All are welcome to attend these services.

### Church of God

10:00 a. m.—Sunday School.  
11:00 a. m.—Preaching Service.  
7:00 p. m.—Evening Service.  
Mid-Week Prayer Meeting, Thursday, at 7:00 p. m.  
Everyone is cordially invited to attend these services. Come!

## Briefs of the Week

Born to Mr. and Mrs. Clarence Peck, a daughter, Tuesday, Feb. 12.

Born to Mr. and Mrs. Albert Etoher, a son, Lyle Richard, Feb. 7.

T. J. Hitchcock came home Thursday from Lansing for a week's visit.

Miss Carrie Chilson of Traverse City is visiting at the home of Mr. and Mrs. J. D. Frost.

The two Banks of East Jordan will be closed next Friday, Feb. 22nd—Washington's Birthday.

Mrs. Lee Farmer who was called here by the death of her mother, Mrs. Peter Lanway, returned to Grand Rapids, Saturday.

I am leaving for Muskegon Heights Monday, anyone interested in purchasing Furniture are invited to call at my residence on Main St.—Mrs. H. Rosenthal. adv.

Alonzo Shaw and son, Merritt, Walter Bigelow, Seymour Burbanks, Percy Batterbee, and Miss Beatrice Burbanks motored up from Lansing and visited here over the week end.

Mrs. Harry Simmons was painfully burned on the right hand Wednesday. She was cooking at her home and in carrying a pan of hot grease, slipped and fell, throwing the hot grease over her hand.

Annual Fireman's Ball at K. P. Hall, East Jordan, Friday evening, Feb. 22nd. Good music and a good time is assured. Everybody welcome. Evening ticket, \$1.00; extra ladies, 25c. adv. 6-2

Earl Clark of the East Jordan Weather Bureau Station states that Tuesday night was the coldest so far this winter, the thermometer going to 13 below zero, but rising to 3 above by 9:00 a. m., Wednesday.

Mr. and Mrs. George Carr received a telegram Wednesday, stating that their son, Edward, who is attending M. S. C., at East Lansing, was seriously ill with appendicitis and that an operation was imperative. They wired to have operation performed and left by auto that afternoon for Lansing.

A trip around the world with even traveling ward-robe, spending money, and chaperone provided free was offered recently by the U. S. Flag Association to the American boy and girl scoring highest in answering 75 questions about the flag and writing the best essay on it. Local contests may be organized in any town where 25 or more boys and girls care to compete. Colonel James A. Moss, president-general, said. The final contest will be held in Washington on Flag Day, June 14th.

Mrs. George Loomis, aged 60 years passed away at her home in Detroit, Friday evening, Feb. 8th, following a long illness from heart trouble. Mrs. Loomis was a well-known former resident of the Peninsula, Evening Township. The remains were brought to East Jordan Monday, accompanied by the husband and other relatives. Funeral services were held Tuesday forenoon from the Church of God, of this city, conducted by Rev. C. W. Sidebotham, pastor of the Presbyterian Church. Interment at Sunset Hill.

George Hathaway, former resident of East Jordan, passed away at his home in Charlotte, Mich., Monday night, Feb. 11th, following an illness from dropsy and heart trouble. He was born at Medina, Ohio, June 21, 1856. He is survived by a son—Kenneth Hathaway of East Jordan; and two daughters—Mrs. Dennis Ripley of Charlotte, and Mrs. Egbert Harrington of Lansing. The remains were brought to East Jordan Thursday. Funeral services will be held from Watson's Funeral Parlors this Friday afternoon, conducted by Rev. C. W. Sidebotham, pastor of the Presbyterian Church. Interment at Sunset Hill.

Emmet County will receive a check for \$8,033.42 from the State Highway department to apply on the debt the State owes the County for past-due funds spent on the northern roads. Payment of \$1,000,000 in State reward money is being made to Michigan Counties by the Highway department. Another \$1,000,000 will be paid April 1; the remainder of the account, \$155,715 will be paid Feb. 1, 1930. Counties received: Charlevoix, \$7,435.85; Cheboygan, \$1,417.20; Emmet, \$8,033.42; Grand Traverse, \$3,482.18; Iosco, \$8,051.83; Manistee, \$1,214.38; Mecosta, \$5,939.64; Wexford, \$6,282.56.—Petoskey News.

For Sale—Furniture. Inquire of Mrs. H. Rosenthal, East Jordan. adv.

L. C. Reimann of Ann Arbor who has a Camp for Boys at Ironton announces the purchase of another camp on Oyster Bay, almost across Lake Charlevoix from Ironton, which has 166 acres and a shore line of 4200 ft. Twenty rustic buildings will be built this spring by Pochman Lumber Co., Petoskey. Two main buildings will be 40x60 and 40x22, then 15 log cabins with room for 130 boys and 40 staff members. Among the attractions will be 20 riding horses. The students will be allowed to assist in making the trails and bridges over the stream which runs through the new purchase. Mr. Reimann has made a fine record in the past 10 years in boy's work and the colony is increasing each year.—Boys Citizen.

Miss Delia Lenoskey visited friends in Charlevoix the past week.

Mrs. Ernest St. Charles left Thursday to join her husband at Pontiac.

Atty J. M. Harris was over from Boyne City, Tuesday, visiting friends.

For Sale—Furniture. Inquire of Mrs. H. Rosenthal, East Jordan. adv.

L. A. Hoyt left Monday for Wyandotte, Mich., where he plans to spend a week or so.

The Presbyterian Missionary Society will meet with Mrs. Mabel Seccord on Friday, Feb. 22nd.

Mrs. Wesley Greenman of Flint came first of the week, called here by the illness of her mother, Mrs. James Nicholls.

Oscar Walstad was called here from Engadine the past week by the serious illness and death of his father, A. Walstad.

Mrs. J. E. Chew announces her candidacy for Township Treasurer of South Arm. Notice elsewhere in this issue. adv. 7-1

Special meeting of Mark Chapter, O. E. S., Wednesday evening, Feb. 20th. Pot luck supper will be served at six o'clock standard. All members please be present.

Mrs. Mabel Scofield of the Marcel Shop leaves Feb. 25th for Traverse City, where she completes her study of Finger Waving. She will re-open her shop here on March 2nd.

Announcements have been received here of the marriage of Billie (Miss Rosabelle) Danto to Robert Glazer, at Louisville, Kentucky, Sunday, Feb. 10th. The bride is a daughter of Mr. and Mrs. A. Danto, former East Jordan residents, but now of Chicago. She was a graduate of our public schools.

Flint—Adam and Eve were born in Flint recently. They are twins, the children of Adam Stucker and his wife, Eva. Adam arrived seven minutes before Eve.

Detroit.—Carbon monoxide gas from the exhaust of his automobile caused the death of Louis Sullivan, 36 years old. His body was found in his car, of which the motor was still running.

Detroit.—Detroit scored an outstanding gain in postal receipts in January. Its total of \$940,954 for that month being 15 per cent greater than the total for the same month last year. The average gain for the 60 cities on the post office department's selected list was a little over three per cent.

Monroe.—The grain elevator owned by Burt McKenzie & Son, at Newport, 15 miles north of Monroe, was destroyed by fire recently. The partly filled elevator burned for several hours, despite the efforts of the Monroe and Wyandotte fire departments to quench the blaze. The loss is estimated at \$35,000.

Pontiac—Glenn Berryman, 10-year-old son of Mr. and Mrs. Charles Berryman, is recovering at St. Joseph Mercy Hospital from an injury received when he touched off a dynamite cap with a lighted match. Three fingers of his left hand had to be amputated, and one of the boy's eyes was injured, but the vision may be saved.

Lansing—Hunting within 150 feet of the center line of any public highway would be prohibited by a bill introduced in the house by Rep. Wilbur E. Snow, of Comstock Platted land also would be forbidden to hunters. The bill would amend the Horton Act, forbidding hunting on improved land without the consent of the owner.

Calumet—After warning fellow workmen of a dynamite blast and getting others to scurry to safety, Philip Swedrok, 32 years old, of Calumet, was killed instantly by the blast at the Calumet & Hecla Smelter. Swedrok touched off the dynamite on a piece of copper and ran. A fragment of the copper struck him in the back of the head. He leaves a wife and four children.

Plainwell—Miss Bethel Thompson, 30 years old, a deaf mute, was killed instantly by the automobile of Dexter Pursell, 24, of Grand Rapids, when it skidded on the ice-covered highway two miles north of here. Miss Thompson was walking north on the west side of the highway and the car skidded across the highway before striking her. Dr. P. A. Bartholmew, county coroner, held the accident was unavoidable.

Flint—Surgeons at the Hurley Hospital are making a desperate attempt to save the sight of the left eye of Billie Griffith, 7-year-old son of Mr. and Mrs. George E. Griffith. His eye was pierced by fragments of a bullet while he stood near a bonfire warming himself at the municipal skating rink at Dewey Woods. Witnesses said that someone tossed a pistol cartridge into the fire, where it exploded, the bullet striking the boy.

Detroit—Detroit has four airports recognized by the department of commerce and Michigan 37 such airports, a report issued by the aeronautics branch of the department at Washington revealed. The 37 fields in the state include 16 municipal fields, nine each auxiliary and commercial, the United States army airport at Selfridge field, the army field at Camp Custer and the department of commerce airports intermediate field at Monroe.

## February's a Short Month

but it is plenty long enough to start you on the Road to Success if you open a Savings Account in this Bank.

No man can hope to get ahead unless he first accumulates at least a small amount of capital. And the first step is the door step of this bank. Cross it today; cross it often. We pay you compound interest on every penny you save.

"THE BANK ON THE CORNER"

### WHEN COUGHS ARE STUBBORN

When colds hang on, and coughs are stubborn, remember the effectiveness of Foley's Honey and Tar Compound. This accurate blend of pure pine tar, and fresh laxative honey, together with other valuable medicinal ingredients acts very quickly and with wonderfully healing effect on the inflamed tissues of the respiration tract, and quickly subdues the irritating cough. Best for children and grown persons. Ask for it.—Hite's Drug Store. adv.

Louise Rice, world famous graphologist, can positively read your talents, virtues and faults in the drawings, words and what notes that you scribble when "lost in thought". Send your "scribbles" or signature for analysis. Enclose the picture of the Mikado head, cut from a box of Mikado pencils, and ten cents. Address Louise Rice, care of EAGLE PENCIL CO., NEW YORK CITY

### Pilgrim Holiness Church

Rev. B. E. Manker, Pastor.  
11:00 a. m.—Sunday School.  
2:00 p. m.—General Service.  
7:00 p. m.—Friday night, Prayer Meeting.

Long Distance Rates Are Surprisingly Low

For Instance:

for \$2.00

or less, between 4:30 a. m. and 7:00 p. m.

You can call the following points and talk for THREE MINUTES for the rates shown. Rates to other points are proportionately low.

FROM EAST JORDAN TO:	Day Station-to-Station Rate
PITTSBURG, PA.	1.80
SPRINGFIELD, ILL.	1.85
CINCINNATI, OHIO	1.80
GREENSBURG, PA.	1.95
CONNELLSVILLE, PA.	1.95
BEDFORD, IND.	1.95
NORTH VERNON, IND.	1.80
IOWA CITY, IOWA	1.80

The rates quoted are Station-to-Station Day rates, effective 4:30 a. m. to 7:00 p. m.

Evening Station-to-Station rates are effective 7:00 p. m. to 8:30 p. m., and Night Station-to-Station rates, 8:30 p. m. to 4:30 a. m.

Additional rate information can be secured by calling the Long Distance operator

# Community Building

## Begin to Appreciate Beauty as Civic Need

As a people we are beginning to realize that the factors which make a city beautiful are the very ones which lift it above the average and give it an appeal to higher intelligence, superior citizenship and higher purchasing power. So-called improvements, like parks and parkways, result in higher assessed values.

Beauty is described as the new business tool. We begin to see that dull or ugly buildings cause a sheer dollars and cents depreciation. Real-estate men are learning that failure to maintain architectural standards results in slower sales.

It is not pretended that just because the outward appearance of a city attracts and charms the beholder, all the social ills of mankind are thereby solved. Streets and buildings and parks do not reflect the whole inner life of society. Yet just as the face shows forth the character and incorporeal nature of a man, so does the appearance of a city tell much of its animating spirit, of the desires, qualities and ideals of its people.

"We were meant to live in beauty, to cherish it and create it," says Ralph Adams Cram, great architect, "and a civilization that functions in the hideous and uncouth is a civilization of the wrong shape, whatever the testimony of the bank and the clearing house, and however imposing the statistics as to the balance of trade. These may accompany civilization, but they do not prove it."—Albert W. Atwood in the Saturday Evening Post.

### Millions of Homes in Need of Modernizing

There are more than 10,000,000 dwellings in this country which, for one reason or another, need modernization, according to the district engineer in charge of large operations in a leading city.

"Modernization," said this expert, "may mean anything from putting in a new foundation, a basement or a new wing, to new lighting fixtures and wallpaper. On any one job the outlay may not be great, but the result of a concerted drive for the rejuvenation of homes can be of major importance to the entire building industry.

"Such a drive is now under way. Organizations representing the various standard building materials are co-operating in the home modernization bureau, the sole purpose of which is to educate the home-owning public to the needs and possibilities of home modernization."

### Roadside Planting.

Native shrubbery, suited to roadside planting, can be utilized to advantage. Wild flowers requiring shade can then be used to enliven the shrubbery effects. Vines, especially honeysuckle and myrtle, on highway fences and on the faces of cuts and fills, will relieve the harsh monotony of roads constructed solely for motor traffic. Eastern railroads have developed rose vines to grow from cuttings on the face of banks along the track, producing striking effects. There need be no fear that low plantings will in any way interfere with highway traffic safety. Official sanction of the plan by the highway and conservation departments has been given, and the federation has a right to expect the co-operation of every community served by a state road.—Indianapolis News.

### Man From the Country.

Why do so many men from "the country" wind up in the chief executive positions in industry and in public office?

Probably because they develop a stronger physical constitution and a broader education on many and varied lines of human endeavor and activity. The average man raised in the city does not have the same opportunity for mental and physical growth.

The man who gained his early training away from the great centers of population generally has a broader vision of human affairs, and a better mental "yardstick" with which to see and measure the possibilities of the future.—Rushville (Ind.) Republican.

### Making House a Home.

All the wealth in the world cannot transform a mere house into a home. Home making is the gift of putting yourself into your home, replacing the dull and drab with the colorful and interesting, bringing charm and beauty into all the commonplace things that are a part of living—and a gift within the reach of every woman. For without demoralizing the family budget, without unreasonably discarding those things you already have, and without professional knowledge, your dream of a home that is more than a shelter can be yours.

### Home Ownership Important.

With the great industrial growth of America and the struggle for improved living conditions, home ownership still remains the greatest single factor of family pride. While protection was the original purpose in owning a shelter, home ownership now assumes the important responsibility of holding together the great unit of government—the family.

## WHERE SHALL HE GO?

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

Falkner's son graduated from high school last June and Falkner is somewhat concerned as to where he should send him to college. There is a junior college in Falkner's town, and if George should go there he could be at home just as he has been while in high school. It would please his mother to have him under her eye, and he could be very much better looked after than if he were down state or in New England.

There is, of course, the big institution and the small college, the co-educational college, and the college for men only. It is a question rather hard to decide especially when the boy himself is indifferent.

There is, in fact, not so much at stake in making the choice as one might suppose. If mere information and book knowledge is all that should be considered, the boy will be taught one place about as well as another. It is to be supposed that if he is sent to the junior college he will live at home. Now the boy at home is never so independent as if he were a hundred or a thousand miles away. He is seldom if ever allowed fully to exercise his own judgment, to make his own decisions, to come and go as he chooses, and so he loses a good deal of initiative and self-reliance. One learns much by having to stand on his own feet, by making his own mistakes, by living his own life. Only an economic saving is the junior college best.

As to the merits of the small college compared with the big one, it is very much like making the choice between the small town and the city. The shy and the unaggressive might be lost in the city, and not be able so easily to find himself in the big university. As to getting more personal attention in the small college than in the larger one, and being taught by men of greater distinction, that is largely a matter of imagination rather than of fact.

The number of students for which an instructor in the big university is responsible is not generally larger than those assigned to an individual in the smaller college. In the big institution the contacts are more cosmopolitan in character. One meets all sorts and conditions of men interested in every line of mental activity and should profit by such intercourse. The moral problems are not different in one institution from those in the other.

One does not solve the problems of sex by sending a boy to a man's college. Radcliffe is next door to Harvard, and Smith is only seven miles from Amherst. They get together no matter where they are sent. It has always been so. Coeducation neither relieves nor increases the difficulty. It is after all a matter largely of personal choice, and in making the decision the preference of the student himself should be given the greatest weight. Wherever he goes, he will very likely think it the best place.

(© 1929, Western Newspaper Union.)

## For Early Spring

Here is a beige kasha cloth suit for early spring wear. It is trimmed with a wide shawl collar and elbow length cuffs of kolinsky.

The lower the gas is turned the brighter it seems for a pair of fond lovers.

If you would outshine your neighbors, acquire a reputation and then keep it polished.

Lots of men go where duty calls then stand with their hands in their pockets after they get there.

# Horticultural News

## MULCHING HELPS STRAWBERRY BED

### Fruit Specialists Recommend Wheat or Rye Straw.

Mulching the strawberry bed, preferably with clean wheat straw, not only gives protection against alternate freezing and thawing in the winter, but tends to keep the plants from starting growth during unseasonable warm spring weather. It also keeps down weeds and conserves moisture, thus taking the place of cultivation and helps to keep the fruit clean during the fruiting season. It is pointed out by Frank H. Beach and Clyde S. Holland, fruit specialists in the extension service of the Ohio State university. Serving all these purposes, mulching thoroughly justifies itself as a strawberry producing practice, in the opinion of the specialists.

Wheat or rye straw, clean, are perhaps the most satisfactory materials for mulching. Oat straw packs tightly and sometimes contains unthreshed grains. Manure, mixed with straw, while sometimes used, is likely to harbor weed seeds and insect pests, and is not always good for the soil upon which the strawberries are grown. In small home beds, rakings from the lawn will serve.

The mulch may be applied either before or after the ground is well frozen, since its purpose is to prevent freezing, thawing, and freezing again.

### Pruning Currant Bushes by Removing Old Canes

The difficulty in pruning currants is greatly increased by neglect. Systematic annual pruning from planting should be followed. The finest currants are produced at the base of one-year-old shoots and on one-year-old spurs arising from two-year-old wood. Spurs on older wood produce fruit but it is much less in amount and smaller than that produced on younger wood. Canes, therefore, are usually past their best fruiting after their third crop.

The chief item in currant pruning is to remove canes which have passed their best fruiting and to replace them with new canes. A good plan is to remove a definite number of old canes each year and leave an equivalent number of new canes to replace them. When a three-year system is followed, nine canes to a plant makes it easy to keep the balance.

The three-year plan can be operated as follows: At the beginning of the second season leave six strong canes. At the beginning of the third season remove two of these canes and leave five strong new canes. At the beginning of the fourth season, remove one two-year cane, two one-year canes and leave three new canes. Thereafter the oldest canes, those in their fourth year, should be removed and three new canes left to take their place. This will give a plant, at the beginning of the growing season, composed of three canes in their second season, three in their third season and three in their fourth season.

### Dwarf Fruit Trees Are Becoming Very Popular

Of recent years the dwarf fruit trees have come into great favor because of their early fruiting qualities. It is claimed the dwarf varieties fruit in at least half the time it takes the standard tree to reach the fruiting point.

Now the dwarf fruit trees are being made to serve an ornamental purpose, as well as a useful one. They can be planted as specimen subjects the same as the ornamental trees, and at blooming time are as beautiful as any flowering shrub or tree.

When grown for their fruit they are economical, as they take up less ground, and therefore more trees can be planted to the same area. Dwarf trees are also much more easily cared for; spraying and pruning are simplified.

### Spraying for Scale Is Job for Winter Season

San Jose and other scale insects, including oyster-shell scale, hose scale and scurfy scale make up a group of formidable plant pests. Often their presence is unknown until the plant has succumbed to their attack. They are tiny scale-like insects of varying shapes, which settle themselves on the bark, leaves and fruit of plants to obtain their subsistence by sucking the sap of the plant.

All sucking insects must be controlled by spraying them with a poison which will kill by entering the breathing pores, or with a substance which will smother them.

### Blackberry Shoots

The new shoots of blackberries come up from the roots, and in time will form a rather dense clump. The best way to handle this is to take up the thrifty plants, dividing them from the main root underground, and set them where desired. Along a wire fence would be very good, because you could then tie them up to the fence and keep them in convenient shape for handling. This work can be done either in the fall after the leaves drop or very early in the spring.

# What Is A Bargain?

In this community are hundreds of individuals and families on the watch for an advertisement which will offer them what they want at an advantageous price.

Call them bargain-hunters if you like, but thrifty shoppers would be the better designation. Thrift is a commendable trait and merchants should cater to it.

One family wants a new carpet—the need is not urgent. Another family is looking forward to buying dining-room furniture—it may not be for twelve months.

One man is thinking of buying himself a watch. One woman a shopping bag; another an umbrella. All can be made to buy earlier—by advertising. Advertising can make the desire so keen that the bargain is forgotten in the fever for immediate possession.

## A Note to Merchants

Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you—at a time of your naming.

# SHOP WHERE YOU ARE INVITED TO SHOP.

## FOR 9 YEARS GAS RUINED HER SLEEP

"Due to stomach gas I was restless and nervous for 9 years. Adlerika has helped me so that now I eat and sleep good."—Mrs. E. Touchstone.

Just ONE spoonful of Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—GIDLEY & MAC, Druggists. adv.

## SAFE FOR CHILDREN'S COUGHS—CROUP

Thousands of mothers everywhere rely upon Foley's Honey and Tar Compound to relieve their children's coughs, stuffy wheezy colds, troublesome night coughs, and, above all, of frightening croup. Always reliable, Foley's Honey and Tar Compound quickly cuts the choking phlegm, clears the clogged throat, and turns a suffering, choking child into an easy-breathing, quietly sleeping little one. Rely upon Foley's Honey and Tar Compound, and you will not be disappointed. Ask for it.—Hite's Drug Store. adv.
