this is the reason which first led him to frequent the Chalet Russe. Briand knew the chef gained his knowledge of cooking in Paris.
 It was at Moscow in 1883 that Prince Oldenburg asked him to prepare a special dinner in honor of the coronation of Alexander III, and on that occasion the emperor gave Lavanchy a gold medal to commemorate a very wonderful repast.

Has Conscience

New York.—Father Knickerbocker is \$2,000 richer because of the conscience of one of his citizens. Two crisp \$1,000 bills have come to the treasury through the medium of a priest.

Horses Bred to Utilize Tails for Violin Bows

Elma, Wash.—A farm has been started near here for breeding of white horses for the long, smooth tail hairs used exclusively in the manufacture of violin bows. There has been an acute shortage of this material in Siberia and Manchuria, whence the bulk of the long hairs formerly was obtained.
 White hairs are used because of the bleaching of black or colored ones weakens the structure cells. The horses' tails are clipped in spring and autumn, six months being required for the full switch to grow again.

U. S. IS GAINING IN WORLD TRADE

Increase Is Shown Since Pre-War Days.

Washington.—A striking picture of the foreign, commercial and financial transactions of the United States during 1926 is given in the fourth annual international trade balance statement made public by the Department of Commerce.
 In a foreword to the statement, which takes into account the huge visible and so-called "invisible" or less tangible items of trade, Secretary Hoover pointed to the increase in total international transactions from around \$6,000,000,000 in 1924 to nearly \$8,000,000,000 last year as "showing very strikingly the enormously increasing importance of our foreign commercial and financial relations."
 The figure was a gain of approximately \$1,100,000,000 over the 1923 total and nearly \$5,000,000,000 more than the annual prewar average.
 "Increasing economic stability in foreign countries," the secretary said, "was reflected by a net import of fully one-fourth of the estimated amount of American currency held abroad and by the fact that the movement of foreigners' bank deposits in this country declined for the first time since 1921."
 "During the year the United States further strengthened its international investment position. Our total foreign holdings now amount to about \$10,400,000,000, having increased by more than \$1,200,000,000 during the year. Our total returns from foreign investments are now greater than at any time in our history."
 In the absence of complete and accurate figures which, it was said, would show total exports and imports, both visible and invisible, to be equal, the statement, allowing for "errors and omissions," estimated the final residual balance last year at \$64,000,000 against the United States. The same balance in 1924 was \$74,000,000 in this country's favor.
 Although the excess of exports in merchandise dropped \$304,000,000 from the 1924 figure and a marked increase of \$125,000,000 in imports of new foreign securities was shown over that year, these were balanced by equivalent credit changes.

BACK TO THE STAGE

Mrs. Thomas Whiffen, who for years was one of the best loved of American actresses, now, at the age of eighty-three, is back again on Broadway to play in the revival of "The Two Orphans" in New York city. Mrs. Whiffen bought a farm in Roanoke, Va., because she thought it was time for her to retire, but when the bid came to return to the white lights she could not refuse.

Flip of Coin Chooses Township Treasurer

Port Huron, Mich.—For minor township office, the treasurership of Burnside township near Inlay City has set a precedent for being bitterly contested.
 At the outset there were seven candidates in the field for the office. All were eliminated but John Riley and Dolph McNary. At the April election Riley received 147 and McNary 149 votes. A recount was held and one of McNary's votes was thrown out, leaving the election tied.
 Riley and McNary then decided to toss a coin for the honor. Riley won the toss. He gave McNary another chance with the coin, but again it fell in favor of Riley. Riley is now Burnside township treasurer.

Powder River Rightly Named 'Water Burns'

Arvada, Wyo.—Powder river is a fitting name for the stream which passes through the north-eastern section of Wyoming—it burns.
 During the winter peculiar formations are caused by the gas seepages. When the river is frozen over, gas accumulates under the ice and as the pressure gathers, it forces thin sprays of water through the weaker spots in the ice and these sprays freeze in curious formations of arches and low pillars.
 The gas does not make the water unpalatable for drinking. In Arvada there is a drinking fountain, the water of which can be set on fire at any time.

SEEKS TREASURE BURIED IN RIVERS

Would Salvage Ships Lost in Northwest.

Miles City, Mont.—Treasures of lost ships, buried under the shifting sands of the Yellowstone and Missouri rivers, will be sought by Elmore Ellsworth Wenner, who has passed a quarter of a century gathering information as to their location and possibility of recovery.

In the skeletons of these treasure ships, Wenner believes, still remain quantities of the cargoes of priceless pelts, gold, silver, quicksilver and various other merchandise, the value of which government reports indicate to approximate \$50,000,000. A portion of the cargo of one wreck, buried for 80 years, Wenner already has salvaged.

Steamboating on the northern waters of the Missouri river began 103 years ago, when a fleet of six river steamers were built under government contract for use with the ill-fated Yellowstone military expedition which had as its object the establishment of a fortified post at the mouth of the Yellowstone river.

One of these, the Thomas Jefferson, provided the first Missouri river wreck near the mouth of the Yellowstone. In 1831 the American Fur company started a fleet of steamboats on the Missouri. Its George Washington struck a snag below Council Bluffs, Iowa, and went down.

The Assiniboine, also owned by this company, was grounded in 1825 near the present site of Bismarck, N. D., with a cargo of 1,185 packs of pelts and robes.

The Pontiac went down with a cargo of 500 barrels of whiskey, 500 casks of wine and 500 casks of brandy, none of which ever was recovered. The Louisville, loaded with whiskey, quicksilver and general stores, went down 40 miles below Sioux City. At this same spot are eight other sunken steamers.

SHE'S MISS BROADWAY

Miss Irene French, winner of the "Miss Broadway" contest conducted by the Broadway association in New York.

Courtship of 44 Years Ends With Wedding

Philadelphia.—A courtship begun 44 years ago came to an end when Albert T. Gardner, sixty-eight years old, married Miss Leona L. Gibbs, sixty-one years old, in St. Matthew's Episcopal church, where he has been the organist for more than half a century.

Rev. C. Herbert Reese, the rector, performed the ceremony, which was witnessed by the members of the choir and vestry and a few close friends.

Miss Gibbs met her husband 44 years ago, when she came to Philadelphia from Vincetown, N. J., and while it was a case of love at first sight, there were many financial difficulties in the way of their marriage.

While he was undertaking to rear and care for a nephew, she was burdened with the care of two invalid sisters, the last of whom died a month ago. All domestic obstacles being removed, with an increase in salary for Mr. Gardner in view, the couple decided to consummate their long courtship. They are living at the southeast corner of Twentieth and Brown streets.

Battling Women Take Bite of Officer's Hand

Pittsburgh, Pa.—When women fight Marquis of Queensbury rules are just a lot of apple-sauce and a million of the law takes long chances in the role of peacemaker. Biting, scratching and kicking count most.

That's why Patrolman Parker Seybold is nursing a bitten right hand and bruised shin. He tried to pacify—at least separate—Mrs. Mary Johnerlek, fifty years old, and Mrs. Mary Ponsky, who were staging a private battle in the former's home. He says Mrs. Johnerlek bit and kicked him when he entered the house to stop the fight.

Seybold was passing the Johnerlek home when he heard the commotion. Police say the women were "clinched" following an argument over the ownership of several pigeons.

Battling Women Take Bite of Officer's Hand

How can one, who is bewildered and appalled by the fury of our planet's cyclones and volcanic eruptions, form a conception of the terrible energy of natural operations on the sun? Newcomb suggested that if we call the solar atmosphere an ocean of fire we must remember that it is an ocean indefinitely hotter than the fiercest furnace and as deep as the Atlantic is broad. If we call its movements hurricanes we must remember that our hurricanes blow only about 100 miles an hour, while those of the chromosphere blow as far in a single second.

There are such hurricanes as, coming down from the North, would, in 30 seconds after they had crossed the St. Lawrence river, be in the gulf of Mexico, carrying with them the whole surface of the continent in a mass not simply of ruin, but of glowing vapor.

JUST HUMANS

Mother's Cook Book

"Are you awfully tired of play, little girl?

"Vexed, discouraged and sick? I'll tell you the loveliest game in the world—

Do something for somebody quick."

EVERYDAY GOOD THINGS

MEATS are one of our valuable protein foods and when served will take the place of meat.

Green Pea Soup.

Put a can of green peas through a sieve; a pint will be sufficient for an ordinary family. Season to taste with salt and pepper and add a tablespoonful of scraped onion, or cook a small onion minced in a little fat; add to this one tablespoonful of flour and a pint of stock or water; use the stock on the peas with water. Cook five minutes, add the puree of peas, heat all together and serve with croutons or fingers of toasted bread.

Sour Cream Slaw.

Shred cabbage very fine, plunge into cold water until crisp, drain and cover with a cupful of thick sour cream heated and added to two well-beaten eggs. Add two tablespoonfuls of vinegar, two tablespoonfuls of butter, a teaspoonful of salt and a few dashes of cayenne. Cover the drained cabbage with the hot sauce and serve.

Cabbage Salad.

Shred very fine one small firm head of cabbage, add one-half cupful of chopped almonds which have been blanched and four or five ripe bananas finely cut; mix with one cupful of sour cream; if cream is not very sour add a dash of vinegar. Serve with crackers and cheese.

Different Dried Beef.

Take dried beef, cut into strips with scissors and try in a tablespoonful of butter. Place on a hot platter and surround with halved and quartered bananas, also fried, long enough to become thoroughly hot.

Unusual Dessert.

Take a pint can of condensed milk and put into a deep dish, cover with boiling water and keep boiling for two and one-half hours. Remove, cool and slip out the contents by cutting the can carefully. Slice and serve well chilled with a cherry on top. Several cans may be cooked at once and opened when needed. This will serve four to six persons and has a flavor much like maple.

Sour Cream Icing.

Take two-thirds of a cupful of sour cream, add two cupfuls of granulated sugar, and boil gently until it threads. Cool until tepid, add a teaspoonful of orange extract and beat until creamy. Spread on the cake, or use as filling.

Sunstorms

How can one, who is bewildered and appalled by the fury of our planet's cyclones and volcanic eruptions, form a conception of the terrible energy of natural operations on the sun? Newcomb suggested that if we call the solar atmosphere an ocean of fire we must remember that it is an ocean indefinitely hotter than the fiercest furnace and as deep as the Atlantic is broad. If we call its movements hurricanes we must remember that our hurricanes blow only about 100 miles an hour, while those of the chromosphere blow as far in a single second.

There are such hurricanes as, coming down from the North, would, in 30 seconds after they had crossed the St. Lawrence river, be in the gulf of Mexico, carrying with them the whole surface of the continent in a mass not simply of ruin, but of glowing vapor.

SOMETHING TO THINK ABOUT

By F. A. WALKER

LAYING A FOUNDATION

IF YOU are a close observer and given to winnowing the golden grain from the sheaves that are falling all about you, you are laying a solid foundation on which to build your structure of success.

You have noticed how carefully masons select stones which are to bear the weight of skyscrapers, with what precision these stones are placed side by side, kept level and plumb, and imbedded in cement.

Every layer, mark you, must be level and plumb. And mark again that no building can be stronger than the base upon which it rests.

What is true of stone structure is likewise true of mental and moral formation.

If the groundwork is weak, the fundamentals slatternly, the corniced and capiteled summit is in danger of falling.

The reason why so many men and women fail in their efforts to reach the apex of their dreams is because they failed to construct substantial supports in early life.

There has been much newspaper discussion, anent the value of college education, and whether it really fits young men and women for the practical duties in professional and industrial pursuits. In a series of questions, Edison some time ago tested numbers of university graduates. The result, it is alleged, was not satisfactory.

Schools and colleges should not be censured for these shortcomings, but rather the students themselves, who had overlooked the vital importance of laying in their early days a solid foundation on which to build.

Whatever you attempt, begin at the base and build solidly.

Test the strength of this base at every stage of your progress.

Don't be afraid of hard work and long hours.

In music you must first master the elementary principles, embodied in the active; in surgery you must acquaint yourself with the location of the 266 bones in the human body. And so in all branches of art, science and industry, you must dig deeply and erect an enduring foundation.

Work, work, work and have faith. Dig through the difficulties and if you falter not in your endeavors your building will survive the storms and stand unshaken while the world tumbles all around you.

(© by McClure Newspaper Syndicate.)

What Does Your Child Want to Know?

Answered by BARBARA BOURJAILY

WHERE DOES OUR BREATH GO? Our breath goes up, for it is warm, and warm things always rise. High up, the wind can make it pure. All nature's laws are wise.

Whale meat is sold as chicken feed

FIND ATOMIC FLAME WILL FUSE METALS

Hydrogen With Electric Arc Proves Success.

Schenectady, N. Y.—Methods of welding metal together will be revolutionized by two new inventions of the research laboratories of the General Electric company, for after years of search it is now possible to weld so that the fused metal is as strong and as ductile as if it were never in two pieces. Previous methods, using an arc to furnish the intense necessary heat, resulted in the formation of compounds of the metal with oxygen so that the weld was not as strong as the rest of the piece.

As the nitrogen and oxygen which unite with the metal come from the air, in these new processes the air is excluded when the weld is being made by a bath of hydrogen, water gas, wood alcohol vapor, and others which do not easily form metallic compounds.

Eight Hundred Volts Used.

One of the methods was developed by Dr. Irving Langmuir, assistant director of the Schenectady laboratory, and makes use of what he calls flames of atomic hydrogen, based on a discovery of Dr. R. W. Wood, professor of experimental physics at Johns Hopkins university. Electric currents of 20 amperes and at voltages ranging from 300 to 800, were passed through two tungsten rods so as to form an arc similar to the arc between carbon rods in a street arc light.

By passing a stream of hydrogen gas into the arc from a small tube, an intensely hot flame is produced, because the molecules of hydrogen are broken up by the temperature of the arc into their constituent atoms. As the ordinary form of hydrogen is that of molecules, the atoms almost immediately recombine, but in doing so they liberate great amounts of heat, about half again as much as the oxyhydrogen flame.

Iron rods an eighth of an inch in diameter melt within a few seconds when held about an inch above the arc, says Doctor Langmuir. Metals even harder to melt than iron, such as tungsten and molybdenum, one of the most refractory substances known, melt with ease. Quartz, however, melts with more difficulty than molybdenum, which Doctor Langmuir suggests as being due to the fact that the metals act as a catalyzer, or a substance which speeds up a chemical change.

The use of hydrogen under these conditions for melting metals has proved to have many advantages, Doctor Langmuir said. "Iron can be melted or welded without contamination by carbon, oxygen or nitrogen. Because of the powerful reducing action of the atomic hydrogen, alloys containing chromium, aluminum, silicon or manganese can be welded without fluxes or surface oxidation. The rapidity with which such metals as iron can be melted seems to exceed that of the oxyacetylene flame, so that the process promises to be particularly valuable for welding."

Another Method Found.

The other method of producing ductile welds was developed at the Thomson research laboratory of the General Electric company at Lynn, Mass., by Peter Alexander, independently of Doctor Langmuir's work. The electric arc is passed between the metal to be welded and an iron electrode, and the gaseous atmosphere is supplied in the form of a stream around the arc, so as to keep it entirely away from air. Pure hydrogen, water gas, methanol or wood alcohol vapor, or dry ammonia can be used, as well as a mixture of hydrogen and nitrogen, for it is found that the nitrogen is not harmful unless oxygen is also present. All of these mixtures contain hydrogen, and Doctor Langmuir suggests that this method also depends in part for its efficacy on the disintegration of hydrogen molecules into their atoms.

Pity the Porter

Washington.—Pity the poor pullman porter; his tips average only \$20 a month and his annual salary \$870; take it from Representative Celler of New York, who proposes a congressional investigation of the matter.

Century-Old Cells of Plant Found Alive

Philadelphia.—The discovery of plant cells that have lived and retained their individualities for more than a century was described to the American Philosophical society recently by Dr. Daniel T. MacDougal, director of the department of botanical research of the Carnegie Institute of Washington.

Most of the cells of trees die in a few years and their remains become part of the permanent woody structure. The ordinary cell of the living creature is supposed to disintegrate and become absorbed and replaced by other cells within a few years, although some biologists believe that brain cells endure throughout the life of the individual. It is difficult to account for the faculty of memory without supposing that the brain cells commonly live as long as their possessors, they say.

Georgette Is Popular for Afternoon Gowns

A shell-pink georgette frock with peasant braiding on the sleeves. The blouse has scores of tiny knife points set on a deep yoke of self-material and boasts a belt of grosgrain in the shades used on the sleeve embroidery. A large shell-pink horse-hair hat trimmed with rose-velvet and turned up at the back, is worn with the gown.

A large shell-pink horse-hair hat trimmed with rose-velvet and turned up at the back, is worn with the gown.

Dead Sea Unique

The level of the Dead sea in Palestine is 1,300 feet below the level of the Mediterranean, and its waters are very salty and, therefore, heavy and buoyant. The River Jordan, flowing down from the north, empties into the Dead sea, and there is no visible outlet to the latter.

WHEN AN ACHING BACK TORMENTS.

Watch your kidneys—when they are affected, elimination is not normal—too scanty and burning—or too frequent and troublesome. Men and women everywhere are using—and recommending Foley Pills diuretic to regulate kidney elimination, and to free the system of lurking poisons that cause backaches, rheumatic pains stiff and swollen joints, tormenting lumbago. The medicinal qualities of Foley Pills diuretic are valued so highly that they are guaranteed to give satisfaction. Ask for them.—Hite's Drug Store. adv.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the city of Charlevoix in said County, on the 12th day of July A. D. 1927.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Belle Roy, Deceased.

Fitch R. Williams having filed in said court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 5th day of August A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.

SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the city of Charlevoix, in said County, on the 1st day of July, A. D. 1927.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of John Cameron, Deceased.

John J. Mikula having filed in said court his final administration account, and his petitions praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 28th day of July, A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said county.

DEDICATION OF THE FIRST METHODIST EPISCOPAL CHURCH OF EAST JORDAN Sunday, July 24th, 1927

Bishop—Rev. Thomas Nicholson, D. D., L. L. D.
Dist. Supt.—Rev. J. O. Randall, D. D.
Pastor—Rev. V. J. Hufton.

ORDER OF THE DAY

7:00 a. m.—**YOUNG PEOPLE'S SERVICE.** Rev. C. E. Pollock, M. A., Charlevoix.
 Declaration—"Sign of the Cross," Mary Hufton.

9:00 a. m.—**BAPTISMAL SERVICE.** Rev. J. O. Randall, D. S.

10:00 a. m.—**SERMON**—DR. L. R. ECKARDT,
 Prof. of Philosophy of De Pauw University.
 Solo—"The Holy City," Harker Kirby, Charlevoix.

11:00 a. m.—**SUNDAY SCHOOL.**
 Subject—"David and Goliath."
 Lesson Story by Prof. F. G. Blair, of Springfield, Ill.

3:00 p. m.—**DEDICATION AND SERMON** by Dr. Eckardt; visiting Pastors participating.

7:00 p. m.—**SONG SERVICE.**
 Selection—Petoskey Quartette.
 Scripture Reading and Prayer.
 Solo—Miss Drusilla Shaw.
 Sermon—"The Absentee" Dr. C. J. Kruse of Petoskey.
 Selection—Petoskey Quartette.
 Benediction.

DEDICATION SERVICE 3:00 P. M.

Voluntary.
 Hymn—209.
 Prayer—Rev. C. W. Sidebotham.
 Scripture Reading.
 Anthem—Asbury M. E. Church, Traverse City.
 Scripture Reading.
 Soloist—From Traverse City Choir.
 Sermon—Dr. L. R. Eckardt.
 Responsive Reading—Psalm 122;
 Visiting Ministers.
 Presentation of Building to Dist. Superintendent.
 Dedicatory Prayer.
 Anthem—Traverse City Choir.
 Doxology.
 Benediction.

Briefs of the Week

Mrs. Maurice Gorman is visiting relatives at Alpena.

Congressman Frank P. Bohn was an East Jordan visitor, Thursday.

Mrs. George Ward of Lansing was here visiting friends first of the week.

Seymour Burbanks left Monday for Flint, where he will seek employment.

Mr. and Mrs. Glenn Thomas visited friends at Grand Rapids and Detroit last week.

Mrs. Win Nicholls with children left Sunday by auto to join her husband at Flint.

Mrs. Robert McBride and daughter, Miss Aura, returned home Tuesday from a visit at Kingsville, Ont.

Mr. and Mrs. Peter Boss and family who have been here for a visit, returned to Flint first of the week.

Miss Lucile Hines of Grand Rapids was here for a two weeks' visit with Mr. and Mrs. Glenn Thomas.

Mr. and Mrs. Frank Reinhart of Lansing were guests at the home of Mr. and Mrs. G. A. Bell this week.

Mr. and Mrs. Clark Barrie, James Miles and Marian Maddock returned last Saturday from a visit at Flint.

The Catholic Ladies will hold a Bake Sale at the Studebaker salesrooms, Saturday, July 30th. adv.

Mrs. Fred Martin of South Arm township underwent an operation for goitre, Monday, at the Charlevoix hospital.

In the East Jordan-Charlevoix base ball game last Sunday at the latter place, Charlevoix won by a 6 to 4 score.

Roy Blair with daughter, Virginia, and Helen Rühling of Flint are visiting at the home of Mr. and Mrs. Clark Barrie.

Miss Grace Pickhaver of Grand Rapids was here this week for a visit with Mrs. Pearl McHale and other former acquaintances.

Mrs. Robert Pearsall visited relatives at Midland last week. Mr. Pearsall motored there Saturday and they returned home, Sunday.

Rev. Henry Hiles, former pastor of East Jordan M. E. Church, has accepted the pastorate of the Eagle Bend, Minn., M. E. Church.

Mr. and Mrs. T. J. Carr with daughter are here from Pontiac for a few weeks visit at the home of Mr. and Mrs. Freeman Walton, and looking after their farm near this city.

Mr. and Mrs. Robert Grant and daughters, Thelma and Martina, who have spent the past few months in Muskegon, returned home last week.

Mr. and Mrs. E. J. Nicholls with children, who have been visiting at the home of his parents, Mr. and Mrs. James Nicholls, left Saturday by auto for their home at Osawatomie, Kas.

Russell Harrington of Flint came first of this week for a visit with his parents, Mr. and Mrs. Wm. Harrington. His wife and children have been here for the past few weeks, visiting her parents, Mr. and Mrs. Jos. Cummins.

Mr. and Mrs. George Conway left last Saturday for their home at Fairmont, West Virginia, after a week's visit here at the home of the former's brother, Sherman Conway. Mrs. Jane Conway, mother of the two brothers, returned with them to her home at Ashland, Ky.

Mr. and Mrs. Joseph Mayville motored to Flint last Saturday. They were accompanied by Mrs. Addison Stewart and son, Donald, and Mr. and Mrs. George Pringle. The funeral of Mr. Stewart was held Sunday afternoon from his late home. Mr. and Mrs. Mayville and Mr. Pringle returned home Monday.

Mrs. Roy Hurlbert returned from Detroit last Saturday, after a week's visit with Mrs. Fricke, formerly of East Jordan. She was accompanied home by Mrs. Orville Howe and children, and Miss Josie Cihak of Chicago. Mrs. Howe returned to Detroit, Thursday. Miss Cihak remained for a few weeks' visit.

Clarence Moorehouse received serious injuries in an accident at the East Jordan Chemical Plant, Monday afternoon, when he was caught between moving cars. He received a fractured arm in two places, his face was badly lacerated, and some teeth dislocated. He was taken to the Charlevoix hospital.

You can do your part to make East Jordan attractive without being appointed on a clean-up committee.

Fashion and Good Breeding

A circle of men perfectly well bred would be a company of sensible persons in which every man's native manners and character appeared. If the fashionist have not this quality he is nothing. We are such lovers of self-reliance that we excuse in a man many sins if he will show us a complete satisfaction in his position, which asks no leave to be of mine or any man's good opinion.—Emerson.

Barn and Contents Destroyed By Fire

The barn with adjoining outbuildings, together with their contents including pigs and chickens belonging to Mrs. James Brezina in the Bohemian Settlement, was destroyed by fire of an undetermined origin Saturday afternoon.

Owing to flying embers the fire spread for nearly half a mile and a crowd of men, including some of the East Jordan firemen, worked for a long time before the fire could be put under control. The farm residence was saved. Very little insurance was carried.

It leaves the family in rather bad circumstances. Mr. Brezina passed away a year ago, and this spring Mrs. Brezina was confined to a hospital for two months. The aged mother and a young daughter have been operating the farm.

First M. E. Church Victor J. Hufton, Pastor.

Sunday, July 24, 1927.

DEDICATION SERVICES

7:00 a. m.—Young People's Service will be addressed by Rev. C. E. Pollock of Charlevoix.

10:00 a. m.—Morning Service. Dr. L. R. Eckardt of Greencastle, Ind., will preach.

11:00 a. m.—Sunday School.
3:00 p. m.—Dedication of the Church.

6:00 p. m.—Epworth League.
7:00 p. m.—Evening Service.
Dr. Charles J. Kruse will preach.

Presbyterian Church

C. W. Sidebotham, Pastor.
C. R. Harper, Foreign Pastor.

"A Church for Folks."

Sunday, July 24, 1927.

10:00 a. m.—Morning Worship. Dr. Selby Vance of Pittsburg, will preach. Prof. Bentley of the Conservatory of Music, of Knox College, Illinois, will sing.

11:15 a. m.—Sunday School.

Church of God

Rev. Roy L. Harris, Pastor.

Central Standard Time

10:00 a. m.—Sunday School.
11:00 a. m.—Preaching Service.
6:00 p. m.—Young People Meet.
7:00 p. m.—Evening Service.
Mid-Week Prayer Meeting, Wednesday, at 7:00 p. m.

Latter Day Saints Church

L. Dudley, Pastor.

9:00 a. m.—Sunday School.
10:10 a. m.—Social Service.
7:00 p. m.—Evening Service.
7:00 p. m., Wednesday, Prayer Meeting.

7:00 p. m., Friday—Religio. All are welcome to attend these services.

Pilgrim Holiness Church

Rev. B. E. Manker, Pastor.

Fast Time

11:00 a. m.—Sunday School.
8:00 p. m.—General Service.
8:00 p. m., Friday night—Prayer Meeting.

The public is cordially invited to attend these services.

Won't Turn Professional

A rumor that big Bill Tilden, noted American tennis star, would turn professional, was circulated at Wimbledon and caused much comment among the players. Tilden was quite emphatic in denying the report.

A great many men who wear coats in the hot summer time talk about the fool tangles of the ladies.

TEMPLE THEATRE

"THE FIRE BRIGADE"

Produced in co-operation with the International Association of Fire Chiefs, with the most modern fire apparatus and a story that will hold you spell-bound. The greatest fire picture ever produced.

Admission—10c and 35c

Since the ten per cent wage cut, even the movie extras admit that war is hell.

The average sweet young thing doesn't need her eyes to attract the manful male.

A grafting official is as much a traitor to his country as a man who deserts to the enemy under fire.

Only Rich, Nothing More
Some years ago there died a multi-millionaire, and a newspaper man who furnished news stuff to a syndicate of papers wrote an article concerning him. Six papers published his article and five of them did not. One of the five wrote the correspondent his reason, saying: "The man was merely rich; that was all there was to his life."

Warning to Users of City Water

Hours for sprinkling are from 6:00 to 8:00 a. m. and p. m., standard time.
All persons violating this ordinance are subject to penalty.
Henry W. Cook
Chief of Police.

Who can remember the time when the average man went to the movies or the vaudeville to see whether women had legs?

EASES LIFE FOR THE WIFE

Foley Pills diuretic have accomplished one great aim—they do make life easier for tired, nervous, run-down women, giving back to them health, strength and enjoyment. Hear Mrs. Black of Petersburg, Va.: "Before I took Foley Pills diuretic I could scarcely get about—could not stoop over nor rise up without great pain. Now, I have none." Easy to take, cost little, in constant use over 25 years. Satisfaction guaranteed. Ask for Foley Pills diuretic and accept no substitute.—Hite's Drug Store. adv.

Most husbands and wives get along all right when they visit their respective parents.
Our idea of wasting time is to attack or defend direct primaries which are here to stay.

A "Homey," Friendly Bank Under State Supervision.

OTIS J. SMITH, City Clerk.

Some people are like hens—others are not quite as efficient.

You never can tell what will happen next when a politician makes up his mind that the salvation of the dear people requires his services.

WORKING IN THE AFTERNOON

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

WE START out pretty fresh usually in the morning. We have slotted well; the cares of yesterday have been forgotten. The morning sun is shining, a fresh breeze is blowing from the south, and we feel refreshed and vigorous. Noon finds us weary, however, with whatever mental or physical toll has engaged us, and as the sun grows hot and the day lengthens out in the long afternoon, we lose our enthusiasm, our strength wanes, and we feel like giving up the task. It is not easy to work with vigor in the afternoon. It requires interest and persistence and courage. You cannot judge a man fairly by what he does in the morning; it is how he sticks out the afternoon that counts. A good beginning augurs well, but it is the finish that counts.

Wagner got a good deal of praise for his accomplishments. He was the head of a great organization, and those who knew him intimately were constantly referring to his unusual vision. He planned wonderful things for his organization to accomplish and he started a good many of these. He did not fully count the cost, however. He started this thing and that, and what he started was no doubt worth while, but he never quite finished anything. His changes of organizations were never quite carried to a conclusion nor completely thought out. The buildings which he started were never quite completed. He was a man who could work well in the morning, but he lost his vigor and his enthusiasm in the afternoon. Some one else had to take up what he began and carry it to a conclusion if it were ever finished.

Middle age is one of the most critical times in any man's life. The enthusiasms of youth and its bodily vigor may easily carry one up to forty-five. Until then the morning seems fair and balmy, but noon comes and the sun is hot and blistering, and presently the afternoon creeps on and night approaches. The work drags, the body is weary. It takes courage and character to go on.

The great majority of business men fall at about fifty. They have found it easy work in the morning, but they give up in the afternoon. The world looks drab. "They see the gray rain over the waters," and they lose heart. I called on Grant last week. Forty-seven he is, with an unusual mind and a fine training, and he has done a good work in his profession, but the task has been very hard during the last few years. The afternoon faces him now. He has met a hard problem in life at a critical time and he seems unequal to it. All of his vivacity has gone out to him. He spends his days thinking, and his thoughts carry him nowhere. His friends try to cheer him, his family attempts to stimulate his interest in life, but he just cannot pull himself together. It is afternoon, and the interest and the enthusiasm of morning have disappeared, the sun is climbing down the western sky; he knows that night is coming on and he shudders.

State News
in Brief

Lansing—Michigan growers increased their potato acreage 12 per cent this year and planted 279,000 acres. Although a marked increase, this acreage still is considerably under the 10-year average. The July 1 condition was 85 per cent and forecasts a production of 29,644,000 bushels.

Detroit—Cacl Mattinson, 19 years old, received serious injuries as the result of a 100-ft. fall through the smoke-stack of the Detroit Creamery Co. plant. Mattinson was repairing the top of the funnel when he slipped, falling inside. He was removed from the ventilator shaft at the base of the smokestack, unconscious. Though his skull, shoulder and arm are fractured, he will recover, physicians said.

Lansing—With Michigan's winter wheat harvest close at hand, the output is expected to be larger than last year and above the average. Latest information places the acreage for harvest at 320,000 acres with a condition of 88 per cent which forecasts a total production of 18,378,000 bushels. The spring wheat acreage was increased from 5,000 acres in 1926 to 9,000 acres this year. This acreage indicates 140,000 bushels.

Lansing—Michigan's corn acreage this year is 8 per cent smaller than last year and the low condition of 64 per cent normal indicates that the 1927 crop will be the shortest in the past 10 years, according to a statement issued by Herbert E. Powell, commissioner of agriculture, and Verne H. Church, agricultural statistician for Michigan. The forecast is for 38,468,000 bushels of corn from 1,468,000 acres, which is the lowest since 1906.

Corunna—Mrs. John Florinck, of this city, is again united with her three children after 15 years. The children's father died here 15 years ago, and the mother, unable to support them, sent them to Rumania with their grandmother, who placed them in an orphanage. Soon afterward the war started and the mother lost trace of them. She has sought almost continuously since to locate them and only succeeded a few weeks ago. They have arrived in Corunna.

Battle Creek—Three warrants have been issued here for a man who telegraphed his mother he had died in a Grand Rapids hotel. Claude Price, 25 years old, is the man sought. He is charged with having robbed his step-father's house, stealing an automobile, and forgery. He sent a telegram felling of his death in Grand Rapids but when his mother went to that city to claim the body she found that the message had been faked to throw officers off his trail.

Lansing—Attorney-General W. W. Potter is on the way to Germany where he will investigate claims of alleged heirs seeking to recover from the State of Michigan the \$500,000 Klumpf estate. W. Klumpf, a native of Germany, died in Detroit about two years ago, apparently without heirs. In a court fight over an alleged will, the state was awarded the estate. The contestants agreed to pay Potter's expenses to Germany where he can personally inspect church and public records.

Battle Creek—Despondent because of a shattered sidshow romance, Joe, "the boy with the elastic skin," with Kingling Brothers and Barnum & Bailey circus, committed suicide here by swallowing a quantity of poison. Joe, according to show officials, had been recently jilted by the tattooed woman and the matter had preyed upon his mind for several days. As the circus crowd gathered before his platform in the side show tent he raised a bottle to his lips and poured the poison into his throat.

Kalamazoo—Donald Carson of the army flying school, at Brookfield, San Antonio, Texas, escaped death here when the plane he was flying crashed. After flying about 1,000 yards the plane suddenly started to drop, according to Carson. About 200 feet above the ground, it tilted its nose downward, and crashed into the corner of the field. The plane was shattered. Carson was thrown over the top of the left wing, clear of the wreckage. Carson was in aviation overseas during the World War.

Detroit—E. F. Schlee, president of the Wayco Air Service, Inc., and Billie Brock, chief pilot of the company, both of Detroit, will attempt a round-the-world airplane flight to smash the present record of 28 days. It was made known here with announcement of plans by Schlee. Brock has expressed the belief that the tour can be accomplished in 15 days. According to the present plans of the pair they will hop off from Selfridge Field on August 15 in the "Miss Wayco," a Stinson-Detrotter plane.

Grand Rapids—Two sisters and a brother were principals in a triple wedding ceremony recently at which another brother officiated and their father assisted. They were Miss Janet Vandekieft, who became the bride of Arthur Lanning, of Holland; Joseph Vandekieft, whose bride is Alice Wyma, of West Olive, and Mina Vandekieft, wife of Dr. Cornelius Geenan. The ceremonies were performed by Rev. J. M. Vandekieft, pastor of the Oakdale Park Christian Reformed church in this city. Rev. R. Vandekieft, assisted his son.

Pygmy Wins His Bride
by Race With Gazelle

New York—Descriptions of primitive negroid pygmies the lowest type of human life, have been brought back from darkest Africa by three explorers of the Dehver-African expedition. They told of finding lost tribes in the Kalahari desert, bushmen whose language consists of sounds described as "clinks," and short-legged primitives which the explorers believed to be the swiftest runners in the world.

The three explorers are Dr. O. E. Cagle, Grant H. John and Paul Haefler, all of Denver. They reached New York on the steamship Majestic, bringing pictures and trophies for a museum.

Gifts of food and trinkets won the explorers a genuine welcome from the bushmen. In reaching their territory the expedition went through the Koroa desert.

"Although they call it a desert," said Doctor Cagle, "we went through 500 miles of flower beds and the flowers were all in bloom.

"We went to study the bushmen because they are a nomadic people who are rapidly passing from existence. They were the primitives of South Africa, and they have been gradually annihilated by more warlike people, disease and starvation. We found the lost tribes in the Kalahari desert. They are the lowest anthropological types in every respect.

"The pygmies vary from 4 to 4 1/2 feet in height. They have no houses or huts and often go without food for long intervals. The men can outrun gazelles.

"When the bushman reaches the marrying age he picks out his future wife and informs her father that she is his choice. Etiquette demands that the father express doubt and ask for proof of the suitor's affections. Whereupon the bushman gives chase to a gazelle or some other fleet-footed beast, and after a marathon of seven or eight miles, tires it out, captures it and brings it to the girl's home. All that remains is the wedding."

Court Danger

Catania, Sicily.—The slopes of Mount Etna, famous volcano, are more thickly populated than any other region in the world, according to surveyors. The average population of each of the 300 habitable square miles is 300.

Century Old Pastor
Has Never Seen Movie

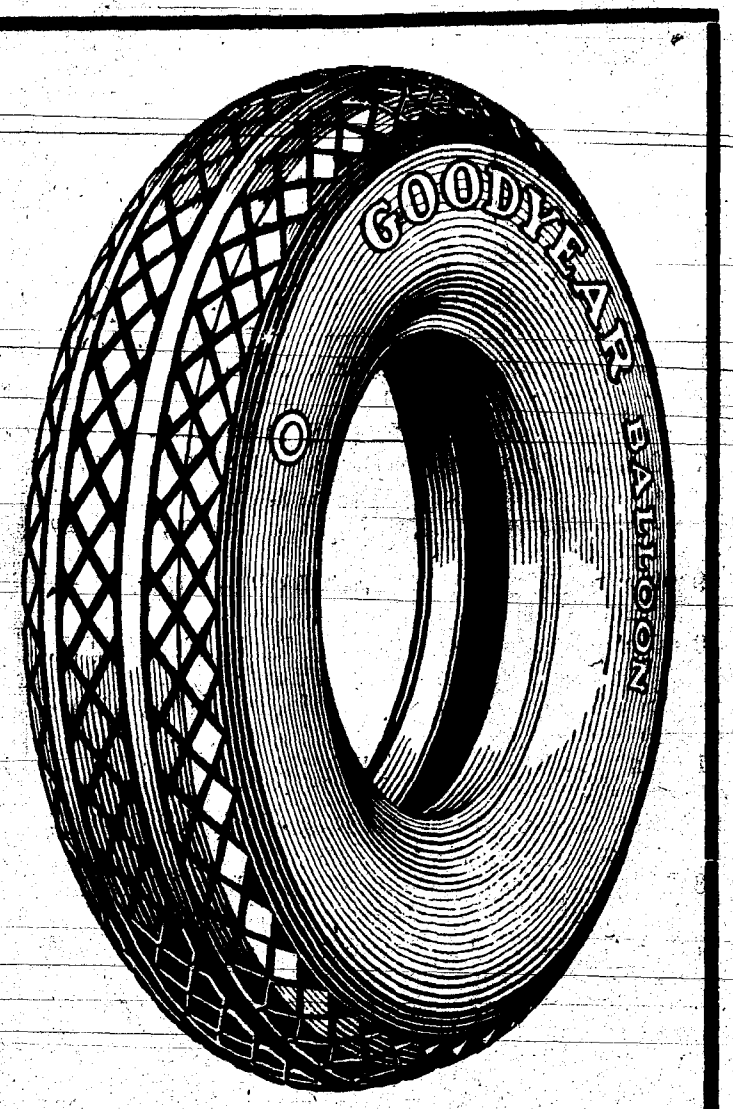

Des Moines, Iowa.—Rev. Wesley Suddoth of this city, who a few days ago celebrated his one hundredth birthday, says he is day by day wondering how it feels to be old.
"Recently I got lost while out walking and strolled out to Ankeny—but I didn't get tired," he asserted. "But I suppose I will feel different in ten or twenty years."

Rev. Mr. Suddoth reads every day an hour or so from the Bible without glasses.
He hopes to be able to get outside more, to take care of the yard he was forced to turn over to his son last year, and to see his first picture show.

Two blocks away L. D. Nelson was celebrating his nineteenth birthday with his son and looking about for a tree to cut in the spring. He cut seven last year, but hardly feels capable of more than a half dozen this summer.
Both of the aged men agreed on the best menu for long life—plenty of good wholesome food and no tobacco nor liquor.

Controlling Temper

If you wish not to be of an angry temper, do not feed the habit; throw nothing on it which will increase it; at first keep quiet and count the days on which you have not been angry. I used to be in a passion every day; now every second day; then every third; then every fourth. But if you have intermitted thirty days, make a sacrifice to God.—Epictetus.

Even If We
Didn't Give
SERVICE

If we just passed a Goodyear Tire over the counter, took your money, said: "Thank you," and "Good-bye," you would get a mighty good investment in tire mileage.

BUT WE DO A LOT MORE THAN THAT
WHEN YOU BUY A GOODYEAR TIRE FROM US.

We put it on—pump it up—inspect your wheels and rims—make it our business to see that it delivers maximum mileage and trouble-free service for you. Our Tires are all "firsts"—from fresh, new stock. Your size when you need it. Backed by our money saving Goodyear Service.
