VOLUME 32

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 10, 1928.

NUMBER 6

## New Fire Truck In Commission

### EXCELLENT FIRE PROTECTION ASSURED OUR COMMUNITY.

East Jordan's new Fire Truck arrived here last Friday and on Saturday was tested out by our firemen.

It is a Boyer Fire Apparatus, mounted on a Studebaker Big Six Chassis, and includes two 35-gal. chemical tanks. A water pump of 500 gallons per minute capacity at 120 lb. pressure, a hose capacity of 1200 feet, ladders, and sundry equipment.

The new truck was shipped from Logansport, Ind., and enroute to its destination carried a banner, "East Jordan—Lakes, Streams, Sportsmen's Dreams."

In addition to maintaining fire protection in East Jordan, the truck will be used for fire calls in the townships of South Arm, Banks (including Ellsworth), Wilson and a part of Eveline. East Jordan will continue to maintain its former fire truck apparatus in good condition, so that the region affected will have ample protection at all times.

## H. S. Basketeers Get a Setback

### LOST THREE STRAIGHT GAMES IN A ROW.

The High School Basketball team has suffered three reverses in a row against Boyne City, Gaylord, and Harbor Springs in the order named. The results of the Boyne City game should have appeared in last week's issue of the Herald, but was inadvertently left out, entirely unintentional.

East Jordan won a very good game at Boyne City a few weeks ago, but Boyne came back with a rush in their game here Friday, Jan'y 27 to win by a score of 23 to 18—evening the count for the season. The locals after winning six or seven games in succession, showed a distinct reversal of form. This was not true of all the members of the team however. Apparently some of the boys could not stand praise and prosperity for they have it in them to play very high class basketball as shown Tuesday in the game against Harbor Springs.

Boyne City played a snappier and smoother game than East Jordan and by all angles of the game deserved to win. Both teams played a clean article of basketball and the game was won on its merits as the work of August Babel of Traverse City, referee, was faultless as usual. Unless the locals improve a good deal they are going to get real competition at the tournament from Boyne City.

Boyne has a real star in basket shooting in a gentleman by the name of Tryon. No matter which way he turned he threw a basket at every opportunity, accumulating seven field goals during the game. Again little Fox was Boyne City's star floor man. For East Jordan, Taylor and St. Charles played a good game.

Supporters of the team thought that the loss of the Boyne City game would help against Gaylord, but the boys still seemed to be in a slump and although they played Gaylord to a stand still perhaps with the breaks a little more their way should have won the game. At the same time, the season so far showed that East Jordan should be altogether the stronger team so we were a little disappointed when Gaylord took the locals in to camp seventeen to sixteen in a very close, but rather ragged game on the part of the locals. The boys played distinctly under their form and ability, only Taylor and St. Charles hitting anywhere near their regular standard. For Gaylord, Fitzpatrick, right forward, and Merry, center, were the stars. Merry in particular being the out-standing player. Taylor for East Jordan snared eight points for the locals, three field goals, and one foul. Referee—Wile of Manacelona.

It was rather expected that Harbor would win the basketball game rather handily Tuesday night. In justice to Harbor Springs supporters however, we must say that they admitted that there would be a real game of basketball.

The game Tuesday night was one of the most sensational basketball games ever seen on the local floor. Although, as already stated, the locals lost only by the breaks of the game and one point—the game ending 16 to 15 in favor of Harbor Springs. Harbor Springs so far has proven itself to be the strongest team in Northern Michigan, taking the much-touted Petoskey team into camp on

(Continued on Last Page)

## E. J. CITY BAND ELECT OFFICERS

At the annual business meeting of the East Jordan City Band held at the High School building Monday evening, Feb'y 6th, some 25 band men were present and elected the following officers for the ensuing year:

President and Assistant Director—Ervin Hiatt.  
Vice President—Roderick Muma.  
Secretary and Business Manager—F. R. Bulow.  
Treasurer—Roy E. Webster.  
Librarian—Arthur Arnston.  
Executive Committee—Ervin Hiatt, F. R. Bulow, Roy E. Webster, Len Swafford, Robert Pray, and Musical Director, John Ter Wee.

The Band is holding weekly rehearsals this winter and expect to give concerts both in East Jordan and other cities in this region the coming summer.

### MEMBERS OF THE BAND

John Ter Wee—Director and Solo Clarinet.  
Roy E. Webster—Solo Cornet.  
Ervin Hiatt—Solo Cornet.  
F. R. Bulow—Solo Cornet.  
William Taylor—First Cornet.  
Ira Weaver—Second Cornet.  
Clayton Montray—Second Cornet.  
Robert Pray—First Clarinet.  
Francis Kleinhaus—First Clarinet.  
Ernie Hegerberg—Second Clarinet.  
Fred LaLonde Jr.—Second Clarinet.  
Carl Rosenthal—Saxophone.  
Charles McKinnon—Saxophone.  
Len Swafford—Alto.  
Chris Taylor—Alto.  
Kenneth Blossie—Trombone.  
Harry McHale—Trombone.  
Arthur Arnston—Baritone.  
Chester Stenberg—Baritone.  
Gerritt Stenhagen—Drum.  
Claude Lorraine—Drum.  
Roderick Muma—Sousaphone.  
James Green—Bass.

## Lyceum Course 1928-1929

### EAST JORDAN TO HAVE BEST TALENT OBTAINABLE.

One of the finest plays ever produced in America, a lecture of country-wide renown, and the best musical offering that could be obtained from the largest-entertainment booking house in the United States, these are the attractions which will feature East Jordan's Lyceum Course next winter.

At the last number of this year's course, the audience expressed itself as being in favor of bringing a series of high class programs here again next season. Accordingly a committee was formed to confer with the representative of the Redpath Bureau and select the attractions for next year. After a careful study of the local situation and of the numbers that could be obtained, the committee decided that East Jordan people wanted nothing but the best and so the finest lyceum course ever presented in a city of this size in this part of the country is assured for next winter. It was decided to have fewer programs and have them of the very best quality.

The first number will be John Drinkwater's "Abraham Lincoln," a play depicting in an unforgettable way the high points in the life of the great Emancipator. This drama written by an Englishman was first produced in London in 1920. It was an immediate success there and it was brought to America shortly afterward, where it has been hailed as perhaps the greatest play of recent years. It enjoyed long runs in both New York and Chicago and it is now being presented by a touring company in the larger cities of the country. As the character of Lincoln is extremely difficult to portray, there is only one cast now presenting the drama. East Jordan will probably be the smallest city in which this Company will appear next season. All of the stage settings and costumes used in the larger cities will be brought here and used in the production. The performance here will be the only one given in any place north of Traverse City and possibly the only one in Northern Michigan.

The play shows seven of the outstanding events in the life of Lincoln from his nomination to his assassination in Ford's Theatre at Washington. In practically every place where the play has been presented the audience has been so moved by the presentation that applause would have seemed almost sacrilegious.

According to the tentative schedule "Abraham Lincoln" will come to East Jordan during Armistice week when its lesson of patriotism will be most appropriate. The bringing of this play to a city of this size is a civic achievement of which East Jordan people can well be proud. It will cost six hundred dollars to bring

the drama here for just one performance, but the members of the committee felt that the inspiration it will give to the people of the community could not be measured in terms of dollars and cents.

The second number of the course is to be a talk by Private Peat, one of the greatest heroes of the World War, on the subject—"The Inexcusable Lie." Private Peat saw actual service in the front-line trenches and was severely wounded. As a result of his experiences he has devoted his life to making people realize what war really is. His talk concerns one of the biggest problems of the age and he deals with it in a fearless and convincing fashion.

The concluding number of the course will be presented by the Di Giorgio Orchestra, a musical organization which is recommended by the Redpath Bureau as the very best obtainable. Each member of this unique organization is a finished artist and their ensemble work is said to be of a very high degree of excellence.

Although there will be only three numbers on next year's course they will each be of a standard which could be very favorably compared with any entertainment of the kind offered in any city in the country.

This is the biggest project of its kind ever attempted in East Jordan and perhaps in entire Northern Michigan. It demonstrates conclusively again that the people of this community are satisfied with nothing less than the best. The total cost of the course will be \$850.00 divided as follows: The play "Abraham Lincoln," \$600; Private Peat, \$100; and the Di Giorgio Orchestra, \$150.

In order to finance the course a group of twenty-five citizens is being formed. More than twenty have already signed the contract and doubtless others will want to join in this undertaking at a little later date. These people believe so thoroughly in the program that has been selected that they are going to run the risk of financial loss in order to bring these fine attractions to East Jordan. The tickets are to be sold for \$2.00 which is an unusually low price for three such fine programs. In a larger place, seats for the play alone would cost at the very least two dollars and a half. Single admission to the play will be sold for \$1.50.

A plan is now being considered for offering prizes in the grades of the High School and Junior High for the best essays on the life of Lincoln. The prizes will be free tickets to the play, "Abraham Lincoln." In this way it will be possible for several students to earn free tickets.

The following citizens have signed the contract for the course:

Roscoe Mackey, R. G. Watson, W. G. Cornell, L. G. Balch, W. H. Sloan, H. P. Porter, Miss Agnes Porter, A. J. Duncanson, Fr. D. M. Drinan, Robert A. Campbell, Rev. C. W. Sidobotham, Richard Lewis, Glenn Bulow, Clink & Williams, John Porter, A. K. Hill, J. F. Kenny, James Gidley, G. W. Bechtold, Otis J. Smith, Charles Strehl.

The average citizen thinks his opinions are worthy of heavy, black type.

Taxpayers wonder who are the people who put the "on" in bond issues.

Life's little conundrums: What is a tombstone worth to a man after he has been dead 27 years?

You can go all around the world and not find people a bit better than they are in East Jordan.

When the citizens of this community take the words of mail order catalogs in preference to the assurances of merchants of East Jordan it will be time for somebody to enlarge Mr. Barnum's estimate.

## County Fertilizer Campaign

### FERTILIZER DEALERS SHOULD KNOW NEEDS OF LOCAL FARMERS.

Fertilizers were standardized at a meeting of fertilizer manufacturers and agronomists at Chicago a few years ago. The effects of that standardization have not been as complete as was hoped.

Many fertilizer dealers are still handling more analyses than necessary and in many instances analyses that are not adapted to the needs of their particular locality.

There are several important factors to be considered in the use of fertilizers. They are—

- 1.—The type of soil.
- 2.—The type of farming.
- 3.—General soil management.
- 4.—The crop to be grown.

There will be a meeting of the Fertilizer Dealers of Charlevoix County in the office of County Agent Mellenkamp, located at Boyne City, in the building owned by the Boyne City Co-operative Company, on Tuesday afternoon, Feb'y 14th, at 1:30 standard time. At this time points that the Dealers should know regarding fertilizer tests throughout the State will be presented and discussed. The larger the number of Dealers present, the greater the success of the campaign.

The fertility of our soil should be improved and this can be done only by the addition of the proper plant food. The fertilizer dealer is a big influence in his community when it comes to profitable returns from fertilizers.

If you are interested in selling more fertilizers, come to our meeting. Mr. F. W. Trull, Soils Specialist from the Michigan State College will be present to lead the discussion and clear up any points pertaining to fertilizers that the dealers are in doubt about.

B. C. MELLENCAMP,  
Co. Agr'l Agent.

## OBITUARY MATTHEW SWAIN

Matthew Swain was born in York County, Ontario, Sept. 17th, 1860, and passed this life at his home in Echo township, January 22nd, 1928, at the age of 67 years, 4 months, and 5 days.

When a young man, he came to Hillman, Mich., in 1889. On the way to their new home he was united in marriage to Miss Frances May Bullock at Cadillac. They resided at Alanson 17 years, after which the family moved to Echo township, where they have lived since.

To this union eight children were born: Mrs. Flossie Sommerville of East Jordan; Arthur Swain of Flint; Hazel Spence, who passed away in 1923; Harry Swain of Charlevoix; Henry Swain of Lansing; Mrs. Ruth Spence of Lansing; Mrs. Sadie Petrie of Detroit, and Earl Swain, living at home.

He is also survived by one brother, John Swain of Pellston, and six sisters: Mrs. Sarah Blackley of Pellston; Mrs. Moses Wagner of Fife Lake; Mrs. Anna Yates of Port Huron; Mrs. Jennie Eed of Gary, Ind.; Helen Bush of Pellston, and Margaret Stinson of Pellston, besides his faithful wife, and many grandchildren.

Interment was in the Denmore cemetery, Rev. Mumby of Bellaire officiating.—Bellaire Record.

School teachers know a lot about children, but if they want to succeed they have to know a lot about old people.

## ARMY FLYERS AT TRAVERSE CITY WED. FEB'Y 15.

The entire fighting force of Selfridge Field will give a demonstration of military flying over Traverse City, Wednesday afternoon, Feb'y 15.

Major Thomas G. Lanphier will be in command of 14 planes that will visit Traverse City for an overnight stay, arriving about three o'clock the afternoon of the 15th. They will comprise the First Pursuit Group of the Army Air Service and they will make the trip as part of their winter maneuvers from Camp Skeel in Oscoda County. All the planes will be equipped with skis and will land on Boardman Lake.

Major Lanphier writes: "We will give a tactical flying demonstration over the city just before landing."

## Fish Planting By Michigan

### NUMBER AND KINDS PLANTED DURING LAST YEAR.

218,378,106 fish of all species were planted last year in the inland lakes, streams, rivers and waters of the Great Lakes from the State's 17 hatcheries and nursery ponds, according to Fred A. Westerman, Fish Division, Department of Conservation, in a report to Geo. R. Hogarth, Acting Director.

An increasingly large number of fish are being developed to the fingerling stage before planting, the report shows, and these are all being naturally or artificially fed in the hatcheries and nursing ponds.

Approximately 32,500,000 of all fish planted last year were brook, brown and rainbow trout. 1,100,000 were large and small-mouth black bass. 95,634,935 were perch. Approximately 1,000,000 were blue gills. Other plantings were as follows: Lake trout, 3,500,000; Whitefish, 20,000,000; Wall-eyed pike, 58,500,000; Herring, 7,000,000; Grayling, 731,000; Calico bass, 10,000.

The chief function of the Division of Fisheries consist of maintaining satisfactory fishing conditions in Michigan lakes and streams. This involves the propagation and distribution of desirable species, the control and destruction of noxious fish and the regulating of seasons and creel limits.

The present propagation policy of the Division is directed toward providing facilities to rear brook, brown and rainbow trout for several months in nurseries before distributing them to public waters. Physical problems connected with this actively involve the selection of streams that are adapted for planting, particularly brook trout.

The Department does not contemplate introducing additional species of fish foreign to Michigan, but is concentrating all efforts in hatcheries on species that are well adapted for Michigan waters. The Department is co-operating closely with the Federal Bureau of Fisheries to improve conditions surrounding the collection and incubation of commercial species, particularly lake trout, white fish, herring and wall-eyed pike.

## SET NEW RECORD AT FARMERS' WEEK

East Lansing, Feb. 6th.—More than 10,000 Farmers' Week visitors, a new high attendance record, was the estimate made at M. S. C. at the close of the annual agricultural conference last week.

Increased interest and increased attendance were evident in most instances in both the group and general meetings held during the week. For the first time in the history of Farmers' Week, a building large enough to house the huge crowds comfortably was available. The new demonstration hall accommodated all of the general meetings this year, as well as the more extensive exhibits.

Outstanding agricultural authorities engaged to address Farmers' Week meetings, for the most part, pointed to a more optimistic future for agriculture, especially along the lines of dairying and livestock production. Attention was called to the latest discoveries in the line of modern and efficient farm practices resulting from research and experimental work by college specialists.

Meetings of 35 farmers' associations were held during the week, in addition to special programs staged by the departments of the agricultural division of the college.

If smokers had all the money they spent for tobacco in 1927 they would spend it for tobacco in 1928.

The dodging pedestrian will, in a few years, have to look up to keep airplanes from landing on his neck.

## Winter Sports At Petoskey

### CARNIVAL TO BE HELD NEXT TUESDAY AND WEDNESDAY

Petoskey is preparing to entertain distinguished guests on Tuesday and Wednesday of next week on the occasion of her first annual Mid-winter Sports Carnival. Gov. Fred W. Green will be the city's guest for two days and other prominent Michigan officials and sportsmen also are expected. Detroit, Grand Rapids, Lansing, Jackson, Kalamazoo, Muskegon, Saginaw are among the Southern Michigan cities expected to send large delegations, while all Northern Michigan will join Petoskey in the task of playing host. The event, although staged by the Petoskey Winter Club, is not to be merely a city event, but will include the entire region. Charlevoix, Harbor Springs, Cheboygan, St. Ignace, Gaylord, Traverse City and other places have already offered their assistance to the committee in charge and the local workers are planning to make use of this aid in no uncertain way.

An intense two-day program of events will be staged including crowning of the snow queen, Hockey game between teams of Mich. Tech. and M. S. C., ice boating, ski jumping, toboggan sliding, dog team contests, skating contests, etc. Both band and orchestra music will be provided.

## E. J. K. P. INDEPENDENTS DEFEAT BOYNE

East Jordan's K. of P. Independent Basket Ball team defeated the Boyne City Independents at the B. C. H. S. Gym, Wednesday night, by a 30 to 26 score. A good-size crowd were in attendance and the contest was snappy.

### LINE-UP

East Jordan	Boyerne City
Benson	R. F. Manglos
Swafford	L. F. Tooley
Lee	C. Goodwin
Kling	R. G. Judkins
Halstad	L. G. Brotherton
Substitutes, Boyne City—Manglos for Goodwin; Buschert for Manglos; Erber for Buschert.	
Referee—Rouse.	
Timer—Douglas.	
Scorer—F. R. Bulow.	

## GRETA GARBO IS VIVID STAR OF "DIVINE WOMAN."

Manager Glenn Thomas of East Jordan's Temple Theatre has booked a strong attraction for next Wednesday, Thursday and Friday, Feb'y 15-16-17.

This picture is being shown at Grand Rapids this week, and Tuesday's issue of the Press of that city published the following relative to same:

With each new picture Greta Garbo advances in popularity.

The production in which she appears on the screen at the Regent, "The Divine Woman," is much better than its inept title suggests. The picture is a free adaptation of Gladys Unger's play "Starlight," based very loosely upon the life of Mme. Bernhardt. As mere romance and fiction the picture holds the interest of the audience from start to finish.

Miss Garbo is particularly good in the first part of the picture when she comes to Paris, a crude, gauche country girl, meets Lucien, the handsome soldier, played by Lars Hanson, and falls headlong in love with him.

Greta Garbo does some effective acting in the scenes in which the temperamental girl is tortured in the conflict between her love for the stage, her dislike for her patron Legrande and her unquenchable love for Lucien.

Garbo has a peculiar charm. She is not beautiful in the accepted sense, but she has vivid personality, remarkable grace and freedom, and her moods explode spontaneously into bursts of temperament.

Lowell Sherman is suave, polished and subtle in the role of Legrande. Polly Moran, one of the best character actresses on the screens, does some effective work as Mme. Pignier, the laundress.

This is on the whole an excellent picture expertly acted and finely directed by Victor Searstrom.

Laugh whenever you can; the world will be laughing, too.

Some housewives just naturally expect miracles to come out of the peddler's little black bag.

Hesitating subscribers are assured that subscription receipts will be written in February.

We have never met a banker, when a note was due, who was willing to give us what Champion Tunney would call a long count.

## Women Well Satisfied

With Modern Conditions

Ladies and gentlemen of the old school who complain that men of today treat women with none of the old-time gallantry will doubtless be surprised to learn that many modern women prefer it so. For there are compensations.

The attitude of men toward women is nicer than it used to be. The women all seem to think so. And they feel they enjoy being with them more than they used to. It is not hard to explain.

Women are doing so many more things alongside of men, socially and in the business world, and they are beginning to understand the male point of view better; and men are beginning to understand women better. There is more camaraderie. More laughter together. More places of entertainment to which they can both go. Yes, the women like the world better, as well as the men.—Vivian Donner, in Liberty.

Wonderful as is the instrument that pierces the unknown of the skies and interesting as are the footprints of that ancient beast, still more wonderful and far more interesting are the brains of those two men piercing time and distance to learn the lessons of the centuries and the far-off worlds.

To the man who bends over the impressioned stone all the millions of years since the dinosaur walked there, are as an open book. To the geologist the history of the world is as plain as the written tale or the branching of the family genealogy. Upon the blackboard he can sketch for you the story of our earth from far beyond the dinosaur, down to the last layer of forest leaves. He can tell you the story of the ages with as great accuracy as he can recite the unimportant of yesterday.

It is the brain of man that is the most wonderful thing of which the finite knows. It is the ability to think, to reason, to put facts in their proper sequence and draw therefrom the logical conclusion, that surpasses any other of God's creations.

It was the thinking power of man that made the telescope possible and brought it to its present efficiency. It was the thinking power of the human brain that has mapped out the past; placed upon the written page the accurate history of the earth and its inhabitants and made each one of us the heir of all the pages.

And yet there are men who pay more money to their barber than they do to the bookseller; who can find more enjoyment in the banalities of a "show" than in the pages of a history or the written thoughts of the world's great masters.

Why not devote some of the time you waste, or worse than waste, to the acquisition of the wonderful soul-stirring facts that other men and women have dug out of the earth or fished from the stars and written down for the world's enjoyment and betterment?

Good books are plenty and cheap. There is nothing in the world so low-priced as information, intelligence and wisdom. Five cents' worth of fact will be enough to keep you busy for a week if you give it the thought that properly belongs to it.

## SOMETHING TO THINK ABOUT

By F. A. WALKER

THE BRAIN OF MAN

SOME time ago a scientist kneeling on a rock on the eastern shores of the United States, studied with intense care the first known footprints of a dinosaur.

Those footprints were made not less than ten million years ago when the hard rock upon which the record has been kept was soft and yielding mud.

Almost at the same time another scientist on the other side of the country was looking into the largest reflecting telescope that science has ever known and peering millions of miles farther into space than human eye had ever before penetrated.

For the first time new worlds were visible, new solar systems were looked upon.

Light which had been traveling for years at the stupendous rate of 186,330 miles per second flashed upon the observer's retina and told him its story of a world new to human knowledge.

Wonderful as is the instrument that pierces the unknown of the skies and interesting as are the footprints of that ancient beast, still more wonderful and far more interesting are the brains of those two men piercing time and distance to learn the lessons of the centuries and the far-off worlds.

To the man who bends over the impressioned stone all the millions of years since the dinosaur walked there, are as an open book. To the geologist the history of the world is as plain as the written tale or the branching of the family genealogy. Upon the blackboard he can sketch for you the story of our earth from far beyond the dinosaur, down to the last layer of forest leaves. He can tell you the story of the ages with as great accuracy as he can recite the unimportant of yesterday.

It is the brain of man that is the most wonderful thing of which the finite knows. It is the ability to think, to reason, to put facts in their proper sequence and draw therefrom the logical conclusion, that surpasses any other of God's creations.

It was the thinking power of man that made the telescope possible and brought it to its present efficiency. It was the thinking power of the human brain that has mapped out the past; placed upon the written page the accurate history of the earth and its inhabitants and made each one of us the heir of all the pages.

And yet there are men who pay more money to their barber than they do to the bookseller; who can find more enjoyment in the banalities of a "show" than in the pages of a history or the written thoughts of the world's great masters.

Why not devote some of the time you waste, or worse than waste, to the acquisition of the wonderful soul-stirring facts that other men and women have dug out of the earth or fished from the stars and written down for the world's enjoyment and betterment?

Good books are plenty and cheap. There is nothing in the world so low-priced as information, intelligence and wisdom. Five cents' worth of fact will be enough to keep you busy for a week if you give it the thought that properly belongs to it.

## Solved Riddle

After six years of research it has been discovered that nebularium, a gas supposed to exist in various nebulae really is nothing more than an unusual combination of oxygen and nitrogen.

## Big Machinery Saves Much Manual Labor

Comparison Is Made From Records in Nebraska.

One of the best reasons why big teams and big machinery are popular is given in the annual report of the farm records that were kept last year under the direction of the Nebraska Agricultural college. Two farms in Dodge county are compared to show that one man made \$5.32 profit per acre from his corn while another man, even though he got a higher yield, made only \$2.21 per acre.

The first man used four-horse teams and two row implements, while the second planted and cultivated big corn with two-horse teams and one row machinery. The first man had 100 acres in corn, the second only 40. The first got 50 bushels per acre yield while the second got 60 bushels, but the first spent only six hours of his own labor and 25 hours of horse labor per acre while the second man spent 12 hours of man labor and 38 hours of horse labor, per acre.

In making this comparison, the agricultural college men, Mason Yerkes, and A. W. Medlar, who had charge of the farm records work, made it clear that the comparison of how two farmers raise corn may not be a complete comparison of their entire farm profits, but that so far as the corn crop was concerned the man with the bigger teams is actually making about five times as much net profit in the year. He had 100 acres, averaging \$5.32 profit per acre, or \$532. The other man worked on 40 acres and made but \$2.21 per acre, a total of \$88.40.

## Small Flock of Sheep Found to Be Profitable

The live stock requirements of no corn belt farm are complete without at least a small flock of sheep, preferably breeding ewes. There is no other animal a farmer can own that will make use of as much feed that would otherwise go to waste, and no hired man who will mow weeds as cheerfully or as thoroughly as will the sheep. A great many farmers complain that their fences are not arranged for handling sheep, but in the main this excuse is largely imaginary. Of course in order to handle a large flock it is necessary to have good sized pastures but for the average farmer who operates from 80 to 100 acres, the keeping of from 10 to 15 ewes requires nothing more than the ordinary barn lots, door-yard and orchard fences. Barring a mighty keen appetite for rose bushes and other shrubbery at the yard, sheep make by far the most profitable and consistent lawn mower imaginable for yards either large or small. Shrubbery of course may be protected by wire netting drawn about it, or by movable frames which may be shifted into position when it is desired to "mow" the lawn. The flock may be moved about the place from day to day as desired, and all lots may be cleaned up of noxious weeds that other stock will not eat. When the potato vines begin to die down the flock may be turned into the patch to clean up the careless weed and fox tail which nearly always spring up after cultivation ceases, thus doing away with the necessity of having to mow and rake the patch before digging the spuds.

## Bees Need Protection From Cold in Winter

Bees require protection from cold in winter the same as most animals according to Iowa State college.

For helping bees get through the winter, the minimum requirements of food for a good colony is 60 pounds, and it is better to have more. Only stores of the best quality should be used. As to the bees, the ideal condition would be to have all of them emerge just prior to the last killing frost, so that their full strength will be available for winter heat production and leave sufficient energy to give the colony a good start in the spring. It is best to introduce the queen in late summer.

Two general types of winter protection are used; the indoor or cellar and the outdoor or case. If conditions are satisfactory, cellar wintering of bees is a sound practice. Where bees are to be wintered outside, a windbreak of some kind is very important. For real outdoor protection the case method is essential.

## Blighted Trees Should Be Treated in Winter

Blight is a bacterial disease caused by a bacterium growing in the inner bark. It girdles the twig so that the top has to die and the leaves appear as though scorched with fire. The only remedy is to keep the tree as thrifty as possible but not growing too fast. It is customary to sow oats or barley between the trees in June so as to assist in ripening the apple wood in the fall. This checks the growth of the blight. Some varieties of apples blight more than others.

In the winter time all blighted wood should be cut off and burned and then the trees looked over for cankers. These are places along the trunk and larger limbs where the disease is working. From these places the germs come out next spring to spread to other trees. These may be cut out and sterilized with corrosive sublimate or formaldehyde.

Behind every Studebaker and Erskine car are \$105,000,000. In actual net assets and great modern research and engineering facilities.

## Behind Studebaker Performance Records —engineering genius!

AS a result of the engineering genius in Studebaker motor cars, Studebaker now holds all the highest endurance and speed records for fully equipped stock cars, regardless of power or price. Nothing ever ran so far so fast as the Studebaker Commander—25,000 miles in less than 23,000 minutes!

Additional proof of advanced engineering is found in the fact that: Studebaker and Erskine cars may be driven 10-miles-per-hour the day they are delivered. No more tedious "breaking-in" at 20-mile speed. And Studebaker engineers have provided such an ingenious lubricating system that you need change oil but once every 2500 miles.

Studebaker provides its engineering and research staff with the most complete facilities that money can buy. In Studebaker's laboratories, technicians test all raw materials. Over the roads and grades of Studebaker's million-dollar Proving Ground, Studebaker and Erskine models are driven in extended

tests of speed and mechanical endurance.

Because Studebaker builds bodies, engines and chassis for Studebaker cars, profits of outside manufacturers are reduced to a minimum. These savings are passed on to you in the form of higher quality materials and the highest type of precision workmanship—at a low One-Price price.

See the new Studebakers. They will reveal the most advanced engineering of 1928 combined with Studebaker's 76-year-old traditions of quality.

### Values in Four Price Fields

Model	Miles Per H. P. Hour	Price
The President Eight	100 - 80	\$1985 to \$2450
The Commander	85 - 72	1495 to 1695
The Dictator	70 - 65	1195 to 1295
Erskine Six	43 - 62	795 to 965

All prices f. o. b. factory, including shock absorbers.

## J. W. LALONDE

EAST JORDAN, MICH.

Phone No. 69.

### Needles of Ancient Days

The needles that have come down to us from ancient Egypt are very coarse, but it is certain that finer needles must have been made to make the delicate embroidery produced by those people. Judging by the descriptions of embroidery in Homer, the Greeks also must have had very fine needles.

### Abyssinian Funeral

In Abyssinia when a newborn infant dies it is buried under the floor. After the demise of an adult the body is washed in water, sweetened with honey, wrapped in a shroud and sewed up in a mat of braided straw. When the religious ceremony is over the corpse is buried in the churchyard.

### Queer Time Measurement

In the mountains of Montenegro, distance is often measured by the time it takes to smoke a cigarette. They are moderate and presume that a normal cigarette smoker lights one every half hour or so. Consequently, a cigarette's walk would be from one and a half to two miles.

### True Blood

Attorney—Why do you say they are through-and-through gamblers?  
Sheriff—While we were chasing them they were betting on which one of us would capture them.

### Feminine Logic

Binks—Well, patch up all our old troubles, won't we, dear?  
Mrs. Binks—You know I hate patched things. We'll have to have new ones.

### Joke Imported From Paris

Wife—Now that I've had my hair bobbed, I don't think I look so much like an old lady.  
Husband—No, my dear. Now you look like an old gentleman.

### Help Wanted

Tramp—Lady, will you help me?  
Lady—Yes, what is it?  
Tramp (presenting a button)—Please sew a shirt on this.

## STOP RHEUMATISM WITH RED PEPPER

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as Red Pepper Rub. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism-torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, headache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

## Better Health Longer Life!

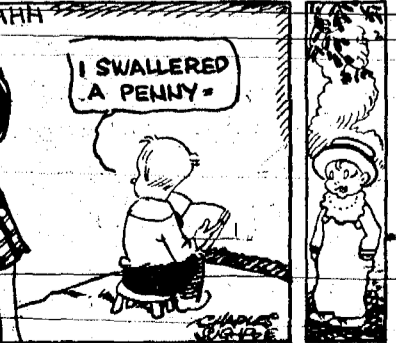

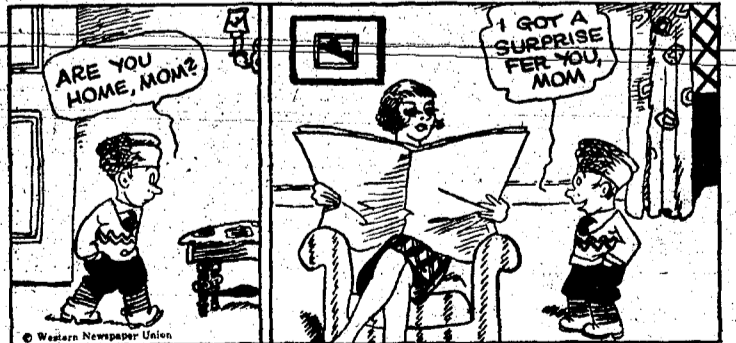

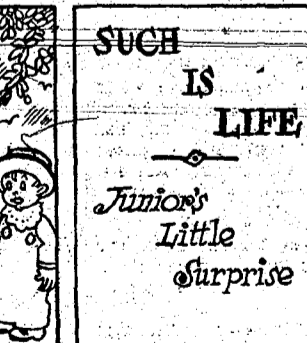

For a normal thoroughly relieving urinal flow, cleansing the system of wastes that poison and impair health, take

## Foley Pills

Duretic  
And feel again the urge of a healthy, active, ache-free body, an alert mind, good appetite, sound sleep. Men and women everywhere have been using and recommending them for years. Try them.

RESTFUL EASE AFTER COUGHING.  
"The result of using Foley's Honey and Tar for a dreadful cough, daytime and at night, was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. The hard cough that follows bronchitis and "flu" is weakening and when it "hangs on" very debilitating. Foley's Honey and Tar Compound puts a healing, soothing coating on a rough, inflamed throat, and immediately eases the irritation that causes the hard cough. Dependable. Ask for it.—Hite's Drug Store. adv.

**YELLOW CORN IS BEST FOR HENS**

Yellow corn should constitute at least 60 per cent of the total rations for laying hens. This is especially important during the winter months when the supply of green food is limited. The chief virtue yellow corn possesses which is not present in white corn is vitamin A which must be provided to maintain the health of the flock. Where rations are devoid of this vitamin the hens will develop a disease very similar to roup. In fact it is called nutritional roup. The eyes water, swell shut, and white pustules form in the throat. Naturally the egg production is very poor. One can tell by observing the color of the egg yolk whether the danger line is near. If the egg yolks are extremely pale, it is a practical index that the ration is low in vitamin A and that vitamin A must be provided, otherwise danger is ahead. This is due to the fact that feeds rich in the yellow coloring matter found in eggs are usually rich in vitamin A. If yellow corn constitutes half of the ration, there is no cause for alarm.

In case it is impossible to feed yellow corn, then it is absolutely necessary to feed some green leafy material such as clover or alfalfa leaves. Pea green alfalfa leaf meal may be used to the extent of 10 to 15 per cent of the poultry mash, or clover or alfalfa hay should be kept in suitable racks before the hens all the time. Some people build a V-shaped rack of staves which will hold a bale of hay. The rack should be high enough off the floor so that the hens may pick easily off the lower corner.

**No Satisfaction in Use of Cheap Paint**

Cheap paint is not cheap. It may cost less a gallon, but it costs more a square foot—that is, paint which is made of inferior materials or inferiorly manufactured. A product may be inexpensive and yet good. The product made of poor materials or the product poorly made is costly, however, an Indianapolis builder asserts.

In the first place it covers less surface a gallon. Under normal conditions, which means a fairly smooth surface and application by an expert brush hand, a gallon of paint should cover from 300 to 500 square feet, two coats. But the inferior product falls far short of the standard. By the time your house is painted and varnished poor materials will have cost as much as good, perhaps more.

Good paint will last three to five years under average conditions. Two years is a maximum for the inferior product. Thus if you consider, say ten or twelve years instead of one or two, the number of gallons used will probably be 50 to 100 per cent greater or less, according to your choice.

Still more important in your ultimate saving is the fact that by far the greatest cost of painting and varnishing is the application. If you must repaint or revarnish every two years instead of every four, the total expense would be increased several fold, even if you spent less money on the materials.

Finally the fundamental service of paint and varnish is protection. If it falls below the standard in giving this service, which it must if the product is poor, the resulting deterioration is costly.

Thus in coverage, wearing quality, cost of application and protective service, a good product is superior to a poor one. No falacy could be greater, no economy more costly, than that of cheap paint.

**Build Permanent Home**

The permanence of the modern home is just as important as the permanence of all other buildings, yet you seldom find anyone as much concerned about the durability of the materials that go into homes as about those that go into schools, hospitals, office structures and the like. The mere fact of difference in size of the buildings seems to have made a difference in the public mind. Yet homes are everywhere acknowledged to be the bulwarks of the country, and the type and number of homes are usually taken as a good criterion of the stability and prosperity of a population.

**Zoning Gaining Favor**

Among outstanding achievements of the last year or recent years, says the Kansas City Times, are the passing of enabling acts in more than a score of states which legalize zoning in cities and towns; the decision of the United States Supreme court which established, in a definite and comprehensive way, the constitutionality of zoning; the growth of the regional planning idea, and notable progress in several large cities in the actual carrying out of zoning and planning provisions.

**Keep Woodwork Painted**

The home owner who remembers that unprotected wood weathers and decays, protects it by keeping it well painted at every point. The tough flexible waterproof film which good paint forms over wood is a needed protection, rewarding the home owner by value and appearance maintained over a long period of years.

**Saving Trees and Shrubs**

When building a home it is advisable to make the contractor responsible for trees and shrubs you wish saved. This may be done by including a statement concerning them in the general conditions of your contract.

**Fence Frames House**

To the artistic eye a home is a picture with the house as the center of interest, around which group, in pleasing composition, those other elements that create an atmosphere of restful charm and quiet privacy.

**MAKING IT SIMPLE**

"Joe, I think I'll write another joke about a window pane."  
"How come, Luke?"  
"Why so everybody'll see through it."

**Had the Wrong Eye**

The doctor gazed into his patient's eyes. "You say you have trouble with that eye?" he said. "But there's something more. On looking at it I see signs of liver trouble, or anemia, and I fear of chronic nervous affection."  
"Look at the other eye, doctor," said the patient. "That is my glass eye."

**Not Necessary**

Jones—I fixed up a match for you with Blinx.  
Smith—Thanks, old man, I hope you told him what a ham I am.  
Jones—No, I didn't. Blinx seems to know.

**Waiting**

"Why did you leave the play after the first act?"  
"Well, we thought we could go home and come back again tomorrow night. The program said the second act took place twenty-four hours later."

**Terrible!**

Mrs. Biggs—Why are you divorcing your husband?  
Mrs. Binks—When I got up in the middle of the night to go through his trousers I caught him going through my vanity case.

**A Generous Offer**

"What is the rent of this room?"  
"Ten marks."  
"Does that include light?"  
"Electric light is extra—daylight is included in the price"—Munich Magendorfer Blaetter.

**Something for His Money**

Walter—Hey! What's the idea of stuffing the tablecloth in your pocket?  
Dines—Well, you charged me two dollars for cover and I thought I'd take it with me.

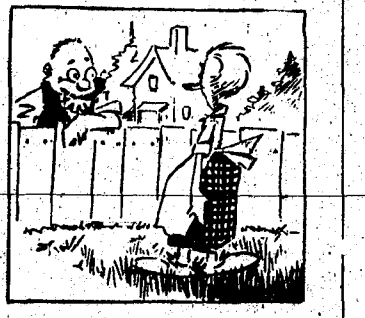

**So Handy**

Bride-to-be—What do you use to clean the carpets?  
Hostess—I've tried lots of things, but I've found my husband the best.—London Passing Show.

**A Sure Sign**

Ann—Eddie proposed yet, Polly?  
Polly—No, dear, but I think he will tonight. He spent most of last evening wondering if rents are likely to come down soon.

**BARRED PLYMOUTH ROCK**

She—I see you keep your black and white hens closely fenced.  
He—Oh, yes; to be sure.  
She—They must be barred Plymouth Rocks.

**Not So Mean as That**

Doorkeeper (at a bad musical comedy to patron who is leaving)—Don't you want to come back?  
Victim—No.  
Doorkeeper—Well, take this pass check, anyway. You can hand it to some chap outside.  
Victim—My dear fellow, I haven't an enemy in the world.—Stray Stories.

**Study and Performance**

"Is your boy Josh learning to be an aviator?"  
"He's takin' lessons," answered Farmer Cornstossel. "We're considerable worried 'bout when he goes up alone next week to show whether he has really learned anything"—Washington Star.

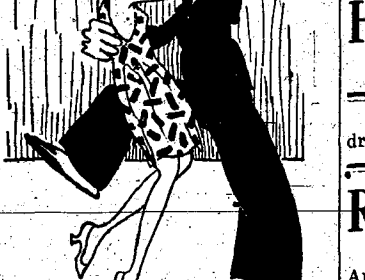

**Then the Row Started**

Mrs. Jones—Of course I need another wrap. Don't you know that I need three coats?  
Jones—Well, I know you did for your face.—Passing Show.

**Better Than Nothing**

The College Graduate—And will you pay me what I am worth?  
Employer—Well, I'll do better than that; I'll give you a small salary to start with.

**EXERCISE**

He—Do you think dancing is a healthful exercise?  
She—Yes, indeed. Ever try it?

Human beings often forget that they are supposed to be human.

**only \$1195**  
**and BUICK through and through**  
**Buick stamina — Buick luxury — Buick performance — for only \$1195.**  
**That's the story of Buick's extra value! Three popular Buick body-types sell at this figure. See them. Compare them with other cars! Your own good judgment will tell you that they offer greater value.**

SEDANS \$1195 to \$1295  
COUPES \$1195 to \$1250  
SPORT MODELS \$1195 to \$1325  
All prices f. o. b. Flint, Mich., government tax to be added. The G. M. A. C. financial plan, the most desirable, is available.

**BUICK**  
WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM.

**Heaton & Hooper**  
BOYNE CITY, MICHIGAN

Any schemer can tell you a hundred ways of making a fortune.

**RHEUMATISM**  
While in France with the American Army I obtained a noted French prescription for the treatment of Rheumatism and Neuritis. I have given this to thousands with wonderful results. The prescription cost me nothing. I ask nothing for it. I will mail it if you will send me your address. A postal will bring it. Write today. PAUL CASE, DEPT. C - 28, BROCKTON, MASS.

**MICHIGAN BELL TELEPHONE CO.**  
Long Distance Rates are Surprisingly Low . . . For Instance

**for 95¢**  
Or Less, After 8:30 P. M.,

You can call the following points and talk for THREE MINUTES at the rates shown. Rates to other distant points are proportionately low.

FROM EAST JORDAN TO:	Night Station-to-Station Rate
AKRON, OHIO	.90
ANDERSON, IND.	.90
BUFFALO, N. Y.	.95
CLEVELAND, OHIO	.85
DAYTON, OHIO	.95
DULUTH, MINN.	.95
FORT WAYNE, IND.	.80

The rates quoted above are Station-to-Station night rates effective from 8:30 p. m. to 4:30 a. m.

A Station-to-Station call is one that is made to a certain telephone, rather than to some person in particular.

If you do not know the number of the distant telephone, give the operator the name and address and specify that you will talk with "anyone" who answers at the called telephone.

Day rates, 4:30 a. m. to 7 p. m., and evening rates, 7 p. m. to 8:30 p. m., are higher than night rates.

A Person-to-Person call, because more work is involved, costs more than a Station-to-Station call. The rate on a Person-to-Person call is the same at all hours.

Additional rate information can be secured by calling the Long Distance operator

**MIGHT HELP**

"Jack is a terrible backbiter."  
"Well why do you wear your dresses so low?"

**Terrible Smash**

First Farmer—That city girl is sure dumb.  
Second Farmer—How so?  
First Farmer—She looked at my windmill and then wanted to know if anybody was hurt in that airplane wreck.

**Smaller Places Not Losing Their Ground**

In view of the general impression that all the young folks are leaving the rural districts to go to the city, it is interesting to notice that the village still maintains its existence and shows no signs of disintegration. Through the country are scattered countless thousands of small towns, frequently located well in the interior and at a great distance from any sizable city at all. These were settled, or at least founded, a long time ago. It might be thought that since cities are constantly growing and devouring more and more territory these towns would be drained of population.

But instead of disappearing the average small town has calmly maintained its existence, not always growing rapidly, perhaps, but not losing ground, either. Now and then a new house goes up, or a new business opens its doors to local employees, or a new store brightens the main street with its attractive display. Some of the residents take up lives in the faraway city, but others move into the town. These may be either city people who are satisfying a lifelong wish to live in the country, or they may be farmers who have sold their acres and retired to spend their late years in the sociable atmosphere of the village.

So the life of the place is renewed, refreshed and invigorated.—Exchange.

**Trees Require Care for Good Condition**

There are so many decrepit, unkempt, battered and broken trees in all localities that people often wonder if it is really possible to keep trees in a thriving, vigorous condition.

The old unsightly wrecks of trees are frequently a menace and an eyesore to the community. A tree that is not a thing of magnificent beauty is not worth having. And ordinarily there is little reason why trees should not be kept in good condition.

The principle of taking care of trees is the same as the principle involved in taking care of any other living thing. If attention is not given to defects, and diseases in youth, then it is certain that disintegration and early death will follow. Pretty much the same thing holds true with people.

The expense of removing decayed areas from trees and installing necessary sectional concrete fillings in the cavities, and the cost of other measures that may be required to restore a tree to health and beauty, is necessarily greater if trees are left to decline almost to the point of death before help is given to them.—Chicago Post.

**Results of Limestone Application on Fields**

The result of experiment on 27 Illinois experiment fields indicate that manure residues with lime is the most profitable system of soil treatment over the larger part of the state. Applications of limestone are worthwhile. On light colored soils limestone is 20 per cent more effective with live stock than with grain systems. Fine ground limestone is effective with the first crop, coarse ground may not be effective until the second or third crop.

A single application of limestone of four tons per acre made 15 years ago made a return of \$33.04 per acre over unfertilized land in that time.

**Hints for the Farm**

Delay in making repairs doubles the ultimate cost.

Proper and prompt attention to lubrication and repair should be the first consideration in prolonging the life and usefulness of farm implements.

Winter jobs for the tractor: Grinding feed, snow removal, sawing wood, running corn sheller and husker shredder, crushing limestone, straw and hay baling.

Rotation of crops is of some benefit in the control of corn smut since the disease is known to increase in virulence when corn is grown continuously on the same land.

**Land Value Governs**

The less expensive the lot the more money is left for the house itself, and a well-constructed home on a cheap lot is far more desirable than an unsatisfactory house on an expensive lot. Although a house that is very much more expensive than its neighbors might be hard to sell at a good price, a very cheap house may add nothing at all to the sale value of an expensive lot.

**Fosters Desire to Create**

The desire to create, to fashion something with one's own hands, is unquestionably the foundation for much of the real accomplishment so characteristic of home-loving people, who more than ever are taking constructive interest in their surroundings.

**Beauty Real Consideration**

We are living nowadays in a world where beauty is a real consideration and the ideal to be striven for, and where color and design are recognized as contributing a most important element to the homes in which we live.

**Coast Was Clear**

A woman engaged a new maid, who answered the door one afternoon. A man asked if her mistress was at home.  
"Yes," replied the maid, "come right in."  
"But," stammered the visitor, "perhaps she's engaged."  
"Oh, she's engaged all right, but he's out of town for a week, so you needn't be afraid. Come right in."—London Tid-Bits.

**Good Business**

Stranger—I say, keeper, how is it that last year there was a board here with the notice, "No noted viewpoint," and now it has been replaced by one, "Private entrance forbidden"?  
Keeper—Well, trustees of the property decided that the "Entrance forbidden" board attracted a great many more people!

**Charlevoix County Herald**  
G. A. LISK, Publisher.  
Subscription Rate—\$1.50 per year.  
Entered at the Postoffice at East Jordan, Michigan, as second class mail matter.

**AFTON**

Mr. and Mrs. Chas. Shepard, Mr. and Mrs. Chas. Hayner, Mrs. Ida Hayner, and Ed. Sandle were guests of Mr. and Mrs. Bert Lumley and Miss Sidney Lumley, Sunday.  
John Vrondran and son, William, and L. Henderson were at Boyne City Thursday, looking for a prospective purchase in horses.  
Carl Grutsch has purchased the Warner farm and will install Alva Davis as manager in the Spring. The present occupant has bought the Ira Bradshaw farm and will move to his new home soon.  
R. E. Pearsall went to Petoskey, Friday, to have the spare tire holder on his car repaired.  
Elmer Lewis and family have moved from the Roy Sherman farm to the Penny Bridge, near Alba, where he has work cutting wood.  
Mrs. Herbert Sutton and Mrs. L. R. Hardy visited Afton school Friday afternoon.  
Mr. and Mrs. John Hott spent Sunday at Chas. Hott's.  
Mrs. Eugene Raymond has been very ill, and was unable to obtain a visit from a physician, owing to the amount of snowfall and subsequent condition of the roads. She grew steadily worse, so she was put in the car, and drawn by horses to the State road, thence to town by motor. She is still reported quite ill.  
Mr. and Mrs. Chas. Hayner, Mrs. Ida Hayner, Ed. Sandle and Mr. and Mrs. Chas. Shepard visited at Seth LaValley's in East Jordan, Wednesday evening of last week.

The J. L. and Herbert Sutton families were entertained by Mr. and Mrs. Archie Sutton of Boyne City, Sunday.  
Mr. and Mrs. James Poulls and daughter of Boyne City were guests of Mr. and Mrs. R. E. Pearsall, Sunday.  
George Allen, an old-time resident of this township, and a brother of Mrs. Wm. Tillotson, died at the County Farm last Friday.  
Seth LaValley and daughter of East Jordan called on his father, Geo. LaValley, Sunday afternoon.  
Harriet Kaake dined with her sister, Leona, at Silver Leaf Farm, Sunday.  
Mrs. Henry Timmer was a Petoskey shopper, Friday.  
Mrs. Ed. Nowland was the guest of Mrs. J. L. Sutton, Thursday of last week.

**RANNEY DISTRICT**  
(Edited by Mrs. R. Evans.)  
Irving Crawford returned home from Camp, Tuesday morning.  
Mrs. Gordon and sons took dinner with Mrs. I. Crawford and family, Sunday.  
Mrs. N. Liskum and granddaughter had dinner with her sister, Mrs. James Nice and family, Sunday.  
R. V. Liskum had dinner with Mrs. Heileman and family, Sunday.  
R. Evans was a Boyne City caller last Friday.  
Mr. and Mrs. Seymour Burbank and children spent Sunday with Mr. and Mrs. R. Evans and family.  
Mrs. Fred Martin called at the Evans home Sunday evening.  
Mike Addis of Miles Dist. called at the Fred Martin home, Monday.  
Archie and William Murphy, and their cousin, Clyde Baldwin, all had dinner, Sunday, with the former's brother, Chas. Murphy and family.  
The Ranney school scholars surprised their teacher, Miss A. Murphy, and Gardelle Nice with a party Friday night. The occasion being their birthdays. There were 19 in attendance and all reported a fine time and a fine luncheon.  
Friday night is Grange night, also will have fourth Degree supper.  
Mrs. A. Lanway of East Jordan visited at the Harrison Ranney home over Sunday.  
Mrs. R. Evans and little daughter, Evelyn, called on Mrs. S. Burbank and family Saturday afternoon.  
Anyone having a good second-hand baby buggy for sale, please call phone 122-F21.

(Delayed Correspondence)  
Mr. and Mrs. James Isman called on Mr. and Mrs. Jas. Canda, Tuesday afternoon.  
Mr. and Mrs. Wm. Hosler were Ellsworth callers one day last week.  
James Isman received a letter from his nephew, Emmett Isman of Lake Land, Florida, stating that he liked the climate, but has no particular desire to locate there, and thinks he shall come back further north in the Spring.  
Mr. and Mrs. A. Barkley called on R. Evans and family, Sunday.  
Mr. DeMayo is hauling hay to East Jordan from the Fred Nachazel farm.  
Mrs. Gordon and sons called at the I. Crawford home Monday night.  
Gerald Nice called at the Liskum home Sunday afternoon.  
Chas. Murphy was a business caller at James Secord's, Tuesday.  
Mrs. Murphy received word from Pat Murphy, who is attending school at East Lansing, stating that he spent the week end visiting relatives in Grand Rapids.  
The Murphy Bros. are receiving a visit from their cousin, Clyde Baldwin of Alba.  
Claude Pearsall of East Jordan called on R. Evans, Tuesday.

**MILES DISTRICT**  
(Edited by Mrs. E. Miles)  
Mrs. Bert Elliot and grandson, Albert, of Phelps took dinner with Mr. and Mrs. Fred Bancroft, Saturday.  
Harold Reed returned to his home in East Jordan Saturday, after spending the past week with his grandparents, Mr. and Mrs. J. Moblo.  
Mr. and Mrs. E. Miles were Sunday dinner guests of Mr. and Mrs. E. St. Charles and Mrs. F. LaLonde of East Jordan.  
Robert Reed of East Jordan spent Friday night with his grandparents, Mr. and Mrs. Jerry Moblo.  
Mrs. Fred Bancroft is attending her sister-in-law, Mrs. Herbert Evans and infant son, who is very ill in East Jordan.  
Mr. and Mrs. Carl Moblo and Mr. Merrit Shaw of East Jordan spent Sunday with the former's parents, Mr. and Mrs. Jerry Moblo.  
You can do a lot to make East Jordan grow by giving it a square deal.  
People will seldom agree on any subject, and less quickly upon religion.  
Not every time a man asks a friend for a loan does the friendship continue.  
If some people could borrow as much money as they could spend the world would be out of money in two or three months.  
Mrs. Joel Bennett of Honey Slope

**PENINSULA**  
(Edited by Mrs. E. Hayden)

Word has been received by the James Arnott family that the relatives who motored up from Huron Co., to attend the funeral of Mrs. Arnott, and returned Feb'y 1st in that awful blizzard, got home all safe and sound.  
James Arnott and son, Wilfred of Maple Row farm, motored to Charlevoix on business, Monday.  
A. Reich, who came to his home—Lone Ash Farm, Tuesday evening to attend the funeral of Mrs. James Arnott, Wednesday, returned to his job in East Jordan, Thursday afternoon.  
Mrs. Elwood Cyr returned to her home in Boyne City, Friday, after spending the week on the Peninsula.  
The Eveline Gleaners held their election of officers Friday evening. Chief Gleaner, Ray Loomis; Vice-Chief, Orval Bennett; Sec'y-Treas., Bertha Staley.  
Friends here will be interested to learn that Mr. and Mrs. Gus Nicaise, who made many friends while they lived here, are managers of a Smith store in Detroit. Mrs. Nicaise was formerly Miss Eva Sweet, who was born and raised here on the Peninsula.  
Master George Woerful of Gravel Hill spent Saturday night with Master Edward Faust at Mountain Ash farm.  
Geo. Papineau of Boyne City spent the week end with his daughter, Mrs. Orval Bennett and family at Honey Slope farm.  
Joe Morrison and Mr. Goodrich of Boyne City was on the Peninsula, Monday, buying young cattle and veal.  
Mrs. J. W. Hayden of Orchard Hill received a long distance telephone call Sunday morning from Grand Rapids, from her son, Derby A. Hayden, saying a little son had arrived Feb'y 4th, who would answer to the name of Derby A. Jr. Mother and son were doing well, at a hospital.  
Leslie Arnott of Maple Row farm returned to Star school Monday, after a week's absence.  
Mr. and Mrs. Sam Arbuckle and sons, Billie and Keith, of Boyne City called at the James Arnott home, Sunday.  
Charles Healey who has been ill for some time with stomach trouble is somewhat improved.  
The Star school began serving hot lunches at the noon hour Feb'y 6th.  
John Price of Kenneth came Friday and visited his sister, Mrs. Chas. Healey and family, Monday.  
Mrs. Frank Healey of Lansing, nee Edna Benson, who has been caring for her mother, Mrs. Mead Benson at Charlevoix, visited the Chas. Healey family from Saturday to Monday, then she returned to Charlevoix again to see her mother, before returning to Lansing. Her sister, Mrs. Will Provost of Detroit has come to care for her mother for a while. Mrs. Benson is a great deal better, but is still confined to her bed.  
A. B. Nicloy is threshing his beans.  
Rudy Coon of Boyne City is hauling hay from the John Sanford place to Boyne City.  
Mr. and Mrs. Lyle Willson motored to Petoskey Sunday to visit their daughter, Miss Anna, who is at a hospital there. They report her able to be around the hospital some. They expect to go Tuesday to bring her home if she is able to come.  
Fishermen are having real good luck lately. Joel Bennett of Honey Slope farm claims to be King Fisherman, will try to get the exact number next week.  
The coasting is excellent and large parties enjoy the moonlight. A large party gathered from miles at Dave Staley's Hill Saturday evening and frolicked until a late hour.  
Fred Croll, of Dave Staley Hill, is confined to the house with rheumatism.  
Mrs. T. J. Hitchcock and son, Burton, of East Jordan visited Mr. and Mrs. F. K. Hayden at Orchard Hill, Sunday. They all motored to Boyne City in the afternoon.  
The Caterpillar Tractor and big County snow plow, plowed the cross road from the County road by Bunker Hill and Star schoolhouse to the lake shore drive, Tuesday, so cars could be used for the funeral of Mrs. James Arnott of Maple Row farm, but the blizzard of Tuesday night and Wednesday filled them again. A large force of men with shovels worked all the forenoon trying to keep the road open but to no avail, but the county truck plow came from Boyne City way right ahead of the cars and hearse which came out from Boyne City, and waited until everything was ready and returned right ahead of the procession, so a great many, attended the services. Returning, the cars came as far as the Fred Wurn place, where they were met with teams and taken the rest of the way. Mr. Adwood Sheaffer brought the family all the way home with his car, and Mr. Arbuckle brought the pall-bearers as far as Star schoolhouse.  
There was no school at Star school Feb'y 1st, in honor of Mrs. James Arnott. She had been Treasurer of the District for several years, and one of the Leaders of the Home Economics Club ever since it was started until this last time when ill health prevented her.  
Mrs. Orval Bennett of Honey Slope farm had the misfortune to scald her ankle and foot very painfully Thursday, when the tea kettle of boiling water slid off the kitchen range and the water splashed on her.  
Mrs. Joel Bennett of Honey Slope

**NOWLAND HILL**  
(Edited by Mrs. C. M. Nowland)

Mr. and Mrs. Omar Scott and children spent the week end with her parents, Mr. and Mrs. Albert Nowland.  
Mrs. Charles Nowland and Mrs. Harrison Kidder of East Jordan called on Mrs. Ed. Nowland Friday afternoon.  
Miss Esther Shepard of Afton visited Mrs. S. K. Nowland Thursday.  
Mrs. John Martin of Mud Lake is visiting her mother, Mrs. Louise Bergman of East Jordan.  
Mr. and Mrs. Chester Shepard of East Jordan visited Sunday at the home of Mrs. Shepard's nephew, Mr. and Mrs. Ray Nowland.  
Mr. and Mrs. Edd. Nowland visited Monday at the home of Mr. and Mrs. E. S. Brintnall. They found Mr. Brintnall much improved in health.  
Mrs. F. H. Wangeman spent Monday with the James Arnott and F. D. Russell families. Mrs. Russell is suffering with a severe nervous spell.  
On Tuesday evening, Jan. 31st, Mr. Pete Sommerville of East Jordan undaunted by the storm, but then it wasn't storming, "Hitched Old Dobin to the Shay" and proceeded to keep an appointment with Miss Goldie Boyer, Mountain Dist. school teacher, who boards at the Loren Duffy home, but on arriving, found Miss Boyer had gone to her home on the west side of South Arm lake, nothing daunted Mr. Sommerville proceeded to the place, leaving the horse stand covered with a blanket and overcoat while he went in the house, after a pleasant call and a thorough warming, Mr. Sommerville came out to start for home only to find the horse had taken the back track. The only thing to do was to follow. In a short time he found the overcoat and later the blanket, which he carried to the Mountain schoolhouse and left. By this time the worst storm of the season was on but the horse knew no shelter but his own warm stall in East Jordan, so there he went, with Pete in the wake of the blizzard around both. Well they arrived. If you want to know how far, just put the indicator on your car some fine day next summer and find out. Advice to old and young, always tie your horse.

**This Hurling Age**  
Of course we are all the creatures of our age. The luxuries of yesterday become the needs of today. If we were suddenly transported into the days of our grandparents we would find the manner of life unbearable. They traveled by stage or on foot, and arrived on time. Today the fastest express trains scarcely meet our needs, and we are continually seeking for faster means of transportation and communication.

**DEER CREEK DISTRICT**  
(Edited by Mrs. Tom Kiser)

Roy Parks is helping to run the Dam.  
Frank Lenosky lost a valuable cow with milk fever a few days ago.  
Milford Winstone called on the Carson Bros. last week.  
Henry Carson has been driving a new horse for the last week or so.  
William Holstad spent last week end with Richard Carson.  
Frank Trojanek and son, Clarence called on his brother, Albert, Sunday of last week.  
The road from Mr. Franseth's home to the Dam has been so full of snow that Mr. E. Bayliss had to walk that far to his work, leaving his car at the corner.  
Walter Thorsen and Forest Rogers who have been very ill with colds, are both out of doors again.  
Kit and Dell Carson snowplowed their roads, one across the fields to the main road, and one to Kit's cottage, last Friday.  
Ray Williams and family took dinner, Sunday, with Mr. and Mrs. Geo. Etcher.  
Joe Etcher and Tom Kiser have been cutting wood the past few days.  
Mrs. Jos. Etcher called on Mrs. Richard Murray last Wednesday.  
Tony Gilmore and family visited Dalton Gay and family Sunday last.  
Mr. and Mrs. Jos. Martinek called on Mr. and Mrs. Geo. Etcher, Mr. and Mrs. Joe Etcher and Tom Kiser and family last Thursday morning.  
Mrs. Barney Bayliss and children visited Mrs. Ray Williams, Sunday evening.  
Saturday evening, Mrs. Ray Williams and children were callers at the Herman Hammond home.  
Richard Carson spent a few hours with Tom Kiser and Joe Etcher one day last week.

**Presbyterian Church**

**MYRTLE E. TAIT, Prop'r**  
BYERS & BOSS, Auctioneers.  
W. G. CORNEIL, Clerk.

**H. S. BASKETEERS GET A SETBACK**

(Continued From First Page)

their own grounds a week ago. Everyone attending the game felt that East Jordan had made a sensational comeback, for it isn't just the winning or the losing of one particular game they are interested in, but they are thinking of what the locals are going to do in the near future and at the tournament in particular, where the championship is really decided.

The boys not only surprised their most ardent supporters but also shocked their Harbor Springs friends by running up a score of 7 to 1 before they hardly realized they were in a basketball game. The half ended 12 to 7 in favor of the locals. Captain Taylor and his men retained the lead to within a couple of minutes of the end of the game and only the hardest kind of breaks gave the game to Harbor Springs with the score 16 to 15. For East Jordan the whole team played a stellar article of basketball. Lee, a new man, played like a veteran. For Harbor, McBride played sensational basketball. Referee—Babel of Traverse City.

**Council Proceedings**

Regular meeting of the Common Council of the City of East Jordan, held at the council rooms, Monday evening, Feb'y 6, 1928.

Meeting was called to order by the Mayor pro tem. Present: Mayor pro tem, Gidley, and Aldermen Ross, Taylor, Watson, Sedgman and Williams.

Minutes of the last meeting were read and approved.

Moved by Alderman Watson, supported by Alderman Williams, that the City purchase from the Mich. Iron & Chemical Co., a parcel of land comprising twelve lots, together with the buildings thereon, for the sum of \$1,850, same to be used for cemetery purposes. Motion carried by an aye and nay vote as follows:

Ayes—Ross, Taylor, Sedgman, Watson, Williams and Gidley.

Nays—None.

The following resolution was offered by Alderman Williams, who moved its adoption; seconded by Alderman Ross:

Whereas, in the matter of the purchase, by the City of East Jordan, of a Boyer fire fighting truck, the townships of South Arm, Wilson, Banks and part of Eveline have each contributed a considerable amount toward the purchase price of the same, therefore,

Resolved, that in consideration of the several amounts so paid, the City of East Jordan does hereby agree to equip, man, and keep in condition the said fire truck, and furnish as much fire protection to said townships during the life of said truck, as the weather and condition of the roads will permit.

Adopted by the council of the City of East Jordan on the sixth day of February, 1928, by an aye and nay vote as follows:

Ayes—Ross, Taylor, Watson, Sedgman, Williams and Gidley.

Nays—None.

Bills were presented for payment as follows:

Howard Cook, work at pump-house	\$ 8.40
John Whiteford, digging graves	20.50
Standard Oil Co., gas & oil	6.51
City Treas. paym't of labor	139.00
Miles Battery Shop, labor on fire truck	1.90
Mich. Bell Tel. Co., rentals and toll	12.43
Mary Green, blowing siren	15.00
Everson-Ross Co., police club	2.71
Goodman & Bohn, mose	34.02
John Ter Wee, salary	50.00
Otis J. Smith, salary	35.00
Henry Cook, salary	125.00
Bert Reinhart, labor	1.00
Reid & Sherman, labor and material	30.39
Northern Auto Co., gas, etc.	2.36
Elec. Light Co., lighting Sta.	535.00
Elec. Light Co., pumping	143.20
Wolverine Sign Co., adv. sign	60.00
E. J. Co-op. Ass'n, coal, etc.	17.51
Lakeside Garage, gas, oil, etc.	56.86
Buttroughs Add. Machine Co., service	3.85
Grace Boswell, salary	60.00
G. A. Lisk, printing	24.85
Boyer Fire Apparatus Co., Fire Truck	2,900.00

On motion by Alderman Ross, the bills were allowed by an aye and nay vote as follows:

Ayes—Ross, Taylor, Watson, Sedgman, Williams and Gidley.

Nays—None.

On motion by Alderman Sedgman, meeting was adjourned.

OTIS J. SMITH, City Clerk.

**SHORT TALKS BY THOUGHTFUL MOTHERS**

A New England Mother says, "Our children are very susceptible to coughs and colds. Being located some distance from town, we felt the need of a good dependable cough medicine, and when our druggist recommended Foley's Honey and Tar Compound as the best in his experience, we accepted his judgment gladly. For coughs, croup, whooping cough, troublesome night coughs, bronchial coughs, we have tried it time and again, always with complete satisfaction."—Hite's Drug Store. adv.

So far, the conference at Havana has been very quiet.

**State News in Brief**

East Lansing—Leon Monkowski, of Gaylord, is the potato champion of Michigan for 1927, by virtue of winning the sweepstakes at the State Potato Show held at the Michigan State College in connection with Farmers' Week.

Lansing—Regularly employed state conservation officers are authorized to carry concealed weapons without a permit, the attorney-general held. He ruled conservation officers have similar duties and privileges to sheriffs or other peace officers.

Marine City—Rowboats, equipped with runners are being used by rum runners to run their liquor across the St. Clair River. Such a boat with a cargo of 480 pints of beer was found abandoned on the ice recently by Federal border patrol officers.

Lansing—J. E. Watson, of Bronson, wrote to W. W. Potter, attorney-general, inquiring whether the village could by a two-thirds vote levy a two mill property tax to assist in maintaining a commercial club. The reply was that under the Michigan constitution it could not be done.

Cass City—The body of William Glassbury, 55 years old, local widower, was found on the railroad tracks half mile from the local Grand Trunk station by a section crew recently. It is believed that Glassbury who was deaf, was struck by a freight train while he was walking along the track.

Lansing—Abandonment of two branch-railroad lines is proposed in petitions made to the Michigan Public Utilities Commission. The Grand Rapids & Indiana wants authority to abandon its Waboon Lake branch, and the Duluth South Shore & Atlantic seeks to abandon its road from Humboldt to Republic in the upper peninsula.

Pontiac—A hair singe used to be quite the thing at the barber shop, but nowadays it's rather out of date. Joe Page, somewhat unconsciously revived the old practice one morning with results that were almost disastrous. He went to sleep smoking a cigaret and the pillow caught fire. Joe's hair was burned off when the fire department arrived.

Grand Rapids—The body of Mrs. Cornelia Kopp, 67 years old, was found here recently under the ice in the duck pond of John Ball park, where, it is believed, the woman ended her life after disappearing from the home of a niece, Mrs. Almond Debrus, on December 20. Attracted by the peculiar actions of the ducks at an opening in the ice where a small stream feeds the pond, Hugh Griffey, caretaker, saw the woman's head as it bobbed to the top of the water.

Corunna—Mayor Freemont Bovee is serving his third year as executive of Corunna. He has lived in Corunna about 25 years, and for about 18 years has conducted a grocery store here. He and Mrs. Bovee recently celebrated their 50th wedding anniversary. Although he is more than 70 years old, he works daily behind the counter of his store and does his own delivering. Mayor Bovee is a member of the Methodist Episcopal Church and a Mason. He has two married children.

East Lansing—A contest conducted by the animal husbandry department of the Michigan State college in estimating the weight and value of four work horses was won by Harold Laycock, of Mason. Laycock estimated within 20 pounds of the weight of the horses and within \$25 of the value set by a committee composed of G. A. Branaman, of the animal husbandry department; W. A. Jennings, of Paw Paw, and H. W. Knapp, of Monroe. Seventy-six Farmers' Week visitors entered the contest.

Flint—With the number of idle increasing and street panhandling becoming a habit, Flint, through its police department, has put up an embargo on unemployed men entering the city. Officers met several bus loads at the city limits recently and turned the drivers back to Missouri when the tourists showed no visible means of support. In one bus 20 men had less than \$3 in a total pool of resources. Efforts are being made to keep the unemployed out of Flint for the protection of Flint's stable population.

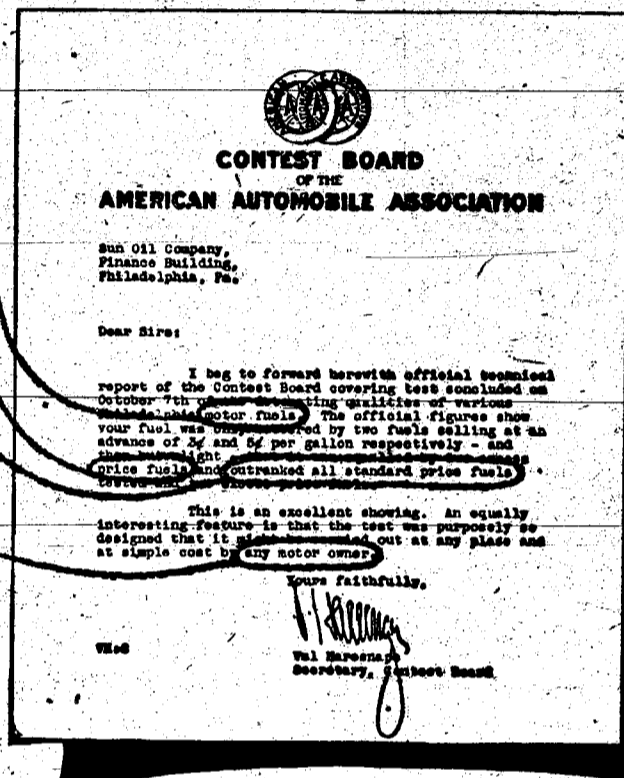

Lansing—Payments totalling \$1,000,000 on the state's highway reward debt to the counties have been mailed by the highway department. This payment and another of a similar amount April 1 will reduce the debt to about \$4,000,000, including the roads not yet approved. The law provides two \$1,000,000 payments shall be made each year. Wayne received \$98,098 of the distribution. Other amounts are Kalamazoo, \$39,773; Jackson, \$38,808; Macomb, \$20,831; Genesee, \$54,137; Hillsdale, \$11,882; Huron, \$27,711; Ingham, \$19,725; Monroe, \$18,829; Oakland, \$49,369; and Saginaw, \$34,790.

Lansing—Attorney General W. W. Potter has threatened the 50 gasoline companies operating in Michigan with state intervention if they cannot explain why fuel prices differ according to localities. He pointed out that in several towns all companies sell gasoline two and three cents higher than in adjoining communities. "If the companies have agreed to keep prices unnecessarily high in some communities, the state certainly will attempt to break up such a combine under the anti-trust law," the attorney general said.

**The American Automobile Association proves, in an official test of 15 leading motor fuels, the high KNOCKLESS QUALITIES of BLUE SUNOCO**

and yet BLUE Sunoco sells at regular gas price

Read Mr. Haresnape's Letter:

15 well-known motor fuels tested

Only 4 extra-priced fuels equalled Sunoco

Outranked all standard-priced fuels

Similar tests can be made in your own car

BLUE Sunoco, now available in this city, is the same knockless, quick-starting, high-powered motor fuel which is taking the East by storm.

BLUE Sunoco is a pure petroleum product, non-poisonous and harmless. Its unexcelled quality is obtained by careful and scientific methods of manufacture rather than by the addition of foreign substances

EAST JORDAN CO-OPERATIVE ASSOCIATION DISTRIBUTORS EAST JORDAN, MICH.

**You save from 3 to 5 cents per gallon**  
—because BLUE SUNOCO sells at regular gas price

**Providing Winter Dust Bath Quite Important**

During one of the periods of dry, clear weather, a supply of dry, fine-grained soil should be stored in a place where it will neither get wet nor freeze severely during the colder months. Nothing has been found that quite takes the place of a dust bath for hens. Of course, we can rid them of lice by treatment with sodium fluoride, blue ointment or a commercial louse powder, but these do not replace the enjoyment that a hen gets in dusting herself in a box of dust or mixture of dust and ashes. And the chance to dust herself is particularly enjoyed during the winter months. Thoroughly dry, well-pulverized dirt stored in a dry building in boxes or barrels or even bags will add greatly to the comfort and contentment of the flock throughout the winter.

**Keep the Tramps Out**

A plan that will keep the tramps out of town is worth more than any scheme for taking care of them after they get there. An arrangement for putting them to work seems desirable from two viewpoints. It would probably keep many out and it would also provide a means of handling any that drifted in despite the reputation of the town for putting vagabonds to work. Anniston (AIA.) Star.

**Housefly Ages Rapidly**

The housefly becomes full grown in about four weeks.

**Structure's Probable Life**

Determination of the average useful life practically to be expected for buildings of every principal type is the purpose of an investigation, being made by the National Association of Real Estate Boards. The work is being carried on at the request of the United States bureau of internal revenue. The bureau is seeking thus to obtain data which may be used in determining the rules to be followed in computing the depreciation and obsolescence of real estate improvements as allowed under the income-tax law.

**Where Home Owner Counts**

Generally there is little inclination to question the statement that the home owner is the best citizen. There are many reasons why he should be. Chief among them perhaps is the greater interest he naturally takes in the affairs of his community. And just as he displays an interest in his city so may he be expected in an even larger proportion to evince the same interest in his home. In seeing that it is kept in repair, the grounds in order, the shrubbery trimmed, the whole ensemble a source of pride.

**Fire-Resistant Garages**

The built-in garage can be made fire resistant, and on every such job the builder should make sure that he is doing the work the right way.

**Materials Necessary for Producing Eggs**

Every egg must have a shell. Bones also require minerals. Both bones and shells are largely made up of calcium. Without the necessary calcium, laying hens will lack the materials necessary for producing eggs. Even though enough other feed may be supplied to furnish the necessary materials for a large number of eggs a hen cannot lay more eggs than she has shell material for. Considerable experimental data has been compiled which shows definitely that a plentiful supply of minerals has a marked effect on the number of eggs laid. In addition to a plentiful supply of oyster shell or other high calcium mineral, hens need free access to a supply of sharp sand to aid them in digesting their feed. These items represent a small cost to the producer but make a large difference in the net returns. Growing poultry also requires a liberal supply of minerals. In addition to calcium, many producers are mixing from four to five pounds of bone meal with every 100 pounds of mash. Bone meal furnishes phosphates in addition to calcium and therefore aids in bone growth.

**Lace From Century Plant**

The women of Fayal in the Azores, make beautiful lace from the fiber of leaves of the century plant.

**SULPHUR CLEARS ROUGH, RED SKIN**

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm. It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowley's Mentho-Sulphur from any good druggist.

**Dog Prized in Alaska**

Nowhere in the world has the dog such unrestricted right of way as in Alaska. In winter, when more than 900,000 square miles of territory are sealed up in solid ice, dogs are almost the sole means of getting from place to place—in fact, they seem necessary to life. The aristocrats of Arctic dog life are the mail teams in the service of the United States government.

The modern flapper is doing best to help the scolded uplift.
