VOLUME 31

EAST JORDAN, MICHIGAN, FRIDAY, SEPTEMBER 16, 1927.

NUMBER 37

County Fair Best In Years

GOOD WEATHER, GOOD EXHIBITS, GOOD ATTRACTIONS, GOOD CROWDS.

F. R. BULOW ELECTED PRESIDENT, CHESTER SHEPARD WINS GRAND PRIZE, STU. DEBAKER AUTO.

The Charlevoix County Agricultural Society's 43rd Annual Exhibit came to a close Thursday night, and with it closed one of the most successful all around fairs ever held on the grounds at East Jordan.

Exceptionally good weather helped swell the gate receipts and the amount received went considerably over the amounts taken in at the gate in the few previous years.

EXCELLENT EXHIBITS

Every Division was well filled, Division J—Fancy Work—leading with the greatest in the history of the Fair. The fact that it took two competent judges the better part of two days to go over the exhibits in this department—when as a rule in the past it took but a few hours, attests to the number of articles entered.

One of the surprises was the large assortment of excellent Fruit, Vegetables and Grains on exhibition. With a backward spring and the prevailing dry weather during July and August, it was thought these departments would not come up to the average.

The exhibit of Fruit by Eveline Orchards of East Jordan and in charge of Prof. Taft was exceptionally fine and brought forth many favorable comments. Several Granges vied with one another in excellence of displays, and there were many fine individual exhibits.

In the Live Stock barns, all were well filled and the various exhibits were up to the average in these departments.

In the displays of Merchants and Manufacturers, the East Jordan Lumber Company Store had a most excellent exhibit in their building near the Floral Hall. There were several 1928 model autos on display and there were many other exhibits by merchants and manufacturers.

\$2,000 PRIZE WINNERS

This feature was one of considerable interest, and all holding tickets were present either in person or by proxy when the drawing for the grand prize was held Thursday afternoon.

Chester Shepard of East Jordan held the lucky number and won the Studebaker Auto, on the second number placed on the bulletin board. Iva Kent, a 14-year-old girl of East Jordan won the Pony and outfit. Mrs. Billie Frank of Advance won the Registered Holstein Cow. Marshall Griffin, Jr., of East Jordan captured the \$20.00 Gold Piece, after several hours' drawing numbers.

GRANGE WINNERS

Winners among the various Grange exhibits are as follows: Fruit—Rock Elm first; Deer Lake, second. Vegetables—South Arm, first; Deer Lake, second. Grains—Deer Lake, first; South Arm, second. Canned Fruit—South Arm, first; Deer Lake, second.

ELECTION OF OFFICERS

S. E. Rogers, who has served as President of the Association for a number of years, "did not choose to run" and a little contest was held between F. R. Bulow and Henry Korthase for that office, Mr. Bulow winning by some 20 votes. For Director H. A. Craig replaces R. S. Shapton. Officers and Directors elected are as follows: President—Fenton R. Bulow, East Jordan.

Treasurer—Frank F. Bird, Charlevoix. Director—David Vaughn, Boyne City. Director—Frank F. Bird, Charlevoix. Director—H. A. Craig, Charlevoix. Director—F. H. Wangeman, East Jordan.

RACE PROGRAM BROUGHT FORTH GOOD CONTESTS

With a good string of race horses and a track in fine condition, some excellent contests were staged. Jay Adams was the American Trotting Association's official starter. The Judges were Nat Burns, Thos. Copping and Jesse Smith, assisted by Hon. Wm. Fulse of the Indianapolis Circuit.

Among the owners and their horses entered were the following: Seifert & Son, Petoskey—Let's Fly, Hill Silk, Hoosier Boy. Jesse Davenport, Traverse City—Ed. Little.

Frank Welsh, Charlevoix—Mary M., Peter J. S. Ed. Smith, Charlevoix—Alice Gordon. G. M. Olds, Hartford—Helen H.

Kiser & Hoshorn, Grand Rapids—Nita Newtown. Fred Clemens, Onaway—Miss Mary Ann. Runner, Roy B. Edward Loutner, Traverse City—Alice Shannon. Charles Karr, Atlanta—Victor Ward.

Visnau, Afton, Cheboygan County, Runners, Kitten R., Babe B. Races were under American Trotting Ass'n rules, with three-heat plan. Following were the results: WEDNESDAY, Sept. 14th

2:12 Class—Purse \$200
1—Let's Fly Seifert
2—Helen H. Olds
3—Ed. Little Davenport
4—Neil Medium Morse Bros.

2:18 Class—Purse \$200
1—Hill Silk Seifert
2—Hoosier Boy Seifert
3—Alice Gordon Smith
4—Nita Newtown Kiser

2:30 Class—Purse \$200
1—Miss Mary Ann Clemens
2—Long John Cranwell
3—Peter J. S. Welsh
4—Alice Shannon Loutner

Running Race—Purse \$100
1—Victor Ward Karr
2—Roy B. Clemens
3—Babe A. Visnau
4—Kitten R. Visnau

THURSDAY, Sept. 15th
2:23 Class—Purse \$200
1—Mary M. Welsh
2—Alice Gordon Smith
3—Ed. Little Davenport

Hoosier Boy finished third in first heat and was drawn.
Free-For-All—Purse \$250
1—Let's Fly Seifert
2—Miss Mary Ann Clemens
3—Hill Silk Seifert
4—Helen H. Olds

Running Race—Purse \$100
1—Victor Ward Karr
2—Kitten R. Visnau
3—Roy B. Clemens

SCHOOL EXHIBITS WERE BEST IN YEARS

With all three of the County's City Schools—Charlevoix, Boyne City and East Jordan—entering complete exhibits this year—and the Rural Schools coming in strong, the Educational Building was filled to overflowing with exhibits of work of the students of Charlevoix County.

All three of our City Schools had most excellent exhibits, and it would be hard to determine their 1-2-3 order. One of the outstanding features was the display of furniture produced by East Jordan's Manual Training Department.

Following is a list of the Rural Schools exhibiting and the premium money they are to receive, as compiled by Comm'r of Schools, Wm. C. Palmer.

BAY TOWNSHIP

Grades—6-7-8 (\$14) North Bay. Grades—1-2-3-4-5 (\$17) Lakeside.

EVELINE TOWNSHIP

Grades—1-5 (\$7) Advance. Grades—4-8 (\$9) Three Bells. Grades—3-7 (\$8) Star.

HAYES TOWNSHIP

Grades—1-3-4-8 (\$15) Murray. Grade—6 (\$4) Hopyard. Grades—2-7 (\$8) Maple Grove. Bay Shore school did not enter the Fair.

MARION TOWNSHIP

Grade—7 (\$5) Grades—3-5-6 (\$14) Loeb. Grades—2-8 (\$8) Marion Center. Phelps school did not enter at the Fair.

NORWOOD TOWNSHIP

Grades—5-6-8 Hilton. Norwood, Clarke and McGeagh schools did not enter at the Fair.

SOUTH ARM TOWNSHIP

Grades—2-5-7-8 (\$17) Chaddock. Grades—1-3-4-6 (\$14) Rock Elm.

WILSON TOWNSHIP

Grades—5-6 (\$8) Knop. Grades—1-7 (\$8) Afton. Grades—2-4 (\$7) Slaughter. Grades—3-8 (\$8) Deer Lake.

EVANGELINE TOWNSHIP

Grades—1-5-6-7 (\$16) Wildwood. Grades—3-4 (\$7) Tainter.

CHANDLER TOWNSHIP

Grades—1-2-4-5-7-8 (\$24) Snyder. Grades—3-6 (\$7) Dana.

MELROSE TOWNSHIP

Grades—1-2-3-4-5 (\$17) Clarion 2 room (incomplete) \$21. Walloon Lake (incomplete) \$21.

ST. JAMES TOWNSHIP

High School (incomplete) \$40. PEAINE TOWNSHIP Sunny Side (incomplete) Grades 1-2-3-4-6-7 (\$22).

THE FREE ATTRACTIONS

Hooker's Riding Academy of Charlevoix presented a program of horse back riding stunts and gymnastics each day that was of special interest to the crowds.

Good Band—Music by the Charlevoix City Band, the East Jordan Concert Band and the East Jordan School Band was enjoyed afternoon and evenings of each day.

Pilot Art Davis of the Michigan Airways presented programs of trick flying and parachute drops that held the crowd's attention.

Bounding Johnson and the Stenbeck Bros. Athenian Duo also presented some entertaining features.

Seasonal Signs

Rebec-Barnette Wedding at Grand Rapids

Miss Jean B. Rebec, daughter of Mr. and Mrs. Frank Rebec of Jordan township, and Robert F. Barnette, son of Mr. and Mrs. W. R. Barnette, of this city, were united in marriage at Grand Rapids, Tuesday evening, Sept. 13th, by Rev. Fr. Baker at the Chancery office. They were attended by the groom's sister and husband, Mr. and Mrs. Richard Shepard.

The bride wore a gown of light rose georgette, and her veil was beautifully embroidered in white silk. She carried a bouquet of pink roses and ferns.

Mr. and Mrs. Barnette will make their home in Grand Rapids, where he has a position with the Michigan Hardware Co.

Their many friends here extend hearty congratulations.

County Clerk Has Hunting Licenses

County Clerk, George A. Roderick has received from Lansing 900 hunting license blanks for use this season. Last year about the same number was sent, and all within a hundred were taken by sportsmen.

First comes the duck season, which opens Sept. 16th. It is a short season, ending Dec. 31.

There's an even shorter season for pheasants, from Oct. 25 to Oct. 31. It will be lawful to hunt rabbits October 25, the season closing Jan'y 31st.

A closed season has been ordered on partridge until Oct. 25, 1928, and on black, fox and gray squirrels until Oct. 25, 1932.

Every hunter if he is a resident of Michigan, must pay \$1.25 for a license, and if a resident of another State, \$10 for a license.

The deer hunting season does not open until Nov. 15, and then it will be lawful for each hunter to shoot one male deer, and for a party of hunters to shoot one male deer for camp use. The season ends Nov. 30.

Special licenses are required for deer hunting, a supply of which will be received later by the County Clerk.—Charlevoix Courier.

Boosting East Jordan is not entering lip service, even if some hot air artists do nothing else.

Correct this sentence: "Myelint is entirely wrong, Your Honor. We will be glad to pay all costs."

No award of an extra slice of pie was made last week. Our cook is away on her vacation but will return soon and the much awaited prize will be offered again next week as usual.

Septic Tank Demonstrations Bring Good Results

The four demonstrations recently conducted, proved to be of great interest to a total attendance of 141 people, who were anxious to see how they are built and what they would do. The necessity of having better sewerage disposal on the farm, was forcibly brought home and several tanks will be erected this fall.

A tank was constructed each day and by means of having a saw and concrete mixer assembled on a Ford car, this work was accomplished in a very short time.

The tank consists of two chambers, the larger one breaking down the solids into liquids and maintaining the same level at all times. A scum forms on the top, which allows the breaking down bacteria to function at all times. The second chamber has a siphon in it, which empties out the contents when the tank is filled, into the drain tiles where it seeps away, the entire length of the system thus distributing the contents over a wide area.

When the tank empties the siphon stops until the tank again fills, which gives the tile system a small load to carry all the time. This tank will take care of all the sewerage from the bath room and kitchen and does away with the possibility of contracting disease germs, which in the case of a cesspool.

The forms used by the co-operators can be made use of by anyone wishing to construct a tank, thereby saving them from \$8.00 to \$10 in the cost of material. The siphon necessary for the tank can be purchased from the State College for \$6.00, which represents another saving of \$2.00 at least as they are sold at cost.

If renting your forms and purchasing the siphon through County Agent Melencamp, the cost of the tank will not exceed \$22.00, not including labor and the tile system, the cost of course depending on length of system.

If interested, please get in touch with your County Agent and he will gladly assist you in locating your tank and securing the forms and siphons at the least possible expense. B. C. MELLENCAMP, Co. Agr'l Agent.

Well, Pauline, we try to be liberal in viewing the display that women are making of themselves these days, and will not deny that once in a while a delightful vision comes our way. However, and one more however, when a lady's dress is so short that she can't sit in a chair without developing acute signs of conscious indecent exposure, it is time for another hem to be dropped.

Schools Will Get Primary Money Soon

According to Joseph William Flinders, County Treasurer, distribution of the State Primary School money amounting to \$58,094.86 will soon be made to township treasurers, through County Clerk, George A. Roderick.

The fund is divided on a basis of \$12.86 for each child included in the recent school census. Children listed total 4,566. The townships and funds to be received follow:

Township	Number Pupils	Amount
Bay	102	\$ 1,310.70
Boyne Valley	330	4,240.50
Chandler	40	514.00
Charlevoix City	732	9,406.20
Evangeline	1148	14,751.80
Eveline	179	2,300.15
Hayes	212	2,724.20
Hudson	27	346.95
Marion	235	3,019.75
Melrose	179	2,300.15
Norwood	121	1,554.85
Peaine	44	565.40
St. James	152	1,953.20
South Arm	883	11,346.55
Wilson	137	1,760.45

August Drought Hurt Crops

MICHIGAN POTATOES ARE 7,000,000 BUSHELS SHORT, 'TIS SAID.

Drought during the month of August which brought the total rainfall record to the lowest point it has been since 1894, has had a most serious effect on crops in general throughout Michigan, according to a review issued Saturday by the State Agricultural statistician at Lansing.

The dry weather reduced the crops more in the last 30 days than it had previously been reduced in a similar period for 30 years, the report stated.

Small grains and hay were up to usual standards or better but all fall crops have suffered severely, the report said. The potato crop alone suffered a shrinkage of 7,000,000 bushels, which is typical of the losses in beans and other late crops.

Charlotte—Fire destroyed the Masonic temple here with a loss of \$8,000. The origin of the blaze has not been determined. The loss is covered by insurance.

Jackson—Wayne Chesley, 15-year-old son of Mr. and Mrs. Fred Chesley, was shot accidentally by C. E. Long, Y. M. C. A. starter at a swimming meet at Brown's Lake. Long did not know his .22 calibre pistol was loaded with bullets. Chesley was not seriously injured.

Owosso—Hazing of freshmen in the Owosso high school by upperclassmen is taboo hereafter. The board of education has instructed Superintendent E. J. William to take any action necessary to stop the practice, which in the past, it is claimed, has resulted in injury to some of the freshmen.

Adrian—After setting his home afire here, Henry Myers, 80 years old, a farmer, took a rocking chair to an adjacent corn field and, after watching the place burn, slashed his wrist with a knife and bled to death. According to relatives, he had been showing signs of mental deficiency of late.

West Branch—Harry B. Leigh, 42 years old, was drowned at Peach lake, 6 1/2 miles east of this city. He had wagered his wife he could swim across the lake. He sank in 15 feet of water, after shouting once for help. Leigh bought the Peach Lake resort about a year ago and moved here from Detroit.

Ann Arbor—Temporary bleachers may be put on top of the concrete stands in the new Michigan stadium to accommodate all persons seeking tickets for the Ohio State game who applied before September 1, it was intimated here. The bleachers will enlarge the capacity of the stadium by 18,000, bringing the total to 93,000.

Coldwater—Norwood Tooley, 21 years old, who resided with his parents, Mr. and Mrs. Frank Tooley, near Albion, died here, a few minutes after his machine crashed into a tree south of here. Tooley was en route home from Fort Wayne, Ind., and was riding alone. He told officers that he fell asleep. A broken rib is thought to have punctured his lung.

Caro—Children who were pupils in the Caro schoolhouse of Miss Mildred Doran, "flying teacher," who was lost on the Pacific with six other Dole air racers, will send floral pieces to be cast on the waters in memorial services Sept. 16. The services will be held 700 miles off San Francisco. The flowers are to be strewn upon the ocean from the Matson liner Maui while clergy deliver eulogies.

If you expect your hens to lay eggs you must eed them; advertising is the hen of business.

Fishing License Not Needed Now

NEW MEASURE, EFFECTIVE LAST WEEK, APPLIES TO TROUT FISHING ONLY.

Much confusion has been aroused in the minds of anglers throughout this section of Michigan as regards the new anglers license law passed by the last legislature and which became effective last week.

This law has no bearing on present fishing and will not affect the anglers for the balance of this season.

The new statute provides that all male resident anglers over 21 years of age shall purchase a fishing license to fish for trout. Inasmuch as the law did not go into effect until after Sept. 1, and as the trout season closed on that day, the license measure had no bearing on fishermen for this year. Fishermen other than trout fishermen are not affected by the law in any way.

With the opening of the trout season May 1, next year, it will be necessary for the angler who would go forth to the streams after brookies or browns or rainbows to arm himself with a fishing license. Provided, that is, that he is over 21 years of age and is a male. Mean and others who have made a study of conservation law advance the opinion that the new measure is entirely unconstitutional anyway as it clearly discriminates between anglers on the basis of sex and discriminatory legislation is expressly forbidden by the Michigan constitution.

So in all likelihood next spring some male trout fisherman will refuse to pay the license fee, thereby making a test case of the law for the supreme court to decide on. Meanwhile, you may continue to fish for bass, pike or panfish the balance of this season without worrying about the anglers' license.

Airplanes Are Flying

America's infant industry expects to do well in 1927. More than 2,000 airplanes will be manufactured and sold by the eighty plants specializing in the business of making good Tennyson's prophecy about the argosies of magic sails.

The development of commercial aviation in this country has followed fast upon the organization of the air mail, which now serves eighty-four cities, with a population equal to one-fifth of the United States.

We have stressed the importance of an airport for East Jordan. To those who thought the idea funny we have these figures to point of: Nearly 19,000,000 miles were flown last year in civil pursuits, exclusive of the mail mileage. Including mail and military flying we flew, last year, some 48,000,000 miles, carrying something like 700,000 passengers.

The time to get into a new game is when it begins. This is the dawn of the aerial age. Airlines will some day mean as much to an air center as railway lines mean to large cities today. East Jordan is small enough to acquire now enough land to provide an airport for future needs. Development, which may be expensive, can come later.

Escanaba—Lawrence Larson, 59 years, old, of Chicago, met death as he was posing for a snap shot his sweetheart was taking. He was killed almost at the instant the picture was snapped. Larson, with his fiancée, Miss Olive Gunderson of Manistique, her parents, and sisters were driving from Manistique to Marquette. The party stopped to take some pictures. Larson climbed into a pine tree and was killed as he reached out and grasped a 6,600 volt wire, running through the branches.

Owosso—Henry Clay, 82 years old, an Antrim township farmer, has started suit in circuit court against his son, Harvey Clay, and the son's wife, seeking an accounting. He claims he deeded his farm to them in 1925 and that they agreed to support him the rest of his life. They, however, charged him \$4 a week board since, and have refused to let him talk to his old friends, he charges. Clay asks that his son be made to return the board money and to fulfill the terms of his agreement.

Kalamazoo—A horse's love for its old master resulted in serious injury to Mr. and Mrs. I. Doolittle, who were out on the head and face when the animal plunged headon into their automobile. The horse, sold a few days ago, broke out of its new owner's barn and raced down the road in the direction of its old home. The animal dashed from behind an automobile just as the Doolittle car turned out to pass the other automobile. The impact threw the horse's head and the forepart of its body through the windshield and against the couple.

Subscriptions are payable any time, 24 hours of every day.

Oakland's Odd New Fire House

The city of Oakland, Calif., has just completed in the Moraga valley, what is believed to be the most modern fire house in the West, if not the oddest. It is built of concrete. The fire-fighting apparatus is lodged in the basement, and the firemen have their living quarters upstairs.

Subscription Rate—\$1.50 per year.

Entered at the Postoffice at East Jordan, Michigan, as second class mail matter.

PENINSULA

(Edited by Mrs. E. Hayden)

George Jarman and family who have lived at Knoll Krest for the past three years, moved to their own home Gravel Hill, south side, Wednesday.

A very good crowd attended the State Demonstration of installing Septic Tanks at the F. D. Russell home, Ridgeway Farm, Wednesday.

Mr. and Mrs. Bob Wilson and little son, Lyle George, motored up from Muskegon, Thursday, for a 10 days' visit with their parents, Mr. and Mrs. Lyle Wilson of Mountain Dist., and Geo. Jarman of Gravel Hill, south side.

While Mr. and Mrs. Derby A. Hayden were enroute to their home in Grand Rapids, Tuesday, after a visit with Mr. Hayden's mother, Mrs. J. W. Hayden and family at Orchard Hill since Saturday, had the misfortune to bump with another car near Lake City, where they had to detour, very badly, wrecking their car. No one was hurt, and they arrived in Grand Rapids at 10:30 p. m.

Quite an epidemic of stomach and bowel trouble is going the rounds here. The affliction lasts about a day and night.

Martin Staley of Charlevoix visited his children, Mrs. Joel Bennett, George and Bert Staley on the Peninsula last week.

Mr. and Mrs. Walter Myers of Niles, Mich., visited Mr. and Mrs. Fred Wurn in Star Dist., from Tuesday to Thursday, while on their honeymoon trip. Mrs. Myers was formerly Miss Hope Moore, an old resident of Peninsula, and has many friends who extend best wishes. The young couple will make their home in South Bend, Ind.

Mr. and Mrs. Charles Norton of Petoskey, and Mr. and Mrs. Ben LaCroix of Advance Dist., called on Mr. and Mrs. Joel Bennett at Honey Slope farm, Sunday. Both Mr. Norton and Mrs. LaCroix were old residents of Star Dist., occupying what is now Maple Lawn farm, owned by Mr. and Mrs. Ernest Loomis, and occupied by Mr. and Mrs. Walter Holcomb.

Little J. F. Evens is staying with his aunt, Mrs. Wm. Bogart in Boyne City and attending school.

Mr. and Mrs. Orval Bennett of Honey Slope farm and Mrs. Wm. Bogart and son, Clare, of Boyne City, motored to Traverse City, where Mr. Bogart is working on the telephone line, and called on Mr. and Mrs. Wesley Staley. They returned the same evening.

Mr. and Mrs. T. J. Hitchcock and son, Burton, of East Jordan were dinner guests Sunday with their son-in-law and daughter, Mr. and Mrs. F. K. Hayden at Orchard Hill.

A rain which attained cloud burst proportions visited this section Monday, accompanied by some lightning. It is the first real soaking rain since in July.

Mr. and Mrs. Bob Wilson and son Lyle, of Muskegon, and Miss Audrey Orvis of Charlevoix and Richard Russell of Ridgeway farm were guests to a chicken supper with Mr. and Mrs. F. K. Hayden at Orchard Hill, Sunday evening.

Peoples' Wants

MUNNIMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

WANTED

WANTED—Boarders and Roomers. MRS. IDA BASHAW, 103 Fifth St., East Jordan. 35-4

FOR SALE—REAL ESTATE

FOR SALE—Nine-room House, all modern, with two lots, double Garage. Located on Fifth St.—MRS. JAMES HOWARD, phone 99, East Jordan. 34-6

FOR SALE—MISCELLANEOUS

COLLIE PUPPIES For Sale—Seven-weeks-old.—LAWRENCE ADDIS, phone 161-F22, Route 1, East Jordan. 37x2

FOR SALE—Two Cows, your choice of nine.—IRVING CRAWFORD, phone 122-F2, East Jordan, R. 3. 36x2

FOR SALE—Registered Jersey Bull Galf, splendid type—born Nov. 3, 1926. Dam from south part of State. Priced reasonable.—WM. SANDERSON, Route 2, East Jordan. 28-t.f.

REPAIRS—You can get Repairs for any Stove, Range, Engines, Cars, Sewing Machines, Cream Separator, Plow, or any Farm Machinery at C. J. MALPASS HDWE. CO. 10-t.f.

A bunch of young married people are planning a surprise party on Mr. and Mrs. Marion Russell in Boyne City, Tuesday evening.

PLEASANT HILL
(Edited by Anson Hayward)

Relatives, friends and children of Lansing were guests at the George Vance home the past week.

Mrs. Anson Hayward is in Detroit taking care of her daughter, Vesta, who has been very ill and in the hospital with pleurisy, she is better at this writing.

Henry VanDeventer called on Winford Batterbee, Monday.

Ernest Lanway is home from Flint for a few days' visit with his family. Several people are home from their working places to take in the Fair.

String beans and cucumbers are doing fine these days.

Anson Hayward and son were dinner guests at Rev. H. VanDeventers Sunday, Sept. 11th.

Wilma Schroeder is going to school again.

Bennett's Sunday School the 11th was quite well attended.

Mrs. Geo. Spence was given a shower, Sept. 10th. A good many were there. Games were played and refreshments were served. She received many nice gifts of which she was very thankful for, and also to the giver of them.

Harrison Kidder is hauling lumber home to build him a barn Also Henry VanDeventer is getting material to build a barn.

Earl Wilson, who had his hands burned in an accident at East Jordan is getting along fine. Mrs. John Wilson was not quite so well Sunday.

CENTRAL LAKE
(Edited by Jesse Morse)

(Delayed Correspondence)

Chas. Bennett began thrashing at Will Farrell's, Friday.

There was a big attendance at Eastport gleaner picnic.

O. R. and J. W. Morse have returned from a trip to Lansing.

Postmaster Bowers took up his duties at the post office here last week Tuesday.

School began at the Opera house and Congregational church, Tuesday.

Mary Burns De Forest began school at Grand View, west of town last week.

Chick DeForest entertained Com'r Thum as caller here last Friday.

Lloyd Morse brought his riding horses home from Camp Wanada, Saturday.

Jennie Welch began a term of school at Eastport Monday.

Orville Thompson's school at Bay View opened last week.

John Triplett is teaching the maple-hill school which began Monday.

Thelma Snyder's school commenced at Creswell Aug. 22nd.

Lenore Sheneman who is teaching the Bush school began last week.

Harry Miller and family of Warren, Ohio have been visiting their cousins the Morrises, left for home.

John Broumer and family of Jamestown, Mich. have been visiting his brothers; Allie and Albert Senter.

Duane Johnson is living in town again and driving team for the Argo Milling Company.

A large crowd attended special services at the Free Methodist church here Sunday. Rev. G. A. Weaver and wife of Petoskey and lady friends from San Antonio, Texas and La Crosse, Wis. attended Sunday school at Musser's and Creswell, Sunday, where Rev. Weaver preached. There were 26 present at Musser's, 21 at Creswell, and 28 at Bay View Sunday.

The farm home of George Morrow two and one half miles north of town burned to the ground at noon Monday. Help was called for from here and most of Ebon and Edward Dawson's household goods were removed. Loss was covered by insurance.

All Over Medals

This is Gunnery Sergeant, Morris Fisher of the United States marine corps, who was with the corps rifle and pistol team at the shooting matches at Camp Perry, Ohio. Sergeant Fisher won the world's championship in rifle shooting in 1923 and 1924, and has also won honors in Olympic games and elsewhere. He is a native of Youngstown, Ohio.

Gertrude Olmsted

Gertrude Olmsted, the "movie" star, who has been seen to the satisfaction of thousands of admirers in countless motion pictures, has been in theatricals practically all her life. During her earlier days she participated in school theatricals, and was preparing to attend a dramatic school when she was induced to enter a beauty contest she won. Later she was offered a contract by a motion picture producer, and her success is known to all.

For Meditation

By LEONARD A. BARRETT

DETACHMENT

RUSKIN wrote, "If you cut one square inch out of any of Turner's skies, you have an insight into the Infinite; but if you stand at a distance of an inch from any of Turner's skies, you will find you have only daubs of paint." Daily struggles with a very real world bear the same testimony. Studying problems in a mood of calm detachment has saved many a mistake. When you are impelled to write a letter, your best wisdom tells you not to write; write it anyway, but do not mail it. Separate yourself from the harassing conditions involved. Look at the problem from a distance; and tomorrow you will throw the letter into the waste basket and be the better for it. Frequently a problem seems unsolvable because we are too near it. This nearness makes it impossible for us to study it from an all-around point of view. Acting upon the impulse of the moment many times results disastrously. Problems somehow have a way of suggesting their own solutions. In these days when we are trying to live 24 hours in 12, it seems necessary that time be taken for one to become acquainted with himself. An inventory of our own sources of strength and weakness may surprise us. He is a wise man who knows his own limitations. If every day we could see our inner selves reflected in a mirror we would learn some important lessons. Moments of detachment spent in becoming acquainted with one's self are never spent in vain.

In a life of seventy years, a man sleeps twenty-three years, works twenty years and plays twenty-seven years. The efficiency of the twenty years of work depends upon the way we spend the other fifty years. If some of this time is given to hours of detachment, when we see visions and dream dreams, hours in which ideals are born and ambition kindles the fires of enthusiasm, then we shall have gone a long way toward reaching our goal in life. Mountain tops are not inhabited. We climb them for the benefit of the point of view. So with hours of detachment in a daily life of toil and strain.

Mid-Week Prayer Meeting, Thursday, at 7:00 p. m.

Charlevoix—Donald Bartlett, 6-year-old son of Clarence Bartlett, of this city, died in a hospital here a few hours after being run down by an automobile driven by Mary Krulik, 16-year-old school girl, according to eye witnesses of the accident. The girl is said by the police to have driven away from the accident without offering help, and was found later at her home. She at first denied running over the boy but later admitted hitting something but said she did not know what it was.

Grand Rapids—Awakened by passersby, as he was sleeping on the bank of Grand river recently, Theodum Rempalski, 16 years old, plunged into the stream and rescued David Lamphere, 1 year old, and Robert Gamble, 17 years old. Young Lamphere had slipped from the Fourth street dam and Gamble, going to his assistance, was caught in the current. Several persons on the river bank who saw the boys' plight, were unable to swim but they awakened Rempalski.

They Fool Master Cardinal Daily

This is "Master Cardinal," famous rooster of Radio station KMMJ, at Clay City, Neb., which has puzzled listeners for the past few years. Every evening at seven o'clock the rooster promptly lets out its cock-a-doodle-doo. Radio listeners generally believe the crowing is done by a man because it is done so regularly. But the truth is the rooster is kept in a dark room until seven o'clock and, being brought into a brilliantly lighted room, thinks it is morning and crows in front of the microphone.

GARDENS

By THOMAS ARKLE CLARK
Dean of Men, University of
Illinois.

I HAD never seen Mrs. Dixon's garden until last spring. We had met her up in Wisconsin where Nancy and I were spending the summer, and had found a community of interest in discussing the subject of gardens. She knew a lot about flowers, and apparently found a source of the keenest enjoyment in their cultivation.

Mrs. Dixon herself was a very talkative little woman and rather a showy one. Her talk was fluent rather than well organized. She rushed from one subject to another without announcement or reason, and yet she always made a good effect. Her reading had been wide but a little shallow, but she could always make a showing of what she knew. Her dress always carried a flash of color. Even when she wore black she would have a scarlet flower at her waistline or her shoulder, or a bright-colored scarf thrown over her shoulders, or an ornament glittering in her hair. She always stood out in a crowd.

When I saw her garden I recognized at once how very much she and it were alike. It covered a wide expanse with opportunity for great variety of planting, and everywhere there was color. There had been great masses of daffodils and crocuses in the earlier spring, but now that these were gone, poppies ran riot, purple verbenas flashed their color in your face, wide borders of petunias and giant zinnias were blooming luxuriantly. But there was no order, no plan apparent; things were growing as Mrs. Dixon talked—without regard for order or coherence. The garden was like the woman who created it, as children are like their parents. I should have been sure it was hers if I had been taken to it blindfolded, and the blind taken off without my knowing where I was.

Rowe's hobby is his garden, and Rowe is a bachelor who wears spats and carries a cane and gloves, and sees the world through eyeglasses which are attached to a wide ribbon that hangs over his ears. There is nothing out of order in Rowe's garden. Everything is in its place. There is no crowding, no clashing of colors, no mixture of flowers which do not get on well together. No weed would dare to find its way into Rowe's garden, and even a human being uninvited would feel out of place and embarrassed lest he disturb the meticulous orderliness of the place. A plucked flower might disarrange the plan. It is a beautiful garden, but not a friendly, comfortable one like Mrs. Dixon's.

Mrs. Sweet's ancestors, so she alleges, came over on the Mayflower with that horde of adventurers of whom we read so much in our school histories. She belongs to the Daughters of the American Revolution and she traces her ancestry back almost to Adam. She, too, has a garden. Nothing mongrel comes into it. She examines carefully the ancestry of every seed or plant before it finds a place in her garden. Blood and breeding are of great moment with her, and she will have none of it, if a flower cannot present an acceptable genealogy.

All of which suggests that gardens take on the character of those who till them.
(© 1927, Western Newspaper Union.)

Immortal Elegy

Elegy is a poem generally of a mournful or plaintive nature. The Greeks first applied the term to a funeral ode. The best example in English literature is Gray's "Elegy in a Country Churchyard."

Highest Reward

The most agreeable recompense which we can receive for things which we have done is to see them known, to have them applauded with praises which honor us.—Mollere.

Designer's Initials

The Department of the Treasury says the mark on the Liberty dollar is not an M, but is a combination of the letters A and F, the initials of the designer, Anthony Francis.

A LIFE CLOUDED WITH PAIN

Her life clouded with rheumatic pains, lumbago, and stiff, aching joints, Mrs. J. E. Stevenson, Emporia, Kansas, finally rid herself of torment by taking FOLEY PILLS diuretic. "Nearly every day some one asks me what I took that helped me when I was so crippled up and could scarcely walk. I tell them gladly of FOLEY PILLS, diuretic, and how they cured my pains and lifted the clouds from my life." A reliable valuable medicine. Men and women everywhere use and recommend it. Satisfaction guaranteed.—Hite's Drug Store. adv.

FARM STOCK

DIPPING IMPROVES HEALTH AND WOOL

Dipping sheep immediately following shearing to control ticks, lice and scab reduces the feed cost and increases the quantity and quality of the wool.

"The operation is simple, effective and inexpensive," says R. S. Curtis, animal husbandman at the North Carolina State college. "A sheep that is constantly harassed by ticks, lice or scab, cannot do as well either for itself or for the lambs. If the flock is large, a dipping tank is needed, but for the small flock any vessel large enough to immerse a full-grown animal, is sufficient. Purchase a sufficient quantity of a standard sheep dip and mix it according to directions on the package. Cheap concoctions injure the wool growth and hurt the quality of the fleece."

Professor Curtis warns against the use of such materials as a lime-and-sulphur dip, kerosene emulsions, or anything of such nature. These may be effective but they are likely to be injurious.

Every good sheep grower dips his flock, states Professor Curtis. This should be done preferably ten days to two weeks following shearing. The flock has then passed any danger of cold or pneumonia resulting from having the wool removed. The weather has usually warmed and the dip is more effective after the wool has been clipped.

There are certain precautions to be observed, he states. Do not dip on a cold, rainy day. Wait until the middle of the forenoon and quit in time that the last sheep will be dry before night. Do not permit the lambs to nurse before the mother dries thoroughly. If the animal does not have scab, immersion for one minute is sufficient. In case there is scab present, break the scab before dipping and immerse for two minutes, dipping the head under at alternate periods.

Shipping Suggestions for Hogs in Summer

During the hot weather season haul or drive your hogs into the shipping stations in ample time to allow them to become rested and cool before loading.

Insist upon a clean car bedded with sand.

Wet down the bedding and interior of the car before loading.

Give only a light grain feeding before shipping.

Load not more than one hour before the train is to depart.

Load carefully and avoid excitement.

Load not to exceed 16,000 pounds in a standard 36-foot car.

Have cars drenched at every available point immediately after the train stops. Notify agents of this when signing contract.

Suspend ice bags from the car roof—using gunny sacks whenever possible. Six bags to a car is enough.

Grinding Ear Corn for Growing Pigs Is Waste

The labor and expense of grinding ear corn into corn-and-cob meal for growing pigs will be wasted. In fact, it has been shown by feeding trials at the Iowa experiment station that pigs made larger and more economical gains on ear corn than on corn-and-cob meal. The latter contains too much hard fibrous material which the pig's digestive tract apparently cannot utilize very well. Larger and cheaper gains will be secured by feeding skim milk or buttermilk in addition to ear corn on clover pasture. Where this is not available, a mixture of equal parts of tankage and linseed meal is an excellent supplement to corn and pasture. This mixture may be self-fed with shelled corn, free choice, in separate compartments of a self-feeder.—H. J. Brant, Wisconsin College of Agriculture.

Live Stock Squibs

One of the big little points of horse care is salt.

The outlook for sheep raising is said to be good.

Lack of sufficient protein and minerals causes sows to produce unthrifty litters.

Swine growers in 29 states produced 808 ton litters in 1926, says the United States Department of Agriculture. Tennessee placed first with 121 litters.

Pure-bred meat animals cost slightly less than scrubs to raise to maturity; pure-bred dairy cattle cost slightly more.

If you have a surplus of pasture you can make a good investment by buying young animals that are thin in flesh, then letting them run until fall.

Sheep are first-class weed killers. They eat over eighty known species of weeds, and although not as good brush eaters as goats, can clean up light brush land in a very few years.

Sweet Clovers' Are Variable

Offer Opportunity for Development of New Strains for Definite Uses.

(Prepared by the United States Department of Agriculture.)

All sweet clovers are variable in their habits of growth, and many individual plants of distinct type and form may be found in nearly any sweet-clover field. This offers an opportunity for the development of new strains of sweet clover for definite uses, according to L. W. Kephart, forage crop specialist of the United States Department of Agriculture.

Better Hay Varieties.

There is considerable interest at present in the production of better hay varieties, he says, since the common sweet clovers, especially the white-flowered species, are too coarse and heavy to make good hay from the second year's growth. Several good hay varieties have already been developed, notably the early flowering Grundy County, Crystal Dwarf and Early Dwarf varieties of white sweet clover, and the Alborea and Switzer varieties of yellow sweet clover.

Recently a type of sweet clover bearing many more and finer stems than the common sorts was found at two of the western Canadian experiment stations. It resembles alfalfa so closely that it is easily mistaken for that plant. This important discovery will no doubt add a distinct new type of forage plant to the present list.

The need for winter-hardy types has been met with the Arctic, or Hansen's Siberian, a white-flowered variety from western Canada. A sweet clover much better suited than the common sorts to the cold, dry climate of the northern Great Plains appears to have been developed at the Redfield (S. D.) field station of the United States Department of Agriculture.

On Acid Soils.

Several persons are endeavoring to find a sweet clover that will grow on acid soils, lack of lime being a serious hindrance to culture of the crop in many localities. Still others are trying to develop a strain suited to the drought and hot winds of the southern Great Plains.

DIPPING INTO SCIENCE

A One-Sided Moon?

We always see only one side of the moon. Why? Because it so happens that it takes the moon just exactly the same length of time to rotate on its own axis—that is, complete a revolution of itself—as it takes that body to circle about the earth. Thus we are always in the same position toward it.

(© 1927, Western Newspaper Union.)

Chinese "Venice"

Szechow, one of the oldest and most famous cities in China, is known as the "Venice of the Far East," because of the large number of canals with which it is intersected.

Sweet Clover Doubles Wheat Yield in Dakota

J. M. Miller, who farms 1,800 acres in North Dakota, is an enthusiast when it comes to sweet clover. "Sweet clover," said Mr. Miller, "is the greatest soil builder ever discovered. One year I had a field of wheat. Half of this field had been in sweet clover the previous season. We took a crop of seed off of it and a large amount of hay, and then plowed the rest under. That part of the field which had been in sweet clover produced 35 bushels of wheat per acre. The other part produced 12 bushels per acre. The same variety seed was used and other conditions were similar.

"We have found that sweet clover will increase the yield of corn or any other crop which follows it. Not only does it add nitrogen to the soil, but it puts the soil in fine physical condition."

Agricultural Facts

Soy beans with corn is an insurance against an imperfect stand.

Cull the slow-maturing pullets. They will be cull hens when they grow up, if they ever do grow.

The glazed stage is right for harvesting silage, but frosted corn makes inferior silage; better harvest too soon than too late.

Prices of dairy cattle are on an up-grade and they probably will continue to rise until about 1931 when they will reach the peak.

Silos are not expensive structures, so feeding capacity can better be enlarged by increasing the number rather than the size.

It is best to use an early nurse crop with sweet clover the same as with other legumes and the nurse crop should be sown thin.

Never take the chances of putting a slightly defective specimen in a plate of fruit or vegetables for an exhibit. The judge is more than likely to find it.

It pays to ring-face baskets of peaches, pears, or apples because then each fruit in the face gets its share of the pressure from the cover. Too, the package sells better because it is more attractive.

"Little Spitfire"

Ralph Snoddy, speedboat driver of Los Angeles, Calif., has just returned from a successful visit in Europe, during which he won the International Duke of York trophy, with his speedboat "Little Spitfire." Mr. Snoddy started English speedboat race fans by driving his craft sans the regulation overall costume of the speedboat chauffeur. Ralph wore a natty Palm Beach outfit.

TO HOLDERS OF SECOND LIBERTY LOAN 4 PER CENT BONDS

EXCHANGE OFFERING OF NEW TREASURY NOTES

Second Liberty Loan bonds have been called for payment on November 15th next, and no interest will be paid after that date. Notice is given of a new offering of United States Treasury notes, in exchange for Second Liberty Loan Convertible 4 1/2 per cent bonds. The new notes will be dated September 15, 1927, and will bear interest from that date at the rate of 3 1/4 per cent. The notes will mature in five years but may be called for redemption after three years.

Interest on Second Liberty Loan Convertible 4 1/2 per cent bonds-unredeemed and accepted in exchange will be paid to November 15, 1927. The price of the new issues of notes is 105 1/2. Holders of Second Liberty Loan Convertible 4 1/2 per cent bonds in exchange will receive, at the time of delivery of the new notes, interest on such Second Liberty Loan Convertible 4 1/2 per cent bonds who claim to have ownership of this opportunity to obtain Treasury notes of the new issue, should arrange with their bank for such exchange at the earliest possible date, as this offer will remain open only for a limited period after September 15th.

Further information may be obtained from banks or trust companies, or from any Federal Reserve Bank.

A. W. MELLON, Secretary of the Treasury, Washington, D. C., September 6, 1927.

Are You Really Well?

For Good Health There Must Be Proper Kidney Action.

Do you find yourself running down—always tired, nervous and depressed? Are you stiff and achy, subject to nagging backache, drowsy headaches and dizzy spells? Are kidney excretions scanty and burning in passage? Know then that these are often signs of improper kidney action. Sluggish kidneys allow acid poisons to remain in the blood and upset the whole system. If your kidneys are acting sluggishly, assist them with Doan's Pills. More than 50,000 users have publicly recommended Doan's. Ask your neighbor!

DOAN'S PILLS

Clean Mirrors

In washing mirrors do not let the water or other cleaning fluid run under the frame. It will loosen it.

Well to Remember

You can't live a well-rounded life unless you are square.—Forbes Magazine.

MICHIGAN BELL TELEPHONE CO.

Save Money on Long Distance Calls

There are Two General Classes of Long Distance Calls:

1—**Person-to-Person.** This is a call placed for a specified person and is the kind of call to make when you want to talk to someone in particular and you are not reasonably sure that person will answer the telephone or can be called to it quickly. A Person-to-Person call costs the same at all hours.

2—**Station-to-Station.** This is a call placed for a certain telephone number and is the kind of call to make when you are reasonably certain that the person with whom you wish to talk will answer the telephone or can be called to it quickly. Station-to-Station calls cost appreciably less than Person-to-Person calls, and offer reduced Evening rates, from 7:00 p. m. to 8:30 p. m., and further reduced Night rates, from 8:30 p. m. to 4:30 a. m. There is no change of rates at midnight.

It helps speed the connection if you give the Long Distance operator the number of the distant telephone, when making a Station-to-Station call, but it is not necessary to give it. If you do not know the number, tell the operator, for instance, that you are calling the office or home of "Mr. John Smith, 350 Sayre Street, Lansing, Michigan," she will then connect you with the called telephone and give you the number for future use.

The Green Cloak

By YORKE DAVIS

WNU Service Copyright, 1927

(Continued)

"Been looking for me?" he exclaimed. "A man named Mallory? Well, why didn't you try these apartments sooner? Where is he now?"

"All right. Don't waste any more time."

"That you, Mallory?"

"What's that you say? You've got the girl. Came back to her room, did she?"

"What's she like? Violent at all?"

"Well, wait a minute. Hold the wire. I'll tell you what to do with her."

He turned round then, and began speaking rapidly to Doctor McAllister.

"The girl went to her room and Mallory has got her. He says she's perfectly quiet, not violent at all, that is, but she's taking on a great deal, protesting that her arrest must be a mistake. So it's clear she hasn't gone off into one of those subjective states of hers. But what are we to do with her? Do you suppose she'd be of service to us in getting track of Wilkins? She'd probably take pretty good care not to get him into trouble, I suppose, if she suspected that we really wanted him."

"Tell him to bring her here," said my chief, his eyes shining with excitement. "We shall be able to use her never fear. Yes, have Mallory bring her to this room."

Ashton hesitated for an instant. Then transmitted the message, word for word, to Mallory, and hung up the receiver.

"I don't quite see it," he went on thoughtfully. "Unless Wilkins took her into his confidence, she won't know anything about him. If he did, she'll be on her guard not to betray him and a stupid, stubborn person like that sometimes makes a lot of trouble."

The doctor's only reply was a comment, which sounded a little irrelevant.

"I told you, didn't I," said he, "that in her subjective states her whole system of sensory nerves seems to be abnormally stimulated, almost to a hysterical degree?"

"I had it on my tongue to ask him what he meant, when the sound of footsteps approaching along the corridor, cut the question short. The next moment there was a tap on the door, the detective, Mallory, ushered Jane Perkins back into our sitting room."

"Here she is," he said briefly. "Do you want me?"

"Yes," said the doctor; "sit down. You sit down, too, Perkins; here in

little shiver that went over the girl's body, that the transformation of her personality had already taken place.

"Watch," said I to Ashton, "watch the girl's face."

"You've been showing me wonders tonight," he said in a voice that was dulled with amazed bewilderment, "but this is a wonder that out-tops them all."

All that was true, for there, under his eyes, he saw, reappearing in the body of this English chambermaid, the strange wild creature he had gone with us to St. Martin's hospital to see, a couple of nights before.

The doctor's voice broke the silence. He spoke to the girl, a single, short sentence in what I now recognized to be the Maori tongue. Then, without a pause, he went on:

"I am speaking in English now, Fan-enna, and you understand me. Tell me that it is so."

Her answer was a sort of clinking guttural, impossible one would think for a Western throat to produce.

"Say it in English," the doctor commanded.

"Be—es," she said.

The doctor turned to the detective. "Mallory," he said, "you know where Wilkins' room in the hotel is, don't you?"

"Yes, sir, but it's locked. He's gone off with the key."

"Don't waste time trying to find another key," said the doctor. "Break the door down and leave it so that we can walk directly in. Then go to this girl's room, find some warm wraps, a hat and a cloak and a pair of over-shoes. Then get your own hat and overcoat and come back here."

Mallory hesitated, and cast an inquiring glance toward Ashton.

"Oh, yes," said Ashton with a laugh. "He's the boss now. You'll take all your orders from him."

The doctor smiled. "I think you'll want your overcoat yourself, and let me recommend a cap, if you have such a thing, rather than a derby. There's no telling how long we'll be out, and the air is cold tonight with all this half-frozen dampness in it."

While the other two men went on their several errands, Doctor McAllister and I found our ulsters and caps. The doctor added to his equipment a heavy walking stick and a huge pair of what he called galoshes.

Ashton was ready as soon as we were, and Mallory didn't keep us waiting more than two or three minutes. He was dressed for the expedition himself, and he had over his arm the green cloak, and in his hand carried a rather preposterous hat, which was just about the sort of piece of millinery one might expect Jane Perkins' taste for adornments of this sort to result in.

The girl got up and huddled herself into the cloak when the doctor handed it to her, in a perfectly natural sort of way, as if it was a garment with which she was well acquainted.

"All ready," asked the doctor. "Then let's be off. Mallory, you show us the way. We want to go to Wilkins' room first."

"All of us?" questioned Ashton. "The girl, too?"

"Yes," said the doctor. "She's the important member of this expedition."

I caught then, and it made my flesh creep a little, my first inkling of his purpose. But it was perfectly evident from Ashton's face that no such idea had occurred to him.

"Hadden't she better be handcuffed to Mallory?" he asked, as we were leaving the room. "She might give us the slip."

"No," said the doctor; "she'll follow—follow like a dog."

We threaded our way in silence through the corridors to Wilkins' room. It was a small room, and I stayed back in the corridor with Mallory to make room for my chief and Ashton to go in with the girl.

What I saw through the doorway was curious and interesting. Doctor McAllister strode straight across to the wardrobe, flung open the door of it, groped for a moment in its interior, with one hand, then withdrew it, waving triumphantly, an old shoe.

And now Ashton's eyes lighted up with the surmise which had come to me a few moments earlier.

"Good God, McAllister!" he exclaimed. "What are you going to do?"

"I'm going to find Josiah Haines, alias Wilkins, if he hasn't got too long a start on us."

As he finished speaking, he ostentatiously sniffed at the shoe himself, and held it out to the girl.

"Osa Enna," she said.

"Exactly," said the doctor; "Josiah Haines."

"You can't possibly mean," exclaimed Ashton, "that you're going to try to track him with her, as if—as if she were a hound! It's impossible. Impossible and horrible, too," he added with a shiver.

"So far as the horror is concerned," said the doctor, "we can't afford to be squeamish, with telephone and telegraph wires down all over the city, and likely enough trolley wires, too. He has too great an advantage of us to warrant our rejecting any means of finding him that come to hand, even though they are primitive. As for its being impossible, that's exactly the thing we're going to test. I don't believe it is. The girl scented us half way across Morgan's study, and pointed us, exactly as a setter points a quail. And she confessed to me that she identified the man she murdered by his odor."

Without waiting for any reply, he turned abruptly to the girl and spoke to her in Maori, asking her a question. If one could judge from the odd inflection of the thick, guttural words. In her eyes already there was a kind of snoldering fire. The doctor cried out

something more in Maori, and accompanied the exclamation with a gesture of both hands toward the doorway.

The girl darted out between Mallory and me, like some wild beast unleashed, and set out down the corridor at a slow, swinging trot, her head bent low and swaying sideways. It was uncanny to see her. I felt my flesh creep as I got out to follow her.

Mallory had not understood, and he made a motion to detain her, but this was checked by a pre-emptory order from Ashton.

"Follow along!" cried the doctor. "Keep as close as you can. We mustn't lose sight of her!"

We had lost sight of her already, for she had turned to the right into a cross corridor. When we reached the corner where she had turned, we all halted, as if some medusa hand had suddenly turned us to stone.

The Meredith is a high building. We were on the eighth floor, but the

The Girl Was in the Act of Getting Out of the Window.

girl was in the act of getting out of a window. Mallory recovered the use of his muscles first, and rushed forward in an attempt to forestall what seemed to him a deliberate attempt at suicide.

"Hold on!" cried the doctor. "She's only going where Wilkins went. If there was a way down there for him, she'll be able to follow him safely."

"And wherever they can go," said Ashton, "I guess we can follow."

He started down the corridor as he spoke. I should probably have agreed with him had I not become aware just then that the door beside which I was standing opened into the elevator shaft, and the gauge showed that the elevator was descending. I signaled it to stop, on the chance that it might prove useful.

By that time Ashton had already joined Mallory at the window. Apparently one glance was all they needed, for they came hurrying back with white faces.

"She has worked herself along a six-inch ledge," said the lawyer, "to an iron standpipe. It's not conceivable that Wilkins went that way."

"Don't forget that he was Bully Franklin's first mate," said the doctor. "But this is a better way for us. Come along."

We all four piled into the elevator and told the boy to drop us, as quick as he could, right through to the basement. The excitement in our faces was imperative. He threw the lever over and let us down at a tremendous rate.

"This way," cried Mallory, rushing off in the dark.

We lost sight of him, but heard sounds of a struggle he was having with a badly warped door which evidently had not been opened in a long time. He conquered it just as we came up with him, and the next moment, peering out in the misty gray light to see whether we had taken the right direction after all, we made out a dark blurred figure, which was, nevertheless, unmistakable. Still in that crouching attitude, with bowed head swaying from side to side, the girl was working round in widening circles, trying to catch the scent.

Presently she caught what she had been searching for, straightened up a little out of her crouching attitude, and set out briskly, at a gait which was neither precisely a walk nor a run, but which, if she should keep it up, would tax our powers to follow.

She threaded her way down a three-foot paved passage, which led out of the court and into a larger one, crossed this and vaulted over a low brick wall into the alley which bisected the block behind The Meredith. She trotted the length of this, with us straggling along behind her as best we could, crossed the boulevard, without a glance to right or left, and went straight on down the alley and through the next block.

"You see," commented the doctor, "he took elaborate precautions against being recognized in the immediate neighborhood of The Meredith. Almost every guest at the hotel, as well as the full force of servants, know him. But his chance of encountering any such person diminishes rapidly as he gets away from the vicinity of the hotel. He'll leave the alley to take to the streets presently."

The prophecy came true. At the very next corner the girl turned to the left, and then held on, straight across two avenues, until she reached a street where the cars ran. She made as if to cross this street, too, for she went straight out to the middle of it; then stopped, obviously at fault, and retraced her steps to the car rail nearest the curb.

"Well, that's plain enough," said Ashton in a tone of disappointment. "She's brought us so far, but can't take us any farther, for here is where he took the car."

"Wait a bit," said the doctor. "Watch the girl."

She was crouched very low again, and quartering around in a circle, just as she had done at the foot of the standpipe. Presently, to the surprise of all of us, unless it may have been that the doctor guessed, she caught a scent that satisfied her and led her diagonally back to the sidewalk; and once here, without a pause, she set out in the direction of downtown, straight down the middle of the sidewalk, her gait, that seemed unhurried, unfaltering, a sure-footed compromise between a walk and a run.

"It seems to be all right," said Ashton rather breathlessly, as we hurried on after her, "only I don't quite see what he went out into the street for."

"To see if a car was coming, I suppose," said the doctor. "There wasn't one in sight, so, rather than risk waiting, he set out afoot. And I think he did wisely. I haven't seen a car in either direction. Have you?"

We had not, and what was still more to the point, followed the girl at the rapid pace she set, for half an hour without seeing one.

When we had first set out with her, our curiosity as to what she would do prevented us from paying much attention to the condition of the streets; but when the chase had straightened itself out into this long pursuit down the avenue, we had time to think of our surroundings, and to speculate whether they bettered the chances of the man we were pursuing or improved our own for catching him. The trolley wires were evidently down in every direction, and the streets were so glassy with the frozen sleet and so perilous with the snapping, spitting ends of live wires that trailed here and there, that what little wheel traffic there was moved only with the very greatest difficulty. Without the means of tracing him, which the doctor's hypnotic power over the girl had provided us with, he would, after several hours, have been absolutely secure from pursuit. There would have been no other way in the world of hunting for him than by this simple, primitive method of tracking him by his scent.

It was fortunate for us that there were few pedestrians abroad that night, for the girl's strange, uncanny gait and our hurried, breathless pursuit of her would, in anything like normal conditions, have created a sensation which would have rendered the pursuit itself impossible. As it was, the few people who had ventured out found all they could attend to in the ice-glazed sidewalks, the wind-whipped corners, the fog and electrical peril of the streets. A few curious glances were cast after us as we went hurrying by, but that was about all.

Suddenly the doctor dropped a hand on my arm. "I know where she's going," he said. "I ought to have guessed it before ever we started. Look there." As he spoke, he pointed ahead and upward, through the fog, and, following the direction of his pointing finger, I made out, faintly, a luminous clock face.

"What is it?" said I. "I haven't kept track of where we were going. The fog confuses me."

"It's the Western station," said the doctor. "and Wilkins, my boy," he punctuated the remark with a buffet on my shoulder, "Wilkins has gone to Oak Ridge! I ought to have known him well enough by this time to have foreseen that that was what he would do."

"I don't believe he'd be such a fool," said Ashton, "but I hope you're right. If he's gone to Oak Ridge, we've got him. I've got two men out in the Morgan house watching it, on the lookout for anyone who might turn up there, and nobody who does turn up will be able to get away until they have accounted to me for their visit."

We had all lagged a little. "Come along," said the doctor. "We mustn't get too far behind."

We were pretty well winded, all of us, but we gathered up our energies for a final sprint, and turned into the great waiting room just behind her.

She went straight to the ticket window, but without a pause there or a glance through, she turned in a sharp angle, exactly as a dog would do, and padded across the waiting room toward the doors which opened into the train shed.

"Follow her!" the doctor commanded Mallory. "I'll see about the trains." I was at his elbow when he spoke to the clerk. That functionary was gazing after the girl with wide, terrified eyes.

"In Heaven's name!" he said, "what is she? A woman or a beast?" The doctor did not answer. He ignored the question utterly.

"When is the next train for Oak Ridge due?" he asked.

The ticket clerk rubbed his hands over his eyes. "Did you see her?" he asked. "That creature that just went through the door?"

I did not wonder that he was horrified. I remembered my own feeling when I had seen her start down the corridor toward Wilkins' room.

The doctor paid no attention, and in the same level voice in which he had spoken before, he repeated his question about the train for Oak Ridge.

With an effort, the clerk rallied his wits and answered him.

"There was a train pulled out about ten minutes ago," he said. "There won't be another tonight. The wires are down on account of the sleet, and we've practically abandoned the suburban service. It's too dangerous. Everything has to run without orders."

"Did you hear that, Ashton?" said

the doctor, turning away. "The last train to Oak Ridge that will run tonight left ten minutes ago."

CHAPTER X

Ashton had followed Mallory part way across the waiting room, a little nervous, I think, at the idea of letting the girl out of his sight. So he had not heard what the clerk had just told Doctor McAllister through the ticket window.

"Well," he said, "that is all right, isn't it? We don't want to go to Oak Ridge. If the train Wilkins took started only ten minutes ago, there's ample time to arrange to have him arrested before he sets foot on the platform at Oak Ridge. Where's the telegraph office in this station?"

"It won't do you any good," said Doctor McAllister. "There will be no telegraphic communication with Oak Ridge tonight."

Ashton glanced thoughtfully about the room. "That possibility hadn't occurred to me," he said at last.

"It occurred to Wilkins," said the doctor. "That's why he went. He's the one man of us who really grasped the situation. He knew just what that sleet storm meant—that over a territory fifteen or twenty miles square electricity was going out of the business of serving civilization for a few hours. That one vital fact turns the world topsy-turvy, and makes some difficult things easy and some commonplace things impossible. For just tonight our thoughts can't move any quicker than our bodies can. So Wilkins has set out for Oak Ridge, and we can't head him off. The only thing we can do is to follow him. The question is, shall we try to do that?"

(To Be Continued)

New Autumn Coat Frock Is of Beige Homespun

This attractive new fall coat frock is of beige homespun, trimmed with black fox. The pointed collar is of self material. The oyster-gray hat boasts a scarlet feather at the right side.

Civilization Cycles

The eight cycles of civilization may refer to the Chinese cycle, the Japanese, the Phoenician, Egyptian, Babylonian, Roman, Grecian and the present cycle.

BETTER HEALTH—LONGER LIFE

For a normal thoroughly relieving urinary flow, cleansing the system of wastes that poison and impair health, take FOLEY PILLS diuretic, and feel again the urge of an active ache-free body, good appetite, sound sleep. Kidney irritations, too frequent night calls, scanty burning secretions, rheumatic aches, are ample warning. Landon Taylor, Dorchester, Iowa, says, "I never thought that any medicine could benefit me so quickly and so happily, as have FOLEY PILLS diuretic." Satisfaction guaranteed.—Hite's Drug Store, adv.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the city of Charlevoix, in said County, on the 9th day of September A. D. 1927.

Present: Servetus A. Correll, Probate Judge.

In the Matter of the Estate of Lorenzo Bingham, Deceased.

The above estate having been admitted to probate and Delbert Hale appointed administrator thereof.

It is ordered that four months from this date be allowed for creditors to present their claims against said estate, and that such claims will be heard by said court on Thursday, the 19th day of January A. D. 1928, at ten o'clock in the forenoon, at the Probate office in the City of Charlevoix.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.

SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix, in said County, on the 10th day of September A. D. 1927.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Johanna Nyquist, Deceased.

Robert A. Campbell having filed in said court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 7th day of October A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said county.

SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate office in the City of Charlevoix, in said County, on the 27th day of August, A. D. 1927.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Adolph M. Cincush, Deceased.

Lawrence F. Cincush having filed his petition, praying that an instrument filed in said Court be admitted to Probate as the last will and testament of said deceased and that administration of said estate be granted to petitioner or some other suitable person.

It is Ordered, That the 23rd day of Sept. A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said County.

SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the city of Charlevoix in said County, on the 31st day of August, A. D. 1927.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Horace B. Hipp, Deceased.

Clyde W. Hipp having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is ordered, that the 23rd day of September A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.

SERVETUS A. CORRELL, Judge of Probate.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Kate Webster, Deceased.

Violet Green having filed in said court her petition praying that the administration of said estate be granted to James Second or to some other suitable person.

It is Ordered, That the 30th day of September A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said county.

SERVETUS A. CORRELL, Judge of Probate.

You need not expect the politicians to agree as long as there are three nominees for every job, elective or appointed.

Jokes are not always made from some specimens we have seen lately we are convinced that many of them are born.

One way to get an account of your affair in the paper is to see that somebody writes it up for the East Jordan Herald.

The best thing that you can do for East Jordan is to see that you do something against it.

"Here She Is," He Said Briefly. "Do You Want Me?"

the easy chair where you were before. No, my poor child, there's nothing to be frightened about. Don't cry. We're not going to hurt you."

The perfect pulse and balance of his own nerves gave him a tremendous power of calming the nerves and quieting the fears of others. That single sentence, spoken in his calm resonant voice did more to reassure the girl than I could have done in an hour.

"Now you're not afraid any more, Jane," he went on. "This little mirror, swinging so, makes you calm again, even makes you sleepy. You're going to sleep already. Your eyelids are heavy. Your hands are heavy, too, and quite relaxed, just as they are when you go to sleep. You're asleep now; fast asleep."

Once more, and only once, the doctor hummed the strange, droning tune of the death chant, and I saw, by the

Strength Is Your Protection

The strength of this bank with its ample capital and its careful conservative management is your protection. It is this reason which has led hundreds of people to deposit their dollars here.

The safety it offers, the efforts of the officers and employees to please, the friendly interest which will be taken in you and your account all make it a good bank for you to use.

Briefs of the Week

Miss Thyra Arnston of Lansing is here visiting friends.

Ernest Lanway is home from Flint for a few days' visit with his family.

Ralph and Harold Clark left this week to enter the M. S. C. at Lansing.

Mrs. Grace Lanway and daughter, Lois, left Thursday for Grand Rapids.

Miss Dorothea Malpass left Thursday to resume her studies at M. S. C., Lansing.

Mr. and Mrs. Oscar Kidder and son Louis, of Mt. Morris, Mich., are here visiting friends.

Dance at the Workman Hall in the Bohemian Settlement, Saturday night, Sept. 24th. adv.

Ed. Vogel was here from Muskegon last week for a visit with his mother and other relatives.

Mr. and Mrs. George Bogart and family left Monday for Lansing, where they will make their home.

Mr. and Mrs. Glenn Roy of Flint are here this week for a visit with his parents, Mr. and Mrs. W. H. Roy.

Miss Elizabeth Sidebotham left Monday for Alma, where she will enter the Junior year of the College course.

M. E. Ladies Aid will be entertained by Mrs. Edmund Bogart at her home on Fourth St., Wednesday p. m. Sept. 21st, at 2 o'clock standard.

Att'y and Mrs. Fred Dye and children returned to Detroit last Saturday, after spending part of the summer here at their new cottage, near Flagg's corner.

The Presbyterian Missionary Society will be entertained at the home of Mrs. Charles Malpass, Friday, Sept. 23rd. Mrs. G. A. Lisk will assist in entertaining.

The following students left this week to enter the Western State Teachers College at Kalamazoo:—Misses Lucille Bartlett and Eva McBride; Marvin Benson, Raymond Swafford, Ernest Ross, Arthur Secord, Thaxter Shaw, Carl Shedina.

Peter Dufore, aged 74 years, and a well-known resident of South Arm township, passed away at the County Farm, Tuesday, Sept. 13th. The remains were taken to Ellsworth, Wednesday, where funeral services and interment took place.

The Salvation Army wishes to thank the many friends of East Jordan for the way they helped in the home Service Campaign and can assure you it will be spent to the best of our ably wishing Gods blessing upon all who gave. Captain Alfred J. Arnold.

Herman A. Goodman, of East Jordan, A. W. Price of Boyne City and D. C. Eckinger of Charlevoix will attend the October session of Federal Court for the Western District of Michigan that convenes in Grand Rapids, having been called to serve as members of the Grand Jury.

Word has been received here of the death of S. L. Doyle at his home in San Gabriel, Calif., on Sunday, Sept. 4th. Mrs. Doyle was formerly Miss Emma Lenosky, daughter of Mr. and Mrs. Frank Lenosky of near East Jordan. Mr. and Mrs. Doyle were here last summer for a visit.

Mrs. Lee Kinner passed away at her home at Kinner's Point, near East Jordan, on Saturday, Sept. 3rd, after a long illness from tuberculosis. The remains, accompanied by the husband, were taken to Royal Oak, Mich., for funeral services and interment. Mr. and Mrs. Kinner of Royal Oak were spending the summer here.

Hubert Beares, director of the Elk Rapids school band drove to Lansing, Thursday, Sept. first. There he appeared before the board of examiners to write his examination for a band instructor's certificate—he passed his examination honorably and will be one of the first men in the state to secure a certificate from the Department of Public Instruction under the new law which became effective September first. Elk Rapids Progress.

The Fall and Winter schedule on the P. M. R. R. and E. J. & S. R. R. goes into effect this coming Sunday, Sept. 18th. Only one train each way will be run on both lines. E. J. & S. R. R. train leaves East Jordan at 1:50 p. m., connecting with P. M. trains north and south bound at Belaire at 3:22 p. m. E. J. & S. train will return to East Jordan at 4:15 p. m. Mail from East Jordan Post-office is pouched one-half hour before train leaves.

Boyne City is holding her own in the enrollments this year. East Jordan has a total of 672 students to Boyne's 864. East Jordan's high school numbers 148 while Boyne City boasts 227. East Jordan's senior class at present numbers 22, Boyne has 28. This is the smallest senior class that Boyne has graduated in years. East Jordan is progressive and has added Bible Study to its high school course. This is a fine study taken as history and not as a sectarian subject. We hope that, in time, Boyne will follow East Jordan's example and add this interesting study to the High School course.—Boyne Citizen.

Vet Newson is here from Detroit for a visit with friends.

Mrs. Anna Bulow left Friday for a visit with relatives in New York State.

Mr. and Mrs. Martin Ruhling returned home Tuesday from a visit with relatives at Jackson.

Mrs. Gertrude Waterman, who has been at Charlevoix for the summer, returned home last week.

Dance at the Workman Hall in the Bohemian Settlement, Saturday night, Sept. 24th. adv.

Cauliflower, Dill and other garden truck for sale at Lisk's Gardens, 802 North Main St. adv.

Born to Mr. and Mrs. Matthew Cipra of Cleveland, Ohio, a daughter, Sept. 12th. Mrs. Cipra was formerly Miss Marie Nemecek of East Jordan.

Mr. and Mrs. John Browning of Chicago were here recently to get their children, who have spent the summer here with their grandmother, Mrs. Fred Richards.

Seth LaValley and Mrs. Olive Ida Stokes, both of this city, were united in marriage at the Presbyterian Manse, Wednesday evening, Sept. 14th, by Rev. C. W. Sidebotham.

Wm. Harrington returned home, Thursday, from Grand Rapids, where he has been attending the National Encampment of the G. A. R. He reports it one of the finest meetings he has ever attended.

Announcements have been received here of the marriage of Mrs. Jennie Shetter to Elijah Flagg of Highland Park, (Detroit) to be held Sunday, Sept. 18th. Mr. Flagg was a former resident of East Jordan.

At the Baby Show at the Emmet County Fair held at Petoskey last week, the first prize for the baby under six months of age went to Muriel Joan, age two months, and weighing 13 pounds and 3 ounces, daughter of Mr. and Mrs. Carl Vogg of State St., Petoskey. Mrs. Vogg is a daughter of Mr. and Mrs. Freeman Walton of East Jordan.

If all the energy used by women, in a week, in pulling their dresses below their knees was impounded there would be no need for the development of water power.

Suitable Dimensions of Stall for a Dairy Cow

The grain and ensilage manger of the model cow stall is made right on top of the cement floor of the stable. It is two feet wide and the cement sides are six inches high. The front of the stall, the side towards the feeding alley, is five feet high, with a door or space eight inches from the bottom through which to feed grain and ensilage.

The hay manger is formed by nailing a 2 by 4 to the feeding alley front on the side towards the cow, and twenty-eight inches above the grain manger. To this 2 by 4 are nailed four-inch slats projecting back over the cow's head at an angle of forty-five degrees and nailed to the 2 by 4 which is supported by the partitions between the cows. These slats are three feet long.

The bed for the cow, and which keeps her absolutely clean, is formed by placing a 2 by 4 edgewise across the stall just in front of the cow's hind feet when she stands naturally, eating from the grain manger. This space between the manger and this 2 by 4 just in front of her hind feet should be filled in with earth or matted with straw even with the top of the 2 by 4. When the cow lies down she naturally steps ahead and lies upon this clean bed. That is the reason she never is dirty in the stable.

Agricultural Notes

A silo is the lighthouse on the farm.

Soy bean hay should be handled as any other legume crop.

As pastures get short and dry, dairy cows should have grain, too.

Dairymen probably will save by buying high-protein concentrates now for later use.

Volunteer wheat makes a convenient home for the early Hessian fly—destroy all volunteer grain.

Dairymen often can save \$10 on the price of a ton of dairy feed by contracting for winter supplies during the summer months.

Modern harvesting and cutting machines have simplified the handling of the corn crop and have made silo filling a comparatively easy job.

Where the silo is not airtight, air-oxygen and nitrogen—gains entrance, dry silage and mold results, and with plenty of moisture, decay, it makes poor feed.

Continuous cropping of land to the same crop frequently so aggravates insect damage that the yields will be considerably reduced. Rotation of crops is a good means of checking insect damage.

State News in Brief

East Lansing—Any parent whose children are caught playing in the streets here will be liable to a \$25 fine or 10 days in jail, according to a city ordinance which goes into effect Sept. 16.

Jackson—Negotiations begun last January for the purchase of the Southern Michigan Power plant at Quincy, by the Consumers' Power company, have terminated in the deal being closed, it is announced by company officials here.

Lansing—The State Supreme Court has granted a writ of error in the Arthur Rich assault case to the United States Supreme Court. This means according to the court's ruling, that the famous case will be reviewed by the United States Supreme Court.

Detroit—Detroit's postal receipts of \$884,592 for the month of August showed an increase of nearly seven and a half per cent over the same month of last year, whereas the increase for the rest of the 50 leading cities of the country was about six and a half per cent.

Grand Rapids—Tumbling to the ground from a second story window in his home when the screen broke which he had been propped against, Eugene Fisher, 11-months-old son of Edward Fisher, received a fracture of the skull which resulted in his death. The child had been placed against the screen for relief from the heat.

St. Charles—Because he didn't want to go to school any longer, Arthur Sweetland, 16 years old, ended his life by shooting himself through the heart with a shotgun at his home at Willis Creek, near here. The boy's parents insisted he attend school the first of the fall term, and against his will, he went, objecting because he was older than the rest of the boys and girls in the seventh grade.

Lansing—Acting on the advice of Gov. Fred W. Green, the finance committee of the State Administrative Board refused a second plea by citizens of Jackson that the state contribute \$10,000 toward the expenses of the Jackson drill team to the American Legion convention at Paris. "I can not see how the state can afford to do anything of this sort with the finances in the condition they are at present," the Governor said.

Ironia—Lightning struck twice in the same place and as a result a large barn on the Louis Faxon farm, south of Lyons, was destroyed by fire. The loss is estimated at \$40,000, as the structure was filled with grain. The first bolt set fire to the barn but volunteer fire fighters had the blaze almost extinguished when a second bolt struck. The second shock dazed the fire fighters and by the time they recovered the barn was a mass of flames.

Mackinac Island—A hotel here has received \$1.50 from an anonymous woman in South Bend, Ind., to pay for a teaspoon stolen from the hotel dining room seven years ago. The letter accompanying the money read: "I am sending \$1.50 to cover the cost of a teaspoon taken from your hotel seven years ago. I had such a good time at your resort that I wanted a souvenir and decided to take the spoon. I still have it, but often wish I had paid for it then."

Adrian—J. William Shaffer, 16-year-old son of Mr. and Mrs. John W. Shaffer, of Adrian, was killed on the Deerfield-Dundee paved road when two automobiles collided in a cloud of smoke from grass burning along the roadside. Neither driver saw an approaching car until he was within a few feet of it. John S. Burke, of Fostoria, Ohio, driver of the other car was injured slightly. Shaffer was taken to the office of a physician at Blissfield where he died.

Lansing—Reports that the state has a chance to sell the Chelsea cement plant were current here recently following a conference between J. B. John, of Nawaygo, and Gov. Fred W. Green. During the Greenbeck administration, John made an offer for the plant. He is connected with the cement industry. It was reported John is willing to pay an amount equal to what the State has invested in the Chelsea plant. Gov. Green has estimated the state's investment at \$1,000,000.

Saginaw—Oil well litigation will take on a new phase when a bill was introduced into court to restrain Mrs. William Glover Gage from sinking a well on her own property because it is in conflict with the city zoning code. It will be the first time that the new zoning ordinance will have a court test. Mrs. Gage petitioned the city plan commission to designate her property under the classification that would permit her to drill for oil. The commission refused, but Mrs. Gage went ahead with her plans.

St. Ignace—A company of St. Ignace, Mackinac City and Detroit men is being organized to operate a ferry across the Straits of Mackinac next year to compete with the state ferries now in operation there. A ship with a capacity of 65 automobiles has been purchased. It is announced that the company has obtained use of dock sites in Mackinac City and St. Ignace. Organization of the company follows complaints that inadequate service is being given by the state.

SOMETHING TO THINK ABOUT

By F. A. WALKER

IN ANOTHER'S PLACE

WHEN in a moment of excitement or envy you incline to assail another's good name, or question his or her acts which seem to you unreasonable, hold your tongue.

A mischievous word hastily spoken is like a little spark, capable of causing a great conflagration, irreparable loss and unspeakable sorrow.

To blurt out the first cruel thought that comes to your mind in a burst of sudden heat is a fearful thing to do.

It is an evidence of an inherent weakness in the moral fiber and proves your unfitness for leadership.

At one outburst of temper if you should happen to be seen or overheard by your employers, you shatter your own good record and spoil a perfectly bright future, simply by giving vent to spleen.

When the impulse comes to malign co-workers or speak ill of superiors, however much you may wish to override them, hold your horses and drive carefully.

There is danger ahead. Thousands have gone over the fatal precipice for similar recklessness, when they imagined themselves secure.

Put yourself in the place of the person whom you are seeking to humiliate and overthrow. You know nothing about his or her trials, impediments, deprivations or sorrows, and you have no royal privilege to enter the heart-sanctuary and expose it to a vulgar gaze.

Put yourself in place of an ever-wrought typist who is doing her utmost to support aged parents; put yourself in the place of a troubled employer who lies awake nights from thinking of pressing obligations; put yourself in the place of the man that runs the elevator, the scrub woman with her bent body and gnarled purple hands.

To seek to exalt yourself by contrast with such people, for no other reason than petty pride or jealousy is not only exceedingly discourteous but grossly uncharitable.

Don't hand out sighs and tears while you can scatter smiles and sunshine.

It is an understood thing in the game of life that while the hot-headed and uncharitable are pulling down reputations of others, the person who puts himself in the place of the striving, who is considerate and kindly in words and acts, yet is awake to his own opportunity, is the individual who eventually rises to eminence and remains there.

GIRL GAGA

"My idea of fertility," says Cornucopious Corn, "is to try to insult a lady by telling her she's narrow."

Mother's Cook Book

"A commonplace life, we say and sigh, 'Tis why do we sigh as we say? The commonplace sun in the commonplace sky"

Makes up the commonplace day. The moon and the stars are commonplace things;

The flower that blooms and the bird that sings; But not were the world and dark the lot. If the flower faded and the sun shone not.

And God, who sees each separate soul, Out of commonplace lives makes a beautiful whole."

THE DINNER

FOR the beginning of a dinner there is nothing quite so refreshing as a fruit cocktail. With fresh citrus fruits as well as the luscious melons, one need never fear monotony.

Cantaloupe Cocktail.

Cut the edible centers of muskmelon with a small potato scoop into balls. If the fruit and glasses are both chilled, the fruit is much more appealing. Pour over a sauce which has been made and chilled as follows: Take the juice of a lemon, a quarter of a cupful of water and half a cupful of sugar; boil for ten minutes until a heavy sirup is made. Chill, add a tablespoonful of canton-ginger finely minced and a tablespoonful or two of the sirup.

Lemon sauce with a sprig of mint or a mint sauce strained and a little lemon sirup added with a fresh sprig of mint to top the fruit, is especially good with muskmelon. Watermelon is so pretty served this way with an orange sauce.

Chicken With Asparagus.

Cut up a fat chicken and stew until tender, saving the broth. Cook a bunch or two of asparagus or use the canned; cook noodles in the chicken broth, with some of the asparagus water. Have all hot, put a layer of noodles on a serving table, over this a layer of buttered asparagus and on top, the chicken, which has been well seasoned and all bones removed. Celery is especially good with this dish in place of asparagus. Cook it in the chicken broth until tender before cooking the noodles. Keep all the ingredients hot in double boilers until ready to serve. One good-sized chicken with three or four bunches of celery will serve quite a large company. The noodles and celery are so well seasoned with the chicken that a small portion of the latter is all that is needed.

SWINE SANITATION BRINGS RESULTS

(Prepared by the United States Department of Agriculture.)

Practical tests in the South of the system of swine sanitation, developed by federal zoologists in McLean county, Illinois, have yielded encouraging results. The purpose of the system is to control swine parasites by a series of preventative measures based on current knowledge of the life history of swine parasites. Records obtained in southern Georgia by Dr. E. M. Nighbert, of the zoological division of the bureau of animal industry of the United States Department of Agriculture, have shown some striking results from the use of the system. In one contrast between two pigs, the animal raised under sanitary conditions was marketed at four months and twenty-three days of age, weighing 173 pounds and topping the market. The other pig was not sold until ten months of age, and even though more than twice as old as the "sanitary" pig, it weighed only 185 pounds.

Doctor Nighbert reports that a number of farmers are using the sanitation system and are making their herds and farms available for experiment and demonstration. One farmer, in commenting on the results, stated: "It is easy to pick out from my herds the pigs that were raised under parasite control. They all look thrifty and smoother and are much larger for their age and period of feeding than the others. Of course, that means much better profits from those so handled."

Ear Diseases of Swine Said to Be Incurable

Pigs and sometimes hogs become infected and inflamed in the middle ear just as children and grown people have infection and pus in the middle ear where the little bones connect the outer drum with the inner drum of the ear. The middle ear of the pig is connected with the pharynx by a tube—the air tube. Pus forms and may press on each ear drum and sometimes ruptures the other drum. At other times it may pass through the inner drum and infect the middle ear. When a pig holds its head tilted to one side and the ear is sensitive and hurts when you catch it by the ear—just as a dog does when it has canker of the ear—it may be due to inflammation of the middle and internal ears. When the outer drum bursts open and lets out the pus temporary relief from pain may come. A graduate veterinarian may open the drum and give temporary relief. No permanent curative operation has been found for the pig. It is best to fatten an affected pig or hog and make pork out of it. Little pigs so affected from an economic point can be destroyed.

Deficiency in Feeding Is Cause of Paralysis

The causes of paralysis of swine are said to be: (1) Fractures of the loin or back vertebrae; (2) deficiency feed that causes rickets or lack of development of bones in pigs; (3) osteomalacia or removal of bone in grown sows; (4) kidney-worm or kidney fat worms; (5) kidney diseases; (6) injuries to the nerve centers; (7) injuries to the loin and back muscles. The most common cause is deficiency feeding. Feeding brood sows on corn alone, peanuts alone, velvet beans alone, soy beans alone. This means that vitamins is lacking that makes the lime and phosphorus soluble or digestible or assimilable and deposits them in the formation of bone. This vitamin is found in milk, in cod-liver oil, and not in white corn, peanuts, in velvet beans or cottonseed oil.

King Boreas is the man who puts the "ember" in September.

Swine Sanitation Plan

Interesting to Greece

The success of raising pigs in the United States by a method developed by the United States Department of Agriculture for keeping pigs free from intestinal parasites has resulted in requests from foreign sources for a description of the method. One of the most recent letters of inquiry received by the department came from Salonica, Greece.

This demand is one result of the cordial relations which scientists of the zoological division, bureau of animal industry, have with foreign parasitologists. The constant exchange of information and preserved specimens has enabled the United States scientists to build up an index catalogue of animal parasites believed to be the largest in the world.

Hogging Off Peas

The Canadian field pea is a very suitable variety of peas to grow for hog feeding. In a good many localities they are grown and pastured off by hogs during the month of August after they have ripened pretty well. They will provide from four to six weeks of pasture during this part of the year, and if a little corn, barley or mill feed is fed to the pigs while they are pasturing peas, they will do very well and one will get a pretty fair return.

Mung Bean Is Quite Useful

Is an Excellent Poultry Feed and Can Be Used as a Pasture Crop.

(Prepared by the United States Department of Agriculture.)

The mung bean, once known as the Chickasaw pea, is not to be recommended as a general farm crop in the United States, says W. J. Morse, forage crop specialist of the United States Department of Agriculture, but it apparently does have a place in certain systems of our agriculture. At any rate, it is worthy of more attention than it has received in the past.

Excellent Poultry Feed.

The bean is an excellent poultry food, says Mr. Morse, and is used either as a pasture crop when mature or sprouted in the same way as oats for green feed. In a few sections it has been used as a forage crop. A most important factor in the culture of the crop is its freedom from attack by the Mexican bean beetle, which has done so much damage to other crops, especially in the southern states.

In China the mung bean is used extensively as human food, supplying the people with bean sprouts, bean vermicelli, and bean gelatin. As a food crop in America the mung bean will not compete with common field peas and beans, but it may find considerable use for sprouting. Considerable quantities of mung beans are imported into the United States, and have been used almost entirely by Chinese restaurants. The sprouts are familiar to patrons of these places who have eaten Chinese chow mein. Within the past two years several factories in this country have undertaken the canning of mung-bean sprouts, using imported beans. The canned sprouts, which are an excellent article of food, have found a good market.

Many varieties of mung beans have been introduced and tested during the past 20 years by the department and at several experiment stations. The varieties showed a wide range of adaptation, but because of the strong competition by cowpeas and soy beans, which are very similar crops in their uses, the mung bean has never become established. With an increase in the use of canned sprouts, however, the production of mung-bean seed in certain sections can undoubtedly be made a profitable industry.

"The world is round," said Uncle Eben. "Dem astronomers gives a comfartin' argument to de folks dat says it's in bad shape."

BUICK for 1928

FIRST—Buick took vibration out of the engine

NOW—it has taken it out of the road

Now Buick for 1928 has followed with another great contribution to motoring comfort.

Buick has taken vibration out of the road by equipping every Buick with Hydraulic Shock Absorbers, front and rear—an added luxury that the savings of Buick volume have been able to supply.

Test this riding comfort for yourself. We will gladly put a Buick for 1928 at your disposal whenever you like.

Sedans . . . \$1195 to \$1995
Coupes . . . \$1195 to \$1850
Sport Models \$1195 to \$1525

All prices, c. & f. Flint, Mich., government tax to be added. The G. M. A. C. financing plan, the most desirable, is available.

Heaton & Hooper

BOYNE CITY, MICHIGAN

Changed by Earthquake

The series of earthquake shocks felt in the Mississippi valley lasted from the 15th of December, 1811, during 20 or 30 months, until the year 1813. There is record of but comparatively few deaths, since the country at that time was very thinly populated. The configuration of the territory was much changed and several lakes and islands were created.
