VOLUME 32

EAST JORDAN, MICHIGAN, FRIDAY, MARCH 16, 1928.

NUMBER 11

Gus Burney Killed at Detroit

REMAINS TO BE BROUGHT HERE THIS FRIDAY.

Augustus Burney, aged about 72 years, was killed when struck by a street car at Detroit, Wednesday afternoon of this week.

This information was received here by John F. Kenny, a nephew of the unfortunate man, from relatives at Detroit.

Mr. Burney was one of the pioneer settlers of this region, coming here some 60 years ago, and following the occupation of farming and lumbering.

He went to Detroit some three years ago, and, at the time of his death, was foreman of a street crew of workmen. He visited friends here last September.

Funeral arrangements have not yet been completed, but will probably be held from St. Joseph's Catholic Church this Saturday forenoon with interment at Calvary cemetery.

MISSIONARY PROGRAM AT M. E. CHURCH

On Friday, March 23rd—"Founders Day" will be observed with a program at the M. E. Church at 2:00 o'clock standard time. The public is invited as this is an open meeting. The following program will be given:

Hymn—"Send the Light."
Prayer—Pastor.
Scripture.
President's Address.
Stewardship illustrated by Candle Service—Mrs. Hufton.
Record of Patrons—Mrs. Blossie.
Chorus of Girls—"The King's Business."
Play—"A Modern Ruth and Naomi" by Mrs. Earl Clark and Miss Margaret Bowen.
Hymn—"Jesus Shall Reign."
Benediction—Pastor.

Utica—Approval of a franchise to the Michigan Federal Utilities company of Mt. Clemens, is expected to obtain gas for this village soon. With the installation of the gas mains Utica will move another step away from its classification as the only country village remaining in the Detroit metropolitan area. Although Utica is one of the oldest villages in Macomb county and is within 20 miles of the Detroit City hall it is one of the least known villages in this section.

Grand Rapids—Huntley Russell, of Grand Rapids, former state land commissioner and state senator, has been awarded a gold medal certificate of commendation for service in the conservation of wild life. Mr. Russell, chairman of the Grand Rapids Boy Scout Court of Honor, is the first man here to receive a national award of this kind. The medal is provided by the permanent wild life protective fund through Dr. William Hornaday, trustee and director of the New York Zoological Park.

Lansing—At least 6,000 more hospital beds are needed immediately to care for the insane of the state adequately, Dr. Albert M. Barrett, director of the Psychopathic hospital at Ann Arbor, stated in a report submitted to the state welfare commission. The report was made following a detailed study of the seven state hospitals for the insane. Although agitation for an addition to this group is of long standing and has become virtually a demand within the last year, Dr. Barrett's report on conditions is the first that has been made since 1916.

Pontiac—Mark and Frank Williamson, the youths whom Senator James Couzens selected from many to take over the operation of his 900-acre Wa-beek farm in the fall of 1926, have notified him at Washington they will give up the property the last of this month. While the operation of the farm has been a financial success for the brothers, they said it was a dull task. Senator Couzens said he had no plans for the future of the farm but would not attempt to let it out again after the plan followed in the case of the Williamsons who were to have it rent free and tax free.

Memominee—Mrs. John Roth and her six children barely escaped with their lives when fire destroyed Roth's general store and the family's home at Banat, Mich., with a loss estimated at \$20,000. Mrs. Roth was awakened by the smoke and aroused her husband, who went for help, leaving Mrs. Roth and the six children in the building. When he returned he found they had been overcome by smoke and were in danger from the spreading flames. The last of the children had just been carried out when the roof collapsed.

NAMES WANTED FOR "HOME-COMING"

East Jordan will stage a Homecoming and Fourth of July Celebration on Tuesday and Wednesday, July 3rd and 4th. Further announcement will be made at a later date. At this time it is desired to obtain the names and addresses of all former residents of this section. The East Jordan Business Men's Club requests those knowing of such addresses to write same plainly and either mail or hand same to either of the two Banks in East Jordan.

SOUTH ARM TWP. ANNUAL PRIMARY.

At the annual primary caucus of South Arm Township held Saturday, March 10th, the following were nominated:

Ticket No. 1
Supervisor—Charles P. Murphy.
Clerk—Wm. G. Murphy.
Treasurer—Peter Umler.
Highway Com'r—Irving Crawford
Justice of Peace—James Nice
Member Board Review—Robert Gonsulus.
Constables—Earl Danforth, Dan Swanson, Ed. Kowalske, Joseph Whitfield.

Ticket No. 2
Clerk—Benjamin Smatts
Highway Com'r—Elmer Jensen.

WILSON TOWNSHIP ANNUAL CAUCUS.

The annual caucus for Wilson Township was held Monday, March 12th, at which 83 voters were cast. Following were the officers nominated:

Ticket No. 1
Supervisor—Charles Reidel.
Clerk—Edward S. Brinnall.
Treasurer—August Knop.
Highway Commissioner—Frank Schultz.
Overseer of Highways—Albert R. Nowland.
Member Board of Review—Chas. Hott.
Justice of Peace, full term—Chas. Schroeder.
Constables, John Ingram, Wm. Spencer, Jacob Roberts, George LaValley.

Ticket No. 2
Supervisor—Albert Trojanek.
Treasurer—LeRoy Hardy.
Highway Commissioner—Edward L. Nowland.

JORDAN TOWNSHIP ANNUAL CAUCUS

At the annual caucus of Jordan Township held Saturday, March 10th, the following officers were placed in nomination:

Ticket No. 1
Supervisor—Joseph Chanda.
Clerk—Ed. Nemecek.
Treasurer—Earl Gould.
Highway Com'r—Albert Chanda.
Justice of Peace—Francis Nemecek.
Member Board of Review—Joseph Trojanek.
Highway Overseer—Joseph Kortan

Ticket No. 2
Supervisor—Wm. Severance.
Clerk—Homer Shepard.
Treas.—Frank Haney.
Highway Com'r—Garl Brown.
Justice of Peace—John Jones.
Member Board Review—Frank Haney.

Putting Out the Welcome Mat

PAUL FRANSETH ON U. OF M. DEBATING TEAM.

University of Michigan Extension Division Ann Arbor, March 13, 1928.

G. A. Lisk, Editor, Charlevoix County Herald, East Jordan, Michigan. My dear Mr. Lisk:

I am sure that you will be interested to know that a former East Jordan boy, Paul Franseth, has again been elected a member of the University of Michigan debating team. Mr. Franseth's team will go to Madison on Friday, March 16 of this week where they will debate the University of Wisconsin on the subject: "Resolved, That the American Policy in Central America Should be Condemned."

During the first semester Mr. Franseth made two of the University of Michigan debating teams, debating the University of Minnesota at Ann Arbor, and debating Ohio State University at Ohio.

Mr. Franseth has established a very fine record in debating here at the University. As a matter of fact, he was the first Michigan man to represent the University on three of its debating teams in the same year.

Mr. Franseth developed his interest and proficiency in debating while in High School when he represented East Jordan High School on its debating team which placed second in the State Championship debate at Ann Arbor in 1921. After leaving high school he went to Western State Teachers College where he represented that institution in intercollegiate debate.

I am passing this information on to you because I am sure that you will be interested in one of the local boys that has made a name for himself in college work.

Sincerely yours,
G. E. DENSMORE,
Professor of Public Speaking,
University of Michigan,
Ann Arbor, Mich.

Traverse City—Elk Rapids will vote on a proposal to bond in the amount of \$4,000 for purchase and preparation of a municipal airport. It is probably the first Michigan village to take such action. A few years ago Elk Rapids issued bonds for building a public golf course. Its population is about 1,000.

Muskegon—Work will be started this spring on the new \$400,000 addition to the Occidental hotel here, the board of directors have announced. Complete plans for the eight-story structure, which is to replace the four-story one at Western avenue and Third street, will be ready April 1, and bids will be asked immediately.

Adrian—The Citizens Light and Power Company of Adrian is building an electric power line to supply farm service between Palmyra, Lenawee Junction, and then along the county road to the village limits of Deer field. Most of the poles already have been placed and it is expected service will be available within a month.

Ann Arbor—Finding of dogs infected with rabies in the vicinity of Ann Arbor and Milan has resulted in a quarantine being clamped on Washtenaw county by B. J. Killham, state veterinarian. Animals not vaccinated within the past year and allowed to run at large unmuzzled, will be disposed of, as provided for by the quarantine regulation, it is said.

Mt. Clemens—For entering a barn with intent to steal some vegetables, Floyd Bromley, 19 years old, Romeo youth, was sentenced to two and a half to seven and a half years in prison. A jury found him guilty of entering with intent to steal. It was brought out he had been convicted previously of auto theft. Sentence was passed by Judge Neil E. Reid.

Ludington—Kennedy Johnston, 73 years old, Eden Township farmer, and his grand-daughter, Mary Lou Stuart, three years old, whom he rescued from the basement of their home recently when fire destroyed the building, are blind as a result of burns. Hospital attendants are unable to determine whether the blindness will be permanent. Betty Stuart, five years old, another grandchild rescued by Johnston, is improving but her condition remains serious.

Takes Plane Ride at 104

Mrs. Catherine B. Fenton, one hundred four years old, the oldest person in the world to take an airplane ride. She is shown at St. Petersburg, Fla., about to be assisted into the machine by George Haldeman (left), transatlantic flyer.

Charlevoix Beats East Jordan

IN REGIONAL TOURNAMENT FINALS AT PETOSKEY.

Not a highly touted team as our friend Heinie Martin on the Grand Rapids Herald would have you believe, but a good team, lost a rather one-sided game to our friends from Charlevoix, after winning a brilliant game from Grayling on Friday night.

After a season that opened brilliantly for the locals winning nine of the first ten games, East Jordan lost six games in a row largely because of the fact that they played nine games in five weeks. Going to the district tournament at Boyne City they played three gruelling battles, eliminating what was supposed to be the best team in Northern Michigan. Without a doubt such a schedule took toll from the locals in physical endurance. In the regional tournament they drew a bye and their friends from Charlevoix would have to play Rogers City and St. Francis before meeting East Jordan. The heavy going was reversed in the regional as far as the Class C rivals were concerned—East Jordan and Charlevoix. But fate seemed to play a little in Charlevoix's hands by having the Rogers City team snatched out of the tournament giving Charlevoix at least an equal chance in the regional with East Jordan.

East Jordan started the game by winning from the highly touted Grayling team thirty-one to fifteen, the locals out-classing Grayling even more than the score would indicate. The all-round team work of East Jordan featured. Perhaps the best performers in the game were Shepard and Barnette; Shepard especially distinguished himself on his fine floor work and should be a comer next year. In the Grayling game the locals sank the ball in the basket from all quarters of the floor.

Lineup and Score:
Grayling East Jordan
Smith R. F. Shepard
Neal L. F. Taylor
Hendrickson C. St. Charles
Brady R. G. Barnette
Wile L. G. Weaver

Substitutes—Dennis for Weaver; Lee for St. Charles; Halstad for Taylor.
Field Goals:
Taylor 5, St. Charles 4, Barnette 1, Hendrickson 2, Shepard 3, Brady 1.
Foul Baskets:
Hendrickson 5, Brady 1, St. Charles 2, Taylor 1 and Wile 1.

In the final game with Charlevoix the locals were beaten almost from the start of the whistle although they had the ball on the floor the first two periods more than half of the time. Shot after shot rolled around the rim only to drop on the out side. It seemed for a time that about the only way East Jordan could make a basket was to climb up on a step ladder and drop the ball through, even then it should perhaps have a handle on. This is nothing against the boys, it simply was not their night and they were playing a good team. Charlevoix deserves her well-earned victory and championship and East Jordan concedes the same without any strings attached to our resort town boys. Charlevoix played a brilliant game—much more brilliant than the locals and of course deserved to win. They also proved to be a stronger team than most sport writers conceded. Beaudoin at center and Billy Novak at forward played sensational basketball throughout the district and regional tournaments. Marshall, Novak and Supernau were not far behind. According to the Petoskey News and the Grand Rapids Herald, Taylor and Barnette played very good basketball at the tournament. Weaver played his best game of the year at the tournament. Shepard played brilliantly at Boyne City and played the same kind of basketball at the first game at Petoskey. This also can be said of St. Charles in spite of the fact that he was under the weather at the time of the tournament. We wish the best for Charlevoix at the State Tournament and again remark that they have a fine sportsman-like bunch of players and East Jordan loses with good grace to such a team. It pleased the large East Jordan delegation greatly to see Ellsworth trounce the big red team from Alpena. Ellsworth won a brilliant and deserved victory and if we are any judge of basketball teams somebody will have to play real basketball to take them into camp at Detroit. In Elzinga, Peebles and Klooster, they have three unusual Class D players. Manistee won a poor game from Traverse City. Traverse only had one real basketball player and not-withstanding from what our friend of the Grand Rapids Herald said Cole was perhaps one of the strongest all-around players at the tournament, due quite largely to his great height and

LAWFUL TO TROLL IN LAKE CHARLEVOIX

Dept. of Conservation, Lansing. March 7, 1928.

Ed. Deuell, Boyne City
Dear Sir:—
Under the order exempting Lake Charlevoix from the provisions of the order issued on Nov. 3rd, 1927, closing inland lakes to fishing from April 1st to June 15th, it would be lawful to take all kinds of fish on which there is an open season from the waters of this Lake. It would, therefore, be lawful to troll for Mackinaw Trout—and also fish for Rainbows (Steelheads) as provided by Act 290, P. A. 1917.

Yours truly,
G. McCANN, Chief Clerk.

ability to tip them at center and drop them through the basket.

Lineup and score:
Charlevoix East Jordan
B. Novak R. F. Shepard
Marshall L. F. Taylor
Beaudoin C. St. Charles
M. Novak R. G. Barnette
Supernau L. G. Weaver
All of East Jordan's team got in the game.

Field Goals:
Beaudoin 5, B. Novak 5, Marshall 2, St. Charles 1, Taylor 1.

Foul Baskets:
St. Charles 1, Taylor 2, Marshall 1, B. Novak 1, Beaudoin 1.

HOME LESSONS FROM THE INCUBATOR

Now, during the season when incubators are in operation, it may happen that the eggs purchased or saved for incubation do not completely fill the tray for one hatch. This offers an excellent opportunity for an interesting and highly educational lesson in natural history, says one of the workers in the United States Department of Agriculture. If there is space for from 20 to 24 more eggs, get them from any source where fertility is probable and mark them for identification. Operate the incubator as usual, but instead of incubating all the experimental eggs for the full 21-day period, take one out for examination each day, watch the daily developments within the shell, and observe the successive stages of the growth of the chick from the germinal disk of the fresh-laid and apparently lifeless eggs to the marvelously developed mechanism able to peck its shell and to emerge a living bird. It is possible to get something of an idea of what is happening by candling a single egg day after day, but a still more instructive method is to first candle an egg and then break it carefully into a saucer. This course of 21 simple lessons in embryology is well worth the cost of two dozen eggs. The whole family is likely to find it interesting and instructive.

The Housewife and the Peddler

The housewife usually regards the peddler who comes to her door as a nuisance. But half the time she encourages him by the upside-down process of "buying something to get rid of him." She finds it easier, in the individual instance, to buy a package of bad needles, or a rug, or a rubber apron which turns out to be a second, than it is to listen to a stream of talk and force herself to argument as to why she should not buy.

Yet if all the housewives of a given town were to unite in refusal to buy of itinerant salesmen for a year, they would find themselves left, long before the year was out, in peace and quiet to attend to their home duties without interruption and to do their marketing according to their own good judgment.

Kisses Were Sacred
Among old laws against kissing, those of Iceland appear to have been the most severe. Banishment was the penalty laid down for kissing another man's wife, either with or without her consent, and the same punishment was enforced for kissing an unmarried woman against her will.

A GOOD THING TO KNOW—REMEMBER IT.

Mrs. Mary B. (name furnished) San Francisco, Calif., says that "Foley Pills diuretic very quickly stopped a bad pain in my back, and where I used to lie awake at night with rheumatic pains, I now sleep in comfort, and enjoy a good night's rest." No one should suffer backache, rheumatic pains, sleep disturbing kidney and bladder ailments, when Foley Pills diuretic may be so readily had and at so small a cost. Hite's Drug Store. adv.

Peoples' Wants

MUNNIMAKERS
Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

FOR SALE—REAL ESTATE
DWELLING FOR SALE—9 rooms, with electric lights and city water. Located on Fifth St., near High School. A bargain to sell at once. **MRS. IDA BASHAW.** 8-4

FOR SALE—MISCELLANEOUS
CHERRY TREES For Sale—I will have a carload of Cherry Trees this Spring, anyone wishing to purchase trees, notify **PETER UMLOR**, East Jordan Route 2, phone 155-F4 11x4

FOR SALE—1927 model Ford Sedan in good condition, with five good tires.—**MARK SEDGMAN**, East Jordan, phone 114. 11x2

FOR SALE—Baby Buggy. Call phone 102. 11x1

FOR SALE—Baby Chicks from selected stock every Monday and Thursday until July. Custom Hatching \$3.00 per hundred.—**CHERRYVALE HATCHERY**, East Jordan, phone 166-F2. 11-t.f.

REPAIRS—You can get repairs for any Stove, Range, Engines, Cars, Sewing Machines, Cream Separator, Plow, or any Farm Machinery at **C. J. MALPASS HDWE. CO.** 10-t.f.

EGGS IN WINTER ARE PROFITABLE

Winter is the very time when eggs are worth the most, when hens want to lay as much or more than they do at any other time, and when they are not allowed to do so by most poultry keepers. Folks think there is a great mystery about making hens lay in winter. There is none; anybody can do it; that is, the hens will lay if you let them. They bear a good deal of cold in the sunshine, and even freeze their combs and toes, and yet will not stop laying altogether if they can sleep warm. They are warm themselves, and usually only need to be crowded on their roosts, with the roosts all on one level. The setting of the roosts should be only a few feet above the fowls' heads, and provided with ventilation from the floor if possible. Give them very close quarters, with no draughts of cold air, and clean out under the roosts every morning. The combs will then redden up, and eggs will be plenty on less feed than usual. It must not be corn, however, or only a small percentage of it, for this will make them too fat to lay well if they sleep warm. A good way to arrange a hen house for winter is to make a ceiling of rails about six feet above the floor, covering the rails with hay, or coarse swamp hay of any kind. The roosts should be about three feet high above the floor, and movable, so that they may be kept perfectly clean. For small flocks of 30 to 50 hens, it is little trouble to take the roosts down every morning when the floor is cleaned, and replace them at night. It removes from lazy fowls the temptation to sit in idleness on the roost for half the day.

SHORT TALKS BY THOUGHTFUL MOTHERS

A Wisconsin Mother says: "I find mothers very well informed on the subject of 'dope' in medicines. Few mothers now-a-days would buy a preparation that contained opiates or chloroform. A glance at the package before buying tells her this. With Foley's Honey and Tar Compound, the name tells a true story. It is quickly effective for coughs, colds, croup and throat irritations. Pure as it is sure, and worth many times its price."—Hite's Drug Store, adv.

Subscription Rate—\$1.50 per year.
Entered at the Postoffice at East Jordan, Michigan, as second class mail matter.

PENINSULA

(Edited by Mrs. E. Hayden)

Alice Gould of Mountain Dist. visited Star school, Tuesday. Mrs. Frances Looze, Three Bells school teacher stayed with the Fred Croll family last week because of the impassable roads.

Callers on the James Arnott family at Maple Row farm, Thursday were: Mrs. F. D. Russell and son Kenneth, Mr. and Mrs. Chas. Healey, Mr. and Mrs. F. H. Wageman and son, Lyle, and Mrs. J. W. Hayden.

D. D. Tibbitts of Cherry Hill, Eveline Twp. Treasurer snowshoed to Ironton Thursday to collect taxes. D. D. Tibbitts of Cherry Hill, Eveline Twp. Treasurer went to Charlevoix Friday by way of Boyne City to settle with the County Treasurer and turn in the books.

Mr. and Mrs. Charles Healey have received word of the birth of a little daughter to their son-in-law and daughter, Mr. and Mrs. Floyd Davis, Feb'y 27th, who will answer to the name of Cora Joann. Mother and daughter were doing well.

Will Sanderson of Northwood farm drove to East Jordan Saturday and brought out the mail. Duncan McDonald drove to East Jordan Saturday and brought out the mail for the east section of the Peninsula.

Rural Carrier on Route 2 of East Jordan brought the mail out as far as the F. H. Wageman place Thursday, the first time since March 2nd.

Alfred Croll of Three Bells Dist. was ill all last week with tonsillitis and unable to attend school. Charles Arnott of Maple Row farm has been quite ill the past week.

Because of the impassable condition of the roads, Eveline Twp. Caucus was postponed from March 10 to March 17th. The F. D. Russell team with Kenneth Russell and Wilfred Arnott went to Boyne City Friday and brought out the Star high school pupils, and groceries for a large per cent of Ridge road.

Mrs. A. Reich and son Daniel of Lone Ash farm drove to East Jordan Saturday afternoon and called on Mr. Reich at the White Star Restaurant. Clare Bogart of Boyne City came out Saturday afternoon and visited his grandparents, Mr. and Mrs. Joel Bennett at Honey Slope farm.

All travel and stirring around of any kind has been suspended except when there was no help for it, since the big storm of March 4 and subsequent storms as roads are all impassable.

The track across country from Peninsula to Boyne City for the most part follows the road, but to East Jordan only touches the main road at long intervals and reaching East Jordan by the Chemical Plant. If the mail carrier did come he could not get to a mail box nearer the start than August Lew's and not more than half dozen on the whole route.

(Delayed Correspondence)

Charles Arnott of Maple Row farm and Richard and Kenneth Russell of Ridgeway farm went to Boyne City last week Monday and helped put up ice, returning home Friday.

Mr. and Mrs. A. B. Nicloy and sons Curtis and LeRoy, of Sunny Slope farm, and Mr. and Mrs. D. D. Tibbitts and daughter, Edith, and son, Donald, of Cherry Hill motored to Boyne City Saturday, March 3rd and joined others in a surprise party on Mrs. R. E. Boynton and her mother, Mrs. A. C. Hurd of Horton Bay at the home of Mrs. Boynton. The occasion being Mrs. Hurd's 70th birthday and Mrs. Boynton's 50th. Mrs. Hurd is also Mrs. A. B. Nicloy's mother. There were about 30 present. A bountiful pot luck dinner was served to which all did justice. To say they had a jolly time, would be a tame expression. The party broke up early because they were all farmers. They all hope to have many more of the birthday returns.

Sunday, March 4th was the worst storm of the winter, and the roads were in the worst condition. Mrs. Florence Novotney, Star school teacher went to her home in Charlevoix, Friday, after school and because of the storm, did not get back, so there was no school Monday, but she got back to have school Tuesday.

Miss Opal McDonald went to Grand Rapids Saturday, where she will visit relatives for a while. Miss Nita McDonald has finished her term of school at Mt. Pleasant and secured a position as teacher in Monroe, and began teaching Mar. 5. In spite of the storm Sunday Chas. Arnott of Maple Row farm, with the A. Reich team, took the Star high school pupils back to Boyne City. It took from 3:00 to 10:00 p. m. to make the seven miles and return.

Richard Hosgood made a business trip to East Jordan Thursday. Mrs. Richard Hosgood of Mountain Dist. spent last Thursday with Mrs. Clarence Johnston in Three Bells Dist.

Miss Annie Willson has so far recovered from her recent severe illness to visit Mrs. Loren Duffey Thursday.

It is the first time she has been out, except to be brought home from Petoskey hospital since Jan. 18th. Charles Coblenz of Mountain Dist. returned from Charlevoix Friday, where he has been serving as jurymen from Eveline Township.

Township Caucus is set for March 10th. The only new candidate mentioned is Geo. Jarman for Highway Commissioner. Because of the bad roads, Alex Currie Sr., has been unable to make his usual calls for some time.

Charles Healey who was confined to his bed last week, was sufficiently recovered to drive his team to Boyne City, Saturday. Frances Lenosky returned to Three Bells school last week, after being absent some time with chicken-pox. Miss Vernetta Faust of Mountain Ash farm has recovered from chicken pox.

Mrs. A. Reich and son, Daniel, made a business trip to East Jordan Saturday afternoon and called on Mr. Reich at the White Star Restaurant. Mrs. A. Reich of Lone Ash farm drove her team to Boyne City Friday and brought out the High School pupils.

Mr. and Mrs. Daniel Faust were entertained at their birthday dinner by their son, Elmer Faust and family at Mountain Ash farm, Sunday Mar. 4th, it being both of their birthdays. Because of the storm, the rest of the party invited could not get there.

In an attempt Sunday to reach the home of his parents, Elmer Faust thought he would miss some of the snow drifts by going across the field, but miscalculated and drove into a ravine that was drifted over. His horses plunged in clear over their backs, but are exceptionally good in the snow, so did not flounder, but were still while Mr. Faust unhitched and scrambled out. He had a 16-foot chain to hold his box to the sleigh which he hitched to the end of the tongue and hauled the sleigh out. He came back around the road.

Mr. and Mrs. F. K. Hayden and daughter, Arlene drove to East Jordan last week Thursday and took dinner with Mr. and Mrs. T. J. Hitchcock. They intended to bring back a load of sawdust to pack ice, but the roads were so bad they did not.

Mrs. Orval Bennett and daughters Byrell and Beverly, returned home to Honey Slope farm Saturday, after spending a week in Boyne City with her parents, Mr. and Mrs. George Papineau.

Ray Loomis of Gravel Hill, north side caught another large owl in a trap Thursday night. It measured just four feet from tip to tip. He caught a large one a few weeks ago. The 239 telephone line got tangled up about 10 o'clock Sunday and was out of commission until Monday afternoon, when Bob Myers found the trouble on Bunker Hill and untangled it.

Lyle Wageman and Duncan McDonald started out Sunday afternoon to take the Misses Katherine Wageman and Minnie McDonald back to East Jordan to school, but got no further than the Richard Byers place. They came back. Monday morning F. H. and Lyle Wageman and Duncan McDonald started and were joined by Fred Croll, and with shovels got through, but it took them all day. They brought out the mail.

EVELINE

(Edited by Miss Hazel Hernden)

Mr. and Mrs. Olive Sheaffer spent Sunday with Mr. and Mrs. John Cooper. The Walker school's spelling bee and pot luck dinner was a success. There was a large attendance, considering the roads. The old as well as the young joined in the spelling match, which continued about two hours. Everyone joined in the spirit and a general good time was had.

Dallas and Thal Yettaw spent the week end with Everett Spidel. Forrest Batterbee is staying with Everett Spidel for a few days. Everyone is looking with anxious eyes for the snow plow, but it never comes.

When cooking canned peas, try leaving the liquor on them and simmer down a little before adding the cream, and see how greatly they are improved.

DEER CREEK DISTRICT

(Edited by Mrs. Tom Kiser)

Ben Reid, Harry Kowalski and Dalton Gay took a furnace out to the Green River schoolhouse last Friday, and on account of bad roads did not get home until Sunday night. Ervin Mayhew went to Traverse City last week to visit relatives, and he goes from there to Detroit to seek employment.

Lyle Keller and family spent Sunday afternoon with J. Keller and daughter. Ed. Winstone went to Alma last week, where he has employment. Leslie Winstone was home from the North to visit his parents, Mr. and Mrs. Ed. Winstone last week. He visited friends in Bellaire and plans to go from there to Alma to visit his sister, Mrs. Roy Bayliss.

Dalton Gay called on Geo. Etcher last Thursday. Ray Williams and family spent one evening of last week with L. Gibbard and family.

AFTON

Edited by Mrs. Henry Timmer.

Mrs. Henry Timmer made a brief call at Mrs. Earl Blair's in East Jordan, Saturday. George Jaquays made a visit to his farm to look after his colonies of bees Monday.

Chas. Shepard and wife called on Mr. and Mrs. Bert Lumley, Sunday evening. J. L. Sutton and family were Sunday evening callers at Chas. Hott's. Chas. Hayner and son, Ed. Sandle and Mrs. Ida Hayner ate dinner at Chas. Shepard's, Sunday.

Arthur Hill failed to get through with the mail Friday, for the first time this winter. Aftonians are complaining of flooded cellars, due to the rain and subsequent thawing of the deep snow. Olin Smith has put his farm on the market, having written to Herman Goodman, asking him to handle the sale.

Chas. Hott went to Charlevoix Tuesday, to make his tax returns. Miss Leona Kaake of East Jordan, who was mother's helper at Silver Leaf Farm, during lambing season, has returned to her home.

Lem Henderson and wife were Sunday diners at J. L. Sutton's. Consolidation of Wilson township schools are being promulgated, owing to the small number of pupils, and the high cost of teaching. The propagandists on the question suggest busses to take the pupils to Boyne City. Why not to East Jordan?

Mr. and Mrs. Bert Lumley visited her parents, Mr. and Mrs. Matthew Hardy, Sunday. Mr. and Mrs. Clifford Brown dined at the L. R. Hardy home Sunday. Eddie Woods returned to Spring Lake, Monday, where his family is.

Mrs. Chas. Staek spent Monday with Mrs. Chas. Shepard. Mr. and Mrs. Ed. Nowland were callers at J. L. Sutton's Thursday. Mr. and Mrs. Thos. Shepard who have been living at Peninsula this winter, arrived at their Afton home Thursday and found ten feet of snow around their house.

The union caucus held at the Afton town hall, Monday, at which eighty-three votes were cast, had the following result:

Ticket No. 1
Supervisor—Chas. Riedle
Treasurer—August Knop, Jr.
Highway Commissioner—Frank Schultz.

Ticket No. 2
Supervisor—Albert Trojanek
Treasurer—L. R. Hardy
Highway Commissioner—Ed. Nowland.

Unanimously nominated—were the following:—
Clerk—E. S. Brintnall
Overseer of Public Highways—Albert Nowland.

Justice of the Peace—Charles Schroeder.
Board of Review—Charles Hott.
Constables, John Ingram, Wm. Spencer, Jacob Roberts, George LaValley.

CENTRAL LAKE

(Edited by Jesse Morse)

Quite a break up of the snow. Burton Anway of Bay View, Forest Kauffman of Eastport and Gordon Dawson of Creswell were unable to get to school here on account of snow blockades, Friday.

Coach Jessup has reconsidered his resignation and has decided to stay with the force the remainder of the year, so we hear.

Rev. Garret Roseboom had his car drawn to M-88 on sleighs; Thursday, but roads were blocked between here and Traverse City so he could not get out until Monday. He and his wife go to Iowa to attend the golden wedding of his parents.

Edwin Bowers, Solomon and Cyrus Goeman and O. R. Morse finished putting up ice last Saturday. Most of the ice houses have put up their summer's supply. Miss Ida Bronwer just received word that her nephew's wife at Spokane, Washington, Mrs. Floyd Bron-

wer had disappeared. Mr. Bronwer is Sheriff of the County in which he lives and has been pretty diligent in running down moonshiners, and it is feared Mrs. Bronwer has been kidnapped by them.

The Lady Maccabee Lodge here have discontinued meetings and are uniting with Eastport Maccabee lodge. There are but three members left, Mrs. Chas. Ogletree, Mrs. Pat Mason and Johan Hodges.

At the Caucus held here last Saturday the following were nominated: Supervisor Neale Crawford; Clerk Ray Rushton; Treas., Edd. Yettaw. They are opposed to the following on the citizen's ticket: Supervisor, Moses King, Clerk Everett Vanderberg, Treasurer Duncan Crawford, brother to Neal.

William Farrell and Curyg Arnold are having pretty good luck fishing. They were still at it Monday, although Torch Lake has quite a lot of water on it. The Bay froze over two weeks ago last Saturday.

NOWLAND HILL AND PLEASANT VALLEY

(Edited by Mrs. C. M. Nowland)

Two East Jordan school teachers attended a dance at the Wolverine Hotel after the Tournament at Boyne City, then got snow bound at the Terry Barber home, but by a lot of trouble of changing cars and following the snow plow was ready for duty Monday morning. Believe they were the same party East Jordan were looking for at Afton.

Mr. and Mrs. Thomas Shepard moved back to their home on the Hill, Thursday, after spending the past 3 months with their daughter and son-in-law, Mr. and Mrs. Joe Leu, of Peninsula.

Mrs. Fred Dodds visited Mrs. Chas. Howe Monday. Miss Minnie Martin came home from Muskegon for a visit two weeks ago.

Mr. and Mrs. Charles Nowland of East Jordan were Sunday visitors at the home of his parents, Mr. and Mrs. Edd. Nowland. Mrs. Darius Shaw of Rock Elm came Saturday to visit her parents, Mr. and Mrs. A. R. Nowland.

The 3-year-old son "Buddy" of Mr. and Mrs. Milo Clute was badly bitten in the face by a dog last Thursday afternoon.

Mrs. Harley Nelson and son spent a few days last week at the home of Mr. and Mrs. Curtis Brace, returning home Sunday.

Mrs. Fred Dodd was on the sick list last week. Wm. Hunt buzzed wood for Geo. Reeves Tuesday and Wednesday.

Far ahead Low-swung

... yet Buick clears the ruts and gives head-room as well

Buick's remarkable combination of modish, graceful beauty—maximum head-room—and ability to clear the ruts—is the direct result of the Buick double-drop frame.

This brilliant advancement, pioneered by Buick months ago, places Buick far ahead of other cars in beauty, safety and all-around roadability.

SEDANS \$1195 to \$1995 COUPES \$1195 to \$1850

SUCH IS LIFE

by Chester Suggs

Confidence Supreme!

WHAT ARE YOU DOING, JUNIOR?

I'M DRAWING A PICTURE OF GOD!

WHY, JUNIOR, NOBODY ON EARTH HAS EVER SEEN GOD—WE DON'T EVEN KNOW WHAT HE LOOKS LIKE

WELL, YOU WILL WHEN I GET THROUGH.

Poor Seed Wastes Time and Energy

Fresh Vegetables From Home Garden Desired.

The securing of good tested seed, true to variety name, is very important in small as well as in large plantings. When buying a certain variety of seed one likes to believe that he will get what he is paying for, but in spite of this, seed sometimes does not come true to label.

The recommendations from the vegetable department of the New Jersey State College of Agriculture at New Brunswick are that both farmers and home gardeners secure seed from reliable seedsmen. Some seed can be bought at various kinds of retail stores but, in buying, it is always well to note the name of the seedsman so that if the seed does not come true to label this year, the mistake of purchasing from the same source may be avoided next year.

The growing of vegetables at home to keep the table supplied with fresh vegetables during the greater part of the year is a matter of personal interest to every homemaker who possesses a bit of ground which is at all suitable for gardening. As a rule, the farmer has an abundance of land and the opportunity to use it, but quite often he fails to provide an adequate supply of fresh vegetables for his own table. As a partial substitute for home grown vegetables, quantities of canned vegetables are purchased to be consumed even during the summer months. Canned vegetables are better than none, but fresh vegetables right from the garden are not only better but much less expensive.

More vegetables in the diet mean better health. With a well-kept garden to draw from, the perplexing problem of how to provide a variety of palatable food at minimum cost will be solved. A large garden, well filled, is the diabetic's paradise.

Bees Busy Throughout Cold Months of Winter

In winter, unlike all other insects, the honey bees instead of dying and wintering over in the egg form as do army worm, tent caterpillars and aphids, or hibernating as do wasps and bumble bees, form a compact cluster, and by consuming honey they generate sufficient heat by muscular activity to keep themselves warm over the winter.

The honey bee has an extremely accurate temperature sense. When the temperature reaches 57 degrees F. the bees form their cluster. This cluster is in shape of a large hollow ball in the hive. The outside wall is composed of closely packed bees facing inward. In the center a few bees fan vigorously with their wings, and by these means keep the temperature of the cluster up to around 80 degrees F. The bees on the outside of the cluster gradually move inward, and the bees on the outside gradually move to the outside.

Towards the spring when the warm weather comes, a temperature from 93 to 99 degrees F. is reached in the cluster, and at this time brood rearing commences. As the weather becomes warmer, more brood is reared. This brood rearing continues through out the summer until the cooler weather in the fall, when the queen lays fewer eggs. As the temperature gradually lowers in the fall, less brood is reared until a temperature of 60 degrees F. is reached. At this time brood rearing ceases and the worker bees carry out all developing brood and prepare the colony for the formation of the winter cluster, which takes place when the temperature reaches 57 degrees F.

Give Horse Plenty Room to Lie on Side in Stall

The shoe bolt is the result of inflammation in a sac-like structure between the bone and the skin of the horse's elbow, coming usually from bruises produced when the animal lies down, with the leg flexed under the body. The injury is most severe in shod horses, the calks of the shoe causing the mischief. To prevent it, give the horse plenty of room to lie on its side, writes Dr. L. Van Es in the Kansas Farmer. Plenty of bedding is a help.

To prevent shoe bolts, the horse's foot may be wrapped with burlap or a thick pad may be placed over the cannon bone. When a bolt is observed, prevent the horse from lying down for a time and it may disappear. Persistent cases of shoe bolt may require a surgical operation.

Satisfactory Yields of Clover Seed Will Pay

Satisfactory yields of sweet clover seed can be secured each year, and as the acreage increases the demand for seed should add this crop as a profitable one to a seed grower's business. A seed grower usually stays in the business year after year and grows several different crops for the seed. A slump in prices for a short period on some particular crop does not throw his business out of joint under such a system.

It is true that sweet clover seed prices are the lowest they have been for several years. Nevertheless, the easy handling of this seed crop and its relatively high yields secured per acre offer a profitable margin for growers who really make a business of growing it for seed.

Meat Animals Getting Fewer

Decrease Seen in Beef Cattle, Sheep and Swine—Dairy Cows Increase.

(Prepared by the United States Department of Agriculture.)

Although there are 35,000,000 more people in the United States now than 25 years ago, there are about 22,000,000 fewer beef cattle, sheep, and swine to provide meat for them, according to Dr. J. R. Mohler, chief of the bureau of animal industry, United States Department of Agriculture. There are, however, about 8,000,000 more dairy cows, so the net loss in the number of food-producing animals is about 14,000,000 in 25 years. Ten years ago the cornfields aggregated about 107,000,000 acres. Last year they amounted to less than 98,000,000 acres, according to the latest estimates, representing an average shrinkage of nearly 1,000,000 acres a year.

Growing Industrialization.

These and other changes, in Doctor Mohler's opinion, are evidences of a growing industrialization of the United States. "This country," he says, "is undergoing much the same change that occurred during the last century in Great Britain. At that time the British Isles were agriculturally prominent. Agriculture, in turn, was largely a live stock enterprise. The excellence of British live stock ranks with the world's best. Yet for many years it has been overshadowed by industrial development, such as manufactures, mining, and the acquisition of a world-wide commercial trade. The United States is undergoing a similar change. We may point with pride to our 173,000,000 domestic animals. We may assert that the live stock population of the country, not counting poultry, exceeds the human population by 50,000,000 head. We may call attention to the large meat consumption of the United States and the progress made in improving the quality of animals and in reducing the risks of production. But if we are honest with ourselves we must accept other facts. We must consider the live stock industry in relation to other developments."

Duties of Producer.

Doctor Mohler admits there are partial substitutes for many of the products of meat animals, but he says these are not adequate substitutes. Two duties involve on the live stock producer, he believes. First, they should increase the biological efficiency of their live stock to the highest degree. Second, they should convince and inform the public that live stock raising in this country is an essential industry, which, along with its various products, deserves consideration in proportion to the service it renders."

Manuring Garden Soil During Winter Season

A dark-colored soil is generally desired for home gardens. Such a soil contains more organic matter than one with a red, yellow, blue, or gray color.

The black or brown color should be uniform throughout the soil. Any mottling or uneven appearance is an indication of poor aeration and poor drainage in the garden soil.

Best results in a garden are obtained when the soil is well drained and well supplied with organic matter. This is true because such a soil dries out early in the spring and yet retains the optimum amount of water for use by plant life throughout the growing season.

All garden soils may not possess these ideal organic and drainage conditions. A generous application of barnyard manure every winter will tend to improve the garden soil in both these points. Apply manure at the rate of five tons per acre. A good big load spread on a 50 by 100-foot garden every fall for five or six years will usually more than double its yielding powers.

Hints for the Farm

Be fair to nature—test your seed corn.

Buy seed from reliable sources or you run the risk of failure.

More farm mathematics: If it costs \$2 a year to feed a rat, what do farmers lose thus, annually?

Only workers pay for their keep. This is true of cows and chickens as well as bees and men.

A good paint brush deserves to be cleaned at the end of a job. The best way to do this is to use gasoline or turpentine.

The infection which causes pea blight is carried by the seed, and it may also live over from one season to the next in pea refuse in the field.

In caring for shop tools on the farm, a wall tool cabinet is better and cheaper to make than a tool chest. Locate each tool in this cabinet in its own particular place.

Sunshine is almost as bad on farm machinery as rain and snow. Therefore, it is good for it to be placed under an implement shed in the summer time as well as the winter.

THE PUTTING OFF KIND

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

SOLOMON TWINNEY, so the story went, was talking to Jake Bingham about a job. There was plenty to be done and Jake himself was not just crazy to overwork. He meant to do a great many things which never got done. There was a well curb which had needed fixing for a decade or so, the fences were down or leaning in many places, and the corn ought to have been plowed a week ago.

"Well, when could you come?" asked Jake, thinking that Solomon would need a few days possibly to get his effects together.

"Right now," Solomon answered. "There's work to be done here, and done right away. I ain't one of the putting-off kind. What I say is, if a thing has got to be done, do it right away—not tomorrow, nor next day, nor next week, nor as soon as you can get around to it."

I have had a good deal to do myself with the putting-off kind—men who had the best intentions in the world, who were going to do this or cease doing that, but who set no particular time for the consummation of their purposes.

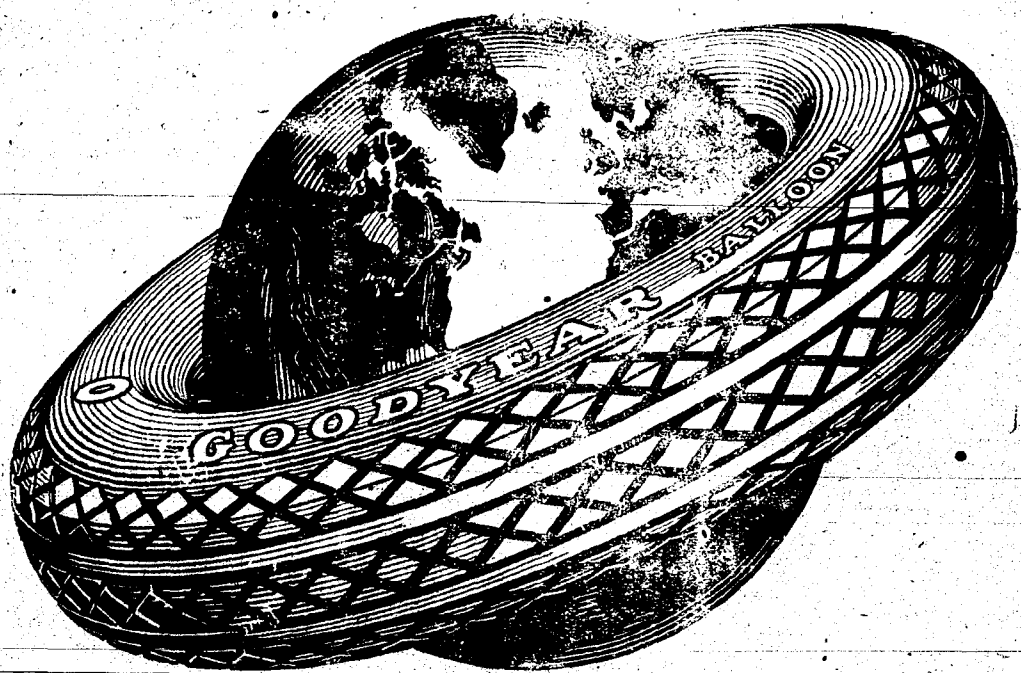

I bought a clock of Johnson four or five years ago. It was a good clock, but there was a flaw in the dial when it was delivered. The clock was got in celebration of an anniversary, and in spite of the fact that it was not perfect it seemed best to receive it.

"I'll see that the thing is made good, Mr. Clark," Johnson assured me. "The last thing I should want to sell you is an imperfect article. I'm expecting a new shipment in next week, and I'll sure make it right." I've called Mr. Johnson several times since. He was each time just on the verge of doing something and he thanked me for reminding him. That was five years ago, as I said, and the clock is as it was when I got it. Johnson is evidently one of the putting-off kind.

Smithers is going about on crutches having just gotten out after some weeks of nursing a broken leg. There was a loose board in the walk leading from Smithers' back door to the garage. He had seen it himself often and Mrs. Smithers had called his attention more often than he had himself noticed it. He had meant to fix it. A single nail properly employed would have done the work, but he was one of the putting-off kind and, going out to the garage in the dark, he had tripped and cracked a bone.

There are all sorts of things we can put off if we are that kind—answering letters, paying calls or the monthly bills, joining the church, giving up tobacco, taking out life insurance—anything that does not also lutely have to be done on the moment. But putting off is merely a habit and a very bad habit which, once fallen into, gradually possesses us.

Few victims see the "ok" in the joke. Political leaders begin to show interest in the "pee-pul."

We Do All The Work

You won't need to write a letter, get a money order, wait several days, pay express or parcel post charges—and then PUT THEM ON YOURSELF when you buy tires here at home from us.

We put 'em on—inflate 'em to correct pressures—inspect them regularly—and we are at your call 365 days in the year for SERVICE.

All this with Goodyear Tires at prices as low or lower than you are asked to pay for ordinary tires.

Why the Sea Does Not Freeze

The sea does not freeze except in the coldest parts of the earth mainly because of its great depth and constant motion. The earth under the water is warmer than the atmosphere above in winter and the cold does not penetrate to the bottom. This warmer water keeps coming to the top keeping the sea water above freezing temperature.

SALES CLIMB

STUDEBAKER SALES LARGEST IN HISTORY

Both January and February set new high marks in purchases by public!

SOUTH BEND, IND., Mar. 8.—Studebaker sales continue to climb to new goals of achievement! The number of Studebaker-built automobiles delivered to owners by dealers in the United States during the month just closed, was the largest of any February in history and 31% in excess of February, 1927. Coming immediately after the greatest January sales in Studebaker history, this continued flood of public preference for Motorists appreciate Studebaker's advanced engineering—car is delivered—that requires lubrication but once in 2500 miles—that holds all the highest speed and endurance records for fully equipped stock cars, regardless of power or price. The evidence of Studebaker's million-dollar proving ground. You'll realize then, if you know cars, that Studebaker stands for stability—76 years of it!

Values in Four Price Fields
The New President Straight Eight - \$1985 to \$2450

CITY OF EAST JORDAN REGISTRATION NOTICE.

For all Elections held April 2, 1928.

To the Qualified Electors of the City of East Jordan, State of Michigan.

Notice is hereby given that in conformity with the Michigan Election Law, the undersigned City Clerk, will, upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said City not already registered who may APPLY TO ME PERSONALLY for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

The last day for General Registration does not apply to voters who vote under the Absent Voters' Law. (See Registration by Affidavit.)

MARCH 24, 1928—LAST DAY for General Registration by personal application for said election.

Notice is hereby given that I will be at my Office under Postoffice on—

MAR-10 and MAR-17, 1928

From 8 o'clock a. m. until 8 o'clock p. m., on each said day for the purpose of REVIEWING the REGISTRATION and REGISTERING such of the qualified electors in said CITY as SHALL PROPERLY apply therefor.

The name of no person but an ACTUAL RESIDENT of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

REGISTRATION BY AFFIDAVIT Sec. 10—Registering of Electors: Regular Session of 1925—Any absent voter, as defined in this act, whose name is not registered and who shall claim the right to vote by absent voter's ballot at any election or primary election, may at the time of making application for absent voter's ballot, present to the City Clerk an affidavit for registration which shall be in substantially the following form:

AFFIDAVIT FOR REGISTRATION STATE OF MICHIGAN, County of _____ ss.

I, _____ being duly sworn, depose and say that I am a citizen and duly qualified elector of the _____ Ward of the City of _____ in the County of _____ and State of Michigan; that my postoffice address is No. _____ street, or R. F. D. No. _____ P. O. _____; that I am not now registered as an elector therein and that I am voting by absent voter's ballot at the election (or primary election) to be held upon the _____ day of _____, 1928, the application for which ballot accompanies this application; that I make this affidavit for the purpose of procuring my registration as an elector in accordance with the statute that I make the following statements in compliance with the Michigan Election Law: Age _____; Race _____; Birthplace _____; Date of naturalization _____; I further swear or affirm that the answers given to the above questions concerning my qualifications as an elector are true and correct to the best of my knowledge and belief.

Taken, subscribed and sworn to before me this _____ day of _____, 1928. Signed Notary Public in and for said County, State of Michigan. My Commission expires _____ 1928. Note—If this acknowledgement is taken outside of the State, the Certificate of the Court that the person taking the acknowledgement is a notary must be attached.

REGISTRATION OF ABSENTEE BY OATH. If any person whose name is not registered shall offer and claim the right to vote at any election, or primary election, and shall UNDER OATH, state that he or she is a resident of such precinct and has resided in the WARD TWENTY DAYS next preceding such election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution, and that, owing to the sickness or bodily infirmity of himself or herself, or some member of his or her family or owing to his or her absence from the City on public business or his or her own business, and without intent to avoid or delay his or her registration, he or she was unable to make application for registration on the last day provided by law for the registering of electors preceding such election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election. If such applicant shall in said matter, wilfully make any false statement, he or she shall be deemed guilty of perjury, and upon conviction, be subject to the pains and penalties thereof.

Provided, That any city may provide by its charter or by resolution approved by a majority of the members of its legislative body for the registration of such sick and absent voters on the last Saturday preceding any election or primary election at the places of voting in the several voting districts of such city, instead

of on-election or primary election day. PROVISION IN CASE OF REMOVAL TO ANOTHER PRECINCT. Any registered and qualified voter who has MOVED from ONE ELECTION PRECINCT of a Ward to another election precinct of the same Ward shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she HAS REMOVED to the registration book of the precinct in which he or she THEN RESIDES. Such elector shall have the right to have such transfer made ON ELECTION DAY, or Primary election day, by obtaining from the board of inspectors of election of the precinct from which he or she HAS MOVED a CERTIFICATE OF TRANSFER, and presenting the said certificate to the BOARD OF ELECTION INSPECTORS OF THE PRECINCT IN WHICH HE OR SHE THEN RESIDES. Dated February 20, A. D. 1928. OTIS J. SMITH, City Clerk.

Vote for not more than one (1) person.

PRESIDENT OF THE UNITED STATES

[] JOHN JONES

[] WILLIAM SMITH

[] THOMAS RYAN

SEPARATE BALLOTS FOR EACH POLITICAL PARTY are to be provided. The Candidate receiving the highest number of votes in the State at said election shall be declared to be the candidate and the choice of such political party for this State.

THE POLLS of said Election will be open at 7:00 o'clock a. m. and will remain open until 5:00 o'clock p. m., of said day of Election.

Dated February 20, 1928.

OTIS J. SMITH, City Clerk.

MIDSEASON ENSEMBLE

Lois Wilson wearing a smart mid season ensemble in the film "French Dressing," which includes a velvet coat lavishly trimmed with fitch fur and shows a smart stitching about the low belt line. Miss Wilson's choice of shoes and stockings shows the importance of selecting accessories with discrimination. They complete an exceedingly chic appearance given.

Girl Is Skating Champion

The photograph shows Miss Souda Hente, sixteen years old, of Norway who surprised the skating world by defeating Miss Beatrice Lynggren of the United States in the women's figure skating event at the Olympic games at St. Moritz. Miss Hente was proclaimed the world's champion.

Farmers all over the country are going through the motions of preparing for the new crops; next fall they will find out how much they are going to lose.

Eats Sauerkraut Now, Feels Years Younger.

"Now I eat even sauerkraut and sausage and feel fine. Adlerika ended stomach gas and I feel 10 years younger."—Mrs. M. Davis.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—GIDLEY & MAC, Druggists. adv.

WHY EVERY USER BECOMES A FRIEND.

"Never has any other cough medicine acted so quickly and satisfactorily as Foley's Honey and Tar Compound; and it gives complete satisfaction to friends who use it on my recommendation," says J. D. McComb, Toledo, Ohio. It spreads a healing, soothing coating in an irritated inflamed throat, stops coughing, raises phlegm easily. No opiates to cause constipation, no chloroform, no "dope." You take no chances with cough or cold when you buy Foley's Honey and Tar Compound. Ask for it.—Hite's Drug Store. adv.

BABY MISSING

By DOUGLAS MALLOCH

I'VE looked upstairs, I've looked down, Here and there all over town, In the garden, in the yard— My, but I've been looking hard. Baby missing! Help me find One of just one certain kind, Just the one I used to know Not so very long ago.

Why, it seems just yesterday Baby used to laugh and play, Do the things that babies do, Creep and crawl and smile and coo. But today I climbed the stair; Just imagine who was there? Not a baby, not at all, But a lady, big and tall.

There she was in baby's room, Still the same pink roses bloom On the paper, still the sun Through the window peeps at one. But the baby's gone away; There's a lady there today, Quite a lady, yet her name And the baby's seem the same.

Once we had a baby, now Something's happened here, somehow. Now we have a lady, yes, But the nicest one, I guess. Well, our baby's gone away, But our lady's come to stay. Baby's vanished, babies do— But we love our daughter, too.

(© 1928, by Douglas Malloch.)

SOMETHING TO THINK ABOUT

By F. A. WALKER

YOUR IDEA OF GOD?

A GROUP of Chinese students studying in this country some time ago sent out a most unusual questionnaire. There are three questions included. "What is your idea of God?" "Do you believe in God?" and "Why?"

These questions were sent to hundreds of prominent men all over the country but the answers were not made public, although no man ought to be ashamed to let anyone know his opinions regarding three matters which are of so universal interest.

The question of "What is God?" has probably been asked more times since man first began to think than any other in all the category of our inquiries. Robespierre wrote down a profound truth in the words "If God did not exist it would be necessary to invent one."

That which we do not know, we imagine. There is no man living, good or wicked, rich or poor, ignorant or educated who has not his own idea of God. And his idea may, and natural I would, be different from his neighbor's.

The Bible tells us that God is Spirit: Life, Truth, Love.

What is Spirit? What is Life? What is Truth?—Pilate asked this question and received no answer. What is Love? Can you give a satisfactory answer to these questions? To the untutored mind nature reveals God. But nature is not and cannot be God since nature lacks the attributes of divinity.

The most convincing proof of the existence of God is not a proof at all. It is the overwhelming craving of the human mind for a greater than itself, for a power, omnipotent, a mind, omniscient, a presence, all pervading.

No truly wise man denies God. Voltaire, who once denied Him, saw his unwisdom and built a church which he inscribed with a confession of his error.

Dependence is a part of the human make-up.

Reliance upon some one or something higher and mightier than ourselves is inborn and unavoidable.

We believe in a God, a supreme being, because we must believe.

What is your answer to the Chinese inquirers? What is your idea of God? It is certain that you do believe. The reason why is plain. What kind of a God you believe in is largely of your own deciding.

It would be interesting to read the answers of the well-known men who replied to the questions of the Chinese students.

But more important to you than what their answers are is what yours is. It is truly something to think about.

SOMETHING TO THINK ABOUT

By F. A. WALKER

YOUR IDEA OF GOD?

A GROUP of Chinese students studying in this country some time ago sent out a most unusual questionnaire. There are three questions included. "What is your idea of God?" "Do you believe in God?" and "Why?"

These questions were sent to hundreds of prominent men all over the country but the answers were not made public, although no man ought to be ashamed to let anyone know his opinions regarding three matters which are of so universal interest.

The question of "What is God?" has probably been asked more times since man first began to think than any other in all the category of our inquiries. Robespierre wrote down a profound truth in the words "If God did not exist it would be necessary to invent one."

That which we do not know, we imagine. There is no man living, good or wicked, rich or poor, ignorant or educated who has not his own idea of God. And his idea may, and natural I would, be different from his neighbor's.

The Bible tells us that God is Spirit: Life, Truth, Love.

What is Spirit? What is Life? What is Truth?—Pilate asked this question and received no answer. What is Love? Can you give a satisfactory answer to these questions? To the untutored mind nature reveals God. But nature is not and cannot be God since nature lacks the attributes of divinity.

The most convincing proof of the existence of God is not a proof at all. It is the overwhelming craving of the human mind for a greater than itself, for a power, omnipotent, a mind, omniscient, a presence, all pervading.

No truly wise man denies God. Voltaire, who once denied Him, saw his unwisdom and built a church which he inscribed with a confession of his error.

Dependence is a part of the human make-up.

Reliance upon some one or something higher and mightier than ourselves is inborn and unavoidable.

We believe in a God, a supreme being, because we must believe.

What is your answer to the Chinese inquirers? What is your idea of God? It is certain that you do believe. The reason why is plain. What kind of a God you believe in is largely of your own deciding.

It would be interesting to read the answers of the well-known men who replied to the questions of the Chinese students.

But more important to you than what their answers are is what yours is. It is truly something to think about.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate Office in the City of Charlevoix, in said County, on the 29th day of February A. D. 1928.

Present: Hon. Servetus A. Correll, Judge of Probate.

In the Matter of the Estate of Charles A. Valteau, Deceased.

Robert A. Campbell having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 28th day of March A. D. 1928, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said county.

SERVETUS A. CORRELL, Judge of Probate.

Ever Hear of Air Fishing?

An air-fishing tribe of Igorotes recently was discovered north of Manila by a hiking detachment of United States marines. They fly queer-looking kites, with baited hooks at the end of the tails, every evening about dusk. They fish for bats in the air.

What Courtesy Overlooks

One way to make sure that you maintain amicable relations with your immediate neighbors is not to permit yourself to take advantage of their close proximity to you. There are always little things that you can learn about your neighbors that it is the part of courtesy to overlook.

WIRE YOUR PLOW for BORER CONTROL

Wires, properly attached, assist greatly in holding down cornstalks and trash so that the furrow slice will cover them thoroughly. The borers live in cornstalks and stubble and come to the surface when plowed under. Where a clean job of plowing has been done, the borer is out of luck. Wires work equally well on other horse or tractor driven plows.

Briefs of the Week

Frank Rebec was at Owosso this week on business.

Fr. D. M. Drinan motored to Grand Rapids on business first of the week.

Mrs. Gerrit Drog and daughter were at Ann Arbor on business this week.

Irvin Bancroft went to Lockwood hospital at Petoskey, Monday, for treatment.

Vet Newson who has been employed up North, returned to this city last Saturday.

Mrs. N. Stafford who has been visiting relatives in Grand Rapids, has returned home.

Francis Gardiner who was here for a visit with friends, returned to Grand Rapids, Monday.

Special meeting of Mark Chapter No. 275, O. E. S., Friday evening, March 23rd, for the purpose of initiation.

While the swat-the-fly slogan, is all right there is nothing wrong with the suggestion that peddlers be kept moving.

Clark V. Trumbull, former East Jordan station agent of the M. C. R., was elected Village President of Mackinaw City this week.

Miss Dorothy Joynt has completed a course at Ferris Institute, Big Rapids, and left Monday for Wyandotte, where she has a position.

Bulow Bros. are Agents for the Bensley's Dyers and Cleaners of Traverse City. Also Rug cleaning done. Goods called for and delivered. Phone 145, Bulow Bros., East Jordan. adv. 10-2

Lyle Smith, son of Mr. and Mrs. Roscoe Smith, and Miss Opal Bolser, daughter of Mr. and Mrs. Ben Bolser were united in marriage Wednesday, March 14th, by Justice of Peace, H. C. Blount, of this city.

The illuminating fact is that the merchant who does not believe in advertising does not wish the newspaper to publish any story that does not sound to the glory of the members of his family. Moreover, he likes to see his name in print, when it can be done without cost.

Miss Emma Frame of Grand Haven has been engaged by the Charlevoix Hospital Board as Superintendent, and assumed her new position March 1st. Miss Frame is a graduate of Benton Harbor hospital, a registered nurse and comes highly recommended.—Charlevoix Courier.

Mrs. A. J. Duncanson with three children left Tuesday for St. Paul, Minn., where she was called by the serious illness of her mother, Mrs. E. J. Van Leuven, who is to undergo an operation. Mrs. Duncanson's brother Dr. Van Leuven of Petoskey, accompanied her on the trip.

Despondency following two months of ill health is attributed as the cause for suicide by W. Gordon Parker, who shot and killed himself at about 6:30 Tuesday evening, March 6th at his home on State Street in Charlevoix. Mr. Parker was bookkeeper and secretary at Loeb Farms for a few years. For the past three years he has been cashier for Booth Fisheries Company at Charlevoix. Besides his wife, deceased is survived by five children.—Charlevoix Courier.

Special Communication of East Jordan Lodge No. 379, F. & A. M. Tuesday night, March 20th. Work in the E. A. degree.

Keep Chickens in Good

Health by Giving Oats

One of the best ways to keep chickens in good health is to feed green food. It acts as a regulator, keeping the bowels open. Sprouted oats are as good a source of green food as anything, when fed, roots and all, to the layers once a day as much as the birds will clean up in about half an hour.

The oats are soaked for 24 hours in warm water, that is, slightly warmer than room temperature. They are then spread in trays of any convenient size to a depth of about one and one-half inches and allowed to sprout until the green sprouts are about three inches long, at which time they are fed. If the oats can be kept at a temperature of about 70 degrees, the sprouting will be more satisfactory than if the room is cool. To prevent the oats from becoming moldy, wash and disinfect the trays when they are emptied after each sprouting. Three or four drops of formalin may be put in each pan of water used for soaking the oats before they are spread on the trays.

Sometimes the oats are allowed only to germinate, that is, they are soaked in water as for sprouting and are spread on the trays but are not permitted to sprout to the extent described above. They are fed when the sprouts show a length of only one-fourth inch. They are not green. These germinated oats are frequently mixed in the mash and fed.

R. D. Gleason is confined to his home by illness.

Donald Kake left Tuesday for Grand Rapids and Detroit.

Help build East Jordan; keep your money where you might see it again.

Mrs. Leonard Dudley left last Saturday for a visit with relatives at Lansing.

Charles Crowell returned last Friday from a visit with relatives at South Haven.

Isadore and Sammy Kling spent a few days this week with their mother at Traverse City.

Mrs. James Howard who has been visiting her son, at Detroit, returned home last Saturday.

Mr. and Mrs. Archie McArthur have purchased the Mrs. Andrew Berg residence in this city.

Mrs. Clyde Snellenberger and son returned Tuesday from a business trip to Grand Rapids.

W. A. Stroebel leaves this Friday for Saginaw to spend Sunday with his son, Paul, who is ill.

Miss Lillian Gorman is home from Bay City for a visit with her parents, Mr. and Mrs. Maurice Gorman.

Every man who improves the appearance of his lot helps to make East Jordan a more attractive town.

Mrs. Andrew Berg and daughter, Miss Anna, were here from Petoskey on business and visiting former acquaintances, Monday.

The Presbyterian Missionary Society will meet with Mrs. Charles Malpass, Friday, March 23rd. The program topic: "Japan," will be carried out in costumes, decorations, refreshments, etc.

Born to Mr. and Mrs. Joseph Riley of Detroit, Wednesday, Feb'y 29, a baby boy—a Leap Year youngster, who will not be able to enjoy birthday celebrations as often as his chums. Mrs. Riley will be remembered as Miss Norma Sherman of Eveline township.—Charlevoix Courier.

There are some people who think that a college diploma necessarily means an educated man.

If you believe in anything you are a lot better than the skeptics who believe in nothing and nobody.

If the number of school bells that will disappear on the first of June, were melted and cast into one great, big bell it would be heard around the world.

GROUND WHEAT IS GOOD FOR LAYERS

Poultrymen with home-grown wheat can often use ground wheat in the laying mash with good results. It saves buying broiler bran and middlings. The best results come from substituting 150 pounds of ground wheat and 50 pounds of bran for the 100 pounds of bran, plus 100 pounds of middlings. A good home-grown laying mash can be made of 100 pounds of ground corn, 100 pounds of ground oats, 150 pounds of ground wheat, 50 pounds of bran, and 100 pounds of meat scrap.

When plenty of skim milk or butter-milk is available, the amount of meat scrap in the mash can be reduced one-half. In that way the farmer raising wheat, corn, oats and milk, can make up 500 pounds of laying mash by purchasing 50 pounds of meat scrap and 50 pounds of bran.

The home-grown mash is greatly improved by adding minerals in the form of 2 per cent ground limestone, 2 per cent bone meal, and 1 per cent fine table salt. The use of minerals tends to improve the strength and quality of the egg shells, thus avoiding the egg-eating habit in the flock as well as the production of soft-shelled eggs. Some poultrymen believe that more minerals and less meat scrap will be the tendency in making egg mash within a few years. Their cost per pound is so small, considering their value, that they should not be omitted from the home-made mashes.

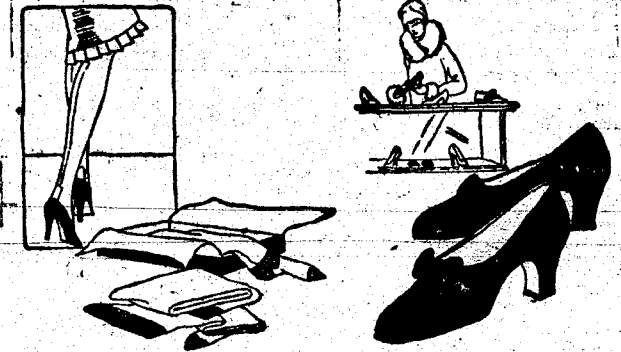

Blindness in Ducks Is Blamed on Impure Water

When ducks have access to a lake pond or river there are no cases of sore festering eyes which later may develop into blindness. The birds dip their heads deep into the water and the eyes are cleansed of any dirt or sticky feed that has adhered to them. Ducks without a natural supply of water should be given their drinking water in deep dishes or crocks so that they can rinse out their eyes whenever they drink. This also tends to rinse the nostrils and prevents the clogging with feed which is serious if the bird catches cold about the same time.

Ducklings—sometimes have colds which cause a sticky discharge from the eyes. The mucus can be absorbed with small wads of tissue paper and the eyes washed with witch hazel or boric acid solution. Deep drinking dishes will help the bird to take care of its eyes and nostrils and probably prevent the necessity of treatment.

Imperfect Rubber Goods

Many were the troubles that early manufacturers of rubber goods experienced on account of the propensity of rubber to expand and contract with the heat. Daniel Webster, who was Mr. Goodyear's counsel in his patent litigation, humorously referred to a fine cloak of India rubber he once owned, stating that in cold weather it stood well by itself, and that he often set it out on the porch surmounted by his hat, many persons passing by mistaking it for the Sage of Marquette himself.

Plant That Coughs

Botanists have records of certain voracious plants which eat even mice; there are laughing and weeping flowers; and now, according to the Journal de la Sante, there is in the tropics a "coughing plant." Its fruit is like the common bean. It is easily aroused to anger, and what is more strange, has a horror of all kinds of dust. As soon as a few grains fall on the leaves the stomates or air cells, which are the breathing organs, fill with gas, puff out and throw off the dust with slight explosions like the cough of a child.

Directors

State News in Brief

Greenville—Mr. and Mrs. Joseph Hanchett, 94 and 89 years old, respectively, celebrated their seventy-second wedding anniversary at their home in Bushnell Township recently. They have lived there 50 years. They have six children and 19 grand-children.

East Lansing—Another Michigan city has acted on a sewage disposal plant, the East Lansing council recently awarding the contract for the work to a Grand Rapids concern for \$51,800. The contract covers only the sewage disposal plant, the sewer system being constructed under another plan.

Lansing—Members of boards of education may vote themselves salaries if the voters of the district have approved compensation, but may not alter salaries during their terms of office, according to a ruling by the attorney-general. An opinion was requested by Dr. M. C. Tyler of Iron River.

Sault Ste. Marie—The Cook building, a three-story structure on one of the most prominent downtown corners, was destroyed by fire here with a loss estimated at \$30,000. The fire originated in the basement. Half a dozen tenants on the second floor fled to the street in their night clothes, with the temperature around 18 degrees below zero.

Big Rapids—The starling, introduced in the United States from Europe in 1910, has reached Big Rapids in fair sized numbers, residents say. The aliens were first mistaken for English sparrows. The starling is considered unwelcome in this country due to its obnoxious traits of character, and is now being seen in cities and towns throughout this section of Michigan.

Manistee—Benjamin Klager, superintendent of schools, pleaded guilty to a charge of assault and battery on Ernest Kihnke, 19 years old, a student. Kihnke charge Klager attacked him in the superintendent's office, following an argument about Kihnke's pay for running the school moving picture machine, pushing him through a window pane and striking him with his fist. Klager paid a fine and costs of \$35.00.

Saginaw—The Saginaw School Board has appointed Chester F. Miller, for the past six years superintendent of schools at Galesburg, Ill., as superintendent of Saginaw's school system at a three-year average salary of \$8,500. He will begin his duties July 1, succeeding Harold Steele, who before the consolidation of the school districts here was superintendent of the west side schools and who since consolidation has been head of the combined school system.

East Lansing—With a total yield in 1927 of 1,275,000 bushels of onions, Michigan ranks seventh among all the states of the union in total output, according to announcement here by Dr. Paul Harmer, of the Michigan State college soils department. The state ranked eighth in total acreage, with 3,000 acres under cultivation during 1927. Dr. Harmer's report shows, Michigan had an average yield per acre of 425 bushels, while the average yield of other states was only 238 bushels.

Lansing—A census has revealed that there are 1,798 white pine and 1,137 Norway pine trees over 15 inches in diameter standing in the Interlochen State Park, one of the two last remaining stands of old pine timber in the Lower Peninsula. Recently the Conservation Department refused to allow the cutting of nine of the white pine trees for the purpose of helping erect an auditorium for the University School of Music which maintains a summer school adjacent to the park.

Sault Ste. Marie—Thirty-three years without an accident—this is the record of the oldest and perhaps the smallest unincorporated hunting club in Michigan, the France-Supe Hunting Party, of Sault Ste. Marie. The club was organized in 1895. Despite the fact that eight members of the club have killed several hundred deer, innumerable partridges and other small game during their 33 years organization, and fired thousands of shots from their rifles, not a single person has suffered injury.

Charlevoix—Following his hobby of collecting guns since he was a boy, Ira Adams, editor of the Charlevoix Sentinel, now has probably the largest collection of old-time firing pieces in Michigan. Standing in cases behind his desk in his newspaper office are more than 300 specimens, some dating back 400 years and more. The collection includes Filipino bolos and beheading axes, Japanese two-handed swords, the cannon made for the Lincoln club in Chicago and used in the two Lincoln campaigns, armor, powder horns and bullet pouches and many other antiques.

Harbor Springs—The government weather bureau will discontinue display of storm warnings at this port the coming season. Most of the lake craft are now equipped with radio and do not need the land display stations, as formerly, and many of the towers are to be taken down. The steel tower here has been offered to the village for use as a flag pole, and it is probable it will be accepted by the village trustees. The weather forecasts will be sent here, as formerly, but the flag displays will not be made.

Cost of Plowing With Two Horses

Size of Field and Nature of Soil Determine Time Required for Acre.

Although a three-horse team can plow more in a day than a two-horse team, the cost of plowing each acre is higher with three horses according to figures on the cost of plowing and the amount of labor used under different conditions in New York, gathered by the state college of agriculture at Ithaca, N. Y. The cost of the use of the third horse is more than the saving in cost of man labor. However, if the third horse would be idle it is good practice to use it, and, too, by using three horses enough time may be saved to plant a crop earlier or to plant more acres and thus increase the possibilities of greater income.

Time to Plow. The size of the field, the number of horses or the kind and size of tractor used, and whether the land is sod or stubble determine the time required to plow an acre of land.

In plowing small fields, considerable time is lost in making the turns if fields are both small and irregular. More time is lost. Large rectangular fields take least time for each acre, for less time is lost in turning and in plowing the headlands.

Two or Three? Two-horse teams walk more slowly and stop oftener than three-horse teams. Most tractors pulling two plows travel faster than horses. Further, no time is required for resting when a tractor is used. To plow one acre of sod with a two-horse team takes from 5 1/2 to 7 1/2 hours. With a three-horse team drawing a single plow, it takes from 5 to 6 hours; with a tractor and a two-bottom plow, it takes from 2 to 3 1/2 hours.

Stubble is easier to plow than sod, and it is not necessary to plow so carefully on stubble as on sod. An acre of stubble can be plowed in one half to one hour less than can an acre of sod, on the average. On the basis of cost, custom rates for plowing sod should be higher than for plowing stubble land.

Insure Profitable Corn Crop by Repairing Planter

After the seed corn has been tested and is ready to plant—then what? Trust to luck that your corn planter is going to work all right, or test it out—and know what it will do?

The kernels of your seed corn may be larger or smaller than last year and different size plates will be required. Or, if the ears have not been tipped and butted and run through a grader, there will be a large percentage of odd-sized kernels that will spoil the accuracy of the planter. Two kernels in one hill, three in another, four in a third, back again to three or two will give the desired average of three kernels to the hill, but the yield of corn will be injured by the unevenness of the stand. It has been demonstrated that five kernels missed per 100 hills of three kernels each will mean a loss of nearly five bushels per acre, counting 111 ears to a bushel. If the planter refuses to work properly and drop accurately it is plainly evident that a new machine will easily pay for itself in a single season.

Practices to Follow in Growing Alfalfa Crop

Alfalfa may be sown with a seedling of oats, barley or wheat in the spring in the same general way that clover is seeded. About ten pounds of seed per acre will give a good stand when properly put in. Alfalfa will not grow well on land where both surface and subsoil are sour, though it may grow well when surface is sour if subsoil is sweet. It is a waste of seed to sow it where the soil is sour at a depth of much more than a foot or so, until an application of limestone has been made.

Alfalfa seed should be inoculated before sowing if to be sown where inoculation from either sweet clover or alfalfa is not present. Seed can be inoculated by commercial cultures or with inoculated soil.

Alfalfa is superior to all other clovers for every purpose for which clovers are grown, whether soil building or feeding purposes.

Short Farm Notes

Planting on a loose seedbed is a bid for disaster.

Plant peas as early as possible, and keep planting them every week or two until July.

The poorer the soil the more need there is for fertilizer, and the more profit in its wise use.

A good seed bed is needed in garden making. It does not pay to stight the factor of soil preparation.

Improper shoeing frequently leads to irregularities in gait, which may render a horse unserviceable and unsalable.

It's much better to use plenty of seed, and then thin out all but the best plants, than to sow sparingly and have empty spaces in the rows.

Ahead of Engagements

Mary, who is the baby sister of girls in college, looks forward with delight to their week-end visits home and devotes herself entirely to them at such times. Recently her sister noticed that as Mary knelt to say her little prayer she hurried through it, then began again and so on until she had repeated it almost breathlessly four times. Finally she rose and exclaimed: "Now I am prayed up for four nights and we can't visit."

How Superstitions Arose

The Friday superstition arose because the crucifixion is supposed to have taken place on that day. Some persons think it is unlucky to spill salt, because Judas Iscariot seems to be spilling it in Davinci's picture. Others think that it is because salt is a symbol of incorruptibility, and spilling it is, therefore, a sign of broken friendships and general upsets.

STOPS COUGH QUICKLY—HEALING, DEMULCENT.

"I was bothered with a hard persistent cough, but found no other remedy so good and so quickly relieving as Foley's Honey and Tar Compound," says E. Boggers, Pomona, Calif. "Coughs and throat irritations, hard bronchial coughs, lingering 'flu' coughs, almost instantly stopped. It combines the curative influence of pure pine tar and the mollifying demulcent action of fresh clear honey with other healing ingredients. A boon to those who suffer from troublesome night coughs. Ask for Foley's Honey and Tar Compound.—Hite's Drug Store, adv."

Latest figures show that the Red Cross is feeding 71,062 victims of the flood, nearly a year after that disaster. It is a good thing they didn't have to wait on a bill to get through Congress.

REPORT OF THE CONDITION OF

State Bank at Boyne Falls

at Boyne Falls, Michigan, at the close of business February 29, 1928, as called for by the Commissioner of the Banking Department.

MICHIGAN BELL TELEPHONE CO.

Long Distance Rates Are Surprisingly Low . . . For Instance,

for \$2.00

Or Less, After 8:30 P. M.,

You can call the following points and talk for THREE MINUTES at the rates shown. Rates to other points are proportionately low.

FROM EAST JORDAN TO:

Station to Station	Rate
ATLANTIC CITY, N. J.	\$1.50
BOSTON, MASS.	1.65
CHATTANOOGA, TENN.	1.50
HOT SPRINGS, ARK.	1.75
JACKSONVILLE, FLA.	2.00
ATLANTA, GA.	1.65
SHREVEPORT, LA.	2.00

The rates quoted above are Station-to-Station night rates effective from 8:30 p. m. to 4:30 a. m.

A Station-to-Station call is one that is made to a certain telephone, rather than to some person in particular.

If you do not know the number of the distant telephone, give the operator the name and address and specify that you will talk with "anyone" who answers at the called telephone.

Day rates, 4:30 a. m. to 7 p. m., and evening rates, 7 p. m. to 8:30 p. m., are higher than night rates.

A Person-to-Person call, because more work is involved, costs more than a Station-to-Station call. The rate on a Person-to-Person call is the same at all hours.

Additional rate information can be secured by calling the Long Distance operator
