Entering Without Breaking—Arnold Tillotson—For Report.

Statutory Rape—Benjamin Warren—For Report.

James P. Gallagher, Malicious Destruction of Personal Property—For Report.

Violation of Prohibition Law—William Boak, Joe Sallis, James Earl, Claude Fairman, Norman Jensen, Jacob Reichert, John Newville, Bert Sharrow, John Knight—All For Report.

MISS MARY GREEN PASSES AWAY AT DETROIT

Miss Mary Green passed away at Grace Hospital, Detroit, Sunday, August 3rd, 1930, following a brief illness from diabetes.

Mary Bernadine Green was born at Kalkaska, Sept. 14, 1901. She came with her parents to East Jordan and made this city her home up to recent years when she had employment at Detroit. At the time of her death she was credit manager of the Sears Roebuck Co., Detroit branch.

She is survived by her mother, Mrs. Margaret Green, and the following brothers and sisters: Misses Alice, Agnes and Helen, and James, John and Felix Green.

The remains were brought to East Jordan and funeral services were held from St. Joseph's Catholic Church, Wednesday morning, conducted by the pastor, Fr. Leibel. Interment at Calvary cemetery.

Among relatives here to attend the funeral were Mrs. Walter Eschbaum of Chicago; Mrs. Harry Wilson and Miss Catherine Wilson of Ludington.

IMMORTAL MARCH OF MEN OF MARSEILLES DEPICTED IN FILM

The immortal march of the Men of Marseilles is one of the most dramatic highlights of history, and in the Universal all-sound musical romance "Captain of the Guard," will be shown at the Temple Theatre, East Jordan, Saturday, Sunday and Monday, Aug. 9-10-11, this heroic march will be shown in all of its gripping immensity.

It was this handful of nondescript heroes which turned the tide of battle in the Revolution from defeat to victory for the revolutionists, and the manner in which they fought and won is depicted with startling realism in the tremendous conflict shown in the picture.

Only 500 strong, they marched from their home, Marseilles, in the South of France, clear to Paris, arriving just in the nick of time to hurl themselves into the fray. They gave new courage to their comrades who were being thrown back by the King's armies, and such was their indomitable spirit, even after their forced march, that the day was theirs.

Such is the climax of "Captain of the Guard,"—a climax which is approached through one of the most romantic, one of the most appealing love stories ever filmed. This beautiful romance is between Laura LaPlante and John Boles, who are co-starred in the picture, during the course of which Boles' golden voice is heard in five entirely new songs, written especially for the picture by Charles Wakefield Cadman, America's favorite composer.

Written by Houston Branch and directed by John Robertson, "Captain of the Guard" is a dramatic cross-cut at the beginning of the French Revolution. Sam de Grasse, James Marcus, Lionel Belmore, Evelyn Hall, Stuart Holmes, Claude Fleming and George Hackathorne are in the notable cast.

The Michigan Orchard Tour

MANY HORTICULTURISTS AT-TEND INSPECTION TRIP.

(By L. T. PICKFORD)

The scenic beauty of northwestern Michigan added much to the enjoyment of the 1930 Orchard Tour. Its azure lakes with their alluring sandy beaches vied with its far-flung fruit ranches in holding the visitors' attention.

About fifty cars were in line for most of the tour which started from Traverse City on the morning of July 18th. The first stop was at the cherry orchard of Mrs. Merritt Raftshol, near Suttons Bay. This young sour cherry orchard is cared for by her son Rudolph, and judging from results, he must be a wizard. The crowd voted that they had never seen a better crop. There was no place to hang any more of the finest quality fruit. It was very conspicuous to note the bearing habits of the young trees due to the care in pruning, cultivation, fertilizing and dusting.

Young Mr. Raftshol stated that he uses a complete fertilizer and prunes just enough to maintain healthy spurs, bearing leaves, clear back to the center of the trees. There was an almost complete absence of the naked twig space noticeable in so many sour cherry orchards of the State. He also said they were using a Niagara duster and Kolo dusts which had afforded them excellent protection for the past several years.

A short distance from here a most interesting visit was made at the Chapin orchard. Julius Chapin used to be a school teacher after graduating at State College. Then he bought up this orchard and brought it to a high state of production. His roadside sales program and his mail order business of fancy boxes of quality sweet cherries has attracted wide attention. Mr. Chapin estimates this year's crop of sweets and sour from his fifteen acre orchard will be about 100,000 pounds. Chapin is quite a leader in the region. He advocates systematic annual pruning to secure uniform fruiting area throughout the trees without the naked and dying ranches so often found in the centers of trees. He also uses a complete fertilizer, cultivates intensively and dusts on a schedule to match weather hazards; that is, he will not allow the orchard to go through a rain period without a film of dust to insure protection to all the latest growth.

At Omena we saw the large orchard belonging to Thomas Smith. Here were mammoth apple trees bearing a good crop. His sour cherry orchard of 55 acres was bearing a very fine load. Mr. Smith bought this place several years ago and has made it a profitable proposition. His

More Naval Competition

method of feeding the trees liberally and spraying most thoroughly is well known. He uses dry-lime sulphur with lime added and has bean equipment.

After a splendid dinner at Northport served by the ladies of Congregational persuasion the procession wended its way to Empire. On the way we marvelled at the beauty of Lake Leelahau and Glen Lake. A stop was made at Lookout Point on the last named lake so that all could appreciate why his fresh water gem is rated among the five most beautiful lakes in the world.

The McClary orchards at Empire was the last stop of the day so far as orchards were concerned. Here are 130 acres of bearing young apple orchard and 40 acres of sour cherries. For young plantings it is hard to beat them. Mr. McClary has dusted exclusively for the past several years and has his Niagara duster mounted on a Ford truck which goes all over the place in spite of a sandy type of soil. He is a believer in feeding trees and for the last two years has applied calcium nitrate to all the trees. From the McClary orchard the crowd looked down on the 55-acre cherry orchard belonging to Magness Frederickson, which is located on a level table-land just below. This is a young planting of considerable promise.

Th next morning a stop at the orchards of Rollo Western near Kewadin proved to be highly interesting. Here is a very large orchard of apples and cherries in a high state of cultivation. Mr. Western uses a Hardie sprayer drawn behind a Hart-Parr tractor and operates the sprayer with a power take-off. The spray rod is equipped with 8 nozzles and throws a very fine mist. The general thrifty appearance of this big orchard made the crowd feel that Mr. Western must know his horticulture.

Proceeding around the entrancing shores of Elk and Torch lakes the next stop landed us just beyond Bellaire at the home of the Hemstretts. Here F. H. Hemstreet and his son-in-law Howard-Bedell are operating a large orchard which includes apples, cherries and peaches. This is said to be the northern limit of commercial peach orchards, but the fine crop of fruit indicated that it can be done that far anyhow. These people rely on both dust and spray to fight off the bugs and blights, and do not intend that either shall catch them napping. The home ground here attracted much favorable comment. They carried out the plans prepared for them by Mr. Gregg of State College. It is a living example of what a lot of

other homes should follow.

A fish dinner at Fisherman's Paradise on beautiful Lake Bellaire put the gang in fine spirits and they lined up for the trip to the last stop. This happened to be the extensive and famous orchards of the Eveline Company, near East Jordan. Prof. L. R. Taft, that well-known veteran of Michigan horticulture, is President of this Company. For a good many years the orchards have been supervised by A. L. Darbee, who has proved himself to be unusually efficient. The apple crop is light this season, but last year it was 44 cars. The cherry crop of sweets and sour, however, is fine. These people have an enviable reputation for their sweet cherries and do a roadside business of considerable volume. To keep the humus content of the soil up to par they grow an occasional crop of sweet clover. Both liquid and dust sprays are used to protect the native excellence of the fruit grown in this favored spot.

The busy time prevented many from attending who would otherwise have enjoyed the trip. However, there were growers along from as far away as Ohio, and several from southern Michigan points such as Farmington, Almont, St. Joseph, Fennville and many more. It is hoped that H. D. Hootman and his horticultural society board will be able to plan tours for many years which will prove to be as enjoyable and profitable as this one turned out to be.—The Hart Journal.

Hours For Sprinkling

The hours for the use of city water for sprinkling purposes are from 6:00 to 8:00 a. m., and 6:00 to 8:00 p. m., central standard time. All persons violating this ordinance are subject to penalty.

HENRY W. COOK, Chief of Police.

CARD OF THANKS

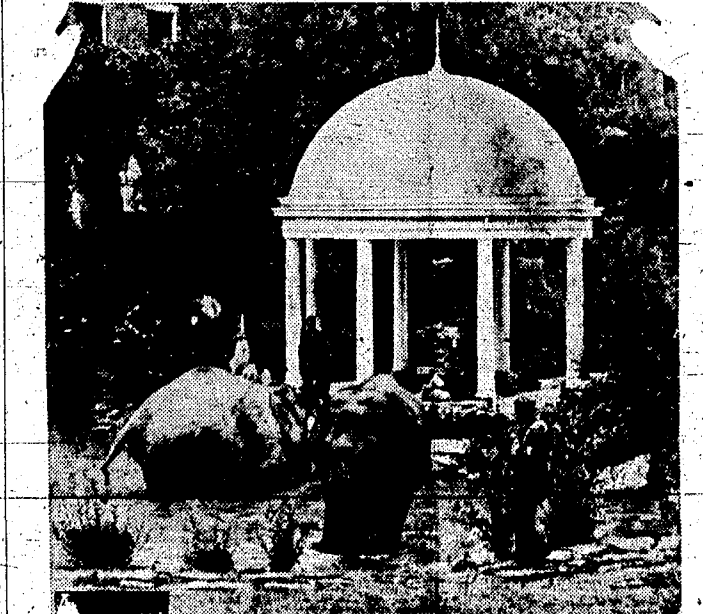

We wish to express our sincere appreciation of the many acts of kindness extended us by friends during our recent bereavement, and for the beautiful floral offerings.

Mrs. Margaret Green and Family.

A forgotten business is a dead one. Advertise.

A rolling stone has his satisfactions; but having money isn't one of them.

Elephants Try Hot Springs "Cure"

Alice and Tip, two ponderous members of a traveling circus troupe, try the healing powers of the famous sulphur and magnesia springs at the Home, Hot Springs, Va.

PROGRAM AT THE INTERLOCHEN BOWL SUNDAY, AUG. 10

The National High School Band, playing in the afternoon at 3:00 central standard time, has for a guest conductor the famous Dr. Carl Busch former conductor of the Kansas City Symphony, and one of the finest of the present day composers. Dr. Busch has honored us by being guest conductor in 1928 and 1929, and you will be glad to welcome him back again.

At 7:00 central standard time, the usual broadcast over the international network of the Columbia Broadcasting System, on what is known as the Majestic Radio Hour. You will hear the Band, the Orchestra and the Camp Choir; Vladimir Bakaleinikoff will play violin solos and Redferne Hollinshead, tenor, will be heard from the New York studios in solos.

At 8:00, the program continues by the National High School Orchestra, Dr. Joseph E. Maddy conducting, presenting "America," an epic rhapsody by Bloch.

To Combat White Pine Rust

CONSERVATION DEPARTMENT MAKING PRELIMINARY EXPERIMENTS

Two field parties from the Dept of Agriculture, cooperating with the Forestry Division of the Conservation Dept are now in the field making preliminary experiments to prevent the spread of the white-pine blister rust before it has gained any headway in Michigan's more than half million acres of state forests.

One of the blister rust control parties is working in the Alpena State Forest. The other party is in the Hardwood State Forest. Both forests contain growths of white-pine, the only tree to be affected by the rust.

All wild gooseberry and black current bushes within the white pine areas will be removed by the field parties and it will then be determined whether the cost of such extensive operations is commensurate with the savings.

While the blister rust has gained no appreciable headway in any of the state forests, there have been some indications that the disease is spreading and the Forestry Division is taking no chances.

The white-pine blister rust is a tree disease brought from Europe on white pine planting stock. The disease spread from the New England states west until it is now found as far as Idaho. The rust spreads only between white pine and currents or gooseberries. The only means of suppression is the elimination of the current and gooseberry bushes. The rust kills white-pine trees of all sizes.

NEWSPAPERS ONLY FOR FOX FILM CORP. IN ITS ADVERTISING

After a careful survey of the field of motion picture advertising, the Fox Theaters corporation, operating hundreds of movie houses, announced recently it had instructed its house managers, without decreasing their advertising appropriations, to drop all other forms of advertising and spend the money for newspaper space.

The Fox company has found newspapers the "logical medium to advertise current programs to the motion picture public," G. S. Yorke, director of advertising, declared. He listed six reasons for this decision:

Frequently the theaters must make quick changes in programs. These can always be advertised in newspaper columns.

The newspaper columns also permits the best use of decorative advertising, which is so essential to the advertising of our theaters.

Increased space is always available in newspaper columns.

Newspaper advertisements can be changed or corrected with greater dispatch, minimum cost and greatest convenience.

Except in rare cases, theatrical advertisements in the newspapers do not have to compete with nontheatrical copy.

Newspaper advertisements can be digested at the convenience of the reader.

The decision was based largely on the experience of the Roxy theater in New York, which has used newspaper advertising exclusively.

The great writer does not really come to conclusions about life; he discerns a quality in it.

Michilimacinac To Be Restored

FORT OF INDIAN DAYS ON STRAITS OF MACKINAC TO STAND AGAIN

Old Fort Michilimacinac, which was located at Mackinaw City, just west of the present State Park, entrance will be restored as near as possible, according to the recent action of the Mackinac Island State Park Commission.

Authorization was given Superintendent Kenyon to start work that will eventually reproduce the stockade and block houses, which marked the site of the massacre.

Old histories, old photographs and the judgement of long time residents of Mackinaw City will be used, and when the work starts the commission expects that the boundaries and buildings of the old Fort will be authentically reproduced.

D. H. Hinkley of Petoskey who was authorized by the Commission to confer with the Mackinaw City Council and Chamber of Commerce secured for the plan, the unanimous consent of the other members, G. A. Hendricks of Grand Rapids, Burt D. Cady of Port Huron, Walter Dohany of Detroit, and Roger M. Andrews of Detroit.

The Michilimacinac State Park at Mackinaw City is in charge of Chris Snyder acting under the direction of Superintendent Frank A. Kenyon, and its natural beauty and excellent condition is attracting the favorable comments of the thousands of visitors who annually make this historic spot their temporary summer home.

COUNCIL PROCEEDINGS

Regular meeting of the common council of the City of East Jordan held at the council rooms, Monday evening, August 4, 1930.

Meeting was called to order by the mayor. Present: Mayor Gidley, and Aldermen Maddock, Dudley, Taylor, Parmeter and Williams. Absent—Alderman Watson.

Minutes of the last meeting were read and approved.

The Mayor appointed the following named persons as an election board for the September primary and the regular November election: William F. Bashaw, H. A. Goodman, William L. Aldrich, C. W. Sidebotham and Clarence Bowman.

Moved by Alderman Williams, supported by Alderman Taylor, that the above appointments be confirmed. Motion carried.

The Standard Oil Company made application for permission to install three 20-barrel tanks for the storage of gasoline on part of Lot 1, Block 1, Original Plat, adjoining their service station, and to re-construct the said service station on the same property.

Moved by Alderman Williams, supported by Alderman Parmeter, that the Standard Oil Company be granted permission to install storage tanks and re-construct their service station as stated in their application. Motion carried.

Bills were presented for payment as follows:

Bill Reinhart, labor	\$ 50
W. M. Swafford, rep. belt	2.50
Frank Cook, labor	2.00
John Vallance, street labor	21.00
Wm. Prause, street labor	17.50
Leonard Barber, street labor	14.00
John Whiteford, work at cent.	43.25
Otis J. Smith, sal. and ptg.	37.75
Henry Cook, salary	125.00
City Treas., payment of labor	105.75
Wm. McPherson, mowing lawns 2.80	
Burroughs Add. Machine Co., service	3.85
E. J. Co-op. Ass'n, mdse	18.33
LeRoy Sherman, labor & mdse	17.59
Grace Boswell, sal. and ptg.	62.52
Gregory, Mayer & Thom Co., mdse	7.67
Mich. Pub. Service Co., wiring	8.33
Mich. Pub. Service Co., lighting	15.00
Park	
Mich. Pub. Service Co. lighting	1.00
fire hall	
Mich. Pub. Service Co., lighting	2.30
pump house	
Mich. Pub. Service Co., pump-	
ing	110.60

Moved by Alderman Taylor, supported by Alderman Parmeter, that bills be allowed and paid. Motion carried by an aye and nay vote as follows:

Ayes—Maddock, Dudley, Taylor, Parmeter, Williams and Gidley.

Nays—None.

OTIS J. SMITH, City Clerk.

AN APPRECIATION

We most heartily thank the neighbors for their most willing help to extinguish the fire and also the firemen's work in saving the outbuildings; and also we thank the South Arm Grange for the money we received from them.

NOTICE TO PATRONS ON RURAL ROUTES FROM EAST JORDAN

A Carrier will distribute mail to all the patrons calling for their mail at the Postoffice on Saturdays from 8:00 to 6:00 p. m., standard time. This service is given because of the early arrival of the afternoon mail during the summer schedule of R. R. trains. Patrons should take advantage of this opportunity by calling for their mail on Saturday when in the city.

WILSON TOWNSHIP
(Edited by Mrs. C. M. Nowland)

Mrs. Guy Stanhope with little son, and daughter of Boyne City spent last week with her parents, Mr. and Mrs. John Hott.

Mr. and Mrs. Stamkowski and daughter, Miss Lucy, and sons, Chester and Frank, and Miss Mary Guznickak of Petosky visited at the home of Mr. and Mrs. Julius Guznickak on Sunday, July 27th.

Mr. and Mrs. Lester Hott of Detroit visited his parents, Mr. and Mrs. Charles Hott, and her parents at Boyne City a few days last week. Mrs. Dell Underhill, her mother, and brother, Billy returned home with them, Saturday.

Charles Shepard sports a new Chevrolet Sedan.

Mr. and Mrs. Herman Barber and Miss Dora were Sunday dinner guests of Mr. and Mrs. Joel Sutton and granddaughter, Miss Christobel.

Mr. and Mrs. Byron Godfrey made a short visit at the home of Ray Nowland and other old friends when they were here over night from Jackson last week, bringing his sister-in-law, Mrs. Albert St. John home from a visit with relatives at and near Jackson.

James Simmons of Flint visited old friends on Newland Hill a few days last week, going to Top-n-6-see Sunday for a visit with Mr. and Mrs. Floyd Small.

Mr. and Mrs. Harold Weeks of Detroit spent the week end with her parents, Mr. and Mrs. Ramsey Wells.

Mrs. John Flannery of East Jordan spent Tuesday, July 29th with Mrs. Tom Shepard.

Mr. and Mrs. Wilber Buchin and

baby spent Wednesday evening at the home of Mr. and Mrs. Mlle Clute. Mr. and Mrs. Walter Krenkow of Detroit spent the week end with her mother, Mrs. Arvilla Coykendall and family.

Mrs. Ralph Collins and daughters of Muskegon are visiting her parents Mr. and Mrs. Fred Burdt.

Mr. and Mrs. Lewis Trojane and boys were Sunday visitors of her sister, Mr. and Mrs. S. R. Nowland.

Mr. and Mrs. Max Graham and sons, Paul and Melvin, returned to Detroit Friday, after a two weeks visit with her grandparents, Mr. and Mrs. E. L. Nowland here, and his parents, Mr. and Mrs. Louis Harnden of Eveline, and relatives in East Jordan.

Mt. Pleasant—Leslie McQueen, 25 years old, died in Coldwater lake, when he fell from a raft. McQueen could not swim and in an apparent effort to keep water out of his lungs had clasped his hands so tightly about his own throat that he strangled. The body was found entangled in weeds at the bottom of the lake. He was with three companions when he fell from the raft.

Detroit—The federal radio commission at Washington, D. C., announced it had granted application of WRDR, township of Grosse Pointe, for a construction permit on a broadcasting station using 2,410 kilocycles and 50 watts of power. It also announced receipt of application from the State Journal company, Lansing, for a construction permit on a new station using 880 kilocycles and 100 watts of power, with unlimited time.

Try being the brother instead of the "brother's keeper" for a while and see how you like it.

Frank F. Bird For Register of Deeds

I wish to announce that I will be a candidate for re-election on the Republican ticket at the Primary Election, Sept. 9th, for the office of Register of Deeds for Charlevoix County. If nominated and elected I will give the public the same prompt and efficient service that I have in the past. FRANK F. BIRD

JOSEPH WM. FLANDERS FOR COUNTY TREASURER

I wish to announce my candidacy on the Republican ticket for nomination to the office of County Treasurer at the Primary Election to be held Sept. 9th, 1936.

If nominated and elected, I will give the office the same faithful attention as in the past.

I greatly appreciate the confidence of Charlevoix County voters in the past and solicit your continued support.

JOSEPH WM. FLANDERS.

Louis E. Anderson
Your Representative in State Legislature

By the unwritten law of the Republican Party, is entitled to a second term.

Your favorable consideration at the September Primaries will be genuinely appreciated.

Announcement

I will be a candidate at the Republican Primary Election Sept. 9, for the office of REGISTER OF DEEDS.

I have lived in Charlevoix County for the past 23 years, 13 years in Banking, and 10 years in the Garage and Auto business.

If the voters of Charlevoix County honor me by election to the office of Register of Deeds, I shall endeavor to perform the duties of the office in a prompt, courteous, and efficient manner.

Your support now, and your vote Sept. 9 will be greatly appreciated.

Sabin Hooper

PENINSULA
(Edited by Mrs. E. Hayden)

Joe Lou threshed for F. D. Russell at Ridgeway farm, Tuesday.

Mr. and Mrs. Will Provost of Detroit called on Mr. and Mrs. Bob Myers and Mr. and Mrs. Fred Earl, Friday afternoon.

Mrs. Geo. Staley and children visited east of Boyne City Saturday night and Sunday while Mr. Staley and Hugh Easton went after huckleberries. They secured more than a bushel apiece.

The 239 telephone line is out of order after a long time of excellent service.

A good crowd attended the Peninsula Grange dance Saturday evening. Geo. Staley is the first in this section to report delivering pickles to the Boyne City Salting Station. He delivered Monday, Aug. 5th.

G. C. Ferris returned to Detroit Monday, after spending some time at his farm here.

Highway Comm'r Joe Kemp of the west side of South Arm Lake had a crew of men and teams grading the Ridge road, Saturday.

Mrs. Wm. Bogart returned from Charles, U. P., where she was stopping with Mr. Bogart at his road job, and is staying with her parents, Mr. and Mrs. Joel Bennett at Honey Slope farm.

D. D. Tibbitts of Cherry Hill expects to finish his cherry picking Aug. 5th.

Daniel and Elmer Faust and A. Reich have begun picking string beans for the Canning Factory at East Jordan.

Mr. and Mrs. F. H. Wangeman and Mr. and Mrs. A. J. Beers who motored to Fremont last Tuesday to visit the new granddaughter of Mr. and Mrs. Wangeman and great granddaughter of Mr. and Mrs. Beers, returned home all but Mrs. Wangeman who remained to care for the little Miss and mother, Mrs. Clarence Mullett, nee Mildred Wangeman.

Charles Healey of Willow Brook farm finished harvesting his first cherry crop Tuesday last week.

Mr. and Mrs. Charles Healey and son Clayton of Willow Brook farm and Mrs. Mercy Woeful of Gravel Hill went after huckleberries, Sunday.

Mr. and Mrs. T. J. Hitchcock of East Jordan and Miss Henrietta Hartman of Eldorado, Mich., were guests to supper Sunday evening at Orchard Hill.

Mr. and Mrs. Samuel A. Hayden and family returned to Detroit Friday after a three weeks vacation spent with his mother, Mrs. J. W. Hayden at Orchard Hill and other relatives.

Mr. and Mrs. Will Gaunt of Knoll Krest are receiving a visit from her aunt, Mrs. Lucinda McClure from near Detroit.

Old friends will be interested to learn of the severe illness of Mrs. Lizzie Simmerman who has been stopping for some time with her son, Sam Simmerman in the U. P., but who was brought to Charlevoix recently and taken from there to Muskegon to be with her daughter.

Mrs. Wilfred Arnott who has been stopping with her parents, Mr. and Mrs. A. Reich at Duna Ash farm, returned to her position in Petosky Tuesday evening after a two weeks lay off.

Mr. and Mrs. Walter Ross, nee Josephine Clark, and family motored up from Bay City Friday to the David Gaunt home. Mr. Ross returned Sunday, but Mrs. Ross and children remained for a longer visit.

Mr. and Mrs. Isaac Flora and little grandson, Tona Lammers, and daughter, Mrs. Ada Hunter of Grand Rapids, and Mrs. Charles Murphy of East Jordan called on Mr. and Mrs. Daniel Faust and Mr. and Mrs. Elmer Faust of Mountain Ash farm Saturday afternoon. They brought the word Mrs. Tony Lammers, nee Cora Flora has a new son, only a few days old who will answer to the name of David.

Collegian Emulates Ruth

Ken Strong, who has matched his sensational exploits in collegiate football circles by developing into a collegiate Babe Ruth. Ken, a member of the mythical all-American eleven in 1928, set a new world's record for home runs by knocking seven home runs in two successive days. Strong is now a member of the Hazelton team of the New York-Pennsylvania league.

Well if the sixty-year-old flapper who bobs her hair and gets her face lifted can fool herself, that's something.

FUTURE IS BRIGHTER FOR POULTRY GROWER

Outlook reports, issued by the United States Department of Agriculture state that the future of the poultry industry is more promising than the market declines and the reports of increased hatching of chicks indicated last spring, but little improvement in present prices are expected during the remainder of this year.

Receipts of dressed poultry in terminal markets are reported to be heavy. This is accepted by the Department of Agriculture as an indication of a reduction in the number of poultry in the flocks owned by people who use poultry as a minor source of income.

Reduction in prices have encouraged the consumption of poultry and, even with the decreased buying caused by economic conditions, holding of poultry in cold storage are being reduced more rapidly than during the same period last year. The government report points out that the unfavorable outcome of last year's cold storage operation and the quantity of poultry now in storage will discourage the payment of higher prices for poultry which is to be held in storage.

Poultry owners are advised by the outlook report that a moderate reduction in the number of layers is justifiable, but that extreme reductions in flock numbers do not appear necessary. Owners are advised that a drastic cut in the number of layers now may be unwise as the marked increase which was made last year.

VERONICA COATES MARRIED AT FLINT

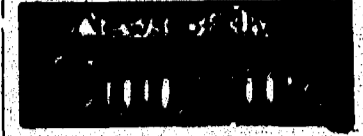

An impressive marriage ceremony was solemnized at St. Matthew's Church in Flint, Mich., Thursday, July 24th, at 8 o'clock, when Miss Veronica Coates, daughter of Mr. and Mrs. W. R. Coates became the bride of Harold M. Hoffman. Rev. Fr. Powers officiating at the nuptial High Mass, the ring ceremony being used.

The bride was becomingly gowned in bridal satin with which she wore a long veil trimmed with lace and was held in place by a band of orange blossoms. The bridal bouquet was white roses and lilies-of-the-valley.

The bride chose her sister, Miss Ann Coates to act as maid of honor, who was attractively gowned in pink georgette and satin, wearing a picture hat to match and carried pink roses. The bride's brother, Joseph

Coates acted as best man. After the ceremony a wedding breakfast was served to the immediate members of the family at the home of the bride's parents at 831 Forest St., Flint.

After a two weeks honeymoon trip they will make their home in Buffalo, N. Y.

MUNNIMAKERS
Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ter cents extra per insertion if charged.

LOST AND FOUND

LOST—A dark blue, amber pointed, leather strap handle Parasol. Reward if finder will return same to MRS. J. CUMMINGS at E. J. Lumber Co. Store. 32-3

HELP WANTED

SALESMAN WANTED—Excellent opportunity. Write F. ORSCHER, Elk Rapids, Mich., at once. 32x1

WANTED

WANTED—Sewing, Washings Paper Hanging, or other work. See MRS. ED. LARSON, R. 3, East Jordan, or inquire at Printing Office. 32x2

FOR SALE—REAL ESTATE

FOR SALE—Eight-room dwelling with garage; located on West Side. Price \$400.—H. J. RIBBLE, East Jordan. 32x1

FOR SALE—Modern 10-room house and double garage, located on Main St. Price right if taken at once.—JAMES D. FROST, East Jordan. 26-1f

FOR SALE—MISCELLANEOUS

REPAIRS for Everything at C. J. MALPASS HDWE CO. 29-1f

FOR SALE—Heating Stoves, Furniture, Tools, Cooler and Shaving. Extra cheap for cash. Inquire of Cort Hayes or Julius Roberts on Bowen's Addition. 29x4

FOR SALE—Store building, fixtures and groceries and meat stock complete.—JAMES D. FROST, East Jordan. 28-1f

STORES COME AND STORES GO BUT THE East Jordan Lumber Co.'s Store GOES ON FOR MANY YEARS

We have served thousands during the past 50 years.

We will endeavor to serve you to your complete satisfaction in the future.

EACH DAY WE MAKE - -
Four Deliveries To North Part of Town
Two Deliveries To East Part of Town
Two Deliveries To West Part of Town
MAY WE CALL AT YOUR HOUSE? Phone 142

NOTHING IS SO APPETIZING AS FRUIT THESE WARM DAYS - - -

Peaches, Pears, Watermelons, Cantaloupes
Honey-Balls, Tomatoes, Huckleberries
Bananas Oranges

ALSO Head Lettuce, Celery, Cabbage, Green Onions
Spanish Onions, Cucumbers, Cold Meats.

ECUADOR CUTS RED TAPE FOR VISITORS

Home of Panama Hats Bids for Tourists.

Washington.—Passport and landing red tape may be cut for visitors to Ecuador. Some officials are urging exemption of tourists from present landing formalities.

"Ecuador, straddling the equator on the Pacific side of the South American continent, is slightly more than twice the area of North Carolina, with climates that would be agreeable to jungle folk, inhabitants of temperate zones, and Eskimos," says a National Geographic society bulletin.

"Torrid jungles and plains occupy the 100-mile-wide coastal zone at the foot of the western slopes of the Andes while virgin, tropical jungles inhabited by Indians spread from the eastern slopes toward the Brazilian border. Above these are the valleys of perpetual springtime, while dominating the whole republic are numerous peaks, some rising nearly 20,000 feet above sea level, that never doff their glistening snow caps."

Not Well Known.

"Ecuador is not well known to tourists. In the past Guayaquil, its chief port, was unhealthy. But today Guayaquil, lying 40 miles up the jungle-flanked Guayas river from the sea, is a healthful city of 100,000 inhabitants and a bustling commercial center in spite of the tropical sun which beats down upon its streets. And the river, once nearly deserted, is a perpetual parade ground for large ocean-going vessels, and native craft which bring Ecuador's products to Guayaquil for distribution to many parts of the world.

"Guayaquil suggests wealth when viewed from the harbor. Many of the buildings facing the quays, and bordering intersecting streets appear to be lined with expensive marble buildings. But here and there a cracked wall reveals the wood framework of these buildings and the thinness of the marblelike stucco that covers it.

"Many rivers tumble down the Andean valleys, flowing into the Pacific. Only two of them, the Daule and the Guayas, are navigable for river steamers more than sixty miles, but in the wet season native boats can penetrate farther inland. Points 200 miles upstream can be reached on the Guayas, the principal stream of the republic.

"Good roads are in process of construction, but automobile traffic has not yet displaced saddle animals and carts. Four hundred miles of railroad are in operation. There are three short lines running from small Pacific ports into agricultural regions; but nearly three-fourths of the steel rails in the republic connect Guayaquil with Quito, Ecuador's capital.

Engineering Feat.

"The construction of the Guayaquil-Quito road is one of the world's great railroad engineering feats. It was built by American engineers and began operation in 1908. In its 297-mile course it climbs to the lofty capital city nestling among the Andean peaks nearly 10,000 feet above sea level. Trains run only in daylight. A stop is made overnight in Riobamba, a town of 20,000 inhabitants. In the afternoon of the second day, passengers are deposited at the Quito station. Prior to the completion of the railroad it took 15 days to reach the capital by mule or foot.

"In Quito and in Guayaquil, travelers find evidence of one of Ecuador's major industries—the manufacture of Panama hats which, in reality are Ecuador hats. Forty-niners returning to the East by way of Panama bought hats made by the nimble fingers of Ecuadorean women and children and called them Panama hats. Most of the so-called Panama hats are made in Manabí province, Ecuador."

Here's a Land Deal!

5 Inches by 25 Feet

New York.—One of the smallest real estate transactions on record took place recently when on the written consent of Cardinal Hayes, Supreme Court Justice Valent signed an order permitting the church of Our Lady of Lourdes to sell the Arcraft Building corporation a piece of real-estate for \$50. The strip is 5 inches wide by 25 feet long in the center of the block bounded by First and Second avenues and Forty-sixth and Forty-seventh streets, and was left to the church in 1915 in the will of Sarah J. Coffey. The church owns no other property in that vicinity.

Conscience Doth Make

Cowards of Poker Fans

New York.—In Leo Jasky's apartment one night Leo and six friends settled down for an all-night session of poker.

At 9 a. m. next morning the doorbell rang. Jasky went to the door. The other men heard a woman ask "Where's my husband?"

Two of the men dived through a window.

David Tarvin fractured his hip as he landed on the sidewalk. The woman was not Mrs. Tarvin.

Loose Feet, Still Climbs

Lewiston, Maine.—George St. Hill, of this city, is perhaps the only one-footed steeplejack in the world. He lost a foot—but none of his nerves—in a fall from an Augusta church spire 11 years ago.

Cube Root Fatal to Cattle Grubs

Entomologists Successful in Its Use to Control Grub Pest.

(Prepared by the United States Department of Agriculture.)

Whoever would think of trying to solve a problem in entomology by applying cube root! As a matter of fact that is exactly what federal entomologists did try—and with gratifying success. The cube root, however, has no relation to the mathematical process familiar to high school students. Even the pronunciation is different, and "cube" is divided into two syllables—coo-bay—and the root is the root of a South American plant which is now considered a highly promising source of insect poisons. The poisonous principle in the cube plant is "rotenone," the same poison that is more familiar in derris powder.

Best Control Methods.

In trying to discover the best methods for controlling the grub that infests cattle and causes knobby bunches to form in their backs, federal entomologists experimented with several powders. They sprinkled these powders on the backs of infested cattle and observed the effect on the grubs. Other poisons used included powdered derris root, hydrated lime, nicotine sulphate, and tobacco powder, all of which were reasonably effective in ridding the cattle of the grubs. The hydrated lime was too caustic for the skin of the cattle. The derris and cube root powders had no unfavorable effect on the skin and hair of the animals, and these materials are not particularly poisonous and hence are very safe to use. Applications of these powders at 15-day intervals killed most of the grubs. Two to four treatments were required.

Control Heavy Losses.

The federal scientists have been anxious to discover some method of controlling the heavy annual losses from cattle grubs which will be less tedious and disagreeable than the customary method of squeezing the grubs until they pop out of the back of the infested animal. The dusting methods give a high degree of control and would be particularly effective if the whole community could be induced to do the dusting simultaneously for two or three seasons.

Formula to Follow in Fattening Live Stock

Do you know how much feed is required to finish a carload of livestock? The United States Department of Agriculture estimates that an average will be as follows:

Cattle: 1,100 bushels of corn, 10 tons of alfalfa and five tons of straw will fatten 20 steers weighing 850 pounds, causing them to gain 350 pounds in 180 days.

Hogs: 450 bushels of corn, 2,750 pounds of tankage will fatten 70 hogs going from 100 to 200 pounds, to make a carload.

Sheep: 600 bushels of corn and 17 tons of hay will fatten 250 lambs weighing 55 pounds each to make them weigh 80 pounds and a double-deck carload.

Hobo Insects Dispersed by Empty Freight Cars

Insect pests have been caught stealing rides in empty freight cars by workers in the United States Department of Agriculture. A careful study of several cars which had been used for shipping alfalfa hay revealed the fact that 15 per cent of the alfalfa weevils in the hay remain alive during a five-day trip and 40 per cent of them stand the rigors of a three-day trip.

A check on the movement of freight cars has shown that they often appear in widely separated parts of the country in a remarkably short time. It is believed that many insect pests other than the alfalfa weevil are dispersed over the country in this way.

Bone Meal for Chicks

Bone meal as a part of the mash fed growing chicks or reasonably fine ground bone fed in a hopper if no mash is fed is a real aid. Chicks fed bone in some form will make a more rapid growth than those whose ration lacks this, but it is good in other respects. Not only is this backed by results at experiment stations, but flock owners have found it a real aid in bringing the cockerels to broiler age most quickly.

Digging Root Crops

Root crops which include such vegetables as beets, carrots, turnips, winter radishes, and things of that sort should be dug in the fall some time after mid October, or just before the weather freezes up. Nearly always these vegetables keep better in the ground than they do outside. However, carrots, sometimes tend to rot before digging time and in such cases it is better to have them out of the ground and placed in storage.

Horses Need Grain

Work horses and mules should be well fed and properly cared for during the busy season. These animals cannot do their best and keep in condition for regular work unless they are given the right kind of feed. Liberal grain feeding and bright clean hay are necessary. Feeding too little grain and too much roughage means worn animals that are short-winded and lack endurance.

Requeening for Better Colonies

Good Time to Plan for Increased Number of Young Insects.

Now is a good time to put a good young queen bee into each colony, suggests F. B. Meacham, entomologist at State college. This will insure a good number of young bees for the winter and a rapid building up of the colony next spring.

"Where black or hybrid bees are kept, a new Italian queen will change them into Italian colonies in two or two and a half months," states Mr. Meacham. "It is best to get the new queens as near home as possible so as to avoid the long confinement in shipment."

Find Old Queen.

In introducing a new queen into a colony, the bees accept her best when well fed. The old queen and queen cells should be destroyed. The old queen can be found by carefully looking over the combs, by smoking and drumming the bees into an empty super. A queen excluder should then be slipped underneath the super and the bees smoked back. The queen will be found trying to get through the excluder. After she is found and destroyed the hive is assembled as before. Where bees are inclined to rob each other, it is best to requeen late in the afternoon so that night will stop any robbing that has started.

Rob Hives Too Close.

M. Meacham states that it is a common practice among many beekeepers to "rob" the hives too close for best results. Each colony should have at least fifteen pounds of honey always on hand and where this is not left, the colony either dies during the winter or comes out in the spring too weak to store any surplus honey. Do not depend on the summer and fall honey plants to furnish this winter supply as in many cases these plants yield very little honey, he states.

Feed Cod Liver Oil to Increase Production

For increasing egg production, securing of a finer texture shell on eggs and raising chicks of great vitality, use cod liver oil in the ration for hens, is the advice of Iowa State college poultrymen.

Cod liver oil contains the vitamin D which birds get from the sunlight during the winter months. Influence of the cod liver oil upon the hatchability of eggs is still an open question but one which is being studied in many places.

In purchasing cod liver oil poultrymen are advised to get that which is vitamin-tested and guaranteed. Untested oils may contain impurities and be low in vitamins.

Control Garden Pests

Garden pests require our constant attention to keep them in check. The cucumber beetle may do serious damage to vine crops before its presence is realized. It can be satisfactorily controlled by dusting with ashes, road dust, air-slaked lime or flour. Arsenate of lead mixed with the above, one part to six or eight of the above, will make the application more effective. Frequent applications early in the morning from a baking powder can will prove effective.

Cabbage Disease

A common complaint concerning cabbage is that although it may appear to start off well, its growth slows up and yellowing and wilting take place, and the plants finally die, at what should be heading time. The trouble is likely the "yellows" disease. This is soil trouble found usually in old gardens, and its only control is to use varieties which do not "take" the disease. There are yellows resistant, all seasons, lacepe and marion market.

Farm Hints

Forced fresh air ventilation for greenhouses has proved successful in checking fungus diseases.

Successful farming means that the farmer must intelligently market as well as scientifically produce his commodities.

Alfalfa and sweet clover will build up the soil, help clean up the weeds, and provide the best of feed for farm live stock.

More than four hundred million hens live on American farms. Some of them lay, some lie, some sit and hatch a brood of chicks, and some just set.

Spring housecleaning in the brooder house before the new crop of baby chicks is installed, is one of the best insurance policies against ravages of disease in this year's flock.

A flock of Leghorn pullets laying 50 per cent must eat from 24 to 25 pounds of grain and mash daily. A decline of 2 pounds of feed from that amount is enough to cause a falling off in egg laying.

When spring seeded alfalfa is being injured by a heavy growth of grass and weeds the weedy growth should be cut with a mowing machine having the cutter bar set quite high so the alfalfa plants will not be severely injured.

SOY BEANS MAKE GOOD DAIRY FEED

They Are Very High in Digestible Nutrients.

Soy beans make a very excellent high protein concentrate for dairy cattle. Since they carry 16 per cent of fat, they are also very high in total digestible nutrients. Investigations at the Purdue station show that soy beans are fully as valuable in the dairy ration as linseed oil meal.

Some experiments have shown that soy beans may not be palatable when fed over a long period of time. However, investigators at the Iowa station fed as high as four pounds per day to dairy cattle over a period of 100 days, and the cattle still relished them. These investigators also found that soy beans in these amounts were not unduly laxative.

Soy beans should be ground or cracked before feeding. It is best to grind only sufficient beans for immediate use. If ground beans are left stored for any considerable time, they will become rancid.

If difficulty is experienced in grinding beans, this may be obviated by mixing them first with corn or oats. The amount of cracked soy beans or soy-bean meal to use with corn and oats will depend upon the kind of dry roughage available. If you have a good quality of alfalfa hay, a ration composed of 300 pounds of corn and cob meal, 200 pounds of ground oats, 100 pounds of wheat bran and 150 pounds of soy beans will make it a very desirable ration. If clover hay is available, 200 pounds of soy beans may be used to advantage in this mixture. If such poor quality roughage, such as timothy hay or corn stover is used exclusively, it will probably be well to use 300 pounds of soy beans and 100 pounds of cotton seed meal along with the amounts of corn, oats and bran suggested above.

Soy beans are a valuable fertilizer when plowed under. However, if a crop of hay is taken off first, very little if any nitrogen is added to the soil by this crop.

Roll Over, You're Dreaming

"What's your idea of an ideal place for a vacation?"

"A place where the fish bite and the mosquitoes don't, and where neither the bees nor hotel keepers sting you."

Strangely enough cold cash is the hardest thing in the world to freeze onto.

MICHIGAN BELL TELEPHONE CO.

Telephone home frequently while away . . . It will banish worry and add to the pleasure of your vacation

You will enjoy your outing more if you can be assured that all is well at home and office. And the easiest way to determine that is to keep in touch with family and business by Long Distance Telephone. When away, too, let the folks back home know the number of the telephone where you can be called, so they can reach you quickly, if desired.

Long Distance telephone rates are surprisingly low, and the service is fast

The Discoverer

"How did that restaurant man make so much money?"

"He invented the process of cutting a pie into five quarters"

First Girl: "Do you know her to speak to?"

Second Girl: "No only to talk about."

Seeing through an idea is good

—seeing an idea through is better.

The man who puts his best foot forward stands the best chance of getting there with both feet.

IN WOMEN'S HANDS

IN THE FREEDOM of women's hands is to be read much of the story of this modern day. Hands that press electric buttons, that lift telephone receivers, that turn the pages of newspapers. Hands no longer fettered by the endless household labors of a generation ago.

In woman's hands today are the advertisements in the newspaper. They speak to every woman's judgement. They appeal to her sense of efficiency. They answer her desire for a life unhampered by needless difficulties and restraints.

By helping her in the intelligent management of her household, advertisements free her hands for direction, for pleasure, for the graces of living. They tell her of products and appliances that lighten her work. They tell her of foods, clothing and equipment that can be advantageously bought. They tell her of countless ways in which she can manage her home more economically and with more success.

In women's hands advertisements are symbols of a new power in a new day. They are eloquent of progress, of comfort, of accomplishment. They serve well. Read them.

ICELAND WILL GET HEAT FROM SPRINGS

Pump Boiling Water to Keep Capital Warm.

Washington.—Iceland, the world's oldest republic, lying just south of the Arctic Circle, is preparing to heat its capital, Reykjavik, and at the same time provide power and amusement through the long winters with boiling water drawn from nearby hot springs.

Progress in this undertaking to a point where, next winter, the national hospital and a school will be heated and an indoor swimming pool will be established, utilizing the water after it has given up most of its heat, was reported to the Department of Commerce this week by North Winslip, Consul General at Reykjavik. He described it as the first step toward heating all of the capital.

The success of this undertaking provides a fresh explanation of the admiration which anthropologists and other students of human races and progress have long expressed for the Icelanders, who have retained in their isolation the splendid qualities displayed by their ancestors of 1,000 years ago in resisting oppression at home, until hopelessly outnumbered and then sailing into unknown seas in flimsy ships to find a land where they could live in freedom.

Iceland was formed, after a fashion, much as the republic was formed, through a volcanic uprising in the earth's crust. That accounts for the abundance of hot springs there, providing water ranging from warm to boiling in temperature. Experiments looking to the use of this natural resource have been in progress for some years, and have shown very favorable results, Mr. Winslip reported.

First drillings were made two years ago by the Icelandic Engineering association at Wash Springs, about two miles from the capital. During the succeeding experiments the hot water was successfully used in heating a house, in cooking and washing and in warming the soil. Further investigation and experimentation are planned.

To Pipe Hot Water.

Under the plan for heating the capital a pumping plant will be constructed near Wash Springs. It will be built under ground, and the natural hot water will be conducted first to a large storage tank and thence forced to the city through pipes carefully insulated to prevent escape of the heat. At the end of the pipe line a pressure regulator will be installed and connected with electric pumps to be operated according to requirements. The line will terminate in an air tank to assure an even flow. Construction of a storage tank in the city to take care of surplus water during the night, preventing waste and at the same time enhancing the effectiveness of the system, is contemplated early next year.

The pipe system in the buildings to be heated with the spring water, Mr. Winslip explained, will be installed in the usual manner, except that the radiators will be somewhat larger than ordinary.

California Town Bars Noisy Barnyard Colony

Burlingame, Calif.—The blarney of geese and the coo of the pigeon have been officially muted by Burlingame's city fathers.

In solemn conclave, the city council enacted an ordinance muting the vocal utterances of fowls and other barnyard residents, curtailing their number and restricting their wanderings. Owners who permit their charges to moo, bleat, crow, cackle, warble or snort where such noise disturbs neighbors in their sleep or otherwise, are punishable by a fine of \$500 and six months in jail.

Flowers of 100 Sorts in Northernmost Alaska

Point Barrow, Alaska.—More than 100 varieties of wild flowers are in bloom in the tundra within a radius of 200 miles from here. Of these, iris and wild forget-me-nots are the most abundant. Of the many colors, yellow predominates.

Scientists are interested in the fact that white flowers bloom near dark backgrounds, dark reds and blues show blooms in the open spaces, while yellows are most numerous near water.

Umbrella Sentence
New York.—Joseph Latzo, husky iron worker, had to answer an intoxication charge twice. Magistrate Rudich suspended sentence. Latzo's wife, however, decided to go her own sentencing. As he left court she attacked him vigorously with an umbrella.

Melons, Soldiers Stole in 1898 Cost U. S. \$150
Washington, D. C.—The Senate passed a bill to pay \$150 to Warren C. Vesta, of Tampa, Fla., for watermelons stolen by American soldiers stationed near his watermelon patch during the Spanish-American war in 1898. Vesta claimed \$1,000 damages but an official investigation resulted in a report that \$150 would cover the damages.

LIGHTS OF NEW YORK

Frank Craven claims to be one man whose ambition is not to be President of the United States. His heart's hope some day is to be president of the United States Golf association; that official being, Mr. Craven declares, the only living person who ever really sees the open golf championship.

Frank is close to correct. We have watched several open tournaments together and, although we claim to be friends of the management, the best standing room we ever could get at the eighteenth green, with Jones putting, was about twelve rows back.

You may imagine that the conversation at the Lambs club is constantly theatrical; but frequently it is political. It was while the affairs of the nation, rather than the drama, were being settled that De Wolf Hopper happened along, paused long enough to tell a story, and bidding us good-by in that marvelously resonant voice, departed to make a speech somewhere.

As we saw him go, with that youthful, springy walk, we agreed that he was one of the most remarkable men any of us had known and tried to guess his age. Conceding that he didn't look or act over fifty, we knew that he must be considerably older than that. I had seen him several times in "Wang"—I wish I could see him in it again—and some of the others could go a lot farther back. After much figuring, we decided he must be about sixty-six. As a matter of fact, De Wolf Hopper was born in New York city in 1858. What a young man that old boy is!

Nothing has grown faster in New York than the moving picture business. I don't think that it was over a dozen years ago that there were summer movie shows in fixed-up vacant lots. There was, for example, the Moorish Garden on One Hundred and Tenth street between Broadway and Riverside drive. This was a vacant piece of ground surrounded on three sides by apartment buildings. They put a fence in front of it, a sign over the gate, rows of benches inside, and were ready for business. I think that some one once told me that either Goldman or Lasky had an interest in this movie show.

We frequently used to go to the Moorish Gardens on summer evenings. They had, of course, to wait until it was dark before they could show a film. The crowd usually filled the place, but not all who saw the picture paid to get in. The tenants in the apartment against which the screen was set could see nothing but all the inhabitants of the apartments on the sides had to do was to look out of their windows, which they did, to enjoy a free show. There was only one price of admission and I think it was a quarter.

In those days John Bunny and Flora Finch still were great screen comedians. If at that time you had declared that movie theaters would be built with seating capacities greater than those of the Manhattan and Metropolitan opera houses, you would have been laughed at. Those temples of art could seat a little over 3,000 persons each. The Hippodrome, with its 5,000 capacity, was the last word in marvels.

Today, Roxy's and the Capitol both seat more than the Hippodrome. The Paramount in Brooklyn seats 4,000, and the Paramount in New York 3,500. The Paradise, in the Bronx, has a capacity of 3,800, and the State seats 3,000. You can pack 3,000 into the Strand. And on a Saturday, Sunday or holiday evening, practically all of these places are sold out. There are several movie stars who can sell them out any night in the week.

Harvey Epstein, a jewelry salesman, parked his car at a Bronx curb while he stepped across the sidewalk to ring a bell in the hall of an apartment. When he turned around a thief was driving the car down the street. In the machine, Mr. Epstein had left diamonds valued at \$40,000. Next time, it seems safe to say, he will look the transmission.

Ever since Frankie Yale was killed, the police seem to hook most shootings up with the followers of that Brooklyn gang leader. A certain New Haven graduate has grown weary of reading headlines: "Another Yale murder."

"Why," he demanded plaintively, "don't they publish stories about some of these Harvard racketeers?"
An insurance adjuster's wife who is suing for divorce, alleges, among other things, that he played bridge for three days and three nights. It seems a harmless amusement, especially as he works just supposing his hobby had been the saxophone.

Pennies Give Newy Visit to Old Home
Seattle, Wash.—Building a hoard of pennies as the public bought his newspapers, Emel Fransens, for years a newy here, is leaving for a visit to his home in Belgium, which he left 59 years ago.

Piling Potatoes in Warm Houses Costly

Sweating Occurs When the Tubers Are Newly Dug.

Piling potatoes in huge heaps on the floor of a warm barn, just after they have been dug, is expensive business. So one grower near Columbus found when an extension specialist from the Ohio State university examined his tubers. His potatoes had been dug, hauled to the barn, and put into a pile approximately 12 feet long, 6 feet wide and 7 feet deep. The pile contained several hundred bushels of potatoes and a heavy percentage of them were rotting.

Cuts and bruises on the potatoes, suffered as they were harvested, were in part responsible for the development of the rot, the specialist found. And the action of the bacteria causing decomposition was being hurried by moisture on the potatoes, which assisted the growth of the bacteria and also gave them opportunity to travel from potato to potato.

"Potatoes should be kept in crates after they are dug, until they have had time to cure," says E. B. Tussing, vegetable specialist in the extension service. "The process of transpiration goes on in the tubers from one to three weeks after they have been dug, and during that period the potatoes will 'sweat' and water will collect on their outer surfaces. They should have time to dry and cure until this period is over."

Ration Essential for Developing Good Pigs

Starting the young pigs early on a good ration is one of the essentials for developing good health and vigor and in developing resistance to disease, according to John W. Schwab, Purdue university. Mr. Schwab points out that young pigs make more rapid and cheaper gains than do older hogs. A home-mixed feed used successfully consists of 80 pounds of cracked corn, 20 pounds coarsely ground wheat and 10 pounds of tankage. A self-feeder for feeding is recommended and pigs should be continued on this ration until weighing about 50 to 60 pounds.

Wheat may be replaced with middlings or hulled oats or screened ground oats. Screening of the oats is necessary as the little pigs cannot handle the oat hulls. Skim milk may be fed night and morning and replace the tankage, if fed in any quantity. Soy beans have not been found suitable for small pigs.

Good commercial feeds can be used advantageously for supplementing home-grown feeds.

No Great Advantage in Feeding Cracked Grain

From the standpoint of digestion, there is no particular advantage in feeding cracked corn to birds that can consume whole corn. However, it is instinctive for fowls to pick up the larger particles of a grain ration first. Therefore, in feeding a grain mixture of wheat and corn, for example, when the corn grains are whole there is a tendency on the part of the fast eaters to pick out the corn and as a result do not always get sufficient wheat grains to balance the diet. On the other hand, the slow eaters are forced to finish their meal on wheat and also receive an unbalanced diet. When corn grains are cracked there is no tendency to make a meal on one grain alone.

Drying Combine Grain in Northwest States

The grain-drying problem as to the combine is solved by the windrow method of harvesting, according to those agricultural engineers who watched the new attachments to the combined harvester work in Canada, the northwestern states and in California the past season. Green spots in the field, weeds, wet weather; if matters not, the windrow header lays the loose material on the stubble for a quick, thorough drying, after which the pick-up attachment to the combine gets it.

FARM FACTS

The longer that a good permanent pasture can be maintained, the cheaper will be the cost.

Hauling out the manure aids in keeping the surroundings of the dairy barn clean and sanitary.

The importance of a sufficient kind and quantity of protein in the swine ration is acknowledged by all well-informed swine feeders.

Superphosphate is equally well adapted for use on the dropping boards of the poultry house as in the gutters of the dairy barn.

Roup or colds in poultry is generally a result of overcrowding, poor housing or ventilation, or lack of vitality due to poor feeding during the growing season, or worms.

Endive that has been tied for several weeks for bleaching should have protection from light freezes. Mulching with some kind of litter, such as leaves, or removing the plants with roots attached and storing them under shelter will prolong the endive season.

Alfalfa Stand Is Hard to Secure

Hardy Northern-Grown Seed Should Be Used to Insure Crop.

Since alfalfa has a greater money value than almost any other crop grown in Colorado, careful attention should be paid to getting and keeping a good stand, suggests Alvin Kezer, agronomist for the Colorado agricultural experiment station.

Use Northern-Grown Seed.

A good stand of alfalfa, according to Kezer, should be obtained by using only hardy northern-grown seed. Experiments conducted by the Colorado experiment station with over 225 varieties and regional strains of alfalfa conclusively prove that alfalfa produced from southern-grown seed produced in Argentine, New Mexico, Arizona, Oklahoma or other Southern sections is not adapted for our climatic conditions. It may live through mild winters but is sure to be killed in severe and dry winters. Snow protection will often enable a tender alfalfa strain to pass through a winter, but it is sure to be caught the first dry cold spell.

Only hardy, vigorous, northern-grown or native grown seed from old fields should be planted. If alfalfa is planted after small grains, no seedbed needs to be prepared if the grain stubble is in good shape, clean and properly leveled. Seed drilled into such stubble has a very good chance of making an excellent stand. However, most farmers want to grow some kind of a crop to reduce the cost of establishing an alfalfa stand. That can be done by seeding barley or wheat or oats with alfalfa.

Seeded With Small Grain.

When small grain is seeded with the alfalfa the small grain should only be planted at about one-half the normal rate of planting, about 50 pounds of barley, about 40-50 pounds of spring wheat and about 40 pounds of oats. After planting, light, frequent irrigations are desirable until the alfalfa is thoroughly established. It seldom pays to try to thicken up thin stands. Usually it is cheaper and better to plow up and reseed when stands become thin.

Disinfection of Seed Is Superior Practice

Good seed concerns practice seed disinfection of seed before releasing it for sale or guarantee that the seed they sell is disease-free. If you must sow seed that is undisinfected it is to your advantage to disinfect it before you sow it so as not to endanger the crop and contaminate the soil. The materials in use for disinfecting vegetable seeds are corrosive sublimate (mercuric bichloride), formaldehyde, hot water and organic mercury preparations on the market. In treating your seed with hot water (118 degrees Fahrenheit) be sure to determine by seed germination test of a small sample if the seed you are going to use is strong enough to stand the hot water. If you purchase the preparations sold as seed disinfectants be sure to follow directions faithfully.

Potatoes Under Straw

It is true that potatoes can be successfully grown under a cover of straw. The function of the straw is to keep down the weeds and keep the soil cool. Potatoes do best in a cool, moist soil. While the method has been used occasionally by various people, it has never come into general practice which indicates that farmers as a rule get better results from planting in the regular way and following standard cultural methods.

Effective Fly-Sprays

Fly sprays are numerous and all have their value. A good one will relieve the animals even if it does not offer complete immunity. The repellent should be put on with a pump that has pressure enough to make the spray stick. A mixture free from unpleasant odor is preferable, and if it does not gum the animal's coat it is still more desirable. Keeping the stable partially darkened will make the spray more effective.

Farm Hints

Ewes and lambs should be changed to fresh pasture every two weeks if possible.

The mash hopper should not be so constructed that it sits on the floor so litter can be scratched into it.

For stretches in sheep, give epsom salts, four tablespoonfuls in a pint of warm water, dissolve well and use syringe to administer.

Consumers pay more and farmers receive less for a large crop than for a small one. The extra amount paid by the consumer remains in the cities.

Chickens that are apparently well and drop dead are likely suffering from anoxemia. This may be due to being over-fat or to the strain of long-continued egg production.

To obtain full benefit from a complete mash ration fed to the laying flock, arrange that the ration be fed in suitable feeders and plenty of them, so that every hen has a chance at the food.

MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Edway B. Hite and Minnie M. Hite, his wife, of the township of South Arm, County of Charlevoix and State of Michigan, to the Peoples State Savings Bank, a Michigan corporation, having its principal office and place of business at the City of East Jordan, Charlevoix County, Michigan, which said mortgage bears date the 14th day of December, 1928, and was recorded on the 17th day of December, 1928, in Liber forty (40) of Mortgages, on page five hundred eight (508), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of one thousand four and 41-100 (\$1,004.41) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Wednesday the 10th day of September, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the city of Charlevoix, Michigan, that being the place where the Circuit court for the county of Charlevoix is held, said Peoples State Savings Bank will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

The premises described in said mortgage are as follows, to-wit: "The southwest quarter of the northwest quarter (SW 1/4 of NW 1/4) of section thirteen (13), township thirty-two (32) north, range seven (7) west, containing forty (40) acres of land, more or less."

Dated June 13th, 1930.

MORTGAGE FORECLOSURE NOTICE

Default having been made in the terms and conditions of a certain mortgage made and executed by Sebbo Veenstra and Hattie Veenstra, his wife, of the City of Charlevoix, County of Charlevoix, and State of Michigan, to F. H. Skow, of the Village of Ellsworth, County of Antrim, and State of Michigan, which said mortgage bears date the 30th day of November, 1925, and was recorded on the 4th day of December 1925, in Liber sixty-six (66) of Mortgages, on page one hundred thirty-three (133), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of thirteen hundred fifteen and 85-100 (\$1315.85) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Tuesday, the 21st day of October, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said F. H. Skow will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

The premises described in said mortgage are as follows, to-wit: "The south half (S 1/2) of the northwest quarter (NW 1/4) of section twenty-six (26) in township thirty-three (33) north, range 8 west, as per the United States Survey thereof, and containing eighty (80) acres of land more or less; also twenty (20) acres off the north end of all that part of the east one-half (E 1/2) of the southwest quarter (SW 1/4) of section twenty-six (26) in township thirty-three (33) north, range eight (8) west, lying by the west side of the Pere Marquette Railroad Right-of-Way."

Dated July 24th, 1930.

State News in Brief

Leelanau—A few worthless scraps of paper money brought Stanley Kirt, 20, of Gilles Pier, a sentence of two to 15 years in Ionia. The money, framed and hanging in the bank of Leelanau, attracted the youth.

Grand Rapids—Fred Linscott, line-man, is under treatment for badly burned arms, suffered in a freak accident. Linscott's spurs were jerked loose from a pole he had climbed, but his belt kept him strapped to the pole, down which he slid so rapidly his arms were seared.

Traverse City—Clause Sporre, an employe of the Michigan Fruit Growers' Co-operative Association, was fatally injured here when several barrels of cherries fell on him as a channel bar broke and let one side of an elevator drop suddenly. Sporre was dead on arrival at Munson Hospital.

Kalamazoo—Leroy Finn, 10 years of age, was instantly killed when he was struck by an eastbound Michigan Central train near his home, six miles east of Kalamazoo, on U. S. highway, 12. The boy was just returning from across the road to the mail box. He stopped to watch a passing freight train which approached and failed to notice the passenger train. His body was thrown 60 feet.

Nashville—When a fire alarm was sounded here the firemen were unable to find their fire truck. It was missing from its usual garage. The department responded to the alarm anyway, and found the truck awaiting them at the fire—a burning box car filled with lumber. Identity of the person who beat the firemen to it has not been determined. An arrest is a possibility, according to Gall Lykins, fire chief.

Detroit—Airplane arrivals at the Detroit City Airport during June totaled 1,162, according to William J. Wallace, acting manager. This is a substantial increase over May when 867 planes landed on the municipal field at Graftot and Connors avenues. Traffic has shown a steady increase since the first of the year. The peak of travel in and out of the port was reached in April when the All-American Aircraft Show was on.

Pontiac—The second Michigan air tour netted a profit of approximately \$1,000, Nelson Tucker, secretary of the Pontiac board of commerce, sponsors of the tour, announced here. The tour was not organized as a profit-making venture, but the unexpectedly large number of entries and pay passengers, together with the excellent weather which permitted the planes to make the tour on schedule time and without unplanned expense, made the profit possible, Tucker explained.

Mt. Clemens—Rudolph E. Pospisil, plant superintendent of the Mt. Clemens Sugar Co., has announced the inauguration of a six or seven months' manufacturing schedule instead of the former schedule of three or four months. This schedule, according to Pospisil, will increase the output of the company to 40,000,000 pounds of sugar a season instead of 15,000,000 as in the past. A new process of refining, developed and patented by Pospisil, has made the new schedule possible.

New Baltimore—When a grass fire broke out and threatened houses on the west side of New Baltimore, one member of a crew of haymakers doffed his trousers and used them to beat out the flames. Firemen, handicapped by a lack of water, used branches from the trees until residents brought gunny sacks. Armed with trousers, branches, sacks and chemicals, the fire fighters halted the spread of flames within a few blocks of the village limits. An area of nearly a square mile was burned.

Grand Rapids—Five-year-old Harrison Procter was electrocuted when he fell upon the homemade battery with which he powered a miniature electric automobile. He died en route to a hospital. The boy was tinkering with a charger used to restore the battery, which had been devised by his father, Norman J. Procter, motion picture machine operator. The child, according to the father, suffered a shock that caused him to fall upon the battery. He apparently had lain on the battery between 15 and 20 minutes.

Pontiac—Hysterical after she stood helplessly by and watched her husband die in an unsuccessful attempt to save their son from drowning in Square lake two miles west of Lake Orion, Mrs. Carl Ohlson, Detroit, attempted to end her life in the lake. She was restrained by friends and had to be quieted by the use of sedatives. Ohlson was an excellent swimmer. Finding of his body floating on the water with the lungs apparently empty of water led to the belief that he was a victim of heart disease.

Detroit—Michigan stands eighth among states in airport facilities, the department of commerce announced here. There are 50 sites, commercial and military, virtually all of which have been approved either by the department or by the state aviation commission. California leads the country with 164 airports and Texas is second with 115. Ohio and North Dakota are tied for third place, with 85 each. Illinois is fourth, having 81 approved fields, and New York fifth with 78. Oklahoma is in sixth place with 53, and Kansas next with 51.

CITY OF EAST JORDAN REGISTRATION NOTICE.

FOR GENERAL PRIMARY ELECTION, TUESDAY, SEPT. 9, 1930.

To the Qualified Electors of the City of East Jordan, State of Michigan.

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned City Clerk, will, upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said City not already registered who may APPLY TO ME PERSONALLY for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

The last day for General Registration does not apply to persons who vote under the Absent Voters' Law. (See Registration by Affidavit.)

Notice is hereby given that I will be at my office under Postoffice on—**WEDNESDAY, AUG. 20, 1930**—the 20th day preceding said election.

As provided by Sec. 3, Chapter 3, Part II, P. A. 306, Session of 1929. From 8 o'clock a. m., until 8 o'clock p. m. on each said day for the purpose of REVIEWING the REGISTRATION and REGISTERING such of the qualified electors in said CITY as SHALL PROPERLY apply therefor.

Notice is hereby further given to the Qualified Electors of this City that I, the undersigned Clerk of said City, will register qualified electors who may apply at my office on any business day in the year up to and including **SATURDAY, AUG. 30, 1930**—LAST DAY—

for General Registration by personal application for said election, from 8 o'clock a. m., to 8 o'clock p. m. The name of no person but an ACTUAL RESIDENT of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

REGISTRATION BY AFFIDAVIT

Sec. 10—Registering of Electors: Regular Session of 1925—Any absent voter, as defined in this act, whose name is not registered and who shall claim the right to vote by absent voter's ballot at any election or primary election, may at the time of making application for absent voter's ballot, present to the City Clerk an affidavit for registration which shall be in substantially the following form:

AFFIDAVIT FOR REGISTRATION
STATE OF MICHIGAN,
County of _____ ss.

I, _____ being duly sworn, depose and say that I am a citizen and duly qualified elector of the _____ Ward of the City of _____ in the County of _____ and State of Michigan; that my postoffice address is No. _____ street _____, or R. F. D. No. _____ P. O. _____; that I am not now registered as an elector therein and that I am voting by absent voter's ballot at the election (or primary election) to be held upon the _____ day of _____, 192____, the application for which ballot accompanies this application; that I make this affidavit for the purpose of procuring my registration as an elector in accordance with the statute that I make the following statements in compliance with the Michigan Election Law: Age _____; Race _____; Birthplace _____; Date of naturalization _____; I further swear or affirm that the answers given to the above questions concerning my qualifications as an elector are true and correct to the best of my knowledge and belief.

Taken, subscribed and sworn to before me this _____ day of _____, 192____.

Signed _____
Notary Public in and for said County, State of Michigan.

My Commission expires _____ 192____.

Note—If this acknowledgement is taken outside of the State, the Certificate of the Court that the person taking the acknowledgement is a notary must be attached.

REGISTRATION OF ABSENTEE BY OATH.

If any person whose name is not registered shall offer and claim the right to vote at any election, or primary election, and shall UNDER OATH, state that he or she is a resident of such precinct and has resided in the WARD TWENTY DAYS next preceding such election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution; and that, owing to the sickness or bodily infirmity of himself or herself, or some member of his or her family or owing to his or her absence from the City on public business or his or her own business, and without intent to avoid or delay his or her registration he or she was unable to make application for registration on the last day provided by law for the registering of electors preceding such election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election. If such applicant shall in said matter, wilfully make any false statement, he or she shall be deemed guilty of perjury, and upon conviction, be sub-

ject to the pains and penalties thereof.

Provided, That any city may provide by its charter or by resolution approved by a majority of the members of its legislative body for the registration of such sick and absent voters on the last Saturday preceding any election or primary election at the places of voting in the several voting districts of such city, instead of on election or primary election day.

PROVISION IN CASE OF REMOVAL TO ANOTHER PRECINCT.

Any registered and qualified voter who has MOVED from ONE ELECTION PRECINCT of a Ward to another election precinct of the same Ward shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she HAS REMOVED to the registration book of the precinct in which he or she THEN RESIDES. Such elector shall have the right to have such transfer made ON ELECTION DAY, or Primary election day, by obtaining from the board of inspectors of election of the precinct from which he or she HAS MOVED a CERTIFICATE OF TRANSFER, and presenting the said certificate to the BOARD OF ELECTION INSPECTORS OF THE PRECINCT IN WHICH HE OR SHE THEN RESIDES.

Dated July 25, 1930.
OTIS J. SMITH, City Clerk.

CHANCERY ORDER

STATE OF MICHIGAN, The Circuit Court for the County of Charlevoix, in Chancery.

In the matter of the petition of William P. Porter, John J. Porter, and Howard Porter, a majority of the Directors of the East Jordan Cabinet Company, a Michigan corporation, For the Dissolution of Said Corporation.

Order to Show Cause.

At a session of said Court held at the Court House in the City of Charlevoix, in said County, on the 28th day of July, 1930.

Present: Honorable Parm C. Gilbert, Circuit Judge.

In this cause on reading and filing the petition of William P. Porter, John J. Porter and Howard Porter, a majority of the Directors of said East Jordan Cabinet Company, a corporation existing under the provisions of Act No. 232 of the Public Acts of 1903, and all acts amendatory thereof and supplemental thereto, alleging that it will be beneficial to the creditors and stockholders of said corporation that said corporation be dissolved, which petition is verified by the affidavit of said petitioners.

On Motion of E. N. Clink, Attorney for said petitioners,

IT IS HEREBY ORDERED that all persons interested in said corporation show cause, if any they have, before this Court at the Court House in the City of Charlevoix, in said County, on the 29th day of September, 1930, at ten o'clock in the forenoon of said day, why said corporation should not be dissolved.

AND IT IS FURTHER ORDERED that notice of the contents of this order shall be served by mail upon all of the creditors and stockholders of said East Jordan Cabinet Company at least thirty days before the date of such hearing, and shall be published once in each week for three weeks successively in the Charlevoix County Herald, a newspaper published and circulated in said county, and that the first publication of this notice shall be made within fifteen days after the date of this order.

PARM C. GILBERT,
Circuit Judge.

Beautiful Dinner Gown

"The Enchantress" is the appropriate title for this dinner gown. It is of silk chiffon and is worn over a slip having a scalloped yoke. The fish-tail back is an interesting development of the skirt.

POTPOURRI

The World's Greatest Blast

The usual stick of dynamite weighs but a few ounces. Powder them, over a simultaneous explosion of forty tons on one job. To complete the last link in the Panama canal the forty tons were placed in 1,000 holes containing eighty pounds each. President Wilson touched off the blast from Washington, 2,000 miles away.

Worry to something one ought to take something for. It isn't a natural state of mind.

The cunning man uses deceit, but the more cunning man shuns deception.

If the diet isn't well planned, it just means spending money for the fun of getting sick.

The reward of one duty is the power to fulfill another.

Actions, looks, words, steps, form the alphabet by which you may spell character.

An ounce of mirth is worth a pound of sorrow.

Some men are pushed up; others get up by push.

How to be happy, though selfish, may not be altogether hard.

In an old fashioned courtship they used to turn down the gas, and in the new-fashioned one they step on it.

Some love is priceless and some is content with as much alimony as it can get.

Ever notice that the people who are proudest of their ancestors have no children?

Another thing against wild oats is that you never see them quoted on the business market.

Play a new role

YOU can't be yourself many years at a stretch, without being somebody new! All at once, you will be using different cosmetics, eating different foods, setting your table differently, re-arranging your surroundings, re-adjusting your whole scheme of life.

Advertisements lead you to do this—even when you are least aware. They announce the new discoveries. Others try them. You try them. Of a sudden, you've changed! The old is at once too out-of-date. It is too slow in this age of speed. Too ineffective in this age of perfection.

Somewhere, in advertisements you have not read yet, are things other people are reading about that will make a change in you. Read the advertisements here today. You will discover some of the things you will want to use habitually. You might even get ahead and start using some today.

Advertisements enlighten about the new . . . and enlighten your life with their news.

SUCH IS LIFE

For Charles Suggs

JUST SO!

WHY JUNIOR!

WHAT MAKES YOU SO BAD?

I'VE HAD TO PUNISH YOU EVERY DAY THIS WEEK—HAVEN'T YOU ANYTHING TO SAY?

YES! I'M DARN GLAD TODAY IS SATURDAY
