EAST JORDAN, MICHIGAN, FRIDAY, MAY 30, 1930.

NUMBER 22

First Annual "C" Conference

TRACK AND FIELD MEET AT EAST JORDAN THIS SATURDAY.

The first annual Tip of Michigan "C" Conference Track and Field Meet will be held at East Jordan High School grounds, this Saturday, May 31st.

The following schools will be competing: Boyne City, Charlevoix, East Jordan, Gaylord, Harbor Springs and Mancelona. Boyne City were northern District Champions a year ago and have most of their men back, and won second place at Cadillac again this year. They are favorites to cop the meeting but East Jordan, Harbor Springs and Gaylord have strong contenders in many of the events so the competition will be interesting all the way through no matter who wins. So many things can happen at a track meet that is possible that Harbor Springs or East Jordan or even Gaylord do up-set the dope and win the meet.

The local boys have been coming fast and showed by their dual meet against Gaylord, Friday of last week that they had some good track men. Quinn of course leads the group, running the 100 yard in 10.7 on a wet, heavy track. McDaniels, LaLonde, Kling, Reich, Kitsman, Ruhling and Addis are all doing well. The track meet will be handled by school officials, saving extra expense of outside men.

The preliminary events take place at 9:30 a. m. standard:

- 100 yard Dash
- 120 yard Hurdles
- 220 yard Dash

Will be run at the above time with the finals in the Pole Vault and Shotput.

The other events in the following order, starting at 1:30.

- 120 Yard Low Hurdles (Finals) 1:30
- 100 Yard Dash (Finals) 2:00
- One Mile Run 2:15
- 440 Yard Run 2:30
- 220 Yard Dash 2:45
- 880 Yard Run 3:00
- One-half Mile Relay 3:30

The above events will prove entertainment for everyone from boys in the fourth grade to even grown-up boys of seventy, and admission to all is 25c.

E. J. BUSINESS MEN HOLD MEETING AT CHERRYVALE

On Tuesday, May 27th, the members of the East Jordan Business Men's Club held their regular meeting with a pot luck supper at the home of Al Warda in Cherryvale. After supper, President Sloan introduced Mr. C. W. Reemsten of the Raisin Brook Packing Company of Dundee, Michigan—the largest packers and shippers of rabbits in the world, who gave a very interesting talk on the possibilities of the rabbit raising industry in and around East Jordan.

The members of the Club wish to heartily thank Mr. Warda for his generous hospitality.

SOUTH LAKE LODGE NO. 180, K. OF P. INSTALL OFFICERS

- V. C.—Wm. Sloan
- Prel.—Ashland Bowen
- M. of W.—James Williams
- M. of F.—Walter Davis
- M. of E.—C. H. Whittington
- K. of R. and S.—George Jaquays
- M. at A.—C. F. Snelenberger
- I. G.—Carl Grutsch
- O. G.—Ira Lee
- F. C.—Ira D. Bartlett

Trustee for three years—Lewis Ellis.
Representative to Grand Lodge—Erwin Hiatt.
Alternate—Barney Milstein.

He—"If you keep looking at me like that I'm going to kiss you."
She—"Well, I can't hold this expression much longer."

Some people's sense of superiority rests on a refusal to expose themselves to a test.

My advice to all shiny nosed girls: If you want to be a "big shot," use lots of powder.

HEAVY FROSTS DAMAGED CROPS THROUGHOUT REGION

Heavy frosts in Western Michigan commencing last Saturday night, and continuing each night since, have damaged fruits and early vegetables to a considerable extent.

Damage to the cherry crop in Northwestern Michigan is estimated from 30 to 50 per cent. The freeze has been spotty, some localities escaping entirely while others report a 100 per cent loss.

Owing to the warm weather during the early part of May, considerable planting was done, the result being that early potatoes, corn, beans and other produce have been frozen back.

Locally, home-gardeners suffered heavily. The warm weather made them optimistic with the result that beans, tomatoes and other plants sensitive to frost have been destroyed, necessitating a re-planting.

It is not known as yet to just what extent the frost has affected apples and other fruits, beside cherries, in this section.

BIG INCREASE IN AGR'L PROJECTS BY STUDENTS

We are glad to see the great amount of interest students and parents are taking in our project work. Our department has nearly doubled in size this year and the number of projects is increasing accordingly.

The net return on projects carried by students last year was \$1535.64.

The average net return per project was \$80.82.

We would like to have parents cooperate with us in these ways:

1. Let the boy or girl take up a crop or animal project.
2. Loan them enough money for seed and fertilizer, or enough to get started in a less expensive project the first year.
3. See that they keep account of all expenditures such as rent of land, cost of seed, labor, use of tools, etc.
4. DO NOT GIVE THEM ANYTHING, BUT LET THEM HAVE WHAT THEY EARN.

We believe that by working together in this way the boy or girl will take greater interest in all home work due to the fact that each will have something he can call his own. They get a lot of satisfaction out of buying their own clothes, give them the chance to do it. It just saves you that much money. But do not make it a "Boy's colt, dad's horse" proposition.

Let them develop some business ability. When they finish their work they must know what it costs to raise one chicken or one bushel of potatoes, and they can determine from their results whether or not it is profitable to produce those things under their conditions.

Above all things SEE THAT THEY FINISH THE JOB THEY SET OUT TO DO.

RUSSELL EGGERT,
E. J. H. S. Agr'l Instructor

THRIPS MAY DAMAGE STATE FRUIT CROPS

An insect, the flower thrips, which is not usually present in Michigan in sufficient numbers to cause damage to fruits or crops is reported to be so abundant this year that the entomology department at Michigan State College advises the use of control measures to prevent injuries to fruit.

The last previous years when damage was done by the insect in this State were 1918 and 1910. Especially favorable weather conditions or the absence of natural enemies apparently permit the thrips to multiply rapidly in certain years.

Damage to fruit can be prevented by the use of nicotine, either as a spray or as a dust. The nicotine can be applied as a special spray or can be included in the regular early sprays. Peaches should be sprayed as soon as the shucks fall, and raspberries should receive the spray before the plants blossom.

Detailed directions for the proper mixing of sprays for the control of thrips can be obtained from the entomology department at the College or from county agricultural agents.

Most of the reports of the presence of thrips have been made from the western section of the State, but it is probably present in all parts. It is a tiny insect which will escape notice unless the plants upon which it is feeding are closely inspected.

MRS. MARY A. BURNS PASSES AWAY AFTER LONG ILLNESS

Mrs. Mary A. Burns, passed away at the home of her daughter, Miss Mary Green, in this city, Sunday morning, May 25th, following an illness of a few years duration from old age.

Mary A. Davis was born at Gilbert City, Wis., March 2, 1850, her parents being Mr. and Mrs. S. B. Davis. In 1865 she came with her parents to Central Lake. On June 15, 1872 she was united in marriage to Caleb Green of Saline at Ypsilanti, and they later located at Central Lake. Mr. Green passed away at that village Nov. 28, 1907. On March 8, 1910, Mrs. Green was married to William Burns at Central Lake. Mr. Burns passed away Feb'y 28, 1912. For the past ten years Mrs. Burns has made her home with her daughter, Miss Mary Green, Manager of the East Jordan branch of the Michigan Bell Telephone Co.

Deceased is survived by three daughters by her first marriage, viz: Mrs. Wm. Bowers of Central Lake, Mrs. Wm. Johnson of Detroit, and Miss Mary Green of East Jordan. Also by a brother, Albert M. Davis of New York.

Mrs. Burns was a member of F. J. Lewis Chapter No. 213, O. E. S., of Central Lake.

The remains were taken to the home of her daughter, Mrs. Wm. Bowers at Central Lake, where funeral services were held Tuesday forenoon, conducted by Rev. Hyde of the Congregational Church. Interment at the Southern cemetery.

FARM PROFITS CHECK MOVEMENT TO CITIES

Two methods of making profits from Michigan farms are expected by J. F. Cox, dean of agriculture at Michigan State College, to check any rapid movement of rural residents to the cities.

Dean Cox states that the diversity of crops and live stock which can be produced in Michigan make it possible for the operator of a small farm to make profits from the efficient management of poultry, dairy cattle, fruits, or field crops such as seeds or potatoes; and the owners of large acreage can operate their holdings profitably through the use of power machinery in the production of grain or other cash crops.

Improvements in living conditions are also cited by him as reasons for the stabilization of the farm population. Michigan farmers have the benefits of good roads, educational facilities are improving, and it is now possible for farmers to equip their homes with all the latest household conveniences.

The use of group enterprises such as Co-operative Associations for the improvement of marketing conditions and of herd improvement associations for the improvement of production practices is pointed out by Dean Cox to be evidence of the farmers' continued interest in the future of their business.

SOUTH ARM TOWNSHIP BOARD OF REVIEW

Notice is hereby given that the meeting of the Board of Review of South Arm Township will be held at the Township Hall on Monday and Tuesday, June 9th and 10th.

Supervisor.

Final Meeting of P. T. A.

ABOUT 85 PARENTS AND TEACHERS WERE PRESENT.

The final meeting of the East Jordan P. T. A. took place at the High School Auditorium, Thursday, May 22nd. About 85 parents and teachers were present to hear Mrs. Margaret Harrington give a very interesting talk on the work and purpose of the P. T. A., complimenting the local P. T. A. on having a meeting with a real attendance so late in the year, saying that nearly all P. T. A.'s had closed with the April meeting.

The P. T. A. received the banner for having the largest Parent Teachers Association for the number of pupils enrolled in the public schools of any consolidated school in Michigan. This banner was won at the State Meet held at Muskegon a few weeks ago. A distinct honor indeed for the local Association and a real credit to its officers and promoters, chiefly among whom was its President, Mrs. G. W. Bechtold, Vice President, Mrs. Jessie Hager, Mr. Allison Pinney, Mrs. George Staley, and Secretary, Alice M. Smatts, and Treasurer, Russell Eggert. Others who materially assisted in the success were the Mesdames William Gaunt John Porter, Orvie Giusolus, Earl Ruhling, H. P. Porter and Eugene Miles. Other talks were given by Rev. C. W. Sidebotham and Supt. A. J. Duncanson who presented the banner to the Association. Mrs. Jessie Hager presided in the absence of Mrs. G. W. Bechtold. Community singing and a pot luck supper was enjoyed.

In checking up to know whether or not the country people outnumbered the city people, it was found that about sixty from the country and twenty-five from the city were at the meeting.

The Association has done a very good piece of work this year and has been of material assistance to the school, assuming responsibilities that only parents can assume.

It is hoped that the local Association will retain the State championship banner the coming year. Kindly accept this as a hint to join the Association at its first meeting in the fall. Most of the people who belong to the Association have not only received profitable returns from the meetings for the small investment of 25 cents but have had a good time as well.

Traveling Coat

The traveler prefers topcoats this season. The one in the picture is a beige velveteen traveling coat, trimmed with collar and cuffs of natural lynx. The color scheme is deftly carried out in deep brown tones, frock, shoes and hat being selected in this color.

NOTICE!

To the Electors of Charlevoix-Leelanau Legislative District:— I will be a candidate for the Republican nomination of Representative to the State Legislature to be made at the Primary Election to be held on September 9th next. If chosen for this office it will be my earnest endeavor to actively and vigilantly serve the interests of the whole district and its people to the best of my ability and understanding.
Sincerely yours,
ARTHUR L. FITCH.

GRADUATION RECITAL PIANO PUPILS OF IRENE J. BASHAW

Before a good-size audience at the East Jordan High School Auditorium last Monday night, May 26th, a graduation recital was given by three high school piano pupils of Miss Irene J. Bashaw—Misses Selma Thorsen and Katherine Wageman of this city, and Betty Elzinga of Ellsworth.

The program, as published in last week's Herald, was carried out in full the graduating students presenting their various numbers, Mrs. M. B. Palmer giving a talk on "The Value of Music in the Education of the Child," and Principal C. F. Snelenberger presenting the diplomas with suitable remarks.

In commenting on the Recital, The Ellsworth Tradesman of May 29th, has the following:—"Sixteen years old and already well started toward the goal of her ambition—Musical Education—Miss Betty Elzinga of Ellsworth, a gifted pianist was one of the High School graduates who gave an interesting recital Monday evening at the East Jordan School Auditorium. Miss Elzinga has been instructed in music the past few years by Miss Irene J. Bashaw, one of the foremost teachers of music in this part of the State. Following her graduation it is understood that she expects to continue the study of music and her musical insight, temperament and artistic discernment promises well for her future development."

The annual Piano Recital by pupils of Miss Bashaw will be given next Monday night, program of which appears elsewhere in this issue.

SAFETY BULL PEN DEMONSTRATION

The use of a safety bull pen for confining the herd sire is frequently the only feasible means of retaining a valuable animal, and at the same time remove all danger of injuries or death to the owner of the animal.

To show how easily and cheaply one of these pens can be built plans have been definitely made to have Agricultural Engineering Specialists from Michigan State College construct one on the farm of Arlo Wickersham, Charlevoix, located opposite Nowland's Lake, on Monday, June 2.

The worth of a herd sire can not be determined until some of his heifers have freshened. By that time, the average bull is a potential menace to the life of the person handling him.

The safety-bull pen permits the animal to get sufficient exercise, and at the same time is so constructed that no one has to be in the same pen with the animal at any time.

A safety bull pen can be built in one day by two men, and the cost of construction is low. Any farmer can build one after seeing the one constructed at the farm of Arlo Wickersham.

Specialists in dairy husbandry of Michigan State College will be present at the meeting to be held at the time the pen is built. The importance of the herd sire in increasing the production of the dairy herd will be discussed.

The fine new brooder house of Fred Earl on his farm, known to old residents as the O. D. Wood place, was completely destroyed by fire early Friday morning, from an overheated oil brooder heater, together with about 60 young turkeys and some chicks and ducks. Mr. and Mrs. Earl were both away at the time, the place being in care of a keeper.

Dewey Hosler of East Jordan, the new Gleaner man, was on the Peninsula last week writing up Gleaner insurance. He met with quite good success.

Mr. and Mrs. Fred Hartman of Eldorado, and Mrs. T. J. Hitchcock of East Jordan called on Mrs. Frank K. Hayden at Orchard Hill Sunday afternoon.

A. Reich of Lone Ash farm is the first to report having his main crop of potatoes planted.

Miss Ellen Reich of Lone Ash farm went with her teacher and a few others to Kalamazoo Thursday to take part in the Typing and Shorthand Contests.

Miss Mary Seiler of East Jordan spent the week end with her cousins, Bruce and Billy Sanderson at Northwood.

Will Scott and his mother, Mrs. Emma Scott returned Wednesday from Ypsilanti, where they were called by the serious illness of Mrs. Scott's daughter. They left the lady much improved.

At the P. T. A. meeting at East Jordan Thursday evening the Peninsula made a fine showing in attendance, also in helping with the entertainment and pot luck supper.

The annual Township meeting will be held at the Ironton schoolhouse, Monday, May 26th with only four schools taking part. The other schools of the Township having passed

from the one teacher class.

Edgar Fales, who will be remembered as staying with the Charles Kennedy family and attending the Star school some years ago, was on the Peninsula renewing old acquaintances Saturday and Sunday.

The old adage, "restless lies the head that wears a crown," is only a little changed by the cold nights to those who have a cherry orchard, so far no harm has been done but there is some very narrow margins.

One of the progressive moves of the cherry growers is hail insurance. An agent of a southern Mich. Mutual Co. was on the Peninsula writing up policies.

Mrs. D. D. Tibbits of Cherry Hill entertained her Sunday School class consisting of Messrs Ralph and Lyle Scott, Robert Boynton and Wm. Shepard of Boyne City to dinner at her home, Sunday.

Mr. and Mrs. Joel Bennett received a visit from two of Mr. Bennett's nephews, Orval and Fred Collins of Onaway from Saturday to Sunday.

Mr. Hutton and helpers of Boyne City are decorating the interior of the Joel Bennett home at Honey Slope farm.

Mrs. Orval Bennett and daughter of Honey Slope farm is spending a few days with her parents, Mr. and Mrs. Geo. Papineau in Boyne City.

Miss Phyllis Woerfl of Gravel Hill spent the week end in East Jordan the guest of Miss Florence Weaver.

Master Lyle Weaver of East Jordan spent Sunday night with his cousin, Master Wm. Gaunt Jr., at Knoll Krest.

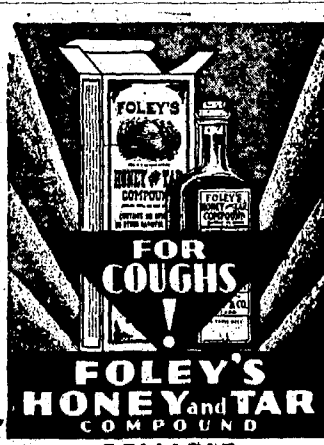

A crowd of 44 relatives gathered at the David Gaunt home in Three Bells Dist., Sunday to help Mrs. David Gaunt celebrate her 67th birthday, which by the way was May 24. They came with well filled baskets and 4 freezers of ice cream. The party included Mr. and Mrs. David Gaunt, Mr. and Mrs. Ralph Gaunt and baby of the place; Mr. and Mrs. Bob Myers of Mountain Dist.; Mr. and Mrs. Will Gaunt and family of Knoll Krest; Mr. and Mrs. Clarence Johnston and family of Three Bells Dist.; Mr. and Mrs. Joe Gaunt and family; Mr. and Mrs. Lou Sandle and Mr. and Mrs. Robert Dickie and family of Charlevoix; Mr. and Mrs. Sam Peters and family of Phelps; Mr. and Mrs. Ira McKee of Star Dist.; Mr. and Mrs. Charles Earls of Boyne City; Fred Earl and Ray Call of Detroit; Robert McDaniels of Mountain Dist.; and Miss Phyllis Woerfl of Gravel Hill. The same date is also Mrs. Geo. Weaver's and her son Lyle's birthdays, who shared the honors with Mrs. David Gaunt. All the honor guests received beautiful gifts. The crowd ate at four long tables. To say they all had a good time would be a mere whisper. Among the gifts was a beautiful basket of cut flowers from Mr. and Mrs. W. C. Howe of Overlook farm.

U. D. C. Chairman

Mrs. L. E. Fisher of Asheville, N. C., who has been selected as general chairman of the 1030 convention of the United Daughters of the Confederacy. The convention is to be held in Asheville in November. Mrs. Fisher is the president of the Asheville chapter of the U. D. C. She is a descendant of Capt. William Wood and Jesse Harris, Revolutionary war soldiers.

TORMENTING KIDNEY AILMENTS RELIEVED.

Hard-workers, whose full pay envelope is a necessity, whose good health is their only capital, must keep themselves constantly at their best. When Arthur O'Malley, Carson Hill, Calif., had to drag his aching weary body from a sleepless bed, he did a wise thing—took Foley's diuretic, and says: "Less than two bottles of Foley's diuretic relieved me entirely of my kidney and rheumatic troubles and put me on my feet and to work again. I want other workers to know about them." Guaranteed to give satisfaction. Ask for them. For Sale by Hite's Drug Store.

NUTTY NATURAL HISTORY

BY HUGH HUTTON

CHINESE CHOPPERSNOP

The choppersnop is a great enemy of the Mongolian Wart Hound, and is strongly protected by game laws because of the wart-hound's raids on the chow mein fields. Most of the wart hound catching is done by the choppersnop when quite young, for when it becomes mature it hides itself in a rat's nest and immediately

lays about 600 eggs. But as it has to cackle over each one, it soon loses its voice. The eggs of the choppersnop are manufactured into egg foyong at Canton.

An acorn with its cap makes an admirable Chinese head to go with the peanut body, and the popcorn popcorns add to the effect. Neck and tail are cloves, and the split almond feet are fastened to toothpick legs. No nut, however, will do for the Cantonese dialect the choppersnop uses.

Why We Do What We Do

by M. K. THOMSON, Ph. D.

WHY WE ARE GROUCHY

WE ALL prize cheerfulness, yet there are times when we feel sullen, morose, obstinate, sour, cross, ill-humored, gruff, austere, harsh, spiteful. The slang word that covers all these unpleasant moods is grouch.

We are sometimes grouchy because our liver is out of order or the glands of internal secretion are not performing properly, or we have had some mental shock in the form of a disappointment or disillusionment.

We are grouchy for lack of self control. The grouchy person has let some disappointment get the better of him. He is like the spoiled child who refuses to play because the other children do not let him win every time.

We are grouchy because we do not care to participate in social activities. We want to be let alone. And of course the grouch is the best means of keeping people away. It is like the smallpox sign.

Not infrequently we are grouchy for the purpose of terrorizing people. We want them to feel bad for having made us feel bad. It is a form of spite and revenge. If you can't get your way by being pleasant you are sometimes more successful by getting angry and morose. People feel so sorry for you that they are willing to do anything to get rid of you.

In so far as grouchiness has the element of obstinacy and gruffness it is motivated by the desire to defend one's self against attack. We do not poke fun at a grouchy person. If you are planning on getting off some prize joke of yours you are careful to select a person who is likely to "take" it good naturedly.

We are sometimes grouchy as a means of getting what we want, of being let alone, of buying freedom from troublesome pleasantries, of inspiring fear and abjectness, and possibly for the purpose of terrorizing others.

This sort of practice, like all others, is likely to become habitual. It often does. Hence the perpetual grouch.

Mother's Cook Book

"Suppose that this here vessel," said the skipper with a groan. "Should lose her bearings, run away, and bump upon a stone. Suppose she'd shiver and go down. When save ourselves we couldn't." The mate replied: "Oh, blow me eyes! Suppose again, she shouldn't."

HELPFUL SUGGESTIONS

WITH the daily sandwich question always present, here are suggestions for a few that are different. When making these sandwiches for small children omit the mustard, Worcestershire sauce and tabasco sauce.

Cheese and Olive Sandwich.

Add three tablespoonfuls of quick cooking tapioca, one teaspoonful of salt, a dash of pepper and paprika to one cupful of milk. Cook in a double boiler, stirring often until the tapioca is clear. Add two and one-half cupfuls of grated cheese, one-half teaspoonful of mustard, one teaspoonful of Worcestershire sauce and three-fourths of a cupful of chopped stuffed olives. This makes two cupfuls of filling.

Egg Sandwich-Filling.

Take three tablespoonfuls of tapioca, one-half teaspoonful of salt, a dash of pepper, one cupful of milk; cook until clear, stirring frequently. Cool and add four hard-cooked eggs finely chopped, four tablespoonfuls of celery chopped, two tablespoonfuls of sweet pickles chopped, one teaspoonful of Worcestershire sauce, a dash of tabasco, one tablespoonful of vinegar (mild) and mayonnaise. One may use the vinegar from the pickles if preferred.

To make rabbits to decorate cakes for a children's party use the large fresh marshmallows, pinch to form a head and tail. Take small pieces of pink paper for ears and mark the eyes and nose with melted chocolate. Small turtles may be made with large raisins, using cloves for the head, and the feet and tail of the stems of the clove. Flatten the raisin and use as decoration for small cakes.

Ginger Punch.

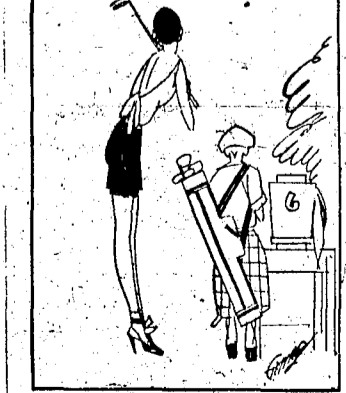

Chop one-half pound of canton ginger, add one quart of cold water, one cupful of sugar. Boil fifteen minutes, strain, add one-half cupful of orange juice, one-half cupful of lemon juice and serve poured over crushed ice.

Try cooking the old-fashioned hominy which our grandmothers used to make with corn and lye, with a few dates for a breakfast food.

Color grated coconut; it takes a vegetable color nicely. Just stir the coconut to be used in a solution of the coloring; stir until it takes the color desired. Use to decorate cakes, salads, cocktails or candy.

It is quite the fad to add specks of various kinds to ice creams, for those who like such highly flavored dishes.

SUDDENLY FINDS HIS ARM IS GONE

Man Is Victim of Mysterious Accident.

Biddeford, Maine.—Victim of one of the most mysterious accidents ever reported to local authorities, George Thomas, twenty-five, of Winchester, Mass., lies in the Trull hospital here. Driving through the town of Wells with Aubrey Stott, Winchester, and Albro McCullough of Malden, Thomas lost his arm and he doesn't know how he did it.

The three were near the post office and store at Moody in the town of Wells, when they met a large truck. Soon after the machines passed each other, Thomas remarked to his companions that his left arm felt numb. They halted by the roadside and when he turned around he discovered that his arm was gone, while blood was pouring from the stump near the shoulder. The arm had been severed as cleanly as though shaved off with a huge axe with razored edge. Stott and McCullough, who could scarcely believe what they had seen, jumped from the car, began to look around, and going back a short distance they found Thomas' arm lying in the road.

Although bleeding profusely, Thomas continued to drive until they reached the store and there was given first aid by a physician before being brought to the hospital.

Examination of his car here showed that the door handle on the left-hand side was missing and it is believed that some very sharp projection on the passing truck struck Thomas, though he declared he felt no blow.

Eyebrows Are Again O. K. Despite Beauty Doctors

Paris.—Eyebrows are in again in Paris and despite the opposition of beauty doctors the plucking fad is definitely out.

The revolt of fashionable women against the style that gave faces the bald and slightly astonished expression of a female Buddha just recovering from an electric shock, and which in addition was extremely painful, has been widely remarked by observers of such phenomena in this wayward capital.

"It is momentous, the return of the eyebrows," declares Gisèle de Blezville, one of the most noted French authorities on feminine vagaries. "It means the return of personality. It won't be considered vulgar any more for women to reveal a little of their natures."

"It is well known eyebrows are terribly revelatory, particularly of the passions." Beauty experts, however, are taking some comfort in the fact that legions of women who had their eyebrows eradicated with electric needles won't be able to get them back.

Tear Gas New Weapon Against Prison Riots

Washington.—Chemical warfare officers announced development of a tear gas weapon more suitable to quelling prison riots than the comparatively slow-acting grenade now in general use.

Prison authorities, the War department said, had asked for a tear gas weapon which would quickly produce a more highly concentrated cloudy gas. Officers devised a tear gas candle, samples of which have been sent to Governors Island, New York, for experimentation.

The candle is thrown, but ignites so rapidly after leaving the hand that quantities of fumes are being given off by the time the missile strikes.

Auctioneer at Farm Sale Sells Buggy for Nickel

Allentown, Pa.—"Thanks for the buggy ride" apparently is an obsolete phrase in Lehigh country. Recently at Lyndport an auctioneer presiding at a sale of farm goods couldn't draw any enthusiasm when he offered a fine buggy, with rubber tires and everything for sale. Finally a spectator, in jest, offered a nickel. He got the buggy, whether he wanted it or not.

Dog Hero of Utah Eats Poisoned Food and Dies

Ogden, Utah.—Utah's "meanest man" set out some poison that killed Bruno, Ogden's hero dog. The big Newfoundland was presented with a collar, a medal, and a wreath of roses after he saved the life of Alice Turner, five, in 1925, and was widely known and loved. Children and adults alike mourn his death.

Former German Ruler Wayside Inn Doorman

Berlin.—The duke of Saxe-Altenberg, formerly the sovereign of a tiny German state, was "compensated" after the revolution. As he received the money in paper currency, his income amounted to only \$300 a year. Until recently he had been living in a shooting lodge, which is worth about \$1,500. A few days ago the bailiffs drove the former sovereign out of this last refuge because he owed \$500 to various creditors. He has now obtained a job as a door-opener at a wayside German inn.

LATE AGAIN

The city business man was spending a few days holiday in the country, but by eight o'clock in the morning of the first day could not sleep, so he decided to dress and go for a long walk.

"They may talk about the country folk being early risers," he told himself, "but I reckon I've scored off them this time."

Presently he came upon a farm laborer tripping the hedges.

"Morning," said the city man airily. "Nice morning."

"You're right, sor," replied the other, "but it were real cold first thing."

"I tell those who are really ill that they are quite well and those that imagine that they are ill that they are very ill."

"A couple of hours for me. About a couple of years for you."

"To prevent bleeding at the nose," replied the country editor, "keep it out of other people's business."

Read the advertisements every day! You will find that they make your money go farther—and that you will be satisfied with your purchases long after you have bought!

THE FINEST ORNAMENT

By DOUGLAS MALLOCH

I STILL insist—while women are inclined to favor this or that—There's nothing like a cookie jar To ornament a house or flat. Mahogany and polychrome. Are not what makes a house a home. It's just a jar, through thick or thin. That always has some cookies in.

Some favor vases, silver ones, To candlesticks: some women cling. But ask their husbands and their sons. They'll say about the finest thing is just that old plan And have within the reach of man A jar upon a certain shelf Where anyone can help himself.

A house can be a house without, A sort of home a sort of way, But really there should be about A jar of cookies, as I say, A jar you needn't look to find. An old stone jar—you know the kind— One friend at least a fellow's met Who never failed a fellow yet.

Dear Editor:

WHEN you get to Hot Springs, Ark., your faith in the Volstead act is revived. Here are people drinking nothing but water!

It comes out of the ground 145 degrees hot. Public drinking fountains furnish you the hot drinking water free. It's piped into hotel lobbies, cold and hot. The water is radio-active, has no sulphur smell, and isn't bad to take.

The government controls the bath houses, holding the price down to a dollar and requiring a doctor's examination before you take a course of treatments.

I looked over several beautiful bath houses and then went back to the hotel and bathed in the tub. Let the bath houses exist for fat men who can't scrub their own ears or dry their own backs.—Fred Barron.

ON SCIENTIFIC AUTHORITY

ONE is just as likely to have dyspepsia from the nagging of a wife or husband as from gastric ulcer!

That was given among the findings of eminent British physicians recently. "Often it is not real misfortune which disturbs the health, but the trifling nothings, the petty annoyances, the pin-pricks of life which cause emotional reactions and by their constant repetition produce nervous exhaustion.

"Anxiety emaciates its victims; faith, hope, and courage assist in strengthening the body.

"The man of violent temper gives himself a dose of poison just as if he had swallowed one.

"The toxin produced by fear, acting on the brain and sympathetic system, is one of the most powerful poisons introduced into the blood."

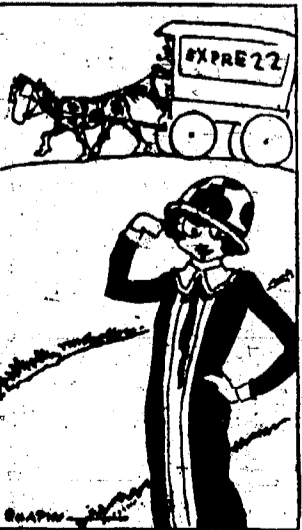

"Of course this merely gives scientific authenticity to facts which observers of people and life have been preaching to us for years.

Some of us who won't listen to anything else will listen to scientific authority.

And passing on such information as the above will be superfluous only when people no longer die of sickness which is a direct result of nagging, worry, temper or fear.

The SANDMAN STORY

ABOUT WIND'S PALACE

TOMMY, the boy who was having adventures, was very much excited when he saw the place where the Wind went when the Wind died down. He saw the Wind's Sleeping Palace which was in a sunny, hilly field, just off the edge of the woods. Above the Wind's Palace was the sky, for the Wind liked plenty of air when he slept.

There were many little creatures outside humming a low, soft melody which was very soothing and much like a lullaby. They did this for the wind, and there were katy-dids, bumblebees, humming birds in the chorus. Just by the door of the palace there was a notice.

It begged those who came to pay attention to the notice and Tommy

Tommy Jumped Upon the Wind, Riding Piggyback Fashion.

read it all. He was particularly interested in the part that said:

"When the Wind dies down and goes to his Sleeping Palace, it is so very quiet, and so very very, very still, and so very calm that even the earth people cannot feel any breeze. The Wind has completely died down," they say. It is because we are keeping his Palace so quiet.

"Uphold these traditions. And remember!

"The Wind is tired. He has been off on a Gale Occasion. A Gale Occasion is the same with him as a Gale Occasion is with the Earth people.

"Remember the rules. Tread gently." Just as Tommy finished reading the door of the Palace was opened and standing there were two little gentlemen dressed in fly-away coats of green.

They held the door back and one of them whispered to Tommy:

"We're the Breeze Brothers. We're keeping very quiet. If we began to

get excited the Wind might want to see what was up."

Tommy walked on along the great hall. It was made of beautiful stones and small pine and fir trees stood in great green buckets, on either side. As he walked along he saw the Tread Sorty Cupboard and picked out a pair of Guaranteed-Not-to-Make-a-Sound Moss Slippers.

Then he turned down a corridor to the right and before long he was in the Royal Wardrobe room talking to the Wardrobe Chief.

What a wardrobe the Wind had! There were costumes for rainy-windy days, for windy-sunny days, for windy-cold days, for windy-mild days. There were wild costumes for hurricanes, gales, blizzards, storms and there was one costume which looked like a clown's costume which the Wardrobe Chief said was the costume the Wind wore when he went on his howling parties sometimes of a very windy evening.

"You've heard him howl at night?" the Wardrobe Chief asked Tommy and Tommy said he had.

"That's what he wears," the Wardrobe Chief said. It was the wildest costume—the sleeves and trousers all frazzled, the hood covered with bells and whistles and horns.

Tommy had no idea the Wind had so many costumes, yet he could see that there was a time when the Wind wore each of them.

And then he saw the Wind asleep. Above him was his sky roof and he had a bed which looked as though it had come from the deep, deep forest. The Wind was sound asleep. The chorus outside the Palace could be heard faintly, the sun was shining down and the Wind looked like a beautiful knight of old, or maybe a prince, slim and handsome and young and a brave, merry fellow too.

When the Wind caught sight of Tommy he laughed.

"Well upon my word as the Wind, so here you are. And now to pay me back for running off with your kite last week and your balloon two weeks before you have now discovered where the Wind goes when the Wind dies down!

"Good for you, Tommy. But come, jump on my back and I'll take you to the Mountain Top. If you've come this far that's where you must be going."

Tommy jumped upon the Wind and riding piggyback fashion they dashed off, the Wind flinging his windy-sunny day cape about him. And as they flew off the Palace began to sway, and the trees and the ferns all bowed again and again and everything which had been so still began to move.

"We're off," cried the now wide-awake Wind.

How It Started

By JEAN NEWTON

THE MILITARY SALUTE

ALL of us have seen the snappy lifting of the right hand to the forehead and return, which is known as the military salute. It is a sign of deference which is rooted in a custom prevailing perhaps 2,000 years ago.

The military salute is supposed to be a survival of a ceremony observed in Rome at the time of Julius Caesar.

Due to the large influx of foreigners largely as a result of conquests and to other causes, the Roman population was composed of many races and castes between whom at times relations were rather strained.

So, it was the custom when an inferior was in the position of returning a greeting of his social superior to raise his hand, palm outward, in order to show that his hand contained no dagger.

This precaution against assassination was quite commonly taken by the so-called higher classes; and it is the movement of the hand in question which is said to have developed into the military salute.

THE WHY OF SUPERSTITIONS

By H. IRVING KING

SUNDAY'S BABY

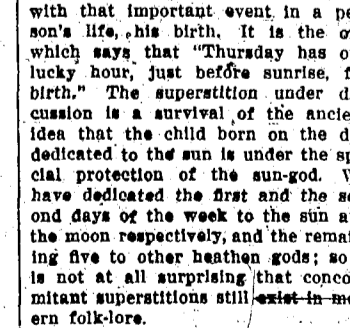

THERE are several current superstitions with regard to birth and babyhood which are clearly related to sun-worship. Some of them have already been noticed in this series. The superstition which is general in the United States, and is found also in England, which assigns Sunday as a propitious day on which to be born, is one of these survivals from the days of our remote sun-worshipping ancestors.

The barn that is born on fair Sunday is bonny and loving and blith and gay. Is the way they put it in Massachusetts, and in New York they say:

The child that is born on the Sabbath day is blith and bonny, good and gay.

In many sections the saying runs: "Sunday's child shall never know want." This superstition is of close kin to the one which says that the baby must be taken first into the sun on Sunday. There is another common superstition which connects the sun with that important event in a person's life, his birth. It is the one which says that Thursday has one lucky hour, just before sunrise, for birth. The superstition under discussion is a survival of the ancient idea that the child born on the day dedicated to the sun is under the special protection of the sun-god. We have dedicated the first and the second days of the week to the sun and the moon respectively, and the remaining five to other heathen gods; so it is not at all surprising that concomitant superstitions still exist in modern folk-lore.

Tea on Russian Trains

When a Russian goes on a railroad journey he takes his teakettle. And he takes his tongue, for the Russians appear to be constantly talking—at least on a train.

At every station, off jump the travelers with their kettles to make tea. The tea-making and the accompanying chatter usually last until the train begins to go, when the passenger rush on board, many after the train has started.—New York Times.

"Dangerous Nan McGrew" is the title of the new picture in which Stuart Erwin is appearing. This quiet, good-looking young featured player made a big hit in his role as the stupid "Axel" in "Sweetie."

THE CENSUS

THE census which is being taken this year by the federal government will be more than a mere counting of noses. Twenty-four questions are asked of each person, among which the most interesting are: "Do you own your own home?" "Have you a radio?" "What is your age?" "When were you married?" "What is your occupation?" "Are you now employed?"

When the figures are all compiled they will furnish most interesting and valuable information regarding many questions upon which public opinion seems to differ.

It has been estimated that in addition to the regular staff of 3,000 persons employed by the United States census bureau 100,000 persons will have been employed before the census is completed and the cost will be about forty million dollars. The first announcement will come about June first and will be a statement of the population. The task of tabulating all the information will take several years.

In the office of the census bureau at Washington there is a clock which records the estimated increase in population—"One birth every thirteen seconds, one death every twenty-three seconds, one immigrant entering the country every one and one-half minutes and one emigrant leaving the country every five minutes. The increase in population is one every thirty-three seconds."

The total population which the census will record has been estimated at 120 million. This will be an increase of about ten to fifteen million during the last ten years. The national bureau of economic research estimates that between 1900 and 1914 the increase was about eight million and between 1923 and 1928 about seven million. The rate of increase according to these figures would be about a million and a half a year.

President Hoover expressed the wish that every person would help to make the 1930 census a success. He said: "The values which flow from the census are of paramount importance from the point of view of both of economic advancement and of social determinations, and every person in this country has an interest in making it absolutely effective."

PREPARE GRAPES WELL FOR MARKET

(Prepared by the United States Department of Agriculture.)

"Preparation of Eastern Grapes for Market" is the title of a new bulletin issued by the United States Department of Agriculture which discusses the harvesting, packing, and handling methods employed with success by commercial growers in the various producing sections.

Types of field trays, picking benches, packing tables and containers are described in detail. Proper methods of picking the grapes, packing into baskets and loading cars are also discussed. This bulletin contains many illustrations covering the various operations from the field to loading the grapes into cars. Attention is called to the fact that the enormous expansion of the grape industry, particularly in California, has resulted in such keen competition in the marketing of juice grapes that many growers of eastern grapes are turning with renewed interest to the greater development of the table stock trade.

The bulletin points out that eastern grapes formerly sold for table stock have been largely diverted from that market. The greater ease in meeting the comparatively low packing requirements for juice stock has reacted unfavorably upon general packing and handling practices, with the result that comparatively few growers have been attempting to meet the demands of the fancy table grape trade. Rough handling of this highly perishable crop causes crushed and bruised berries which soon become moldy and decayed, especially in warm weather.

It is also pointed out that the development of the table stock trade depends upon the grower putting up a good quality pack. Good quality fruit is often spoiled by careless handling practices. Careful handling of this commodity must begin in the field and be continued through the various operations of packing, hauling, and loading into the cars for shipment.

Copies of this publication, Farmers Bulletin No. 1558-F, may be secured free of charge, upon application to the bureau of agricultural economics, United States Department of Agriculture, Washington, D. C.

TORMENTING KIDNEY AILMENTS RELIEVED.

Hard workers, whose full pay envelope is a necessity, whose good health is their only capital, must keep themselves constantly at their best. When Arthur O'Malley, Carson Hill, Calif., had to drag his aching weary body from a sleepless bed, he did a wise thing—took Foley Pills diuretic, and says: "Less than two bottles of Foley Pills diuretic relieved me entirely of my kidney and rheumatic troubles and put me on my feet and to work again. I want other workers to know about them." Guaranteed to give satisfaction. Ask for them. For Sale by Hite's Drug Store.

Junior Stand at Track Meet Saturday
The Junior Class is having a stand at the big Track Meet Saturday, so don't forget to bring along some extra change. We haven't decided whether we shall sell hot-dogs or artic-pops. It all depends on the weather. A big candy sale is certain. Be there!

JUNIORS ENJOY PROGRAM

The Juniors wish to tell the Seniors in this way how much they enjoyed the splendid program given for their benefit Senior Day.
The program started with a piano duet by Bea Boswell and Katherine Wangeman, which was a very good beginning. We have only one hint to make to the second part of the program. Better send a Senior to one of our class meetings before trying to imitate us, it might go off better. The program ended with a Cornet solo by William Taylor and was thoroughly enjoyed by everyone.

GRADES

The second grade have made an interesting village of the people of Japan. They also have a mountain which is made of sand and the Japanese people worship it. The Japanese look very attractive in their many different colored customs.

Those having 100 per cent in spelling in the fourth grade are: Leon Dunson, Kathryn Kitsman, Beatrice Justice.

The sixth grade one day last week were giving the plurals of different nouns, and one pupil said the plural of cat was kittens.

The candy sale which was held last week by the sixth grade took in \$7.30. A cocoon was found on an arbutus in the park last week. The cocoon turned out to be a beautiful luna, which are very rare.

Nine medals are to be awarded to boys of the sixth grade as the result of Track Meet last week.

BARES REVENGE IN KILLING OF BRIDE

Murderer Leaves Note for Young Husband.

Ottawa.—With the self-confessed slayer already under arrest, police are still seeking to unravel a web of mystery which shrouds the death of Mrs. Olga James, nineteen-year-old bride of Reginald James.

William Nelson, sixty-one, has confessed that he strangled the young woman in her home, leaving a note to her husband as follows:

"This is your dirty work, that you have done on me. It may be a lesson to you not to treat any other man that way. You got this woman to play the most rotten game she could play on a man. Now see what you have done."

Keeps Motive Secret.

But Nelson, although admitting the crime, still maintains silence as to the motive which prompted him, and refuses to explain the note which he left. The slayer, a painter by trade, was employed in decorating the James home last fall, just after James and his bride had moved into it. He still retained a key to the front door, police state, and effected an entry in this way.

James discovered his wife dead when he returned home for lunch. She lay in her bedroom, still in her nightdress, a six foot length of cord from a window sash weight knotted around her throat.

Trace Slayer.

Neighbors told of having seen an elderly man enter the James home soon after the husband had left it in the morning. The contractor who had built the home stated that the description fitted Nelson, one of the painters who had been engaged on the house. Police arrested Nelson, a widower, at his rooming house, and found bloodstains on his clothes.

Mrs. James was well known in Ottawa's younger social set, being the daughter of Edward Nelson, secretary-treasurer of the Ottawa Institute for the Blind.

West Point Is Worried

by Lack of Territory

West Point, N. Y.—The United States Military academy here faces a serious problem because of the lack of its own water supply, aviation field and inadequate space for its artillery ranges, according to Maj. Gen. William R. Smith, superintendent.

It may even be necessary to move the one hundred and fifty-year-old institution from its present site in order to remedy this, Maj. Gen. Smith said.

The academy gets its water from two near-by lakes, both off its property, when there is an overflow. When there is no overflow, the academy gets no water, according to Maj. Gen. Smith.

He said the use of the old artillery range has been rendered impossible by building of Storm King road, and that the only desirable airplane landing field is the Cragston club property, nearby. The academy expends \$25,000 annually to send its pupils to an aviation training, he said.

Bandit Quits Holdup for Limberger Cheese

Newark, N. J.—Resting an arm on the counter, a timorous bandit hesitantly displayed an automatic revolver to Edward Cohen, delicatessen dealer, of 133 Wilson avenue, the other day, and said: "Hand over \$10."

Cohen demurred.
"Why should I give you \$10? I'll buy the gun, maybe," he said.
The bandit looked doubtful.
"I can't get up the nerve to shoot you," he sighed. "I ought to do it, I suppose."

Moments of embarrassed silence on the part of both followed. "Well, give me a quarter's worth of cheese—Limberger," the bandit said finally and threw down a quarter. Cohen complied and watched his bandit-customer disappear. That's the story he told later to Detectives Joseph J. Kenny and John F. Bowbliss.

Sword of Stuyvesant

Given to N. Y. Museum

New York.—Peter Stuyvesant's sword, worn by the last Dutch colonial governor of New York nearly 300 years ago, has been presented to the Museum of the City of New York by De Lancey Kounze, according to announcement from the museum. The sword is 27 1/2 inches long, with a wooden grip and a tightly laced leather scabbard bound in brass.

Through six generations the weapon came down to Henry Stuyvesant, who died in 1919. The latter gave the sword to Mrs. Annie Parsons Kounze, his cousin, in 1895. She in turn gave it to her son, the present donor.

Child's Fists Rout Dog

After Attack on Brother

San Francisco.—Without even looking for a club, Laura McFarland, thirteen years old, beat off with her bare fists a police dog that had attacked her four-year-old brother while the latter was petting the animal. The attack took place in the woods near here and after driving off the dog Laura carried her brother through a dense growth of poison ivy to the road and hailed a passing car.

Doctors said the boy, although severely torn by the dog's fangs, would recover.

State News In Brief

South Lyon—Residents of South Lyon have prepared a petition asking that a vote be taken on incorporation as a city.

Petoskey—The city council and Emmet County Highway Board have approved State Highway Department plans for a \$125,000 concrete bridge over Bear River here.

Grand Rapids—Removal with a bronchoscope of a pin two and a half inches long attached to the glass eye of a stuffed dog, from the left lung of 4-year-old Corinne Hansen, was reported by surgeons at Isolation Hospital here.

Charlevoix—Harry Coblentz, this city, was severely burned in a peculiar accident at the Charlevoix Garage. He was washing oil and grease from a car motor with a wire brush. The brush short-circuited on the generator, causing sparks which ignited the gas he was using.

Bay City—The Knights of Columbus state convention here June 1 and 2 will bring 1,000 delegates from 70 cities to Bay City. C. L. Goddard, general chairman, announced here. Commandery drill teams of Detroit, Wyandotte, Saginaw and Flint will add color to the meeting.

Bay City—Dissatisfied with the census result here, two unnamed business men have underwritten a survey to make a new check of the city. A revised report issued by Dr. Ernest F. Crummer, supervisor of this district, gave the population as 48,935, a decrease of 157 from 1920.

Ypsilanti—Ypsilanti residents will be favored over those residing outside the city under a new schedule of rates for Beyer Memorial Hospital, operated by the city, which will go into effect June 1. The initial deposit required from residents will be \$25, compared with \$50 for non-residents.

Lansing—Lansing has a population of 78,421 against 57,327 in 1920, an increase of 21,094, or 36.7 per cent. It retains its rank as the fifth city of the state. East Lansing, site of Michigan State College, increased its population 131.4 per cent during the 10 years. The 1930 population is 4,372, against 1,889 in 1920.

Marquette—During the last 10 years Marquette County has lost 1,752 in population, Frank E. McKindley, of Houghton, district supervisor, announced. The county now has 44,034 residents, compared to 45,786 in 1920. The city of Marquette shows a gain of 2,062, while Ishpeming and Neegaunee report losses.

Clare—William, Willard and Willis are the names which have been given to three sons, born to Mr. and Mrs. Eugene Orvis. The three-boys are all healthy and weigh between four and five pounds. The father is 48 years old, and the mother, 34. There are two other sons and three daughters in the family, which lives on a farm northeast of here.

Lansing—Two coyotes, both females, have been killed in Shiawassee County. The two animals may have wandered south from Bay County where coyotes were reported last fall. One of the coyotes, a yearling female, was shot on the William DeFrenn farm, five miles north of Owosso. The other, a full grown female, was killed by Garvin Telfer seven miles north of Corunna and about a mile away from where the first was killed.

Jackson—Sinkler J. Bean, 76-year-old Jackson County farmer, was killed by a premature explosion of dynamite on his farm in Spring Arbor Township, five miles south west of Jackson. His body was hurled 80 feet from the place where he had been blasting rocks. Mr. Bean attracted considerable attention last summer when he attempted to halt the paving of M-60 near his farm on the ground the State had not offered him adequate damages.

Ann Arbor—The University of Michigan's athletic letter will be the same size for all sports in the future, the Athletic Board has decided. The new standard is six inches in height and nine inches across, except where the winner desires a sweater of coat design, in which event a smaller one will be used. The regulation eliminates the large football letter and also what has been termed the minor sport "M," awarded heretofore in several branches of competition.

Coldwater—Loomis Battery, a Branch County unit in the Civil War, has held its last reunion. The battery entrained April 30, 1861, with 129 men and six brass cannon. Four years later 49 of the men returned. Each year since then members of the battery have held a reunion here. Today, however, the battery lives only in memory, as its last survivor, A. R. Groves, 91 years old, announced to a committee that he could no longer attend the one-man reunion because of age.

Mt. Clemens—His Majesty, King Prachtipok, of Siam, has bought a boat from a Mt. Clemens builder. Construction of the craft was begun by the Hacker Boat Co. on receipt of the approved plans. The cost is \$35,000. A gold-trimmed radio, which will cost the king an additional 7,700 ticals—or \$3,000—is to be installed. The craft will be 38 feet long and eight feet wide, with a 30-inch draught. The king is 37 years old. He succeeded to the throne in 1925 when his brother, Rama VI, died. He toured America when a prince.

DIPPING INTO SCIENCE

Sun's Gravity Greater Than Earth's

The gravity of the sun is far greater than that of the earth. Scientists claim that a person weighing 150 pounds on the earth would weigh nearly two tons on the sun. A weight is attracted to the earth at the rate of 16.08 feet for the first second, whereas on the sun the rate would be 444 feet for the first second.

Cow Stanchions Should Be Properly Adjusted

The stanchions should be so adjusted that the cows deposit their droppings in the gutter and not on the platform. Clean, dustless bedding should be provided daily. The flanks of the cows should be clipped to keep the hair short so that the cows may be easily cleaned with a stiff brush. Brushing should be done as often as possible. Diseased cows should be isolated from the healthy ones. A constant inspection should be maintained to locate new diseases. Every dairyman should make it a point to become acquainted with common cow ailments. Milk from diseased cattle should never be sold.

CAREFUL MOTHERS KEEN ABOUT IT

"Coughs never last long in our family, for we use Foley's Honey and Tar," says Mrs. J. M. Hill, Homer, Ga. "Foley's Honey and Tar has never failed to take care of coughs and colds in our family, and we have used it over 20 years," says Mrs. Ornstein, Green Bay, Wis. Dependable always, no opiates, no chloroform, nothing that a careful mother hesitates to give her children. That's why mothers endorse Foley's Honey and Tar. Ask for it. "YOU ARE WANTED ON THE PHONE"

YOU ARE PROMPT to respond to the ring of your phone. The very idea that some one has a personal message for you intrigues your interest.

Has it ever occurred to you that back of every advertisement in this paper there is some one with a personal message for you? More often than not these advertisements were written with you in mind.

It is impossible for most merchants and manufacturers to give you a phone call about their goods, their wares, or their services. So they pay us for the privilege of calling these things to your attention in our advertising columns.

Give an advertisement the same attention you give to a phone call. Many of them are just as important to you—and just as interesting. They will help you to economize and keep posted on news of vital interest to you and your pocketbook.

Don't lay this paper aside, today, without reading the ADVERTISEMENTS

They are personal calls for you.
