

Charlevoix County Herald.

VOLUME 35

EAST JORDAN, MICHIGAN, FRIDAY, JANUARY 2, 1931.

NUMBER 1

Extending Line To Ironton

MICHIGAN PUBLIC SERVICE CO., INSTALLING EAST JORDAN-IRONTON LINE.

The Michigan Public Service Co., have a crew of men at work installing a 6900 volt transmission line from East Jordan to Ironton.

The new line is about a ten-mile extension. It runs along the west side of the South Arm of Lake Charlevoix from East Jordan to Ironton, crosses the channel at the latter place and runs about a mile on the east side.

This new line will serve a large number of rural and resort residences in this territory.

There are between 50 and 60 men engaged in this work, consisting largely of four trucks and crews. It is estimated the work will take from two to four weeks for completion.

WEBSTER-CLARK

A pretty wedding was solemnized Wednesday afternoon, Dec. 24th, at four o'clock, at the home of Mr. and Mrs. B. I. Webster of Big Rapids, when their granddaughter, Dorothy, daughter of Mrs. Roy E. Webster, was united in marriage to Ralph L. Clark of East Dearborn, son of Mr. and Mrs. E. H. Clark of East Jordan.

The bride entered the room in which the ceremony was performed to the strains of Lohengrin's Wedding March played by Mrs. Henry Liddicoat. She was attended by her sister, Miss Evelyn Webster. Harold Clark, brother of the groom was his attendant. Little Miss Pauline Anderson was the ring bearer. The ring was carried in a colonial bouquet. The Rev. Henry Liddicoat performed the ceremony.

Appropriate Christmas decorations of red and green were used throughout the house.

The bride was gowned in a dress of ivory satin and wore a bridal veil. She carried a shower bouquet of Ophelia roses. The bridesmaid wore yellow satin and carried an arm bouquet of roses. The ring bearer was daintily gowned in lavender.

Following the ceremony a wedding dinner was served. After the dinner, Mr. and Mrs. Clark left by motor for the north where they will visit at the home of Mr. Clark's parents at East Jordan before going to their home at East Dearborn.

Out-of-town guests who attended the wedding were: The Misses Bertha, Ruth, Esther and Pauline Clark of East Jordan; Harold Clark of East Lansing; Mr. and Mrs. Jasper Stalard of East Dearborn; and Delbert Long of Kalamazoo.—The Big Rapids Pioneer.

Detroit—Belle Isle has increased its value exactly 21,500 per cent since its purchase by the City for \$200,000, the annual report of Howard C. Wade, City controller, shows. The report lists the present worth of the island at \$43,996,400. The total assets of the City are \$742,202,685 and the "net worth" over and above all debt, \$359,862,824, the report states. There are at present bonds outstanding totaling \$203,185,201. School buildings and their sites are valued by Mr. Wade at \$92,999,160.

Detroit—Announcement of a new airplane passenger service between Detroit, Chicago, Toledo and Cleveland, with 12 airplanes leaving daily and with the fare as low as regular passenger train rates plus Pullman surcharges, was made in Chicago by E. L. Cord, president of the Cord Corporation. The Municipal Airport at Gratiot and Connors avenues will be the Detroit terminal and fast express buses are to carry passengers from the airport to downtown hotels. Trimotored Stinson planes will be used.

Mt. Clemens—The Mt. Clemens Sugar company has decided to begin full-time operations of its plant in the manufacture of cane sugar. With the seasonal beet sugar operation drawing to a close, William M. Strait, mayor of Mt. Clemens and manager of the company's plant, announced that one million pounds of raw sugar cane from Cuba has been ordered. Results of the plant's operations with this initial order will determine whether or not continued manufacture with cane as the basis will be continued.

Lansing—Agitation for an increase of the salary which Michigan pays her governor, has followed the election of Wilbur M. Brucker, who will be the first chief executive in recent years dependent on the checks he receives from the State. Brucker owns a home in Saginaw, and that is about the extent of his private fortune. Since coming to Lansing he has occupied a rented, six-room house in East Lansing, for which he pays \$60 a month. He will continue to live there after his inauguration as Governor, for Michigan has no executive mansion.

MANY FARMERS KEEP COST ACCOUNT BOOK

A total of 1,178 farmers living in 40 Michigan counties started last year with a definite attempt to find which of their farm enterprises were most profitable and also the total gain or loss on their business for the year, according to members of the farm management department of Michigan State College who helped these men in keeping their cost accounts.

In addition to this group, 2,000 other farmers bought the special account book prepared by the College for the use of Michigan farmers and these men undoubtedly keep quite accurate records of the year's transactions. Keeping the books up to date takes only a few minutes each day and gives the bookkeeper an unquestionable check on each crop and for each class of livestock.

Four more counties, Berrien, Jackson, Mecosta, and Emmet will be added to the 40 in which the specialist from the College will give direct assistance with the account books in 1931. In the other Michigan counties, the county agricultural agents will help any farmer start a set of accounts.

The books themselves are printed by the College and are sold at cost through the county agricultural agents or by the farm management department.

The College department suggests that the beginning of the year or some time before the beginning of the busy season is an excellent time to take a farm inventory and to start an accurate record for the new year.

MRS. JOHN HELLER WAS RESIDENT HERE FOR FIFTY YEARS

Mrs. John L. Heller passed away at the home of her son, Karl Heller at Elk Rapids, Mich., Thursday, Dec. 25th, 1930, following an illness of two years' duration from pernicious anemia.

Elvena L. Cook was born at Lockport, N. Y., August 19, 1867, her parents being Christopher and Elizabeth Cook. She came with her parents to Charlevoix County in 1880, locating near East Jordan. On March 31, 1887 she was united in marriage to John L. Heller at East Jordan. Mr. Heller passed away Sept. 1st, 1929.

Deceased is survived by two sons, Clifton Heller of East Jordan and Karl Heller of Elk Rapids, and a grandson, Clayton Heller. Also by a sister, Mrs. J. M. Cuson of Lansing, and three brothers, Frank and Henry Cook of East Jordan, and Walter Cook of Montague.

Mrs. Heller was a member of Peninsula Grange. The remains were brought to East Jordan and funeral services were held from the home of her son, Clifton Heller, Sunday afternoon, Dec. 28th, conducted by Rev. C. W. Sidebotham, pastor of the Presbyterian Church. Interment at Sunset Hill.

Lansing—Michigan now holds title to 693,475 acres in state forest lands, an increase of 231,171 acres over the figure for the end of the fiscal year 1927-28.

Monroe—Emery Cluckey, 37 years old, of Port Huron, was seriously injured and his wife, Elva, 32, and their six children, ranging from 2 to 14 years old, suffered minor injuries when their automobile was struck by a New York Central motor train at the Telegraph road crossing here.

Marquette—Plans for the construction of a new \$1,800,000 steel and concrete iron ore dock in Marquette harbor were announced by Duluth, South Shore & Atlantic Railway officials at a meeting of the city commission. The railroad asked permission to use Maple street, a block long, for the site of a trestle. Action was deferred.

Sturgis—After sifting five bushels of ashes daily for two weeks, Joe Wood has recovered one of two diamonds thrown into the furnace at the E. C. Harters home here. The gems in an envelope were thrown away with waste paper. The diamond recovered is worth \$600. Wood is still sifting ashes with hope of recovering the other gem.

Holt—Fire destroyed the Central M. E. Church with a loss estimated at \$12,000. Fire-fighting equipment was called from Lansing, Dimondale and Mason when the blaze threatened the business section of the village. The church was built in 1876. A rehearsal for a play was held at the church and fire was believed to have started from an overheated furnace.

The Reason Why
"My car hasn't a dent in it."
"Oh! Have you just bought it, or doesn't your wife drive?"

The New Cop

State News in Brief

Escanaba—A mother and her two children drowned when their automobile crashed through the ice and sank in 30 feet of water in Little Bay de Noequette. They are Mrs. Elmer Klassel, 32, a son, Eugene, 13, and a daughter, Betty Jane, 4.

Manistee—The Morton Salt company has purchased the Ruggles-Rademaker salt plant here for \$1,450,000. The Morton bid was the only one submitted. The purchasers took possession December 31. The factory, which was built by the late Charles Ruggles and John Rademaker, the latter a former mayor of Manistee, was said to be valued at \$5,000,000.

Lansing—The largest trout hatchery in the world is now located at Thompson, Upper Michigan. It is owned and operated by the State of Michigan and is devoted solely to the production of the three species of trout native to Michigan streams, brook, brown and rainbow. Approximately 87,000,000 trout eggs can be incubated at the hatchery at one time.

Kalamazoo—Robert Covele, 3-year-old son of Mr. and Mrs. Carl E. Covele, shot and instantly killed himself at the home of his parents. The child found the pistol which Covele is accustomed to keep under his pillow each night. Missing the child, the mother went to the bedroom where she found him with the pistol. As the mother appeared, the child discharged the gun.

Lansing—After an unsuccessful attempt to hold up an oil station north of the city, a lone bandit in a stolen automobile kidnaped Ralph Newman, 17-year-old son of a Lansing fire department captain, and, after robbing him of 35 cents, ordered him out of the car several miles north of the city. As the youth started for a lighted farm house, the bandit fired a shot at him and drove away.

Ann Arbor—Appointment to the secretary of the League of Nations of Dr. John Bell Condliffe, internationally known economist and professor of economics at the University of Michigan for the current year, was announced here. Professor Condliffe will complete courses which he is teaching this year and, on September 1, will begin work studying financial and economic problems for the league.

Lansing—According to word received from President Hoover by Gov. Green the State will obtain an advance of \$2,500,000 in Federal aid highway funds. The money will be

used as soon as it becomes available to expand winter highway activities and relieve unemployment. G. C. Dillman, State highway commissioner, said all the money can be used during the winter months and hundreds of additional men can be employed.

Monroe—The Monroe county jail which was ordered closed December 10 by Governor Fred W. Green because of filth and unhealthy conditions may be reopened until the April election providing these conditions are eliminated. This respite was granted by C. C. Nicolson, secretary of the state welfare commission. The building must be thoroughly cleaned, the interior painted, shower baths put in good condition, windows cleaned and two ventilators installed.

Muskegon—Aud. Gen. O. B. Fuller has notified Treasurer Frank White that Muskegon County is withholding illegally from the State \$8,885 collected in delinquent taxes. Last October the supervisors, on the advice of Prosecutor Joseph F. Sanford, decided to withhold the taxes until the State reimbursed it for \$13,000 which the State owes the county for the care of indigent tuberculosis patients at the county hospital. Mr. Fuller says such action has been held illegal by the State Supreme Court.

Saginaw—Yeggmen blew open the safe in the office at the Jefferson Avenue Methodist Episcopal church and obtained more than \$200 which had been contributed at Sunday service. The combination was knocked from the safe by a sledge hammer stolen earlier from the Sager-Ryan Fuel & Supply Co., where an effort had been made to force open the office. The Rev. Frank L. Stich, pastor, said he heard an explosion about 2 a. m. He discovered the loss about 10 a. m. Nitro-glycerine had been used by the yeggs.

Detroit—Inauguration of interurban service between Detroit and Cincinnati, Ohio, is announced by the Cincinnati & Lake Erie railroad, effective immediately. A running schedule of nine hours and five minutes between the terminals is to be maintained, and fares are to approximate those of motor coaches. The Cincinnati & Lake Erie has been operating electric service between Cincinnati and Toledo for six months, over the longest interurban straightaway in the world, 220 miles. Eastern Michigan Railway lines will be used between Toledo and Detroit.

Jake—I hear Dick is in the hospital.

Pete—Yep. Caught in the rain and tried to economize by not taking a taxicab. Now he's got pneumonia.

Jake—And Tom's in the hospital, too.

Pete—Yep, he took a taxicab.

ELECTRIC CLOCKS TO KEEP EXACT TIME HERE NOW

Master electric control clocks, permitting accurate regulation of a certain type of electrical motors connected with its system, have been installed by the Michigan Public Service Company, according to J. B. Griffin, manager in this district.

The chief significance of this installation is the fact that it assures, when connected on the company's system, accurate performance of the recent type of electric clock known as the synchronous clock. The growing interest in electric time keeping influenced the company to make this addition to its equipment.

Manufacturers have so perfected their machinery and equipment that the impulses sent out by the electric generators can be controlled very accurately. These impulses, sent to the tiny electric motors in electric clocks instantaneously, control the speed of the clock-motors and consequently the speed of the hands of the clock, keeping them in accurate and constant rhythm with the generators.

The master clocks, which permit control of the generators, will be checked daily by radio with Arlington time in order to assure the utmost accuracy.

"One of the surprising characteristics of electric time keeping," the manager explains, "is its almost lack of cost. The motor needed to turn the hands of a clock is so small that it takes very little electricity to operate it. In fact, the cost of operating an electric clock for a year can be estimated in cents."

In case of interruption of electric service, correct time for resetting the clocks will be furnished by the local office of the Michigan Public Service Company.

Pontiac—Damages of \$7,750 were granted in circuit court here against the Big Beaver Bus company, as the result of an accident January 1 last, in which two children were killed and their mother injured. One of the firm's busses was said to have backed on to a sidewalk in Highland Park, striking Mr. and Mrs. Alexander Erick, Detroit, and their children, Betty and Alex. The two children were crushed to death.

Sand Lake—J. B. Gingrich, 28 years old, superintendent of schools here for the last three years, killed himself in the basement of his home after returning from a fire at White Fish lake that destroyed a cottage he owned there. Gingrich, prior to his selection as school superintendent, served three years as principal. He was a graduate of Western State Teachers college at Kalamazoo and was a native of Reed City.

Sault Ste. Marie—A total of 72,897,752 tons of freight passed through the St. Mary's falls canal and Canadian canal in 1930, according to the annual report of lake commerce issued at the St. Mary's falls canal under the direction of Major D. McCoach, Jr., United States army engineers. A decrease of 20,000,000 tons is shown as compared with last year. For the year 1929 the tonnage was 92,622,017 tons. Iron ore took the biggest drop, 17,866,849 tons or 28 per cent.

Potterville—A mother killed herself with poison in this Eaton County village after she had forced her 4-year-old son to swallow poison. The child will recover. Mrs. Reva Rowlander, 35 years old, of Harlingen, Tex., came here recently with her son to live with her sister, Mrs. Iva Welch, teacher in the Potterville school. Mrs. Rowlander had been divorced from her husband and was dependent, the sister said. Mrs. Rowlander leaves another son, who is with his father in Texas.

Mother: "Your face is clean, but how'd you get your hands so dirty?"
Small Son: "Washin' my face."

CARD OF THANKS

We wish to express our heartfelt thanks to our friends, neighbors, and relatives who so kindly rendered services to us, and for the many beautiful flowers sent us in our sad bereavement.

Herman A. Goodman and Family.

CARD OF THANKS

We wish to extend our sincere thanks to the many friends for their kindness during our recent bereavement.

Floyd Peck and Family.

CARD OF THANKS

We wish to express our sincere appreciation of the many acts of kindness extended us by friends during our recent bereavement, and for the beautiful floral offerings.

Mr. and Mrs. Karl Heller

Shooting Affair At Boyne City

BARGE KEUKA SCENE OF BRAWL SUNDAY A. M.

The people of Boyne City were startled Sunday morning when the news broke that Ed. Latham had been shot in a drunken row on the barge "Keuka" about 3:00 a. m., Sunday.

Latham and Bill Allgire have been operating the "Keuka" dance hall for several weeks under an agreement with the owners of the boat. Through the influence of good music a number of the better class of those who enjoy dancing have been turning out. On Saturday night Ellsworth Ballant of Petoskey came over with a lady—some say two. Along about 2 a. m., some of the crowd had become noisy. Ballant had been annoyed, the story goes, because an East Jordanite would sit out dances with his dancing partner. Ballant "called" the transgressor and a quarrel was imminent. Bystanders tried to smooth matters over but without much success; at that time Latham stepped in between the two men attempting to prevent trouble and was shot at close range, the ball entering his stomach. He was rushed to the Petoskey hospital and lies in a critical condition. Ballant made his escape but was placed under arrest by Sheriff Dave Vaughan on Tuesday, and Bill Allgire was placed in jail to be held as a witness. Allgire lives in Ellsworth.

When the facts were reported to Captain Gallagher at Escanaba he ordered the Keuka to be locked up until further notice.

The Keuka has had a full share of criticism since it was converted into a dancing pavilion but has weathered every gale while in charge of Captain Gallagher who is one of the owners. When handled by less competent hands the enterprise suffered severely in the minds of citizens generally.—The Boyne Citizen.

Queen of Arctic

This twenty-four-year-old Eskimo girl was chosen beauty queen of the Arctic from among 24 Eskimo entrants. The coronation of Miss Enosink (Shining Star) was celebrated with a feast consisting of frozen sculpin, a salt water fish, and the queen was presented with a mirror in order that she might survey her prize-winning features. The original of this photograph of the beauty queen was carried 500 miles by dog team.

CITY TAX NOTICE!

Taxes of the City of East Jordan are due and payable at my office in the Russell Hotel on and after Dec. 10th. If paid on or before Jan. 10th, 1931, no collection fee will be added. Thereafter a charge of four per cent will be added.

G. E. BOSWELL, City Treasurer.

DOG TAX NOTICE!

Dog Tax Licenses are due and payable at my office in the Russell Hotel from Dec. 10th, 1930 to Jan. 10, 1931. If tax is not paid before March 1st, an additional tax of two dollars is added.

G. E. BOSWELL, City Treasurer.

Eveline Twp. Tax Notice!

I will be at the East Jordan Lumber Co., Store on Thursday, Jan'y 8th, and at the Advance Store on Friday, Jan'y 9th, for collection of taxes for Eveline township.

MABEL A. HANSON, Township Treasurer.

Possibly
Jones—Why! Brown, your wife has a voice as sweet as velvet.
Brown—Hush, or she will want a dress to match it!

Heat Cheaper Fuel Than Coal Here

This furnace tender in Nez Perce, Idaho, is shoveling wheat into the furnace instead of coal because it is cheaper fuel. Coal there costs \$16.50 a ton and wood \$10 a cord, while wheat, delivered to bins and basements, is only \$9 a ton and it produces an even heat and holds fire as long as coal.

WILSON TOWNSHIP
(Edited by Mrs. C. M. Nowland)

Mr. and Mrs. Hollingshead of Grand Rapids visited Mr. and Mrs. Zell Bricker Friday night and Saturday.

Mr. and Mrs. Peter Boyer and family spent Christmas with Mr. and Mrs. Walter Bowers of Jordan.

Mrs. Clara Slaughter who is caring for Mrs. Hiley Ensign of East Jordan, was home for Xmas.

Mrs. David Shepard who has been quite ill at the home of her daughter, Mrs. Charles Stanek, is some better.

Mr. and Mrs. Claude Shepard and children of Peninsula, Mr. and Mrs. Elmer Hott with son, Gwendon, and mother, Mrs. Arwilda Saunders of Escanaba, and Mr. and Mrs. George Underhill of Boyne City spent Xmas at the home of Mr. and Mrs. C. E. Hott.

Mr. and Mrs. Will Crozier and son, Ed., Mr. and Mrs. Phil Green and family of Boyne City were Sunday visitors of Mr. and Mrs. Will Kort-hase. Croziers spent the evening at the home of Mr. and Mrs. Henry Korthase.

Miss Viva Wells of Detroit is visiting her parents, Mr. and Mrs. Ramsey Wells over the holidays.

Mrs. Roland Bowen and daughter of East Jordan spent the week end with her grandparents, Mr. and Mrs. Ed. Nowland.

Ed. and Miss Esther Shepard were Christmas guests of their uncle, Mr. and Mrs. A. P. Cook of Boyne City.

Mr. and Mrs. Ashland Bowen and John Hott were Christmas dinner guests of the former's brother, J. W. Warden.

Walter Savage is visiting his father Henry Savage of Detroit for two weeks.

Mr. and Mrs. Roy Nowland and daughter, Shirley, and Miss Beatrice LaClair of East Jordan visited his parents, Mr. and Mrs. Albert Nowland, Sunday.

Mr. and Mrs. Matthew Hardy spent Xmas day with their daughter, Miss Ruby, in Petoskey.

Carl Zinek was a Monday visitor of the young folks at the John Martin home.

Mrs. E. G. Kurchinski and baby visited Mr. and Mrs. Ray Nowland, Sunday.

The Consumers Power and Light Company between Elk Rapids and Cheboygan have a crew of 7 men cutting brush under and near their large poles thru Wilson township.

M. B. Wilber and son, Guy, of Wildwood Harbor, Mrs. Frank Clute and family of Tainter Dist., were Xmas guests of their son and daughter, Mr. and Mrs. Milo Clute.

Mr. and Mrs. Curtis Brace and niece were Xmas dinner guests of Mr. and Mrs. Herbert Holland.

Mr. and Mrs. Charles Nowland and niece Pauline of East Jordan spent Christmas with his parents, Mr. and Mrs. Ed. Nowland.

Arden and Ivan Hott of Boyne City spent Monday and Tuesday with their grandfather, John Hott.

Mr. and Mrs. Conn Nowland of Harbor Springs spent a few days with his parents, Mr. and Mrs. Sam Nowland. They leave this week for Marquette, where he will attend Northern State Teachers' College for six months.

Mrs. S. R. Nowland visited her son Ivan and wife, and Louis Garberson and daughter, Miss Viola of Boyne

City, Sunday.

Fred Morton passed away Friday night at a Petoskey Hospital, after a few months illness. Funeral services were at the house Tuesday afternoon. He leaves to mourn his loss, his widow, three sons and a daughter.

Mr. and Mrs. Lester Hardy and children were Xmas guests of her sister, Mrs. Charles Ploughman and family of Hitchcock.

Mr. and Mrs. Eugene Raymond with son, Ernest, and daughter, Miss Nellie, visited his nephew, Earl Gould and wife of Chestonia Monday evening.

Mr. and Mrs. DeWitt Williams spent Xmas with his aunt, Mr. and Mrs. Sidney Thompson of Jordan.

Mrs. John Smith and granddaughters, Bernice and Lorna Savage visited her daughter, Mrs. Pearl Beals of Echo over Christmas.

Mr. and Mrs. Will Anderson and sons, Clarence and Edwin were Xmas dinner guests of their daughter, Mr. and Mrs. Ray Argetsinger of Boyne City.

Ted Ecker, Mail Carrier on R. 1, Boyne City started his rounds with a team and sleigh Tuesday, Dec. 28. He has not missed a day so far this winter.

NORTH WILSON

Mr. and Mrs. Clark Colver spent Xmas with Mr. and Mrs. Victor Peck. Mike Stack left Monday for Elmira to work in a cedar swamp.

Fritz Burdt left Saturday for Muskegon to seek employment.

Miss Ida Colver drove up Wednesday after her father, Milton Colver to take him to visit his sons at Munger and Bay City.

Mrs. Fred Kaden, a teacher at Cheboygan is home for Xmas vacation.

Mr. and Mrs. Fred Benzer of Boyne City spent Xmas with her parents, Mr. and Mrs. Frank A. Behling.

Mr. and Mrs. Harry Behling and daughters, Louise and Marie, visited her parents, Mr. and Mrs. Fred Stanke of Legion Lodge on Intermediate Lake, Sunday.

Miss Eileen Burdt of Boyne City is spending her Xmas vacation with her grandparents, Mr. and Mrs. Fred Burdt.

Mr. and Mrs. Will Behling and children visited her mother, Mrs. Etta Backman of Boyne City, Sunday.

Misses Dorothy and Margaret Behling spent Sunday with their cousins at the home of their uncle, Harry Behling.

Robert Larson Schroeder was badly cut on the nose, while coasting down hill Sunday, running into another bob sled.

PLEASANT HILL

(Edited by Anson Hayward)

Christmas was well spent in our neighborhood as usual.

Henry VanDeventer and family were dinner guests of the A. Hayward family Christmas day.

Harrison Kidder is at the Ann Arbor Hospital for treatment, expects to be operated on Tuesday.

A. Hayward got some sawing done at the VanDeventer mill one day last week.

The Christmas program and tree at the Bennett schoolhouse was well attended, also at Finkton school.

Henry VanDeventer has exchanged cars with the Northern Auto Co., for a Chevrolet.

John Petrie has bought the log timber on the John Murphy farm, the forty belongs to William Murphy, he is cutting and skidding them and intends to haul them soon to the Chestonia banking ground.

Two of our neighbor boys have secured a fox. Quite a few have been seen.

Cutting and hauling wood is what the neighbors are busy at.

John Schroeder is working nights at the East Jordan Foundry.

Sam Lewis and Alvin Ruckie were up to the farm, Sunday.

Mrs. Ruth Taylor and son, Lloyd visited their mother and grandmother, Mrs. John Hawley over Christmas.

Benton Harbor—James Baird killed himself with a shotgun at his home here after striking his wife with a rolling pin. Mrs. Baird was not seriously hurt.

Lansing—Four persons were burned or injured in an explosion and fire here when Glenn Vincent mistook naphtha for kerosene. None were in a serious condition. Vincent poured the liquid in a cook stove to start a fire.

Lansing—Due to comparatively mild weather so far this winter, the state highway department has been able to keep 8,500 men at work on road work throughout the state, as a part of the unemployment relief program. Highway Commissioner Grover C. Dillman reported here.

Grand Rapids—Peter Belen, convicted of stealing a hound owned by George Parrance, was sentenced in Circuit Court by Judge Major L. Dunham to pay a fine of \$300 or serve a year and a half in the Michigan Reformatory at Ionia. Belen said he would attempt to pay the fine.

It's tough times like these that put the "stall" in installment. It isn't only the well dressed man who wears the latest wrinkles in trousers.

SEEKS TREASURE HIDDEN IN TEMPLE

Party to Hunt for Mayan Ruins in Guatemala.

London.—Treasure hidden in a ruined temple is the prize which Dr. Thomas Gann, the archeologist, is organizing an expedition to discover in the Peten district of Guatemala.

The treasure temple, hidden for centuries in the depths of forest and swamp, has until now been little more than a legend of buried gold handed down by generations of Maya Indians; but Doctor Gann believes he knows the site of the ruin and is waiting for permission of the Guatemala government to explore and investigate.

Old stories are told by the Maya Indians of a sealed temple by a lagoon, the doors of which are never open save one day of the year. Then the most courageous Indians are said to carry their offerings of wild turkey and corn into the temple and lay them on the altar stones and retire from the ruin to pray. When they return the offerings are gone, and for each man in his place is a miraculous pile of gold.

Some say that here lies buried the lost treasures of Montezuma, the last of the emperors of Mexico.

An Englishman, John Carmichael, all but stumbled on the temple in 1887, when he was commanding a small force in defense of the British Honduras frontier against the raiding Indians.

Two Peten Indians gave him gold ornaments of great age which they had found in the swamps. Carmichael died in the search for the temple. Doctor Gann has led two expeditions in search of the buried treasure.

Mesozoic Monster's Hide for Washington Museum

Seward, Alaska.—A piece of leather four feet square, two inches thick and like armorplate is being prepared for shipment to the University of Washington museum. It is probably the oldest bit of leather in the world today.

The patch of hide belonged to a great flying lizard that roamed the prehistoric hills of Alaska and whose meat finally became food for bears. It was discovered in a landslide on Cook Inlet by Herman Burkhardt, Los Angeles banker, and his "quitter," Russel Annabot of Anchorage. The creature measured 60 feet long, with a skull 38 inches long.

A piece of its hide and portions of flesh remained where the giant saurian had been overwhelmed by glacier ice in the tundra shales. Such lizards had 40 teeth, each weighing 10 ounces, and ribs five feet long.

The last recorded discovery of a prehistoric creature in Alaska was in 1902 near Nome, where a mammoth with frozen flesh and hide complete was discovered by a gold miner at the foot of his shaft.

Every spring huge tusks and bones of mammoths and other prehistoric creatures are left uncovered along the Yukon, Kuskokwim and other streams in Alaska, where frost action topples over high embankments or floods wash away cliffs.

Scientists have been awaiting the discovery of an entire mammoth preserved in the frozen subsoil along the Alaska rivers or near Kotzebue sound, where the finest fossil ivory is abundant.

Chance Discovery Gives Warning of Sandstorms

Paris.—By chance, three scientists have discovered a means of warning tribesmen, troops and voyagers of approaching sandstorms in ample time to seek shelter.

The scientists erected an atmoradiograph to observe the movements of flying insect hordes through the desert air. One day they detected a peculiar rat-tat-tat noise through the telephone apparatus connected with the instrument. Investigation revealed a sandstorm was rising on the desert. The explorers then produced an improved atmoradiograph, designed expressly to detect approaching sandstorms.

Wires Favorite Jailer for \$50; the Fare "Home"

Los Angeles.—"Please wire me \$50 to come home on stop prefer your jail there to liberty here."

This is the substance of a telegram received by Clem Peoples, county jailer, from Jack A. P. Caylor, Roseburg, Ore., released from the county jail less than three weeks previously after having served a sentence for petty theft.

Peoples intimated that he felt highly complimented at the tribute paid his jail, but up to a late hour he had not sent the \$50.

Northern Veteran Sends Pension to Boys in Gray

New York.—For 15 years A. H. Wray has been sending annually his pension of \$240 to the Confederate Soldiers' home at Atlanta, Ga. He says that he and the other Union veterans are well provided for, and the money could be put to better use by the boys in gray.

\$400,000 for Flowers
Budapest.—More than \$400,000 is spent each year by the citizens of Budapest on the upkeep of the multitudinous flower gardens which adorn the city's parks, streets and boulevards.

PENINSULA

(Edited by Mrs. E. Hayden)

Daniel Reich and A. J. Wangeman are cutting block wood during their vacation.

Mr. and Mrs. F. D. Russell of Ridgeway farm spent Dec. 24th with her parents, Mr. and Mrs. Mose LaLonde in Chaddock Dist. Mr. and Mrs. LaLonde are very comfortable this winter.

Mrs. Alfreda Arnott and daughter, of Lone Ash farm are spending the Christmas vacation with her grandmother, Mrs. J. W. Hayden at Orchard Hill.

The Gleaner election of officers and oyster supper that was to have been held at the Ray Loomis home Monday evening, Dec. 29th, had to be postponed on account of inability to get oysters until the last of the week.

Mr. and Mrs. Ray Loomis and daughter, Miss Pauline, of Gravel Hill attended the funeral of Mrs. Loomis' aunt, Mrs. John Heller in East Jordan Sunday afternoon and spent the remainder of the day with Mrs. Mercy Woerfl, they were accompanied by Mrs. Caroline Loomis.

Mr. and Mrs. Marion Russell and family of Boyne City, and Mr. and Mrs. Richard Russell and family of Breezy Point were guests to Xmas dinner with their parents, Mr. and Mrs. F. D. Russell at Ridgeway farm.

The Misses Juanita and Betty Loomis came up from Detroit with their cousin, Clifton Inmann who came up to spend Christmas with his parents, Mr. and Mrs. Gene Inmann, and are spending their vacation with their grandparents, Mr. and Mrs. Harlow Sweet, at Advance, and Mrs. Caroline Loomis of Gravel Hill.

Mr. and Mrs. Ira McKee of Star Dist., were guests of their daughter, Mrs. Geo. Weaver and family in East Jordan Christmas.

S. Archie Hayden returned to his home in Detroit Tuesday after visiting at Orchard Hill since Thursday.

Walter Staley of Boyne City was a guest over Christmas of his sister, Mrs. Fred Crowell and family at the Dave Staley Hill.

A very jolly dinner party gathered with Mr. and Mrs. A. B. Nicely and family at Sunny Slope farm Christmas.

They were Mr. and Mrs. A. C. Hurd, who are stopping at Sunny Slope; Mr. and Mrs. A. V. Hurd and family of Hortons Bay, Mr. and Mrs. Boyington and family and Mr. and Mrs. Chester McGeorge and family of Boyne City, and Mrs. Will Inmann and daughter, Miss Edna, of Chaddock Dist. Mr. Inmann is one of the bus drivers for the East Jordan Consolidated Schools and had to drive the bus to take the children who wished to go to the show in East Jordan in the afternoon so was unable to be with the family.

Mr. and Mrs. Clarence Mullett and daughter, of Fremont are spending two weeks with Mr. and Mrs. F. H. Wangeman, also A. J., and Miss Katherine, who are attending college at East Lansing.

Miss Eva Beers of Chicago is visiting her parents, Mr. and Mrs. A. J. Beers for some time.

Miss Opal McDonald of Cadillac spent Christmas with her parents,

CENTRAL LAKE

(Edited by Jesse Morse)

Mr. and Mrs. D. N. McDonald, returning to her position, Saturday.

Miss Dorothy McDonald returned to her school duties at Owosso, Sunday, after spending a week with her parents, Mr. and Mrs. D. N. McDonald.

Mr. and Mrs. Orval Bennett and family spent Sunday in Boyne City with Mr. and Mrs. Geo. Papineau.

Mr. and Mrs. Gene Inmann and family of Boyne City, and Mr. and Mrs. Harlow Sweet of Advance, and the Misses Juanita and Betty Loomis of Detroit were guests to Christmas dinner with Mr. and Mrs. Ray Loomis and family at Gravel Hill.

Mrs. Harriett Conyer of Traverse City came Saturday and will visit her father, Geo. Jarman at Gravel Hill part of this week.

Mr. and Mrs. Elwood Cyr and son of Boyne City were dinner guests of Mr. and Mrs. Fred Wurn Christmas.

Mrs. Fred Wurn is still very poorly with an abscess behind her ear and erisipelas in her head.

Will Gaunt of Knoll Krest speared a fine 4 lb. trout Christmas afternoon.

There will be a watch party at Three Bells schoolhouse New Year's eve.

There will be a watch party at the Star schoolhouse New Year's eve.

Miss Viva Wells of Flint visited Mrs. Ralph Gaunt Friday and Saturday.

Mrs. David Gaunt returned home Wednesday, after spending some weeks with her daughter, Mrs. Robert Myers, who has been ill.

Those to share Christmas dinner at the home of Mr. and Mrs. David Gaunt were Mr. and Mrs. Ralph Gaunt and daughter, Mr. and Mrs. Will Gaunt and family of Knoll Krest Mr. and Mrs. Robert Myers and Mr. and Mrs. Clarence Johnston and family. They had a very jolly time.

Mr. and Mrs. Ralph Gaunt and daughter, Annabelle, took their guests, Miss Viva Wells to her parent's home, the Omer Scott farm, Nowland Hill, Saturday evening. On their way they picked up Miss Nita Wells, who is employed at the County Farm, and spent Saturday evening with Mr. and Mrs. Ramsey Wells.

Mr. and Mrs. T. J. Hitchcock of East Jordan called at Orchard Hill Christmas afternoon.

All the school children and some of the parents took advantage of the bus and sub-bus ride Christmas and attended the show in East Jordan Christmas afternoon.

The worst swindler of all is the man who cheats himself.

Thoughtful consideration of others is the short and simple definition of good manners.

The man who thinks he is the whole thing seldom takes the trouble to try and conceal it.

A girl kin make almost as much fuss over a freckle on her nose as a man does over a boil on his neck.

There is no repair shop where a man can go to have his faults mended. He must do his own tinkering.

The needle always makes it a point to go through the work laid out for it, although there are times it finds itself hard-pressed to do so.

A woman never fails to notice the failings of other women.

A woman can keep from showing her age by hiding the family record.

When the airplane Pullman becomes common it will be a serious matter if the porter brushes you off.

ANNOUNCEMENT

Another Step Forward!

Conforming to the Michigan Public Service Company policy of keeping a step ahead of the electrical needs of its customers, we wish to announce the installation of master clock control throughout our system. This installation makes it practical for our customers to make use of the modern electrical clock for accurate time keeping, as the master clock control so regulates the electric impulses by which the electric clocks are controlled, that the time pieces MUST show accurate time.

The installation was brought about, also, by our wish to co-operate with the local merchants who have electric clocks for sale.

Michigan Public Service Co.

WHERE WEATHER MAN ACTS LIKE VILLAIN

It Was Real Hot in Kansas This Summer.

Topeka, Kan.—It has been rather hot all over the United States this summer, but in Kansas the weather man has been acting up like a demon. For instance, Jule Trowbridge is a farmhand in Gove county. He was employed on the farm of Rev. Gerrit Snyder near Gove City. One afternoon he was directed to walk over to some stacks of barley and bring in some equipment. He walked through the barley stubble and his feet kept getting hotter and hotter. He looked down and both feet were actually on fire. The friction of the leather of his shoes on the hot ground and the hot straw of the stubble actually set his shoes on fire. Trowbridge took off his shoes and began fighting the fire in the stubble field. Others came to his aid and when the fire was out Trowbridge was taken to Dr. R. I. Ruttan at Grainfield and his burned feet dressed.

Boiled Goldfish.
The records of the Kansas state fire marshal contain authentic reports of numerous fires in homes caused entirely by sun rays. In one instance the sun rays struck the beveled edge of a mirror and then reflected to the rug and set the rug on fire. In another home a bubble in the glass of a window made a magnifying glass of the spot and set fire to a bed.

W. A. Smith of Snokomo walked into the living room of his home late one afternoon and noted that the gold fish were dead. He reached into the bowl and his hand was blistered. A sun ray had struck the bowl and had literally boiled the fish to death. At least that's his story and he has the bowl but no fish to show for it.

There have been innumerable fires caused by steel getting too hot. Some stacks of hay and wheat have been burned and many fields swept by fire as the result of pitchforks standing in the hay or straw and catching the hot rays of the sun. There are a few instances of where pieces of wire left in stubble fields have become so hot as to set fire to stubble, and there are a few reports of where high and dead grass along fences have been set on fire by the heat of the wires.

Cars Driven Backwards.
It is not an unusual sight to see motor cars of a certain well-known type being driven backwards across the Kansas prairies. The burning sun on the differential on the rear axle had burned out the grease and wrecked the gears so that the cars would not run forward at all. Tourists had to drive home or to the next service station sitting on the dash boards and piloting the car backwards.

But the hot weather has been green for the birds. They got cooked in seats. Motorists driving across the prairies strike grasshoppers and butterflies and other insects in large numbers. The heat of the radiators and the boiling sun cooked the insects. When the cars stopped anywhere the birds swarmed down upon the front of the car and began to eat. Some motorists were kind enough to spread a blanket over the braces and lamps so the birds could pick the insects in comfort and not get their feet burned. Yep, it surely has been terrifically hot in Kansas—as well as other places.

World Needs New Drink, French Diplomat Says

London, England.—The world needs a new drink.

That is the belief of Viscount d'Abernon, famed trade-diplomat and war time chairman of the liquor traffic control board, who recently declared before the licensing commission that not only is a substitute for alcoholic drinks wanted, but a "vast fortune" awaits the inventor of one.

"In view of the fact that alcohol does badly what it sets out to do," declared Viscount d'Abernon before the commission, "also that it is not a true stimulant and that the euphoria (sense of feeling well) it brings is not exempt from injurious reaction, I continue to believe in the concoction of some preferable substitute."

"Not only would the discoverer thereof earn the gratitude of humanity, but a vast fortune would be his as well."

Viscount d'Abernon then gave it as his opinion that the new beverage would have to be appealing to the palate and would have to have effects that would appeal to the drinker more than present-day liquor.

Thirsty Chauffeur Wins Beer Money in Hungary

Budapest.—Ladislav Almassy who, while driving his employer's car, met with an accident resulting in the death of his employer, has won the law suit which he brought against the heirs of his late boss. He claimed that the accident afflicted him with an unquenchable thirst and that unless he used costly preventive medicine he would be obliged to drink from 20 to 25 pints of beer a day.

The court decided "that must not be" and awarded him a pension of \$44 a month.

Spring Uncovered

St. Louis.—Record low water on the Mississippi river due to dry weather in the Middle West, uncovered part of the old levee here, and a spring of bubbling water, which came through the stone paving. Levee hands have used it for drinking purposes.

FOUR NEW NATIONAL FLAGS ARE ADOPTED

Designs Selected by States of the Levant.

Geneva, Switzerland.—Four more national flags have been added to the rainbow of banners which must be kept by all governments and warships to be flown on state occasions.

France carved up the Levant into four sovereign states, under the mandate of the League of Nations. Each has now picked its own flag. The republic of Lebanon adopted the red, white and blue tricolor of France, with the addition of a green cedar of Lebanon in the middle of the white band.

The state of Syria has adopted three green, white and black horizontal stripes, with three red five-pointed stars on the white band.

The flag of the state of Latakia, formerly the state of Alaouites, resembles somewhat that of Japan. It is a golden sun with 11 rays rising out of the center of a white flag. In one corner is a tiny French tricolor and in the other corners are three red triangles.

The government of Jebel Druze has perhaps the gaudiest flag in the world, with five colors worked into a difficult composition. In the top left corner is a red, white and blue rectangle, and the remainder is like the American flag, with stripes. There are five stripes—green, red yellow, blue and white.

Man Bites Dog; Town Breaks into the News

London.—For one brief afternoon the seaside town of Herne Bay broke into the front pages of the London afternoon papers because real news happened there.

In other words, a man bit a dog in Herne Bay. Hundreds of bathers were astonished to see the owner of a dog which had been running about the beach barking and snapping at people, suddenly pick up the dog and give it a good hard bite.

The dog gave one startled yelp and tore off down the beach. A moment later it returned to its owner and docilely trotted at his heels.

"I have tried all sorts of remedies to keep the pup from snapping at people but none of them worked," said its owner. "So I thought I'd show him what it felt like to be snapped at himself. It was a last-measure remedy but it seems to have worked."

Man Seeking to Beat Solomon's Nuptial Mark

El Paso, Texas.—I'm out to beat King Solomon at his own game—the marriage game.

That's what Bruce W. Steele, dashing young El Paso number, says in his ambition. He has just asked the courts to dissolve his fourteenth matrimonial alliance. Of course, he's got a long way to go to overhaul the ancient-wise man—but he's got a fair start.

"Not one of my wives left me because she ceased to love me," Steele brags. "They simply went away because they were jealous of my success with other women."

"Winning women is the easiest thing in the world—once you know how. All you have to do is find out a woman's weakness, play up to that—and you've got her!"

"Executed" Man Observes His 89th Anniversary

Kingston, Mo.—It's a matter of record that E. G. Wallace, who is usually to be seen relaxing in the shade of the courthouse trees here, is dead. But recently he celebrated his eighty-ninth birthday.

Wallace, captured with three other men during the Civil war, was convicted of participation in guerrilla warfare and sentenced to die.

The men were lined up, rifles cracked and they fell forward. Wallace said his companions were dead, but he, unhurt, fell from fright. The execution squad came near and fired a bullet at the head of each man to make certain of death. The bullet intended for Wallace pierced his hat, grooved his skull. The scar remains today as proof of his story.

Seeks Divorce 13 Days After Golden Wedding

Provo, Utah.—Thirteen days after an elaborate celebration of their golden wedding anniversary, Mrs. Francis M. Barney, mother of 14 children, all married, filed suit for divorce. She alleges her husband came home drunk a few days after their fiftieth anniversary party, choked her and threatened to kill her.

Girl Bites Passerby After Dog Bites Her

Berlin.—A young woman who was bitten by a mad dog ran into the streets two hours later and bit and scratched 15 pedestrians in Charlitz, Germania, recently. The hydrophobic woman died. Two of the persons she attacked were in critical condition.

Pony Pushes Baby Cab When Parents Are Busy

Buckinghamshire, England.—While the owner and his wife are busy with other chores, Post Boy, a pony, owned by a farmer, pushes about a perambulator carrying the baby.

Luana Alcaniz

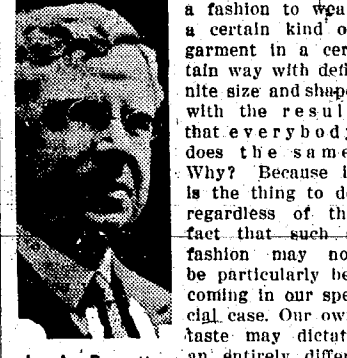

Charming Luana Alcaniz is a native of Madrid, Spain. She moved with her parents to New York at the age of two years, but later returned to Spain, where she received her education. Later the family returned to New York and Luana entered vaudeville. She is a recent addition to the screen, and her first assignment is "On the Make." Luana is 5 feet 2 inches tall, weight 108 pounds, has dark brown hair and green-gray eyes.

For Meditation

By LEONARD A. BARRETT

BE YOURSELF

MOST persons are imitators. We all like to follow the crowd. The appeal of the popular seems to be the line of least resistance. "Everybody is doing it," has become the accepted explanation of present-day conduct. We like to follow the fashions. In proportion that we do so, do we become imitators of some other person's ideas. Somebody or a group of persons starts a fashion to wear a certain kind of garment in a certain way with definite size and shape with the result that everybody does the same.

L. A. Barrett.

Why? Because it is the thing to do regardless of the fact that such a fashion may not be particularly becoming in our special case. Our own taste may dictate an entirely different style, but we do not have the courage to make the venture, because it is not the fashion. We want to be like the crowd. We very seriously desire to follow the crowd. We dare not be ourselves.

It is interesting to note how a certain type of amusement catches the attention and patronage of the crowd. It has become popular because the public supports that particular amusement with its enthusiasm and gate receipts. When popular enthusiasm begins to wane, as it is sure to do if given time enough, we wonder what in the world we saw in it. Our disillusionment leads us to conclude that we really never did find any enjoyment in it, we did what the crowd did, and that may have brought us a sort of satisfaction for the time being, but nothing of permanent value.

While the easier way is to follow the crowd, the harder way is to go contrary to the crowd. We dare not be ourselves. It seems almost impossible to be original.

To do a certain thing because you know it is right, to live in a certain location because it appeals to you, to wear a certain garment regardless of prevailing style because you like it, to say what you think regardless of popular opinion, which is most likely to differ with you, to refuse to appear artificial by using facial cosmetics—is to dare to be yourself. Being original may not win popularity, but it will win real friends who will believe in you and trust you. The most valuable possession you have is yourself. Why sell it to the crowd? "To thine own self be true and it must follow as the night the day—thou canst not then be false to any man."

How It Started

By JEAN NEWTON

"ALIVE AND KICKING"

THIS is an expression that slips lightly off our lips, leaving us utterly unconcerned as to its intrinsic and original import.

At first sight, this phrase would seem to imply simply a certain state of animated existence.

Deeper investigation, however, turns up the interesting discovery that the turn of the expression "alive and kicking" is a direct allusion to the child in the mother's womb after quickening.

That is how it started.

Dry Stack of Hay or Grain Artificially

Excess Moisture Driven Out by Means of Blower.

At a conference held at Purdue university, Indiana, the matter of drying hay or grain artificially was discussed by W. C. Aitkenhead of the department of agricultural engineering. He explained that a stack of hay or grain can be artificially dried in from five to ten hours, depending upon the size of the stack and the amount of moisture contained in the material, by means of a tractor-driven blower forcing air, heated by an oil burning furnace, into a hollow centered stack of hay or grain. He told of having driven out excess moisture from stacks at a nominal cost. The heat was generated by the burner and forced through the stacks together with all the gases of combustion. This was made possible by placing a spark arrester between the furnace and the blower.

Corn in a crib, he explained, can be dried with the same sort of equipment, if a passage for the air is provided through the corn. It was suggested that by drying hay containing a considerable amount of moisture, one can frequently avoid a lot of trouble. This is especially true of the season's first alfalfa crop, which is cured during a time when we normally have a good deal of rain.

Factors in Economy of Producing Good Swine

Swine producers living in the same community usually get about the same price for their hogs. Some swine producers make more money from a given number of hogs than do others even on the same selling price basis. The difference is in the costs of production.

We have a report from an Iowa hog production study, in which 15 farmers averaged to produce hogs for \$6.16 a hundred over a period of three years, says a writer in an exchange. In the same county were 15 other

farmers whose costs averaged \$14.08 a hundred for the same period of time. General conditions of climate and available feeds were about the same for both groups. Feeding methods, sanitation, ventilation, diseases, parasites, and death losses were large factors in determining costs of production. Of these, the lack of sanitary management in its relation to the control of parasites and diseases was one of the largest factors contributing to high costs.

Dry Rendered Tankage Holds Much Protein

A method of manufacturing tankage by what is known as the "dry rendered process" has been developed within recent years. The dry rendered tankage made by this process has a pleasing rather than a disagreeable odor, and is lighter in color than the ordinary steam rendered tankage. Up to the present time practically all the dry rendered tankage produced has been mixed with bone in the manufacture of meat and bone scraps for poultry, but it is claimed in time all but about 5 per cent of the tankage will be made by the new method. Since water, which washes out some of the ammonia, is not used in dry rendering, the tankage produced contains more protein than does steam rendered tankage.

Paralysis of Ewes

Paralysis of pregnant ewes is not common in range ewes, because they do not usually get as fat as the ewes kept on farms and in small bunches. Where small flocks of ewes are kept they may get too fat even though they live only on the waste feed that they pick up about the place. When this condition starts in a flock the amount of feed should be cut down and if the ewes are constipated they should receive a dose of epsom salt's

A Knockout

She (dancing)—How do you like the floor?
He—Just fine.
She—Well, why don't you try dancing on it?

FARM NOTES

Horses and sheep when grazing alfalfa injury the stand more than do other animals because they bite off the young buds at the crown.

A good ration to feed the cockerels is essential if they are to get to market in fewest possible days. A good growing mash should be before them at all times.

At the South Dakota station millet seed was successfully fed to cattle, sheep and hogs, but more grain was required to make 100 pounds gain than when corn was fed.

It is a mistake to crowd 300 pullets into a house sufficiently large for only 100 birds. From three and one-half to four square feet of floor space should be allowed for each bird.

Every precaution should be taken to prevent stagnant pools from forming on the poultry range. These areas often are contaminated and become breeding places for flies and mosquitoes.

Any change in feeding and management of pullets should be made before production starts. Pullets beginning to lay without sufficient size and weight are likely to quit and molt soon after production commences, college specialists say.

Anyhow

A hostess asked her guest whether she had found some soap to use in the bathroom.
"Oh, yes," was the reply. "I used that gray soap I found on the shelf."
"Heavens," exclaimed the hostess, "that was the flea soap."

Wrong Place

"Do you think the candidate put enough fire into his speech?"
"O, yes. The trouble was he didn't put enough of his speech in the fire."

A Little Improvement on Nature

MAYBE the finest grapes do hang the highest. Maybe the sweetest nuts are the hardest to crack. Maybe every rose does have its thorn.

But—the best merchandise, the best values, the best buying opportunities, are the ones that are the easiest to discover today.

This little improvement on nature can be credited to the advertisements that appear in your paper. Their function is to make the best pianos and the best cigarettes and the best automobiles widely known and easily obtainable.

The very nature of its job has helped advertising to succeed. Everybody likes good news. And advertisements tell all of us how and where we can get the very best of the things that we want.

When it comes to deciding on your purchases, the easiest way is also the best one. When you follow the advertisements, you get the soundest values, the most improved merchandise and the greatest satisfaction for the money you spend.

IT PAYS TO READ THE ADVERTISEMENTS

NEW YEAR'S PLANS

With the dawning of another New Year comes the renewing of hopes and ambitions and the making of plans for a happier and more successful year than the one just past.

Your plans will not be complete unless you make provision for a definite and regular scheme of saving.

If you saved last year, save more during the coming year. If you did not save last year, stop at this bank and get a pass book then deposit something on your account every week.

"The Bank With The Chime Clock."

Briefs of the Week

Thomas Whiteford left Sunday for Flint to seek employment.

Harold Whiteford was home from Flint for the Xmas holidays.

Miss Muriel Sonnabend was home from Petoskey for Christmas.

Dr. E. J. Brenner is spending a few days with friends at Crosswell.

Mr. and Mrs. W. A. Loveday are spending the holidays in Lansing.

Mr. and Mrs. W. H. Fuller have gone to Traverse City for the winter.

Mr. and Mrs. C. F. Johnson of Alma are here visiting at the home of their daughter, Mrs. C. F. Snellenberger.

Dance at the Workmen's Hall, Bohemian Settlement, Saturday, Jan'y 3rd. adv.

Mr. and Mrs. Leonard Dudley are visiting relatives at Larsing and Plymouth.

Dr. and Mrs. B. J. Beuker visited their daughter, Margaret, at Grand Rapids last week.

Born to Mr. and Mrs. Marcus Neilson of South Arm township, twins, a boy and a girl, Tuesday, Dec. 22nd.

Mrs. Hazel Harrington with children came up Wednesday from Flint for a visit with her parents, Mr. and Mrs. Jos. Cummins. They were accompanied by Roy Ruddock who visits friends in East Jordan.

Harold Price was here Wednesday from Traverse City for a visit with his grandparents, Mr. and Mrs. Martin Ruhling. He leaves this Saturday to attend the M. S. C., at East Lansing. Enroute he will visit his mother at Jackson.

Married at the M. E. parsonage on Wednesday evening, Dec. 31st, by Rev. James Leitch, Aubrey L. Block and Miss Verda Shearer, both of Charlevoix. They were attended by Mr. and Mrs. Harold F. Stueck of East Jordan.

Robert H. Davis of East Jordan and Mrs. Ida Hayner of Wilson township were united in marriage at her home, Monday evening, Dec. 29th, by Rev. C. W. Sidebotham. They were attended by Mr. and Mrs. Chas. Shepard. Their many friends extend congratulations.

Announcement is made of the marriage of Miss Agnes White, daughter of Mr. and Mrs. Thomas B. White of Cedar, Mich., to Arthur J. Reynolds of Ypsilanti, at the home of the bride's parents, Saturday, Dec. 27th. Mr. and Mrs. Reynolds are on a wedding trip in the East. They will make their home at Ellsworth, where Mr. Reynolds is Superintendent of the public schools. Mrs. Reynolds was an instructor in the East Jordan schools last year.

The New Tavern Hotel, under the management of Louis VanSkiver for a number of years, closed its doors last Tuesday. Mr. VanSkiver moving to Traverse City where he has leased a rooming house. As a result Central Lake will be without its leading hostelry. Lack of business the past year has prompted Mr. VanSkiver in locating in Traverse City. From now on Central Lake will have one hotel, The Farm Hotel, which will endeavor to take care of the winter trade.—Central Lake Torch.

Some clever crooks stole \$251.00 from the safe of the Co-operative Company of Boyne City, Wednesday or Thursday night and left no clue as to their identity. They unlocked the safe, took the currency and left the silver and checks. How they got in the office has not been explained. The insurance policy will fully cover the loss. During the Christmas time the Alton Schurer Sales Rooms at Gaylord was also robbed and considerable money was taken.—Boyne Citizen.

One of the most disastrous fires experienced at Charlevoix in recent years completely destroyed the factory building of the Charlevoix Lumber Company last Thursday morning. Cause of the blaze, which started on the ground floor of the structure around midnight, is not known. Firemen fought the stubborn blaze for nearly ten hours before finally bringing it under control. Loss to machinery and material has been placed at approximately \$7,000, partially covered by insurance. Loss on the building is not known.—Charlevoix Courier.

We are pleased to report a marked improvement in the health of Miss Jessie Metz, who has been seriously ill of valvular heart trouble for several weeks past. The many beautiful and delightful gifts of fruits, flowers, and other delicacies and mementoes proffered by her friends, Mr. and Mrs. Joe Kenny, Mr. and Mrs. Richard Lewis, Mr. and Mrs. Benj. Smatts, Mr. and Mrs. John Cooper, Mike Kowalske, Mr. and Mrs. Ed. Kowalske, Mr. and Mrs. Joe Whitfield, Mr. and Mrs. G. Jensen, Mr. and Mrs. Frank Addis, Mr. and Mrs. Dan Swanson, Mr. and Mrs. Earl Danforth, Mrs. Nelson and Mrs. Lawton have brought her much joy and happiness.

Marshall Shepard underwent an operation at Petoskey Hospital, Monday.

Get the habit—tell the Editor of your visitors of the visits that you make or other items of local interest.

Mr. and Mrs. Walter Cook of Montague were called here to attend the funeral of his sister, Mrs. John Heller.

Miss Isabelle Kitaman of Wyandotte came Thursday for a visit with her parents, Mr. and Mrs. G. W. Kitsman.

Mr. and Mrs. Ralph Clark returned to East Dearborn, Saturday, after a short visit here with his parents, Mr. and Mrs. E. H. Clark.

Mrs. Frank A. Kenyon of Mackinac Island, who has been ill for some time, entered Petoskey Hospital last Friday for treatment.

Harold and Miss Ruth Clark were home for the holidays from East Lansing for a visit with their parents, Mr. and Mrs. E. H. Clark.

Mrs. Alfred Thorsen and Mrs. Marvin Benson and son were guests of Mr. and Mrs. Fenton Bulow at Charlevoix last Saturday.

Try a Herald Classified Ad.

If anything in life is divine, it is human nature. Trust it.

Runaway horses are headed off by policemen, but there's no known way to stop a woman who starts out ahead of the usher down a dark theatre aisle.

OUTSIDE SHOW

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

We were window-shopping in Paris, having nothing better to do after dinner, and as we strolled down the boulevard we were trying to pick out a suitable place to spend our money when the shops should open in the morning. We were very much attracted by one of the huge magazines, or department stores. The building was new, with an attractive facade, which made a rather striking appearance, the window display had been well managed; we were interested by what we saw, and determined to come back in the morning and look inside. We were disappointed when we saw inside the establishment. Things seemed cheap, common, second class, badly selected and badly displayed. Apparently everything that was worthwhile had been put into the windows. There was nothing to back up the outside show. It was like a man who has an appealing appearance, but when it comes to the show-down, reveals no brains.

Perkins dressed well, talked fluently, and his great figure towered above the crowd whenever he came into a public assembly. Nature had given him as attractive a facade as that of the department store in Paris. Whenever he came into a group of strangers everyone immediately began asking, "Who is that fine looking man? He surely is a person of some distinction."

No one ever started a conversation when Perkins was about that he did not immediately take the subject out of the speaker's mouth and run away with it. He had an abundance of words; he could make a most amazing show, but when one analyzed what he had to say there was no substance to it. Everything Perkins had was in the show window. There was no reserve stock of any consequence. He was like a boy I knew once in Iowa. He had developed a curiously beautiful penmanship and took considerable delight in exhibiting his skill. His teacher looking over the boy's shoulder one day as he was flourishing his pen remarked:

"You certainly have a beautiful penmanship, John. Now, if you only knew something to write!"

It was all in John's show window. There are a great many wealthy people in Honolulu. Vast fortunes have been accumulated there within the last fifty years, and yet there is very little display. They don't put any extravagant display in the show windows, so to speak. The gardens are beautiful and spacious, but the houses are modestly built.

"Are there no wealthy people here?" a millionaire from New York who was visiting Hawaii, once asked.

"There are many," was the reply, "but they have never yet realized the necessity of advertising the fact."

There is no objection either in business or in life to making a modest display of the goods one has in stock. A good front page, a well-arranged show window, an attractive personal appearance, are quite to be encouraged, but the show window should give an honest indication of what is within.

MEN'S CLOTHING DEPARTMENT

- Six Overcoats left, choice at 1/2 price, regular price—\$15.00 to \$25.00.
- Two Sheep-lined Corduroy Coats, \$8.25 each.
- Boy's heavy flannel Lumber Jack, \$2.59, worth up to \$4.75.
- A few suits of 100% Wool Underwear, size 38, former price \$5.00, now \$3.39.

EAST JORDAN LUMBER COMPANY STORE

Wife: Well, dear, have you found a job yet?
Hubby: Yes, dear, you go to work tomorrow.

Waiter: Were you kicking about the flies in here?
Patron: No, I was just knocking them about with my hand.

Life writes the history upon the face, so that all those who have had a like experience read and understand.

Sweet Young Thing: Stop! My lips are for another!
Fresh Young Man: Well, hold still then and you'll get another.

She was only the optician's daughter—two glasses and she made a spectacle of herself.

A tree is not always to be judged by its fruit. Very much good in this world is based on bunk, and very much bad is the result of righteous intention.

Free Postal Service
Annual receipts from individual post offices range from less than \$10 to more than \$50,000. To secure free mail delivery a city must have a population of 10,000 and show annual receipts exceeding \$10,000. The first free delivery was inaugurated in 1863 and by 1885 was extended to all cities of 50,000. Today half the population is thus served.

BABIES SHUNNED IN HECTIC CITY LIFE

Births Show a Decline of 78,063 in Year.

Washington.—There is a premium on babies in the United States. Last year 78,063 fewer children were born than in 1929, bearing out a theory which has become yearly more pronounced since 1921, the vital statistics division of the Commerce department reports. And this, according to Dr. T. F. Murphy, chief statistician of the division, is the price of modern social standards which move Americans to settle in cities, to share, man and wife alike, in the rigors of earning a living and to practice the principles of birth control.

To no one of these factors, nor to all combined, however, would Dr. Murphy attribute the declining birth rate which last year alone reduced the number of babies born in every 1,000 of population from 19.7 in 1929 to 19.

Due to Many Factors.

The cause underlying the surprising trend is much more complex and due to a combination of factors so involved as to become almost impossible to interpret, he believes.

He thinks that America's restrictive immigration laws are in a large measure responsible, citing statistics to show that the birthrate has always been higher among the immigrant class, the foreign-born population.

Doctor Murphy observes also that Americans are marrying later in life than in the days of the nation's youth, and that the number of marriages are decreasing year by year.

"We are becoming a nation of cliff dwellers," he said. "People are leaving the rural districts and going to work in the cities. They marry, both members of the union continue to work for a living, and there is neither time nor always the inclination to raise a family."

Results Felt in Schools.

According to the United States officers of education, the results are felt in the schools. Communities which are increasing in population are showing actual decreases in the number of children in the lower grades, the office reports.

In all but four of the states, Arizona, Michigan, Montana and Tennessee, the number of births was smaller in 1929. The greatest decrease for any one state was in Pennsylvania, where 11,245 fewer births were reported. Florida, with a decline of 9.8 per cent, reported the greatest percentage decrease.

Violet Light Expert Finds Remedy for Crime

Chicago.—A defense against forgeries is reported by Dr. A. J. Pacini, expert in ultraviolet light. To Dr. Clarence Muehlberger and the heads of the crime detection bureau of the Northwestern university, he said:

"If a business executive makes a rule of using a few drops of a particular chemical solution in the ink with which he signs all of his important documents, the fluorescence or glow peculiar to that solution will always be visible in the signature when it is placed under ultraviolet light. A forgery of that man's signature, on the other hand, would reveal an absence of this characteristic and the signature would be branded indisputably as a fake."

Find Strange, New Sect Known as "Tremblers"

Bucharest, Rumania.—There was recently discovered at Veresti, in the Botolani district in Rumania, a strange new sect styling itself the "Sect of the Tremblers." Its leader gives himself the title of patriarch. It has not many adherents. At their meetings the members lie flat on the ground trembling continually; they believe that they are able to shake off their sins in this way. They have assemblies twice a week at which they weep for many hours.

Oldest Soldier

London.—Sergt. William Brerton, ninety-two, Britain's oldest soldier, joined the army as a drummer boy in 1858, lived for months in India on salt junk and biscuits after a four months' journey on a sailing ship, and received two pence a day for "real fighting with bayonets all the time."

MICHIGAN BELL HEAD ANNOUNCES PLANS FOR 1931

PRESIDENT FORAKER SAYS YEAR'S EXPANSION IS ENGINEERED ON BASIS THAT CONDITIONS WILL IMPROVE

NEW PLANT PLANNED WILL APPROXIMATE \$22,800,000

MAINTENANCE AND OPERATION WILL COST LIKE AMOUNT. PROGRAM ADDS MATERIALLY TO INDUSTRY OF STATE

The Michigan Bell Telephone company has planned for 1931 an expenditure of approximately \$22,800,000 for new construction, Burch Foraker, president of the company, announces. This work has been engineered on the basis that business and industrial conditions will improve as the year 1931 advances.

The contemplated expenditure will be made from new capital, entirely for new plant and equipment, Mr. Foraker said, and he expects the program will be followed unless conditions unforeseen arise.

In addition to the construction expenditures for new telephone plant planned for 1931, there will be spent approximately \$22,800,000 for maintenance and operation of the company's service in Michigan, making total expected expenditures of approximately \$44,600,000.

The telephone program engineered for the year includes the completion of new buildings at various points, construction of additional long distance lines and cable, and installation of considerable dial central office apparatus and other exchange equipment, for the purpose of extending facilities and further improving the present high grade of service.

Building construction planned for 1931 will cost, including sites, \$1,000,000, and new central office and subscribers' telephone equipment will cost \$14,400,000.

New exchange plant expenditures planned will total \$6,140,000, including \$1,125,000 for pole lines, \$1,592,000 for aerial cable, \$1,052,000 for aerial wire, \$685,000 for underground conduit, and \$1,686,000 for underground and aerial cable.

Long distance telephone plant construction projects contemplated total \$1,000,000, including \$300,000 for additional circuits in stormproof cable.

Material requirements for the year under this program will include 44,000 poles, 500,000 pounds of bare copper wire, 3,400,000 feet of wire strand, 1,117,000 duct feet of clay conduit, 25,500 crossarms, and 1,561,000,000 conductor feet of wire in cable.

It is planned to place new central offices in service during 1931 at Saginaw, Benton Harbor, Big Rapids, Detroit, Seestville, and Escanaba. Large additions to local exchange facilities are engineered at many points, among them being Detroit, Ann Arbor, Battle Creek, Grand Rapids, Jackson, Kalamazoo, Lansing, Ypsilanti, Bay City, Saginaw and Marquette. Among the long distance facilities projects under consideration are the building of a cable between Saginaw and Reese, and completion of that now under construction between Grand Rapids and Big Rapids.

The Michigan Bell company now has 678,000 telephones in service, of which 292,000, or 42.75 per cent, are dial-operated. A net gain of 25,000 in the number of telephones in service is anticipated during the next twelve months.

Burch Foraker

President of Michigan Bell Telephone company announces expansion program for 1931.

"Why did McTavish give up his job?"
"His wife bought him a ten dollar lounging robe."

SALVAGING GERMAN FLEET EXPENSIVE

Six Years and \$2,000,000 Spent in Work.

London.—Eleven years ago the huge German fleet, still proud in defeat, rode the waves in Scapa Flow.

It was a pleasant sight to British admiralty eyes. The fight had been hard. The spoils of victory would be sweet.

Then suddenly one of the battle cruisers lurched forward and began settling into the sea. Others followed and before the astonished eyes of British seamen the fleet disappeared below the waves.

The Germans had opened the sea-cocks. They had scuttled their craft as a last act of defiance.

Offer is Accepted.

After recovering from their amazement the admiralty officers turned their thoughts and energies to having the ships salvaged.

Veteran shipping men and others contemplated the task, but made no bids. Year after year the ships lay snugly in Davy Jones' locker. When the admiralty had all but abandoned hope of realizing on their victory, E. F. Cox, in his late thirties, made an offer. It was quickly accepted.

Then Cox began a task which has been watched with interest by the shipping world because of the many difficult obstacles that lay in the path of success.

Gathering around him some of the best engineers and divers in Europe, Cox directed the work to date, and has resulted in bringing to the surface, later to be junked, three battle cruisers, one battleship, one light cruiser and twenty-five destroyers.

Although he knew comparatively little about salvage operations, Cox realized he needed more than the usual equipment and purchased the submarine floating dock the Germans had used, which he used in raising the destroyers.

One of the most difficult tasks in the entire operation, it is said, was that of closing all deck and hull apertures left open when the fleet was scuttled.

Determination Wins.

Cox's determination was displayed while attempting to salvage the battle cruiser Hindenburg, weighing 28,000 tons. After months of hard work it had been raised to the surface, but developed a dangerous list and had to be dropped back again to the ocean floor.

Later, in order to counteract this list, Cox's workmen built onto the Hindenburg's side a block of concrete weighing 9,000 tons. On being refloated she developed a starboard list. Once more the cruiser was dropped and another concrete block was built. This time the Hindenburg floated.

Six years have passed since Cox began his operations. His firm has spent to date more than \$2,000,000. The profits are not known.

Sun Fires Tar Barrel, Blast Maims Worker

Minneapolis, Minn.—Thrown skyward when a tar barrel on which he was standing exploded in a freak blast, Clifford Palm, employee of a sheet metal company, suffered two broken legs.

Palm was standing on the barrel in order to reach a weld spot, working with a torch. The barrel, empty of tar except for that clinging to its sides, stood in the sun. The heat of the sun created fumes and gases filled the barrel.

A spark from the welding torch probably ignited the gases, which caused the explosion.

Outcrop of Gold Ore Is Found on Virginia Farm

Staunton, Va.—Gold mining in the Shenandoah valley, though never practiced extensively, may be revived if ore deposits on a grazing farm, five miles east of Elkton, owned by John A. Hensley, are found in sufficient quantities to make profitable the mining of the mineral.

According to reliable information, an extensive outcrop of gold ore, the first deposits found about a year ago, has been discovered on this farm, and after being assayed by government chemists is found to constitute a high-grade sample of the metal.

Fire Breaks Out While Arson Jury Is Examined

Preston, Idaho.—While officials were choosing a jury for the first arson case tried here in 35 years, fire started in the Preston Chamber of Commerce rooms, where the temporary courtroom was established. Spectators and prospective jurors were driven hurriedly from the building, and the flames raged for an hour before they were extinguished. The court had to be moved elsewhere.

Dried Pig Stomach a Cure for Anemia

Paris.—The stomach of a pig, dried and pulverized, has been found to be an effective treatment for pernicious anemia. The French Academy of Medicine has studied the new cure, which it pronounced to be as good as the feeding of raw liver to anemic persons and much more agreeable to take.

Presidential Qualifications

Anyone may become President of the United States who is native born, not less than thirty-five years of age, and who has been a resident of the United States for fourteen years preceding his election. The Constitution sets down these requirements. No limit as to the number of terms is stated, although none have exceeded the two-term precedent of Washington. (© 1930, Western Newspaper Union.)

Andy: I had an awful time with Amos last night.
Kingfish: Amos who?
Andy: A mosquito.

Biologist: Why is a mosquito ungrateful?
Anatomist: Because he bites the hand that feeds him.

The wise man does a lot of listening.

Heckler: "My wife is always making me eat my words."
Peckler: "You're lucky. Mine is always making me eat spinach."

Prof: Jack is certainly a steady boy, isn't he?
Jack's Boss: If he were any steadier, he wouldn't even move.

He: I love you as I've never loved anyone before.
She: That's a heck of a reason.

2 Meals Day, Plenty Water, Helps Stomach

"Since I drink plenty of water, eat two good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForest.

Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel!—GIDLEY & MAC, Druggists. adv.

SEVERE COUGHING SPELLS QUICKLY ENDED.

Distressing coughs can not tire out and weaken you this winter if you take genuine Foley's Honey and Tar Compound. Each dose carries the curative balsamic virtues of pure Pine Tar, fresh demulcent Honey, together with other valuable cough-healing ingredients, into direct contact with the irritated throat surfaces, ending the distressing coughs. Sedative and comforting without opiates or harmful chloroform, mildly laxative. Dependable for coughs, tickling throat, croupy and bronchial coughs, and troublesome night coughs. For Sale at Hite's Drug Store. adv.

Explanation
"So you were in the hospital three months! Must have been pretty sick!"
"No; pretty nurse."
"Pa," said the kid, "what is dictation?"
"It's what a man gives his stenographer and takes from his wife," growled his dad.

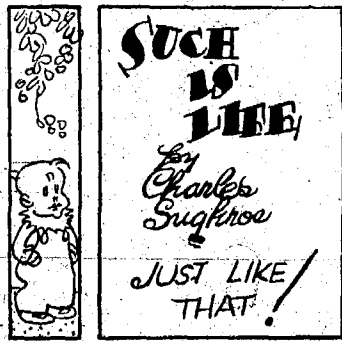

Sign of Progress . . .

BETTERMENT. That is the watchword of American progress. As a nation we are not content to stand still. We want better foods, we want newer and better ways of doing things, labor-saving devices, short-cuts. We want more comforts and luxuries for our homes. We want better automobiles at lower costs. We want better houses, better stores, better means of transportation. We want to dress better and to play and enjoy ourselves more.

Progress is reflected by the advertising found in the newspapers. It is through advertising that we first learn of the newest methods, the newest of everything. Advertising is the sign of progress and often the source of it.

Read the advertisements in the newspapers. Study them. Profit by them. They will help you secure what you need and want for less money than you often expect to pay. Keep up with the advertising and advertising will help you keep abreast of the times. For advertising supplies new ideas, new methods, and new inspirations to a work-a-day world. Advertising is not only the sign of progress—advertising is progress.

Be progressive . . . keep in touch with the advertisements in this newspaper . . . it will be well worth your while.

Parachute Jumpers Must Carry Spares

Washington.—Individuals making parachute jumps for exhibition, testing, training or demonstration will be requested to wear an auxiliary parachute, under a new amendment to the air commerce regulations announced today by Clarence M. Young, assistant secretary of commerce for aeronautics. The amendment becomes effective August 1, 1930.

"The auxiliary parachute must be so arranged that it can be operated in the event the first parachute either fails to function or becomes fouled on any part of the plane or body of the jumper," Mr. Young said. "While it is common practice for parachute jumpers to carry an auxiliary parachute, there have been times in the past when this has been neglected."
