

Charlevoix County Herald.

VOLUME 34

EAST JORDAN, MICHIGAN, FRIDAY, JULY 25, 1930.

NUMBER 30

Are Candidates For Office

PROS. ATTY LEWIS AND SHERIFF VAUGHAN UNAPPOSED.

Time for filing primary petitions for County Offices closed Tuesday with the following candidates in the field:

For County Treasurer—Joseph W. Flanders of Charlevoix and Howard C. Stephens of Hayes township.

For County Clerk—Fenton R. Bulow and Oakley Hammond, both of Charlevoix.

For Register of Deeds—Frank F. Bird of Charlevoix and Sabin Hooper of Boyne City.

For Judge of Probate—Erwan A. Rubssegger of Boyne City and Robert W. Paddock of Charlevoix.

For Prosecuting Attorney—Rollie Lewis.

For Sheriff—Dave Vaughan.

For Coroner—Guy C. Conkle and S. B. Stackus of Boyne City, and F. F. McMillan and Charles Winder of Charlevoix.

For Drain Commissioner—James Simmons of Charlevoix.

For Circuit Court Comm'r—Lisle Shanahan, Charlevoix.

For Surveyor—E. A. Robinson of Boyne City.

Filed at Lansing

Congressional Representative—(Eleventh District) Frank P. Bohn, Newberry; John J. O'Hara, Menominee.

State Senator (29th district)—Calvin A. Campbell, Indian River.

State Representative (Charlevoix district)—Louis E. Anderson, Northport; Arthur L. Fitch, Charlevoix.

Primary Election is the second Tuesday in September—the 9th.

Leads India's Women

Lady Tata is the new leader of India's women in the fight for independence. She recently returned from London and was elected president of the Federation of Women Leagues of India.

World's Record for Kojac

George Kojac of the New York Athletic club won the 220-yard backstroke in the National A. A. U. swim meet at Long Beach, Calif. Kojac swam the 220 yards in 2 minutes 35.3 seconds against his former record of 2 minutes 37.4 seconds made in Honolulu last year. This is a new world's record for a 220.

"Can you send paw down to help me out?" begged the young man over the phone.

"What's the matter with you?" his mother asked, in a tired voice. "And where have you been all night?"

"I'm in jail," he confessed.

"Oh, you are, are you?" she snapped. "Well, so's your old man."

It is a stupid mind that has no turning.

A man may have got his B. A. and M. A. and still have to rely on his PA to support him.

TRAVERSE CITY YOUTH KILLED IN BOYNE CITY

Carl E. Beardsley, 23 years old, of Traverse City, was electrocuted at 7:45 Friday evening, July 18th, while at work at a sub-station of the Michigan Public Service Co., at Boyne City. He was killed in grasping a wire as he slipped from a pole.

The youth, a member of the Public Service Company's crack line crew under foreman Carl Schulgren, had climbed a pole at a sub-station behind the Company's Boyne City office to install metering equipment. His work was done and he was coming down the pole when apparently he slipped and reached out instinctively for a wire a few inches away. As his forearm struck the wire, 6,600 volts passed through his body, and he slumped to a platform just below. There was no eye-witness to the accident but others in the crew were at his side in a moment to begin artificial respiration, and for seven hours kept up a futile effort to save his life. A physician pronounced the youth dead at the end of three hours but for four hours more, until three o'clock, Beardsley's fellow "Inmen" worked over him. It was a serious, real-life demonstration of the safety exhibition that the same crew staged in the windows of the Michigan Public Service Company here several months ago.

The body was brought to the Sampson Funeral Home here to lie in state until the time of the funeral services.

Mr. Beardsley, an expert lineman, had worked for the Michigan Public Service Company for three years and was employed previously for about two years by a Grand Rapids electric firm. Nearly all of his life was spent in Traverse City and it was here that he was born June 29, 1907. He graduated from Traverse City High School and was popular in a wide circle of friends.

In September 1927, Mr. Beardsley was married to Miss Margaret Townsend. He leaves his widow and two children, Leonard, two years old, and Dickie, one year old. His parents, Mr. and Mrs. Frank Beardsley, and one brother and three sisters survive. Traverse City Record-Eagle.

Fremont—The flower boxes in front of the business places on the main street of Fremont are again in bloom. This is the third year that this work has been undertaken by the Fremont Woman's club and each year more boxes have been placed than the year before. More than 60 flower boxes are now placed according to Mrs. Jean Reber, president of the club. This practice has caused much favorable comment from tourists going through Fremont.

Ann Arbor—University of Michigan's fourth expedition to Greenland, "North Pole of the winds," will set sail July 30, with a second contingent to follow August 13. It was announced here. William S. Carlson, assistant geologist during the third expedition, and Max Demorest, a student assistant, will be members of the first group. The second group under the direction of Evans S. Schmelting, leaves in August. Both sections will return in 1931.

Manistique—The bodies of three Hunts Spur sisters who vanished were found huddled together at the bottom of McDonald Lake near White-dale, 15 miles east of here, by a searching party. The dead are Mrs. Lawrence Grenier, 17 years old, Genevieve Laberty, 11, and Leona Laberty, 13. Apparently the trio had waded out from the shore and dropped suddenly off a ledge into seven feet of water. None of them could swim. Mrs. Grenier leaves a husband and a year-old daughter.

Ypsilanti—Ancient Egypt and the rule of the Pharaohs is not dead. After more than four thousand years, life has come out from this ancient civilization to Ypsilanti. When the explorers of King Tutankh-amen's tomb were seeking details of the past in the inner recesses of the old stone structure, they came across a small vase of wheat. Last year O. S. Sturtevant of Ypsilanti, sent for some of the wheat and this spring he planted it in his garden. It grew, and at the present time, is nearly ripe. The wheat is of a spring variety.

Detroit—Although the Detroit-Windsor tunnel has not yet been opened for traffic and the last bulkhead separating the two ends was pierced only a short time ago, the tube already has been used by aliens attempting to gain entry to the United States. Three inadmissible aliens were caught at the Detroit end of the tunnel. The three apparently believed that the Detroit end of the tube would not yet be under guard. In that they were wrong, for a guard was stationed there immediately the ceremony was over.

There are two classes, the righteous and the unrighteous. The classifying is done by the righteous.

Vacationing Without Your Home Paper

HOME MANAGEMENT PROJECT FOR COUNTY WOMEN

Plans are already being made for this year's program, which will start the latter part of September. The Home Management Project will again be continued by some 100 women throughout Charlevoix County.

Miss Rosalind Jewett, Ass't State Demonstration Leader, is spending two days, Thursday and Friday, July 24 and 25, in meeting with different communities and outlining the program to be carried on this fall.

Instead of 11 groups carrying on the work, we expect to have 14 enrolled for the new project. Each group will have their own local organization and two local leaders who are delegated to represent them at the main meetings. At this time the material is presented by a specialist from the Michigan State College. The leaders then return to their respective communities and hold similar meetings where the information is passed on to each member enrolled.

The Extension Service cordially invites any communities or individuals not already securing this valuable work to get in touch with County Agent Mellenkamp, who will be only too glad to assist in the organization necessary to receive the project. In the past five years Charlevoix County women have enjoyed the material and information received from two Clothing Projects, two Nutrition Series, and now from two Home Management courses.

Is it any wonder that the rural ladies are interested in participating in these projects, when the material is so attractive and interesting and includes the subjects that are so vital to human happiness.

B. C. MELLENCAMP, County Agr'l Agent.

Frank F. Bird For Register of Deeds

I wish to announce that I will be a candidate for re-election on the Republican ticket at the Primary Election, Sept. 9th, for the office of Register of Deeds for Charlevoix County. If nominated and elected I will give the public the same prompt and efficient service that I have in the past. FRANK F. BIRD

"I can read you like a book." "But you can't shut me up as easily."

SAY FEEDING WHEAT WILL HELP PROFITS

East Lansing, July 22—One way of obtaining a profit from this year's crop of 15,000,000 bushels of wheat in Michigan is to use it as a feed for livestock in place of corn and other relatively high priced feed stuffs, according to the heads of the crops and livestock departments of Michigan State College.

Dairy cattle, hogs, and poultry furnish a paying market for wheat as long as the present market conditions exist. As a feed for cows, wheat can be used as 25 per cent of the concentrate ration. It can be used as the sole feed for hogs weighing 75 lbs. or over, and it may be used for from 65 to 70 per cent of poultry scratch feed and 25 per cent of the laying mash.

Farmers can save 27 cents a hundredweight in producing milk or 7 cents a pound on butterfat by substituting wheat for an equal amount of corn in the dairy cow's ration, is the opinion of the professor of dairy husbandry at Michigan State College. He suggests a ration made up of 3 parts wheat, 2 parts corn, 3 parts oats, and one-half part of cottonseed meal.

Hogs which sell for \$8.50 a hundredweight will pay \$1.05 a bushel for the wheat fed to them. This estimate was made by the head of the animal husbandry division who advises the feeding of wheat as long as its present low prices persists.

Michigan farmers each year purchase 5,000 cars of corn, 1,000 cars of barley, 1,000 cars of oats, and as many or more cars of mixed feeds. Much of this feed bill can be avoided if wheat is substituted in the ways recommended.

All That's Done With

"My dear mother-in-law, I want to make a confession to you. I get into a rage terribly easy, often without cause."

"Don't worry, my dear son-in-law; as long as I'm in the house you will never fly into a rage without cause."

Whang!

"How are you getting along at school, Henry?" asked the father.

"Fine," answered the son. "I have learned to say 'thank you' in French."

"Good," came back the father, "that's more than you ever learned in English."

Washington on Mount Rushmore

Head of George Washington, carved by Gutzon Borglum on the face of Mount Rushmore in South Dakota, unveiled recently as the first completed work of the projected memorial.

KALAMAZOO MAN ARRESTED AT CHARLEVOIX

Charlevoix, July 21—Sheriff Dave Vaughan, Deputies Henry Cook and Charles Marshall of Charlevoix, and State Troopers Black and Kozowitz raided the John Knight summer home on Belvedere Ave., today, confiscating 26 cases of beer, 10 gallons of gin, 8 grain sacks of whiskey in quart and pint bottles, and a number of other small containers.

The warrant for the raid was issued after numerous complaints by the neighbors of all-night parties, operating a speed boat at all hours of the night and early morning. He had been warned several times—officials say, to discontinue such disturbances.

Arraigned before Justice Robert Withers, Knight waived examination, furnished a \$1,000 cash bond, and was bound over to the Circuit Court. Knight is a member of a prominent Kalamazoo family.

Charlevoix, July 22.—John Knight, member of a prominent Kalamazoo family who was arrested in a liquor raid on his summer home here, today was arraigned before Judge Parm G. Gilbert of Traverse City, sitting in Circuit Court here. Knight was fined \$1,000, placed on probation for two years and ordered to sign a perpetual search warrant, authorizing local officers to sift his premises at will.

BEEKEEPERS PLAN TOUR FOR AUGUST

East Lansing, July 22—Michigan and Ohio beekeepers have planned a four day auto tour starting Aug. 5 at the Adrian Court House and finishing Aug. 8 at Sault Ste Marie. Over night stops will be made in East Lansing, Manistee, Petoskey and Sault Ste Marie.

Specialists in apiculture at Michigan State College state that advance inquiries concerning the tour indicate an attendance which will exceed last year's record of 50. Members of the tour can camp, obtain rooms in private homes or in hotels at each of the towns in which night stops are made.

The yards of prominent beekeepers along the route will be inspected and authorities in apiculture will give talks at some of the stops. Visits will be made to some commercial orchards where the use of bees to increase the set of fruit is now a regular practice.

At one point in the Upper Peninsula, a set of experimental plats where tests are being made of the effect of the work of bees upon the crop of clover seed will be shown to the beekeepers.

Oxford—Elmer Workman, 7-year-old son of Mr. and Mrs. Clain Workman, of Oxford, drowned in a gravel pit near his home. The boy and his brother Jack, 5, were wading when Elmer slipped into a deep hole. Jack called their mother. The body was recovered.

Detroit—A Detroit woman claims the tree sitting prize for her cat. Some weeks ago she moved to a new home. Next door on one side is a playful police-dog and next door on the other side is a bolterous Alfred. The cat had passed all of his outdoor hours in a tree in the back yard.

Detroit—While taking a nap on the grounds of the City Airport, Gratiot and Connors avenues, John Vattine, was killed when he was run over by a tractor. Joseph Lake had been repairing the tractor and backed it without knowing that Vattine, a laborer, was taking a siesta behind it after eating his lunch.

Erie—Marcel Bills, 11 years old, was killed when he jumped from a farm vehicle into the path of an automobile on the Dixie highway near his house. The driver of the car, George Kappus, of Cleveland, drove into a ditch and wrecked his car in an effort to avoid the boy. No inquest will be held.

Mt. Clemens—"You remind me of my dead wife," Joseph Hill, 45 years old, of Berkley, told a pretty Mt. Clemens housewife when he called at her home to sell some weatherstrip. "That wasn't so bad," the woman told the court, "but he hugged me, too." Hill was arrested on an assault charge. At his trial in Justice Court here he apologized and was given a suspended sentence upon payment of costs.

Lansing—A decline in employment in Michigan between May 15 and June 15, is indicated by statistics compiled by the Department of Labor and Industry. On the earlier date, 496 manufacturing companies reporting to the department had 296,400 persons on their payrolls. By June 15, the number had dropped to 277,898. The average weekly payroll declined from \$9,338,147 to \$8,297,995 and the average weekly earnings from \$21.56 to \$29.24.

Raising Quality Potatoes

MANY FARMERS GROWING CERTIFIED SEED POTATOES.

From all indications Charlevoix County will again be represented by a splendid group of farmers raising the highest quality potatoes to be grown anywhere—namely, certified seed. This year, however, we have a smaller acreage and a smaller number of farmers raising potatoes.

In the production of certified seed, certain requirements have to be met which are so rigid that but few growers can get to first base.

Proper spraying equipment, efficient potato machinery, fertile soil, thorough knowledge of diseases, and proper facilities for handling and storage are prime requisites.

In every case the list of seed growers includes experienced producers, so that we can expect a very successful season.

Following are the potato growers raising certified seed:

Name	Address	Acre
Clint Blanchard	Charlevoix	4
George Meggison	Charlevoix	4
Roscoe Smith	East Jordan	4
Arthur Niclroy	East Jordan	5
E. P. Jensen	Walloon Lake	2
W. K. Straw	Charlevoix	7
L. R. Hardy	Boyne City	5
Henry Eckert	Charlevoix	2
Frank Behling	Boyne City	4
Harry Behling	Boyne City	5
H. C. Stephens	Boyne City	10
Lee Sneathen	Charlevoix	5 1/2
John Addis	East Jordan	6
W. H. Henley	Charlevoix	2
H. J. Korthase	Boyne City	5
R. V. Liskum	East Jordan	4 1/2

B. C. MELLENCAMP, County Agr'l Agent.

PETOSKEY YOUTH, 20, DROWNS IN ANTRIM

Bellaire, July 20.—George Spiegel, aged 20, son of Mr. and Mrs. John Spiegel of Petoskey, was drowned in Intermediate river, five miles north of here late today. The boy's father is an official of the Petoskey Portland Cement Company.

George, with his parents and a brother, 12 years old, had gone to Snowflake Camp, a clearing along the river bank near where the drowning took place, to attend a Spiritu-alist camp meeting. The excessive heat drove the boys from the religious services into the river, where, with other younger members of the camp, they sought relief.

George was swimming on his back, according to the story of his brother and a companion, when he suddenly disappeared. The youths believed at first he had dived under, but when he failed to come up they called for help. Because he didn't rise to the surface led county officials to believe the youth suffered a heart attack.

The body had not been recovered late tonight.

COUNCIL PROCEEDINGS

Regular meeting of the common council of the City of East Jordan held at the council rooms, Monday evening, July 21, 1930.

Meeting was called to order by the mayor. Present: Mayor Gidley, and Aldermen Maddock, Dudley, Taylor, and Williams. Absent: Aldermen Watson and Parmeter.

Minutes of the last meeting were read and approved.

Bills were presented for payment as follows:

Standard Oil Co., gasoline	\$ 1.71
John Whiteford, work at cem.	45.50
Jerry Deshane, dirt for cem.	2.00
Daniel Parrott, work at cem.	21.00
Gus Anderson, grinding mower	1.00
John Vallance, labor	36.75
Wm. Prause, labor	33.25
Dan Kale, gravel	33.50
Wm. McPherson, mowing lawns	2.80
Bert Lorraine, printing	7.50
E. J. Hose Co., fires	50.00
Mich. Bell Tel. Co., rentals	7.38
G. A. Lisk, printing	28.00

Moved by Alderman Williams, supported by Alderman Maddock, that bills be allowed and paid. Motion carried by an aye and nay vote as follows:

Ayes—Maddock, Dudley, Taylor, Williams and Gidley.

Nays—None.

On motion by Alderman Williams, meeting was adjourned.

OTIS J. SMITH, City Clerk.

Hours For Springling

The hours for the use of city water for sprinkling purposes are from 6:00 to 8:00 a. m.; and 6:00 to 8:00 p. m., central standard time.

All persons violating this ordinance are subject to penalty.

PENINSULA

(Edited by Mrs. E. Hayden)

Mr. and Mrs. Johnnie Healey of Muskegon visited his parents, Mr. and Mrs. Charles Healey at Willow Brook farm from Monday to Wednesday.

G. C. Ferris came Wednesday from Detroit to spend his two weeks vacation at his farm.

Mrs. Geo. Staley received a letter from her nephew, Lyle Jones some time ago saying he was as far as Iowa and was having a wonderful trip. He is enroute to the wheat harvest in the West.

George Meggison and James Cook of Charlevoix, Route 2 were business callers on the Peninsula Monday.

Mrs. J. W. Hayden of Orchard Hill had a valuable cow killed by lightning in the pasture during the severe electric storm Sunday night.

Mr. and Mrs. Robert Moore of Detroit visited Mr. and Mrs. Fred Wurn Saturday, and Mrs. Wurn accompanied them to call at Orchard Hill Saturday evening.

Mr. and Mrs. Robert Moore and Mr. and Mrs. Carlton Moore and two children of Detroit visited Mr. and Mrs. Fred Wurn Monday evening, also called on Cash A. Hayden at Orchard Hill.

Mrs. Joel Bennett and son, Orval made a business call at the Ray Loomis home Friday and spent a very pleasant evening.

Martin Staley is visiting his daughter, Mrs. Joel Bennett at Honey Slope farm.

D. D. Tibbits has a large force picking his cherries at Cherry Hill. Charles Healey also is harvesting his first cherry crop.

A very nice crowd attended the dance at Peninsula Grange Saturday night.

Mrs. Wilfred Arnot who has been employed in Petoskey arrived at Lone Ash farm Thursday for a week's lay

off because of lack of work at the laundry.

Mrs. Nellie Evans of Flint arrived at Honey Slope farm Saturday evening to recuperate from an operation for appendicitis.

Mrs. F. D. Russell of Ridgeway farm spent Sunday with Mrs. Mercy Woerful at Gravel Hill who is very ill with pleurisy following a severe attack of measles.

Mrs. Caroline Loomis and Mr. and Mrs. Ray Loomis and daughter, Miss Pauline, of Gravel Hill, north side, visited in Charlevoix, Sunday.

Mrs. T. J. Hitchcock of East Jordan called at Orchard Hill Saturday afternoon and took her grandchildren Arlene and Lloyd Hayden home with her to spend Saturday night.

Mr. and Mrs. Elmer Faust and family of Lone Ash farm and Mr. and Mrs. Daniel Faust of Three Bells Dist., and Mrs. Belle Edwards and Master Jimmie Hills of Detroit motored to Mackinaw Monday where they had dinner and spent a very pleasant day, returning home in the evening.

Mr. and Mrs. T. J. Hitchcock of East Jordan motored out Sunday morning and picked up C. A. Hayden and Frank Hayden and two children of Orchard Hill, and was joined by Mr. and Mrs. S. A. Hayden and two children of Detroit and Mr. and Mrs. A. Reich of Lone Ash farm and Mrs. J. W. Hayden of Orchard Hill and all went to Portage Lake to the Grand Review. After a very pleasant day they returned home, arriving at Orchard Hill at six o'clock where the whole party had supper.

PLEASANT HILL

(Edited by Anson Hayward)

Joe Gaunt and son Walter called on Joe Ruckle and family Thursday afternoon.

Mrs. Anson Hayward visited Mrs. Will VanDeventer Friday afternoon. Joe Ruckle helped his father with his haying, Saturday.

Mr. and Mrs. Sam Bennett and family of St. Ignace called on Mr. and Mrs. Joe Ruckle, Sunday.

Mr. and Mrs. Ernest Lanway were up to their farm Sunday.

Mr. and Mrs. John Schroeder and Mr. and Mrs. Will Schroeder and family, called on Mr. and Mrs. Joe Ruckle Thursday night.

Mr. and Mrs. Joe Ruckle and boys, and Miss Vesta Hayward visited Mr. and Mrs. Joe Gaunt Sunday afternoon.

Famous Statuary Hall

—Senator Morrill's Idea

Justin Smith Morrill suggested the plan of putting statues in the Capitol of prominent men from each state. The National Statuary hall, semicircular in shape and designed by Latrobe, after a Greek theater, is one of the most beautiful rooms of the Capitol. On the north side it has a colonnade of Potomac marble with white capitals, and a screen of similar columns on the south side supports a noble arch. The domed ceiling, decorated after that of the Roman Pantheon, springs 57 feet to a cupola by which the room is lighted. Above the door leading from the rotunda is Franzoni's historical clock. This room was the hall of representatives, and was the forum of debates by Webster, Clay, Adams, Calhoun and others whose names are indelibly associated with the history of congress. In 1864 at the suggestion of Senator Morrill of Vermont (then a member of the house) the room was set apart as a National Statuary hall, to which each state might send the statues of two of its distinguished citizens. Rhode Island was the first to respond, choosing Roger Williams and Nathaniel Greene.

Small Need for 'Gator to Practice Speeding

At St. Augustine, Fla., there is perhaps the largest alligator farm in the world, having about 6,000 alligators of all sizes. A party was being shown around by a negro and they came at last to an alligator that weighed 1,200 pounds and was 800 years old. This 'gator was taking life easy and while we stood there, perhaps 15 minutes, he did not show by any outward signs that he was even alive. One of the party mentioned this to the guide, and that it must be nice to be an alligator, and he would not mind being one himself if all they had to do was to eat and sleep. On further reflection he asked the negro just what the alligators did do anyway, and the negro replied: "Well, sub, scientists done fig'ur out that these 'gators done live to be 'bout 1,800 years old and I done guess them animals jes' fig'ur that what little they got to do they done got plenty time to do it in."

At Least That

The traveler looked at the long list of calls and the numerous trains he had to catch during the week's trip. "I don't mind getting up early," he said, "but you've not even left time for meals."

"You can eat on the trains," replied the manager. "You can't waste time with all those calls to make."

The traveler departed and was again on the mat when the week was over.

"Well," said the manager, "how many orders?"

The traveler hesitated for a moment and then said cheerfully:

"Oh, I haven't got any orders, sir, but I caught all those bloomin' trains!"—Stratford Beacon Herald.

REVENGE

The young bride was standing on the tiled porch using a new pair of field glasses.

"Darling," she cried, "the real estate agent who told you that our house was only a stone's throw from the station is getting out of the train now."

"Oh, is he?" returned her husband grimly. "Well, give me a brick out of the garden and I'll do my best."

Alimony for Him

"I guess I'll have to give him up as hopeless," she sighed.

"Is he as bad as ever?" asked her dearest friend.

"Yes," she replied. "I've bought him the right shaving cream, the right tooth paste, made him use the proper tobacco; in fact, I haven't overlooked a single ad, and still he is impossible."

Results of the Fray

"Say, old man, you are a sight! Why, you are pusted with fudge and smeared with chewing gum. Get mixed up in a candy store?"

"Worse than that. I attempted to umpire a basketball game between two girl teams."

A Small Matter

Clarence Littleneck—"Thinking of you all day has given me absence of mind."

Dolly Dill—"Don't worry. You'll never miss it."

NOT WILLING TO HELP

"Is your rich uncle willing to help you?"

"No—he's willing everything to his wife."

The Real Student

The merry boss to pleasure turns while we eat simple hominy. The one who pays the taxes learns Political economy.

A New Recipe

"John," said Mrs. Newlywed, "run to the drug store quick and get a bottle of paste."

"Library paste?" asked her husband, in surprise.

"Yes, if you can't get kitchen paste, I'm going to make some French pastry for your dinner."

Liquid Chicken

Freshman—We sure have a fine landlady. She saved me the tenderest part of the chicken when I was late for dinner yesterday.

Soph—What part was that?

Freshman—The gravy.—Capper's Weekly.

More Modernism

Jack—Why did you break with Alice, I thought you were crazy about her?

Jim—I am, but I decided I couldn't stand it to live with her folks.

No Good Cook

Ichiban—My wife is a canny housekeeper.

Sayonara—My wife doesn't know how to cook either.

AUTOMOBILE HINTS

Soon we will begin to see advertisements announcing the sale of houses having all the comforts of an automobile.

Exhaust valves are liable to cause trouble in the engine because of extremely high temperatures to which they are subjected.

In order to give the cooling system proper care, once each week is not too often to completely drain the radiator and refill with fresh water.

It is just a mental slip that makes so many drivers think they are helping the engine start when they use the choke before the starter gets into operation.

Loose lugs permit the tire to weave from side to side and thus induce considerably more tire wear than that due to the normal turning motion of the wheel.

It's easy to look on the bright side as long as it's turned toward you.

WILSON TOWNSHIP

(Edited by Mrs. C. M. Nowland)

Frank Pardy of Petoskey is repairing A. R. Nowland's and E. G. Kurchnski's wells this week.

Mr. and Mrs. Albert Riffenberg, Mr. Gatla of Detroit, Misses Margaret and Gertrude Yaunt of Muskegon are visiting Mr. and Mrs. Chas. Schroeder, and Mrs. Riffenberg's brothers and sisters.

Friday morning at 8 o'clock when Clare Brooks of Boyne City was coming out to milk his cows, he met Carl Zinck, who works at the Tannery, on the north side of Nowland Hill, both cars were badly wrecked. Many close calls have been reported on that road.

Mr. and Mrs. Roy Hardy and family leave Thursday for Salem, Virginia for a visit with her parents, Mr. and Mrs. Willard Warden.

Mr. and Mrs. Alfred Raymond recently of St. Petersburg, Florida spent the week end with his parents, Mr. and Mrs. Eugene Raymond.

Miss Nellie and Ernest Raymond spent the week end with their brother Will and wife in Detroit, calling on other friends and relatives. Mrs. Roy Church accompanied them to Pontiac.

Mr. and Mrs. Max Graham and son Melvin of Detroit arrived Friday for a visit with her grandparents, Mr. and Mrs. E. L. Nowland here, Mr. and Mrs. Louis Harndon of Eveline, and other relatives.

Mr. and Mrs. George Phillips of Oakheart, Ill., are spending 2 weeks vacation at the home of Mr. and Mrs. Leonard Dow on the Town Line road.

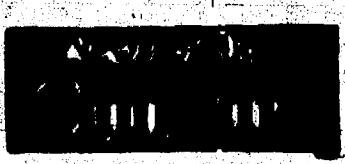

Mr. and Mrs. Frank Provost and baby of Detroit arrived Saturday for a two weeks visit with her parents, Mr. and Mrs. John Martin and other relatives.

Mrs. C. M. Nowland spent Thursday with Mrs. Joel Sutton.

Mr. and Mrs. Alva Thompkins left Sunday for a weeks vacation with relatives in the south part of the State.

Mr. and Mrs. Emerson Collins of Detroit drove up Saturday for a visit with their parents, brothers and sisters. Their son, Richard and wife returned to Detroit Tuesday after a ten days visit with his grandparents, Mr. and Mrs. Albert Nowland, and Mr. and Mrs. John Collins of Rock Elm.

Cop—Let me see your license.
Business Man—Marriage, car, driver's, camper's, fishing, dog, hunting, or builder's license? Jill, reach me the license file from under the seat.

MUNNIMAKERS

Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

LOST AND FOUND

LOST—Small gold chain with pearls. Also small box Kodak. Finder of either, please call at LOVEDAY home and receive reward. 30-1

FOUND—Bunch of three Auto Keys on black string. Owner may have same by paying for this notice. THE HERALD. 30-2

FOR SALE—REAL ESTATE

FOR SALE—Modern 10-room house and double garage, located on Main St. Price right if taken at once.—JAMES D. FROST, East Jordan. 26-1f

FOR SALE—MISCELLANEOUS

FOR SALE—Three seven-weeks-old Pigs.—WALTER BOWERS, R. 4, East Jordan. 30x1

FOR SALE—Two half-Holstein bull Calves, 7 and 8 weeks old.—WM. RICHARDSON, East Jordan. 30-2

FOR SALE—Two little Pigs, 14 head of ewe Sheep and one buck—all young, and some beef Cattle. JOS. CIHAK, Route 4, East Jordan. 30x1

RÉPAIRS for Everything at C. J. MALPASS HDWE CO. 29-1f

FOR SALE—Two-year-old Durham Bull. Inquire of A. B. PINNEY. 29x1

FOR SALE—Heating Stoves, Furniture, Tools, Cooler and Shelving. Extra cheap for cash. Inquire of Cort Hayes or Julius Roberts on Bowen's Addition. 29x4

FOR SALE OR TRADE FOR LIVE STOCK A 1927 Fordson Tractor with plow and harrow, in good condition.—THOS. ST. CHARLES, Route 4, East Jordan. 28x3

FOR SALE—Store building, fixtures and groceries and meat stock complete.—JAMES D. FROST, East Jordan. 26-1f

Have you ever thought HOW CHEAP ELECTRICITY REALLY IS

and how hard it would be to get along without it?

The average American family uses 10c worth of electricity a day. For the average family,

10c buys the food for only 1 hour

10c pays the rent for only 1½ hours

10c buys the clothing for only 2 hours

10c runs the auto for only 2 miles

but

10c buy the electricity for 24 hours

Use electricity freely. It saves your eyes, your health, your strength, your time . . . And it costs so little.

Residential customers are more and more realizing the economy, comfort and convenience of using electricity freely. They now use more than a year ago—for lighting, for cooking, for toasting, for ironing, for cooling, for cleaning, for numberless tasks.

On the low energy rate, electricity for the numerous uses and appliances is really very cheap.

MICHIGAN PUBLIC SERVICE COMPANY

Chemists Aid in Erosion Battle

Experts Trying to Ascertain Most Susceptible Soils.

(Prepared by the United States Department of Agriculture.)

Chemists of the United States Department of Agriculture are assisting in the nationwide fight against soil erosion by determining just what properties of soils cause them to wash away readily and form gullies. They have estimated that erosion takes from the soil annually twenty times as much of the elements of fertility as is removed by all the crops grown on the land.

Every farmer knows that certain of his soils will run away with heavy rains or form gullies more readily than others. Soil scientists are measuring the amounts of soil carried away by erosion from the fields of the experiment stations which are being established by the government for the study of this menace of erosion, but in the past there have been no laboratory studies which have shown any relations between the readiness of soils to erode and their chemical and physical characteristics.

Soils Influence Erosion.

Such a laboratory study was recently completed in the bureau of chemistry and soils of the Department of Agriculture, and the results have been described by Dr. H. E. Middleton of that bureau in the recently published technical bulletin 178-T, entitled: "Properties of Soils Which Influence Soil Erosion." The bulletin tells how the determination in the laboratory of certain chemical and physical properties of a number of different soils has made it possible to classify soils as to the ease or the difficulty with which they erode.

Not Easily Washed Away.

"A soil cannot easily wash away," says Doctor Middleton, "unless the soil particles are picked up by water and held in suspension. The particles of certain soils can be readily suspended in water; those of certain others cannot. Then, again, if the soil readily soaks up a large amount of water before it becomes saturated it is less liable to erosion because it is the water which falls on a soil after it is saturated that runs off and causes the damage. By measuring these properties of soils we can measure roughly their ability to withstand erosion."

As the experimental work of the erosion-prevention field stations of the Department of Agriculture progresses in measuring the susceptibility of various kinds of soils to erosion, the findings of the soil chemists in the department's laboratories at Washington are expected to prove valuable in the movement to conserve America's soil resources.

Copies of the bulletin, 178-T, can be obtained, as long as there is a supply available for free distribution, by writing to the United States Department of Agriculture, Washington, D. C.

Dairy Industry Discards Timothy

Alfalfa and Other Legume Hays Grow in Popularity as Feed.

(Prepared by the United States Department of Agriculture.)

In the last few years there has been a great increase in the demand for legume hays on the part of the dairy industry, especially for alfalfa hay, and alfalfa and other legume hays are displacing timothy hay for all kinds of live stock, because of their high value as food for the animal and for the production of animal products, their value in balancing the ration, and the economy in using them, says the bureau of agriculture economics, United States Department of Agriculture.

Decrease in Timothy Hay.

Statistics of the bureau show that in the seven years ended in 1929 the leading timothy hay producing states of the Great Lakes region—including New York, Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, and Iowa—increased the acreage of alfalfa cut for hay from one and one-third million acres to two and three-quarters million acres, and reduced timothy acreage from seven million acres to four and a quarter million acres.

Legume Hays Superior.

Experimental work in feeding dairy cows, says the Department of Agriculture, has repeatedly shown the superiority of legume hays over timothy for milk production. Although it is considered inadvisable to substitute legume hays entirely for protein concentrates in rations, farmers are being urged by the department to feed legume hays instead of less productive hays. Many soils, says the department, can be made suitable for the growth of alfalfa or clover by an investment in lime and phosphates. Many farmers in these states could increase their farm incomes materially by growing high quality legume hay for market, says the department.

In the Back of the Book?

"You seem interested in the Congressional Record."
"It fairly bristles with important questions."
"Yeh. But where do they print the answers?"

The DAIRY

HOT WEATHER IS ROUGH ON CALVES

Feed Them Skim Milk With Legume Hay and Grain.

Hot weather is particularly trying on young calves, and it is best to keep them in a lot where they have access to shade until they are six months of age. If they can have skim milk with good legume hay and a little grain they will do us well or better than on grass, states W. H. Woodley, University of Arkansas, college of agriculture, extension service.

Heifers of six months or over should be encouraged to eat plenty of roughage, both hay and grass, as this method of feeding will develop body capacity for future production service. The bull calf needs the pasture and legume hay as much as the heifer but the amount of each should be limited. His length of service and potency is lessened if he develops too much body. The roughage feed should be limited and supplemented by a liberal grain ration.

Much of the future usefulness of both the heifer and the bull calf depends on how they are grown out and whatever care that is necessary to bring this growth about will pay big dividends in later profits. A calf that is stunted in its growth will be stunted in its service, and also this condition may be transmitted to its offspring. The following conditions for care are suggested:

1. Fall-dropped calves are probably easier cared for than spring calves, as a well-lighted warm barn and dry feed will do better than grass.
2. For the first few days only the mother's milk should be given, allowing 1 pound or 1 pint of milk for 10 pounds of weight.
3. For about two or three weeks whole milk warmed to about 90 degrees should be fed.
4. When change to separated milk is made, it should be done gradually, taking away a little whole milk and adding the same amount of skim-milk. Keep the calf a little hungry.
5. Feed at regular intervals. Have all vessels clean. Feed young calves three times per day.
6. Do not over-feed. One pound of milk to 10 pounds of weight may be the basis of feeding. More vigorous calves may use a little more.
7. Scours are usually caused by over-feeding, irregular feeding, unclean vessels, or an abrupt change in feeds or conditions of feeding like sweet and sour milk, warm and cold milk.
8. In case of scours, cut off the milk by one-half at least and use some remedy to regulate the bowels.

Wake Up at Last to Big Soy Bean Value

Grown in United States for More Than Century.

Although it has been more than a century since soy beans were brought to the United States from Japan, it is only in recent years that the value of the crop has been recognized, and the acreage in the Middle West and South has increased more rapidly than the acreage of any other crop.

For several decades the beans were grown only as a feed for live stock. Recently, however, attention has been given to the extraction from the seed of a valuable oil, used not only in live stock feed and in human food, but commercially in the manufacture of paints and varnishes. Soy beans as a source of human food have always been important in the Orient and there is a growing use of the products of the crop for food in this country.

The soy bean fits well into crop rotations as a cash crop, the soy bean hay can profitably be fed to all farm animals, and the beans may be used in silage, cut and feed green, or pastured. The soy bean is a legume and improves the soil in which it grows by depositing nitrogen from the air. It is more acid-tolerant than some of the clovers and will grow where they will not grow.

"Soy Bean Utilization," a new bulletin of the United States Department of Agriculture at Washington, D. C., covers several phases of the subject, giving the results of feeding experiments, and is distributed free by the office of information of the Department of Agriculture.

Inequality of Things

Full off some dog of stunning style
And pedigree without a fault
Is worth a thousand dollars, while
Its owner isn't worth his salt.

Monologist Appreciated

"You often buy things you don't exactly need."
"Yes," answered the amiable lady.
"When a capable salesman appears, whether I think much of his wares or not, I feel as if so good a monologue ought to be worth something."

Nothing to Fear

Mistress—The main thing here is honesty. The last maid stole the silver spoon.
New Maid—You needn't fear anything from me, ma'am. I'm on probation for a year for stealing at my last place.

Community Building

Township Play Centers

New Recreational Idea

That part of the Michigan Thumb tributary to Port Huron has developed a new recreational idea. The people are organizing what they call "Township Playdays." Maybe the rest of Michigan will be interested to see what comes of it.

The township is the oldest, the simplest, and most democratic political unit, but it seldom has served the purposes of a social group. The school district with its centrally located schoolhouse was more convenient.

But good roads and transportation are contracting big areas and little ones, and people more widely separated are coming to regard themselves as belonging to one neighborhood. Obviously if the Thumb folks succeed in getting together by townships for their "playdays," the very size of the gathering will lend an atmosphere of success to the undertakings.

It is proposed to provide games and sports for all the people, young and old, big and little, men and women. And there are to be professional sport directors to teach the backward how to play and to inspire all with that spirit of co-operation which will enable them to play together.

There may be more to this thing than appears at a glance. It is a capital idea to play with.—Detroit News.

Disadvantage to Have Trees Too Near House

The proper placement of trees in regard to the house is a problem all by itself. No doubt there is something extremely cozy-looking in a house tucked immediately against a tree, but the overhanging branches tend to cut down the chimney draft, offer more fire hazard, in case of lightning and in other ways prove a detriment.

Trees placed at least 20 feet from a house offer better background values and throw even better shade. Their picturesque or "homey" effect is the one thing desired above all; to secure this, trees in front of a house ought to be to one side, rather than directly in front, in order to frame the house. Thus two trees, one to either side, offer the maximum effect. In the frontal approach.

Large trees to the rear give background effect to be secured in no other way. Even here the center of lawns are best left clear, and the trees kept to the sides, unless they are at the extreme back limits of the lot, where they preferably may be in the center.

Making House a Home

The house is the center of the little portion of the earth's surface we call home. To it lead the drives and paths; around it lie the lawns and gardens that mean so much to the hours of our recreation and delight. To make the surroundings a picture of harmony is to make the house truly a home. Does your front entrance, a most prominent picture, have that air of both welcome and dignity so much desired? Are those paths and drives bordered with evergreen hedges as well as your rose and perennial gardens? If so, you are fortunate indeed, but remember, no place should be considered complete until the patriarch of the evergreen tribe, the specimen box, is planted.—Exchange.

Little Town's Advantage

Contrasted with the clamor and commotion of the big cities, life along any "Main street" is better for anyone than living in the city. The changes in social life make amusement available to the "small town" resident. No one wants a steady diet of one thing, and the small community offers a variety that the "big city" cannot give.

Homes and Credit

There are two kinds of credit. One is constructive; the purchase that out-lives the debt; the other is destructive, the purchase that is used before the debt is paid. Credit is becoming more and more a question of character rather than collateral. Permanency of the family, the fact that they own their own home, is one of the principal standards by which credit is measured.

Improvement Always Possible

Rational planning is good, even for the city or town that is not in process of marked development. Much can be done with existing conditions by way of improving traffic facilities, establishing order, eliminating unsightliness, providing beauty and adopting desirable regulation of signs, bill boards, building and remodeling.

Work Reflects Materials

Inferior materials are not conducive to good workmanship. Rather, they invite poor workmanship, for the carpenter, plasterer or other artisan takes his cue as to the quality of workmanship desired from the quality of materials furnished. To state the fact explicitly, no carpenter can do a good job with inferior materials.

Roofing Material

When the roof covers a large surface and as it comes down close to the eye of the observer, the selection of its material has much to do with the architectural success of the house.

CAP AND BELLS

FOR ALL OCCASIONS

The turn was over, and the orchestra was silent for a while.

"I say," said the conductor, leaning down to speak to his first violin, "what ever key were you playing in?"

"Skeleton key," returned the violinist readily enough.

"Skeleton key?" echoed the conductor. "What ever do you mean?"

"Fits anything," was the reply.

Right!

He—You're so good at conundrums—try this.

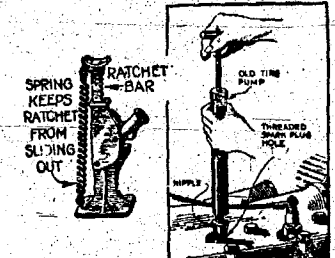

She—Sure go ahead.

He—Take away my first letter, take away my second letter, take away all my letters, and I am still the same. What am I?

She—That's easy. You're a mail carrier!—Royal Arcanum Bulletin.

Overcoming Trouble With Ratchet Type Auto Jack

The ratchet type auto jack always seems to work out to its full length in the tool kit, causing a delay while it is racked back to its telescoped position. The illustration shows a

Spring Keeps Auto Jack From Working Out to Full Length in Tool Kit. Figure at Right, Shows Homemade Device for Testing of Bearings.

way to overcome this trouble. A light spring is attached at one end to the head of the jack and at the other end to the toe.—Popular Science Monthly.

MICHIGAN BELL TELEPHONE CO.

Join the thousands who spend their vacations each year in SOUTHERN MICHIGAN

There is an unending variety of pleasures awaiting the vacationist in Southern Michigan. Hundreds of secluded lakes lie near the many busy industrial centers. The great, new Ambassador bridge—the beautiful University of Michigan campus—large industries that have made Michigan famous—hotels and shops that compare with the finest—tennis, golf, riding, baseball. And always beaches close by. You'll enjoy spending part of your vacation in Southern Michigan.

Long Distance telephone service reaches every point in Michigan, enabling you to keep in touch with home and office while away. An occasional call home will banish any uneasiness you may have about family or business and add to the pleasure of your vacation.

SPEND YOUR VACATION IN MICHIGAN

"Porter, fifty cents for another pitcher of ice-water."
"Sorry, sah, but if I takes any mo' ice, dat corpse in de baggage-car ain't goin' to keep."

He: "If I were not in a canoe I would kiss you."
She: "Take me ashore instantly, sir."

To think about your troubles is to waste your own time; to talk about them is to waste other people's time.

"Can you swim?"
"Sure—like apoplexy."
"Howzat?"
"Three strokes and it's all over."

- He aids families through sickness or other misfortune by giving credit.
- He sells legitimate merchandise at a fair price and gives honest weight, measure or gauge.
- He is a local citizen and is interested in YOUR COMMUNITY.
- He renders a service that is not given elsewhere.
- Trade where YOUR dollars will come back to YOU.
- You can bank on YOUR HOME TOWN Merchant because he BANKS in YOUR HOME TOWN BANK.

NATION'S CLOCKS TO BE REPLACED

New Timepieces to Have Some Novel Features.

Washington.—In three airtight glass cases in Washington are the three master clocks which, of all clocks in the United States, run with the least variation. Maintained by and kept in the United States Naval observatory, they are the timepieces by which the nation lives, moves and has its being; they are the standard by which we set each watch and clock throughout the United States. Now, after many years, new clocks are to be installed in the observatory.

A Munich clock-maker named Riefler is the maker of the standard clocks now in use. Riefler's clocks derive their accuracy from the manner in which the pendulum is attached. In ordinary clocks the pendulum is attached to springs in the rigid clock frame. In Riefler's clocks, however, it is attached to springs connected to small tables which rock back and forth slightly. Electro magnets wind the springs every 30 seconds.

The new standard clocks which, according to Capt. C. S. Freeman, superintendent of the observatory, will be purchased soon include devices aimed at an accuracy superior to that of all other clocks. Known as "Short" clocks, they are constructed with the idea of freeing the pendulum of the job of unlocking the escapement. To do this, a secondary or "slave" clock is used which releases an impulse lever. Although the arrangement is complex, a high degree of perfection has been reached. The pendulum swings once every minute.

Taking care of the nation's timepieces involves an accurate care. The airtight cases holding them are kept in a double vault with automatic temperature control. Year in and year out the temperature in this vault is kept constant within one-tenth of one degree centigrade. Once a week the temperature vault is entered for inspection.

Any variation in the clocks is carefully recorded, since the hands are adjusted to the correct time only when overhauls are made—every four years. Wires running to various parts of the observatory grounds make it possible to keep check on the ticks in the time room and in the various telescopes.

European Gull Flies Over Atlantic Ocean

Boston, Mass.—A lone flyer has apparently conquered the perilous westward traverse of the North Atlantic ocean, previously accomplished by only two craft, the German monoplane Bremen and the mighty Graf Zeppelin.

A European black headed gull, the first of its species ever recorded in North America, was found consorting with native gulls at Newburyport on the north shore several weeks ago.

Ornithologists could offer no more logical explanation for the bird's presence here than that it winged its way over the Atlantic, succeeding where Nungesser, Coll, Idzikowski, and other brave aviators had failed.

They believed the gull might have been driven out to sea in a gale and pointed out that it was not one of a maritime species which follow vessels for days.

The gull has been captured and placed on exhibition at the Museum of Natural History here.

Old Indian Fighter, 104, Enjoys Ride in Airplane

Elko, Nev.—Jim Mulligan enjoyed all the thrills of Indian fighting and other experiences of the early West, but he lived 104 years before he worked up enough courage to take an airplane ride. He celebrated his one hundred and fourth birthday with a ride in the skies, and he declared that thrill surpassed all others of his life. "We could have raised Ned with the Indians if we had one of these," he shouted to the pilot.

Indestructible Money

Paris.—A Swiss scientist, M. U. Schoop, has announced a method of making paper money which cannot be destroyed. His process consists of treating the paper pulp with a coating of tin. This coating, applied by an atomizer, is broken up into minute particles, thus giving the paper a flexibility and protection against tearing and burning.

No "Welcome" Here

Asheville, N. C.—Mrs. D. V. Lee filed suit against apartment house owners demanding \$10,000 for injuries she received when she tripped over a worn door mat.

Fenimore Cooper's Letter Sold for \$42

Paris.—A letter of James Fenimore Cooper to General Lafayette is worth only \$42 on the Paris market. This sum was recently paid for an authentic letter of the novelist Cooper to the soldier Lafayette when it was put up for auction in one of the largest art auction rooms of Paris.

The letter was dated December 5, 1823, and conveyed the sorrow of the American novelist at the news of the death of the Lafayette's son-in-law.

STATE TAX MEN AND BANKERS IN ACCORD

Months of Negotiation Lead to Agreement on Changes Broadening Method of State or Local Taxation of National Banks.

NEW YORK.—Months of conference and negotiation between an American Bankers Association special committee and the Committee of the Association of States on Bank Taxation have resulted in an agreement on a form of amendment to the Federal statute dealing with state or local taxation of national banks that "maintains the integrity of the protective principles of the section and is satisfactory to the commissioners' committee," says the American Bankers Association Journal.

Thomas B. Paton, the organization's General Counsel, in making the announcement says that previously proposed amendments to the statute, which is known as Section 5219, have been opposed when it was felt their terms would enable any state to place banks in a tax class by themselves.

"The law as it stands today," Mr. Paton says, "permits state or local taxation of national banks or their shareholders in one or the other of the four following forms: the shareholders upon their shares—a property tax; the shareholders upon their dividends—a personal income tax; the bank upon its net income; the bank according to or measured by its net income. Only one form of tax can be imposed, except that the dividend tax may be combined with the third or fourth form if other corporations and shareholders are likewise taxed.

"The conditions permitted are: the tax on shares must be at no greater rate than on other competing moneyed capital; the income tax on shareholders must be at no greater rate than on net income from other moneyed capital; the tax on bank net income must be at no higher rate than on other financial corporations nor the highest rates on mercantile and manufacturing corporations doing business within the state; the tax measured by net bank income is subject to the same limitations as the tax on net income of the bank but may include entire net income from all sources."

States Seek Broader Law

National banks and their shareholders are taxed in different states under a diversity of systems, he says. The U. S. Supreme Court has held that the low millage rate on intangible personal property is in violation of the present law where it results in national bank shares being taxed at a rate greater than that assessed upon competing moneyed capital. A number of states, unwilling to use the income methods permitted, had the alternative of either repealing the intangible tax laws or limiting taxation of national bank shares at the intangible rate. Therefore they sought a broadening of the permissive provisions.

Also, Mr. Paton points out, a Supreme Court decision held a state's excise tax on corporations invalid where it included income from Federal and local government bonds in the excise measure. This created doubt as to some state bank excise taxes.

"Conferences have been held to reach some agreement which would protect the banks, satisfy the tax commissioners and avoid a contest in Congress," Mr. Paton says. "From the standpoint of the tax authorities, the main objectives have been an amendment which would permit certain states to retain their low rate tax upon intangibles and at the same time derive an adequate, but not excessive, revenue from national bank shares, and an amendment which would permit certain states to tax corporations on their net income, excluding income from tax-exempt, and at the same time derive the same revenue from the banks as heretofore. From the standpoint of the banks, it has been deemed imperative to maintain the protective principles of Section 5219.

"In the proposed amendment the existing provision permitting taxation of bank shares no higher than the rate upon competing moneyed capital has been modified with respect to certain intangible tax states only by a provision under which, instead of the moneyed capital limitation, the rate shall not be greater than the rate upon the shares of other financial corporations, nor upon the net assets of individuals, partnerships or associations employed in the banking, loan or investment business, nor higher than the rate assessed upon mercantile, manufacturing and business corporations with head office in the state.

"Also an added fifth alternative permissive method, designated as a specific tax, permits a state, in place of an ad valorem tax on bank shares, to add together total dividends paid the preceding year and the increase in capital, surplus and undivided profits, less additions to capital or surplus paid in by stockholders, and to divide this total by the number of shares. The state may tax the shares based upon this amount, but not to exceed the rate on other corporations in proportion to their net profits.

"This method is designed for states which have heretofore taxed national banks upon their entire net income from all sources at a proportionate rate to that assessed upon business corporations. The amount which is the basis of the tax is the equivalent of the entire net income from all sources, but being assessed against the shareholder upon his property in the shares and not a tax upon the bank, it is not open to the objection as an indirect tax on exempt income."

Comparatively Easy to Make Roads Beautiful

Our roadsides are in no small way the nation's greatest public park. To millions who can go no farther they are the only out-of-doors. To the roadside come the trees and flowering bushes and the sunlight on the grasses. They are embassies of nature to those who cannot travel from the beaten path.

But the roadsides of America now are unkempt and broken. Nature is hacked away. Ditches are foul; the flats piled with dumpings. The slopes are bare beside the hot-dog tracks. The road goes through to a destination, but the main destination which very often is the beauty on the way, usually is ignored.

To the building costs and main tenance of roads a 1 per cent addition, more or less, for aiding planted things and natural vegetation would double the roads' real value. At small expense parkways can be made along the public roads. Flowering trees can be set out. Slopes can be vine covered. The roadsides can be made the finest and most useful park of the entire nation.

Without doubt a great value of the public roads is yet to be realized. They are used by motorists seeking natural beauty. A trifle more expenditure, with restrictive measures against eyesores, would make them what the traveler hopes to find.

Too Little Attention Paid to Attractiveness

To some extent there has been a growing regard for attractiveness in building of dwelling houses and the design of premises; in both exterior and interior plans for business places, great and small; in the construction of hotels, office buildings and apartments, and even in fitting stations. But we still have investors who insist upon putting up merely utilitarian houses, plain, unattractive stores, dry goods box styles of apartments and other merely serviceable construction, when for a little more outlay a much better investment could be made, or better results could be had even with the same expenditure of money and a little more application of intelligence. We still have home owners who could well afford to keep their houses and the lawns in order, but put no value on the factor of attractiveness; who do not appreciate the importance to themselves of making a "good appearance"; who are content to live in relative dinginess when they could give themselves a brighter outlook on life from their private domain.—Philadelphia Ledger.

Grumbler Throws Away Chance of Happiness

May we be spared from the grumbler. And yet, if we would change his grumble into pleasure, we must exert a little patience of our own. Getting impatient and disdainful and short-tempered with him is likely to make him worse. And, after all, it isn't very hard to help these rather trying people along the road of life. The grumbling folk don't have a very easy time. Of course, they can be a positive nuisance to you. But just think what a real nuisance they are to themselves. To have always a spirit of grumbling in one's mind must be a load, the weight of which Pilgrim could never have imagined. In many ways the grumbler's burden is worse than Pilgrim's. You see, there was always a chance of his getting rid of it. He had got into some bad habits, but grumbling was not one of them.

Once you start grumbling, the worst part of your mind will seize upon it, practice upon it, develop it, until you are in the nasty, almost unbreakable meshes of it. Soon it will choke every bit of happiness out of you. Resist grumbling always. Its power cannot grow if you do that.—London Tit Bits.

Rainfall Real Event in Parts of South America

Many people, if asked what was the driest place in the world, would plump for Central Australia, where rain fell last year after a drought that had lasted for seven years. They would be wrong, says an English paper, for there are some parts of South America where a seven years' drought is nothing, and a man can live out the Psalmist's "three score and ten" without ever seeing a drop of rain. Of course, it may rain sometimes. Lord Ernest Hamilton has described the coming of rain in Lima, the capital of Peru, during a visit he paid there. "We were fortunate enough to be favored with the only shower which Lima had enjoyed for seventy years," he writes in his book "Forty Years On." "For five minutes it rained solid tropical rain. The terror-stricken inhabitants thought the end of the world had come." But if America can boast of some of the driest places in the world, it also contains some of the wettest. Greytown, in Nicaragua, has had as much as 207 inches of rain in a single year.

A good camel can travel 100 miles a day. People often do odd things to get even.

DAIRY

WARM MILK BEST BACTERIAL HOME

High Counts Usually Result of Dirty Utensils.

"Bacteria get into milk only from the things with which the milk is handled," said Prof. J. D. Brew, to visitors at Cornell university. "Proper barn construction and equipment merely adds to the possibilities of making clean milk."

Bacteria grow in many liquids and milk happens to be the most ideal of all. Like any other plant, provided with enough food and moisture, they grow rapidly at warm temperatures, and most of the exceedingly high counts are the result of growth due to poor cooling.

The next important cause of high counts is improperly cleaned utensils. Usually the greatest bacterial contamination comes from the more or less invisible parts of any utensils of equipment.

About 1 to 2 per cent of all miscellaneous high counts are due to udder infection. Often udder troubles are apparent, but at times an unsuspected udder is causing the high count.

Diet falling into the milk may also add numerous bacteria. The numbers added, however, depend upon the source of the dirt.

To produce milk with bacterial count consistently under 30,000, requires greater vigilance in operations. No chances whatever should be taken.

There is no excuse, in general, for counts being in excess of 100,000. It can be safely assumed that with efficient cooling of milk and proper cleaning and sterilizing of all utensils, at least 98 per cent of the counts should be under 100,000.

Brushes Preferred in Washing Milk Utensils

Brushes are to be preferred to rags for use in washing dairy utensils, because they get into corners and crevices much better. The brushes should be carefully washed and allowed to dry, in the sun if possible, between the times when they are in use. A sour brush will often leave the utensil in a worse condition than before it was washed, causing the same vile, sour and musty odors to develop in the utensil that were present in the brush or rag.

All milk or cream utensils should be rinsed first of all with cold or lukewarm water. This step should never be omitted, for hot water introduced directly into milk vessels coagulates the albumin of the milk, forming a sticky layer over the surface which is very difficult to remove. The utensils rinsed as indicated should then be washed thoroughly in hot water containing a high grade of washing powder. The powder readily dissolves the layer of fat on the utensils, which is very difficult to remove in any other practicable way. The utensils should then be sterilized with steam or chemicals and allowed to dry thoroughly without the use of towels of any kind.

Real Estate Investor Must Wait for Profit

Real estate, like growing things, requires a certain period of time to mature as an investment. The length of this time varies with the location, with the development activities in the surrounding area, and the honesty, the seriousness of purpose and the financial ability of the developer.

While the completion of a new highway or transportation line will greatly accelerate this maturity and thus reduce the logical term for the investment, it is very apt to be followed by a period of repose and, in the long run, the maturing process is practically stabilized.

It is much like the forcing of plant life. The harvest may be artificially hastened, but at the cost of plant vitality, and the plant or tree requires the remainder of the growing season to recover from the experience.

Mortgage Made Matter of Record in Babylon

If you believe that the first mortgage loan plan is something almost new, you're about 2,400 years behind the times.

A short while back an archeological expedition working in the waste of an antique city in Babylon excavated a clay tablet with odd characters drawn upon it. The translation of these characters reads:

"Thirty bushels of dates are due to Bel Nadin Shun, son of Marashu, by Bel Bullisu and Sha Nebu Shu, sons of Kirbett, and their tenants. In the month of Tashri (harvest month) of the thirty-fourth year of King Artaxerxes I they shall pay the dates, thirty bushels, according to the measure of Bel Nadin Shun, in the town of Bit Balatu. Their field cultivated and uncultivated, their field estate, is held as a pledge for the dates, namely thirty bushels, by Bel Nadin Shun. Another creditor shall not have power over it."

This prehistoric tablet and other records excavated show that the men of old conducted business on the same plans that we are prone to call ultra-modern.

MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Edway B. Hite and Minnie M. Hite, his wife, of the township of South Arm, County of Charlevoix and State of Michigan, to the Peoples State Savings Bank, a Michigan corporation, having its principal office and place of business at the City of East Jordan, Charlevoix County, Michigan, which said mortgage bears date the 14th day of December, 1923, and was recorded on the 17th day of December, 1923, in Liber forty (40) of Mortgages, on page five hundred eight (508), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of one thousand four and 41/100 (\$1,004.41) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Wednesday the 10th day of September, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the city of Charlevoix, Michigan, that being the place where the circuit court for the county of Charlevoix is held, said Peoples State Savings Bank will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

The premises described in said mortgage are as follows, to-wit: "The southwest quarter of the northwest quarter (SW 1/4 of NW 1/4) of section thirteen (13), township thirty-two (32) north, range seven (7) west, containing forty (40) acres of land, more or less."

Dated June 13th, 1930.

PEOPLES STATE SAVINGS BANK,

Mortgagee.

MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Seblo Veenstra and Hattie Veenstra, his wife, of the City of Charlevoix, County of Charlevoix, and State of Michigan, to F. H. Skow, of the Village of Ellsworth, County of Antrim, and State of Michigan, which said mortgage bears date the 30th day of November, 1925, and was recorded on the 4th day of December 1925, in Liber sixty-six (66) of Mortgages, on page one hundred thirty-three (133), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of thirteen hundred fifteen and 35/100 (\$1315.35) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Tuesday, the 21st day of October, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said F. H. Skow will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

The premises described in said mortgage are as follows, to-wit:

"The south half (S 1/2) of the northwest quarter (NW 1/4) of section twenty-six (26) in township thirty-three (33) north, range 8 west, as per the United States Survey thereof, and containing eighty (80) acres of land more or less; also twenty (20) acres off the north end of all that part of the east one-half (E 1/2) of the southwest quarter (SW 1/4) of section twenty-six (26) in township thirty-three (33) north, range eight (8) west, lying by the west side of the Pere Marquette Railroad Right-of-Way."

Dated July 24th, 1930.

F. H. SKOW, Mortgagee.

E. N. CLINK,

Attorney for Mortgagee.

Business Address: East Jordan, Mich.

You Can't Outguess Them "But madame, you cannot marry again. If you do, your husband has clearly specified in his will that his fortune will go to his brother." "Yes, that's so. It's the brother that I'm marrying!"

Most convicts will promise anything to get out of jail. We don't blame them, either.

PROBATE ORDER

STATE OF MICHIGAN, The Probate Court for the County of Charlevoix.

At a session of said Court, held by the Probate Office in the city of Charlevoix in said county, on the 8th day of July A. D. 1930.

Present: Hon. Ervan A. Rueggesser, Judge of Probate.

In the Matter of the Estate of Johanna Nyquist, deceased.

Robert A. Campbell having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 8th day of August A. D. 1930, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald, a newspaper printed and circulated in said County.

ERVAN A. RUEGGESSEGER, Judge of Probate.

Briefs of the Week

Floyd Liskum is spending a couple of weeks in South Bend, Ind.

Miss Harriett Conway of Sparta is visiting at the Clarence Healey home.

All this week Henderson Stock Co., at Temple Theatre, East Jordan, adv.

Miss Ruth Bulow left Tuesday for a few days visit with friends at St. Ignace.

Mr. and Mrs. Emerson Collins of Detroit are here visiting friends and relatives.

Mrs. L. G. Balch was called to Youngstown, N. Y., by the illness of her mother.

Mr. and Mrs. Miller of Traverse City visited the former's sister first of the week.

Mrs. Marvin Benson is visiting her parents, Mr. and Mrs. A. G. Rogers at St. Ignace.

Mr. and Mrs. Glenn Bulow visited friends at Traverse City a couple of days this week.

John Rhinehart and wife of Muskegon were camping at the Tourist Park this week.

Mr. and Mrs. A. H. Clark of Detroit are visiting at the home of their uncle, E. A. Clark.

Mr. and Mrs. Perry Hill of Detroit are guests of Mrs. Nathan Liskum and other relatives.

A. K. Hill was at Holland this week to attend the State Rural Letter Carrier's Convention.

Mr. and Mrs. Ray Dennis and daughter, Julia, visited her parents, Mr. and Mrs. Chas. Beebe last week.

Mr. and Mrs. Ed. Sawyer of Paw Paw visited at the home of Mr. and Mrs. Cleveland first of the week.

Adolph Kowalske and family of Rogers City visited at John Coopers and other relatives first of the week.

Get the habit—tell the Editor of your visitors of the visits that you make or other items of local interest.

Misses Nettie Korton and Virginia Hoffman of Petoskey spent the week end with Mr. and Mrs. Anton Korton, they also called on Mrs. Eliza Kotalik.

Mr. and Mrs. Ed. White, Peter Cowan, John Hoofmans, Harry Chaney and family and Mrs. Chaney Sr., are camping at the Tourist Park.

Don't forget the feature play of the Henderson Stock Co., Friday night at Temple Theatre East Jordan, adv.

Mrs. Ida Pinney who has been visiting her daughter, Mrs. Ervin Murphy, returned to Muskegon last Friday.

Don't use your good car for hauling garden truck. Get a cheap Ford from Malpass. We also have late models on easy payments. adv.

About forty relatives spent Sunday with Mr. and Mrs. John Cooper of Eveline township. Relatives from Manistee, Rogers City and Charlevoix were present.

Mr. and Mrs. Otto Brogman and three daughters, and Mrs. Emma Bucher of Manistee visited at the home of Mr. and Mrs. John Cooper and other relatives this week.

Born to Mr. and Mrs. Clarence C. Mullett of Fremont, Mich., a daughter—Barbara Jane, Friday, July 18. Mrs. Mullett is daughter of Mr. and Mrs. Frank Wangeman of Eveline township.

Mr. and Mrs. Duncan Crawford and daughter, Louise, started by auto Monday for Fairfield, Wash., where he has a position with the Associated Seed Growers, Inc., of which A. E. Cross is Superintendent of the branch there.

A very large crowd gathered on Main St., Wednesday evening to listen to the fine Band Concert of about 75 pieces, given by the East Jordan and Charlevoix School Bands, under the direction of John TerWee.

Marking of State trunk line M-66 between East Jordan and Charlevoix will be made within a few days according to a letter recently received by Calvin A. Campbell, our State Senator, from Grover C. Dillman, State Highway Commissioner.

Funeral services were held Thursday, July 10th from the John H. Bugbee residence on State Street, at Charlevoix, for Lawrence Provost, who died Monday, July 7th at the Waller farm home from heart attack. Rev. W. H. Rauch of the Baptist Church officiated. Interment at Sunset Hill East Jordan. Deceased was born July 15, 1894, at East Jordan, the son of Mr. and Mrs. Charles Provost. He had been a resident of Charlevoix for three years, being employed until just recently at the Boulder farm. Surviving are his wife, formerly Miss Ellen Yemmans; a daughter, aged 17 days; his parents Mr. and Mrs. Charles Provost of Lansing; two brothers, Milburn of East Jordan and Will of Lansing; two sisters, Mrs. Thomas Hyatt of Grant, and Mrs. Carl McKinney of East Jordan. Charlevoix Courier.

Regular meeting of Mark Chapter No. 276, O. E. S., Friday, Aug. 1st.

"Fair and Warmer" at the Temple Theatre, East Jordan, Friday night, adv.

Gordon Sweet of Chicago is here visiting his mother, Mrs. Dan Goodman.

Rev. and Mrs. Adolph Shay of Flint are spending a week here with friends.

Mrs. Earl Grossman of Petoskey called at the Clyde Strong home, Friday evening.

James Hoy of Detroit is here visiting at the home of his sister, Mrs. Victor LaCroix.

Guy King and Mr. and Mrs. Thurlow King of Muskegon are here this week for a visit.

Arthur Gorman accidentally fractured his right arm Wednesday night while cranking his car.

Mr. and Mrs. Elmer Grennon and family of Flint are spending a week here visiting friends and relatives.

Willard Clayton, 15-day-old son of Mr. and Mrs. Earl Gee of this city, passed away Thursday morning, July 24th.

Mrs. Dewey Hosler and son, Clifford left for Jacksonport, Wisconsin, where she will spend two months with her parents.

Reo Bockes of Bay City, a former East Jordan young man, visited his sister, Mrs. Archie Quick and friends here over the week end.

Miss Mabel Addis arrived home Saturday from Detroit, where she has been studying music. She spent Saturday evening with Miss Juanita Ely at Gaylord.

Ira Bradshaw who is employed for the Rogers Construction Co., near St. Ignace, was home over the week end. His wife accompanied him back to spend the summer there.

Mr. and Mrs. Alfred Bretzlaff and two daughters of Detroit were here this week visiting at the home of Mr. and Mrs. Wm. Taylor. Mrs. Bretzlaff was formerly Miss Jessie Taylor of this city.

Elder Alfred C. Raymond and wife of St. Petersburg, Fla., are holding religious services at the Miles school-house Sundays, and every night during the week except Mondays and Saturdays. Services begin at 7:00 p. m., standard. Everybody welcome.

The annual East Jordan-Detroit Club Picnic will be held at Belle Isle, Detroit, directly opposite Police Station, Sunday, July 27th. Pot luck dinner. Bring your basket, invite all your friends, and come prepared for a good time. Come early for the ball game.

Mrs. Minnie Freiberg, Mrs. Wm. Richardson and son, Raymond, and Mrs. Grace Boswell were at Big Rapids visiting friends last Saturday and Sunday. Mrs. Goltz, mother of Mrs. Freiberg, returned from Big Rapids with them for a visit at the Freiberg home.

Petoskey folks driving around the South Arm of Lake Charlevoix Sunday bring back word of the beautiful sights among the cherry orchards there. The trees are hanging full of both sweet and sour cherries. Picking is now getting into the full swing part of the season. The roads are reported good and the drive one of the delightful ones near Petoskey.—Petoskey News.

Mrs. Orval Burnett, (Amy Swafford) aged 37 years, died at Munson Hospital, Traverse City, Monday, July 14th, following an operation. Funeral services were held at the home of her mother, Mrs. John Swafford of Mancelona. Mr. and Mrs. Matt Swafford and Mrs. Lillian Hoover of this city attended the funeral. Mr. and Mrs. Burnett were former residents of East Jordan.

East Jordan's School Band, will join some ten or fifteen other bands at Interlochen this coming Sunday, July 27th, where, under the direction of John Philip Sousa, concerts will be given at 3:00 and 7:00 p. m. A rehearsal is called for 1:00 p. m., at that place, and busses will leave the Northern Auto Garage at 10:30 a. m. to convey members of the band. Parents who have autos available are urged to take their student musicians to Interlochen next Sunday.

Port Huron — Jay Ledworth, 15-year-old son of John Ledworth, of Port Huron, was drowned in Lake Huron, at Port Hope, when a boat, which he and an older brother, Samuel, occupied, capsized 200 feet from shore. Both boys started to swim ashore but Jay sank when 50 feet from the beach. The boys had been setting nets.

Jackson—Because of a lack of public response to a drive for \$25,700, officials of the Salvation Army announced the abandonment of an attempt at this time to seek money for the construction of a new citadel. Instead, the drive will be continued for \$6,500 to meet only the budget requirements of the organization. This amount was included in the original goal.

One old newspaper man says "names is news" and he is almost one hundred per cent correct.

Never worry about what people say, provided you know that you are what you ought to be.

Holland's Canals

The inland canals of Holland are almost as thickly populated as the waterways of China. Thousands of Dutch families live and die upon canal boats. Babies are born upon them, and many people never have any other homes. On a typical canal boat the freight cargo is carried in front, and the owner and his family live in the stern. In winter the boats are frozen tightly in the canals, but in summer they constantly move about from place to place.

State News in Brief

Monroe—Mrs. Margaret Noble, 87 years old, for 50 years a teacher in the Monroe schools, died here. Mrs. Noble suffered a fractured hip when she was tripped by a pet cat in the yard of her home.

Iron Mountain—James Francis Logic, 4-year-old son of Dr. and Mrs. F. O. Logic, of Iron Mountain, died of injuries received when he was run over while his father was backing his automobile out of the garage.

Owosso—George Brayman, 65 years old, employed on the farm of George Hurlb, near Durand, was almost instantly killed when he was struck on the head by a large pulley while putting up hay. His skull was fractured.

Three Rivers—George McClellan, a farmer at Mendon, near here, did not believe in banks, but he has changed his mind. Some one broke into his house and carried away a strong box containing his life savings of \$40 and thousands of dollars in valuable papers.

Lansing—Purchase of a police radio transmitting station and the equipment of police patrol cars with receivers were authorized by the city council. Equipment, sent to Lansing for trial will be set up immediately and cars already in the department will be equipped with receivers. The system is expected to be in operation within 30 days.

Hart—James McConnell, 25 years old, held at the local jail on charge of stealing a motorcycle, called the sheriff and handed him a letter addressed to his father, E. C. McConnell, of Hesperia. "You read it," the prisoner said. As the sheriff started to read the note, McConnell fell dead. He had taken poison. "I would rather die than to go to prison," the letter read. McConnell previously had served a prison term.

Ann Arbor—It costs \$9,000,000 yearly to educate the student body at the University of Michigan, a report from the offices of the business manager stated. One-half the income is received in the form of state appropriations. Instruction and research cost the university more than four and a half millions. Total assets of the university are given as \$42,533,559.98, increase of more than three millions over last year.

Dearborn—The United States shipping board at Washington, D. C., has authorized the Ford Motor company to convert the SS Lake Osweya, one of the vessels purchased in 1925 for scrapping to a motor ship upon payment of an additional sum agreed upon at the time of the sale. The original price paid for the vessel for scrap was \$8,350 and an additional \$8,353 must be paid for the privilege of converting the ship for operation.

Grand Rapids—After having been held a prisoner 18 feet below the surface of the ground by a cave-in of a well, Henry Paul, 63 years old, former Justice of the Peace of Wyoming township, was released after a confinement of 18 hours, 40 minutes. Paul was unharmed. He said his legs felt numb from the pressure of the earth. The cave-in occurred as Paul had descended into the well, which he had been digging, and the sides crumbled in on him.

Ann Arbor—Appointment of Jackson R. Sharman, director of physical education for the state of Alabama, as director of the four-year physical education curriculum at the University of Michigan was announced here from the offices of Dean James B. Edmondson. Professor Sharman succeeds Elton E. "Tad" Wieman, one time head football coach and assistant director of athletics at the university here, who resigned last year after a policy tangle with Director Fielding H. Yost.

Mt. Clemens—Three Detroit youths who were found guilty of attempted criminal assault by a jury in Circuit Court here were handed stiff prison sentences by Judge James E. Spier here. The men and their sentences are: Reuhl Wandrig, 20 years old, 7 to 10 years in Jackson prison; Tony Sopha, 17, 4 to 10 years in Ionia prison, and Joseph Titto, 21, 4 to 10 years in Ionia prison. The minimum sentence was recommended by the court in each case. The jury found the men guilty in less than 30 minutes.

East Lansing—Winning out over a large number of competitors, Miss Anna Strong, of Hilledale, and Francis Hayes, of Wixom (Oakland County), were declared champions of the Southern Michigan health contests for 4-H club members held at Michigan State College as a feature of the annual 4-H Club Week. Miss Strong and Hayes will represent this district in the state championship health contests to be held at the State Fair in September. Miss Strong is 15 and weighs 111 pounds, while Hayes is 15 and weighs 150 pounds.

Lansing—The board of directors of the Chamber of Commerce, will prepare a resolution declaring Lansing the birthplace of the automobile and Ransom E. Olds its first manufacturer. On the spot where Olds manufactured his first automobile the city will erect a memorial, consisting of a duplication of the first automobile in bronze form. Plans have been initiated for a nation-wide observation of the ceremony next year, when the memorial will be unveiled. Leaders of the automobile industry throughout the world will be invited.

Community Building

Spreading Demand for More Beautiful Roads

Strange things are happening to the Great American Road.

For several years the American Civic association has been giving prizes for the most attractive, the most neatly kept wayside refreshment stands, in an effort to improve the looks of the usual rickety food purveying snacks of the traveled highways.

In New Jersey they have passed a law putting billboards under state control, charging a tax on space used, and reserving the right to bar excessively unsightly structures.

And in New York Governor Roosevelt has asked for an appropriation to be used in setting out trees along highways in certain districts. He says:

"These plantings would be primarily to demonstrate that the highways could and should be made more sightly. An increasingly large body of public opinion recognizes the beauty of tree-lined highways, as well as their economic value."

What the present concern with roads really means is that America, after spending its entire career to date getting ahead in the world, is setting itself in order for more civilized living. —Philadelphia Ledger.

Worth-While Comment by Southern Newspaper

More and more public officials, civic organizations and citizens generally are paying more attention to trees and other natural assets that add to the beauty of urban centers. Certainly no community has finer trees than Mobile has, nor is there anything connected with the city's life that is more attractive to strangers who visit Mobile.

While it is proper to save these trees when they can be saved the people here also should pay more attention to planting trees. Some of the older trees are dying out. Young trees should be planted to take the place of these when they can no longer hold out against time and the elements.

Along many of the streets of Mobile, and in some of the park areas there are trees that will not last many more years. Young trees should be coming on to take the place of these old trees. It would not cost much and it certainly would be worth while. —Mobile Register.

More Action, Buddy

We talk too much and do too little. From the days when the expression, "There oughta be a law," originated on the Texas frontier, we have had the notion that once we passed a law or even a resolution, our problem was solved ipso facto. Nowadays public officials attach the same weight to their own mere statements, and we the people too often accept their valuation. We might better use the words of the movie director to a posing youth: "A little more action, Buddy; a little more action." And we might apply the suggestion even to ourselves in our efforts to improve our towns, our societies, our churches, our schools, not to speak of our personalities. —Nelson Ayrton Crawford in the Household Magazine.

Making House a Picture

Shade trees are valuable because they increase the worth of your property in a very few years, provide delightful shade in summer, and serve to break the cold winds of winter. Before planting your trees it is always wise to draw a rough plan and then work with it as a guide. Plan your planting so that, when your place is approached from the road, a pleasing picture will be seen. Plant large trees at either end of the house, but studiously avoid any plantings that will obstruct the view from the road. Let the passer-by see your home and then you can see him.

Mathematical Dog

The story of a retriever dog that could do mathematics was told by Dr. William Moodle, of Islington, England, to the National Council for Mental Hygiene. "His master," said Doctor Moodle, "was a mathematician, and used to take a delight in asking the dog a simple question in arithmetic. It would answer by barking the requisite number of times. The dog would tell you what was the square root of nine, what two and three made, and so on. This mathematician had no idea himself how he gave the dog the signal, and observers who watched him carefully could see no signal given. The dog gazed intently into his master's face and never failed to bark the requisite number of times."

He—See that man over there? He's a bombastic ass, a vacuous nonentity, a conceited humbug, a parasite and an encumbrance to the earth.
She—Would you mind writing those down? He's my husband and I'd like to use them on him sometime.

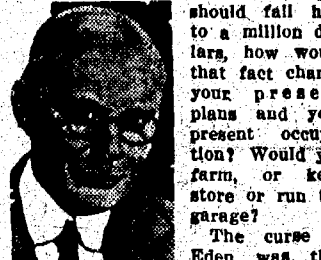

When men cease to improve themselves and their conditions, society is in danger.

The relations between a young man and a girl are often the latter's parents.

If You Had a Million Dollars

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Would you work if you did not have to do so? If by some unexpected circumstances you should fall heir to a million dollars, how would that fact change your present plans and your present occupation? Would you farm, or keep store or run the garage?

The curse of Eden was that because of his dereliction Adam should in the future earn his bread by the sweat of his brow. Not that he had been wholly idle before his misstep, for his job had been to keep the garden trimmed up, to dig about things a little, but the work was apparently pleasant and all but negligible.

Nothing has engaged scientists and engineers more during the last twenty-five years than the devising and construction of labor-saving machines. Everything that could possibly reduce or ameliorate work has been hailed with delight. We seem not to enjoy work. Anything that will reduce the hours of labor or make our jobs a little softer and a little more white collared we received with enthusiasm. Middle-aged people—young fellows eyes—look forward to the time when they will not be enslaved by the mandates of a job, but will be free to do nothing and to come and go as they like.

I have watched the men in an office with which I am acquainted—fifty of them possibly and all under twenty-five years of age. They come hurrying in in the morning, a little late often, and settle down with evident reluctance to the routine of the day. Almost any one of them could be replaced without embarrassment or loss to the organization. They are earning a living, but only a small per cent of them care for the job they are holding or would keep it if keeping it were not necessary to existence. If these fellows should each come suddenly into the possession of a million dollars they probably would not look inside of the office again.

One of the professors at an eastern university recently sent out a questionnaire to two groups of professional men and women propounding this question of what their procedure would be if they had a million dollars suddenly given to them. Eighty-one per cent of the teachers addressed said that they would give up teaching if it were possible to do so, and 87 per cent of nurses agreed that under similar conditions they would give up nursing. That is, an overwhelming majority showed that they were not especially interested in their work as such but clung to it merely because it furnished them a living.

If it is generally true that the great majority of men—laboring men and professional men—are working only because they must, if you keep to your job simply because it affords you and your family subsistence or even a comfortable living, then there are a great many jobs being badly done.

Every one should enjoy his work; he should like it so well that even if he should fall heir to a million dollars he would go on loving it and doing his best in it.

Grim Curiosities in London Medical Museum

London's grimmest museum is nevertheless the least overrun by the "morbid curiosity seekers," says a writer in Tit-Bits. John Hunter, originator of scientific surgery in England, founded the medical museum of the Royal College of Surgeons, Lincoln's Inn Fields; and it is now the finest of its kind in the world. Only medical and other privileged persons are allowed to enter. Rows of skulls give visitors their first shock. They stand in solid phalanxes upon their shelves. Here are the skulls of all ages, all nations—3,000 of them! In the section devoted to criminals Eugene Aram sits placidly beside Turtell, the solicitor. The skeleton of Charles O'Bryan, the Irish giant, stands in 7-foot 8 inches of skinless dignity beside a companion who does not reach his calf. This is Caroline Crochman, the Sicilian woman, 19 inches in height. Grimness of all is the war room, filled with plaster casts representing every kind of wound. Most surprising of all is a finger that was blown off one man into the thigh of another, from which it had to be extracted. Upstairs is a purely historical section, where you can see a rib of Robert Bruce; both hands of one of the sons of John Gaunt; and two portions of the small intestine of Napoleon I. In this room also is the mummy of the wife of Martin Van Burell, an eccentric pupil of John Hunter. After her death Martin kept her mummified body in his sitting room until his second marriage, when his new wife objected strongly!

It's expensive to have one's own lawyer, but it costs nothing to keep one's own counsel.

Courage does not include ignorance of danger. A fool does not become a hero by rushing into danger.

Grand Rapids—Charles Samela, an assistant city attorney, scored a real birdie here. His drive from the first tee hit a meadow lark. The bird was killed and the ball fell a few feet from the cup.

Parma—More than 400 chickens of prize stock were burned to death in a fire which destroyed the brooder coop on the farm of Theron Chapel. The conflagration was believed to have resulted from an exploding brooder stove.

Traverse City—Accepting the dare of a friend to "come on in and learn to swim," William Samels, 16 years old, of Williamsburg, was drowned when he jumped from a rowboat into Randolph Lake. Samels' wife, Elda, witnessed the tragedy. The body was recovered.

POTPOURRI

Translations of the Bible
While it is possible that the Bible has not reached all the world, it certainly has found its way into most parts. There are one hundred and eight complete translations and some five hundred partial translations of this great work. One statistician says that fourteen million copies of the Bible or of the New Testament are distributed annually.

Sometimes a pessimist is a man to whom an optimist owes money.

"Next." "Who, me?" "Yes, sir. Where born?" "Russia." "What part?" "All of me." "Why did you leave Russia?" "I couldn't bring it with me." "Where were your forefathers from?" "I only had one father." "Your business?" "Rotten." "Where is Washington?" "He's dead." "I mean the capital of the United States?" "They loaned it all to Europe." "Now, do you promise to support the Constitution?" "Me? How can I? I've got a wife and six children to support."

And When
Policeman (to motorist who nearly collided)—Don't you know that you should always give half of the road to a woman driver?
Motorist—I always do, when I find out which half of the road she wants.

Play a new role

YOU can't be yourself many years at a stretch, without being somebody new! All at once, you will be using different cosmetics, eating different foods, setting your table differently, re-arranging your surroundings, re-adjusting your whole scheme of life.

Advertisements lead you to do this—even when you are least aware. They announce the new discoveries. Others try them. You try them. Of a sudden, you've changed! The old is at once too out-of-date. It is too slow in this age of speed. Too ineffective in this age of perfection.

Somewhere, in advertisements you have not read yet, are things other people are reading about that will make a change in you. Read the advertisements here today. You will discover some of the things you will want to use habitually. You might even get ahead and start using some today.

Advertisements enlighten about the new . . . and enlighten your life with their news.
