

Charlevoix County Herald.

VOLUME 34

EAST JORDAN, MICHIGAN, FRIDAY, AUGUST 1, 1930.

NUMBER 31

Bandits Rob Hillman Bank

TWO BANKERS ARE SHUT IN VAULT DURING HOLDUP.

HILLMAN, Mich., July 29.—Two bandits Tuesday locked William F. Niergarth, Cashier of the Montgomery County Savings Bank, and Wm. Studt, in the bank vault, and escaped with \$8,000 and some bonds.

Niergarth and Studt were nearly suffocated when released from the vault an hour later. Miss Kathleen Bushey, 22, opened the vault.

According to Niergarth, the men came to his home at 8 o'clock Tuesday morning and asked him to go to the bank with him. They said they wished to transact a land deal. When Niergarth stepped into his car one of the men showed a revolver against his side, and held it there during the ride to the bank.

As Niergarth and the two men arrived at the bank, Studt also entered, and the robbers forced him into the vault with the cashier. The pair escaped from Hillman in a Ford coupe, witnesses said. They headed toward Alpena. Authorities throughout Northeastern Michigan were notified of the robbery, and asked to block all highways leading out of the region.

Neither man was masked, and only one showed a weapon. They worked fast when they got to the bank, forcing Niergarth to open the vault, where the money was kept. After getting all the available cash they shoved their two victims inside, closed the door and twirled the combination.

The bandit's car later was found abandoned two and one-half miles southeast of Hillman.

Hillman is east of Gaylord on the Elmira-Alpena road.—Cheboygan Daily Tribune.

Luncheon Ensemble

This luncheon ensemble is of gray crepe and lace. A vest of dyed gray lace and embroidered net is the keynote of the frock, while the coat is trimmed with a wide collar of platinum fox.

New Zealand Swim Champ

Gordon Bridson, outstanding swimming champ of New Zealand, who will be a member of the team representing the Dominion at the empire games in Canada. Bridson holds the New Zealand swimming championships for all distances from 100 yards to one mile.

Some people could say what they think and still be silent. It's what we learn after we think we know it all that counts.

DR. GEO. BUTTRICK WILL PREACH ON SUNDAY

Dr. George Buttrick, Pastor of the Madison Ave., Presbyterian Church of New York City will preach next Sunday morning in the Presbyterian Church of East Jordan at 10 o'clock standard time.

Dr. Buttrick is the fourth of the quartet of visiting Ministers announced to preach here this summer. Dr. Buttrick is pastor of one of the strongest churches in the country, and is much sought after as a preacher at Bible Conferences and in University-chapels. The interest in Dr. Buttrick as a preacher is shown by the fact that people hundreds of miles distant have planned their vacations so as to be able to hear Dr. Buttrick next Sunday.

That the famous men who preach in East Jordan in the summer time are appreciated is evident by the large audiences that have gathered the past few Sunday mornings to hear them.

DAIRY COWS REQUIRE LARGE WATER SUPPLY

An adequate supply of good water is essential for the successful management of a dairy herd, is the conclusion reached by two Michigan State College men who have made tests of the amount of water consumed by dairy cows in a period of four months.

Meters placed on the individual drinking bowls of the cattle enabled the investigators who were checking up on bovine drinking habits to tell how much water each cow drank. Milk contains approximately 87 per cent of water so it is apparent that the high producing cow needs a large volume of water for the manufacture of milk as well as to maintain body health.

Ten cows were used in the test and their production of milk during the test period ranged from 3,437 pounds to 6,879 pounds. It was found that all of the cows required many more pounds of water than they produced pounds of milk. The heaviest drinker needed a gallon of water for every 2.69 pounds of milk produced, and his animal consumed an average of 20.35 gallons of water each day.

The most economical drinker among the cattle produced the least milk and the cow which made the heaviest inroads on the water supply returned the greatest amount of milk but the amount of water which the cows drank is not an accurate gauge of their milk flow. Two animals which varied only 3.75 pounds in the amount of water consumed varied 734 pounds in the quantity of milk given.

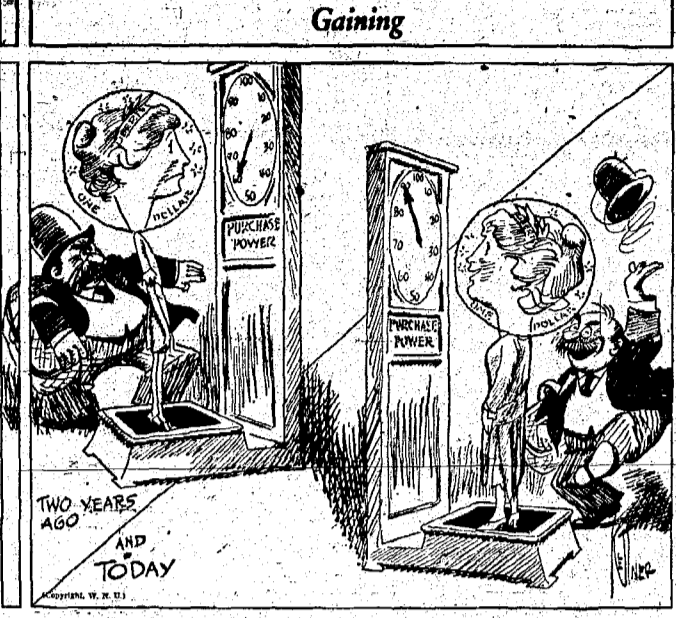

Jackson—With the city's auxiliary pumping station functioning satisfactorily again the prohibition on sprinkling has been modified by City Manager W. D. Hodges. The city is divided into two sections with sprinkling permitted 3 1/2 days in each section. The ban was placed in effect, when the auxiliary unit was forced out of service through an accident. Installation of new motor equipment in the pumping plant was found necessary.

Grand Rapids—Crazed by drink, Walter Garbarczyk, 38 years old, of this city, attacked his stepson, John Jerosik, 22 years old, with an ax, but fell dead before he could inflict severe injuries upon the young man. Jerosik escaped with a cut on the foot and a bruised leg. Death was attributed to heart disease brought about by over exertion. The stepfather is said to have seized the ax during an argument with Jerosik, a former Union high school football star.

Flint—With the contract for the general construction of the new Flint post office awarded to the L. Balkin Co., of Chicago, low bidder, at \$330,715, construction is expected to be started immediately according to B. H. Balkin, secretary of the company. The concern will proceed with its work as soon as its surety bonds have been approved by the Treasury Department. Congress appropriated \$650,000 for the post office which will face Church street between Second and Third streets and extend back a half block.

White Cloud—Richard, 13 years old, and Florian, 9 years old, sons of Mr. and Mrs. Frank Kreiger, of Chicago, were burned to death when they were caught in a fire which destroyed the farm home of their uncle, William Paulsen, three miles north of here. When the fire was discovered it had gained such headway that Mr. and Mrs. Paulsen barely had time to grab their own child and escape through a window. The Kreiger children were on the second floor of the house, which was destroyed.

"How many yards do it take to make a shirt like dat one, Rufus?" "Well, I got two like dis out of one yard last night."

ADVERTISING VACATION LAND

The Michigan Bell Telephone Company through its advertising department has just concluded an advertising campaign setting forth the virtue of Michigan as the paradise of the summer vacationist. The campaign, which began the first week in June and ended the week of July 20, included every section of the State, north, east, south and west. It appeared in 250 newspapers from the small country weekly to the metropolitan press and its value in attracting visitors to vacation land can hardly be estimated at its true worth. This campaign was sponsored in the belief that whatever helps Michigan helps the Bell Company also. We trust that this belief will not be dispelled and that a portion of the wealth that follows in the wake of the summer visitor will be reflected in increased demands for Bell company service.

No other organization in Michigan at the present time is contributing more to returning prosperity than the Michigan Bell Telephone Company. In addition to \$3,227,000 in taxes, \$30,000,000 in operation in maintenance, the Company is expending upwards of \$30,000,000 this year for new construction and additional exchange and long distance facilities throughout the State. Such splendid confidence in the future deserves our heartiest commendation.

WHEN FORESTS BURN

Nature has provided many things for your comfort and pleasure, nothing of which is finer than the wooded hills and valleys that greets the visitor sojourning in vacation land. But even nature is not proof against carelessness.

This is the season of the year when

danger from forest fires is greatest. Beautiful forest areas are not only a valuable commercial asset, but have an untold value in attracting visitors. Where lakes and trees abound we find people seeking rest and solitude. When timber fires denude the land the loss is universal. It has been truthfully said that "Everybody loses when timber burns."

During the summer months thousands of people visit the timbered sections of Michigan. Thousands of acres have been set aside by the State to provide beauty spots for recreation purposes. As a visitor you are welcome. All your host expects is carefulness on your part. Be careful of fire for the tiniest blaze may grow to light an inferno on a hundred burning hills.

See that your camp fire is extinguished before you depart—be sure to break your match before throwing it away—don't cast lighted cigars or cigarettes into the dried grasses of the roadside—it is because of these things that many fires are started. Michigan pleads with you to help preserve her beauty for coming generations.

BEGINNER'S CLASS ON VIOLIN WILL BE STARTED

Parents who have children too small for the Band, or those who rather have a string instrument, will have a change to learn to play the violin, at a very small expense.

Wm. Webster of this city, who is well known as a good violin player and teacher, will teach and will give private lessons at his residence on Third Street.

Those interested, see Mr. Webster or Mr. TerWee for more information.

"Women are generally right when all's said."

"Yes, but—when is all said?"

Proud Graduate With Her Diploma

This German shepherd dog, Alma, has completed a four months training course as a guide for the blind and is holding the diploma she received at the Lighthouse, an institution for the blind in New York city.

NORTHERN DISTRICT Y. M. C. A. OFFERS CAMP FOR BOYS

The young people of East Jordan have enjoyed camping with two hundred boys and girls from eight towns in the Northern Y. District. Three sections of two weeks each for boys and two sections for girls have been provided this year.

The campers are enjoying a program of Nature Study, Revotional Services, Athletics, Aquatics, and some exceptionally fine camp-fire programs that include talks on travel, astronomy, health, sex-information, life-planning and other subjects vital to the life of youth.

Applications for the last section for boys are now being received. The section opens next Monday and runs thirteen days. Pictures of the camp are on exhibit in Hite's Drug Store window. The expense for a thirteen day section is thirteen dollars which covers entire cost of board, room, equipment, etc.

Parents wishing to secure a place for boys from 9 to 16 years of age may do so by writing to Northern District Y. M. C. A. Secretary, Petoskey, Mich.

WINTER POINTS OUT BEST ALFALFA SEED

The records of the first cutting this year on the fields where the winter hardness of the various strains of alfalfa are being tested by the Michigan State College confirm the previous recommendations that Michigan farmers should use Hardigan, Grimm or Cossack for stands which are to be left several years and to use northern grown common if one of those three is not planted.

Arizona, Argentine, or Hairy Peruvian alfalfa seed is not adapted to Michigan conditions and will not survive the winters in this State. On the farm of Edward Donahue, Sterling, where one of the tests is conducted, Argentine alfalfa produced less than one-half ton per acre the first season after seeding and then was a complete failure. Arizona common, on the same farm, never produced a cutting after being seeded in 1928.

Argentine yielded an average of .63 of a ton of alfalfa per year for two years on the Ernest Bailey farm at Prescott; Arizona common yielded .28 of a ton the first year after seeding and nothing the next year.

Hardigan yielded an average of 1.14 tons on the Bailey farm and 2.20 tons on the Donahue farm. The yields for Grimm on the same farms was 1.24 tons and 1.89 tons.

The use of unadapted alfalfa seed in Michigan jeopardizes the chances of getting adequate returns from the money spent in seeding an alfalfa crop.

Sturgis—Mrs. Henry Herman is dead of burns suffered when a kitchen stove exploded as she used gasoline to start a fire.

Manistee—Jerome Manthel caught the greatest pike ever reported taken from Manistee lake. Its weight was 17 1/2 pounds, 35 inches long, with a girth of 17 inches.

Sturgis—Donald, 2-year-old son of Ora Ward, of Sturgis, is dead of poison. His parents had prepared poison to kill ants and left it on the kitchen table to cool. While the parents were out of the room Donald drank some of the liquid.

Mt. Clemens—James Johns, 16, had his leg amputated in the Mt. Clemens Hospital following an accident in which he was crushed beneath a motorcycle he was riding by an automobile. Police arrested Andy Carton, of Detroit, driver of the automobile.

Kalamazoo—Mrs. Mason F. Norwood is the first Kalamazoo woman to join the hole-in-one club. She achieved that distinction with a spoon shot on the 190-yard third hole at the Maple Hills Golf Club. It was the first time a hole-in-one had ever been made on the course.

Adrian—Nelson Wheaton, 40 years old, is in Addison community hospital as the result of severe injuries sustained when he was run over by a tractor on the farm of William Wheaton in Woodstock township. He suffered a broken ankle and dislocated hip, cuts and bruises.

Flint—The body of George Person, 35 years old, theater organist, was found in his automobile in a garage near his apartment. He apparently was a victim of carbon monoxide gas and had been dead several days. The gas tank of the car was empty and the ignition switch was on.

Marshall—The city council has accepted the offer of Mayor Harold C. Brooks to donate a large tract of land for an airport providing improvements are made. About \$10,000 needed for leveling the land and purchasing flood lights will be raised by public subscription.

High Herd To Dan Swanson

JUNE REPORT DAIRY HERD IMPROVEMENT ASS'N

The high herd of the Charlevoix County Dairy Herd Improvement Ass'n for the month of June was owned by Dan Swanson of East Jordan. His 6 Gr. Jersey produced an average of 41.3 lbs. of B. F., and 819 lbs. milk. James Nice, also of East Jordan, and owner of 6 Gr. G. ranks next with an average of 39.5 lbs. of B. F., and 929 lbs. milk. Ed. Potter, of Charlevoix ranks next with 10 Gr. H. that averaged 37.5 lbs. B. F. and 1070 lbs. milk.

In the two year old class the Marion Center Dairy of Charlevoix holds first place with a P. B. H. that produced 60.9 lbs. of B. F., and 1416 lbs. of milk. Next in this class is a Gr. H. owned by Earl Danforth of East Jordan, 51.2 lbs. of B. F., and 1146 lbs. of milk were produced. Ecklund Bros. of Charlevoix rank next with a Gr. H. that produced 47.1 lbs. B. F., and 1473 lbs. milk.

Earl Danforth owns another Gr. H. that is high cow in the three year old class. 56.4 lbs. B. F., and 1374 lbs. of milk were produced. Next is a Gr. J. owned by Frank Russell of Boyne City, 50.3 lbs. B. F., and 852 lbs. milk was the record produced. Dan Swanson owns another Gr. J. that ranks third in this class with a record of 47.4 lbs. B. F., and 831 lbs. milk.

The Birchwood Farm of Harbor Springs ranks first in the four year old class with a P. B. G. that produced 52.9 lbs. B. F., and 1038 lbs. of milk. A Gr. H. owned by Earl Danforth ranks next with a record of 47.8 lbs. B. F., and 1194 lbs. milk. 46.1 lbs. of B. F., and 921 lbs. milk is the record of a P. B. J. owned by the Birchwood farm, and which entitles her to third place.

The high cow in the mature cow class is a Gr. H. owned by Ecklund Bros., that produced 63.5 lbs. B. F., and 1323 lbs. milk. The next two in this class are both mixed cows owned by the Harbor Springs Farm and produced respectively: 59.0 lbs. B. F., and 1179 lbs. milk, and 58.1 lbs. B. F., and 1659 lbs. of milk.

Eddie Mortimore, Tester.

REPUBLICAN COUNTY CONVENTION, SEPT. 16

The Republican County Convention for the County of Charlevoix will be held at the Court House in the City of Charlevoix, Tuesday, Sept. 16th, 1930, at 9:30 o'clock central standard time in the forenoon of that day for the purpose of electing five delegates to attend the State Convention to be held in the city of Grand Rapids, Sept. 26, 1930, and for the transacting of such other business as may come before the Convention.

Delegates shall be duly qualified voters—men or women of their respective precincts. The several wards and Townships are entitled to representation in said convention according to the apportionment of delegates hereto attached being one delegate for every 35 votes or fractional thereof, cast at the November election of 1928 for the Republican Candidate for Secretary of State as follows:—

Bay Township	3
Boyer Valley Township	4
Chandler Township	1
Charlevoix Township	1
Evangeline Township	1
Eveline Township	5
Hayes Township	4
Hudson Township	1
Marion Township	4
Melrose Township	3
Norwood Township	2
Peaine Township	1
St. James Township	1
South Arm Township	5
Wilson Township	3
City of Boyne City, 1st ward	2
City of Boyne City, 2nd ward	5
City of Boyne City, 3rd ward	8
City of Boyne City, 4th ward	7
City of Charlevoix, 1st ward	13
City of Charlevoix, 2nd ward	8
City of Charlevoix, 3rd ward	8
City of East Jordan, 1st ward	3
City of East Jordan, 2nd ward	4
City of East Jordan, 3rd ward	8
Total	100

By order of the Republican County Committee.

H. C. Meyer, Chairman

Kit Carson, Secretary

AN APPRECIATION

We wish to express our thanks to the South Arm Grange for the benefit dance that was given in our favor. Mr. and Mrs. Clarence Murray.

Instinctive Fears

There are two things which call out a fear response—a loud sound and a loss of support.

PENINSULA
(Edited by Mrs. E. Hayden)

Miss Margie Scott spent last week with the Charles Healey family at Willow Brook farm while her father, Will Scott, and grandmother, Mrs. Emma Scott visited a sister and daughter, who is ill in Detroit.

Mrs. Nellie Bowers of Chicago called on Geo. Jarman at Gravel Hill, Wednesday.

Rev. and Mrs. Mead of the Soo visited the D. D. Tibbit family at Cherry Hill last week.

Mr. and Mrs. Jesse Lott of Big Rapids are tenting at Cherry Hill and picking cherries. Mr. Lott is a cobble-stone mason and will build an outside chimney and fire place in the D. D. Tibbit farm residence at Cherry Hill as soon as the cherry harvest is over.

Arlene Burdick and Viola Judkins of Boyne City and Alberta Tibbit are tenting at Cherry Hill and picking cherries.

Rev. and Mrs. VanSyckles of Kalkaska are tenting at Cherry Hill and picking cherries.

D. D. Tibbit of Cherry Hill caught a very large owl in a trap Friday morning which had been feasting on his chickens.

Mr. and Mrs. Geo. Wurn and daughter came Thursday from Detroit for a two weeks visit with his parents, Mr. and Mrs. Fred Wurn.

Mr. and Mrs. George Wurn and daughter, Miss June, and Mrs. Fred Wurn spent Friday at Mackinaw.

Mr. and Mrs. Pete McGee and two sons of Grand Rapids are visiting Mr. and Mrs. Ray Loomis and family at Gravel Hill, north side.

Mrs. Mercy Woerful of Gravel Hill south side, is able to be around again after a three weeks seige with the measles.

Miss Annie Willson who has been so very ill the past several weeks with heart trouble is slowly recovering at the home of her parents, Mr. and Mrs. Lyle Willson in Mountain Dist.

Mr. and Mrs. Charles Hurd and Rev. and Mrs. Kinney and children of Lansing came Tuesday to visit at Sunny Slope farm. The family consists of the A. B. Nicloy family and Mr. and Mrs. A. C. Hurd and Miss Margaret Leist.

Mr. and Mrs. Chester McGeorge and two children of Boyne City and Mr. and Mrs. Philo Hurd of Hortons Bay were dinner guests of the A. B. Nicloy family at Sunny Slope farm, Sunday.

Mr. and Mrs. A. B. Nicloy and

WILSON TOWNSHIP
(Edited by Mrs. G. M. Howard)

E. L. Nowland appreciates the loyal support of the voters at the annual school meeting of Dist. No. 3 in his election by acclamation for Director, which he has successfully held for five years.

Mr. and Mrs. Fred Harnden and little daughter Delores, of Detroit, Mrs. Louis Harnden and daughter, Miss Hazel of Eveline Twp., Mrs. Rolland Bowen and baby, and Clara Batterbee of East Jordan were dinner guests of Mr. and Mrs. Ed. Nowland, Tuesday.

Mr. and Mrs. Ray Nowland and son, Hershell visited her cousin, Burdette Paine and family, Sunday.

Sunday, July 20th Mr. and Mrs. Jasper Warden with their daughters and families of Dearborn and Flint, his mother, Mrs. George Bowen of East Jordan, his niece Mr. and Mrs. Roy Hardy and family, and Herbert Holland, wife and son, Basil, picniced on the shore of Deer Lake.

Mr. and Mrs. S. R. Nowland, Mrs. E. G. Kurchinski and brother, Carl Zinck visited Mr. and Mrs. Leon Clancy, the former's daughter, of Petoskey Monday evening.

Mr. and Mrs. Frank Derby and

(Continued by Mrs. G. M. Howard)

George Cooper is spending this week with his peice, Mrs. Lewis Trojane and family of Jordan Twp.

Mr. and Mrs. Emerson Collins returned to Detroit, Tuesday, after a visit with relatives at Boyne City, East Jordan, Rock Elm and Wilson.

Mr. and Mrs. Bert Lumley and daughters, Miss Sidney Lumley, Mr. and Mrs. Charles Shepard and Mrs. Ida Hayner picniced at Interlochen, Sunday.

The Coykendall, Kurtz and Deming families picniced together at Young's State Park, Sunday.

Mr. and Mrs. Floyd Irwin and children of Levering spent the week end with her aunt, Mr. and Mrs. Jasper Warden.

Mrs. Fay Turner and three children of Dearborn, Mrs. Otis Scheffles and daughter, Mrs. Decemia Alexander of Flint, returned Sunday after visiting their parents, Mr. and Mrs. Jasper Warden a week.

Eugene Kurchinski laid the cement foundation for his barn last week. This week he is hauling the lumber and raising a barn he purchased of John Parker.

WILSON TOWNSHIP
(Continued by Mrs. G. M. Howard)

Mr. and Mrs. Eldon Reed of Deer Lake were Sunday visitors at Mrs. and Mrs. Vigney Cook.

Mr. and Mrs. Merritt Finch and Ed. Shepard were Thursday business callers at Charlevoix.

A delightful picnic party was held at the home of Mr. and Mrs. Jasper Warden in honor of the home-coming of their daughters Mrs. Scheffles and Mrs. Turner.

Mr. and Mrs. Rolland Birkencamp returned to Toledo, Ohio, Sunday, after a visit with her parents, Mr. and Mrs. Marion Hudkins.

Frank Beahan of Charlevoix, aged 13 years, is making his home with John Vyondran and daughter, Miss Glenna.

Mr. and Mrs. Roy Bayliss of Alma and her grandmother, Mrs. George Hayner of East Jordan spent Thursday afternoon with Mrs. Ida Hayner and daughter, Mrs. Alice Shepard.

George Reidle of Braddock, Pa., arrived Saturday for a visit with his uncle, E. G. Kurchinski and family.

Elmer Hayner of Pontiac spent last week with his mother Mrs. Ida Hayner, and sister, Mrs. Charles Shepard.

Mrs. Albert St. John accompanied Tom Fountain, her brother-in-law home to Jackson for a visit with her sister, when he returned from a visit

FIND HIDDEN GOLD OF JOHN D.'S CHUM

Daughter of Old Partner Tears Down Hoop.

Waco, Calif.—How an early day partner of John D. Rockefeller, who later became a pioneer settler here, hid his cash and jewels in crannies of his old home was revealed when his daughter, Mrs. Thomas Hicks of Los Angeles, completed tearing the old structure to pieces.

The pioneer was J. C. MacSpadden, whose father died in Indiana after making an exactly similar disposition of his \$100,000 fortune, concealing the money in hidden corners of the old MacSpadden homestead.

Wealth Revealed.
MacSpadden died here in 1922, but it was not until Mrs. Hicks' search that the mystery of his reputed wealth was solved.

Mrs. Hicks and her husband found stocks and bonds, money in currency, silver and gold and a magnificent diamond ring, which MacSpadden had hidden beneath baseboards, in crevices of the walls and under floors.

Part of MacSpadden's wealth was in the form of bullion, melted gold and silver that had been "run" into ingots.

Diamond In Can.
The diamond ring was found in a rusty tin can. The ring was strung on a strand of woven human hair, a form of ornament popular with men many years ago.

Value of the stocks and bonds was understood to be high, but Mrs. Hicks has not yet placed a valuation on the fortune.

Old timers recalled that MacSpadden came to Waco with the earliest pioneers, the exact year being forgotten. He claimed to have been associated with Rockefeller in his early oil operations.

British Officer Tells of Picking Unknown Hero

London.—A group of men walked solemnly among the white crosses that dotted a war-torn salient near Ypres. They stopped. In front lay an unmarked grave. Within lay the battered, shell-torn body of one of Britain's sons. Spades appeared. Dirt flew. The rough box was brought to the surface.

The same procedure was followed in the Marne, Arras, Cambrai and another salient farthest south until six bodies had been brought to the surface.

All were placed in identical coffins, draped with a Union Jack and left in a hut. A high-ranking officer of the British army, blindfolded, selected one.

This is the Unknown Soldier who lies peacefully asleep in Westminster abbey—to be honored throughout the ages by Great Britain.

The dramatic manner in which the Unknown Soldier was selected was revealed ten years later by Rev. G. Kendall, who was at that time senior chaplain of the Sixty-third naval division, and was responsible with others for the transport of the body to England.

Kendall, who actually was in charge of exhumation work, made his disclosure to silence reports that the name of the soldier was known to the officer who made the final selection.

"He is absolutely unknown," Kendall said.

Deadly Ukulele Knocks Los Angeles Man Cold

Los Angeles.—Many people have suspected that a ukulele is a deadly weapon. Now it may be proved in a court of law if the person believed to have used one on Larry E. Steere can be located by the sheriff's office.

Steere was found unconscious on the Foothill boulevard, east of Pasadena. He had been badly beaten, apparently with a broken ukulele found in his car.

Steere said he remembered nothing shortly after getting into his car at a restaurant on Sunset boulevard with a couple of strangers who had asked him for a ride.

Owner Refuses Stage Bid for Trained Goose

Freemont, Neb.—Attractive vaudeville contracts fall to impress Perry Sharp, proprietor of the farmers produce station here, who recently received an offer of \$135 per week to appear on the stage with his trained goose, "Pal." "Pal" can smoke a cigar like a veteran, likes to sit up at the table for his sip of coffee, will pull objects from the master's pockets, and leapfrog, playing dead, and sitting down are easy for the fowl.

Kentucky Cow Mother of Twenty-Second Calf

Raceland, Ky.—Rose, a twenty-one-year-old cow, owned by Mrs. Emma Means was recently the proud mother of a calf. There is nothing exciting about that fact alone, but it happens that the newly born is Rose's twenty-second offspring. The old cow received considerable notoriety several months ago when she slipped away from her home pasture and drank some mash she found at a still in a nearby woods.

No Unemployed

Highland, N. Y.—Woodstock and Gardiner, two towns near here, won distinction in the census, not one person being found unemployed in either town.

Bordeaux Mixture Is Good for Tomatoes

Control for Leaf Diseases and Kills Worms.

Tomatoes should be sprayed every two or three weeks with poisoned Bordeaux mixture to prevent leaf diseases and to get rid of worms, advises E. B. Morrow, extension horticulturist at the North Carolina State college.

The mixture may be brought ready prepared or made at home but care should be used in home-mixing so as to get the proper solution. If as much as fifty gallons of the mixture is needed, three pounds of bluestone and six pounds of hydrated lime should be used for each fifty gallons of water. Mix the lime with enough water to form a thin paste before adding to the larger amount.

When the tank or barrel is filled, add the dissolved bluestone and one and one-half pounds of arsenate of lead to the fifty gallons. Bluestone may be dissolved by using hot water but care should be taken to use only glass, earthenware, or wooden containers for this work.

Smaller amounts of the mixture can be made by using one ounce of bluestone, two ounces of hydrated lime and one-half an ounce of arsenate of lead to each gallon of water.

Mr. Morrow states that this mixture should be applied every three weeks at least and that every part of the plant should be covered with the spray. By doing this, the worms and other insects will be destroyed and the plants protected from leaf diseases.

Beef Calves Are Quite Desirable for Feeders

Beef type calves can be turned for cash at six or seven months of age if fed grain. They will begin to consume some grain very early and by the time they are six months of age will have consumed 600 to 700 pounds of grain if they are given access to it twice daily. Calves so fed should weigh between 450 and 500 pounds in six months. They will be fat enough for slaughter or showing such growth is to make them highly desirable for feeders. Last fall such calves brought \$10 to \$12 per hundred, states M. W. Muldrow, Arkansas extension service.

A limited amount of grain is required. With the grass and milk, corn and cottonseed meal or cake may be used, the amounts of which should be about eight parts of shelled corn to one part meal.

Teach Chicks to Perch While They Are Young

Not all authorities agree that chicks should be allowed to perch early in life. Neither do all agree they should be permitted to squat on the ground. But they must do the one thing or the other. As soon as the wing feathers have sufficiently grown so they may be used, Nature seems to prompt the chicks to perch.

Perching at a tender age is likely to bend the breast bone, which is little more than gristle. But after the breast has become more firm it will require considerable pressure to bend it.

In a young bird this crookedness is not due to a break, but rather by pressure, or the shape molded. Small round roosts are generally at fault.

Corn Planting Lesson

The lesson of planting corn in squares to get fuller ears cannot be too thoroughly emphasized, a common sense discovery of scientific gardeners and experiment station workers. A square planting equalizes the distribution of the pollen or dust from the tassels without which deposited upon the silk there can be no corn. The pollen is sifted over the patch with every shift of the wind. In long narrow plantings half of it is wasted.

FARM NOTES

Leaving machinery standing outdoors increases farm expenses and cuts down profits.

The shallow furrow method of potato planting followed by cultivation with a weeder cuts costs and increases yields.

One can make as much money putting phosphorus on the soil, where it is needed, as in any other kind of farming activity.

Four hundred pounds of live chickens need as much air as a 1000 pound horse, so ventilation in the hen house is as necessary as in the barn.

Corn stlage, especially when soy beans are grown with the corn, is one of the most important constituents of the winter ration of a dairy cow.

Keep all stock out in the sunlight as much as possible as it is a good source of vitamin D; very useful in the prevention of rickets and various other unhealthful conditions.

Insects and diseases cost the producer and consumer of fruits and vegetables a big bill each year by reducing the size of crops, lowering quality, and increasing the cost of production and preparation for market. Educational efforts aimed at the control of pests helps both the farmer and the consumer.

POLICE BAFFLED BY FACE SLAPPER

Curious Thing Happen In French Peasant's Home.

Paris.—Husky policemen have prowled in vain, learned scientists have investigated without discovering a single claw, and neighbors have held watch parties galore—yet the mysterious face-slapping thing that inhabits the home of Jean Rossier, a peasant, living near Rochepique, France, continues its ghastly depredations.

Face-slapping by invisible hands continues, and even the police and curious scientists have felt husky, but unseen, blows. Furniture tumbles about. A noise like the rumbling of distant thunder comes from the attic at night. Beds are unmade and fires in the cook stove extinguished.

And members of the Rossier family are awakened sometimes at night by the screams of the children, on whose faces are bloody scratches.

"I have challenged the Thing to come out and fight a dozen times, but never yet have I had even a brief glimpse of it," explains Rossier himself, who is a veteran of the World war and a husky, middle-aged farmer. "This house belongs to me, though, and I'll not leave it in spite of what may happen. One of these days I'll get hold of the Thing and teach it a lesson, and then my family and I can again live in peace."

Neighbors say the ghostly actions are actually the spookwork of an eighty-year-old woman who lives alone in a shack in the town. She has cast a spell over the Rossier family because of some fancied wrong. The neighbors say. Feeling against the old woman is so great that police are forced to maintain a constant guard around her home to protect her from violence.

The Rossier case has become the talk of France, and daily stories of its last outrages are carried by the Paris newspapers. Scientists have been called in on a great many such cases, especially in the rural regions, and usually have succeeded in exposing some clever trickery. Never, however, have they encountered a case so baffling and so apparently without solution.

Use "Masonic Surgery" to Restore Brock Statue

Queenston, Ont.—By the use of "masonic surgery" workmen are busy restoring the 18-foot weather-marked and storm-maimed statue of Gen. Sir Isaac Brock, hero of the war of 1812.

Seventy-five feet above the grave where the general's body lies beside that of his aide-de-camp, Lieut.-Col. John MacDonnell, stands a stone effigy of the British troop commander who was killed in the battle of Queenston Heights October 13, 1812.

About a year ago, during a thunderstorm, the general's 1,300-pound right arm, extended before him with the hand clutching a scroll, was broken off and slittered on the ground at the base of the monument.

When workmen had raised a scaffolding about the column on which Brock's effigy stands they discovered that weather had played havoc with the statue in the 75 years it has stood on the plain looking over the Niagara river which flows 500 feet below.

"Fags" Luxury for Wives, British Judge Decides

Worcester.—Sitting in the Worcester County court, Judge Reeve, K. C., a few days ago handed down a decision that cigarettes are a luxury and not a necessity for a wife, and that a husband need not pay for them—in other words, that she cannot run her mate into debt for the "fags."

The case was that of a grocer against a resident of this city, whom he sued for cigarettes supplied to the wife. The husband, it developed, opposed his mate's use of tobacco, and refused to pay the grocer's bill. It seems that the wife had formerly had the cigarettes charged on the regular bill, but in order to check up on her smoking, had ordered them placed in a separate account. The husband had not noticed the item on the regular monthly statement.

Frog Ends 30-Year Fast in Texas Icebox Prison

Houston, Texas.—The story of a frog that had lived 30 years without nourishment or activity in the asbestos packing of a refrigerator was revealed here. The creature was reported somewhat emaciated, but its eyes were bright and blinking. Mrs. M. Butler told of discovering the frog when she dismantled an old refrigerator which had been in the house 30 years.

Standing Room Only
The Hague.—The world will be hanging out a "Full House" sign soon, according to the International statistics institute, which states that the population of the world now exceeds 2,000,000,000, an increase of 400,000,000 in twenty years.

Fisherman Catches Mysterious Animal

Fort Morgan, Colo.—An animal resembling an alligator was hooked by William Koehler while fishing on Beaver Creek. THE strange catch, was two feet three inches long and was covered with scales.

Anti-Hog Cholera Serum Improving

Blood Cells Are Removed and Clear Liquid Left for Serum.

(Prepared by the United States Department of Agriculture.)

Constant improvement in the process of preparing anti-hog cholera serum has resulted in a high standard of quality for this biological product in the United States. Among important developments of recent years are the clarification of serum, concentration of the serum into smaller volume, and, more recently, an improved method of pasteurization in which all containers are completely submerged in a water bath and the serum is agitated while being heated. A description of present methods of serum production as conducted under federal licenses appears in a scientific paper presented recently by Dr. D. I. Skidmore at a conference of farm bureau members, veterinarians, and live stock sanitary officials. Doctor Skidmore is the official of the United States Department of Agriculture in charge of the administration of the federal virus-serum-toxin law which seeks to insure a high quality of veterinary biological products.

Result of Clarification.

The process of clarification, Doctor Skidmore stated, removes the blood cells, which have no protective value, and leaves a clear liquid which, when preserved and tested, becomes the product used in immunizing hogs against cholera. The veterinarian finds it easier to handle the concentrated clear product and that the clear serum

is less likely to be spoiled. The serum of the vaccine has about 50 per cent of the volume of the unconcentrated serum prepared from the same amount of blood. This means that four bottles of the clear serum will immunize as many pigs as five bottles of the unconcentrated product. The cost of bottling, packing, and shipping a given number of doses is consequently 20 per cent less than for the more bulky product.

"The most important advantage of the clear serum is that pasteurization destroys any disease producing bacteria," Doctor Skidmore declared. "At the same time this pasteurizing process, by destroying other bacteria, improves the keeping quality. Pasteurization also enables the manufacturer to prepare an adequate reserve supply of serum without fear that his supply may be of questionable purity because of outbreaks of live stock diseases in the territory from which the serum animals were procured. This is a protection to the live stock raisers generally as well as to the manufacturer."

Results Satisfactory.

Anti-hog cholera serum is prepared in large quantities and is used by many individuals under varying conditions. But there is no other biological product, Doctor Skidmore stated which is used with such uniformly satisfactory results. In a few cases reported as unsatisfactory, the actual cause usually was traceable to underdosing the animals with serum or to some other factor rather than to any lack of serum potency. In the last calendar year manufacturers produced enough serum to immunize more than 19,000,000 hogs, or more than 29 per cent of the estimated pig crop.

Health is better than wealth because no one tries to borrow it.

Lamb Dysentery Acute and Fatal Disease

Lamb dysentery, an acute and generally fatal disease, occurring in lambs from one day to three weeks old, is very infectious. The pasture and corral become infected and even ewes and sheepmen that handle sick lambs may transmit the infection.

Medical treatment is impractical, as the disease works so quickly. But strictly sanitary precautions may beat out the infection—burning and burying deep all dead animals. Lambing sheds and corrals should be cleaned and disinfected with sheep dip in a 5 to 5 per cent solution.

The adjoining ground ought to be plowed and left vacant for several months. During the next lambing season the ewes should be moved to clean lambing grounds and kept there until the lambs are three weeks old.

Don't Overfeed Fowls During Molt Period

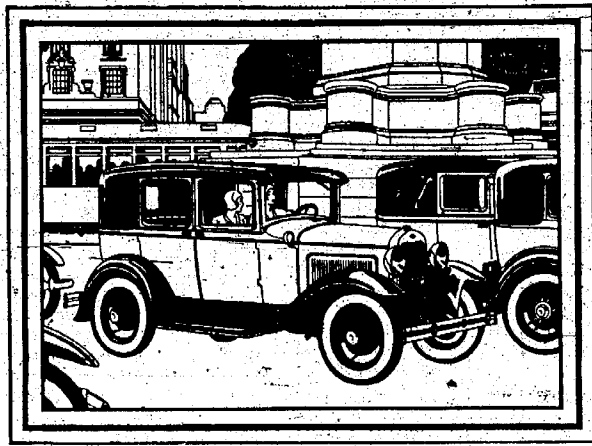

Over-feeding during the molt must be avoided, there being a tendency for some hens to increase in weight at the expense of their laying qualities. Large quantities of grain will tend to fatten them during the sluggish period, and the same remarks can be applied to some of the mashes used.

The chief point to remember is that fertile eggs and strong rearable chicks can only be obtained in any large numbers when the management is right; and the simpler the diet and treatment the greater the probability of getting first-class results.

On the Straight Road

He: "What do you say we turn off at the next by-road?"
She: "Aw, I'd rather go straight."

Meeting the Needs of Millions of People

The low-priced automobile has brought greater opportunity and added hours of recreation to millions of men and women.

BECAUSE the automobile is such an important factor in the lives and prosperity of so many people, the purpose of the Ford Motor Company is something more than the mere manufacture of a motor car.

There is no service in simply setting up a machine or a plant and letting it turn out goods. The service extends into every detail of the business—design, production, the wages paid and the selling price. All are a part of the plan.

The Ford Motor Company looks upon itself as charged with making an automobile that will meet the needs of millions of people and to provide it at a low price. That is its mission. That is its duty and its obligation to the public.

The search for better ways of doing things is never-ending. There is ceaseless, untrifling effort to find new methods and new machines that will save steps and time in manufacturing. The Ford plants are, in reality, a great mechanical university, dedicated to the advancement of industry. Many manufacturers come to see and share the progress made.

The greatest progress comes by never standing still. Today's methods, however successful, can never be taken as wholly right. They represent simply the best efforts of the moment. Tomorrow must bring an improve-

ment in the methods of the day before. Hard work usually finds the way.

Once it was thought impossible to cast gray iron by the endless chain method. All precedent was against it and every previous experiment had failed. But fair prices to the public demanded that wasteful methods be eliminated. Finally the way was found.

A better way of making axle shafts saved thirty-six million dollars in four years. A new method of cutting crankcases reduced the cost by \$500,000 a year. The perfection of a new machine saved a similar amount on such a little thing as one bolt. Then electric welding was developed to make many bolts unnecessary and to increase structural strength.

Just a little while ago, an endless chain conveyor almost four miles long was installed at the Rouge plant. This conveyor has a daily capacity of 300,000 parts weighing more than 2,000,000 pounds. By substituting the tireless, unvarying machine for tasks formerly done by hand, it has made the day's work easier for thousands of workers and saved time and money in the manufacture of the car.

All of these things are done in the interest of the public—so that the benefits of reliable, economical transportation may be placed within the means of every one.

FORD MOTOR COMPANY

PROBATE ORDER STATE OF MICHIGAN, The Probate Court for the County of Charlevoix. At a session of said Court, held at the Probate Office in the city of Charlevoix in said county, on the 8th day of July A. D. 1930.

POTPOURRI Beef Cuts Do you know how many "cuts" there are in a beef after it has been slaughtered and dressed? Fifteen. They are: neck, chuck, ribs, shoulder, fore shank, brisket, cross ribs, plate, navel, loin, flank, rump, round, second cut round, hind shank.

R. G. WATSON FUNERAL DIRECTOR 244 Phones 66 MONUMENTS EAST JORDAN, MICH.

OKLAHOMA BAD MAN GETS 20-YEAR TERM

Long Career of Bank and Train Robbery Ends

Mena, Ark.—Peace reigns on the turbulent Oklahoma-Arkansas border for the last of the famous bad-men is going back to prison. J. M. "Mike" Risenhoover of Mena, one-time bank and train robber, has been convicted at Poteau, Okla., on charges of robbery with firearms and sentenced to 20 years in prison at McAlester, where he once started serving a 35-year sentence he never completed.

Risenhoover was born and reared in the Ouachita highlands. Years ago, he became a member of the famous Jullus Carden band of outlaws, who created terror by their operations against banks and trains in a period preceding the World war. Carden, the leader, was killed while trying to escape from Tucker prison farm in Arkansas, and the band was broken up.

Announcing that he was going to reform, Risenhoover became a familiar figure about Mena, and his personality won him friends which permitted him to be runner-up for the sheriff's nomination in 1926. But "Mike" did not find the life of a reformed criminal a profitable one, and in April, 1928, he was lodged in Polk county jail for contempt of court.

Soldier's Bones Found in Grave 1,400 Years Old Luton, England.—The skeleton of a Saxon whose teeth were in an excellent state of preservation, and a blood-stained Iron spearhead, were discovered in a 1,400-year-old grave here recently.

Bar Arabic Characters from Use in Turkey

Istanbul.—Recently the use of Arabic characters in Turkey became forever forbidden, and disregard of the order is classed as a misdemeanor, punishable in the courts. Under the provisions of the law which Latinized the alphabet two years ago, June 1 was set as the time limit for effecting the change in the courts, municipalities and all official departments.

House Covers 7 Acres, but People, Not Ground

Tupelo, Miss.—Census supervisors stumbled onto a house which covered seven acres at Iuka, near here, recently. "E. R. Rankin, census taker, told the story. "The house covers Mr. and Mrs. A. H. Acres and five little Acres," he mused.

Costly Poker Game Memphis, Tenn.—Police arrested Frank Smith, thirty, a negro, when he walked down the street wearing only a pair of socks but he explained he had only been in a poker game. Relatives brought some clothing and he was released.

AMERICANS MOST SPIED-UPON PEOPLE

"Getting the Goods" Gives Jobs to Thousands.

New York.—Americans, in spite of their protestations of a love for personal liberty and fair play, are the most spied and spied-upon people on earth. This is the assertion of Howard McLellan, criminologist and writer, one-time manager for one of the larger private detective agencies, made in an article written for the North American Review.

The larger agencies usually advertise that they do not undertake to secure divorce evidence, but this is only technically true, says the North American Review article. They will not permit their operatives to take the stand as witnesses or otherwise identify themselves with a case after it has reached the legal stage, but they will "shadow anybody for anybody" and report on the movements of the subjects, notifying their client when the opportune time has come so that he, or she, may provide witnesses to support the case in court.

American Colony in Moscow Grows Rapidly

Moscow.—If ever there was a race which carries its civilization and comforts along with it in its wanderings, it is the conglomerate race of Americans. Except for the limited space, there is very little in an American home in Moscow to indicate that it is located in the Soviet capital and not in New York or Des Moines.

Detroit Man Bags Trio of Yowling Felines

Detroit, Mich.—Light sleepers whose stumbers have been troubled by yowling cats will be glad to hear about C. J. Coates. He not only got his cat, but he got three of them.

Student Completes 18 Years of Night School

Boston.—When Leo F. Caldwell of Arlington receives his degree of bachelor of business administration from Boston university this month he will have completed 18 consecutive years of night school attendance. He plans to continue his evening studies and obtain his master's degree.

Tire Cover Stolen; Then Auto Vanishes

Boulder, Colo.—It was a trying night for Michael DeLuca, a student at Boulder Prep. He telephoned police a tire cover had been stolen from his automobile.

MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Edway B. Hite and Minnie M. Hite, his wife, of the township of South Arm, County of Charlevoix, and State of Michigan, to the Peoples State Savings Bank, a Michigan corporation, having its principal office and place of business at the City of East Jordan, Charlevoix County, Michigan, which said mortgage bears date the 14th day of December, 1928, and was recorded on the 17th day of December, 1923, in Liber forty (40) of Mortgages, on page five hundred eight (508), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of one thousand four and 41-100 (\$1,004.41) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Wednesday the 10th day of September, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the city of Charlevoix, Michigan, that being the place where the circuit court for the county of Charlevoix is held, said Peoples State Savings Bank will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Sehlo Veenstra and Hattie Veenstra, his wife, of the City of Charlevoix, County of Charlevoix, and State of Michigan, to F. H. Skow, of the Village of Ellsworth, County of Antrim, and State of Michigan, which said mortgage bears date the 30th day of November, 1925, and was recorded on the 4th day of December, 1925, in Liber sixty-six (66) of Mortgages, on page one hundred thirty-three (133), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of thirteen hundred fifteen and 35-100 (\$1,315.35) dollars at the date of this notice, including principal, interest, taxes, and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Tuesday, the 21st day of October, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said F. H. Skow will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount

due on said mortgage and all legal costs and attorney fee. The premises described in said mortgage are as follows, to-wit: "The south half (5/8) of the northwest quarter (NW 1/4) of section twenty-six (26) in township thirty-three (33) north, range 8 west, as per the United States Survey thereof, and containing eighty (80) acres of land more or less; also twenty (20) acres off the north end of all that part of the east one-half (E 1/2) of the southwest quarter (SW 1/4) of section twenty-six (26) in township thirty-three (33) north, range eight (8) west, lying by the west side of the Pere Marquette Railroad Right-of-Way."

I wish to announce that I will be a candidate for re-election on the Republican ticket at the Primary Election, Sept. 9th, for the office of Register of Deeds for Charlevoix County. If nominated and elected I will give the public the same prompt and efficient service that I have in the past.

Hours For Springling The hours for the use of city water for sprinkling purposes are from 6:00 to 8:00 a. m., and 6:00 to 8:00 p. m., central standard time.

Mr. and Mrs. Herman Shultz and son of Muskegon are visiting relatives here.

Mrs. Hertel, who has spent some months with her daughter in Memphis Tenn., is expected this week to occupy the Second St. cottage with her sister, Miss Boosinger for the balance of the season.

Mr. DeLand of Grand Ledge, recently made inquiry about possibility of purchasing a cheap building to be moved on his lake lot to be rebuilt into a summer cottage. His lot is among the 30 odd owned chiefly by Lansing people, just north of the "Pines."

Time and tide wait for no man—but some women are more patient.

Edmond Brenner of Detroit, a brother of Dr. E. J. Brenner of this city, underwent a minor operation at Petoskey Hospital Wednesday.

Editor C. W. Goddard and Foreman Bill of The Mancelona Herald were visitors at the Herald and Tradesman office, Monday afternoon.

John TerWee left for Grand Rapids this Friday for a short visit with relatives. He will return Monday bringing Mrs. TerWee with him who left last Monday.

Briefs of the Week

Mr. and Mrs. H. C. Nash were here from Traverse City, Sunday.

David Pray who has been visiting in Detroit, has returned home.

Miss Agnes Green was home the past week from Detroit for a visit.

Robert Brush of Chicago is visiting his friend, Hugh Gidley.

Mrs. Mattie Miles is in Petoskey at the home of Mr. and Mrs. Earl Grossman.

Mrs. Richard Gidley is spending a few days with her daughter at Eastport.

Clifton Heller has opened a grocery store in the Votruba Bldg., on Main St.

Elmer Hayner of Pontiac was here last week visiting his mother, Mrs. Ida Hayner.

Felix Gagnon who has been visiting in Detroit for some time, has returned home.

Arthur Howard is here from Detroit for a visit with his mother, Mrs. James Howard.

Mr. and Mrs. D. J. Ostrander of Grand Rapids are visiting Mr. and Mrs. Clyde Hipp.

Mr. and Mrs. Bernie Lanway of Pontiac are guests of Mr. and Mrs. Charles Shepard.

Mr. and Mrs. Albert Trojanek and children were guests of Traverse City friends, Tuesday.

Mrs. Eugene Austin of Midland was here last week visiting her sister, Mrs. Alec LaPeer.

Mr. and Mrs. O. A. Walstad of Engadine visited his mother, Mrs. A. Walstad first of the week.

Mr. and Mrs. A. E. Wells and son of Detroit are visiting her parents, Mr. and Mrs. L. A. Hoyt.

Mr. and Mrs. Byron Godfrey of Lansing are visiting Mr. and Mrs. Albert St. John and family.

Mr. and Mrs. Charles Fratcher and son of Lansing were recent visitors at the Loveday home—"The Elms."

Mrs. Henry Timmer and daughter returned home Wednesday from a visit in Pennsylvania and New York.

Get the habit—tell the Editor of your visitors of the visits that you make or other items of local interest.

Mrs. Ruth Bancroft and children have returned to East Jordan, after an extended visit with her brother in New York.

Mr. and Mrs. Harold Mayhew of Berkley, Mich., were recent visitors of the former's parents, Mr. and Mrs. George Mayhew.

Mr. and Mrs. Wm. Houck of Petoskey and Mr. Moore of Boyne City were guests at the home of Mrs. Alice Sedgman, Sunday.

Mr. and Mrs. Fred Harnden and daughter of Detroit were here this week visiting his parents, Mr. and Mrs. Louis Harnden.

Veterinary, Robert E. Pearsall was taken to an Ann Arbor Hospital, Tuesday for an operation. He was accompanied by his son, Claude.

Mr. and Mrs. A. J. Suffern of Greenville, and Mr. and Mrs. F. H. Krueger and children of Chicago are visiting at the homes of Milo Fay and Ervin Hiatt.

Mrs. Carl Stroebel and son Mark, and Bobbie Phillips of Dearborn, and Miss Minnie Stroebel of Saginaw are visiting at the home of Mr. and Mrs. W. A. Stroebel.

Mr. and Mrs. Charles Brooks are here from Elberta, Mich., for a visit with the former's parents, Mr. and Mrs. A. J. Brooks, and renewing former acquaintances.

Mr. and Mrs. Walter I. McKenzie and family of Detroit are expected this week at the Loveday home for a short time. Their two older children, Barbara and Margaret, have been here the past two weeks.

The three-months-old daughter of Mr. and Mrs. Luther Brintnall died Wednesday night from bowel trouble. Funeral services will be held from the German Settlement Church at 2:00 o'clock standard this Friday.

Mr. and Mrs. W. T. Grigsby of Hastings, Mich., Miss Bess Nicely of Mantou, Ky., and Carl Suiber of Muskegon have returned to their homes after a visit here at the home of Mr. and Mrs. James Gidley.

The following campers were at the East Jordan Tourist Park the past week or two—Miss Hazel Crofoot of Hart, and her aunt, Mrs. J. H. Twining of Grand Rapids. Mr. and Mrs. F. H. Krueger and two children of Chicago. Mr. and Mrs. A. J. Suffern of Greenville, Mich. Mr. and Mrs. Bernie Lanway of Pontiac. W. G. Stitson of Reed City. Rev. and Mrs. Adolph Shay and children of Flushing. Mr. and Mrs. F. G. Munroe of St. Johns. Shirley C. DeGroot and family of Grand Rapids. Earl G. Boshav and Chester H. Boone of Grand Rapids. Mr. and Mrs. Shoemaker of St. Louis, Mo.

Mrs. Eliza Bowman is visiting Mrs. Fannie Patterson at Ellsworth.

John Nachazel of Muskegon is here this week visiting friends.

Miss Mary Rebec has entered the Lockwood Hospital at Petoskey for medical care.

Mrs. Fred Dye is entertaining friends from Detroit at her cottage near Eveline Orchards.

Thomas St. Charles Jr., of this city underwent a major operation Wednesday at Petoskey hospital.

Mrs. Wm. Gaunt is receiving a visit from her great-aunt, Mrs. Lucinda McClure of St. Joseph, Ind.

Mrs. Fred Bosma and daughter, Norma, of Holland, are visiting at the Richard TerWee home this week.

Mrs. E. Heddon and son of Grand Rapids were the guests of her aunts, Mesdames Peter LaLonde and C. G. Isaman.

Mrs. John O'Connor and daughter, and Mrs. Porter Jamison and daughter were calling on old friends, Wednesday.

Mr. and Mrs. Henry Pringle and Mrs. Archie Pringle of Flint are here visiting their mother, Mrs. George Pringle.

Mrs. Josephine Stewart left last Friday for a week's visit at the home of her brother, Joseph Stanek at Old Mission.

Egido DeMaio and cousin, Wm. Flynn are here from Detroit for a visit with the former's parents, Mr. and Mrs. Rocco DeMaio.

Mr. and Mrs. Wm. Harrington, Mrs. Nellie Sweet and Mrs. Margaret Ruddock left Thursday for a visit with relatives at Muskegon.

John Bohnet and George Bohnet of Lansing were recent callers on Mrs. J. W. Loveday and children. George Bohnet is an uncle of Mrs. Loveday.

Ernest Hanneman of Flint spent the week end at the home of Mrs. Alice Sedgman. Mrs. Hanneman, who has been spending several weeks with her mother, Mrs. Sedgman, accompanied her husband to Flint.

Mr. and Mrs. Frank Ellzey of Natchez, Mississippi visited at the home of Mr. and Mrs. Seth Jubb. Mrs. Ellzey is a sister of Mrs. Jubb. Also Mr. and Mrs. Bouts of Detroit, and Mr. and Mrs. Ben King of Grand Rapids.

Mr. and Mrs. E. E. Mason of Lansing returned to their home Thursday after a week's visit at the Weed Cottage at Terrace Beach. Mr. Mason is proprietor of one of the finest Cafeterias in Lansing, and before leaving here completed arrangements for their future summer outings on Lake Charlevoix near East Jordan.

State News in Brief

Stockbridge—W. L. Danber has resigned as a member of the school board after serving continuously for 40 years.

Adrian—Adrian's water supply obtained from Wolf Creek, will be augmented within the next few weeks by the output of a new well which will be put into use as soon as a pumping station can be built and mains laid.

Cheboygan—Muskellunge run big in our northern waters. Two were captured recently, one 49 inches long, weighing 25 pounds and the other 49 inches long, weight 17 pounds. Both were taken from the Cheboygan River by Vincent T. Hobbs and his three fishing companions.

St. Joseph—George B. Rose, veteran justice of the peace of New Buffalo, Mich., pleaded guilty to operating three automobiles, with improper plates. Rose was ordered to pay fines and costs of \$59.75. Warrants for Justice Rose's arrest were signed by three New Buffalo residents.

Port Huron—While the guests at Gratiot Inn were suffering from the heat, Sam Basenelli, assistant chef at the hotel, had a narrow escape from freezing to death. He accidentally was locked in the hotel's refrigerator where he remained for an hour. He had to be revived when taken out.

Grand Rapids—A Grand Rapids man was killed and another suffered a skull fracture when their automobile plunged over a 20-foot embankment south of here. Harm Spreckman, 68 years old, died in a hospital an hour after the accident. Archie Layman, Pere Marquette conductor, driver of the car, is expected to recover.

Newberry—The death of thousands of fish in Round Lake, near here, now is attributed to disease by Conservation Department officials, who at first were inclined to believe the fish had been killed by blasting. The dead fish were found to be covered with parasites. Manistique Lake, half a mile from Round Lake, is not affected.

Saginaw—Crushed beneath a truck driven by her father, Shirley Worth, 3-year-old daughter of Mr. and Mrs. Leland Worth, was killed. Worth, driving into the garage at his home, stopped to speak to a neighbor and when he started the truck, crushed the child beneath the wheels. He did not know of the accident until a neighbor called to him.

Battle Creek—With nearly a full enrollment of 850, following the arrival of the Detroit contingent, the Citizens Military Training Camp is busy with preparations for a month on target range, parade ground and under tent. Detroit's quota is 550, although nearly 800 applications had been approved by medical examiners. Because several Michigan counties did not fill their quotas, officers expect to accept an additional 100 Detroit youths.

Detroit—A girl produced a sensation recently along Woodward avenue near Grand Circus Park, when she went for a stroll with a large Mexican yellow-headed parrot perched on her shoulder. The girl smiled at the staring pedestrians, the parrot shouted, "Polly's a good girl!" and the pedestrians stared and wondered when the parrot was going to take to wing and light up near the sixth story of some office building. But the parrot did nothing of the kind.

Lansing—A five-day working week will be installed on all state construction and highway projects as far as practicable according to a resolution adopted by the state administrative board. Wilber M. Brucker, attorney general, offered the motion. The policy will permit the employment of one-fifth more men and will relieve unemployment conditions, Brucker said. It will apply principally to laborers. No change will be made in state departments or institutions.

Grand Haven—Frank Secory, 47 years old, star first baseman of the Grand Haven Oils in the local factory league, has been signed by the St. Louis Cardinals and will report at the start of the training season next year. Secory's work caught the eye of Jack Byan, St. Louis scout, who watched the local boy for several days in games here. He was much impressed by the way Secory handled himself. The boy is not only a good fielder, but he is batting well over .500 for the season.

Hillsdale—Residents on East Bacon street were startled when a stretch of pavement exploded with a loud noise, under the intense heat when the mercury registered 100 degrees. Mrs. William Taylor suffered minor injuries when she was thrown against the top of her car and another motorist was cut and bruised on the face. The explosion is attributed to the laying of new paving over a solid road base. It is explained that moisture that seeped between the layers turned to steam which exploded.

Paw Paw—Fire fighters from seven southwestern Michigan cities were called to battle a blaze which swept an area of about three city blocks here. Four firemen were overcome by the heat. Damage by the fire was estimated at more than \$200,000. Among the buildings which burned were the factory and office of the Fruit Growers Package company, coal warehouses of the Paw Paw Ice and Fuel company, and a warehouse in which a large quantity of cement was stored. In another warehouse \$50,000 grape baskets were destroyed.

Annual School Report

East Jordan, Michigan, July 14, 1930.

The annual meeting of the Rural Agricultural School, District No. 2 was held at the High School, Monday, July 14, 1930. The minutes of the annual meeting of August 26, 1929, was read by the Secretary.

The Treasurer's report and audit by W. C. Cowan, Industrial Accountant was read and accepted as read.

Dr. C. H. Pray's term of office expired at this time and the following nominations were made: C. H. Pray, R. G. Watson, Wm. Sloan, and Wm. Stanek. Wm. Stanek withdrew his name.

Ballots were spread and counted. The following tellers were appointed: Maddock, Sanderson, Stanek, and Ellis. Mr. E. C. Blount administered the oath. Total number of votes cast 258. Dr. C. H. Pray received 116. R. G. Watson received 57. Wm. Sloan received 85. Dr. C. H. Pray was declared elected for a term of three years. Motion made and supported that the school year be for a length of nine and a half (9½) months. Moved and supported to adjourn. Carried.

Cadillac, Michigan, July 8, 1930.

The Board of Directors, East Jordan Consolidated School, East Jordan, Michigan. Gentlemen:

Persuant to your request, I have audited the records of the EAST JORDAN CONSOLIDATED SCHOOL, EAST JORDAN, MICHIGAN and present herewith my report arranged as follows:

Statement of Receipts and Disbursements—Exhibit A
 Reconciliation of Cash and Bank Balances—Exhibit B
 Statement of Indebtedness—Exhibit C

In submitting my report the following comments are offered: The Cash on Hand was verified and satisfactorily reconciled with the depository bank statements at June 30, 1930, and certificates obtained from each bank certifying as to the balance standing to your credit on deposit at that date.

All Cash Receipts were verified as far as possible by tracing them from the source into the depository, and Disbursements were made only upon vouchers signed by your Secretary and duly authorized at the next meeting by your Board.

The Indebtedness of the district is larger than usual at this time owing to delay in receiving funds promised by the State for regular and sub-bus route operation, and for aid in perfecting the consolidation. These funds, I am advised, should be received in the near future and will enable the Board to materially reduce the amount of money borrowed.

Suggestions have been made which, I believe, will enable your officers to simplify and improve the method of handling their accounts, and at this time, I wish to acknowledge the courtesy and co-operation accorded me by your officials and staff for the purpose of this audit.

CERTIFICATE

I HEREBY CERTIFY that I have made an audit of the books and records of the EAST JORDAN CONSOLIDATED SCHOOL, East Jordan, Michigan, and that the following Exhibits, in my opinion, set forth the Receipts and Disbursements of the said school district for the fiscal year ended June 30, 1930, and the status of its Cash Resources and Liabilities at that date.

W. G. COWIN, Public Accountant.

Extreme hot weather which has prevailed in Southern Michigan since the first of the month is seriously retarding fall crops. Verne H. Church, statistician for the State Department of Agriculture, stated first of this week. He said that his next report on the condition of crops will reveal a less optimistic outlook as compared with that of July 1. Despite the weather, Church said that the crop of oats and barley is about normal and wheat and rye, already harvested, escaped most of the heat. Unless the hot wave subsides, Church asserts, there will be short crops of corn, potatoes and beans, in Southern Michigan.

Three youthful confessed bank robbers, Elmer Lee, 20; Charles Robinson, 20; and Blaine Ashcraft, 23, were sentenced Monday in Grand Rapids to life imprisonment in Marquette prison. They pleaded guilty in circuit court to holding up the Michigan Exchange branch of the Grand Rapids Savings Bank, June 24. Ashcraft's bride of a few days, who returned with him from Newberry, where he was arrested last week, fainted when sentence was imposed. Ashcraft took the blame for the shooting of Harm Broene, a merchant who was wounded by the bandits as they fled from the bank with their \$10,000 loot.

While the radio occupies the corner once taken up by the cradle in a great many homes, the results are about the same, so far as keeping the family awake is concerned.

Some people who pay as they go are mighty slow travelers. We prophecy that some good-looking girls will be taught to swim a score of times this summer.

Presbyterian Church

C. W. Sidebotham, Pastor. C. R. Harper, Foreign Pastor. "A Church for Folks."

10:00 a. m.—Morning Worship. Dr. George Buttrick of New York City, will preach. 11:15 a. m.—Sunday School.

First M. E. Church

All are welcome to attend these services. It is better to refuse the request than to break the promise.

Mancelona is to have a Home-Coming and Chautauqua commencing this week, July 31, and closing Aug. 4th. According to a bulletin issued by the Michigan Department of Conservation there were a total of 425 convictions resulting from violations of Conservation laws in Michigan during the month of June. There were no convictions in either Antrim or Charlevoix counties during that period. Oakland County had by far the most, with Wayne second.

Have you ever thought HOW CHEAP ELECTRICITY REALLY IS and how hard it would be to get along without it?

The average American family uses 10c worth of electricity a day. For the average family,

- 10c buys the food for only 1 hour
- 10c pays the rent for only 1½ hours
- 10c buys the clothing for only 2 hours
- 10c runs the auto for only 2 miles

but

- 10c buys the electricity for 24 hours

Use electricity freely. It saves your eyes, your health, your strength, your time . . . And it costs so little.

Residential customers are more and more realizing the economy, comfort and convenience of using electricity freely. They now use more than a year ago—for lighting, for cooking, for toasting, for ironing, for cooling, for cleaning, for numberless tasks. On the low energy rate, electricity for the numerous uses and appliances is really very cheap.
