EAST JORDAN, MICHIGAN, FRIDAY, JUNE 21, 1929.

NUMBER 25

Grade Exams In The County

REPORT OF THOSE PASSING IN RURAL SCHOOLS.

The Grade Examination this year was held in four places as usual: Charlevoix, Boyne City, East Jordan and St. James.

Lila Goodwin of the Walloon Lake school has the honor of having the highest standing in the seventh grade in Charlevoix County. Her average was 93. Jerome Kondziela of the same school has a close second, his average being 92.

Mary Doris Bader of the Wildwood school has first honors in the eighth grade, having an average standing of 91.

And we're glad to announce Mae Petoskey of the Bay Shore school as a close second with an average standing a fraction over 89.

A list of those who passed, follows:

BAY TOWNSHIP

SEVENTH GRADE—

Edward Copeland, Adrien McCune, Joseph West, Dist. 2. Mildred Bewell, Homer C. Taylor, Roy E. Taylor, Dist. 3.

EIGHTH GRADE—

Howard Dell, Dist. 1. Donald Koteskey, Ralph Floyd Leist, Dist. 2.

CHANDLER TOWNSHIP

SEVENTH GRADE—

Lila Ledwick, Dist. 2 sub.

EVANGELINE TOWNSHIP

SEVENTH GRADE—

Julia A. Ellis, Dist. 5 Frl.

EIGHTH GRADE—

Mary Doris Bader, Dorothy Burns, B. J. Ellis, Viola Florenski, Dist. 5 Frl.

EVELINE TOWNSHIP

SEVENTH GRADE—

Erich Rasch, Richard Sweet, Dist. 1 Frl. Clayton Healey, Lucy Reich, Bertie Stallard, Dist. 6.

EIGHTH GRADE—

Alfred Crowell, Dist. 2. Bruce Sanderson, Dist. 3. Archie Ward, Dist. 4. Pauline Loomis, Alice Russell, Doris Russell, Phyllis Woerful, Dist. 6.

HAYES TOWNSHIP

SEVENTH GRADE—

Dorothy Ferguson, Dorothy Wasquam, Arvilla Yahr, Dist. 1. Dorothea Cook, Dist. 4. Anna Willis, Arthella Zipp, Dist. 5. Kenneth Armstrong, Opal Gregory, Ruby Gregory, Gust Jerichow, Dist. 6.

EIGHTH GRADE—

William Mindel, Addie Sanders, Edith Speigl, Joseph Speigl, Dist. 1. Ernest O'Brien, Helen Pearl, Homer Struthers, Dist. 2. Kenneth Dake, Gladys Draton, Willard Minier, Dist. 5. Mae Petoskey, Dorothy M. Zipp, Dist. 5. Harry S. Baker, Dist. 6.

HUDSON TOWNSHIP

SEVENTH GRADE—

Gene Caldwell, Harold Hoogerhyde, Karl Howard, Florence Woodward, Dist. 2.

MARION TOWNSHIP

SEVENTH GRADE—

Ernest Potter, Dist. 3. Elsie McClanaghan, Dist. 4. Celia Crain, Caroline Greiner, Freda Greiner, Sophia Krchak, Wesley Meggison, Bessie Straw, Dist. 9.

EIGHTH GRADE—

James Block, Eleanor Daugherty, Elizabeth Dhaseler, William Potter, Dist. 3. Raymond Cunningham, Dist. 4. Inez Crithlow, Bessie Pop, Dist. 5. Burr Blanchard, Dist. 6. Catherine Cellner, Arthur Elliott, Dick Straw, Dist. 9.

MELROSE TOWNSHIP

SEVENTH GRADE—

Dorene Banks, Lovell Banks, Gordon Ecker, Charles David Kent, Iva Lue Miller, Dan Olson, Marjorie Ruffe, Stanley Strickler, Dist. 2 sub. Jack Wittman, Dist. 3 sub. John Goodwin, Lila Goodwin, Jerome Kondziela, Dist. 4 sub. Martha Bauman, Irene McDonald, Tony Rogers, Dist. 5 sub.

EIGHTH GRADE—

Wellington Ecker, Frieda VanCamp, Dist. 2 sub. Lottie Szepelak, Dist. 3 sub.

NORWOOD TOWNSHIP

SEVENTH GRADE—

Bertha E. Pierce, Marjorie Richardson, Dist. 1. Bessie Pesek, Elsie Rumisek, Dist. 2. Chester Schneider, Roy Schneider, Dist. 8.

EIGHTH GRADE—

Elizabeth Pavlik, John Pesek, Jr., Dist. 2.

PEAINE TOWNSHIP

SEVENTH GRADE—

Ledonis Burke, Dist. 2.

EIGHTH GRADE—

Anna M. Gallagher, James J. Gallagher, Dist. 1. James H. Ricksgrs, Dist. 2.

ST. JAMES TOWNSHIP

SEVENTH GRADE—

Clara Gallagher, Stanley Floyd, Norman Gallagher, Gerard Gillespie, John Grill, Stella Wabanimkee Dist. 1.

EIGHTH GRADE—

Frances Brown, Archie Lafreniere, Helen Lafreniere, Vernon Lafreniere, Rosamond Martin, Catherine O'Donnell, Lavacey O'Donnell, Willard H. Fischer, Dist. 1.

SOUTH ARM TOWNSHIP

SEVENTH GRADE—

Ralph Shepard, Dist. 1. Howard

Garth Ranney, Dist. 3. Howard McDonald, Dist. 7.

EIGHTH GRADE—

Everett Combest, Shirley LaCroix, Dist. 2. Curtis Evans, Arlene Liskum, Nelson R. Murray Jr., Dist. 3. Howard Donaldson, Dist. 7.

WILSON TOWNSHIP

SEVENTH GRADE—

Fred Schroeder, Dist. 1. Freddie Cihak, Frances Zoulek, Dist. 2. Margaret M. Martin, Mary Christabelle Sutton, Dist. 3. Helen Korhase, Dist. 4. Glen Tomkins, Dist. 5.

EIGHTH GRADE—

Bessie Behling, Theodore Spencer, Dist. 1. John Guznick, George Nowland, Dist. 3. Doris M. Green, Dist. 5.

There is also a prize for the best examination written in each county on the State Fair Boys' Contest. This prize is a free trip to the State Fair at Detroit. The prize this year goes to Burr Blanchard of the Phelps school.

WM. C. PALMER,
Comm'r of Schools.

ALBA BANK IS CLOSED BY VOLUNTARY ACTION

(From Manclona Herald, June 13)

The Alba Bank of Noble & Bennett closed its doors this morning, and a receiver is to be appointed tomorrow to dissolve the partnership and liquidate the affairs of the institution.

The collapse is due to the potato situation the past year, and to money loaned for the purchase of machinery and other improvements by farmers in the Alba section. These notes were sold to other banks, and could not be taken up at their maturity on account of the low prices on potatoes.

These notes will without doubt be all taken up this year, but the bank meanwhile has been forced out of business.

A meeting of the interested banks was held at Alba last evening, and as stated above, a receiver will be appointed tomorrow.

A State Bank is already planned for Alba to replace the private bank, and our sister village will not long be without a banking institution.

R. C. Bennett, it is stated, will remain at Alba. He has been a power for progress in Antrim County and many a farmer who started with nothing and now has a well equipped farm, tells with tears in his eyes how Mr. Bennett helped him get his start.

"Too many eggs in one basket" is given as the cause of the trouble. Every farmer is well worth the amount of his note given for the machinery, it is stated, but the lack of a market for potatoes on which the principal dependence was made, finds each of them without the ready cash to pay for his latest improvements.

Another season if all goes well will see the notes paid, and each farmer with his lesson learned in regard to pinning his faith mostly on one crop.

WILLIAM DUNLOP DIED SATURDAY

William Dunlop, a pioneer resident of Echo Township, Antrim County, and later of East Jordan, passed away Saturday, June 15, 1929, from dropsy and heart trouble, aged 82 years.

Mr. Dunlop was born at Almont, Ontario, May 8th, 1847, his parents being Mr. and Mrs. Peter Dunlop. When he reached manhood he was united in marriage to Annabelle McKay at Almont, Ont. They came to Michigan in 1869, homesteading in Echo Township, Antrim County. Some 41 years ago they moved to East Jordan, where the wife passed away in 1905. He was later united in marriage to Myra Bashaw, who survives him, together with the following sons and daughters:—Mrs. James Murray and Mrs. H. A. Goodman of East Jordan; Mrs. Etta Smith of Independence, Mo.; William Dunlop of Petoskey; George and Frank Dunlop of Boyne City.

Funeral services were held Monday afternoon from the Latter Day Saints Church of this city, conducted by Elder Allen Schuer of Gaylord. Interment at the Jones cemetery.

POMONA GRANGE AT MAPLE GROVE

Charlevoix County Pomona No. 40 will meet with Maple Grove Grange next Thursday, June 27th.

Meeting will be called to order at 2:00 o'clock fast time. A pot luck supper will be served.

A good program is being prepared and several interesting questions will be discussed.

Everybody come prepared to help make a splendid meeting and have a good time.

Maple Grove Grange is situated on one of the most sightliest spots in northern Michigan. Come and enjoy the scenery.

Father Speaks Out

YOU'VE GOT TO STOP GOIN' ROUND WITH THAT YOUNG MUTT. HE HAS NO CLASS—HE LOOKS LIKE A BUM TO ME GET ME!

AH!—GO LOOK IN A MIRROR YOURSELF AND SEE WHAT YOU'RE LOOKIN' AT!

Exciting Liquor Case Being Developed By Pros. Att'y Lewis

(From Charlevoix Correspondence in Petoskey News, June 13.)

Working on information furnished by Malroy Dudley, Lima, Ohio, negro arrested Monday for drunkenness, Pros. Att'y R. L. Lewis and Sheriff David Vaughan and deputies cleaned up another source of liquor supply in this vicinity Tuesday afternoon.

Dudley started to work Monday morning at the Belvedere Hotel, where he was employed as houseman. He was later noticed that he was intoxicated, and when trouble was experienced in persuading him to leave, officers were called and he was placed under arrest. After leaving the hotel, Dudley and his wife had gone to a residence on Stover road and were found there by officers.

Dudley at first was not communicative regarding the source of his liquor supply, but Tuesday opened up and gave officers his story. It seems that he first put in his appearance at Ellsworth, where he sought employment at Big Fish Inn. It was at Ellsworth that he made the acquaintance of Claude Fairman, farmer, living on Charlevoix, Route 1, in Antrim County. He related how he and his wife lived at Fairman's place for a period of between two and three weeks, and during that time accompanied him on several trips when he obtained liquor and delivered it to customers at various places.

It was upon this information that Fairman was arrested Tuesday afternoon. He has since confessed to officers his guilt. Fairman implicated Norman Jensen, farmer living in the Miles school vicinity, as the person who furnished the liquor, and Jensen was arrested and brought to jail. Previous to his arrest, Jensen's place was searched and no liquor found. He at first denied all charges made by Fairman and Dudley, who related how they met Jensen on the road and transferred liquor from one car to another. Mrs. Dudley was also present and added her statements to those made by her husband and Fairman. Wednesday morning, however, Jensen came through with a complete confession.

Further information is not available other than that officers went Wednesday afternoon with Jensen to his place to locate the still and equipment.

Plans Are Made to Issue Stamp Honoring Edison

Postmaster W. A. Stroebel has announced that the Post Office Department will shortly issue a new 2-cent postage stamp to commemorate the 50th anniversary of the production of the first incandescent lamp invented by Thomas A. Edison.

The new stamp will be the same size as the standard 2-cent stamp and will be printed in red ink. The design features a reproduction of the original lamp with rays of light issuing therefrom. Immediately above and partly encircling the lamp will be a ribbon with the words "Edison's First Lamp." At the top will be a semicircular panel displaying the words "United States Postage" in white Roman letters.

A couple of farmers had been leisurely bargaining for a cow for over an hour. Finally the prospective buyer came to the point.

"How much milk does she give?" he asked.

"Wal, I don't rightly know," replied the owner, "but she is a darn good natured critter and she'll give all she can."

Don't impair your happiness by borrowing trouble or lending money.

BETTER YARDS AND GARDEN CONTEST

The interest and work that is being done in the Better Yard and Garden Contest is certainly very encouraging to the Business Men's Club and others interested in it.

It is hoped that a more detailed account of the work that is going on will be available in the near future.

The best thing about work of this kind is that it is permanent. The trees and shrubs planted this spring will pay us many future dividends in our own personal enjoyment and the improved appearance of East Jordan.

WITH THE Co. Agr'l Agent

CHERRY MEETING

One of the most important cherry meetings ever held in the County was conducted in East Jordan last Thursday night with an attendance of 35 growers present.

The cherry growers are faced with the knowledge that in a short time there will be a surplus produced, as last year Michigan produced 40,000,000 lbs. of sour cherries out of a total of 69,000,000 lbs. produced in the entire United States. Then it is estimated that 57 per cent of our cherry trees are under five years of age. What will happen when they bear fruit?

In order to stabilize the distribution of cherries and to open up new markets, plans are being made for an organization to be known as the Michigan Cherry Growers. The membership is open to all cherry growers and only by a strong membership can constructive efforts be made.

A. J. Rogers, Beulah, Pres. of the Michigan Cherry Growers and A. B. Graham, Elberta, Vice-Pres., were present and explained in detail the situation. Gifford Patch, Economics Specialist of M. S. C., talked on the necessity of doing something soon and plans of organization.

The cherry growers of this county were much in favor of this organization and elected seven growers as Directors, who will organize Charlevoix County and secure memberships. The following were named:

A. L. Darbee, East Jordan, Pres. Geo. Hanson, East Jordan, Sec'y. Douglas Tibbitts, East Jordan, Director.

Howard Stephens, Boyne City, Director. George Meggison, Charlevoix, Director. Lawrence Jensen, Ellsworth, Director. John Porter, East Jordan, Director.

Smashes Two-Mile Record

Miss Sylvia Wixon, Ass't State Club Leader spent Thursday and Friday of last week in visiting and organizing Canning Clubs. Seven communities were visited and many prospective clubs will be organized as the result.

It is gratifying to see the increase in clubs, as last year we had only five in the county. From present indications an enrollment of approximately fifty girls will be engaged in canning fruits, vegetables, jams, jellies, meats and vegetable mixtures. This makes a very pleasing and pleasant project for the girls to carry on during the summer months.

The following communities will have clubs this year:

Advance—Mrs. Wm. Franks, Leader. Deer Lake—Miss Sidney Lumley, Leader. Boyne Falls—Miss Florence Nash, Leader. Ironton—Mrs. Marion Jackson, Leader. Marion Center—Mrs. Wm. Withers, Leader. Peninsula—Katherine Wangeman, Leader. Wildwood—Mrs. Robert Love, Leader.

GUERNSEY MEETING

The Charlevoix County Guernsey Breeders Association held a meeting of their membership last Wednesday in East Jordan, to make final plans for the Second Annual Guernsey Summer Show and Picnic.

The date for this event has been set for Thursday, July 11th and will be held in East Jordan as was the previous show. Plans are being made for an exhibit of at least 30 of the leading Guernseys in the County. Ribbons will be awarded the different class leaders.

Picnic dinner will be enjoyed at noon at the East Jordan Tourist Park. Coffee, cream and sugar will be furnished by the Association.

The following committee was appointed by Pres. Chas. Murphy to work with the East Jordan Business Men's Club in making final preparations:

Carl Grutsch, East Jordan. Archie Murphy, East Jordan. James Nice, East Jordan.

An interesting Guernsey Booth will be erected which will sell the merits

Charlevoix To Celebrate 4th

THAT CITY'S TURN UNDER CO. TRI-CITY AGREEMENT.

Plans are in the making for a grand and glorious observance of the 4th of July at Charlevoix. Under the tri-city agreement which has been in force for several years, Charlevoix will put on the celebration for the County, with East Jordan and Boyne City co-operating.

A committee composed of S. M. Rose, Chairman, S. W. Sorenson and Leo Powers has been appointed by Mayor Bergeon to work out the program, partial details of which have been planned and were announced Tuesday.

A mammoth parade with bands, floats and other accessories to such a feature will open the day's activities at 10 o'clock in the forenoon. First and second cash prizes will be awarded the best floats and if the parade warrants, a third prize will be given. Merchants are asked to make preparation for their entries in the parade at once and report to S. W. Sorenson.

Ray Kipke, recently appointed city recreational director, will have charge of the street sports. Included in this part of the program will be running races for old and young, fat or lean, with suitable prizes to the winners. A program of swimming races, greasy pole contest, boat races and other water contests is also promised. The drills of the U. S. Coast Guards promises to be another interesting feature.

Leo Powers is making arrangements for a program of amateur boxing contests to be held in the gravel pit opposite the Argo Milling Co. This feature was one of the most interesting parts of the celebration held there three years ago and will be equally popular this year. Several four-round bouts will be staged and a call is herewith broadcast for amateur leather-pushers of the region to get in touch with Mr. Powers.

Two bands will entertain throughout the day. It is probable there will be concerts both afternoon and evening, and a fireworks display will wind up the day's activities.

A full and detailed program of entertainment features will be available for next week's issue.

of the Guernsey milk to the public. Watch the paper for further announcements.

POTATO FERTILIZER EXPERIMENT

Farmers raising potatoes will be interested in a fertilizer experiment that has been placed on the farm of Murphy Bros., East Jordan. This experiment was supervised and set out by John Sims, Soil Specialist and C. M. McCrary, Potato Specialist of the Michigan State College, co-operating with County Agent Mellencamp.

1-10 acre plots were used, each having different analysis of commercial fertilizer, ranging from an 0-16-0 formula to one as high as 4-16-8 and 4-16-16.

In addition to comparing the yields with the different fertilizers, different spacing distances were used on each plot, so that when the crop is harvested, we can ascertain which analysis was superior and also which spacing distance gave the best results.

B. C. MELLENCAMP,
County Agr'l Agent.

A man who surprised his wife by calling her an angel was asked to explain his unusual compliment.

"Well, Mary," he said, "in the first place, you are always fitting about; secondly, you are continually harping on things; thirdly, by your own account, you have nothing to wear; and fourthly, you are up in the air most of the time."

IN MEMORIAM

In loving remembrance of our husband and father, who died one year ago—June 23, 1928.

A dear one from us has gone, A voice we loved is stilled A place is vacant in our home, Which never can be filled.

Eliza M. Valentine Nellie Ashby Emma Shepard

WHEN THE OLD BACK ACHES

Just how hard it is for a man (or a woman either) with an aching back to nerve himself up to the daily tasks no one but the sufferer can tell.

"When my back aches and hurts, and irregular secretions warn me of coming trouble, I take Foley's Kidney Pills and they regulate kidney action, free me of aches and give me quick results. I learned of them thru the recommendation of my druggist."

Cost little, but a reliable valuable medicine, guaranteed to give satisfaction.—Hite Drug Co. adv.

PENINSULA

(Edited by Mrs. E. Hayden)

Orval Bennett of Honey Slope Farm and Ray Loomis of Gravel Hill attended the Guernsey Meeting at East Jordan last Wednesday night.

Joe Perry of Boyne City and Mrs. Mercy Woerful and daughter, Phyllis and son, George, of Gravel Hill went to Potoskey Wednesday afternoon to the opening of the new air port.

Mrs. F. K. Hayden and two children of Orchard Hill spent Thursday in East Jordan calling on friends.

W. H. Fanning of Boyne Falls was on the Peninsula Thursday, buying calves.

Mrs. Earl Loomis and two daughters, Juanita and Betty June, and a friend from Detroit motored up Wednesday and brought Mr. and Mrs. Ernest Loomis of Maple Lawn Farm home from Ann Arbor, where Mr. Ernest Loomis had gone on Saturday night to take treatment at the hospital for a growth on his face.

Mrs. Loomis is some easier than before he went. He has to go again the 28th.

Mrs. Earl Loomis and friend returned to Detroit Sunday, but Juanita and Betty June remained for two weeks.

Mr. and Mrs. L. E. Phillips of Boyne City are now at their farm on the Peninsula.

Strawberries are beginning to ripen and are a fine crop.

Corn and bean planting, also potato planting is finished and cultivating has begun.

Rain five days last week held up farm work at a great rate.

Our "Faithful Pat" is again on the Route, having finished his vacation, Tuesday.

Mr. and Mrs. T. J. Hitchcock of Lansing and son, Burton, of East Jordan spent Friday and Saturday with their daughter, Mrs. F. K. Hayden at Orchard Hill.

Mrs. Byrel Deitz and son, Clare, are visiting her parents, Mr. and Mrs. D. N. MacDonald in Three Bells Dist. They will make their future home in Traverse City, where Mr. Deitz has employment. Mr. and Mrs. Deitz have just recently returned from a motor trip of several months which took them to the Pacific coast.

Mr. and Mrs. F. D. Russell made a business trip to Potoskey Saturday afternoon.

A very nice crowd attended the Gleaner dance Saturday night and another dance was billed for two weeks from Saturday night, June 29.

Mr. and Mrs. John Mathews and family and Mr. Easton and Miss Woerful of east of Boyne City were guests of Mr. and Mrs. Geo. Staley and family at Gleaner Corner, Sunday. Miss Gladys Staley accompanied the Mathews family home for a weeks visit.

Mr. and Mrs. P. Anderson of Boyne City visited their son-in-law and daughter, Mr. and Mrs. Marion Russell and family at Ridgeway Farms, Sunday.

Mr. and Mrs. F. K. Hayden and family and Mrs. J. W. Hayden and son, Robert of Orchard Hill and A. Reich and sons, Daniel and A. G., were guests to chicken dinner with Mr. and Mrs. Elmer Faust and family at Mountain Ash Farm.

Miss Opal MacDonald and a party of friends from Cadillac spent Sunday with her parents, Mr. and Mrs. D. N. MacDonald in Three Bells Dist.

Mr. and Mrs. Will Gaunt and family, Mr. and Mrs. Robert Myers of Mountain Dist., and Mr. and Mrs. Ralph Gaunt of Three Bells Dist., and Mr. and Mrs. Geo. Weaver and family of East Jordan made a fishing trip to Lake Louise, Sunday.

Clare Bogart of Boyne City who has been visiting his grandparents, Mr. and Mrs. Joel Bennett at Honey Slope Farm since school was out, went to Flint with his mother, Mrs. Wm. Bogart, Saturday, for a week's visit.

Pigeon—Gust Bose, 73 years old, ended his life at his home by shooting himself with a shotgun.

Lawton—A committee of the Lawton Chamber of Commerce is making an investigation to determine the possibility of acquiring a municipal airport.

Wyandotte—Caught between the gears of a cement mixer, Anthony Mihalaki, 45 years old, employe of the Wyandotte Portland Cement company, was instantly killed.

Centerville—Chauncey F. Cleveland, 35 years old, was found guilty by a jury in the St. Joseph Circuit Court of dynamiting his garage at Nottawa, nine miles north of Sturgis, March 14 to collect \$3,000 insurance. H. C. Calkins, Sturgis automobile dealer, also accused in the dynamiting, was acquitted when he took the stand for the prosecution.

Ironwood—A heavy rain storm extinguished a fire in the woods that had been raging for several hours 16 miles east of here, despite the efforts of Conservation Department wardens and others who were fighting it. The fire started from brush that was burned under a Conservation Department permit along the right-of-way of a power line.

Menominee—Authorities of Wisconsin and Upper Michigan are seeking Frank Tapp, 45 years old, until recently a State warden at Sidnaw, Houghton County, accused by the Michigan Conservation Department of stealing and disposing of 201 beaver which he is alleged to have killed while employed as a warden. A few weeks ago he was discharged by the department on suspicion of "bootleg" fur operations.

Dundee—Louise Crandall, 17-year-old high school girl, was killed and two classmates, Margaret Wagner and Alton Sontag, were injured when Sontag's car overturned in loose gravel near Devil's Lake. The victims were attending an outing of the junior and senior classes of the high school. Miss Wagner suffered scalp wounds and Sontag, also was injured about the head. Four other pupils in the car escaped with minor injuries.

East Lansing—Harry Kipke, newly appointed football coach at Michigan, adds a new wrinkle to intersectional rivalry. Other colleges may argue about the relative strength of their athletic teams, but the greatest coaching job in the country is head coach of Michigan's football team, in Kipke's opinion. "Coaching Michigan is the greatest football job in America. I would be foolish to turn down such an offer. It has been one of my greatest ambitions in life."

Hart—Four inches of water in the bottom of a 20-gallon crock, caused the death of Willard Rider, 18-month-old son of Seymour Rider, owner of the Catawba Camp, on U. S. 31, when the boy fell into the receptacle while watching tadpoles swim. Death, according to county officials, was caused by drowning. The body was found head down in the crock, 50 feet from the back door of the home after 200 persons, led by deputy sheriffs, had conducted a five-hour search.

Ann Arbor—The University of Michigan, at its eighty-fifth annual commencement exercises graduated one of the largest classes in its history. A total of 1,944, of whom 301 were Detroiters, were included in the procession which wound down State street and filled the center section of the Ferry Field south stand. The awarding of degrees, including 15 honorary degrees to famous personages of the state and nation, and the annual oration by Dr. Robert Andrews Millikan, of the California Institute of Technology, concluded the brief exercises.

Grand Rapids—Heavily-loaded motor trucks passing through Grand Rapids are to be routed over county roads if City Manager George W. Welsh's proposal can be carried out by the traffic department. Welsh said protests are received daily at the city hall against use of the city streets by these trucks. The manager has told the city commission that inasmuch as Grand Rapids has been paying a mill tax for several years for construction of county roads outside the city limits, all traffic it is possible to divert over county highways should be detoured around the city.

Lansing—Mrs. Ruby Snell of Fowlerville, who a year ago drowned her 6-year-old son in the bathtub at her home and was found insane by a jury and committed to the Ionia State Hospital, is to be released from that institution on orders of Atty-Gen. Wilber M. Brucker. Dr. P. C. Robinson, of the hospital, reported to Mr. Brucker that Mrs. Snell is sane and the attorney-general said there was nothing for him to do, under the law, expect to order Mrs. Snell's release. As Mrs. Snell was acquitted of a slaying charge by a jury previous to her being declared insane, she can not be tried again on criminal charges and will go from the hospital a free woman.

Traverse City—Two brothers, Paul Saxton, 18 years old, and Floyd Saxton, 14, were drowned in a railroad excavation here. Paul, paddling about the pond, was thrown into the water when his rowboat overturned. His brother and two companions, Edward and William Roop, brothers, plunged after him. The Roop boys, seized with cramps, managed to return to shore but the Saxton boys went down. Their bodies were recovered. They were sons of William Saxton, a farmer, residing near Kingsley.

Charlevoix's first drowning accident in two years occurred in Round Lake Saturday morning. Richard Shores, age 12, son of Mr. and Mrs. Timothy Shores, was the victim. The lad, with his companion, Worthington Brown, was to have gone out on Lake Michigan on a fishing boat with his father. While waiting for the boat to leave the boys went out in a canoe which capsized, throwing them into the water. While overturning, the canoe struck Shores on the forehead and he sank to the bottom and was dead when taken from the water. Nearby fishermen recovered both boys and Brown was resuscitated after considerable effort by coast guards, who were called to the scene of the accident. Besides his parents, Shores is survived by a brother and four sisters.

Due to stomach gas I was restless and nervous for 9 years. Adlerika has helped me so that now I eat and sleep good.—Mrs. E. Touchstone. Just ONE spoonful of Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—GIDLEY & MAC, Druggists, adv.

CENTRAL LAKE
(Edited by Jesse Morse)

Crops are growing fine this weather.

Fred Boals and family have moved to Ludington.

Edd. Foxes' children have the mumps.

Slogan for farmers: When you cut your potatoes in two, cut your crop in two, too.

The manufacture of paper will be shown at the free picture show this week Wednesday evening.

Doyle Sage has finished supplying, and E. S. Carrol is back on the route again.

Guy Morse has a gang of men transplanting radishes out on his J. B. Rice Trial Grounds this week.

Allyn Ardena who purchased the Otto Morse farm is ill in Chicago. He had been expected back home this week.

O. R. Morse and family returned this week from Lansing where he had been re-building a house on his three acre lot in south Lansing. The building burned down last spring.

Several people from here have been attending the revival meetings at the Methodist Church at Mancelona, being held by Rev. Erskine. They close this week.

Everett Whitney of the Traverse City Canning Company was a caller in this vicinity this week. He says the outlook is good for a fair crop of cherries around Traverse City.

E. V. Blakely, Secretary of Michigan Development Bureau, and a former resident near here was visiting relatives in the neighborhood first of the week.

The Fred Ford and C. N. Snyder families were attending Baptist Church out at Eastport last Sunday. They have a new Baptist church erected at that place. Rev. Rouch of Charlevoix is the pastor.

Moved by Alderman Taylor, supported by Alderman Watson, that the bills be allowed and paid. Motion carried by an aye and nay vote as follows:

Ayes—Taylor, Watson, Williams and Gidley.

Nays—None.

On motion by Alderman Watson, meeting was adjourned.

OTIS J. SMITH, City Clerk.

EVELINE
(Edited by Mrs. Frank Kiser.)

Miss Bernice Smalley returned to her home at Ellsworth after spending a week at the Russell Thomas home.

Mr. and Mrs. Gary of Traverse City were visitors at the Wilber Spidle home last Sunday.

Mr. and Mrs. Ben Clark spent Sunday afternoon with their son, Walter and family.

Mr. and Mrs. Spidle and Mrs. F. Kiser called on friends in Ellsworth Saturday afternoon.

Mr. and Mrs. Smith of Ellsworth were visitors at Marion Bests home last Sunday.

Mr. Henry is in our neighborhood driving wells, one for Eveline Orchards.

This is one of the nicest times of the year as home grown strawberries are ready for the short cakes. First one was June 18 at our house.

A rare piece of acting should always be done well.

AFTON

Edited by Mrs. Henry Timmer.

Leon and Billy Dunsen visited their grandmother at Bellaire over the week end.

Mr. and Mrs. Ed Nowland were Monday evening callers at Albert Todd's.

Eleven Afton Grangers attended the meeting at South Arm Grange Friday night.

Arthur Engil is visiting relatives at Gaylord this week.

Mr. and Mrs. Clare Coss of Toledo, who have been visiting her parents, Mr. and Mrs. Marion Hudkins, returned home, accompanied by her brother, Boyd Hudkins.

Mrs. S. W. Henderson of Central Lake, and Mr. and Mrs. Frost of East Jordan were callers Wednesday at the home of L. R. Hardy.

Gideon DeMaio of Detroit is spending a few weeks with his parents.

Mr. and Mrs. Claude Sutton returned to their home at Ionia, Wednesday.

Oral Barber and wife drove up from Flint to spend the week end with relatives.

The L. R. Hardy, George Hardy, Roy Clark and Clarence McGeorge families picnicked at Whiting Park, Sunday.

Mr. and Mrs. Luther Brintnall were callers Monday at the Todd home.

Mrs. A. P. Cook of Boyne City called at the home of Esther Shepard Sunday.

Al Warda visited at Albert Todd's Wednesday.

Mr. and Mrs. Taylor Edgell and family are making a visit at the home of George Jaquays.

Mr. and Mrs. Roy Clark and daughter of Rockford spent the latter part of last week at the Hardy homes.

Mrs. Clark's mother, Mrs. Philip Wilson returned with them, after an extended stay here.

Thomas Shepard, George Jaquays and Taylor Edgell went on a fishing trip Wednesday, and found plenty of fish, but very few trout.

The Bert Lumley and Chas. Shepard families drove to Indian River for a picnic, Sunday.

Gale Hudkins of El Monte, Calif., called at Chas. Shepard's Wednesday evening.

Mrs. Sam Nowland called at Esther Shepard's Tuesday.

Mrs. Chas. Shepard, Mrs. Lora

Hardy, Mrs. Gugniczak, Mrs. Riedle, Mrs. Knop, Mrs. Starks all attended the turkey meeting at Ironton last week.

Mrs. John Hott is staying at the home of her daughter, Mrs. Margaret Crawford in East Jordan to be near medical aid.

Mr. and Mrs. J. L. Sutton, Mr. and Mrs. Claude Sutton, Mr. and Mrs. Chas. Hott were Potoskey business visitors, Tuesday.

Conr Nowland and parents spent Sunday evening at L. R. Hardy's.

Wm. Behling Jr. celebrated his birthday Sunday with a party which was attended by nearly every child in the German Settlement.

John Gugniczak and George Nowland have been notified they have passed their 8th grade examination.

Ed and Chas. Shepard and John Hott have all killed a skunk this week. They are so numerous it is almost impossible to raise poultry in this neighborhood. Robert Alwin found a litter of seven little ones, and with no mother appearing to claim them, will try and raise them in captivity.

"They say a good way to keep happy is to sing at your work."

"Well, my dad is out of luck, then."

"How come?"

"He's a glass blower!"

The best argument for the styles of today is the old family album.

SOMETHING TO THINK ABOUT

By F. A. WALKER

THE OPEN-HEARTED

WHO does not like the candor of the little child who has not yet learned the initial art of fabrication? There is something so frank, open, straightforward in the innocent one's prattle that even in the old Machiavellian disciple of deception will pause in his juggling with truth and wish he were less guilty.

He is conscious of a trait of character that once was his in his youthful days which he let slip from him when he first began to deal with a tricky world.

He tried sincerity, but found that nobody believed in it. So he ventured forth into zones of thought still unsurveyed and became a lying innovator in the deaf use of ambiguous acts and unpardonable words.

He forgot his mother's teachings, the little prayer which he uttered at his mother's knee, while she toyed lovingly with his dimpled hands and stroked his hair, picturing his future in glowing colors.

Do you think it is hard to tell the truth? It is natural for the child, but when he steps in the difficulty to adhere to veracity causes us devious perplexities.

What has been discussed a dozen times before with sincerity and earnestness, assumes a new phase when we depart from probity and begin to color, retouch and reshape the words and sentences we must use in competition with the false and those who commend the poisoned chalice to the lips.

We soon find language ready shaped to our purpose, and quickly become adept in forming a new vocabulary which enables us to beat round and round the truth without once touching it.

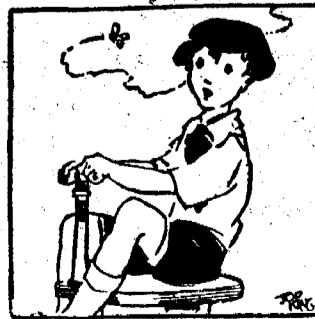

We have no defense for such conduct, except that we are associating and dealing with smooth-faced, double-tongued fibbers and must meet them on their own ground and surpass them at their own game.

We get the idea that if we cannot lie like a trooper we cannot march at the head of the regiment in gay uniform and brass buttons.

And these popular lies, you will find on reflection, are the basis of the major troubles of our sin-burdened world, likely at any moment to belch forth consuming fire of our own making!

What Does Your Child Want to Know?

Answered by BARBARA BOURJAILY

HOW DOES A BEE HUM?

If you will watch, you'll soon find out it's wings make all the humming. To tell the flowers round about that sister bee is coming.

A WORD WITH WINGS

By DOUGLAS MALLOCH

THERE are the words of common things, And then there are The words with wings; And so I try, Try even now, To catch some word, Some word somehow, To send it forth Across the blue, A word with wings To wing to you.

So fit today, Amid the hum Of life some thought, Of love should come, Or if tonight Some word you find That sings and sings Within your mind, Oh, do not bid My bird depart, But let him rest Within your heart.

(© 1929 Douglas Malloch.)

How It Started

By JEAN NEWTON

"TO MAKE HAY WHILE THE SUN SHINES"

TO EXPRESS foresight, taking advantage of the opportunity when it appears, one of the most commonly used sayings in our language is "making hay while the sun shines."

In the use of the phrase today "hay" is figurative for money or place or love or health or any other matter in which it is desirable to improve the shining hours. But in its origin "making hay while the sun shines" had a literal application.

It goes back to the time of Henry VIII in England when it became the substance of a legal statute! At the time great damage resulted from the practice of careless farmers who left hay in the fields indefinitely after it was cut and frequently saw it ruined in rainstorms before they had it under shelter. To guard against such waste, the law was passed requiring farmers to take in their hay as soon as it was ready. It was from this statute that the expression "making hay while the sun shines" gained popularity in common speech.

SAWS

By Viola Brothers Shore

FOR THE GOOSE—

A MAN forgets the last kiss long before a woman has forgot the first.

When a woman starts pannin' husband, she's nearly always pannin' some particular husband.

The most hopeless day in a woman's life is the one when she realizes that the reason she can't get what she wants out of men ain't through any lack on her makeup—but in theirs.

FOR THE GANDER—

If you buy a pond you can swim; if you buy more than one you can drown.

Notin' seems like a sin, once it gets to be a habit.

No matter how much a woman's lips she when she speaks, they tell the truth when she kisses. Only you can't get a man to disregard the former and pay attention to the latter.

Colleen Moore

A true Colleen she is. Colleen Moore makes her debut as a singing and talking star of the "movies" in "Smiling Irish Eyes." Colleen did not need any coaching to perfect her gift of blarney and brogue heard in this picture. She sings a number of melodies reminiscent of the Emerald Isle.

For Meditation

By LEONARD A. BARRETT

FROM CITY TO FARM

DURING the past decade over one and one-half million persons moved from the farms to the cities. The reasons for this movement were various; but chiefly it was due to high taxes, operating expenses and difficulty in making a profit, and in some cases the impossibility of meeting expenses. Only a small minority were attracted to the cities by the "white lights" and the opportunities offered for social life. This movement to the cities by so large a number of persons left many vacant farms in almost every state; but the farms abandoned were mostly small in size and located in obscure places.

During this same period, however, there had been a movement in the opposite direction—from city back to the farm. Numerically this movement was not so large as that which moved from the farms to the cities, but it did represent a certain type of thoughtful persons who, profiting by their experience, sought again the advantages of rural life.

The farm population division of the United States Department of Agriculture recently made a survey of this latter movement and discovered that out of ten thousand families, representing nearly thirty-five thousand persons who moved back to the farm, about one-sixth were impelled to do so because of the high cost of city life. Another sixth testified that city work was too exacting and unsteady that it could not be depended upon; and another large number, about one-fifth, became weary of the monotony of city life. The remainder of the ten thousand families were agreed in their frank declaration that the city was no suitable place in which to bring up children.

According to the last United States census the wealth of every farmer was placed at \$1,970, and of every non-farmer at \$3,175. The difference between these two amounts would not argue in favor of city over rural life. The movement from farm to city had been actuated by the desire to better family conditions. The experiences of city life did not meet these expectations and the result in many cases was disillusionment.

Perhaps the smaller groups now returning to the farms from the cities are choosing in favor of a condition of life which guarantees the highest possible privileges.

SMILES

GABBY GERTIE

"The most effective remedy for heartburn is heart balm."

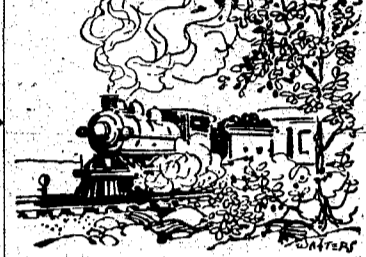

Wanted to See an Epoch Inventor (to capitalist)—This is an epoch-making machine. Capitalist—It is? Then let me see it make an epoch.

The SANDMAN STORY

THE TRAIN SMOKE FAMILY

THE smoke curled up above the train's engine. Up and up into the air the smoke curled, and more and more kept coming from the stack. Great clouds of smoke seemed to be shot out—oh, how much smoke there was! And it almost seemed to stop in the air for a bit and wait for the clouds of smoke from below to join it all before it disappeared into the air.

"We belong to the train family, too," the clouds of smoke were saying. "Curling, curling, curling, we, too, belong to the train family. The engine and the coal cart, the baggage car, the passenger trains—

"We Are Proud That We Belong to the Train Family."

all belong to the train family, but so do the clouds of smoke. The whistle belongs to the train family, all the different parts do, but so, also, the clouds of smoke belong! "We are sent up into the air by the engine's smokestack. We go when we are told and we let the countryside around know that a train is passing by. "Some of us do this work at one place and some at another, and so it is all along the line. "And as we go up into the air we

are proud that we belong to the train family.

"For the train family is a family of travelers. There are no stay-at-homes among that family. Sometimes they stop and rest for awhile—sometimes for only an hour or so, sometimes for but a few moments.

"Sometimes, though, they stop for awhile in the car yards and in the car barns and have a real rest!

"But there is no mistake in saying they're a family of travelers.

"Trains are such travelers—such a family for going and going and going that they had to fix sleeping cars for passengers.

"True, the passengers who go on trains are travelers, too.

"But if trains, in the first place, hadn't wanted to go on all night people wouldn't have needed the sleeping cars.

"The real travelers are the members of the train family.

"And though some of the smoke stops here and some does its curling act a little further along the line, we all feel like travelers because of the family to which we belong.

"This is our curling song, which now we will sing before we disappear to the air:

Curling, curling, curling, Up in the air quite high. Curling, curling, curling, To show that a train's nearby. Curling, curling, curling, Looking so fluffy and fine. Curling, curling, curling, Over the railway line. Curling, curling, curling, Before we disappear. Curling, curling, curling, As long as we are here. Curling, curling, curling, Up in some form or other. Curling, curling, curling, It is to us no bother. Curling, curling, curling, We belong to the Train family. Curling, curling, curling, Us you can surely see.

That was the end of their song. They had disappeared, but following along the train, from out of the smokestack of the engine, came more and more members of the Train Smoke family.

Why We Do What We Do

By H. K. THOMSON, Ph. D.

WHY WE HAVE QUEER IMPULSES

DID you ever have a queer impulse to step on or to avoid stepping on the cracks in the cement sidewalks, to make faces at some one, to tell a person just what you think of him, to do any one or several of a thousand "crazy" things?

It is natural for all of us to have queer impulses at times. The normal person realizes the nature of the impulse and checks himself in time to avoid making a fool of himself. But now and then we slip up, and the impulse gets the better of us. This happens when the impulse stays at the focus of consciousness and dominates our motor reactions which control muscular action. It is a mild form of obsession.

In extreme cases the situation becomes pathological and the patient is unable to suppress the crazy impulse and many times has to be put away in an asylum. Now and then the community is aroused over some poor fellow who runs amuck in his lack of control over some queer impulse. He is a moral pervert who has lost control over his impulses. He goes about doing some unnatural thing that is highly revolting to our senses and we are ready to lynch the poor offender without in any way realizing the cause of his offense.

We can understand conduct of this sort only as we bear in mind that they are merely the exaggerations of the very situations we find in normal people. We all have queer impulses but we are able to control them, whereas the so-called fend is one who cannot control his impulses. It has the force of an obsession with him. He is really insane more than he is a criminal or a fend. He is mentally, and emotionally sick.

THE WHY of SUPERSTITIONS

By H. IRVING KING

WATCH CHARMS

THE wearing of little figures as ornaments attached to the watch chain is an open and frank revival of a custom of the primitive man and of the peoples of the ancient civilizations who wore emblems and symbols by way of protection against evils which they believed might be averted through the intervention of the powers or divinities to whom the symbols especially appealed.

The wearing of charms was universal among the Egyptians and the Romans. With the spread of Christianity the custom was transformed into the wearing of religious emblems and so continued through the Middle Ages. After the Reformation the custom of wearing any sort of charm was discountenanced by most of the Protestant sects and especially to our Puritan forefathers was it anathema. But it gradually revived again—in this country shortly before the Revolutionary war—and revived in its old, heathen form, the New-England-maiden, who would have considered it a mark of superstition to wear a gold cross strung around her neck, wore quite innocently a gold band closed in a peculiar manner which, had she known its ancient, heathen significance, she would rather have died than allowed to repose upon her chaste bosom. Now we wear all sorts of symbols, Christian and pagan. That they have not entirely lost their original meaning for us is evidenced by the fact that we still call them "charms" and many a man would have a vague fear of coming bad luck should he lose from his watch chain the little gold pig, the little gold-hand or whatever is his pet "charm."

(© by McClure Newspaper Syndicate.)

Abolition of Slavery

Either before or soon after the adoption of the Constitution all the northern states—beginning with Vermont in 1777 and ending with New Jersey in 1804—either abolished slavery or adopted measures to effect its gradual abolition within their territories. When the Civil war broke out slavery had been completely abolished in all the states north of Delaware, Maryland and Virginia. Slavery existed to some extent at one time in all the original 13 colonies.—The Pathfinder Magazine.

All Is Well!

If we see not yet how it is that all things work together for good, a quiet spirit sets the face in the direction whence cometh help, and deepens our belief that all is well with the universe. We may be sure that every soul that is patient in trial, faithful in duty, active and rejoicing in helpfulness, is adding one little stone of excellent pattern to the vast temple of life.—Exchange.

(© by McClure Newspaper Syndicate.)

SEEK COMPENSATION FOR PRISON YEARS

Friends Move to Aid Man Wrongfully Jailed.

Madison, Wis.—An effort is under way here to obtain legislative compensation for John A. Johnson, sixty-five, who served ten years in prison for a crime it now generally is believed he did not commit.

Although Johnson confessed in 1911 to the murder of seven-year-old Annie Lemberger, he repudiated his confession just before he entered the gates of Waupun prison.

In 1922 he was pardoned by Gov. E. L. Philipp, who had been convinced the man confessed because of a morbid fear of mob violence.

There are more than 8,000 Madison citizens who now are certain society "robbed" Johnson of ten working years of his life and who have signed petitions asking the legislature to compensate him, as far as possible, for that which was taken.

Criminals Committed in 1911.

Johnson, an employee of the city, has aged rapidly and is in none too good health. He still works, but his earning power is small and he and the wife who trusted him during his years of imprisonment are not enjoying the comforts they might have had.

Annie Lemberger, daughter of Martin Lemberger, was put to bed by her mother about nine o'clock the night of September 5, 1911. Several days later her body was found floating in Monona bay. She had been beaten to death.

Johnson was arrested three days later and was questioned by a detective. For hours he maintained that he was innocent—until the detective struck the vulnerable spot.

The officer, falling in all other efforts to make Johnson confess, told him that a mob was outside clamoring for his life.

Saw Man Lynched.

Johnson once had seen a man lynched at Darlington and the moment he heard that he was in danger of meeting a similar fate, he became a cowering, terrified wreck. He confessed, begged protection, and when arraigned in court pleaded guilty, with the additional plea that he be hurried to prison and saved from the mob.

Despite the fact that Mrs. Johnson and two daughters, Stella and Bertha, testified that Johnson had gone to bed about nine o'clock the night of the murder and never left the house during the night, the man's plea of guilty was accepted and he was sentenced to Waupun for life.

Use X-Ray on Diggers

to Halt Diamond Thefts

Cape Town, South Africa.—Observation posts with searchlights and special X-ray apparatus are stated to be among the means which the South African government is adopting to end the diamond smuggling in Namaqualand, in which women are said to be largely employed.

No stones have been produced from the state diggings since last February and the work is not proceeding until all the precautions against illicit diamond smuggling are completed.

The X-ray apparatus is said to be such as to make it possible to detect diamonds on or in a man passing an observer. While smuggling is admitted, the government denies that the stones are coming from the state diggings.

Sweeping of Jewelry

Shop Floor Yields Gold

Cincinnati, Ohio.—An effort will be made to recover several hundred and probably thousands of dollars' worth of gold and other precious metals believed to have accumulated under a floor of a jewelry manufacturing firm here during the last quarter century.

The firm will move into a new location soon and officials are going to make sure they remove all their belongings, even to the tiny bits of metals in floor cracks and other inconspicuous parts of the shop.

Employees wash their hands in a sink that has no outlet and about \$1,000 worth of precious metals is recovered this way each year. Sweepings from the floor yield about \$200 worth a month.

Monks Work to Divert

Traffic From Monastery

Cumberland, E. I.—The strange atmosphere which pervades the Cistercian monastery will become even more pronounced with the completion of a new stretch of highway under construction here.

Without outside aid, the Trappist monks of the monastery are building a new road, three-quarters of a mile long, to divert traffic from the main highway which now runs close to their retreat.

In carrying out this novel project, the monks are following the example of Henry Ford, who had a similar road constructed to divert traffic from his Wayside Inn at Sudbury, Mass.

Will Dress Statue

Kovno, Lithuania.—Kovno's statue of the Greek god, Apollo, will be officially clad in a bathing suit henceforth. When a group of women protested against the statue's comparative nudity, the town council refused to remove the work of art. A compromise to dress the statue in a bathing suit finally was reached.

BRITAIN TO TEST NEW DIRIGIBLES

One Will Visit Canada, Other Goes to Egypt.

London.—The world's latest and most expensive experiment in aircraft construction will be given its first test soon when gas is blown into the bags of the R-100 and the R-101, Great Britain's new \$4,000,000 airships.

Sir Samuel Heare, British air minister, recently announced in the house of commons that the two new airships would make flights to Canada and India in the fall if the trial flights were successful. Air experts of the world perked up their ears at this announcement for Great Britain's failure in these two ventures may mean death for future airship construction.

The R-100, the air ministry has decided, will go to Canada, while the R-101 will make the first long flight to India and Egypt, where arrangements already have been made for handling the ship. It is understood here that the R-100 might include the United States in its itinerary if Washington extends an invitation.

But so far Sir Samuel has refused to divulge when the shed tests and first trial flights will be held. Previous delays, and subsequent questionings in parliament, have made him cautious. It was learned, however, that the bags will be filled some time in June, after which the first local flights will be made.

The construction of these two 5,000,000 cubic feet gas-filled airships is rapidly nearing completion after innumerable delays occasioned by changes in plans and the addition of many new devices which never before have been employed on giant airships. The R-101, in particular, represents several radical departures in the construction of the steel frame and in the arrangement of the interior.

As the R-100 is fitted with ordinary petrol engines, it was selected for the flight to America, whereas the R-101, equipped with Diesel engines, is more suited to the warm atmosphere which will be encountered on the flight to India and Egypt.

Pope Limits Use of

New Vatican Money

Rome.—Officials of Vatican City will continue to receive their salaries in Italian money after the papal government's new money is issued, it was understood.

The papacy's own silver and gold coins will be few and their use limited.

Gold coins of 20 lire value and silver coins of 5 lire value (about \$1.05 and 26 cents, respectively) are planned.

The coins will be used to purchase Vatican City stamps, to pay entrance fees to the art galleries and fees to the congregation of sacraments in cases of annulled marriages.

Robber Splits Loot So

Creditors Can Get Pay

San Francisco, Calif.—Kind heartedness of a robber mixed with the oratory of Herman Krieger reflected satisfactorily upon the latter's creditors.

Krieger told police a man came into his house, drew a pistol, and forced him to give up \$85. He said he pleaded with the man not to take all the money because he had to meet some bills.

"All right, guy," the robber answered; "we'll split it."

The robber counted out \$42.50 and gave it back to Krieger.

The next day the creditors got their money.

Gives Away Old Shoe

With Diamonds in Toe

San Francisco, Calif.—The fun started when Mrs. A. J. Jadig discovered her husband had hidden her diamond ring and his diamond stickpin in an old shoe—the old shoe she gave to the Salvation Army two days before.

The brogan search that followed Mrs. Jadig's discovery surpassed in excitement the annual city Easter egg hunts by far and was successful.

Salvation Army workers found the shoe among thousands of others and what was better, found the \$3,500 worth of jewelry.

Bags for Life Term

Minneapolis.—Raymond Askley told Judge E. A. Montgomery he had proved a failure at everything, including being a burglar, and asked for a life sentence so he would have something to eat every day. The judge agreed.

\$15,000 Frogs Are

Loot in Robbery

Toledo, Ohio.—Toledo's latest robbery, involving two frogs valued at \$15,000, is shrouded in mystery.

Dr. Robert Wald, owner of the high-priced amphibians, told police they were stolen from their tank in the rear of his home.

Raised on artificial food and imported from Louisiana, the hoppers were the subjects of an important experiment. Intended to prove whether amphibians could be raised in artificial surroundings in sufficient number to warrant commercial investment.

GIVES EX-HUBBY RECOMMENDATION

Prospective Father-in-Law Gets Facts.

San Francisco.—Here's something just a little different—the testimonial of a divorced wife for her former husband, asked for and received by the father of the girl he intends to marry!

By a singular series of circumstances two remarkable letters came into the possession of the San Francisco Chronicle. They are the request of the father for a "character" for the man who intends to marry his daughter, and the answer of the divorced wife.

Here are the two letters, with nothing changed but the names of the principals:

"Mrs. Marion Brower, San Francisco—Dear Madam: Please pardon this very personal letter as I am writing to ask a few questions about your former husband, Kenneth Brower. I will state as an excuse that he hopes to marry my daughter; I would like to have you tell the following things regarding him: Is he a real, clean, high-minded gentleman, as he appears, or one who puts up that front to the public and is a domestic tyrant?"

"Is he a man who is a good provider or is he one who spends what he makes on himself and lets his family merely exist? I am thinking only of my daughter's future happiness as I ask these things, so you can do me a great favor by giving me the facts, and if you think of anything more that I ought to know, please tell me."

And here is the ex-wife's answer:

"Mr. C. K. Robinson, Savannah, Ga.—Dear Mr. Robinson: It's rather an odd situation, being asked for a recommendation for one's former husband. However, I quite understand your interest in and care of your daughter's happiness. It also gives me great pleasure that I am able to reassure you about Kenneth's character.

"He is a very fine chap and should make some girl very happy if they have tastes in common. He has always held a reasonably remunerative job as far as I know, and I never lacked anything as far as our finances were concerned. Our reasons for separating were based merely on incompatibility of temperament.

"We were very young—eighteen and twenty—when we were married and did not know exactly what it was all about. Trusting that this information will sufficiently allay any doubts that you may have about Kenneth's eligibility, I am, very sincerely yours, Marion Brower."

Bostonians Eat Frisco

Beans, Don't Know It

San Francisco.—There may be a difference between Boston baked beans and San Francisco baked beans, but a distinguished group of Bostonians failed to detect it.

When 22 members of the Boston Chamber of Commerce were luncheon guests of the local chamber of commerce a huge pot of baked beans was passed around. The goodness of the "Boston" baked bean was lauded.

After the beans had been eaten and the speeches subsided, the visitors were told the beans were California grown and that the special Boston baked beans brought on their train had "mysteriously disappeared."

Armless Girl to Tour

Europe Alone in Chair

Leicester, England.—Miss Mary Joyce West, twenty-two years old, and armless, is completing plans for making a tour of Europe in her leg-propelled cripple's chair.

Miss West, who lost her two arms in an accident several years ago, says she can make thirty miles a day in her chair. She will make the tour by herself by selling handwork articles which she has made herself. She plans to work her way through France, Belgium, Switzerland and Italy.

Betrayed by Cat

Montebello, Calif. — A black cat

brought bad luck to Dick Ross. Police investigated a neighbor's report of seeing the cat stagger and stumble out of Dick's place.

They arrested Dick for violating the state dry law after finding two stills of 1,000 gallons capacity each, 500 barrels of mash and 200 gallons of alcohol.

Calluses and Corns

Costly to Americans

Boston.—Corns and calluses cost the country something like \$100,000,000 each year in reduced personal efficiency, according to Dr. M. S. Harmolin, president of the National Association of Chiropodists.

"There may be a pair of perfect feet in this nation, but we doubt it," he said. "At least we were unable to find a pair that closely approximated the anatomically normal foot in an exhaustive survey of the nation's feet that included reports of hundreds of public clinics in city and town kindergartens and college, marts of trade and great industrial plants the country over."

Modern methods of living in increased liability to foot ills, he declared.

PLANS FOR CENSUS TAKERS UNDER WAY

Counting Millions in U. S. Gigantic Task.

Washington.—When the vast army of 100,000 census takers swoop down on America next year there will be in Washington another small army of clerks transcribing the incoming records and preparing reports for the President and congress.

The census bureau already is making preparations for taking the fifteenth decennial census. Tentative report forms are being drafted, extra office space is being made available for the 6,000 temporary clerks who will be employed, and machines are being adjusted for the coming task.

The average mind cannot conceive of the stupendous task of recording a brief history for that is in reality what a census is, of more than 120,000,000 people. The actual enumeration will require only 90 days in rural districts and half that time in cities.

100,000 Enumerators.

If it were not for the machines used in tabulating the census, the work probably would not be finished before time for the next one to be taken. The men and women who actually canvass the country have a simple job compared with the clerical phase of it.

The 100,000 enumerators work under 550 supervisors. The country is divided into sections and subdivided into civil districts. These population counters record the statistics on double-faced sheets with a capacity of 300 names.

When the sheets reach the census bureau they are transcribed on cards which have been ruled into 24 parts. Figures and combinations of figures are used instead of words and the transcription is effected by means of a punching machine. Each of the 24 sections of the card is perforated in such a manner as to denote certain facts in regard to the individual whom the card represents.

The cards are then placed in a machine which automatically classifies them according to sex and if desired further classification may be made as to color, age, etc.

They next are taken to the machine upon which the census officials pride themselves most—the recording machine. It was invented by a New York official especially for census work, and as one of the chiefs said "There is nothing like it on earth" it will print 60 different items simultaneously at the rate of 400 a minute.

Machines Work Fast.

During the coming census 48 of these machines are expected to dispose of over 8,000,000 cards a day correctly. The perforated cards are stacked in one side of the machine and descend through complicated mechanical apparatus which, by means of the perforations, operate from one to 20 sets of type, printing the total of all of the divisions of the cards on a large sheet of paper. This constitutes the permanent record from which the government printing office publishes the final report.

Palace of Hospitality

to House Rome Guests

Rome.—A "Palace of Hospitality" to be used for parties of provincial students, workmen or agriculturists visiting Rome as guests of the city, is being fitted out and furnished by order of the governor.

The "Palace of Hospitality" will consist of two or three floors of a building already used for certain municipal services and is close to the Flaminian, near the Temple of Vesta.

Hitherto, when numerous commissions, delegates and parties of students and others have come to Rome on the invitation of the city they have been accommodated in schools, with consequent upsetting of the scholars work.

The "Palace of Hospitality" will be fitted out like a hotel, with regular kitchens, restaurant, baths and writing and reading rooms.

A part of it will always be kept open, but the complete service of dormitories, restaurants, baths and recreation rooms will only be available on such occasions as may necessitate the accommodation of several hundreds of persons.

Close School Because

It Has but One Pupil

Poole, Dorset.—Little Dorothy Battrick ten, was the only pupil so they have closed her school.

Dorothy is the only child of school age on Brownsea Island in Poole harbor. The Dorset county council recently voted to close the school because one pupil was not enough.

The nearest school for Dorothy is five miles away and she would have to cross the channel each day to get to it. Both her sisters and her other were educated at the island school.

Find Old Bear's Head

Cut From Sandstone

Springfield, Mo.—Finding of a bear's head carved from sandstone on an Ozark farm near Warsaw, Mo., has attracted attention of archeologists.

The crude yet very plain figure may be more than 1,000 years old and may have been worshipped as some sort of idol by prehistoric races which once roamed America 500 years before the founding of Columbus. The figure two feet square, has been placed in the Drury college museum here.

NEW YORK PLANS IMMENSE GROWTH

Envisages Great City of Twenty Millions.

New York.—A great city of the future, providing for a population of 20,000,000 with its industries, schools, homes and facilities for comfortable living, is envisaged in the regional planning committee's report for a new and greater New York city.

The report contains proposals designed to meet a situation of continuous growth in the metropolitan area. It considers a city of 5,528 square miles in and about New York, and recommends a vast system of airports, parks, playgrounds, railway, highway, rapid transit and parkway communications, and the building of new bridges and tunnels wherever necessary.

The report was sponsored by the Russell Sage foundation at a cost of \$1,000,000 and represented the work of seven years. It was presented by George McAneny, a member of the regional planning committee, before a crowded meeting at the Engineering Societies' building recently.

The regional plan looks ahead to 1965 and takes as its city 22 counties in and about New York. The area considered is a tenth that of England as large as the state of Connecticut and nearly five times the size of Rhode Island.

This world city, so vast that the mind of man had never before attempted to cope with such a problem, would be modeled not only for the efficiency of industry but for happiness of its millions of inhabitants.

There would be parks, playgrounds, golf courses and boulevards, and enough transportation facilities so that the people could move about comfortably and live without undue crowding.

Since the future of aviation is "an unpredictable thing" the plan provides for 16 new airports, making a total of 38.

From these airports passengers would be coming and going in a steady stream. The motif of speed would be maintained in a metropolitan belt line, connecting with all railroads entering the region, so that all points of the city could be reached easily by rail, both by passengers and in the handling of food stuffs and freight.

The city would contain 421 separate communities. In the states of New York, New Jersey and Connecticut—all the territory within a radius of 50 miles from the New York city hall.

Elizabeth Popular as

Name for Babies

Berkeley, Calif.—A baby girl born now has an exceptionally strong chance of being named Elizabeth. This name has replaced Mary as the favorite for girls. Grace is increasing in popularity. Mabel, Ann and Emily are on a decline.

These facts are pointed out by Prof. George R. Stewart, Jr., of the English department of the University of California, who has found that the popularity of given names may be plotted in cycles. His data were collected chiefly from records of officers and students at the university.

Predicting what names will be fashionable is difficult, he states, but it is likely that Frances, and various forms of Ann and Emily are destined to grow in popularity until they become too numerous, when they will favor again.

Professor Stewart's researches show that 12 conservative names have been used in every generation in the past fifty years. These, in order of popularity in 1925, are: Elizabeth, Marie, Katherine, Louise, Ruth, Eleanor, Lucille and Evelyn.

Egg Under Tombstone

12 Years Still Fresh

Fayette City, Pa.—Why an egg buried twelve years ago should have remained fresh until it was dug up is the question interesting chemists here.

The egg was unearthed in Mt. Auburn cemetery by Frank Lowers and N. E. Murphy while they were replacing the headstone over the grave of Pierce Kendall. Knowing it must have lain under the headstone since Kendall was buried, twelve years ago, they brought it to this city for examination. Both the yolk and the albumen were fresh.

Bans Sunday Auto Washing

Fall River, Mass.—As a result of the revival of an old blue law, Fall River motorists no longer will be permitted to have their automobiles washed at garages on Sunday. Police Chief Martin Feeney has dusted off the ancient statute and has indicated that it will be enforced even if it becomes necessary to make arrests.

Gold in Soil Under

Busy Halifax Street

Montreal, Que.—A gold lead containing particles of pure gold and traces of galena and sphalerite of iron, was discovered in downtown Halifax by workmen excavating under a filling station on Barrington street for the installation of a gas tank. The ore will be assayed and the lead investigated to determine whether metal is present in a workable quantity.

MORTGAGE FORECLOSURE NOTICE.

Default having been made in the terms and conditions of a certain mortgage made and executed by William D. Tait and Myrtle E. Tait, husband and wife, jointly, to Theodore C. LaCroix and Leatha M. LaCroix, husband and wife, jointly, which said mortgage bears date the 17th day of December, 1928, and was recorded on the 18th day of December, 1928, in Liber 67 of Mortgages on page 85, in the office of the Register of Deeds, in and for the County of Charlevoix, Michigan; that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of one hundred ninety-six and 56/100 (\$196.56) dollars at the date of this notice, including principal, interest, taxes, and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage or any part thereof;

NOW, THEREFORE by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN, that on Saturday, the 17th day of August, 1929, at ten o'clock in the forenoon, standard time, at the east front door of the Court House in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said Theodore C. LaCroix and Leatha M. LaCroix will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and an attorney fee of fifteen dollars.

The premises described in said mortgage are as follows, to-wit:— "The East half of the Northwest quarter (E 1/2 of NW 1/4) of section eight (8), township thirty-two (32) north, range seven (7) west, containing eighty (80) acres more or less according to the United States survey, which said premises are in the Township of South Arm, Charlevoix County, Michigan."

Dated May 24th, 1929.
THEODORE C. LACROIX and LEATHA M. LACROIX,
Mortgagees.

E. N. CLINK,
Attorney for Mortgagees.
Business Address: East Jordan, Michigan.

ANNOUNCEMENT

Going Out of Business Sale!

I have decided to go Out of Business and either stay out or go to a more lively city. To accomplish this in the shortest time possible I am going to give the most surprising bargains you have ever seen. I am absolutely going to sell for what I can get, but intend to sell everything if possible no matter what I can get.

I have a stock of Hardware which is nearly all new. In Furniture it is nearly all used, but rebuilt and nicely refinished, also the Farm Machinery is nearly all used, but rebuilt.

Come and see and I know you will be pleased with the bargains you can get. Hurry, first come, first to profit.

I want to sell my Home and all the other Property I have in the city. I will give good long terms to responsible parties and will sell for less than 1/2 what it is worth.

C. J. MALPASS

State News in Brief

Kalamazoo—Thomas Sullivan, 22 years old, of Lawton, died of a heart attack as he entered the water of Bankston lake, near here, with a swimming party.

Sturgis—Mr. and Mrs. Henry Osborn celebrated their sixty-sixth wedding anniversary here recently with a dinner to four generations. They have lived in Sturgis all their lives.

Grand Rapids—Six years ago Mrs. Theodore Griener, of Marne, lost the diamond from her engagement ring. She has just recovered it from the gizzard of a chicken she killed for a family dinner.

Charlevoix—Fire of undetermined origin destroyed a sawmill, workshop and sheds owned by Gus Melke, of St. James, Beaver Island. A 40-foot boat just completed in the workshop was burned. The loss will exceed \$10,000.

Jackson—Everett Branson, 28 years old, of Keenes, Ill., was killed while working with a pneumatic hammer in the steam plant of the Consumers Power Co., in this city. A short circuit in the hammer caused Branson's death.

Owosso—O. B. Spangler, of Louisiana, is visiting his sister, Mrs. W. H. Byerly here, after having been separated from her for 53 years. They last saw each other in 1876 when Spangler accompanied his father, then living in Chicago, to the South and remained there.

Owosso—After a court battle lasting several weeks, Mr. and Mrs. Edgar J. Calkins, of Owosso, have surrendered David Arnet, their 6-month-old grandson, to his parents, Mr. and Mrs. David Arnet, Sr. The grandparents obtained the child when the father went away, and refused to give up the baby when he came back.

Detroit—The equivalent of 23 freight car loads of telephone directories were delivered to homes and offices within the Detroit district by 300 men recently. The directory weighs more than four pounds and has a cover of heavy paper which bears a resemblance to green embossed leather.

Grand Rapids—Burns suffered by Margaret Cutler, 12-month-old daughter of Harold Cutler, when she was trapped in a flaming tent in the yard of her home, caused her death. The child, with a rope around her waist, had been tied to a tree and left to play. Other children, entering the tent, set it on fire while playing with matches.

Ann Arbor—A quarter of a million dollars, distributed over a five-year period, has been granted the University of Michigan for humanistic studies and the promotion of a dictionary of old English terms. It was announced from the offices of the president. The general education board of New York City, founded by John D. Rockefeller, is the donor.

Detroit—Apparently despondent over domestic troubles and inability to find employment, Jacob Wherley, 43 years old, ended his life by stepping in front of a Grand Trunk freight train at Gendale avenue and the railroad's tracks. He was dragged more than 100 feet. Witnesses told Deputy Coroner George A. Berg that Wherley deliberately placed himself before the oncoming train.

Detroit—The United States department of commerce made public its world census of motor vehicles as of January 1, 1929. On that date there were 32,028,584 automobiles on the globe and 24,629,921 of them, 77 per cent, were in the continental limits of the United States. Michigan alone had 1,349,221 autos of all kinds at the end of 1928, or more than any country except the United States or the United Kingdom.

Lansing—Whether Arthur C. Rich is to walk from the Michigan State Prison and start life anew in California, or is to remain in prison for the remainder of his life, is to be decided by Circuit Judge Charles B. Collingwood, of Lansing. Gov. Fred W. Green made this plain in Detroit when he said that payment of a \$25,000 judgment to Miss Louise King, for the attack on whom Rich was sentenced to prison, would not influence him in considering Rich's plea for clemency.

Monroe—Clifford McCormick, 23 years old, of Detroit, charged with negligent homicide in connection with the death of Constance Dapowsky, 10 years old, Detroit, has been put on three years probation by the circuit court here. He is to reimburse the county for \$500 for expenses incurred and is not to own or drive a car within 18 months. McCormick was the driver of a machine which struck the one in which the Dapowsky girl was riding on Telegraph road. She was killed instantly.

Lansing—Dearborn telephone rates will be raised to the Detroit scale July 1, and the toll rate between the two municipalities will be discontinued by an order of the state public utilities commission issued here. Heretofore Dearborn has had a lower rate than Detroit, but a toll of 10 cents each was levied for calls between the two municipalities. The new rates in the suburb will mean an increase of about 75 cents a month for two party subscribers, \$1 for single lines and slightly more for business telephones.

END OF DEATHS FROM CONTAGION FORESEEN

Future Generations to Be Immune From Germs.

Paris.—The day may be approaching when mankind can be immunized from all contagious maladies, and causes of death can be reduced to old age, the wearing out of organs or accidents.

Science already has means of preventing four of the gravest diseases which have caused serious ravages throughout history and in France alone hundreds of scientists are continuing their studies to provide vaccines to immunize mankind against all the other ills to which we have been heir.

The Pasteur Institute, the Curie Institute and the Academy of Medicine are all centering their efforts on finding vaccines, and at present the greatest attention is being paid the anti-tuberculosis vaccine of Calmette.

Smallpox Scare.
Already vaccination against smallpox, diphtheria, typhoid, and paratyphoid fevers has proved successful. Science is divided over the merits of the tuberculosis vaccine, which is now being widely used in France, and it will be necessary to wait for the results of the next ten years before science can say definitely whether the Calmette vaccine is a preventive or a danger.

The recent smallpox scare in Europe which followed the transport of the disease from India to England by passengers and crews on liners caused a sudden increase in vaccinations which almost taxed to its limit the production capacity of the Pasteur Institute.

Modern engineering has come to the aid of science, however, and by the use of most modern American refrigeration machinery and methods, it is now possible to make up serums in vast quantities and store them away to be ready for such an emergency as that created by the British smallpox scare.

World Is Prepared.

Professor Lereboullet of the French Academy of Medicine, one of the outstanding authorities on vaccination in Europe, said that the world is today perfectly prepared to fight against epidemics and many contagious diseases could be forever eliminated if all nations would adopt the successfully proven methods.

"Smallpox has entirely disappeared as an epidemic in France, although there are rare scattered cases, especially in port towns," Professor Lereboullet said.

"Every year sees several hundred thousand persons vaccinated against smallpox in France, especially school children, soldiers and people living in cities who are most subject to contagion. Our vaccination work has been so successful and the public has accepted it so heartily that today it is safe to say France has no fears of smallpox."

"Similar campaigns to encourage vaccination against diphtheria have had good results. A half million children are vaccinated against this disease annually with the result that it has almost disappeared in our hospitals. We will continue until the entire French youth, about 8,000,000 children, is immune."

"The anti-typhoid vaccine has now been proven successful, and already hundreds of thousands of persons voluntarily seek immunization annually. The Calmette vaccine against tuberculosis can be said to be still in a stage of observation, but we have seen only good results so far and 200,000 children are vaccinated annually."

U. S. Largest Maker, User of Chemicals

Washington.—The United States is the world's largest chemical producer and consumer. She exported one-fourth of the chemical products exported by the leading countries of the world in 1928, according to reports recently issued by the Department of Commerce. Germany, the United Kingdom, the United Kingdom and France exported chemical products valued at \$3,000,000 in 1928, with Germany surpassing all other countries.

The United States leads in exportation of sulphur, phosphate rock, certain prepared medicines, talc, preparations, naval stores and is an important contender for honors in the shipping of sulphur dyes, indigo, gunny and certain specific oils. Germany markets one-half, the United States more than two-fifths, the United Kingdom one-quarter and France three-fifths of their respective chemical exports in Europe. Each country has gained in the European trade, according to the report recently issued.

Collegiate Road Trips Help Students' Grades

Des Moines.—Long road trips for college and university athletes improve rather than retard their scholastic standing, in the opinion of Joe Pipal, coach of Occidental college, Los Angeles.

Pipal brought nine men to Des Moines for the Drake relays last month, and in an address to a civic club explained his views. "Before an athlete can be taken on road trips he must have a scholastic standing of one-fourth better than necessary for home competition with the result he studies harder in order to assure himself a place on the traveling squad," Pipal said. "Also, our students are required to study two hours a day while on trips."

WILL START SOON ON BIG AQUEDUCT

New York Plans to Increase Water Pressure.

New York.—Work on boring a gigantic aqueduct 20 miles long and 500 feet beneath the surface of New York is to begin in a few months.

The tube, which involves one of the major engineering feats of modern times, is to be installed for the purpose of increasing the water pressure for the residents of Brooklyn and Queens.

Sixteen shafts are to be sunk along the route to the 590-foot level, where hundreds of men are expected to spend four years in boring through the muck and rock. The shafts, themselves will be so deep that the Leif-cour-National building, the city's newest 40-story Fifth avenue skyscraper, would find its tower well below street level if it could be dropped into one of them.

It was announced that 16 electric mine hoists and 62 mine locomotives have been ordered for use in creating the buried aqueduct. It is to begin at the northern end of Van Courtlandt park in the Bronx, extend south and east under the borough, cross twice under the Bronx river, proceed toward Stony Point, cut under the East river to Long Island, cross under Queens and Long Island city, proceed almost the whole length of Brooklyn and terminate at Hamilton avenue, opposite Governor's Island in Brooklyn.

The hole to be bored will be 19 feet in diameter—size enough for three motors to be driven through abreast. The workers after descending the shafts and becoming accustomed to the air pressure necessary, are to roam out the tunnel with modern boring machinery and line its walls with a foot-thick coating of concrete as they proceed.

Boys Stand on Head to Honor Gift to Village

Leighton Buzzard, Eng.—This town has a queer name but even queerer is its manner of expressing gratitude. Figuratively speaking the town of Leighton Buzzard stands on its head to say "Thank You."

In the days of Charles I, a wealthy London merchant, Edward Wilkes, left several parcels of land to Leighton Buzzard, the income from which was to be devoted to charity. He stipulated in his will that the ceremony of "beating the bounds," in which the parish officials go over the chief boundaries tapping them with a long willow stick on Ascension day, should be concluded with a public entertainment.

For years Leighton observed this stipulation and then suddenly decided it would be nice to honor the memory of Sir George by having a boy stand on his head on each parcel of land during the beating of the bounds.

This has gone on for generations, and each year, months before the ceremony, there is a strong competition among the boys of the village to be elected the official "headstander." While the parish official reads the clause of the will dealing with each parcel of land on which they are standing, the boy remains in a feet-up position on the parcel. This custom has shown no signs of dying out.

Magnet Draws Needle From Brain of Baby

Pottsville, Pa.—A nine-month-old baby seemed recovering in a hospital after a sewing needle, lodged upright in the center of its brain, had been removed by means of a strong magnet.

Mrs. Jennie Harvey several days ago saw the threaded end of the needle protruding from her infant daughter Rosanna's skull about three inches above the left eye. Then the needle disappeared. At Pottsville hospital an X-ray showed the location of the needle in the baby's brain. Dr. J. B. Rogers selected the spot on the baby's skull to which he thought the topmost end of the needle was nearest. He applied a powerful magnet and the needle came through the baby's scalp, blackened but intact.

There is no explanation of the needle's presence.

Dean Says Scholarship Highest in Many Years

New Haven, Conn.—Dean Clarence M. Mendel of Yale believes scholarship is now on a higher scale than it has been in many years. Taking issue with recent statements of Chief Justice William Howard Taft, who bemoaned a decline in scholarship, Dean Mendel declared interest in college studies reached its lowest ebb between 1895 and 1905 but has shown a steady upward trend ever since.

Whittles Lamp From Pole in 1,700 Hours

Vermillion, Ohio.—After ten years of whittling with a pocket knife, George Stump has an elaborately carved lamp. Starting with a section of a telephone pole, Stump spent more than 1,700 hours spare time producing a two-foot electric lamp, circular in shape and containing hundreds of integral ornaments. The lamp revolves by means of an electric motor and is valued by the carver at \$2,000.

FIERCEST FIGHTERS AT LAST CONQUERED

Yaquis of Mexico Finally Accept Fate.

Mexico City.—Mexico's fiercest warriors, the Yaquis, have at last agreed to be commanded by non-Yaqui leaders. For 400 years—300 under Spanish rule, 100 under Mexican—the Yaquis maintained their independence, refusing to be conquered. Beaten at the end by the government, with their country in ruins, they now go one step further in becoming Mexicanized by their acceptance of a "foreign" commander.

Four hundred Yaqui soldiers are at Port Perote, a mountain near Orizaba in the state of Vera Cruz. This is the group which for the first time in his history has submitted to "havi," a non-Indian leader. The war office's announcement of a change in the organization of this Yaqui force was regarded as signifying the disappearance of Yaquis as separate units. Hereafter they will be part of the army. Colonel Enrique Morfin Figueroa has been assigned to the group under the new arrangement.

Manzo Conqueror of Yaquis.
The actual conqueror of the Yaquis was Gen. Francisco Manzo, one of the leaders of the present rebellion who recently crossed the United States border at Nogales to escape falling into federal hands. The Manzo campaign against the Yaquis, undertaken three years ago, was organized with 13,000 troops and equipment which included nine airplanes.

At that time the Yaquis controlled a region extending 100 miles north of Guaymas, in Sonora, and which included some of the best lands in the republic. The stretch under Yaqui ownership extended along the Yaqui river valley in a district larger than the Imperial valley of California and with water resources three times as great as those of the Imperial valley.

Today the only Yaqui country left in Yaqui power is in the Bacatae mountains. But the power is small. All the warriors are gone or killed. Women and children and old men predominate in the last citadel.

As in the present revolution the rebel Indians in Yaquiland lost their fight partly through the government's use of the most modern arm of war—the airplane. The nine planes that Manzo had on his front flew constantly over Yaqui territory bombing and spreading terror. The federal planes drove the inhabitants of Bacatae, the capital, into the mountains and finally destroyed it.

Planes Aided in Conquest.
Ammunition ran low after the war had raged incessantly for many months, the plane raids continued unceasingly, and finally, cut off from the world and beleaguered from the air, the Yaquis surrendered. Their surrender, however, was conditional. They agreed to take service in the Mexican army provided their own chief, General Ignacio Mori, should be permitted to continue as their head.

Their liberty curtailed by the rigid discipline of the army, the Yaquis were not always good soldiers, although their valor in fighting was unquestioned. The group at Perote was for this reason perhaps little better off than prisoners.

The Yaquis still preserve their ancient language and customs. Although they are Christians, in common with other Indian tribes of Mexico, they have mixed the symbols of Catholicism with the signs of the old gods.

While the Mexican government had to all but exterminate them in order to pacify them, it seems likely that the Yaqui fighting tradition which has existed for 400 years will continue in Mexican memory at least for a long time to come.

France Grants Asylum to War Foe's Widow

Paris.—By a special act of the ministry of the interior, Zita, last of the Hapsburg empresses, has been granted the same asylum in France which is granted to any other foreigner who lives up to the laws of the republic and does not engage in political intrigue.

The French government considers the ex-empress of the Austro-Hungarian monarchy not in the light of a widow of a ruler, once at war with the allies, but as a sorrowful mother who is trying to educate her children. Investigation disclosed that Zita was not engaged in politics and therefore was entitled to residence in France if she chose to live here.

Frisco Chinese Become Stock Market Players

San Francisco, Calif.—No more is it "no tickle no washee" in San Francisco's Chinatown—it's just "tickle."

For the city's oriental population has become interested in the stock market and recently a Chinese newspaper carried for the first time in its history the mysterious brokers' quotation symbols in Chinese.

One brokerage firm has organized a special Chinese department with a Chinese in charge. The Chinese are said to speculate mostly in groups dealing in 5,000 share lots.

All-Woman Affair

New York.—The painting of a huge sign in front of the Hotel Belmont is an all-woman affair. Ann Derlekson, contractor, has girl assistants, colored attendants, who wear knickerbocker sweaters and red bandannas.

Don't Let Your Community Make the Same Mistake

Within recent years many communities have made the mistake of paving their roads and streets at what they considered a "bargain price." The taxpayers thought they would save thousands of dollars.

In many instances the maintenance has not only wiped out the hoped for saving, but has exceeded original cost. And in many cases also it has been necessary to build entirely new pavements—of permanent construction.

There are communities, however, which know the cheapest is not always the best. Many of these also built roads and streets several years ago. And they built for permanence with concrete.

These concrete pavements, built in accordance with approved standards of construction, are in as good condition today as when they were built.

Which of these communities will yours be?

GOOD HEALTH THEIR ONLY CAPITAL.

The steady hard workers to whom the loss of a day's or a week's pay is serious, whose good health is their only capital, need to keep themselves constantly at their best. When Arthur O'Malley, Carson Hill, Calif., had to drag his aching weary body from a well-nigh sleepless bed, he did a wise thing, took Foley Pills diuretic.

"Less than two bottles of Foley Pills diuretic, relieved me entirely of kidney and rheumatic troubles, and I want other people to know about them." Men and women everywhere use and recommend them. Satisfaction guaranteed.—Hite Drug Co.

Teacher—"Now, James, name America's greatest general."
James (the son of a broker): "General Motors."

A Lot to Do

Billy—How do you like your new job?
Teddy—It's a hard job. The boss always says, "Can't you find work to do?" I've got to find work and do it also.

"Nurse," said an amorous patient, "I'm in love with you. I don't want to get well."

"Cheer up, you won't," she assured him. "The doctor's in love with me, too, and he saw you kiss me this morning."

Louise Rice, world famous graphologist, can positively read your talents, virtues and faults in the drawings, words and what notes that you scribble when "lost in thought."

Send your "scribbles" or signature for analysis. Enclose the picture of the MKADO head, cut from a box of MKADO pencils, and ten cents. Address Louise Rice, care of EAGLE PENCIL CO., NEW YORK CITY

Long Distance Rates Are Surprisingly Low For Instance:

for 95¢

or less, between 4:30 a. m. and 7:00 p. m.

You can call the following points and talk for THREE MINUTES for the rates shown. Rates to other points are proportionately low.

| From East Jordan To: | Day Station-to-Station Rate |
|----------------------|-----------------------------|
| BAY CITY | 85 |
| LUDINGTON | 75 |
| MARQUETTE | 95 |
| SAGINAW | 90 |
| MARINETTE, WIS. | 85 |
| STURGEON BAY, WIS. | 80 |
| HART | 85 |
| WHITEHALL | 90 |

The rates quoted are Station-to-Station Day rates, effective 4:30 a. m. to 7:00 p. m.

Evening Station-to-Station rates are effective 7:00 p. m. to 8:30 p. m., and Night Station-to-Station rates, 8:30 p. m. to 4:30 a. m.

The fastest service is given when you furnish the desired telephone number. If you do not know the number, call or dial "Information."
