VOLUME 34

EAST JORDAN, MICHIGAN, FRIDAY, MAY 16, 1930.

NUMBER 20

Dr. Kennedy Was Speaker

AT "LADIES NIGHT" OF BUSINESS MEN'S CLUB.

Tuesday was Ladies' Night at the Business Men's Club. In addition to the ladies, the school teachers of East Jordan were also invited as guests to the banquet that was served at the Russell House.

The happy crowd made its way into the dining room a little after six o'clock while the High School Orchestra was furnishing music that quickened the step and put everyone in fine spirit.

Rev. C. W. Sideboham asked the blessing and after partaking of the splendid dinner that was served, Rev. James Leitch led in the singing of some popular songs. W. H. Sloan, President of the Club, called upon Mrs. Howard Porter to respond for the ladies. Her talk was a rare and gracious blending of sterling common sense and fun and humor that received the applause that it well merited. Miss Merritt responded for the teachers, and she made several clever "hits" that captivated the crowd. Miss Chandler then delightfully rendered a piano solo.

Mr. Sloan then introduced Mr. Carl Spittler, Superintendent of the Petoskey Public Schools, who had been invited to be the speaker of the evening, but who had "brought along another man to do the work for him." Mr. Spittler made a few remarks in which he stated it was a pleasure to be present, and he promised to come back for a speech at some future time, which the members of the Club anticipate with keen pleasure. Mr. Spittler said that circumstances were such he was able to bring along a speaker who might not be available again and he then introduced Dr. Kennedy, President of the famous Bay View Assembly, who had been in Petoskey on Tuesday on business connected with the Assembly.

Dr. Kennedy has the happy faculty of securing both National and International talent for speaking, dramatic, and music for the Bay View Assembly. In addition to this he himself is a speaker of wide reputation, and is much sought after for Kiwanis and Rotarian program.

Dr. Kennedy put his hearers at ease by a few choice Scotch stories and then he gave a profound, practical and extremely interesting address in which he pictured the changing condition of the world, brought about by improved machinery and methods of transportation. Then he stressed the fact that these changes do not make society, but that we have to learn the art of living together in order to have a worth while society; he said this is not dependent upon the size of the community; it is the quality of the hearts of the people of the community that is the main thing. He then brought home the fact that it is love and the spirit of sacrifice that makes the world a fit place in which to live; and that makes life worth the living. It was an address that will be remembered for a long time.

The occasion was enjoyable and profitable. It was a red letter date in the annals of the Business Men's Club.

Colt Breaking and Multiple Hitch Demonstrations

Many farmers dread colt breaking more than anything else connected with farming. Often colts are not properly trained and cause much trouble thereafter. Yet it is rather a simple job if a regular colt breaking system is employed.

If you are interested in seeing a colt broken in a very few minutes and actually pulling a wagon, come to the following demonstrations and see H. F. Moxley, Specialist of Michigan State College, show you his system, at the farm of

1st Demonstration—Clarence Tooley, located about one mile south and west of Advance on Wednesday forenoon, May 21st, at 10:00 o'clock fast time.

2nd Demonstration—Orchard Bay Farm, located about two miles north and east of Charlevoix on Wednesday afternoon, May 21st, at 2:00 o'clock fast time.

Also, at the above places several multiple hitch demonstrations will be shown, using 4, 5 and 6 horses. On many farms that are not adapted to the use of tractors, horse power can be used to better advantage by these combinations. Come to your nearest meeting and see the unbroken colts subdued.

B. C. MELLENCAMP,
County Agr'l Agent.

When a woman plans a party the fun consists in making a list of those she won't invite.

CONSTRUCTION AND EXTENSION OF M-66 IS ASSURED

By previous appointment made by our State Senator, Calvin A. Campbell of Cheboygan, and H. C. Meyers of Boyne Falls, a delegation from East Jordan and Charlevoix met with Grover C. Dillman, State Highway Commissioner, at Lansing, first of the week, in regard to construction and extension on-trunk line M-66.

The members of the delegation were Senator Campbell, H. C. Meyers, S. E. Rogers, Wm. Byers, F. H. Wangeman, R. T. Davis, Charlevoix County Road Commissioner, Frank Bird and Wm. Wallace of Charlevoix, and W. A. Stroebel of East Jordan.

Mr. Dillman assured the delegates construction work on M-66 north of Manacelon, as soon as the surveys which were made last year could be figured and bids secured from Contractors. He thought this could be done some time in July.

In regard to the extension of trunk line M-66 from East Jordan to Charlevoix, Mr. Dillman agreed to give the markings, providing the Charlevoix County Road Commission would maintain the road until January 1931, at that time the State would take it over.

The delegation returned very much elated over their success with Mr. Dillman, and appreciate the interest and support of Senator Campbell and Mr. Meyers.

Track Events at E. J. H. S.

STUDENTS SHOWING MUCH ENTHUSIASM THIS SPRING.

A good many people have been wondering what the boys are doing this Spring. Well the question can be answered at this time. They are out performing in some of the track events. Track is the main activity in East Jordan High School in the Spring. There is as much enthusiasm among the Junior High boys as there is among the boys in High School. A few of the outstanding performers who may be mentioned now in the Junior High are as follows:

8th grade—Bobbie Sommerville.
Sprint events.
8th grade—Dale Clark, pole value, broad and high jump, and jumping events.
8th grade—Archie Griffin, Shot put, 8 lbs., Discus, High Jump.
7th grade—Kenneth Pickel, High Jump.

The High School also happens to be fortunate to have an exceptional Freshman class from the standpoint of track material. They are: Harold Bigelow, Delbert Dennis, Robert McDaniels, Gilbert Joyn, James Addis, Alba Brooks, Claud Lorraine and Albert Omland.

These are the best marks in each of the events in Track so far this year—1930:

120 yard Low Hurdle, Walter Ellis 15.5 seconds.
100 yard Dash, Francis Quinn, 10.6 seconds.
220 yard Dash, Francis Quinn, 24.3 seconds.
440 yard Run, Robert McDaniels, 59 seconds.
880 yard Run, Dan Reich, James Addis, 2 min., 20 sec.

1/2 Mile Relay, Quinn, McDaniels, LaLonde, Kling, 1 min., 44 sec.
Pole Vault, William Kitsman, 9 ft., 2 1/2 inches.
High Jump, Walter Ellis, Robert McDaniels, 5 ft., 1 inch.
Broad Jump, Francis Quinn, 18 ft., 6 inches.
Shot Put, Donald Stokes, 33 feet.
Discus, Martin Ruhling, 92 feet.
Javeline, William LaLonde, 118 ft.

Considering the amount of days that we have had warm weather to practice track, the boys are making a wonderful showing and by the time the last meet will be held in East Jordan on May 31 all of these weeks should be bettered.

Of the track squad, this year three good performers graduate and their loss will be keenly felt, but our friend Boyne City is also losing a few.

A dual meet with Gaylord has been arranged for Friday, May 23rd at 1:30 p. m., standard time. Gaylord has some good performers, especially in field events and before the day is over, the spectators might see an interesting track meet.

This week is the regional meet at Cadillac and the boys who showed up at the Northern Michigan track meet at Petoskey last Saturday will leave Friday afternoon for Cadillac. The Coach will take the following boys and will enter them in these events:

Francis Quinn (Capt.) 100 yard Dash, 220 yard Dash, Broad Jump and Relay.
Sam Kling, 100 yard Dash, 220 yd. Dash, Relay.
Robert McDaniels, 440 yard Run,

Flowers, Bulbs and Shrubs

TO BE DISCUSSED AT EXTENSION MEETINGS, MAY 19-20.

Care and management of the house plants, soils and fertilizers for flowering plants, care of lawns, annuals, perennials, insects and diseases, bulbs, and propagation are some of the subjects that will be discussed at a series of flower meetings to be conducted in the cities of Charlevoix, East Jordan and Boyne City on Monday and Tuesday, May 19 and 20.

These meetings will be of particular interest to the city ladies as well as rural folks who are interested in making their homes attractive by the use of flowers, bulbs, and shrubs, and in learning the proper sprays, cultural and soil conditions necessary for growth and development.

We are fortunate in having with us at this time Mr. Kenneth Post, Extension Specialist in Floriculture of the Michigan State College, who will lead the discussion and answer any questions or problems arising. It has only been recently that a Floriculture Specialist has been engaged by our State College, and Mr. Post comes to us very highly recommended, so it is hoped a large attendance will be present, for is there anyone who isn't interested in flowers?

The following are the meetings:
1. Charlevoix Court House on Monday afternoon, May 19th, at 2:30 o'clock, eastern standard time.
2. East Jordan Library on Tuesday forenoon, May 20th, at 10:00 o'clock eastern standard time.
3. Boyne City Library on Tuesday afternoon, May 20th, at 2:30 o'clock, eastern standard time.

A cordial invitation is extended to any group of women, who are studying flowers within their organization and to all contestants in any Home Garden Project or City Beautification Project that are being sponsored by different communities in the County.

B. C. MELLENCAMP,
County Agr'l Agent.

Relay.
William LaLonde, Javelin, Relay, Broad Jump.
William Kitsman, Pole Vault.
Walter Ellis, Hurdles, High Jump.
James Addis, One-half Mile Run.
Dan Reich, Mile Run.

White Pine Rust Campaign

GOVERNMENT MEN NOW IN NORTH FOR WORK.

The campaign to rid Michigan of the white pine blister rust spreading plants has again reached Petoskey with the arrival here today of F. E. Grimes of the Michigan department of Agriculture and W. F. Doyle, of the United States Department of Agriculture. The two are making a survey of the situation in Michigan and supervising the work of crews of trained men in uprooting of wild currants, wild gooseberries and black currants.

The campaign was carried on at Indian River last year, and much of the time this year has been spent in the upper peninsula, where the most extensive forest infection of white pine blister rust has been found. This large section stretches from Iron River on the south to Marquette on the north. Crews are now busy in that section.

Much effort will be put in Grand Traverse and Charlevoix Counties this summer, infection having been discovered there. Another field just reported is at Wolverine and workers will be placed there. Most of the trouble in Emmet county is on the plains east of Brutus and the new plantings of white pine in various parts of the county also are to be inspected.

The white pine blister is spread, not by the pine trees themselves from tree to tree method but rather by the wild currant and wild gooseberry. The rust will spread for fully a hundred miles from the trees to the bushes, but in finding its way back to other tree victims, does not leap such a wide gap. Thus if all the rust spreading wild gooseberries and wild currants are removed from an area from 900 to 1,000 feet around the pine-forests, and the cultivated black currants removed from an area a mile from the forest it will be fully protected.

The crews of men are concentrating on the wild gooseberry and wild currants with the 900 or 1,000 feet limit of the forests and on the cultivated black currant within the mile area. Once Michigan is thus cleared of the offending plants her white

Co. Club Champions Announced

COUNTY GRANGES AWARD SPECIAL HONORS TO WINNERS.

One of the largest events ever held in this county in connection with the Boys' and Girls' club program, was that of the County Achievement Day held in the Charlevoix gymnasium on Saturday, May 10th. This was the first time that all the local champions from each club showed their winning exhibits together, and it made an exhibit of splendid quality indicating the fine workmanship done by these boys and girls.

The program proved to be very interesting to the audience of approximately one hundred twenty-five club members, parents and friends. Mr. Walter Gospill, District Y. M. C. A. Field man of Petoskey, gave a splendid address of special interest to boys and girls. The Brecheisen boys of near Bay Shore entertained royally with their songs and music. Mrs. Ruth Schubert of Petoskey, formerly one of the State Boys' and Girls' Club Leaders, led the group in several songs as well as acting as judge of the clothing club exhibits. Another feature of the program was the style contest, in which each of the local style champions competed for the county championship. It was particularly impressive to see these girls walk out on the stage wearing the dress which they had made themselves, and in which was reflected an excellent choice of color and material. Mr. Arthur Schubert, County Agricultural Agent of Emmet County judged the Boys' Handicraft exhibit, and gave a few brief remarks.

The county champions were awarded to the following:
Clothing Clubs
First year champions, tied, Freda Greiner and Christina Withers, Charlevoix, members of the Marion Center Club.
Second year champion, Bessie Straw, Charlevoix, member of Marion Center Club.
Style Champion, Mary Perron, Charlevoix, member of Marion Center Club.
Handicraft Clubs
First year Junior Champion, Lester Stevens, Walloon Lake, member of Walloon Lake Club.
First year Senior Champions, tied, Jerome Kondzila, Walloon Lake, member of Walloon Lake Club. Nelson Kirby, Charlevoix, member of the Norwood Club.
Second year champion, Dale Kiser, East Jordan, member of Walker Club.
Third year champion, Gordon Boyer, East Jordan, member of Walker Club.

The Charlevoix County Granges were hosts to each of the County Champions at their Pomona Grange, held at Deer Lake, Saturday night, and in recognition of the fine work done by each of the County winners awarded special badges of unusual merit. The County Granges can be commended very highly for their interest and co-operation in assisting materially in the success and efficiency of the club program.

B. C. MELLENCAMP
County Agr'l Agent

pine will be fully protected from this disease.

The black rust attacks the needles of the trees, spreads down to the trunk, cuts off the supply of sap and eventually destroys the tree. From that tree it spreads back to the plants and from them to some other pines. Petoskey News.

CHARLEVOIX HAS ROAD FIGHT ON

A delegation of Charlevoix citizens Monday, at Lansing, protested to Grover C. Dillman, State Highway Commissioner, against the State's plans for re-routing US-31 through their city. Residents from the north section assailed a proposal to run the highway through a residential district while a group of merchants protested another part of the plan which calls for moving the trunk line so that it will not pass in front of their establishments.

They were informed that no definite decision has been made and that the work will not be started until the summer of 1931.

There has been talk about Charlevoix and Petoskey for some time that the State might endeavor to re-route the highway away from its present location. Just where the State had planned to cross the channel, or Round lake is not known. While some cities desire the main highways routed away from their business district, the tourist towns and cities of the north find such a plan is a serious mistake for them. They want the autoists to pass through their store

ATHLETIC FIELD DAY THURSDAY, MAY 22 AT EAST JORDAN

A great deal of interest has been stirred up among the boys of the fifth, sixth, seventh and eighth grades for the athletic test that they all will take on the afternoon of May 22nd. They will all attempt to make the athletic honor roll and receive badges for their success if they make fifty or more points in each of their events.

The boys will be divided into five classes according to weight.

Class No. 1—80-80 pound class.
Class No. 2—81-95 pound class.
Class No. 3—96-110 pound class.
Class No. 4—111-125 pound class.
Class No. 5—All over 125 pounds.
An affair of this nature is more of an experiment having never been tried in East Jordan before but with the co-operation of the boys and the assistance of the people in charge, there is no doubt but that the day will be a success.

An invitation is being extended through the public press to all the people of the neighborhood to come to the athletic field on Thursday, May 22nd, in the afternoon and see the boys in their try outs for the test. There will be something going on all the time so that people will not become tired waiting for something to happen.

The advantages of this test to the boys: Every boy is expected to train for and participate in all the events in his weight class, too early specialization in athletics is counteracted and the weak points developed. The scholars soon learn that they can most easily raise their individual standing and at the same time the standing of their weight class and their school by giving special attention to the events in which they are weakest, rather than by concentrating on those events in which they already excel.

Each boy that takes part is tested and his results recorded. The ability of each boy is tested in each event and the result recorded regardless of his relative standing. This awakens an enthusiasm on the part of the average boy, who may have never been recognized before. A statement giving his athletic record is presented to each boy who has participated.

Any boy who is eligible to compete and does not do so, not only fails to make points for his school, but actually lowers his weight class average and the school standing.

(a) The boy who receives the highest individual average in his weight class in the school will have standing No. (1) and be the weight class all-round champion of the school.

(b) The boy who receives the highest individual average in his school regardless of weight class will have standing No. (1) in the school and be the all-round champion of the school.

(c) The boy in the school making the highest individual score in any event will be the school champion for that particular event.

The awards given are a recognition of merit and not because of their value, the boys should value them for what they represent and not for their intrinsic worth.

1930 is the beginning of athletic tests for the grade boys. How many boys will make the honor roll, and have the honor of being the first boys to have their names engraved in a permanent roll that will be framed and to hang in the lobby of the school where all may see the names of the boys who were successful in passing the athletic test?

POMONA GRANGE MET WITH DEER LAKE LAST SATURDAY

Regular meeting of Pomona Grange met with Deer Lake Grange on Saturday, May 10, 1930. Meeting was called to order by the Master Archie Murphy.

Committees were appointed.
Community Singing.
Roll Call.
The Influence of a Good Home.
Discussion—Getting Crops in on time.
Reading—The Origin of Mother's Day, by Ruby Hardy.
Discussion—Before hand cultivation.
Discussion—Road Beautification.
Recess until evening.

Evening Session
Community Singing.
The Boys and Girls Clubs of Charlevoix County, supervised by our County Agent B. C. Melencamp were present and exhibited their work, which was a credit to them. Pomona Grange sponsoring this club presented the winners with medals, four going to the girls and five to the boys. They entertained us with several numbers, which we enjoyed and thank them for.
Recitation—Evelyn Hardy.

Worst Fire In Years

FIREST FLAMES LICK THOUSANDS OF ACRES OF CUT-OVER LAND.

(From Traverse City Record-Eagle, Monday, May 12.)

Rain that began after one o'clock this morning halted forest fires in Kalkaska and Antrim counties that swept Sunday over hundreds of acres of game cover in what was described by Conservation officials as the worst scourge in several years.

The fires sprang up in country that was tinder dry and where a protracted spring drought had retarded the green growth and saved the dead leaves and grass brown and crisp for the first spark. The rain did not finish the fires but confined them so that Warden's crews today fought with the odds in their favor. The tower at Pikerel lake in Kalkaska County reported a .5 inch rainfall this morning. Rain was general over Northern Michigan during the night, including apparently all of the areas that went without rain when Traverse City received its measure last week. Manistee county had showers yesterday afternoon and night and there was a sprinkle in Wexford Co.

Sunday's worst fire and one that might have gone on uncontrolled today burned possibly 2,500 acres in Chestonia township in Antrim county, starting about two miles west of Alba and licking rapidly across a tremendous area of fresh hardwood slash toward the point where the Jordan and the Green rivers converge. The fire was going when the towerman climbed aloft at six o'clock yesterday morning, started, District Warden Ed Duell of Boyne City believes, by careless mushroom pickers. Mr. Duell's men fought heroically thru the day, backing successfully at one place yesterday afternoon and again last night. A southeast gale was throwing fire more than a quarter of a mile much of the time. In several places the fire jumped the Jordan river. The loss in game cover was tremendous. There is no farming territory, however, in the area.

Harold Titus, Conservation Comm'r and Mark Crow, Warden of the Traverse City district, drove to the scene to be of what help they could, returning after midnight to Traverse City.

Mr. Titus, after studding reports this morning from this and other fires, described yesterday's situation as the worst in Northern Michigan in at least four years. At Lansing Conservation Director George Hogarth is reported as conceding that fires of the past few days have been the most serious in years.

Another fire that probable would have romped on today except for the rain was southeast of Kalkaska near the old station of Angling, a narrow fire along the north branch of the Manistee that spread out to burn more than 1,000 acres of cut over land and splendid game cover during the day. District Warden, Charles Ricking of the Kalkaska district had large crews on this fire but it still was not under control until the rain struck. His men, however, stopped an upland fire east of the Hartwick pine before the rain and after more than 1,000 acres had been blackened. The State forest was not in danger at any time. A fire near the Island Lake state forest in Kalkaska county burned several hundred acres. Roscommon county had four or five sizeable fires.

The awards given are a recognition of merit and not because of their value, the boys should value them for what they represent and not for their intrinsic worth.

1930 is the beginning of athletic tests for the grade boys. How many boys will make the honor roll, and have the honor of being the first boys to have their names engraved in a permanent roll that will be framed and to hang in the lobby of the school where all may see the names of the boys who were successful in passing the athletic test?

CONTEST WILL SEEK BEST BEAN GROWERS

East Lansing, May 12.—Search for the best bean growers in Michigan will be made this year by the farm crops department of Michigan State College through a contest sponsored jointly by the college, the Michigan Crop Improvement Association, and the Michigan Bean Jobbers Association.

Awards will be made to the 20 best growers who receive the greatest margin of profit per acre from their crop. Production costs, yield, and quality of product will be considered in selecting the winners. A special award will be made to the individual grower having the best crop record for the season, based upon total acreage, crop rotation, cultural methods, and quality and yield.

A uniform price for beans, and uniform charges for man, horse, and tractor labor hours will be used in determining the value of the crop, the cost of production, and net returns.

Growers who expect to enter the contest should keep accurate records of labor, methods, and materials on blanks which are furnished by the college. All contestants must be enrolled by July 1.

Entry blanks may be obtained from county agricultural agents, local elevators, or directly from the

FOR SALE—BABY CHICKS every week until July. Barred Rocks, R. I. Reds, Leghorns. Custom Hatching \$3.00 per 100 for chicken eggs; \$7.00 per 100 for turkey eggs.—CHERRYVALE HATCHERY, East Jordan, phone 186-F2. 12-1f

POMONA GRANGE MET WITH DEER LAKE LAST SATURDAY

(Continued from Preceding Page)

Recitation—"When Granny Brings the Water Up," by Mrs. Charles Shepard.

Recitation—"When Father Shakes the Stove," by Christobel Sutton. Monologue by Dora Barber. Reading by Charles Shepard. Vocal Duet—"Darling Mother Mine," by Martha and Louise Reidel. A stunt by some of the South Arm Grangers.

Recitation by Hilbert Hardy. Pianoforte Selections by Mrs. Martha Timmer.

Monologue—"A Turning of the Babies in the Bed," by Mrs. Arthur Shepard.

Pianoforte Selection by Arlene Liskum.

Pomona Grange, a pennant for Mother's Day, and the fortunate mother to receive it was Mrs. Carl Stevens of Walloon Lake.

Recitation by Valora June Hardy. Community Singing.

Dialogue—"Wanted, a Wife," by some of the Deer Lake Grangers. Community Singing.

There were ten Granges represented with an attendance of 120.

The fifth degree team initiated 4 new candidates.

Next meeting will be held at Barnard Grange on Saturday, May 31, 1930 at 2:00 o'clock fast time. Mr. Stanley Powell expects to be with us. Alice Maude Smatts, Sec'y

WILSON TOWNSHIP

(Edited by Mrs. C. M. Nowland)

Mike Slack moved off of Mrs. Otto Brook's farm onto Charles Bristol's last week.

Mrs. Arvilla Coykendall of Boyne City moved on her farm on the Pleasant Valley road.

Sommerville started work on the County road leading from the Knop schoolhouse to the Pleasant Valley road last Monday.

Miss Mary and Dorothy Behling and Miss Ruby Hardy spent Friday in Traverse City. It was Friday skip day.

Mr. and Mrs. Darius Shaw and daughter drove up from Lansing last Friday. They will be at home at Rock Elm this week.

Miss Carrie Korthase returned home Saturday, after working in Grand Rapids since last fall, driving a new Ford Sedan.

Fred Burdt returned home recently from Muskegon, where he has been employed for four months.

M. B. Wilber and son, Guy, of Wildwood Harbor spent Wednesday with their daughter and sister, Mrs. Milo Clute and family.

Mrs. Leonard Dow spent last week at the home of Rev. and Mrs. Linnell of Petoskey.

Mr. and Mrs. Conn Nowland and her sister, Mrs. Albert Stoly of Harbor Springs made a short visit Tuesday evening at the home of Mr. and Mrs. S. Nowland.

Miss Harriet Behling of Grand Rapids is visiting her parents, Mr. and Mrs. Frank Behling Sr., and other relatives this week.

Little Miss Cleo Lumley spent Friday night and Saturday with Miss Norma Moore, Deer Lake school teacher, when she was at her home in Charlevoix.

Charlevoix County Pomona Grange met Saturday May 10th with Deer Lake Grange. 120 were present during the open program after supper. Three candidates were initiated in the fifth degree. Next Pomona meets with Barnard.

Mr. and Mrs. Bert Mangios of Boyne City visited Mr. and Mrs. Earl Bricker, Sunday.

Mr. and Mrs. Ed. Nowland visited their son, Mr. and Mrs. Charles Nowland, Sunday.

Mr. and Mrs. Frank Davis and family, Mr. and Mrs. Frank Brown of Boyne City were Sunday visitors of Mr. and Mrs. John Martin.

Mr. and Mrs. Roy Nowland and baby were Sunday dinner guests of his parents, Mr. and Mrs. A. R. Nowland.

George Bergman of Charlevoix spent the week end with his aunt, Mrs. John Martin and family.

Two cannot live cheaper than one unless the man wears his suits an awfully long time.

RESTFUL EASE AFTER COUGHING.

"The result of using Foley's Honey and Tar Compound for a dreadful cough that bothered me both day time and at nights was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. "It eased my cough at once, felt so good to my irritated throat and was very agreeable to take. No more coughing for me so long as I can get Foley's Honey and Tar Compound." Your druggist sells and recommends it. Ask for it. For Sale by Hite's Drug Store. adv.

PENINSULA

(Edited by Mrs. E. Hayden)

D. D. Tibbitts of Cherry Hill reports as does other cherry growers, he has examined hundreds of cherry blossoms and has not found a poor one yet.

Oat and barley sowing is about completed.

Spraying is right on now. Early cherries have already been sprayed.

This so far has been one of the most beautiful Springs in the memory of the oldest inhabitants.

Postmaster W. A. Stroebel of East Jordan went around Route 2 with the Carrier, Tuesday.

Mr. and Mrs. Lee Chambers and family of Detroit now occupy the Ernest Loomis house in Star Dist.

Mr. and Mrs. Perry Looze of Three Bells Dist., are the proud parents of a 7 lb. girl, who arrived May 7th and will answer to the name of Estalla Mae.

Mrs. Anna Gaunt who has spent several weeks with Mrs. Walters at Shore Acres, returned to her home in Chicago, last week Monday.

Everyone was grieved to hear of the death of Mrs. Bob Wilson at Boyne City at 4 o'clock Wednesday morning. She had been a sufferer from lung trouble for two years.

Mr. and Mrs. Elton Jarman and Mrs. Harriet Conyer and son, John Elton, of Traverse City were called here Wednesday by the death of Mr. Jarman's sister, Mrs. Bob Willson. They returned to their home Friday evening.

Nearly all the Peninsula population attended the funeral of Mrs. Bob Willson which was held at the Church of God in Boyne City.

Miss Anna Willson was called home from Muskegon Wednesday by the death of her sister-in-law, Mrs. Bob Willson.

Mrs. Nellie Evens and son, J. F., and Mr. Henry Strong of Flint, and Mr. and Mrs. Wm. Bogart and son, Clare of Boyne City were guests over the week end of Mr. and Mrs. Joe Bennett at Honey Slope Farm. They returned to their respective homes Sunday evening.

Mr. and Mrs. Joe Gaunt and sons Frank and Walter of Nowland's Lake were dinner guests of the David Gaunt family in Three Bells Dist.

G. C. Ferris who is employed at the Ford plant in Detroit, visited his farm from Friday evening to Sunday evening.

Quite a crowd of young people spent Sunday afternoon at the F. D. Russell home, Ridgeway.

Mrs. Elmer Faust and family, Mrs. Wilfred Arnott and little daughter, and Mrs. Ralph Gaunt and daughter of Three Bells Dist., called on Mrs. F. K. Hayden at Orchard Hill Sunday afternoon.

Mrs. T. J. Hitchcock and Arlene and Lloyd Hayden of East Jordan spent Sunday afternoon with Mrs. F. K. Hayden at Orchard Hill. Max Babcock of Benzonia, a cousin, were with them.

Mrs. Fred Wurn who was so ill through the winter, is again very poorly.

Mr. and Mrs. Elwood Cyr and son spent the week end with the Fred Wurn family.

The fruit trees are in full bloom and promise a full crop.

Daniel Reich of Lone Ash farm and Robert Daniels of the Peninsula attended the Field Meet at Petoskey, Saturday and took part in the contests.

Miss Ellen Reich of Lone Ash farm stayed over to East Jordan Thursday night and helped sell candy at the High School Operetta.

Wells Wildy and Oscar Hausler of Boyne City were at the Wildy farm, Sunday.

L. E. Phillips of Boyne City was at his farm most of last week, but spent Saturday at Petoskey visiting at the home of his son-in-law and daughter, Mr. and Mrs. Don McKinley, also called on the little new grandson, William D., who arrived at the Lockwood hospital, May 2nd. Mrs. McKinley and little son are doing fine. Mrs. Phillips who has been keeping house for her son-in-law since the new arrival, returned with Mr. Phillips.

An energetic man is one who gets up in time to shave in the morning—or cook the breakfast.

Member of Davis Cup Team

John Van Ryn who has been named as a member of the 1930 Davis Cup team.

John Van Ryn who has been named as a member of the 1930 Davis Cup team.

Pontiac—Tim J. O'Connor, 45 years old, proved that he, like the man that bit the dog, knows what makes news. Instead of breaking an arm, like countless thousands have done while cranking automobiles, he broke an ankle bone as he twisted the motor preparatory to starting to work.

Bad Axe—Wallace E. Allen, mayor of Bad Axe, suffered a fracture of his right hip, two broken ribs and some bad cuts when the auto in which he was riding alone struck an abutment to a bridge on state trunk line M-19, south of Argyle. The mayor stated he fell asleep while driving.

Jackson—Floyd McCampbell, 28 years old, an employe of the Frost Gear and Forge company, was killed at the East avenue crossing of the New York Central railroad here. He stepped into the path of a passenger train after another train bound in an opposite direction had passed.

Home is a place where you'll find comfort if you can get to the easy chair first.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

In the Matter of the Estate of Minnie B. Keith, Deceased.

At a session of said Court, held at the Probate Office in the city of Charlevoix, in said County, on the 14th day of May 1930.

Present: Ervan A. Ruegsegger, Probate Judge.

The above estate having been admitted to probate and Frank F. Bird having been appointed Administrator with Will Annexed.

It is Ordered, That four months from this date be allowed for creditors to present their claims against said estate for examination and adjustment, and that all creditors of said deceased, are required to present their claims to said Court, at the Probate Office in the City of Charlevoix, on or before the 17th day of September, 1930, at ten o'clock in the forenoon, at which time claims will be heard.

It is Further Ordered, That public notice thereof be given by publication of this order for three successive weeks previous to said day of hearing in the Charlevoix County Herald, a newspaper printed and circulated in said county.

ERVAN A. RUEGSEGER, Judge of Probate.

Getting Used to It

WE'VE BEEN THROUGH SEVERAL SQUALLS BEFORE OVER ON THE OTHER SIDE

There is a lot of parking space on the straight and narrow path.

Love is an intangible something that people write movies about.

People who make resolutions might do well to take a hint from the motorist and carry a spare.

A lot of women wouldn't be living on alimony if all rich men were as easy to love as their money.

TORCH LAKE INN

On US-31 Will Open for the Season

THE REID-SHERMAN PLUMBING CO., IS AGAIN OPEN FOR BUSINESS AFTER FINANCIAL ADJUSTMENT, AND THE MANAGEMENT SOLICITS THE PATRONAGE OF BOTH OLD AND NEW CUSTOMERS.

LeRoy Sherman, Mgr.

Attention -- Farmers and Horse Buyers.

Horses

Private Sale or Trade

AT CROWELL'S BARN, EAST JORDAN

HORSES WILL ARRIVE WEDNESDAY, MAY 14. WE WILL BE HERE ONE WEEK. SELLING PRIVATE OR TRADE. NO AUCTION.

20 HEAD OF EXTRA GOOD IOWA HORSES AND MARES.

Weight 1200 to 1800 lbs. A number of matched teams. These horses are all gentle and broke to work. This is an extra good load of horses, bought right out of the harness and ready for work. If you are in need of a horse of any kind be sure and come in and look them over.

TERMS: Seven months time with seven per cent interest.

George Thompson, Prop'r

R. J. GARDNER, Salesman.

CAREFULLY AVOID CARBON MONOXIDE

Autoist Should Take Every Precaution in Winter.

Chicago.—Motorists should take the utmost precautions to protect themselves from the danger of carbon monoxide during the winter months and the simplest is to never remain in a closed garage with the car running, according to a statement issued by the Chicago Motor club.

Assumes National Proportions.
It was said that the danger from carbon monoxide has assumed national proportions and an automobile running in an ordinary small garage with doors and windows closed will produce enough of the gas in a few minutes to cause death.

"The only safeguard is never to run the engine unless the garage door is open or at least two windows," the motor club asserted.

While there are no definite figures available on the annual toll of deaths from carbon monoxide, the census bureau says there were 2,378 deaths in 1929, while the number of automobiles has since nearly doubled.

Get into Open Air.
The club pointed out that a car owner working in a garage with the engine running should go at once into the open upon feeling the slightest headache.

Effective treatment of acute carbon monoxide poisoning was outlined as follows:

1. The victim should be removed to fresh air as soon as possible.
2. If breathing has stopped, or is weak and intermittent, or present in but occasional gasps, artificial respiration by the Schaefer method should be given persistently until normal breathing is resumed, or until after the heart has stopped.
3. Pure oxygen, or a mixture of 5 per cent of carbon dioxide in oxygen, should be administered for 20 minutes or more, beginning as soon as possible.

Quick Acceleration Is Due to Reserve Power

The quick acceleration of an automobile is due in a large degree to the amount of power reserve of the engine. Especially is this noticeable in the higher driving speeds.

As an illustration of this, one horse may be able to move a load at a slow pace, whereas the same load can be moved much faster with the addition of a second horse.

In designing certain cars factory engineers give them an unusual margin of reserve power. The 6-50 is equipped with a 72 h. p. motor; the 8-90 with a hundred h. p. straight eight motor, and the 120 with a 125 h. p. straight eight motor.

Reserve power likewise plays an important part in the life of a motor. The engine which is compelled to deliver its full power to attain a certain speed is under a strain to maintain that speed. Gas and oil consumption are increased and the various parts begin to weaken.

Finds Throw Light on Tribe of Philistines

Realty and even individuality has been given to the Philistines, who for so many generations have been no more than a name, by some of Sir Flinders Petrie's observations on discoveries in Palestine.

It was while searching in the trenches made by Lord Allenby's troops in Palestine that the most curious revelations were made about missing epochs in Biblical history.

First the diggers found knives, hand grenades, spoons, and "spurious Egyptian antiquities" bought and brought there by English and Australian soldiers. Next the Roman occupation of Vespasian was unearthed, then a city of the Greeks, and then pilgrim bottles carried when Solomon was king.

Last came the periods of the Egyptian conquests and weapons of the almost legendary Philistines, together with objects, scarabs and jewels, which trace the journey of the Israelites to the Promised land.

Strangest of all, is that the soldiers who fought in the Armageddon of the Twentieth century, should by their work have enabled the archeologist to trace records of the people whose prophets spoke of the Armageddon to come.

THE MOTOR QUIZ

- How Many Can You Answer?
- Q. How much dirt, sludge and other foreign matter is collected by the oil filter in 10,000 miles of driving?
Ans. Over two pounds.
- Q. What attention must be given the oil filter?
Ans. At 10,000 miles the filter unit should be renewed.
- Q. When was the first automobile introduced in the Fiji Islands and how was it received?
Ans. In 1905. The natives regarded it with superstition, claiming that the devils formed the means of locomotion.
- Q. What is "shellkol" and where is it produced?
Ans. "Shellkol" is a fuel alcohol manufactured in Australia and is produced from molasses.

TO WED EX-PRESIDENT

Senorita Leonor Llorente, of Mexico City, whose engagement to Gen. Plutarco Elias Calles, former president of Mexico, has been announced.

Small Towns to Become Centers of Industry

Not long ago the nation was stirred by the drift of population away from farms and rural areas into the great cities. Young men, attracted by the high wages paid by industry and what appeared to be the superior social and economic advantages of urban life, deserted the soil for the city.

In the past quarter-century rural America has made tremendous progress. Better schools, good roads, the automobile, telephone and radio have created a rural civilization greater than any in history.

Industrialists, attracted by such factors as lack of labor difficulties, low taxes and uncongested, pleasant living and working conditions, were barred from entry into the small town only because of lack of power.

Now, according to authorities, the smaller towns are on the road to industrial leadership of America and the countryside is staged for the next scene of our industrial progress. The drift of population has turned. At present the only pronounced gain in industrial wage earners is taking place in the country.

It is safe to say that many towns which are almost unknown today will be the great industrial centers of the future. The industrial revolution of the Eighteenth century, apparently doomed rural progress—now the electric revolution of the Twentieth is reversing the process. —Longview (Wash.) Daily News.

Extensive Survey of North Carolina Roads

Reports from various fronts in the battle to reclaim and preserve our roadside beauties are constantly being received by the American Nature association.

One of the most interesting developments is the inauguration of a demonstration survey by the National Council for the Protection of Roadside. This is the new name of the organization previously known as the National Committee for the Restriction of Outdoor Advertising, through which more than one hundred organizations joined to work in this common effort.

North Carolina has been selected as the state for the survey, particularly on account of the progressive attitude of the highway department of the state, which has been doing effective work in roadside planting and beautification. The survey will be thorough and cover the entire state. Each highway of importance will be covered, mile by mile, and extensively photographed. A complete consideration will be given to the various phases of North Carolina's particular problem and a full report with recommendations will be made and published as a part of the demonstration. At least two months will be devoted to the study.

WIDOW'S WEEDS

Mrs. Perch—How nice of you to trim your hat with widow's weeds in memory of your dear husband.
Mrs. Trout (a widow)—And so inexpensive, too. It's seaweed!

Waiting for a Ride
The gangster's time slips on its way. With care he must employ it. He grabs a fortune in a day. But can't live to enjoy it.

No Quarrel Possible
"Do you ever quarrel with your wife?"
"Never," answered Mr. Meekton. "My parents thoroughly impressed me with the impropriety of interrupting a lady when she is talking."—Washington Star.

Hard on Own's Constitution

The Statistician—A man is knocked down in a London street every 20 minutes.

Listener—Sorry, old chap, but I really can't swallow that one. No man's constitution could possibly stand it.

Judge Sought Information

Judge—Your wife says you have her terrorized.

Prisoner—Honestly, your honor, I—

Judge—I am not asking this in my official capacity, but as man to man, how do you do it.

Less Time for Cooking

"But if your wife is so unmusical," said the sympathetic friend, "why encourage her to take singing lessons?"

"Well, you see, old chap," replied the sufferer, "I figure it out that the singing leaves her less time for cooking."

A Frank Customer

Tailor—Yes, sir, this is the very latest pattern, and should suit you admirably.

Client—Yes? Well, it certainly looks very nice. How much—er—how much shall I have to owe you for a suit from it?

The Helpmate

"Isn't it nice to have a husband who spends all his evenings at home?"

"Yes, I enjoy myself so much better when I know he's there with the children."—Chicago Daily News.

HEELS OVER HEAD

Poor Suitor—Darling, I'm heels over head in love with you!

She—Well, as soon as you're on your feet I may consider your suit.

Cramp Is an Asset

She asked me for an autograph; clinging around my neck.

I felt quite flattered till I found I'd autographed a cheek!

Both Have Plenty

"Yes," grinned the crook, "I've had a good many trials."

"Huh!" retorted the married man. "I'll bet I've had more than you have."

MORE MILK MEANS HIGHER QUALITY

Better Article Produced by Increasing Output.

Greater quantities of milk produced on the average farm mean a higher quality of milk. Attempts to increase the quantity of milk, therefore, lead toward production of a better article. It is pointed out by R. B. Stoltz, professor of dairy technology at the Ohio State university.

"The dairyman shipping five to ten cans of milk daily is in a business which makes it necessary for him to test his cows for tuberculosis, cool his milk, endeavor to produce it more efficiently, and give it the proper care in order to meet inspection demands of city consumers. The farmer, not a dairyman, who keeps only two or three cows, is not in the dairy business—he just keeps some cows. To increase his production and put him into the dairy business means improving the quality of his product and the efficiency with which it is produced," says Professor Stoltz.

"The Scioto valley milk producers and the milk distributors of Columbus are attempting to encourage increased production by paying a premium for quantity. For producers who average less than 100 pounds of milk a day the price is \$2.95 a hundred pounds; for those who average 100 to 150 pounds daily, the price is \$3.00 a hundred. The scale rises until producers selling more than 250 pounds a day get \$3.15 a hundred pounds for it—20 cents more than those who produce less than 100 pounds a day.

"Quality might be rapidly improved if the distributors paid a premium for high quality. This plan has been tried in several places and has not proved satisfactory," says Professor Stoltz. "It would undoubtedly be more satisfactory if the movement started with the producers rather than with the distributors."

Convicts Himself

"I despise hypocrites. Take Smithson, for example; he's the biggest hypocrite on earth."

"But you appear to be his best friend."

"Oh, yes; I try to appear friendly toward him. It pays better in the end."

Coerced

"Oh, so Mainwaring is going to be married?"

"Yes, a fine actress!"

"Indeed? Couldn't live without her, I suppose?"

"No—well, not without a breach of promise action, anyhow!"

"Telephone Neighbor"

INCONVENIENT, isn't it, to leave your housework in the midst of some important bit of cleaning, in order to answer the telephone at your neighbor's.

It is inconvenient for your neighbor, too.

A telephone is a Comfort, and a Convenience—and it is a Safeguard in case of emergency. It costs less than many of our smaller luxuries and really is a necessity of modern living.

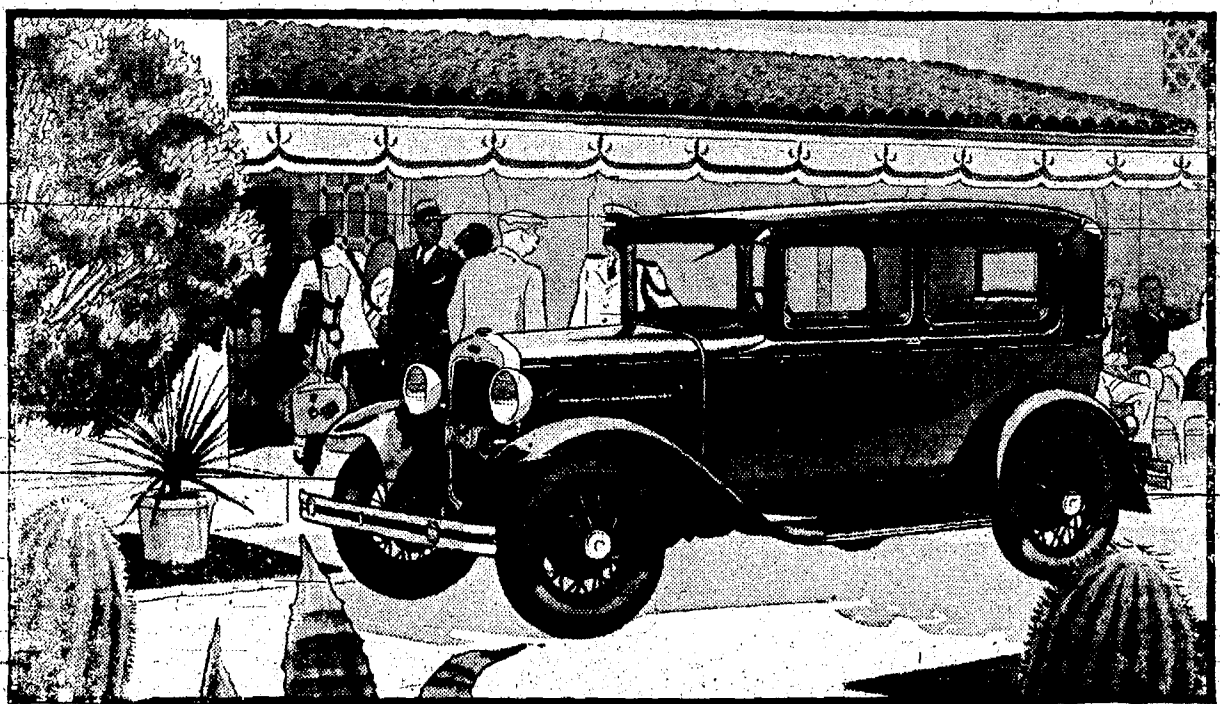

MICHIGAN BELL TELEPHONE CO.

CAREFUL MOTHERS KEEN ABOUT IT.

"Coughs never last long in our family, for we use Foley's Honey and Tar," says Mrs. J. M. Hill, Homer, Ga. "Foley's Honey and Tar has never failed to take care of coughs and colds in our family, and we have used it over 20 years," says Mrs. Ornstein, Green Bay, Wis. Dependable always, no opiates; no chloroform, nothing that a careful mother hesitates to give her children. That's why mothers endorse Foley's Honey and Tar. Ask for it—For Sale by Hite's Drug Store. adv.

OUTSTANDING FEATURES OF THE NEW FORD

- New streamline bodies. Choice of attractive colors. Adjustable front seats in most bodies.
- Fully enclosed, silent four-wheel brakes. Four Houdaille double-acting hydraulic shock absorbers.
- Bright, enduring Rustless Steel for many exterior metal parts. Chrome silicon alloy valves.
- Aluminum pistons. Chrome alloy transmission gears and shafts. Torque-tube drive.
- Three-quarter floating rear axle. Extensive use of fine steel forgings and electric welding.
- More than twenty ball and roller bearings. Triplex shatter-proof glass windshield.
- Five steel-spoke wheels. 55 to 65 miles an hour. Quick acceleration. Ease of control.
- Low first cost. Economy of operation. Reliability and long life. Good dealer service.

All prices f. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra, at low cost. Universal Credit Company plan of time payments offers another Ford economy.

FORD MOTOR COMPANY

ROADS GET PART OF MOTOR COST

Ten Per Cent of Motoring Bill Goes to Highways in Minnesota.

(By E. E. DUFFY.)
When the motorist-taxpayer reads that his state is spending millions of dollars for road improvements he may feel that the expenditure is ample. However, the money that is actually devoted to road betterment is but a small percentage of the total motoring cost.

Minnesota Figures.
Taking figures compiled for Minnesota, which are exemplary of most other states, the total state and local road bill is but 10 per cent of Minnesota's complete motoring expenditure.

Replacement of parts, fuel, lubricants, accessories, financing, new cars and trucks, insurance, and so on, this year cost Minnesota motorists \$372,000,000. It is estimated by the state highway department that in 1930 Minnesota will spend \$38,500,000 for roads. It is projected that the total motoring bill for 1930 will be \$390,000,000. Consequently, the license and gasoline tax moneys which go into the trunk highway fund will be less than 5 per cent of the total motoring bill.

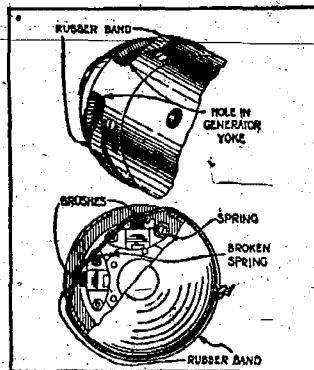

C. M. Babcock, Minnesota's commissioner of highways, recently declared:

Vehicle Cost Decreases.
"Although our total motor bill is increasing, the cost per vehicle mile is decreasing. This is partly due to improvements in the cars, but mostly due to improved highways. With further improvements in our highway system, we can still further reduce the cost per car mile. Every dollar spent for better roads will save dollars for gasoline, tires and repairs."

With automobile registrations increasing rapidly and with a steady increase in the mileage covered by the individual motorist, most states would not be violating any economic rule by devoting more money to first-class pavement construction. Quite to the contrary, the wise spending of more money for smooth pavements would bring a proportionate reduction in car operating costs. The "invisible charge" collected by inferior roads is far greater than the motorist realizes—from one to two cents a mile.

Making Temporary Repair of Broken Brush Spring

Sometimes a break in a spring that presses a brush against the commutator on the starting motor makes the starter inoperative. The illustration shows a temporary repair. Cut a strip of rubber from an inner tube and pass it through the openings in the motor

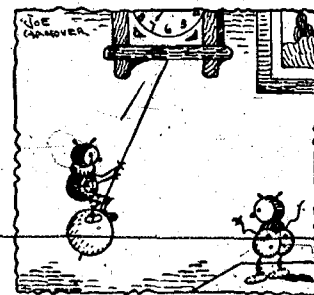

Broken Brush Spring is Repaired With Rubber Band.

frame as shown. Pull fairly tightly and tie a knot. The rubber band will press the brush against the commutator and permit the motor to start the engine in normal fashion.—Popular Science Monthly.

Agreement
Saxophonist—I wish I had money and I would never play another note on the saxophone.
Neighbor—I wish I had money—I would give it to you.

LOTS OF FUN

Bug—Gee, this is the best ride I've ever been on and it don't cost anything either.

Fair Exchange
When a man proposes
But straightway on his shoulder
Her head is dropped instead.
He's apt to lose his head.

Man Displaced
Annabelle—Mabel hasn't a thought for anything nowadays, except her new automobile. She's perfectly in love with it.
George (sadly)—Another case of man being displaced by machinery.

Different Opinions
Bill—This horse is so old he has lost all his teeth!
Trader—Oh, no; you are mistaken. He is so young he hasn't cut his teeth yet!

Captain of Princeton Crew

James Pease, who is captain of this year's varsity boat at Princeton university. The boys are getting strenuous daily workouts on Carnegie lake and are said to be showing promising form.

Here's Opportunity for Highway Associations

Secretary of Agriculture Hyde, in his annual report, reminds the country of a recent amendment to the federal highway act, which provides that the federal government may pay half the cost of planting trees along the highways. No state yet has taken advantage of this provision, although there is an increasing sentiment in favor of highway shelter and beautification from trees.

Official state co-operation in this plan necessarily will be slow, for the reason the state legislatures will need to act. While the cost is relatively small, there will be states with large obligations and limited revenues that may hesitate to meet at once the federal government's offer. Yet there are few expenditures, aside from those that are imperative, that would go so far in making the states attractive to their own people and to those who go on tour.

Regardless of what states may do, there is an immediate opportunity for the numerous highway associations. Such an association as that formed by the cities, towns and communities along Highway 71, which already is committed to putting this highway in order, has on its program, at least tentatively, the planting of trees. Such an association, with comparatively small funds and with the allowance and co-operation of the government, could in a short time plant miles of intelligently selected shade trees. Once the owners of lands along the roads appreciate the importance of scenic attractiveness, there should be a considerable planting on their own account.—Kansas City Star.

All Dolled Up

Sir Ronald Lindsay, the new ambassador from Great Britain, photographed in his uniform and wearing all his glittering decorations. He recently presented his letters of credence to President Hoover.

About the Cuckoo
Many of the superstitions connected with the cuckoo related to matters matrimonial. If a maiden ran into the fields early in the morning to hear the first call of the cuckoo, and when she heard it took off her left shoe and looked into it, she would there find a man's hair of the same color as that of her future husband.

The cuckoo is also a bringer of luck—though whether good or bad depends upon circumstances. If, when you hear the cuckoo for the first time in any season, the sound proceeds from the right, you will be prosperous. If, on the other hand, the sound comes from the left, ill luck awaits you.

Human Heart Tireless Worker
In a day of moderate activity a man's heart does enough work to lift a man 1,000 feet. Even in a day spent lying in bed the heart does enough work to lift a man weighing 150 pounds up a hill 500 feet high. Thus it adjusts its effort to the needs of the body. During an athletic contest it meets the demand of the muscles for blood by working three and a half times as hard for short periods. Dr. B. C. H. Harvey tells these interesting facts in his lessons in human anatomy in Hygeia, the health magazine of the American Medical Association.

Poultry Disease Easy to Control

Of Much Importance to Prevent Coccidiosis at Start of Season.

Coccidiosis, which is caused by a protozoan parasite which infests the intestinal walls, can be controlled, in a measure, by raising chicks on clean grounds. The organism can live in the soil for some time unless this soil is tilled and kept free from poultry in alternating years, at least, and for this reason chicks should be raised on ground that has not been frequented by chicks or older birds the year previous. Since treatment for this disease is rather difficult, it is far more important to prevent it at the start of the chick brooding season, than to attempt to cure it later in the summer or early fall.

Thorough scrubbing of the brooding equipment and brooder house, along with the other steps in the fresh ground method of brooding chicks, will also prove valuable aids in controlling the spread of bacillary white diarrhea among the chicks. Keeping the chicks in a darkened box the first three days of their lives and feeding all of the sour milk or buttermilk that they care to drink, are two other steps that go hand in hand with fresh ground methods in preventing an epidemic of this disease in the chick flock.

Other Diseases Succumb.
Fowl cholera and fowl typhoid are two other diseases that succumb quickly in the face of a fresh ground brooding program. The former disease usually causes rather sudden death and is practically incurable, as is the latter. As in the case of other diseases, prevention is to be recommended in preference to cure. Clean grounds for the chicks will prevent them from coming in contact with older birds and with infected houses and yards where they would undoubtedly be able to pick up the cholera or typhoid germs in their feed and drinking water.

Tuberculosis is another disease that can be controlled very effectively by raising all chicks on fresh ground. Baby chicks cannot inherit this disease, contrary to the opinion of a number of poultry breeders who feel that the disease is transmitted from parents to offspring. Since this is true, birds under a year of age seldom die of tuberculosis or show any serious effects of the disease. Because of this the fresh ground program fits into the production scheme very nicely, and at the same time enables the flock owner to get rid of the tuberculosis losses in his flock.

Thorough Cleaning.
In starting a fresh ground chick raising program this spring, plans should be made to extend the program over a long period of time, as suggested. Another step that is essential to success with the plan is the thorough cleaning of the brooder house and all brooding equipment. Scrubbing with a boiling, concentrated solution of high-test lye water is a very good method of destroying worm eggs and disease germs. Boiling water is practically the only agent that will destroy the worms after they are hatched. The lye in the solution aids in removing the eggs and dirt.

This scrubbing solution should be applied not only to the brooder house, but also to the drinking fountains, feeders, hovers and all other equipment. A thorough scrubbing of part of the brooder equipment will be of little value if another part is left contaminated with worm eggs and disease germs to inhabit the chicks from the time they are placed in the brooder through their entire growing period. Thoroughness is essential to success with the plan.

Jack Rabbit Skins Give Profit to Many Farmers

War against the Jack rabbit last year in the West netted more than 8,000,000 skins and a profit to farmers and stockmen, from the sale of the pelts, of about \$2,000,000. Control operations against injurious rabbits are conducted by the bureau of biological survey of the United States Department of Agriculture. Jack rabbits are particularly destructive to alfalfa, range grasses and fruit trees, says the bureau. They also destroy cotton plants in the Southwest, and in the Northwest ruin large quantities of stacked hay during the winter.

TORMENTING KIDNEY AILMENTS RELIEVED.

Hard workers, whose full pay envelope is a necessity, whose good health is their only capital, must keep themselves constantly at their best. When Arthur O'Malley, Carson Hill, Calif., had to drag his aching weary body from a sleepless bed, he did a wise thing—took Foley's Pils diuretic, and says: "Less than two bottles of Foley's Pils diuretic relieved me entirely of my kidney and rheumatic troubles and put me on my feet and to work again. I want other workers to know about them." Guaranteed to give satisfaction. Ask for them. For Sale by Hitt's Drug Store.

Shifting Relationships
In politics we often see
Strange causes for woe.
The friends of yesterday may be
Tomorrow's foe.

Limited Publicity
Angelina—Why won't you let me announce our engagement? You keep saying you'll tell the world you love me.
Edwin—Darling, you know you're all the world to me.

He'll Improve
Foreman—Well, everything all right? Night Watchman—Yes, I haven't done so bad for the first night. I've checked off everything, and there's only one thing missing—the steam-roller.—The Humorist.

Total Loss
Blinks—That fat old hen spends a lot of money on her clothes.
Jinks—Yes, but she is like some salads—not even the dressing improves her.

No Road Map
"Do you know where you are?" demanded the tourist's wife.
"No," he admitted, "I'm as lost as the average American, is when he starts on the third verse of the national anthem."

Ring That Bell!
"I hear you rode on the cowcatcher of a locomotive once. I bet you were scared."
"You bet. I didn't know what minute I was going to be hit by an auto."

Down to Brass Tacks
Howell—All's not gold that glitters.
Powell—You seem to be getting down to brass tacks.

Bad Roads Have Fewest Automobile Accidents

The most common excuses given for road accidents are bad roads, foggy weather, poor light and defective brakes. However, according to the statistical bureau of the National Automobile club, these claims are not borne out by official report. Out of 1,827 accidents during one single month, 1,151 took place on perfectly dry roads; 1,238 in clear weather, and 908 in broad daylight.

Out of 2,773 vehicles involved, investigators found that 2,659 were in good condition mechanically and only 29 were found to have defective brakes. The chief reasons for the accidents were reported to be careless and reckless driving.

STATE OF MICHIGAN

The Probate Court for the County of Charlevoix.
At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the fifth day of May A. D. 1930.
Present: Hon. Ervan A. Rueggesser, Judge of Probate.

In the Matter of the Estate of Matilda St. Charles, Deceased.
Thomas St. Charles, having filed in said court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 31st day of May A. D. 1930, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.
Ervan A. Rueggesser,
19-3
Judge of Probate.

Some women love children and others dread having anything sticky smeared on their clothes.

BUYING FOR CONTENTMENT

IT IS not uncommon to buy something that momentarily attracts your attention and to scold yourself afterwards for buying it . . .

Advertising helps you to use your family budget carefully--wisely--and saves you from after-regrets.

Day by day, in the advertisements of this paper, you see the worth-while enduring products spread before you—

Knowing them before you buy—you are able to judge intelligently your needs. Never are you rushed into buying; into having first—and scolding afterwards—

Advertising gives you honest information before you buy. You have a reliable guide and index to help you plan your purchases wisely and carefully, taking full advantage of day-to-day opportunities and sales!

Read the advertisements every day! You will find that they make your money go farther—and that you will be satisfied with your purchases long after you have bought!

OVERDRAFTS

The practice of overdrawing one's bank account is both unwise and unjust. It lowers the depositor's credit, because every time he overdraws his account, it simply means that he is using money that does not belong to him. This complicates book-keeping and is an attempt to borrow money from the bank without interest.

Overdrafts are unbusiness-like as well as unfair. Doing away with this practice will benefit the depositor and the bank alike.

Won't you help us do away with overdrafts in this, your bank? Keeping your balance here growing will do it.

"The Bank With The Chime Clock."

Expect no miracles—trust your common sense. A sensible person is anyone who agrees with us. How critical we are of faults in others; how tolerant we are of our own follies! No wife thinks her husband is really working unless he has on a pair of overalls.

Mr. and Mrs. Oscar Franzen and daughter, Barbara, of Chicago are visiting at the home of her parents, Mr. and Mrs. Dan Goodman.

Mr. and Mrs. Charles Mankey and son, and Mrs. John Rogers and children of Detroit are here visiting their parents, Mr. and Mrs. Joe Kortanek.

See the High School Operetta—"The Belle of Barcelona," at High School Gym, Charlevoix, Friday, May 23rd, at 8:00 p. m. Admission 35c and 50c. adv.

The home and contents of Frank Dunlap at Boyne City were destroyed by fire last Sunday forenoon. Mr. Dunlap is a brother of Mrs. H. A. Goodman of this city.

R. E. Pearsall, our local veterinary, made a nice catch of pickerel at the Electric Light Co., dam on Deer Creek last Tuesday. The catch weighed 45 pounds, the largest weighing 14 pounds and measuring 40 inches in length.

The Temple Theatre plans to open this Saturday night with Vitaphone pictures. Mr. Bulow has installed one of the largest sound screens in Northern Michigan. The opening picture will be Colleen Moore in "Footlights and Fools."

Mrs. Lot of Sodom, turned to rubber, and a lot of East Jordan ladies are going to turn to rubber aprons when they learn they can get one with a pound of Hekman's select crackers for 39c at the Lumber Co.'s Saturday and Monday. adv.

W. A. Stroebel was at Lansing first of the week on business connected with the construction and extension of M-66. Enroute home he stopped at Saginaw where his son, Paul, met and accompanied his father to East Jordan. He plans to stay here for the summer months.

The Michigan Bell Telephone Company's expansion plans for this year include the building of an additional long distance circuit between Petoskey and Reed City to cost \$18,000 and one between Pellston and Onaway to cost \$62,000. Another new circuit will be between Reed City and Grand Rapids costing \$13,000. The total expenditure for the year is placed at \$3,724,000.

See the High School Operetta—"The Belle of Barcelona," at High School Gym, Charlevoix, Friday, May 23rd, at 8:00 p. m. Admission 35c and 50c. adv.

Archie Carlskin, whose home is near Advance, was arrested last Friday by Sheriff Dave Vaughan for violation of the liquor law. According to officers, Carlskin had a home brew making outfit in a root cellar near his home. When search was made, 118 pints and two quarts of alleged home brew were found. Carlskin had been under suspicion for some time. He was bound over to circuit court on a charge of possession and manufacture of liquor, and was released under \$500 bond. Carlskin has confessed his guilt.

Best made new garden Cultivators this week \$3.95 at Malpass Hdwe. Co. adv.

Mr. and Mrs. Nat Burney of Detroit visited friends here Saturday.

Tomato and Cabbage plants at the Lumber Co.'s store next week. adv.

Boy's wagons at less than catalog house prices at Malpass Hdwe. Co. adv.

Mr. and Mrs. Joe Kenny and family now occupy the A. K. Hill residence on Second St.

Brand new 16 inch self sharpener 16 inch lawn mowers \$6.50 at Malpass Hdwe. Co. adv.

Mr. and Mrs. Merritt Shaw and daughter have returned from Lansing to spend the summer here.

Men's Dress Hose, 5 pair for \$1.00. Men's Overalls and Jackets, value \$1.25, now 98c at Brabant's. adv.

School News and Chatter

"CARRIE COMES TO COLLEGE"

The Operetta was a great success, according to most people. The actors played "up to par" (if not above) and everyone was satisfied.

Did you ever hear that Jason Snyder could act? He proved it Friday night, when he took the leading part as Spencer.

And Marie St. Charles, as Carrie, the heroine, she acted wonderfully, and had a voice worth listening to.

Louise Bretz was good, too. She was the spiteful Bobby who hated to admit that she liked Tommy.

Tommy himself was Harold Lee, who, it finally resulted, was the Governor's son.

We mustn't forget Ma Jenkins. She was the boarding house keeper, step-mother of Carrie, in reality, Betty Bretz.

Fred was a happy-go-lucky student and never worried. He acted natural, though, for he was Roy Gunderson.

What about Porky? The son of a P-p-p-pork Packer of Chicago, and always good natured. That was Claude Lorraine.

Madam Louise (Anita Ruhling) was the beauty doctor, who made "old faces new, and young faces well-sophisticated." She also was Spencer's mother.

Hiram Goodnow was Spencer's father, alias Victor Millman.

Sol Rosenbaum was the Tailor—and very well did he act, too. He but "why should I tell you twice what I tell you once?" He was Stephen Shepard. His son, Izzie, was John Vogel.

Governor Thompson was, Martin Ruhling, and Tommy's father.

The play itself was improved by the many dances. Miss Chandler certainly has a well-trained dancing chorus—that was easily proven.

The Operetta has required much work—the whole Chorus has been doing its hardest since Christmas time. The Operetta which the public saw was the culmination of many student's work, plus that of Miss Chandler and the other teachers who kindly helped us out.

WEST SIDE

The second and third graders are making Weather Bureau calendars. If the day is sunny, the yellow circle will show;

Purple means a rainy day, and then the breezes blow.

Of course these folks' wishes are for a pleasant day.

But if the day is cloudy, the circle will be gray.

Fourth Grade—Fourth grade students who received Palmer Pins are Helen Burbank and Leonard Smith. Leonard Smith also received the Improvement Certificate. Progress Pins were won by Winifred Zoulek, Anna J. Clark, Clarabelle Strovel.

GRADES

Winners of Pins

Those students of the fifth grade, re-winning their Palmer Pins are: Gladys Staley, Lucille Crawford, Ann Reich, Robert Winstone, Ruth Darbee, Katherine McDonald, Ruth Hott, Jane Davis, Jacklin Cook, Thelma Looze, Stella Stallard, Eva Dennis, Virginia Saxon, Donald Fuller, and Donald Johnson.

Those receiving Merit Pins are: Lucille Crawford, Ann Reich, Katherine MacDonald, Thelma Looze, Jacklin Cook, Donald Fuller, Ruth Hott and Stella Stallard.

Winners of Progress Pins are: Ann Reich, Thelma Looze, Jane Davis, Katherine MacDonald and Jacklin Cook.

Ann Reich is the only one, so far, to receive her Final Student's Certificate, but there will be more soon.

The Literary World

The sixth graders have certainly made rapid progress in their reading material. In class, they have gone through two readers already, and have started on a third.

In their "Trip and Study of Africa" they are, for reference material, reviewing "Uncle Tom's Cabin." They have read quite a varied list of books.

Besides their interest in reading, the sixth graders have shown an en-

thusiasm in birds that is truly fine. They can tell you a great deal about different kinds of birds, and their habits.

Come on with the Spades!

The first graders are becoming quite industrious gardeners, in fact, they have converted their sand table into a real worth-while vegetable tract. Yes, folks, they have everything from carrots to peas, including cucumbers, beans, radishes, watermelons and corn. The seeds were planted Friday and they've already sprung up. How is that for quick results of time well invested?

To the Land of Cherry Blossoms

The second graders have decided to sail to Japan; figuratively speaking. The first part of the journey must, of course, be made in ships—dream-boats, shall we call them? Just now everyone in this grade is busily occupied, choosing his ship; you see there are many different types that may be used, and of course the best are desired:

One-Two-Three

The third graders had a number race in arithmetic. To say it was exciting is but to term things mildly. Well, the girls were up against the boys, and finally, the boys won. Come on, girls, let's see you "cop the cup" next time.

Perfect Records

The fourth graders are getting to be pretty accurate spellers, in fact, eight people got 100% in spelling for one solid week, namely: Rebecca, Beatrice, Kathryn, Anna Jean, Dorothy, Jean, Frank and Leon.

The fourth graders reflect the contest spirit genuinely. The boys are ahead in the arithmetic contest, but the girls have the top round in spelling. These contests have improved the working spirit of boys and girls in both classes.

The fourth graders are also Nature Amateurs. They are making a careful study of nature by means of collecting various specimens. They have in their possession a crab, which, by the way, they are not afraid of because they know how to handle it, and also a snail. It is interesting to watch Mr. Snail pull in his horns and crawl slowly into his shell.

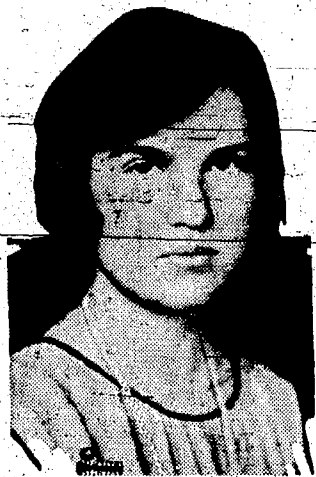

The fourth graders would be good competitors for the First graders in the line of gardening. They have some green lettuce that is already up, and nearly large enough to eat.

For Pajama Devotees

Plaid pongee offers the pajama devotees something new. This model wears a robe of lavender, lemon and green plaid pongee over pajamas of the same material in natural shadings.

MISS HUGHES TO WED

Miss Elizabeth Hughes, daughter of Chief Justice and Mrs. Charles Evans Hughes, whose engagement to William Thomas Gossett has been announced. Mr. Gossett is a member of the New York law firm of which Chief Justice Hughes formerly was the head.

If you don't claim too much intelligence, people will give you credit for more than you have.

After she's fifteen, a father is as helpless in handling his daughter as in managing her mother.

State News in Brief

Lansing—R. Clare Starkweather, son of O. R. Starkweather, Lansing automobile dealer, ended his life by shooting himself in the automobile showroom where he was employed. Ill health and fear he would lose his sight are given as the motive.

Manistee—Kalkaska and Lake Counties show population losses in preliminary figures for the Fourth Michigan District announced here. Kalkaska County has 3,799 inhabitants, a decrease of 1,778 or 31 per cent from the 1920 figures. Lake County now has 4,040 population, compared to 4,437 in 1920. This is a loss of 9 per cent.

Ludington—The Ludington High School band of 60 pieces, winner of the class B title at Ann Arbor, will enter the national tournament in Flint May 23. The Chamber of Commerce and the Exchange Club have contributed \$240 toward the fund of \$450 necessary for the trip. A concert will be given to raise the rest.

Calumet—Trapped in a man car that had been hoisted too far and lodged over the mouth of the 8,000-foot shaft, Fred Michetti, with a skull fracture, and Anton Rickard, suffering from bruises, waited two hours before workers could reach them. Michetti died later. Both were pump operators for the Calumet & Hecla Mining Co.

Ann Arbor—Big Red Band, Lansing Central, won premier honors in the high school contests here recently, being named winner in class A, over nine other competitors. The results in the band contests were as follows: Class A.—Lansing Central, Kalamazoo, Flint Northern. Class B.—Ludington, Mt. Clemens, Fordson. Class C.—Oxford, Benzonia, Paw Paw. Class D.—Berkley, Yale. Junior high schools—Adrian, Flint, Emerson, Lansing West.

Traverse City—The first Government-subsidized fruit cannery became a reality with the taking over, by Michigan and Wisconsin cherry growers, of the Grand Traverse Packing Co. plant, said to be the second largest cherry cannery in the United States. A loan of \$408,160 from the United States Farm Board made the acquisition possible. The plant is being purchased for \$306,160 and \$50,000 is to be used for additional equipment.

Ypsilanti—Ypsilanti police are seeking a poultry thief who stole a pair of geese from the farm of Jacob Blum, of this city, brought them to town and sold them to Blum for \$1.25 each. Blum did not recognize the birds until he took them to his farm. Then he discovered that his geese were missing from their pen, and observed that as soon as the female was released she went straight to her nest of eggs, which she had been brooding for several days.

Flint—Joseph Oport, 18-year-old cadet at the Flint Country Club, gave his life in a futile attempt to save Merle Manchester, 12, a Lincoln School pupil and a stranger to him, from drowning in Thread Lake, on the south side of the city. The bodies were recovered 20 minutes after the drownings and although police ambulance attendants and firemen used pulmotors and artificial respiration, the boys were pronounced dead on reaching Hurley Hospital.

Lansing—Michigan's prison population was larger by 423 on May 1 than at the beginning of the year, according to reports in the office of Arthur D. Wood, parole commissioner. The population of the Michigan State Prison at Jackson is now 4,688, that at the Marquette Branch Prison, 879, and that of the Michigan Reformatory at Ionia 1,906. The 636 State prisoners in the Detroit House of Correction brings the total to 8,109, as compared with 7,686 Jan. 1.

Jackson—Pens and coops have been prepared on one of the Michigan State Prison Farms for the hatching and raising of 5,000 pheasants this season, it was announced by Alfred Folks, prison farm superintendent. The eggs will be sent by the Department of Conservation from the State Game Farm near Mason. Three hundred domestic hens will be used in hatching the young pheasants. The birds will be released in wooded areas of the state when they have attained their growth.

Sturgis—The derailment of 37 cars of a Michigan freight train at Colon, 14 miles northeast of here, caused damage estimated at \$150,000. A long stretch of the right-of-way was torn up when the cars, loaded with automobiles, typewriters, food, coal and oil, were thrown down the embankment. The cars were about the middle of an 80-car train. The locomotive and 43 cars remained on the track. Members of the train crew escaped injury. This was the third wreck in this vicinity within a month. The other two occurred at Union City and Wasopi.

Port Huron—When it rains in Port Huron scores of persons go hunting angle worms for George Day. Day is proprietor of the Day Bait Co., which embalms the wigglers and ships them throughout the United States in the winter months when worms are impossible to obtain. The demand for preserved worms, incidentally, is high, particularly in the north. After a recent heavy rain, 200 persons went hunting worms for Day. Before night, Day had purchased seven barrels full, containing approximately 50,000 worms.

DIPPING INTO SCIENCE

Clouds Are Named

Astronomers and weather scientists have names for every type of cloud. Shapes of clouds depend upon conditions within and around them. Therefore, a single name tells a complete story. Some of the more important are: Cirrus (ringlet very high up), Stratus (spread out), Cumulus (a heap, or piling up), and Nimbus (rain cloud). (© 1930, Western Newspaper Union.)

He who talks most usually says least.

BOARD OF REVIEW

Notice is hereby given that the Board of Equalization and Review for the city of East Jordan will be in session at the Council Rooms, Monday, May 19, 1936, at 9:30 o'clock a. m., Standard Time, and will be in session each day thereafter for at least four days.

OTIS J. SMITH,
City Clerk

WATER TAX NOTICE

Water Taxes for the City of East Jordan are due May 1st and payable during the month of May at my office in the Russell Hotel.

G. E. BOSWELL,
City Treasurer.

RESTFUL EASE AFTER COUGHING.

"The result of using Foley's Honey and Tar Compound for a dreadful cough that bothered me both day time and at nights was a restful one for me," says Mrs. Anne Davison, Long Beach, Calif. "It eased my cough at once, felt so good to my irritated throat and was very agreeable to take. No more coughing for me so long as I can get Foley's Honey and Tar Compound." Your druggist sells and recommends it. Ask for it. For Sale by Hite's Drug Store. adv.

Good things don't last long—that is why it's wise to take a generous helping of fresh green peas the first time they're passed.

"YOU ARE WANTED ON THE PHONE"

YOU ARE PROMPT to respond to the ring of your phone. The very idea that some one has a personal message for you intrigues your interest.

Has it ever occurred to you that back of every advertisement in this paper there is some one with a personal message for you? More often than not these advertisements were written with you in mind. It is impossible for most merchants and manufacturers to give you a phone call about their goods, their wares, or their services. So they pay us for the privilege of calling these things to your attention in our advertising columns.

Give an advertisement the same attention you give to a phone call. Many of them are just as important to you—and just as interesting. They will help you to economize and keep posted on news of vital interest to you and your pocketbook.

Don't lay this paper aside, today, without reading the ADVERTISEMENTS

They are personal calls for you.
