VOLUME 34

EAST JORDAN, MICHIGAN, FRIDAY, NOVEMBER 28, 1930.

NUMBER 48

Boyne City Officer Shot By Robbers

JOHN SUITOR SLUGGED AND SHOT BY YOUTHFUL GANGSTERS.

Clark Fraley Quickly Captured by Sheriff Vaughan, Jack Patton and Wm. McGuire Taken at Elmira Monday Forenoon.

(Petoskey News)

John Sutor, Boyne City night watchman, is in Petoskey Hospital in dangerous condition from a bullet wound in his abdomen, received when he was shot at 4:15 o'clock Sunday morning by one of a trio of robbers he had apprehended carrying contraband from the Atwood Scheafer department store at Boyne City. Catching the robbers by surprise, Sutor arrested two and was taking them to jail when a third man struck him from behind with a tire iron. As he fell, one of the others turned and shot him. The trio took his gun and fled. Sutor's cries for help aroused Mr. Scheafer and others, who called Sheriff Dave Vaughan at Charlevoix. Together with Deputy Charles Marshall, the sheriff left immediately for the scene and just at the edge of Boyne City limits found Clark Fraley asleep in his car. He admitted being a member of the gang, but the other two had fled. Fraley gave his age as 20, and home in Chandler township. He said his companions were John Patton, age 23, and William McGuire, 19, both residing near Central Lake in Antrim County.

No further trace of the two was found Sunday but Monday morning State Troopers received word from Elmira that two suspicious looking young men were there. They at once drove to Elmira and found the pair in a box car. It is said they attempted to escape and were considerably beaten up. They were taken to jail at Charlevoix.

Fraley, after confessing to having a part in the robbery and giving the names of his companions, refused to answer further questions as to who actually shot the night watchman or who slugged him over the head. It is believed the two bandits made their way to Elmira, either by hitchhiking or had paid for rides. Fraley's car contained a quantity of the stolen plunder.

The State troopers report that McGuire has confessed that he was the man who shot night watchman Sutor. In the party of troopers who say they broke all previous auto records in driving from Boyne City to Elmira when word came of the pair being seen there, were Lieut. Earl J. Hathaway, Troopers C. Konelochy, Verne Dagen, Purlett Hinkley, Paul Ruhl, and Leo Dan Conant, of State patrol No. 6.

It is said that at first Fraley denied having had a part in the Boyne City robbery, claiming that he was waiting in his car on Front Street for the others to come. Officers, however, discounted the story.

Fraley has confessed that the trio robbed the Shell gas station and the Co-operative Ass'n station at East Jordan Friday night. Saturday night they entered the Lakeway garage in Charlevoix and had gone to Boyne City, where Sutor caught them taking goods from the Scheafer store. Practically all goods taken, consisting largely of tires, tubes, blankets and a miscellaneous assortment of contraband, has been recovered. All were armed with revolvers, and Fraley had a loaded shot gun in the car when arrested by Sheriff Vaughan.

Night watchman Sutor was carried into the Scheafer store where he said he believed he had been knocked out for several minutes after being struck and shot. He complained of a pain in his side and when Mr. Scheafer investigated he found the bullet hole. Mr. Sutor did not realize he had been shot. He was hurried at once to Petoskey hospital. He is the father of Mrs. Lawrence Neiswander of Petoskey.

Mr. Scheafer says that last week three young men came into his store inquiring for second-hand tires, size 31x4. It was this size tires which were stolen. Some of the goods were found on the ground in the rear of the store and three tires and several tubes are still missing.

"What do you do?"
"I keep house, scrub, scour, bake, wash dishes, cook, do the laundry, iron, sew."
And the census taker listed her: "Housekeeper—no occupation."

No Wonder

"Nothing the matter with you, my man," said the doctor. "Your pulse is as steady as clock work."
"But, doctor, you've got your fingers on my wrist watch!"

E. J. IRON WORKS RECEIVES LARGE ORDER FOR PRODUCTS

The people of East Jordan will be glad to learn that the "rumor" is true that the East Jordan Iron Works has recently received an order for a large quantity of fire hydrants, valves and water works specials which will keep the plant operating the greater part of the winter.

DUDLEY HOME GUTTED BY FIRE SUNDAY MORNING

The brick residence of Leonard Dudley on the West Side was discovered on fire about 8:30 a. m., Sunday morning, after it had gained considerable headway. The fire evidently originated in the roof near the chimney. The East Jordan Fire Dept. responded to the alarm and managed to save the walls and framework. Part of the household effects were saved. The loss on the dwelling and part of the contents is considerable. Some insurance was carried.

Boys and Girls Join 4-H Clubs

APPROXIMATELY 30 DIFFERENT CLUBS WILL BE ORGANIZED.

The greatest interest and enthusiasm in Boys' and Girls' Club work ever shown in this county, has been the case this last week. Nineteen different schools in the County were visited by Miss Sylvia Wixson and P. G. Lundin, State Club Specialists, and at each school the boys and girls were very desirous of organizing club work. This means that one-half of the schools in Charlevoix County will incorporate this program in their community.

The fact that such a large percentage of our fine boys and girls are interested in Agriculture is a direct challenge to the parents, teachers, and others, to give them the type of leadership and guidance that will make them the kind of citizens that America needs now and tomorrow. Think of what this means to have this army of boys and girls growing up in supervision. If they continue to be interested in Club activities and secure the benefits possible it is up to you and I to give them the best within us.

The following schools and teachers plan to have Clothing and Handicraft Clubs this winter:

School	Teacher
North Bay	Doris Trimble
Tainter	Addie Ellis
Wildwood	Elizabeth Sullivan
Ironton	Norabelle Thorsen
Walker	Ruby Stueck
Murray	June Harriett Kilpatrick
Undine	Lila Coblentz
Bay Shore	Nita Shearer
Woodward	Faida Ogden
Barnard	Virgil M. Wise
Norwood	Carrie Taylor
Loeb	Beatrice Straw
Phelps	Marguerite Sutton
Marion Center	John Dutcher
Clarion	Eleanor L. Vester
Walloon Lake	John M. Vester, Lila Woodin, Mayme Scroggie.
Norwood	Louise Lashbrook
Knop	Juanita Baker
Afton	Olga Jensen
Deer Lake	Norma J. Moore

B. C. MELLENCAMP,
County Agr'l Agent.

GRAYLING HAS MURDER MYSTERY

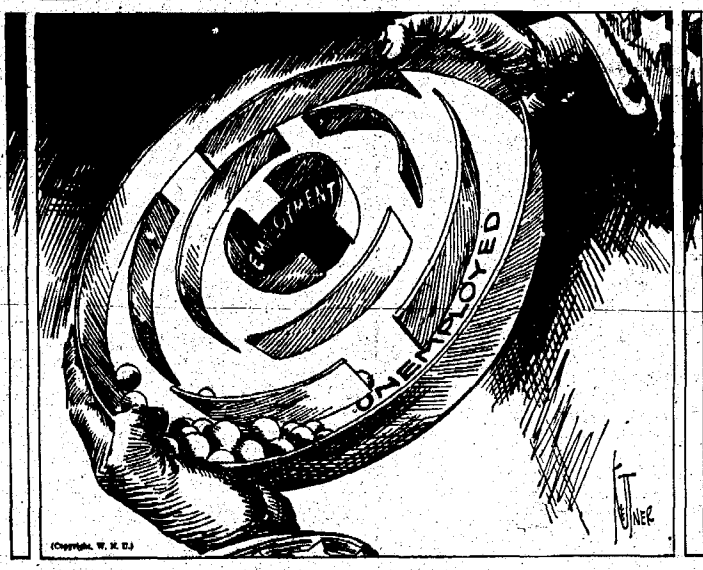

A theory that the skeleton dug up by hunters in the woods near Grayling Thursday was that of Lorraine Christenson, 14-year-old daughter of Mrs. Ivan Hoople, who disappeared with her stepfather a year ago last summer, was being investigated by Sheriff J. E. Bobenmoyer Saturday.

The Christenson girl was working at the summer home of Mrs. John Kerr on Lake Margrethe, near Grayling, last summer, while her mother was in the hospital. Her stepfather came to visit her after first calling on his wife at the hospital. He told Mrs. Kerr he wanted to talk to the girl and took her for a ride in his car. They never returned.

After Mrs. Hoople was discharged from the hospital, she took photographs of the girl and Hoople to state police headquarters at Lansing. Later she went to Ann Arbor and talked with Hoople's father, who said his son had been sentenced to serve from three to five years in Ionia Reformatory for bigamy.

Sheriff Bobenmoyer said his deputies were working on another clew but refused to reveal what it was.—Grand Rapids Press.

The Puzzle

King Winter Is To Be Resisted

COUNTY ROAD COMMISSIONERS MARSHALING SNOW DEFENCES

(From Charlevoix Courier)

Snow removal is now the subject uppermost in the minds of the Charlevoix County road officials and extensive preparations are being made to show an unyielding front to old King Winter's battalions during the season of 1930-31.

The county has ordered approximately 18,000 feet of new fence, which will be put in place immediately on its arrival, a large number of stakes having already been driven in advance. Three thousand feet of the new fence arrived last Thursday morning and was in place by evening of that day. Practically all of the fence on hand from last year was erected last week.

The mechanical department will be strengthened by the addition of a brand new FWD four-wheel-drive truck, with snow plow attached. The matter of size has not as yet been decided, but the truck will probably be either a 3 1/2 or 4 ton model and possibly larger.

State trunk lines will be kept open this year, as in the past. In addition to the highways kept open in this district last year, the State road men will have the former Charlevoix-East Jordan road by the way of Ironton on their hands, as it has now become Michigan trunk line No. 66.

After the trunk lines are plowed out, the county roads to receive attention have been grouped by the county road officials and will be taken care of, as far as possible, in the order of their importance.

First will come the Boyne City-Charlevoix, Deer Lake, Peninsula, Advance, Ellsworth, Bellaire and Ferry roads. Following these, the next local roads to be plowed are the East Jordan-Boyne City, Wildwood Harbor, Marion Center, Barnard, Norwood and McSaub. After these are open, the Wilson, Elmira and Boyne Falls east roads will be cleared if possible. The Chandler and Horton Bay north roads and the old Charlevoix-East Jordan road, from Bird's Corners through to Eveline

Orchards, are to be maintained as sleigh roads.

One change in the personnel of the state highway department may be noted at this time. Due to the election of Frank D. Fitzgerald to the secretaryship of State, a vacancy occurs in the office of business manager which is to be filled by the appointment of M. DeGlopper, formerly engineer of materials and equipment for the department. Mr. DeGlopper assumes his duties on Jan. 1, 1931.

FINE SAMPLES OF WINTER APPLES

Samples from a basket of Winter Banana apples received by Miss Agnes Porter were handed The Herald first of the week.

These were grown by Frank Craker in his orchard near Omena and show what can be done by using modern horticulture methods. The entire bushel are perfects, of a beautiful color, and vastly superior in flavor to apples grown in other parts of the United States.

Charlevoix School Boys Admit Robbery Counts

Charlevoix, Nov. 20.—Following their arrest by Sheriff David Vaughan, Raymond Dodd and Wilfred Brow, Charlevoix High School boys, both aged 16 years, admitted breaking into the Shell gas station here last night and after wrecking the safe took \$300 that it contained. They burned \$80 in checks. Dodd confessed to having entered the Northern Auto Company's office last week when \$16 was taken.—Grand Rapids Herald, Nov. 21.

Two Pay Game Law Fines in Charlevoix Court

Charlevoix, Nov. 20.—Arrested on complaint of Conservation Officer, Henry Fyke, two game law violators plead guilty in court here.—Elmer Olstrom of East Jordan, Route 2, charged with trapping without a license, using unmarked traps, and baiting with speckled trout, paid a fine of \$16.25. Fred Denny of Ellsworth for trapping out of season was assessed \$18.75.—Grand Rapids Herald, Nov. 21.

Catches Fish for the White House

When the fishing on the Rapidan ended for the year, the Rainbow Angling club of Azusa, Calif., voted to supply President Hoover with the finest trout of his adopted state. Miss Doris Manley, the club's girl fishing champion, was selected to catch the trout for the White House table, and is seen above doing her duty.

CO-OP. CREAMERY MEETS APPROVAL OF FARMERS

Considerable interest and enthusiasm is being displayed by Dairymen all through the county. Last week a series of five meetings were held in various communities with John Martin, Michigan State College Specialist present, and the plans for a gigantic Co-operative Creamery organization were outlined. It is planned to receive cream from every point in the County, as well as a large portion of Antrim County, all of which would make a sufficient volume of business to warrant a highly successful enterprise. Moreover, it plans to gather the cream direct from the farms and save the farmers the inconvenience of delivering their own cream. A careful analysis of our dairy situation brings out quite forcibly the fact that we are securing as low prices for our cream as any section in the State of Michigan. Two successful Co-operative Creameries not far from this district have been paying their patrons over 7c a pound more than we have been getting for our cream, which naturally is of great concern to us.

Representative dairymen from various sections have already been appointed to canvass their communities. It will be a Co-operative Profit Sharing Stock Corporation, which is our most successful co-operative organization. To successfully operate we should have 500 farmers signed up and at least 200,000 pounds of butter fat in prospect.

Farmers, consider this proposition, discuss it with your friends and get their viewpoints, analyze our situation as it is, and I am sure you will be interested in it. Keep informed on this matter and decide for yourself what ought to be done.

County Agr'l Agent.

1930 Christmas Seal Sale

BEGINS THROUGHOUT STATE, THURSDAY, NOV. 27th.

A smiling Santa Claus carrying a Christmas tree on his shoulder and waving a Merry Christmas furnishes the design for the 1930 Christmas seal, sale of which locally and throughout the State and Nation begins Thanksgiving Day.

Sold at a penny each, the seals provide practically the entire support for the anti-tuberculosis work of the Michigan Tuberculosis Association and its affiliated county societies. This work includes free chest clinics, tuberculosis nursing service, sanatorium campaigns, activities to secure passage of necessary tuberculosis legislation, and organized research into present day tuberculosis problems.

The seals also make possible extensive work for betterment of child health. Health teaching materials are distributed periodically through the school year to all Michigan schools. "Princess Watassa," who teaches health by classroom lectures, has during the past two years given her program in all except nine Michigan counties, reaching more than 200,000 children.

RETURN ADDRESSES ON XMAS MAIL

In January every year the dead-letter service receives between three and four million dead letters containing Christmas and New Year cards in addition to the normal receipts of ordinary undeliverable letters.

This is due primarily to incorrect addresses and failure to place return addresses on the envelopes.

Thousands of these letters are found to contain gifts of money, but comparatively few contain sufficient information to enable their return to the mailers.

Postmasters are requested to give as much publicity as possible, without expense to the department, to the matter of the advisability of placing return addresses on all mail.

ARCH COLEMAN,
First Ass't Postmaster General.

Most successful businesses are built upon dreams, and many of them go to pieces because some executive dreams too much.

Six Large Herds Tested

CHARLEVOIX COUNTY DAIRY HERDS FREE FROM CONTAGIOUS ABORTION.

Of particular gratification to several large dairy farmers is the fact that no Contagious Abortion was found upon a careful test made last week. This disease is causing a loss of thousands of dollars in many counties in Michigan, and is dreaded fully as much as Tuberculosis. Like Tuberculosis you have no external appearances to indicate whether the animal is affected or not. This disease may be indicated by the cow aborting, by sterility problems, under troubles and white scours in calves.

The services of Dr. B. J. Killham, Veterinarian Specialist, was secured to demonstrate on six large herds of cows for the purpose of finding out if this disease was prevalent in Charlevoix County. The test is made by securing a sample of blood from each animal and having it tested at the Michigan State College Laboratory. Some 200 animals in these six herds were involved in this test, so a sufficient number have been worked on to make us feel reasonably certain that this County is relatively free from this disease. Dr. Killham informs me that this is the first County in the State that he has found free of reactors, which is a source of great rejoicing to all dairymen.

The following six herds of cattle were used for this demonstration: Ecklund Brothers, Charlevoix; Geo. Meggison, Charlevoix; Wm. Withers, Charlevoix; Oakley Saunders, Charlevoix; Carl Grutsch, East Jordan; and Murphy Brothers, East Jordan. If there are any herd owners in Charlevoix County who have reason to think their herds are infected, plans may be made whereby this test may be conducted by our local veterinarian. We have made a wonderful record in our Tuberculosis Eradication work, and want to be certain that Contagious Abortion may also be cleaned out if such a situation exists.

B. C. MELLENCAMP,
County Agr'l Agent.

TUBERCULOSIS ERADICATION CAMPAIGN PROGRESSING

During the last two months Doctors T. P. Pomeroy of Boyne City, and Merlau, State Veterinarian, have been covering the County as rapidly as possible. This will be the third time that the County has been completely tested, and we are glad to State that we are having less and less on every test.

Up to the present time over 5,000 head have been tested, and only about twelve reactors have been found, which would indicate that our percentage is slightly over .2 of 1%, which is remarkably low. Dr. Pomeroy has the eastern portion of the county pretty well covered and has only found four reactors, while Dr. Merlau, working out of Charlevoix has the west side nearly completed. This work will be continued until late in the fall and finished early next spring, so that Charlevoix County may again be accredited. If your herd has not already been tested, be re-assured that it will be done as soon as possible either this fall or next spring.

B. C. MELLENCAMP,
County Agr'l Agent.

OVER 200 ATTEND P. T. A. MEETING

Regular meeting of the P. T. A. was held on Thursday evening, Nov. 13th. The meeting was opened by the President, Mrs. G. W. Bechtold by reading an article on joining the P. T. A. Also a letter relative to school debates throughout the State. A one-act play, "Neighbors" was put on by some of the parents and teachers, which was well acted and enjoyed. The male quartette rendered two selections which were also enjoyed. There were over 200 present. Lunch was served at the close of the meeting.

A membership drive is under way and the Association will be glad to enroll anyone at any time.

East Jordan won the Banner last year for the largest membership, we would like to be able to hold it another year.

The next meeting will be held in the Junior High room on Thursday afternoon, Dec. 11th.

PENINSULA

(Edited by Mrs. E. Hayden)

Frank K. Hayden and children, Arlene and Lloyd, of Orchard Hill, accompanied Mr. and Mrs. T. J. Hitchcock of East Jordan to Eldorado, Saturday to visit her brother, Fred Hartman and family. They returned Sunday evening.

Mrs. Nellie Evans of Honey Slope farm is spending a few days in Boyne City with her sister, Mrs. Wm. Bogart.

Miss Eva Crowell of Dave Staley Hill who has been very ill with pneumonia for some time, is able to sit up a little now.

Mrs. Marion Jackson and children of Breezy Point farm visited the Joe Kennys in East Jordan Thursday night.

Clayton Healey of Willow Brook farm spent Sunday night at Orchard Hill, the guest of Robert Hayden.

Mr. and Mrs. Will Gaunt and family of Knoll Crest spent Sunday in Boyne City with relatives.

Miss Lucy Reich of Lone Ash farm spent Wednesday evening in East Jordan the guest of Miss Bertie Stollard. They attended the class party.

W. H. White had the county caterpillar tractor out the first of the week pulling out the trees around the John Sandford buildings. He now has the farm all plowed up and disked, ready to set cherries and raspberries.

The M. S. C. had a man in this section last week making a cherry

survey, preparatory to issuing a bulletin for the benefit of cherry growers.

Simon Peter of Potoskey called at the A. Reich farm, Monday.

Miss Gladys Staley of Gleaner Corner gave a birthday party at her home to about 15 of her little friends Sunday, the occasion being her 12th birthday.

George Jarman and son Bob of Gravel Hill spent Thursday evening in Boyne City, the guests of his sister, Mrs. Weiss and family.

Mr. and Mrs. D. D. Tibbit and family of Cherry Hill visited at the Edward Hunt home at Deer Lake, Sunday.

D. D. Tibbit of Cherry Hill sold his bay mare to a man in Melrose twp., last week.

Mr. and Mrs. Elwood Cyr and son Milton of Boyne City were week end guests of Mr. and Mrs. Fred Wurn.

Mrs. Fred Wurn received a long distance message from her son, Geo. of Detroit, Sunday evening, saying he and his family would be up Wednesday evening to spend Thanksgiving. The family dinner will be held with Mr. and Mrs. Elwood Cyr in Boyne City.

AFTON

Edited by Mrs. Henry Timmer.

Deer Lake Grange celebrated the 25th anniversary of its founding with a banquet on Nov. 22nd. The organizer of the chapter, J. A. Newville responded to the address of welcome extended by Master L. R. Hardy. History of Deer Lake Grange was given by H. C. Barber. A brief history of the National Grange and its relation to the farmer was given by B. C. Mellencamp who also acted as Toastmaster. Comic sketches and songs by Al Warda, Archie Murphy, Dora Barber, Christabel Sutton, Martha Timmer and Evelyn Hardy made up the less serious entertainment. Decorations were in gold and blue, the food excellent and service perfect.

Miss Ruby Hardy is spending a week's vacation at home.

Miss Leonola Gates of Boyne City spent the week end with her grandparents; Mr. and Mrs. Chas. Hott.

Miss Mary Guzniczak of Potoskey visited her parents here Sunday.

Wilson Grange held a party dance on Wednesday evening.

Mr. and Mrs. A. J. Weldy were guests of John Vrondran Sunday.

Henry Sloop is reported to be very ill.

Mrs. Merritt Finch marketed her turkeys locally, the K. of P. purchasing them for their annual raffle.

Deer Lake Grange degree team initiated a class of 10 at Marion Center, Tuesday night, in the third and fourth degrees. Candidates from South Arm, Barnard and Marion Center Granges were included. About 100 people were present.

Peter Jensen called at Silver Leaf farm, Friday.

Mrs. A. J. Weldy is ill with a bad cold.

The funeral of Mrs. Cyrenus Burley was held at Wilson Grange Hall Wednesday afternoon.

CENTRAL LAKE

(Edited by Jesse Morse)

Nice snow storm Monday. Weather report says more next week.

Lloyd Morse is moving his hay to the Fairbanks barn at Elk Rapids.

Chris Robertson's people visited Friday at the A. Snitsler home at Bay View.

Albert Byers, Harry Smith, Mr. Box, Wm. Cary and sons, and other hunters are expected home this week. The former two got their deer.

Rev. A. C. Kendall stopped at the Albert Harwood home Sunday afternoon, on his way back from Barnard, to marry Mr. Smith and Mrs. Schaefer from Charlevoix.

Creswell had an attendance of ten people at Sunday School Sunday, and Eastport thirteen.—Mr. Morse will be delegate to Potoskey from Creswell, to help put up the Christmas presents.

Union services will be held at the Congregational Church Thanksgiving Day. Mrs. Muckle, Mrs. Hadcock, Mrs. Ona Byers, C. N. Snyder and J. W. Morse are preparing two anthems for the occasion, from the M. E. Church.

O. R. Morse and some of the children went to Lansing Saturday as the death of his father-in-law, Lyman Cobb was momentarily expected.

Mrs. Morse has been with her father the past month. Mr. Cobb has had three strokes of paralysis.

E. S. Carroll tells us that the Council of Religious Education Lecture Course has finally been arranged.—The first number on the course, Luren T. Dickinson will be given at the high school gym on Tuesday, Dec. 1st. Proceeds we understand, go to defray expenses of religious education workers.

George H. Barr of Bellaire, former candidate for Prosecuting Attorney of Ayrin County, and teacher at the present time at Greenwood, west of Central Lake, figured in an automobile accident at Larabee's Corners near Bay View Sunday evening. The car turned completely over but was not damaged much. Mr. Barr received a bad cut above the right eye the same eye injured two weeks ago when run into by another car in the village. The other occupant with him was uninjured.

WILSON TOWNSHIP

(Edited by Mrs. C. M. Nowland)

Mrs. Cyrenus Burley, aged 93, a pioneer of Wilson, passed away Monday morning from ailments of old age. She has been confined to her bed for over three years at the home of her daughter, Mrs. Eugene Raymond.

Mr. and Mrs. E. L. Nowland, Mr. and Mrs. James Simmons and daughter, Eleanor were Sunday dinner guests of Mr. and Mrs. Louis Harnden of Eveline.

Mr. and Mrs. Conn Nowland of Harbor Springs visited his parents, Mr. and Mrs. S. R. Nowland and called on relatives in South Arm over the week end.

Mrs. S. R. Nowland, and Mrs. Geo. Jaquays and daughter of East Jordan visited the latter's husband at Lockwood hospital Sunday evening.

Mrs. Eugene Kurchinski attended a shower Friday evening at the home of Mr. and Mrs. W. H. Davis in Boyne City in honor of Mrs. Jack Waddell. The ladies played progressive pedro, after which a delightful lunch was served.

Mr. and Mrs. Charles Hott visited Mr. and Mrs. Dell Underhill of Boyne City Sunday evening.

Otto Kunert passed away Saturday evening after a few months illness at his home in Wilson, where he has lived for many years.

Mr. and Mrs. Will Cook of Charlevoix visited Mrs. Clara Slaughter and son, Ernest and wife, Sunday.

Miss Esther and Ed. Shepard attended a farewell dinner at the home of their aunt, Mrs. Mary Durrance of Charlevoix, Sunday, Nov. 16. Mrs. Durrance and son, Albin left Wednesday for Florida.

PLEASANT HILL

(Edited by Anson Hayward)

There were quite a few around Pleasant Hill, Bennett's neighborhood and Finkton who went deer hunting.

Jonas Schroeder took dinner with Lucius Hayward, Sunday.

Mrs. Sam Lewis visited Mrs. Joe Ruckle one day last week.

Rev. Johnson of Mancelona and J. S. Wood, presiding Elder, of Flint, preached at Pleasant Valley, Sunday.

Miss Vesta Hayward who has spent the summer with her parents, has returned to Detroit.

Frank Gaunt visited his brother, Joe Ruckle and family, Sunday, and called on Anson Haywards.

Sam Lewis is helping John Schroeder cut wood for a few days.

Harrison Kidder is not very well this fall.

Miss Ruth Jubb has been out of school for a few days on account of illness.

"The Merry Workers"

Home Management Club

"The Merry Workers" met at the home of Mrs. Rosetta Gonsalus, Friday, Nov. 21.

Six of the members were present, two new members were enrolled and three visitors were entertained.

The meeting was called to order by the Chairman. Minutes of the last meeting were read and approved. It was decided that the next meeting will be held with Mrs. Amanda Shepard, Dec. 11th.

Lessons were presented by the Leaders, and the scheduling of time was taken up. Many interesting points were brought up, on how children can help their parents.

After the meeting a light lunch was served by the hostess.

Marie DeMaio, Sec'y

AN APPRECIATION

We wish to thank the many friends and neighbors who helped to save our household goods from the fire that visited our home, Sunday.

Mr. and Mrs. Leonard Dudley.

Velvet Suits Accent

Elegance of the Mode

Fur-laden velvet suits proclaim an era of la mode elegance for fall and winter 1930-1931. The handsome model in the picture is typical of costumes designed for afternoon wear. It is of deep wine-red velvet. Its flaring pelum is a distinctive feature. The fur is gray trimmer.

State News in Brief

Escanaba—Calvin Howard, 83, the first white child born in Delta County, died recently at Newberry.

Atlanta—Toivo Turpa, 23 years old, of near Lewiston, was killed while hunting deer near here. His rifle was discharged as he climbed a tree.

Lansing—Plans have been completed by the city forestry department to remove obnoxious trees in the city and thus aid the unemployment situation here by giving work to idle men.

Lansing—The dividing line, known as "Town 20 North," and which is used in zoning north and game regulations, is the north boundary line of Arenac, Gladwin, Clare, Osceola, Lake and Mason counties.

Charlotte—A surveying party of five men from the State Highway Department has established headquarters at Olivet and started a survey of U. S. 27 between Olivet and Marshall. The highway will be almost completely re-routed.

Owosso—What is believed to be the largest deer ever brought back by an Owosso hunter is in possession of George Kowan, 70 years old. The buck weighs 350 pounds and has 19 points. He shot it near the Straits of Mackinac.

Battle Creek—Battle Creek Sanitarium authorities announced that Colleen Moore, noted screen actress, is undergoing a rest cure in that institution. The announcement said that the actress is not seriously ill but was taking treatment for her nerves.

Pontiac—A new vogue in stench bombing was introduced in Pontiac by persons who hurled a skunk into the Maude pharmacy, 205 Worthness road. The animal was dead. Police were unable to locate the offenders, believed to have been a band of boys about whom complaints have been received.

Coldwater—Mary Jellnek, of California Township, has filed suit in Circuit Court here, against Fred A. Waterbury, California Township farmer, charging breach of promise. The woman declares Waterbury proposed marriage several times following his wife's death in 1928. She is asking \$10,000.

Escanaba—While excavating for a tennis court, Stanley St. Louis, of Escanaba, found \$130 in gold coins. The coins bore dates from 1852 to 1915. A rotted leather tobacco pouch in which the money apparently had been placed, was found nearby. It is believed a recluse who lived in the house about 15 years ago buried the gold for safekeeping.

Owosso—Eddie Kirk, assistant pro at the Dearborn Country Club, has signed a contract to serve as pro at the Owosso Country Club next season. His first act after signing was to go out and shoot the nine holes in 34, two under par. Nine additional holes will be ready for use next season. Kirk succeeds Jake Fassezka, who goes to the Jackson Country Club.

Grayling—The body of a woman, about 45 years old, protruding from a shallow grave, was found by two hunters five miles west of Frederic, near Manistee river. The woman apparently had been dead about a year. She wore no shoes and her only clothing was a heavy pleated skirt. The body had been wrapped in tent cloth and tied with heavy window sash cord. Her face had been crushed in by a blow.

Detroit—The world's greatest convention of war veterans will be held by the American Legion next Sept. 21-24 in Detroit, state commanders and adjutants of the Legion insisted after a tour of Detroit's hotel and railroad facilities. If all plans are carried through, between 125,000 and 150,000 delegates will attend the next Legion convention, they said. This means an estimated total attendance of 275,000 to 325,000.

Detroit—Retail prices of food in Detroit have fallen 12 per cent during the 12 months ending October 15, the department of labor—announced at Washington, D. C. This reduction was exceeded in Butte and Portland, Ore., where the drop was 14 per cent, and in Los Angeles where the reduction was 13 per cent. It was equalled by decreases in Kansas City, Louisville and Seattle. In no one of the 51 cities from which statistics were collected was an increase shown.

Bay City—Bay City State Park, three miles north of the city on Saginaw Bay, led all State parks in attendance during last summer, figures prepared by F. J. Hoffmaster, superintendent of parks, disclose. The attendance at the park exceeded 1,500,000 persons and exceeded that of Grand Haven State Park, which was second, by 400,000. The Bay City park also led in the number of campers registered with 16,418, as compared with 10,399 at Traverse City Park.

Pellston—For the first time since this Emmett County village was founded 50 years ago, the shrieking of band saws will be absent this winter. The sawmill has turned almost every available sawlog of the vicinity into lumber. The run of last year was supplemented by timber from the Upper Peninsula, but this source of supply was exhausted early in the spring. Pellston had the reputation of being the lumber capital of Northern Michigan, but now it is improbable further lumber manufacture will take place here.

Howell—Henry J. Wiekman, 51, proprietor of the Millville Steel and Wire Company, was killed when caught by a steam shovel as he sought to escape a cave-in.

Battle Creek—Contractors have started work on a \$300,000 hospital building for the United States Veterans Bureau at Camp Custer. It will take care of 138 patients.

Ludington—Many residents of Mason County recently picked ripe strawberries from cultivated fields. The fruit had blossomed during unseasonably warm weather. Blossoms also reappeared on some plants.

Battle Creek—Charles Bush, of Battle Creek, who 30 years ago made the first hole-in-one on a local golf course, made his second one at the Municipal course in Kalamazoo on the 200 yard fifth hole. His first was made with the old gutta percha ball.

Lansing—Rudyard Kipling remarked that the female is more deadly than the male and to illustrate the point Mrs. Arthur Curtis returned to Lansing with a 175-pound buck, while her husband, Police Detective Curtis, was empty-handed.

Marquette—Marquette is one of the few counties in Michigan that continues to pay a bounty upon wildcats, wolves and coyotes. During the last 12 months it has cost the taxpayers of this county \$4,498 in bounties for the carcasses of 170 coyotes, 78 wildcats and 27 timber wolves.

Saginaw—Unanimous promise of cooperation from all four of the local banks assured the success of the proposed \$300,000 loan to the federal government to speed the dredging of the Saginaw River for lake boat travel. It is expected the river work will be started early in the Spring.

Pontiac—Edward Gaukler, junior member of the Gaukler Fireproof Company, passed the danger of losing his sight, physicians at St. Joseph Mercy Hospital announced. He was sprayed with lime when a hose burst while he worked in a vault at the warehouse.

Mid-County Clerk John Stark issued a hunting license for deer to Jesse Wood, of Farwell, Clare county. Wood is one of the oldest deer hunters in Oscoda county, if not in the state of Michigan, being 92-years-old. He is active for one of his age and has been shooting deer for more than 50 years.

Bad Axe—Joseph J. Murray, of Bad Axe, Democratic nominee for sheriff of Huron County, was declared winner of the race for sheriff by 54 votes, when the recount of votes was completed. Murray had 2,743 votes, while his Republican opponent, Joseph Smith, of Pigeon, had 2,689 votes, according to the recount. The official canvass of votes had given Smith a lead of six.

Lansing—A 14-story bank building will be erected to house the City National bank within a few months, Benjamin F. Davis, chairman of the board of directors, announced. The location will be on the site of the present bank building at the northwest corner of Michigan and Washington avenues. Estimated cost of the new structure will be \$700,000.

Newberry—Although a victim of an unusual hunting accident last year, Charles Byrnes, of Greenville, again was in the woods this year. He was the hunter whose canvas glove Sam Meddler, of the same city, mistook for the tail of a deer. Byrnes was shot through the arm and side. Byrnes' cousin, Albert Byrnes, a member of his party, shot himself through the hand.

Lansing—Approximately \$12,000,000 was distributed to tens of thousands of Michigan men, women and children during the latter part of November in the form of Christmas Club checks. Reports from 22 of the principal cities collected by the Associated Press, reveals a total of \$11,295,300 released by clubs in these centers. The places not heard from, on the basis of those reporting, would bring the total close to \$12,000,000.

Manistee—An old-timer stood at the side of M-28, rifle in hand. A game warden approached him, and the hunter asked if he knew where he might find deer. "Sure, uncle," replied the warden, "sit down on that stump and you are apt to see a deer." The warden drove away, chuckling. A few hours later he drove by. The old-timer called him. "Say, I did what you told me and just a few minutes ago I killed a big buck. Here's a cigar."

Bay City—Miss Beulah Fry, 18 years old, was dragged to her death at the bottom of the Saginaw river when she became entangled in the anchor rope of a boat that capsized. Miss Fry was in a rowboat with her parents, her brother and sister-in-law, all of Flint. The boat was overloaded and capsized when struck broadside by a wave. The occupants were all thrown into the water but managed to save themselves, the exception being Miss Fry. Her ankle was entangled in the anchor rope and as the heavy weight sank to the bottom of the 18-foot channel, she was dragged down with it.

Harrison—Within four hours after he had confessed that he had slain his mother, Albert Gruno, 21 years old, a farmer, was sentenced to life imprisonment at Marquette. Gruno's confession ended a week's investigation of the murder of Mrs. Pauline Gruno, 63 years old, who had been found dead in the kitchen of her home. According to his confession, Gruno killed his mother after she had refused to lend him \$300 to pay off a mortgage on some cattle. His confession told how he deliberately had shot his mother in the back.

AGR'L DEPT. DOUBLES GROWTH IN TWO YEARS

The local High School Agricultural Department has made a phenomenal growth in the past two years, and it is significant to note that project work is increasing in proportion. Our work is being placed on as practical a basis as possible with the equipment and room available for the 102 students we have in the department now, as compared with 57 two years ago. We may note also that at present nearly one half the salary of the instructor is paid by our State and Federal Departments.

Our work in Farm Crops this year has tended mostly toward judging field crops common to this locality, and has been amply rewarded by our students winning first place in that work at the Gaylord Potato and Apple Show. We have been studying effects of various commercial fertilizers on plant growth, and find this especially to be very practical in project work that follows it. It is largely impossible to carry on experiments such as growing plants to maturity under various soil and fertilizer treatments, or to test seed for growers in this locality (both of which would be very fine experience for students), due to not having a suitable room in which to germinate seeds and grow plants during late fall, winter, and spring months.

Our outstanding aim is to GROW A SMALLER ACREAGE OF HIGHER QUALITY CROPS AT GREATER PROFIT. We know this can be accomplished by putting into practice the following methods:

- 1. Spend more time on preparing the soil for the crop.
- 2. More thorough preparation of the seed bed.
- 3. Selection of seed and plants adapted to this locality.
- 4. Planting high quality seed or plants, that are free from disease.
- 5. Adding the proper commercial fertilizer at the right time, in the right way, and in the right quantity, when necessary.
- 6. Practicing good cultural and harvesting methods.
- 7. Studying marketing and market conditions.

PROBATE ORDER
State of Michigan. The Probate Court for the County of Charlevoix. At a session of said Court, held at the Probate Office in the City of Charlevoix in said County, on the 10th day of November, A. D. 1930.

Present: Hon. Ervan A. Rueggger, Judge of Probate.

In the Matter of the Estate of Minnie B. Keith, Deceased. Frank F. Bird having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the 4th day of December, A. D. 1930, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Charlevoix County Herald a newspaper printed and circulated in said county.

Ervan A. Rueggger, Judge of Probate.

ANCIENT PALESTINE CITY IS ALL JEWISH

Tel Aviv Most Remarkable Town in Old World.

Tel Aviv, Palestine.—This thriving city at the eastern end of the Mediterranean is singular in the world as the first all-Jewish city since the dispersion of the Jewish race in 70 A. D. In outward appearance Tel Aviv greatly resembles a prosperous California seaside town, but it is the economic and cultural center of the most modern political experiment—the attempt to establish a Jewish national settlement in Palestine.

Most Remarkable City.

From many viewpoints Tel Aviv is the most remarkable city in the Old World. The rapidity of its development is astonishing, judged by Old-world standards. The town was founded on barren sand dunes north of the ancient city of Jaffa in 1909, and the census of 1913 showed only 908 inhabitants. In 1919 there were 2,862 inhabitants, but today there are more than 40,000 and the city has outstripped its neighbor, Jaffa, which has existed since biblical times.

Other features of the first modern Jewish town are that the ancient Hebrew language is the official and generally spoken language; it is inhabited by Jews from about 40 different countries; it was the first local authority in the Near East whose council was elected by direct voting of the entire population and the first town to grant full woman's franchise.

Since the famous Balfour declaration in which England promised to facilitate the foundation of a national home for the Jewish race in Palestine, Tel Aviv has grown by leaps. In 1911 the area of the town was about 220 acres; today it is more than 1,400 acres.

Contrast Is Striking.

To the casual observer the busy streets and boulevards considerably resemble a newly built American boom city. The streets are thronged with well-dressed people, with shiny motor cars, mostly of American manufacture, and motor busses. The traffic policemen are dressed much like the summer uniforms of American policemen. The shops are bright and modern. The homes are either of the California bungalow type or flat buildings. Compared with the dirt and squalor of an Arab town like Jaffa, the contrast is striking.

Although there is a physical resemblance to an American town, the inhabitants differ from those of any other city in the world. Most of them have come to Palestine in pursuit of an ideal, which is the erection in the ancient home of the Jews of a modern Jewish state to constitute the focal point for a cultural revival of the Jewish race. One of the first stages which is being accomplished here is the resurrection of the Hebrew language as a living force.

Family Outwits Swarm of Bees in Week's Siege

Winnipeg, Man.—Driven from upstairs to downstairs and finally struggling to maintain their household in the kitchen, H. Bandy and family, who live on a farm near Birtle, Man., are recovering from a week's battle with a swarm of bees.

The bees flew in a week ago, making their first stop on the roof of the Bandy home. For some time they caused no trouble, but as their numbers increased they invaded the bedrooms, usurping beds and dressers. The Bandys retired to the rooms downstairs. They were forced to make their last stand in the kitchen when the bees followed them to the lower floor. Realizing the propensities for pursuit which bees have, the Bandys then retired into the open. Falling into the trap, the bees followed, and now the Bandy home is free of bees.

Corpse Is Thrown Out as Truck Hits Hearse

Newark, N. J.—A gruesome accident occurred as a funeral cortege was proceeding with the body of Mrs. Mary Sullivan to the Holy Sepulchre cemetery.

The hearse, hit by a heavy truck coming down a hill towards it, was rolled over on its side, the casket opened and the body thrown out into the interior of the hearse. It remained for drivers of other funeral cars following to extricate body and coffin and await the arrival of another hearse.

Postcard Travels 20 Years

Lewisham, England.—It took 20 years for a postcard mailed from Folkestone to reach this suburb, a distance of 70 miles.

Pilot Kills Self

by Plane Plunge

Paris.—Lieutenant Casterand, a French military pilot, has the distinction of being the first suicide from an airplane in France.

After warning his seventeen-year-old sweetheart, who had made up her mind to break off the engagement, that he would prove his love for her, he flew in an airplane to a height of 2,000 feet and then threw himself down at La Peyrade, South France.

TIP TWICE REFUSED OUSTS CUSTOMS MAN

Bill Slipped Into Pocket by Arriving Passenger.

New York.—Because a \$5 tip which he had twice refused was slipped into his pocket by an arriving passenger, Theodore Kessler, a customs inspector for 20 years, was dismissed from the service.

Kessler, who was popularly known on the New York docks as Teddy, is the first victim in a war declared recently by customs heads at Washington against graft.

Two other inspectors have been charged with bribes in connection with the smuggling of narcotics, but their case is still pending.

Three weeks ago Kessler was assigned to inspect baggage from the North German Lloyd liner Europa at the army base, Brooklyn. One of the passengers whose baggage he inspected was a Chicago man, who twice offered Kessler \$5 as a gratuity, which he declined.

The passenger good-naturedly slipped the tip into Kessler's pocket. The act was seen by A. J. May, an undercover agent of the Treasury department.

May searched Kessler and found the \$5. He instantly ordered a reinspection of the baggage. Nothing dutiable which had not been declared was found. The passenger admitted giving Kessler the tip.

A disciplinary board found the inspector guilty and recommended he be suspended 60 days. A commissioner of customs at Washington said that the verdict would not be accepted. Kessler was thereupon dismissed.

The speed of his dismissal, which usually takes from three to six months, shocked the customs service. Kessler entered the department in July, 1907, and was appointed an inspector three years later. He resides at 2921 Tilden avenue, Brooklyn.

New York Schools Cost Almost Million a Day

New York.—The daily cost to this city of educating the more than 1,200,000 pupils registered in the various divisions of the public educational system is now more than \$930,000. Figures computed on the basis of the annual statistical report of the board of education show that, at the present rate of increase in annual budgets, the cost of the school system for each of the 190 days of the academic year will rise to \$1,000,000 in a few years.

The school system total expenditures during 1929 reached a record figure of more than \$171,000,000. Expecting a possible increase in the capital outlays during 1930, it is estimated that the educational expense will rise by more than \$6,000,000 this year.

The cost of instruction proper was \$594,991 for each school day during 1929, and this year it is estimated to reach more than \$616,000. The daily expenditures of the system include, in addition to salaries of supervising and teaching forces, the average daily cost of supplies, physical maintenance of the school plant, its operation, the administration, business and general outlays, repairs and the per diem average disbursements for the construction of new buildings necessary by increased registration.

Fleet of Planes Attack Clouds, Break Up Storm

The Hague.—Sunshine or rain at will, in any desired quantities, were promised by the Dutch "rainmaker," Herr Vermaat, today after he led an attack by a fleet of airplanes on a bank of clouds over the North sea. The clouds were broken up and wiped from the skies. Herr Vermaat, with the co-operation of the Dutch war ministry, led five Fokker planes against the clouds about 12,000 feet up. The planes attacked the clouds with ice dust. After about 7,000 pounds of the ice dust had been strewn over the clouds they disappeared. Herr Vermaat plans to make experiments on a larger scale soon.

Gobbler Wants to Set on Eggs; Is Given Chance

Sharptown, Md.—A large turkey gobbler belonging to Mrs. Mark Cooper, near town, showed a great desire to set on eggs and each day would rout a turkey hen from her nest in the barnyard and take her place.

Finally Mrs. Cooper made a nest, placed some turkey eggs in it and put the gobbler on them. For four weeks he sat there patiently and at the end of that time was proud to find twelve baby turkeys. Two have disappeared, but the remaining ten follow the peculiar call of this proud gobbler and are growing fast.

Snap Shot Hits Gator; Ends Duck Mystery

Chelsea, N. Y.—The mystery of what has caused the continued disappearance recently of ducks in a lake on the Irving Bergen country place in New Hackensack, near here, was solved when an employee shot at an object he saw skimming over the water and found he had stumped a four-foot alligator.

Investigation showed the alligator had been brought from Florida, had escaped from a farm in the vicinity to a brook and from there reached the lake and began slaughtering the ducks. The alligator was captured.

NAPOLEON LEGEND HIT BY A SURGEON

Dr. Baudet Denies That He Had Epilepsy.

Paris.—The persistent legend that the genius and success of Napoleon were due chiefly to a condition of epilepsy has been vigorously attacked in a lecture recently delivered by Dr. Raoul Baudet, eminent French surgeon.

Reviewing the attempts of various physicians of the past to prove Bonaparte the victim of a malady that insured the maintenance of his uncanny energy and at the same time led him frequently to adopt the antics of a degenerate, Doctor Baudet scores the unprofessional inaccuracy of these medical historians.

He dwells upon the remarks of two diagnosticians, particularly Lombroso, celebrated Italian professor of criminal pathology at the University of Turin, who branded the French emperor as an epileptic and degenerate, and Dr. Cesar Juarros, a more recent and determined exponent of Napoleonic epilepsy.

Replying to charges made by both physicians that Napoleon's affliction was the natural result of a diseased ancestry, Doctor Baudet pointed out that no proof existed to sustain such a statement; as for the vague accusations to the effect that the emperor's father was a drunkard, his sister Pauline was a chronic hysteric and his mother sordidlyavaricious, the French surgeon takes definite exception. The father, he affirms, was a singularly temperate man and a student all his life. The sister's affliction he finds greatly exaggerated and the mother, forced as she was, to provide for eight children, only normally epileptic.

Doctor Baudet particularly scoffs at the paradox stated by Cesar Juarros that unless Napoleon had been an epileptic he would have died unknown.

Rat Army Reported Moving on Manchuria

Peiping, China.—From Harbin comes the report that an army of rats is marching through outer Mongolia apparently headed for north Manchuria on its way out from Yinsk, Siberia.

The report states that millions of rats are marching in disciplined fashion under the leadership of different "army corps leaders," and that they seem to know just where they are going. They stop only to gather enough food to sustain them.

Ancient Greek City Sought Under Sea

Sebastopol, Crimea, U. S. S. R.—An expedition has been organized here to search under water near here for an ancient Greek town believed to have been submerged by the shifting of earth strata.

Objects washed up by the Black sea at this point seem to support the theory which led to the organization of such an expedition.

President's Chauffeur Called "Safe Driver"

Washington.—Francis H. Robinson, President Hoover's chauffeur, who has been driving Presidents of the United States since 1910 without figuring in a single accident, was officially recognized by the Dayton (Ohio) safety council as a safe driver. The council sent Mr. Hoover a copy of its resolution commending recognition for his splendid record.

Dog, in Shaft 3 Weeks, Saved in Spite of Self

Wellston, Ohio.—Efforts continued for three weeks to rescue a dog that had fallen into an abandoned mine shaft failed, the dog retreating into the bottom tunnel each time would-be rescuers descended. At last somebody thought of taking another dog down. The trapped animal came out to meet its kind and was hauled to the surface.

Wheelbarrows and Toes for Endurance Tests

Paris.—The freak endurance craze has crossed the Atlantic and set a young Frenchman, Reynaud, of Havre, trundling around the country pushing a wheelbarrow, while the dancer, Mlle. Adrienne Paolis of Vienna claims the world's record for remaining poised on her toes. She claimed she remained thus poised for fourteen and a quarter hours.

Old Jefferson Clock Again Performs Duty

Richmond, Va.—The famous clock over the entrance to Monticello, the home of Thomas Jefferson, is running again, after being out of order for many years.

The clock has a double face, the hour being read both from the hall and from the terrace. Far out of the grounds, striking of the hour can now be heard as it was in Jefferson's time.

Among the recent sightseers was a jeweler who offered to put the clock in condition at his own expense. Because of his interest and labor this ancient timepiece once again performs its allotted duty.

Fruit-Tree Leaf-Roller Major Pest in Orchards

The fruit-tree leaf-roller was first noticed as a serious pest in New York state in 1911. Since that time it has increased in numbers and destructiveness, until it has become a major pest in many orchards. It is notable for its habit of becoming suddenly very abundant and injurious in a limited area while orchards a little distance away may remain untouched by it. During the next year or two it may suddenly appear in some other locality. Once established in an orchard it is likely to remain a stubborn pest until reduced by thorough control measures.

Two Men to Fill Silo Using Wisconsin Plan

With Wisconsin's "small crew" plan of silo filling only two men are needed. If the binder is equipped with a bundle elevator two loads may be cut and put on the racks without the hard labor of pitching the bundles by hand. The loads are then drawn to the silo and run through the cutter. A tractor or electric motor furnishes the belt power. Tramping is not necessary for keeping silage, recent experiments show, and in many cases this job has been eliminated. Neither is it necessary to have a man at the feed table of the modern ensilage cutter.

FARM NOTES

Producing sweet cream requires practically no more work or expense than sour cream, except for cooling and more frequent delivery.

Protein is the high-cost element in feeds and its use should be governed not only from a physical standpoint but from an economical basis as well.

At least one month before calving, the heifers should be put in the milking barn so that they can become accustomed to the barn and to the other cows before calving.

Without additional feed cows must call upon their body reserves to make up the deficiency. This means a loss of flesh and lowered milk production, often very quickly in the case of the very heavy producers.

Jim: Did you carry a stove on your camping trip?
Tim: Where do you think we cooked, on the mountain ranges?

MICHIGAN BELL TELEPHONE CO.

Give Mother an Extension Telephone for Christmas

A most welcome, and inexpensive, Christmas gift which Mother surely will appreciate, is one or more conveniently located extension telephones.

In the kitchen, for example, a telephone will enable Mother to place and answer calls without having to leave her work.

A telephone upstairs will save running down to answer calls. Mother will appreciate that convenience. (So will Dad on cold nights!) And, in emergencies, such as fire, sickness or accident, an upstairs telephone is especially useful.

Extension telephones cost only 2 cents a day. To place an order, call or visit the Telephone Business Office.

Visitor: What have you got all these clocks round the house for?
Scottish Host: Well, they say time is valuable.

Kind Old Lady—Do any of your friends ever come here to see you?
Prisoner—No, ma'am, they are all here with me.

Removing ink from wood. Make a mixture of equal parts of vinegar and linsed oil and shake well before using and apply with a soft cloth.

After frying fish, onions, or liver, put a little vinegar in the skillet, boil for a few minutes, and all odor or taste will be gone.

OF COURSE!

When you want to get down-town in a hurry, you don't sprint ten or twenty blocks in order to be there on time. You take an automobile or a street car, of course.

When you want to ask a question of a friend who lives a mile or so away, you don't walk to his house to find out what you want to know. You call him on the telephone, of course.

And so it goes—in all the affairs of your daily life. You take the easy, intelligent means of accomplishment every time.

When you want to buy a refrigerator or a car or a piano, you don't need to look all over town to discover the kind you want. You read the advertisements in your newspaper. They bring you all the facts necessary to decide just which refrigerator or car or piano will give you the satisfaction, how much to pay, where to buy it.

You buy through the advertisements because they save you time and effort. Because they enable you to command certain values. Because they assure you of getting reliable and economical products every time.

IT PAYS TO READ THE ADVERTISEMENTS

COLUMBUS DELUGED SELF WITH PERFUME

Not Explorer, but Salesman, Dr. Charcot Says.

Paris.—Christopher Columbus had freckles and a dimple in his chin, was a strict vegetarian, a 100-per-cent dry who drank only water flavored with sugar and orange flowers, and had the habit of sprinkling himself with perfumes, particularly attar of roses and odor of black currants.

That is the picture Dr. Jean Charcot, of the Institute of France, himself famed as an explorer in polar waters, has drawn of the hardy navigator after nearly a lifetime study of the history of Columbus.

In the opinion of Doctor Charcot, Columbus was not an explorer, but a traveling salesman, who had been sent often by the government to buy sugar in African Isles and to sell Spanish and Portuguese goods.

Didn't Even Swear. Doctor Charcot pictures Columbus as a kind father and perfect gentleman, almost saintly in character. He never swore, beyond an occasional oath "by San Fernando," and he knew nothing of the traditional vocabulary of seamen.

"Those who have twice attempted to identify Columbus have been foreing things a bit," Doctor Charcot says. "There were times when his intimate life was not exactly virtuous and there were times when his hand was heavy, but in all he was a clean, religious man. After four and one-half centuries we are just beginning to be able to draw a picture of what Columbus looked like.

"We know now that he was taller than average, had a long face and a long aquiline nose. His dimpled chin portrayed strength of character. His cheeks were like red apples, but his gray eyes were wells of emotion. His whole face was freckled, and by thirty his hair was gray.

"Columbus was one of the first vegetarians in history, living on fruits and vegetables, and he never drank alcoholic drinks. His folly for perfumes was his only bad habit, and it must have been disagreeable to share the ward room with a man who doused himself with attar of roses.

Just an Average Man. "He was, above all else, modest never having exaggerated opinion of himself. He did not even claim to be a savant, but he had a robust opinion of his own sea qualities. He was probably less perfect than his admirers picture him, and better than his detractors would portray him.

"Even if he had not discovered America, he would have gone down in history as the admiral who gave the hammock to ships, and ever since his day seamen have slept at night in that sort of bed."

Although thirteen different Italian towns, as well as Corsica, France and Spain have laid claim to being the birthplace of Columbus, Doctor Charcot is of the opinion that Columbus was born in 1452 in Genoa, an issue of the marriage of Domenico Colombo, a weaver, and Susanna Fontanarossa, and that he had three brothers, Giovanni, Bartolomeo and Giacomo, and a sister, Bianchinetta, who married Giacomo Batarrelli, a dealer in cheeses and sausages.

Indian, 60, and Worth \$150,000, Gives Up Tent Pawhuska, Okla.—John Stink, Osage Indian, has been persuaded to live under a roof. Stink is sixty years old and is worth \$150,000.

MAN, IN LIFETIME, SPENDS YEARS ABED

Sleeping Equipment, Therefore, Becomes Important.

Chicago.—What's the most important piece of furniture in the American home? The answer is practically unanimous—the bed!

Why? The bed sees more use than any other one piece of furniture. The average person spends eight hours each day in bed—56 hours a week, 240 hours a month, 2,912 hours a year, and, figuring a lifetime as 80 years, a total of 145,600 hours during a lifetime. Quite a period!

These statistics probably show why mankind, through the ages, has devoted so much attention to the task of making beds more comfortable, with each age witnessing a new improvement in sleeping equipment.

The first beds, if they may be called such, were nothing if not simple. It is related in a survey of the subject published at the American Furniture Mart here. Your caveman simply wrapped some covering about himself, laid down "as is"—and there he was, all ready for a night's repose. But the bed was one of civilization's first achievements.

Egyptians Had 'Em High. The Egyptians, it is believed, were the first people to get up in the world as far as sleeping was concerned. Their beds were so high a stool or a whole series of steps were required to climb into them. Calling out must have been a serious business. The beds were supported by long, curved legs, ending in clawed feet, graceful in design.

With the Persians, a bed must have been a complicated contraption. It is recorded that when Artaxerxes, a Persian, presented a bed as a gift to Timagoras, an ambassador from Athens, he sent along a whole corps of attendants, "skilled in preparing it for sleep." Just what these bed-mechanics did has not been disclosed, but their services were obviously considered essential and all part of the night's work.

The Romans, who divided all Gaul into three parts, as Latin students know, divided their beds into five classes: 1. the ordinary sleeping bed; 2. the reclining table couch; 3. the smaller lounge for rest during the day; 4. the high marriage bed; 5. the funeral bed, carried during a funeral procession. No explanation is offered as to why the marriage bed was higher than any of the others.

As time went on, beds varied greatly as to size and decoration, but their comfort steadily increased, as springs and mattresses were introduced and improved. During the time of Charlemagne beds were very simple and often made of bronze tubing, somewhat similar to the brass bed once popular in America. About the Thirteenth century, beds had increased in size and luxury and the custom of parking the marriage bed right out in the middle of the main hall at a wedding was introduced. Curtains, it may be added, were placed entirely around the bed.

Achieves Importance. During the Fifteenth century, the bed probably achieved the greatest importance of its career. It became an elaborate piece of furniture for display purposes and it was quite the thing to receive guests in the bedroom, even kings holding court receptions while reclining on the royal couch. At this time it was customary to suspend draperies and canopies from the ceiling, but later columns to support these decorations were built as part of the bed and from this beginning evolved the four-poster bed which still retains its popularity.

HUGE MAP READY IN FIFTY YEARS

Offers Relief Outline of U. S. and Canada.

Wellesley, Mass.—The largest map in the world, which will measure 69 feet from east to west and 45 feet from north to south, is being constructed here.

Conceived by Roger W. Babson, noted statistician, the work, a relief outline of the United States and Canada, was begun about five years ago. It is estimated that 60 more years will be required for its completion, and approximately \$2,000,000 will be expended on the project.

The map will be ten times larger than that of the Pan-American union which the government possesses. The latter is flat, whereas that being pieced together here will be of spherical form in exact ratio to the earth's curve.

The horizontal scale will be one inch for four miles. The vertical scale will be one foot for four miles, insuring that altitudes and depressions depicted will stand out prominently.

A gallery 15 feet high will encircle the map. Viewed from this, any section reproduced on the work will appear just about as it would if actually seen from an airplane at a height of 12 miles.

Not only will the topography of the United States and Canada be imitated with precision, but by elaborate color schemes, even landscape effects will be simulated as far as possible.

Every river, mountain, railroad line, city, and smaller community of the two countries will be traceable from the gallery. The painted desert of Arizona, the everglades of Florida, California's orange groves, the pasture lands north of the Rio Grande, and the ice-bound regions of northern Canada will be delineated.

The entire work will conform to data being furnished by the United States topographical survey.

Designer of U. S. Capitol Urged in Hall of Fame

Washington.—Charles Bulfinch, "the first American architect," and designer of the United States Capitol, has been nominated to the Hall of Fame by the board of directors of the American Institute of Architects. Summaries of the achievements of the early American designer have been sent to each elector of the Hall of Fame by the board.

"Few architects of today can boast of a list of such notable buildings as those designed by Bulfinch," says the board in its plea. It was stated that Bulfinch's record as a statesman during the formative period of Boston should be sufficient to elect the architect to the Hall of Fame as a statesman, if not as an architect.

Bulfinch was born in Bowdoin square, Boston, August 8, 1763. He died April 15, 1844.

A graduate of Harvard, Bulfinch became interested in designing work while attending to improvements on his father's and friends' houses. Later he was able to make an extensive tour of Europe, studying the types of architecture used in the old cities.

While serving as a selectman in Boston, Bulfinch inaugurated street lighting, the system of coeducation, establishment of a board of health, and a financial committee that brought about order and system in the method of collecting taxes.

In 1817, after completing his second term on the board of selectmen, Bulfinch was appointed architect of the United States Capitol in Washington. Among the many buildings designed by the architect are the Connecticut state house in Hartford in 1792, the first theater in Boston, five institutional buildings, ten churches, three hospitals, seven schools and seven commercial and bank buildings.

Long Skirt Blamed for Woman's Death by Coroner

London.—H. R. Oswald, a London coroner, presiding at the inquest on the death of Mrs. Sarah Stedman, said that the woman was killed because she had trodden on the hem of her long skirt and had fallen. He recorded a verdict against the ultra-fashionable long skirt.

Memory Expert. Denver.—Mrs. N. G. Peters would make a good instructor in a memory school. When a thief stole 21 phonograph records from her home she was able to give the song title on each disk, a total of 42.

FINDS NEW DATA ON THE FOURTH GOSPEL

Englishman Says John the Younger Wrote It.

London, England.—Evidence that the fourth gospel was not written by John the apostle, but by one of his disciples, John the younger, has been brought forward by Dr. A. Mingana, keeper of oriental manuscripts at the John Rylands library, Manchester, and has renewed a controversy among New Testament scholars which has been going on for more than 300 years.

Doctor Mingana says the statements which bear out his contention are contained in a Syriac manuscript which is relatively modern, being dated Saturday, September 23, of the year 2000 of the Greeks (A. D. 1740), but it is a faithful copy of a much older original which may be ascribed to about A. D. 750.

Doctor Mingana, who discusses the manuscript in a recent issue of the Library Bulletin, says he arrives at this conclusion from the nature and character of the Massoretic signs that the copyist reproduces in his transcription. The manuscript contains the Peshta New Testament of the East Syriac or Nestorian church.

Challenges Place of Writing. The manuscript also challenges the tradition that the fourth gospel was written at Ephesus or Patmos, the island of the apostle's banishment, on the eve of his return to Ephesus. In view of its statements, he says, the possibility of its having been written at Bithynia has to be considered.

At the beginning of it the following words occur: "The Holy Gospel of Our Lord Jesus-Christ according to the preaching of John the younger."

And at the end of the gospel itself appears the colophon: "Here ends the writing of the Holy Gospel according to the preaching of John, who spoke in Greek in Bithynia."

Doctor Mingana adds that, to his knowledge, the above statements do not appear in any other Syriac manuscript of the Gospels preserved in the British museum. In Cambridge, in the Vatican, in Paris, or among those of his own collection which have so far been catalogued. He feels confident that it will be worth while further investigating them, as they appear to represent a relic of an ancient tradition.

Expert Knows of Theory. The appendices discovered in his manuscript are, however, unknown elsewhere, he says. According to Jacob Leveen, assistant keeper of oriental manuscripts in the British museum, he has known for some time of Doctor Mingana's theory although he has not yet studied the manuscript.

"From photographs which I have seen of the pages in question," says Leveen, "it is clear that the manuscript is in an Eighteenth century hand, and I am not quite sure as to what Doctor Mingana is referring in ascribing it to an early original of the Eight century. In the reproduction which I have seen the colophon referred to appears in much fainter hand and this may have some significance. Certainly it will require very strong evidence to convince scholars of the Gospel texts that an Eighteenth century manuscript contains valuable new readings which had escaped the scribes of preceding centuries."

Robbers Work All Year On Job and Get \$10

Armonk, N. Y.—Twelve times during the last year attempts have been made to rob the Paramount garage here, according to police records, but always the burglar alarm has rung and frightened the miscreants away.

The other night the visitors apparently became exasperated and stole the burglar alarm, but after carting off the 150-pound apparatus they found only \$10 in the cash register. This, the proprietor of the garage said, is considered small pay for a year's work.

Cat Falls Three Floors; Only Scratches Chin

Poughkeepsie, N. Y.—Blackie, courthouse cat, has only a scratch on his chin to show for his three story fall from the county courthouse. Blackie was fully engaged in watching pedestrians below when the mishap occurred. He landed on all fours, but the impact was so great he struck his chin.

Firemen Now Equipped to Save Cows in Wells

Methuen, Mass.—A cow-rescuing outfit has been added to the equipment of the local fire department. It includes, among other things, an improvised derrick. The unusual equipment was obtained because of the large number of calls from farmers whose cows had fallen into wells.

"Disremembers" Her Age

Atlanta, Ga.—Laura Watson, negro cook who "disremembers" her age, has cooked for four generations for the same family using fireplace, coal-stove, gas stove and electric stove respectively. She was born in slavery.

Snake Takes Sun Baths

Lohmont, Colo.—Snakes have taken to sun baths. Dorothy and Doris Young, out on a picnic, ran across a rattlesnake so busy sunning itself that it refused to budge at their approach.

SALVAGING GERMAN FLEET EXPENSIVE

Six Years and \$2,000,000 Spent in Work.

London.—Eleven years ago the huge German fleet, still proud in defeat, rode the waves in Scapa Flow.

It was a pleasant sight to British admiralty eyes. The fleet had been hard. The spoils of victory would be sweet. Then suddenly one of the battle cruisers lurched forward and began settling into the sea. Others followed and before the astonished eyes of British seamen the fleet disappeared below the waves.

The Germans had opened the sea-cocks. They had scuttled their craft as a last act of defiance.

Offer is Accepted. After recovering from their amazement the admiralty officers turned their thoughts and energies to having the ships salvaged.

Veteran shipping men and others contemplated the task, but made no bids. Year after year the ships lay snugly in Davy Jones' locker. When the admiralty had all but abandoned hope of realizing on their victory, E. F. Cox, in his late thirties, made an offer. It was quickly accepted.

Then Cox began a task which has been watched with interest by the shipping world because of the many difficult obstacles that lay in the path of success. Gathering around him some of the best engineers and divers in Europe, Cox directed the work to date, and has resulted in bringing to the surface, later to be junked, three battle cruisers, one battleship, one light cruiser, and twenty-five destroyers.

Although he knew comparatively little about salvage operations, Cox realized he needed more than the usual equipment and purchased the submarine floating dock the Germans had used, which he used in raising the destroyers.

One of the most difficult tasks in the entire operation, it is said, was that of closing all deck and hull apertures left open when the fleet was scuttled.

Determination Wins. Cox's determination was displayed while attempting to salvage the battle cruiser Hindenburg, weighing 28,000 tons. After months of hard work it had been raised to the surface, but developed a dangerous list and had to be dropped back again to the ocean floor.

Later, in order to counteract this list, Cox's workmen built onto the Hindenburg's side a block of concrete weighing 9,000 tons. On being refloated she developed a starboard list. Once more the cruiser was dropped and another concrete block was built. This done the Hindenburg floated.

Six years have passed since Cox began his operations. His firm has spent to date more than \$2,000,000. The profits are not known.

Sun Fires Tar Barrel, Blast Maims Worker

Minneapolis, Minn.—Thrown skyward when a tar barrel on which he was standing exploded in a freak blast, Clifford Palm, employee of a sheet metal company, suffered two broken legs.

Palm was standing on the barrel in order to reach a weld spot, working with a torch. The barrel, empty of tar except for that clinging to its sides, stood in the sun. The heat of the sun created fumes and gases filled the barrel.

A spark from the welding torch probably ignited the gases, which caused the explosion.

Outcrop of Gold Ore Is Found on Virginia Farm

Staunton, Va.—Gold mining in the Shenandoah valley, though never practiced extensively, may be revived if ore deposits on a grazing farm, five miles east of Elkton, owned by John A. Hensley, are found in sufficient quantities to make profitable the mining of the mineral.

According to reliable information, an extensive outcrop of gold ore, the first deposits found about a year ago, has been discovered on this farm, and after being assayed by government chemists is found to constitute a high-grade sample of the metal.

Fire Breaks Out While Arson Jury Is Examined

Preston, Idaho.—While officials were choosing a jury for the first arson case tried here in 35 years, fire started in the Preston Chamber of Commerce rooms, where the temporary courtroom was established. Spectators and prospective jurors were driven hurriedly from the building, and the flames raged for an hour before they were extinguished. The court had to be moved elsewhere.

Dried Pig Stomach a Cure for Anemia

Paris.—The stomach of a pig, dried and pulverized, has been found to be an effective treatment for pernicious anemia.

Kidney Aids Break Sleep

If Getting Up Nights, Backache, Frequent Day Sleep, Loss of Appetite, Irritation of Bladder, Irritation in acid conditions, makes you feel tired, depressed and discouraged, try the Glycerin Works fast, starts circulating thru the system in 15 minutes. Praised by thousands for rapid and positive action. Don't give up. Try Glycerin (pronounced Glee-tex) today, under the Iron-Clad Guarantee. Most quickly slays these conditions, improves restful sleep and energy, at money back. Only 80c a bottle.

GIDLEY & MAC, Druggists. Salesman: "Something in golf apparel, Madame?" Fair Purchaser: "I would like to see some handicaps, large size, please. My husband said if he'd had a big enough handicap he'd have won that golf tournament."

ON THE OCCASION OF THANKSGIVING DAY

We extend to the people of this community our heartfelt thanks for their patronage and loyalty, and we hope that each home will have equal cause for thanksgiving and happiness.

Certainly if the Pilgrim fathers found cause for thanksgiving in their meager harvest, we of this age would indeed be ungrateful if we did not "say grace" for the countless blessings we have received.

Briefs of the Week

Benj. L. Severance left Tuesday for treatment at the Howell Sanitarium.

Mrs. A. L. Hilliard left Wednesday for Lansing where she plans to spend the winter with her daughter.

Theodore Zoulek of East Jordan has been granted a patent on a hand implement for planting potatoes.

The American Legion Auxiliary will hold a Bake Sale at Goodman's Hdwe. Saturday, Nov. 29th. adv.

Mr. and Mrs. G. A. Lisk and son, Paul, are spending the week end at Pontiac and Rochester with relatives.

Lyle Smith is home for a visit with his parents, Mr. and Mrs. Roscoe Smith. Also Miss Olive Leture of St. Ignace.

The Presbyterian Ladies Aid will hold their annual Chicken Pie Supper and Bazaar at the church parlors, Thursday, Dec. 4th. adv. 2t

Mrs. F. M. Bardon and son, Ben, and Mrs. John Severance of South Haven, spent the week end with Miss Agnes Porter and other friends in East Jordan.

Jett Smith of South Arm township and Russell Pegg of Cadillac returned home last Saturday from the Upper Peninsula, where they both secured a fine deer.

The Michigan Public Service Co., announce that material is arriving and that work will soon start on the East Jordan-Ironton electric light and power extension.

The best sleigh assortment in town at Malpass Hardware, also snow shovels, skates, skis, toboggans, etc. New cow hide fur coats now \$35.00, used ones \$16.50 up. adv.

We are closing out our entire stock of Children's wear, consisting of Dresses, Coats, Sweaters, Suits for boys and girls. Also Men's Sweaters, Ties and Socks, at Ramsey's. adv.

The Home Management Club of South Arm township will meet at the South Arm Grange Hall, Thursday, Dec. 4th. Pot luck dinner at noon. Visitors welcome.—Hattie Murphy, Sec'y.

Wood For Sale, either block or buzz. Wm. Richardson. adv.

If troubled with headache, dizziness, nervousness or any other symptom of eyestrain, consult Dr. Leahy, the Optometrist when he comes Wednesday, Dec. 3rd, at the Russell Hotel, East Jordan. Glasses guaranteed to fit. adv.

Six by nine new Linoleum Rugs at \$2.95 at C. J. Malpass Hdwe. Co. ad.

Mrs. Emma VanDeventer, a former resident of East Jordan, passed away at St. Agnes Hospital in Baltimore, Sunday, Nov. 16th. Miss Emma Cucher was born in Wisconsin about 60 years ago. She is survived by three daughters, Mrs. John Shiers of Wisconsin; Christina and Glyde, of Detroit. Also by her stepmother, Mrs. Emma Zess of East Jordan. Funeral services and interment were held at Baltimore.

Fifty Stoves for sale cheap at C. J. Malpass Hdwe. Co. adv.

Mrs. Elizabeth Burley, past 94 years old, passed away at the home of her daughter, Mrs. Eugene Raymond, in Wilson township, Monday morning, Nov. 24th. Death was due to old age. Mrs. Burley was born in Ireland, but has been a resident of Charlevoix County over 53 years. She is survived by three children, Margaret Boak of Valsity, Oregon, Mrs. Ellen Raymond and Wm. Saunders of Wilson twp. Funeral services were held Wednesday afternoon at the Afton Grange Hall. Interment at the Todd cemetery.

For Bargains call at Ramsey's. ad.

Funds appropriated by Board of Supervisors from Michigan's 83 counties show that one more Agricultural Agent will be available for farmers of the State during the next year but that there will be one less home demonstrator agent and two less club agents. A tabulation of votes in each county gives the information that 1317 supervisors voted in favor of the appropriations and 119 voted negatively. Lapeer and Barabara counties, in which agents have not been employed recently, voted favorably; while Livingston failed to vote funds to continue its agricultural extension program.

Don't freeze—trade your open car for a coupe or sedan at C. J. Malpass Hdwe. Co. adv.

Because he removed a red jacket without the knowledge of his deer hunting companion, William Sellman, Manistique commercial fisherman, may die of a bullet wound in the head, accidentally inflicted by his companion. Sellman was shot at Duck Creek, north of there last week by Earl Malcow, of Manistique. Malcow mistook Sellman for a deer. Malcow explained to police that when he and Sellman entered the woods together, Sellman was wearing a red jacket to eliminate chances of being shot. He apparently removed the jacket afterward, exposing a tan shirt.

The East Jordan Study Club meets with Mrs. L. G. Balch, Tuesday, Dec. 2nd.

Miss Maggie Colter left Tuesday for a visit with friends in Grand Rapids.

All kinds of log and pleasure sleighs at C. J. Malpass Hdwe. Co. adv.

Miss Lucille Ramsey of Cadillac is visiting at the home of Mr. and Mrs. Harry Simmons.

Mr. and Mrs. Charles Hayner of Flint spent the week end here with friends and relatives.

Ladies' Coats up to \$59.50, now \$4.75 to \$12.75. Hats, \$1.00 to \$3.00, at Ramsey's. adv.

Mr. and Mrs. R. G. Watson returned home Monday from a visit at Indiana and other points.

Mr. and Mrs. M. Mathers and two children of Mt. Morris called on former acquaintances here Saturday.

Get the habit—tell the Editor of your visitors of the visits that you make or other items of local interest.

Mr. and Mrs. Frank Votruba of Traverse City were here last Friday, guests of Mrs. J. J. Votruba and family.

Mrs. Charles Nowland and niece, Pauline Nowland, left Saturday for Muskegon to join Mr. Nowland and make their home for the winter.

Mrs. Alfred Williams and son, Clare, accompanied Mr. and Mrs. George McMullin of Ironton to Lake Helen, Florida, Monday, where they will spend the winter.

Anson Hull of Boyne City and Mrs. Martha Streiter of Boyne Falls were united in marriage at Potoskey Wednesday, Nov. 19th, by Rev. Kruse. They are residing in East Jordan.

Wednesday, Dec. 3rd, is the date when Dr. Leahy, the Optometrist will visit East Jordan for the last time this year. Office at the Russell Hotel. adv.

The Indoor Golf Course will be open on Thanksgiving afternoon and evening, which will afford a pleasant kind of recreation after the turkey dinner.

To former East Jordan residents at Detroit: I am in the Piano Tuning business and would like your patronage. My price is \$3.00. All work guaranteed. L. C. Barlow (a former East Jordan resident) 5408-14th St., Detroit, phone Garfield 0831-J. adv.

James A. Goodman, city clerk at Negaunee, is getting a reputation on the Upper Michigan Peninsula for holding perfect or near perfect bridge hands. Goodman's latest called for a bid of seven no trump. He held four aces, four kings, four queens and the jack of diamonds. It was the second time in a few weeks Goodman had held such a hand.

The Five-County Rural Letter Carriers' Association and the Ladies Auxiliary met at East Jordan Saturday night, Nov. 22nd, with about 50 members present from Emmet, Antrim, Otsego and Charlevoix Counties. A six o'clock supper was served at the Masonic Hall, following which a social hour was enjoyed. The Ass'n and Auxiliary plan to meet at Belaire, Dec. 6th.

This is the time that deer hunters kill deer and each other, and shoot at nearly everything that moves. Harold Sage was here from Onaway and he told of an Onaway youth, W. G. Manning, who went hunting for the first time. He saw an animal and shot it dead on the first discharge. Walking up to attach his license however he found he had killed a cow. It cost him \$50 to settle with the owner.—Cheboygan Tribune, Nov. 20th.

The minstrel play given by the Walker school children and four young men from East Jordan last Friday night at the Walker schoolhouse was quite a success and well attended by people from East Jordan and Charlevoix. Burl Walker made a very stylish colored lady. The doctor's part was interesting, but was real severe in their treatments to their patients. Everyone had a good time and enjoyed a good laugh. Buns and coffee were sold at the close of the program.

Alfalfa mixed hay for sale at C. J. Malpass Hdwe. Co. adv.

Seth Caldwell, president of a tile and marble company at South Bend, Ind., found deer hunting in Michigan more expensive than he had planned. In obtaining a license he gave a local residence, thus getting a license for \$2.50, whereas it would have cost him \$50 as a non-resident. The trick was detected, however, and Caldwell arrested. Fines and costs when he pleaded guilty to a perjury charge at Kalamazoo amounted to \$225.40. He was placed on probation for two years.

A poor man's favorite load is a large family of children. The clockmaker is judged by his works. He also has a good memory for faces.

WATER TAX NOTICE!

Water Taxes for the City of East Jordan are due Nov. 1st, and payable during the month of November at my office in the Russell Hotel.

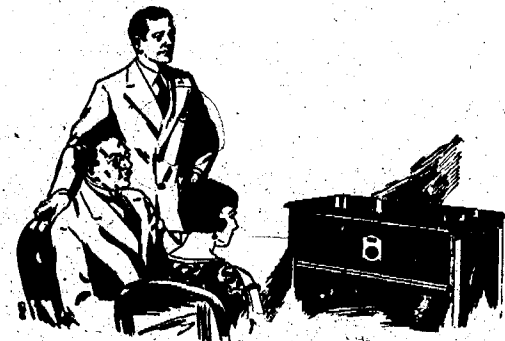

Oh, Papa!
Freddy—Mamma, does papa kiss our kitty?
Mamma—Why, no, Freddy. What makes you ask such a question?
Freddy—Well, this morning when I passed the maid's room I heard pap tell her that she was ten times better than kissing the old cat.

Violently
"And is your daughter happily married?"
"Yes, rather! Her husband is scared to death of her."

Asked: "Are you saving any money since you started your budget system?"
Wiseby: "Sure. By the time we have balanced it up every evening it's too late to go anywhere."

LIBRARY

The library class is still meeting every Tuesday morning. The library class have been set to work in helping make ready the new books to be put into circulation. We feel everyone will receive many hours of enjoyment from them.

—Margaret Bayliss

FARM CROPS

In this class they have just finished the study of bean growing. They are now learning how the fertility of the soil can be maintained. They have found that the following things do most in maintaining the fertility of the soil:

1. Rotation of crops.
2. Planting legumes to maintain a supply of nitrogen and organic matter.
3. By using commercial fertilizers

INTERESTING EXPERIMENT

The Soils class has just completed an experiment on the rise of water in different soils. They found that the finer the soil particles the higher the water will rise. They stacked a drain out on the football field and through it several points were made clear, which before had been rather hazy mists in their minds.

This class has also just completed the study of the different farm machinery and their uses and necessity on a farm.

WHAT A HORRIBLE SUBJECT

The Zoology classes have just finished the study of snakes, crocodiles, lizards and turtles. Whether they have enjoyed it or not, they now know all about these animals. Soon they will be studying about the larger animals which will most likely be more interesting.

—Ruth Stallard

CURRENT EVENTS IN THE DEBATING LEAGUE.

Petoskey and Alba have decided to drop out of the debating league so now the sides are even and because of this decision on Alba's part we missed a good debate Friday the 21st. Since it was forfeited to us. The scene of the next battle will be laid right here so we may all be present and the time is Dec. 12th. The main characters are the East Jordan team and the Cheboygan team, one of our oldest and strongest enemies. Let's all be patriotic and help our courageous soldiers win the victory.

Some interesting posters were handed in for Book Week. Alba Brook's drawing of an old man sprawled leisurely in an easy chair dreaming of the adventures he had had while reading books in his youth was very good, and Phyllis Woerful had a good one. "A home without books is a home without windows," was Harold Bigelow's slogan and his drawing fitted it real well. Ruth Stallard also had some good material. Miss Perkins said that the themes were very good too but she didn't go into detail.

—Henrietta Russell

GRADES

Second Grade—The children have been interested in the Pilgrim stories which their teacher is telling them, and they are now learning Thanksgiving poems.

Third Grade—There are five new books on the library table. Helen Sturgill won the girl's prize for National Book Week, and Francis Justice won the boy's prize.

The third graders are preparing a program for Thanksgiving Day and one student has written a story about the new picture.

Fourth Grade—The A students in spelling this week are: Albert Clark, Marie Essenburg, Richard Saxton, Betty Sturgill, Jane Ellen Vance, Elaine Collins.

The fourth graders are preparing a Thanksgiving program for Wednesday. They will have stories, poems, songs, etc.

Fifth Grade—The following fifth graders had 100 in spelling for November: Anna Jean Sherman, Helen Trojanek, Jean Stroebel, Kathryn Kitman. Many others had high marks also.

The West Side fifth grade visited here Friday. They had a "spell down" which they were unable to finish because of lack of time.

The fifth graders are making a Pilgrim home. The boys are making the log cabin and the furniture, while the girls are making rugs and other household articles, and dressing the family.

During Book Week the children brought books from home and they have started a Fifth Grade Library.

During the month of November the fifth grade received six new pupils. They are Max Kamradt, Wilbur Crouterfield, Billy and Leon Dunson, LaVera Trumppour, Thelma Klooster.

Sixth Grade—Ruth Sturgill and Jane Davis had 100 in spelling for this month. Three pupils had 100 in arithmetic and twelve had 100 in

spelling last week. The class are making a collection of evergreens which they will name and mount. They are now making a map of the cities and waterways of Europe.

The B section in reading are making special improvement. The sixth are studying a little of astronomy and so far they have taken up the constellation of stars.

—Christine DeMaio

Self-Confidence

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

The story is told of Theodore Roosevelt—I do not vouch for the accuracy of it—that when he arrived within the pearly gates he found a good deal of confusion extant regarding the musical program. The angelic voices were being tested with the result that there seemed to be an adequate showing of altos, sopranos, and tenors, but there was a woeful shortage in bass voices. Mr. Roosevelt, to whom the matter was referred, at once solved the difficulty.

"I'll carry the bass myself," he said, with modest self-assurance. In life he had never seemed to hesitate to meet an emergency no matter how critical, so why not later?

I watched Jimmy at the baseball game yesterday afternoon. Jimmy is rather undersized physically, but he knows his baseball and he knows that he knows it. He never hesitates and looks toward the bench to catch the signal as to what he should do next. He keeps his eye on the ball; he knows just when to steal second—and what is more to the point—how to do it. He knows that if he gets the pitcher sufficiently "up in the air" he can even slide home. He has perfect self-assurance, perfect control of himself, and I have never yet seen him get caught. It will be a great asset to him when he gets out into the world—this self-assurance—if he does not overdo it.

The story is told of the late Governor Beveridge of Indiana that when he was a freshman student at DePauw university he made application to the president of that institution for a loan of two hundred and fifty dollars. It was a pretty large sum in those days, and loan funds were not unlimited. The president hesitated.

"How do you propose to pay the money back?" the president asked.

"I have been looking through the catalogue," Mr. Beveridge said, "and I see that there is a total of three hundred dollars in prizes offered for excellence in oratory and debating. I propose to win these prizes, and if I do, I shall have fifty dollars to the good after paying my obligation to the college."

The president was stunned for a moment, but he recovered himself shortly and agreed to approve the loan, and the record shows that Mr. Beveridge won the three hundred dollars, paid his obligation to the college, and had fifty dollars balance to spend as he liked. It was possibly an inflated self-assurance, but he capitalized on it successfully many times during a long and successful life.

It is a good thing to believe in yourself. One can have too much faith, it is true, but too little is worse. Howe has good training, a strong healthy body, and a first-rate mind, but he finds it hard to get a job, and he cannot hold one. The only reason is that he loses his nerve, he doesn't believe in himself, and so no one else does.

The World of Fashion Is Again Sleeve-Conscious

From sleeveless to sleeved is the message which comes to fashion's followers in accents loud and clear. Afternoon frocks especially are elaborately sleeved. Accent is placed on full-below-the-elbow types either embroidered or beaded as pictured. This is a black satin gown, for interest in satin is revived for both day and evening wear.

Why is it that people who boast of their ancestors have so little to say about their children?

Dry Stack of Hay or Grain Artificially.

Excess Moisture Driven Out by Means of Blower.

At a conference held at Purdue university, Indiana, the matter of drying hay or grain artificially was discussed by W. C. Aitkenhead of the department of agricultural engineering. He explained that a stack of hay or grain can be artificially dried in from five to ten hours, depending upon the size of the stack and the amount of moisture contained in the material, by means of a tractor-driven blower forcing air, heated by an oil burning furnace, into a hollow centered stack of hay or grain. He told of having driven out excess moisture from stacks at a nominal cost. The heat was generated by the burner and forced through the stacks together with all the gases of combustion. This was made possible by placing a spark arrester between the furnace and the blower.

Corn in a crib, he explained, can be dried with the same sort of equipment, if a passage for the air is provided through the corn. It was suggested that by drying hay containing a considerable amount of moisture, one can frequently avoid a lot of trouble. This is especially true of the season's first alfalfa crop, which is cured during a time when we normally have a good deal of rain.

Factors in Economy of Producing Good Swine

Swine producers living in the same community usually get about the same price for their hogs. Some swine producers make more money from a given number of hogs than do others even on the same selling price basis. The difference is in the costs of production.

We have a report from an Iowa hog production study in which 15 farmers averaged to produce hogs for \$6.10 a hundred over a period of three years, says a writer in an exchange. In the same county were 15 other farmers whose costs averaged \$14.02 a hundred for the same period of time.

General conditions of climate and available feeds were about the same for both groups. Feeding methods, sanitation, ventilation, diseases, parasites, and death losses were large factors in determining costs of production. Of these, the lack of sanitary management in its relation to the control of parasites and diseases was one of the largest factors contributing to high costs.

Dry Rendered Tankage Holds Much Protein

A method of manufacturing tankage by what is known as the "dry rendered process" has been developed within recent years. The dry rendered tankage made by this process has a pleasing rather than a disagreeable odor, and is lighter in color than the ordinary steam rendered tankage. Up to the present time practically all the dry rendered tankage produced has been mixed with bone in the manufacture of meat and bone scraps for poultry, but it is claimed in time all but about 5 per cent of the tankage will be made by the new method. Since water, which washes out some of the ammonia, is not used in dry rendering, the tankage produced contains more protein than does steam rendered tankage.

Paralysis of Ewes

Paralysis of pregnant ewes is not common in range ewes because they do not usually get as fat as the ewes kept on farms and in small bunches. Where small flocks of ewes are kept they may get too fat even though they live only on the waste feed that they pick up about the place. When this condition starts in a flock the amount of feed should be cut down and if the ewes are constipated they should receive a dose of epsom salt's

FARM NOTES

Horses and sheep when grazing alfalfa injure the stand more than do other animals because they bite off the young buds at the crown.

A good ration to feed the cockerels is essential if they are to get to market in fewest possible days. A good growing mash should be before them at all times.

At the South Dakota station millet seed was successfully fed to cattle, sheep and hogs, but more grain was required to make 100 pounds gain than when corn was fed.

It is a mistake to crowd 200 pullets into a house sufficiently large for only 100 birds. From three and one-half to four square feet of floor space should be allowed for each bird.

Every precaution should be taken to prevent stagnant pools from forming on the poultry range. These areas often are contaminated and become breeding places for flies and mosquitoes.

Any change in feeding and management of pullets should be made before production starts. Pullets beginning to lay without sufficient size and weight are likely to quit and molt soon after production commences, college specialists say.

SEVERE COUGHING SPELLS QUICKLY ENDED.

Distressing coughs can not tire out and weaken you this winter if you take genuine Foley's Honey and Tar Compound. Each dose carries the curative balsamic virtues of pure Pine Tar, fresh demulcent Honey, together with other valuable cough-healing ingredients, into direct contact with the irritated throat surfaces, ending the distressing coughs. Sedative and comforting without opiates or harmful chloroform, mildly laxative. Dependable for coughs, tickling throat, croupy and bronchial coughs, and troublesome night coughs. For Sale at Hite's Drug Store. adv.

POTPOURRI

Size of Planets

Mercury, the smallest planet, is one-eighteenth the size of the earth, while Jupiter, the largest, is 1,200 times bigger than the earth. In the order of their distances from the sun, the planets are Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune. Saturn, Mars, Jupiter and Venus are easily seen with the naked eye.

Can't is a longer word than can, but it seems easier to use.

Wife, Gas, Seize Man in Dead of Night

"Overcome by stomach gas in the dead of night, I scared my husband badly. He got Adlerika and it ended the gas."—Mrs. M. Owen.

Adlerika relieves stomach gas in TEN minutes! Acts on BOTH upper and lower bowel, removing old poisonous waste you never knew was there. Don't fool with medicine which cleans only PART of bowels, but let Adlerika give stomach and bowels a REAL cleaning and get rid of all gas! GIDLEY & MAC, Drugists. adv.

No man should play a practical joke unless he is a good loser.

GOOD NEWS TRAVELS FAST!

BAD NEWS used to have the reputation for speed. But such is the demand for the good things of life today that good news travels even faster.

The carriers of many of the good tidings that every one is eager to hear are right before you. They are the advertisements in this newspaper. They bring good news about soap and cereals, sedans and cigarettes. Good news for the housewife. Good news for the business man. Good news for every one who believes in comfort and happiness.

Let an automobile maker in Detroit or an orange grower in Florida develop a finer product. You will hear about it—not in a couple of years, not just 'some time.' The whole new story will be rushed to you on the wings of the greatest good-news service in the world—advertising.

Advertisements are filled with the kind of good words you like to find. They tell you of new products, new improvements in well-known merchandise, new values and new ways to increase your well-being. And always they tell you not only where and how to purchase goods of assured merit, but also the way to be certain of obtaining 100 cents' worth of value for every dollar you spend. Read them—and get their good news regularly!
