EAST JORDAN, MICHIGAN, FRIDAY, MARCH 21, 1930.

NUMBER 12

E. J. Canning Co. Adding Beets

CONTRACTS NOW READY FOR STRING BEANS AND BEETS.

The East Jordan Canning Company is adding beets to their line of canned products this year and contracts for string beans and beets may be had commencing this week at either Bank or at the Lumber Company office and store. The complete line will include strawberries, sweet and sour cherries, red raspberries, green and wax beans, and beets.

The addition of the beet line will lengthen the operation of the Canning Factory considerably.

Another change which will mean more revenue to the grower is the new method of buying green and wax beans on grade, the highest grade bringing \$5.20 per 100 lbs. As usual cash will be paid at time of delivery.

Realizing the immense benefit to be had by the use of proper bean fertilizer in increasing both yield and grade the Canning Company will furnish the fertilizer to its growers to be paid for out of the crop.

It is also planned to put in effect this year a liberal bonus plan which will be well within the reach of every bean grower.

New machinery is arriving, and extensive alterations will begin when weather permits.

Goes Alone to Jungle

Miss Elizabeth Steen, twenty-nine year-old graduate student of anthropology at the University of California who, unattended except by an Indian guide and a negro maid, will penetrate the central Brazilian jungle to seek a tribe of Indians never seen by whites.

Birmingham—It is apparent that the students of the Baldwin High School, of Birmingham, have no intention of allowing the memory of Harry Brooks, the aviator who lost his life off the coast of Florida in February 1928, merely to rest on the record of the alumnus of the school for they have banded together and are dedicating a 40-acre pine tree plantation in one of Michigan's 12 State forests as a tribute to him.

Big Rapids—Mrs. Loretta Milner was serenaded here by the Big Rapids band while hundreds of residents watched on the occasion of her hundredth birthday anniversary. Mrs. Milner was unable to leave her bed to respond to the tribute but waved from her window to the crowd. Her physician relaxed the rule against visitors sufficiently to allow the mayor and commissioners to pay their respects.

Jackson—A man and his wife were killed instantly and another man was injured when a passenger train struck an automobile at the Ganson street crossing of the New York Central Railroad. The victims were Frank O'Brien, sergeant of guards at the new Michigan State Prison, and his wife, Fern, and Edward Martin, a guard at the prison, who was thrown clear of the wreckage and suffered a wrenched back. Mrs. O'Brien was driving the two men to the prison when the accident occurred.

Lansing—Ellagene Stevenson, 18 years old, a news girl, was killed almost instantly, when an automobile driven by her mother was run into and overturned by a grocery truck. The girl and her brother, who was slightly hurt, were standing on the running board delivering their newspaper route. The girl was the daughter of Mr. and Mrs. Fred W. Stevenson. Police investigators say the grocery truck was being driven 50 miles an hour when it crashed into the Stevenson automobile.

Lansing—Payment of \$1,984,178 to school districts under the Turner act for relief of the poorer districts has been made by O. B. Fuller, auditor general. The counties to which the measure is of benefit are practically all in the upper peninsula. Houghton County received the largest payment, \$146,997. Delta is second with \$102,599. Genesee receives \$69,040 and Oakland \$42,013 Wayne receives \$35,903, most of which goes to fractional districts that have been affected by loss of territory to the cities in the Detroit area.

MRS. JAMES MOSES DIED AT DETROIT LAST SATURDAY

Mrs. James Moses passed away at Detroit, Saturday, March 15th, 1930. Cecil Walden was born in East Jordan, Dec. 18th, 1895, her parents being William and Winnie Walden. On Nov. 6, 1915 she was united in marriage to James Moses of Central Lake.

Deceased is survived by the husband and an infant daughter; her mother, Mrs. Winnie Dean of Detroit; and two brothers—Alfred and Chester Walden of East Jordan.

The remains were brought to East Jordan Tuesday. Funeral services were held from the Methodist Church Wednesday afternoon, conducted by the pastor, Rev. James Leitch. Interment at Sunset Hill.

Union City—Three women seek the office of township treasurer here. The candidates are Mrs. Nettie Stafford, Mrs. Mable Cline and Mrs. Fern L. Martin. The issue will be decided at the coming Spring election.

Lansing—Bids have been received and opened for the four new buildings at the Michigan Home and Training School at Lapeer. The new buildings will be part of the \$22,000,000 construction program. They will cost approximately \$500,000.

Flint—A dozen lives were endangered and property valued at \$300,000 destroyed by a recent fire which was brought under control after it had wrecked the three-story Patterson Building at Saginaw and Third streets. The fire spread so rapidly that occupants of the building had little time to escape.

Grand Rapids—Twelve young men and women from Michigan colleges took part in the Michigan oratorical league's final contests at Calvin college last week. Besides Calvin, colleges represented were Hope, Michigan State, Battle Creek, Michigan State Normal, Albion, Alma, Olivet and Kalamazoo.

Algonac—Starting from his home on Russell's island for the mainland school at Algonac, William Smith, Jr., 15 years old, was capsized in mid-stream when his duck boat was struck by a 45-mile-an-hour gale. His plight was discovered by J. R. Raymond, ferryman, and Smith, who was clinging to an ice floe, was rescued.

Detroit—Victor Clevers, 18-year-old truck driver, must start anew to save pennies for the automobile he plans to buy. A short time ago he had \$3,000 of them—\$30 worth. But after going to Traffic Court to pay a speeding fine he had only 1,000 left. The fine was \$20 and Judge Sherman D. Callender ruled the pennies were acceptable. It took the court cashier 12 minutes to count the 2,000.

Detroit—Her clothes aflame, Lillian Simunak, 2 years old, crawled beneath a couch at her home and was so seriously burned before her mother found her that she died two hours later in Receiving Hospital. The mother, Anna, said she had stepped from the house and on returning a few minutes later, found the child in flames. She believed the child stood too near a stove in the kitchen.

Grand Rapids—A \$50,000 damage suit was dismissed in U. S. District Court when a juror and a witness were found talking together. The case was that of Walter J. Peterson Advertising Agency against the Remington Rand Business Service, Inc., and it had progressed a day and a half. Judge Fred M. Raymond declared a mistrial. Peterson had asked damages for not being allowed to continue with a contract.

Detroit—One thousand and twenty-three teachers and other employees of the Board of Education, including Mrs. Evangeline L. Lindbergh, face dismissal if the board adopts a resolution by Edward H. Williams, inspector. All aliens on the payroll and employees not residents of Detroit face ousting. Frank Cody, superintendent of schools, gave the board a list of 788 teachers and instructors who live outside the city limits.

"To whom shall I go to get advice on how to succeed in life?"
"Go to someone who has failed; the successful people are too busy to talk."

It takes a pretty good mixer to blend a little common sense with a love affair.

**State News
in Brief**

Detroit—A brick hurled by an unidentified person struck 13-year-old Fred Kendrick on the head while he was playing ball with four companions near his home, and caused serious injuries.

Detroit—Mrs. Betty Wimberly, of Denton, a juror in the March panel in Circuit Court, suffered a lacerated finger when the horse of a mounted policeman rescued having his nose patted by her and expressed that resentment by a quick and vicious nip.

Highland Park—Mrs. L. P. Henkel, attendant in the office of Dr. Charles Reinbold, was made the victim of a fake C. O. D. package racket when she paid a well dressed young man \$5.40 on a package which when unwrapped was found to contain merely a folded newspaper.

Lansing—Michigan will have 850 infantrymen under arms from July 18 to August 16 in the citizens' military training camp, according to an announcement by the war department at Washington. Fort Brady, Sault Sainte Marie, will train 250 and Camp Custer 600.

Kalamazoo—A fire in the basement of the block occupied by the Carlton Hotel drove 28 guests into the street in their night attire. Some of the guests suffered from smoke before escaping from the building. The fire, which started in rubbish, damaged only the Queensbury Gymnasium. The loss was small.

Grand Rapids—Six weeks after their Ottawa County farm home had been destroyed by fire, the family of Ralph Dlgman saw flames of undetermined origin destroy their barn, two horses, four cows, a hog and 2,200 feet of lumber that was to have gone into their new dwelling. Their most recent loss is about \$5,000.

Lansing—Complaints that loan associations are charging more than lawful interest rates because of the large number of demands for money due to unemployment are being investigated by Attorney General Wilber M. Brucker. The legal rate for such companies is 3 1/2 per cent per month, with \$300 fixed as a maximum loan.

Lansing—A supplemental brief amplifying Wayne County's arguments for a writ of mandamus to compel the State to pay it an additional \$680,000 of the gasoline tax collections since September, 1927, has been filed with the Supreme Court. The court has promised a quick decision in the case, which attacks the State's system of distributing the automobile weight tax and gasoline money.

Lowell—John Aussicker, farmer, living two miles west of Lowell, suffered facial burns and bruises recently when a boiler in the basement of his home exploded. The blast wrecked the home, pieces of the wreckage being carried 200 feet. Aussicker was standing beside the boiler, but the force of the blast was upward. Aussicker was alone in the house at the time.

Grand Rapids—Opposition to co-operative marketing organizations which invade the domain of manufacturing, especially those which use United States farm loan funds, was expressed in a meeting by the directors of the Grand Rapids Association of Commerce. The organization also called on Gov. Green to withdraw prisoners from State road construction work and use only free labor during the period of unemployment.

Ann Arbor—Several thousand specimens of insects and tropical wild life were added to the University of Michigan museum's collection, recently when Dr. Frederick M. Galge, director of the zoology museum, returned from a conference of Carnegie institute workers in Yucatan. The conference was held to make plans for further research work on the site of ancient Mayan civilization, in which work Michigan will play an important part.

Lansing—Orders have been placed for three fast, armored cars, for the use of state police patrols. They will have bullet-proof windshields, and each will be equipped with machine guns, bombs, flares and other armaments used in combating criminals. They will cost between \$5,000 and \$6,000 each, equipped. Oscar G. Olander, commissioner of public safety, plans to put two of the cars on the Detroit-Chicago liquor running route, the other probably in the Thumb.

Bad Axe—Suit for \$10,000 was filed here recently against Frank Wakefield, of Pinnebog, in behalf of Duane Stuart, 18 years old, of Elkton, for injuries suffered by the boy in an automobile crash in Detroit, December 16. Duane was employed by Wakefield to truck a load of cattle to Detroit when the truck struck another vehicle. The cattle were scattered over the campus of the University of Detroit and required the aid of several policemen to rope them.

St. Joseph—The farm home occupied by Henry Blace, six miles northwest of Buchanan has been destroyed by a bomb. Less than a month ago another mysterious bomb explosion damaged the Buchanan water works and fire station building, slightly injuring the superintendent of the plant, and doing some damage to the fire department apparatus. Blace, in reporting the destruction of his home, said he had gone to the barn when he heard a blast and looked around to see his home caving in.

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

**Low charges for distribution of the new Ford
save you at least \$50 to \$75 in addition to
the many savings in making the car**

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy: Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. Here are three reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of

cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) The Ford charges for financing are low.

(3) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.

Section 2. In case the City Clerk does not regularly keep his office open daily during certain hours, he shall not be required to be at his office for the purpose of receiving applications for registration any particular day, except as provided in the following section.

Section 3. If the removal is from one ward to another, the elector's name shall at the same time, be registered in the book of the ward to which such elector has removed. Any false entry by the clerk of the word "dead" or "removed" opposite an elector's name shall be deemed a misdemeanor, and shall not impair the qualifications of said elector, and his or her name shall be registered anew. TORMENTING KIDNEY AILMENTS RELIEVED.

Hard workers, whose full pay envelope is a necessity, whose good health is their only capital, must keep themselves constantly at their best. When Arthur O'Malley, Carson Hill, Calif., had to drag his aching weary body from a sleepless bed, he did a wise thing—took Foley's diuretic, and says: "Less than two bottles of Foley's diuretic relieved me entirely of my kidney and rheumatic troubles and put me on my feet and to work again. I want other workers to know about them." Guaranteed to give satisfaction. Ask for them. For Sale by Hite's Drug Store.

**MANY ROADS
Which One Shall I Take?**

When the long road dips sweetly down a hill and ends up in a blank and puzzled amazement at a jumble of cross-roads, unless you know your way, you'll push down hard on the brakes! And then look around to see where you're going.

Five roads jutting off in various directions of the compass. One road is yours. Four to lead you astray. But a brief glance—and you're off. On the right road. For a sign was over each road to direct your way!

Just as the directions point out the way in a maze of roads; so does modern advertising guide you in the right direction through the multitude of products offered in present-day markets.

Advertising points the way, straight and clear, to economical and advantageous marketing. It distinguishes the good product. It directs your way by indicating the article best adapted to your needs.

Read the advertisements in this paper as carefully as you would the signs above the cross-roads. They point out your buying road as surely and as safely.

OUR FULFILLED PROMISE
Remember, folks, when we told you that the ninth grade English class were all writing up early histories of East Jordan, and we promised that when they were done, we would publish the best one. Well, they've just been finished, and we've discovered some new Literary men in class. We haven't had time to decide just what one was best, for that requires a lot of consideration, but this week we are publishing one that we consider mighty good. It was written by Stephen Shepard. Here it is:

THE EARLIEST SCHOOL OF EAST JORDAN.
The first school of East Jordan is told about in a letter written to a member of the 1930 Freshman English class of East Jordan by a lady who had taught in it. Her letter read thus:

"I taught school in the Mayhew District in the year 1877. It was District No. 1. It was located just at the turn of Winter's St., on the right side of the road that goes north past the cemetery. You see by this that it was the first organized in the Township of South Arm.

Names of School Officers
Christopher Mayhew—Director.
Fletcher Empey—Moderator.
Jacob Bushnell—Treasurer.

It was a log school, 16 feet by 24 feet with a 7 foot ceiling. There was one window on either side, put in crosswise. The ceiling was too low for it being put in otherwise. We had a Round Oak stove set in the center of the room with a fender on the outside which served as a seat for the babies, some of whom were 4 years old. The seats and desks were one long board unplanned. These faced the wall. The only way to get into them was to jump over, or have the children all rise and stand while the one to be seated passed to his place.

We had no way of ventilating the room, but through a west door. The logs had settled so tight on the windows that they could not be moved. The children and I kept our heads cool by keeping the ceiling covered with boughs we took from the oak trees and sticking them under the over log.

There was no bridge across the lake in those days. The children from the South Arm side were brought over in a skiff or row boat every night and morning. The city of East Jordan at that time was on the South Arm side. The first store was run by Sol Isaman, and his clerk was James Isaman, still of South Arm. In those days everything was South Arm. The South Arm school was built before the East Jordan school.

Names of my Scholars
Lillian Isaman—now Mrs. C. A. Brabant.
Retta Isaman—now Mrs. Falls of California.

Blanche Isaman—now departed.
Mattie Holben—now Mrs. A. Miles.
Maggie Hilben—
Alice Keat—now Mrs. Doerr, departed.
Anna Keat—now Mrs. Dan Goodman, departed.

Four Winters, one of them Mrs. Squires of Texas.

Three Allens, two of this family departed.
Six Alexanders, all gone but one.
Two Hogen, all gone.
Two Mayhews, both gone.

Three Bushnells, unknown.
Hattie LaLonde, now Mrs. Bush, musical director in school of Detroit.

I had quite a time cleaning my school of cooties. Some of the mothers notified me to change their girl's seats, as this was impossible I decided to give them a vacation of two days. The Fourth of July fell on Thursday that year. I told them all what they must do. I also told them that I would come back with fine comb, scissors, and kerosene, and would do the job myself if it was not done. You can imagine my surprise to be met at the door early Monday by a lady with a big butcher knife and fire in her eyes. I called one of the girls

to the desk, stepped to the door, and closed it after me. I took one of the notes that was sent me about the affair, handed it to the lady to read, and then asked her to please be kind enough to tell me what to do in the case, as she was so much older than I. Say, she broke right down and the result was being invited to a swell supper and having the privilege of cutting the boys hair. This gave me great faith in heaping coals of fire on my enemy's head, which I have tried in my weak way to follow ever since.

I loved my school dearly and the last day all were there I had a very fine program. Judge Keat gave a very fine discourse which was a big surprise to me, also Mr. Mayhew and James Holben gave us 'William Tell.' We made a bower on the outside of the school for the children. You see the room was too small for the crowd. I did not have to correct one of my children if they were on the outside. Cecilia Nichols, now Mrs. Bridge of Charlevoix was the next teacher.

I had promised my mother not to cross the lake in a storm (as that year my only sister was drowned.) The result was some trips around and over the Jordan bridge which was quite a long walk after four o'clock. I would stop at James Holben's place, known now as the Tourist Park of East Jordan, have a lunch of roasted peas or popcorn, and go on my way rejoicing. When I got to the Elfride Holben place I would have to take off my shoes so I could find the path through the woods.

The garden spots or clearings were small. You see we had no mill then and the woods were all standing so beautiful. We saw lots of Indians in those days and many deer on the roads coming to the lake for a drink.

It is 53 years since I taught that school and while listening to the history of some of the late classes as it has been read, I have wondered if their life's history would be better than my class of 1877 with all their ups and downs.

I received the sum of twenty dollars a month and paid two dollars and a half per week for board. I received no bonus at the end of the term. The school term was only 3 months at a time. Three months in the summer and three months in the winter.

I hope you will be able to gain some information out of this poorly written account. Fifty-three years is quite a trip back with only your memory for reference. I have tried to keep in touch with most of my scholars and some are filling very responsible positions which makes me very happy.

So here's wishing you may reward your teachers as well for their efforts in trying to help you make a success of yours. Please excuse the many mistakes.

Yours for success in life,
Mrs. Elizabeth Metz.

ENGLISH

Last week the Freshman English class were asked to write essays, accounts, or poems (if they choose) on Stevenson's "Treasure Island." Of course, it requires a great deal of ambition to write a poem, especially when an essay is all that is required, and everyone was delighted with the one that Margaret Wilbur handed in. Margaret is only 14 years old, but she is a member of the High School News Staff. Here is her poem:

"MEMORY'S TREASURE"
We Freshmen have been cruising
With some of old Flint's crew,
The famous Long John Silyer,
(One-legged, and crafty, too.)
We're headed for Treasure Island,
And, after a pleasant trip,
We'll anchor near old Skeleton,
There, safely, we'll steer our ship.
And now we'll row for the island,
Then, finding the old stockade,
Which Flint, in a moment of fancy,
Had by his followers made.
We'll take possession of it,
And fight the buccaneers,
Sometimes, even with an inch
Of ending their careers.
We'll give marooned Benjamin Gunn
All that he wants of cheese,
If he'll tell us where the treasure is,
(Divide it, too, if you please.)
But first, we'll just get busy
And try to "do away"
With most of the blood-thirsty pirates
Before another day.
Then, when there's only Silver
Who's left alone with us
Ben Gunn'll let him sail away,
So we won't have any fuss.
We're ready packed for sailing,
The treasure's safe, you see,
We had a bit of fortune
I'm sure you will agree.
When we found marooned old Benny
He helped us out. He'd found
The bulk of Jim Flint's treasure,
And divided it all 'round.
We've left the isle behind us,
And now we're nearly home—
Safe from adventure's stormy winds
Safe from the sea's white foam.
Our paths have long since parted,
Each going his own way,
To make his own good fortunes,
But never will we stray.
Back to the bleak old island,
Made famous by the days
We spent there with the pirates:
Yet, Memory with us stays.

GRADES

First Grade—The first grade has now completed their "Clean Hand Campaign" which resulted in very clean hands. They hope to continue with this spirit of cleanliness.

Second Grade—There are not very many people riding on the train this week. Come on folks get your ticket.

Third Grade—They tell us they

will try and have something for next week which will be sure worth reading. Watch the column folks!

WEST SIDE NEWS

The second and third grades finished their Dutch booklets last week. Some of them are very attractive. They wrote and copied their stories and poems about the customs of the people and about the country. After each story and poem is a picture drawn with crayons to illustrate the story or poem. Everyone chose a color for his cover. Some chose yellow and some blue.

The Oldsmobile won by one point in the fourth grade spelling contest. Mary Lilak, Fred Kotovich, Faith Gidley and Billy McWaters rode in this car. The Franklin was one point behind. Buster Morgan, Arthur Engle, Russell Shay and Harold Moore rode in this car.

The fourth graders are glad they won the picture and we would like to get The Flower Girl of Holland. Mary Lilak and Eleanor Severance both have their Palmer Method buttons—they are in the fourth grade.

The fifth grade received books telling about California and Switzerland. We are glad that the fourth grade won the picture because we can enjoy it too.

We had a perfect attendance in our room Monday afternoon. All 48 boys and girls were here.

THE BUS RIDE

You know what happened Friday night.

I tell you, 'twas a wonderful sight
To see the young folks all packed in
Amidst much pushing, and more din,
In two or three busses, they were so tight.

For a fairly good seat you had to fight.
Do you know on what journey they were bent?

'Twas to the Petoskey Tournament,
To yell for Jordan's peppy five
Who kept the Grayling team alive,
While working hard for victory
Which in the end just couldn't be.
But though 'twas hard to take defeat
Our teams good work cannot be beat.

COMMERCIAL

A Commercial Club has been formed and the officers elected. Helen Severance is President, Selma Thorsen, Vice-President, and Bea Boswell Secretary-Treasurer. This is not only a social function, but a business one as well. The members of this club will be given commercial work to do from time to time.

Some Suggestions for "Fire-Prevention Week"

Business men who hold a meeting of their employees during "Fire-Prevention Week" and draw up rules to guide the organization to greater safety from fire, will benefit themselves as well as the community. This should be followed by the use of self-inspection blanks, which the National Board of Fire Underwriters will provide on request. At regular intervals a competent employee should inspect the premises and record all hazardous conditions disclosed by the self-inspection blank. These blanks should be filed and the conditions corrected. Business men can also be of assistance by hanging fire-prevention posters in their offices, putting stickers on packages and letters, and inserting an appropriate message in their advertising. Good use can be made of display windows. In one town several downtown stores contained exhibits showing the causes of the worst fires that have occurred in the last ten years.

Rust Ravages Costly

The fact that rust costs home owners of this country some \$75,000,000 a year, or about five times as much as their loss through fire, is causing more and more people to seek protection against this drain. Builders and owners, who overlook the ravages which rust will wreak upon corrodible metals eventually find themselves under a mortgage not anticipated. Wise builders and owners are on guard against what has been called the fourth mortgage that rust will create.

The present cost of a house will be proportionate to its size, its material, the cost of labor and its excellence of detail. The ultimate cost, by far the more important of the two, depends upon the wise choice of the materials used in what may be termed the vitals of the home; in the roof, sheet metal work, plumbing and heating plant.

REPTILE BARK AFTER COMING

"The result of using Foley's Honey and Tar Compound for a dreadful cough that bothered me both day and night was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. "It eased my cough at once, felt so good to my irritated throat and was very agreeable to take. No more coughing for me so long as I can get Foley's Honey and Tar Compound." Your druggist sells and recommends it. Ask for it. For Sale by Hite's Drug Store. adv.

Him—Men of my type are not running loose.
Her—Of course not, that is what the police department is for.

DIPPING INTO SCIENCE

Seaweed as a Barometer
At the seashore we may see a barometer at our disposal, but the seaweed can be of great help in forecasting weather. When a great deal of moisture is in the air, indicating probable rain, the seaweed feels damp. When the weather is dry, there is little likelihood of rain.

The sun gives 800,000 times more light than the moon.

DISTURBING NIGHT COUGHS QUICKLY STOPPED

Night coughing need not trouble you this winter, when each dose of Foley's Honey and Tar Compound carries the curative balsamic virtues of pure pine tar, fresh demulcent honey and other valuable cough-healing ingredients into direct contact with the inflamed irritated throat surfaces, covering them with a smooth and pleasant coating, at once putting an end to coughing. No opiates to constipate, no chloroform to dry up natural secretions. Dependable alkis for children and grown persons. Ask for Foley's Honey and Tar. For Sale by Hite's Drug Store. adv.

DON'T STUB YOUR TOE!

One dark night—so the story goes—a certain monarch placed a large boulder in the middle of the road. Thousands of his people, thereafter, severely stubbed their toes or troubled to walk around. At length, one lusty youth—wiser than the rest—seized the stone and heaved it from its path. And where it had rested, he found a bag of gold.

Are you stubbing your toe? Are you overlooking any bags of gold? How about the advertising in this paper? Do you read it—consistently? It is a bag of gold to many of our readers. In our columns you will find the advertisements of alert, progressive merchants and manufacturers who seek to tell you something they think you ought to know. This advertising is news about the very things that interest you most—articles that will save you money, lessen your work, or add materially to your comfort and well-being.

Thrifty men and women read advertising. To them it is a plain, every-day business proposition—a duty they owe themselves and their purses. It tells them where they can buy exactly what they want at a price they can afford to pay.

Advertising pays them. They make it pay.
IT WILL PAY YOU TOO. READ IT.
