

Charlevoix County Herald.

VOLUME 34

EAST JORDAN, MICHIGAN, FRIDAY, FEBRUARY 14, 1930.

NUMBER 7

Michigan's Potato Champion

HARRY BEHLING WINS SWEEP-STAKES ON PECK OF RUSSETT RURALS.

Charlevoix County farmers won the highest honors at the recent State Potato Show held at Michigan State College, Feb. 3rd to 7th. In competition with the best exhibits of potatoes from all parts of the State our quality spuds walked away with the top awards and gave this County State-wide recognition.

Outstanding among the exhibitors was the name of Harry Behling, of Boyne City who won the highest honor possible when his peck of Russett Rurals was adjudged the blue ribbon and sweepstakes exhibit of the entire show competing with all varieties, both early and late.

His peck was unquestionably superior in all respects and reflects the conscientious efforts of Harry Behling over a period of three years to gain the top rank. He has been one of Michigan's best exhibitors and this high honor could not have fallen in more deserving hands.

To further add to his accomplishments his bushel sample also won the blue ribbon showing in strong competition. Not content in merely winning first place in the bushel class, the other two samples from Charlevoix County won 2nd and 3rd, giving us a clean sweep. W. H. Henley, of Charlevoix, exhibited the splendid quality sample that won second and George Meggison, Charlevoix, came right along and captured 3rd place.

In the County exhibit class, one in which no doubt there is more rivalry than any other, Charlevoix County's collection of 10 peck samples won the blue ribbon. This is the first time that any county has broken the Otsego County's record string of 8 consecutive victories in this same class.

In the Potato Club Class more prizes were won, when Fred Ranney, East Jordan won 2nd place, Gwendolyn Hott, East Jordan secured 4th and Gordon Boyer, East Jordan placed 6th in a very strong field.

Following are the exhibitors and awards won:

- Class A—Peck of Russett Rurals
 - 1st—Harry Behling, Boyne City.
 - 3rd—Frank Behling, Boyne City.
 - 6th—Gordon Boyer, East Jordan.
 - 7th—Geo. Meggison, Charlevoix.
 - 8th—Wm. Behling, Boyne City.
 - 12th—Fred Ranney, East Jordan.
- Class B—County Exhibits
 - 1st—Charlevoix County.
- Class C—Bushel Certified Seed
 - 1st—Harry Behling, Boyne City.
 - 2nd—W. H. Henley, Charlevoix.
 - 3rd—Geo. Meggison, Charlevoix.
- Class D—Potato Club Pecks
 - 2nd—Fred Ranney, East Jordan.
 - 4th—Gwendolyn Hott, East Jordan.
 - 6th—Gordon Boyer, East Jordan.

Sweepstakes—won by Harry Behling.

In addition to potatoes, one sample of corn, shown by Ivan Korthase Charlevoix County's only club boy, won 4th place, likewise in a classy field.

Another outstanding feature of the year 1929 was the fact that out of 11 farmers who raised 300 bushels or more to the acre, three were from Charlevoix County, as follows:

- Harry Behling, Boyne City.
- R. V. Liskum, East Jordan.
- Edward Kowalski, East Jordan.
- B. C. MELLENCAMP, County Agr'l Agent.

PRODUCTION OF OIL IN MICHIGAN

While Michigan ranked 18th among the 19 States in the United States producing oil in 1928, it had jumped to 13th place last year, according to national compilations received by the Geological Survey Division of the Department of Conservation.

The production for Michigan last year has been estimated at approximately 5,000,000 barrels of oil.

In the amount of oil produced per well per day in 1929, Michigan ranked fourth among the 19 oil producing States, the statistics show.

Only California, Texas and Colorado ranked higher than Michigan last year for the daily average production per well.

Mistress: Clematis, I think I smell something burning downstairs. Did you remember to turn off the electric iron when you left the ironing board, as I told you?

Clematis: Yes'm, I did. I most surely did. I pulled dat chain once, lak you tol' me, den I pull it again, to make sure.

A little fellow of our acquaintance wants to know why vitamins were put in spinach and cod-liver oil instead of in cake and candy.

INDOOR BASE BALL GAMES GOING STRONG

Base Ball fans who were not up to the High School Gym last Monday night missed two very good games of ball.

The first game between the Masons and the Foundry was exceedingly fast and a hard fought game throughout. Seiler pitching for the Masons was going good and with his support had the edge over the Foundry team. Bechtold playing exceptionally good ball on First. Watson at Short and Cohen behind the Bat showed some of their old time playing. Dr. Brenner and Elden Maynard were two of the outstanding hard hitting boys as well as base running which helped to defeat their opponents.

Earl Shay pitching for the Foundry worked hard against the hard hitting Mason team, and the rest of the team played real ball, but do to the fact that they did not get the breaks of the games, the final score was 15-5.

The second game between the K. P.'s and the American Legion started out with a bang, both teams trying to out-play each other. The first inning with the K. P.'s at bat started out to conquer the day, but do to the fact that both teams were equally divided and that some brilliant plays were made they only ran in one score. This score stood until the last half of the second when they received two more, making the score 3-0. Then with the Legion securing one in the last half of the 3rd and the K. P.'s two in the first half of the fourth, and then the battle raged on until the last half of the seventh when the Legion tied the K. P.'s with a score of 8-8, and with both teams fighting hard and playing real ball held the score until the last half of the 8th when a very close decision was awarded the American Legion, and the final score ended 9-8 to the Legion's credit.

The pitching between Davis and Kowalski held their opponents well in hand, together with both team's field work, displayed some real old-time Indoor Base Ball.

PATRIOTIC-LOYALTY SERVICE SUNDAY

In almost every town in this country a patriotic-loyalty service will be held next Sunday. The idea back of these meetings is that the Sunday between Lincoln's and Washington's birthdays, when our thoughts are naturally turning to patriotism, is the appropriate time for a patriotic-loyalty service.

The Presbyterian Church is arranging such a service for Sunday evening, at the usual hour, six o'clock central standard time. There will be a number of short talks. Mr. Abe Cohen, in charge of High School Athletics, will speak on the need for obedience to basic laws for the building of a good body. Supt. A. J. Duncanson will speak on the necessity of loyalty in the development of good citizenship. Two High School Seniors, Helen Severance and Carl Weaver will give speeches on selected phases of Loyalty and Law. Miss Perkins, who is the speaking coach of the High School, will make a short speech. There will also be music by some groups of young people.

The meeting is under the auspices of the young people as a part of their work in promoting patriotism and loyalty.

ALFRED MOBLO DIES AT TRAVERSE CITY

Phillip Alfred Moblo, a resident of Traverse City for the past seven years, died Thursday morning, Feb'y 6th, at his home, 114 East 11th St., after a long illness. He was 53 years old.

Mr. Moblo was born at Atwood, Antrim County, Dec. 14, 1876 and resided there until the age of 23 years. In 1900 he was united in marriage to Mary Dean at Atwood, the couple locating in Ellsworth where Mr. Moblo operated a blacksmith and garage for 22 years. In 1923 they moved to Traverse City.

Remaining to mourn his loss are his widow, and one brother, Ira Moblo of Bellingham, Wash., besides a large circle of friends throughout this region.

Funeral services were held Sunday afternoon at two o'clock at his late residence. Rev. William Chapman, pastor of the Central M. E. Church officiated. The body was placed in the mausoleum at Oakwood cemetery until Spring.—Traverse City Record-Eagle.

Then there was the absent minded bird who changed his oil every day—and his shirt every five hundred miles.

The Beauty Shop

Debate Wedsdy To East Jordan

MANCELONA LOSES TO LOCALS IN SECOND PRELIMINARY.

Mancelona came Wednesday with a very good debating team but ran up against what is beginning to look like the best debating team in his section with the possible exception of Cheboygan. However many local fans can not concede that Cheboygan has it on Miss Perkins' outfit.

Wednesday night was the fifth straight debate that Frances Brown, Helen Severance and Carl Weaver have won. When you consider that out of a possible twenty points the locals have received 19 from the judges, the record is an enviable one.

Prof. Bruce M. Raymond, head of the History Department of Hope College analyzed the debate Wednesday night and gave the local team a real tribute. He said there wasn't a person on the team but what could adapt himself to any situation in the case. He said that the "red-headed" girl, meaning Helen Severance certainly deserved first consideration and could make any debating team in Michigan.

It is doubtful if any of the speakers put up as logically and clear cut arguments as Carl Weaver, while Miss Frances Brown could adapt herself to any situation that might arise in the present question for debate. Miss Perkins tells a very good one on Miss Brown. Of course they have debated both sides and have cards for each case. In a practice debate this week she got up with her hand full of cards, supposing she had the cards for the affirmative side of the case, which the locals upheld Wednesday, instead she went through the whole debate and didn't know that the cards in her hand were the ones for the negative case. A little indication of the type of work being done in debating locally.

The three students mentioned have certainly left no stones unturned and to make a successful debating season.

This leaves but thirty-two teams in Michigan in the running after Friday night with 275 or more at the beginning of the season. It looks as though the next debate would be with either Traverse City, Cheboygan, Manton or Reed City, two weeks from Friday night. The fact that at the last minute the debate had to be switched to Wednesday night largely on account of the inability to secure a competent judge on Friday afternoon of this week made the crowd small, for the team deserves better than an \$8.00 crowd.

It is hoped that people recognize that we have one of the best teams that has represented the High School in northern Michigan at the present time. It is a more difficult task to win a State championship now than it ever was because there are over nine times as many teams as there was a few years ago.

The following people made up the Mancelona debating team on the Negative side of the question: Lewis Drake, Arlene Oldt and Kathleen Davison.

DUFURE BRIDGE FOR SALE

We will receive sealed bids for a portion or all of the Dufure Bridge across Intermediat Lake. Same must be in the office of the Township Clerk not later than six p. m., Thursday, Feb'y 20th, 1930, and same to be paid within five days after being accepted.

We reserve the right to reject any or all bids.

Dated Feb. 5, 1930.
WM. G. MURPHY,
Clerk of South Arm Twp.
6-2

Some lipsticks have been declared poisonous, but women always did love men who defied death.

Back to Central American Jungle

Lady Richmond Brown, well-known British explorer, packs her kit for one more during venture into the unexplored jungles of southern Honduras and northern Nicaragua, where she and her colleagues hope to learn more of the mysterious "lost city." The party, which is led by F. A. Mitchell-Hedges of the British Museum Maya committee, includes Karl Eugene Stein, Brown university student; George Hudson, English camera expert; Miss Rose Rosenblum, secretary, and Lady Richmond Brown.

LIFE-LONG RESIDENT OF EVELINE TWP. PASSES AWAY

Alfred Williams of Eveline Township passed away at the Charlevoix Hospital, Friday night, February 7, 1930, following an illness of several months from Bright's Disease. He had been at the Hospital two weeks. Last fall he took treatments at the Mayo Bros. Hospital at Rochester, Minn., for six weeks.

Mr. Williams was born in Eveline Township, Charlevoix County, Aug. 14, 1885, his parents being Mr. and Mrs. Richard Williams. On May 27, 1911 he was united in marriage to Miss Julia Bancroft of East Jordan at Boyne City.

He is survived by the wife and an adopted son, Clare. Also four brothers and three sisters: Pierce, of Lake Helen, Florida; Will and Frank of Sioux Lookout, Ont.; Walter, of Detroit; Mrs. Anna McMullin of Lake Helen, Florida; Mrs. Lottie Tumath of Charlevoix, Mrs. Mamie Straw of Marion Township, and a host of friends.

Funeral services were held from the Congregational Church at Iron-ton, of which deceased was a member, Tuesday afternoon, conducted by Rev. J. E. Lockyer of the Methodist Church of Charlevoix. Interment in Brookside cemetery at Charlevoix.

Prosecutor On Gambling Hunt

WOULD RID ANTRIM COUNTY OF SLOT MACHINES AND PUNCH BOARDS.

Prosecuting Attorney H. E. Wellman of Antrim County is determined to rid that county of slot machines and punch boards, and the tone of an order that he issued last week indicates that he means to ban the devices in summer and winter alike. In Traverse City and some other communities of the region says the Grand Traverse Record-Eagle slot machines flourish during the resort season but are kept discreetly out of sight the rest of the year, in acknowledgment of the law's disapproval. Here a mild warning is sometimes given to signal the "closed season."

Prosecutor Wellman's warning is anything but mild. He plans to send officers out beginning Monday to confiscate "slot machines, punch boards and all other gaming devices." His order says the ban is to be permanent. The order follows:

On and after February 10, 1930, all slot machines, punch boards and all other gaming devices will be confiscated. This does not mean that the gaming devices can be laid aside and later be put in use again. The Sheriff or other officer will make the rounds of the County to determine if this order is being observed. On complaint of any person of violation after that date, the gaming device will be seized and the person operating the same arrested.

Dated this 6th day of February, A. D. 1930.

H. E. WELLMAN,
Prosecuting Attorney.

POTATO WAR GOES TO NORTHERN MEN

Charlevoix County Ranks First In Prizes Won.

East Lansing Feb. 10.—The threat of southern Michigan potato growers to show their up-state competitors how to select winning samples of spuds failed to keep the northerners from taking home most of the blue and purple ribbons from the East Lansing Show.

Harry Behling, Boyne City exhibited the best entry of Russett Rurals and took first prize and sweepstakes. Firsts were won by John Herrema, Manton, on white Rurals; by Herbert Johnson, Sands, on Green Mountains; by J. D. Robinson, Pellston, on Irish Cobblers; and by Lee Fowler, Mayville, on other varieties.

John Delongchamp, Champion, showed the best peck of potatoes in the show, and J. D. Robinson, was the exhibitor of the best individual potato.

Firsts in the beginners class were won by A. F. Derbyshire, Manton; and Sylvester Dipzinski, Gaylord. In the individual exhibitors class, the winners were Edward McVanel, Gaylord; Elsie Tousignant, Sands; and Ronald Haynes, Greenville.

The rankings of the counties in prizes won were Charlevoix, Missaukee, Otsego, Menominee, Tuscola and VanBuren.

"Waiter, this coffee is sheer mud; take it away."
"Sorry, sir, but it was only ground this morning."

Harbor Springs Near Waterloo

LOCALS PRESS STATE CHAMPIONS TO LAST WHISTLE.

No one locally expected a real Basketball team at the High School this year, nevertheless after Friday night we must concede we have one, for any team that can go out and battle Harbor Springs from whistle to whistle is a real team. In fact East Jordan led the State Champions from Harbor until within 15 seconds of the final whistle. The breaks of the game alone saved Harbor from its Waterloo. There wasn't a person in the audience that would concede that any other team in northern Michigan had a chance with either Harbor or East Jordan Friday night. The game simply proved to be a "sizzler."

Everyone recalls that Harbor won the Class C championship at Detroit last year by top-sided scores and has taken everything into camp so far this year in northern Michigan, except with a real battle with Boyne City a week ago. No one will question the ability of the Harbor team. It is doubtful if any better basketball team has ever played in northern Michigan than the present Harbor team but most people did not realize that there are two other teams and possibly three in this section (at that all-Class C) outside of Harbor, Boyne City, East Jordan and Charlevoix, (all members of the "Tip of Michigan C Conference.")

The game started with a rush from the toot of the whistle.

Captain Lee dropped in two baskets almost before Harbor realized what was happening. From that on to the half Harbor had the best of the game and were ahead 10-5. It was almost impossible to pick out any particular stars from the East Jordan team for everyone played like veterans and a stellar game for veterans to play.

Lee and Quinn on the offense were dangerous at all times. Yet the defense of the locals surely deserve credit. LaLonde and William Taylor were hurdles that Harbor had trouble to jump. Arne Hegerberg did stellar work on the floor dropping a basket as the third quarter whistle blew which would undoubtedly have won the game.

Harbor Springs as indicated above has perhaps as good a Class C team as there is in Michigan. Their whole team played good basketball. Possibly Faunce and Bradley were the stars. Also Faunce, perhaps the best Class C center in Michigan played a very good game but Captain Lee more than held his own. Bradley, the Indian boy is perhaps the greatest all-around basketball star in northern Michigan in any Class. He is also the last word in speed and generalship and everything concerned in Basketball. He possibly could make almost any College team in Michigan right at the present time.

We are always glad to play Harbor because we know there will be a scrap on one side and we also have learned by the game that Boyne City and Harbor played that when the locals play now, if the other teams holds their own, there will be a scrap on two sides. Cohen and the boys are to be congratulated on the brand of Basketball they have produced in the last two games.

The East Jordan team goes to the Traverse City District Tournament. This change was made in order to put a little kick in the Traverse Tournament. By the way the boys are playing at the present time no one locally doubts but what they WILL put a kick in any tournament they enter.

Charlevoix comes tonight for what should be a real basketball game inasmuch as Boyne has a good team this year yet Charlevoix gave them a very neat trouncing Saturday night. So judge for yourself whether this game will be worth attending.

LINE-UP
Harbor Springs—East Jordan
F—Taylor F—Quinn
Hill Hegerberg
C—Faunce C—Lee
G—Bradley G—LaLonde
Johnston Taylor
Harbor Springs—Ketman for Taylor; Coskey for Hill; Booth for Johnston.

AFTON

Edited by Mrs. Henry Timmer.

Mrs. Luther Brintnall was an Afton school visitor Wednesday.

Mr. and Mrs. Clifford Brown dined at the home of L. R. Hardy, Thursday.

Mr. and Mrs. Chas. Shepard were business visitors at Petoskey last week Thursday.

Visitors at John Hotts last week were Mr. and Mrs. Lem Henderson and son, Earl, Mrs. Priscilla Spohn, Friday, Mr. and Mrs. Ashland Bowen, Sunday, and Mr. and Mrs. Merritt Finch, Wednesday.

Eugene Raymond and Frank Behling Sr., are the latest radio owners in this vicinity.

Miss Olga Schultz was at home for the week end.

The Lumley home was the scene of a lively party Thursday evening, with five tables of progressive pedro in play. First prizes were won by Mrs. L. R. Hardy and Lester Hardy, the consolation prizes going to Mrs. Bert Fuday and Glen Easton.

Mr. and Mrs. Harry Sloop and family spent Sunday with her sister at East Jordan.

Little Elwood Hardy, baby son of Mr. and Mrs. Lester Hardy is very ill with abscesses in his head.

Miland Hardy was a visitor the latter part of the week at Curtis Braces.

Mr. and Mrs. L. R. Hardy were callers Monday evening at the J. L. Sutton home.

Mrs. Henry Timmer was agreeably surprised by several friends and neighbors Saturday evening who called to felicitate her on her birthday.

The evening was spent in games, music, both vocal and instrumental, and a pot luck lunch was served at midnight.

Lloyd Miles has returned to school in Knop District, after a lengthy absence, due to his injured foot.

O. D. Smith and Luther Brintnall are hauling hay for Albert Todd the past few days.

Mr. and Mrs. L. Henderson and family called at L. R. Hardy's on Thursday evening.

Another progressive pedro party was given by Mr. and Mrs. Wm. Tate on Saturday evening, with 18 guests present. Two little girls won the prizes, Anna DeMeio being first prize winner, and Thelma Hudkins consolation prize winner.

WILSON TOWNSHIP

(Edited by Mrs. C. M. Nowland)

Mr. and Mrs. Albert St. John and son, Howard, were Sunday visitors of Mr. and Mrs. Roy Zinck of Boyne City.

Victor Peck of Detroit spent the week end with his wife and son.

Mrs. Charles Hott spent Saturday with her sister, Mrs. John Hott while

Peoples' Wants

MUNNIMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

WANTED

WANTED—Young Calves and old Horses. Write or phone SEARS FOX RANCH, East Jordan. 18-t.f.

the Hott brothers drove to East Jordan.

In getting the news over the phone last week, I made a mistake in the first name of the people that were coal gassed. It was Mr. and Mrs. Ernest Bennett, parents of Mrs. B. C. Mellencamp. Ed. Bennett is a son.

On the 28th of February, Mr. and Mrs. George Todd of Durban, Manitoba will celebrate quietly their 50th wedding anniversary. Any of their old friends reading this, please send them a card or letter to the above address which will surely please them.

Mr. and Mrs. S. Nowland visited Mr. and Mrs. John Martin Tuesday, Feb'y 4th.

The Lutheran Ladies Aid Society met Feb. 5th at the home of Mr. and Mrs. Frank Behling Sr., to celebrate Mrs. Behlings and Mrs. Fred Burdt's birthdays.

Martin Wilber and son Guy of Wildwood Harbor visited their daughter and sister, Mrs. Milo Clute and family, Saturday, Feb. 1st.

Herman Griffin spent the week end at the home of his parents, Mr. and Mrs. Fred Griffin in Boyne City.

Percy Batterbee spent last week at the home of his grandparents, Mr. and Mrs. E. L. Nowland. He was taken with a sore throat and grippe on Monday, but was sufficiently recovered to return to East Jordan on Saturday.

Mr. and Mrs. Loyal Barter of Hitchcock called at the J. L. Sutton home Sunday. They planned on visiting her parents, Mr. and Mrs. Wilber McGeorge, but blocked roads prevented.

PENINSULA

(Edited by Mrs. E. Hayden)

Frank Scott and son, well men of Boyne City have been at the A. B. Nicloy farm, Sunny Slope, repairing the well which has been out of commission for some time, so far they have been unsuccessful.

F. H. Wangeman and son, Lyle returned Wednesday morning from a business trip to Owosso.

Mr. Jones of Norwood was on the Peninsula last week taking orders for fruit trees.

Charles Healey of Willow Brook farm is improving in health, but still goes to Petoskey Mondays to take treatment at the hospital.

Bob Jarman who is employed at the C. H. Tooley farm, was home at Gravel Hill for the week end.

Mrs. Mercy Woerful of Gravel Hill was called to Boyne City Sunday to help care for her aunt, Mrs. Laura Stanley, who is ill with asthma.

Quite a large number from this section attended the dance at Peninsula Grange Hall Saturday night.

Bob Willson and little son Lyle spent Sunday with Mrs. Willson who is visiting her father, Geo. Jarman and family at Gravel Hill south side.

Friends of Alfred Williams of Ironton will be concerned to hear of his death at the Charlevoix hospital last Friday night. He has many friends in this section.

Mrs. Bell Edwards who has spent four weeks with her parents, Mr. and Mrs. Daniel Faust, returned to her home at Dearborn, Saturday.

Mr. and Mrs. Will Gaunt and family and Mr. and Mrs. Ralph Gaunt visited in East Jordan Sunday.

Fred Earl motored up to his farm again Sunday from Detroit with a truck load of equipment.

Douglas Tibbit of Cherry Hill reports his mother, Mrs. Edith Tibbit not improving in health.

Mrs. Orval Bennett is quite poorly. Mrs. Joel Bennett of Honey Slope farm spent Saturday in Boyne City.

The County roads were again drifted full Sunday, after a week of rather good weather.

Several of the school children who ride in the bus were quite ill Friday evening.

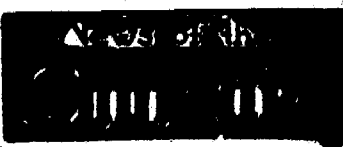

Battle Creek—Two small sisters, drawn on a sled by an older playmate, were almost instantly killed by an automobile on M-78 north of the city. The victims were Marguerite, 8 years old, and Kathleen, 6 years old, daughters of Mr. and Mrs. George Bakins.

Sturgis—Roy Harter and George Demski, who turned in a false fire alarm, paid fines because their girlfriends could not run as fast as the two officers who noticed the quartet standing near an alarm box. The boys outdistanced the officers, but the girls, unable to escape, gave the officers the youths' names.

Monroe—Having fished for more than 51 years, Antoine Jacobs, 78, pioneer resident of Erie township, has retired. The industry is to be continued by a son. It is reported that Jacobs has amassed a fortune of approximately \$165,000 from the sale of pickerel, whitefish, catfish, perch and bullheads.

RESTFUL EASE AFTER COUGHING.

"The result of using Foley's Honey and Tar Compound for a dreadful cough that bothered me both day and night was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. "It eased my cough at once, felt so good to my irritated throat and was very agreeable to take. No more coughing for me so long as I can get Foley's Honey and Tar Compound." Your druggist sells and recommends it. Ask for it. For Sale by Hite's Drug Store. adv.

Presbyterian Church

C. W. Sidebotham, Pastor.

7:00 p. m.—Evening Service.
7:00 p. m., Thursday—Prayer Meeting.

All are welcome to attend these services.

TORMENTING KIDNEY AILMENTS RELIEVED.

Hard workers, whose full pay envelope is a necessity, whose good health is their only capital, must keep themselves constantly at their best. When Arthur O'Malley, Carson Hill, Calif., had to drag his aching weary body from a sleepless bed, he did a wise thing—took Foley Pills diuretic, and says: "Less than two bottles of Foley Pills diuretic relieved me entirely of my kidney and rheumatic troubles and put me on my feet and to work again. I want other workers to know about them." Guaranteed to give satisfaction. Ask for them. For Sale by Hite's Drug Store.

Control of Oat Smut With Dust

Indications are that the smut disease of oats will also respond to dust treatments in the same manner that treatment with copper carbonate dust is now satisfactorily controlling smut in wheat.

Two Control Dusts. "There are two dusts which give promise of controlling oat smut when applied to the seed before planting," says G. W. Fant, plant pathologist at the North Carolina state college. "One of these is a compound containing mercury in organic combination and the other is a fine clay which has been impregnated with formaldehyde. As well known, we have used a formaldehyde solution to control oat smut heretofore. This is not so simple a treatment as it might appear because under some conditions the germination of the seed oats is reduced and the grains may swell because of absorbing moisture from the disinfectant."

Mr. Fant says there was much oat smut this past spring. Fields in which about one-half of the heads were affected were found frequently and in some instances fully 80 per cent of the heads in a field were found to be infected. This is a serious loss. During the spring months the smut spores pass from these infected heads to the healthy grain and remain there during storage and through planting time. When the grain is planted, the smut spores grow and infect the seedling grain which eventually produces diseased grain. By treating the seed oats before planting, the smut spores are destroyed and healthy plants produced.

Receiving Attention. These new dust treatments for oats are receiving careful attention in all parts of the United States. Mr. Fant says that several successful farmers have used them during the past two seasons with encouraging results. He thinks that the same barrel used to treat seed wheat with copper carbonate dust may be used in treating oat seed with the new dusts.

Great men at close range often seem so ordinary, so human, that it inspires new faith in oneself.

High Quality in Meats Demanded

Small, Lightweight Cuts of Only Moderate Fatness Are Wanted.

(Prepared by the United States Department of Agriculture.)

American people are demanding high quality in meats more than ever before, but there is still a misconception on the part of many meat buyers as to what constitutes the best quality. Explaining this situation, O. G. Hankins of the United States Department of Agriculture, points out that the importance of the fat content of meat is not generally understood.

Market Demands. "Many people believe that meat which tends to be lean is of higher quality than that which is quite fat," declares Mr. Hankins. "They regard the fat as unpalatable and fail to recognize the relation between a somewhat liberal proportion of fat and tenderness in the cooked meat. Generally speaking, there is an increased demand for rather small, lightweight, retail cuts of only moderate fatness.

"Aside from fatness or leanness several characteristics of meat are of particular interest to the consumer. The foremost of these is tenderness. The natural tenderness of meat appears to be caused by one or more factors, such as breeding, feeding, age, or management of the animal, yet tough meat can be made tender and toothsome by proper handling and cooking. The best indication of natural tenderness known at present is 'marbling,' or the distribution of particles of fat through the lean."

Meat Consumption. Figures compiled by the Department of Agriculture show that in 1928 the per capita consumption of meat and lard in the United States was 153 pounds. Of this total, 7 pounds was pork, 51 pounds beef, 4 pounds veal, 6 pounds lamb and mutton, and 15 pounds lard.

To assist live-stock producers and packers in supplying the kind of meat desired by the public the department and 25 state agricultural experiment stations are working jointly on a national meat research project. It is expected that this research ultimately will help greatly to supply more of the kind of meat that the public wants.

When Planning Gardens Use Every Foot of Land

Use every foot of your land in planning for a garden. Idle patches only produce weeds. When one crop is harvested, another should be planted to fill the vacancy. Warm season crops, such as tomatoes and beans, and late seeded crops, such as turnips, may follow early cool season crops, such as lettuce, spinach, radishes and peppergrass.

Plan to give the long growing season crops the most favorable space. Short season crops, such as lettuce, spinach and radishes, may be planted between the long season crop rows.

A rotation of the various crops over the land checks disease and insects, and utilizes all the plant food available year after year. Shallow rooted crops, like onions, should follow deep rooted crops, such as cabbage.

Potatoes, corn, and vine crops require too much space in small gardens, but, if grown, the space between the rows can be used early in the season for quick maturing crops.

Scarified Clover Seed Produces Best Results

While occasionally one hears of good results obtained by sowing unscarified sweet clover seed, such practice is risky business. If weather conditions happen to be right, unscarified seed can be sown in February or March and thawing in snow or damp ground will soften the hard hull of the seed until a fair stand may be obtained. On the average, however, a 60 per cent stand is about the best that can be expected by such a practice. Properly scarified seed will give a 90 per cent stand under the same conditions, as a rule.

This is implying, of course, that the ground is properly limed, or of such natural composition as to favor the growth of the sweet clover.

Fertilizer to Produce Largest Profit on Farm

High-analysis fertilizer, shown by tests made by experiment stations to produce the most profit for farmers, has practically no odor. Many new fertilizer materials, such as nitrogen that is fixed from the air, resemble sugar or salt and have no odor. Farmers who rely on their noses for determining quality got the habit when fertilizers were made largely from waste products. Much of the complete fertilizer now on the market contains mostly straight chemical materials that have practically no odor.

Credit Machinery for Increased Production

"Machine methods of production have not ruined our agriculture," declares L. J. Fletcher, formerly professor of farm engineering in California university. "We should rather credit farm machinery with reducing the expenditure of manual labor on our farms, with shortening the working day and increasing the production per worker. Progress consists of continuously solving the problems of today which arise out of the solution of the problems of yesterday."

Lad Honored for Trying to Rescue Bird

Ten-year-old Bud Vierra of San Francisco, who was shot in the back by a companion while trying to rescue a wounded sea gull last December, was rewarded for his bravery and kindness to animals when John Partridge of the S. P. C. A. presented him with an especially cast bronze medal as a token of the society's appreciation of his act, at the San Francisco hospital where he is recovering from the bullet wound.

"Yes, Mr. Jones, you'll have delivery in two days"
Selling by telephone has become an important method of distribution. Long Distance enables you to obtain direct, verbal contact with customers and to save traveling expense.
Long Distance rates are surprisingly low.
For **\$1.25** or less
you can call the following points and talk for THREE MINUTES:
FROM EAST JORDAN TO: Day Station-to-Station Rate
ANN ARBOR \$1.25
BENTON HARBOR 1.25
BIRMINGHAM 1.20
ROYAL OAK 1.25
CHICAGO, ILL. 1.25
The rates quoted are Station-to-Station Day rates, effective 4:30 a. m. to 7:00 p. m.
Evening Station-to-Station rates are effective 7:00 p. m. to 8:30 p. m., and Night Station-to-Station rates, 8:30 p. m. to 4:30 a. m.
The fastest service is given when you furnish the desired telephone number. If you do not know the number, call or dial "Information."

High Quality in Meats Demanded

Small, Lightweight Cuts of Only Moderate Fatness Are Wanted.

(Prepared by the United States Department of Agriculture.)

American people are demanding high quality in meats more than ever before, but there is still a misconception on the part of many meat buyers as to what constitutes the best quality. Explaining this situation, O. G. Hankins of the United States Department of Agriculture, points out that the importance of the fat content of meat is not generally understood.

Market Demands.
"Many people believe that meat which tends to be lean is of higher quality than that which is quite fat," declares Mr. Hankins. "They regard the fat as unpalatable and fail to recognize the relation between a somewhat liberal proportion of fat and tenderness in the cooked meat. Generally speaking, there is an increased demand for rather small, lightweight, retail cuts of only moderate fatness."

"Aside from fatness or leanness several characteristics of meat are of particular interest to the consumer. The foremost of these is tenderness. The natural tenderness of meat appears to be caused by one or more factors, such as breeding, feeding, age, or management of the animal, yet tough meat can be made tender and toothsome by proper handling and cooking. The best indication of natural tenderness known at present is 'marbling,' or the distribution of particles of fat through the lean."

Meat Consumption.
Figures compiled by the Department of Agriculture show that in 1928 the per capita consumption of meat and lard in the United States was 153 pounds. Of this total, 7 pounds was pork, 51 pounds beef, 7 pounds veal, 6 pounds lamb and mutton, and 15 pounds lard.

To assist live-stock producers and packers in supplying the kind of meat desired by the public the department and 25 state agricultural experiment stations are working jointly on a national meat research project. It is expected that this research ultimately will help greatly to supply more of the kind of meat that the public wants.

HOW FORD METHODS CUT COST OF DISTRIBUTION

Lower profits in selling save you at least \$50 to \$75 in addition to the many savings in manufacturing

TWENTY-SEVEN years ago the Ford Motor Company was formed to provide reliable, economical transportation for all the people. That original purpose has never changed. The constant effort in every activity is to find ways to give you greater and greater value without extra cost—frequently at lowered cost. This applies to distribution and similar important factors, as well as manufacture.

For the Ford Motor Company believes that its full duty is not only to make a good automobile at the lowest possible price, but to see that there is no waste, extravagance, or undue profit in any transaction from the time the car leaves the factory until it is delivered to your home. It is obvious that hard-won savings in production will be of little value if they are sacrificed later through excessive selling costs.

EVERY purchaser of a motor car has the right to know how much of the money he pays is for the car itself and how much is taken up by dealer charges. If these charges are too high, one of two things must happen. Either the price of the car must be raised or the quality lowered. There is no other way. The money must come from somewhere.

In the case of the Ford, the low charges for distribution, selling, financing and accessories mean a direct saving of at least \$50 to \$75 to every purchaser in addition to the still greater savings made possible by economies in manufacturing. *Ford charges are not marked up or increased to cover a high trade-in allowance on a used car.*

The profit margin on the Ford car has always

been fair to both the dealer and the public. Within the past three months, it has been possible to effect still further economies. Today, the discount or commission of the Ford dealer is the lowest of any automobile dealer. The difference, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

THE business of the Ford dealer is good because he makes a small profit on a large number of sales instead of a large profit on fewer sales. He knows, too, that the extra dollar-for-dollar value of the car makes it easier to sell and more certain to give satisfactory service after purchase.

Consider also that the Ford car is delivered to the purchaser equipped with a Triplex shatter-proof glass windshield, an extra steel-spoke wheel, and bright, enduring Rustless Steel for many exterior metal parts, in addition to four Houdaille double-acting hydraulic shock absorbers and fully enclosed four-wheel brakes.

If for any reason you wish to buy certain small accessories, you will find that these, too, are sold at the usual Ford low prices. Replacement parts are also available at low prices through Ford dealers in every section of the country.

THESE are important points to remember in considering the purchase of a motor car. They show why it is possible to put so much extra quality into the new Ford and still maintain the low price. They are also the reasons why more than 35% of all cars sold today are Model A Fords.

The DAIRY

CLEANLINESS IS BEST FOR CALF

Every Utensil Should Be Washed and Sterilized.

To have a runt among the calves usually means that some one has failed at the calf management job. Perhaps one of the most over-looked tasks is that of cleanliness of quarters.

"Cleanliness is one of the most essential things in the whole process of feeding the calf," relates James W. Linn, extension dairyman, Kansas State Agricultural college, by way of cautioning dairymen against the ill effects of unclean quarters and feed. "Especially is this true as long as it is necessary to feed whole milk or milk substitutes."

Every utensil, including the bucket, dipper, separator, and can, should be washed and sterilized at every feeding, recommends the extension specialist. Such a practice will insure against foreign material or bacteria getting in the milk.

Temperature and quantity of milk are important considerations to be given calf management. It will pay dairymen to use a thermometer and see that the milk is kept as near the normal temperature at production time as possible. It is essential to feed the calf its milk at the same temperature each feeding.

Linn recommends weighing to the tenth of a pound the milk fed the calf. His formula calls for one pound of milk to each ten pounds of live weight of calf until 16 pounds daily is reached. Do not increase above that amount.

Proper Feeding Rule to Follow in Cold Weather

It is a good rule in winter feeding to allow one pound of grain or concentrate feed per day to cows for each four pounds of milk they produce testing 3 to 3 1/2 per cent fat; or one pound per day for each three pounds of milk if it tests 5 per cent or more of fat. This rule may be used as a guide to determine how much grain to feed during the pasture season. With the grass still in fairly good condition one-third as much grain as is required in the winter season will ordinarily be enough, but as the season advances and the grass shortens and dries a gradual increase becomes necessary.

Judgment, however, must be the main rule always. The aim should be to maintain production and the condition of the cows. Cows in the advanced stages of their milking periods that are only producing 10 to 15 pounds daily will not ordinarily require concentrate feeds during the pasture season.

Cream Will Deteriorate Even in Winter Season

Cool weather does not mean that cream can be held several days without damaging its quality, points out J. O. Barkman, in charge of dairy manufacturers at the experiment station of the University of Kentucky. Sweet cream held at a temperature of 50 degrees for a week or ten days makes a poor grade of butter. Such cream may be of low acidity and sweet to the taste when churned, but the resulting butter will have an old flavor.

Winter cream kept in cellars where such vegetables as onions and cabbage are stored will have a bad flavor. Likewise, cream kept in the kitchen is exposed to the odors of foods being cooked, and to the heat of the stove. Cream should not be allowed to freeze, as frozen cream makes an oily butter of poor quality.

Dairy Facts

Live stock farming is often said to be one of the most satisfactory ways of maintaining soil fertility.

Watch the position of the cream or skim milk screw in the cream separator. Any change in this screw will affect the cream test.

So far as investigations have gone, there are no cases that have shown that the calves from a tuberculosis bull or even from a cow inherit tuberculosis.

Cows continue in much better physical condition and maintain their milk flow at a higher level throughout the winter months when legume hays are fed in place of non-legumes.

Trouble with stringy milk may usually be overcome by thoroughly boiling and disinfecting all utensils, according to dairy experts at University Farm, St. Paul.

See that the calves' bowels are in normal condition and their appetites keen. If off feed, it is apt to be from indigestion or impure milk.

Keep the dairy cows in the barn on all cold, stormy days. The additional milk obtained will pay for the extra feed and care.

THE STILL SMALL VOICE

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Captain Flannery, the arrogant police officer in Earl Derr Biggers' story "Behind That Curtain," was a great boaster. He was the sort who said much and did little, who made many promises, and fulfilled few or none of them.

"How loud is the thunder, how little it rains," was the comment of Chan, the modest but shrewd Chinese postman who had succeeded in unravelling more mysteries than Flannery had ever gotten started upon.

His remark recalled vividly a common experience of my childhood—dark clouds rolling up most menacingly in the northwest so thickly that the whole prairie was enshrouded in semi-darkness; lightning flashing, heavy thunder reverberating through the air; animals running to cover to escape the approaching storm; fear of an awful downpour of rain gripping me, and then nothing but wind and a little dust in the air! "How loud is the thunder; how little it rains!"

Elijah, you will remember, was to have an audience with the Lord. And he went out and stood. A fierce wind came and tore up trees and piled great rocks one upon another, and tore the mountains to pieces. And after the wind an earthquake and thunder and lightning and great commotion, but the Almighty did not reveal Himself in these things. It was when silence fell over the earth that Elijah heard the sound of the still small voice. Sunshine is noiseless; the waves of the ocean make little sound; the current of electricity running through the copper wire cannot be heard, and the strongest, most influential, most efficient men seldom do much talking.

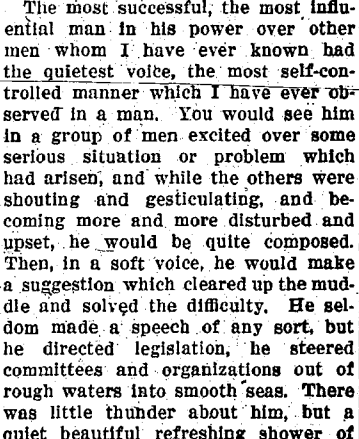

One of the world's famous multimillionaires is quoted recently as saying that the way to get on in the world is to work hard, save your money and keep your mouth shut. Talking too much and too loudly is an indication of a rather thin coating of gray matter on the brain. Silence is far more ominous than noise. Composure, a quiet manner, the absence of boasting and bluster are generally indicative of strength. The man who says the least is often thinking the most deeply. It is the deep water that is the quietest.

The most successful, the most influential man in his power over other men whom I have ever known had the quietest voice, the most self-controlled manner which I have ever observed in a man. You would see him in a group of men excited over some serious situation or problem which had arisen, and while the others were shouting and gesticulating, and becoming more and more disturbed and upset, he would be quite composed. Then, in a soft voice, he would make a suggestion which cleared up the muddle and solved the difficulty. He seldom made a speech of any sort, but he directed legislation, he steered committees and organizations out of rough waters into smooth seas. There was little thunder about him, but a quiet beautiful refreshing shower of rain.

Two-Piece Ensemble

This two-piece ensemble is distinguished by pointed platts cleverly worked in the skirt and on the cuffs of the sleeve.

He (to old maid): The next time you bid no-trump, I'm going to take you out.

She (with a titter): Oh Mr. Mercury! And there's such a heavenly moon, too.

PLENTY A REASON

"Why are you so opposed to my marrying Jim?" demanded daughter indignantly. "In the first place," declared her dad, "you are not strong enough to take in washing and you don't know anything about keeping boarders, and in the second place, my salary isn't large enough to stand another lazy son in the family."

Never Corrects Error
Reader (rushing into the newspaper office)—See here, you've published an announcement of my death by mistake. That's got to be fixed up somehow.

Editor—Well, we never contradict anything we have published, but I'll tell you what I'll do. I'll put you in the birth column tomorrow and give you a fresh start.

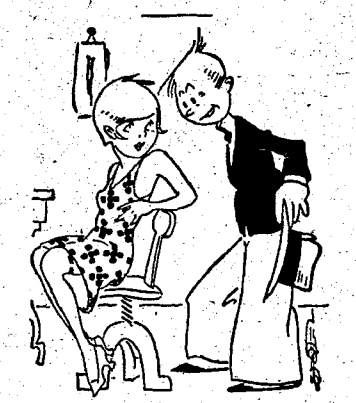

Fair Enough All 'Round
"What did you promise the delegates that just called on you?" "Everything they asked," answered Senator Sorghum. "And when votes were mentioned, they promised everything I asked. Then we all retired to think it over, leaving everything looking like a stand-off."—Washington Star.

Face and Reverse
Mrs. Plainmug—Is my gown cut too low in the back?—I can just feel that those men behind us are just staring at me.
Her Husband—Aw, turn around and show 'em your face and they'll quit staring.

The Goods on Him
Her Husband—What's the thing hanging to my coat lining?
Mrs. Sherlock—That's the transmitter of a wireless dictaphone that I sewed in there before you went out. I know all, John Henry, so you might as well start your confession now.

Getting On
Mrs. Plainmug—Have the De Styles recognized you yet?
Mrs. Newgilt—Not yet, but Mrs. De Style stopped on the street to admire my dog.

NO DATES

He—I'd like to see the boss.
She—Gimme your name and address.
He—No thanks, I'm married. It's the boss I want to see.

Served Now, but Laid Then
I've never seen a musty hen, and never hope to see one; but from the eggs served now and then I know that there must be one.

Liked Good Cigars
The Boss—Smoke cigars, Tompkins? Tompkins, the new bookkeeper—Yes, sir. I'm very partial to a good cigar.
The Boss—Umph—then I'll lock 'em up.

DIPPING INTO SCIENCE

Heat in the Earth
Everyone realizes that the interior of the earth is hot. But do you realize that the difference in temperature is quite noticeable in mine shafts? For every sixty feet we descend into the ground the temperature rises one degree. Scientific ventilation makes it possible for men to work in deep shafts.
(©, 1930, Western Newspaper Union.)

"Avocation" and "Calling"
A Dictionary of Modern English Usage says: "Avocation, originally a calling away, an interruption, a distraction, was for some time commonly used as a synonym for 'vocation, or calling, with which it is now less common and the word is generally used in the plural, a person's avocations being the things he devotes time to, his pursuits or engagements in general, the affairs he has to see to; his vocation as such is neither excluded from nor necessarily included in his avocations."

"And didn't you even look thru the keyhole?" asked Teddy's big sister, who had offered him a dime if he would stay away from the parlor while her beau was there.
"Naw," replied Teddy. "I didn't have a chance. Ma and pa was in the way."

"How are you getting on at school, Alec?"
"Fine! We're learning words of four cylinders now."

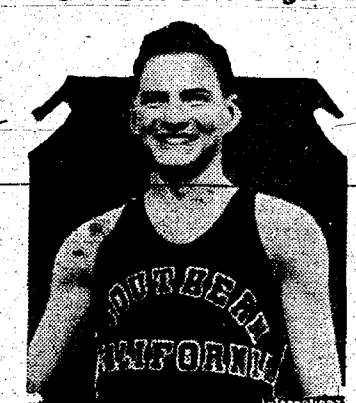

November Important in Our Nation's History

November in America. Erroneously supposed to be month of first Thanksgiving after harvesting first crop in Plymouth colony. It was a month earlier that the Pilgrims, as Mr. Choate remarked, "first fell" upon their knees and then upon the aborigines. Or maybe it wasn't Choate.

Connecticut settled, 1635. Pirate "Blackbeard" captured, 1718. British took Detroit, 1760. Stamp act became law, 1765, and American Revolution became inevitable. Americans captured Montreal, 1775. Continental army disbanded, 1783. Congress met in new capitol building, 1800. Pike's peak discovered, 1806, and it was 123 years before a man rolled a peanut up with his nose. Battle of Tippecanoe, 1811.

Jefferson Davis elected President of the Confederacy, 1861. In the same year United States warship San Jacinto held up British merchantman Trent and took off Mason and Sildell, Confederate envoys. In those days Britain was strong for freedom of the seas, made strong protest and the two envoys were delivered to England, but never officially received as such. Gatling gun invented, 1862. Great fire of Boston, 1872. Chinese exclusion act, 1892. World war armistice, 1918.—San Francisco Chronicle.

Grid Star Also Cager

Capt. Johnny Lehnert of the Trojans' 1930 basketball quintet, who is one of those sports enthusiasts who doffed his moleskins at the close of the 1929 football season to don basketball shorts and go in for the court game. Captain Lehnert plays guard on the varsity aggregation and has carried his teammates to an important position in the season's Far West competition.

Leaves College for Tennis

Wilbur F. "Junior" Coen, youthful tennis star of Kansas City, Mo., leaves the University of Kansas at Lawrence, in favor of European tennis tournament competition. "Junior" expects to make the Davis Cup team this year.

ORDER APPOINTING TIME FOR HEARING CLAIMS.

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held at the Probate office in the City of Charlevoix, in said County, on the 31st day of January, 1930.

Present: Hon. Edward E. Gilbert, presiding Judge of Probate.

In the Matter of the Estate of Lewis Bashaw, Deceased.

The above estate having been admitted to probate and W. G. Cornell of East Jordan having been appointed administrator thereof.

It is ordered that four months from this date be allowed for creditors to present their claims against said estate, and that such claims will be heard by said court on the 6th day of June, 1930 at ten o'clock in the forenoon, at the probate office in the City of Charlevoix.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.

EDWARD E. GILBERT,
Probate Judge
Acting in and for said County of Charlevoix.

MORTGAGE FORECLOSURE NOTICE.

Default having been made in the terms and conditions of a certain mortgage made and executed by Tillie Howey, of the Township of South Arm, County of Charlevoix and State of Michigan, to the State Bank of East Jordan, a Michigan corporation, having its principal office and place of business at the City of East Jordan, Charlevoix County, Michigan, which said mortgage bears date the 15th day of April, 1914, and was recorded on the 22nd day of April, 1914, in Liber forty-seven (47) mortgages on page five hundred twenty-seven (527) in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of thirteen hundred six and 42-100 (\$1306.42) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN, that on Saturday, the 1st day of March, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the Court House in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said State Bank of East Jordan will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and the attorney fee.

The premises described in said mortgage are as follows, to-wit: "The south half (S 1/2) of the southwest quarter (SW 1/4) of section twenty-seven (27), Township thirty-two (32) north, range seven (7) west, containing eighty (80) acres of land more or less."

Dated November 29th, 1929.
STATE BANK OF EAST JORDAN,
Mortgagee.

By Robert A. Campbell, Cashier.
E. N. CLINK,
Attorney for Mortgagee.
Business address, East Jordan, Mich.

Coolidge: You ought to see some of the entries in our beauty contests.

To Lighten Your Burden

Little more than a generation ago wise purchasing—even of the family's necessities—required a great deal of time and effort. Manufacture was limited. Exact articles for particular needs were hard to find. And often one product after another had to be tried before the right one was found.

Today—manufacture that seems limitless has filled our stores with excellent articles of every nature. There are many brands for every need. The discriminating buyer can choose from a great array of goods that are continually being spread before his eyes.

But to buy wisely one must read the advertisements. In the pages of this newspaper, progressive merchants and manufacturers are telling you—truthfully and concisely—about their products. They are anticipating your needs. They know that they must meet your exacting requirements.

Read the advertisements regularly and carefully. They are the daily measure of business progress. They are the means to discriminate buying. They will help you to get the greatest value for every dollar you spend.

THE ADVERTISEMENTS IN THIS NEWSPAPER ARE A MOST VALUABLE GUIDE TO WISE BUYING.

CAREFUL MOTHERS KEEN ABOUT IT.

"Coughs never last long in our family, for we use Foley's Honey and Tar," says Mrs. J. M. Hill, Homer, Ga. "Foley's Honey and Tar has never failed to take care of coughs and colds in our family, and we have used it over 20 years," says Mrs. Ornstein, Green Bay, Wis. Dependable always, no opiates, no chloroform, nothing that a careful mother hesitates to give her children. That's why mothers endorse Foley's Honey and Tar. Ask for it. For Sale by Hite's Drug Store. adv.

Plebeian

For information he says "dope." With dignity he's out of step; His negative is always "nope"; His confirmation is a "yep."

English Humor

Algernon (reading joke) — Fancy this. Percy: A chap thinks that a football coach has four wheels. Percy—How, how! And how many wheels has the bally thing?

Jackson—The annual meeting of the Michigan Federation of Women's Clubs will be held here October 21 to 24, it was announced recently.

Mt. Clemens—Albert Gifford, of 20 Florenz boulevard, near Mt. Clemens, died of injuries suffered when a tree he was helping to plant on a Grosse Pointe estate fell over on him. He was employed by a nursery concern.

Grand Rapids—A new traffic code, complying with the uniform regulations suggested by President Hoover when Secretary of Commerce, has been adopted by the city commission. Police Supt. A. A. Carroll, of this city, was a member of the commission which fashioned the code.

Lansing—Eighty miles of railroad fire line were completed and 41 miles of fire line were brushed, but not plowed, by the forest fire division of the conservation department in 1929. Most of this construction is paid for on a 50-50 percentage basis with the railroad.

So far, the new President of Mexico has only been fired at six times. His inaugural day was a close shave for Rubio.

Briefs of the Week

Mr. and Mrs. John Porter and daughter left last Saturday for a month's visit at Miami Beach, Fla.

Mrs. Jennie Handy returned home last Friday from an extended visit with her son, Morton Handy of Belaire.

"Let's Go" to the Annual Ball given by East Jordan Firemen at K. of P. Hall, Saturday, Feb'y 22nd. adv. 6-3

Dr. B. J. Beuker has leased the second floor of the Hite Drug Co. store building and the first of March plans to locate there with his professional offices.

The "Lone Star" state is shipping the finest Grape Fruit you ever squinted in your eye. They are sweeter and almost no seeds, at the Lumber Co. store. adv.

Lena, the three-year-old daughter of Mr. and Mrs. Wm. Spencer, who was badly burned last week, was taken to the Lockwood hospital at Petoskey last Monday for treatment.

Community Singing Practice will be held this Friday from 6:30 to 7:30 standard, being put ahead on account of the basketball game that night. To date there has been an enrollment of 56 members.

Deputy Collector of Internal Revenue Darling will be stationed at the Hotel Russell, East Jordan, Mich., on February 21-22, 1930, to assist taxpayers in the filing of current income tax returns for the year 1929.

Yes, we have some Bananas, and they're going fast, 3 lbs. for 25c at the Lumber Co. store. adv.

East Jordan Indoor Baseball League have cancelled their games for next Monday night on account of the motion picture show at the Temple Theatre that night, sponsored by the Manual Arts Dept of E. J. H. S.

Rev. A. T. Harris of Southern Michigan has accepted the pastorate of the Pilgrim Holiness Church at East Jordan, Ellsworth and Pnelps. Preaching, Sundays at 3:00 p. m., Prayer Meeting Fridays at 7:30 p. m.

In the Tuesday, Feb'y 4th, Detroit Times appeared a 5-column halftone of the Flint Chevrolet Parts and Service Girls Basketball Team who won the Flint League championship in 1929 and are out to win the 1930 series. Captain of the team is Miss Sylvia Tausch, daughter of Mr. and Mrs. Albert Tausch of East Jordan and 1926 graduate of E. J. H. S. The group picture also contains that of Beatrice Jones, wife of Roland Jones, a former East Jordan young man.

Robert Darbee of East Jordan is a member of the varsity track squad at Michigan State College, East Lansing. Darbee favors the middle distance events and is expected to be a strong cog in the team Coaches Young, Mason, and Casteel are building for the winter schedule. Duel meets have been arranged with Marquette University, Ohio Wesleyan, and the University of Chicago. Beside this formidable competition, the Green and White will participate in a tri-angular meet at Michigan, the Central Inter-collegiate at South Bend, Ind., and the Illinois Relay Carnival at Champaign, Ill.

Harold Lloyd has long been known as the "family comedian" because his humor and situations are so clean that the entire family can understand and laugh at them. His latest picture "Welcome Danger" in which he returns to the screen after an absence of over a year and a half is no exception. In "Welcome Danger" Harold is a young botanist whose chief aim in life is to perfect a new species of the wild cactus, and he pursues his hopes with a vim. Then presto, fate takes a hand in things and sends him from dear old Boston to San Francisco to clean up a tong war and raid the underground Chinatown. "Welcome Danger" is the feature picture at the Temple Theatre next Monday night, Feb'y 17th.

Special Communication of East Jordan Lodge No. 379, F. & A. M. this Saturday night, Feb'y 15th. Work in the M. M. degree.

Clawson—George Stickney, 17 years old, was found guilty of burning his wife, Clara, 16, with a cigarette and fined \$25 by John E. Brondige, justice of the peace. He paid rather than serve 30 days in jail. He said the difficulties between he and his wife were caused by his wife's reluctance to do housework. Both were pupils at the Clawson high school when they were married two years ago. They have one child.

Kalamazoo—Four boys of juvenile age, one of them only 3 years old, were held on charges they robbed a hardware store here. The 8-year-old boy confessed stealing \$30 from the cash register at the store, the officers reported. The child was arrested by the police after he spent most of the money to buy a toy pistol, aviator's goggles, a tennis racket and a pair of tennis shoes, and made the rounds of the movie houses.

Detroit—Greater Detroit, the fourth city of the United States, is greater than ever, with a population in the metropolitan area of 1,888,985 in 1929, as against the 1,790,859 population of a year ago, according to the 1929-30 city directory just put into distribution by the R. L. Polk company. The city of Detroit alone, excluding Highland Park, Hamtramck and Grosse Pointe, had a population of 1,641,718 in 1929, compared to 1,556,270 inhabitants in 1928.

Detroit—If you address mail to Medina, Mich., be sure to write the name of this state plainly, or the mail may go to one of six other Medinas in the United States. There are postoffices of a similar name in Ohio, Texas, New York, North Dakota, Tennessee, Washington and Wisconsin. And the mail might be sent to the postoffice of Media, Pa.; Medway, Ohio, or Medinah, Ill., if you fail to write the name "Medina" legibly. Medina, Mich., is in Lenawee county, and was settled in 1830.

Menominee—Scores of Wisconsin fishermen operating in Green Bay off Menominee have been given notice to remove their nets or obtain Michigan licenses which cost \$200 each. The order was issued by Charles J. Alters, of Cheboygan, supervisor of commercial fishing, on orders of the Michigan Conservation Commission. Alters said 90 per cent of the fishermen who have nets in the area gained by Michigan in the boundary dispute are from Wisconsin and are fishing without Michigan licenses.

TRANSGRESSIONS OF SPEECH

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

David may not have been as wise as Solomon, but he gave expression to a great many words of wisdom, and laid down principles of conduct which many of us would do well to follow. "I am purposed," he says in one of the psalms, "that my mouth shall not transgress." Indiscreet speech has been the cause of many a

man's downfall. Sometimes it is he who talks thoughtlessly or impulsively or indiscreetly; sometimes it is one of his friends or acquaintances. Whoever it is, the result is too often disastrous.

Someone one day, in the town in which I used to live, having been refused a loan at the local bank for good and sufficient reason, started the rumor that the bank was on the verge of failure, and advised his friends, if they had any money deposited with the concern, to get it out as quickly as possible. The rumor spread like a prairie fire, and within a short time people by the hundreds rushed to the bank to draw out their savings. No assurance that the bank could give of its stability had any effect upon the depositors. They were determined to have their money, and only through the sheerest luck or good fortune was the bank saved from complete failure. Someone had let his mouth transgress.

Clayton—is one of those confiding souls who can never keep important things to himself in spite of the fact that he is following a profession in which silence as to his client's situation is a more than golden virtue. He tells his wife everything and she is elated over knowing a great many things in which the public would have unusual interest, since they are really none of the public's business. Mrs. Clayton has little discretion; she talks fluently and continuously, and she derives the greatest satisfaction in telling what her husband knows and has said and is doing and many of the things she tells are very private and personal and indiscreet. She has never seriously followed David's practice and purpose of not letting his mouth transgress. If it relieves Clayton to talk over his professional affairs with his wife, well and good, but she should learn when to keep silent.

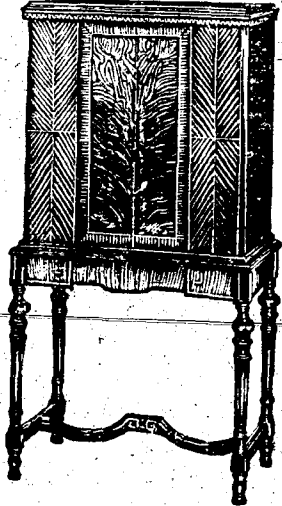

It is a great asset to have learned discretion in speech. My father was a rather silent man. He seemed to be content usually to let someone else talk. I spoke to him once about it and he said, "Son, I've never in my life been sorry for having said too little."

One of the most successful business men in the country—rich beyond belief he is—gave as one of the three characteristics which would lead a young man to success, the ability to keep his mouth shut. I've forgotten what the other two are.

A friend of mine, who handles a good deal of important private business, was telling me not long ago that he had a most valuable secretary whom he would find it almost impossible to replace.

"Why is she so good?" I asked. "She never talks," was his reply. (© 1930, Western Newspaper Union.)

THREE REASONS FOR A SAVINGS ACCOUNT

One of our savings depositors told us the other day that there were three reasons why he deposits regularly in a savings account. Here they are:

1. Because it provides me with capital for emergencies or opportunities.
2. Because it enables me to get compound interest to work for me.
3. Because it gives me the habit of thrift.

He also said he had three other reasons for his savings account—his wife and two children.

"THE BANK ON THE CORNER"

TEMPLE THEATRE

— PRESENTS —

SATURDAY and SUNDAY, Feb. 15-16—Special. Milton Sills in "His Captive Woman," with Dorothy Mackaill. Comedy—"The Collegions." Fox News. 10c-35c

School News and Chatter

THE ORIGIN OF OUR NEWS

This is not going to be a poem, it is merely a story of how we get our news. First, we rap on Miss Crofoot's door, and she'll smilingly answer our rap thus:

"What are the girls all doing? Oh, they're a busy bunch. The 8th grade girls are learning how to pack a tasty lunch, The 9th and 10th—to sew and mend, 11th, something new— They're taking up Nutrition Work. That's all I have for you."

Then we next visit Mr. Eggert's room, where we are just as welcome, and where he will usually pour out his "agricultural" secrets, but often he'll answer thus:

"I HAD some news to tell you I can't remember now, You come around next week,"

He smilingly will bow.

Then we rap on Miss Merritt's door, and if she isn't giving an award test, we readily gain entrance there: "My classes all are very bright, The marks are seldom low. Just say 'the bunch is doing fine' That's all they'll want to know."

Those are the only rooms that we visit regularly, because the rest of the news is circulated so freely around the Home Rooms, that it isn't necessary to ask any more information.

But for one to fully appreciate our news, he must first realize the sufferings and agony that we often times endure, for not always are we so welcome, if a teacher is particularly busy. Then, (if we dare use our imagination, and if the teachers really said what we expected they might) it would go something like this:

"You boresome Staff Reporters. I have no news in mind. Besides, you might not get it straight. Please close the door behind."

WHOOPEE!

Come on Juniors let's get some pep. Give 'em a play the best one yet. We've got the stuff, the grit and all. Come on Juniors you cannot stall. We'll make our play a big success. And as for money, we want take less Than double the profit on our fair, Which was a wov and we oughta care How 'bout it then, let's get all set, To give 'em something the best is yet. We can do it easy enough, Let's get together and show our stuff. Try outs for the Junior play were held this week and so far so good. The Juniors wish to give everyone a little tip off. Be sure to watch for further announcements of that keep play, to be given in the near future.

JUNIOR HIGH

The Eighth graders are planning to have their second semester party Saturday, Feb. 15th at the High School. It will be the invitation kind, and if it is like the others they have had, it promises to be a complete success.

A DUKES MIXTURE?

How would it be if we put the teachers in a basket and shook them around so that when they came out they'd be all mixed up with their classes. Mr. Duncanson, finding himself called on to give us a speed test in Typewriting, would first ask us to list all the mental conflicts and battles leading up to the creation of the typewriter, and points gained by each struggle.

Miss Crofoot, finding herself before the Agricultural Boys Club, would start teaching them how to backstitch and to make French seams.

Mr. Eggert would take over the Home Economics Department and WOULDNT the girls be horrified when he mentioned Insect History, and produced some spiders for their inspection.

Miss Perkins, finding herself in the Manual Training Room, would organize the young carpenters in teams (as they do in debate) and have the sides argue For and Against the use of the cross-cut saw.

The Basketball boys would laugh whole-heartedly to see Miss Stroebe enter the Gym with an armful of books and "definite principles" ready to coach their game.

In the Chorus room, if Mr. Cohen were to blow that shrill, noisy whistle he uses while coaching a game, everyone would certainly stop singing and jump out of their seats from fright.

Mr. Snellenberger would take charge of the Girl's Applied Arts Class. Wouldn't there be some frowning when he required each girl to figure out in square inches the amount of wall paper needed to re-decorate a house?

We know that Mr. Maynard could easily teach the girls in the Gym class how to play London Bridge and Leap Frog, but could Miss Merritt take charge of an Assembly Meeting with that little wee voice she uses when announcing things?

GRADES

The First grade have a new Flag, which they appreciate very much. They are decorating the walls with appropriate pictures—Valentine men, Valentine ladies, and hearts.

Everyone in the Second grade is anticipating a good time Valentine Day.

The Third grade are now starting on a great Motorcycle Race. The colors of the motorcycles are blue and red.

"The Blue and Red Racers are on the track.

Which of the two is going to fall back?"

Not very much news from the third grade, but they believe in "Quality" not "Quantity."

The Fourth grade are to have a party this Friday. Their Valentine box is pretty, indeed. It is made of white and silver paper, with little red hearts—very attractive, don't you think? They also have a great many Valentine tales in store for this Friday. We surely would like to hear some of them.

The Fifth grade are now studying Europe. Really, they seem to be keeping up well with the modern problem of Foreign affairs. They have made an interesting poster of Washington and his men.

The following Sixth grade pupils got 100% in Spelling the past month: Keith Bartlett, John Beyer, Ruth Bulow, Pauline Daugherty, Robert Richardson, Mary Louise Seiler, Bertha Spencer, Barbara Stroebe, Billy Stokes, Anna May Thorsen, Lois Rude.

The Parent-Teacher Association has fitted the Sixth grade class room opening from the grade room, with a rest-room. Cretonne curtains give them two rooms. They have two cots with furnishings, and a rocking chair. There is to be a first-aid kit and some other necessary articles. A number of the children from all grades (primary) have used the rest room. This is especially fine for rural school children who are taken sick at school.

The Sixth grade is divided into groups for the purpose of making a Geography booklet which is a community project. Each group is responsible for the maps, pictures and stories of one-page of the book.

In the big spelling contest, boys vs. girls, Merla Moore won the prize, a book on Nature Study, by spelling the school down.

Different committees appointed this grade are working on a variety of projects—a patriotic program for the month, patriotic decorations for the room, and a Valentine box.

Ruth Bulow and Phyllis Rogers are playing the marches for the grade building this week.

WEST SIDE

The second and third graders have been having a contest to see which one could have the least number of tardy marks. The second graders won, so they are being entertained by the third graders with a Valentine party. They drew names for the Valentine box.

Both the second and third graders enjoy their new readers. The second graders covered theirs to keep them clean. Last week they completed their spelling books which were in the shape of an Eskimo hut.

Fourth and Fifth Grade—The boys and girls have been working hard in Penmanship to win pins. Already, each child has received the Silver Star Button and has written for the Gold Star Button.

Each grade is having a contest in spelling. The children are divided in groups and are represented by a car. In the fourth grade, the Hudson and Ford are the same, while in the fifth grade the Franklin leads the race.

The children are anxiously waiting for Friday to come, when they can open their Valentine Box. They drew names for these boxes last Friday.

Detroit—Figures compiled by the bureau of labor statistics at Washington, D. C., show that the increase in the cost of living in Detroit between December, 1914, and December, 1929, was 77.5 per cent. However, there has been a reduction in living costs of 24.7 per cent since the peak was reached in June, 1920. For the year 1929 there was an increase of two-tenths of one per cent, while a reduction of the same amount was shown for the last six months of that year.

Muskegon—Mrs. Bertha Conroy, 76 years old, known to her friends here as "the patient mother," is dead. For 31 years Mrs. Conroy cared for an invalid son, Edward Furman, 51, who has not moved in 10 years. During the 31 years Mrs. Conroy cared for her son without aid. There has been little change in the son's condition in the last few years, although medical science says there is nothing that can be done for him. The son is now being cared for by others since the mother died.

Bay City—The Bay County Board of Supervisors and Sheriff C. J. Gleason here reached a compromise on care of Federal prisoners. The Government pays 75 cents a day for their keep, all of which has been going to the sheriff. Under the new arrangement, the supervisors will allow the sheriff 50 cents, while the other 25 cents will be credited to the county. The new arrangement is effective Feb. 1. The supervisors also agreed to install fire escapes on the jail, in compliance with the city building inspector's order.

Napoleon said there was no such word as "can't." I wonder if he ever tried striking a match on a cake of soap.

State News in Brief

Port Huron—Motor boat production has been started at the new Marysville plant of Gar Wood, Inc.

Ludington—Injuries suffered when she fell through a trap door at the home of her son here, cost the life, a few hours later, of Mrs. Catherine Organ, 85.

Grand Rapids—"They'll find me dead at my bench some day," Lewis Cook, suffering from heart disease, told his wife as he left for work. The next night when the shop closed, the foreman found him dead.

Detroit—The Federal radio commission at Washington, D. C., denied the application of Connell & Hunt, Inc., of this city, for a construction permit to build a station of 500 watts power to be operated on 1,500 kilocycles.

Royal Oak—An immigration inspector and his wife escaped by jumping from their automobile when it stalled in front of a Grand Trunk train here. The car was demolished. The inspector, George M. Tellefsen, was on his way to conduct a department investigation.

Grand Rapids—About 30 minutes after his auto had crashed into a street car, A. E. McCaulay, Kalamazoo lumber dealer, was arrested by police on the same street car into which he had driven. Shortly after the accident, he boarded the car on another run, and the motorman, recognizing him, caused his arrest.

Mt. Clemens—Doris Rose, for five years a member of the local police force, has been stripped of his badge and uniform. He is charged with having fired a bullet through the bath room door in his house in an effort to terrify his wife. Rose, it is said, quarreled with his wife after drinking.

Lansing—The State's debt to the counties under the old State reward highway law was wiped out when Aud. Gen. O. B. Fuller sent checks totaling \$179,000 to about a score of county treasurers. In recent years the State has been paying \$2,000,000 annually on the debt. The money henceforth will be available for State construction purposes.

Stanton—Alvin Aohn, 27, Stanton, and Orville Olsen, 19, and William Purchase, 19, of Lansing, were sentenced to from six months to one year in Ionia Prison here by Judge R. A. Hawley for stealing two chickens. The youths were captured by a sheriff's force in an abandoned house, where they were making a meal of the chickens.

East Lansing—Miss Bernice Crandall, 17-year-old Vicksburg high school student, is the first potato queen of Michigan. Miss Crandall won over Miss Amelia Paddock, of Manton, 197 to 105, in a vote taken at the banquet of the Michigan Crop Improvement Association. Miss Crandall was named queen of the Kalamazoo potato show and Miss Paddock ruled over the one at Cadillac.

Jackson—Opening of a school in the new Michigan State Prison recently was accompanied by the announcement that Warden Harry H. Jackson and Dr. R. W. McLain, chaplain, will approach the State Administrative Board with a request for an appropriation to establish a library of at least 5,000 volumes in the new prison. The old prison has a library. The school includes five class rooms and a reception hall.

Lansing—Another moose, the fourth within three months, has been found in the woods in the vicinity of Pickford, in Chippewa county. The moose, a bull with 30-inch antlers, was dead. According to conservation officers who inspected the animal, it died from disease and had not been killed. Permission was given Robert Hamel, Cedarville, by the department of conservation, to keep the antlers. Hamel found the animal.

Benton Harbor—William Parks, son of Mr. and Mrs. W. T. Parks, this city, received notice of his recommendation for appointment to the United States Naval Academy at Annapolis by J. C. Ketcham of Hastings, fourth Michigan district. Daniel Green, son of Mr. and Mrs. Thomas Green, is the alternate. Parks was valedictorian of his high school class here in 1929 and is this year a Purdue University student. Green was a high school honor student.

Lansing—Governor Fred W. Green made public a report by Col. John S. Borse, adjutant general, denying that there is carelessness in the storing of weapons of the National Guard. Col. Borse said guns belonging to the guard are kept in locked arms racks approved by the War Department. He denies that there is opportunity for gunmen or others to obtain them. The last serious loss of guard weapons he said, was in 1923, when several revolvers were stolen from the Detroit armor.

Pontiac—Returning to his home after a few days' absence, Elwyn Tennant, Elmendale subdivision, near Crooks road, found thieves had stripped the place of all its furnishings except the heaviest pieces of furniture. Among the articles stolen were beds and bedding, breakfast set, rug, refrigerator, stove, silver, clothing, window shades and books. Neighbors told Deputies K. L. Philpott and Albert Eckstrom that they had seen a car parked near the house late one night.

It is Wonderful To Enjoy Perfect Health Again

"After using BOKURA I say, 'It is wonderful to enjoy perfect health again.'" Mrs. Effie Mitchell, Owosso, Mich.

You owe it to yourself to try BOKURA even though everything ELSE has FAILED to help you. For stomach disorders such as constipation, gas on the stomach, belching, bloating, indigestion, and rheumatism, and neuritis pains, there is no equal. Hundreds of people are daily being relieved of their old ailments.

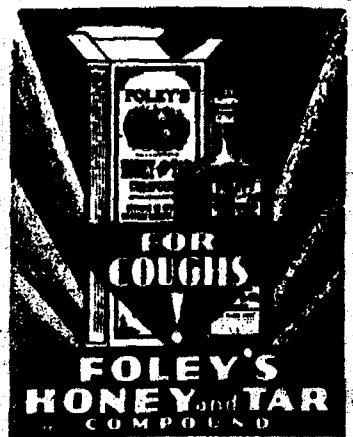

BOKURA is sold and guaranteed by: GIDLEY & MAC DRUG STORE, adv.

Lansing—Over-riding the objections of a faction of St. Ignace business men, the State Administrative Board approved the plans of Gov. Green and Grover C. Dillman, State highway commissioner, for the relocation of the St. Ignace ferry dock. A new dock will be constructed on the "old furnace" site, about a mile and a quarter south of the present dock. The one-way distance across the Straits of Mackinac thus will be cut about 1.7 miles and the running time about 15 minutes, it is estimated.

Publisher at Twenty

Miss Virginia Hulen, twenty years old, who has taken charge as publisher of the daily newspaper in Brighton, Colo., thus becoming the youngest woman in that position in Colorado. Having grown up in a newspaper office in Jamesport, Mo., where her father was editor of the local paper, it was not unnatural that she should take over the Colorado sheet when her father, Albert Hulen, was appointed postmaster of the town of Brighton.

MANY ROADS Which One Shall I Take?

When the long road dips sweetly down a hill and ends up in a blank and puzzled amazement at a jumble of cross-roads, unless you know your way, you'll push down hard on the brakes! And then look around to see where you're going.

Five roads jutting off in various directions of the compass. One road is yours. Four to lead you astray. But a brief glance—and you're off. On the right road. For a sign was over each road to direct your way!

Just as the directions point out the way in a maze of roads; so does modern advertising guide you in the right direction through the multitude of products offered in present-day markets.

Advertising points the way, straight and clear, to economical and advantageous marketing. It distinguishes the good product. It directs your way by indicating the article best adapted to your needs.

Read the advertisements in this paper as carefully as you would the signs above the cross-roads. They point out your buying road as surely and as safely.

Charlevoix County Herald
