

Charlevoix County Herald.

VOLUME 34

EAST JORDAN, MICHIGAN, FRIDAY, SEPTEMBER 12, 1930.

NUMBER 37

Clerk Bulow Leads Ticket

EAST JORDAN CANDIDATE HAS 1214 VOTES OVER OPPONENT.

County Clerk Fenton R. Bulow lead the Charlevoix County Ticket in the Republican Primaries, Tuesday, receiving a 1214 majority. Other winners in the contests were Judge of Probate, Ervan A. Rueggesser; County Treasurer, Joseph Wm. Flanders; Register of Deeds, Frank F. Bird; and F. F. McMillan and Schuyler B. Stackus for Coroners.

Louis E. Anderson was re-nominated for State Representative in the Charlevoix-Leelanau District by 150 votes. In Leelanau County the vote was—Anderson 1067, Fitch 260. In the State-wide Primary Wilber M. Brucker won the nomination for Governor, Luren D. Dickinson for Lieutenant Governor, James Couzens for U. S. Senator.

In this District, Congressman Frank P. Bohm was re-nominated. State Senator, Calvin A. Campbell was unopposed.

COUNTY CONVENTION DELEGATES ELECTED

East Jordan, First Ward—Wm. J. Bashaw, John Whiteford, Robert G. Proctor.

Second Ward—W. R. Barnett, H. H. Cummings, John Shier, Jos. Montroy.

Third Ward—Richard Lewis, S. J. Colter, B. Milstein, C. H. Pray, Gus Muma, Howard Porter, B. L. Lorraine, John F. Kenny.

South Arm Township—Martin Ruhling, Geo. Nelson, Lawrence Addis, Delbert Carson, R. V. Liskum.

Wilson Township—Harry Behling, Charles Shepard, Ed. Nowland, Chas. Knop, LeRoy Hardy.

Pomona Grange Meets With Ironton, Saturday

Charlevoix Pomona Grange No. 40 will meet with Ironton Grange on Saturday, Sept. 13th. Supper will be served at the usual hour and the program will start at 8:00 o'clock. L. E. Anderson, Charlevoix-Leelanau Dist. Representative will be with us and give us a talk.

TO WHOM IT MAY CONCERN

I will not be responsible for any debts contracted by my wife, Flossie May Sommerville of East Jordan, Michigan.

G. W. SOMMERVILLE, Box 332, Midland, Michigan. adv. 37-4

CONSERVATION DEPT' WILL EXHIBIT AT COUNTY FAIR

Mink, denizens of the swamps and waters of Michigan are fond of a tropical fruit—bananas. Raccoons enjoy hamburger sandwiches. Coyotes, usually considered too bloodthirsty to consider anything but raw meat as a diet, plead for bread and milk.

At the Charlevoix County Fair Grounds, East Jordan, where the Department of Conservation will display its exhibit of Michigan wild life on Sept. 23-26, the feeding of the animals will attract crowds around the cages. And feeding wild animals is not a matter of just throwing something into the cage. Every animal must have something different from the other, something that must correspond in a way with his normal feeding habits in his natural habitat. For instance, beaver usually cannot stand the strain of captivity and frequent transportation unless he has a regular diet of poplar. He takes vegetables to vary his diet. Bobcats and wolves must have meat.

Wild life exhibits, such as the one to be shown here by the Conservation Department, have become increasingly popular throughout the State. The exhibit is being shown at 27 Fairs this year to probably close to a million people.

The wild life exhibit is only part of the Department's display at the Fair. Inside is a booth banked with all varieties of Michigan Furs, including timber wolves, coyotes, bobcats, mink, beaver, foxes, weasels, woodchucks and others. Various kinds of guns are displayed, confiscated from conservation law violators.

PRIMARY SCHOOL MONIES FOR SOUTH ARM

South Arm Township Clerk, Lawrence Addis recently received the following report from Webster H. Pearce, Supt. of Public Instruction, of the amount to be received by the various school districts in South Arm Township. The ratio per pupil is considerable more than given out at Lansing a few weeks ago, and is some \$2.00 more per pupil than heretofore. The ratio is \$17.92.

South Arm Township					
Dist. No. 1 Fr.	—37 pupils	—\$663.04			
Dist. No. 2	—25 pupils	—448.00			
Dist. No. 3	—30 pupils	—537.60			
Dist. No. 4 Fr.	—586 pupils	10,501.12			
Dist. No. 7	—25 pupils	—448.00			

How To Select Show Exhibits

FOR TOP O' MICHIGAN POTATO AND APPLE SHOW.

With potato digging just around the corner, the potato growers of the Top O' Michigan should plan to select a few potatoes for the 8th annual Potato and Apple Show at Gaylord on October 29th to 31st.

The best time to make the first selection is at digging time according to B. C. Melencamp, Secretary of the Show.

While many of the exhibitors at the Show need little advice in regard to selecting show samples, Mr. Melencamp believes there are many "beginners" in the game, who may improve their selection, and his advice is as follows:

1. While picking up the potatoes from the field at digging time, lay aside all those that are most nearly perfect as to size, shape, and color and free from disease and blemishes. Select ten to twenty bushels in this manner and wrap them in paper in the field to prevent bruising. (Hand digging is best.)

2. When all the potatoes have been dug and put away, select the final show sample of one peck (32) or one bushel as the case may be.

3. Do not wash the potatoes but remove dirt with a soft brush or soft woolen cloth.

Keep potatoes wrapped in paper until they are placed on the show room table to prevent bruising and greening with exposure to light. Keep in a cool, dry, dark place.

4. Bring to the Show in person or send by your county agricultural agent. However, any samples sent to Gaylord in care of the Show by prepaid charges will be taken care of by the management according to the rules and regulations of the Show Association.

5. Persons expecting to show for the first time would benefit by consulting with their County Agricultural Agent. All prospective exhibitors should get a premium book from their agricultural agent or write to B. C. Melencamp, Secretary, Boyne City.

Let us be thankful for fools. But for them the rest of us could not succeed.

State News in Brief

Charlotte—Verna Tullis, 46, was fatally hurt on the outskirts of Charlotte, when the tire on the automobile she was driving blew out, throwing the car against a billboard.

Flint—Burned when her clothes became ignited while she was playing with matches at her home, 3-year-old Beth Wright, died in a hospital. She was attempting to light a bon fire in the back yard.

Ironwood—One man was killed and another injured here in an airplane crash. Clarence Jacquart of Hurley, Wis., died instantly when the plane crashed after taking off. Morris Bergland, also of Hurley, was injured. The pilot was Ernest Brock, of Ironwood. He was uninjured.

Big Rapids—Mr. and Mrs. John H. Marts, of Big Rapids, received congratulations on their fiftieth wedding anniversary. Mr. Marts, who is 82 years old, is president of the Big Rapids Furniture Manufacturing Co., a business he founded 45 years ago. Mrs. Marts is 72 years old. They have four sons.

East Lansing—The state of Michigan's broadcasting station WRDS, which is expected to play a great part in crime prevention throughout the state, has been licensed by the federal radio commission on a police wave length of 1,682 kilocycles. The station will operate on 1,000 watts power at night and 5,000 watts in the daytime, reaching all parts of the state.

Grand Haven—A 300-acre tract of land in the Grand river, between Grand Rapids and Indian channel, has been turned over to the state conservation department to be used as a wild fowl sanctuary. The property is owned by the Pool brothers and Howard Gardner. Waters surrounding the tract may be used for hunting and trapping rights are allowed the owners under the 1929 laws.

Saginaw—Mabel Gilman, 37 years old, has a scalp wound to show for her narrow escape from death when her slater, Mrs. Fred Blower, pointed at her what she believed was an empty pistol and pulled the trigger. The bullet grazed the girl's head. The pistol had been in possession of Mortimer Vandervoort, a lodger at the Blower home, for more than 20 years and had not been fired in that time.

PUREBRED "RAM TRUCK" COMING

The Michigan Purebred Sheep Breeders Association will again cooperate with the Michigan State College Extension Service by sending a truck load of purebred rams through Charlevoix as well as other Northern Michigan counties during the months of September and October.

Last year 104 rams and ewes were sold and delivered from the truck in twenty northern counties and according to past custom the ram truck will again be present at a series of flock improvement meetings where the rams will be used for demonstration purposes. Topics to be discussed will pertain to the sheep outlook, to fall management problems and to breeding; besides there will be actual demonstrations on judging, selection of breeding stock, culling of ewes and on lamb grading. At the close of each meeting these individuals will be discussed and offered for sale.

The following meetings will be held in this county:

Wednesday afternoon, Sept. 17th at 2:30 fast time, at the farm of Ed. Graham, Charlevoix, located on the Barnard road, south of Charlevoix.

Thursday forenoon, Sept. 18th, at 10:00 fast time, at the farm of W. R. Barnett, East Jordan, located on road leading to Fair Grounds, one-half mile from town.

The rams from the truck will be offered for sale at lower prices and at a reduction of from \$5.00 to \$10 under previous years.

All rams are personally inspected by the Michigan State College Specialist and will be of excellent quality and type. Shropshire, Hampshire, and Oxford breeds will be represented.

If you need a ram, visit these demonstrations and no doubt you will find just the one to fill your needs. Know how to judge, cull, and care for sheep for best results.

B. C. MELLENCAMP, County Agr'l Agent.

Marquette—Mrs. Scholastique Mallette, 87 years old, was burned to death when her clothing caught fire as she lighted a lamp in her farm home at Harvey. She was found with her clothing in flames, by Henry Lemire, who had come to take possession of the farm, which he purchased recently. Lemire extinguished the flames and took Mrs. Mallette to St. Mary's Hospital, but she was dead on arrival.

Fraser—Mr. and Mrs. Christopher Schmidt observed their sixtieth wedding anniversary here. Their four grandchildren and 13 great-grandchildren gathered at their home. Sixty years ago they set up their home a farm near what is now the intersection of Townline and Schoenherr roads. For 54 years they lived there, removing to Fraser six years ago. The anniversary found Mrs. Schmidt, 77 years old, in good health. Mr. Schmidt is 81.

Benton Harbor—A cat accompanying a family on a vacation trip was believed to have been responsible for the death of one of its keepers and injuries suffered by two others. Mrs. J. E. Ricker Sr., 75, of Joliet, Ill., was killed when the cat jumped on the lap of her son, J. E. Ricker Jr., causing him to lose control of the car in which they were riding. The car left the road. Ricker's jaw was broken and his wife was slightly injured. The cat was not hurt.

Detroit—Purchase of four new 14-passenger, high speed Ford tri-motor transport planes for service between Cleveland, Detroit and Chicago on the Stout Air Lines, was announced by Stanley E. Knauss, vice president and general manager. The transports, each costing approximately \$51,000, are of the latest design and have a top speed of 155 miles an hour with a cruising speed of 123 miles an hour. The air liners will replace the earlier model transport planes which have been in operation.

Ann Arbor—Reforestation of 3,300 acres of cut-over land between Douglas and Burt lakes, east of Pellston, will be undertaken by University of Michigan foresters early in the winter. The site chosen by Prof. Leigh J. Young of the forestry school is known as the Bogardus tract. Hardwoods, including sugar maple, beech, hemlock, white ash and basswood will be planted on the highlands of the tract. On the sander sections 300,000 Norway pine seedlings will be sown. In the lowlands and bogs, white cedar, tamarack, spruce and balsam will be set out.

Ann Arbor—About 65,000 high school students of the state will be guests of the University of Michigan athletic association on Sept. 27, the opening football day, again this year. Director Fielding H. Yost said that as many tickets as are required will be issued to all public and private schools doing a high school grade of work. The practice was started in 1927, the year the new stadium was opened, and 40,000 school boys and girls were entertained then. About 45,000 were on hand in 1928, and the number grew to 65,000 last year.

COUNCIL PROCEEDINGS

Regular meeting of the common council of the City of East Jordan held at the council rooms, Tuesday evening, Sept. 2, 1930.

Meeting was called to order by the mayor. Present: Mayor Gidley, and Aldermen Maddock, Dudley, Taylor, Parmeter and Williams. Absent: Alderman Watson.

Minutes of the last meeting were read and approved.

Bills were presented for payment as follows:

LeRoy Sherman, labor & mdse	\$33.25
Wm. Prause, labor	47.25
John Whiteford, work at cem.	41.50
John McKinnon, shingles	10.00
J. F. Kenny, draying	13.50
Wm. McPherson, mowing lawns	2.80
E. N. Clink, legal services	25.00
Otis J. Smith, sal. postage, etc.	37.88
Grace E. Boswell, salary	60.00
Henry Cook, salary	125.00
Bremmey-Bain Co., wire cable	3.84
Mich. Pub. Service Co., lighting streets	444.82
Mich. Pub. Service Co., lighting tourist park	15.00
Mich. Pub. Service Co., lighting pump house	4.15
Mich. Pub. Service Co., lighting fire hall	1.00
Mich. Pub. Service Co., pumping	124.90

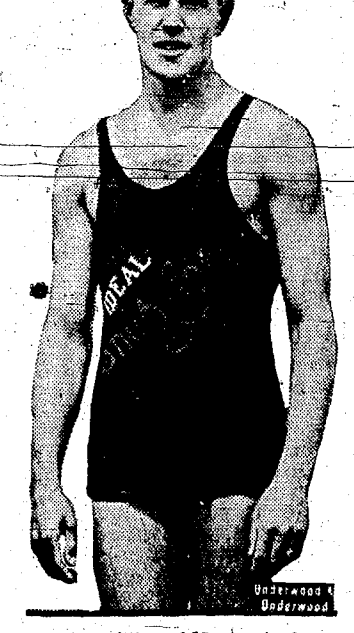

Moved by Alderman Taylor, supported by Alderman Maddock, the bills be allowed and paid. Motion carried by an aye and nay vote as follows:

Ayes—Maddock, Dudley, Taylor, Parmeter, Williams and Gidley. Nays—None.

On motion by Alderman Maddock, meeting was adjourned.

OTIS J. SMITH, City Clerk.

Athlete Wins Two Titles

Jackie Phillips of Montreal who was the only athlete at the British empire games, held there, to carry off two empire championships—the high tower and spring board diving titles.

Chocolate Box Baby

A photograph of this child, Rita Gordon, so greatly attracted the managing director of Poland's biggest chocolate firm that he named one of his principal brands "Rita" and used the baby's picture to decorate all his chocolate boxes. The child's father disposed of the copyright on her features for a period of ten years in consideration of a payment of \$2,500 per year. Mr. Gordon is a Pole of Scotch descent.

Professor: "Have you done any outside reading?"

Student: "No, sir, it's been too cold to read outside."

Distracted Wife: "Is there no hope, doctor?"

Doctor: "I don't know, what were you hoping for?"

Minature City at County Fair

SAFETY CITY, SHOWING HOW ACCIDENTS OCCUR, DISPLAYED.

"Safety City" the minature city depicting 18 causes of accidents will open its exhibit at the Charlevoix County Fair at East Jordan, Sept. 23-26. B. F. Emery or "Mayor of Safety City," as he is sometimes called, accompanies the exhibit and will give short talks on the subject of safety.

The model city, unique in its many details and mechanical and electrical devices, is the contribution of the Michigan Mutual Liability Company in behalf of the citizens of Michigan, teaching its lessons in the prevention of industrial and even domestic accidents.

The exhibit is 20 feet long with a six-foot wing at each end, where modeled and scenic effects extend upward and outward in proper perspective. Across the entire foreground is the Detroit river, on which are pleasure boats, ferries, motor boats and canoes. Along the waterfront extends Riverside Drive and a promenade. Predominant in the general view is Detroit's sky line in which are seen the Book, Eaton, Earlum and other noted towers of commerce, the Art Institute, the Public Library, Department stores, the buildings of the Michigan Liability Company, and other prominent buildings, including the birthplace of Charles A. Linbergh at 122 W. Forest Ave. The Ford Airport displays its beacon light.

In the foreground are typical city blocks with modeled buildings of various types and all the details of a busy community faithfully carried out, even to complete mechanically operated signal systems, in operation. Perfectly modeled to scale as all the other buildings are is the Michigan Mutual Hospital. There are fire escapes with washings hanging on them in typical big-city fashion, milk bottles standing on window sills, and little fairy-like people walk the streets. Planes are seen overhead and down below there is a constant flow of traffic through the business section. All along the streets are little accidents which occur every day through carelessness of drivers.

Through special lighting effects the scene changes from day to night. As darkness falls, moon and stars come out; buildings are illuminated, auto headlights are turned on; signal, trains and boats are lighted, and electric signs may be realistically portrayed, the two flash. The varied traffic conditions in the wings are devoted to country landscape, hills, rivers, waterfalls, bridges and lakes. All the more common accidents such as happens through carelessness, violation of traffic regulations and common discourtesy are impressively "staged." This mechanical city was built in a New York studio famous for its success in building "sets" for the stage and moving picture production.

Do not fail to see this exhibit at the Charlevoix County Fair, Sept. 23-26.

EIGHT CLUB MEMBERS ATTEND STATE FAIR

Charlevoix County was represented at the Michigan State Fair by the largest delegation of club members yet to be awarded trips in recognition of excellent club service.

Carleton Smith, Clayton Smith, and Robert Cummings, all from Charlevoix were awarded trips as a result of winning second place at the Gaylord Camp in the judging of dairy cattle.

Robert Tainter, Boyne City, Howard Whaling East Jordan, and Fred Ranney East Jordan were our representatives in the crops judging contest. Then, not to be outdone by the boys, two girls of Boyne Falls, Hazel Mosley and Mable Mosley, were our delegates in the Canning Demonstration Contest.

Every year the successful winners from the three District Camps receive this trip in order to compete for the State championships, which are awarded during the State Fair Week. The State Champions then go to Chicago to the National Boys' and Girls' Club Congress where the National Champions are selected.

Did these boys and girls have a good time? Just ask them. In addition to seeing the Fair they also saw considerably of Detroit and the sights that Detroit is noted for. We are anxiously waiting to hear the results now.

B. C. MELLENCAMP, County Agr'l Agent.

Buyer: "Is this airplane absolutely safe?"

Seller: "Sure thing. The safest on earth."

WILSON TOWNSHIP
(Edited by Mrs. C. M. Nowland)

Mr. and Mrs. Peter Stanek and son Archie were Sunday dinner guests at the home of Mr. and Mrs. James Habasko of Boyne City. After dinner they all motored to visit Mr. and Mrs. Charles Prohaska and family at Horton's Bay.

Mr. and Mrs. John Hitsman and daughter, Mr. and Mrs. Newton Tuck and two children of Midland visited the former's niece, Mrs. Ray Nowland from Saturday until Tuesday.

Born to Mr. and Mrs. James N. Young, Sept. 6th, a son, at the home of her parents, Mr. and Mrs. Tom Shepard. The baby was named James Gilbert.

Mr. and Mrs. Charles Hott made a short visit on her sister, Mrs. John Hott of East Jordan, and their son, Elmer Hott and wife of Peninsula, Sunday.

Mrs. Eugene Raymond and daughter, Miss Nellie visited Mr. and Mrs. Ernest Williams of Jordan township Sunday afternoon. Mr. Williams had received word Saturday of the death of his nephew, Elgie Williams of Detroit, in Indiana. DeWitt Williams and wife took Mrs. Carl Brown to Indiana for the winter. They stopped in Detroit taking his brother, Elgie and wife with them. Coming back to Detroit on Monday there was a collision with another car. Both of the Williams boys were badly hurt and were removed to a hospital, where Elgie passed away Wednesday.

Eugene Raymond accompanied his son, Alfred and wife, and her parents Mr. and Mrs. Jerry Moblo of Miles District to Traverse City, Tuesday.

Word has been received from Mr. and Mrs. Joseph Hejhal and daughter of their safe arrival at their home in El Cajon, California on Aug. 15th, after visiting their relatives and friends in Charlevoix and Antrim counties, and other States, which they had not seen in 11 years.

A large number attended the picnic at Whiting Park on Labor Day from this township.

Herman Stone of the Soo returned home last Friday after spending the past 2 weeks at the home of Mr. and Mrs. Frank Behling Sr.

Mrs. John McCalmon and daughter Miss LaVerne, her brother Jack's son Donald, Miss Ellen Johnson, Edna

Zipp and Ruth O'Dell of Bay Shore were Sunday dinner guests of Mr. and Mrs. J. L. Sutton, and calling on friends on Nowland Hill.

Hudson Savage of Detroit moved last week on the farm better known as the Cyrenus Burley farm.

Miss Esther and Edd. Shepard visited their aunt, Mrs. Mary Durance of Charlevoix, Sunday Aug. 31.

Charlevoix Grange Convention delegates met Thursday evening at the Wilson Grange Hall. The west side of the Lake Charlevoix chose Mr. and Mrs. Irving Crawford of South Arm Grange, and the east side chose Mr. and Mrs. Jacob Chew of Peninsula Grange to attend State Grange at Coldwater the last week of October. Only 93 votes were cast at the Primaries at Wilson Township Hall, Tuesday.

Percy Batterbee of East Jordan spent Monday at the home of his grandparents, Mr. and Mrs. Ed. Nowland.

Mr. and Mrs. Lewis Trojaneck and sons of Jordan township spent Friday evening at the home of her sister, Mr. and Mrs. S. R. Nowland.

John Martin with son Fred and daughter, Margaret motored to Muskegon Saturday and spent the week at the home of his daughter, Mrs. Ambrose Bell and family. Bringing Mrs. Martin home with them after a visit there and at Detroit the past month.

Mr. and Mrs. T. E. Morehouse and three children and Mrs. Will Kelso of Hollack were Sunday visitors of Mr. and Mrs. Silas Deming.

Frances Neice of Lansing spent a few days last week at the home of Rolland Danforth Cushman and other friends.

Mrs. Alice Rozell spent a few days last week with her granddaughter, Mrs. Burton Brooks of Boyne City, while her husband was at Frankfort.

Mr. and Mrs. James Isaman and Mr. and Mrs. Herman Goodman of East Jordan were Sunday visitors of the former's niece, Mrs. S. R. Nowland.

Rev. Jones, Presbyterian minister of Munger spent a few days at the home of Mr. and Mrs. Clark Colver for the benefit of our climate, for his hay fever. Mr. Colver's brother Dan motored up to bring Rev. Jones.

Miss Harriett Behling returned to Grand Rapids Saturday, after spending the past two months at the home of her parents, Mr. and Mrs. Frank Bahling Sr.

Mrs. Roland Bowen and baby of East Jordan spent two days last week with her grandparents, Mr. and Mrs. E. L. Nowland.

Mr. and Mrs. Milo Clute and children left Saturday for a week's vacation trip to Traverse City and other places. Wilber Buchin of Boyne City is doing their chores.

PENINSULA

(Edited by Mrs. E. Hayden)

Mr. Marvin, the Rawleigh man was on the Peninsula Tuesday.

Lyle Willson of Mountain Dist., took his daughter, Miss Anna, who has been so very ill since June, but who has improved the past few weeks to the State TB Sanitarium at Howell, starting Tuesday they drove to Lansing where they spent the night with Mr. McPherson, whose summer home is across the road from the Willson farm, going on to Howell Wednesday morning. They were accompanied by T. J. Hitchcock of East Jordan, whose son, Burton is also a patient there. The men visited the Howell Fair Thursday. They returned Thursday night, arriving early Friday morning. Miss Anna stood the trip in fine shape.

Friends and relatives of Ralph Gaunt gave him a surprise party at the home of Mr. and Mrs. George Weaver at East Jordan Saturday evening. They report a very pleasant evening.

A light frost struck some places Thursday, Friday and Saturday mornings, but very little damage was done.

Mr. and Mrs. A. Reich of Lone Ash farm motored to Charlevoix and Petoskey Tuesday, also Friday, to see their daughter, Mrs. Wilfred Arnot, who is employed there. Mrs. Arnot had all her double teeth extracted Thursday.

Clarence Mullett of Fremont motored up and visited his wife and little daughter at the home of her parents, Mr. and Mrs. F. H. Wange-man last week.

Bean harvest has begun and is in excellent condition, although possibly a light crop.

Mr. and Mrs. Geo. Weaver and family of East Jordan were dinner guests Sunday of Mr. and Mrs. Ira McKee in Star Dist.

A. G. Reich of Lone Ash farm is suffering with an abscess on his neck. Mr. and Mrs. Philo Hurd and family of Hortons Bay were dinner guests of Mr. and Mrs. A. B. Nicloy at Sunny Slope farm, Sunday.

Mrs. George Papineau who has been caring for her daughter, Mrs. Orval Bennett and little new grandson since Aug. 26th, returned to her home in Boyne City Sunday. She was accompanied by Mrs. Orval Bennett and three children, who will spend the week there.

The Lou Bros. threshing outfit finished the season's run Saturday morning. The last job being at Geo. Staleys. So far reported, F. D. Russell of Ridgway farm had the largest yield, better than 60 bu. per acre.

Clarence Johnston and Elmer Faust returned from a business and pleasure trip to Grand Rapids Thursday evening.

They saw Roy Flora and had a telephone talk with Enos Lane, among other things Mr. Lane said his son, Archie who had his back broken several weeks ago in a car accident, was sufficiently improved to be up and around although he would have to wear a plaster cast for weeks yet.

EVELINE

(Edited by Mrs. Frank Kiser.)

Dale Kiser returned home last Saturday, after spending a week at the Detroit Fair.

Henry Conley and Geo. Conley and son Murel spent the week end with Mrs. Frank Kiser. Cousins that Mrs. Kiser had not seen for nearly 40 years.

Mr. and Mrs. Marion Best visited friends at Ellsworth last Sunday.

Mrs. A. Doby of Detroit and son ate supper with Mrs. Kiser and Mrs. Harnden Monday night.

GOOD TEACHING AND EDUCATION

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

No one believes more than I do in the desirability of having good teaching in our schools and colleges and no one more than I deplores the fact that so many of those engaged in teaching are not adequately prepared and not especially interested in those they teach. And yet I am convinced that the intellectual progress of a child or a youth depends far more upon his own interest and persistence and determination to improve his mind than it does upon the sort of teachers he has. A poor teacher may even be a stimulus to greater effort upon the part of a student than otherwise and may result in his greater self-reliance and independence of thought.

Before I attempted to gain entrance into college I had but one teacher who had ever progressed farther than the grammar school before beginning to teach, and while in college I was under the instruction of but one man who had ever earned in course a higher than the bachelor's degree, and yet I cannot feel that I was particularly handicapped. I might be much wiser today than I now am if I had had better teachers, but perhaps I should have weaker powers of independent thought.

Brown was in to see me a few weeks ago concerning the scholastic progress of his son. The boy isn't getting on well and the father thinks that the cause of his son's mediocre accomplishment is the fact that he is being badly taught. The intellectual road is hard for him, and no one is making it as smooth and easy as he would like, and as he thinks should be done. The boy wants to be shown; he wants to be taken by the hand and led sympathetically through the confused mazes of education. He has no inclination to blaze his own trail, to find his own way, to climb unassisted over the obstacles which lie in his intellectual path. Neither Brown nor his son assume an unusual point of view. They have the general attitude that education should be made as simple and easy as possible. But that is not the way that either the mind or the body is trained.

The greatest scientist and the greatest teacher I have ever known—one of the greatest in this country and one whose name is familiarly known over the civilized world, died a few months ago. He was a specialist in a half dozen fields when most men are quite contented to star in one. He could read and speak a half dozen languages, and though he was par excellence a scientist, he was versed in history and philosophy and literature. "In no one of these various subjects which I have taught," he said once, "have I ever had one hour of formal teaching. I have worked things out for myself."

No one had ever made the road easy for him. He was eager for knowledge, and he blazed his own trail. As I said, no one stands for good teaching more than I do. It is helpful, but it isn't essential if one is really eager for an education.

All Creosoted Timbers

Are Immune to Decay

Decay of joints and sills, the worst foe of durability in farm buildings, will be conquered by the use of creosoted timbers. This has been proved in a great deal of practical experience as well as in experimental trials. One large lumber manufacturer plans in the near future to stock local dealers with a full line of such timbers, creosoted by the pressure method, which saturates the fiber through and through with the preservative. Timbers treated in this way are practically immune to decay, and especially around the base of the building will last many years longer than ordinary lumber.

A girl can turn a man's head by turning her own.

AFTON
Edited by Mrs. Henry Timmer.

Chas. Shepard, Ed. Nowland and Harry Behling were elected as delegates to the County Convention, in a quiet election, with only 93 votes cast.

Mrs. Merritt Finch and Mrs. Henry Timmer spent Monday evening with Mrs. Mysie Somerville at East Jordan.

Mr. and Mrs. Arthur Brintnall and family were dinner guests at Ed. Weldon's Sunday.

Mr. and Mrs. Archie Sutton were callers at L. R. Hardys Wednesday evening.

Mr. and Mrs. Harry Sloop and party picniced at Charlevoix Sunday.

Frances and Mary Ann Lenoskey stayed over Sunday at A. J. Weldon's. Carlton Hammond, son of Roy Hammond is living with Albert Nowland and going to Afton school this year.

Mrs. Hilda Cook of Charlevoix was a caller at the home of her sister, Mrs. Ed. Weldon Sunday evening.

Alva Davis is tractor-plowing at Silver Leaf farm this week.

Mr. and Mrs. Raymond Garrow have gone to Petoskey for two weeks.

Mrs. Wm. Spencer was crowded off the road by a large truck, doing considerable damage to her car, but with no personal injury.

Miss LaVerne McCalmon and party of Bay Shore spent Sunday at J. L. Suttons.

It is one thing in life to select a target, and quite another to become a crack shot.

There's one thing a man who knows it all doesn't know, and that's how unpopular he is.

The oldest Sunbeam in town is in Best & Peterson's Restaurant. The next oldest is in Bowman's Restaurant. **ASK THE MAN WHO OWNS ONE.**
THE EAST JORDAN LUMBER COMPANY

EVERYONE IS MAKING PLANS TO ATTEND the TWENTY-FIRST ANNUAL NORTHWESTERN MICHIGAN FAIR
Traverse City, Sept. 15th to 19th
WHERE AND WHAT To Do and See at The Fair

Smith-Hughes Judging Contests	Special Feature—Friday Night Only
Horse Shoe Pitching Contests.	WLS Show Boat
Conservation Exhibit.	From the Prairie Farmer Radio Broadcasting Studio in Chicago. See your favorite star in person.
Four-Day Horse Racing Program.	Free Attractions
Brilliant Midway of Shows and Rides	Capt. Hugo, in his thrilling ride for life and high dive from 90-ft. ladder.
Jersey Parish Show.	Wallace's Movie Lions in a huge steel arena.
Agricultural and Horticultural Displays.	Zip, Bing and Band—Comedy Novelty Act by Three Clever Clowns.
Merchants' Exhibits.	Madame Bedini and Sir Victor Company with their 10 Thoroughbred Horses and Ponies.
Auto Show.	Toyama Japanese Troupe of 7 People, in Barrel Kicking and Balancing.
Live Stock Exhibits.	Six American Belfords in one of the finest Acrobatic Acts on the American Platform.
Flower Show.	DON'T MISS THESE FEATURES!
4-H Club Exhibit	
Poultry and Pet Stock Show.	
Fine Arts Display.	
Culinary and Pantry Stores Exhibit.	
Educational Exhibit.	
Boys' and Girls' Exhibit	

BIGGER and BETTER Than Ever
A Fair you cannot afford to miss. Attractions that are the finest in the country.
DON'T FORGET THE DATES—
September 15 - 16 - 17 - 18 - 19

Peoples' Wants

MUNNIMAKERS
Notices of Lost, Wanted, For Sale, For Rent, etc., in this Column is 25 cents for one insertion for 25 words or less. Initials count as one word and compound words count as two words. Above this number of words a charge of one cent a word will be made for the first insertion and one-half cent for subsequent insertions, with a minimum charge of 15 cents. These rates are for cash only. Ten cents extra per insertion if charged.

HELP WANTED
WANTED—Girl for general house work and care of baby.—MRS. W. G. CORNEIL, Phone 100, East Jordan. 36-1f

WANTED
WORK WANTED—Sewing, Washing, or cleaning.—MRS. ED. LARSON, 203 East Mary St., East Jordan. 37x2

Plan to Control English Sparrow

Nest Destruction on Community Scale Is Most Effective Means.

(Prepared by the United States Department of Agriculture.)
If English sparrows are overabundant it may be the result of carelessness. The sparrows are cannier foragers and flock to a locality offering abundant feed. There they multiply at an alarming rate. Carelessness in feeding poultry, a knot-hole in the granary floor, open doors and windows in farm buildings, or openings at the eaves create conditions that attract sparrows. Block the entries to their favored nesting places, and the birds are less likely to be troublesome.

Destroy Nests.
The next step in sparrow control recommended by the bureau of biological survey, United States Department of Agriculture, includes the destruction of sparrow nests. Because the birds are active breeders it is necessary to make the rounds and destroy the nests every ten or twelve days throughout the breeding season. Nest destruction on a community-wide scale is more effective than on isolated farms.

Insects for Young.
Nesting sparrows help the farmer for a few days. Before the birds begin to fly the parents supply them with many worms and insects. But once they are well grown they fall into the habits of the adults and become vegetarians with keen appetites for grains and garden products as well as for weed seeds. If the grains are housed carefully the sparrows are likely to be less numerous and will eat more weed seeds, and in this way may even prove helpful to the farmer.

Skim Milk Useful to Cheapen Cost of Eggs

Skim milk in the poultry ration has reduced the cost of producing eggs 5 cents per dozen for five Shackelford county (Texas) poultry demonstrators. The milk permitted a cheaper grain ration and resulted in a feed cost of 7.7 cents per dozen for eggs from these flocks as compared to an average cost of 12.2 cents per dozen in five other demonstration flocks where no milk was used.

It is pointed out by A. C. Magee, county agent, that 100 hens will consume with profit about three gallons of skim milk daily, and that when this amount is available, the expensive protein feeds in the mash may largely be omitted. If cows are good, 100 hens to each dairy cow is a good balance to maintain between the dairy and poultry branches of the farm business, he says.

Culling Low Producers Reduces Big Feed Bill

While only 2 per cent of the dairy cows in New York state belong to members of dairy herd improvement associations, these cows produce 39 per cent more milk than the typical New York state cow, says G. W. Talley of the New York State College of Agriculture. The typical cow is giving, for in 1922 the average was 5,000 pounds of milk for each cow and in 1928 the figure was 5,534 pounds for each cow. The cows in the Dairy Improvement association average 7,707 pounds. The return for a cow giving 5,500 pounds is about \$70 above feed cost; for the 7,700 pound cow it is \$120, while for a 10,000 pound cow the return above feed cost is \$150. The big return above feed cost is the best argument in favor of culling out low producing cows, says Mr. Talley.

Determine Proper Time for Cutting Soy Beans

The Missouri station reports results of investigations to determine proper time of cutting soy beans for hay to obtain maximum yield. The development of the bean pods, together with the degree to which they have been filled, serves as the best index for obtaining maximum yields of soy bean hay. When the pods are well formed and are approximately one-third to one-half filled is the best time for harvesting. Cutting at this time also results in a maximum of protein in the hay as leaves and minimum as woody stalks.

Keep Hog Flu Out

Attacks of hog flu on brood sows and fattening shoats, feared and dreaded more than cholera by many live stock men, take a heavy toll every year with the coming of cold and stormy weather. Unlike cholera investigations, studies of flu in hogs have not yet revealed the exact cause of the disease. Veterinarians and live stock specialists find from observation and experience, however, that certain precautions in caring for the herd will greatly lessen the danger of sickness and death.

Making Silage

A method of making silage, known as the Ronning method, has come into use in the last few years and is considered the easiest known method of making silage. The standing corn is harvested and cut into proper lengths for the silo by a machine drawn and operated by a tractor. The cut corn is delivered to a wagon box drawn alongside. It is then hauled to the silo and pushed off into a blower which elevates it into the silo.

Unseasoned Wood Causes Egg Mold

Market Value of Cold Storage Product Reduced as One Result.

(Prepared by the United States Department of Agriculture.)
A new and peculiar mold which develops on eggshells during shipment and in cold storage has caused heavy losses to handlers of cold-storage eggs. Recent investigations by bacteriologists of the United States Department of Agriculture indicate that unseasoned wood in the shipping cases is probably responsible for the trouble.

Does Not Impair Quality.
Spot mold or pin mold, as this has been termed by the department investigators, first appears on the outside of the eggshell, and although it does not impair the quality of the egg when confined to the outside, it renders the egg unsightly and reduces its market value. However, the mold penetrates the shell after a time and spreads over the inside surface, becoming very noticeable when the egg is candled. Such eggs have a decided moldy flavor.

Improperly Seasoned Wood Used.
Most egg cases are made of seasoned wood, but in wet weather or during a rush period improperly seasoned wood may be used. The unseasoned wood contains about 50 per cent more moisture than the well-seasoned wood. This moisture, according to Dr. L. H. James and T. L. Swenson, the investigators, favors germination and early development of the molds before eggs reach the storage houses. Eggs nearest the case partition molded more than others in the same case, they found. These results indicate that development of the mold on eggs in cold storage is dependent on previous conditions favoring its germination.

By eliminating unseasoned egg crates, one of the causes of such losses may be eliminated.

No Danger of Honeybee Puncturing Fruit Skin

The bee is not a damager of fruit—does not puncture the skin to get at the juice within. This has been iterated and reiterated, but is again mentioned because of a query from a reader as to how to get rid of bees which "ruin his grapes." Is poison sirup feasible? he asks. M. H. Kimball, assistant farm adviser of Los Angeles county, Calif., declares that the honey bee couldn't puncture the skin of a grape if it wanted to—its mouth parts are simply not made for that purpose. The bee will, however, take advantage of a break in the skin, whether natural splitting due to overripeness or from the attacks of other forms of life, and will gather at the new source of nectar. Because the bee is not a criminal, the law protects it against poisons.

Control Leaf Hoppers by Use of Bordeaux

Potato leaf hoppers may be controlled by using bordeaux mixture, whether the leaf hoppers are on the potatoes, beans, sugar beets, or other crops.

In weather favorable to the leaf hoppers, it may take only a week or two to result in the loss of an entire crop where no control measures are put into effect. Leaf hoppers have fewer natural enemies than most other insect pests. Bordeaux mixture made according to the 4-4-50 formula is usually applied. High pressure is necessary for effective control. Thorough spraying is essential.

Grass Under Trees

In hot, dry summer, when available food and water are scarce, the tree with its deep roots and large leaf surface is too strong a competitor for the grass with narrow blades and shallow roots. For grass under trees, liberal watering and applications of nitrate fertilizer made at the rate of two pounds to 1,000 square feet of area, every two weeks during summer, are recommended as helpful by Ohio university specialists.

Farm Hints

Consider the tub basket for marketing early apples.

Millet is not often used as a feed for live stock. It has to be ground, otherwise, the stock could not get hold of it, but would pass it without digesting it.

The best time to vaccinate pigs is when they average about 40 pounds in weight. They are just about the right age to insure permanent immunity.

Pullets need ample ventilation in the laying-house after roosting in open brooder houses and in trees. Fall colds are the result of faulty ventilation.

Pigs self-fed on grain and running on mixed clover pasture, made faster gains than any others in a feeding experiment at the Ohio State agricultural experiment station at Wooster.

If artificial illumination is used on pullets it should start the first week in November, as the days are growing short. To be effective, the lights must be turned on and off regularly. A reflector should be used on the lights.

Cutting Sweet Clover for Hay

Many Farmers Make Big Mistake in Allowing Crop to Stand.

Many farmers make a grave mistake by allowing sweet clover to stand too long before cutting for hay. Sweet clover should be cut while it is in the bud stage and not after it is in bloom. The biennial white blossomed sweet clover develops a coarse stem as it is passing through the bud stage. This fact makes it so succulent that it is an impossibility to cure it and poisonous substances develop in the stem. North Dakota has found that many animals have died by the eating of this half-cured sweet clover.

Avoid Spoiled Clover.
We desire at this time to warn our farmers against the putting up of spoiled sweet clover hay, says R. A. Moore of the Wisconsin College of Agriculture. Unless one can cut it at the proper time for hay, it is altogether best to leave it run into the seed stage and cut it for seed or pasture the same. Undoubtedly the greatest good derived from sweet clover will be from pasture and from the turning of sweet clover as a soil enricher. For these two great purposes sweet clover has no equal.

Two Men to Fill Silo Using Wisconsin Plan

With Wisconsin's "small crew" plan of silo filling only two men are needed. If the blinder is equipped with a bundle elevator two loads may be cut and put on the racks without the hard labor of pitching the bundles by hand. The loads are then drawn to the silo and run through the cutter. A tractor or electric motor furnishes the belt power. Trampling is not necessary for keeping silage, recent experiments show, and in many cases this job has been eliminated. Neither is it necessary to have a man at the feed table of the modern ensilage cutter.

FARM NOTES

Producing sweet cream requires practically no more work or expense than sour cream, except for cooling and more frequent delivery.

Protein is the high cost element in feeds and its use should be governed not only from a physical standpoint but from an economical basis as well.

At least one month before calving, the heifers should be put in the milking barn so that they can become accustomed to the barn and to the other cows before calving.

Without additional feed cows must call upon their body reserve to make up the deficiency. This means a loss of flesh and lowered milk production, often very quickly in the case of the very heavy producers.

"My boy, when you grow up I want you to be a gentleman."
"I don't want to be a gentleman, pop—I wanna be like you."

Rat Poison Fatalities Show Material Decline

At the second annual conference of the Eastern Rodent-Control district, held in Washington, it was reported that clippings from thousands of newspapers throughout America indicated a material decline in the number of accidental human deaths from rat poison during 1929.

Since the sales and use of external rat poisons have not decreased, the conference concluded that the diminishing death rate is due to the increased, nation-wide use of powdered red squill, which is unique as an exterminator in that it is deadly to rats and mice but harmless to humans, live stock, dogs, cats, poultry and even baby chicks. It is highly recommended by the United States Department of Agriculture.

Contaminated Hog Lot Is Cause of Diarrhea

Diarrhoea in young pigs is usually caused by being in old contaminated hog lots and is due to infection. Pigs at this age also get diarrhea when kept in apparently clean quarters, if not allowed to get out on clean ground.

Keep them in clean dry quarters and out of old muddy lots. If they get outside, put them on clean pasture, not previously used for hogs for at least one year.

Add middlings to the milk and make a thick stop. It would also be better to feed shelled corn until they are older.

Give two ounces castor oil, then give five grains each of salol and substitute of bismuth, three or four times daily.

Selecting Boar Pigs to Be Used for Breeding

The season is at hand for sizing up spring farrowed boar pigs to be used for breeding purposes. If a boar pig is six months old and has been normally developed to that age, he will show any tendencies he may have towards undesirable conformation. In selecting a young boar one should see his sire and dam and make inquiry into the breeding qualities of his ancestry, particularly with respect to prolificacy. In addition to this information concerning the feeding qualities of the ancestry is a valuable index of desirable qualities.

Alfalfa in "Egypt"

Alfalfa, the best of hay crops, can be grown in southern Illinois if conditions are made suitable for the plant, according to D. C. Maxwell of the University of Illinois.

The first requirements of the southern soils is good drainage, which is but in some sections of the state due to impervious subsoil. The rolling and well-drained soils need lime and some humus in general to make a success of alfalfa production.

Smaller Turkeys

It is too often the rule that all turkeys reaching marketable weight are sold on the Thanksgiving market and the process repeated at Christmas time, those left constituting the next season's breeding flock. The result of such a practice is smaller turkeys raised with each succeeding season—and fewer of them—for this practice insures the retention of the least thrifty birds.

MICHIGAN BELL TELEPHONE CO.

Long Distance Rates are Surprisingly Low

FOR INSTANCE:
for **50^c** or less, between 4:30 a. m. and 7:00 p. m.—

You can call the following points and talk for **THREE MINUTES** for the rates shown. Rates to other points are proportionately low.

Day Station-to-Station Rate	
FROM EAST JORDAN TO:	
MAPLE CITY	\$.40
CHEBOYGAN	.40
GRAYLING	.35
KALKASKA	.25
TRAVERSE CITY	.35
GLEN HAVEN	.45

The rates quoted are Station-to-Station Day rates, effective 4:30 a.m. to 7:00 p.m. Evening Station-to-Station rates are effective 7:00 p.m. to 8:30 p.m., and Night Station-to-Station rates, 8:30 p.m. to 4:30 a.m.

For fastest service, give the operator the telephone number of the person you are calling, which can be obtained from "Information"

"John," snapped his wife, "I wish you would begin to study the faces of the women you know!"
"What's the big idea?" he asked in surprise.
"So you will be able to recognize them when they quit wearing short skirts," she retorted.

Women rest their chips on their hands when they're thinking to keep their mouths shut so they won't disturb themselves.
Letter from a young lady in the country to her mother: "Excuse this awful scribble, but I'm in a frightful hurry to catch the male."

"Somebody to See You!"

IF EVERYBODY with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every day we know of many callers who come to see you. They never jangle the bell—they don't take up your whole day trying to get your attention. Instead, they do it in a way that is most considerate of your privacy and your convenience. They advertise in your newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in comparatively few minutes.

In fairness to yourself look over all the advertisements. The smallest and the largest—you never can be sure which one will tell something you really want to know.

**SEEKS TREASURE
HIDDEN IN TEMPLE**

**Party to Hunt for Mayan Ruin
in Guatemala.**

London.—Treasure hidden in a ruined temple is the prize which Dr. Thomas Gann, the archeologist, is organizing an expedition to discover in the Peten district of Guatemala.

The treasure temple, hidden for centuries in the depths of forest and swamp, has until now been little more than a legend of buried gold handed down by generations of Maya Indians; but Doctor Gann believes he knows the site of the ruin and is waiting for permission of the Guatemala government to explore and investigate.

Old stories are told by the Maya Indians of a sealed temple by a lagoon, the doors of which are never open save one day of the year. Then the most courageous Indians are said to carry their offerings of wild turkey and corn into the temple and lay them on the altar stones and retire from the ruin to pray. When they return the offerings are gone, and for each man in his place is a miraculous pile of gold.

Some say that here lies buried the lost treasures of Montezuma, the last of the emperors of Mexico.

An Englishman, John Carmichael, all but stumbled on the temple in 1897, when he was commanding a small force in defense of the British Honduras frontier against the raiding Indians.

Two Peten Indians gave him gold ornaments of great age which they had found in the swamps. Carmichael died in the search for the temple. Doctor Gann has led two expeditions in search of the buried treasure.

**Mesozoic Monster's Hide
for Washington Museum**

Seward, Alaska.—A piece of leather four feet square, two inches thick and like armorplate is being prepared for shipment to the University of Washington museum. It is probably the oldest bit of leather in the world today.

The patch of hide belonged to a great flying lizard that roamed the prehistoric hills of Alaska and whose meat finally became food for bears. It was discovered in a landslide on Cook Inlet by Herman Burkhard, Los Angeles banker, and his guide, Russell Annabet of Anchorage. The creature measured 60 feet long, with a skull 38 inches long.

A piece of its hide and portions of flesh remained where the giant saurian had been overwhelmed by glacier ice in the tundra shales. Such lizards had 40 teeth, each weighing 10 ounces, and ribs five feet long.

The last recorded discovery of a prehistoric creature in Alaska was in 1902 near Nome, where a mammoth with frozen flesh and hide complete was discovered by a gold miner at the foot of his shaft.

Every spring huge tusks and bones of mammoths and other prehistoric creatures are left uncovered along the Yukon, Kuskokwim and other streams in Alaska, where frost action topples over high embankments or floods wash away cliffs.

Scientists have been awaiting the discovery of an entire mammoth preserved in the frozen subsoil along the Alaska rivers or near Kotzebue sound, where the finest fossil ivory is abundant.

**Chance Discovery Gives
Warning of Sandstorms**

Paris.—By chance, three scientists have discovered a means of warning tribesmen, troops and voyagers of approaching sandstorms in ample time to seek shelter.

The scientists erected an atomadiograph to observe the movements of flying insect hordes through the desert air. One day they detected a peculiar rat-tat-tat noise through the telephone apparatus connected with the instrument. Investigation revealed a sandstorm was rising on the desert. The explorers then produced an improved atomadiograph, designed expressly to detect approaching sandstorms.

**Wires Favorite Jailer
for \$50; the Fare "Home"**

Los Angeles.—"Please wire me \$50 to come home or stop prefer your jail term to liberty here."

This is the substance of a telegram received by Clem Peoples, county jailer, from Jack A. P. Caylor, Roseburg, Ore., released from the county jail less than three weeks previously after having served a sentence for petty theft.

Peoples intimated that he felt highly complimented at the tribute paid his jail, but up to a late hour he had not sent the \$50.

**Northern Veteran Sends
Pension to Boys in Gray**

New York.—For 15 years A. H. Wray has been sending annually his pension of \$240 to the Confederate Soldiers' home at Atlanta, Ga. He says that he and the other Union veterans are well provided for, and the money could be put to better use by the boys in gray.

\$400,000 for Flowers
Budapest.—More than \$400,000 is spent each year by the citizens of Budapest on the upkeep of the multitudinous flower gardens which adorn the city's parks, streets and boulevards.

**RATS' COST EQUALS
\$4 PER CAPITA TAX**

**Exact Toll of \$500,000,000
Annually in U. S.**

New York.—The rat—man's most dangerous and expensive charity—exact an annual toll of \$500,000,000 yearly in the United States, declares Dr. C. V. Akin, surgeon, United States Public Health service, in Food Industries. Of this sum, Doctor Akin adds, \$200,000,000 goes to feed the pest and the balance, \$300,000,000, goes to provide the animal with packages of produce to deface, buildings to cut and mar and surplus materials to foul.

Health authorities and economists, Doctor Akin states, regard the rat as the most dangerous and expensive of the animal pests living at man's expense. Strangely enough, the business interests that suffer most from the depredations of these semi-savage "house guests" seem least aware of the price they pay for the privilege of running rat sanctuaries, or, in any event, they do the least to rid themselves of the financial burden of housing and feeding the ever-increasing millions of rats.

Enormous Feed Bill,

If a conservative estimate of one rat per capita of human population be applied, continues Doctor Akin, the annual meal ticket for rats in the United States will just about use up a \$200,000,000 bond issue. And to this the "cover charge" for wanton destruction of property consequent on gnawing and slashing, plus the "tip" for spoiled food products due to fouling, and it will be understood that giving rats a good time costs the United States the best part of one-half billion dollars per annum. This overwhelming figure is better grasped if we consider it an unconstitutional per capita tax of over four dollars per annum for every man, woman and child living within our borders.

Of all the mammals, the rat is the most cosmopolitan. None other is so well represented numerically in the countries in which he has made himself at home. Because this animal can adapt itself to almost any environment dominated by man, and further, because the rat can outthink, outclimb, outjump and breed faster than most animals, including man, it has survived man's spasmodic efforts at control. If all the coverts and hiding places were suddenly obliterated, man would be astounded to find himself raged about on all sides with rats. The rat wisely chooses to live near humans who give him shelter and food, and no doubt will continue to do so as long as he is permitted or indirectly encouraged.

Pests Travel Widely.

Rats are strictly nocturnal in their habits and can see better at night. When traveling in the daytime, the rat seems uncertain of its movements, unless running along a wall, where its long vibrissae, or whiskers, apparently are of service in guiding it. The black rat is even more wary than the brown rat and is, consequently, more difficult to trap. It is rather exceptional to catch a black rat in a cage trap; snap traps and dead falls being more reliable for capturing this species.

Rats are great travelers. Extensive migrations of rats have frequently been noted, and a seasonal movement of rats from houses and barns to open fields in the spring, in search of fresh, green food, is recognized as a regular occurrence. The return movement takes place in autumn. From a number of trapped rats released in a large city, one was recaptured, two days later, at a point a mile distant from the place of liberation; and several were retaken in the course of two weeks, two and three miles from the place of release. Their travel had been through a thickly populated area of the city and across city streets, some of which were heavily traveled thoroughfares.

**Swedish Flapper Bobs
Her Hair at 103 Years**

Lund, Sweden.—A one-hundred-three-year-old flapper with bobbed hair is "Mother" Karna Alm, the widow of a Swedish soldier, who is enjoying her life fully at the Veberod Home for Aged, near Col. Charles A. Lindbergh's ancestral home.

In spite of her years she keeps abreast with the styles of the times and recently had her silvery tresses shorn and smartly bobbed.

She can read without glasses, her hearing is unimpaired, and she enjoys her daily walk.

Her memory also serves her well and she likes to sing the old love songs of the days when her late husband courted her.

"Mother" Karna refuses to consider one hundred three as an advanced age and expects to live for many more years.

**Girl, 5, Has Two
Pupils in One Eye.**

Fort Collins, Colo.—Shirley Wylie, aged five, has two pupils in one eye through which she can see perfectly. Struck by a screen door spring, the eyeball was cut in one corner. It was healed, leaving two separate pupils.

Motherhood Bonuses

Budapest.—To counteract the tendency toward one and two-child families, Tolva county, Hungary, has inaugurated a system of motherhood bonuses for each child after the third by any woman.

**NAPOLEON LEGEND
HIT BY A SURGEON**

**Dr. Baudet Denies That He
Had Epilepsy.**

Paris.—The persistent legend that the genius and success of Napoleon were due chiefly to a condition of epilepsy has been vigorously attacked in a lecture recently delivered by Dr. Raoul Baudet, eminent French surgeon.

Reviewing the attempts of various physicians of the past to prove Bonaparte the victim of a malady that insured the maintenance of his uncanny energy and at the same time led him frequently to adopt the antics of a degenerate, Doctor Baudet scores the unprofessional inaccuracy of these medical historians.

He dwells upon the remarks of two diagnosticians, particularly Lombroso, celebrated Italian professor of criminal pathology at the University of Turin, who branded the French emperor as an epileptic and degenerate, and Dr. Cesar Juarros, a more recent and determined exponent of Napoleonic epilepsy.

Replying to charges made by both physicians that Napoleon's affliction was the natural result of a diseased ancestry, Doctor Baudet pointed out that no proof existed to sustain such a statement; as for the vague accusations to the effect that the emperor's father was a drunkard, his sister Pauline was a chronic hysteric and his mother sordidly avaricious, the French surgeon takes definite exception. The father, he affirms, was a singularly temperate man and a student all his life. The sister's affliction he finds greatly exaggerated and the mother, forced as she was, to provide for eight children, only normally economic.

Doctor Baudet particularly scoffs at the paradox stated by Cesar Juarros that—unless Napoleon had been an epileptic he would have died unknown.

**Rat Army Reported
Moving on Manchuria**

Peiping, China.—From Harbin comes the report that an army of rats is marching through outer Mongolia apparently headed for north-Manchuria on its way out from Yinsk, Siberia.

The report states that millions of rats are marching in disciplined fashion under the leadership of different "army corps leaders," and that they seem to know just where they are going. They stop only to gather enough food to sustain them.

**Ancient Greek City
Sought Under Sea**

Sebastopol, Crimea, U. S. S. R.—An expedition has been organized here to search under water near here for an ancient Greek town believed to have been submerged by the shifting of earth strata.

Objects washed up by the Black sea at this point seem to support the theory which led to the organization of such an expedition.

**President's Chauffeur
Called "Safe Driver"**

Washington.—Francis H. Robinson, President Hoover's chauffeur, who has been driving Presidents of the United States since 1910 without figuring in a single accident, was officially recognized by the Dayton (Ohio) safety council as a safe driver. The council sent Mr. Hoover a copy of its resolution commending recognition for his splendid record.

**Dog, in Shaft 3 Weeks,
Saved in Spite of Self**

Wellston, Ohio.—Efforts continued for three weeks to rescue a dog that had fallen into an abandoned mine shaft failed, the dog retreating into the bottom tunnel each time would be rescuers descended. At last somebody thought of taking another dog down. The trapped animal came out to meet its kind and was hauled to the surface.

**Wheelbarrows and Toes
for Endurance Tests**

Paris.—The freak endurance craze has crossed the Atlantic and set a young Frenchman, Reynaud, of Havre, trundling around the country pushing a wheelbarrow, while the dancer, Mile. Adrienne Flauris of Vienna claims the world's record for remaining poised on her toes. She claimed she remained thus poised for fourteen and a quarter hours.

**Old Jefferson Clock
Again Performs Duty**

Richmond, Va.—The famous clock over the entrance to Monticello, the home of Thomas Jefferson, is running again, after being out of order for many years.

The clock has a double face, the hour being read both from the hall and from the terrace. Far out of the grounds, striking of the hour can now be heard as it was in Jefferson's time.

Among the recent sightseers was a jeweler who offered to put the clock in condition at his own expense. Because of his interest and labor this ancient timepiece once again performs its allotted duty.

**PRODUCES A LIGHT
BRIGHT AS SUN'S**

**Scientist Has Formula That
Uses No Electricity.**

Los Angeles.—Dr. William George Schnell, young scientist, claims a formula to produce light as bright as the sun's without the use of electricity. His invention assertedly is composed of the same atoms which compose the sun.

Doctor Schnell, University of Colorado and University of Dresden graduate, said the formula really was a reproduction of the sun itself.

"For," he said, "the compounds, which make up my invention are composed of the same atoms as the sun. In some ways we even have the sun cheated for we can produce a hot or a cold ray as we desire."

Doctor Schnell said the test of burning wood by a magnifying glass had been equally successful with the sun and with his invention.

The inventor said he had illuminated entire rooms with his mysterious light and has conducted other tests to the entire satisfaction of noted scientists.

Doctor Schnell disclosed that he believes his invention eventually will eliminate all forms of outdoor electrical signs and lights, illuminate homes, cook food and assist medical work, through its X-ray qualities.

The formula for his light producer is very simple, he said, containing certain minerals which are mixed with oils and acids.

**Rat Catching Cat Club
Organized in Havre**

Havre.—A Rat Catching Cat club has been founded here to breed rat-catching cats on a large scale, on a model cat farm.

Doctor Loir, who is a nephew of the great scientist, Pasteur, is the prime mover in the campaign for breeding rat catchers, and for the last four years he has been busy selecting specimens he considers best for breeding purposes.

The destruction of rats has become an international question of the greatest importance.

The primitive methods used up to now, poison or gas, are not without danger to humans whereas Doctor Loir feels a race of robust felines would be extremely useful especially in ports such as Havre, where so much is stocked under sheds and it is difficult to destroy the rodents that devour grain and are dense spreading animals.

**Mystery Man Proves
Costly to Taxpayers**

Ashland, Wis.—Joe, a "mystery man" found in a snow bank with a fractured leg and skull here last year, has proved expensive for hospital and county authorities.

The fractures have healed but Joe's mind remains a blank, so far as physicians can learn. He speaks only two words of English, "Joe" and "cigarette."

Maintenance of the stranger by the county has made heavy inroads on its poor relief fund. The hospital has been forced to hire an extra stenographer to answer letters concerning him.

Discolorations on his forehead and scars on his legs lead physicians to believe that he has been a coal miner in Pennsylvania, where they say these pigmentations are peculiar to the industry.

**Cat Attains Ripe Old
Age of Nineteen Years**

Rochester, N. Y.—Like the babbling brook, Rough Neck, a cat, goes on and on. Rough Neck, fittingly named, is nineteen years old. It has endeared itself to Joseph Lusardy, its master.

Each night the cat is on hand to meet its master and each morning, if the alarm clock fails to function, it awakes him by purring and clawing at his bedclothes.

**Makes Sure His Mail
Will Reach Destination**

Rochester, N. Y.—A letter written by a local angler and addressed "To, Renter of Bouts on Canadice Lake (E. by N. E. shore) near Hemlock, N. Y." was delivered the following day. To aid the mail carrier the writer drew a map on the envelope showing Hemlock, Canadice and Honeye lakes, with an arrow pointing to a spot labeled "Here it is."

**Too Many Bachelors
in Towns of Alaska**

Juneau, Alaska.—There are nine single men to one single woman in various towns in Alaska, the 1930 census reveals. Numerous governmental offices opened during the last year have increased the bachelor population and the ratio is larger than in the statistics gathered two years ago.

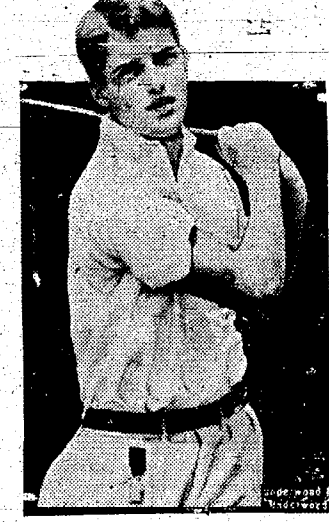

Gov. George Parks has been interested recently in offers of young women from various large cities to come to Alaska provided suitable jobs might be available. Many of Alaska's single men who are permanently employed plan later on to send for or to call for sweethearts waiting in the states.

**Hand-Painted Flowers
Beautify Evening Gown**

Hand-painted flowers are used in an effective manner to decorate this charming white taffeta evening gown, posed by Bernice Claire, motion picture star.

Defeats British Champion

Tommy S. Tailor who won the three-day invitation golf tournament at the Newport Country club at Newport by defeating Cyril Tolley, former British amateur champion, in the final match.

**MORTGAGE FORECLOSURE
NOTICE.**

Default having been made in the terms and conditions of a certain mortgage made and executed by Sebilo Veenstra and Hattie Veenstra, his wife, of the City of Charlevoix, County of Charlevoix, and State of Michigan, to F. H. Skow, of the Village of Ellsworth, County of Antrim, and State of Michigan, which said mortgage bears date the 30th day of November, 1925, and was recorded on the 4th day of December 1925, in Liber sixty-six (66) of Mortgages, on page one hundred thirty-three (133), in the office of the Register of Deeds in and for the County of Charlevoix, Michigan, and that said mortgage is past due, and there is now claimed to be due and unpaid on said mortgage the sum of thirteen hundred fifteen and 35-100 (\$1315.35) dollars at the date of this notice, including principal, interest, taxes and attorney fee, and no suit or proceedings at law or in equity having been instituted to recover the moneys secured by said mortgage, or any part thereof;

NOW, THEREFORE, by virtue of the power of sale in said mortgage contained, and of the statute in such case made and provided, NOTICE IS HEREBY GIVEN that on Tuesday, the 21st day of October, 1930, at ten o'clock in the forenoon, standard time, at the east front door of the court house in the City of Charlevoix, Michigan, that being the place where the Circuit Court for the County of Charlevoix is held, said F. H. Skow will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage and all legal costs and attorney fee.

The premises described in said mortgage are as follows, to-wit: "The south half (S 1/2) of section twenty-six (26) in township thirty-three (33) north, range 8 west, as per the United States Survey thereof, and containing eighty (80) acres of land more or less; also twenty (20) acres off the north end of all that part of the east one-half (E 1/2) of the southwest quarter (SW 1/4) of section twenty-six (26) in township thirty-three (33) north, range eight (8) west, lying by the west side of the Pere Marquette Railroad Right-of-Way."

Dated July 24th, 1930.
F. H. SKOW, Mortgagee.

Notice**

Hereafter all Classified and Petty Advertisements MUST be paid for before insertion.

This includes Classified Ads, Cards of Thanks, In Memoriams, and local ads—unless the advertiser has an open account with us and to whom we can charge the account.

The Herald does not wish to appear arbitrary in this matter, but the payment of so many small accounts are either neglected or ignored that we are forced to adopt this policy.

May we have your co-operation to eliminate this loss to us.
G. A. LISK, Publisher.

Wife: "The doctor said at once that I needed a stimulant. Then he asked to see my tongue."

Husband: "Good Lord! I hope he didn't give you a stimulant for that!"

Lawyer: "Are you certain you used every argument with which to convince your husband?"

The Wife: "Absolutely. There isn't a whole dish in the house."

Fat Lady: "I'm putting on weight, doctor. What should I do?"

Doctor: "Regular exercise. Push yourself away from the table three times a day."

Speaking of immortality, a hen's son never sets.

A real coincidence is when the road happens to turn the same way as the woman driver.

Briefs of the Week

Glenn Bulow was a Detroit visitor first of the week.

Mr. and Mrs. Wellington Baker of Flint are here for a visit.

August F. Leu who has been at Flint, returned home Monday.

Born to Mr. and Mrs. Bruce Donaldson, a son, Richard Elton, Sept. 6.

For Window Glass and Glass for any car, see B. L. Severance. adv. tf

Born to Mr. and Mrs. Gus Anderson, a son—Robert Edward— Sept. 11th.

Born to Mr. and Mrs. Arthur F. Buchin, a daughter, Goldie Eileen, Sept. 5th.

Mr. and Mrs. Louis Cobb of Grand Rapids visited friends here over the week end.

Canning Peaches at Heller's Grocery on sale this Saturday. Priced right. adv.

Joseph Nemecek is at Cadillac this week acting as relief man in one of the A. & P. stores there.

Charles Cox has re-opened his Blacksmith Shop on State St., and solicits your business. adv.

Miss Elizabeth Sidebotham is teaching Latin and English in the High School of Wayne, Mich.

Two heated sleeping rooms, or three living rooms, for rent. Call 247, Mrs. E. E. Scofield. adv.

Regular meeting of South Lake Lodge No. 180, Knights of Pythias next Wednesday evening at 7 o'clock.

Get the habit—tell the Editor of your visitors of the visits that you make or other items of local interest.

The Lutheran Young Peoples League meets this Saturday night, Sept. 13th at the home of Mr. and Mrs. O. Omland.

Mrs. Ralph Bancroft and children of Flint are spending the week end with her parents, Mr. and Mrs. Jerry Deshane.

Rev. and Mrs. James Leitch are attending the annual Conference of the Methodist Church being held at Muskegon this week.

Notice to Pythian Sisters—Next regular meeting of East Jordan Temple No. 65, is Tuesday, Sept. 16th. Your presence is invited.

Mr. and Mrs. Chris Bulow and family have moved here from Detroit and now occupy the former J. G. Stallard farm near this city.

Mrs. Ruth Bancroft of this city and Charles Huntley of Alpena were united in marriage Monday by Justice of the Peace, H. C. Blount.

Anyone having hay to bale, see or call R. DeMaio, phone 129-F3, East Jordan. Service guaranteed. adv. 38-3

Mr. and Mrs. John Lloyd and Mr. and Mrs. Merle Jones of Detroit were guests of the latter's parents, Mr. and Mrs. Newton Jones over the week end.

Arthur Blair of Newberry, son of Mrs. S. Ulvund of East Jordan, and Mrs. Ethel Guidry of Detroit were united in marriage at Traverse City, Aug. 28th.

E. J. VanLeuven, father of Mrs. A. J. Duncanson, passed away at his home in Mt. Pleasant, Thursday. Supt. and Mrs. Duncanson left Thursday to attend the funeral.

Delbert, 10 months old son of Mr. and Mrs. Wm. Archer died Sept. 9th following an illness from whooping cough. Funeral services were held Thursday, with interment at Sunset Hill.

Mrs. Nettie Mason of Charlevoix, Mrs. Minnie VanDam of Detroit, Mrs. Stella Brower of Eastport and Mrs. Ross Alexander of Ironton were guests of Mrs. James Isaman last week Thursday.

The Parent-Teachers Association will give a reception for the teachers on Friday evening, Sept. 19th, commencing at 7:30 standard, at the High School Auditorium. Everyone invited to come and meet them.

Walter Clark and family moved this week to the farm of his father near Eveline Orchards. On Friday, Mr. Clark was helping a neighbor bale hay and was seriously injured when a hay hook stuck into his left knee.

Rev. C. W. Sidebotham attended the Fall meeting of the Presbytery of Petoskey at McBain on Monday. He was re-elected Chairman of the committee in charge of the Young Peoples Conference that meets at Wetsontonsing in June.

Through a misunderstanding over the telephone, The Herald stated last week that it was Mrs. John Malpass who returned from the West with Mrs. W. E. Malpass. Instead, it was her son, John, who came here in the hopes of regaining his health. Mr. Malpass is a former East Jordan boy who has been in the West some 18 years, at present located at Harrisburg, Oregon, where he has an extensive farm and is interested in the canning factory of that place.

Miss Dorothy Joynt is spending the week at Detroit and Niagara Falls.

Mr. and Mrs. Len Swafford of Manistique spent the week end here.

Get your Peaches for canning at Heller's Grocery this Saturday. adv.

Mrs. Elizabeth MacDougall who has spent part of the summer here, returned to her home in Detroit this week.

Mr. and Mrs. Edd. LaLonde of Chicago are here visiting friends and relatives.

Charles Dennis Sr., underwent an operation at Petoskey Hospital, Wednesday.

Mrs. R. T. McDonald left Tuesday for a visit with friends at Big Rapids and Cadillac.

Mr. and Mrs. Charles Cox who have been at Rapid City, returned home last Saturday.

Born to County Clerk and Mrs. F. R. Bulow, a daughter, Thursday, Sept. 11th, at Charlevoix.

Mr. and Mrs. Frank Taylor of Muskegon were here last week camping at the Tourist Park and visiting at the Kenny homes.

Mrs. Alice Joynt and son, Gilbert, returned home last Friday from Rapid City, where they spent the summer at Chippewa Trail Camp.

A Rummage and Bake Sale will be held in the Temple Theatre block, next door to Electric Light office, this Saturday, under auspices of the Good Will Class of the M. E. Church. adv.

E. J. Nicholls of Osawatomie, Kansas, was here by auto the past week. He left Tuesday for his home accompanied by his parents, Mr. and Mrs. James Nicholls, who will spend the fall and winter at Pueblo, Colorado.

Mr. and Mrs. Harry Saxton and Mrs. Frank Woodcock were at Manelona last week Tuesday to attend the funeral of the former's sister and Mrs. Woodcock's grandmother, Mrs. Lola Poulson.

Victor LaPeer and Miss Wilma Natke of Hammond, Ind., and John Laviolette and children of East Chicago, Ind., were here recently for a week's visit with the former's parents Mr. and Mrs. Alex LaPeer, Miss Genevieve LaPeer accompanied them home for a visit.

Miss May L. Stewart, who has been visiting her mother, Mrs. Josephine Stewart the past month, left Thursday to resume her work in the State Teachers' College at Oskosh, Wis. Mrs. Stewart accompanied her as far as Traverse City, returning home the same day.

Mrs. C. J. Mills arrived here last Sunday for a few weeks visit with her mother, Mrs. James Howard, and other friends. Mrs. Mills and her husband have just returned from Melbourne, Australia, where they have been the past 2 1/2 years. Mr. Mills is general production manager of the General Motors Co., and, with Mrs. Mills, was in Australia in the interests of his firm. At present he is at their main offices in New York.

It is only those who do not know how to work that do not love it. To those who do, it is better than play—it is religion.

First M. E. Church

James Leitch, Pastor

10:00 a. m.—Morning Service.
 11:30 a. m.—Sunday School.
 8:00 p. m.—Epworth League
 7:00 p. m.—Evening Worship
 Sunday morning, Sept. 14th, at 10:00 o'clock, the Hon. L. D. Dickinson, Lieut-Governor, of the State of Michigan, will occupy the pulpit, he will also be the speaker for the evening at 7:00. Lieut-Governor Dickinson, is one of the leading laymen of the church, the National President of the Laymen's Association. Mr. Dickinson will have a message of vital interest to all Laymen of the church, it is hoped that all will avail themselves of this opportunity to hear this very interesting speaker.

Presbyterian Church

C. W. Sidebotham, Pastor.
 C. R. Harper, Foreign Pastor.

GRANCE FOR RICHES BALKED BY MEMORY

Man Can't Remember Facts to Establish Claim.

Poplar Bluff, Mo.—His memory blotted out by the expense of 118 years he has lived, "Uncle" Ben Hodge, county dependent, cannot remember facts that might establish his claim to the major portion of a \$15,000,000 estate. Relatives in New England are convinced he is the "keynote" of an English estate, but "Uncle" Ben has been unable to supply the facts which would support his contention.

"I've tried and tried to remember the things that might help settle the estate affair, but I just can't," Hodge says. "The past—that far back—is blank to me."

Forgets Ancestry.

He has been unable to recall the given name of his grandfather and his father's middle name, nor can he remember the name of the boat on which he and his father's family came from England. He recalls that he came from England at the age of eight or nine, one or thirteen children.

"But you know," he said. "I just can't remember how many children I have had. I know I was married three times and outlived all my wives. I just couldn't guess how many children we had because you know I'm getting old."

Hodge served in the Civil war, but as he was not wounded he never applied for a pension. He lost his discharge papers in a fire and now cannot get a pension.

Until recently Hodge was in good health. He made ties, plowed corn, built fences, and hunted.

"You know, some of them say the first hundred years are the hardest. They are just plain nuts. I'll take the first hundred years any time. I was able to work until I was around one hundred and fifteen, and then I started getting feeble. I'd hate to think what the second hundred years would be like."

Lived a Recluse.

Living as a recluse for a number of years neighbors took him food, gave him money until they learned he was heir to the estate.

Recently the aged man, whose eyesight is failing, suffered a leg injury, and appealed to the county court for admittance to the county home. Later, he agreed to accept a \$5-a-month allowance from the county and remain at home.

"If I can make enough to feed myself I will be happy regardless of the fortune which may say is due me, but which I never expect to get," Hodge said.

"Uncle Ben" smokes, chews and admits that he drank whisky—"lots of it"—during the early years of his life and until prohibition.

Henry Clay Descendant Sells Highboy for \$45,000

Lexington, Ky.—Miss Henrietta Clay, Lexington, a great-granddaughter of Henry Clay, has sold a Syrry highboy, a family heirloom, for \$45,000 to the Metropolitan Museum of Art. The mahogany antique of rare, beautiful workmanship is said to be one of three similar pieces in this country. It was made in Philadelphia nearly one hundred years ago by Syrry, the noted cabinet maker, and was sold to Michael Gratz, member of the Philadelphia family. It was inherited by Miss Annie Gratz of Lexington, a great-granddaughter of Michael Gratz. She married Thomas Henry Clay, son of the commoner. A relative of Miss Clay, who visited here recently, saw the highboy and recognized its value. He spoke to an eastern dealer who communicated with Miss Clay and later bought the piece of furniture for the museum.

No Room for Strangers in This Man's House

Stuttgart, Ark.—No more rooms has Lee McDonald to rent to strangers. As McDonald was leaving his house for the day a stranger, asked for a room. He paid McDonald with a check. Returning that night McDonald found the newcomer had ransacked his house. Also the check came back.

Tired Hired Man Rests in Path of Tractor

Rabbit Lake, Sask.—Not feeling well, Percy Walker lay down in a furrow to sleep. Now he feels worse. A tractor ran over him on the farm of Earl Page, where he had been employed to cut brush. Percy is in a hospital suffering from bruises and shock, but with no bones broken.

Arkansas Contables Bar Girls in Pants

Big Lake, Ark.—Feminine youth has risen in protest against curtailment of its liberty. But the campaign as yet has met with little success. Contables Buck Cherry and Kid Wright know of no law against women wearing "men's pants," but according to their moral senses it "just doesn't seem right."

No Contables Wright and Cherry have stopped girls here from wearing them—much to the disgust and protests of the girls.

Soil Color Tells of Its Contents

Often Gives Clue to Presence or Absence of Desirable Qualities.

(Prepared by the United States Department of Agriculture.)

The color of soils is often a good clue to the presence or lack of desirable qualities, says W. O. Robinson, of the United States Department of Agriculture. Different colors in soils are caused by differences in composition, but the soil with the greatest amount of colored constituents as revealed by analysis does not always have the deepest color because the constituents of the soil are not always in proper combination to make them noticeable.

Dark Soil Productive.

"A black soil is usually a rich soil, and in general the darker the soil the more productive it is. Black color in soils is due to organic matter in combination with lime. The actual quantity of organic matter may be small, but if it is saturated with lime or other bases it makes a most favorable condition for plant growth.

"Organic matter also colors soils brown. Such soils are generally acid, and the organic matter, while it may be abundant, is not saturated with lime. A reddish-brown color ordinarily indicates the presence of organic matter and iron oxide. Examples of such soils are the prized mahogany lands of the South.

Red Soils Rated High.

"Red and yellow soils owe their color to the iron oxide they contain in the free state. Experience has shown that the coloring matter is in the clay or finest matter in the soil. This clay is largely made up of silica, alumina, iron oxide, water, and organic matter. The color does not depend primarily upon the total quantity of iron present, as the percentage of this mineral varies little in the clay of surface soils, regardless of color. Reddish soils are usually rated high for farming."

White or light-colored soils are not regarded favorably for farming, except for special crops, says Mr. Robinson, for such color shows a lack of important constituents. Very light-colored soils are generally sandy and contain neither the clay nor the organic matter necessary to absorb and retain plant food and water.

Average Daily Gain on Mixed Pasture Best

Sweet clover pasture has earned a place in the corn belt, particularly in dry seasons. It has been a big factor in increasing milk production of dairy cows. For young animals, however, experiments at the University of Wisconsin with dairy heifers, indicate that it may not be as valuable as mixed pastures and blue grass pastures. During four years, experiments with three lots of five heifers each ranging in age from one or two years, show an average daily gain on the heifers on sweet clover of 0.331 pound; for mixed pasture the daily gains were 0.727 pound and for blue grass and red top mixture the daily gains were 1.1 pound.

Each acre of the sweet clover pasture annually has supplied 152 days for one heifer, 157 days for the mixed rotation pasture, and 176 days for the blue grass and red top mixture. This experiment bears out the contention that good crop land may profitably be used for permanent pasture.

Symptoms of Parasites in Sheep Are Varied

What are the symptoms of parasites in sheep, both internal and external? When sheep have parasites they run down in condition, they lose flesh, they lose their appetites, they hump in the back, the wool sometimes parts on the back, the heads and ears drop, the eyes become dull, the sheep become less active in moving around, the skin becomes pale, the wool fiber becomes weak, the sheep coughs, a swelling may come under the throat and the sheep scours. From external parasites they rub against anything convenient to get temporary relief. If sheep show any of the above mentioned symptoms, make an investigation.

Straw for Scratching Litter for Chickens

If the farm straw supply has been used up until threshing time, it will often pay to buy a few bales of clean yellow wheat straw for fresh scratching litter in the poultry houses. Then you will find the eggs will be clean for a long time and the hours saved in washing or sponging dirty eggs will more than pay the cost of the straw. During hot dry summer weather the straw has fine powers of absorption and will take up the poultry manure much longer than in the damp winter weather.

Put Apples in Pit

Apples can be kept satisfactorily by burying them in the ground, advises the Farm Journal. The quality of some varieties such as Ben Davis or Russet is improved by burying. The pit should be eight or ten inches deep in a well-drained location. The apples placed in it should be covered with straw and when the temperature is down as far as 20 degrees the straw should be covered with three or four inches of earth. In colder weather another layer of straw and a second layer of earth should be added. No ventilation is required.

Dry Stack of Hay or Grain Artificially

Excess Moisture Driven Out by Means of Blower.

At a conference held at Purdue university, Indiana, the matter of drying hay or grain artificially was discussed by W. C. Aitkenhead of the department of agricultural engineering. He explained that a stack of hay or grain can be artificially dried in from five to ten hours, depending upon the size of the stack and the amount of moisture contained in the material, by means of a tractor-driven blower forcing air, heated by an oil burning furnace, into a hollow centered stack of hay or grain. He told of having driven out excess moisture from stacks at a nominal cost. The heat was generated by the burner and forced through the stacks together with all the gases of combustion. This was made possible by placing a spark arrester between the furnace and the blower.

Corn in a crib, he explained, can be dried with the same sort of equipment, if a passage for the air is provided through the corn. It was suggested that by drying hay containing a considerable amount of moisture, one can frequently avoid a lot of trouble. This is especially true of the season's first alfalfa crop, which is cured during a time when we normally have a good deal of rain.

Factors in Economy of Producing Good Swine

Swine producers living in the same community usually get about the same price for their hogs. Some swine producers make more money from a given number of hogs than do others even on the same selling price basis. The difference is in the costs of production.

We have a report from an Iowa hog production study in which 15 farmers averaged to produce hogs for \$8.19 a hundred over a period of three years, says a writer in an exchange. In the same county, were 15 other farmers whose costs averaged \$14.02 a hundred for the same period of time.

General conditions of climate and available feeds were about the same for both groups. Feeding methods, sanitation, ventilation, diseases, parasites, and death losses were large factors in determining costs of production. Of these, the lack of sanitary management in its relation to the control of parasites and diseases was one of the largest factors contributing to high costs.

Dry Rendered Tankage Holds Much Protein

A method of manufacturing tankage by what is known as the "dry rendered process" has been developed within recent years. The dry rendered tankage made by this process has a pleasing rather than a disagreeable odor, and is lighter in color than the ordinary steam rendered tankage. Up to the present time practically all the dry rendered tankage produced has been mixed with bone in the manufacture of meat and bone scraps for poultry, but it is claimed in time all but about 5 per cent of the tankage will be made by the new method. Since water, which washes out some of the ammonia, is not used in dry rendering, the tankage produced contains more protein than does steam rendered tankage.

Paralysis of Ewes

Paralysis of pregnant ewes is not common in range ewes because they do not usually get as fat as the ewes kept on farms and in small bunches. Where small flocks of ewes are kept they may get too fat even though they live only on the waste feed that they pick up about the place. When this condition starts in a flock the amount of feed should be cut down and if the ewes are constipated they should receive a dose of epsom salts.

FARM NOTES

Horses and sheep when grazing alfalfa injure the stand more than do other animals because they bite off the young buds at the crown.

A good ration to feed the cockerels is essential if they are to get to market in fewest possible days. A good growing mash should be before them at all times.

At the South Dakota station millet seed was successfully fed to cattle, sheep and hogs, but more grain was required to make 100 pounds gain than when corn was fed.

It is a mistake to crowd 200 pullets into a house sufficiently large for only 100 birds. From three and one-half to four square feet of floor space should be allowed for each bird.

Every precaution should be taken to prevent stagnant pools from forming on the poultry range. These areas often are contaminated and become breeding places for flies and mosquitoes.

Any change in feeding and management of pullets should be made before production starts. Pullets beginning to lay without sufficient size and weight are likely to quit and molt soon after production commences, college specialists say.

PROBATE ORDER

State of Michigan. The Probate Court for the County of Charlevoix. At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 5th day of September, A. D. 1930. Present: Hon. Ervan A. Ruessger, Judge of Probate.

In the Matter of the Estate of Andrew Olson, Deceased.

Randine Olson, widow, having filed in said court her petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.

It is Ordered, That the 4th day of October, A. D. 1930, at ten o'clock in

the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.

Ervan A. Ruessger, Judge of Probate.

President: "We can't pick our ancestors. No, but we can pick the ancestors about whom we boast."

A mind to many people is something to guess rather than to reason with.

11 Years Constipation, Glycerin Mix Ends It

"For 11 years I tried to get rid of constipation," says Chas. E. Blair. "Then at last the simple mixture, Adierika, made me regular." The simple mixture of glycerin, buckthorn bark, saline, etc., (Adierika) acts on BOTH upper and lower bowel, relieving constipation in two hours! Brings out poisons you never thought were in your system. Let Adierika give your stomach and bowels a REAL-cleaning and see how good you feel! GIDLEY & MAC, Drugists. adv.

The time to take chances is when you have nothing to lose.

A Trustworthy Business Associate

A SUCCESSFUL HOUSEKEEPER these days is a business woman. She has to be. She has her budget systems and account books. She figures closely to keep expenses down. She is a wise, shrewd buyer.

She wastes neither time nor money. She knows exactly what she wants and where to get it at the most advantageous price.

She'll tell you that she is a diligent reader of newspaper advertising. She considers it a trustworthy business associate. It brings her cleaner food—improves her personal appearance—eases her daily task—helps take the humdrum out of life—tells her when, where and how to find things pleasurable and profitable—makes it possible for her to get one hundred cents' worth of real value for every dollar she spends.

Every one can profit by reading the advertisements in this newspaper. That's the one best way to keep in touch with the lowest prices, best qualities and newest commodities that stores are offering and manufacturers are putting out for your benefit.

Remember, you can depend on advertised products. Read advertisements. They'll help you in lots of ways.
