Lake Charlevoix Is Exempt

FROM PIKE FISHING CLOSING ORDER OF LAST NOVEMBER

Twenty-six inland lakes in which northern and wall-eyed pike predominate have been exempted from the closing order of the Conservation Commission in November, closing lakes of the State to all fishing from April 1 to June 15th, according to George R. Hogarth, Acting Director Department of Conservation.

Wall-eyes may be caught with hool and line after April 30 in the following lakes, the opening date approxi-mating the time when this variety of fish have finished spawning; Gogebic Lake, Sunday Lake and Cisco Chain in Ontonagon and Gogebic counties; Schlatter Lake, Keweenaw County the two Pickerel Lakes and Lake Michigamme in Marquette County; Antrim Lake, Alger County; North Manistique and Muscalonge Lakes, Luce County; McDonald, Gulliver and Indian Lakes in Schoolcraft County; Lake George, Little Lake George Hay and Mud Lakes in Chippewa Co. Manistique, Whitefish and Pike Lakes in Mackinac County; LAKE CHAR-LEVOIX, CHARLEVOIX COUNTY East Twin Lake in Montmorency County; Otsego Lake, Otsego County; Houghton and Lake St. Helen in Ros-

Trout and pike fishermen and resort business men alike will approve of court. of the new ruling of the Department which allows pike fishing May 1st as it will relieve congestion in streams and save many trout that would otherwise be caught, while pike enthusiasts will be allowed to follow their favored sport, and the resorter who depends on a fair amount of his annual business from the latter group will MUCH NEEDED EXTENSION SEnot be deprived of his usual profit.

The original closing order prohibiting all fishing from inland lakes from April 1 to June 16 was made with a view to protecting bass and car fish than pike during their spawning season.

Lakes that are known to be fairly well stocked with bass and other fish that do not spawn until late were not included in the exempting order, but the Department is investigating others in the State to determine which are and which are not "pike lakes."

THE LINCOLN MEDAL **ESSAY CONTEST**

The Lincoln Medal Essay Contest

is conducted each year by the Illinois Watch Company of Springfield, Ill. Any school offering High School courses, or their equivalent, whether in the United States or abroad, is eligible to enter. The authorities in each school may decide the nature of the essay to be written and who the judges shall be. It is customary in our school for only the seventh and eighth grades to compete in this contest. This year it was decided in the of Lincoln, but to place greater stress

him was promoted in each contestant planning a surprise party for the

fully engraved medal is each year awarded to the pupil whose essay is adjudged the best. The head of Lin- Grandmacoln on the medal has been reproduced from the painting "Abraham Lincoln," considered the best likeness of Peter him, and produced by the famous portrait painter, Douglas Volk. On the back of the medal a space is arMis' Trot Dorothy McKinnon
ranged where the winner's name may Mis' Carry Ellsworth of Thelma Mcranged where the winner's name may be engraved.

This year the eighth grade won the first three places. Rea Healey was presented with the medal, Mon day, in assembly by Rev. Sidebotham second place was awarded to Eloise Davis, and third place to Vera Mon troy. Margaret Wilber, seventh the citizens of East Jordan to trade grale, won fourth place. Much of with the merchants of East Jordan as the success of the contest was due to the co-operation of Mrs. Empey, Li- of keeping the money of our citizens brarian, Palmiter's Jewelry store and in the common barrel, where it will other members of the community.

CIRCUIT COURT JUR-ORS, FEB'Y TERM

The following list of Jurors have been drawn for the February term of Circuit Court for Charlevoix County which convenes next Monday, Feb'y

Oscar Larson, South Arm Twp. Peter Stanek, Wilson Twp. Mrs. Clive Hutton, Boyne City, 1st Ward.

Willard Sickels, Boyne City, 2nd Mrs. Leo Smith, Boyne City, 3rd Ward.

Andrew A. Beeman, Boyne City, 4th Ward. Josephine Krulik, Charlevoix, 1st

Ward. Ralph Bacot, Charlevoix, 2nd ward Bert Beaudoin, Charevoix, 3rd

Ward. John McKinnon, East Jordan, 1st Ward.

Frank Zitka, East Jordan, 2nd

Ward. Dan Kale, East Jordan, 3rd Ward. Adron McCune, Bay Twp.

John Martin, Boyne Valley Twp. Earl Eastwood, Chandler Twp. Ed. Norton, Charlevoix Twp. Earl Griffin, Evangeline Twp. Chas. Coblentz, Eveline Twp. Neeland Baker, Hayes Twp. Bert Woodward, Hudson Twp. Sam Straw, Marion Twn. W. H. Murner, Melrose Twp. Anoline Sharrow, Norwood Twp. Daniel Bonner, Peaine Twp. Seventeen criminal cases appear on the docket for the February term

Extension To Route Four

CURED BY CONGRESSMAN BOHN.

Through the efforts of our Congressman, Frank P. Bohn, the petitioners on East Jordan R. F. D. No. 4 have been granted a mail service extension of two miles which will enable the Rural Mail Carrier to deliver mail to their farms.

Patrons benefited are:-Alb. Dvorak George Brown Ed. Swoboda Joe Wanel Frank Havlik Walter Bowen Chas. J. Stanek Earl Bricker M. C. Bricker Nels Nelson Charles Sulak

This new service becomes effective March 1st. This extension to Route 4 has been much needed, and Post master Stroebel is pleased to be able to give better service to these pa trons, who heretofore have been obliged to travel from one-half to three miles for their mail.

ASSEMBLY PLAY

Monday afternoon, members of the eleventh and twelfth grade English classes, under the direction of Chas. English department to have the essays Rogers, presented for Assembly a deal more briefly with the biography one-act play-"Neighbors," by Zona Gale. The play is concerned with on an appreciation of the great quali- neighborhood life in a small town ties of Lincoln's character. This where people are "just folks." The would better seem to carry out the impoverished Widow Ellsworth rethe Watch Company: "To ceives a letter announcing that she aim of the Watch Company: "To ceives a letter announcing that she increase knowledge and admiration is to have the care of a small boy, of kincoln among all school children." orphaned by the death of one of her relatives. The neighbors conspire to earnest effort to learn more about as the quality of the essays show. The widow, where food, clothes and toys essays were judged this year by Supt. are to be brought for the child. The A. J. Duncanson, Miss Grace Gardie, child does not arrive, to the disapand Rev. Sidebotham, who based pointment of the neighborhood, but their decisions on: appreciation of the friendliness of spirit shown Lincoln, adherence to historical truth, warms the heart of the widow. The and quality and style of expression. players and the director deserve much Through the generosity of the praise for their intelligent interpre-Illinois Watch Company, a beautitation of the play and the lively way in which it was presented. Will Build **Grand Stand**

FAIR ASS'N PLANS THIS AND OTHER IMPROVEMENTS.

The Executive Committee of the Charlevoix County Agricultural Soeiety, together with President F. R. Bulow, and Secretary, Kit Carson, met at the parlors of the Peoples State Savings Bank in this city last Saturday to formulate plans for the coming meeting of the Association this fall.

Among other things, it was decided that a new grand stand was a necessity, the old one being obsolete, and it was decided to build a substantial structure this summer to be in readiess for the Fall exhibit.-

Dates for the 1928 Annual Fair are Aug. 28-29-30, the last Tuesday, Wednesday and Thursday of August.

1 TEAMS ENTER **BOYNE TOURNEY**

At the present writing, entry clarks for the 26th district Basketball Tournament at Boyne, City have received from ten outside schools. It is expected that two or three others will forward applications within the next few days. The disrct tournament which is to be held the Boyne City Gymnasium on

hursday, Friday and Saturday, Mar. 2, and 3, is for the Basketball hampionship in Class C and Class D chools from. Emmet, Antrim and arleveix Counties.

Of the elever schools registered r the local tourness end, six hove at red Class D and the remaining for

PONTIAC TO BE HOST TO STATE FRUIT MEN

East Lansing, Feb. 14.-A meetng of the Michigan State Horticultural Society at the Roosevelt Hotel. Pontiac, Feb'y 28 and 29, is announced by H. D. Hootman, Secretary of the Association.

Many phases or orchard practices will be discussed by men prominent in the fruit industry, both in Michigan and in neighboring States

The management of orchard soils, the geography of Michigan fruit areas, and the backyard fruit garden are topics that will appear on the program the morning of Feb'y 28. The speakers will be John Sims, soils specialist, Michigan State College; W. S. Toothacher, Birmingham; and R. J. Coryell, Birmingham.

Retail markets for farmers will be the subject for a talk by Isaac Bond, Pontiac, in the afternoon. E. F. Palmer, Ontario, Canada, is assigned the topic of "Peach Cutural Practices in Ontario." and Judge Arthur J. Tuttle, Detroit, will give a description of the methods used in producing fruit in nis orchards. is orchards.

The use of dusts as aids in increas

ing the timeliness of insect and disease control work, the selection of spray materials, and the importance of the honey bee in securing proper pollination in orchards are assigned as topics for specialists from Michigan State College, Thursday a. m. Feb. 29.

Frank Farnsworth, Waterville, O. and G. V. Branch, director of municipal markets, Detroit, are the after noon speakers.

navy.

ANNUAL BANQUET Basketball Team Again Winning

AT TRAVERSE CITY.

(Traverse City Record-Eagle) Saturday, Feb'y 11th.

Despite the fact that Captain Ollie Martineau made one of the gamest losing fights ever seen on a local bas-ketball floor, St. Francis High went down to defeat at the hands of a stellar little East Jordan combination, 26 to 18, in the second game Friday night. Martineau rang up fourteen of his team's total, and appeared to be the only Parochial who was a fair match for Coach Harry Lee's fast-passing Jordanites. St. Francis needs Stanek and Moran badly, and cannot hope to keep in the Class C swim without them.

A determined battle on the part of the locals kept the score close through out, although East Jordan never lost the lead. In the third quarter, the Catholics crawled up to make the count 14 and 16, but that was their dying bid. East Jordan's teamwork remained smooth and effective. Led

by Captain Taylor, who himselfcounted thirteen points, the Northerners exhibited a flashing floor game overcomes their diminutive

In the closing minutes Taylor hooked a pair from immediately under that made victory decisive. Sanborn, scrappy midget St. Francis forward, and Center Volk each dropped in a field goal for the Parochials in the course of events. St. Charles was another scoring menace of the visiting quintet, and Guard Barnette is particularly adept at working the ball up to tallying position.

Coach Vern Emerson reports he expects Stanek, fast regular guard of last year, will be eligible for the Catholic team next week; and that should help matters. Referee Louis Moran handled last night's clash exceptionally well.

Score by quarters: East Jordan _____9 7 3 7-26 St. Francis ____6 2 8 2— EAST JORDAN FG FT St. Charles, F 8
Taylor, F (C) 4
Lee, C 0 Barnette, G_____ Weaver, G_____ Shepard, G_____ ST. FRANCIS Martineau, F (C) Sanborn, F Volk, C Hickey, G Ommen, G Huellmantel, C Referce, Moran, Traverse. Tim-

ers, Olsen and Spruit. Scorers, Buward Holliday. Time of quarters,

TOA DEFEATS ELK RAPIDS, 20 to 15.

East Jordan's High School Basketball team journeyed to Elk Rapids last Thursday afternoon and after a very hard fought game, they won their first encounter on the tripto 15. Elk Rapids is always hard to defeat on their own court and this was no exception to the rule. It took very good playing as a team to win this game. Taylor and St. Charles played a very good game, closely followed by the rest of the line-up. As has been the case lately, the team played as a unit and it is a little unfair to pick any individual out as the star. For Elk Rapids, Denerney played a stellar game

The next day, Friday, the team continued on to Traverse City, where they played the fast St. Francis High School boys. The account of the game in the Traverse City Record-Eagle tells the story better than we could ourselves.

Coach Lee took the following men on the trip: St. Charles, Taylor, Lee, Barnette, Weaver, Shepard, Peters, and William Halstad, all but Peters got into the game.

The boys are playing a strong game and with Elk Rapids here Friday night, local patrons without ques tion will see another good basketball

EAST JORDAN LUMBER CO.

THE BUSINESS OF GETTING WELL

By THOMAS ARKLE CLARK

Dean of Men, University of

Illinois.

HAVE not had much personal ex-Sperience with illness. I have had 00 busy a life to "enjoy poor health." If I have not felt well at times i have said very little about it, have gone about my affairs, and the trouble has cured itself. Not that I want to give the impression that I do not believe in illness—there are active geyms in the world ready to pounce down and conquer the susceptible, I know. and glands and organs and curious appendages in this complex body of ours which are sure to get out of order. I have just been lucky. The berms have looked me over, have shaken their heads and passed on to a more

savory victim.

I have not often consulted a physician. Occasionally I have submitted myself to his hands to be thumped and tested and examined to see that everything was working as it should. I am told that 95 per-cent or at least same, high percentage of people who are ill would get well whether they consult a doctor or not. Of course, they would suffer longer and more severely, but they would finally come around.

I had a slight injury to one of my loints a few months ago which did not yield readily to treatment, but rather grew worse. I had the most expert advice on the matter that I could get and followed it. It was the advice of sympathetic and wholly unselfish friends which interested me most. I had never before suspected how many people had been in the same lituation as i now found myself, and in what various and curious ways they had found relief.

"It's rheumatism that's the matter with you," Bland sald to me. "We all get it as we grow older. Now I had the same thing. What you need is mas sage, and then soak a red flannel cloth in turpentine and bind it about the joint and you'll be all right in no time. Now try it; it's simple, but effective."

"There's a man over in Ohlo who will fix you up," Grogen suggested. "A wonderful man! He isn't a doctor, but the way he can straighten out troubles like yours is amazing. You ought to see him."

"What you need," Blake said to me—he had heard about my trouble and came a long way to see me—"is n osteopath. You know they may not be regular doctors, but they do know all about bones and joints and things. I was in an awful fix with my knee—worse than you are—and I just went to an osteopath. You don't need to all envene who's treating you."

"It's your tonsils," the next friend suggested. "You'll have to have your tonsils out," and the next one thought It was probably my teeth or gall stones, or a bad digestion which was at the root of the matter. All sorts of lotions and medicaments and appliances were suggested to me, no two alike, and no two persons giving the same advice.

It is a complicated business, this business of getting well, and one which every other man knows far better than you do yourself.

Cocoa Ermine Coat for
Afternoon and Evening

An attractive coat for both aftermoon and evening wear is worn by
Helen Costello, Warner Bros. star. It
is made of cocoa ermine and trimmed
with white ermine, at a fits loosely
enough so that it can be worn comfortably over a bouffant dress. With
it is worn a smart evening hat of
green georgette and a green georgette
scarf.

The question that wrecks all agreements to outlaw war and abolish armaments is this, "Suppose one nation forgets that war is outlawed?"

THE PROUD COW

MY NAME is Meety Cow and I have no horns. Moo, moo, i have no horns," repeated Mrs.

"Moo, mco, moo," said Mrs. Black Poll Cow, "I haven't any horns, either."

"The same is true of me," said Mrs. Red Poll Cow, "and what is more, none of our little ones have horns, as they follow our example,

"We don't mind it because other cows like the horns. It's just not our way."

"Why talk of horns and whether you have them or not?" said Miss Jersey Cow. "The important subject to be talked about is that of milk."

"Milk is important," said Madame
Jersey Cow. "Oh, yes, there is noth-

"The important Subject to Be Talked About is That of Milk."

ing so important except perhaps cows themselves and good food for them to

eat."

"Well," said Miss Jersey, "I do give milk. There is no mistake about that "Now the Guernsey Cows give good rich_milk, too. They are much the same as we are. They belong to the

same great family."

"Ah, yes," said Miss Guernsey.
"that is true.

"The Jersey and the Guernsey give the rich milk. Now the Holstein ladies say that they prefer quantity to quality."

"True," said Madame Holstein, "I would rather give a lot of milk than

a small amount of very rich milk such as the members of your family do

"It is nice, of course, to give rich milk, but I think it is nicer to give lots of milk. Now, the way we do means that many, many more people can have milk than if we did as, you all do.

"You are not so generous as we are That is simply a family way of yours But when you do give, you give hand semely. That is the way of the Jersey and Guernsey families.

"Now I hold the world's record for the amount of milk given—for the greatest amount of milk ever given, I do not mean that I, myself, hold this great record, but the Holstein family holds it.

"A Holstein cow has been known to give one hundred pounds of milk a day! "There is nothing selfsh about that

Nothing small or stingy.
"Ah, yes, our family holds the world's record for generosity in milk

giving."
"Well," said Miss Guernsey, "we're
good-sized cows and we think that
some cows should not think only of
quantity but should think of richness

and such important things.
"We're rather rich looking curselves, splendid looking we've been
told, and we want to give the kind of

"Sometimes we've been fed up and given some of the Jersey milk to make us fat." said one of the Holsteins," for we are fed well when we're out prize winning; or are hoping to be prize winning cows.

ing to be prize winning cows.
"We're fed well all the time, of course, too.

"I do believe that we hold the butterfat record, for we've given eightpounds of butter a day—apiece

"Ah, they have a silo on the farm, and they thresh corn for us for the winter time. "But we do our work."

The Holstein family wore spotted black and white coats and Miss Jersey wore a lovely fawn-colored costume.

But they talked no more now for a while as it was milking time, and they all went and lined up so as to be all ready.

They felt quite satisfied with what they could do and in the talk they had had.

THE WHY of SUPERSTITIONS B, H. IRVING KING B, LEONARD A. BARRETT

HOW TO FOLD BILLS

THERE is a superstition wide spread through the country that in folding your money you should fold the bills lengthwise if you would prosper financially. If you fold them short across you will always be "hard up." The basis of this superstition is very easy to come at. It is purely sympathetic magic—like preducing like, what is associated in thought is associated in fact. When you fold the bills lengthways the money remains at its greatest length-literally the "long green," not curtailed nor stunted. If you fold the bills across you diminish them in length-apparently cut them in two, curtail them. Folded in one way they represent money extending and folded in the other money cut off. There you have clearly the association of ideas and the association of ideas brings about, by sympathetic magic, the association of actual

The superstition is a felklore primer one but is interesting as showing how the human mind, even without the aid of tradition, unconsciously evolves in terms of sympathetic magic—an example of the persistence of the subconscious primitive in man's mentality.

How It Started

By JEAN NEWTON

THE "DRAWING ROOM

In This day of servant troubles and the three-room suite with kitchenette we do not hear so much of the drawing room as we used to. However, where there is the luxury of a house we do still find, occasionally a relic of the formal partor style of room called the drawing room. In England incidentally, in quite small "villas," as they call suburban houses, the term is still used, even though the room designated is what we would call a living room.

On its face the word "drawing room' gives not the slightest hint of its origin—yet how obvious once it is revealed! For it is merely a contraction for the original "withdrawing room," to which the ladies withdrew after dinner while the gentlemen say

For Meditation

TAKING A CHANCE

FOR several miles the automobile endeavored to pass but every effort proved impossible. The car ahead keeping the middle of the road, blocked the way. In sheer desperation an attempt to pass was made but the shoulders of the road were loose and down went the car into the ditch. It was a costly risk. The automobile was damaged, but no loss to human life. A narrow escape!

The driver took a chance, in a caimer mood he might not have taken the risk. The hazards of speed play havor with one's judgment. A damaged automobile can be easily repaired, but so cial and economic conditions sesuiting from mistaken judgment are not so easily adjusted. A foolhardy risk is likely to result in a disaster.

We are fiving in a 60-mile-an-hour age. Judgment is frequently sacrificed to speed. In order to procure results quickly we take chances unwarranted by either wisdom or common sense. The average man is likely to trust too much to luck.

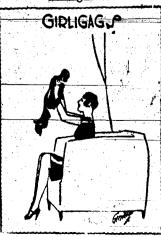

There is an important difference between taking a gambler's chance and an investor's calm precaution. If one can afford to lose, the former may be justified; but the latter is the wiser plan if the investment of either money, time or energy must needs declare a dividend.

Be sure that the "sim" on your gun a properly set before you fire.

is properly set before you fire.

When convinced that you are right, without a reasonable doubt, then go ahead. The sacrifice of judgment to speed is folly.

speed is folly.

"Money may talk," says Impecualous Imogene, "but it takes a descrito raise a yel,"

Big Crops Cost More to Market

Distributing Channels Take More on Each Bushel Than for Small One.

It costs more to market each busher of a large crop of corn or potatoes or apples than it does to market a small crop. In years when a crop is large the spread between prices in producing centers and consuming centers is more than when the crop is small, says Dr. G. F. Warren agricultural economist at the State College of Agriculture at Ithaca. N. Y.

More for Large Grop.

"One would assume that a large crop could be passed through the channels of trade at less cost for each bushel than a small crop" he says. "This may be true, but the distributing channels take more cents for each bushel for a large crop than for a small one.

"When there is a very large crop the price in the producing area which, of course, has a surplus, goes down and this increases the spread between farm and retail prices. This differ ence is also apparent in a comparisor of farm prices in regions which do not produce enough for their own needs with regions that have sur-

"An average of several years when the country's apple crop was below normal, shows that farm prices of apples in Rhode Island were 23 cents above New York-farm prices; while an average of several surplus years shows that this difference increased to 28 cents. In large-crop years, however, although both Rhode Island and New York prices dropped, the greatest drops were in the surplus-producing section.

Not Restricted to Apples.

"The principle that the channels of trade take a larger part of the price of a large crop than of a small crop. is not restricted to apples. For eleven years, when the United States potato crop was small, the spread between the farm price at Batavia, N. Y., and in Rhode Island averaged 27 cents It ten large-crop years, the spread was 31 cents. In twenty years when the United States corn crop was small, the average Chicago price of corn was 13 cents above the lowa farm price, and in (wenty years when the crop was large, the average spread was 14 cents. The same principle also applies to hay."

Proper Hatching Dates Boost Winter Laying

A good deal of the trouble withpullets dropping off in production in the fall may be prevented by hatch ing the chicks at the proper time in the spring. So observations by the poultry department of the New Jersey College of Agriculture show.

It is a good plan to hatch from onequarter to one-third of the ficek of. Leghorns between January 15 and March 1; so that these birds will star laying in the summer and maintain production when the adult birds are failing. During the month of March and as late as April 15 any of the heavy breeds may be hatched. From April 15 until May 15 the bulk of the Leghorn flock may be hatched; they will start laying about November 1 and ought to continue through the winter and spring.

If lights are used many of the earlier-hatched birds also can be kept from molting in the fall, but the dates given here are for flocks where lights are not used. Such a schedule, however, will work out satisfactorily either with or without lights, but if the birds are not under lights then this schedule must be followed to prevent fall moiting. Birds that molt and then begin to lay again are subject to colds, chicken pox, and other complications, so it is wise to have them start laying at such a time that their production will not be interfered

Hints for the Farm

which will prevent smut in corn.

An acre of inoculated alfalfa nets
150 pounds of attrogen from the air.

Good seed costs very little more
than poor seed, but it insures more

bushels per sere.

Protecting the hirds that live in your farm wood lot is a valuable in-

vestment for the growth of that wood

Treating the seed for smut may coat a few cents for labor and material but it will make dollars in yield and qual-

Good ventilation in birns or other places where animals are kept will greatly reduce the amount of frost deposited.

Plan for liming sour land on which you expect to plant clover, aifalfa, barley, sweet clover, Canada field peas, or canning peas or beans.

With heavy bedding for cold weather, the manure accumulates rapidly. There is no better time to hant it to the fields. Then all its leaching goes cate the soil where it is needed.

POLICY Of PROCESS

A STATEMENT by GENERAL MOTORS

T is the policy of General Motors to maintain continuous improvement, in every one of its car divisions, with no interruption in production.

This means that you enjoy the benefits of new engineering developments promptly — just as soon as they have been thoroughly tested on the 1245-acre Proving Ground.

It means that you can now order the new Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle, Cadillac, or GMC Truck, and receive immediate delivery.

Behind this policy of continuous improvement is an organization so widespread and resourceful that it can make and sell quality automobiles more economically than any automobile manufacturer in the world.

In the north and south it logs and mills its own lumber. In the east it makes its own ball bearings and radiators. In the middle west it produces its own plate glass. Its plants are busy in 33 important American cities.

From almost 5,000 suppliers, its materials are obtained—steel by the hundreds of thousands of tons—wire by the tens of thousands of miles—upholstery by the acre—nuts, bolts and washers by the millions. Its sales and service take place through 33,000 dealers. More than 275,000 families look directly to General Motors for their livelihood—almost a million and a half men, women and children in every community in the land.

Meaning so much to so many, General Motors has felt a supreme obligation to look ahead.

Are there methods by which General Motors cars can be better built to better serve?

Are there new ideas which can increase the

utility and pleasure and safety of motoring?

Are there new materials which can add to owner satisfaction?

Such are the questions that all General Motors engineers have always asked. The answers have made it possible, year after year, to offer an increasing measure of beauty in design, modern performance, riding comfort and distinct style. Thus in every price class, from Cadillac to Chevrolet, purchasers are constantly benefiting from the General Motors policy of progress.

RESTFUL EASE AFTER COUGH-ING.

"The result of using Foley's Honey and Tar for a dreadful cough, day time and at night, was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. The hard cough that follows bronchitis and "flu" is weakening and when it "hangs on" very debilitating. Foley's Honey and Tar Compound puts a healing, soothing coating on a rough, inflamed throat, and immediately eases the irritation that causes the hard coughs Dependable. Ask for it.—Hite's Drug Store. adv.

State News in Brief

Berkley-Driving his flaming coal truck to the fire station here, Reuben Malmgren called firemen who extinguished the fire, which had ignited the coal in the truck. The fire started from a faulty exhaust.

Lansing-The office of Atty-Gen. W W. Potter will assume the task of collecting \$122,069 due for the care of 269 persons in state hospitals. O. B. Fuller, auditor general, informed the State Administrative Board he had sent out dunning letters over a long period, but without effect.

Adrian-Henry D. Phillips, Lenawee County supervisor of the cam-paign for the control of the corn borer, announced here he has a supply of stubble beaters ready for farmers in this vicinity. The results from the use of these machines on several acres of corn land have been satisfactory, he declared.

Grand Rapids-The industrial development of Southern Michigan Is forcing the butter producers of nearby areas out of business, but is creating a new butter producing district in the northern part of the state which will more than offset the losses, dairy machinery salesmen at the Michigan Allied Dairy Association's convention agreed here recently-

Grand Rapids-A youth who happened to be passing, saved the life of Nicholas Conrad, 78 years old, by pulling the aged man from the Pere Marquette rathroad track after he had sat down upon a rail to wait death under the wheels of a flier. He once was an inmate of the county infirmary and told officials he did not care to return. He has lived here 45 years.

Lansing-The appointment of H. D. Ruhl, of Michigan State College, as director of fur resources of the state was announced recently by the Conservation Department. Mr. Ruhl will make a study of the fur-bearing animals of Michigan and give what assistance he can in the establishment of the fur industry. His first studies will be of the beaver, muskrat and mink.

Flint-Appropriations of \$200,000 each for the construction of a new postoffice at Flint and the remodeling the postoffice at Pontiac, are carried in the current Postoffice Department Appropriation Bill, reported out by the House Committee on Appropriations. The total cost of the new Flint postoffice is to be \$560,000. The bill contains an appropriation of \$18. 000 for the Detroit River Marine mail service the same amount allowed last

Lansing-The \$25,000 plant of the American Woodenware Co., at Manistee, which the State seized for taxes, sold for \$50 by mistake and regain ed through a law suit, is to be sold to the Manistee Board of Commerce for \$1,500. Approval of the deal has been voted by the State Administrative Board. The Board of Commerce, which has a tenant for the factory agrees to assume the claims for city and county taxes. The amount to be paid the State represents the State axes and the cost of the lawsuit.

Pontiac-Talk about service! W C. Anderson parked his car at the Fisher Body plant and went to work. Someone came along and took it away. A few hours later the car was driven through a stop light at Detroit and an officer stopped the driver and arrested him. The ownership of the car was traced to Pontiac. The Detroit police communicated with de tectives in Pontiac and the car and prisoner were brought to Pontiac When Anderson quit work at 4:30 there was a detective with his car so he could get home.

Mt. Clemens—Major Thomas G. Lanphier, Selfridge field, flight.commander, announced here that he expected to fly to St. Louis to meet Colonel Charles Lindbergh, February 19, and that he and Lindbergh would probably return to Selfridge field by plane a few days later. The colone has been planning to come here for some time, Major Lanphier said, but his prolonged "good will" tour has prevented it. Unless other plans have been made Lindbergh will spend several days at the local airport visiting with his friends in the air service.

Manistique Sheriff J. M. Hewitt of Manistique, has bared the details of a poison plot, in which Joseph Smithers, 63 years old, Hiawatha farmer, is accused of attempting to kill George McCastle, 22, who he claims is a rival for the affections of Gertie Mouroe, 17, daughter of Gertie Mouroe, 17, daughter of a tendent of the Kalamasoo State Hos-neighboring farmer. Smithers is held pital, called on Mr. Potter for advice as the sender of a parcel of poisoned candy, received through the mail by McCastle January 6, and which nearthe box was enclosed the printed name of "Anna," 7-year-old sister of

Lansing-More active campaigns for state reforestation work and increased protection of woodlands against forest fires were urged in reaolutions adopted by the Michigan pointed special American Vice-consul Conservation Council at its annual meeting. The council called on Michigan's delegation in Congress to support the Woodruff-McNary bill under which the federal government would and later as an official for an exportspend \$40,000,000 on reforestation. It ing concern. When Lindbergh's flight urged the Highway Department to was contemplated the state depart post signs advising tourists that the ment obtained Bliss to be host to the uprooting of trees and plants is a vio filer. Bliss is a brother of Mrs. Ralph lation of state law.

Kaiamazoo-Thomas Snow, of this city, escaped death by drowning here when the truck he was driving plunged through the ice on Woods Lake, south of the city. He was attempting to scrape the snow from the ice.

Owoseo-After drillers sinking & well on the farm of Peter Jurica, in Owosso Township, had reached a second, then it's time to resign. Acdepth of 2.500 feet, and had passed through the Saginaw sand without striking oil the well was capped and annually. He complains further that work stopped. It has not been decided whether any further drilling will be

Lansing-The highway commission of the state administrative board has authorized Highway Commissioner Frank F. Rogers to advertise for bids for the surfacing of M-10 from Saginaw to Freeland. This is part of way commissioner, told the board he the so-called river road project. Rogers said he expects the work can be completed this year.

Pontiac-Sheriff Frank Schram announced here that he and the Oakland County Bankers' Federation have completed organization of an armed guard of 76 men, who are to constitute themselves a vigilante committee to prevent the robbery of county banks. case of a robbery, every important highway in the county can be guardwithin a few minutes. Arms and ammunition are provided by the feder-

Northville-Expansion of the work undertaken at the United States Fish Hatchery here will be permitted by the appropriation of \$22,000 by the Government, according to officials at the hatchery. The money will be used to increase the scope of work now being done. A new building for housing employes is planned. A public cest room for visitors, additional ponds for fry and a fish exhibit are included in the program. The aquarium will be similar to that of Belle Isle.

East Lansing-Owners of combined arvesters, which operated under the observation of the Michigan agriculural engineering department last summer, expressed the belief the comsine had proved its practical worth in Michigan. A study made showed the cost of harvesting a bushel to range rom 14.6 cents on a 20-bushel an acre yield to 5.6 cents a bushel on a 40oushel an acre yield. In no case were here any noticeable losses in shatering of the grain due to overripen-

Lansing-The 3-cent gasoline tax delded less in December proportionitely than the 2-cent levy did a year igo, according to a report by John S. Haggerty, secretary of state. The net rield of the 3-cent tax for the month was \$837,690, as compared with \$735,-197 in December, 1926, under the 2 ent law. The department of state pointed out that prior to the new law ome large assessments against comsnies were collected for months at time in a single payment, whereas now they are collected monthly.

Kalamazoo—A golden wedding anniersary celebration was turned into a surprise wedding here when David R. Garrison, and Miss Lillian Geske, both of Elgin, Ill., were married after the former's grandparents, Mr. and Mrs. David A. Hewitt, had been renarried as the feature of their fiftieth anniversary observance. Garrison and Miss Geske were best man and brides maid respectively at the golden weding remarriage. His grandparents hen acted in a similar capacity when ne and Miss Geske were married.

Lansing-Governor Fred W. Green as offered the federal government and near Camp Skeel to extend the flying field there if Washington will co-operate to establish a flying field on the present site of Fort Wayne in Detroit. The site of Fort Wayne has been offered to Detroit or the state for \$4,000,000, a price the governor said is prohibitive. He said that if the federal government would reduce its price in exchange for land in the north, the site would make an exellent airport and would give Detroit a close in flying field.

New Baltimore—New Baltimore is mourning the death of Albert Coutture, a member of the squad of sol diers who escorted the body of Abraham Lincoln to its tomb, who died here recently at the age of 84 years. Mr. Coutture's career was one of the most colorful of any of the soldiers who went from this section. He was born on what was known as the St. Ican Farm, in Grosse Pointe, on May 28, 1848. At the age of 19, he enlisted in Co. A, 24th Michigan Infantry, at Detroit, and served until the end of

Lansing-The decision as to when a state hospital is filled to capacity rests with the medical superintendent, according to an opinion written by W. W. Potter, attorney-general. Dr. Herman Ostrander, medical superintendent of the Kalamazoo State Hosafter Kalamasoo County officials demanded he accept two patients for whom he declared there was no room. ly cost the lives of four persons. In Mr. Potter suggested persons dangerously insane be confined in the County Jail until there are accommodations elsewhere.

Marshall-When Colonel Lindbergh arrived at Guatemala City in Central America, he was met by a former Marto be with Colonel Lindbergh during his stay in Guatemala. Bliss has been in Guatemala for the past six years. first as vice-consul at Guatemala City Mohrhardt of this city.

Mf. Clemens-Regulating the move ment of the town clock in the cour house tower at the risk of breaking one's neck is bad enough, says Guy L. Griffith, official winder alock but when citizens stop him on the street to "bawl him out," because the clock isn't always correct to the cordingly, Griffith has resigned job which paid him a salary of \$75 his predecessor at the job was paid

Lansing-The claims committee of the administrative board is trying to find some legal way to repay \$221, as the state's share of money spent by Wayne County for grade separations. Frank F. Rogers, highhad promised the state would bear its share when the legislature made such action legal and the state high way department got out of debt. The department is out of debt and now a legal way is being sought to keep the promise.

Lansing-The slaying of Dorothy Schneider and the subsequent sentencing to life imprisonment of Adolph Hotelling have made another capital punishment effort certain in the next Legislature, in the opinion of state officials and legislative leaders. From the Governor's office down through the departmental heads it is conceded the crime and the nunishment will find a reflection in the next session. In the 1927 Legislature a capital punishment bill passed the house with votes to spare, but died in the Senate.

Ferndale Ferndale wives soon will discover unexpected mechanical ability in their husbands and no longer will be compelled to telephone for a plumber or electrician when the pipes leak or the radio squawks if a plan proposed by Robert Peel, director of recreation in the public schools, develops. Teachers of technical subjects in the Detroit schools are to be brought to Ferndale for evening classes at which the harried husband will learn how to mend vacuum cleaners that refuse to clean, faucets that drip or electric washers that won't wash

Houghton-An "airblast," or local ized earthquake, which rocked the Copper Country for miles around Houghton, was felt here recently, and was followed by other tremors less intense. Mining men said the first shock was the most pronounced ever experienced here. It last only a few seconds but was strong enough to ring the fire alarm bell in the city hall at Hancock and shake articles from the shelves in stores and pictures from the walls in homes. from the mines near here revealed no damage, however.

The average married man attributes his successes to

himself and his

failures to his wife.

Peasant Frocks Latest Fad With "Movie" Stars

P. usunt frocks are the latest fad in well as most colorful of these-frocks is worn by Renee Adoree, the motion picture player, in her production, "The Cossacks." It is of ruby red flat blouse embroidered in white,

********** DIPPING INTO SCIENCE

Plants' Digestive Functions The green coloring matter of tants called chlorophyll act much the same as the gastric juice on the food we eat. Di gesting the carbonic acid absorbed by the leaves of the plant, it separates the oxygen from the carbon, throws off the oxygen, and the carbon, which mixed with water, forms the

starch so necessary to plant (E. 1938 Western Newspaper Daton.) -

Long Distance Rates are Surprisingly Low ... For Instance

Or Less, After 8:30 P. M.,

You can call the following points and talk for THREE MINUTES at the rates shown. Rates to other distant points are proportionately low.

FROM EAST JORDAN TO: CINCINNATI, OHIO ____ \$1.05 COLUMBUS, OHIO 1.00 LOUISVILLE, KY. _____ 1.15 NEW YORK, N. Y.____ PITTSBURG, PA.__ 1.05 WASHINGTON, D. C.____ 1.40 DECATUR, ILL.

he rates quoted above are Station-to-Station night rates ffective from 8:30 p. m. to 4:30 a. m.

Station-to-Station call is one that is made to a certain tele e, rather than to some person in particular.

f you do not know the number of the distant telephone; give he operator the name and address and specify that you will talk with "anyone" who answers at the called telephone.

Day rates, 4:30 s. m. to 7 p. m., and evening rates, 7 p. m. to 8:30 p. m., are higher than night rates.

A Person-to-Person call, because more work is involved, costs more than a Station-to-Station call. The rate on a Person-to-Person call is the same at all hours.

Additional rate information can be secured by calling the Long Distance operator

MILK FEEDING IS CONSIDERED GOOD

Most milk feeding of poultry is considered a good thing and a money-maker if people have a little time in the fall, and are close enough to a town where the hotels or meat markets will buy the fowls at a special price. These people plan to have the springs and younger cockerels grow up with good sized bones, and usually feed them up a few weeks before Thanksgiving. Young birds weighing from 3½ to 4½ pounds are the best.

on flesh quickly. Pen fattening is the best way of feeding them on the farm. The birds are placed in a coop where they will not exercise much, and the change in food is made gradually for two or three days. The following ration is recommended as giving good resuits:

as they make tender meat and take

- 2 pounds ground corn
 1 pound ground whole oats
 1 pound flour middlings
 8 pounds liquid buttermilk

This is mixed just before each meal, using skim milk if there is no buttermilk available. When fed it looks like pancake batter. Feed in troughs twice each day, and leave only enough before them so that they will clean it up in ten minutes for the first few days. If they are not hungry do not the feeding. eight pounds of feed for one pound of gain per chicken in fourteen Sometimes it pays to stop in ten to twelve days, if they are not gaining rapidly enough.

Why They Get Nowhere

Plenty of people would be glad to done by stepping on a starter, but they just simply won't get out and

IF SKIN BREAKS **OUT AND ITCHES** APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin spe-cialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery excemaa quick relief, even to hery eczema, that nothing has ever been found to take its place. Because of its germ-destroying prop-

erties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improve-ment. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur

emember you can have a *Buick* at this moderate price -a real Buick in every way - with flashing

getaway and mighty power - princely luxury and beauty-supreme comfort and riding ease. COUPES \$2195 to \$1850

MODELS \$1195 to \$1585 All prices f. o. b. Plint, Mich., government tax to be added. The G. M.

Choose from three popular models at this price-Sedan, Coupe or Sport Roadster. Pay on the liberal G. M. A. C. plan.

And you will always know - whether you pay \$1195 for your Buick, or more—that you possess the utmost in motor car value.

load of young folks to Sunday School last Sunday.
Attorney Wellman of Mancelona was over to Justice's court, Wedriesday and conducted the case of the car

collision between John Hooper of Eastport and Edwin Bowers. Mrs. Thos. Gayer, Mrs. Curgy, Arnold Chas. Snyder of Central Lake ning. and H. L. Dawson sang at the funeral Thursday. Mr. Dawson had charge

of the funeral. The death of Allie Morse from a paralytic stroke occurred at his home five miles northwest of Central Lake at 9:15 a. m. Tuesday of last week. He had been at the home of his brother, Jesse Morse, the Sunday evening before, listening to a radio sermon until about eleven o'clock, and apparently feeling well. He had probably gotten up about 9:00 a. m. the next morning, as coals were in the stove, and partly dressed, had fallen back on the bed, where he lay

all day Monday until found at 7:00 o'clock in the evening by Charlie and Jesse. When raised up, he said, "What's the trouble here anyway, get me something to make me warm. He never spoke afterwards. The worst of all is that his brother had gone up to the house at 1:30 p. m.

he had gone somewhere, as his rub-Charlevoix County Herald bers and leggings lay before the stove, and didn't look in the bedroom. His brother will never get over this. Rev. Mosher of Bellaire preached a very comforting sermon, Thursday, from the topic—"To die is The choir, Mrs. Thos. Guyer, ter, Mrs. Chas. Hayner over the week gain." Mamie Arnold, Chas. Snyder and end. Hiram Dawson sang. Funeral was Mrs. L. R. Hardy spent Monday conducted by Hiram Dawson of Ells- afternoon with Mrs. L. Henderson. worth. The body was intered at Central Lake cemetery. Ideal American Boy and Girl

Raymond Woog, famous French portrait painter of children, has made is final selections in his search for the "ideal American boy and girl." The boy, of Plymouth stock, and the girl, of German ancestry, are, the painter declared, "ideal symbols" of American action. The children are shown above left to right: G. Weston Watson, twelve, son of Mr. and Mrs. Watson of Forest Hills, and Florence Duelk, ten, daughter of Mr. and Mrs. William Duelk of New York city.

Bast Jordan.

Mr. and Mrs. Kowalske, Mr. and
Mrs. Whitfield, Mr. Spidel and son, Everett attended a party at Mr. Jen-

sens, one evening this week.

Mr. Spidel says it is too late to pick over beans. They have completed a pick of five tons.

Folks are starting to inquire the prices of sap buckets, and shining up their old tin pans.

The roads are fine, and people are making good use of them. Bud Thomas is driving from home High School this week.

PENINSULA (Edited by Mrs. E. Hayden)

Will Sanderson of Northwood oultry Farm has begun shipping eggs to the Traverse City Hatchery for hatching purposes.

Miss Anna Wilson returned home Tuesday from the Petoskey hospital where she had been operated upon three weeks before for appendicitis. She is getting along nicely now.

Martin Staley arrived at the home of his daughter, Mrs. Joel Bennett, Saturday evening, after spending weeks in Charlevoix, Traverse City, Petoskey and Boyne City. Miss Vera Stanley of Boyne City visiting her uncle, Geo. Jarman and

amily at Gravel Hill, south side. Both old and young enjoy the won derful coasting on the various hills of the Peninsula. Old Bunker is the favorite. About 20 young people frolicked Saturday evening until midnight, and about 40, both old and young enjoyed the wonderful sport all day Sunday.

Miss Eula Arnott of Maple Row farm, Bunker Hill, north side, returned to High School in Boyne City Sunday, after two weeks absence, on account of the death of her mother.

Mrs. A. Reich and son, Daniel, and daughter, Alfreda, of Lone Ash farm, Bunker Hill, south side, motored to East Jordan Saturday afternoon, reurning by way of Advance.

Mrs. Daniel Faust had the misfortune to fall on the ice at her home, one day last week, and hurt her back painfully, but is able to be about

Douglas Tibbitt buzzed wood at Cherry Hill Friday.

Mrs. Fred Wurn is quite ill at her ome in Star Dist. Mrs. Edith Tibbitt and grand

daughter, Miss Alberta Tibbitt of Cherry Hill are keeping house in Boyne City, where Miss Alberta is attending school.

Claude Stanley is hauling hay from

his farm in Mountain Dist to his home in Boyne City.

Quite a new stunt for this section has been devised, is to hitch a tobog-gan behind a car, which some East Jordan parties did Sunday. It sure must be jolly sport, especially the G. O. P. part, which was encountered at the foot of Grand View Hill. It is understood the party is spending the Lincoln Day on Holy Island.

W. C. Howe and others have rigged ip a snow plow to plow out the cross roads, which does very good work, so the David Gaunt and W. C. Howe places are accessable to with cars The only stretch of road which cars can not get through now is from Cherry Hill to Russell Hill, about 2 miles, but sleighing is fine, both on

the cross roads and main roads. Alex Currie Sr., called on Mrs. Anna Henry at the Overlook Farm Mrs. Henry and Mr. Currie were neighbors in Mountain Dist. nearly a half century.

The Three Bells school pupils had a Valentine party and lunch Tuesday afternoon at the schoolhouse.

Star School had a Valentine party Tuesday. It was the date when the girls of the Sewing Club treat the oys of the Handicraft Club.

Mr. and Mrs. Charles Hosgood and family of Boyne City spent Sunday with Mr. and Mrs. Richard Hoosgood and family in Mountain Dist.

Mr. and Mrs. J. P. Seiler and family of East Jordan visited Mr. and Mrs. Will Sanderson at Northwood Farm, Sunday afternoon

Elgie Dow's teams from Boyne City were drawing hay from the Geo. Loomis place Monday. Alex Currie Jr., spent Sunday with

the Richard Hosgood family.

Alex Currie Sr., visited Mr. and Mrs. A. Beers Saturday.

Pat Doyle of Boyne City drew load of beans from the Isaac Flora farm to Boyne City Saturday. Arthur Clute of Boyne City was on

the Peninsula buying cattle, Tuesday. Mrs. J. W. Hayden of Orchard Hill purchased a fine purebred cow and calf of Art Clute in Boyne City, Thursday.

Mrs. Perry Looze, Three Bells tea cher, is now boarding with her parents, Mr. and Mrs. H. Gould in Mountain Dist. The Mountain Dist. are planning a

general birthday party some time in Feb'y, for those of the Dist. whose birthdays come in February. Mr. and Mrs. Clarence Healey, Mrs. Fred Richards with daughters, Miss Winnifred Richards and Mrs. Iva

Hodgkinson of East Jordan were

guests at the Charles Healey home.

Sunday.

Lois Wilson

Lois Wilson, one of the most prominent among the Women of the "movies," as she appears in her latest production, "Alias the Lone Wolf." Miss Wilson claims Pittsburgh as her birthplace. When still a small child her parents moved to Birmingham. Ala, in which city she was reared. She studied to be a school teacher, but the lure of the stage caught her fancy and carried her to Chicago where she played small parts, later going to Los Angeles where she was assigned leads that have made her fa

Uncommon Sense

By John Blake

YOUR WIFE YOUR EQUAL

Tall embarrassing for a wife to be obliged to ask her husband for money. Yet many husbands subject heir wives to this humiliation every

day.
Husband and wife are partners in ife. Yet who ever heard of a business man making his partner ask for money to buy clothes or theater

"But the husband earns the money," some will say. "He is entitled to dis burse it as he sees fit."

This argument may hold good in marriages where the wife does noth ing but look beautiful. But if she le taking care of a house or looking after a couple of children she is doing fully as much toward making the partner ship a success as her husband

The husband who does not believe this should take care of a small house for a day or two. At the end of that time he will probably be glad to resume his loading at the office.

Housekeeping is one of the most wearing forms of labor that can be found. And caring for small children is not exactly a vacation, either.

Let us admit that the average hard working wife keeps up her end of the partnership. Why, then, should she not be treated as an equal?

Why should she have to come to her husband and beg for money to buy a new dress? Does he beg her to cook

his supper for him? It seems to me that the only satisfactory answer to this problem is the

tabulated and provision made for them. A certain amount of money should he allotted to rent, another amount to food, another amount to clothing. Some money, of course, should go into

the savings bank.

When the budget is once planned and found workable it should be adhered to. It makes little difference then who has charge of the funds. If the wife has a head for figures she hould be given the task of admin istering the budget. If the husband is the better accountant be will probably prefer to handle the financ

Under such a system both husband and wife will have a certain amount of money to spend. Then if the hus wents a new golf suit he will have to buy it on his allowance. -if the wife desires a new hat she will have to fit it into her clothes money. But she will have a definite, regular eum each week on which she can

count. And she can plan her expenses accordingly. No self-respecting human being

likes to ask another for money. Wives are human beings and most of them are self-respecting. (Copyright.)

Treat Potatoes Before Planting

Solution of Corrosive Sublimate or Formaldehyde
Is Effective.

Experiments have shown that potatoes can be treated for disease control in the winter while they are dormant with no delay in germination in the spring, according to C. L. Graves, plant pathologist at the Kansas Agricultural college. Graves, therefore, recommends that seed potatoes be treated as soon as practical.

There have been developed in the past few years two standard treatments for the control of seed borner diseases of the potato. Both are equally efficient in disease control. They are the corrosive sublimate treatment, and the hot formaldehyde treatment.

Corrosive Sublimate Treatment.

Prepare a solution for the corrosive sublimate treatment by mixing thor oughly four ounces of corrosive subli mate in 80 gallons of water. Cor rocive sublimate is deadly poison and must be kept away from children and animals. It will not injure the hands The sublimate solution will corrode metals. Therefore, barrels, woode tubs, or concrete vats should contain the treatment. Potatoes should not be cut before they are treated. Best results are obtained when they are left in the solution for one and one half hours, according to the plant pathologist.

The solution should not be used for more then three batches of potatoes unless the solution is strengthened each time. Corrosive sublimate should be added at the rate of one-half to five-eighths of an ounce to each 30 gallons of water after each treatment.

Hot Formaldehyde Treatment.

For the hot formaldehyde treatment mix two pints of full-strength formal dehyde in 30 gallons of water. Un like the corrosive sublimate treatment this solution does not weaken with use, and no addition of formaldehyde need be added after treatment to maintain the original strength. For maldehyde is also a deadly poison The solution quickly dries from the surface of the tubers and the treated seed is not poisonous.

The hot formaldehyde treatment requires from three to four minutes in a heated solution 124 to 126 degrees F. Care should be taken that the tubers do not come in contact with the sides and bottom of the treating vat, say-Professor Graves.

Not Difficult to Raise Orphan Pigs at Dakota

Raising of the orphan pigs that are often present in large-litters is not difficult if care is taken to attend to details. W. R. Hauser, live stock specialist of the South Dakota State college extension service, says. Time spent in raising the orphans will be well paid for in the return from extraping matured.

Mr. Hauser has observed that pigtwo days old are much easier to han die than the younger ones. A ration of one quart whole cow's milk daily hand fed at first, with cracked corn tankage, salt, shorts and green alfalfa hay in self-feeders as soon as the pigwill eat, makes a very good ration.

"Best results can be secured by feed ing five to six times daily for the first few weeks, then gradually cutting down to three times daily." Mr. Hauser says. "As soon as the pigs begin to eat grain fairly well, the whole milk can be gradually replaced by skim milk.

"Sunlight in the pens, sufficient exercise and abundance of fresh, clean water, and strict attention to keeping feeding utensits clean and the quarters clean, dry, well bedded and generally sanitary, are important factors in achieving success."

Agricultural Notes

The garden seed catalogue is both cause and remedy for spring fever.

The best seeds that can be bought are cheaper at any price than poor

It is a waste of both labor and property to leave the farm in disor

Fall-freshened cows should yield annually from 10 to 15 per cent more milk than those calving in the spring.

For those who can get it handily, dried beet pulp is a good dairy feed, on the order of silage and roots—something to make up for the winter iack of pasture. It's healthful and cows relish it. Soak it before feed-

"Cows that produce twice as much as the average cows of the United States require only 40 per cent more feed." That statement, made by the United States Department of Agriculture, and based on records of 100,000 cows, is worth thinking about.

Would you buy butter at 40 cents a pound and feed to your hogs? Crasy question! But what's the difference between doing that and using a poor separator that leaves a good deal of your butterfat in the skim will—the butterfat that you might

THE BUMPS

By DOUGLAS MALLOCH

The same as you,
The same as other
People de.
Yet when we do,
And when it's done,
We think that we're
The only one.

But folks before
Have had that bump,
And other cars
Have hit that stump;
Yet, if we lived
Like fellowmen,
No car would hit
That stump again.

What you and I
And all should do
Is not complain
And just boo-hoo,
But get right down,
When bumps we hit,
And smooth the road
A little bit.

Yes, if we didn't
Cry about
The bumps, but stopped
And smoothed them out,
Life's hardest road
Would scon be free
Of bumps for them
And you and me.

Mothers Cook Book

Great it is to believe the dream
When we stand in youth by the starry
stream;
But a greater thing is to fight life
through
And say at the end, "The dream is
frue."
—Edwin Markham.

WINTER CONSERVES

MOST of the most appetizing preserves may be prepared in the

Harlequin Marmalade.

Take one medium-sized pineapple or one, large-can, three tranges, ene and one-half pintr of water, four cupfuls of sugar, three tablespoonfuls of blanched almonds. Wash the oranges and cut into small pieces, removing the seeds; let stand in the water over night, cook until tender, then add the pineapple; stumer for twenty minutes if the pineapple is tresh add the sugar, and cook-half an hour, adding the nuts ten minutes before it has cooked the required time.

Spiced Prune Marmalade.

Take one half pound each, of dried prunes, peaches and apricots. S. ak and slmmer until very tender; then put through a sleve. Grate the peel from an orange, add the juice and one-half pound of seeded raisins one and one-fourth pounds of sugar and one-quarter cupful of nutmeats. Chop or cut fine the nut meats and slmmer all toegther until rich and thick. The mixture may be cooked for ten minutes before adding the sugar. Cook carefully as it burns very easily.

Apple Butter With Raisine.
Pare and slice six tart apples and
wash and seed large raisins, using
one-half pound; chop them, adding
one-fourth pound of nuts also
chopped. Mix all the ingredients and
place over the fire with just enough
water to keep from burning; cook
slowly for three-quarters of an hour,
then add one pound of brown sugar
and cook until thick, Fut into

glasses and seal.

When oranges are cheap is the time to make marmalade. At this time of the year usually citrus fruits are cheapent.

Cranberry Relieb.

Take two cupfuls of cranberries, put through the medium grinder, add two cupfuls of apples put through the coarse grinder, and one fourth cupful of pecans cut with a knife. Let stand two or three days in a cold place before using.

Going like Wildsire

SURDGO

the quick-starting, knockless Motor Fuel
... which is taking the East by storm ...
is now available in this city

AT REGULAR GAS PRICE

All other quality knockless fuels sell from 3 to 5 cents premium • • You pay no premium for BLUE Sunoco

In your tests, note the following . . .

- 1. Ideal for high-compression motors.
- 2. Equally superior for old motors.
- 3. Knockless rating equal to the best.
- 4. Starts quickly.
- 5. Most miles per dollar.
- 6. Pure petroleum product.
- 7. Non-poisonous and harmless.

8. SELLS AT REGULAR GAS PRICE

An official knockless test of fifteen best-known motor fuels and gasolines was made in Philadelphia by the Contest Board of the American Automobile Association. Their test, proved BLUE Sunoco's knockless rating higher than any fuel at the same price and superior to several selling at extra price.

(Detailed report of this test sent free on request).

BLUE Sunoco is a pure petroleum product, non-poisonous and harmless. Its unexcelled quality is obtained by careful and scientific methods of manufacture rather than by the addition of foreign substances

EAST JORDAN CO-OPERATIVE ASSOCIATION DISTRIBUTORS EAST JORDAN, MICH.

You save from 3 to 5 cents per gallon

-because BLUE SUNOCO sells at regular gas price

Advertising may not pay, as some say, but it had made a lot of mer-schandise sell itself.

The chief difference between men and women is that every man needs a new hat.

BORER CONTROL IS PROFITABLE

Shredding, entiting, or grinding cornetails is good farming and means death to the corn horer. Such practices utilize all parts of the corn plant for feed. Although the horer is said to have more than the nine lives of a cat, it can not stand this racket. The shredder and enalings enter were both effective weapons in controlling the past in the infested area of the State last fall.

DIPPING INTO SCIENCE

Volcano-Made Islands
Very Fertile
The Hawaiian islands are the

result of volcances. The soil from the decayed lava is very fertile. The largest active volcano in the world is Kilanea in Hawaii and is a wonderful sight as it glows red hot in the night. The islands have been in the possession of the United States since 1898.
